A Brand

more than just a name

It's an identity that resonates with customers.

At Bella Casa, we take immense pride in being a prominent player in the dynamic Indian fashion and retail landscape.

At Bella Casa, we've mastered the art of product creation, branding, and distribution to bring you an unparalleled experience. Our seamless blend of designing, manufacturing, branding, and distribution ensures that every step of the

journey is carefully crafted to exceed your expectations. Behind every remarkable product lies precision engineering and craftsmanship. Our state-of-the-art manufacturing facilities boast cutting-edge technology and a

team of skilled artisans dedicated to producing top-quality products. From raw materials to finished goods, we maintain stringent quality control measures, ensuring that each item meets our highest standards.

'Bella Casa', a brand is more than just a name; it's an identity that resonates with customers. Our expert branding team meticulously crafts captivating brand stories that connect emotionally with your target audience. We understand the importance of establishing a strong brand presence, and through meticulous market research, we position your product as a beacon of trust and innovation.

With a well-established distribution network, we ensure our products reach every corner of the country efficiently and promptly. Our strategic partnerships and logistics expertise enable us to optimize the distribution process, minimizing delays and reducing costs.

We prioritize our customers above all else. Our customer service team is available round-the-clock to address any queries or concerns you may have. Your satisfaction is our ultimate goal, and we go the extra mile to exceed your expectations at every touch point.

Join us on this journey of excellence, where manufacturing prowess meets branding expertise and seamless distribution.

Redefining

Indian Fashion & Retail Excellence!

Unleash the potential of your product and witness the impact of a well-crafted, branded, and flawlessly distributed offering. Experience the epitome of success with Bella Casa - the Perfect Product Fusion: Crafted with Precision, Branded for Success, and Delivered to You!

Quality Control

Quality is of prime importance to us at Bella Casa. We understand that customers demand and expect value for money and as producers of apparel and home furnishings, we constantly endeavour to produce work of good quality. For the home textile and apparel industry, product quality is measured in terms of standard of fibres, yarns, fabric construction, colour fastness, surface designs and the final finished garment products and Bella Casa strives to deliver that.

Designing capabilities

At the outset, our design teams adapt trendsetting styles inspired by celebrity outfits, street styles, and active sportswear into marketable garments for consumers.

We use latest computer-assisted design techniques that allow designers to rapidly make changes to a proposed design's silhouette, fabric, trimmings, and other elements and making it easy to promptly share the proposed changes with partner fabric mills.

Manufacturing capabilities

The manufacturing process at Bella Casa is meticulously structured to ensure maximum efficiency and optimal quality output. Bella Casa is now moving away

from traditional manufacturing towards the lean system according to which assembly line workers learn to execute a variety of production tasks, take charge for product quality.

Bella Casa thrives on innovation in design, packaging and products. Innovation to us means providing something new, extra, delightful and useful to the consumer at frequent intervals.

Between inception and now, we established earnest business relationships with knowledgeable suppliers, which resulted in a burgeoning customer base. We take great pride in our development that has been possible because of assiduous teams who work together in remarkable alignment to develop and execute our strategic and tactical priorities.

our Philosophy

Bella Casa's business philosophy is to establish and cultivate positive employee and customer relationships where we all benefit as a result of having one another in each other's lives. The realistic application of this philosophy is to ensure that there is a constant need to provide undying support for mutual success in the form of sharing knowledge and resources necessary to accomplish the desired business goals.

It is not an easy task to make a lasting impression in an industry like fashion. However, we're pleased to admit that we stood the test of time. And we attribute this passing to Bella Casa's business philosophy which principally encapsulates the essence of the brand—trust, innovation, quality and superiority.

the Team

They personify the invigorating power that has molded the past, present and future of Bella Casa.

Visionaries, trendsetters and leaders are just some of the many roles they play with ease. Together, they form the cornerstones of Bella Casa's success and an unwavering foundation that has held strong for over five decades.

CHANDERI

The brand **Chanderi's** essence was to combine the timeless elegance of tradition with contemporary flair, making every outfit a masterpiece of art and style. At the heart of **Chanderi** was the belief that fashion is more than just clothing; it is a form of expression that tells a story.

The **Chanderi** design philosophy drew inspiration from the diverse tapestry of Indian art, music, dance, and folklore. The skilled artisans at **Chanderi** meticulously transformed this inspiration into intricate patterns, exquisite embroideries, and captivating silhouettes that captured the essence of India's cultural & tradition.

Chairman's Message to Shareholders

Dear Shareholders,

I connect with you through our FY 2022-23 annual report with a sense of reflection and renewed determination as we pass over the challenges during the past year. While we have faced pressure on our revenue growth and margins, I am glad that we navigated these headwinds with resilience, adaptability, and a steadfast commitment to our long-term vision.

The global landscape of the garment manufacturing industry is evolving rapidly, and our company has not been immune to its dynamics. We saw a significant shift in sales patterns that impacted our revenue growth. However, in the face of this shift, we recognized the need to reevaluate our strategies, and we took proactive steps to realign our business model to the changing demands of the market.

One of the key challenges we encountered last year was the high volatility observed in our raw material prices. The unpredictable fluctuations in input costs created an environment that demanded agility and strategic planning. Our procurement teams worked diligently to manage these price swings, implementing innovative approaches to minimize their impact on our bottom line.

The broader Indian retail industry also experienced a slowdown during the second half of the year. This macroeconomic challenge further tested our ability to weather storms. Yet, despite these adversities, I am heartened by the dedication and unwavering spirit of our team. Their dedication, creativity, and resourcefulness have been crucial in driving our company forward even in the face of adversity.

Despite these major headwinds company was able to deliver Rs 201.8 Crs in Revenue and a PAT of Rs7.8 Crs in FY 2023. I wish to highlight that through prudent fiscal management and strategic cost optimization, our cash flow from operations stood at Rs. 15.3 crs and we reduced our debt from Rs 55.9 Crs in FY 2022 to Rs 37.5 Crs in FY 2023.

On operational front we increased our customer count and up scaled our product offerings in our apparel portfolio and has made us a trusted supplier of apparels to most of the major retailers in India. Further strengthening our brand "Bella Casa" presence in home furnishing segment we have invested in our proprietary online sales channel <https://bellacasa.in/> and also have expanded our retail presence to more than 8000 outlets in India making it one of few organized players with pan India presence in highly unorganized market. We believe, these strategic initiatives not only strengthen our financial foundation but also positions us to seize new opportunities with renewed vigour.

