Sub: Financial results for the first quarter (Q1) ended June 30, 2025

Dear Sir / Madam,

In compliance with Regulations 30 and 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations'), we are enclosing herewith the following for the first quarter (Q1) ended June 30, 2025:

- Audited consolidated financial results as per Ind AS
- Audited standalone financial results as per Ind AS
- Auditor's reports on the aforesaid financial results

The above financial results have been reviewed by the Audit Committee in its meeting held on Tuesday, August 05, 2025 and based on its recommendation, approved by the Board of Directors in its meeting being held on Tuesday, August 05, 2025.

The Board meeting commenced at IST 1400 Hrs. and is still in progress.

Kindly take the same on record.

Thanking you,
Sincerely yours,

For Bharti Airtel Limited

Rohit Krishan Puri

Joint Company Secretary & Compliance Officer

* Including Mobile Money Services.

® Mobile Services South Asia segment has been disposed, effective June 26, 2024.

§ Passive Infrastructure Services represents operations of Indus Towers Limited. It became a subsidiary of the Group w.e.f. November 18, 2024, prior to which it was a joint venture.

^ Includes share of results / net assets of associates and joint ventures.

‡ This is net of dividend income, interest income, income on FVTPL investments and gain / loss (net) on derivative financial instruments.

¶ Mainly includes borrowings (including deferred payment liabilities).

Notes to the Audited Consolidated Financial Results

1. The Audited Consolidated Financial Results for the quarter ended June 30, 2025 have been reviewed by the Audit Committee and approved by the Board of Directors at their respective meetings held on August 5, 2025.
2. These Audited Consolidated Financial Results are compiled from the Audited Interim Condensed Consolidated Financial Statements for the quarter ended June 30, 2025 and the Audited Consolidated Financial Results for the quarter and year ended March 31, 2025. The Audited Interim Condensed Consolidated Financial Statements for the quarter ended June 30, 2025 have been prepared in accordance with Ind AS 34, 'Interim Financial Reporting' as prescribed under Section 133 of the Companies Act, 2013 read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other accounting principles generally accepted in India. The said Audited Consolidated Financial Results represent results of the Group, and its share in the results of associates and joint ventures.
3. Indus Towers Limited, a Subsidiary Company, in its audited consolidated financial results for the quarter ended June 30, 2025 reported financial status relating to one of its large customer ('customer'). The said customer accounts for significant part of subsidiary's revenue from operations for the quarter ended June 30, 2025 and constitutes a significant part of subsidiary's trade receivables outstanding and unbilled revenue as at June 30, 2025. The statutory auditors of the said customer have reported material uncertainty related to going concern in its report to the latest published audited results for the quarter and year ended March 31, 2025. The said customer stated that its ability to settle its liabilities is dependent on support from the Department of Telecommunications (DoT) regarding the AGR matter, fund raise through equity and debt, and generation of cash flow from operations. Further, it stated that, based on current efforts, it believes that it would be able to get DoT support, successfully arrange funding and generate cash flow from operations. Accordingly, the said customer prepared its financial statements on a going concern basis.

The Group has receivables (net of adequate provision), certain property, plant & equipment and intangible assets with respect to the said customer in the interim consolidated financials, recoverability of which is dependent on the said customer's ability to continue as a going concern and the Subsidiary Company's ability to attract new customers. The Group will continue to monitor the financial condition of the customer.

4. During the quarter ended June 30, 2025, Airtel Africa plc ('Airtel Africa'), a subsidiary of the Group in continuation to its exiting second share buy-back programme for USD 100 million, further bought back USD 32 million worth of shares, out of which USD 16 million worth of shares have been cancelled. This resulted in an increase in the Group's effective shareholding from 62.35% to 62.47%.
5. The disclosure required as per the provisions of Regulation 52(4) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 is given below:

S.No.	Particulars*	Quarter ended			Year ended
		June 30, 2025	March 31, 2025	June 30, 2024	March 31, 2025
		Audited	Audited	Audited	Audited
(i)	Debt - equity ratio - [no. of times]	0.80	0.91	1.21	0.91
(ii)	Net worth - [Rs. Million]	1,179,009	1,118,492	864,840	1,118,492
(iii)	Current ratio - [no. of times]	0.42	0.37	0.38	0.37
(iv)	Long term debt to working capital - [no. of times]^	(1.11)	(0.93)	(1.30)	(0.93)
(v)	Current liability ratio - [no. of times]	0.47	0.50	0.43	0.50
(vi)	Total debts to total assets - [no. of times]	0.39	0.42	0.47	0.42
(vii)	Debtors turnover - [no. of days]	15	17	12	13
(viii)	Debt service coverage ratio ('DSCR') - [no. of times]	1.75	3.28	1.47	2.43
(ix)	Interest service coverage ratio ('ISCR') - [no. of times]	6.35	6.28	4.74	5.38
(x)	Bad debts to account receivable ratio (%)	0.3%	2.8%	0.3%	4.0%
(xi)	Operating margin (%)	31.1%	30.7%	23.8%	27.5%
(xii)	Net profit margin (%)	15.0%	26.1%	12.3%	21.7%
(xiii)	Debenture redemption reserve - [Rs. Million]	N.A.	N.A.	N.A.	N.A.
(xiv)	Capital redemption reserve - [Rs. Million]	N.A.	N.A.	N.A.	N.A.
(xv)	Outstanding redeemable preference shares - [Rs. Million]	N.A.	N.A.	N.A.	N.A.

* As the principal activities of the Group are in the nature of services, hence inventory turnover ratio is not relevant.

^ Net working capital is negative

The basis of computation of above parameters is provided in the table below:

(i)	Debt - equity ratio[#]	(Non-current borrowings (+) current borrowings (-) cash and cash equivalents (-) term deposits with bank) / equity * excluding lease liabilities
(ii)	Net worth	Basis Section 2(57) of the Companies Act, 2013 and does not include capital reserve, debenture redemption reserve and non-controlling interests.
(iii)	Current ratio	Current assets / current liabilities
(iv)	Long term debt to working capital	Non-current borrowings / (current assets (-) current liabilities)
(v)	Current liability ratio	Current liabilities / total liabilities
(vi)	Total debts to total assets	(Non-current borrowings (+) current borrowings (+) lease liabilities) / total assets
(vii)	Debtors turnover	Average trade receivables / (revenue from operations / no. of days for the quarter/ year)
(viii)	DSCR	Profit before depreciation, amortisation, finance costs, share of profit / (loss) of associates and joint ventures, exceptional items and tax / (interest expenses (+) principal repayments of long-term debt (excluding pre-payment of deferred payment liabilities) (+) payment of lease liabilities)
(ix)	ISCR	Profit before depreciation, amortisation, finance costs, share of profit / (loss) of associates and joint ventures, exceptional items and tax / interest expenses
(x)	Bad debts to account receivable	Bad debts written off / average trade receivable (gross of allowances for doubtful receivables)
(xi)	Operating margin	(Profit before depreciation, amortisation, finance costs, share of profit / (loss) of associates and joint ventures, exceptional items and tax (-) depreciation and amortisation expenses (-) other income) / revenue from operations
(xii)	Net profit margin	Profit after tax / revenue from operations

6. All the amounts included in the Audited Consolidated Financial Results are rounded off to the nearest million, except per share data and unless stated otherwise.

Notes to the Audited Standalone Financial Results

1. The Audited Standalone Financial Results for the quarter ended June 30, 2025 have been reviewed by the Audit Committee and approved by the Board of Directors at their respective meetings held on August 5, 2025.
2. These Audited Standalone Financial Results are compiled from the Audited Interim Condensed Standalone Financial Statements for the quarter ended June 30, 2025 and the Audited Standalone Financial Results for the quarter and year ended March 31, 2025. The Audited Interim Condensed Standalone Financial Statements for the quarter ended June 30, 2025 have been prepared in accordance with Indian Accounting Standard ('Ind AS') 34, 'Interim Financial Reporting' as prescribed under Section 133 of the Companies Act, 2013 read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other accounting principles generally accepted in India.
3. In relation to Business Transfer Agreement dated February 07, 2025 for transfer of the passive infrastructure business undertaking by way of a slump sale to Indus Towers Limited ('Indus'), the Company has completed the necessary reconciliation and finalized the sale consideration at Rs. 19,210 million. Subsequent to the quarter ended June 30, 2025, the balance consideration has been released from the escrow account by Indus.
4. The Company publishes these Audited Standalone Financial Results along with the Audited Consolidated Financial Results. In accordance with Ind AS 108, 'Operating Segments', the Company has disclosed the segment information in the Audited Consolidated Financial Results.
5. The disclosure required as per the provisions of Regulation 52(4) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 is given below:

S.No.	Particulars*	Quarter ended			Year ended
		June 30, 2025	March 31, 2025	June 30, 2024	March 31, 2025
		Audited	Audited	Audited	Audited
(i)	Debt - equity ratio - [no. of times]	0.74	0.79	1.12	0.79
(ii)	Net worth - [Rs. Million]	1,156,386	1,117,529	944,923	1,117,529
(iii)	Current ratio - [no. of times]	0.38	0.32	0.38	0.32
(iv)	Long term debt to working capital - [no. of times]^	(1.27)	(1.15)	(1.71)	(1.15)
(v)	Current liability ratio - [no. of times]	0.46	0.46	0.40	0.46
(vi)	Total debts to total assets - [no. of times]	0.40	0.41	0.47	0.41
(vii)	Debtors turnover - [no. of days]	10	11	10	10
(viii)	Debt service coverage ratio ('DSCR') - [no. of times]	1.33	2.97	3.08	3.10
(ix)	Interest service coverage ratio ('ISCR') - [no. of times]	5.89	5.93	4.57	5.20
(x)	Bad debts to Account receivable ratio (%)	0.1%	6.6%	0.3%	8.1%
(xi)	Operating margin (%)	29.3%	28.4%	22.1%	25.9%
(xii)	Net profit margin (%)	12.9%	32.6%	9.9%	21.6%
(xiii)	Debenture redemption reserve - [Rs. Million]	N.A.	N.A.	N.A.	N.A.
(xiv)	Capital redemption reserve - [Rs. Million]	N.A.	N.A.	N.A.	N.A.
(xv)	Outstanding redeemable preference shares - [Rs. Million]	N.A.	N.A.	N.A.	N.A.

