4.6	Gold 4.6.1 Price Outlook 4.6.2 Domestic Scenario	22

1. **SURVEY AND EXPLORATION**

In the Ministry of Mines, GSI and MECL carry out regional exploration and detailed exploration respectively: -

1.1 Geological Survey of India (GSI)

Minerals Investigation: During the month of **May 2025**, **105.2 sq. km** of Large Scale Mapping (LSM), **8.59 sq. km.** of Detailed Mapping (DM) and **13797.29 m** of **Drilling** were carried out against monthly pro-rata targets (*) of 0 sq.km., 0 sq. km. and 7,250 m, respectively.

Regional Geological Mapping Investigation: **71 sq. km** area was mapped under Specialized Thematic Mapping (STM) (on 1:25,000 Scale) against a monthly pro-rata target of 0 sq. km.

() Target based on outcome budget of 2024-25.*

1.2 Mineral Exploration and Consultancy Limited (MECL)

The physical performance i.e., exploratory drilling during the month of May 2025, is 36,518.58 meter which include 2,930 meter of non-ferrous minerals (including NMET& Contractual blocks).

During **May, 2025**, regional and detailed mineral exploration activities were carried out for 15 numbers of mineral acreages entailing G4/G3/G2 level assignments under NMET funding.

Geological report submitted during the month April, 2025: During the month, MECL has submitted Geological reports for Non-ferrous minerals from NMET funding project.

Exploration work was ongoing in 35 projects blocks for non-ferrous minerals and metals at various levels (G4/G3/G2) funded by NMET

MECL has been actively engaged in regional and detailed exploration and consultancy services for strategic and critical minerals. This month, exploration activities were carried out in 26 blocks, covering minerals such as Graphite, Rock Phosphate, Potash, Tungsten, Glauconite, and Rare Earth Elements (REE).

Additionally, MECL has been providing technical consultancy services for the auction of critical minerals. In this regard, to finalise the blocks for the 6th tranche, a list of 25-30 blocks has been shared with State Government for completing the requisite checklists.

2.

PRODUCTION SCENARIO OF MCDR MINERALS

The estimated value of mineral production covering metallic-ferrous and industrial minerals, but excluding fuel minerals, minor minerals and atomic minerals is Rs. 13,920 crore in **May, 2025** the same as Rs. 13,359 crore in May, 2024. The value of mineral production (estimated) for the period 2025-26 (April-May) is Rs.27,267 crore, as against Rs 26,190 crore during the corresponding period of 2024-25.

A mineral wise analysis is as follows: -

2.1 Production of Minerals: Metallic Minerals

Quantity in Million Tonne; Value in Rs. Crore

Minerals	Current Month		Cumulative Previous Year		Cumulative Current Year		% Growth in Qty. 2025-26 (April)	% Growth in Value, 2025-26 (April)
	April, 2025		2024-25 (April)		2025-26 (April)			
	Quantity	Value	Quantity	Value	Quantity	Value		
Bauxite	2.13	268.93	1.87	178.54	2.13	268.93	13.64	50.62
Chromite	0.18	289.99	0.32	529.52	0.18	289.99	-42.48	-45.23
Copper Conc.	0.01	76.39	0.01	120.50	0.01	76.39	-32.09	-36.60
Gold (total)	0.00000012 (115 Kg)	105.56	0.0000001 (122 Kg)	87.00	0.00000012 (115 Kg)	105.56	-5.74	21.33
Iron Ore	26.19	9634.48	26.34	9257.01	26.19	9634.48	-0.57	4.08
Lead Conc.	0.028	214.62	0.03	212.62	0.03	214.62	-9.83	0.94
Manganese ore	0.322	271.97	0.32	229.77	0.32	271.97	-0.13	18.36
Zinc Conc.	0.141	878.32	0.13	690.27	0.14	878.32	5.84	27.24
Other met. Minerals	**	434.04	**	455.86	**	434.04	**	-4.79
Total Metallic	**	12174.30	**	11761.10	**	12174.30	**	3.51%

**Not additive, Source: IBM, Note: The list of MCDR metallic minerals (10) are Bauxite, Chrome ore, Copper ore, Gold, Iron ore, Lead, Manganese ore, Zinc, Tin and Silver as by product.