Looking ahead, we remain committed to our core values of innovation, quality, and customer satisfaction. Our strategic roadmap includes investments in technology and process optimization to enhance our operational efficiency. We will continue to add new

customers, diversify our sales channels, and explore new avenues for growth. Our focus on sustainability will remain steadfast, as we recognize our responsibility to both the environment and the communities, we operate in.

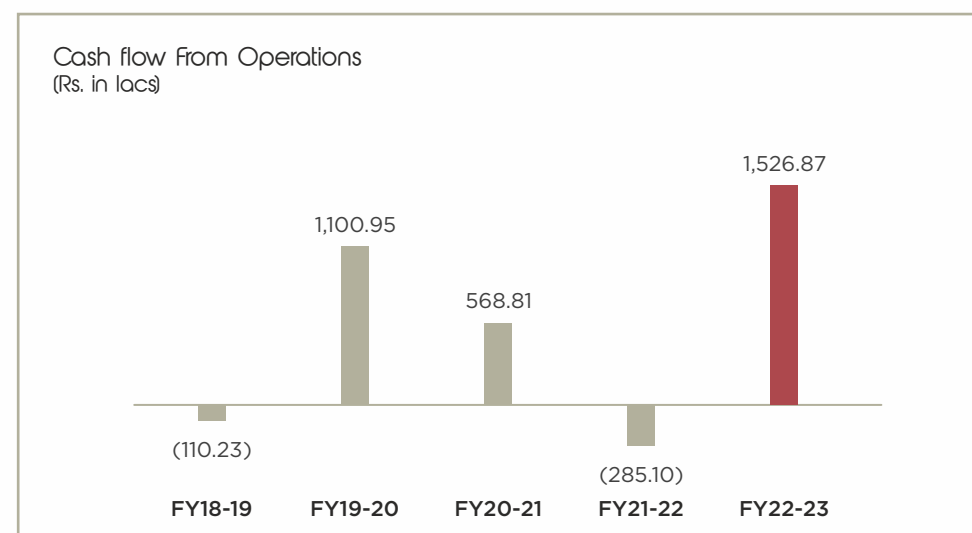

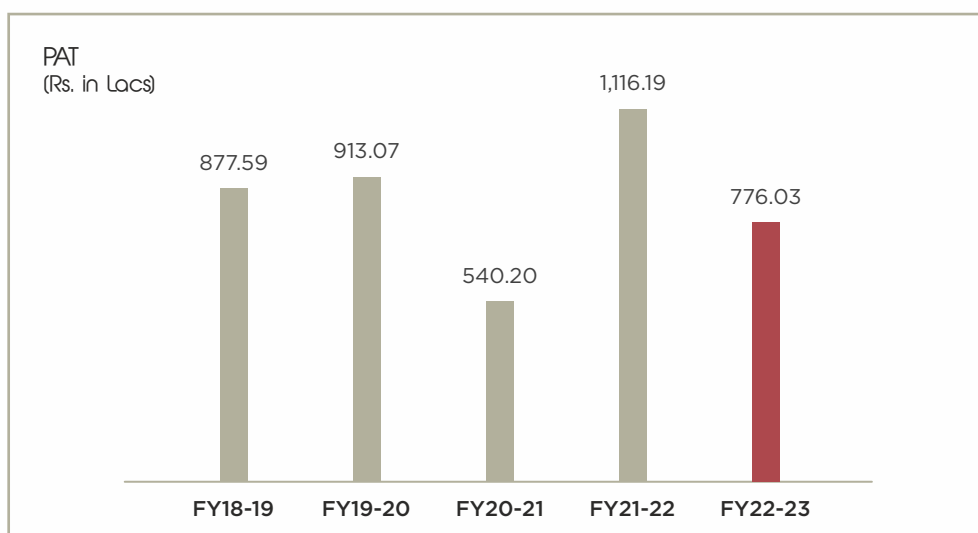

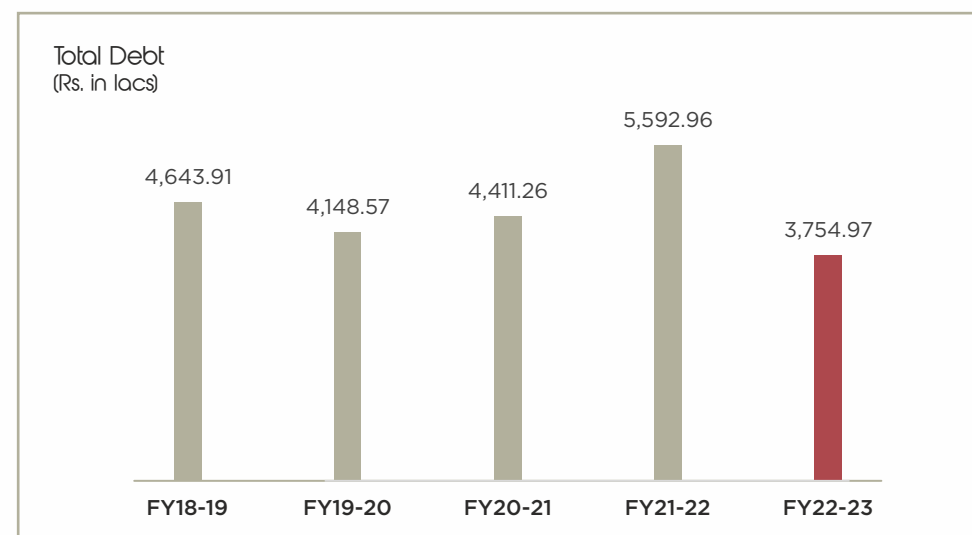

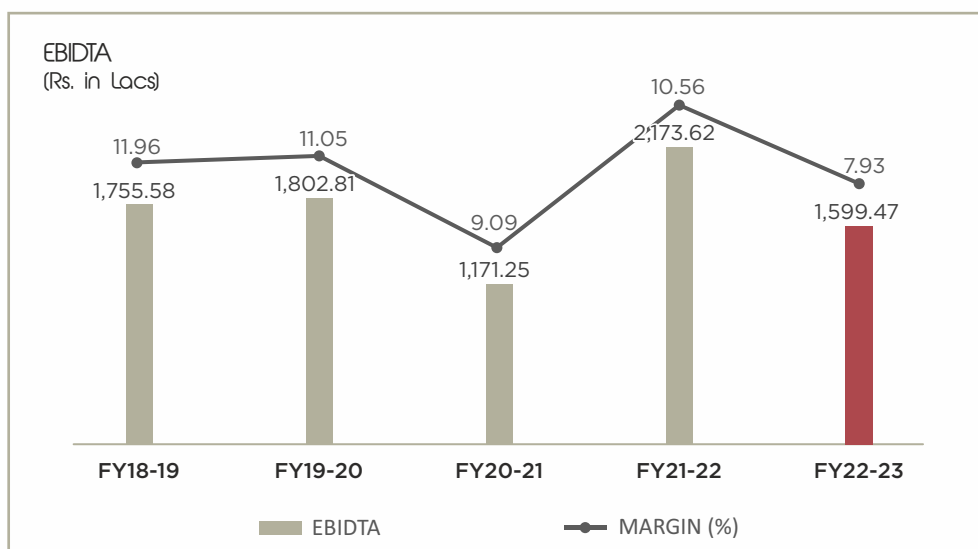

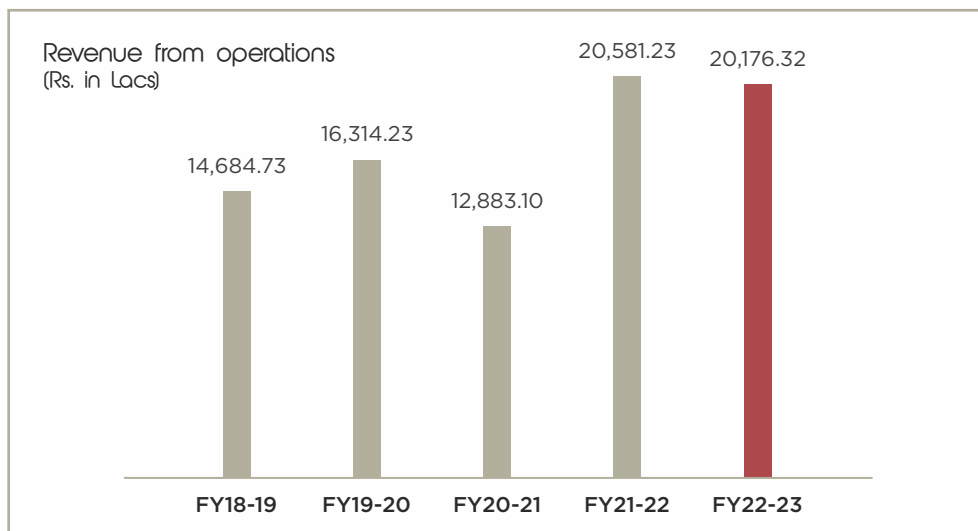

I would like to extend my heartfelt gratitude to our esteemed Board of Directors for their invaluable guidance, wisdom, and support. I am also grateful to our employees for their relentless hard work and contributions to achieving our organisations goals. The trust and confidence shown by our shareholders, investors, partners, and customers is invaluable and we are committed to upholding their belief in our future endeavours

In closing, while the past year may have tested us, it has also strengthened our resolve. We emerge from these challenges more determined than ever, armed with the wisdom gained from experience and the courage to embrace change. Our journey ahead is promising, and I am confident that we are well positioned to capitalize on the opportunities that lies ahead.

Once again, Thank you for your unwavering belief in our company.

Best Regards,
Harish Kumar Gupta
Chairman

THE INSTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in Demat mode.

Step 2 : Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in Demat mode.

(i) The voting period begins on, Sunday, 24th September, 2023 at 09:00 A.M.(IST) and ends on Tuesday, 26th September, 2023 at 05:00 P.M.(IST). During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of Wednesday, 20th September, 2023 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

(ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.

(iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facilities to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to public consultation, it has been decided to enable e-voting to all the Demat account holders, by way of a single login credential, through their Demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in the e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in Demat mode

During the year under review, no amount was liable to be transferred to Investor Education and Protection Fund.

Electronic Clearing Service

