TO SHAREHOLDERS

Respected Shareholders,

I would like to present to you the Annual Report for Financial Year 2022-23 in the Golden Jubilee Year of your Company with a quiet sense of pride and deep gratitude. In this report and the message, we intend to share with you the key highlights of your Company's excellent performance during the reported year, some important moments and milestones from our illustrious journey, and our strategic growth levers that will take us to newer heights in the coming years. Your Company has always pursued excellence in product innovation and quality, manufacturing productivity and customer satisfaction in all these years and this focus will continue to remain the key value for the continued expansion and market leadership of the Company.

Even as we celebrate our 50th anniversary in this Financial Year, I believe that Company is well positioned to continue capitalizing on new opportunities as they present themselves by building on our strengths.

It will not be out of place at this juncture to say that your Company's ability deliver growth and sustain business gradually. The momentum is attributable to its ability to remain relevant to its esteemed customer's changing choice, preference and need.

Our fifty-year long journey to have a significant global presence would not have been possible without the trust reposed by our clients in us. I would like to thank them for their generous support. It has also been a privilege to chart this journey with my colleagues on the Board, the Company's management team, and dedicated employees, both current and past, whose contributions to our success I acknowledge with humility.

Last but not the least, I would also like to thank our business associates, bankers and all the stakeholders for their continued support to the Company in times, good or bad.

We hope to be honored with your continued support to take our voyage to many more shores of success and growth.

**With Best Wishes,
Sincerely**

B. OPERATIONS OF THE COMPANY / COMPANY PERFORMANCE:

During the Financial Year under report, the Company registered a total revenue from operations of ₹ 37,225.29 Lakhs as against ₹ 45,115.78 Lakhs in the previous year & registered an economic decline of 17.49 % over the previous year. The operational performance has resulted into decreased profitability of ₹ 127 Lakhs as compared to previous year of ₹ 1965.75 Lakhs.

Further, there has been no change in nature of business during the year under review.

C. FUTURE OUTLOOK:

The Company has concluded a technology transfer agreement with a leading pharmaceutical company based in Africa. The technology transfer agreement includes setting up of an API manufacturing facility for various Anti-Malarial APIs. In the antimalarial generic API space, on one hand, we have acquired a unique position of being the largest manufacturer & exporter of Sulphadoxine, an API which was globally introduced three decades back. On the other hand, we, being the only DMF holder for Pyronaridine after innovator, we are now in collaboration with USA based Medicines for All to address solving pivotal issues in a frontline combinatio- antimalarial formulation.

The sulphadoxine culminated from backward integration efforts, whereas Pyronaridine resulted from sustained efficiency improvement, helping us occupy this unique position.

Besides these two major achievements, our R and D has identified the following products to diversify the existing pipeline : Etodolac (anti-inflammatory), Risedronate sodium (Oseteoporosis).

Firming up the profitability of existing product portfolio and expanding the scope of regulatorily robust post-patent APIs are going to occupy us in the next financial year.

D. SHARE CAPITAL:

• Authorized Share Capital:

During the year there has been no change in Authorized Share Capital of the Company. The Company's Authorized Share Capital is ₹ 30,00,00,000/- (Rupees Thirty Crores only) comprising of 3,00,00,000 (Three Crore) Equity Shares of ₹ 10/- each.

• Issued, Subscribed and Paid-Up Share Capital of the Company:

ANNEXURE D TO DIRECTORS' REPORT

MANAGEMENT DISCUSSION AND ANALYSIS REPORT FOR THE YEAR ENDED MARCH 31ST 2023

Company Philosophy on Corporate Governance :

Corporate Governance involves balancing of the interest of a company's stakeholders. Corporate governance practices are a reflection of the values, policies and relationship with our stake holders .The essence of Corporate Governance lies in promoting and maintaining integrity, transparency and accountability through out the organization.

Outlook :

If there is one important vantage point for our company during its journey, last year indeed proved to be the one.

