# India's Dairy Industry: Poised for Significant Growth

Indian Dairy market size  
(in Bn dollars)

Steady growth in milk production and  
per capita availability

Unorganized to Organised shift

- India the largest milk producer by contributing 23% of global milk production
- Huge availability of milk in the country boosts the production of value-added and processed products.
- Government impetus - National Action Plan for Dairy Development (NAPD), National Programme for Dairy Development (NPDD), Interest Subvention on Working Capital Loans for Dairy Sector.

- ~40% of milk sales are handled by the organized sector, while 60% is managed by the unorganized sector.
- In contrast, developed nations process around 90% of surplus milk through the organized sector.

# Shifting Towards VAP: Unlocking New Growth Opportunities

Says Mohit Makhija, Senior Director, CRISIL Ratings, “Amidst modest growth of 2-4% in realisation, the dairy industry’s revenues are seen rising on healthy 9-11% growth in volumes. VAP segment - 40% contributor to the industry revenues - will be the primary driver, fueled by rising income levels and consumer transition towards branded products. Rising sales of VAP and liquid milk in the hotels, restaurants and cafes (HORECA) segment will also support the revenue growth.”