* As the principal activities of the Company are in the nature of services, hence inventory turnover ratio is not relevant.

^ Net working capital is negative

The basis of computation of above parameters is provided in the table below:

(i)	Debt - equity ratio[#]	(Non-current borrowings (+) current borrowings (-) cash and cash equivalents (-) term deposits with bank) / equity * excluding lease liabilities
(ii)	Net worth	Basis Section 2(57) of the Companies Act, 2013 and does not include capital reserve and common control reserve.
(iii)	Current ratio	Current assets / current liabilities
(iv)	Long term debt to working capital	Non-current borrowings / (current assets (-) current liabilities)
(v)	Current liability ratio	Current liabilities / total liabilities
(vi)	Total debts to total assets	(Non-current borrowings (+) current borrowings (+) lease liabilities) / total assets

(vii)	Debtors turnover	Average trade receivables / (revenue from operations / no. of days for the quarter / year)
(viii)	DSCR	Profit before depreciation, amortisation, finance costs, exceptional items and tax / (interest expenses (+) principal repayments of long-term debt (excluding pre-payment of deferred payment liabilities) (+) payment of lease liabilities)
(ix)	ISCR	Profit before depreciation, amortisation, finance costs, exceptional items and tax / interest expenses
(x)	Bad debts to account receivable	Bad debts written off / average trade receivable (gross of allowances for doubtful receivables)
(xi)	Operating margin	(Profit before depreciation, amortisation, finance costs, exceptional items and tax (-) depreciation and amortisation expenses (-) other income) / revenue from operations
(xii)	Net profit margin	Profit after tax / revenue from operations

6. All the amounts included in the Audited Standalone Financial Results are rounded off to the nearest million, except per share data and unless stated otherwise.

INDEPENDENT AUDITOR'S REPORT ON AUDIT OF INTERIM CONSOLIDATED FINANCIAL RESULTS

TO THE BOARD OF DIRECTORS OF BHARTI AIRTEL LIMITED

Opinion

We have audited the accompanying Statement of Audited Consolidated Financial Results for the quarter ended June 30, 2025 of **BHARTI AIRTEL LIMITED** ("the Parent/Company") and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group"), and its share of the net profit after tax and other comprehensive income of its joint ventures and associates for the quarter ended June 30, 2025, ("the Consolidated Financial Results"), being submitted by the Parent pursuant to the requirements of Regulation 33 and Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the LODR Regulations").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of the audit reports of the other auditors on separate interim financial information of a subsidiary and an associate referred to in Other Matter section below, the Consolidated Financial Results:

- (i) include the financial results of the entities as given in Annexure to this report;
- (ii) are presented in accordance with the requirements of the LODR Regulations; and
- (iii) give a true and fair view in conformity with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 ("Act"), read with relevant rules issued thereunder and other accounting principles generally accepted in India of the consolidated net profit and consolidated other comprehensive income and other financial information of the Group, its associates and joint ventures for the quarter ended June 30, 2025.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in Auditor's Responsibilities for audit of the Consolidated Financial Results section below. We are independent of the Group, its associates and joint ventures in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated Financial Results under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their report referred to in Other Matter section below, is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

Material uncertainty at one of the largest customers of Indus Towers limited, a Subsidiary Company and its consequential impact on the Group's receivable, property, plant and equipment and intangible assets in relation to such customer

We draw attention to note 3 of the Consolidated Financial Results, which describes the potential impact on certain receivables (net of adequate provision), property, plant and equipment and intangible assets, arising from the financial condition of one of the largest customers of the Subsidiary Company and the uncertainty relating to that customer's ability to continue as a going concern.

Our opinion is not modified in respect of the above matter.

Management's and Those Charged With Governance's Responsibilities for the Consolidated Financial Results

This Consolidated Financial Results are the responsibility of the Company's management and have been approved by the Board of Directors for issuance. The Consolidated Financial Results have been compiled from the Audited Interim Condensed Consolidated Financial Statements for the quarter ended June 30, 2025 and the Audited Consolidated Financial Results for the quarter and year ended March 31, 2025. This responsibility includes the preparation and presentation of the Consolidated Financial Results that give a true and fair view of the consolidated net profit/(loss) and consolidated other comprehensive income/(loss) and other financial information of the Group including its associates and joint ventures in accordance with the recognition and measurement principles laid down in Ind AS 34 prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with the LODR Regulations.

The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates and joint ventures and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the respective financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of this Consolidated Financial Results by the Directors of the Parent, as aforesaid.

In preparing the Consolidated Financial Results, the respective management and the Board of Directors/Those Charged With Governance of the entities included in the Group and of its associates and joint ventures are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors/Those Charged With Governance either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors/Those Charged With Governance of the entities included in the Group and of its associates and joint ventures are responsible for overseeing the financial reporting process of the Group and of its associates and joint ventures.

Auditor's Responsibilities for the audit of the Consolidated Financial Results

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Consolidated Financial Results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal financial controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management and approved by the Board of Directors.
- Evaluate the appropriateness and reasonableness of disclosures made by the Board of Directors in terms of the requirements specified under the LODR Regulations.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Results, including the disclosures, and whether the Consolidated Financial Results represent the underlying transactions and events in a manner that achieves fair presentation.
- Perform procedures in accordance with the circular issued by the SEBI under Regulation 33(8) of the LODR Regulations to the extent applicable.
- Obtain sufficient appropriate audit evidence regarding the standalone financial results, entities within the Group and its associates and joint ventures to express an opinion on the Consolidated Financial Results. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the Consolidated Financial Results of which we are the independent auditors. For the other entities included in the Consolidated Financial Results, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Results may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Results.

We communicate with those charged with governance of the Parent and such other entities included in the Consolidated Financial Results of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Deloitte Haskins & Sells LLP

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33(8) of the LODR Regulations, as amended, to the extent applicable.

Other Matter

We did not audit the interim financial information of a subsidiary included in the Consolidated Financial Results, whose interim financial information reflects revenue of Rs. 3,737 million, net profit after tax of Rs. 190 million and other comprehensive loss of Rs. 1 million, for the quarter ended June 30, 2025 as considered in the Consolidated Financial Results. The Consolidated Financial Results also include the Group's share of net profit after tax of Rs. 96 million and other comprehensive income of Rs. 36 million for the quarter ended June 30, 2025, as considered in the Consolidated Financial Results, in respect of an associate whose interim financial information has not been audited by us. These interim financial information have been audited by other auditors and our opinion on the Consolidated Financial Results, in so far as it relates to the amounts and disclosures included in respect of such subsidiary and associate, is based solely on the reports of the other auditors.

Our report on the Consolidated Financial Results is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

INDEPENDENT AUDITOR'S REPORT ON AUDIT OF INTERIM STANDALONE FINANCIAL RESULTS

TO THE BOARD OF DIRECTORS OF BHARTI AIRTEL LIMITED

Opinion

We have audited the accompanying Statement of Audited Standalone Financial Results for the quarter ended June 30, 2025 of **BHARTI AIRTEL LIMITED** ("the Company"), ("the Standalone Financial Results"), being submitted by the Company pursuant to the requirements of Regulation 33 and Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the LODR Regulations").

In our opinion and to the best of our information and according to the explanations given to us, the Standalone Financial Results:

- (i) are presented in accordance with the requirements of the LODR Regulations; and
- (ii) give a true and fair view in conformity with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 ("Act"), read with relevant rules issued thereunder and other accounting principles generally accepted in India of the net profit and other comprehensive income and other financial information of the Company for the quarter ended June 30, 2025.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in Auditor's Responsibilities for Audit of the Standalone Financial Results section of our report below. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Results under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion.

Management's and Those Charged with Governance's Responsibilities for the Standalone Financial Results

This Standalone Financial Results are the responsibility of the Company's management and have been approved by the Board of Directors for issuance. The Standalone Financial Results have been compiled from the Audited Interim Condensed Standalone Financial Statements for the quarter ended June 30, 2025 and the Audited Standalone Financial Results for the quarter and year ended March 31, 2025. This responsibility includes the preparation and presentation of the Standalone Financial Results that give a true and fair view of the net profit/(loss) and other comprehensive income/(loss) and other financial information in accordance with the recognition and measurement principles laid down in Ind AS 34

prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with the LODR Regulations.