The Securities and Exchange Board of India (SEBI) has made it mandatory for all companies to use the Bank account details furnished by the Depositories for depositing dividends. The dividend will be credited to the Members' bank account through ECS wherever complete core banking details are available with the Company. In case where the core banking details are not available, dividend warrants will be issued to the Members with bank details printed thereon as available in the Company's records. This ensures that the dividend warrants, even if lost or stolen, cannot be used for any purpose other than for depositing the money in the accounts specified on the dividend warrants and ensures safety for the investors. The Company complies with the SEBI requirement.

Reconciliation of Share Capital Audit Report

As required by the SEBI, quarterly audit of the Company's share capital is being carried out by an independent external auditor with a view to reconcile the total share capital admitted with NSDL, CDSL and with the issued and listed capital. The Auditor's Certificate with regard to the same is submitted to BSE and is also placed before the Board of Directors.

ECONOMIC REVIEW

Global Economic Review

The global economy grew 3.4% in 2022 with nascent signs of recovery seen in the second half of the year post the pandemic. However, the Russia-Ukraine conflict resulted in supply chain disruptions, inflationary pressure and slowed the pace of recovery. In view of pent-up demand spike, lingering supply disruptions, and commodity price spikes, monetary action was taken by various central banks. Central banks across the globe have resorted to raising policy rates to tackle inflationary pressure. With strong policy action from various central banks, food and energy prices have come down, but underlying price pressures are proving sticky, with labour markets tight in a number of economies. In 2023, global growth is estimated to slow down to 2.8% and improve slightly to 3.0% in 2024. The global economic recovery is showing signs of uncertainty with persistent high debt levels, ongoing geopolitical conflict and financial sector turmoil - unexpected failures of two specialized regional banks in the United States in mid-March 2023 and the collapse of confidence in a major European bank. Growth in advanced economies is expected to slow down from 2.7% in 2022 to 1.3% and 1.4% in 2023 and 2024 respectively. However, the performance of emerging markets is expected to be slightly better with growth being maintained from 4.0% in 2022 to 3.9% in 2023 and slight improvement to 4.2% in 2024. In the medium term, it is imperative to focus on structural factors impeding supply and take appropriate steps to strengthen multilateral cooperation. This will help in creating a more resilient world economy.

India Economic Review

Despite sluggish global economy, India is poised to become the world's fastest-growing economy. India has set an ambitious target of becoming a USD 5 trillion economy by 2025 and more than double its annual exports to USD 2 trillion by 2030 aided by rise in value added manufactured products and services exports. The Indian government is undertaking a slew of measures towards achieving these targets, including promotion of Make in India, Production Linked Incentives (PLI) scheme, Housing for All, rural electrification, refurbishing foreign trade policy, extended Emergency Credit Linked Guarantee Scheme, etc. China plus one strategy coupled with more liberal trade policy like new export hubs, ease of doing business and online approvals is poised to aid manufacturing sector growth in India. According to the estimates by National Statistics Office (NSO), India's GDP growth is estimated at 7.2% for FY 2023. Despite GDP growth came in slightly lower than the last year, India remains one of the fastest growing economies among the major economies. Growth in FY 2023 is primarily attributable to rise in private consumption and capital formation which have helped in generating employment, reflected in the declining urban unemployment rate. FY 2023 has witnessed a strong rebound of private consumption and higher capital expenditure, which in turn resulted in providing boost to production activity. World's largest vaccination

drive involving over 2 billion doses served to lift consumer sentiments and enabled people to spend on contact-based services, such as restaurants, hotels, shopping malls, and cinemas gave boost to consumption. Well-capitalised public sector banks led to increase in the credit supply and the credit growth to MSMEs. Robust government capital expenditure coupled with sustained increase in private capital expenditure is expected to continue with strengthening of corporate balance sheets. Measures taken by the Government and RBI, along with the easing of global commodity prices, aided in controlling retail inflation level near to the RBI's target of 4%, in May 2023 but again shoot up to 7.4% in July owing to high vegetable prices and irregular monsoon pattern. The Union Budget 2023-24 aimed at strengthening India's economic status in the 75th year of India's independence. The Vision for 'AmritKaal' was articulated in the Budget which centered around opportunities for citizens with focus on youth, growth & job creation and strong & stable macro-economic environment. Seven priorities, termed Saptarishi, were adopted to guide the country towards 'AmritKaal', thus providing a blueprint for an empowered and inclusive economy. The priorities being, inclusive development, reaching the last mile, infrastructure & investment, unleashing the potential, green growth, youth power and financial sector Indian GDP growth is expected to be brisk in FY2024 at 6.7%, led by strong credit disbursal, higher Rabi crop output and intensive capital investment cycle. The expansion of public digital platforms and several measures like PM GatiShakti, the National Logistics Policy, and PLI schemes are expected to provide the needed boost to manufacturing output. However, the depreciating rupee coupled with tight monetary policy by the US Fed pose risk to pace of economic growth.

INDUSTRY LANDSCAPE

Global Textile Market

Global trade, supply chain digitalisation, and the growth of e-commerce are among the key forces determining the market's growth. However, it is important to note that recent shifts in the market dynamics have affected certain countries, particularly China. As the world's leading textile exporter, China has experienced a decline in trade due to heightened concerns about cotton sourcing, with customers becoming more cautious. This shift in sentiment has prompted a reduced reliance on China, following the US embargo on Xinjiang cotton. Consequently, it has created a favourable environment for other nations such as India, Bangladesh, and Vietnam to capitalise on the situation by ramping up their production and expanding exports in the textiles and apparels sector. The global textile market grew from \$573.22 billion in 2022 to \$610.91 billion in 2023, at a CAGR of 6.6%, and is projected to reach \$755.38 billion in 2027 at a CAGR of 5.5%.

Indian Textile Market

The textile sector is one of the largest employers in the nation, employing an estimated 45 million people directly, including a significant percentage of women and rural residents. The value chain of the textile industry is complex and extends from fibre through ready-to-wear clothing. With a sizeable raw material base and manufacturing strength across its value chain, it is also one of the largest in the world. Looking at the potential of the industry, the Indian government has launched various programmes to support domestic textile producers. Under the broad objectives of several government policy programmes, including 'Skill India' and 'Make in India', the government is encouraging investment in this area, which will generate more employment, enterprises, and chances for skill development. The government has launched various schemes such as Scheme for Capacity Building in Textile Sector (SAMARTH), Amended Technology Up-gradation Fund Scheme (ATUFS), Production Linked Incentive (PLI) Scheme, PM Mega Integrated Textile Region and Apparel (PM MITRA), Integrated Processing Development Scheme (IPDS) to increase capacity, investments and job opportunities in the industry.

To boost the productivity of the sector, the central government increased the budget allocation of ministry of textiles from Rs. 3,579.61 crores in the previous fiscal to Rs. 4,389.34 crores in the current fiscal in the Union Budget 2023-24. It aims to increase coordination between farmers, the State, and industry for input supply, extension services, and market links. Additionally, to improve credit availability for capital expenditure in the industry, the budget proposed allocating H 900.0 crores for the Amended Technology Upgradation Fund Scheme (ATUFS) for 2023-24 as opposed to H 650.0 crores for 2022-23.

Indian Apparel and Garments Industry

India is among the top garment manufacturing countries in the world. Indian textiles and apparel products have a history of fine craftsmanship across the entire value chain from fibre, yarn, and fabric to apparel with high global appeal. India's cotton, silk, and denim are highly popular in other countries, and Indian apparel too has found success across fashion centres around the world. India is one of the largest consumers and producers of cotton with the highest acreage of 13.5 million hectares which is 38% of the global area under cotton cultivation. The Indian textile and apparel industry is highly diversified with a wide range of segments ranging from products of traditional handloom, handicrafts, wool, and silk products to the organized textile industry in India.

India's textile and apparel market size is growing at a CAGR of 12% from US\$ 152 billion in 2021 to reach US\$ 225 billion by 2025. The industry is one of the biggest contributors to the economy with a 2% contribution to the gross domestic product (GDP) which is approx. US\$ 70 billion. It is also the second largest employer after agriculture, providing direct employment to 45 million people and 100 million people in the allied sector. Andhra Pradesh, Telangana, Haryana, Jharkhand and Gujarat are the top textile and clothing manufacturing states in India.

Indian Home textile Industry

The home textiles market in India is growing with leaps and bounds and in the process has attracted the attention of foreign brands that have entered the Indian markets. This has happened due to the growing affluence levels of Indian consumers who are becoming more and more demanding by asking for exquisite home textile fabrics. The growth in the Indian home textiles is supported by growing household income, increasing population, rising income levels, increase in organized retail, and growth of end-use sectors like housing, hospitality, healthcare. India accounts for almost 7% of global home textiles trade. India is also one of the top suppliers for the world's biggest home textile consuming market, being the US. Increasing efforts in quality improvement, innovations through R&D programs, and other preferential value-added features have helped India's home textile products become more popular in the global market. Superior quality makes companies in India a leader in the US and the UK, contributing two-third to their exports. Delhi, India has emerged as one of the major productions and export centers for home textiles. Traditional craftsmanship along with its distinctive appeal is being effectively used for producing value-added home textile items. The India Home Textile Market size is estimated at USD 8.74 billion in 2023, and is expected to reach USD 13.98 billion by 2028, growing at a CAGR of 9.84% during the forecast period (2023-2028).

GROWTH DRIVERS

Young Population

India has the lowest median age across larger / key developed and emerging countries of world, at 26 years and nearly 65 percent of the population was below the age of 35 years in FY 2012. By 2030, India's median age is expected to be under 30 years. India's sizeable young population augurs well on two counts. Firstly, it is contributed to declining dependence ratio (the ratio of the dependent population size to the working-age population size). These younger consumers are indulgent and are well travelled, brand conscious and well connected. They have higher spending power and are open to experiment and explore. They expect high quality products and service standards from consumer brands.

Growing Middle Class

The size of India's middle class will nearly double to 61% of its total population by 2047, up from 31% in 2020-21, as continued political stability and economic reforms with a sustained annual growth rate of 6% to 7% over the next two and a half decades will make the country one of the world's largest markets. The findings are part of a report released by People Research on India's Consumer Economy (PRICE) and India's Citizen Environment. The middle class is anticipated to grow from 432 million individuals in 2020-21 to 715 million (or 47% of the population) in 2030-31 and then 1.02 billion of India's projected population of 1.66 billion in 2047.

PRICE defines a middle-class Indian as earning between US\$ 1,322.77 (Rs. 1.09 lakh) and US\$ 7,839.51 (Rs. 6.46 lakh) per year in 2020-21 pricing, or US\$ 6,067.74 (Rs. 5 lakh) to US\$ 36,406.41 (Rs. 30 lakh) yearly in household terms.

Increasing Urbanisation

India is second largest urban community in the world after China, with an urban population of about 508 Mn (FY 2022). Though, India fares lower than global average in terms of urban population's share in total population with only 35 percent of India's population classified as urban compared to global average of 54 percent. But it is the pace of India's urbanization that is a key trend to note for implication on India's economic growth. The urbanization trend is expected to continue and by FY 2050, India will have half of total population will stay in urban areas and will account for well over 80 percent of GDP. This urbanization pace is rapidly creating a segment pool of Indians that display migrant tendencies and are without past baggage of habits. They look forward to new products, services and solutions that help them to adopt to new rules of living. India's urbanization pace will envelope two key trends that will have implications on India's domestic consumption narrative.

Government Initiatives

The Indian Government is actively working to promote the growth and development of the country's textile sector, implementing a range of effective and meaningful schemes over the years. These include the Production Linked Incentive (PLI) Scheme, the RoDTEP Scheme, Make in India, Mega Textile Parks Development, and the National Technical Textiles Mission, among others. These initiatives will significantly facilitate and incentivise investments in the textile sector. Additionally, the Government's efforts to improve the ease of doing business in the country by reducing compliance burdens and costs will attract foreign investments, leading to further benefits for the textile sector

OPPORTUNITY

- (i) The Indian textile industry is set for strong growth, buoyed by both strong domestic consumption as well as export demand and declining imports
- (ii) Urbanization is expected to support higher growth due to changes in fashion & trends.
- (iii) Migration to organised retail market and e-commerce (un-branded to branded)
- (iv) Upscaling of consumer preferences towards quality & aspirational products

THREATS

- (i) 100 percent FDI (automatic route) is allowed in the Indian textile sector
- (ii) Increased Competition from Local & Big Players.
- (iii) Our operations are in an unorganized sector, which is prone to changes in government policies.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED**HUMAN RESOURCES**

We remain steadfast in our mission to attract and retain top talent, promote a culture of continuous learning and development, encourage high performance, maintain positive industrial relations, and ensure

a safe and inclusive workplace. Our employees are our most valuable assets, and we are proud to showcase our human resource initiatives in this new chapter of our Company's history.

Focused on Learning and Development We understand the importance of investing in employees' growth and development to ensure their success. We have implemented several initiatives to promote a culture of continuous learning. We have expanded our training programmes, including leadership development, technical training, and cross-functional collaboration. Our mentoring programme has helped our employees build relationships and receive valuable guidance from experienced leaders. We also encourage our employees to pursue external certifications and educational opportunities to enhance their skills and knowledge.

Promoting high performance and excellence in all aspects of our business is essential during the integration process. We are committed to aligning our goals and objectives with those of the Company to ensure a seamless integration process. Our performance management system is designed to provide regular feedback, goal setting, and performance evaluation, enabling our employees to develop and achieve their full potential in the new organisation. We are also leveraging digital tools to facilitate performance management, such as online goal setting and progress tracking. We have also implemented a rewards and recognition programme to acknowledge outstanding performance and incentivise our employees to continue striving for excellence. By recognising and rewarding high performers, we foster engagement and create a culture of excellence.

INDUSTRIAL RELATIONS

Industrial Relations remained cordial throughout the year across all our manufacturing units and facilities and the Board records its appreciation for the contribution of all employees towards the growth of the company without which the achievements made, would not have been possible. As of 31 March 2023, the Company has 931 employees on roll.

RISKS AND CONCERNS

The broader trends in the economy are expected to have a direct impact on your Company's growth prospects as well. Inflation is expected to remain elevated for the foreseeable future, driven by war-induced commodity price increases and broadening price pressures. In addition, the anticipated increase in interest rates by Central Banks in the coming year are also expected to lower growth and exert pressure on economies particularly those in emerging markets.

In these circumstances, the ability to successfully navigate cost pressures would have a significant bearing on the overall performance of your Company. Diminishing purchasing power and demand due to economic circumstances could result in fundamental shifts in consumer behaviours and adversely impact the market for textiles and apparel. Migration to value for- money options could also lead to reduced growth and profitability for your Company.

A detailed Risk Management Framework as well as their mitigation is given in Director's Report at Page 35 (Point Number 27) of this Annual Report.

DISCLOSURE OF ACCOUNTING TREATMENT IN THE PREPARATION OF THE FINANCIAL STATEMENT,

The Company has followed the Indian Accounting Standards referred to in section 133 of the Companies Act, 2013. The Significant Accounting Policies which are consistently applied are set out in the Notes to the Financial Statements.

MARKETING STRATEGIES

Further widening of our customer base

With the growing opportunities available in the market, we will endeavor to continue to grow our business by adding new customers in existing and new geographies, new market segments. We are looking towards expanding our customer base in Middle East countries. We are also making efforts and diagnosing the domestic markets for our own brand's product. With the widening of the customer base for our Brand product, we can leverage the production capacity and the experience of our production team. We aim to

do this by effectively leveraging our marketing skills and relationships and focusing on total customer orientation.

Reduction of operational costs and achieving efficiency

Apart from expanding business and revenues, we have to look for areas to reduce costs and achieve efficiencies in order to remain a cost-competitive company. We try to reduce the wastages and control the production on the production floor through effective supervision. Our focus has been to reduce operational costs to gain a competitive edge.

To build up a professional organization

We believe in transparency, commitment and coordination in our work, with our suppliers, customers, government authorities, banks, financial institutions etc. We have a blend of experience and sufficient staff for taking care of our day-to-day operations. We also consult with external agencies on a case-to-case basis on the technical and financial aspects of our business. We wish to make it sounder and stronger in times to come.

Focus on a cordial relationship with our Suppliers, Customer and employees

We believe that developing and maintaining long-term sustainable relationships with our suppliers, customers and employees will help us in achieving the organizational goals, increasing sales and entering into new markets.

Optimal Utilization of Resources: -

Our Company constantly endeavors to improve our production process, skill up-gradation of workers, modernization of machinery to optimize the utilization of resources. We analyze our existing raw material procurement policy and manufacturing processes to identify the areas of bottlenecks and take corrective measures wherever possible. This helps us in improving efficiency and putting resources to optimal use.

Independent Auditors' Report

Independent Auditors' Report

To the Members of Bella Casa Fashion & Retail Limited Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of Bella Casa Fashion & Retail Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by Companies Act, 2013 ("the Act") in the manner so required, and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind As") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, the profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 ("the act"). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How the matter was addressed in our audit
1. Valuation of Inventories <ul style="list-style-type: none"> The net carrying value of inventory as on 31st March, 2023 constitutes substantial portion of Total Assets of the company. Sales in the industry can be extremely volatile with consumer demand 	Our audit procedure: <ul style="list-style-type: none"> We have performed the Inventory physical stock count on sample basis. We performed inventory counts at location, which is selected based on financial significance and risk and we performed the following procedures at each site: <ul style="list-style-type: none"> (i) Selected a sample of inventory items and

changing significantly (Seasonal) based on current trends. As a result, there is a risk that the carrying value of inventory exceeds its net realizable value.

Hence, we determined the valuation of inventories as a key audit matter.

Related Disclosures:

Please refer to Accounting Policy No. 6 of Significant accounting policies for details of the accounting policies for "Valuation of inventories" and Note No. 6 of the Standalone Financial Statements for relevant disclosures of inventories.

compared the quantities we counted to the quantities recorded.

(ii) Observed a sample of management's inventory count procedures to assess compliance with Company's policy, and

(iii) Made inquiries regarding obsolete inventory items and inspected the condition of items counted.

- We have also evaluated a selection of controls over inventory existence across the company.
- Examining the Company's historical trading patterns of inventory sold at full price and inventory sold below full price, together with the related margins achieved for each product lines in order to gain comfort that stock has not been sold below cost.
- Evaluating the rationality of the inventory policies such as the policy for inventory valuation and provision for obsolescence and understanding whether the valuation of inventory and provision for obsolescence (if any) was performed in accordance with the Company's policy.
- Inspecting the post period sales situation and evaluating the net realizable value of measurement applied on aging inventory in order to verify the evaluation accuracy of the estimated inventory allowance by the Company and
- Assessing whether the disclosures of provision for inventory valuation and obsolescence were appropriate.

2. Trade Receivables

The recover ability of trade receivables and the level of provisions for doubtful debts are considered to be a significant risk due to the pervasive nature of these balances to the financial statements, and the importance of cash collection with reference to the working capital management of the business.

At 31st March, 2023 the trade receivables balances (net of provisions) consist of major portion of the total amount of assets of the company. Accordingly, recover ability of the trade receivable and its disclosure as per Schedule III is determined as key audit matters.

Related Disclosures:

Please refer to Point 20 of Significant accounting policies for details of the accounting policies of accounts receivable and Note No. 8 of the

Our audit procedure:

- Assessed the design and implementation of key controls around the monitoring of recover ability.
- Discussed with the management regarding the level and ageing of trade receivables, along with the consistency and appropriateness of receivables provisioning by assessing recover ability with reference to cash received in respect of trade receivables.
- In addition, we have considered the Company's previous experience of bad debt exposure and the individual counter-party credit risk.
- The accuracy and completeness was verified through, cut-off test, analytical reviews and balance confirmation.
- Analyzing the aging schedule of trade receivable, past collection records, industry boom and concentration of customers' credit risk.

Standalone Financial Statements for relevant disclosures of accounts receivable.

3. Revenue Recognition

Revenue is an important measure used to evaluate the performance of the Company. There is a risk that the revenue is presented for amounts higher than what has been actually generated by the Company. Consequently, we considered revenue recognition to be a significant key audit matter.

Related Disclosures:

Please refer to Accounting Policy No. 11 of Significant accounting policies for details of the accounting policies of Revenue Recognition and Note No. 24 of the Standalone Financial Statements for relevant disclosures of Revenue Recognition.

Our audit procedure:

- Assessing the design, implementation existence and operating effectiveness of internal control procedures implemented as well as test of details to ensure accurate processing of revenue transactions.
- Inspecting underlying documentation for any book entries which were considered to be material or met other specified risk-based criteria on a sample basis.
- Inspecting the key terms and conditions of agreements with major customers on a sample basis to assess if there were any terms and conditions that may have affected the accounting treatment of the revenue recognition.
- The accuracy and completeness of revenue was verified through, cut-off test, analytical reviews and balance confirmation.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon. The other information as identified above is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the other information as identified above, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances and the applicable laws and regulations.

Responsibility of Management's and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of

appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2020 ("the order") issued by the Central Government in terms of Section 143(11) of the act, we give in "Annexure I" a statement on the matters specified in paragraph 3 and 4 of the Order, to the extent applicable.

Annexure “II” forming part of Independent Auditor's Report

Report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”).

We have audited the internal financial controls with reference to standalone financial statements of Bella Casa Fashion & Retail Limited (“the Company”) as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls with reference to standalone financial statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial controls with reference to standalone financial statements is a process

designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal financial controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2023, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes

Note No. 1: Company Information and Significant Accounting Policies

A. Corporate Information

Bella Casa Fashion & Retail Limited (the "Company") is a Company domiciled in India and limited by shares (CIN: L17124RJ1996PLCO11522). The shares of the Company are publicly traded on the BSE Limited (Dealings on the SME Platform of Exchange from October 15, 2015 to March 08, 2018 and then migrated & admitted to dealings on the Mainboard Platform). The address of the Company's registered office is E-102, 103 EPIP, Sitapura industrial area, Jaipur, Rajasthan 302022, India. The Company is engaged in manufacturing of home furnishings/home madeups, women ethnic wear and men's ethnic wear.

The standalone financial statements, as reviewed and recommended by the Audit Committee, have been approved by the Board of Directors in their meeting held on May 29, 2023.

B. Statement of Compliance and Basis of Preparation

1. Statement of Compliance

The standalone financial statements are prepared on going concern basis following accrual basis of accounting and comply with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and subsequent amendments thereto, the Companies Act, 2013 (to the extent notified and applicable).

2. Basis of measurement/Use of Estimates

The financial statements have been prepared on accrual basis under the historical cost basis except for certain financial assets and liabilities (including derivative instruments) that are measured at fair value (refer accounting policy regarding financial instruments). The methods used to measure fair values are discussed further in Notes no. 45 to financial statements.

The preparation of financial statements requires judgments, estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/materialized. Major Estimates are discussed in Part E.

3. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is the Company's functional currency. All financial information presented in INR has been rounded to the nearest Lakhs (upto two decimals), except as stated otherwise.

4. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;

- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

C. Significant accounting policies

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements.

1. Property, plant and equipment

1.1. Initial recognition and measurement

An item of property, plant and equipments recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Items of property, plant and equipment are initially recognized at cost. Subsequent measurement is done at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition, inclusive of non-refundable taxes & duties, necessary for it to be capable of operating in the manner intended by management.

When parts of an item of property, plant and equipment have different useful lives, they are recognized separately.

Items of spare parts, stand-by equipment and servicing equipment which meet the definition of property, plant and equipment are capitalized. Other spare parts are carried as inventory and recognized in the statement of profit and loss on consumption.

1.2. Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized.

The costs of the day-to-day servicing of property, plant and equipment are recognized in statement of profit or loss as incurred.

1.3. Derecognition

Property, plant and equipment is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on de-recognition of an item of property, plant and equipment are determined by comparing the proceeds from disposal, if any, with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

1.4. Depreciation/amortization

Depreciation is recognized in statement of profit and loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Leasehold lands are amortized over the lease term unless it is reasonably certain that the Company will obtain ownership by the end of the lease term.

Depreciation on additions to/deductions from property, plant and equipment during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

Where it is probable that future economic benefits deriving from the cost incurred will flow to the

enterprise and the cost of the item can be measured reliably, subsequent expenditure on a PPE along-with its unamortized depreciable amount is charged off prospectively over the revised useful life.

In circumstance, where a property is abandoned, the cumulative capitalized costs relating to the property are written off in the same period.

2. Capital work-in-progress

The cost of self-constructed assets includes the cost of materials & direct labour, any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

3. Intangible assets

3.1. Initial recognition and measurement

An intangible asset is recognized if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the company and the cost of the asset can be measured reliably.

Intangible assets that are acquired by the Company, which have finite useful lives, are recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

3.2. Subsequent costs:

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

3.3. De-recognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains & losses on de-recognition of an item of intangible assets are determined by comparing the proceeds from disposal, if any, with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

3.4. Amortization

Intangible assets having definite life are amortized on straight line method in their useful lives. Useful life of computer software is estimated at five years.

4. Assets Held for Sale

Non-current assets and disposal group are classified as "Held for Sale" if their carrying amount is intended to be recovered principally through sale rather than through continuing use. The condition for classification of "Held for Sale" is met when the non-current asset or the disposal group is available for immediate sale and the same is highly probable of being completed within one year from the date of classification as "Held for Sale". Non-current assets and disposal group held for sale are measured at the lower of carrying amount and fair value less cost to sell. Non-current assets and disposal group that ceases to be classified as "Held for Sale" shall be measured at the lower of carrying amount before the non-current asset and disposal group was classified as "Held for Sale" adjusted for any depreciation/ amortization and its recoverable amount at the date when the disposal group no longer meets the "Held for sale" criteria.

5. Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction/ development or erection of qualifying assets are capitalized as part of cost of such asset until such time the assets are substantially ready for their intended use. Qualifying assets are assets which necessarily take substantial period of time to get ready for their intended use or sale.

Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of (a) interest expense calculated using the effective interest method as described in Ind AS 109 - 'Financial Instruments' (b) finance charges in respect of finance leases recognized in accordance with Ind AS 17 - 'Leases' and (c) exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs. Income earned on temporary investment of the borrowings pending their expenditure on the qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized as an expense in the year in which they are incurred.

6. Inventories

Inventories are valued at the lower of cost and net realizable value. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on FIFO basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Spare parts other than those capitalized as Property, Plant and Equipment are carried as inventory.

The diminution in the value of obsolete, unserviceable and surplus stores & spares is ascertained on review and provided for.

7. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

8. Government grants

Government grants are recognized only when its reasonable certainty that economics benefit flow to the entities and attached conditions will be complied with it. Government grants are recognized and shown in the balance sheet as liability and income is accrued based on the terms of schemes in the statement of profit and loss over a phased manner in consideration with scheme terms and related use of assets.

Government grants related to depreciable property, plant & equipment is treated as deferred income which is recognised in the Statement of Changes in Equity (SOCE) on a systematic and rational basis over the useful life of the asset i.e. such grants is allocated to income over the periods and in the proportion in which depreciation on those assets is charged.

9. Provisions and contingent liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance costs.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are possible obligations that arise from past events and whose existence will

only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

10. Foreign currency transactions and translation

Transactions in foreign currencies are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in profit or loss in the year in which it arises.

Non-monetary items are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

11. Revenue recognition

The Company derives revenues primarily from sale of manufactured goods and related services.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services.

The Company recognises provision for sales return, based on the historical results, measured on net basis of the margin of the sale. Therefore, a refund liability, included in other current liabilities, are recognized for the products expected to be returned.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue in excess of invoicing are classified as contract asset while invoicing in excess of revenues are classified as contract liabilities.

Other income

Interest income is recognized, when no significant uncertainty as to measurability or collectability exists, on a time proportion basis taking into account the amount outstanding and the applicable interest rate, using the effective interest rate method (EIR).

Insurance claims for loss of profit are accounted for in the year of acceptance. Other insurance claims are accounted for based on certainty of realization.

When calculating the EIR, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

Dividend income is recognized in profit or loss on the date that the Company's right to receive payment is established, which in the case of quoted securities is the ex-dividend date.

12. Employee benefits

12.1. Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are

expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under performance related pay if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

12.2. Post-Employment benefits

Employee benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit). These are of two type:

12.2.1. Defined contribution plans

Defined contribution plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. Provident Fund and Employee State Insurance are Defined Contribution Plans in which the Company pays a fixed contribution and will have no further obligation.

12.2.2. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Company pays Gratuity as per provisions of the Gratuity Act, 1972. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the company, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses are recognized in Other Comprehensive Income ("OCI") in the period in which they arise.

13. Income tax

Tax expense comprises current tax and deferred tax. Current tax expense is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which case it is recognized in OCI or equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustment to tax payable in respect of previous years. Current taxes are recognized under 'Income tax payable' net of payments on account, or under 'Tax receivables' where there is a debit balance.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred tax is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in OCI or equity, in which case it is recognized in OCI or equity. A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Additional income taxes that arise from the distribution of dividends are recognized at the same time that the liability to pay the related dividend is recognized.

14. Leases**14.1. As lessee**

Accounting for finance leases

Leases of Property, Plant and Equipment where the Company, as lessee has substantially all risks and rewards of ownership are classified as finance lease. On initial recognition, assets held under finance leases are recorded as Property, Plant and Equipment and the related liability is recognized under borrowings. At inception of the lease, finance leases are recorded at amounts equal to the fair value of the leased asset or, if lower, the present value of the minimum lease payments. Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability.

Accounting for operating leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating lease. Payments made under operating leases are recognized as an expense over the lease term.

15. Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit", or "CGU").

An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are reduced from the carrying amounts of the assets of the CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

16. Dividends

Dividends and interim dividends payable to a Company's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

17. Material Prior Period Errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest prior period presented, the opening balances of assets, liabilities and equity for the earliest prior period presented, are restated.

18. Earnings per share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

19. Statement of Cash Flows

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows' for operating activities.

20. Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in statement of profit and loss.

20.1 Financial assets

On initial recognition, a financial asset is recognised at fair value. All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value through profit or loss (FVTPL) or fair value through other comprehensive income (FVOCI) depending on the classification of the financial assets.

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

Trade Receivables and Loans:

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Equity Instruments:

All investments in equity instruments classified under financial assets are initially measured at fair value. The Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL.

The Company makes such election on an instrument-by instrument basis. Fair value changes on an equity instrument is recognised in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised in the Statement of Profit and Loss.

Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

Impairment of financial assets

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financials assets in FVTPL category.

ECL is the weighted-average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider:

- a. All contractual terms of the financial assets (including prepayment and extension) over the expected

life of the assets.

- b.** Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

20.2. Financial liabilities and equity instruments

Classification as equity

Equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in statement of profit and loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit or loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

All financial liabilities are subsequently measured at amortized cost using the effective interest method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss. Interest expense are included in the 'Finance costs' line item. The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period.

The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

Derivative financial instruments

The Company uses forwards to mitigate the risk of changes in interest rates, exchange rates and commodity prices. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial

liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of Profit and Loss. The counterparty for these contracts is generally a bank.

D. Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

E. Major Estimates made in preparing Financial Statements

1. Useful life of property, plant and equipment and intangible assets

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

Useful life of the assets other than Plant and machinery are in accordance with Schedule II of the Companies Act, 2013.

The Company reviews at the end of each reporting date the useful life of property, plant and equipment, and are adjusted prospectively, if appropriate. Intangible assets is being amortized on straight line basis over the period of five years.

2. Post-employment benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, the rate of salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate and documented. However, any changes in these assumptions may have a material impact on the resulting calculations.

3. Provisions and contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter.

Note No. 41. Disclosure as per Ind AS 36 'Impairment of Assets'.

(a) Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped separately as held for sale and the loss on impairment is shown under other expenses.

B) Financial risk management						
The Company's principal financial liabilities comprise Borrowings, trade payables and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade & other receivables, cash & cash Equivalent, deposits.						
Company is exposed to following risk from the use of its financial instrument:						
a) Credit Risk						
b) Liquidity Risk						
c) Market Risk						
d) Foreign Currency Risk						
e) Interest Rate Risk						
The Company's Financial Risk Management is an integral part of how to plan and execute its business strategies. The Company's financial risk management is set by the Managing Board.						
a) Credit Risk						
Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. Credit risk arises principally from trade receivables, loans & advances, cash & cash equivalents and deposits with banks and financial institutions.						
Trade Receivable						
Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 7 days to 90 days credit term. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.						
An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 8. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. The requirement of impairment is analysed as each reporting date.						
Other Financial Instruments and Cash & Cash Equivalent						
The Company maintain its cash & cash equivalent in current account to meet the day to day requirements. Other financial instruments are Deposit, Accrued Interest, Export Incentives Receivables and Other Receivables. The Company's maximum exposure to credit risk for the component of the Balance Sheet as of 31st March, 2023, 31st March, 2022 is the carrying amount as disclosed in Note 9, 10 & 11.						
Provision for Expected Credit or Loss						
i) Financial assets for which loss allowance is measured using 12 month expected credit losses.						
The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.						
ii) Financial assets for which loss allowance is measured using life time expected credit losses.						
The Company provides loss allowance on trade receivables using life time expected credit loss and as per simplified approach.						
(b) Liquidity Risk						
Customer Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.						
The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

c) Market Risk		
Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.		
The Board of Directors is responsible for setting up of policies and procedures to manage market risks of the Company. All such transactions are carried out within the guidelines set by the Managing Board.		
d) Foreign Currency Risk		
Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk on certain transactions that are denominated in a currency other than entity's functional currency, hence exposure to exchange rate fluctuations arises. The risk is that the functional currency value of cash flows will vary as a result of movements in exchange rates. The company uses forward contracts to mitigate its risk from foreign currency fluctuations.

The Company's investment consists of investments in non traded (Un-quoted) company held for purposes other than trading. Such investments held in connection with non-consolidated investments represent a low exposure risk for the Company and are not hedged.		
As at 31st, March 2023 Company does not have material exposure to listed or unlisted equity price risk.		
e) Interest Rate Risk		
Interest rate risk arises from the sensitivity of financial assets and liabilities to changes in market rates of interest. The Company is exposed to interest rate risk arising mainly from long term borrowings with floating interest rates. The Company is exposed to interest rate risk because the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The Company manages the interest rate risks by entering into different kinds of loan arrangements with varied terms.		
At the reporting date the interest rate profile of the Company's interest-bearing financial instruments is as follows:
