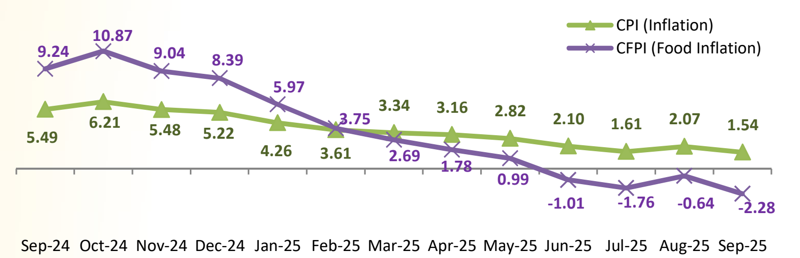
Overview

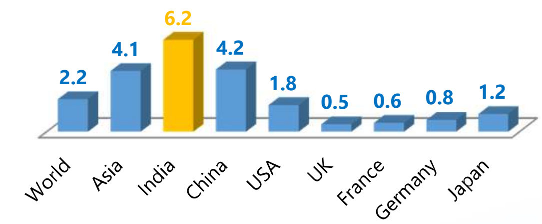
Major Economic Highlights

- India's economic momentum remains resilient, with both industry and services sector sustaining strong growth despite global trade uncertainties and geopolitical tensions. Prudent macroeconomic management, proactive policy interventions, and sustained structural reforms have supported this stability.
- The International Monetary Fund (IMF) in its Oct-25 World Economic Output Report has said the Indian economy is projected to grow at 6.2 percent in 2025-26. The Reserve Bank of India has raised the overall growth forecasts for the fiscal year 2025-26 at 6.8 percent in the Oct-25 MPC meeting.
- India's foreign exchange reserve as of 3rd Oct-25 stood at USD 700 Billion, which is sufficient for 11 months of merchandise imports or 95.4 percent of the country's outstanding external debt as of end-Mar-25. The cumulative exports (merchandise & services) during April-August 2025 is estimated at USD 349 Billion, as compared to USD 329 Billion in April-August 2024, a growth of 6.18 percent.
- India's current account deficit narrowed to 0.2 percent of GDP in Q1FY26 from 0.9 percent a year ago. This was supported by strong services and remittances of USD 35 Billion, keeping India the world's largest recipient of private remittances.
- The IIP growth rate for Aug-25 over the corresponding period of previous year is 4.0 percent. The growth rates of the three sectors, Mining, Manufacturing and Electricity for Aug-25 over Aug-24 are 6.0 percent, 3.8 percent and 4.1 percent respectively.
- There is a sharp decline in headline inflation and food inflation in Sep-25 in comparison to Aug-25. The factors supporting the ongoing disinflation and improved outlook for FY26 include impact of GST rate cuts, benign food prices, and adequate foodgrain stocks.



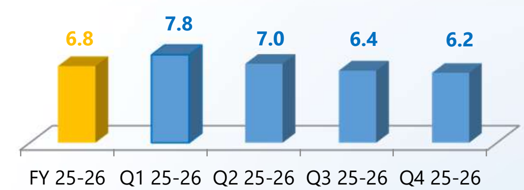
The RBI has forecast retail price inflation for FY 2025-26 at 3.1%, with Q2 at 2.1%, Q3 at 3.1%, Q4 at 4.4% and Q1FY27 at 4.9%. Headline inflation is lowest after Jun-2017 and Food Inflation is lowest after Dec-2018.

World GDP Projection 2026 (IMF)



The International Monetary Fund (IMF) has projected the GDP growth rate of India for 2026 at 6.2%. Global growth expectation has been lowered to 2.2%, Emerging and Developing Asia to 4.1% and China at 4.2% in the Oct-25 report.

India GDP Projection 2026 (RBI)



The MPC of the RBI has kept its growth projection for India's GDP at 6.8% for the FY 2025-26. Quarterly GDP growth rates are estimated as Q1 at 7.8%, Q2 at 7.0%, Q3 at 6.4% and Q4 at 6.2%.