- In value terms, production of metallic minerals such as Bauxite, Gold, Iron ore, Lead conc., Zinc conc. and Manganese ore in table above registered positive growth rate in 2025-26 (April) over 2024-25 (April).
- Iron ore accounted for 72.2% in total value of MCDR mineral production in 2025-26 (April). Iron ore along with Bauxite, Chromite, Copper concentrate, Lead and Zinc conc. and Manganese ore accounted for 87.2% of value of mineral production in 2025-26 (April). For these minerals average value per tonne (Rs) is given in following table:

Average value per Tonne (Rs)

Minerals	2024-25 (April)	2025-26 (April)	% Change
Bauxite	952	1,262	32.54
Chromite	16,473	15,686	-4.78
Copper Conc.	1,17,056	1,09,271	-6.65
Iron Ore	3,514	3,679	4.67
Lead Conc.	69,399	77,692	11.95
Manganese ore	7,128	8,448	18.51
Zinc Conc.	51,767	62,234	20.22

2.2 Production of Minerals: Non-Metallic Minerals

Quantity in Million Tonne; Value in Rs. Crore

Minerals	Current Month		Cumulative Previous Year		Cumulative Current Year		% Growth in Qty. 2025-26 (April)	% Growth in Value, 2025-26 (April)
	April, 2025		2024-25 (April)		2025-26 (April)			
	Quantity	Value	Quantity	Value	Quantity	Value		
Diamond*	753	9.08	283	1.47	753	9.08	166.08	518.64
Garnet (Abrasive)	0.0011	0.45	0.001805	0.46	0.0011	0.45	-40.83	-1.56
Lime shell	0.0000	0.00	0	0.00	0.0000	0.00	0.00	0.00
Lime stone	40.05	1072.42	39.582	1017.75	40.05	1072.42	1.19	5.37
Magnesite	0.008	2.80	0.010287	3.86	0.008	2.80	-21.25	-27.53
Phosphorite	0.097	81.15	0.159148	36.08	0.097	81.15	-39.01	124.92
Sillimanite	0.000018	0.01	0.000065	0.02	0.000018	0.01	-72.31	-63.37
Wollastonite	0.010	1.57	0.009951	1.48	0.010	1.57	-3.33	6.59
Other non-metallic	**	5.44	**	8.31	**	5.44	**	-34.62
Total Non Metallic	**	1172.92	**	1069.43	**	1172.92	**	9.68%

*Quantity in crt; ** Not additive; Source: IBM, Note: The list of MCDR Non-metallic minerals (21) are Asbestos, Apatite, Phosphorite/rock phosphate, Diamond, Garnet, Graphite, Kyanite, Limestone, Limeshell, Magnesite, Sillimanite, Selenite, Vermiculite, Wollastonite, Fluorite, Flint stone, Marl, Moulding sand, Sulphuras by product, Salt and Siliceous Earth.

- In value terms, among non-metallic minerals in table above, Diamond, Limestone, Phosphorite and Wollastonite registered positive growth rate where as Garnet, Magnesite and Sillimanite registered negative growth rate in 2025-26 (April) over 2024-25 (April).

2.3 Estimated value of minerals production covering metallic and non-metallic minerals other than atomic, fuel and minor minerals

Value in Rs. Crore

Year Month	2023-24	2024-25	YoY % Change	MoM % Change
All Minerals				
April	12808	13347	4.2	-4.5
May	13359	13920	4.2	4.3
Metallic Minerals				
April	11745	12174	3.7	-4.4
May	12195	12640	3.7	3.8
Non-Metallic Minerals				
April	1063	1173	10.3	-6.0
May	1164	1284	10.3	9.5

Source: IBM; April, 2025 (Revised); May, 2025 (Estimated); YoY: Year on Year; MoM: Month on Month

- The monthly mineral production i.e. all minerals covering metallic and non-metallic minerals has shown a growth of -0.4% and 1.8% in the months of April 2025 and May 2025 respectively. Similarly, the YoY change in production of all MCDR minerals has shown an increase of 4.2% for March 2025 and April 2025 each.

