Chairman's Message

Dear Shareholders,

FY 2024–25 was a defining chapter in Fiem Industries' journey—marked by our highest-ever revenue and profits, a sharper innovation focus, and deeper customer trust. At a time when the industry witnessed a strong recovery, your Company led from the front, setting new benchmarks in performance, delivery, and product leadership.

This achievement reflects not just favorable industry conditions, but the strength of our strategic direction, our agility in innovation, and our deep engagement with leading OEM partners. We continued to scale new heights in our core business while also laying the foundation for long-term value creation through investments in R&D, electronics, and global capabilities.

Industry Landscape

FY 2024–25 saw encouraging growth across the Indian automobile industry, backed by stronger rural demand, easing inflation, and a continued government focus on infrastructure and consumption. The two-wheeler segment—the backbone of our business—grew by 11% year-on-year to 23.9 million units - supported by a recovery in entry-level demand and a surge in exports. The electric two-wheeler category, too, posted a healthy 21% growth, underscoring its long-term potential despite short-term policy adjustments.

Performance Highlights

Your Company recorded another year of strong growth across all financial parameters:

- Net Sales increased by **19.39% to Rs. 2,404.96 crore.**
- EBITDA stood at **Rs. 320.73 crore, with a margin of 13.34%.**
- Profit After Tax rose by **23.09% to Rs. 204.14 crore.**
- LED Lighting now accounts for nearly 60% of our total automotive lighting revenues, up from 52% last year, highlighting our strong technology transition.

These results affirm the resilience of our business model and our disciplined focus on cost, quality, and innovation.

Strategic Milestones

In April, 2025, we have opened our new Electronics R&D and Innovation Centre in Gurugram. This integrated facility consolidates Mechanical, Optical, Electronics, and CAE capabilities under one roof, while also housing our Corporate Office—enabling faster decision-making and better synergy between technology and leadership.

We are also building advanced prototyping capabilities, including SMT Line for quick prototype building, and a cutting-edge EMI/EMC Validation Lab, which will significantly accelerate our product development, particularly in high-value electronic products.

Our overseas subsidiaries—FRT Italy and FIEM Japan—have scaled up their design and innovation capabilities, expanding our global footprint and bringing us closer to customer needs in key markets.

OEM Engagements and Product Launches

During the year, we launched several new products with our long-standing OEM partners, further deepening our integration across key models. Some of the examples are:

- **Honda Activa EV** with Fiem's rear combination lamp, front position lamp, license lamp, and mirrors.
- **Yamaha Tracer 700 & NovaFactor** featuring our headlights and position lights for global markets.
- **Royal Enfield Classic 350** (facelift) with full lighting solutions by Fiem.
- **Hero Xtreme 250** with Fiem's LED headlamp.
- **TVS i-Qube & Apache 4G**, where we continue to supply full lighting and mirror solutions.

These engagements reaffirm our position as a trusted supplier of full lighting systems, mirrors, and high-performance LED components to India's most respected two-wheeler brands.

Foray into the Four-Wheeler Passenger Vehicle Market

FY 2024–25 also marked a strategic inflection point in Fiem Industries' evolution with our formal entry into the four-wheeler passenger vehicle segment—a move that reflects both our growing technological prowess and our vision for long-term diversification.

We began commercial production for Mahindra & Mahindra, supplying our first product—an LED license plate lamp—which has now been approved across their vehicle lineup. In addition, we have secured development orders for three new products for their flagship Bolero model, including a high-mounted stop lamp.

Internationally, our capabilities were acknowledged by Mercedes-Benz (Germany), where we successfully executed our initial order and have now received a fresh order for a headlamp for a new development vehicle. These breakthroughs represent a significant endorsement of our design, validation, and manufacturing standards by globally respected automakers.

This foray into four-wheeler passenger vehicles is not just an expansion of our product portfolio—it is a major leap forward in our aspiration to become a multi-segment, global supplier. We are confident that our investments in R&D, Design, rapid prototyping, and systems engineering position us well to build on these early successes and scale meaningfully in this high-value segment.

Creating Shareholder Value

In line with our philosophy of sharing success, the Board has recommended a dividend payout of 300%, representing 39% of profits—our highest-ever dividend. This underscores both our financial strength and our long-term commitment to Value Creation for our shareholders.

Looking Ahead

As we move into FY 2025–26, we remain confident and future-ready. With increasing traction in EV lighting, deeper integration in electronics, and strong OEM relationships, we are well-positioned to sustain our growth momentum. Our continued investments in R&D, infrastructure, and talent will enable us to stay ahead of the curve in a rapidly evolving industry.

On behalf of the Board and Management, I express my sincere appreciation for your unwavering support and trust. We remain committed to delivering excellence and creating long-term value for all stakeholders.

Warm regards,

CSR

J.K. Jain

Chairman & Managing Director

Seema Jain

Whole-time Director

At our Company, Corporate Social Responsibility (CSR) is not merely a legal mandate, it is a heartfelt commitment to give back to society in meaningful and impactful ways. Through structured and purposeful interventions, we strive to uplift the underprivileged and address critical social challenges where our efforts can make a lasting difference.

We view CSR as a continuous journey of learning, innovation, and collaboration. By working closely with public representatives, local administrations, NGOs, and other stakeholders, we aim to foster initiatives that deliver real and measurable impact, extending benefits far beyond the boundaries of our organization.

Our CSR initiatives are centred around key focus areas such as **healthcare, women empowerment, support for underprivileged, marginalized, vulnerable communities, and awareness campaigns against drug addiction**. These areas reflect our deep-rooted belief in inclusive and sustainable approach.

A flagship initiative under our CSR program is the promotion of **Menstrual Hygiene Management (MHM)**. In partnership with public stakeholders and civil society organizations, we have successfully established **13 Sanitary Pad Manufacturing Plants** to date. This collaborative model has not only raised awareness around menstrual hygiene but also proved instrumental in promoting health and self-esteem among women.

Through these sustained CSR initiatives, we are committed to building a legacy of positive change for **women, underprivileged, marginalized and vulnerable communities**.

Women Empowerment

Sanitary Pad Projects

One of our key CSR focus areas is promoting women's empowerment and addressing critical issues such as Menstrual Hygiene Management (MHM) and healthcare. We recognize the unique challenges faced by women and the importance of creating an inclusive and supportive environment for their well-being. By implementing comprehensive programs that provide access to affordable and hygienic menstrual products, education on menstrual health, and improved sanitation facilities, we contribute to the overall health, dignity, and empowerment of women and girls.

Manufacturing of Sanitary Pads

Establishment of Sanitary Pad Manufacturing Plant managed by women. Collaboration with public representatives, NGOs & local administration.

Livelihood Opportunities

Financial Aid to Needy Patients (AIIMS, Delhi)

Mrs. Seema Jain is the driving force for all these social work to serve the humanity under the aegis of 'FIEM FOUNDATION'. She believe that the biggest help for a poor is helping him during his illness, when he and his family need the help most. Because, during his or her illness, it is not only that he or she suffers, but entire family and dependents suffers and they need a helping hand during this tough time. Towards this noble cause, **Fiem Foundation collaborated with Social Welfare Unit of AIIMS, Delhi** and disburse the financial aid to help the poor and needy patients, suffering from cancer and other life-threatening diseases for their treatment in AIIMS. Starting from year 2015-16, till now more than 300 such patients have been extended financial aid of more than Rs. 4 crore .

State of the Company's affairs and Business Review

a) Financial Review:

FY 2024-25 has put India's 2-wheeler industry back in high gear. The industry volumes for the year grew about 11%.

The year marked another milestone in the Company's growth trajectory, with record revenues, margin stability, and deeper engagement with marquee OEMs.

In line with industry performance, the Company's financial performance highlights are as under:

- For FY 2024-25, Company has achieved Net Sales of Rs. 2404.96 Crore as compared to Rs. 2014.37 Crore in previous financial year, representing a growth of 19.39%.
- EBIDTA for FY 2024-25 stood at Rs. 320.73 Crore, as compared to Rs. 267.97 Crore last year. This translates into an EBDITA margin of 13.34% for the FY 2024-25.
- For FY 2024-25, PAT of the Company stood at Rs. 204.14 Crore as compared to Rs. 165.84 Crore during last financial year, which is higher by 23.09%.
- As a percentage of total Automotive Lighting, the LED Lighting stands at 59.3% in FY 2024-25, as compared to 52% during last year.

To enhance innovation and a deep focus on integrated product development, the Management has taken following initiatives:

- A state-of-the-art Innovation and R&D Centre is established in Gurugram, integrating Mechanical, Optical, Electronics, and CAE teams.
- The Company is setting up an EMI/EMC validation lab, along with in-house SMT line, prototyping capabilities including assembly lines, to accelerate electronics product development.
- The Corporate Office is also housed in same office to facilitate direct oversight by Top Management and agile decision-making.

Management believes this strategic step will enhance speed, integration, and customer responsiveness across 2W and 4W verticals.

Continued investments in product innovation, advanced manufacturing, and R&D are expected to sustain and enhance the Company's dominant position in the automotive lighting space.

Update on Fire at Rai Plant:

During the previous financial year, we faced an unfortunate fire incident at our Rai factory on June 13, 2023, resulting in significant damage to our stock, plant machinery, equipments etc. and part of the building. However, due to the right safety measures and the swift actions, we were able to save a substantial portion of our assets.

During the year under review, the work of re-instatement of building, machines, equipments and other assets is completed and final assessment of insurance claim is under process. During the year under review, Company has received two interim

payments from insurance company, respectively for Rs. 30 Crore and Rs. 20 Crore each, totalling Rs. 50 Crore.

However, the Policy is subject to applicable law on dividend distribution.

2. LEGAL FRAMEWORK

- a) Regulation 43A of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") vide amendment dated 5th May, 2021, mandated top 1000 listed entities based on market capitalization (calculated as on March 31 of every financial year) to formulate a dividend distribution policy which shall be disclosed on Company's website and web-link shall also be provided in annual reports of the company.
- b) The Company being among the top 1000 companies as explained above, hence, in compliance of amended Regulation 43A of the Listing Regulations, the Board of Directors of Fiem Industries Limited (the "Company") approved this Policy in their meeting held on June 30, 2021.
- c) All terms in context of dividend, whether interim, final or special dividend referred here in will have the same meaning as ascribed to them under Companies Act, 2013, SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as may be amended from time to time.

3. THIS POLICY HAS INCLUDED THE FOLLOWING PARAMETERS

- a) The circumstances under which the shareholders of the Company may or may not expect dividend;
- b) The financial parameters that shall be considered while declaring dividend;
- c) Internal and external factors that shall be considered for declaration of dividend;
- d) Policy as to how the retained earnings shall be utilized; and
- e) Parameters that shall be adopted with regard to other classes of shares. (In case Company issues such share in future).

In case the Company proposes to declare dividend on the basis of parameters, in addition to above or proposes to change such additional parameters, it shall disclose such changes along with the rationale for the same in its annual report and on its website.

4. BACKGROUND AND WAY FORWARD

The Company has remained a dividend paying Company since listing of shares on the stock exchanges and aim to keep this practice in future as well by regularly rewarding the shareholders

in the form of dividends. At the same time Company utilized the retained earnings and internal accruals for working capital, capital nature expenditure and other corporate purposes along with the external resources in the form of funds raised by issuance of equity shares and also debt availed from banks / financial institutions from time to time. The Company has prudently maintained all these factors and aim to maintain the same in future as well.

With above background, following parameters will be considered by the Board, while declaring / recommending the dividend:

a) Internal Factors and Financial Parameters:

- Performance of the Company in terms of turnover and profitability in comparison to previous years and outlook in next year;
- Net operating profit after tax and cash profits for the year;
- Reserves / retained earnings available with the Company;
- Outstanding borrowings, repayment schedules, financial leverage and liquidity ratios;
- Capital expenditure requirements of all nature;
- Funds requirement for brown field, green field expansion and organic, inorganic growth opportunities and investment plans;
- Cash flow requirements and liquidity position;
- Past dividend paying trends of the Company;
- Contractual provisions in the business agreements including financing and banking agreements;
- Any other similar internal factor and financial parameter that may be prevailing at the time of declaration / recommendation of dividend.

b) External Factors and Regulatory Provisions:

- Government policies, technological trends, customer preference and market dynamics impacting the industry in which Company operates;
- Government policies, regulatory framework impacting the Company and its performance;
- Legal provisions applicable on dividend under Companies Act, 2013, SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 or any other law, as amended from time to time;
- Taxation laws applicable on the dividend or profits of the Company;

- Any other similar external factor and regulatory provision that may be prevailing at the time of declaration / recommendation of dividend.

c) The circumstances under which the shareholders of the Company may or may not expect dividend:

- Subject to this Policy, and considering the past trends of dividend payment by the Company, the shareholders of the Company can have optimistic expectation of dividend, if the Internal Factors. Financial Parameters as well as External Factors remain favorable in that year. However, in case of unfavorable or adverse Financial Parameters, Internal and External Factors, the shareholders may not expect the dividend for that year.

d) Utilization of Retained Earning:

- Subject to applicable law, and as per need of the Company from time to time, the retained earnings of the Company would be utilised for working capital requirements, capital expenditure requirements of all nature, debt repayment, business expansion and other business purposes and investments.
- Subject to applicable law, the Board may declare / recommend the dividend out of the profits of the Company for that year or out of the profits for any previous year(s) or out of free reserves or retained earnings.

e) Parameters that shall be adopted with regard to various other classes of shares:

- Presently Company has only one type of shares i.e Equity Shares of face value of Rs. 10/- each, all fully paid-up.

5. REVISIONS/ AMENDMENTS

- a) Subsequent amendment in any applicable provision of Act or Listing Regulations, requiring change in this Policy shall have impact as if Policy stand amended to give effect to that amendment. Further, the Policy will be revised in due course of time by Board of Directors.
- b) In the event of any conflict between the provisions of applicable law and the Policy, the provisions of law shall prevail over the Policy.
- c) The Board of Directors of the Company can revise the Policy at any time, as they may think fit and proper.

ANNEXURE-II

REMUNERATION POLICY

1. Background

- 1.1 The Remuneration Policy was originally formulated pursuant to section 178 of the Companies Act, 2013 (effective from April 1, 2014) read with revised Clause 49 of the Listing Agreement (effective from October 1, 2014).
- 1.2 The present revision is carried to incorporate suitable changes because of substitution of Listing Agreement with SEBI (Listing Obligations and Disclosure Requirements), Regulations 2015 ("Listing Regulations") w.e.f. December 1, 2015.
- 1.3 Regulation 19 of Listing Regulations read with Part D of Schedule II, inter-alia, provides that the role of Nomination and Remuneration Committee shall include 'formulation of the criteria for determining qualifications, positive attributes and independence of a director and recommend to the board of directors a policy relating to, the remuneration of the directors, key managerial personnel and other employees'. This provision of Listing Regulations is similar to corresponding provision of erstwhile Clause 49 of the Listing Agreement.
- 1.4 Therefore, the present revision is mainly carried out to incorporate the reference of relevant Listing Regulation and remove the reference of erstwhile Listing Agreement.

2. Legal Framework

- 2.1. Section 178 of the Companies Act, 2013, inter-alia provides for constitution of Nomination & Remuneration Committee and mandates the listed Companies to have Remuneration Policy for its directors, key managerial personnel and other employees. Sub section (3) and (4) of section 178 provides as under:
 - (i) The Nomination & Remuneration Committee shall formulate the criteria for determining qualifications, positive attributes and independence of a director and recommend to the Board a policy, relating to the remuneration for the directors, key managerial personnel and other employees.
 - (ii) The Nomination and Remuneration Committee shall, while formulating the policy under sub-section (3) ensure that -
 - (a) the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate directors of the quality required to run the company successfully;

(b) relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and

(c) remuneration to directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals:

Provided that such policy shall be disclosed in the Board's report.

- 2.2. In line with the Companies Act, 2013, Regulation 19 read with Part D of Schedule II of the Listing Regulations provides about the Nomination & Remuneration Committee and Remuneration Policy as under:

The role of the committee shall, inter-alia, include the following:

'formulation of the criteria for determining qualifications, positive attributes and independence of a director and recommend to the board of directors a policy relating to, the remuneration of the directors, key managerial personnel and other employees.'

- 2.3. On above background, the captioned policy is framed.

3. Objectives & Scope

- 3.1. Criteria to determine qualifications, positive attributes and independence of a director.
- 3.2. Policy to provide guiding principles for remuneration of the directors, key managerial personnel and other employees.

4. Definitions

- 4.1. "Nomination & Remuneration Committee (NRC)" means such Committee constituted by the Board of Directors of the Company under provisions of section 178 of Companies Act, 2013 and Regulation 19 of the Listing Regulations.
- 4.2. "Board" means the Board of Directors of the Company.
- 4.3. "Company" means the "Fiem Industries Limited" / "FIEM".
- 4.4. Companies Act, 2013 ('Act') includes Rules framed thereunder.
- 4.5. All other words, terms and phrases referred and not defined herein, shall have the same meaning as defined under Companies Act, 2013 and Listing Regulations.

5. Criteria to determine Qualifications, Positive Attributes and Independence of a Director

- 5.1. The independence of an Independent Director will be decided as per parameters provided under section 149(6) of the Act read with Regulation 16(1)(b) of the Listing Regulations. Professional qualification of an Independent Director will be an advantage, but that will not be sole criteria and positive attributes like experience in industry, exposure as entrepreneur, specialised area expertise will be more effective attributes. However, these will be guiding principles and Nomination & Remuneration Committee will have liberty to consider other merits as well, while recommending an Independent Director for appointment.

6. Governing framework of Remuneration of Directors, KMPs and other Employees

- 6.1. The remuneration to Managing Director and Whole-time Directors will be as per the Companies Act, 2013 and will be recommended by NRC and approved by the Board and Shareholders.
- 6.2. The Independent Directors and Non-executive Directors will be paid sitting fees for attending the meeting of Board and Committees. They will also be provided travelling and boarding facilities / expenses whenever applicable.
- 6.3. The remuneration of KMPs and other employees of the Company will be governed by the Human Resources practices of the Company.

7. Guiding principles of Remuneration of Directors, KMPs and other Employees

- 7.1. The remuneration will be decided considering the long-term growth objective of the Company and by maintaining balance among various factors like complexity, criticality and scarcity of the skill sets of the candidates.
- 7.2. Long term objective, growth and suitability for the business of the Company will remain supreme driving principles.

- 7.3. The level and composition of remuneration is reasonable and sufficient to attract, retain and motivate employees at all levels for successfully running the Company.

- 7.4. Performance of individual and criticality of specialised skill sets required for the growth of the Company will be given due weightage while remunerating such employees.

- 7.5. Adequate facilities like company provided vehicles and other perquisites will be given to the Directors and eligible employees to retain and nurture best talent.

- 7.6. Variable remuneration will not be mandatory and periodic increments etc. will be decided considering various relevant factors like Company's performance, employee's willingness to devote sufficient time and energy in carrying out duties and responsibilities effectively, retaining and nurturing talent by the Company, industry practices, availability of talented manpower, motivate the manpower and to develop a sense of belongingness as well as need of the Company. The remuneration level can be reviewed and reset annually / periodically based on comparison with the relevant peer group and industry trends.

8. Policy Review

This Policy may be reviewed as and when any changes are to be incorporated in the Policy due to change in laws or as may be felt appropriate by the Company. Any changes or modification on the Policy would be approved by the Committee or Board of the Company.

ANNEXURE-III SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED ON MARCH 31, 2025

[Pursuant to Section 204 (1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Fiem Industries Limited
(CIN: L36999DL1989PLC034928)
D-5, Mansarover Garden
New Delhi-110015

We have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Fiem Industries Limited** (hereinafter called the Company). Secretarial audit was conducted in the manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, documents, minute books, forms, and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents, and authorized representatives during the conduct of Secretarial Audit, the explanations and clarifications given to us and the representations made by the Management, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on March 31, 2025 (Audit Period), complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance- mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

1. We have examined the books, papers, minute books, forms, and returns filed and other records maintained by the Company for the financial year ended on March 31, 2025 according to the provisions of:
 - (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
 - (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
 - (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
 - (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent applicable for Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
 - (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;

(d) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

2. We further report that, during the Audit Period there were no events/ actions in pursuance of:
 - (a) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021;
 - (b) The Securities and Exchange Board of India (Issue and Listing of Non-convertible Securities) Regulations, 2021;
 - (c) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009;
 - (d) The Securities and Exchange Board of India (Buy Back of Securities) Regulations, 2018;
 - (e) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018.
3. We have also examined compliance with the applicable clauses of the Secretarial Standards (SS-1 and SS-2) issued by the Institute of Company Secretaries of India.
4. During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines and Standards, to the extent applicable as mentioned above.

We further report that-

5. The Company is engaged in manufacturing of Automotive Lighting and Signaling Equipment, Rear View Mirror, Plastic Moulded Parts and other Auto Components. Company also manufactures LED Luminaries/ LED Products for general lighting applications and LED Integrated Passenger Information System for buses and railways etc. Company has manufacturing facilities, depots and offices in different States of the Country. During the course of Business operations, various Labour, Industrial, Environmental, Local/ State Laws as well as Laws specific to the Automobile Industry (such as Indian Motor Vehicle Act, 1988 and Rules made thereunder, as amended) apply to the Company. We have examined the compliance management system of the Company for ensuring the compliances of these laws. In our opinion and to the best of our information and explanations given to us, the compliance management system is adequate to ensure compliance of above referred applicable laws.
6. The compliance by the Company of applicable financial laws like direct and indirect tax laws and maintenance of financial records and books of accounts has not been reviewed in this Audit since the same have been subject to review by statutory financial auditor and other designated professionals.
7. The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors including a Woman Independent Director. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

8. Adequate notice was given to all the Directors for Board and Committee Meetings. Notice, Agenda and detailed notes on agenda were sent at least 7 days in advance other than a meeting which was held on shorter notice in compliance with the provisions of the Act, read with Secretarial Standard-1 and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.
9. Decisions by the Board and Committees are carried out unanimously and therefore, no dissenting views were required to be captured and recorded as part of the minutes.
10. There are adequate systems and processes in the Company commensurate with the size and the operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.
11. During the period under review, the Company has completed the steps for exit from its Joint Venture (JV) Company, namely, Centro Ricerche FIEM Horustech S.r.l., incorporated in Italy. The JV Company was formed on December 12, 2013 in Italy as a 50:50 Joint Venture between the Company and Horustech Lighting S.r.l.

Further, there were no instances of:

- (i) Public/ Right/ Preferential issue of shares/ debentures/ sweat equity, etc.;
- (ii) Redemption/ buy- back of securities;
- (iii) Any resolution by the Members in pursuance to section 180 of the Companies Act, 2013;
- (iv) Merger/ Amalgamation/ Reconstruction, etc; and
- (v) Foreign Technical Collaborations.

ANNEXURE-IV

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO PURSUANT TO PROVISIONS OF SECTION 134 OF THE COMPANIES ACT, 2013 READ WITH RULE 8 OF THE COMPANIES (ACCOUNTS) RULES, 2014.

(A) CONSERVATION OF ENERGY

(1) Steps Taken or Impact on Conservation of Energy:

The Company has consistently focused on improving energy efficiency across all its factories and office locations. Through the ongoing replacement and upgrading of equipment, it ensures that energy optimization remains a key priority in its operations. Following thorough analyses, a variety of measures have been introduced to reduce energy consumption by enhancing the effectiveness of energy-intensive equipment. In the year under review, numerous initiatives were carried out across all plants to boost energy conservation and efficiency. Notable actions include:

(i) Adoption of Fully Electric Injection Moulding Machines:

All new moulding Machines purchased for capacity expansion or for replacing legacy hydraulic units are now fully electric. Besides reducing specific electricity consumption these machines generate less heat, cut hydraulic oil usage to minimal, and require lower and easy maintenance.

(ii) Servo Motors:

Induction motors on existing moulding machines were replaced with high efficiency servo motors. Servo motors draw power only when the screw is in motion, trimming "idle" consumption and delivering a cumulative reduction in energy.

(iii) Auto Shut Valves on Compressed Air Mains:

Pneumatic lines are now isolated automatically during meal and tea breaks.

(iv) Transformer Load Consolidation:

On holidays or during limited process days, non essential feeders are switched to a single transformer, curbing "no load" losses inherent in multiple energized transformers and lowering auxiliary power draw.

(v) Variable Frequency Drives (VFDs) on Cooling Towers & Air Compressors:

VFDs installed in air-cooling units, avoiding full speed operation when partial loading suffices.

(vi) Smart Timers on Assembly Lines:

In Assembly Lines, timer installed with automatic on/off, so that during no-production hours, like lunch and tea breaks the equipments and lighting automatically off, resulting in power saving.

(vii) Closed Loop Hot Air Recycling in Hopper Dryers:

In Moulding machines hopper dryers, the mechanism for recirculating of pre heated air implemented, improving operator comfort and further saving energy.

(viii) Thyristor Based Oven Controllers:

Installation of thyristor-based controllers in ovens, to optimise power consumption.

(ix) Inverter Type Room Air Conditioners:

All fresh installations, and replacement of old ACs, are with inverter ACs. These units operate with eco friendly refrigerants, scale compressor speed to cooling demand, and slash electricity consumption substantially.

(x) VRV / VRF Ductable AC Systems:

Variable Refrigerant Volume (VRV) ductable ACs systems installed in larger areas, which are equipped with optimised utilisation as per cooling requirement of the place, resulting in energy efficiency.

(xi) Power Factor Improvement via Distributed Capacitors:

Capacitor banks installed at strategic distribution panels reduce reactive power flow, and stabilise voltage and also resulting in idle power losses in cables and motors.

(xii) Continuous Energy Efficiency KAIZEN:

Efforts are continuously made to achieve high energy efficiency by way of constant monitoring, selection of low energy consumption machines and efficient energy management and techniques.

(xiii) IoT Enabled Energy Monitoring System (EMS):

Company is in the process of installation of Energy Monitoring System (EMS), equipped with IOT Dashboard, providing real-time insights into energy consumption, power-usage and identification of energy in-efficient machines for taking corrective measures.

(xiv) VFDs on Air Compressors:

Air-compressors representing one of the most energy intensive utilities are now run by VFDs.

(xv) Behavioral and Cultural Measures / Employee Sensitization:

The Company emphasizes the importance of energy conservation through employee sensitization. Regular workshops and awareness campaigns encourage staff to adopt energy-saving practices in their daily activities. By fostering a culture of responsibility, employees are motivated to contribute to the Company's energy efficiency goals.

(xvi) Supplier Encouragement:

Supplier visits and audits are conducted regularly, with suppliers being encouraged to adopt green practices as a key criterion in the Company's purchasing strategy.

The above efforts collectively drive a notable reduction in energy consumption, reinforcing our commitment to conserve the energy. Through ongoing innovation and refinement, the Company remains committed for energy conservation and environmental stewardship.

While it is difficult to precisely quantify the impact of these measures on energy consumption and the resulting effects on production costs, it is clear that energy is one of the major cost components in both production and overall operations. As such, all energy-saving efforts contribute to a reduction in overall costs.

(2) Steps taken by the Company for Utilizing Alternate Sources of Energy:

The Company is actively exploring alternative energy sources, such as rooftop solar installations in its factories, to maximize the use of renewable energy. While these initiatives are in the early stages, the current contribution of alternative energy remains negligible. However, the Company is committed to expanding these efforts as part of its long-term sustainability goals.

(3) The Capital Investment on Energy Conservation Equipment:

The energy conservation efforts primarily focus on upgrading existing equipment and improving practices, with minimal capital investment required, except in specific cases involving plant upgrades or the installation of new facilities. During the year under review, the capital expenditure on energy-saving equipment was relatively modest and not separately reported.

(B) TECHNOLOGY ABSORPTION

(1) Efforts made towards Technology Absorption:

The Company has made substantial progress in integrating cutting-edge technologies within the automotive lighting sector, particularly for two-wheeler applications. By successfully adapting and localizing global innovations, Fiem Industries serves both Indian and international markets with advanced lighting solutions.

To maintain its competitive edge and stay ahead of the industry curve, the Company is strategically emphasizing lean design and manufacturing principles. This focus helps optimize production efficiency and speeds up the adoption of LED technologies, which continue to lead advancements in the automotive lighting industry.

Committed to addressing the growing demand for high-quality and cost-effective automotive lighting solutions, Fiem places strong emphasis on continuous innovation and technological advancement. This commitment spans all key areas, including Design, Development, Testing, and Manufacturing, ensuring the Company remains at the forefront of industry trends and delivers superior products to its customers. The efforts are summarised as under:

- (i) Laser Ambient Lighting for 4W interiors offers designers greater freedom to shape light across door panels, floorwells, dashboard trims, roof headliners and other design possibilities.
- (ii) Infrared Fog Modules (4W) designed to enhance visibility in dense fog, heavy rain, or snow, where white or yellow light may actually reduce visibility.

- (iii) Adopted and customized bi-functional projector modules developed with fragmented optics to deliver both low and high beam functionality from a compact footprint, specifically for two-wheelers.
- (iv) Miniature MFR-LED headlamps developed that deliver exceptional brightness and beam performance, ensuring superior road illumination.
- (v) Tail lamp developed with 3D crystal-like visual effects and Micro-optics technology for two-wheeler applications.
- (vi) Ultra-High Intensity modular DRL & Position lamps developed.
- (vii) CAN & LIN based controls for Lighting Animations in Front & Rear Lighting implemented.
- (viii) Micro-optical element-based designs made, enabling customized and brand-distinctive lighting.
- (ix) Pulse Width Modulation (PWM) control units for refined vehicle headlamp performance.
- (x) End-of-Line (EOL) electrical simulations to ensure functionality and reduce failures.
- (xi) Implementation of Laser Gate Cut Robots to prevent human contact with headlamp and collimator lenses.
- (xii) Implementation of Flashing & LED Analyzer machine for Headlamp & Taillamp PCBs.

(2) Benefits as the aftermath of the above efforts, namely product improvement, cost reduction, product development, import substitution etc. are:

- (i) Fragmented modules enhance the visibility while reducing space and weight specifically tailored for two wheelers on-road light presence with high intensity light and gives enormous freedom to stack vertically, horizontally and in a mixed pattern with minimal optical elements.
- (ii) Integrating multiple lighting technologies enables a homogeneous, edge-to-edge continuous signature lighting effect with consistent illumination throughout, establishing a primary attribute for two-wheelers.
- (iii) A self-reliant team approach focused on optimization ideas through compact MFR and modular designs, driving cost reduction alongside performance improvements in all areas.
- (iv) Advanced hybrid optical designs in DRLs, driven by deep engineering expertise to deliver premium illumination at any orientation, enabling modular integration across various vehicle categories.
- (v) PWM-enabled technology lamps allow to create low-cost adaptive headlights, offering precise control over light intensity and beam pattern.

(3) Following are the information on Imported technology during last 3 years reckoned from beginning of the financial year 2024-25

- a) the details of technology imported:
- b) the year of import:
- c) Whether the technology has been fully absorbed:
- d) If not fully absorbed, areas, where absorption has not taken place, and the reasons thereof:

In general, the Company keeps on importing latest machines to keep pace with the latest manufacturing and technology development worldwide. This helps developing in-house technology and up gradation of technology. Company had imported LED SMT machines and automatic assembly lines with latest technology in yester years and also keeps on importing robots and machines with latest technology for various processes. The technology gets self-absorbed during production as improvement is a continuous process.

The Company signed a 'Technology License & Assistance Agreement' with Aisan Industry Co., Ltd. Japan in Sept 2016 for Canister. The technology is being imported and absorbed.

The Company also signed a 'Technology License & Assistance Agreement' with Toyo Denso Co., Ltd., Japan in July 2018 for Bank Angle Sensors. The technology is being imported and absorbed.

(4) RESEARCH & DEVELOPMENT (R&D)

Our focus on advance technology products set the direction for our R&D initiatives to develop affordable and eco-friendly lighting solutions tailored for two-wheelers and four-wheelers. We are committed to pioneering advancements in compact, cost-effective illumination that addresses market demands for safe and intuitive driving experiences. Leveraging strong R&D capabilities, we continuously innovate to introduce new products and technologies that enhance quality and earn the trust of our valued OEM customers.

The Company has a Photometric Testing Laboratory at Rai. Further, R&D Centre at Rai Plant, which is recognized by the Government of India's Ministry of Science and Technology, Department of Science and Industrial Research. Additionally, Fiem has increased its resources and testing facilities at 'Fiem Research & Technology' (FRT) in Turin, Italy, to strengthen its advance designing capabilities in automotive lighting, focusing on advanced concept development and innovation. The Company has also expanded its Japanese subsidiary, Fiem Industries Japan Co. Ltd., which functions as Design Centre & Liaison Office.

To better align with our customers' evolving needs and provide agile support, we have established customer-focused Design Offices in Pune and Hosur. These facilities facilitate region-specific technical assistance, promote collaborative development, and accelerate the delivery of customized lighting solutions.

A brief on the R&D activities of the Company is as follows:

(a) Specific Areas in which R&D is carried out by the Company:

- (i) Derived CAN-based multifunctional headlamps, cross-functional rear lamps, and Class-D MFR headlamps. aimed at improving system integration, efficiency, and performance.
- (ii) The red diffuser lens has been successfully integrated into signature lighting functions, providing a high-end, premium lighting effect.
- (iii) Compact single-LED license plate lamp developed in full compliance with regulatory standards.
- (iv) Seamless running signature lights for two wheelers.

- (v) Full vehicle lighting ideas implemented for front and rear, offering balanced light in every direction to improve the upscale appearance.
- (vi) Micro Lens Signature Lamps and Miniature Stacked Headlamps developed for two wheelers.
- (vii) Charging Indicator Animation lamp and Lit Logo Lights developed.
- (viii) Image Projection and Courtesy Lighting solutions compatible with both bar-end and floor-mounted configurations.
- (ix) Micro Lens Signature Lamps and Miniature stacked headlamps for two wheelers.
- (x) Introduction of horizontal-firing LEDs, Sequential Blinkers, Light Pad Technology, and integral DRL-position modules.
- (xi) Charging Indicator Animation lamp and Lit Logo Lights for EV scooters and motorcycles.
- (xii) Reading and Roof lamps in 4W, using Cap Sense technology.
- (xiii) Blinker & Flashers using Smart Relay Technology.
- (xiv) Overhead Console Assembly (OHC) with Cap Sense Switch Technology for Four-wheelers and Cars.

(b) Benefits derived as a result of R&D:

- (i) Competence Enhancements in R&D by increasing the capacity in all areas like Design, CAE, Mechanical & Electronics.
- (ii) Developed Image Projection and Courtesy Lighting solutions compatible with both bar-end and floor-mounted configurations.
- (iii) Enhanced system integration allows seamless communication between lighting components and the vehicle's electronic architecture, improving overall functionality.
- (iv) By eliminating conventional two-part construction, the red diffuser concept streamlines production, lowers costs in signature lighting, and delivers improved light uniformity.
- (v) Compact license plate lamps offer energy-efficient lighting, simplified component architecture, and seamless integration into modern vehicle designs, enabling modular application.
- (vi) Strengthened position as a preferred lighting partner to major two-wheeler, three-wheeler and four-wheeler OEMs.
- (vii) Smart relay lamps enhance reliability with faster response times, improve energy efficiency, and enables real-time diagnostics for fault detection.
- (viii) Integration of new advanced Lighting technologies like Welcome Lamps, 3D Holographic effects, Lit Logos, Image Projection adding into new portfolio.

(c) Future Plan of Action:

- (i) Thin Blade Headlamp using specially shaped LED sources for High and Low beam functions, where the Light Bars can be modularized.
- (ii) Adopting High Thermal Conductivity Polymers, optimize Lighting system performance, replacing bulky metal heat sinks with a compact design ideal for small Light Profiles and Projector Headlamps.
- (iii) Studying the use of COB (chip on board) LED packages for high-power headlamps in the near future.
- (iv) Research on miniature cost-effective Headlamps for Two-wheelers has been initiated, and plans are on anvil to implement Miniature Logo Lamps.
- (v) Introducing Bending Lights for Two-Wheelers that will work in tandem with Low Beam function providing additional Light over Corners.
- (vi) Researching usage of Silicon Transparent Lenses for Automotive Signaling Devices.
- (vii) Miniature Array Projectors for high end super Premium Bikes and Scooters.
- (viii) Research on Matrix Enabled Miniature Projectors.
- (ix) Laser boost headlamps to reduce package size while providing high energy efficiency and long-range illumination.
- (x) Ambient lighting features signature and signaling functions for the exterior body of two-wheelers.
- (xi) Exploring nano-active fiber technology to make high-end features accessible in mid-range variants.

(d) Expenditure on R&D:

The Company has developed its R&D capabilities over the years and now possesses one of the most advanced R&D and design competencies in the industry. It has also invested in its overseas Design Centre in Italy and supported development activities both within India and internationally. Furthermore, the Company is continuously enhancing its R&D, design, and innovation capabilities to stay ahead of industry trends. As part of this effort, it has also expanded the capabilities of Fiem Industries Japan Co. Ltd., strengthening its role as a key Design Centre and Liaison Office. ANNEXURE-V

ANNUAL REPORT ON CSR ACTIVITIES (FY 2024-25)

1. Brief outline on CSR Policy of the Company:

Continuing the previous CSR theme, Company remained focussed on 'Health Care' and 'Women Empowerment' as a major area of intervention under Corporate Social Responsibility (CSR) Policy and simultaneously worked on other projects to support poor and underprivileged. Under 'Health Care' and 'Women Empowerment', Company provided raw materials, running & maintenance support to the Sanitary Pad Projects established during previous years. This is very successful and impactful project of the Company for spreading awareness about the Menstrual Hygiene Management (MHM).

Company also collaborated with AIIMS, Delhi and undertook CSR Project 'FIEM-Aarogyam' to provide financial-aid to poor and needy patients under recommendation of Social Welfare Unit of AIIMS, Delhi.

Further, to support underprivileged, Company also undertook the Swavlamban Project-III. Under this project, Company provided paper plate making machines for livelihood support to poor and needy, this project was undertaken on very small scale.

Following major CSR Projects undertaken by the Company during the year:

- Providing raw materials, running & maintenance support to the Sanitary Pad Projects established during previous years in different states with following underlying theme:
 - o Women Empowerment, / Mahila Samman
 - o Menstrual Hygiene Management (MHM) awareness.
- 'FIEM-Aarogyam' to provide financial-aid to poor needy patients in AIIMS, Delhi.
- Swavlamban-III: Providing Paper Plate Making Machine etc. for learning, training & and livelihood support to poor & needy especially women.
- During the year, Company also started one new CSR Project for setting-up a "Skill & Training Centre" in Delhi through Fiem Foundation as an 'on-going' CSR Project and initial duration of this project is fixed as 3 years starting from December, 2024 to Nov, 2027.

Management Discussion and Analysis Report

GLOBAL ECONOMIC OUTLOOK

The global economy demonstrated resilience in 2024 with an estimated growth of **3.2%**, despite persistent inflationary pressures, geopolitical tensions, and structural headwinds. However, in 2025, growth is projected to slow to **2.8%**, and marginally improving to **3.0% in 2026**, according to the **IMF's April 2025 World Economic Outlook**. These forecasts represent downward revisions of **0.5 and 0.3** percentage points, respectively, from the IMF's January 2025 estimates. The cumulative downgrade reflects the rising impact of trade tensions, geo-political conflicts, on-going wars, heightened policy uncertainty, and weakening consumer sentiment.

The escalation of trade restrictions, including the growth-linked tariff regime introduced by the United States in April 2025, and retaliatory measures by major economies like China, have adversely affected global trade flows. Though a temporary 90-day pause in these tariffs is currently in effect to facilitate negotiations, the outlook remains clouded by volatility and uncertainty.

India, meanwhile, continues to stand out as a global growth leader. Despite global headwinds, the economy is projected to grow by **6.2% in FY26**, slightly below earlier estimates, supported by strong rural consumption and resilient domestic demand. Growth is expected to improve to **6.3% in FY27**, underpinned by structural reforms, a dynamic services sector, and a young workforce.

INDIAN ECONOMIC OUTLOOK

India continues to remain one of the fastest-growing major economies globally, exhibiting strong resilience amidst heightened global uncertainty and trade tensions. The National Statistics Office (NSO), in its Provisional Estimates released on May 30, 2025, has pegged real GDP growth at 6.5% in FY 2024–25, driven by robust performance in manufacturing, construction, and investment activity.

Looking ahead, the International Monetary Fund (IMF), in its April 2025 World Economic Outlook, has projected India's growth at 6.2% in FY 2025–26 (FY26), followed by 6.3% in FY 2026–27 (FY27), and a medium-term projection of 6.5%, led largely by domestic growth drivers. While a global slowdown may impact India's exports—goods and services exports accounted for around 22% of GDP on average during FY22–24—the adverse impact on net exports may be partly offset by a decline in imports and improving private investment momentum, supported by falling interest rates and the government's continued focus on infrastructure investment.

As part of its efforts to support economic growth, the Reserve Bank of India (RBI) cut the repo rate by 25 basis points to 6.0% on April 9, 2025, marking the second consecutive rate cut and shifting its stance from neutral to accommodative. With CPI inflation falling to 3.3% in March 2025, a 67-month low, price stability appears well within reach.

The EY India – Economy Watch (April 2025) also underscores the economy's structural strengths, citing robust government capital expenditure, strong banking and financial sector health, digital economy growth, and improving rural demand. India's services sector and formal employment trends remain solid, supporting broad-based economic recovery.

From a medium- to long-term perspective, India is expected to sustain its growth momentum by accelerating land and labour reforms, promoting human capital development, and investing in emerging technologies such as Artificial Intelligence (AI) and Generative AI. Recent policy initiatives have laid the groundwork for this transformation.

The government's strategy also includes forging strategic Free Trade Agreements (FTAs) with key partners such as the UK, EU, and neighbouring countries, enhancing India's global trade integration.

While escalating US-led tariff measures, geo-political conflicts, on-going wars and global trade frictions may pose risks, India's strategic macroeconomic positioning—backed by proactive monetary and fiscal policies—positions it well to sustain real GDP growth of 6.5% in FY26 and beyond, while maintaining inflation within the target range and improving its global competitiveness.

INDUSTRY STRUCTURE AND DEVELOPMENT

Indian Automobile Industry

The Indian automobile industry continues to serve as a reliable barometer of the nation's economic performance, playing a pivotal role in macroeconomic growth and technological advancement. In FY 2024–25, the sector demonstrated resilience and growth, driven by rising domestic demand, strong rural penetration, and increasing focus on sustainability and innovation.

Industry Landscape and Key Trends

India remains one of the largest automobile markets globally, supported by a robust ecosystem of OEMs, suppliers, and consumers. The two-wheeler segment leads in volume, buoyed by a growing middle class, youthful demographics, and expanding rural markets. The commercial vehicle segment is experiencing renewed demand, aided by growth in logistics, infrastructure development, and fleet modernization.

Policy Support and Investments

The Ministry of Heavy Industries (MHI) has extended the Production Linked Incentive (PLI) Scheme for Automobiles and Auto Components by one year. This scheme offers incentives for eligible sales over five consecutive years (2023–24 to 2027–28), with disbursements in the following financial year. The scheme has already attracted proposed investments of US\$ 8.1 billion (Rs. 67,690 crore), exceeding the original target of US\$ 5.1 billion (Rs. 42,500 crore).

These measures, coupled with India's advantages in skilled labour, low-cost manufacturing, and expanding R&D capabilities, continue to make the sector attractive for both domestic and foreign investment.

Electric Vehicle Segment: Accelerating Momentum

The electrification of mobility in India continued to gain traction in FY 2024–25, supported by strong policy impetus, rising environmental awareness, and growing consumer acceptance. The Electric Two-Wheeler (E2W) segment led the transformation, accounting for the highest share of EV registrations. The extension of the FAME-II schemes and state-level subsidies helped maintain momentum in this segment. Additionally, increasing investments by OEMs in EV platforms, battery technologies, and charging infrastructure signalled long-term confidence in the sector. With a growing ecosystem of component suppliers and localized battery manufacturing initiatives under the Advanced Chemistry Cell (ACC) PLI scheme, India is poised to emerge as an EV hub in the coming years.

Auto Component Industry: A Vital Growth Engine

India's auto component industry plays a crucial role in supporting the broader automobile sector. It spans large enterprises to MSMEs, distributed across manufacturing clusters nationwide. The sector contributes significantly to GDP and provides employment to a large skilled population.

Rising global demand for Indian components has attracted both domestic and international manufacturers, solidifying India's reputation as a hub for quality and cost-effective automotive parts.

The Indian automobile industry remains a pivotal pillar of economic growth and technological progress. With strong domestic demand, export opportunities, government support, and rapid innovation, the sector is well positioned to navigate global headwinds and seize emerging opportunities. As electrification, sustainability, and digital transformation reshape the industry landscape, companies that proactively invest in capabilities, partnerships, and customer-centric strategies will be best placed to thrive in the evolving mobility ecosystem.

FY 2024–25 Performance of the Indian Automobile Industry

The Indian automobile industry posted a strong performance in FY 2024–25, supported by a gradually improving rural demand, moderating inflation, and continued government focus on infrastructure development and pro-consumption policies. These macroeconomic tailwinds enabled broad-based volume growth across most vehicle categories, with the exception of a muted performance in the commercial vehicle segment.

Passenger Vehicles (PVs)

The Passenger Vehicle segment reached at a high production volume of 50.61 lakh units, registering a 3.3% year-on-year growth. The growth was largely driven by the utility vehicle segment, which contributed approximately 62% to the total PV production. New product launches, higher rural penetration, and growing preference for SUVs remained key enablers.

Two-Wheelers (2Ws)

The Two-Wheeler segment recorded a strong 11% year-on-year growth, with production reaching approximately 2.39 crore units. Positive consumer sentiment, improved rural mobility, and recovery in entry-level models supported the segment's performance. Exports saw a robust 21% increase, driven by a 23% rise in motorcycle exports and an impressive 209% surge in moped shipments.

Three-Wheelers (3Ws)

Production in the Three-Wheeler segment grew by 5%, primarily led by consistent demand for passenger carriers. Urban mobility solutions and the increasing adoption of electric variants contributed to steady volumes.

Electric Two-Wheelers (EV-2Ws)

FY 2024–25 ended with over 11.4 lakh electric two-wheelers sold, marking a 21% growth over FY 2023–24. However, the momentum slowed in the final quarter due to the reduction in government subsidies and continued challenges related to charging infrastructure. Despite near-term headwinds, the long-term outlook for EV two-wheelers remains robust.

OUTLOOK, OPPORTUNITIES AND THREATS:

Outlook

The Indian automotive industry is expected for sustained growth in near to long term, supported by improving macroeconomic indicators, softening interest rates, growing consumer confidence, and continued government thrust on infrastructure, clean mobility, and Make-in-India initiatives. The auto component sector is expected to benefit from a strong domestic vehicle demand outlook, expanding export potential, and increasing localization efforts by OEMs.

Electrification, digitization, and automation are rapidly transforming the industry. The Production Linked Incentive (PLI) schemes, targeted investment in EV ecosystems, and focus on R&D and indigenous technology development will play a critical role in shaping the industry's trajectory.

The Indian two-wheeler industry is crucial for the country's automotive sector, playing a significant role in the mobility of millions of people. With the rising demand for personal transportation, economic growth, and urbanization, the two-wheeler market has been expanding rapidly. In recent years, the industry has seen a notable shift towards electric two-wheelers (E2Ws), driven by environmental concerns, technological advancements, and supportive government policies.

Opportunities and Key Growth Drivers

The Indian automobile and auto components industry is poised for sustained growth, driven by a confluence of structural, demographic, policy, and technological factors, on the back of following growth drivers:

Demographic Advantage

- A young, aspirational population with rising disposable incomes is fuelling personal mobility demand, especially in the two-wheeler and compact car segments.
- Rapid urbanization and improving road infrastructure are supporting broader automotive usage.

Government Policy Support

- Schemes like the Production Linked Incentive (PLI) for Automobiles and Auto Components and FAME-II for electric vehicles are incentivizing domestic manufacturing, innovation, and clean mobility.
- Extension of PLI timelines and higher-than-expected investment commitments (Rs. 67,690 crore vs. Rs. 42,500 crore targeted) underscore investor confidence.

Electrification & Green Mobility

- Expanding government support for electric mobility, including the PM e-DRIVE scheme and state EV policies.

Export Growth Potential

- Global OEMs are increasingly viewing India as a reliable export base for auto components. The industry is well-positioned to leverage this with its export-worthy capabilities, strong quality systems, and customer-centric approach.

Supply Chain Localization

- OEMs' increasing preference for local suppliers to mitigate geopolitical risks and improve cost competitiveness aligns well with the growth objective of industry.

Resilient Domestic Ecosystem

- A robust network of OEMs, component manufacturers, and ancillary service providers forms a strong industrial backbone.
- Skill development initiatives and local sourcing are strengthening the sector's long-term capabilities.

Threats and Risks

- **Global Uncertainties:** Trade tensions, currency fluctuations, and recessionary trends in export markets could affect the automotive demand cycle and supply chain stability.
- **Supply Chain Disruptions:** The global supply chain remains vulnerable to disruptions due to geo-political tensions, on-going wars, trade barriers, and logistical constraints.
- **Rare Earth Minerals Issue:** China's rare earth minerals export restrictions have posed a new challenge on the automobile industry across the world.

The Company remains confident of its medium to long-term growth prospects, underpinned by a solid foundation of R&D, Innovation, Customer Relationships, Operational Excellence, and strategic approach with agility and resilience. By investing in future-ready capabilities and continuously enhancing value for stakeholders, the Company is well-equipped to navigate risks and capitalize on the evolving opportunities in the automotive lighting space.

FINANCIAL AND OPERATIONAL PERFORMANCE REVIEW

The Company delivered a robust performance in FY 2024–25, marked by record sales, strong operational execution, strategic capacity building, and accelerated new product development. This performance reinforces the Company's position as one of the preferred Tier-1 supplier in the automotive lighting industry.

Business Operations Overview

The Company is among India's leading manufacturers of automotive lighting and signalling equipment manufacturers. With a diverse product portfolio and longstanding relationships with top OEMs, both domestic and international, the Company caters to markets across Japan, Europe, the USA, and other Asian regions.

The Company operates nine advanced manufacturing facilities located strategically across key automotive hubs in India:

Haryana: Kundli (Unit 1) and Rai (Unit 7)

Tamil Nadu: Hosur (Units 2, 3 & 5)

Karnataka: Mysore (Unit 4)

Himachal Pradesh: Nalagarh (Unit 6)

Rajasthan: Tapukara (Unit 8)

Gujarat: Karsanpura, Ahmedabad (Unit 9)

The Company's R&D and Design Centres in India, Italy, and Japan have significantly shortened product development timelines, facilitating faster rollouts of projects and enhanced customer satisfaction. Some of the highlights of new products are as under:

- Honda’s Activa EV was launched, which is fitted with Company’s Rear-Combination Lamp, Front Position Light, License Lamp and Rear-View Mirrors.
- Company already supplying to market leading models TVS iQube (headlamp, tail-lamp, and mirror) and TVS Apache 4G.
- Yamaha’s Tracer 700 and NovaFactor (for European and Brazilian markets) were launched with the Company’s headlamps and position lamps.
- The Company commenced supply of all lighting solutions for Royal Enfield Classic 350.
- The Company also have started supply of headlamp for Hero MotoCorp’s Xtreme 250.
- In the four-wheeler segment, the Company commenced production for its first product with Mahindra & Mahindra, licence plate lamp, now approved across all models.

Technology and R&D Advancements

To enhance innovation and integrated development:

- In April, 2025, a state-of-the-art Innovation and R&D Centre was started in Gurugram, integrating mechanical, optical, electronics, and CAE teams.
- The Company is setting up an EMI/EMC validation lab, along with in-house SMT line, prototyping capabilities including assembly lines, to accelerate electronics product development.
- The Corporate Office is also housed in same office to facilitate direct oversight and agile decision-making.

Management believes this strategic step will enhance speed, integration, and customer responsiveness across 2W and 4W verticals.

Financial Highlights (Standalone – FY24-25 Vs FY23-24)

- Revenue from Operations up by 19.39% from Rs. 2,014.37 Crore to Rs. 2,404.96 Crore.
- EBITDA up by 19.69% from Rs. 267.97 Crore to Rs. 320.73 Crore.
- EBITDA Margin for FY25 remained 13.34% in comparison to 13.30% in FY23-24.
- Profit After Tax (PAT) up by 23.09% from Rs. 165.84 Crore to Rs. 204.14 Crore

COMPANY'S PRODUCT PORTFOLIO REVIEW

The Company operates in the automotive components industry with a primary focus on Automotive Lighting, followed by significant presence in Rear View Mirrors and other ancillary products range in in Sheet Metal Parts, and Plastic Moulded Parts.

(i) Automotive Lighting and Signalling Equipments:

Contribution to revenues (Net) over the past years has remained as under (Rs. Crore)

FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
798	1048	1313	1449	1756

This segment continues to be the core driver of the Company’s revenues, contributing a significant portion of total sales. The company manufactures a large range of LED and conventional Head Lamps, Tail Lamps, Blinker Lamps, Fog Lamps, Warning Triangles, and Interior Lamps, among others, for two, three, and four-wheelers.

Lighting is one of the most important systems of a vehicle from the perspective of safety, functionality as well as aesthetics. It is critical to the safety of vehicle occupants and that of other road users. The innovation in Automotive Lighting is an ever-evolving process and is currently witnessing a fast adoption of LED and Electronics. In comparison to conventional bulbs, LED Lighting offers unlimited possibilities for designing and development from safety, functionality as well as aesthetic perspective. The shift toward LED lighting solutions with increasing electronics content remains a major growth area.

During FY 2024–25, the share of LED lighting in total automotive lighting sales increased to 59%, compared to 52% in the previous year, reflecting growing customer preference and deeper penetration for LED Lighting across the vehicle segments.

(ii) Rear View Mirrors (RVM):

Contribution to revenues (Net) over the past years has remained as under (Rs. Crore)

FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
146	176	210	240	267

The Company’s second highest-selling product category is Rear View Mirror, which is being supplied to almost all OEM customers of the Company, majorly in 2-Wheeler segment, and for some of our valued OEM customers, we are the sole supplier for their Rear-View Mirror requirements. The Company has state-of-the-art mirror manufacturing plants across four units where plate making, profile cutting, washing, grinding, cleaning, coating (aluminium or chrome), and painting are carried out. The Company has installed injection moulding machines and rod-making facilities in-house. All the sub-components are accumulated in the assembly lines to complete the entire process of assembling and testing under one roof.

(iii) Plastic Moulded Parts:

Contribution to revenues (Net) over the past years has remained as under (Rs. Crore)

FY2020-21	FY2021-22	FY2022-23	FY2023-24	FY2024-25
114	156	203	217	236

Apart from manufacturing moulded parts for Automotive Lighting and Signalling Equipments and Rear-View Mirrors, the Company also manufactures and supplies standalone plastic parts as finished parts for Two-wheelers, like Front Fenders, Floor Panels, Side Covers, Rear Fenders, Handlebars, Seat Bases, and many others. The Company has installed best-in class injection moulding machines across its 9 plants ranging from 50 tonnages to 1,400 tonnages, capable of making parts weighing 20 grams to 2.5 kilograms.

(iv) Others:

Contribution to revenues (Net) over the past years has remained as under (Rs. Crore)

RISKS AND CONCERNS

The automotive industry operates in a dynamic environment that is subject to a wide range of external and internal risks. To mitigate all foreseeable risks, Company continues to build resilience through diversification, operational efficiency, and innovation. Continuous focus on risk management across all functions and operations ensures that risk mitigation strategies are implemented promptly to minimize the adverse effects of emerging risks.

Periodic risk identification, analysis, mitigation, and monitoring are conducted by the Management and overseen by the Risk Management Committee (RMC). Post-assessment, detailed mitigation plans are developed and implemented, with regular reporting to the RMC of the Board. The RMC periodically monitors and refines the risk management framework, ensuring its robustness and relevance.

Several senior management team members are actively and continuously involved in the process, emphasizing a collaborative approach to risk management and quick remedial and proactive measures. The risk management framework encompasses a wide range of risks, including Cybersecurity Risks (protecting against data breaches and cyber-attacks, especially given the increasing digitalization across operations), Natural Calamities (preparedness for events like earthquakes, floods, and other disasters that could disrupt production facilities), Safety & Security of Assets (protecting company assets from fire, theft, damage, and accidents, ensuring a safe working environment for employees) etc.

The Company continues to proactively monitor these risks through its robust enterprise risk management framework and regularly updates mitigation strategies. Our focus remains on agility, innovation, and proactive risk mitigation measures with an optimised combination of machines, automation, technology and human interface. This approach ensures that the Company remains resilient and adaptable, safeguarding our interests and those of our stakeholders.

HUMAN RESOURCES

The Company believes that its people are its most valuable asset and key drivers of long-term success. A culture of continuous learning, empowerment, and performance excellence is deeply embedded in its human capital strategy. Our approach includes nurturing internal talent and bringing in key external talent for leadership roles.

Management is deeply focussed to support key talent and resources, enhancing their skills, and improving overall efficiency and productivity. Our performance management system effectively rewards high performers and encourages all employees to excel.

We are committed to nurturing, enhancing, and retaining talent through superior learning and organizational development initiatives. Training programs include ESG, Fire & Safety, 5S, 7QC Tools, TQM, Environment Awareness, Emergency Plan, PDCA, KAIZEN, CSR awareness, and various other topics, all designed to hone the skills of our employees. Special emphasis was placed on:

- Enhancing competencies in advanced lighting technologies, electronics, and design;
- Improving cross-functional collaboration across manufacturing, quality, and supply chain;
- Promoting leadership development at various levels through structured programs.

Employee engagement, safety, and well-being continued to remain top priorities. Initiatives related to health check-ups, workplace safety protocols, and grievance redressal mechanisms were actively implemented across all plants. During the year under review, industrial relations remained cordial across our factories and offices.

At the close of the financial year under review, the strength of Company's employees was **2583** and throughout year on average basis **7466** contractual workers were employed across its manufacturing locations. Notably, close to **30%** of the total workforce comprised women, highlighting the Company's commitment to diversity and inclusion.

In line with its vision to be a future-ready organization, the Company is committed to fostering an inclusive, innovative, and high-performance work culture that aligns with business growth and future ready organisation.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has established comprehensive internal control framework that is commensurate with the size, scale, and complexity of its operations. The system is designed to provide reasonable assurance regarding the integrity of financial and operational information, compliance with applicable laws and regulations, safeguarding of assets, and efficient use of resources.

The Company's internal control system comprises the policies, procedures, and practices established to safeguard its assets, ensure accurate financial reporting, and promote operational efficiency. Adequate internal controls are essential for mitigating risks, preventing fraud, and maintaining transparency, which are crucial for the long-term success and growth of the Company and for safeguarding the interests of all stakeholders.

Our internal control measures include the segregation of duties, proper authorization and approval processes, and regular monitoring and review of financial transactions. These measures ensure that all transactions are authorized, recorded accurately, and compliant with laws and regulations.

The adequacy of our internal control system is periodically assessed by both statutory and internal auditors, with regular monitoring by the management and the Audit Committee. These assessments have consistently found the internal control systems of the Company to be adequate and effective, given the size and scale of operations, industry regulations, and the complexity of our manufacturing processes.

Management strongly believes that a robust and well-designed internal control system enhances the organization's ability to manage risks, protect its resources, and maintain the trust of stakeholders. Internal financial controls have been operating effectively throughout the year.

Corporate Governance Report

(The Report on Corporate Governance forms part of the Directors' Report for the financial year ended March 31, 2025)

Pursuant to the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), as amended and requirements of the Companies Act, 2013, the Board of Directors of the Company present the Company's Report on Corporate Governance.

1. COMPANY PHILOSOPHY ON CORPORATE GOVERNANCE

At the heart of our corporate philosophy lies an unwavering commitment to the fundamental principles of Integrity, Accountability, Fairness, and Transparency. These core values are not merely aspirational—they form the very foundation of our organizational culture and are deeply embedded in every facet of our decision-making and operations. We believe that strong corporate governance is vital for sustainable growth, fostering long-term value creation for all stakeholders.

Our governance approach is guided by a clear vision of excellence and innovation, ensuring that every initiative we undertake contributes meaningfully to holistic progress. We place stakeholder value at the center of our strategy, integrating ethical leadership with sound business practices to drive responsible growth. We operate with a strong sense of duty and responsibility, which empowers us to deliver superior value to our esteemed OEM customers while nurturing long-standing, mutually enriching relationships with our business partners, associates, employees, shareholders, and society at large. Our governance framework is designed to ensure compliance with laws, proactive risk management, and transparent communication, upholding the high standards of corporate conduct.

As a law-abiding and socially responsible organization, we strive to embed ethical behavior and responsible decision-making across all levels of the Company. We are committed to balancing business objectives with environmental stewardship and social responsibility, thereby contributing meaningfully to inclusive development and nation-building. Our holistic and forward-looking approach to corporate governance enables us to remain a trusted, respected, and progressive organization—one that leads by example and continues to earn the confidence of all stakeholders through principled leadership and sustainable practices.

2. BOARD OF DIRECTORS

We believe that diversified board is necessary to ensure the high standards of corporate governance. The Board oversees the Management's functions for furtherance of long-term interests of all our stakeholders. Company's Board is constituted in compliance with the Companies Act, 2013 and rules made thereunder, Listing Regulations, the Articles of Association of the Company and in accordance with the best practices in Corporate Governance. During the year 2024-25 and as on March 31, 2025, the Board of the Company consists of 14 Directors, including one Woman Independent Director. All the Directors have diverse experience and background fulfilling the statutory as well as business requirements.

Independent Directors: The Companies Act, 2013 and the Listing Regulations provide the definition of 'Independent Director'. All our Independent Directors fulfill the conditions of independence specified under section 149 of the Companies Act, 2013 and Regulation 16(1)(b) of the Listing Regulations. A formal letter of appointment to Independent Directors as provided in Companies Act, 2013 has been issued to all Independent Directors and format disclosed on website of the Company viz. <https://fiemindustries.com/independent-directors-appointment-terms/>

- a. As at March 31, 2025 the Company's Board comprises of 14 Directors. Out of which, 7 are Independent Non-Executive Directors, which constitute at least 50% of the Board, in compliance with the Listing Regulations. Out of 7 Independent Directors, Ms. Shobha Khatri is Woman Independent Director of the Company. Mrs. Rita Arora is also Independent Director on the Board.
- b. The Committees of the Board of Directors forms the next level of governing bodies and complement the governing system of Company. In compliance with applicable provisions, Committees constituted to oversee specific areas of their domain and as per terms of reference. Overall direction and strategy, policy formulation, setting up of objectives, evaluation of performance and control functions vest with the Board. The Committees have specific area assigned to them by the Board through terms of reference. The notice and detailed agenda along with the relevant notes and other material information are sent in advance to each Director and in exceptional cases placed / presented in the Meeting with the approval of Chairman and at least one Independent Director. In urgent cases, approval of the Board and/or Committee(s) sought through resolution by circulation. This ensures timely and informed decisions by the Board.
- c. The Board Committees play an important role in the overall management and governance of the Company. The Board Committees meet at regular intervals and take necessary steps to perform duties as entrusted by the Board through terms of reference. The Minutes of the Committee Meetings are placed before the Board for noting.

Presently, there are 5 Board Committees in compliance with the Companies Act, 2013 and rules made thereunder read with Listing Regulations, namely –

- Audit Committee,
- Nomination & Remuneration Committee,
- Stakeholders' Relationship Committee,
- Corporate Social Responsibility (CSR) Committee,
- Risk Management Committee, and
- Bonus Shares Committee (Constituted on January 15, 2024 and dissolved on May 21, 2024)

The Board is authorized to constitute additional functional committee(s) depending on business needs. Accordingly, on January 15, 2024, the Board constituted an additional committee namely "Bonus Shares Committee" to oversee the issuance of Equity Bonus Shares to shareholders and manage related compliance. This Committee was dissolved on May 21, 2024, following the completion of formalities for the bonus share issuance.

Company Secretary of the Company act as the Secretary to all the Committees of the Board constituted and functioning under the Companies Act, 2013 and the Listing Regulations. The Management works under direction of the Board. Overall operations and functioning of the Company are managed by Chairman & Managing Director along with six (6) Whole-time Directors and a core group of senior level executives.

- d. The names and categories of the Directors on the Board, their attendance at Board Meetings held during the financial year under review and at last Annual General Meeting, the number of Directorships and Committee Chairmanships / Memberships held by them in other public companies as on March 31, 2025 are given herein below:

4.4 Performance Evaluation Criteria for Independent Directors

In terms of the provisions of the Companies Act, 2013 and Listing Regulations, Company has laid down criteria for performance evaluation of Directors, Chairman of Board, Board Committees and Board as a whole and also the evaluation of Independent Directors.

Performance Evaluation for Board is aimed to use constructively as a mechanism to improve Board's effectiveness, maximize strengths and tackle weaknesses. It involves questionnaires to be filled by every Director about his own performance (self-assessment), performance of Board as whole, performance of Chairman and performance of respective Committee(s) where he/she is a member.

Provisions of Section 178 provides that the Nomination and Remuneration Committee shall specify the manner for effective evaluation of performance of Board, its committees and individual directors to be carried out, either by the Board, by the Nomination and Remuneration Committee or by an independent external agency and review its implementation and compliance. Though the above amendment permit that the evaluation of performance of Board, its committees and individual directors may be carried out by any one of the Board or by the Nomination and Remuneration Committee or by an independent external agency, still Company had designed the evaluation process to comply other applicable provisions of Schedule-IV of Companies Act and provisions of Listing Regulations as well. Hence, the existing framework of evaluation is continued which involves following method.

Initially, Nomination & Remuneration Committee carry out the preliminary evaluation of every Director's performance which is subject to next level of evaluation by the Board and Independent Directors. As per Section 178(2) of the Act, the Committee conduct the performance evaluation of every Individual Director. As per Performance Evaluation framework of the Company, the evaluation process consists of evaluation on the basis of filled questionnaires received from all Directors and opinions, inputs from all Committee members and any other information as may be required by the Committee.

The outcome of Committee in respect of Independent Directors is subject to final evaluation by the Board. Outcome of Committee in respect of Non-Independent Directors is subject to final evaluation by the Independent Directors. Performance evaluation of Board as a whole as well as Chairman of the Board is also conducted by the Independent Directors.

25. Disclosure about unpaid dividend transferred to Investor Education and Protection Fund

Section 124 of the Companies Act, 2013 read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ('the Rules') mandates that companies transfer dividend that has remained unclaimed for a period of seven years from the unpaid dividend account to the Investor Education and Protection Fund (IEPF). Further, the Rules mandate the transfer of shares with respect to the dividend, which has not been paid or claimed for seven consecutive years or more to IEPF. Accordingly, the dividends for the year mentioned as follows will be transferred to IEPF on respective dates, if the dividend remains unclaimed for seven years, and the corresponding shares will also be transferred to IEPF if dividend on those shares remain unclaimed for seven consecutive years:

Year	Type of Dividend	Dividend per share	Date of Declaration	Tentative due date of transfer to IEPF
2017-18	Final	9.00	September 17, 2018	November 22, 2025
2018-19	Interim	8.00	March 18, 2019	May 22, 2026
2018-19	Final	4.00	September 21, 2019	November 26, 2026
2019-20	Interim	10.00	March 11, 2020	May 15, 2027
2019-20	Final	03.00	September 21, 2020	November 26, 2027
2020-21	Final	16.00	September 21, 2021	November 26, 2028
2021-22	Final	20.00	August 24, 2022	October 30, 2029
2022-23	Final	30.00	July 28, 2023	October 3, 2030
2023-24	Final	20.00	July 31, 2024	October 10, 2031

The Company sends periodic intimation / reminders to the concerned shareholders, advising them to lodge their claims with respect to unclaimed dividends. Shareholders may note that both the unclaimed dividend and corresponding shares transferred to IEPF including all benefits accruing on such shares, if any can be claimed back from IEPF Authority following the procedure prescribed in the Rules. All unclaimed/unpaid Dividend for the Financial Years from 2006-07 to 2016-17 have been transferred to the IEPF established by the Central Government. No claim lies with the Company for the funds and shares transferred to Investor Education and Protection Fund.

26. Disclosure under Part F of Schedule V, Regulation 39(4) read with Schedule VI of the Listing Regulations

- (a) The Information and Disclosure for securities issued pursuant to the public issue or any other issue, physical or otherwise, which remain unclaimed and/or lying in the demat suspense account / unclaimed suspense account, are as under:

It is hereby informed that Company came with initial public issue in 2006-07 and no share of the Company were left unclaimed in 'Escrow Account' of the RTA. Therefore, requirement of opening a Demat Suspense Account / Unclaimed Suspense Account and applicable disclosures related thereto as mandated under Part F of Schedule V, Regulation 39(4) read with Schedule VI of the Listing Regulations, are not applicable on the Company.

- (b) In compliance of SEBI Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/8 dated January 25, 2022 and SEBI Letter No. SEBI/HO/MIRSD/POD-1/OW/P/2022/64923 dated December 30, 2022, Company opened a Suspense Escrow Demat Account namely, 'Fiem Industries Limited-Suspense Escrow Demat Account'. The main purpose of this special account is to issue securities in dematerialized form only, while processing the following service request from shareholder with respect to:

- Issue of duplicate securities certificate;
- Claim from Unclaimed Suspense Account;
- Renewal / Exchange of securities certificate;
- Endorsement; Sub-division / Splitting of securities certificate;
- Consolidation of securities certificates/folios;
- Transmission and Transposition.

During the financial year 2023-24, the Board of Directors in their meeting held on January 15, 2024, had recommended the issue of Bonus Shares in the ratio of 1 (one) Bonus equity share of Rs.10 each fully paid-up for every 1 (one) existing equity share of Rs.10 each fully paid-up (in the ratio of 1:1). As per recommendation of Board, the shareholders of the Company approved the issue of Bonus Shares vide its resolution dated February 16, 2024 passed through Postal Ballot process. Accordingly, the Bonus Shares Committee of the Board allotted 1,31,59,830 Equity shares of Rs.10 each fully paid-up on February 29, 2024.

Post allotment of Bonus shares, 741 number of equity bonus shares (belonging to 8 shareholders) could not be credited to respective demat accounts of these shareholders due to KYC issue at that time. Further, 21 number of equity bonus shares (belonging to 21 shareholders) who hold original shares in physical form couldn't be credited to those shareholders, because they failed to provide the demat account in the same sequence of joint holders as in physical holding and due to pending KYC in their folios.

Hence, all these 762 numbers of bonus shares were credited to Fiem Industries Limited-Suspense Escrow Demat Account during the month of March, 2024 and these shares remained in this account as on March 31, 2024. After that, 7 shareholders submitted the requisite documents for transfer of their bonus shares to their respective demat accounts. After due verification, RTA transferred their shares to their respective demat account in the month of May 2024. After above transfer, only 22 number of equity shares remained in this Demat Account, which are still lying, as no request with requisite documents received thereafter.

27. Disclosure of certain types of agreements binding listed entities

There is no such nature of agreements exist or executed as defined under Clause 5A of Regulation 30 read with Paragraph A of Part A of Schedule III of Listing Regulations.

Particulate matter (PM)	Kg	126.04	112.45
Persistent organic pollutants (POP)	Kg	0.00	0.00
Volatile organic compounds (VOC)	Kg	0.00	0.00
Hazardous air pollutants (HAP)	Kg	0.00	0.00

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) - Yes

If Yes, name of the external agency.

- HTH Laboratories Pvt. Ltd.
- Eco Care Engineering Pvt. Ltd.
- Enviro Lab etc.

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	MtCO ₂ e	2193.07	1623.13
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	MtCO ₂ e	53295.93	46948.97
Total Scope 1 and Scope 2 emissions per rupee of turnover (Total Scope 1 and Scope 2 GHG emissions/Revenue from operations)	MtCO ₂ e / Rs.	0.0000022909	0.0000023953
Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (total Scope 1 and Scope 2 GHG emissions/ revenue from operations adjusted for PPP)	MtCO ₂ e / Rs.	0.0000473	0.0000536
Total Scope 1 and Scope 2 emission intensity in terms of physical output	MtCO ₂ e	0.00	0.00
Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity			

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) - No

If Yes, name of the external agency.

- NA

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

- No

If Yes, then provide details.

- NA

9. Provide details related to waste management by the entity, in the following format:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Waste generated (in metric tonnes)			
Plastic waste (A)	MT	494.301	451.598

Waste intensity in terms of physical output	MT/KL	0.00	0.00
Waste intensity (optional) – the relevant metric may be selected by the entity			

For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tonnes)

Category of waste			
(i) Recycled	MT	0.00	0.00
(ii) Re-used	MT	0.00	0.00
(iii) Other recovery operations	MT	0.00	0.00
Total	MT	0.00	0.00

For each category of waste generated, total waste disposed by nature of disposal method (in metric tonnes)

Category of waste			
(i) Incineration		0.00	0.00
(ii) Landfilling		0.00	0.00
(iii) Other disposal operations		0.00	0.00
Total		0.00	0.00

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? - No

If Yes, name of the external agency. - NA

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Company has adopted mechanisms for treatment and reusing of waste water effluent across its operations. Further, hazardous waste management is done through partnerships with authorized agencies after due treatment of the disposal.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format: - NA

Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with?	If no, the reasons thereof and corrective action taken, if any.
NA			

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
NIL					

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). - Yes

If not, provide details of all such non-compliances, in the following format:

S. No.	Specify the law/ regulations/ guidelines which was not complied with	Provide details of the non-compliances	Any fines/ penalties/Actions taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
NIL

STANDALONE FINANCIAL STATEMENTS

Independent Auditor's Report

To the Members of
Fiem Industries Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Fiem Industries Limited (hereinafter referred as "the Company"), which comprise the Standalone Balance sheet as at 31st March 2025, the Standalone Statement of Profit and loss including other comprehensive income), Standalone Statement of changes in equity and standalone Statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information. (hereinafter referred to as "the standalone financial statements" or "financial statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2025, the profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

SN	Key Audit Matter	Auditor's Response
1	<p>Revenue Recognition for sale of goods</p> <p>Revenue from sale of goods is recognized upon the transfer of control of the goods sold to the customer.</p> <p>The performance obligations in the contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on customer terms and conditions. Revenue is measured at fair value of the consideration received or receivable, after deduction of any discounts/ rebates and any taxes or duties collected on behalf of the government such as goods and services tax, etc. Customer acceptance is used to estimate the provision for price increase/decrease. Revenue is only recognised to the extent, that is highly probable, a significant reversal will not occur.</p>	<ul style="list-style-type: none"> Our audit procedures included the following Evaluating the company's accounting Policies in relation of the revenue recognition in terms of Ind AS 115- Revenue from Contracts with Customers. Evaluating the design and implementation and testing operating effectiveness of Company's general IT controls, key manual and application controls over the Company's IT systems including controls over rebates agreements / arrangements, rebate payments / settlements and Company's review over the rebate accruals. Testing by selecting samples of revenue transactions recorded during the year by verification of underlying documents. Testing on a sample basis, key customer contracts/ purchase order to identify terms and conditions relating to goods acceptance and price adjustments. Testing on a sample basis, the supporting documents for sales transactions recorded during the period closer to the year end and subsequent to the year end to determine whether revenue was recognised in the correct period.

2	<p>Evaluation of uncertain Indirect tax positions</p> <p>The Company has uncertain tax positions matters under dispute which involves significant judgment to determine the possible outcome of these disputes.</p> <p>Refer Notes 32 to the Standalone Financial Statements</p>	<p>Our audit procedures included the following</p> <p>Obtained details of completed tax assessments upto the year ended March 31, 2025 from management.</p> <p>We considered, the management's underlying assumptions in estimating the tax provision and the possible outcome of the disputes. We also considered legal precedence and other rulings in evaluating management's position on these uncertain tax positions. Additionally, we considered the effect of new information in respect of uncertain tax positions as at April 1, 2024 to evaluate whether any change was required to management's position on these uncertainties.</p> <p>Satisfied ourselves that it is not probable that an outflow of economic benefits will be required and disclosed such obligation as a contingent liability.</p>

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our Auditor's Report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and

presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key

audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure- A", a statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable.

Annexure-A to the Independent Auditors' Report

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

1. a) (i) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
(ii) The Company has maintained proper records showing full particulars of Intangible assets
- b) The company has a planned programme for physically verifying all Property, Plant and Equipment once in three years which in our opinion, is reasonable having regard to the size and nature of assets. During the year, the fixed assets have been physically verified by the management in accordance with the programme and no material discrepancies were identified on such verification.
- c) The title deeds of all the immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in the financial statements are held in the name of the company except for freehold land situated in Ahmedabad, Gujarat, acquired during the Fy 16-17 for Rs 18.23 Lakhs, wherein final registration is pending as disclosed in Note 2 on "Property Plant and equipment "to the standalone Ind AS financial statements.

Description of Property	Gross Carrying Value (Rs.in Lakhs)	Held in the name of	Whether Promoter, director or their relative or employee	Period held	Reason for not being held in name of company
Land at Karsanpura, Gujarat	18.23	Not registered	No	9 years	Industrial land purchased from the other company (Seller) requiring approval from state govt which is already applied by the Seller. However, permission from the govt is still awaited.

- d) The company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year
- e) No proceedings have been initiated or are pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.
2. a) The inventories have been physically verified by the management at regular intervals during the year. In our opinion, the coverage and procedure of such verification is appropriate. Discrepancies of 10% or more in aggregate for each class of inventory were not noticed on physical verification of the inventory as compared to the book of accounts.
- b) The quarterly returns or statements filed by the company with banks or financial institutions who has sanctioned working capital limits in excess of Rs 5 crores, are in agreement with the books of account of the Company.
3. a) During the year the Company has provided loans or advances in the nature of loans amounting to Rs.105.25 lakhs to its employees, the balance outstanding as at the balance sheet date in respect of these cases is Rs.86.51 lakhs. During the year the Company has not provided loans, advances in the nature of loans, stood guarantee and provided security to companies, firms or Limited Liability Partnerships or any other parties.
- b) According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion the investments made and the terms and condition of the grant of employee loans provided during the year are, prima facie, not prejudicial to the interest of the Company
- c) In our opinion the repayment of principal has been stipulated and the repayments or receipts have been regular. Further, the Company has not given any advance in the nature of loan to any party during the year
- d) There is no overdue amount for more than ninety days in respect of loans given. Further, the Company has not given any advances in the nature of loan to any party during the year.
- e) There is no loan or advance in the nature of loan granted falling due during the year, which has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to same parties.

- f) The Company has not granted any loans or advance in the nature of loan or advance in the nature of loan either repayable on demand or without specifying any terms or period of repayment.
4. Loans, investments and guarantees, in respect of which provisions of sections 185 and 186 of the Companies Act, 2013 are applicable, have been complied with by the Company. The Company has not provided securities hence not commented upon.
5. The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Therefore, the clause (v) of para 3 of the order is not applicable to the Company.
6. We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. However, no detailed examination of the same has been carried out by us.
7. a) The company is generally regular in depositing with appropriate authorities all undisputed statutory dues including provident fund, employees' state insurance, income tax, sales tax, service tax, Goods and Service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues applicable to it.

There are no undisputed amounts payable in respect of provident fund, employees' state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues as at the year end for a period of more than six months from the date they became payable.

- b) The dues outstanding of income tax, sales-tax, wealth tax, service tax, Goods and Service tax, duty of customs, duty of excise and cess on account of any dispute, are as follows:

(Rs. in Lakhs)

S.N.	Name of Statute	Nature of Due	Period to which it Pertains	Amount Involved	Amount Deposited	Net Amount	Forum where dispute is Pending

			Total	282.76	11.99	270.77	

8. The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on Clause 3(viii) of the Order is not applicable to the Company.
9. On the basis of verification of records, on an overall examination of the financial statements of the Company and according to the information and explanations given to us,
- The company has not defaulted in repayment of dues to a financial institution or banks..
 - The company has not been declared wilful defaulter by any bank or financial institution or other lender;
 - The Company has not taken any term loan during the year.
 - On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
 - On overall examination of the financial statements of the Company, the Company has not taken funds from any entities and persons on account of or to meet the obligations of its subsidiaries or associates.
 - The Company has not raised loans during the year on the pledge of securities held in its subsidiaries or associate companies. Hence, the requirement to report on clause (ix)(f) of the Order is not applicable to the Company.

10. a) The company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year.
- b) The company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year.
11. a) Based on examination of the books and records of the Company and according to the information and explanations given to us, considering the principles of materiality outlined in Standards on Auditing, we report that no fraud by the Company or on the Company has been noticed or reported during the course of the audit.
- b) During the year, no report under sub-section (12) of Section 143 of the Companies Act, 2013 has been filed by us in Form ADT - 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government. According to the information and explanations given to us and based on the information provided to us and records verified by us, the Secretarial Auditor and the Cost Auditor have not filed report in Form ADT - 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
12. The Company is not a nidhi company and hence reporting under clause 3(xii) of the Order is not applicable to the Company.
13. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with sections 177 and 188 of the Act wherever applicable and details of such transactions have been disclosed in the standalone Ind AS financial statements as required by the applicable accounting standards.
14. (a). The company has an internal audit system commensurate with the size and nature of its business;
- (b). We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date.
15. The Company has not entered into any non-cash transactions with directors or persons connected with its directors, hence requirement to report on clause 3(xv) of the Order is not applicable to the Company
16. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi)(a), (b), (c) and (d) of the Order are not applicable.
17. The company has not incurred cash losses in the current financial year and in the immediately preceding financial year.
18. There has been no resignation of the statutory auditors of the Company during the year and accordingly requirement to report on Clause 3(xviii) of the Order is not applicable to the Company.
19. On the basis of the financial ratios disclosed in note 52 to the standalone financial statement, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
20. The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there are no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Companies Act or special account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause (xx) of the Order is not applicable for the year.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT OF EVEN DATE ON THE STANDALONE IND AS FINANCIAL STATEMENTS OF FIEM INDUSTRIES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

Opinion

1. We have audited the internal financial controls over financial reporting of FIEM INDUSTRIES LIMITED (“the Company”) as of March 31, 2025 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.
2. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31st March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “Guidance Note”).

Management’s Responsibility for Internal Financial Controls

3. The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

4. Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
5. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.
6. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

7. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

8. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The accounting policies have been applied consistently over all the periods presented in these financial statements.

(C) Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates, and assumptions that affect the application of accounting policies and reported amount of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amount of revenues and expenses for the years presented. Actual results may differ from the estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revision to accounting estimates are recognised in the period in which the estimates are revised and in which future periods are also affected.

Material Estimates and Judgments

The Areas involving critical estimates or judgement are:-

- (i) Defined Benefits Obligation refer note 43
- (ii) Estimation of useful life of property plant and equipment (PPE)
- (iii) Estimation and evaluation of provisions and contingencies
- (iv) Recognition of deferred tax assets and provision for income tax refer note 35
- (v) Measurement of lease liabilities and right-of-use assets refer note 36

Recent Accounting Developments

Ministry of Corporate Affairs (MCA), notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31st March, 2025, MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. April 1, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

On May 9, 2025, MCA notified the amendments to Ind AS 21 - Effects of Changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual periods beginning on or after April 1, 2025.

(D) Current-Non Current Classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is expected to be realised within 12 months after the reporting date; or;
- (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for a least 12 months after the reporting date

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be settled in the Company's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is due to be settled within 12 months after the reporting date; or;
- (d) the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

All other liabilities are classified as non-current. The deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating Cycle

Based on the nature of products/activities of the Company and the normal time between the acquisition of assets for processing and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of current and non current classification of assets and liabilities

(E) Property, Plant and Equipment

Property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation. Cost includes items directly attributable to the construction or acquisition of the items of property, plant and equipment. Cost of acquisition is inclusive of freight, duties, taxes, and other incidental expenses. Freehold land is measured at cost and is not depreciated.

Subsequent costs are included in the asset's carrying amount only when it is probable that future economic benefits associated with the items will flow to the Company and the cost of the item can be measured reliably. The cost for day-to-day servicing of property, plant and equipment are recognized in Statement of Profit and Loss as and when incurred.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Depreciation is calculated using the straight-line method on a pro-rata basis from the date in which each asset is put to use to allocate their cost, net of their residual values, over their useful life generally in accordance with that provided in the Schedule II to the Act. The estimated useful lives of property, plant and equipment are as follows.

Assets	Estimated useful lives	Useful lives as per schedule II
Factory Building	30 years	30 years
Non-Factory Building	60 years	60 years
Plant and Equipment	3-15 years	15 years
Furniture and Fixture	10 years	10 years
Motor Vehicles	8-10 years	8-10 years
Office Equipment	3-5 years	5 years
Electrical Installations	10 years	10 years
Computer Equipment	3 years	3 years

Notes on Financial Statements for the year ended 31.03.2025

Based on technical evaluation and internal assessment of useful lives, the management believes that its estimate of useful lives as given above best represent the period over which management expects to use these assets.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of profit and loss.

Capital Work-in-Progress

Capital work-in-progress comprises the cost of property, plant and equipment that are not yet ready for their intended use at the balance sheet date & expenditure during construction period pending allocation. It also includes property, plant and equipments in transit that are not yet received for their intended use at the balance sheet date. Depreciation is not charged on capital work in progress until construction and installation are complete and asset ready for its intended use.

Capital Advances

Advances given towards acquisition of property, plant and equipments outstanding at each Balance Sheet date are disclosed as Other Non-Current Assets.

(F) Intangible Assets

Intangible assets acquired separately

Intangible assets including computer software with finite useful lives that are acquired separately are carried at cost less accumulated amortisation. Amortization is recognised on a straight-line basis over their estimated useful lives. Software is amortized over the period of 3 years. The estimated useful life and amortization are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible Assets Under Development

Intangible assets under development comprises the cost of intangible assets that are not yet ready for their intended use at the balance sheet date. Amortization is not charged on intangible assets under development.

(G) Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents includes balances with banks which are unrestricted for withdrawal and usage.

Financial assets:- Initial Recognition and Measurement

All financial assets are recognized initially at fair value, plus transaction costs that are attributable to the acquisition of the financial asset.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes on Financial Statements for the year ended 31.03.2025

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gain and losses which are recognised in profit and loss.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of assets and liabilities at fair value through profit and loss are immediately recognised in the statement of profit and loss.

Trade Receivables

Trade receivables are initially recognised at transaction price as they do not contain to a significant financing component. This implies that the effective interest rate for these receivables is zero. Subsequently, the company applies lifetime expected credit loss model for measurement of trade receivables.

Investment in subsidiaries and Joint Ventures

Investment in subsidiaries and joint ventures are measured at cost. Cost represents amount paid for acquisition of the said investment.

Financial liabilities

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Other financial liabilities: These are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Company recognises equity instruments at proceeds received net off direct issue cost.

Reclassification of Financial Assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the company's operations. Such changes are evident to external parties. A change in the business model occurs when a company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains and losses) or interest.

Derecognition of Financial Assets and Financial Liabilities

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. Any gain or loss arising on derecognition is recognised in profit or loss

Financial liabilities are derecognised when these are extinguished, that is when the obligation is discharged, cancelled or has expired.

Notes on Financial Statements for the year ended 31.03.2025

Impairment of Financial Assets

The Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

Financial assets that are debt instruments, and are initially measured at fair value with subsequent measurement at amortized cost e.g., trade and other receivables, security deposits, loan to employees, etc.

The Company follows 'simplified approach' for recognition of impairment loss allowance for trade receivables

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls).

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historically observed default rates are updated and changes in the forward-looking estimates are analyzed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as an expense in the statement of profit and loss.

Write-off of Financial Assets

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. The management considers internal and external information up to the date of approval of financial results including probability of credit impairment and economic forecast.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

(H) Measurement of Fair Values

The Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. The Company regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

(I) Inventory

- (i) Raw materials, components, stores and spares are valued at lower of cost or net realizable value. However, raw materials and other supplies held for use in the production of finished products are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. In determining the cost, moving weighted average method is used.
- (ii) Semi-finished goods and finished goods are valued lower of cost or net realizable value. Cost includes direct materials and direct labour and a proportion of manufacturing overheads based on normal operating capacity.
- (iii) Moulds, block & dies are valued at lower of cost or net realizable value. Manufactured moulds, block & dies include direct material, direct labour and a proportion of manufacturing overhead based on normal operating capacity.
- (iv) Inventories of non-reusable waste say scrap for which facilities for reprocessing do not exist have been valued at net realizable value.
- (v) Cost of inventories comprises all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition.
- (vi) Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.
- (vii) Goods in transit are stated as a component of inventories if the significant risk and rewards of ownership have passed to the company and valued at actual cost incurred up to the date of Balance Sheet.
- (viii) The valuation of inventories of raw material & component, traded goods and stores & spares (including packaging material) has been done on the basis of moving weighted average method basis.

(J) Revenue from contracts with customers

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and scheme offered by the Company as part of the contract. Transaction price is the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party. Amounts disclosed as revenue are net of goods and service tax (GST).

Sale of Goods

Revenue arising from the sale of goods (including moulds) is recognized when the customer obtains control of the promised goods, i.e. either at the delivery or dispatch of goods (based on the agreed terms of sale with the respective customers), which is the point in time when the customer has the ability to direct the use of the goods and obtain substantially all of the remaining benefits of the goods. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods before transferring them to the customer.

Sale of Services

Revenue from sale of services is recognized in accordance with the terms of contract when the services are rendered and the related costs are incurred

Insurance Claim

In the case of loss covered by the valid insurance policies, the carrying value of property, plant & equipment and the cost of inventory are written-off in the statement of profit & loss. Simultaneously the recoverable amount pertaining to loss of inventory and loss to the extent of carrying amount of property, plant & equipment are shown as receivable from the insurer. Subsequently the insurance claims lodged with insurance companies will be accounted for on the basis of claim admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

Dividend and Interest Income

Dividend income from investments is recognized when the right to receive the dividend is established, which is generally when shareholders approve the dividend.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on, time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Notes on Financial Statements for the year ended 31.03.2025

(K) Government Grants, Subsidies and Export Incentives

- (i) Where the grant or subsidy relates to an asset, it is recognized by deducting the grant in arriving at the carrying amount of asset. However, when the grant or subsidy relates to an expenses item, it is recognised as income. Grants and subsidies from the government are recognized when there is reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with.
- (ii) Export incentives are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same.

(L) Foreign Currency Transactions

Functional and Presentation Currency

The functional currency of the Company is Indian rupee (INR).

Transactions and balances

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction

Foreign currency monetary assets and liabilities such as cash, receivables, payables, etc., are translated at year end exchange rates.

Non-monetary items denominated in foreign currency such as investments, property plant and equipment, inventories etc., are valued at the exchange rate prevailing on the date of transaction.

Exchange differences arising on settlement of transactions and translation of monetary items are recognised as income or expense in the year in which they arise.

(M) Research and Development

Revenue expenditure pertaining to research is charged to Statement of Profit and Loss. Development costs of products expenses are capitalized when the Company is certain to recover the development cost from future economic benefits. Property, plant and equipment utilized for research and development are capitalized and depreciated/amortised in accordance with the policies stated for property, plant and equipment & intangible assets.

(N) Employee Benefits

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. These benefits include salaries and wages, bonus etc. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post Employment Benefits:

Provident Fund & Employee State Insurance

Retirement Benefits in the form of Provident Fund and ESI schemes are a defined contribution plans as the Company does not carry any further obligations, apart from the contributions made on a monthly basis and the contributions are charged to Statement of Profit & Loss of the year when the contributions to the respective funds are due.

Earned Leave

Leave encashment is applicable to all permanent and full time employees of the company and is provided for on the basis of actuarial valuation made at the end of each financial year using Projected Unit Credit Method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the statement of profit or loss in the period in which they arise. Past-service costs are recognised immediately in statement of profit or loss.

Notes on Financial Statements for the year ended 31.03.2025

Gratuity

The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The gratuity plan in Company is funded through annual contributions to HDFC Life Insurance Company under its Company's Gratuity Scheme.

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Past-service costs are recognised immediately in statement of profit or loss.

(O) Provisions and Contingent Liabilities

Provision

A provision is recognized when the Company has a present obligation as a result of past event, and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessment of the time value of money and the risk specific to the liability. The increase in the provision due to the passage of time is recognised as interest expenses.

Product Warranties

A provision for warranties is recognised when the underlying products or services are sold. The provision is based on historical warranty data and weighting of all possible outcomes by their associated probabilities. Provisions for warranties are adjusted regularly to take account of new circumstances and the impact of any changes recognised in the statement of profit and loss.

Contingent Liabilities

Wherever there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognised because (a) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or (b) the amount of the obligation cannot be measured with sufficient reliability. Show cause notices are not considered as Contingent Liabilities unless converted into demand.

(P) Taxation

Income Tax expense represent the sum of the tax currently payable and deferred tax

Current Income Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the statement of profit and loss because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period. Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss in OCI. Current tax items are recognized in correlation to the underlying transaction in OCI.

Notes on Financial Statements for the year ended 31.03.2025

Deferred Tax

Deferred tax is recognised using the balance sheet approach. Deferred Tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax liabilities and assets are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends and has ability to settle its current tax assets and liabilities on a net basis.

Current and Deferred Tax For The Year

Current and deferred tax are recognised in profit or loss, except when they relate to item that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(Q) Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(R) Impairment

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of cash inflows from other assets or groups of assets (cash generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(S) Cash Flow Statement

The Cash Flow Statement is prepared by the indirect method set out in Ind AS-7 on Cash Flow Statements and presents cash flows by operating, investing and financing activities of the Company.

(T) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Core Management Committee which includes the Managing Director who is the Chief Operating Decision Maker. The Core Management Committee examines performance both from product and a geographical perspective. The Company has identified two reportable business segments viz. Automotive and Other Segment comprising LED Luminaries on the basis of the nature of products, the risk and return profile of individual business and the internal business reporting systems.

Notes on Financial Statements for the year ended 31.03.2025

(U) Lease

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-to-use assets representing the right to use the underlying assets.

Right-to-use assets

The Company's lease assets primarily consist of leases for land and building. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognise a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases of low value assets. For these short term and leases of low value assets, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

Lease liabilities

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

(V) Dividend on Equity Share

Dividends on equity shares are recorded on the date of approval by the shareholders of the Company.

(W) Corporate Social Responsibility (CSR) Expenditure

CSR Expenditure incurred by the Company is charged to the standalone statement of the profit and loss

(X) Earnings Per Share

The Basic and Diluted Earnings Per Share ("EPS") is computed by dividing the profit after tax (loss) for the year by weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earning per share, the net profit (loss) for the year attributable to equity shareholder and the weighted average number of share outstanding during the year are adjusted for the effect of all dilutive potential equity shares. The weighted average number of shares outstanding during the year are adjusted for events of bonus issue and share split, if any.

The management assessed that the fair values of short term financial assets and liabilities significantly approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction among willing parties, other than in a forced or liquidation sale.

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. In addition, the Company internally reviews valuation, including independent price validation for certain instruments.

Fair value of financial assets and liabilities is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

The following methods and assumptions was used to estimate fair value:

Fair value of short term financial assets and liabilities significantly approximate their carrying amounts largely due to the short term maturities of these instruments.

45 Financial Instruments and Risk Review

Financial Risk Management Framework

The Company's financial liabilities comprise mainly of trade payables and other payable. The Company's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables.

The Company is exposed to Market risk, Credit risk and Liquidity risk. The Company oversees the management of these financial risks. The Company's approach to address uncertainties in its endeavor to achieve its stated and implicit objectives. It prescribes the roles and responsibilities of the Company's management, the structure for managing risks and the framework for risk management. The framework seeks to identify, assess and mitigate financial risks in order to minimize potential adverse effects on the Company's financial performance.

i) Capital Management

The Company's capital management objectives are:

The Company is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

The Company manages capital risk by maintaining sound/optimal capital structure through monitoring of financial ratios, such as debt-to-equity ratio and net borrowings-to-equity ratio and implements capital structure improvement plan when necessary.

The Company uses debt ratio as a capital management index and calculates the ratio as Net debt divided by total equity. Net debt and total equity are based on the amounts stated in the financial statements.

Debt-to-equity ratio is as follows:

(Amount Rs in Lakhs)

Particulars	As at March 31, 2025	As at March 31, 2024
Non Current/Current Borrowing	-	-
Net Debt (A)	-	-
Equity (B)	1,03,548.97	88,544.62
Debt Ratio (A/B)*	-	-

* The Company has no outstanding borrowings as at 31/03/2025 & 31/03/2024.

ii) Credit Risk

Credit risk refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises primarily from financial assets such as trade receivables, other balances with banks, loans and other receivables.

In assessing, recoverability of receivables, the management has considered the asset type, past due status and other relevant factors considering the age of receivables. The provision for expected credit losses (ECL) are revised at each reporting date by the use of practical expedients viz provision matrix.

Notes on Financial Statements for the year ended 31.03.2025

(Amount Rs in Lakhs)

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was Rs. 24,240.90 Lakhs (net of write-off/provisions) (Previous Year Rs. 19,379.07 Lakhs) respectively, being the total of the carrying amount of balances with trade receivables. An amount of Rs. 31.83 lakhs (previous year Rs. 15.64 lakhs) has been written-off during the year after re-assessing long outstandings and obtaining objective evidences on the impairment of the trade receivables.

Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each date of financial statement whether a financial asset or a group of financial assets is impaired. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

The Company's primary customers are major automobile manufacturers (OEMs) with good credit ratings. Company's exposure to customers is diversified and some customers contribute more than 10% of outstanding accounts receivable which forms 65% of total receivables as at 31 March, 2025 (62% as at 31 March, 2024), however there was no default on account of those customers in the past.

The Company performs credit assessment for customers on an annual basis and recognizes credit risk, on the basis lifetime expected losses and where receivables are due for more than six months.

Movement in the expected credit loss allowance:

Particulars	As at March 31, 2025	As at March 31, 2024
Balance at the beginning of the year	958.06	982.00
Movement in the expected credit loss allowance on trade receivables calculated at lifetime expected credit losses	(454.37)	(23.94)
Balance at the end of the year	503.69	958.06

iii) Liquidity Risk

a) Liquidity risk management

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company has no outstanding borrowings as at 31/03/2025. The Company believes that the working capital is sufficient to meet its current requirements. As at March 31, 2025, the Company had a working capital of Rs. 48,902.65 Lakhs including cash and cash equivalents of Rs.29,578.61 Lakhs. As at March 31, 2024, the Company had a working capital of Rs. 41,094.96 lakhs including cash and cash equivalents of Rs. 20,381.03 Lakhs.

iv) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

a) Foreign Currency exchange rate risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar, Euro, and Japanese Yen against the respective functional currencies of the Company.

The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. The information on foreign currency exposures that are not hedged by derivative instruments is as follows.

Particulars	Currency	As at March 31, 2025		As at March 31, 2024

Foreign Currency Sensitivity

The following table demonstrates the sensitivity to a reasonable possible change in USD, EURO and JPY exchange rates, with all other variables held constant, the impact on the Company's profit before tax due to changes in the fair value of monetary assets and liabilities. The Company's exposure to foreign currency changes for all other currencies is not material. The sensitivity analysis is prepared on the net unhedged exposure of the Company as at the reporting date. 10% represents company's assessment of reasonably possible change in foreign exchange rate.

Particulars	As At March 31, 2025			As At March 31, 2024		
	Currency	Change in rate	Effect on pre-tax equity	Currency	Change in rate	Effect on pre-tax equity
	USD	10.00%	475.18	USD	10.00%	303.10
	USD	-10.00%	(475.18)	USD	-10.00%	(303.10)
	EURO	10.00%	(0.59)	EURO	10.00%	(1.37)
	EURO	-10.00%	0.59	EURO	-10.00%	1.37
	JPY	10.00%	32.72	JPY	10.00%	37.69
	JPY	-10.00%	(32.72)	JPY	-10.00%	(37.69)

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's cash credit/working capital loans. The Company has no long term/short term outstanding borrowings as at 31 March, 2025. The Company investments are primarily in interest rate bearing investments like short term deposits with banks. Hence, the Company is significantly exposed to interest rate risk.

The company had access to the following undrawn borrowing facilities at the end of the reporting periods. The bank overdraft facilities may be drawn at any time by the Company.

Particulars	As at March 31, 2025	As at March 31, 2024
(i) Cash credit limit	3,500.00	11,500.00
(ii) Long-term loans	-	-

The deposits maintained by the Company with banks comprise of time deposits, which can be withdrawn by the Company at any point without prior notice or penalty on the principal. The company has the following interest rate bearing term deposit with banks at the end of the reporting periods.

Particulars	As at March 31, 2025	As at March 31, 2024
(i) Term Deposit with banks	28,513.01	19,542.07

Interest rate sensitivity

The sensitivity analysis below have been determined based on exposure to interest rate. For floating/fixed rate, analysis is prepared assuming the amount outstanding at the end of the reporting period was outstanding for the whole year. With all other variables held constant, the Company's profit before tax is affected through the impact on interest rate borrowings, as follows:

Particulars	As at March 31, 2025	As at March 31, 2024
Increase by 1.00%	285.13	195.42
Decrease by 1.00%	(285.13)	(195.42)

c) Commodity price risk

Movement in commodity price in market affects directly or indirectly the price of raw material and components used by the Company. The Company sells its products mainly to auto makers (Original Equipment Manufacturer) whereby there is a regular negotiation/adjustment of prices on the basis of changes in commodity prices.

To the Members of
Fiem Industries Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Fiem Industries Limited (hereinafter referred to as the 'Holding Company') its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), its jointly controlled entities, which comprise the consolidated Balance Sheet as at 31st March, 2025, and the consolidated statement of profit and loss(including Other Comprehensive Income), the consolidated statement of changes in equity and the consolidated cash flows Statement for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies (hereinafter referred to as "the consolidated financial statements" or "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other the accounting principles generally accepted in India, of their consolidated state of affairs of the Company as at 31st March, 2025, of

consolidated profits and Consolidated total comprehensive income , consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Other information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Annual report but does not include the Consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated state of affairs, consolidated profit/loss and other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its Jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding

the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its jointly controlled entities are responsible for assessing the ability of the Group and of its jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its jointly controlled entities are responsible for overseeing the financial reporting process of the Group and of its jointly controlled entities.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are

considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of directors.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality

and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- a) We did not audit the financial statement of a overseas 50:50 Joint Venture, Fiem Kyowa (HK) Mould Company Limited, whose Net loss of Rs 4.50 lakhs for the year ended 31st March 2025, are included in the accompanying consolidated financial statements, Such financial information have not been audited and have been approved by the Board of directors of the respective Companies. The management of the company has converted these financial statements as per Ind AS and other accounting principle generally accepted in India, and certified these financial statements for the purpose of preparation of consolidated financial statement. Our report, in so far as it relates to these jointly controlled entities, is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the management, these financial statements are not material to the Group
- b) Two subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with the accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their

respective countries to accounting principles generally accepted in India. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the Management of the Holding Company.

Our opinion on the Consolidated financial statements above, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters.

Report on Other Legal and Regulatory Requirements

A. As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements
- d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors of the Company as on 31st March, 2025 taken on record by the Board of Directors of the Company, none of the directors of the Group companies, is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate report in Annexure-A and

B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- 1) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group– Refer Note 32(A) to the consolidated financial statements.
- 2) The Company did not have any long-term contracts

including derivative contracts for which there were any material foreseeable losses;

- 3) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company.
- 4) (a) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or any of such subsidiaries to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company or any of such subsidiaries from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- 5) As stated in Note 51 to the consolidated financial statements
 - (i) The final dividend proposed in the previous year, declared and paid by the Holding Company during the year is in accordance with Section 123 of the Act, as applicable.

- (ii) The Board of Directors of the Holding Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.
- 6) Based on our examination, which included test checks, the Company has used accounting softwares for maintaining its books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the softwares except that Audit trail feature is not enabled for application's underlying database and for certain changes made using privileged/ administrative access rights, as described in note 54 to the financial statements. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with. The audit trail has been preserved by the Company as per the statutory requirements for record retention.
- C. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the holding company and its subsidiaries which are incorporated in India to its directors during the year is in accordance with the provisions of section 197 of the Act. The remuneration paid to any director by the holding company and its subsidiaries which are incorporated in India is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

- D. With respect to the matters specified in paragraphs 3(xxii) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/ "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and its subsidiaries included in the consolidated financial statements of the Company, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED IND AS FINANCIAL STATEMENTS OF FIEM INDUSTRIES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Opinion

1. In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31st March, 2025, We have audited the internal financial controls over financial reporting of FIEM INDUSTRIES LIMITED (hereinafter referred to as "the Holding Company")
2. There is no subsidiary company or jointly controlled company, which are companies Incorporated in India as of 31.03.25, therefore reporting on internal financial controls over financial reporting is given only in respect of the Holding Company.
3. In our opinion the Holding Company, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31st March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

4. The Board of Directors of the of the Holding company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

5. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit

in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

6. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

8. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management

and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

9. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility

of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to the Consolidated Financial Statements as at 31.03.2025

1. Corporate Information

Fiem Industries Limited ("The Company") is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The address of its corporate office is 2nd Floor, Tower A, Plot No. 243, SP Infocity, Udyog Vihar Phase-1, Gurugram, Haryana-122016 (India). Its shares are listed on National Stock Exchange and Bombay Stock Exchange in India. The Company is in the business of manufacturing and supply of auto components comprising of automotive lighting & signalling equipments, rear-view mirror, prismatic mirror, plastic moulded parts, bank angle sensor, canister and sheet metal components for motorised vehicles, and LED luminaries comprising of indoor and outdoor lighting, display panels and integrated passengers information system.

Basis of Preparation, Material Accounting Policies and Critical Accounting Estimates and Judgement.

(A) Statement of Compliance

The financial statement has been prepared as a going concern in accordance with Indian Accounting Standards (Ind AS) notified under the Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provision of the Act, as amended from time to time.

These consolidated financial statements were approved by the Company's Board of Directors & authorised for issue on May 30, 2025.

(Aa) Accounting Policies Applicable in Consolidated Financial Statement

- (i) The Company combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated.
- (ii) Interests in joint ventures are accounted for using the equity method, after initially being recognised at cost in the consolidated balance sheet.
- (iii) The results and financial position of foreign operations that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - assets and liabilities are translated at the closing rate at the date of that Balance Sheet
 - income and expenses are translated at average exchange rates
 - All resulting exchange differences are recognised in statement of profit & loss
- (iv) Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.
- (v) In case of foreign subsidiaries being non-integral foreign operations, any exchange difference arising on consolidation is recognised in the Translation reserve.
- (vi) The company has two wholly owned foreign subsidiary i.e. Fiem Industries Japan Co. Ltd. incorporated in Japan and Fiem Research & Technology SRL incorporated in Italy and one joint venture i.e. Fiem Kyowa (HK) Mould Company Limited and which have been considered for consolidation in current year.

(B) Accounting Convention

The financial statements have been prepared on the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value at end of each reporting period, as explained in the accounting policies mentioned below. The accounting policies have been applied consistently over all the periods presented in these financial statements.

(C) Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates, and assumptions that affect the application of accounting policies and reported amount of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amount of revenues and expenses for the years presented. Actual results may differ from the estimates.

Notes to the Consolidated Financial Statements as at 31.03.2025

Estimates and underlying assumptions are reviewed at each balance sheet date. Revision to accounting estimates are recognised in the period in which the estimates are revised and in which future periods are also affected.

Material Estimates and Judgments

The Areas involving critical estimates or judgement are:-

- (i) Defined Benefits Obligation refer note 43
- (ii) Estimation of useful life of property plant and equipment (PPE)
- (iii) Estimation and evaluation of provisions and contingencies
- (iv) Recognition of deferred tax assets and provision for income tax refer note 35
- (v) Measurement of lease liabilities and right-of-use assets refer note 36

Recent Accounting Developments

Ministry of Corporate Affairs (MCA), notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31st March, 2025, MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. April 1, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

On May 9, 2025, MCA notified the amendments to Ind AS 21 - Effects of Changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual periods beginning on or after April 1, 2025.

(D) Current-Non Current Classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is expected to be realised within 12 months after the reporting date; or;
- (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for a least 12 months after the reporting date

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be settled in the Company's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is due to be settled within 12 months after the reporting date; or;
- (d) the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

All other liabilities are classified as non-current. The deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating Cycle

Based on the nature of products/activities of the Company and the normal time between the acquisition of assets for processing and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of current and non current classification of assets and liabilities

Notes to the Consolidated Financial Statements as at 31.03.2025

(E) Property, Plant and Equipment

Property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation. Cost includes items directly attributable to the construction or acquisition of the items of property, plant and equipment. Cost of acquisition is inclusive of freight, duties, taxes, and other incidental expenses. Freehold land is measured at cost and is not depreciated.

Subsequent costs are included in the asset's carrying amount only when it is probable that future economic benefits associated with the items will flow to the Company and the cost of the item can be measured reliably. The cost for day-to-day servicing of property, plant and equipment are recognized in Statement of Profit and Loss as and when incurred.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Depreciation is calculated using the straight-line method on a pro-rata basis from the date in which each asset is put to use to allocate their cost, net of their residual values, over their useful life generally in accordance with that provided in the Schedule II to the Act. The estimated useful lives of property, plant and equipment are as follows.

Assets	Estimated useful lives	Useful lives as per schedule II
Factory Building	30 years	30 years
Non-Factory Building	60 years	60 years
Plant and Equipment	3-15 years	15 years
Furniture and Fixture	10 years	10 years
Motor Vehicles	8-10 years	8-10 years
Office Equipment	3-5 years	5 years
Electrical Installations	10 years	10 years
Computer Equipment	3 years	3 years

Based on technical evaluation and internal assessment of useful lives, the management believes that its estimate of useful lives as given above best represent the period over which management expects to use these assets.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of profit and loss.

Capital Work-in-Progress

Capital work-in-progress comprises the cost of property, plant and equipment that are not yet ready for their intended use at the balance sheet date & expenditure during construction period pending allocation. It also includes property, plant and equipments in transit that are not yet received for their intended use at the balance sheet date. Depreciation is not charged on capital work in progress until construction and installation are complete and asset ready for its intended use.

Capital Advances

Advances given towards acquisition of property, plant and equipments outstanding at each Balance Sheet date are disclosed as Other Non-Current Assets.

Notes to the Consolidated Financial Statements as at 31.03.2025

(F) Intangible Assets

Intangible assets acquired separately

Intangible assets including computer software with finite useful lives that are acquired separately are carried at cost less accumulated amortisation. Amortization is recognised on a straight-line basis over their estimated useful lives. Software is amortized over the period of 3 years. The estimated useful life and amortization are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible Assets Under Development

Intangible assets under development comprises the cost of intangible assets that are not yet ready for their intended use at the balance sheet date. Amortization is not charged on intangible assets under development.

(G) Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents includes balances with banks which are unrestricted for withdrawal and usage.

Financial assets:- Initial Recognition and Measurement

All financial assets are recognized initially at fair value, plus transaction costs that are attributable to the acquisition of the financial asset.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gain and losses which are recognised in profit and loss.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of assets and liabilities at fair value through profit and loss are immediately recognised in the statement of profit and loss.

Trade Receivables

Trade receivables are initially recognised at transaction price as they do not contain to a significant financing component. This implies that the effective interest rate for these receivables is zero. Subsequently, the company applies lifetime expected credit loss model for measurement of trade receivables.

Notes to the Consolidated Financial Statements as at 31.03.2025

Investment in Joint Ventures

Investment in joint ventures are measured at equity method. Cost represents amount paid for acquisition of the said investment.

Financial liabilities

Financial liabilities are classified and measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Other financial liabilities: These are measured at amortised cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Company recognises equity instruments at proceeds received net off direct issue cost.

Reclassification of Financial Assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the company's operations. Such changes are evident to external parties. A change in the business model occurs when a company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains and losses) or interest.

Derecognition of Financial Assets and Financial Liabilities

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. Any gain or loss arising on derecognition is recognised in profit or loss.

Financial liabilities are derecognised when these are extinguished, that is when the obligation is discharged, cancelled or has expired.

Impairment of Financial Assets

The Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

Financial assets that are debt instruments, and are initially measured at fair value with subsequent measurement at amortized cost e.g., trade and other receivables, security deposits, loan to employees, etc.

The Company follows 'simplified approach' for recognition of impairment loss allowance for trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls).

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historically observed default rates are updated and changes in the forward-looking estimates are analyzed.

Notes to the Consolidated Financial Statements as at 31.03.2025

ECL impairment loss allowance (or reversal) recognized during the period is recognized as an expense in the statement of profit and loss.

Write-off of Financial Assets

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. The management considers internal and external information up to the date of approval of financial results including probability of credit impairment and economic forecast.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

(H) Measurement of Fair Values

The Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. The Company regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

(I) Inventory

- (i) Raw materials, components, stores and spares are valued at lower of cost or net realizable value. However, raw materials and other supplies held for use in the production of finished products are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. In determining the cost, moving weighted average method is used.
- (ii) Semi-finished goods and finished goods are valued lower of cost or net realizable value. Cost includes direct materials and direct labour and a proportion of manufacturing overheads based on normal operating capacity.
- (iii) Moulds, block & dies are valued at lower of cost or net realizable value. Manufactured moulds, block & dies include direct material, direct labour and a proportion of manufacturing overhead based on normal operating capacity.
- (iv) Inventories of non-reusable waste say scrap for which facilities for reprocessing do not exist have been valued at net realizable value.
- (v) Cost of inventories comprises all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition.
- (vi) Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.
- (vii) Goods in transit are stated as a component of inventories if the significant risk and rewards of ownership have passed to the company and valued at actual cost incurred up to the date of Balance Sheet.
- (viii) The valuation of inventories of raw material & component, traded goods and stores & spares (including packaging material) has been done on the basis of moving weighted average method basis.

Notes to the Consolidated Financial Statements as at 31.03.2025

(J) Revenue from contracts with customers

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and scheme offered by the Company as part of the contract. Transaction price is the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party. Amounts disclosed as revenue are net of goods and service tax (GST).

Sale of Goods

Revenue arising from the sale of goods (including moulds) is recognized when the customer obtains control of the promised goods, i.e. either at the delivery or dispatch of goods (based on the agreed terms of sale with the respective customers), which is the point in time when the customer has the ability to direct the use of the goods and obtain substantially all of the remaining benefits of the goods. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods before transferring them to the customer.

Sale of Services

Revenue from sale of services is recognized in accordance with the terms of contract when the services are rendered and the related costs are incurred

Insurance Claim

In the case of loss covered by the valid insurance policies, the carrying value of property, plant & equipment and the cost of inventory are written-off in the statement of profit & loss. Simultaneously the recoverable amount pertaining to loss of inventory and loss to the extent of carrying amount of property, plant & equipment are shown as receivable from the insurer. Subsequently the insurance claims lodged with insurance companies will be accounted for on the basis of claim admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

Dividend and Interest Income

Dividend income from investments is recognized when the right to receive the dividend is established, which is generally when shareholders approve the dividend.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on, time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

(K) Government Grants, Subsidies and Export Incentives

(i) Where the grant or subsidy relates to an asset, it is recognized by deducting the grant in arriving at the carrying amount of asset. However, when the grant or subsidy relates to an expenses item, it is recognised as income. Grants and subsidies from the government are recognized when there is reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with.

(ii) Export incentives are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same.

(L) Foreign Currency Transactions

Functional and Presentation Currency

The functional currency of the Company is Indian rupee (INR).

Transactions and balances

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction

Foreign currency monetary assets and liabilities such as cash, receivables, payables, etc., are translated at year end exchange rates.

Notes to the Consolidated Financial Statements as at 31.03.2025

Non-monetary items denominated in foreign currency such as investments, property plant and equipment, inventories etc., are valued at the exchange rate prevailing on the date of transaction.

Exchange differences arising on settlement of transactions and translation of monetary items are recognised as income or expense in the year in which they arise.

(M) Research and Development

Revenue expenditure pertaining to research is charged to Statement of Profit and Loss. Development costs of products expenses are capitalized when the Company is certain to recover the development cost from future economic benefits. Property, plant and equipment utilized for research and development are capitalized and depreciated/amortised in accordance with the policies stated for property, plant and equipment & intangible assets.

(N) Employee Benefits

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. These benefits include salaries and wages, bonus etc. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post Employment Benefits:

Provident Fund & Employee State Insurance

Retirement Benefits in the form of Provident Fund and ESI schemes are a defined contribution plans as the Company does not carry any further obligations, apart from the contributions made on a monthly basis and the contributions are charged to Statement of Profit & Loss of the year when the contributions to the respective funds are due.

Earned Leave

Leave encashment is applicable to all permanent and full time employees of the company and is provided for on the basis of actuarial valuation made at the end of each financial year using Projected Unit Credit Method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the statement of profit or loss in the period in which they arise. Past-service costs are recognised immediately in statement of profit or loss.

Gratuity

The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The gratuity plan in Company is funded through annual contributions to HDFC Life Insurance Company under its Company's Gratuity Scheme.

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Past-service costs are recognised immediately in statement of profit or loss.

Notes to the Consolidated Financial Statements as at 31.03.2025

(O) Provisions and Contingent Liabilities

Provision

A provision is recognized when the Company has a present obligation as a result of past event, and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessment of the time value of money and the risk specific to the liability. The increase in the provision due to the passage of time is recognised as interest expenses.

Product Warranties

A provision for warranties is recognised when the underlying products or services are sold. The provision is based on historical warranty data and weighting of all possible outcomes by their associated probabilities. Provisions for warranties are adjusted regularly to take account of new circumstances and the impact of any changes recognised in the statement of profit and loss.

Contingent Liabilities

Wherever there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognised because (a) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or (b) the amount of the obligation cannot be measured with sufficient reliability. Show cause notices are not considered as Contingent Liabilities unless converted into demand.

(P) Taxation

Income Tax expense represent the sum of the tax currently payable and deferred tax

Current Income Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the statement of profit and loss because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period. Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss in OCI. Current tax items are recognized in correlation to the underlying transaction in OCI.

Deferred Tax

Deferred tax is recognised using the balance sheet approach. Deferred Tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Notes to the Consolidated Financial Statements as at 31.03.2025

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax liabilities and assets are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends and has ability to settle its current tax assets and liabilities on a net basis.

Current and Deferred Tax For The Year

Current and deferred tax are recognised in profit or loss, except when they relate to item that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(Q) Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(R) Impairment

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of cash inflows from other assets or groups of assets (cash generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(S) Cash Flow Statement

The Cash Flow Statement is prepared by the indirect method set out in Ind AS-7 on Cash Flow Statements and presents cash flows by operating, investing and financing activities of the Company.

(T) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Core Management Committee which includes the Managing Director who is the Chief Operating Decision Maker. The Core Management Committee examines performance both from product and a geographical perspective. The Company has identified two reportable business segments viz. Automotive and Other Segment comprising LED Luminaries on the basis of the nature of products, the risk and return profile of individual business and the internal business reporting systems.

Notes to the Consolidated Financial Statements as at 31.03.2025

(U) Lease

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-to-use assets representing the right to use the underlying assets.

Right-to-use assets

The Company's lease assets primarily consist of leases for land and building. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognise a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases of low value assets. For these short term and leases of low value assets, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

Lease liabilities

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

(V) Dividend on Equity Share

Dividends on equity shares are recorded on the date of approval by the shareholders of the Company.

(W) Corporate Social Responsibility (CSR) Expenditure

CSR Expenditure incurred by the Company is charged to the consolidated statement of the profit and loss

(X) Earnings Per Share

The Basic and Diluted Earnings Per Share ("EPS") is computed by dividing the profit after tax (loss) for the year by weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earning per share, the net profit (loss) for the year attributable to equity shareholder and the weighted average number of share outstanding during the year are adjusted for the effect of all dilutive potential equity shares. The weighted average number of shares outstanding during the year are adjusted for events of bonus issue and share split, if any.

The management assessed that the fair values of short term financial assets and liabilities significantly approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction among willing parties, other than in a forced or liquidation sale.

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. In addition, the Company internally reviews valuation, including independent price validation for certain instruments.

Fair value of financial assets and liabilities is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

The following methods and assumptions was used to estimate fair value:

Fair value of short term financial assets and liabilities significantly approximate their carrying amounts largely due to the short term maturities of these instruments.

The Company's financial liabilities comprise mainly of trade payables and other payable. The Company's financial assets comprise mainly of investments, cash and cash equivalents, other balances with banks, loans, trade receivables and other receivables.

The Company is exposed to Market risk, Credit risk and Liquidity risk. The Company oversees the management of these financial risks. The Company's approach to address uncertainties in its endeavor to achieve its stated and implicit objectives. It prescribes the roles and responsibilities of the Company's management, the structure for managing risks and the framework for risk management. The framework seeks to identify, assess and mitigate financial risks in order to minimize potential adverse effects on the Company's financial performance.

i) Capital Management

The Company's capital management objectives are:

The Company is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

The Company manages capital risk by maintaining sound/optimal capital structure through monitoring of financial ratios, such as debt-to-equity ratio and net borrowings-to-equity ratio and implements capital structure improvement plan when necessary.

The Company uses debt ratio as a capital management index and calculates the ratio as Net debt divided by total equity. Net debt and total equity are based on the amounts stated in the financial statements.

Debt-to-equity ratio is as follows:

(Amount Rs in Lakhs)

Particulars	As at March 31, 2025	As at March 31, 2024
Non Current/Current Borrowing	-	-
Net Debt (A)	-	-
Equity (B)	1,03,819.05	88,691.67
Debt Ratio (A/B)*	-	-

* The Company has no outstanding borrowings as at 31/03/2025 & 31/03/2024.

ii) Credit Risk

Credit risk refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises primarily from financial assets such as trade receivables, other balances with banks, loans and other receivables.

In assessing, recoverability of receivables, the management has considered the asset type, past due status and other relevant factors considering the age of receivables. The provision for expected credit losses (ECL) are revised at each reporting date by the use of practical expedients viz provision matrix.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was Rs. 24,235.32 Lakhs (net of write-off/provisions) (Previous Year Rs. 19,373.16 Lakhs) respectively, being the total of the carrying amount of balances with trade receivables. An amount of Rs. 31.83 lakhs (previous year Rs. 15.64 lakhs) has been written-off during the year after re-assessing long outstandings and obtaining objective evidences on the impairment of the trade receivables.

Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each date of financial statement whether a financial asset or a group of financial assets is impaired. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

The Company's primary customers are major automobile manufacturers (OEMs) with good credit ratings. Company's exposure to customers is diversified and some customers contribute more than 10% of outstanding accounts receivable which forms 65% of total receivables as at 31 March, 2025 (62% as at 31 March, 2024), however there was no default on account of those customers in the past. The Company performs credit assessment for customers on an annual basis and recognizes credit risk, on the basis lifetime expected losses and where receivables are due for more than six months.

Notes to the Consolidated Financial Statements as at 31.03.2025

Movement in the expected credit loss allowance:

(Amount Rs in Lakhs)

Particulars	As at March 31, 2025	As at March 31, 2024

iii) Liquidity Risk

a) Liquidity risk management

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company has no outstanding borrowings as at 31/03/2025. The Company believes that the working capital is sufficient to meet its current requirements. As at March 31, 2025, the Company had a working capital of Rs. 49,111.52 Lakhs including cash and cash equivalents of Rs.29,831.45 Lakhs. As at March 31, 2024, the Company had a working capital of Rs. 41,220.71 lakhs including cash and cash equivalents of Rs. 20,602.63 Lakhs.

b) Maturities of financial liabilities

iv) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

a) Foreign Currency exchange rate risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar, Euro, and Japanese Yen against the respective functional currencies of the Company.

The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. The information on foreign currency exposures that are not hedged by derivative instruments is as follows.

	Currency	As at March 31, 2025		As at March 31, 2024

Foreign Currency Sensitivity

The following table demonstrates the sensitivity to a reasonable possible change in USD, EURO and JPY exchange rates, with all other variables held constant, the impact on the Company's profit before tax due to changes in the fair value of monetary assets and liabilities. The Company's exposure to foreign currency changes for all other currencies is not material. The sensitivity analysis is prepared on the net unhedged exposure of the Company as at the reporting date. 10% represents company's assessment of reasonably possible change in foreign exchange rate.

Particulars	As at March 31, 2025			As at March 31, 2024		
	Currency	Change in rate	Effect on pre-tax equity	Currency	Change in rate	Effect on pre-tax equity
	USD	10.00%	475.18	USD	10.00%	303.10
	USD	-10.00%	(475.18)	USD	-10.00%	(303.10)
	EURO	10.00%	(0.59)	EURO	10.00%	(1.37)
	EURO	-10.00%	0.59	EURO	-10.00%	1.37
	JPY	10.00%	34.56	JPY	10.00%	38.14
	JPY	-10.00%	(34.56)	JPY	-10.00%	(38.14)

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's cash credit/working capital loans. The Company has no long term/short term outstanding borrowings as at 31 March, 2025. The Company investments are primarily in interest rate bearing investments like short term deposits with banks. Hence, the Company is significantly exposed to interest rate risk.

The company had access to the following undrawn borrowing facilities at the end of the reporting periods. The bank overdraft facilities may be drawn at any time by the Company.

Particulars	As at March 31, 2025	As at March 31, 2024
(i) Cash credit limit	3,500.00	11,500.00
(ii) Long-term loans	-	-

The deposits maintained by the Company with banks comprise of time deposits, which can be withdrawn by the Company at any point without prior notice or penalty on the principal. The company has the following interest rate bearing term deposit with banks at the end of the reporting periods.

Particulars	As at March 31, 2025	As at March 31, 2024
(i) Term Deposit with banks	28,513.01	19,542.07

Interest rate sensitivity

The sensitivity analysis below have been determined based on exposure to interest rate. For floating/fixed rate, analysis is prepared assuming the amount outstanding at the end of the reporting period was outstanding for the whole year. With all other variables held constant, the Company's profit before tax is affected through the impact on interest rate borrowings, as follows:

Particulars	As at March 31, 2025	As at March 31, 2024
Increase by 1.00%	285.13	195.42
Decrease by 1.00%	(285.13)	(195.42)

c) Commodity price risk

Movement in commodity price in market affects directly or indirectly the price of raw material and components used by the Company. The Company sells its products mainly to auto makers (Original Equipment Manufacturer) whereby there is a regular negotiation/adjustment of prices on the basis of changes in commodity prices.