The responsibility of Board of Directors includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Results, the management and the Board of Directors are responsible for assessing the Company's ability, to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities for the audit of the Standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Standalone Financial Results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal financial controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management and approved by the Board of Directors.
- Evaluate the appropriateness and reasonableness of disclosures made by the Board of Directors in terms of the requirements specified under the LODR Regulations.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence

obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Standalone Financial Results, including the disclosures, and whether the Standalone Financial Results represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Results may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Results.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Bharti Airtel Limited

Q1 FY26 Highlights

- Bharti Airtel reported quarterly revenues of Rs 49,463 crore growing 28.5% YoY & 3.3% QoQ, attributed to strong performance in India and rebound in Africa on reported currency. Consolidated Net income (before exceptional items) at Rs 5,948 crore - more than doubled on YoY basis.
- India business posts quarterly revenues of Rs 37,585 crore – up 29.0% YoY, up 2.3% QoQ, backed by improved realizations in mobile segment & strong momentum in Homes business.
 - India mobile services reported a 21.6% YoY revenue growth driven by ARPU improvement and continued strong additions of smartphone customers.
 - Airtel Business saw revenues decline by 7.7% YoY due to portfolio transformation, aligning with our strategic objective to discontinue low-margin business; underlying revenue performance remains steady.
 - Homes business growth trajectory further improved with a 25.7% YoY increase in revenues. Net customer additions were at an all-time high of 939K in Q1'26, led by continued momentum in both FTTH and FWA segments.
 - Digital TV revenues decreased by 1.8% YoY.
 - Passive Infrastructure Services recorded a revenue increase of 4.3% QoQ, driven by ~2.5K sites additions in Q1'26.
- Consolidated EBITDA at Rs 28,167 crore with EBITDA margin of 56.9%.
 - India business posts EBITDA of Rs 22,352 crore; EBITDA margin at 59.5%, up by 598 bps YoY.
- Consolidated EBITDAaL at Rs 24,994 crore with margin of 50.5%.
 - India EBITDAaL at Rs 20,539 crore; EBITDAaL margin at 54.6%, up by 862 bps YoY.
- Consolidated EBIT at Rs 15,621 crore with EBIT margin of 31.6%, up by 729 bps YoY.
 - India business EBIT at Rs 11,815 crore; EBIT margin at 31.4%, up by 891 bps YoY.
- Consolidated Net income (before Exceptional items) at Rs 5,948 crore vs Rs 2,925 crore in Q1'25.
- Net Debt (excluding lease obligations) to EBITDAaL ratio (annualised) is at 1.26 times.
- Industry leading operational indicators driven by strong business momentum and razor sharp execution
 - Smartphone data customers up by 21.3 Mn YoY & 3.9 Mn QoQ, 77% of overall mobile customer base.
 - Postpaid net adds of 0.7 Mn in Q1'26.
 - Mobile ARPU increased to Rs 250 in Q1'26 vs Rs 211 in Q1'25.
 - Mobile data consumption up 21.6% YoY, consumption per customer at 26.9 GB per month.
 - Homes business saw step- up in customer additions with 939K net adds in Q1'26.

- Customer base stands at 169 million
- Capex for the quarter at Rs 1,034 crore

Gurugram, India, August 05, 2025: Bharti Airtel Limited (“Bharti Airtel” or “the Company”) today announced its audited consolidated results for the quarter ended June 30, 2025.

Q1’26 Performance:

Consolidated revenues for Q1’26 at Rs 49,463 crore, grew 28.5% YoY & 3.3% QoQ, driven by strong momentum in both India and Africa. Consolidated EBITDA for Q1’26 at Rs 28,167 crore with EBITDA margin of 56.9%.

India revenues for Q1’26 at Rs 37,585 crore, increased by 29.0%YoY & 2.3% QoQ. Mobile revenues grew 21.6% YoY on the back of improved realizations and customer additions. We continue to deliver industry leading ARPU growth. ARPU for the quarter stood at Rs 250 as compared to Rs 211 in Q1’25.

We have further fortified our leadership in the postpaid segment, maintaining momentum with net additions of 0.7 million customers in Q1 26, bringing our total customer base to 26.6 million.

Our share in the smartphone data customers also experienced sustained growth, with an increase of 21.3 million users, reflecting an 8.2% YoY rise.

During the quarter, we expanded our nationwide network by installing ~1.8K additional towers and ~7.5K mobile broadband stations to enhance customer experience. Demonstrating our commitment to delivering superior network quality, we have invested in the addition of ~15.4K towers and deployed 43.7K kms of fiber, on YoY basis.

The Homes business demonstrated robust momentum, achieving 25.7% YoY revenue growth driven by record high customer additions. During the quarter, accelerated expansion of our Fixed Wireless Access (FWA) network resulting in total Wifi net addition of 939 K customers, bringing the total customer base to 11.0 million. Additionally, we expanded our home-pass network significantly, adding ~1.6 million fibre home passes in the quarter.

Bharti Airtel launched new entertainment packs for its prepaid customers, offering access to over 25 leading OTT platforms – including Netflix, Zee5, Sony Liv and many more. This allows customers to enjoy diverse content from multiple platforms through a single subscription, enhancing convenience, flexibility and value for users.

Airtel Business revenue declined by 7.7% YoY, impacted by stated objective of focusing on quality revenues and discontinue low margin business. Underlying growth remains steady driven by both core connectivity and new age digital services.

Airtel Business launched “Business Name Display” (BND) – an industry first solution that allows enterprises to display their brand name on recipients’ mobile screens, enhancing customer trust and creating a safer, smarter and more transparent communication experience for both businesses and customers.

Digital TV posts revenue of Rs 763 crore with customer base of 15.7 million. Additionally, IPTV services, which were rolled out last quarter, continue to gain traction with encouraging customer response as we added 0.65 million customers.

Consolidated EBITDA witnessed an increase of 41.2% YoY to Rs 28,167 crore in Q1’26. Consolidated EBITDA margin is 56.9% with India EBITDA margin at 59.5% in Q1’26.

Consolidated EBIT increased by 67.0% YoY to Rs 15,621 crore. Consolidated Net Income before exceptional items for the quarter stands at Rs 5,948 crore.

Bharti Airtel Limited – Media Release August 5, 2025

Consolidated Net Debt to EBITDA ratio (annualized) stood at 1.70 times as compared to 1.86 times as on March 31, 2025. Consolidated Net Debt (excluding lease obligations) to EBITDAaL ratio stood at 1.26 times.

In a statement, Gopal Vittal, Vice- Chairman and MD, said:

We delivered another quarter of consistent growth, with consolidated revenues at 49,463 crores growing 3.3% on a sequential basis. Our India revenue, including Passive Infrastructure Services, increased by 2.3% sequentially. Africa reported solid performance with 6.7% growth in constant currency.

India Mobile business recorded a sequential growth of 2.9%, driven by continued focus on portfolio premiumization and an additional day in the quarter. We added ~4 million smartphone data customers and maintained an industry-leading Average Revenue Per User (ARPU) of Rs. 250 for Q1FY26.

Our Homes business reported solid performance with a life time high quarterly net additions of 939K, resulting in a sequential revenue growth of 7.6%. Our IPTV expansion is ramping up well with strong acceptance from customers as it delivers superior experience and convenience. Airtel Business revenue decline is reflecting full impact of portfolio restructuring undertaken last year. The underlying growth trajectory remains steady at a sequential growth of 2.0 % with continued improvement in funnel and orderbook.

Our digital network across India and Africa now serves over 600 million customers. This is a testament to our passion for connecting customers through sustained investments and superior customer experience. Our balance sheet continues to demonstrate strength, supported by solid cash flow generation and disciplined capital allocation.

Supplemental Disclosures

Safe Harbor: - Some information in this report may contain forward-looking statements. We have based these forward-looking statements on our current beliefs, expectations and intentions as to facts, actions and events that will or may occur in the future. Such statements generally are identified by forward-looking words such as “believe,” “plan,” “anticipate,” “continue,” “estimate,” “expect,” “may,” “will” or other similar words.

A forward-looking statement may include a statement of the assumptions or basis underlying the forward-looking statement. We have chosen these assumptions or basis in good faith, and we believe that they are reasonable in all material respects. However, we caution you that forward-looking statements and assumed facts or basis almost always vary from actual results, and the differences between the results implied by the forward-looking statements and assumed facts or basis and actual results can be material, depending on the circumstances. You should also keep in mind that any forward-looking statement made by us in this report or elsewhere speaks only as of the date on which we made it. New risks and uncertainties come up from time to time, and it is impossible for us to predict these events or how they may affect us. We have no duty to, and do not intend to, update or revise the forward-looking statements in this report after the date hereof. In light of these risks and uncertainties, any forward-looking statement made in this report or elsewhere may or may not occur and has to be understood and read along with this supplemental disclosure.

General Risk: - Investment in equity and equity related securities involve a degree of risk and investors should not invest any funds in this Company without necessary diligence and relying on their own examination of Bharti Airtel, along with the equity investment risk which doesn't guarantee capital protection.

Convenience translation: - We publish our financial statements in Indian Rupees. All references herein to “Indian Rupees” and “Rs” are to Indian Rupees and all references herein to “US dollars” and “US\$” are to United States dollars. Translation of income statement items have been made from Indian Rupees to United States dollars (unless otherwise indicated) using the respective quarter average rate. Translation of Statement of financial position items have been made from Indian Rupees to United States dollars (unless otherwise indicated) using the closing rate. The rates announced by the Reserve Bank of India are being used as the Reference rate for respective translations. All amounts translated into United States dollars as described above are provided solely for the convenience of the reader, and no representation is made that the Indian Rupees or United States dollar amounts referred to herein could have been or could be converted into United States dollars or Indian Rupees respectively, as the case may be, at any particular rate, the above rates or at all. Any discrepancies in any table between totals and sums of the amounts listed are due to rounding off.

Functional Translation: - Africa financials reported in the quarterly report are in its functional currency i.e. US\$ (Refer “Section 10 Key Accounting Policies as per Ind-AS”). South Asia financials reported in the quarterly report are in its presentation currency i.e. Rs.

Use of Certain Non-GAAP measures: - This result announcement contains certain information on the Company's results of operations and cash flows that have been derived from amounts calculated in accordance with Indian Accounting Standards (Ind-AS), but are not in themselves Ind-AS measures. They should not be viewed in isolation as alternatives to the equivalent Ind-AS measures and should be read in conjunction with the equivalent Ind-AS measures.

Further, disclosures are also provided under “7.3 Use of Non - GAAP Financial Information” on page 34

SECTION 2

BHARTI AIRTEL - AN INTRODUCTION

2.1 Introduction

We are one of the world's leading providers of telecommunication services with presence in 17 countries representing India, 14 countries in Africa and presence in Bangladesh and Sri Lanka through associate entities. As per United Nations data published on January 01, 2013, the population of these 17 countries represents around 24% of the world's population.

We provide telecom services under wireless and fixed line technology, national and international long distance connectivity and Digital TV; and complete integrated telecom solutions to our enterprise customers. All these services are rendered under a unified brand "airtel". 'Airtel Money' (known as 'Airtel Payments Bank' in India) extends our product portfolio to further our financial inclusion agenda and offers convenience of payments and money transfers on mobile phones over secure and stable platforms in India, and across all 14 countries in Africa. The Company also has investments in Tower Infrastructure pertaining to telecom operations through its subsidiary entity.

The shares of Bharti Airtel Ltd are listed on the Indian Stock Exchanges, NSE & BSE.

2.2 Business Divisions

2.2.1 India & South Asia – We follow a segmented approach for our operations in India with clear focus on retail and corporate customers.

B2C Services:

Mobile Services (India) –We offer postpaid, pre-paid, roaming, internet and other value added services. Our distribution channel is spread across 1.0 Mn outlets with network presence in 7,918 census and 814,916 non-census towns and villages in India covering approximately 96.4% of the country's population.

Our services are spread across the country offering high-speed internet access and a host of innovative services like Mobile TV, video calls, live-streaming videos, gaming, buffer-less HD video streaming and multi-tasking capabilities to our customers.

Our national long distance infrastructure provides a pan-India reach with 497,399 R Kms of optical fiber.

Homes Services – The Company provides fixed-line telephone and broadband services for homes in 1,512 cities (including LCOs) pan-India. The product offerings include high-speed broadband on copper and fiber and voice connectivity, up to the speeds of 1 Gbps for the home segment.

Digital TV Services – Our Direct-To-Home (DTH) platform offers both standard and high definition (HD) digital TV services with 3D capabilities and Dolby surround sound. We currently offer a total of 709 channels including 99 HD channels, 67 SVOD services, 4 international channels and 5 interactive services.

IPTV services were launched in Q4'25 covering more than 2000 cities.

B2B Services:

Airtel Business – We are India's leading and most trusted provider of ICT services with a diverse portfolio of services to enterprises, Governments, carriers and small and medium business. For small and medium business, Airtel is a trusted solution provider for

fixed-line voice (PRIs), data and other connectivity solutions like MPLS, VoIP, SIP trunking. Additionally, the Company offers solutions to businesses Audio, Video, Web Conferencing, Airtel IQ and CPaaS. Cloud portfolio is also an integral part of its office solutions suite.

Along with voice, data and video, our services also include network integration, data centers, managed services, enterprise mobility applications and digital media. Airtel Business provides 'One solution, bill, support, face' experience to our customers.

We offer global services in both voice and data including VAS services like International Toll Free Services and SMS hubbing. Our strategically located submarine cables and satellite network enable our customers to connect across the world including hard-to-reach areas. Our global network runs across 400,000 Rkms+ (including IRU), covering 50 countries and 5 continents.

Passive Infrastructure Services- We offer passive infrastructure service through our subsidiary, Indus Towers Limited (Indus), which is one of the largest tower infrastructure providers in the country as well as globally. The business of Indus is to acquire, build, own, operate and maintain tower and related infrastructure. The Company provides access to their towers primarily to wireless telecommunications service providers on a shared basis, under long-term contracts. It caters to all wireless telecommunication service providers in India. Indus has a nationwide presence with operations in all 22 telecommunications Circles in India. Indus Towers Limited is listed on NSE and BSE.

South Asia – South Asia represents operations in Sri Lanka and Bangladesh. In Sri Lanka, post our stakeholding sale, we are now operating through our associate entity Dialog Axiata Plc. Our shareholding in Dialog is 10.355% w.e.f June 26, 2024.

In Bangladesh, we operate through our joint venture entity Robi Axiata Ltd. Robi Axiata Limited is a joint venture between Axiata Group Berhad, of Malaysia and Bharti Airtel Limited. Pursuant to IPO of Robi Axiata Limited, our shareholding is 28.18% w.e.f. December 10, 2020.

2.2.2 Africa

Our subsidiary, Airtel Africa plc is present in 14 countries across Africa, namely: Nigeria, Chad, Congo B, Democratic Republic of Congo, Gabon, Madagascar, Niger, Kenya, Malawi, Seychelles, Tanzania, Uganda, Zambia and Rwanda. We offer post-paid, pre-paid, roaming, internet services, content, media & entertainment, and corporate solutions. 3G, 4G data and m-Commerce (Mobile Money) are the next growth engines for the Company in Africa. We offer 3G/4G services and Mobile Money across all 14 countries. Airtel Africa plc is listed on London Stock Exchange (LSE) and Nigeria Stock Exchange (NSE).

2.3 Partners

SingTel, our strategic equity partner, has made one of their largest investments outside Singapore with us. This partnership has enabled us to expand and further enhance the quality of services to our customers. We also pioneered the outsourcing business model with long term strategic partnership in all areas including network equipment, information technology and call center. We partnered with global leaders who share our drive for co-creating innovative and tailor made solutions. To name a few, our strategic partners include Ericsson, Nokia Siemens Networks (NSN), Huawei, Cisco, IBM, Avaya, ZTE, Google, Apple, etc

SECTION 3

FINANCIAL HIGHLIGHTS

SECTION 5

MANAGEMENT DISCUSSION AND ANALYSIS

5.1 Reporting Changes

- Pursuant to the consolidation of Indus Towers Limited w.e.f November 19 '2024, the financial and non-financial information represented in this quarterly report (except for section 7), has been re-casted (basis line-by-line consolidation) for all periods presented to make it comparable.

5.2 India

1. Key Regulatory Developments

A. DoT allows 5G IBS within airport premises

- DoT had prescribed certain restrictions on 5G services in and around airports, vide instructions dated 29.11.2022
- In partial modification of the same, DoT, vide letter dated 09.04.2022, has now allowed the installation and operation of low power In-Building Solutions (IBS) at airport buildings as well as other associated enclosed places for providing C-band 5G/ IMT services in the frequency band 3300-3670 MHz, subject to certain conditions like adherence to power limits and no-interference with airside operations

B. TRAI Recommendations on the "Issues Related to Critical Services in the M2M Sector, and the Transfer of Ownership of M2M SIMs" dated 22.04.2025

- **Critical IoT Services:**
 - Twin test for classification of a service as 'critical IoT service':
 - 1) Whether it demands ultra-reliable low-latency M2M connectivity with very high availability?
 - 2) Whether any disruption of the M2M connectivity used for its delivery will have a debilitating impact on national security, economy, public health, or public safety?
 - Specific services/applications within a domain/sector to be classified as 'critical IoT service' - by the concerned ministry/regulator, in consultation with DoT
 - Critical IoT services' may be provided using any M2M technology (wired/wireless using licensed/unlicensed spectrum) as long as it meets the telecom service performance benchmarks (like latency, reliability, availability, etc.) notified by the concerned ministry/regulator
 - M2M communication modules embedded/plugged in all IoT devices to be brought under MTCTE framework in a phased manner - starting with IoT devices deployed in critical sectors identified by NCIIPC and then those in remaining sectors subsequently.

• Transfer of Ownership of M2M SIMs:

- DoT should establish a framework for transfer of M2MSP registration in case of merger, demerger, acquisition etc.
- DoT should introduce an enabling provision for transfer of ownership of M2M SIMs on the following conditions:
 - 1) Transferor to provide NOC
 - 2) Transferee to provide undertaking to take over all responsibilities of M2M SIMs to the concerned access service providers.
- Transferee to maintain updated details of physical custodians of machines fitted with M2M SIMs and provide the same to concerned access service providers.
- However, as per the provisions of the Telecom Regulatory Authority of India Act, 1997, TRAI's recommendations are not binding upon the Central Government.

C. Reserve Bank of India (Digital Lending) Directions, 2025

- On 08.05.2025, the Reserve Bank of India (RBI) issued the "Reserve Bank of India (Digital Lending) Directions, 2025", which consolidates and supersedes the following guidelines:
 - Digital Lending Guidelines (DLG), 2022
 - Default Loss Guarantee in Digital Lending (FLDG), 2023
 - Fair Practices and Outsourcing Guidelines for loans sourced through digital lending platforms
- The new Directions introduce two additional compliance requirements:
 - **Clause 6:** Multi-lender LSP Arrangements [to be effective from 01.11.2025)
 - Lending Service Providers (LSPs) engaging with multiple Regulated Entities (REs) must display all matching loan offers on the Digital Lending App, including unmatched lenders' names.
 - Borrower-lender matching mechanism must be consistent and documented.
 - Displayed loan offers should allow fair comparison across options.
 - Loan offer ranking and display must be objective and unbiased without the adoption of any dark patterns to push or promote the products of a particular lender.
 - **Clause 17:** Reporting of Digital Lending Apps to RBI (by RE) [to be effective from 15.06.2025]:
 - REs must report their use of Digital Lending Apps to the RBI, including a certification from their Compliance Officer that the Digital Lending Apps used:
 - 1) Provides a link to the RE's website
 - 2) Displays the Nodal Grievance Redressal Officer's details in a prominent place
 - 3) Complies with data collection and storage norms

D. TRAI Recommendations on "Terms and Conditions for the Assignment of Spectrum for Certain Satellite-Based Commercial Communication Services" dated 09.05.2025

- **Spectrum Charging Methodology:**
 - NGSO-based FSS services providing data communication and Internet services - 4% of AGR + additional annual charge of INR 500 per subscriber in urban areas (subject to minimum of annual charges of INR 3,500/- per MHz)
Govt. may also consider providing subsidy for each NGSO-based FSS user terminal in unserved/underserved regions of the rural and remote areas - either as Direct Benefit Transfer to eligible subscribers or as a direct payment to the service provider from the Digital Bharat Nidhi (DBN/USOF).
 - GSO-based FSS services providing data communication and Internet services - 4% of AGR (subject to minimum of annual charges of INR 3,500/- per MHz)
 - GSO/NGSO-based MSS services providing voice, text, data, and internet services - 4% of AGR (subject to minimum of annual charges of INR 3,500/- per MHz)
- **Validity Period:** 5 years; may be extended by 2 years depending on market conditions
- **Frequency bands:**
 - NGSO-based Fixed Satellite Services (FSS) providing data communication and Internet services - Ku, Ka, Q/V bands for user & feeder links
 - GSO/NGSO-based Mobile Satellite Services (MSS) providing voice, text, data, and internet services - L, S bands for user links; C, Ku, Ka, Q/V bands for feeders links
- **Interference Mitigation & Coordination:**
 - Licensees should comply with relevant provisions of ITU's Radio Regulations ("ITU-RR").
 - In the bands where spectrum is assigned on shared basis, licensees should coordinate among themselves in good faith.
 - Govt., with the help of the Telecom Engineering Center (TEC), may also prescribe a framework for spectrum sharing - including conditions like maximum EPFD limits, spectrum splitting (as prescribed by FCC, as a last resort), etc.
 - Govt. may also prescribe a coordination distance between two satellite earth station gateways ("SESGs").
- **Coexistence with IMT:**
 - Provisions of ITU-RR (including Art. 21) and ITU recommendations (including WRC-19 Resolution 243) should be made applicable.
 - In the bands already identified for IMT, like 42.5-43.5 GHz, SESGs may be allowed to be set up at uninhabited/remote locations on case-to-case basis, where there is a less likelihood of IMT services to come up - For this purpose, DoT may prescribe an exclusion zone requirement, and a software defined automated process to provide feasibility results.
- **Scarcity of Gateway Sites:** SESGs should be installed and commissioned within 12 months of grant of

permission, to mitigate the risk of scarcity of gateway sites.

- **Application Processing:** Spectrum should be assigned within 30 days from date of application, provided the licensee has in-principle clearance of satellite network.
- **Surrender:** Licensees may surrender the spectrum, with a prior notice of:
 - 60 days - to the Govt., TRAI & each of its subscribers - in case the surrender is likely to result in disruption/closure of services for consumers
 - 30 days - to the Govt. & TRAI - in other cases
- However, as per the provisions of the Telecom Regulatory Authority of India Act, 1997, TRAI's recommendations are not binding upon the Central Government.

E. Telecommunications (Framework to Notify Standards, Conformity Assessment and Certification) Rules, 2025 dated 16.05.2025

- **Standards and Conformity Measures:**
 - Telecommunication Engineering Centre (TEC) and National Centre for Communication Security (NCCS) will be the "Appropriate Authorities".
 - All standards and conformity measures to be notified post a 60-day public consultation.
 - Provisional standards may still be issued, followed by stakeholder consultation within 60 days.
 - Notified standards to be reviewed once every five years.
 - Concurrent operation of revised and existing standards may be permitted for requisite period.
- **Conformity Assessment:**
 - Equipment cannot be sold/deployed without a Certificate of Conformity Assessment.
 - Certification may now be done by TEC/NCCS or any designated Certification Body.
 - Conformity Assessment Bodies (labs) may be Indian or ILAC-accredited foreign labs as well (excluding bordering countries).
- **Exemptions:**
 - Telecommunication equipment used for R&D, demo, regulatory sandbox testing, or personal use are exempt from the Rules.
- **Inspection & Monitoring:**
 - Appropriate Authorities or DoT-designated officers may inspect facilities and request information.
 - Inspection scope now tied specifically to "relevant standards"

F. Telecommunication Tariff (Seventy First Amendment) Order, 2025 dated 16.06.2025

- Every service provider shall offer all of its retail FTTH broadband plans upto 200 Mbps to PDOs under PM-WANI scheme, at tariff not exceeding twice the tariff applicable to retail subscribers for the corresponding FTTH broadband plan.

- This is limited to retail FTTH broadband tariffs offered to PDOs under PM-WANI scheme for bandwidths upto 200 Mbps, and does not extend to tariffs for any other type of internet connectivity sought by PDOs.
- TRAI may review these tariffs, depending on proliferation and usage of PM-WANI Scheme.

2. Key Company Developments

A. Digital Innovations & Customer Delight

Airtel is consistently working on strengthening its innovative core to anticipate and lead change in the global digital landscape.

- Airtel enhanced its AI-powered spam detection tool with two major upgrades – language alerts and international spam call alerts. Customers can now receive spam alerts for calls and SMS in nine Indian languages, including Hindi, Marathi, Bengali, and Tamil, catering to India's linguistic diversity. Additionally, the tool now screens and alerts users about spam originating from international networks, addressing a 12% rise in overseas spam calls over the past six months. These features, free for all Airtel customers and auto-activated without any service request, are currently available on Android devices. Airtel remains committed to evolving its solutions based on customer feedback and staying ahead of emerging spam threats through continuous innovation.
- Bharti Airtel Limited and its subsidiary Bharti Hexacom Limited have signed definitive agreements with Adani Data Networks Limited to acquire rights to 400 MHz of spectrum in the 26 GHz band across six Indian states: Gujarat (100 MHz), Mumbai (100 MHz), Andhra Pradesh (50 MHz), Rajasthan (50 MHz), Karnataka (50 MHz), and Tamil Nadu (50 MHz). The transaction is pending standard regulatory approvals and fulfillment of conditions outlined in the Spectrum Trading Guidelines.
- Bharti Airtel launched India's first unlimited* international roaming (IR) plans, offering unlimited data across 189 countries, simplifying and enhancing global connectivity for customers. Additionally, Airtel introduced a unique one-year recharge plan priced at ₹4,000 for NRIs, providing 5GB data and 100 voice minutes abroad, along with daily 1.5GB data and unlimited calls in India using the same number.

The plans include benefits like in-flight connectivity, automatic activation upon landing, 24x7 support, and auto-renewal for frequent travelers. Airtel's IR offerings eliminate the need for multiple packs or local SIMs, providing a hassle-free, affordable solution managed entirely via the Airtel Thanks app. These innovations aim to deliver greater value and convenience for globetrotters, with fair usage charges applying.

**Fair usage charge apply*

- Airtel Business launched 'Business Name Display' (BND) - an industry-first solution that allows enterprises to display their brand name on recipients' mobile screens during outgoing calls, enhancing customer trust

and distinguishing legitimate calls from spam. This addresses the issue where important business calls were mistakenly flagged as spam, causing customers to miss critical communications from banks, healthcare, delivery services, and more.

- In a pioneering move, Bharti Airtel launched AI-powered fraud detection solution that detects and blocks malicious websites in real time across all communication platforms, including emails, browsers, SMS, and OTT apps like WhatsApp, Telegram, Facebook, and Instagram. This service is auto-enabled and free for all Airtel mobile and broadband customers. When a user attempts to access a flagged malicious site, the system blocks the page and redirects them to a warning explaining the block. Developed in response to rising digital fraud, the multi-tiered AI platform scans over a billion URLs daily, leveraging global and internal threat intelligence to protect users from evolving scams and cyber threats. The solution has demonstrated high accuracy during six months of trials and is currently live in Haryana, with plans for nationwide rollout. Airtel aims to provide customers peace of mind while browsing and is committed to continually enhancing network safety against spam and scams.
- Airtel launched new entertainment packs for prepaid customers, offering access to over 25 leading OTT platforms—including Netflix, JioHotstar, Zee5, SonyLiv, and more—starting at ₹279 for one month. This pack, valued at ₹750, is India's most extensive OTT bundle from a telco, providing a wide range of international, Bollywood, and regional content in over 16 languages. Airtel also offers bundled plans combining unlimited 5G data and calls with OTT access, starting at ₹598 for 28 days. These consolidated packs simplify streaming by allowing customers to enjoy diverse content from multiple platforms through a single subscription, enhancing convenience, flexibility, and value for prepaid users.

B. Strategic Alliances and Partnership

- Bharti Airtel partnered Nokia to deploy its appliance-based Packet Core and Fixed Wireless Access (FWA) solutions, aiming to enhance network performance for its expanding 4G and 5G user base. The collaboration enables seamless 4G/5G integration, increased broadband and enterprise capacity, and supports Airtel for 5G Standalone (SA) readiness. The multi-year rollout spans most of Airtel's service regions and includes advanced network automation by utilizing GenAI-powered orchestration and assurance. The solution helps Airtel reduce operational costs, optimize hardware, and improve service agility—while strengthening Nokia's leadership in India's core network space.
- Bharti Airtel and Google have partnered to offer Airtel's postpaid and Wi-Fi customers 100 GB of Google One cloud storage free for six months. This initiative addresses growing device storage challenges by enabling users to securely back up photos, videos, documents, and WhatsApp chats, simplifying data

management and device switching. The cloud storage is compatible with both Android and iOS platforms and can be shared with up to five additional people at no extra cost. After the six-month free period, customers can continue the subscription for ₹125 per month or opt out anytime. Users can activate the offer via the Airtel Thanks app. This collaboration aims to provide millions of Airtel customers with a reliable, secure, and user-friendly storage solution, enhancing their digital lifestyle by ensuring ample space for personal and professional data.

- Ericsson secured a multi-year Network Operations Center (NOC) managed services contract from Bharti Airtel, reinforcing its 25-year partnership with Airtel. Under this agreement, Ericsson will use intent-based operations from its centralized NOC to manage Airtel's services across 4G, 5G NSA and SA, Fixed Wireless Access (FWA), Private Networks, and Network Slicing nationwide. This collaboration aims to enhance Airtel's network performance, support growing data demands, and enable service diversification to unlock new revenue opportunities. Ericsson's state-of-the-art NOC will manage Airtel's pan-India network while scaling advanced technologies like FWA and Network Slicing.

5.3 Africa

A. Key Company Developments

- In May 2025, the Nigerian Communications Commission (NCC) directed Airtel Nigeria and other operators to transfer all verified unique subscriber records in the SIM registration database from the existing NIN token system to a more advanced and secure platform, the High Availability NIMC Verification Service (HA-NVS). The initial cut-off date for transfer was 27 May 2025 which was subsequently extended multiple times to address the critical outstanding issues with respect to the transfer.

Subsequently, the existing NIN token platform was shut down on 26 June 2025 and on 3 July 2025, the NCC released the framework required for HA-NVS integration. The data migration exercise is still in progress; however, the new customer onboarding process has commenced effective 23 July 2025.

- On 5 May 2025, the Company announced an agreement with SpaceX to bring Starlink's high-speed internet services to its customers in Africa. With this collaboration, Airtel Africa will further enhance its next generation satellite connectivity offerings and augment connectivity for enterprises, businesses and socioeconomic communities like school, health centres etc in most rural parts of Africa.

Currently, SpaceX has acquired the necessary licences in nine out of 14 countries within Airtel Africa's footprint and operating licences for the other five countries are under process.

- Following the conclusion of AGM on 9 July 2025, Jaideep Paul, chief financial officer (CFO) has retired from his position as executive director and CFO. Kamal Dua had become an executive director and assumed

the role of CFO following his appointment at the 2025 AGM.

On 1 April 2025, Cynthia Gordon was appointed as an independent non-executive director who will serve on the Group's Remuneration Committee.

On 9 July 2025, Akhil Gupta retired as a non-executive director of Airtel Africa plc in accordance with the announcement made on 13 May 2025

- On 23 December 2024, the Company announced the commencement of a second share buyback programme that will return up to \$100m to shareholders. This programme is to be phased in two tranches. The company completed the first tranche on 24 April 2025, returning \$45m to shareholders following the purchase of 26.3 million ordinary shares.

Following the completion of the first tranche, on 14 May 2025, the company announced the commencement of the second tranche of the share buy-back amounting to a maximum of \$55 million which is anticipated to end on or before 19 November 2025. Since the commencement of the second tranche, the company has returned \$16.9 million to shareholders following the purchase of 7.1 million ordinary shares as of 30 June 2025.

5.4 Share of Associates/Joint Ventures

A. Airtel Payments Bank Limited

Airtel Payments Bank Limited became an associate of Bharti Airtel Limited w.e.f November 1, 2018.

Key operational and financial performance:

Airtel Payments Bank Limited	Unit	Quarter ended			
		Jun-25	Mar-25	Dec-24	Sep-24

The resultant profit before tax and exceptional items for the quarter was at \$ 246 Mn in constant currency as compared to \$ 202 Mn in the corresponding quarter last year and \$ 210 Mn in the previous quarter. Capital expenditure during the quarter was \$ 121 Mn for Africa operations.

5.6 Bharti's Three Line Graph

The Company tracks its performance on a three-line graph.

The parameters considered for the three-line graph are:

1. Total Revenues i.e. absolute turnover/sales
2. Opex Productivity – this is computed by dividing operating expenses by the total revenues for the respective period. Operating expenses is the sum of (i) employee costs (ii) network operations costs and (iii) selling, general and administrative costs. This ratio depicts the operational efficiencies in the Company
3. Capex Productivity – this is computed by dividing LTM revenue by gross cumulative capex (gross fixed assets and capital work in progress) till date i.e. the physical investments made in the assets creation of the Company. This ratio depicts the asset productivity of the Company.

Given below are the graphs for the last five quarters of the Company:

5.6.1 Bharti Airtel – Consolidated

5.6.2 Bharti Airtel – India

5.6.3 Bharti Airtel – Africa

Note:

- Pursuant to reporting changes on account of consolidation of Indus Towers Ltd., the definition of India geography has changed. Refer Glossary for more details.
- Q3'25 & periods prior to Q3'25 have been re-instated for P&L, Capex, Net Debt, Enterprise Value, Cumulative Investments and total employees to make it comparable. Kindly Refer Section 5.1 "Reporting Changes".
- Capex productivity is on a reported basis for periods prior to Q3'25 & on re-stated basis from Q3'25 onwards.

Derivatives and exchange (gain)/ loss*	(994)	2,000
Investment (income)/ loss	(2,617)	(2,238)
Finance cost (net)	51,993	47,366

Note: Q3'25 & periods prior to Q3'25 have been re-instated for P&L, Capex, Net Debt, Enterprise Value, Cumulative Investments and total employees to make it comparable. Kindly Refer Section 5.1 "Reporting Changes".

*including net monetary gain relating to hyperinflationary accounting for one of our subsidiaries in Africa

7.3 Use of Non-GAAP Financial Information

In presenting and discussing the Company's reported financial position, operating results and cash flows, certain information is derived from amounts calculated in accordance with Ind-AS, but this information is not in itself an expressly permitted GAAP measure. Such non - GAAP measures should not be viewed in isolation as alternatives to the equivalent GAAP measures.

A summary of non - GAAP measures included in this report, together with details where additional information and reconciliation to the nearest equivalent GAAP measure can be found, is shown below.

Non – GAAP measure	Equivalent GAAP measure	Location in this results announcement of reconciliation and further information
Earnings before Interest, Taxation, Depreciation and Amortization (EBITDA)	Profit from operating activities	Page 34
Cash Profit from Operations before Derivative & Exchange (Gain)/Loss	Profit from operating activities	Page 34

7.3.1 Reconciliation of Non-GAAP financial information based on Ind-AS

Particulars	Amount in Rs Mn, except ratios	
	Quarter Ended	
	Jun-25	Jun-24
Profit / (loss) from operating activities before depreciation, amortization and exceptional items To EBITDA		
Profit / (Loss) from Operating Activities	283,475	200,711
Add: Charity and donation	810	490
Less: Finance Income/Derivatives MTM	2,617	1,761
Add: Impact of difference in effective date of Indus Consolidation	0	30,819
EBITDA	281,668	230,259

Reconciliation of Finance Cost		
Finance Cost	54,608	51,524
Less: Finance Income/Derivatives MTM	2,617	1,761
Add: Impact of difference in effective date of Indus Consolidation	0	(2,397)
Finance Cost (net)	51,993	47,366

Profit / (loss) from operating activities before depreciation, amortization and exceptional items to Cash Profit from Operations before Derivative & Exchange Fluctuation		
Profit / (Loss) from Operating Activities	283,475	200,711
Less: Finance cost	54,608	51,524
Add: Derivatives and exchange (gain)/loss	(996)	1,999
Add: Impact of difference in effective date of Indus Consolidation	0	32,805
Cash Profit from Operations before Derivative & Exchange Fluctuation	227,871	183,991

SECTION 10

KEY ACCOUNTING POLICIES AS PER Ind-AS

- Property, Plant and equipment**

Property, plant and equipment (PPE) are stated at cost, net of accumulated depreciation and impairment loss. All direct costs relating to the acquisition and installation of property and equipment are capitalized. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets.

Assets	Years
Buildings	20
Building on leased land	Lease term or 20 years whichever is less
Network equipment	3 – 25
Customer premises equipment	3 – 7
Computer equipment & Servers	3 – 5
Furniture & fixture and office equipment	1 – 5
Vehicles	3 – 5
Aircraft	20
Leasehold improvements	Lease term or 20 years lease term whichever is less

Freehold land is not depreciated. The useful lives, residual values and depreciation method of PPE are reviewed, and adjusted appropriately, at-least as at each financial year so as to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from these assets.

Costs of additions and substantial improvements to property and equipment are capitalized. The costs of maintenance and repairs of property and equipment are charged to operating expenses.

- Goodwill**

Goodwill arising on the acquisition of an entity represents the excess of the cost of acquisition over the fair value of the identifiable net assets of the entity recognized at the date of acquisition. Goodwill is not subject to amortization but is tested for impairment annually and when circumstances indicate, the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than their carrying amount an impairment loss is recognized. Impairment losses relating to goodwill are not reversed in future periods. On disposal of a subsidiary, the attributable amount of goodwill is included in the determination of the profit or loss recognized in the statement of profit and loss on disposal.

- Other Intangible assets**

Intangible assets are recognized when the Group controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Group and the cost of the asset can be measured reliably.

The intangible assets that are acquired in a business combination are recognized at its fair value. Other intangible assets are recognized at cost. Those assets having finite useful life are carried at cost less accumulated amortization and impairment losses, if any. Amortization is computed using the straight-line method over the expected useful life of intangible assets.

The Group has established the estimated useful lives of different categories of intangible assets as follows:

a. Licenses (including spectrum)

Acquired licenses and spectrum are amortized commencing from the date when the related network is available for intended use in the relevant jurisdiction. The useful lives range upto twenty five years.

The revenue-share based fee on licenses / spectrum is charged to the statement of profit and loss in the period such cost is incurred.

b. Software: Software are amortized over the period of license, generally not exceeding five years.

The useful lives and amortization method are reviewed, and adjusted appropriately, at least at each financial year end so as to ensure that the method and period of amortization are consistent with the expected pattern of economic benefits from these assets. The effect of any change in the estimated useful lives and / or amortization method is accounted prospectively, and accordingly the amortization is calculated over the remaining revised useful life.

Further, the cost of intangible assets under development includes the borrowing costs that are directly attributable to the acquisition or construction of qualifying assets and are presented separately in the Balance Sheet.

- Investment in Joint Ventures and Associates**

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Investment in joint ventures and associates are accounted for using equity method from the date on which Group obtains joint control over the joint venture / starts exercising significant influence over the associate.

Accounting policies of the respective joint venture and associate are aligned wherever necessary, so as to ensure consistency with

the accounting policies that are adopted by the Group under Ind AS. The Group's investments in its joint ventures and associates are accounted for using the equity method. Accordingly, the investments are carried at cost less any impairment loss as adjusted for post-acquisition changes in the Group's share of the net assets of investees. Losses of a joint venture or an associate in excess of the Group's interest in that joint venture or associate are not recognized. However, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture or associate.

The said investments are tested for impairment whenever circumstances indicate that their carrying values may exceed the recoverable amount (viz. higher of the fair value less costs to sell and the value-in-use). If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of investment and its carrying value.

• Leases

The Group, at the inception of a contract, assesses the contract as, or containing, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether the contract involves the use of an identified asset, the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and the Group has the right to direct the use of the asset.

Group as a lessee

The Group recognizes a right-of-use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee in the Balance Sheet. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using incremental borrowing rate (as the rate implicit in the lease cannot be readily determined). Lease liabilities include the net present value of fixed payments (including any in-substance fixed payments), any variable lease payments that are based on consumer price index ('CPI'), the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Subsequently, the lease liability is measured at amortized cost using the effective interest method. It is re-measured when there is a change in future lease payments including due to changes in CPI or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or when the lease contract is modified and the lease modification is not accounted for as a separate lease. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the related right-of-use asset has been reduced to zero.

Right-of-use assets are measured at cost comprising the amount of the initial measurement of lease liability, any lease payments made at or before the commencement date, any initial direct costs less any lease incentives received.