2.4 Provisional Production of Important Minerals

In addition, the latest (May 2025) production data (provisional)¹ of some important minerals are as under:

Mineral	Unit	May-24	2024-25 (Apr-May)	Apr-25	May -25	2025-26 (Apr-May)
Bauxite	MMT	2.81	4.69	2.13	2.60	4.73
Chromite	MMT	0.44	0.76	0.19	0.29	0.48
Copper Ore	MMT	0.33	0.65	0.26	0.28	0.54
Copper Conc.	THT	10.6	20.9	7.0	7.2	14.2
Iron Ore	MMT	26.4	52.7	26.2	26.8	53.0
Lead & Zinc Ore	MMT	1.38	2.61	1.27	1.30	2.56
Lead Conc.	THT	34.5	65.2	27.6	26.3	53.9
Zinc Conc.	MMT	0.14	0.27	0.14	0.14	0.28
Limestone	MMT	40.50	80.10	40.20	41.20	81.40
Manganese Ore	MMT	0.37	0.69	0.35	0.36	0.70

Iron Ore production for the month of **May 2025** is 26.8 Million Tonnes, as compared to 26.4 Million Tonnes for **May 2024**. The cumulative production of Iron Ore for **2025-26 (Apr-May)** is 53.0 Million Tonnes as compared to 52.7 Million Tonnes in **2024-25 (Apr- May)**.

¹Figures provided are provisional and are subject to change.

3. INITIATIVES ON CRITICAL MINERALS

3.1 Bilateral Cooperation

Government of India formed a Joint Venture Company Khanij Bidesh India Limited (KABIL) with the objectives of explore, acquire, develop, mine, process, procure and sell strategic and critical minerals from overseas countries for commercial use in India. KABIL is in advance stage of engagements with Australia, Argentina and Chile for critical minerals.

Government of India is in discussion with mineral rich countries for collaborations in the field of Critical Minerals. A G2G MoU for cooperation in the field of mining and processing of Critical and Strategic Minerals exists between Ministry of Mines, the Government of the Republic of India and Department of Industry, Science, Energy and Resources for Australia, the Government of Australia, signed on 3rd June, 2020.

KABIL has signed an Exploration and Development Agreement with CAMYEN, a state-owned enterprise of Catamarca province of Argentina, for the Exploration and development of 5 Lithium Blocks in Argentina.

3.2 Multilateral Cooperation

Mineral Security Partnership (MSP) is an ambitious new US-led multilateral partnership to secure supply chains of critical minerals, aimed at reducing dependency on China. In June 2023, India became newest partner (14th member country) in MSP, to accelerate the development of diverse and sustainable critical energy minerals supply chains globally while agreeing to the principles of the MSP including environmental, social, and governance standards.

Several meetings and discussions were conducted with representatives from development banks, private companies, academic institutions, and think tanks to support activities under the NCMM. A discussion was held with International experts (through World Bank) to have an understanding of global critical mineral stockpiling programme.

3.3 Domestic Legal Framework

In order to boost the domestic supply of critical minerals, the Central Government has amended the Mines and Minerals (Development and Regulation) Act, 1957 through the MMDR Amendment Act, 2023 with effect from 17.08.2023.

Through the said amendment the Central Government has been empowered to exclusively auction mining lease and composite licence for 24 critical minerals listed in the new Part-D of the First Schedule to the said Act which includes nickel. The objective of the said amendment is to increase exploration and mining of critical minerals and ensure self-sufficiency in supply of critical minerals which are essential for the advancement of many sectors, including high-tech electronics, telecommunications, transport, and defence. They are also vital to power the transition to a low-emission economy, and the renewable technologies that will be required to meet the 'Net Zero' commitment of India by 2070.

The auction of critical and strategic minerals brings several key benefits, including bolstering domestic production, reducing import dependency, promoting sustainable resource management, attracting investments in the mining sector and the development of key industries crucial for India's industrial and technological advancement. This is a step towards creating a reliable supply chain of these mineral and making an 'AtmaNirbhar Bharat' and contribute towards increased economic growth.

The Second Schedule of the Act was amended on 12.10.2023 for specifying rate of royalty in respect of Lithium, Niobium and Rare Earth Elements (REEs). The methodology for calculation of Average

Sale Price (ASP) of Rare Earth Elements (REEs), Lithium and Niobium has been specified through the amendment in the Mineral Concession Rules on 12.10.2023.

The rate of royalty in respect of 12 critical and strategic minerals, viz., Beryllium, Cadmium, Cobalt, Gallium, Indium, Rhenium, Selenium, Tantalum, Tellurium, Titanium, Tungsten and Vanadium has been specified by the Central Government on 01.03.2024. This has enabled the Central Government to auction blocks for these 12 minerals for the first time in the country. Further, manner for calculation of average sale price (ASP) of these minerals has also been specified which will enable determination of bid parameters.

The auction process for 15 Critical and Strategic Mineral Blocks under Tranche V is completed with declaration of Preferred Bidder for 10 blocks consisting of Graphite, Phosphorite, Potash, REE and Vanadium from States of Chhattisgarh, Karnataka, Madhya Pradesh, Odisha, Rajasthan and Uttar Pradesh. Further, as of now 13 exploration licence blocks are put up for auction having mineral commodities including critical and strategic minerals namely REE, lead-zinc, diamond, vanadium, gold, copper, Platinum group of elements (PGE), Tantalum, Zirconium from States of Andhra Pradesh, Arunachal Pradesh, Chhattisgarh, Gujarat, Jharkhand, Karnataka, Madhya Pradesh, Maharashtra, Rajasthan and Uttar Pradesh by Central Government on 13 March 2025.

4. PRODUCTION SCENARIO OF NON-FERROUS METALS

4.1 ALUMINIUM

4.1.1 Global Scenario

- The world production of Primary Aluminium Metal during **Apr-May'2025** was about **12.203 million tonnes** against world consumption of **12.738 million tonnes**, resulting in a **deficit of 0.535 million tonnes**. During **Apr'25-Jun'25 (Q2-CY 2025)**, the world consumption of **Primary Aluminium Metal** is expected to be **18.710 million tonnes** against world **production of around 18.220 million tonnes**, implying a **deficit of 0.490 million tonnes**. The share of India in the world primary Aluminium production was **around 5.98% during Apr-May-2025**.

4.1.2 Price Outlook

- The average London Metal Exchange (LME) price for May, 2025 was US\$ 2,442 per tonne as against US\$ 2,565 per tonne in May, 2024, thereby registering a decline growth of 4.79%. The average LME price during the year 2024-25 was US\$ 2,526 per tonne and cumulative average LME price for 2025-26 (April- May) was US\$ 2,412 per tonne.

Source: - London Metal Exchange (LME) Aluminium Price Data

4.1.3 Domestic Scenario

In India, following are the domestic producing units of aluminium metal:

Capacity and Production during FY 2024-25 is as follows:

(Unit: Lakh Tonnes)

Company	Capacity	Production
NALCO	4.60	4.60
BALCO	5.70	5.87
HINDALCO*	13.40	13.23
VEDANTA LTD.	18.0	18.29
Total	41.70	41.99

* Renukoot, Hirakund, Mahan, Aditya

Production during the month of May, 2025, cumulative production during the period 2025-26 and comparative figures for the previous year is as follows:

(Unit: Lakh Tonnes)

Company	Existing annual capacity (FY 2024-25)	Production (May, 2025)		Cum. Production FY 2025-26 (April-May)		Production (May, 2024)	Cumulative Production FY 2024-25 (April-May)
		Target	Actual	Target	Actual		
NALCO	4.60	0.40	0.38	0.77	0.77	0.39	0.75
BALCO	5.70	0.50	0.50	0.99	0.99	0.50	0.98
HINDALCO*	13.40	1.12	1.13	2.21	2.22	1.12	2.22
VEDANTA LTD.	18.0	1.52	1.57	3.08	3.09	1.54	3.03
Total	41.70	3.54	3.58	7.05	7.07	3.55	6.98

* Renukoot, Hirakud, Mahan, Aditya

NALCO produced 38,466 Metric Tonne of Aluminium and sold 41,693 Metric Tonne of Aluminium metal in May, 2025.

BALCO produced 50,157 Metric Tonne of Aluminium and sold 48,211 Metric Tonne of Aluminium metal in May, 2025.

Vedanta Ltd (Aluminium) produced 1,56,890 Metric Tonne of Aluminium and sold 1,56,179 Metric Tonne of Aluminium metal in May, 2025.

4.2 COPPER

4.2.1 Global Scenario

- The world Copper Mine production from April, 2024 to March, 2025 was about 23,050 thousand metric tonnes (TMT). The share of India in the world production was 25.241 TMT i.e. 0.11% during, April, 2024 to March, 2025.
- The world Refined Copper Production from April, 2024 to March, 2025 was about 27,703 TMT against world consumption of 27,544 TMT. As per International Copper Study Group (ICSG) forecast dated 28.04.2025 for the Calendar Year 2025, world Refined Copper production and consumption are projected as 28,293 and 28,004 TMT, respectively. The projected world Refined Copper production & consumption from April, 2024 to March, 2025 shall be 27,688 and 27,512 TMT, respectively. By comparing the figures of world Refined Copper production and consumption (Forecast) vs. actual from April, 2024 to March, 2025, it is coming around 102.18% and 101.78%. The share of India in the world production was 2.06% during April, 2024 to March, 2025.

4.2.2 Price Outlook

- The average LME price in May 2025 was US\$ 9,527.82 per tonne compared to average LME of US\$ 10,129.07 per tonne in May 2024, thereby registering an decrease by 5.94%. The average LME price during the year 2024-25 was US\$ 9,370.59 per tonne, and cumulative average LME price during 2025-26 (April-May) was US\$ 9,359.98 per tonne.

Source: - LME Copper Price Data

4.2.3 Domestic Scenario

- The size of Indian copper industry (consumption of refined copper per annum) is around 6.6 lakh tonnes, which as percentage of world copper market is only three percent.
- Sterlite Industries, Hindalco Industries and Hindustan Copper Ltd. are major producers of refined copper in India.
- Production in India has declined significantly due to the permanent closure of Vedanta's smelter/ refinery plant of Tamil Nadu in May, 2018.

The production of copper cathode in the organized sector by the public sector unit viz. Hindustan Copper Ltd. (HCL), and private sector units viz. Hindalco Industries Ltd. (HINDALCO, Unit Birla Copper), Sesa Sterlite Ltd. (SSL) and Kutch Copper Ltd. (KCL) in the country, during **FY 2024-25** and the month of **May 2025** is as follows:

Capacity and Production during **FY 2024-25** is as follows:

(Unit: Lakh Tonnes)

Company	Capacity	Production
HCL	0.685	0
HINDALCO	5.00	4.02
SSL	2.16	1.49
KCL	5.00	0.22
Total	12.85	5.73

Production during the month of **May 2025**, cumulative production during the period 2024-25 and comparative figures for the previous year is as follows:

(Unit: Lakh Tonnes)

Company	Existing annual capacity (FY 2025-26)	Production (May 2025)		Cum. Production FY 2025-26 (April-May)		Production (May 2024)	Cumulative Production FY 2024-25 (April-May)
		Target	Actual	Target	Actual		
HCL	0.685*	0	0	0	0	0	0
HINDALCO	5.00	**	0.33	**	0.68	0.27	0.58
SSL	2.16	0.15	0.15	0.30	0.29	0.05	0.11
KCL	5.00	**	0.01	**	0.02	0.02	0
Total	12.85	0.15	0.49	0.30	0.99	0.34	0.69

Note:

* Installed capacity has been declared on the basis of revised installed capacity of HCL (GCP unit: 50,000 tonnes p.a.; ICC unit: 18,500 tonnes p.a.; and KCC unit is NIL).

