THE  
WONDER  
YARN

## *Subsistence Is Sustainable*

'The Wonder Yarn', founded in 1992, is a sustainable yarn produced by recycling used PET bottles. This has helped the company to get to an international presence with its progressive ideology and technology. We are in line with the United Nations Conference on Sustainable Development – a document that contains clear and practical measures for implementing green economy goals in the context of Sustainable Development Goals (SDG). While meeting these Sustainable Development Goals (SDG), we have, until now, consumed sustainable fibre that can be roughly equated to over 116 million Used PET (Polyethylene Terephthalate) bottles.

Since 1992 used in wide range of Applications