Subsequent to initial recognition, right-of-use asset are stated at cost less accumulated depreciation and any impairment losses and adjusted for certain re-measurements of the lease liability. Depreciation is computed using the straight-line method from the commencement date to the end of the useful life of the underlying asset or the end of the lease term, whichever is shorter. The estimated useful lives of right-of-use assets are determined on the same basis as those of the underlying property and equipment.

In the Balance Sheet, the right-of-use assets and lease liabilities are presented separately.

When a contract includes lease and non-lease components, the Group allocates the consideration in the contract on the basis of the relative stand-alone prices of each lease component and the aggregate stand-alone price of the non-lease components.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Group as a lessor

Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Amounts due from lessees under a finance lease are recognized as receivables at an amount equal to the net investment in the leased assets. Finance lease income is allocated to the periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the finance lease.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight line basis over the lease term.

When a contract includes lease and non-lease components, the Group applies Ind AS 115 'Revenue from Contracts with Customers' to allocate the consideration under the contract to each component.

The Group enters into 'Indefeasible right to use' ('IRU') arrangements wherein the right to use the assets is given over the substantial part of the asset life. However, as the title to the assets and the significant risks associated with the operation and maintenance of these assets remains with the Group, such arrangements are recognized as operating lease. The contracted price is recognized as revenue during the tenure of the agreement. Unearned IRU revenue received in advance is presented as deferred revenue within liabilities in the Balance Sheet.

• Derivative financial instruments

Derivative financial instruments, including separated embedded derivatives, that are not designated as hedging instruments in a hedging relationship are classified as financial instruments at fair value through profit or loss - Held for trading. Such derivative financial instruments are initially recognized at fair value. They are subsequently re-measured at their fair value, with changes in fair value being recognized in the statement of profit and loss.

- **Hedging activities**

i. Net investment hedge

The Group hedges its certain net investment in certain foreign subsidiaries, which are accounted for similar to cash flow hedges. Accordingly, any foreign exchange differences on the hedging instrument (viz. borrowings) relating to the effective portion of the hedge is recognized in other comprehensive income as foreign currency translation reserve within other components of equity, so as to offset the change in the value of the net investment being hedged. The ineffective portion of the gain or loss on these hedges is immediately recognized in the statement of profit and loss. The amounts accumulated in equity are included in the statement of profit and loss when the foreign operation is disposed or partially disposed.

- **Revenue recognition**

Revenue is recognized upon transfer of control of promised products or services to customer at the amount of transaction price (net of variable consideration) which the Group has received or expects to receive in exchange of those products or services, net of any taxes / duties, discounts and process waivers. In order to determine if it is acting as a principal or as an agent, the Group assesses whether it is primarily responsible for fulfilling the performance obligation and whether it controls the promised service before transfer to customers. Revenue is recognised when, or as, each distinct performance obligation is satisfied. The main categories of revenue and the basis of recognition are as follows:

(i) Service revenues

Service revenues mainly pertain to usage, subscription and activation onboarding for voice, data, messaging and value added services and Direct to Home (DTH). It also includes revenue from interconnection / roaming charges for usage of the Group's network by other operators for voice, data, messaging and signaling services, which are recognized upon transfer of control of services over time. Service revenues also includes rental revenue from leasing of passive infrastructure, rental revenue for use of sites and energy revenue for the provision of energy for operation of sites. Usage charges are recognized based on actual usage. Subscription charges are recognized over the estimated customer relationship period or subscription pack validity period, whichever is lower. Customer onboarding revenue and associated cost is recognized upon successful onboarding of customer i.e. upfront. Revenues in excess of invoicing are classified as unbilled revenue while invoicing / collection in excess of revenue are classified as deferred revenue / advance from customer.

The billing / collection in excess of revenue recognized is presented as deferred revenue in the Balance Sheet whereas unbilled revenue is recognized under other current financial assets. Certain business services revenue include revenue from registration and installation, which are amortized over the period of agreement since the date of activation of service.

Revenues from long distance operations comprise of voice services and bandwidth services (including installation), which are recognized on provision of services and over the period of respective arrangements.

As part of the mobile money services, the Group earns commission from merchants for facilitating recharges, bill payments and other merchant payments. It also earns commission on transfer of monies from one customer wallet to another. Such commissions are recognized as revenue at a point in time on fulfilment of those services by the Group.

(ii) Multiple element arrangements

The Group has entered into certain multiple-element revenue arrangements which involve the delivery or performance of multiple products, services or rights to use assets. At the inception of the arrangement, all the deliverables therein are evaluated to determine whether they represent distinct performance obligations and if so, they are accounted for separately.

Total consideration related to the multiple element arrangements is allocated to each performance obligation based on their standalone selling prices.

(iii) Equipment sales

Equipment sales mainly pertain to sale of telecommunication equipment and related accessories, for which revenue is recognized when the control of such equipment is transferred to the customer. However, in case of equipment sale forming part of multiple-element revenue arrangements which is not distinct performance obligation, revenue is recognized over the customer relationship period.

(iv) Interest Income

The interest income is recognized using the effective interest rate method.

(v) Dividend Income

Dividend income is recognized when the Group's right to receive the payment is established.

- **Cost to obtain or fulfill a contract with a customer**

The Group incurs certain cost or fulfill contract with the customer viz. intermediary commission, etc. where based on Group's estimate of historic average customer life derived from customer churn rate is longer than 12 months, such costs are deferred and are recognized over the average expected customer life.

- **Exceptional items**

Exceptional items refer to items of income or expense within the statement of profit and loss from ordinary activities which are non-recurring and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Group.

- **Foreign currency transactions**

(i) Functional and presentation currency

The financial statements are presented in Indian Rupees, which is the functional, and presentation currency of the Company.

The items included in financial statements of each of the Group's entities are measured using the currency of primary economic environment in which the entity operates (i.e. 'functional currency').

(ii) Transactions and balances

Transactions in foreign currencies are initially recorded in the relevant functional currency at the exchange rate prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the closing exchange rate prevailing as at the reporting date with the resulting foreign exchange differences, on subsequent re-statement / settlement, recognized in the statement of profit and loss. Non-monetary assets and liabilities denominated in foreign currencies are translated into the functional currency using the exchange rate prevalent, at the date of initial recognition (in case they are measured at historical cost) or at the date when the fair value is determined (in case they are measured at fair value) – the resulting foreign exchange difference, on subsequent re-statement / settlement, recognised in the statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive income or directly in equity

(iii) Foreign operations

The assets and liabilities of foreign operations (including the goodwill and fair value adjustments arising on the acquisition of foreign entities) are translated into Rupees at the exchange rates prevailing at the reporting date whereas their statements of profit and loss are translated into Rupees at monthly average exchange rates and the equity is recorded at the historical rate. The resulting exchange differences arising on the translation are recognized in other comprehensive income and held in foreign currency translation reserve. On disposal of a foreign operation (that is, disposal involving loss of control), the component of other comprehensive income relating to that particular foreign operation is reclassified to profit or loss.

(iv) Net Investment in Foreign operations

When a monetary item forms part of the Group's net investment in a foreign operation, the exchange differences are then recognized

initially in other comprehensive income and are held within the foreign currency translation reserve (FCTR). Such FCTR is reclassified from equity to profit and loss on disposal of the foreign operation.

• Taxes

Current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date in the respective countries where the Group entities operate and generate taxable income.

Deferred tax is recognized on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. However, deferred tax are not recognized if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Further, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. Moreover, deferred tax is recognized on temporary differences arising on investments in subsidiaries, joint ventures and associates - unless the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The unrecognized deferred tax assets / carrying amount of deferred tax assets are reviewed at each reporting date for recoverability and adjusted appropriately.

• Transactions with non-controlling interests

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The differences between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity

SECTION 11

GLOSSARY

Technical and Industry Terms

Company Related

Asset Turnover	Asset Turnover is defined as total revenues, for the preceding (last) 12 months from the end of the relevant period, divided by average assets. Asset is defined as the sum of non-current assets and net current assets. Net current assets are computed by subtracting current liabilities from current assets. Average assets is calculated by considering average of Opening and closing assets for the relevant period.
Average Customers	Average customers are derived by computing the average of the monthly average customers for the relevant period.
Average Co-locations	Average co-locations are derived by computing the average of the Opening and Closing co-locations for the relevant period.
Average Sharing Factor	It is calculated as the average of the opening and closing number of co-locations divided by the average of the opening and closing number of towers for the relevant period.
Average Towers	Average towers are derived by computing the average of the Opening and Closing towers for the relevant period.
Book Value Per Equity Share	Equity attributable to the holder's of parent as at the end of the relevant period divided by outstanding equity shares as at the end of the relevant period.
Capex	It includes investment in gross fixed assets and capital work in progress for the period.
Capital Employed	Capital Employed is defined as sum of equity attributable to parent & non-controlling interest and net debt.
Constant Currency (Africa)	The Group has presented certain financial information that is calculated by translating the results at a fixed 'constant currency' exchange rate, which is done to measure the organic performance of the Group and represents the performance of the business in a better way. Constant currency amounts and growth rates are calculated using closing exchange rates as of 31 March 2025 for all reporting regions and service segments.
Cumulative Investments	Cumulative Investments comprises of gross value of property, plant & equipment (including CWIP & capital advances) and intangibles including investment in associates.
Cash Profit From Operations before Derivative & Exchange Fluctuation	It is not an Ind-AS measure and is defined as profit from operating activities before depreciation, amortization and exceptional items adjusted for interest expense before adjusting for derivative & exchange (gain)/ loss.
Churn	Churn is calculated by dividing the total number of disconnections during the relevant period by the average customers; and dividing the result by the number of months in the relevant period.
Closing Sharing Factor	Closing Sharing factor is calculated as the closing number of co-locations divided by closing number of towers as at the end of relevant period.
Co-locations	Co-location is the total number of sharing operators at a tower, and where there is a single operator at a tower, 'co-location' refers to that single operator. Co-locations as referred to are revenue generating Co-locations.
Customer Base	Customers generating revenue through recharge, billing or any outgoing activity.
Customers Per Employee	Number of customers on networks of a business unit as at end of the relevant period divided by number of employees in the respective business unit as at end of the relevant period.
Data Customer Base	A customer who used at least 1 MB on GPRS / 3G / 4G network in the last 30 days.

Data Usage per Customer	It is calculated by dividing the total MBs consumed on the network during the relevant period by the average data customer base; and dividing the result by the number of months in the relevant period.
Digital TV Services	Direct to Home broadcast service including IPTV
Earnings Per Basic Share	It is computed by dividing net income attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period.
Earnings Per Diluted Share	The calculation of Net Profit/ (loss) per diluted share adjusts net profit or loss and the weighted average number of ordinary shares outstanding, to give effect to all dilutive potential ordinary shares that were outstanding during the year. Net profit or loss attributable to ordinary shareholders is adjusted for the after-tax effect of the following: (1) dividends on potential ordinary shares (for example, dilutive convertible preferred shares); (2) interest recognized on potential ordinary shares (for example, dilutive convertible debt); and (3) any other changes in income or expense resulting from the conversion of dilutive potential ordinary shares (e.g., an entity's contribution to its non-discretionary employee profit-sharing plan may be revised based on changes in net profit due to the effects of items discussed above).
EBITDA	Earnings/ (loss) before interest, taxation, depreciation and amortization. It is not an Ind-AS measure and is defined as profit from operating activities before depreciation, amortization and exceptional items adjusted for charity and donation, finance income (part of other income) and license fees on finance income.
EBITDAaL	Earnings/ (loss) before interest, taxation, depreciation and amortization. It is not an Ind-AS measure and is defined as profit from operating activities before depreciation, amortization and exceptional items, adjusted for interest on lease liabilities and repayment of lease liabilities charity & donation, finance income (part of other income) and license fees on finance income.
EBITDA Margin	It is computed by dividing EBITDA for the relevant period by total revenues for the relevant period.
EBITDAaL Margin	It is computed by dividing EBITDAaL for the relevant period by total revenues for the relevant period.
EBIT	EBITDA adjusted for depreciation and amortization.
Enterprise Valuation (EV)	Calculated as sum of Market Capitalization, Net Debt and finance lease obligations as at the end of the relevant period.
EV / EBITDA (times)	For full year ended March 31 2023, 2024 and 2025, It is computed by dividing Enterprise Valuation as at the end of the relevant period (EV) by EBITDA for the relevant period (LTM). For quarterly computation, Computed by dividing Enterprise Valuation as at the end of the relevant period (EV) by annualized EBITDA for the relevant period.
Finance Lease Obligation (FLO)	Finance Lease Obligation represents present value of future obligation for assets taken on finance lease.
Gross Revenue per Employee per month	It is computed by dividing the Gross Revenue (net of inter-segment eliminations) by the closing number of employees in a given business unit and number of months in the relevant period.

Interest Coverage Ratio	EBITDA for the relevant period divided by interest on borrowing for the relevant period.
India	Pursuant to reporting changes on account of consolidation of Indus Towers Limited, the definition of India geography has changed. India represents operational performance including Passive Infrastructure Services (Indus Tower Limited) for all periods presented.
Lean	Lean products are primarily deployed for network densification – by plugging coverage gaps, providing localized coverage in low population areas, and augmenting the existing coverage and capacity in a specific area. They operate on limited spectrum bands and provide a limited coverage. They have fixed height and capacity for power and antenna loading.
Macro	Macro products are primarily deployed to provide coverage and capacity. They operate on all available spectrum bands and can have a coverage up to a few kilometers. These are fully configurable sites with augmentable capacity for power and antenna loading to meet customer upgrade and network change requirement.
Market Capitalization	Number of issued and outstanding shares as at end of the period multiplied by closing market price (BSE) as at end of the period.
Mobile Broadband Base stations	It includes all the 3G and 4G Base stations deployed across all technologies i.e. 900/1800/2100/2300 Mhz bands.
Smartphone Data Customer	A customer who used at least 1 MB on 4G/5G network in the last 30 days.
Mobile Broadband Towers	It means the total number of network towers (defined below) in which unique number of either 3G or 4G Base stations are deployed, irrespective of their technologies. Total numbers of Mobile Broadband Towers are subset of Total Network Towers.
Minutes on the network	Duration in minutes for which a customer uses the network. It is typically expressed over a period of one month. It includes incoming, outgoing and in-roaming minutes.
Network Towers	Comprises of Base Transmission System (BTS) which holds the radio trans receivers (TRXs) that define a cell and coordinates the radio links protocols with the mobile device. It includes all the Ground based, Roof top and In Building Solutions as at the end of the period.
Net Debt	It is not an Ind-AS measure and is defined as the long-term debt, net of current portion plus short-term borrowings, current portion of long-term debt and lease liabilities minus cash and cash equivalents. The debt origination cost and Bond fair value hedge are not included in the borrowings
Net Debt (excluding Lease obligations)	It is not an Ind-AS measure and is defined as the long-term debt, net of current portion plus short-term borrowings and current portion of long-term debt minus cash and cash equivalents. The debt origination cost and Bond fair value hedge are not included in the borrowings
Net Debt to EBITDA (Annualized)	For the full year ended March 31 2023, 2024 and 2025, it is Computed by dividing net debt at the end of the relevant period by EBITDA for the relevant period (LTM). For Quarterly computation, It is computed by dividing net debt as at the end of the relevant period by EBITDA for the relevant period (annualized).
Net Debt (excluding Lease obligations) to EBITDA _{AAL} (Annualized)	For the full year ended March 31 2023, 2024 and 2025, it is Computed by dividing net debt (Pre Ind AS 116) at the end of the relevant period by EBITDA _{AAL} for the relevant period (LTM). For Quarterly computation, It is computed by dividing net debt (Pre Ind AS 116) as at the end of the relevant period by EBITDA _{AAL} for the relevant period (annualized).
Net Debt to Funded Equity Ratio	It is computed by dividing net debt as at the end of the relevant period by Equity attributable to equity holders of parent as at the end of the relevant period.

Net Revenues	It is not an Ind-AS measure and is defined as total revenues adjusted for access charges, cost of goods sold and license fees for the relevant period.
Operating Free Cash flow	It is computed by subtracting capex from EBITDA.
Personnel Cost per Employee per month	It is computed by dividing the Personnel Cost by the closing number of employees in a given business unit and number of months in the relevant period.
Price-Earnings Ratio – P/E Ratio	It is computed by dividing the closing market price (BSE) as at end of the relevant period by the earnings per basic share for the relevant period (LTM).
Profit / (Loss) after current tax expense	It is not an Ind-AS measure and is defined as Profit / (Loss) before taxation adjusted for current tax expense.
Return On Capital Employed (ROCE)	For the full year ended March 31 2023, 2024 and 2025, ROCE is computed by dividing the EBIT for the period by the average (of opening & Closing) Capital employed. For the quarterly computation, it is computed by dividing the EBIT (annualized for the relevant period) by average capital employed. Average capital employed is calculated by considering average of opening and closing capital employed for the relevant period).
Return On Equity (Post Tax)	For the full year ended March 31 2023, 2024 and 2025, it is computed by dividing net profit for the period by the average (of opening and closing) Equity attributable to equity holders of parent. For the quarterly computations, it is computed by dividing net profit for the preceding (last) 12 months from the end of the relevant period by the average equity attributable to equity holders of parent (Average parent equity is calculated by considering average of opening and closing parent equity for the relevant period).
Return On Equity (Pre Tax)	For the full year ended March 31 2023, 2024 and 2025, it is computed by dividing profit before tax & MI (after exceptional items) for the period by the average (of opening and closing) total Equity. For the quarterly computations, it is computed by dividing profit before tax & MI (after exceptional items) for the preceding (last) 12 months from the end of the relevant period by the average total equity (Average total equity is calculated by considering average of opening and closing total equity for the relevant period).
Revenue per Site per month	Revenue per Site per month is computed by: dividing the total mobile revenues, excluding sale of goods (if any) during the relevant period by the average sites; and dividing the result by the number of months in the relevant period.
Sharing Operator	A party granted access to a tower and who has installed active infrastructure at the tower.
Sharing Revenue	It represents total revenue excluding energy reimbursements accrued during the relevant period.
Sharing revenue per Sharing Operator per month	Is calculated on the basis of sharing revenues accrued during the relevant period divided by the average number of colocations for the period (including such co-locations for which exit notices have been received, but actual exits have not yet happened as at period end), determined on the basis of opening and closing number of co-locations for the relevant period.
Sharing revenue per Tower per month	Is calculated on the basis of sharing revenues accrued during the relevant period divided by the average number of towers for the period, determined on the basis of opening and closing number of towers for the relevant period.
Submarine Cable Count	Submarine cable system refers to number of owned cables (including consortium)
Total Employees	Total on-roll employees as at the end of respective period.
Total Equity	Includes equity attributable to shareholders (both parent and non-controlling interest).
Total MBs on Network	Includes total MBs consumed on the network (uploaded & downloaded) on our network during the relevant period.
Towers	Infrastructure located at a site which is permitted by applicable law to be shared, including, but not limited to, the tower, shelter, diesel generator sets and other alternate energy sources, battery banks, air conditioners and electrical works. Towers as referred to are revenue generating Towers.

Total Operating Expenses It is defined as sum of employee costs, network operations costs and selling, general and administrative cost for the relevant period.

Voice Minutes of Usage per Customer per month It is calculated by dividing the voice minutes of usage on our network during the relevant period by the average customers; and dividing the result by the number of months in the relevant period.

Airtel Payments Bank Limited

GMV Value of transactions with merchants, remittances, collections, payments, withdrawals etc through our Payment solutions. It excludes any consumer to consumer payment service.

Total Customers Unique Savings Bank, Wallet and platform users in Airtel Payments Bank records, identified by mobile number

Monthly Transacting Users (MTU) Unique users with at least 1 successful transaction in a calendar month.
