Profit for the Year	1,077.78	1,634.56
Other Comprehensive Income	27.54	9.59
TOTAL INCOME	1,105.32	1,644.15

PERFORMANCE OVERVIEW:

Your Company have delivered good performance despite the tough and challenging phase in the economic environment throughout the Year. Though the comparison with the previous Financial Year on the financial highlight is not feasible due to slight disruptions in the operations of the Company pertaining to impact of COVID-19, still the Company was able to achieve a total revenue of more than Rs. 1,000 Crores and profit exceeding Rs. 10 Crores during the Financial Year 2020-21

TRANSFER TO RESERVES:

The Board of Directors have decided to retain the entire amount of profit for Financial Year 2020-21 in the Statement of Profit and Loss, except an amount of Rs. 1.10 Crore, which has been transferred to General Reserve as at 31st March 2021.

MATERIAL CHANGES & COMMITMENTS AFFECTING THE FINANCIAL POSITION OF THE COMPANY:

There have been no material changes and commitments affecting the financial position of the Company between the end of the financial year and the date of this report, except for the impact arising out of COVID-19, which is detailed in the Business performance.

BUSINESS PERFORMANCE AND ITS IMPACT DUE TO COVID-19:

As informed in the previous Annual Report, the Company's units have resumed its operations on different dates in the first quarter of 2020-21. However due to the continuous lockdown, Company's performance in the first quarter has been affected partially since customers factory are closed due to lockdown imposed in their places. The impact of lockdown also noticed in shipping lines and it affected supply chain of the Company and all inward raw materials are delayed resulting in rescheduling of orders to the customers and affected the profitability slightly. Due to the above factors turnover and profitability are slightly reduced compared to the previous year.

Further, during the Financial Year 2020-21, there was not a situation of total normalcy due to COVID 19 and our supply to indigenous customers reduced for the first quarter and it has restored its position from the second quarter onwards. Also, in the 1st quarter of 2021-22, the Government had imposed a lockdown from 10th May 2021 till 12th June 2021 and we had resumed our operations from 14th June 2021.

Your Directors have been periodically reviewing with the Management, the impact of COVID-19 on the Company. Management is also keeping a close watch on any other possible impacts of the pandemic and further lockdowns to be imposed by the Government, if any, which might have effect during the Financial Year 2021-22. The Board and the Management will continue to closely monitor the situation as it evolves and do its best to take all necessary measures, in the interests of all stakeholders of the Company.

BUSINESS DEVELOPMENTS PROPOSED :

With a view to enhance our portfolio of non-ferrous metals of Lead and Zinc, the company has recognized an opportunity to recycle Copper and in this regard your Company intends to set up a Copper Recycling/ Melting Facility at the Andhra Plant (SMD – II) as part of the Expansion Strategy at an estimated investment of Rs. 12 Crores. The Company is in the process of installation of plant and machinery and getting necessary approvals from the Government Authorities. This would also help the Company to meet the demand(s) and consolidate its position in the market.

DIVIDEND:

The Board of Directors in their meeting held on 25th June 2021 have recommended a Final Dividend at 25% i.e Rs. 2.5/- per share [Previous Year: 30%] on Face Value of Rs. 10/- each for the Financial Year ended 31st March 2021. The total Dividend outgo amounts to Rs. 1.45 crore [Previous Year : Rs. 1.74 Crore].

UNPAID/ UNCLAIMED DIVIDEND:

In accordance with the provisions of Section 125 of Companies Act, 2013 read with Investor Education and Protection Fund (Accounting, Audit, Transfer and Refund) Rules, 2016, the Company has transferred unpaid and unclaimed dividends amounting to Rs. 1.69 Lakhs to the Investor Education and Protection Fund during the Financial Year 2020-21.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

ECONOMIC OVERVIEW

INDIAN OUTLOOK

India's gross domestic product (GDP) shrank 7.3% to Rs.135.13 trillion in 2020-21 (in real terms adjusted for inflation). It was at Rs.145.69 trillion in 2019-20. GDP is a measure of the economic size of a country, and inflation is the rate of price rise. Despite that, India remained a preferred investment destination in FY 2020-21 with FDI pouring in amidst global asset shifts towards equities and prospects of quicker recovery in emerging economies. Net FPI inflows recorded an all-time monthly high of US\$ 9.8 billion in November 2020, as investors' risk appetite returned, with a renewed search for yield, and US dollar weakened amid global monetary easing and fiscal stimulus packages. India was the only country among emerging markets to receive equity FII inflows in 2020.

Industry Structure and Developments

Lead finds its use in storage batteries, also dubbed lead acid batteries. India is likely to witness a substantial growth in the demand for lead batteries given that several sectors, including automotive, telecommunication, railways and defence, are set to expand in the years ahead. As a battery ingredient, lead is increasingly used in inverters, UPS and similar energy storage devices.

The Indian market for lead acid batteries is currently estimated US\$7 billion, driven by the automotive sector, which consumes 60% of lead acid batteries. The demand of Lead has been increasing with a CAGR of 3.8%, while there has been a consistent level of imports over last 5 years since 2016.

The environmental aspects of the lead sector has been a matter of concern, with informal, or backyard lead recycling from used batteries. Streamlining collection, disposal and recycling of lead will help in increased lead recovery in an eco-friendly manner.

Global Lead Industry

Globally Lead is commonly used in construction industry, automotive industry and electronic industry and it finds applications in batteries and exhibits low tensile strength and electrical conductivity.

The global Lead market is expected to showcase a significant CAGR of 6.8% during the forecasted period 2018-2027. Additionally, the global lead market is thriving on the back of building construction industry. Further, rising demand for lead-acid batteries for automotive application on account of increasing automobile industry is expected to showcase a steady growth of the market.

Twenty Sixth Annual Report 2020-2021

World production of lead from 2006 to 2020

(in 1,000 metric tons)

Lead Market's global size on the annual consumption is anticipated to exceed 13 million tonnes by 2025.

Indian Lead Industry

The volume of secondary refined lead produced across India in 2020 was over 650 thousand MT. Total Lead production (including primary & secondary refined, alloys and oxides) is estimated to be over 1.4 million MT in 2020.