In the antimalarial generic API space, on one hand, we have acquired a unique position of being the largest manufacturer & exporter of Sulphadoxine, an API which was globally introduced three decades back. On the other hand, we, being the only DMF holder for Pyronaridine after innovator, we are now in collaboration with USA based Medicines for All to address solving pivotal issues in a frontline combinatio- antimalarial formulation.

The sulphadoxine culminated from backward integration efforts, whereas Pyronaridine resulted from sustained efficiency improvement, helping us occupy this unique position.

Besides these two major achievements , our R and D has identified the following products to diversify the existing pipeline : Etodolac (antiinflammatory), Risedronate sodium (Oseteoporosis) .

Industrial Structure And Development :

The pharmaceutical industry is responsible for the research, development, manufacturing and distribution of medications. The entire world recognized the importance of healthcare and pharmaceuticals as the world battled the Covid-19 pandemic in the last 3 years. The pharmaceutical industry product landscape has since changed. New molecules such as cell and gene-therapy and mRNA have increased in the drug development pipeline. This change is likely to bring newer technologies, supply chain and unique product life cycle.. Pharmaceutical industry is one of the top performing industries globally.

The new medications are being constantly developed, approved and marketed resulting in significant market growth. Factors such as aging population ,an upsurge in lifestyle diseases, demographic shifts ,and new product introductions are expected to fuel the growing market demands. The coming years are likely to open doors of innovation, opportunities and growth avenues for the Indian pharma Industry . The biologics market is also growing at a significant rate in the therapy areas such as oncology, diabetes and auto-immune diseases.

Though the pharmaceuticals industry is developing at a rapid pace, the growth won't come easily for this industry that is heavily influenced by the healthcare reforms, cost pressure, economic and geo-political fluidity, pricing regime, increased competition and challenging regulatory landscape with increased scrutiny.

Opportunities Risk And Concerns :

The Indian pharmaceutical industry is globally respected and India is the largest provider of generic drugs globally and the country is known for its affordable vaccines and generic medications. Indian pharmaceutical industry is currently ranked third in pharmaceutical production by volume after evolving over time into a thriving industry. India is also the largest supplier of low cost quality generics drugs and vaccines to the world. Indian pharmaceutical companies have also carved out a niche in both the Indian and world market with expertise in reverse engineering new processes for manufacturing of pharmaceuticals at low cost, which became the advantage for this industry.

The contribution of the pharmaceutical industry to the country's economy is immense. Apart from large employment generation, either directly or indirectly, this industry also contributes significantly to the country's GDP.

The Indian pharmaceutical industry growth will be driven by R&D capabilities, cost efficiencies, huge talent pool of scientists and new opportunities in the emerging global economies.

Government initiatives, including PLI 2.0, MSME support, and pharma clusters, along with industry-academia collaborative efforts, are expected to act as significant catalysts for growth. Furthermore, the Indian pharma industry is committed to meeting sustainability objectives and is investing in infrastructure for rapid drug discovery and development capabilities to sustain its growth trajectory.

Internal Control System and its Adequacy :

The Company has an adequate system of internal controls commensurate with the nature, size and complexity of its manufacturing, finance and marketing operations including controls over financial reporting

Appropriate review and control mechanisms are in place for ensuring the internal control systems are operating effectively. The internal control system is supported by qualified personnel and a continuous programme of internal audit. The prime objective of such audits is to test the adequacy and effectiveness of all internal control systems laid down by the management and to suggest improvements, robustness of internal processes, policies and accounting procedures, compliance with laws and regulations. For this purpose, a yearly audit plan will be made with the approval of the Audit Committee of the Board of Directors.

Human Resources :

The human resource plays a vital role in the growth and success of an organization. The Company has maintained cordial and harmonious relations with employees across various locations.

We consider employees as an integral part of our operations and we put in place appropriate compensation plans, feedback process, continuing training and upgradation of skills in their functional areas. Employee relations are affable and harmonious with safe and healthy working environment and all-round contribution and participation in the growth.

The Company has built a competent team to handle challenging assignments. The Company strives to enhance the technical, work related and general skills of employees through dedicated training programs on a continuous basis. The Total employees strength of the company during the financial year 2022-23 is 523.

State of the Affairs of the Company :

During the financial year under report the company registered a total revenue from operations of ₹ 37225.29 Lakhs as against ₹ 45106.84 in the previous year.

Financial year Ratios

Sr. No.	Particulars	2022-23	2021-22
1	Debtors Turnover Ratio	7.96	9.70
2	Inventory Turnover Ratio	2.72	6.28
3	Interest Coverage Ratio	1.17	3.48
4	Operating Margin Ratio	0.04	0.09
5	Net Profit Margin	0.003	0.04
6	Return on net worth	0.01	0.13

Due to lower business growth, increase in the material cost, energy cost as well as increase in the other overhead expenses due to inflationary trend in the economy, the operating margins have reduced. This has resulted in lower operating profit margin, lower net profit margin and lower return on net worth as compared to previous financial year.

Health & Safety Measures :

As the Company’s manufacturing operations involve complex chemical reactions, risks exist on any issues relating to safe operations and environment compliances. Our company’s policies and processes are designed and reviewed from time to time to adhere to all applicable regulations on the environment management, employee health and safety. Our company continually strives to optimise the resources and upgrade its processes in order to reduce the environmental impact of its processes, products and services, besides ensuring health and safety of employees involved in the processes

Cautionary Statement :

This report may contain certain statements that the Company believes are or may be considered to be ‘forward looking statements’ which are subject to certain risks and uncertainties. These estimates and Judgements relating to the financial statements have been made on a prudent and reasonable basis, in order that the statements reflect, in a true and fair manner, the state of affairs and profits for the year. Actual results may differ materially from those expressed or implied. Significant factors that could influence the Company’s operations include government regulations, tax regimes, market access related regulatory compliances, patent laws and domestic and international fiscal policies.

ANNEXURE – G TO DIRECTORS’ REPORT

CORPORATE GOVERNANCE REPORT

The Directors present the Company’s Report on Corporate Governance for the year ended March 31, 2023, in terms of Regulations 17 to 27, clauses (b) to (i) of Regulation 46 (2) and Para C, D and E of Schedule V of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 together with the Auditors Certificate annexed as Exhibit - A to this report, on compliance with the conditions of Corporate Governance laid down for the year ended March 31, 2023

1. COMPANY’S PHILOSOPHY ON CODE OF GOVERNANCE

The Company follows the highest standards of governance and disclosure. Corporate Governance encompasses a set of systems and practices to ensure that the Company’s affairs are being managed in a manner which ensures accountability, transparency and fairness in all transactions in the widest sense. Corporate governance also provides the structure through which the objectives of the company are set, and the means of attaining those objectives and monitoring performance are determined. Your Company has been following the Corporate Governance practices like striking out reasonable balance in the composition of Board of Directors, setting up Audit Committee and other business committees, adequate disclosures and business to be deliberated by the Board etc. It is the way of life, rather than mere legal compulsion. Your Company is committed to follow good Corporate Governance practices and improve upon them year after year. In addition, the Company has adopted a Code of Conduct for its non-executive directors which includes Code of Conduct for Independent Directors which suitably incorporates the duties of independent directors as laid down in the Companies Act, 2013 (“Act”). These codes are available on the Company’s website. Further, The Board Members and Senior Management have affirmed compliance with the Code of Conduct. A declaration signed by the Company’s Chairman on behalf of the Board is annexed and forms part of the Annual Report.

The Company’s philosophy on Corporate Governance is thus concerned with the ethics, values and morals of the Company and its directors, who are expected to act in the best interests of the Company and remain accountable to shareholders and other beneficiaries for their action.

The Company is in compliance with the requirements of the guidelines on Corporate Governance stipulated under the regulation 17 to 27 read with Schedule V and clauses (b) to (i) of sub-regulation (2) of regulation 46 of SEBI Listing Regulations, as applicable, with regard to corporate governance.

2. BOARD OF DIRECTORS

The Board Members are fully aware of their roles and responsibilities in discharge of the key functions. The Board Members strive to meet the expectation of operational transparency without compromising the need to maintain confidentiality of information.

The Board of Directors of the Company has an optimum combination of Executive and Non- Executive Directors with not less than Fifty percent of the Board of Directors comprising of Non- Executive Directors as on March 31, 2023. The Board of Directors of the Company had a balanced mix of Executive and Non-Executive Directors and also met the stipulated requirements under the Companies Act, 2013 (“the Act”) and Listing Regulations. As on March 31, 2023, the Company’s Board consists of 6 Directors. The Board comprises of two Executive Directors (including Chairman) and Four Non-Executive Directors (including one Woman Independent Director, two other Independent Directors and one Non-Executive Non-Independent Director). The Board provides strategic guidance to the Company and ensures effective monitoring of the corporate governance practices. The composition of the Board is in conformity with the Act and Listing Regulations. The composition of the Board is in conformity with Regulation 17 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with Section 149 of the Act.

Also, the Independent Directors on the Board are highly experienced and competent persons from their respective fields. The Independent Directors take active part at the Board Meetings and Committee Meetings which add value in the decision-making process of the Board of Directors.

During the Financial Year under review, there has been no resignation by Independent Director of the Company.

11. LIST OF SKILLS / EXPERTISE / COMPETENCIES REQUIRED TO FUNCTION THE BUSINESS EFFECTIVELY:

Too many businesses fail because translating passion into a successful business model is a difficult task.

Developing a small business into a successful enterprise demands more than passion. Unfortunately, facts speak for themselves. Over half of new businesses fail mainly because the entrepreneur is unable to translate their passion into practical business skills. Success demands more than hard work, resilience, and expertise in your field. In order to succeed, you need to understand and to become proficient in a set of fundamental business skills.

Following are the essential skills that you are required to run the business of the Company:

A. FINANCIAL MANAGEMENT SKILL:

Being able to effectively manage your finances is critical. You will need to be able to forecast your cash flow and sales, as well as, monitor your profit and loss. Having sound financial management skills will help you to run your business profitably and protect your financial investment.

B. MARKETING, SALES AND CUSTOMER SERVICE SKILL:

It is important to be able to promote your products or services effectively. Providing good customer service and having a marketing strategy in place will help you to generate sales.

C. COMMUNICATION AND NEGOTIATION SKILL:

Communication and negotiation with your suppliers, potential investors, customers and employees is very important to have. Having effective written and verbal communication skills will help you to build good working relationships. Every communication should reflect the image you are trying to project.

D. MANAGEMENT SKILL:

These means offering other people opportunities to do work, even if you think it will benefit your own clout or resume to do it yourself. Delegation is an important part of time and resource management. If you take everything on yourself, chances are your work in key areas will suffer. Someone that excels in business will be able to manage their own workload by appropriately directing the appropriate colleagues and subordinates for the best tasks.

E. STRATEGIC PLANNING SKILL:

Strategic planning is a very important business activity. Strategic planning is a process of defining your company's strategy or direction and making decisions on allocations of resources of capital and people. The key is to know how to project your company's future performance, within a three-to-five-year framework or more, supported by your well-defined business plan.

INDEPENDENT AUDITORS' REPORT

To the Members of MANGALAM DRUGS AND ORGANICS LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the standalone financial statements of Mangalam Drugs and Organics Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2023, the statement of Profit and Loss, (statement of changes in equity) and statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us the aforesaid Ind AS standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March, 2023 its Profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter Paragraph

1. Balances of Trade Receivables, Trade Payables, Loans and advances are subject to confirmation and reconciliation. Management has confirmed that the final impact upon reconciliation would not be material.
2. The company has acquired and taken possession of the vehicles which were in the name of Director and erstwhile Director of the Company.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to be communicated in our report for the year ended 31st March, 2023.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our Auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our Auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditors' Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

**Annexure - B to the Auditors' Report****Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act**

We have audited the internal financial controls over financial reporting of Mangalam Drugs and Organics Limited. ("The Company") as of 31 March 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that

transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations give to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

Corporate Information

Mangalam Drugs and Organics Limited commenced its manufacturing of Active Pharmaceutical Ingredients (APIs) and Intermediates at VAPI – Gujarat in 1977. It has a multi-product manufacturing facility on two locations, and an inhouse Research and Development laboratory recognized by the department of Scientific and Industrial Research, Delhi Government of India (DSIR).

1. Significant Accounting Policies

1.1 Basis of Preparation of financial statements

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and presentation requirement of Division II of schedule III of the Companies Act, 2013 (INDAS compliant schedule III)

1.2 Basis of accounting

The Company maintains its accounts on accrual basis following the historical cost convention, except for certain financial instruments that are measured at fair values in accordance with Ind AS. Further, the guidance notes / announcements issued by the Institute of Chartered Accountants of India (ICAI) are also considered, wherever applicable, except to the extent where compliance with other statutory promulgations override the same requiring a different treatment.

1.3 Presentation of Financial Statements

The Balance Sheet, Statement of Profit and Loss and Statement of Changes in equity are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 (“the Act”). The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

1.4 Significant Accounting Judgements, Estimates And Assumptions

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

This note provides an overview of the areas that involved a higher degree of judgement or complexity and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in the relevant note.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

A. Judgements in applying accounting policies

The judgements, apart from those involving estimations (see note below) that the Company has made in the process of applying its accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement. The management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period.

B. Key source of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a) Property, Plant and Equipment

Determination of the estimated useful lives of tangible assets and the assessment as to which components of the cost may be capitalized. Useful lives of tangible assets are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on technical advice, taking

into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

b) Recognition and measurement of Defined Benefit Obligations

The Cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. The discount rate is determined based on the prevailing market yields of Indian Government Securities as at the Balance Sheet Date for the estimated term of the obligations. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

c) Recognition of Deferred Tax Assets / Liabilities

A deferred tax asset / liability is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

d) Recognition and measurement of Other Provision

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

e) Discounting of long-term Financial Instrument

All financial instruments are required to be measured at fair value on initial recognition. In case of financial instruments which are required to be subsequently measured at amortised cost, interest is accrued using the effective interest method.

2. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

3. Property, Plant and Equipment

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company.

Capital work-in-progress includes cost of property, plant and equipment under installation / under development as at the balance sheet date.

The assets' residual values, useful lives and method of depreciation are reviewed at each financial year end and are adjusted prospectively, if appropriate.

4. Intangibles:

Research & Development:

Company capitalize the Research and Development phase expense as Intangible assets in accordance with Ind AS 38;

In-process research and development project meets the definition of an intangible asset when it:

- (a) meets the definition of an asset; and
- (b) is identifiable, i.e. is separable or arises from contractual or other legal rights.

The expenditure to be capitalized include the cost of materials and other costs directly attributable to preparing the asset for its intended use. Other development expenditure is recognized in profit or loss as incurred.

Acquired research and development intangible assets which are under development, are recognized as Capital Work In-Process Research and Development assets (CWIP). These assets are not amortized, but evaluated for potential impairment on an annual basis or when there are indications that the carrying value may not be recoverable. Any impairment charge on such assets is recognized in profit or loss. Intangible assets relating to products under development, other intangible assets not available for use and intangible assets having indefinite useful life are tested for impairment annually, or more frequently when there is an indication that the assets may be impaired. All other intangible assets are tested for impairment when there are indications that the carrying value may not be recoverable.

Amortization is recognized on a straight-line basis over the estimated useful lives of intangible assets based on its cash generation as estimated by the Management. Intangible assets that are not available for use are amortized from the date they are available for use. Generally, the useful life is similar to life of Plant & Machinery.

The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

5. Inventories

Items of Inventories are measured at lower of cost and net realizable value after providing for obsolescence and damage, if any. Cost of inventories comprises of cost of purchase, cost of conversion and other costs incidental to purchase in bringing them to their respective present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

Cost of trading and other products are determined on specific identification basis.

6. Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's net selling price or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in the statement of profit and loss.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

7. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial Assets

Initial Recognition

The Company recognizes financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets that are not at fair value through profit or loss are added to the fair value on initial recognition.

Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortised cost

Subsequent Measurement

For the purpose of subsequent measurement financial assets are classified into two broad categories:-

- Financial Assets at Fair Value
- Financial Assets at Amortized Cost

Where assets are measured at fair value, gains and losses are either recognized entirely in the statement of profit and loss, or recognized in other comprehensive income.

A financial asset that meets the following two conditions is measured at amortized cost:-

- **Business Model Test:** The objective of the company's business model is to hold the financial asset to collect the contractual cash flows.
- **Cash Flow Characteristics Test:** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at fair value through OCI:-

- **Business Model Test:** The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- **Cash Flow Characteristics Test:** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of interest on the principal amount outstanding.

All other financial assets are measured at fair value through profit and loss.

All equity investments are measured at fair value in the balance sheet, with value changes recognized in the statement of profit and loss, except for those equity investments for which the entity has elected irrevocable option to present value changes in OCI.

Derecognition

The company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retain substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

b) Impairment of financial asset

For impairment of financial assets, Company applies expected credit loss (ECL) model. Following financial assets and credit risk exposure are covered within the ECL model:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, debt securities, deposits, trade receivables and bank balance
- b) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables including receivables recognised under service concession arrangements.

The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, then the impairment loss is provided based on lifetime ECL.

c) Financial Liabilities

Initial Recognition

All financial liabilities are initially recognized at fair value and, in case of loans and borrowings and payables, net of directly attributable transaction costs

Subsequent Measurement

Financial liabilities are classified as measured at amortized cost or fair value through profit and loss (FVTPL). A financial liability is classified as FVTPL if it is classified as held for trading, or it is a derivative or is designated as such on initial recognition. Financial Liabilities at FVTPL are measured at fair value and net gain or losses, including any interest expense, are recognized in statement of profit and loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in statement of profit and loss. Any gain or loss on derecognition is also recognized in statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially

modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

8. Leases:

The company has entered in to various contracts for lease of Equipments as per INDAS116 At inception of a contract, the company assesses whether a contract is, or contains a lease. A contract is or contains a lease if the contract conveys the right to control the use of identified asset for a period of time in exchange for consideration. The assessment of whether a contract conveys a right to control the use of an identified asset depends on whether the company obtains substantially all the economic benefits for the use of an asset and whether the company has the right to direct the use of the asset.

Company as a Lessee

Recognition: At the commencement date, right-of-use asset and a lease liability are recognized.

Measurement:

Right of Use Asset

At the commencement date, right-of-use asset us measured at cost.

The cost of the right-of-use asset shall comprise:

- (a) the amount of the initial measurement of the lease liability.
- (b) any lease payments made at or before the commencement date, less any lease incentives received;
- (c) any initial direct costs incurred by the lessee; and
- (d) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. The lessee incurs the obligation for those costs either at the commencement date or as a consequence of having used the underlying asset during a particular period.

Lease Liability:

The lease liability is measured at the present value of the lease payments that are not paid. The lease payments are discounted using the incremental borrowing rate of the Company.

At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- (a) fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- (b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date.
- (c) amounts expected to be payable by the lessee under residual value guarantees;
- (d) the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- (e) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

Short term lease

Company has not recognized operating lease accounting and not recognize lease assets and lease liabilities for leases with a lease term of 12 months or less (i.e., short-term leases).

Subsequent measurement & depreciation

Lessees accrete lease liability to reflect interest and reduce the liability to reflect lease payments made.

The depreciation requirements in Ind AS 16, Property, Plant and Equipment is applied, in depreciating the right-of-use asset, subject to the requirements If the lease transfers ownership of the underlying asset to the lessee by the end of the lease term or if the cost of the right-of-use asset reflects that the lessee will exercise a purchase option, the lessee shall depreciate the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the lessee shall depreciate the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Right-to-use assets are subject to impairment testing under IAS 36 Impairment of Assets.

9. Provisions, Contingent Liabilities and Contingent Assets

Provision is recognized in the accounts when there is a present obligation as a result of past event(s) and it is probable that there will be an outflow of resources that will be required to settle the obligation and a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimate.

Contingent Liabilities are disclosed unless the possibility of outflow of resources is remote.

Contingent Assets are neither recognized nor disclosed in the financial statements.

10. Revenue Recognition

Revenue from sale of goods and services:

Revenue from sale of products and services are recognised at a time on which the performance obligation is satisfied over time or at a point in time. The period over which revenue is recognised is based on right to payment for performance completed. In determining whether an entity has right to payment, the entity shall consider whether it would have an enforceable right to demand or retain payment for performance completed to date if the contract were to be terminated before completion for reasons other than entity's failure to perform as per the terms of the contract. An asset is transferred when (or as) the customer obtains control of that asset.

Transaction price is the amount of consideration to which an company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money

Interest and Dividend Income: Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable. Dividend income is recognized when the Company's right to receive dividend is established, which is generally when shareholders approve the dividend.

Export Incentive: Incentive on Export Income is recognized when certainty of receipts is established.

Insurance Claim: Claims receivable are accounted at the time when such income has been earned by the Company depending on the certainty of receipts.

11. Depreciation

Depreciation on PPE is provided to the extent of depreciable amount on the Straight Line Method (SLM). Depreciation is provided based on useful life of the assets as prescribed in Schedule II of The Companies Act, 2013.

The estimated useful lives are as follows:-

Particulars of Assets	Useful life of Assets (In Years)
Building	30
Plant & Equipment's and pipe fitting	20 and 5
Furniture & Fixtures	10
Vehicles	08
Office Equipment's	5
Electrical Installation	10
Computers	03

12. Foreign currency reinstatement and translation:

Transactions in foreign currencies are initially recorded by the Company at rates prevailing at the date of the transaction. Subsequently monetary items are translated at closing exchange rates as on balance sheet date and the resulting exchange difference recognised in statement of profit and loss. Differences arising on settlement of monetary items are also recognised in statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the transaction. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value

is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively). Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other finance gains / losses are presented in the statement of profit and loss on a net basis.

In case of items which are covered by foreign exchange contracts the difference between the year end rate and rate on the date of the contract is recognised as exchange difference and premium paid on forward contracts if any is recognised over the life of the contract.

13. Borrowing Costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

14. Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period present.

15. Cash Flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

16. Employee Benefits

Short Term Employment benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post Employment Employee Benefits

Retirement benefits to employees comprise payments to government provident funds, gratuity fund and Employees State Insurance.

Defined Contribution Plans

The Company's contribution to defined contributions plans such as Provident Fund, Employee State Insurance are recognised in the Statement of Profit and Loss in the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective Funds.

Defined Benefit Plans

Gratuity liability is defined benefit obligation. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary, using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the Balance Sheet date.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in Statement of Profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Actuarial gains/losses are recognized in the other comprehensive income.

17. Income Taxes

Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternative tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay income tax higher than that computed under MAT, during the year that MAT is permitted to be set off under the Income Tax Act, 1961 (specified year). In the year, in which the MAT credit becomes eligible to be recognized as an asset the said asset is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay income tax higher than MAT during the specified year.

Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year.

18. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

For cash and other liquid assets, the fair value is assumed to approximate to book value, given the short term nature of these instruments. For those items with a stated maturity exceeding twelve months, fair value is calculated using a discounted cash flow methodology.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

19. Government grants

Government grants/ subsidies are recognised when there is a reasonable assurance that the Company will comply with all the conditions attached to them and that the grant/ subsidy will be received. The Company has determined that reasonable assurance is established upon receipt of sanction letter approving the incentive amount in accordance with the respective state industrial promotion subsidy.

20. Cash and cash equivalents

Cash and cash equivalents in the Balance sheet comprises Cash at bank and on hand.

21. Segmental reporting

As the Company's business activity falls within a single primary Business Segment Viz. "Manufacturing of Bulk Drugs" and hence does not have any additional disclosure to be made under Ind AS-108 on "Operating Segments".

22. Current and non-current classification

The Company presents assets and liabilities in statement of financial position based on current/non-current classification.

The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by MCA.

An asset is classified as current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
- b) Held primarily for the purpose of trading,
- c) Expected to be realised within twelve months after the reporting period, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when it is:

- a) Expected to be settled in normal operating cycle,
- b) Held primarily for the purpose of trading,
- c) Due to be settled within twelve months after the reporting period, or
- d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The Company has identified twelve months as its normal operating cycle.

Note : 36
Note: :Financial Risk Management

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities.

A) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities. The carrying amount of following financial assets represents the maximum credit exposure:

a) Trade and Other Receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However credit risk with regards to trade receivable is almost negligible in case of its residential sale and lease rental business as the same is due to the fact that in case of its residential sell business it does not handover possession till entire outstanding is received. No impairment is observed on the carrying value of trade receivables.

b) Cash and Cash Equivalents

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Board. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed condition, without incurring unacceptable losses or risking damage to the Company's reputation. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of surplus funds, bank overdrafts, bank loans, debentures and inter-corporate loans. The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The Company has access to a sufficient variety of sources of funding.

The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The Company has access to a sufficient variety of sources of funding.

Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates, foreign currency exchange rates and commodity prices) or in the price of market risk-sensitive instruments as a result of Such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short term and long-term debt. The Company is exposed to market risk primarily related to commodity prices and the market value of its investments.

Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

**Note: 45 - SEBI Matter**

Securities and Exchange Board of India (SEBI) conducted an investigation in the matter of trading activities of certain entities in the script of Mangalam Drugs and Organics Limited (“the Company”) for the period March 17, 2015 to December 31, 2015. On the basis of above investigation, the SEBI had issued a Show Cause Notice (SCN) dated December 31, 2019 to the Company and the certain entities / individuals part of the promoter and promoter group for inter-alia, alleging certain compliance / disclosure lapses on the part of the Company in relation to preferential allotment of warrants to one of the promoter group entities which were undertaken in September 2015. The Company had suitably replied to the SCN and also attended the personal hearing scheduled by the SEBI. SEBI through its whole-time member, had passed an order dated September 22, 2020 (SEBI Order) for violation of Regulation 77(2) and 77(3) of SEBI (ICDR) Regulations, 2009 r/w Regulation 169(2) of SEBI (ICDR) Regulations 2018 and Section 12A(a),(b),(c) of SEBI Act, 1992 r/w Regulations 3(a), (b),(c),(d) and 4(1) of SEBI (PFUTP) Regulation, 2003 and through SEBI Order, the Company and the certain entities / individuals part of the promoter and promoter group have been restrained from accessing the securities market through issue of securities or subscription to securities, directly or indirectly, for a period 6 months and certain monetary penalties have been imposed on each of them. The Company and certain entities / individuals part of the promoter and promoter group had filed an Appeal before the Securities Appellate Tribunal (SAT) on November 6, 2020 against SEBI Order and prayed for suitable reliefs and /or stay orders. The Hon’ble SAT granted the interim reliefs vide its Order dated December 10, 2020 (SAT Interim Order) by directing that the effect and operation of the order passed by the SEBI shall remain stayed provided the Company and entities / individuals part of the promoter and promoter group (Appellants) deposit an amount mentioned by the SAT before the SEBI within 4 (four) weeks from the date of SAT Interim Order. The amount so deposited shall be subject to the result of the appeal. The application for stay filed by appellants was accordingly disposed of. Appellants had deposited Rs. 25 Lakhs with SEBI as per Hon’ble SAT Interim Order and the final order in the matter is awaited.

Further the Honorable (Securities and Appellate Tribunal) SAT on 27th June 2022 pronounced the order in the favor of your Company which says that the impugned order passed by the SEBI against the Company cannot be sustained and hence quashed.