** Depends upon various economic factors

*** Metal-in-Concentrate (MIC) produced from ore in HCL is partially converted into refined copper & balance is directly sold in the market.

4.2.4 Factors Influencing Copper Markets

- Copper prices in India are fixed on the basis of the rates that rule on LME and Rupee & US Dollar exchange rate.
- Economic growth of the major consuming countries such as China, USA, Japan, Germany, India etc.
- Growth and development in the Infrastructure, Real-estate, Telecom and Electrical Industry, Renewable Energy and Electrical Vehicle Sector.
- Surplus/Deficit in copper market.

4.2.5 Overall Performance of Hindustan Copper Limited

HCL is the only domestic producer of **Copper Ore**. The production of Copper Ore during **May 2025** was 2.80 lakh tonnes. Production during the corresponding period in the previous year was 3.30 lakh tonnes.

The production of **Copper metal** (cathode) by HCL during **May, 2025** was Nil. HCL is selling Metal-in-Concentrate (MIC) in the market directly. The production of refined Copper (cathode) by HCL during the corresponding period in the previous year was Nil. The MIC production of HCL during **May, 2025** was 1,612 tonnes and it was 2,341 tonnes during the corresponding period in the previous year.

Sr. No.	Particulars	Production (Tonnes)	
		May, 2025	May, 2024
1	Copper Ore	2,80,189	3,30,356
2	Copper Metal (Cathode)	Nil	Nil
3	Metal-in-Concentrate (MIC) (tonnes)	1,612	2,341

During the month of **May, 2025** production of Metal-in-Concentrate was 59% of the target. The sale of copper (cathode, cc wire rod and MIC) during the month of **May, 2025** was 3,606 MT of MIC.

4.2.6 Physical Performance of Hindustan Copper Limited

(Unit: Metric Tonnes)

Items	Existing annual capacity (FY 2025-26)	Production (May 2025)		Cumulative Production FY 2025-26 (April- May)		Cumulative Production FY 2023-24 (May)
		Target	Actual	Target	Actual	
Metal in Concentrate (MIC)	-	2,749	1,612	5,460	3,251	4,636
CC Copper Wire Rods	60,000	2,500	2,415	5,000	4,021	4,104

4.3 ZINC

4.3.1 Global Scenario

- The world Zinc metal production in April, 2024 to March, 2025 was about 13,515 thousand metric tonnes and world consumption was 13,576 thousand metric tonnes. The share of India in the world Zinc metal production was 6% during April, 2024 to March, 2025.

4.3.2 Price Outlook

- The average London Metal Exchange (LME) price for May 2025 was US\$ 2,647 per metric tonnes as against US\$ 2,956 per metric tonnes in May 2024 there by registering a decrease of 10%. The average LME price for 2024-25 is US\$ 2,878 per metric tonnes, and cumulative average LME price for 2025-26 (April-May) is US\$ 2,636 per metric tonnes.

Source: - LME Zinc data

4.3.3 Domestic Scenario

In India, the main producer of Zinc is Hindustan Zinc Limited (HZL) (Government of India holds 29.54% of equity share).

Capacity and Production of HZL during **FY 2024-25** is as follows:

(Unit: Lakh Tonnes)		
Company	Capacity	Production
HZL	8.43	8.27

Production detail of HZL during the month of **May 2025**, cumulative production during the period 2024-25 and comparative figures for the previous year are as follows:

(Unit: Lakh Tonnes)						
Company	Existing annual capacity (FY 2025-26)	Production (May 2025)		Cumulative Production FY 2025-26 (May)		Cumulative Production FY 2024-25 (May)
		Target	Actual	Target	Actual	
HZL	8.43	0.77	0.70	1.47	1.33	1.45