Volume of secondary refined lead produced across India from 2010 to 2020

(in 1,000 metric tons)

The main use for Lead in India is Lead Acid Batteries. Lead Acid battery usage is colossal in railways, transportation, telecommunication, automobiles and many other sectors and is further increasing with solar and wind schemes launched by government.

Segment wise or Product wise performance

Lead & Lead Alloys

During the year 2020-21, despite of COVID-19 impact achieved the good capacity utilization. The company annual production of Lead Metal and Alloys was 58,613 MT in all its units apart from the Job Work quantity of 4,771 MT handled during the Year 2020-21. As informed in the earlier annual report your Company received consent for establishment from

Tamil Nadu Pollution Control Board to increase the plant capacity to 48,000 MT in Tamil Nadu and in the process of completion of installation of Machineries and utilities at higher capacity thereby overall Lead manufacturing capacity of all units together will reach 1,32,000 MT per annum.

Zinc and Zinc Oxides

During the year, your Company's capacity utilization of Zinc Oxide is less than 20% only against the installed capacity of 3,600 MT per annum. As informed in the previous annual report the Company obtained vendor approval from various Zinc Oxide manufacturers and started supplying materials to them. Based on the commercial viability, the Company is slowly increasing the capacity utilisation in Zinc and Zinc Oxide plant.

Risks Opportunities and Threats

The Metal Industry has been on an uptick, underpinned by supply-demand deficit, backed by bullish global growth indicators and supply related reforms. The long-term trends in the industry, the demand for the metals and our strong balance sheet provides us many opportunities to create value for stakeholders. POCL's success as an organization depends on our ability to identify opportunities and leverage them while mitigating the risks that arise while conducting our business.

Pricing, growing demand and ongoing market volatility are the major challenges faced by the Company. POCL seeks to maintain balance sheet liquidity and implement plans to boost operational cash flow for long-term profitability. Cash generation and preservation remain a key focus.

The Company is subject to the risk that changes in foreign currency values impact the Company's export revenues and import of raw materials. The Company is exposed to foreign exchange risk arising from currency exposures, primarily with respect to US Dollars. POCL has in place a robust risk management framework for identification and monitoring and mitigation of commodity price and foreign exchange risks. The risks are tracked and monitored on a regular basis and mitigation strategies are adopted in line with the risk management framework. POCL primarily use forward exchange contracts to hedge the effects of movement in exchange rates.

Internal Control Systems and their adequacy

Your Board has devised systems, policies and procedures / frameworks, which are currently operational within your Company for ensuring the orderly and efficient conduct of its business, which includes adherence to policies, safeguarding its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records and timely preparation of reliable financial information. In line with best practices, the Audit Committee and the Board reviews these internal control systems to ensure they remain effective and are achieving their intended purpose. Where weaknesses, if any, are identified as a result of the reviews, new procedures are put in place to strengthen controls. These controls are in turn reviewed at regular intervals.

Discussion on Financial Performance with respect to Operational performance

POCL recorded an operational and financial performance above the benchmark of Industry Standards in the FY 2020-21, delivering growth year over year. Growth in volume resulted in EBITDA of Rs. 2,668.21 Lakhs even in unfavorable circumstances and price environment. Despite in the tough and challenging phase and with slight disruption in the operations of the Company, it contributed to total net sales of the Company at Rs. 1,00,427.16 lakhs (PY Net Sales: Rs. 1,21,987.10 lakhs). The exports contributed to Rs. 50,155.17 Lakhs for the year 2020-21 from Rs. 68,068/- lakhs in the previous year.

Revenue

Revenue for the year was Rs. 1,00,427.16 lakhs for the Financial Year ended 31st March 2021.

Depreciation and Amortization

Depreciation for the Financial Year 2020-21 was Rs. 839.22 Lakhs compared to Rs. 786.67 lakhs in the previous year.

Twenty Sixth Annual Report 2020-2021

Net Interest

The average cost of borrowings has been retained at 8% for the Financial Year 2020-21. Finance cost for the Financial Year 2020-21 was Rs. 451.49 lakhs which has drastically decreased from Rs. 994.56 lakhs in the previous year.

Taxation

The insider Trading code which is applicable to all directors and designated employees lays down guidelines and procedures to be followed and disclosures to be made while dealing in the securities of the Company and non-consequences of violation. Mr. K. Kumaravel, Company Secretary was appointed as the Compliance Officer by the Board to ensure compliance and effective implementation of the Insider Trading Code.

(f) Commodity price risk/Foreign exchange risk and Hedging activities.

(i) Fluctuation in commodity prices:

Impact: Prices of the Company's finished goods are linked to international bench mark i.e LME and are strongly influenced by global economic conditions and global demand supply for the products. Volatility in commodity prices and demand may adversely affect our earnings, cash flow and reserves.

Mitigation: We consider exposure to commodity price fluctuations to be an integral part of company's business and its usual policy is to sell its products at monthly average prices linked with London Metal Exchange (LME). However, to minimise price risk involved in procurement of major raw materials for the manufacture of finished goods and to achieve monthly average hedging is done. In exceptional circumstances, we may enter into strategic hedging with prior approval of the Company Management. The Company monitors the commodity markets closely to determine the effect of price fluctuations on earnings.

Twenty Sixth Annual Report 2020-2021

(ii) **Currency Exchange rate Fluctuation:**

Impact: Movement in functional currency of the Company against major foreign currencies may impact the Company's revenue. Any weakening of the functional currency may impact the Company's cost of imports and cost of borrowings. Our assets, earnings and cash flows are influenced by fluctuation in those foreign currencies, mainly US Dollars.

Mitigation: We have developed a module for forex management to monitor, measure and hedge currency risk liabilities. The Treasury team reviews our forex-related matters periodically and suggests necessary courses of action as may be needed by businesses from time to time and within the overall framework of our forex policy taking into account the natural hedging due to Export. The Company strives to achieve asset liability offset of foreign currency exposures and only the net position is hedged. The Company uses forward exchange contracts to hedge the effects of movements in exchange rates on foreign currency denominated assets and liabilities. The sources of foreign exchange risk are outstanding amounts payable for imported raw materials, capital goods and other supplies as well as financing transactions denominated in foreign currencies. The hedge mechanisms are reviewed periodically to ensure that the risk from fluctuating currency exchange rates is appropriately managed.

(iii) **Exposure to Commodity and Commodity risks faced by the company during the Financial Year 2020-21:**

- Total Exposure to commodities: Rs. 1,97,213 Lakhs
- Exposure to various commodities:

Commodity Name	Exposure in Amount (Rs.in Lakhs)	Units	Exposure in Quantity terms	% of such exposure hedged through commodity derivatives				Total
				Domestic Market		International Market		
				OTC	Exchange	OTC	Exchange	
Lead	1,79,328	MT	1,29,187	-	15%	-	30%	45%

- Commodity means a commodity whose price is fixed by an international benchmark and having material effect on the financial statements.
- Exposure for Lead includes Purchases and Sales and are reported without netting off and therefore the natural hedge of imports meant for exports not considered for the above table.

(g) **Certificate from a Company Secretary in Practice**

INDEPENDENT AUDITOR’S REPORT

To the Members of Pondy Oxides And Chemicals Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Pondy Oxides And Chemicals Limited (“the Company”), which comprise the balance sheet as at 31-March 2021, and the statement of Profit and Loss (including Other Comprehensive Income), the statement of cash flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the ‘Act’) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards (‘Ind AS’) specified under Section 133 of the Act, of the state of affairs (financial position) of the Company as at 31 March 2021, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (‘ICAI’) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Emphasis of Matter

We draw attention to Note 2B to the financial statements, which explain the uncertainties and the impact of COVID-19 pandemic situation on the Company’s financial results as assessed by the management.

Our opinion is not modified in respect of the above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Based on the examination of books of account and explanations provided to us, we have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Standalone Financials Statements and Auditor's Report thereon (Other Information)

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Responsibility Report including Annexure to Board's Report, Corporate Governance and Shareholders Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other Information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

That Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards of Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(l) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Twenty Sixth Annual Report 2020-2021

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act
 - (e) On the basis of the written representations received from the Directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a Director in terms of Section 164 (2) of the Act
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its Directors during the year is in accordance with the provisions of section 197 of the Act.
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any materially significant pending litigations which would impact its financial position.
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE – A TO THE INDEPENDENT AUDITOR’S REPORT

Statement of matters specified in Para 3 & 4 of the order referred to in sub-section (11) of 143.

The annexure referred to in Para 1 under the heading of “Report on other Legal and Regulatory Requirements” of our report to the members of **PONDY OXIDES AND CHEMICALS LIMITED** of even date:

1. In respect of company’s fixed assets:
 - a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - b) As per the information and explanation given to us, all the fixed assets have been physically verified by the Company at reasonable intervals and no material discrepancies were noticed on such verification. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies as compared to book records were noticed on such verification.
 - c) According to the information and explanations given to us and the records examined by us and based on the examination of the registered conveyance deed provided to us, we report that, the title deeds, comprising all the immovable properties of land, are held in the name of the Company as at the balance sheet date. Immovable properties of freehold land disclosed as fixed assets in the financial statement whose title deeds have been pledged as security for loans, are held in the name of the Company. In respect of immovable properties of land that have been taken on lease and disclosed as fixed asset in the financial statements, the lease agreements are in the name of the Company, where the Company is the lessee in the agreement.
2. The inventories have been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable and adequate in relation to the size of the company and nature of its business. No material discrepancies were noticed on physical verification of inventories as compared to the book records.
3. During the year, the company has not granted any loans, secured or unsecured, to companies, firms or other parties covered in the Register maintained under Section 189 of the Companies Act, 2013. Accordingly, the provisions of clauses (iii) (a), (b) & (c) of Para 3 of the Order are not applicable.
4. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Act, with respect to the loans and investments made.
5. The Company has not accepted any deposits during the year from the public, within the meaning of Section 73 to 76 or any other relevant provisions of the Act and Rules framed there under and does not have any unclaimed deposits as at March 31, 2021 and therefore, the provisions of the clause 3 (v) of the Order are not applicable to the Company.
6. We have broadly reviewed the books of accounts maintained by the Company pursuant to the rules prescribed by the Central Government for the maintenance of cost records under sub Section (1) of Section 148 of the Companies Act, 2013 and are of the opinion that prima facie the prescribed accounts and records have been made and maintained. We have however not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
7. According to the information and explanations given to us, in respect of statutory dues:
 - a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees’ State Insurance, Income Tax, Sales Tax, Service Tax, Goods and Service Tax, Value Added Tax, Customs Duty, Cess and other material statutory dues applicable to it with the appropriate authorities.

Twenty Sixth Annual Report 2020-2021

- b) There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, Goods and Service Tax, Value Added Tax, Customs Duty, Cess and other material statutory dues were in arrears as at 31st March, 2021 for a period of more than six months from the date they became payable.
8. In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of loans or borrowings to banks and financial institutions. The Company has not taken any loan or borrowing from government and has not issued any debentures during the year under audit.
9. In our opinion and according to the information and explanations given to us, the term loans availed by the Company have been applied for the purpose for which they were obtained. The Company has not raised monies by way of initial public offer or further public offer (including debt instruments) during the year .
10. Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements, to the best of our knowledge and belief and as per the information and explanations given to us by the Management, and the representations obtained from the management, no material fraud by the Company and no fraud on the company by its officers or employees has been noticed or reported during the year.
11. According to the information and explanations give to us and based on our examination of the records of the Company, the Company has paid or provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
12. The Company is not a Nidhi Company and hence, reporting under Clause 3 paragraph 3(xii) of the Order is not applicable to the company.
13. According to the information and explanations given to us and based on our examination of the records and approvals of the Audit Committee of the Company, all transactions with the related parties are in compliance with Sections 177 and 188 of the Act where applicable and the details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.
14. According to the information and explanations give to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year and hence, reporting under Clause 3 (xiv) of the Order is not applicable to the Company.
15. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with its directors or persons connected to its Directors. Accordingly, paragraph 3(xv) of the Order is not applicable.
16. According to the information and explanation given to us, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, paragraph 3(xvi) of the Order is not applicable.

ANNEXURE - B TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the members of PONDY OXIDES AND CHEMICALS LIMITED of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the Internal Financial Controls over financial reporting of **PONDY OXIDES AND CHEMICALS LIMITED** ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting (IFCoFR) criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Twenty Sixth Annual Report 2020-2021

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Control over Financial Reporting issued by the ICAI.

Notes to Financial Statements for the year ended March 31,2021**1 Corporate Information**

POCL is a Public Limited Company incorporated under the Companies Act, 1956. The Company's Equity shares are listed at the Bombay Stock Exchange (BSE). The registered office of the company is situated at KRM Centre, 4th Floor, #2, Harrington Road, Chetpet, Chennai, Tamilnadu - 600031.

The Principle Activities of the company are converting Lead Scraps of various forms into Lead Metal and Alloys. The company carries out smelting of Lead Battery Scrap to produce secondary lead metal which is further transformed into Pure lead and Specific Lead Alloys. Further company also manufactures Zinc metal and Zinc Oxide.

The Company's products are exported to numerous international customers mainly but not limited to the Asian region like Japan, South Korea, Thailand and Middle – East. Over the years POCL has built a unmatched brand image within the lead sector for its quality, high level of efficiency, reliability, technical support and service. POCL also supply its products to leading battery manufacturers in India.

2 Basis of preparation of financial statements**Statement of compliance**

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

Use of estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future periods.

Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is the Company's functional currency. All financial information presented in INR has been rounded to the nearest Lakhs (up to two decimals).

The financial statements are approved for issue by the Company's Board of Directors on June 25, 2021.

2A Critical accounting estimates and management judgments

In application of the accounting policies, which are described in note 2, the management of the Company is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and assumptions are based on historical experience and other factors that are considered to be relevant.

Information about significant areas of estimation, uncertainty and critical judgements used in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

Property, Plant and Equipment (PPE), Intangible Assets and Investment Properties

The residual values and estimated useful life of PPEs, Intangible Assets and Investment Properties are assessed by the technical team at each reporting date by taking into account the nature of asset, the estimated usage of the asset, the operating condition of the asset, past history of replacement and maintenance support. Upon review, the management accepts the assigned useful life and residual value for computation of depreciation/amortisation. Also, management judgement is exercised for classifying the asset as investment properties or vice versa.

Twenty Sixth Annual Report 2020-2021

Current tax

Calculations of income taxes for the current period are done based on applicable tax laws and management's judgement by evaluating positions taken in tax returns and interpretations of relevant provisions of law.

Deferred Tax Assets

Significant management judgement is exercised by reviewing the deferred tax assets at each reporting date to determine the amount of deferred tax assets that can be retained/ recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Fair value

Management uses valuation techniques in measuring the fair value of financial instruments where active market quotes are not available. In applying the valuation techniques, management makes maximum use of market inputs and uses estimates and assumptions that are, as far as possible, consistent with observable data that market participants would use in pricing the instrument. Where applicable data is not observable, management uses its best estimate about the assumptions that market participants would make. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Impairment of Trade Receivables

The impairment for trade receivables are done based on assumptions about risk of default and expected loss rates. The assumptions, selection of inputs for calculation of impairment are based on management judgement considering the past history, market conditions and forward looking estimates at the end of each reporting date.

Impairment of Non-financial assets (PPE/Intangible Assets/ Investment Properties)

The impairment of non-financial assets is determined based on estimation of recoverable amount of such assets. The assumptions used in computing the recoverable amount are based on management judgement considering the timing of future cash flows, discount rates and the risks specific to the asset.

Defined Benefit Plans and Other long term employee benefits

The cost of the defined benefit plan and other long term employee benefits, and the present value of such obligation are determined by the independent actuarial valuer. An actuarial valuation involves making various assumptions that may differ from actual developments in future. Management believes that the assumptions used by the actuary in determination of the discount rate, future salary increases, mortality rates and attrition rates are reasonable. Due to the complexities involved in the valuation and its long term nature, this obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities could not be measured based on quoted prices in active markets, management uses valuation techniques including the Discounted Cash Flow (DCF) model, to determine its fair value. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is exercised in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Provisions and contingencies

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the reporting date. The actual outflow of resources at a future date may therefore vary from the figure estimated at end of each reporting period.

2B Note on COVID-19

In view of the lockdown across the country due to the outbreak of COVID pandemic, operations in many of the Company's locations (manufacturing, warehouses, offices, etc.) are scaled down or shut down in compliance with the directives/orders issued by the local Panchayat/Municipal Corporation/State/Central Government authorities.

As per management's current assessment, no significant impact on carrying amounts of inventories, goodwill, intangible assets, trade receivables, investments and other financial assets is expected, and management will continue to monitor changes in future economic conditions. The eventual outcome of the impact of the global health pandemic may be different from those estimated as on the date of approval of these Standalone Financial Statements.

3 Significant Accounting Policies

a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- i) Expected to be realised or intended to be sold or consumed in normal operating cycle
- ii) Held primarily for the purpose of trading
- iii) Expected to be realised within twelve months after the reporting period, or
- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- i) It is expected to be settled in normal operating cycle
- ii) It is held primarily for the purpose of trading
- iii) It is due to be settled within twelve months after the reporting period, or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

b) Fair value measurement

The Company has applied the fair value measurement wherever necessitated at each reporting period.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i) In the principal market for the asset or liability;
- ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non - financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and the best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimising the use of unobservable inputs.

Twenty Sixth Annual Report 2020-2021

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 : Quoted (unadjusted) market prices in active market for identical assets or liabilities;

Level 2 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company has designated the respective team leads to determine the policies and procedures for both recurring and non - recurring fair value measurement. External valuers are involved, wherever necessary with the approval of Company's board of directors. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

For the purpose of fair value disclosure, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risk of the asset or liability and the level of the fair value hierarchy as explained above. The component wise fair value measurement is disclosed in the relevant notes.

c) Revenue Recognition

Sale of goods

The Company derives revenues primarily from sale of manufactured goods, traded goods and related services.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue on sale of goods is recognised when the risk and rewards of ownership is transferred to the buyer, which generally coincides with the despatch of the goods or as per the inco-terms agreed with the customers.

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment. It comprises of invoice value of goods after deducting discounts, volume rebates and applicable taxes on sale. It also excludes value of self-consumption.

Sale of services

Income from sale of services is recognised when the services are rendered as per the terms of the agreement and when no significant uncertainty as to its determination or realisation exists.

Export entitlements

In respect of the exports made by the Company, the related export entitlements from Government authorities are recognised in the statement of profit and loss when the right to receive the incentives/ entitlements as per the terms of the scheme is established and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

Interest Income

Interest income is recorded using the effective interest rate (EIR) method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividend income

Dividend income is recognized when the company's right to receive dividend is established by the reporting date, which is generally when shareholders approve the dividend.

Rental income

Rental income from operating lease is recognised on a straight line basis over the term of the relevant lease, if the escalation is not a compensation for increase in cost inflation index.

d) Property, plant and equipment and capital work in progress

Presentation

Property, plant and equipment and capital work in progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs of a qualifying asset, if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

Property, plant and equipment acquired in a business combination are recognised at fair value at the acquisition date.

Advances paid towards the acquisition of tangible assets outstanding at each balance sheet date, are disclosed as capital advances under long term loans and advances and the cost of the tangible assets not ready for their intended use before such date, are disclosed as capital work in progress.

Component Cost

All material/ significant components have been identified and have been accounted separately. The useful life of such component are analysed independently and wherever components are having different useful life other than plant they are part of, useful life of components are considered for calculation of depreciation.

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of repairs and maintenance are recognised in the statement of profit and loss as incurred.

Machinery spares/ insurance spares that can be issued only in connection with an item of fixed assets and their issue is expected to be irregular are capitalised. Replacement of such spares is charged to revenue. Other spares are charged as revenue expenditure as and when consumed.

Derecognition

Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

e) Depreciation on property, plant and equipment

Depreciation is the systematic allocation of the depreciable amount of an asset over its useful life on a written down value method. The depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less 5% being its residual value.

Depreciation is provided on written down value method, over the useful lives specified in Schedule II to the Companies Act, 2013, except in respect of certain assets, where useful life estimated based on internal assessment and/or independent technical evaluation carried out by external valuer, past trends and differs from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Depreciation for PPE on additions is calculated on pro-rata basis from the date of such additions. For deletion/ disposals, the depreciation is calculated on pro-rata basis up to the date on which such assets have been discarded/ sold. Additions to fixed assets, costing Rs.5,000 each or less are fully depreciated retaining its residual value.

Twenty Sixth Annual Report 2020-2021

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

f) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of a separately acquired intangible asset comprises (a) its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and (b) any directly attributable cost of preparing the asset for its intended use.

Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

Goodwill is initially recognised based on the accounting policy for business combinations and is tested for impairment annually.

Useful life and amortisation of intangible assets

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Subsequent cost and measurement

Subsequent costs are capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditures, including expenditure on internally-generated intangibles, are recognised in the statement of profit and loss as incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets under development

Expenditure on intangible assets eligible for capitalisation are carried as Intangible assets under development where such assets are not yet ready for their intended use.

g) Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes).

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16 - Property, plant and equipments requirements for cost model. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

Company depreciates investment property as per the useful life prescribed in Schedule II of the Companies Act, 2013.

Though the Company measures investment property using the cost-based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation applying a valuation model. External valuers are involved, wherever necessary with the approval of Company's board of directors. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss in the period in which the property is derecognised.

h) Inventories

Inventories are carried at the lower of cost and net realisable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Costs are determined on weighted average method as follows:

(i) Raw materials, stock acquired for trading, packing materials and consumables: At purchase cost including other cost incurred in bringing materials/consumables to their present location and condition.

(ii) Work-in-process and intermediates: At material cost, conversion costs and appropriate share of production overheads

(iii) Finished goods: At material cost, conversion costs and an appropriate share of production overheads.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

i) Financial Instruments

Financial assets and financial liabilities are recognised when an entity becomes a party to the contractual provisions of the instruments.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value. However, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset are also added to the cost of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified on the basis of their contractual cash flow characteristics and the entity's business model of managing them.

Financial assets are classified into the following categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

The Company classifies a debt instrument as at amortised cost, if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

Twenty Sixth Annual Report 2020-2021

Such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

Debt instrument at FVTOCI

The Company classifies a debt instrument at FVTOCI, if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes finance income, impairment losses and reversals and foreign exchange gain or loss in the profit and loss statement. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

The Company classifies all debt instruments, which do not meet the criteria for categorization as at amortized cost or as FVTOCI, as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. Where the Company makes an irrevocable election of classifying the equity instruments at FVTOCI, it recognises all subsequent changes in the fair value in OCI, without any recycling of the amounts from OCI to profit and loss, even on sale of such investments.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Financial assets are measured at FVTPL except for those financial assets whose contractual terms give rise to cash flows on specified dates that represents SPPI, are measured as detailed below depending on the business model:

Classification	Name of the financial asset
Amortised cost	Trade receivables, Loans given to employees and others, deposits, interest receivable, unbilled revenue and other advances recoverable in cash.
FVTOCI	Equity investments in companies other than subsidiaries and associates if an option exercised at the time of initial recognition.
FVTPL	Other investments in equity instruments, mutual funds, forward exchange contracts (to the extent not designated as a hedging instrument).

Derecognition

A financial asset is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and

either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, receivables and bank balance.
- b) Financial assets that are debt instruments and are measured at FVTOCI
- c) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables; and
- All lease receivables resulting from transactions within the scope of Ind AS 17

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime Expected Credit Loss (ECL) at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 months ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 months ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, the Company considers all contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument and Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECL allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss. This amount is reflected under the head 'other expenses' in the profit and loss. The balance sheet presentation of ECL for various financial instruments is described below:

Twenty Sixth Annual Report 2020-2021

- **Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables:** ECL is presented as an allowance, which reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.
- **Debt instruments measured at FVTOCI:** Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

For impairment purposes, significant financial assets are tested on individual basis at each reporting date. Other financial assets are assessed collectively in groups that share similar credit risk characteristics. Accordingly, the impairment testing is done on the following basis:

Name of the financial asset	Impairment Testing Methodology
Trade Receivables	Expected Credit Loss model (ECL) is applied. The ECL over lifetime of the assets are estimated by using a provision matrix which is based on historical loss rates reflecting current conditions and forecasts of future economic conditions which are grouped on the basis of similar credit characteristics such as nature of industry, customer segment, past due status and other factors that are relevant to estimate the expected cash loss from these assets.
Other financial assets	When the credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. When there is significant change in credit risk since initial recognition, the impairment is measured based on probability of default over the life time. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12 month ECL.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL and as at amortised cost.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading, if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to profit and loss. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The company has not designated any financial liability as at fair value through profit and loss.

Classification	Name of the financial liability
Amortised cost	Borrowings, Trade payables, Interest accrued, Unclaimed / Disputed dividends, Security deposits and other financial liabilities not for trading.
FVTPL	Foreign exchange Forward contracts being derivative contracts do not qualify for hedge accounting under Ind AS 109 and other financial liabilities held for trading.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Company are initially measured at their fair values and, if not designated as at fair value through profit or loss, are subsequently measured at higher of (i) The amount of loss allowance determined in accordance with impairment requirements of Ind AS 109 – Financial Instruments and (ii) The amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 18 Revenue.

Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and options contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

(a) Derivatives fair valued through profit or loss

This category has derivative financial assets or liabilities which are not designated as hedges.

Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated a hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the Statement of Profit and Loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets / liabilities in this category are presented as current assets / current liabilities if they are either held for trading or are expected to be realized within 12 months after the Balance Sheet date.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the

Twenty Sixth Annual Report 2020-2021

Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

S.No	Original classification	Revised classification	Accounting treatment
1	Amortised cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognised in P&L.
2	FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
3	Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
4	FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
5	FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
6	FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to P&L at the reclassification date.

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(j) Foreign currency transactions and translations Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at the functional currency spot rates at the date at which the transaction first qualifies for recognition. However, for practical reasons, the Company uses an average rate, if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

The Company enters into forward exchange contract to hedge its risk associated with foreign currency fluctuations. The premium or discount arising at the inception of a forward exchange contract is amortized as expense or income over the life of the contract. In case of monetary items which are covered by forward exchange contract, the difference between the year end rate and rate on the date of the contract is recognized as exchange difference. Any profit or loss arising on cancellation of a forward exchange contract is recognized as income or expense for that year.

k) Borrowing Costs

Borrowing cost include interest computed using Effective Interest Rate method, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs that are directly attributable to the acquisition, construction, production of a qualifying asset are capitalised as part of the cost of that asset which takes substantial period of time to get ready for its intended use. The Company determines the amount of borrowing cost eligible for capitalisation by applying capitalisation rate to the expenditure incurred on such cost. The capitalisation rate is determined based on the weighted average rate of borrowing cost applicable to the borrowings of the Company which are outstanding during the period, other than borrowings made specifically towards purchase of the qualifying asset. The amount of borrowing cost that the Company capitalises during the period does not exceed the amount of borrowing cost incurred during that period. All other borrowings costs are expensed in the period in which they occur.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

l) Government grants

Government grants are recognised at fair value where there is a reasonable assurance that the grant will be received and all the attached conditions are complied with.

In case of revenue related grant, the income is recognised on a systematic basis over the period for which it is intended to compensate an expense and is disclosed under "Other operating revenue" or netted off against corresponding expenses wherever appropriate. Receivables of such grants are shown under "Other Financial Assets". Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same. Receivables of such benefits are shown under "Other Financial Assets".

Government grants related to assets, including non-monetary grants at fair value, shall be presented in the balance sheet by setting up the grant as deferred income. The grant set up as deferred income is recognised in profit or loss on a systematic basis over the useful life of the asset.

m) Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future tax liability, is recognised as an asset viz. MAT Credit Entitlement, to the extent there is convincing evidence that the Company will pay normal Income tax and it is highly probable that future economic benefits associated with it will flow to the Company during the specified period. The Company reviews the "MAT Credit Entitlement" at each Balance Sheet date and writes down the carrying amount of the same to the extent there is no longer convincing evidence to the effect that the Company will pay normal Income tax during the specified period.

Uncertainty over Income Tax Treatments clarifies that while determinating the taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments.

Twenty Sixth Annual Report 2020-2021

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. Where there is deferred tax assets arising from carry forward of unused tax losses and unused tax created, they are recognised to the extent of deferred tax liability.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

n) Retirement and other employee benefits

Short-term employee benefits

A liability is recognised for short-term employee benefit in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Defined contribution plans

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Defined benefit plans

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Employee Benefits in connection with Plan amendments, curtailments and settlements, to use updated assumptions to determine current service cost to be updated and to recognise in profit or loss as part of past service cost or gain or loss on settlement.

Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed

by an independent actuary at each balance sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

Other long term employee benefits

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by the employees up to the reporting date.

o) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. All other leases are operating leases.

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

p) Impairment of non financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

q) Provisions, contingent liabilities and contingent asset

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are discounted, if the effect of the time value of money is material, using pre-tax rates that reflects the risks specific to the liability. When discounting is used, an increase in the provisions due to the passage of time is recognised as finance cost. These provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Necessary provision for doubtful debts, claims, etc., are made, if realisation of money is doubtful in the judgement of the management.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. Contingent liabilities are disclosed separately.

Show cause notices issued by various Government authorities are considered for evaluation of contingent liabilities only when converted into demand.

Contingent assets

Where an inflow of economic benefits is probable, the Company discloses a brief description of the nature of the contingent assets at the end of the reporting period, and, where practicable, an estimate of their financial effect.

Contingent assets are disclosed but not recognised in the financial statements.

r) Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances with original maturity of less than 3 months, highly liquid investments that are readily convertible into cash, which are subject to insignificant risk of changes in value.

s) Cash Flow Statement

Cash flows are presented using indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

Bank borrowings are generally considered to be financing activities. However, where bank overdrafts which are repayable on demand form an integral part of an entity's cash management, bank overdrafts are included as a component of cash and cash equivalents for the purpose of Cash flow statement.

t) Earnings per share

The basic earnings per share are computed by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Diluted EPS is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares, as appropriate.

u) Business Combination

Business combinations are accounted for using the acquisition accounting method as at the date of the acquisition, which is the date at which control is transferred to the Company.

The consideration transferred in the acquisition and the identifiable assets acquired and liabilities assumed are recognised at fair values on their acquisition date. Goodwill is initially measured at cost being the excess of aggregate consideration transferred over the net identifiable assets and liabilities. Transaction costs are recognised in profit & loss account.

Financial risk management objectives

The treasury function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations through internal risk reports which analyse exposures by degree and magnitude of risks. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Company seeks to minimise the effects of these risks by using natural hedging financial instruments and forward contracts to hedge risk exposures. The use of financial derivatives is governed by the Company's policies approved by the board of directors, which provide written principles on foreign exchange risk, the use of financial derivatives, and the investment of excess liquidity. The Company does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

Twenty Sixth Annual Report 2020-2021

Market risk

Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Company actively manages its currency and interest rate exposure through its finance division and uses derivative instruments such as forward contracts, wherever required, to mitigate the risks from such exposures. The use of derivative instruments is subject to limits and regular monitoring by appropriate levels of management.

Foreign currency risk management

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company actively manages its currency rate exposures through a centralised treasury division and uses natural hedging principles to mitigate the risks from such exposures. The use of derivative instruments, if any, is subject to limits and regular monitoring by appropriate levels of management.

Forward foreign exchange contracts

It is the policy of the company to enter into forward foreign exchange contracts to cover (a) repayments of specific foreign currency borrowings; (b) the risk associated with anticipated sales and purchase transactions, taking into account the natural hedging on imports & exports and cost of currency to be recovered from the customers as per Sale Contract.

Disclosure of hedged and unhedged foreign currency exposure

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

As on March 31,2021							
Currency	Liabilities			Assets			Net overall exposure on the currency - net assets / (net liabilities)
	Gross exposure	Exposure hedged using derivatives	Net liability exposure on the currency	Gross exposure	Exposure hedged using derivatives	Net asset exposure on the currency	
USD	2.35	-	2.35	54.11	-	54.11	54.11
In INR	173.84	-	173.84	3,949.36	-	3,949.36	3,949.36

As on March 31,2020							
Currency	Liabilities			Assets			Net overall exposure on the currency - net assets / (net liabilities)
	Gross exposure	Exposure hedged using derivatives	Net liability exposure on the currency	Gross exposure	Exposure hedged using derivatives	Net asset exposure on the currency	
USD	-	-	-	20.08	-	20.08	20.08
In INR	-	-	-	1,519.59	-	1,519.59	1,519.59

Foreign currency sensitivity analysis

Movement in the functional currencies of the various operations of the Company against major foreign currencies may impact the Company's revenues from its operations. Any weakening of the functional currency may impact the Company's cost of imports and cost of borrowings and consequently may increase the cost of financing the Company's capital expenditures. The foreign exchange rate sensitivity is calculated for each currency by aggregation of the net foreign exchange rate exposure of a currency and a simultaneous parallel foreign exchange rates shift in the foreign exchange rates of each currency by 2%, which represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 2% change in foreign currency rates.

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

The 25 basis point interest rate changes will impact the profitability by Rs. 14.54 Lakhs for the year (Previous INR 29.74 Lakhs)

Credit risk management

Credit risk arises when a customer or counterparty does not meet its obligations under a customer contract or financial instrument, leading to a financial loss. The Company is exposed to credit risk from its operating activities primarily trade receivables and from its financing/ investing activities, including deposits with banks, mutual fund investments and foreign exchange transactions. The Company has no significant concentration of credit risk with any counterparty.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure is the total of the carrying amount of balances with banks, short term deposits with banks, trade receivables, margin money and other financial assets excluding equity investments.

(a) Trade Receivables

The Company has credit evaluation policy for each customer and, based on the evaluation, credit limit of each customer is defined. Wherever the Company assesses the credit risk as high, the exposure is backed by either bank, guarantee/letter of credit or security deposits.

The Company does not have higher concentration of credit risks to a single customer. As per simplified approach, the Company makes provision of expected credit losses on trade receivables using a provision matrix to mitigate the risk of default in payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk.

(b) Investments, Derivative Instruments, Cash and Cash Equivalents and Bank Deposits

Credit Risk on cash and cash equivalents, deposits with the banks/financial institutions is generally low as the said deposits have been made with the banks/financial institutions, who have been assigned high credit rating by international and domestic rating agencies.

Credit Risk on Derivative Instruments is generally low as the Company enters into the Derivative Contracts with the reputed Banks.

Investments of surplus funds are made only with approved banks/ financial institutions/ counterparty. Investments primarily include bank deposits, investment in units of quoted mutual funds issued by high investment grade funds etc. These bank deposits, mutual funds and counterparties have low credit risk. The Company has standard operating procedures and investment policy for deployment of surplus liquidity, which allows investment in bank deposits, debt securities and mutual fund schemes of debt and arbitrage categories and restricts the exposure in equity markets.

Offsetting related disclosures

Offsetting of cash and cash equivalents to borrowings as per the consortium agreement is available only to the bank in the event of a default. Company does not have the right to offset in case of the counter party's bankruptcy, therefore, these disclosures are not required.

Liquidity risk management

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company invests its surplus funds in bank fixed deposit and mutual funds, which carry minimal mark to market risks. The Company also constantly monitors funding options available in the debt and capital markets with a view to maintaining financial flexibility.

Twenty Sixth Annual Report 2020-2021

45 Retirement benefit plans

Defined contribution plans

In accordance with Indian law, eligible employees of the Company are entitled to receive benefits in respect of Gratuity fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary. The contributions, as specified under the law, are made to the Gratuity fund as well as Employee State Insurance Fund

The total expense recognised in profit or loss of Rs 114.20 Lakhs (previous year Rs. 139.46 Lakhs) represents contribution paid to these plans by the Company at rates specified in the rules of the plan.

Defined benefit plans

(a) Gratuity

Gratuity is payable as per Payment of Gratuity Act, 1972. In terms of the same, gratuity is computed by multiplying last drawn salary (basic salary including dearness Allowance if any) by completed years of continuous service with part thereof in excess of six months and again by 15/26. The Act provides for a vesting period of 5 years for withdrawal and retirement and a monetary ceiling on gratuity payable to an employee on separation, as may be prescribed under the Payment of Gratuity Act, 1972, from time to time. However, in cases where an enterprise has more favourable terms in this regard the same has been adopted.

These plans typically expose the Company to actuarial risks such as: investment risk, interest rate risk and salary risk.

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to the market yields on government bonds denominated in Indian Rupees. If the actual return on plan asset is below this rate, it will create a plan deficit.
Interest risk	A decrease in the bond interest rate will increase the plan liability. However, this will be partially offset by an increase in the return on the plan's debt investments.
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The principal assumptions used for the purposes of the actuarial valuations were as follows:

Particulars	March 31, 2021	March 31, 2020
Discount Rate	6.80%	6.53%
Rate of increase in compensation level	6.65%	6.40%
Expected Average Remaining Working Lives of Employees (years)	28.76	29.84

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Amounts recognised in total comprehensive income in respect of these defined benefit plans are as follows:	March 31,2021 ₹ Lakhs	March 31,2020 ₹ Lakhs
Amount recognised under Employee Benefits		
Expense in the Statement of profit and Loss:		
Current service cost	21.98	22.05
Net interest expense	9.14	9.59
Return on plan assets (excluding amounts included in net interest expense)	(5.56)	(4.76)
	<u>25.56</u>	<u>26.88</u>
Amount recognised in Other Comprehensive Income (OCI) for the Year		
Remeasurement on the net defined benefit liability comprising:		
Actuarial (gains)/losses recognised during the period	(36.80)	(12.81)
	<u>(36.80)</u>	<u>(12.81)</u>
Components of defined benefit costs recognised in other comprehensive income	<u>(11.24)</u>	<u>14.07</u>
The amount included in the balance sheet arising from the Company's obligation in respect of its defined benefit plans is as follows:		
Present value of defined benefit obligation	132.53	141.47
Fair value of plan assets	(105.08)	(85.18)
	<u>27.45</u>	<u>56.29</u>
Net liability/ (asset) arising from defined benefit obligation		
Funded	-	-
Unfunded	27.45	56.29
	<u>27.45</u>	<u>56.29</u>
The above provisions are reflected under 'Provision for employee benefits- gratuity' (long-term provisions) [Refer note 18].		
Movements in the present value of the defined benefit obligation in the current year were as follows:		
Opening defined benefit obligation	141.47	124.89
Current service cost	21.97	21.68
Interest cost	9.14	9.59
Actuarial (gains)/losses	(36.80)	(12.81)
Benefits paid	(3.25)	(1.88)
	<u>132.53</u>	<u>141.47</u>
Closing defined benefit obligation		
Movements in the fair value of the plan assets in the current year were as follows:		
Opening fair value of plan assets	85.18	62.49
Return on plan assets	6.18	4.95
Contributions	17.35	19.62
Benefits paid	(3.63)	(1.88)
Actuarial gains/(loss)	-	-
	<u>105.08</u>	<u>85.18</u>
Closing fair value of plan assets		

Twenty Sixth Annual Report 2020-2021

Sensitivity analysis

In view of the fact that the Company for preparing the sensitivity analysis considers the present value of the defined benefit obligation which has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

(b) Compensated absences

The expected cost of accumulating compensated absences is determined at each balance sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the balance sheet date is Rs.13.42 Lakhs (previous year Rs. 14.96 Lakhs). Expense recognised during the year is Rs.(0.12) Lakhs (previous year Rs. 8.96 Lakhs).

EXPLANATORY STATEMENT

(Pursuant to Section 102 of the Companies Act, 2013)

As required under Section 102 of the Companies Act, 2013 (Act), the following explanatory statement sets out all the material facts relating to the business mentioned under Item No. 4 of the accompanying 26th AGM Notice:

ITEM NO. 4

Increase in the borrowing powers and power to mortgage properties of the Company:

The members of the Company in the 22nd Annual General Meeting held on 27th September 2017, authorised the Board of Directors of the Company to borrow in excess of paid-up capital and free reserves upto an amount of Rs. 200 Crores (Rupees Two Hundred Crores only), excluding the temporary loans.

Keeping in view your Company's business requirements and growth plans, it is considered desirable to increase the said borrowing limits under the provisions of Section 180(1)(c) of the Companies Act, 2013 (the "Act"). The borrowings by a Company, in general, are required to be secured by mortgage or charge on all or any of the moveable or immovable properties of the Company in such form, manner and ranking as may be determined by the Board from time to time, in consultation with the lender(s).

Your consent is required under the provisions of Section 180(1)(c) and Section 180(1)(a) of the Act, to authorize the Board to borrow in excess of Paid-up share Capital and free reserves and to mortgage in excess of 20 percent of the net worth of the Company and accordingly the resolution is proposed to increase the borrowing limits from Rs. 200 Crores to Rs. 300 Crores.

The resolutions as set out in Item No. 4 of this Notice requires your approval as Special Resolution. None of the Directors, Key Managerial Personnel and their relatives are in any way, concerned or interested in the said resolution.

ITEM NO. 5

To amend and adopt the Main Object Clause of the Memorandum of Association (MOA) of the Company:

Your Company was incorporated in the year 1995 and the Company has grown consistently over the last several years and it anticipates growth opportunities in its operations and continues to evaluate various avenues for growth. The Company is currently carrying on the activities pertaining to Lead, Zinc and other metals. Your Board had considered from time to time proposals for diversification into areas which would be profitable for the Company as part of diversification Plans. For this purpose, the object Clause of the Company, which is presently restricted in scope, requires to be comprehensive so as to cover a wide range of activities to enable your Company to consider embarking upon new projects and activities.

To tap the emerging business opportunities in the changed business environment, it is proposed to expand the business segments by amending the object clause of Memorandum of Association of the Company, considering necessary business expansion strategies on non-ferrous metals. In this regard, the Management of the Company has considered and evaluated a long-term business plan for venturing into other non-ferrous metals viz. Copper, Aluminum, etc in a phased manner.

The alteration in the Main Objects Clause of the Memorandum of Association of the Company, as set out in the Resolution is to facilitate diversification. This will enable the company to enlarge the area of operations and carry on its business economically and efficiently and the proposed activities can be conveniently and advantageously combined with the present activities of the company under the existing circumstances.

Pursuant to the recommendation by Board of Directors in its Meeting held on 26th July 2021, approval of the Members of the Company is sought for amendment in the Main Objects of the MOA of the Company. The proposed change of object clause requires the approval of shareholders through Special Resolution pursuant to the provisions of Section 13 of the Companies Act, 2013.

The following amendments in the existing Main Objects in Clause III (A) shall be subsumed:
