Properties with Unique Selling Propostions

Key Strengths and Drivers

Well placed to tap the increasing domestic discretionary spending

- Domestic tourism continues to be over 80% of the total tourist expenditure in India
- The rising purchasing power has aided the exponential growth of domestic tourism which is expected to continue to increase with increasing urbanisation, higher disposable incomes and changing aspirations of the expanding middle class
- A growing middle class has created demand for branded budget hotels for the domestic travellers

Indian hotel industry is at an inflection point

- Slowing supply and rising demand is expected to increase occupancy and ADR
- Robust demand with occupancies at \sim 64-66% in FY16-18 vs. 59% over FY09-15 which is expected to drive healthy ARR growth over the next 2-3 years
- Increasing ARR would lead to massive operating leverage

Byke has created a distinct brand in the budget hotels category

- Targets middle class segment of the society, which forms the principal part of the Indian population.
- Most of Byke's hotels and resorts are located in tier-2 and mini metros namely; Matheran, Goa, Jaipur, Manali, etc.
- Niche in vegetarian segment Restaurants/Banquets in all hotels serve pure vegetarian food

Key Strengths and Drivers

Asset light business model

- Properties are taken on a long term lease of 15-20 years
- Low capital requirement (only capex for rebranding and refurbishing) leading to break-even at low occupancy
- Robust balance sheet with negligible debt, healthy return ratios (AROCE>25%) and stable working capital cycle
- Healthy cash flow generation in the last five years due to better operational management and robust growth

Diversifies revenue mix with focus on high margin F&B and events business

- Most of the properties have multiple banquets/ conference halls/ garden to host corporate as well as social events
- F&B and events contribution to hotel revenue steadily increasing; now over 50% share
- Helps to maximise revenue potential of the property even during non-peak travel season

Present across sales channels

- Owned plus leased hotel portfolio can be booked across channels: own portal, third-party portal, agents
- Wide distribution network tie-up with over 300 agents which enables to maximise occupancy

Experienced Management Team

- Leadership team with decades of experience in the hotel industry
- Have successfully turned around properties leading to higher occupancy and ARR

- Identified new states and cities for expansion
- Cluster based approach target multiple tourist locations near to each other

 India hotel sector at cusp of recovery with increase in occupancy levels across segments, which would further increase ARR in coming years

Increase in Geographical Event/F&B Expansion Revenues Management Increase in ARR Contracts
