**Focused on
value creation**

At SMS Pharma, we are committed to help patients and healthcare providers with quality, cost-effective drugs. Operating in a dynamic business sector, we have consistently focused on operational expansion and manufacturing excellence to stay ahead of the curve and serve patients better. Our efforts have helped us sustain our growth momentum, reflecting our focus on long-term value creation for all.

Throughout our journey, we have leveraged R&D to develop cost-effective processes for API manufacturing consistently. During the reporting year, we have also invested prudently in enhancing our manufacturing capabilities and developed a portfolio of niche products, comprising high-value, complex APIs. In addition, by employing best-in-class technologies, we have seamlessly supported every facet of the product lifecycle, further strengthening our leadership in crucial product domains.

To diversify our presence across several geographies, therapies, products and clients, we have expanded our reach across borders. This has helped us create new avenues for value creation, benefiting stakeholders across the spectrum.

Looking ahead, we will continue to prioritise R&D investments and cost optimisation, trying to backward integrate. We believe we are strategically positioned to capitalise on

emerging market opportunities and remain fully dedicated to creating enduring value for all our stakeholders. With a sustained focus on innovation and R&D, we remain optimistic about our outlook for the upcoming year and are on track towards accomplishing our objectives. Building on our strengths and bolstered by the trust and cooperation of all our stakeholders, we would remain focused on achieving sustainable growth and delivering value to all.

Delivering sustainable value for over thirty-five years

Founded in 1990, we have evolved significantly over the years; from being a single product manufacturing company to one of the leading pharmaceutical companies in India, our transformation down the years has been commendable.

Throughout our journey, we have consistently focused on developing quality products that meet the evolving needs of our clientele. Equipped with state-of-the-art facilities, best-in-class process equipment and strong capabilities in Active Pharmaceutical Ingredients (APIs) manufacturing, we have ensured the efficacy and reliability of our pharmaceuticals. By consistently investing in R&D, we have developed key APIs across different therapeutic segments.

Message from the Chairman

During the past year, we have made several well-informed decisions that have improved our performance.

Dear Shareholders,

As I pen down my thoughts for the year gone by, my mind is drawn to the obstacles we faced in the initial quarters of FY23. However, owing to our strategic actions and agility, we navigated the challenges and emerged stronger.

Our journey has been nothing short of exciting. What started off as a single product manufacturing company in 1990 has now evolved to become a multi-location entity with a portfolio spanning diverse therapeutic segments.

Going forward, our focus on innovation and manufacturing excellence will enable us to capitalise on new opportunities and expand our market presence. Also, backed by a robust product portfolio, we remain confident about our long-term growth prospects.

Reflecting on our performance

At the beginning of the reporting year, the demand for our antiretroviral (ARV) products declined, impacting our performance in Q1 FY23. Our performance during the early quarters was also affected by other hurdles, such as our foray into a new product line, modifications to our existing product mix and industry-specific structural challenges, including rising raw material costs and market volatility.

However, we took these challenges in our stride and maintained top-line figures during the year under review. This accomplishment is especially noteworthy considering the shift in our revenue composition. The contribution of our ARV segment to total revenue has contracted drastically from 40% in FY22 to a modest 3% in FY23. While our anti-diabetic product segment has emerged as a crucial growth driver, contributing roughly 38% of our total revenue in FY23, compared to less than 3% in the preceding year. This surge in the anti-diabetic segment resulted from the expiration of numerous gliptin patents. In addition, our revenue from anti-inflammatory products doubled to 14% in FY23, up from 7% in FY22. Our core therapeutic categories, including antimigraine and anti-ulcer drugs, also performed well.

Building on our strengths

During the past year, we have made several well-informed decisions that have improved our performance. Simultaneously, our nimble transition towards more promising product segments has bolstered our growth potential. When faced with the challenge of declining demand for ARV products, we responded swiftly by shifting our focus to non-ARV offerings. This strategic move not only reduced our reliance on the ARV segment, but also unlocked new avenues for future expansion. The strong demand for our non-ARV products also enabled us to record a better performance in the latter half of FY23.

Throughout the year under review, we continued to witness traction for the Ibuprofen product launched last year. Notably, We secured USDMF and CEP approval for Ibuprofen during this period, which enabled us to market Ibuprofen in European markets.

Making responsible choices

At SMS Pharma, we strive hard to translate Environmental, Social and Governance (ESG) principles into tangible actions. To create a meaningful impact on both the environment and society, we adhere to global sustainability standards and implement targeted initiatives to reduce our carbon footprint, conserve resources and foster social inclusivity.

Over the years, we have continued to support the underprivileged section of society by offering quality education to them, especially children. We have provided special education and rehabilitation to children with disabilities. Moreover, our dedication to empowering local communities led us to contribute to the Construction of Class Room in M. P. U. P. School located at Ayyannapeta, Vizianagaram District, Andhra Pradesh. These endeavours demonstrate our commitment to making quality education accessible to all.

We offered financial assistance to Campus Challenge- an organisation that works with impoverished children in Andhra Pradesh's coastal and tribal districts to promote disability-friendly practises and empower people with disabilities. We also supported to poor people crippled with heart, lung and vascular diseases during the year.

Paving our way forward

As we step into the new fiscal year, we remain optimistic about our long-term prospects. An encouraging development in this regard is the resurgence of our ARV business, which has emerged stronger amid challenges and is poised to contribute substantially to our revenue, profitability and growth in FY24. With strong demand for ARV products projected for the next two to three quarters, we are looking forward to the upcoming year with renewed

vigour. Raw material prices, which had been a major concern for the majority of FY23, are also showing signs of stabilisation. This is an outcome of the reopening of the Chinese economy following the shutdown due to their zero-COVID policy.

Looking ahead, we will continue to prioritise improving profitability across each product category. To this end, we are scaling our R&D efforts, aiming for cost optimisation of our existing products. During the reporting period, we have made focused efforts to expand our product pipeline across more therapeutic areas. However, our strategic initiatives extend beyond portfolio diversification. We have expanded both in terms of capacity as well as across key markets. With the demand for Ibuprofen witnessing steady growth, we are forging strong relationships with new customers across diverse geographies.

Further, to increase our overall margins, we have decided to vertically integrate certain high-volume products.

We believe that our strengths and strategic acumen will sharpen our competitive edge, enabling us to capitalise on the opportunities that lie ahead. The outlook for our company remains optimistic and we are well on track to achieve our operational targets.

Gratitude

Our people drive our success by living our purpose and upholding the values we hold dear. I would like to take this opportunity to appreciate them for their commitment to our organisation. Also, I extend my gratitude to our shareholders and look forward to their cooperation as we continue to create enduring value for all.

Warm regards,

Core strengths that set us apart

At SMS Pharma, we have an edge over our peers owing to a strong market leadership, backward integration and R&D capabilities.

Leveraging our robust R&D capabilities, we have to expand our product pipeline across more therapeutic areas. Mentioned below are some of the pillars which have helped us mitigate economic shocks to a large extent and deliver a resilient performance.

Expansion

Our growth journey, fuelled by an investment of over INR 200 crores in brownfield capex, has yielded a capacity surge of 1300 KL. This is primarily dedicated towards ibuprofen and we expect that this will help us become one of the largest Ibuprofen manufacturers globally. We have not only expanded in terms of capacity but also across geographies. Our footprint extends to 75 countries across 5 continents.

Niche product portfolio

We have now achieved leadership in several API compounds. Also, we have commenced the development of new complex products. Across 10+ niche therapeutic segments, we are forging ahead with the development of high-value as well as high-volume products. Our presence spans non-commoditise therapeutic sectors, including ARV, anti-epileptic, anti-migraine and anti-angina.

Integrated business model

The in-house API business consumes more than 80% of intermediaries. Meanwhile our associate company, VKT Pharma's formulations and semi-finished formulations business offers us a competitive advantage through vertical integration. We remain one of the few players in the sector with a backward integrated model, which leads to significant economies of scale. Our focus on quality helps us achieve faster regulatory approvals and increased market share.

Leadership expertise

At SMS Pharma, our promoters and senior management have extensive business and domain expertise. They play a pivotal role in steering our organisation towards success and enables us to create long-term value for all stakeholders.

Financial robustness

Our manufacturing capacities, enduring relationships with suppliers and customers and a diverse product portfolio have helped us sustain our revenue and profitability with minimum debt liability.

Diversification

Diversification in terms of markets, goods, therapies and consumers assists us mitigating risks and explore new growth opportunities. We focus on developing new formulations, foraying into new therapeutic segments and expanding our presence in emerging markets. This diversification strategy has enabled us to reduce our dependence on a single product. We have also prudently invested in R&D to develop new products and improve existing ones, ensuring an innovative product line for our customers.

Making responsible choices every step of the way

As a responsible corporate citizen, we strive to translate ESG principles into tangible actions. We endeavour to align our business practices with global sustainability standards and create a positive impact on the planet and society while maintaining long-term value for our shareholders. We have been implementing several measures to reduce our carbon footprint, conserve resources and promote social inclusivity.

Putting our planet first

Safeguarding our ecosystem

We strive hard to reduce our carbon footprint and waste output by preserving natural resources and energy through initiatives including the installation of solar panels and energy-efficient equipment. We comply with environmental regulations and closely monitor emissions and our waste disposal practices. We collaborate with ESG-compliant suppliers and prioritise sustainable procurement practices. Along with efforts to optimise energy efficiency and minimise paper and plastic waste.

Water management

Recognising the necessity of water conservation, we have implemented various measures to minimise our water footprint. We also regularly track our water consumption and have undertaken initiatives to optimise it. Moreover, we are also in the process of installing Zero Liquid Discharge (ZLD) plants at all our facilities.

173 KL

Water recycled each day

Energy management

We have implemented energy-saving measures, including reducing energy consumption in production processes, using energy-efficient equipment, installing variable frequency drives (VFDs), replacing inefficient equipment, using agitators and moving detectors. We have also promoted the use of renewable energy sources like solar energy and have installed solar panels in our areas. Additionally, we regularly conduct energy audits to identify areas for improvement and implement measures accordingly.

Empowering our communities

Creating an equal world for all

We at SMS Pharma endeavour to provide access to education, healthcare and economic opportunities so that we can ensure that everyone has the tools they need to succeed. Additionally, promoting inclusivity and diversity within our communities is crucial to creating an equal world for all. This means embracing different perspectives, challenging biases and working towards eliminating systemic barriers that perpetuate inequality.

Fulfilling our social responsibilities

At SMS Pharma, we have prioritised investing in community development projects that address the needs of local communities. We support initiatives such as providing access to clean water, improving healthcare facilities and promoting education for the underprivileged children. Our CSR focus areas include primary education, health care support to poor and deprived people, support to physical disability and mental disability children, and rural development.

Promoting education

Education has an important and corrective function in balancing the country's socioeconomic fabric. We support the underprivileged section of society by offering quality education to them, especially children, who are shaping the nation's future. Special education and therapy were provided to children with special needs. To contribute to the betterment of our communities through education, we funded during the year for construction of Class Room in M. P. U. P. Caring for differently-abled children

Our objective is to help people with all types of disabilities reach their highest level of independence so they can participate equally and responsibly in society. To accomplish this, we have financially supported Campus Challenge throughout the year. Campus Challenge works with impoverished children in Andhra Pradesh's coastal and tribal districts to promote disability-friendly practises and facilitate the process of empowerment for individuals with disabilities.

Fostering diversity and inclusion

At SMS Pharma, we value diversity and inclusion for all. We believe that fostering diversity in our workforce not only enhances our company culture, but also drives innovation and creativity. By creating an inclusive environment, we ensure that each of our team members feels valued and respected, regardless of their background or identity.

Management Discussion and Analysis

Global economic overview

Geopolitical uncertainty pushed inflation to an unprecedented level at the beginning of the year. In the last few quarters, inflation has been perceived to be stabilising, indicating a positive outlook.

The global economy appears poised for a gradual recovery from the powerful blows of the pandemic and Russia-Ukraine war. The global economic output is expected to witness steady growth, driven by stabilising inflationary pressures, reviving consumer sentiment and investor confidence. The employment scenario in the US and other advanced economies has recovered from pandemic levels and rising disposable income is also likely to support growth in the coming years.

Emerging and developing countries are also witnessing growth across multiple sectors, powered by government focus on infrastructure and manufacturing sectors. China has also recovered from the COVID impact on its economy and industries and is on the mend.

Central banks' monetary policies are expected to bear fruit, leading to a decline in global inflation from 8.7% in CY22 to 6.8% in CY23 to 5.2% in CY24.¹ It is anticipated that the pent-up demand in numerous economies, along with a significant reduction in inflation, will contribute to accelerated economic growth in CY23.

Outlook

Despite inflationary pressures, the global economy is supported by a robust labour market, increased domestic spending, an influx of foreign capital and a prudent response to the energy crisis in Europe.

Many emerging markets and economies (EMDEs) have already recovered, which has bolstered real incomes. An optimistic global outlook would also be determined by the speed and effectiveness of fiscal and monetary policy actions implemented to boost economic expansion. The central banks have been tightening monetary policy, which is expected to curb sticky inflation and foster long-term growth.

A stronger boost from pent-up demand in numerous economies or a faster fall in inflation is likely in the course of 2023. The governments and central banks of the world are expected to play a major role in accelerating economic growth through targeted, need-based measures.

Faster economic growth in Asia this year will be driven by China's economic recovery and strong demand in India, according to the Asian Development Bank (ADB).²

Indian economic overview

The Indian government has managed to maintain a favorable domestic policy environment and prioritise structural reforms, allowing the country's economy to remain resilient amid global challenges. Projections indicate that India's economy will continue to progress and expand at a rate of 7.2% during the fiscal year 2022-23.³ Additionally, the country's stable inflation rates, higher disposable income and continued investment in infrastructure development are expected to contribute positively to economic growth in the future.

Various high-frequency indicators, such as GST collections, railway and air traffic, electronic toll collections and E- Way bill volume, suggest a robust economic recovery in India. This persistent growth momentum has positioned India as an attractive investment destination.

Moreover, India is expected to retain its status as the fastest-growing G-20 nation in the coming years. India's presidency of the G20 Summit in 2023 has also bolstered its international stature.

Despite the challenges, the Indian government's prudent initiatives, such as the PM Gati Shakti - National Master Plan, the National Monetisation Plan (NMP) and the Production-Linked Incentive (PLI), have been instrumental in fostering

economic growth. The Reserve Bank of India (RBI) has also taken prudent and proactive measures to ensure financial stability and address liquidity constraints. These factors have contributed to the Indian economy's resilience and stimulated substantial investments.

In response to monetary policy actions by the RBI, together with other supply side measures, headline CPI inflation has gradually declined from its peak of 7.8% in April 2022 to 5.7% in March 2023 and is projected to moderate further to 5.2% in Q4, 2023-24.

Outlook

Despite global challenges, India's economic activity has remained robust due to a favourable domestic policy environment and the Government's continued emphasis on structural reforms.

India is expected to be among the fastest growing major economies of the world in 2023- 24, accounting for 15% of global growth—the second largest contribution, and higher than that of the US and EU put together.

A combination of rising disposable income, easy access to credit and lowering interest rates in the wake of a stabilising inflation trajectory will bode well for economic growth of the country, going forward.⁴

Industry overview

Global Pharma Industry

Despite severe macroeconomic challenges and upheavals, the global pharmaceutical business remained robust and maintained consistent growth. At the same time, overall spending and demand for medications are expected to rise, resulting in a 3-6% annual growth rate over the next five years to around USD 1.9 trillion through 2027, in spite of fluctuating trends in the pharmaceutical business.

The usage of medications has increased by 36% over the last decade, with the biggest volume forecast in Latin America, Asia, and Africa, and a low growth in Northern America and Europe.⁵ In 2022, the healthcare system of the United States underwent significant expansion in both the utilisation of pharmaceuticals and the corresponding financial outlays. The pharmaceutical market within the U.S. observed a growth rate of 5%, resulting in a combined valuation of USD 429 billion. Substantial increases in expenses are expected in the domains

of oncology, obesity, and neuroscience over the ensuing five-year period.⁶

In Europe, an anticipated increase in spending amounting to \$59 billion is foreseen until 2027. This surge in expenditure will primarily concentrate on generics and biosimilars, while concurrently intensifying the scrutiny on the value and negotiated costs of innovative medications.

In China, the pace of spending growth is projected to decelerate. This trend is influenced positively by a higher acceptance and utilization of new original medicines, yet counterbalanced by the pressures exerted on pricing related to off-patent and generic products.

Developed economies continue to experience growth at relatively stable rates, characterised by the introduction of novel products to counteract patent expirations. In contrast, Latin America, Eastern Europe, and specific regions within Asia are poised for robust growth driven by increased consumption and adoption of innovative medications.⁷

Outlook

Following a substantial rebound in 2021 as global markets recovered from the effects of the pandemic, the utilisation of medications experienced a stabilisation in 2022. The overall usage volume is predicted to experience a growth of 1.6% in terms of days of therapy up until 2027. This growth is expected to be primarily driven by regions such as Asia-Pacific, India, Latin America, Africa/Middle East, and China, all of which are expected to surpass the global volume growth rate. Conversely, higher-income countries in Western Europe, North America, Japan, and Eastern Europe are projected to exhibit slower growth rates, ranging from 0.1% to 0.4% through 2027. This is partially attributed to their already elevated per capita medication usage.⁸

API market analysis

The global API manufacturing market is estimated to increase at a CAGR of 9.1% to \$195.29 billion by 2022. Although geopolitical issues and economic sanctions on many countries have distorted the supply chain and led to an increase in commodity prices, the API manufacturing market is expected to reach \$250.66 billion in 2026 at a CAGR of 6.4%, up from 6.08% previously.⁹

Global Pharmaceutical API Manufacturing Market

(Source- Research and Markets)

The ageing population accelerates the expansion of the API production market. As the population ages the demand for pharmaceutical treatments increases. API serves as a specialist drug in the production of medicines to treat such old age ailments.

Indian pharmaceuticals industry

The Indian pharmaceutical sector is critical to the Indian economy and also plays a significant part in the global medicines industry. In terms of the Indian economy, the Indian pharmaceutical market is predicted to increase to US\$ 65 billion by 2024 and to US\$ 130 billion by 2030.

India ranks third in terms of output volume and fifteenth in terms of output value. India's pharmaceutical exports increased by 103% in 2013-14, from INR 90,415 crores in 2013-14 to INR 1,83,422 crores in 2021-22. India is the world's pharmacy since it accounts for 20% of all generic pharmaceutical exports worldwide.¹⁰

Under the automatic route for greenfield pharmaceuticals, 100% Foreign Direct Investment (FDI) is permitted in the pharmaceutical industry.¹¹

In terms of Active Pharmaceutical Ingredients (APIs), 500 domestic API firms account for around 8% of the global API market and 57% of the APIs on the WHO's prequalified list.

The Indian API market is anticipated to grow at a CAGR of 13.7% in the first four years, which is roughly 8% faster than the generic API industry. India's enormous domestic market, complicated chemical industry, experienced labour force, stringent quality and production requirements, and low cost of starting up and operating a new facility (about 40% less than in the West) give it a competitive edge.

India is the primary source of generic drugs. It generates over 60,000 distinct generic brands across 60 therapeutic categories, or about 20% of the world's supply of generics.

Exports

The pharmaceutical business has experienced remarkable expansion in recent decades, opening the door to export opportunities. India, being one of the largest providers of low-cost vaccinations, accounts for 60% of worldwide vaccine production, meeting WHO's need of 40-70% for Diphtheria, Tetanus, and Bacillus Calmette-Guerin vaccines and 90% for Bacillus Calmette-Guerin vaccines.

India accounts about 20% of world supply by volume. According to government data, India has approximately 3,000 pharmaceutical enterprises with a robust network of 10,500 well-equipped production facilities.¹³

Continuing the development trajectory of the Indian pharmaceutical business, exports in the pharmaceutical sector have been relatively robust, generating consistent growth despite trade disruptions. Drug and pharmaceutical exports have increased by more than 22% over the previous year. The growth of the local pharmaceutical industry, as well as the growing demand for medications, has drawn global investment to India.

The cumulative FDI have crossed US \$ 20 billion mark in September, 2022 and the FDI inflows has increased four times over five years aided by policies that attract investment and also aid the growth momentum of the industry.

Small molecule API market

The global market for small molecule active pharmaceutical ingredients (APIs) attained a valuation of USD 146.14 billion in 2022 and is anticipated to attain USD 246.22 billion by 2030, reflecting a Compound Annual Growth Rate (CAGR) of 6.8%.¹⁶ Small molecule APIs have conventionally served as a pivotal foundation within the pharmaceutical sector.

These products offer distinct therapeutic advantages, given their oral administration capability and the ability to permeate cellular membranes, thereby accessing intracellular targets. Approximately 58% of drugs in developmental stages are categorised as small molecules. This scenario is influenced by the escalating prevalence of chronic ailments on a global scale, prompting pharmaceutical manufacturers to focus on expanding therapeutic drug portfolios. Consequently, the demand for such products has observed a notable upsurge.

Moreover, manufacturers specialising in contract production have directed their efforts towards augmenting their production capacities for small molecules, which has resulted in substantial growth for this segment.

Emerging trends

The drug development portfolios of prominent pharmaceutical firms prominently feature Highly Potent Active Pharmaceutical Ingredients (HPAPIs). These molecules are notably associated with pioneering cancer treatments and demonstrate

effectiveness in addressing autoimmune disorders, diabetes, and various other medical conditions. At present, HPAPI molecules constitute more than 30% of the drug development pipeline. These HPAPI molecules introduce a novel approach to leveraging small molecules for advanced patient therapies, incorporating refined delivery mechanisms. The gradual transition towards embracing HPAPI has resulted in the emergence of a more efficient pipeline for impactful medications, characterised by reduced dosage requirements and mitigated side effects. This trend is stimulating the adoption of such products across diverse therapeutic applications.

The impetus behind the development of HPAPIs predominantly stems from the pursuit of targeted therapies for cancer treatment. This motivation is spurred by the escalating incidence of cancer, which has amplified the global demand for oncology medications. Consequently, the concerted endeavours of pharmaceutical enterprises to address this mounting requirement have significantly escalated the proliferation of HPAPI development, thereby propelling the market growth.

Government initiatives

The Indian Pharmaceutical Industry is expected to be worth \$130 billion by the end of 2030, based on an agreement to provide new and innovative medications to patients at a CAGR of 12.3% from 2020 to 2030.¹⁷

With a view towards strengthening the Pharmaceutical Industry, the Department of Pharmaceuticals and Ministry of Chemicals and Fertilizers have implemented a scheme of Strengthening of Pharmaceutical Industry (SPI) with a financial outlay of INR 500 crores in the tenure between FY 2021-22 and FY 2025-26. The scheme has three sub-schemes – Assistance to Pharmaceutical Industry for Common Facilities (APICF), Promotion of Technology Upgradation Assistance Scheme (PTUAS) and Pharmaceutical and Medical Device Promotion and Development Scheme (PMPDS).¹⁸

The Department of Pharmaceuticals also have implemented two PLI schemes namely PLI for bulk drugs and PLI for medical devices. The PLI for bulk drugs has a financial outlay of INR 6,940 crore which has the objective to boost domestic production of 41 selected bulk drugs in the country. Out of these 41 selected bulk drugs, 22 projects have been commissioned on

fermentation-based APIs. India has already started generating 35 active pharmaceutical ingredients (APIs) under the PLI scheme, or around 67% of the APIs for which it is 90% dependent on imports.¹⁹

Growth drivers of the pharma industry

- Government's efforts to boost domestic production of Critical APIs in the first year of production of PLI schemes where the financial outlay under this PLI scheme is Rs.15,000 crores allotted over a period of six years.²⁰
- Low- cost drug manufacturing with strong generic patented drugs is also one of the reasons for the growth of the pharmaceutical industry.
- Implementation of largest National Health Protection scheme also becomes a driving force for a strong domestic demand.
- Investment-friendly schemes of the Government and continuous innovation and development in the Indian pharmaceutical industry helps to attract foreign direct investments to India.

Growth drivers of API market

The rising prevalence of cardiovascular disorders and cancer has resulted in an increase in the manufacturing of Active Pharmaceutical Ingredients (API) in India. The increasing prevalence and increased awareness of these chronic illnesses will boost consumer interest in APIs for cardiology medications during the predicted period.

This sector is expanding due to supportive government policies that support API manufacturing. An increase in demand is projected for personalised pharmaceuticals and suggested treatments, which are employed by highly potent API chemicals such as HPAPI, which have unique handling issues.

Government incentives include a reimbursement of INR 21,940 for PLI versions 1.0 and 2.0. India's drug security should be ensured by three bulk drug parks in Gujarat, Himachal Pradesh, and Andhra Pradesh, which also provide a consistent supply of bulk drug active components.

Company overview

Domestic API business

Established in 1987, SMS Pharmaceuticals, headquartered in Hyderabad is one of India's top API manufacturing companies, with superior world-class facilities geared for manufacturing specialty large-volume compounds and a wide range of equipment that complies with cGMP and WHO requirements.

The Company maintains robust research and production divisions that facilitate the development and commercial manufacturing of market relevant active pharmaceutical ingredients (API). The Company holds a prominent position as a prime exporter of full range of anti-migraine product triptans. Possessing essential capabilities and infrastructure, the Company ensures the seamless functioning of quality assurance processes, encompassing raw material scrutiny, production procedures, and final product analysis for quality assurance and regulatory compliance.

The Company has two facilities which are multiple times approved by international health authorities like USFDA and has been a major supplier into regulated markets. Based on customer requests looking at our experience of handling volume products and regulatory strength demonstrated through our niche molecules supply into regulatory markets, company has established one of Asia's biggest production blocks dedicated for manufacturing of Ibuprofen in 3 times USFDA approved facility at Vizianagaram. The production block has a manufacturing capacity of 1000 MT per month and a direct API batch size of 10 MT which is quite rate in API industry giving huge advantage of providing uniform material to customer and cutting down on analysis costs for the volume product.

In recognition of its commitment to sustainability, the Company has been awarded the EDQM sustainability certificate. The domestic market for Ibuprofen is substantial, with a majority of companies oriented towards formulation exports into regulated markets and ROW markets like Africa.

Regarding the domestic Ibuprofen market share, there is an anticipation of growth from 18% to a range of 25-30%, contingent upon the geographical area. The initial phase of ibuprofen production boasts a monthly capacity between 300 and 400 tonnes. The Company stands out with the industry's largest batch size for this product. With a relatively modest investment, the production capacity could be further increased to 700 tonnes per month. SMS Pharmaceuticals benefits from a strong cost position for this product, driven by a batch size of approximately 10,000 kg.

Significantly, Ibuprofen is poised to contribute significantly to the Company's endeavours. SMS Pharmaceuticals aims to secure a competitive stance in a dynamic market where the anticipated pricing split between domestic and export markets stands at around 30% domestic and approximately 70% for exports.

International business

SMS Pharmaceuticals specialises in manufacturing Niche molecules with excellent quality and robust regulatory compliance system and now a large volume commodity product

like Ibuprofen which is already approved for two customers by USFDA and many other customers focussed on USA market have initiated applications for adding SMS Pharmaceuticals as a supplier of the product. CEP is also approved and many European customers are initiating qualification process to enrol SMS Pharmaceuticals as their supplier. Many molecules which were developed as part of JV with a European partner have gone off patent now and are getting commercialised. This strategic approach has enabled the Company to foster strong global market relationships and obtain GMP certificates affirming authenticity.

The Company engages in sales to other enterprises operating in regions with a substantial number of manufacturers producing similar items. Notably, the Company has achieved moderate sales in Bangladesh, Indonesia, Brazil, and the MENA region. Particularly significant sales are concentrated in the US market, with the Company predominantly operating from US FDA-approved facilities.

The Company's comprehensive production processes are sufficiently robust to withstand regulatory inspections, bolstered by a highly experienced and skilled team with three decades of proficiency in GMP facilities, alongside well-established internal procedures. The Company has a portfolio of over 80 plus authorised drug master files, accredited by regulatory bodies such as the USFDA, PMDA, EU, and KFDA. Furthermore, the recent CEP certification for Ibuprofen has opened doors to new opportunities within the contemporary and well-regulated European market.

Strategy

The Company has strategically established a robust foothold within intricate and specialised API therapies, having global leadership in a variety of products. During FY21, the Company allocated a significant brownfield capital expenditure of ₹ 200 crores, aimed at enhancing the forthcoming phase of growth. The Company's strategic approach encompasses a global presence, substantial domain expertise, cost-effective practices, and longstanding partnerships, which, combined with economies of scale, contribute to its success.

Through strategic initiatives of backward and vertical integration, SMS Pharmaceuticals leverages synergies in costs and unlocks avenues for growth. It's focused approach on backward integration and intermediates has notably mitigated supply chain and forex risks, significantly reducing their dependence on imports from China (approximately 10%-15% reduction). This multi-faceted strategy underscores the Company's commitment to sustainable expansion and risk management, positioning it as a formidable player within the pharmaceutical sector.

Research and development

The R&D division stands as the cornerstone of SMS Pharmaceuticals' API operations, serving as a driving force behind its advancements. With an impressive track record, the Company has successfully integrated 20 new products into its product portfolio in recent years, reinforcing its commitment to innovation. Particularly noteworthy is the strategic optimisation of numerous Anti-Migraine APIs, positioning SMS Pharmaceuticals as a prominent leader within this therapeutic domain.

Equipped with cutting-edge technology and sophisticated equipment, the R&D division demonstrates its capacity to support the entire lifecycle of research and development. The Company's extensive accomplishments are evident through the filing of over 80 plus DMFs and more than 30 process patents. A pivotal aspect of this progress is the product scale-up infrastructure, which encompasses a kilo lab and a pilot plant. The latter, in particular, encompasses the ability for DMF filing and possesses a substantial scale-up capacity of 4,500 litres.

In a remarkable display of environmental responsibility and innovation, the Company devised an inventive approach to recycle methyl mercaptan gas into a valuable solvent, DMSO,

within ranitidine production. This accomplishment, driven by a commitment to environmental preservation, earned the Company the prestigious Indo-US Green Chemistry Network (GCNC) award.

Outlook

The brownfield capital expenditure (capex) strategy pursued by the Company is focused on augmenting the capacities of multiple products and therapies. Notably, this capex endeavour is expected to add an incremental capacity of 1,300 KL, primarily aimed at expanding the Ibuprofen production capabilities. With this strategic move, the Company is poised to emerge as one of the largest global manufacturers of Ibuprofen.

Leveraging its established relationships, domain expertise, and robust R&D knowledge, the Company is also embarking on ventures into new therapies, products, and geographic markets. The majority of the capex is funded through internal accruals, supplemented by minimal debt, thus bolstering the Company's strong Balance Sheet position.

The implementation of this capex strategy is anticipated to yield higher margins and improved profitability ratios, driven by enhanced operating leverage and incremental revenue streams. This strategic direction underscores the Company's proactive stance in maximising growth opportunities, solidifying its position as a innovative player in the pharmaceutical industry.

PRINCIPLE 6

Businesses should respect and make efforts to protect and restore the environment

Essential Indicators

1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:

Parameter	FY 2022-23	FY 2021-22
Total electricity consumption (A)	107058	118137
Total fuel consumption (B)	340390.50	267697.10
Energy consumption through other sources (C)	0.00	0.00
Total energy consumption (A+B+C)	447448.46	385834.08
Energy intensity per rupee of turnover (Total energy consumption/ turnover in rupees)	0.000069775	0.000073482
Energy intensity (optional) – the relevant metric may be selected by the entity		

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

No, the Company does not have any sites/facilities identified as designated consumer under the Performance Achieve and Trade (PAT) Scheme of the Government of India.

3. Provide details of the following disclosures related to water, in the following format:

Parameter	FY 2022-23	FY 2021-22
Water withdrawal by source (in kiloliters)		
(i) Surface water	Nil	Nil
(ii) Groundwater	40503	43177
(iii) Third party water	3145	3148
(iv) Seawater / desalinated water	Nil	Nil
(v) Others	13423.65	13448.60
Total volume of water withdrawal (in kiloliters) (i + ii + iii + iv + v)	57071.65	59773.60
Total volume of water consumption (in kiloliters)	57071.65	59773.6
Water intensity per rupee of turnover (Water consumed / turnover)	0.000010705	0.000011162

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. – NO

4. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Multiple Effect Evaporator (MEE): to separate the solids from the liquid effluents by which the company become a Zero Liquid Discharge Unit (ZLD) and established reverse osmosis system and followed by biological treatment, after treatment, we are reusing the evolved water from MEE after condensation.

5. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	unit	FY 2022-23	FY 2021-22
NOx	Tons	42.62	30.99
SOx	Tons	60.47	41.19
Particulate matter (PM)	Tons	82.36	52.92
Persistent organic pollutants (POP)	Tons	NA	NA
Volatile organic compounds (VOC)	PPM	20.95	9.81
Hazardous air pollutants (HAP)	Tons	NA	NA
Others- please specify	Tons	NA	NA

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

YES, it was carried out SV ENVIRO LABS & CONSULTANTS, Environmental Engineers & Consultants in Pollution Control

6. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	specify unit	FY 2022-23	FY 2021-22
Total Scope 1 emissions (Break-up of the GHG into CO2, CH4, N2O, HFCs, PFCs, SF6, NF3, if available)	Metric tonnes of CO2 equivalent	32757.70	25759.67
Total Scope 2 emissions (Break-up of the GHG into CO2, CH4, N2O, HFCs, PFCs, SF6, NF3, if available)	Metric tonnes of CO2 equivalent	28551.17	31505.80
Total Scope 1 and Scope 2 emissions per rupee of turnover	Metric tonnes of CO2 equivalent	0.00000994235	0.00000918524
Total Scope 1 and Scope 2 emission intensity (optional)- the relevant metric may be selected by the entity			

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency-**NO**

7. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

NO

8. Provide details related to waste management by the entity, in the following format:

Parameter	FY 2022-23	FY 2021-22
Total Waste generated (in metric tonnes)		
Plastic waste (A)	9.66	10.06
E-waste (B)	0.02	0.01
Bio-medical waste (C)	0.46	0.45
Construction and demolition waste (D)	0.13	0.21
Battery waste (E)	3.73	0.45
Radioactive waste (F)	0.00	0.00
Other Hazardous waste. Please specify, if any. (G)	301.47	412.85

Parameter	FY 2022-23	FY 2021-22
Other Non-hazardous waste generated (H). Please specify, if any. (Break-up by composition i.e., by materials relevant to the sector)	24.48	36.30
Total (A+B + C + D + E + F + G+ H)	339.98	460.35
For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tonnes)		
Category of waste		
(i) Recycled	13423.65	13448.60
(ii) Re-used	31.18	24.14
(iii) Other recovery operations	0.00	0.00
Total	13454.83	13472.74
For each category of waste generated, total waste disposed by nature of disposal method (in metric tonnes)		
Category of waste		
(i) Incineration	83.22	137.58
(ii) Landfilling	227.68	239.90
(iii) Other disposal operations	0.00	0.00
Total	310.90	377.48

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency

NO

9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The potential for environmental pollution prevention is one of the guiding factors in developing the route of synthesis and converting by products to useful raw materials for the process. SMS has developed a commercial process to get Neopentyl glycol (from waste generated in the process as residue), which is one of the key raw materials in Ibuprofen process. By developing the Neopentyl glycol synthesis from waste stream, not only commercial benefit but also environmental protection is also addressed.

- 10 If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

S. No.	Location of operations /offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
	Kandivalasa Village, Vizianagaram (D), Andhra Pradesh	Bulk Drug Manufacturing (API)	Yes

- 11 Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

No environmental impact assessments were undertaken in FY 2022-23

- 12 Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

All the manufacturing operations and R&D centers under the entity are in compliance with the applicable environmental laws/ regulations and guidelines as per the national and state level mandates

Leadership Indicators

1. Provide break-up of the total energy consumed (in Joules or multiples) from renewable and non-renewable sources, in the following format:

Parameter	FY 2022-23	FY 2021-22
From renewable sources		
Total electricity consumption (A)	-	-
Total fuel consumption (B)	-	-
Energy consumption through other sources (C)	-	-
Total energy consumed from renewable sources (A+B+C)	-	-
From non-renewable sources: nil		
total electricity consumption (D)	107058	1118137
Total fuel consumption (E)	5293.46	4268.88
Energy consumption through other sources (F)	-	-
Total energy consumed from non-renewable sources (D+E+F)	112351.55	122405.90

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. NO

2. Provide the following details related to water discharged:

Parameter	FY 2022-23	FY 2021-22
Water discharge by destination and level of treatment (in kilolitres)		
(i) To Surface water		
- No treatment	Nil	Nil
- With treatment – please specify level of treatment	Nil	Nil
(ii) To Ground water	-	-
- No treatment	Nil	Nil
- With treatment – please specify level of treatment	Nil	Nil
(iii) To Seawater	-	-
- No treatment	Nil	Nil
- With treatment – please specify level of treatment	3584.98 KL	3066.39 KL
(iv) Sent to third-parties	-	-
- No treatment	Nil	Nil
- With treatment – please specify level of treatment	Nil	Nil
(v) Others	-	-
- No treatment	Nil	Nil
- With treatment – please specify level of treatment	Nil	Nil
Total water discharged (in kilolitres)	3584.98 KL	3066.39 KL

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency - NO

3. Water withdrawal, consumption, and discharge in areas of water stress (in kiloliters):

Not Applicable. Our facilities are not located in areas of water stress.

4. Please provide details of total Scope 3 emissions & its intensity, in the following format.

Parameter	Unit	FY 2022-23	FY 2021-22
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	31.87	32.5
Total Scope 3 emissions per rupee of turnover		0.00000006105	0.00000006190
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity			

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. NO

5 With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

- a) **Solvent Distillation System (SDS):** The company has adopted and implemented the SDS to recover the solvents from mother liquor and SDS well connected to scrubbers to arrest any evolved gases arise during distillation by doing so to protect environment
- b) **Multiple Effect Evaporator (MEE):** to separate the solids from the liquid effluents by which the company become a Zero Liquid Discharge Unit (ZLD) and established reverse osmosis system and followed by biological treatment, after treatment, we are reusing the evolved water from MEE after condensation.
- c) **Material Handling:** The Company has implemented various material handlings systems to protect the environment through automation of process and auto transfer of input materials.

6 If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	<p>Water Conservation Measures taken: At SMS Pharma, we view water through the interconnected lenses of effective usage and conservation. We have endeavored to improve water conservation by recycling / condensate water and streamlining processes. Installed 200 KLD RO Plant for waste water treatment. Currently we are getting 138KLD of water after treatment. Further SMS has been planned to recover the water as condensate from atmosphere through while using Air handling Units.</p>		<ul style="list-style-type: none"> 1. Enabled to conserve our water consumption from 300KLD to 162 KLD. Total Saving Ground Water 138KL/Day 2. Expected water condensate per day will be 15KL per day.
2	<p>Enhanced the condensate recovery through controls in the steam condensate System and increased the condensate collection from 45 % to 65%, By improving the steam condensate recovery, not only reducing water consumption also benefited with coal savings by 35 Tonnes/Year. Apart from water conservation through utilities we are reusing 16000 Lts of water in stage -2 of Ibuprofen process which is being used in Ibuprofen Stage-5 for every batch of of Ibuprofen .The total quantity of water reused by this recycling process tuned to 535KL per month</p>		<p>Resulted in savings of makeup water by 20 KL/ day, contributes 20% with respect to total feed water consumption/day.</p>

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
	<p>Energy Conservation Measures taken:</p> <p>Energy Conservation continues to receive priority within the Company. The continuous monitoring of the energy Consumptions across the Company's locations, has resulted in improvement in maintenance systems and reduction in Distribution losses.</p> <p>Steps taken by the Company for utilizing the alternate sources of energy:</p> <p>a. Facility created to purchase power through open access during the power holiday time to avoid the running of diesel generator sets and saving of HSD. Participating in the Open access bidding to get the power in the cheaper price as compared to the discom prices as per available slots</p> <p>Energy Conservation Measures taken:</p> <p>01. Installed LED Lights instead of CFL lights in both areas like intermediate and pharm in all blocks and QC.</p> <p>02. Implemented numerous energy conservation activities in utilities and block equipment through performance assessments, automation of equipment, standard procurement of energy efficient equipment ie, installation of energy efficient motors & Pump sets.</p> <p>03. VFDs are provided for Screw Chillers D61</p>		<p>a. reduced the power cost. / Year: 35Lakhs/Year.</p> <p>01. power saving 1656 Units/ Month.</p> <p>03. Resulting in a daily energy savings of 200 units per day @ Each Chiller</p>
	<p>04. Replacement of existing +5degC water-cooled reciprocating type chillers with new energy efficient water-cooled screw type refrigeration systems installed.</p> <p>05. Replaced manually operated valves of utilities with automated control valves to reduce the utility Consumption at the Production Blocks.</p> <p>06. Installed online tube cleaning systems (ECO MAX) for Chilling plants condensers tube cleaning purpose and improve the Condenser Heat Transfer Area and Reduce the discharge pressures and Maintain the Standard of KW/TR :0.75</p> <p>07. Installed Common header for compressed air circuit for optimum utilization of air compressor</p> <p>08. Installed Steam Condensate Recovery System so as to achieve increased efficiency of the boilers & reduce the fuel consumption</p> <p>09. Installed Steam Condensate Recovery Pumps (Pressure Powered Pump) Steam Condensate Water pumping purpose so there are centrifugal pumps are replaced with Pressure Powered Pump ,</p> <p>10. Installed Steam Operated Pumping traps used for Solvent Recovery Systems so there are reduce in the process cycle time and steam & power consumption</p>		<p>4. saving of 60,000Units Year</p> <p>7. Saving in Power Units/Day :30Units/Day</p> <p>9. power Saving in Units/ day: 100 Units/day</p>

7 Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Yes, the company has BCP and Disaster Management Plan in place. The Business Continuity Team comprises a group of managers or their delegates that can assess the impact of the failure on the business and implement contingency measures appropriate to the local situation with focus on the Critical Business Processes. Members of Plant Management would be normally the members of BCP team also.

SMS Pharmaceuticals Limited believes that it is very much necessary to be aware of the potential hazards involved in the production process before implementation and understand the safety system and emergency procedures to combat any untoward incident.

8 Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

Not applicable

9 Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

In the reporting period, the Company did not evaluate any of its value chain partners on the basis of environmental impact

PRINCIPLE 7

Businesses when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

1. a. Number of affiliations with trade and industry chambers/ associations.

4

b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.

S. No.	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/National)
1	Confederation of Indian Industry	National
2	Bulk Drug Manufacturers Association	State
3	Federation of Telangana Chambers of Commerce and Industry	State
4	Pharmaceuticals Export Promotion Council of India	National

2. Provide details of corrective action taken or underway on any issues related to anti- competitive conduct by the entity, based on adverse orders from regulatory authorities.

For the reporting year, there were no cases issued against the Company for issues pertaining to anticompetitive conduct

Leadership Indicators

1. Details of public policy positions advocated by the entity:

SMS maintains regular engagement with the Government agencies and regulators and stands committed to providing timely and accurate information, suggestions and recommendations, feedback on draft policies, etc., as and when required.

PRINCIPLE 8

Businesses should promote inclusive growth and equitable development

Essential Indicators

1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

In the reporting year, the Company did not undertake any Social Impact Assessment

2. Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

In the reporting year, the Company did not undertake any ongoing Rehabilitation and Resettlement (R&R) project.

3. Describe the mechanisms to receive and redress grievances of the community.

The communities can raise their grievances as per the mechanism provided in our Code of Conduct available on our website of the Company

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

	FY 2022-23	FY 2021-22
Directly sourced from MSMEs/ small producers	5	5
Sourced directly from within the district and neighboring districts	20	16

Leadership Indicators

1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

In FY2022-23, there were no Social Impact Assessments conducted

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

S. No.	State	Aspirational District	Amount spent Lakhs (In INR)
1	Andhra Pradesh, Vizianagaram	1. Continuous support to Campus Challenge, Konada Junction (On NH- 16), Kotha Kopperla (PO), Singavaram (SO), Vizianagaram Dist-5352 13. Campus Challenge is works for deprived children in Coastal and Tribal Andhra Pradesh. Their main goal is to create ability and facilitate the process of empowerment for the persons with disabilities.	5.40
2	Telangana, Hyderabad	Continuing Support to poor people crippled with heart, lung and vascular diseases, through Dr. Alla Gopala Krishna Gokhale, Sahrudaya Health, Medical and Educational Trust	10.00
3	Andhra Pradesh, Vizianagaram	Construction of class room at M. P. U. P. School located at Ayyannapeta, Vizianagaram, Andhra Pradesh 535003. The existing school building was demolished due to old age as well as poor condition.	5.00
4	Andhra Pradesh, Vizianagaram	Construction of Community Hall in Kumili Village, Pusapatirega Mandal Vizianagaram District Andhra Pradesh for the usage of village people and nearby villages people for agricultural reforms, social and cultural gatherings. This village is located surrounding area of Company's Unit VII facility.- Ongoing Project	99.00

3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/ No)

Small scale industries form a crucial part of Company's business partner base. We always encourage as to procure required raw materials from local and small-scale units, because it approachable easily and frequent monitoring can be done in respect of quality and supplies. Majority of daily services are executed through engaging neighborhood communities. We continuously strive to build local alternate vendors for other materials

(b) From which marginalized /vulnerable groups do you procure?

NA

(c) What percentage of total procurement (by value) does it constitute?

NA

4. Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:

The Company does not derive any benefits from intellectual properties owned or acquired based on traditional knowledge

5. Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved.

Not applicable.

6. Details of beneficiaries of CSR Projects:

S. No.	CSR Project	No. of persons benefitted from CSR Projects	% of beneficiaries from vulnerable and marginalized groups
1	Continuous support to Campus Challenge, Konada Junction (On NH- 16), Kotha Kopperla (PO), Singavaram (SO), Vizianagaram Dist-5352 13. 3	Construction of class room at M. P. U. P. School located at Ayyannapeta, Vizianagaram, Andhra Pradesh 535003. The existing school building was demolished due to old age as well as poor condition.	35	80
4	Construction of Community hall in Kumili Village, Pusapatirega Mandal Vizianagaram Distirict Andhra Pradesh for the usage of village people and nearby villages people for agricultural reforms, social and cultural gatherings. This village is located surrounding area of Company's Unit VII facility.- Ongoing Project	500	70

PRINCIPLE 9

Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators**1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.**

Communication received through Mail and same escalated concern team to solve the issue and proper CAPA

2. Turnover of products and/ services as a percentage of turnover from all products /service that carry information about:

S. No.	Name of the trade and industry chambers/ associations	As a percentage to total turnover
1	Environmental and social parameters relevant to the product	-
3	Safe and responsible usage	12.5
4	Recycling and/or safe disposal	7.5

3. Number of consumer complaints in respect of the following:

Benefits	FY 2022-23			FY 2021-22		
	Received during the year	Pending resolution at end of year	Remarks	Received during the year	Pending resolution at end of year	Remarks

Report on the Audit of the Ind AS Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of SMS Pharmaceuticals Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA"s) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in

India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.

- e) On the basis of the written representations received from the directors as on March 31, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements - Refer Note 49 on contingent liabilities to the Ind AS financial statements.
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

- iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The dividend declared or paid during the year by the Company is in compliance with Section 123 of the Act.

Annexure 'A' to the Independent Auditor's Report

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of SMS Pharmaceuticals Limited of even date)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

- i. In respect of the Company's Property, Plant and Equipment and Intangible Assets:
 - (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
 - (B) The Company has maintained proper records showing full particulars of intangible assets.
 - (b) The Company has a program of physical verification of Property, Plant and Equipment and right-of-use assets so to cover all the assets once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - (c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favor of the lessee) disclosed in the financial statements are held in the name of the Company.
 - (d) The Company has not revalued any of its Property, Plant and Equipment and intangible assets during the year.
 - (e) According to information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- ii. (a) The physical verification of inventory has been conducted at reasonable intervals by the Management during the year and no discrepancies of 10% or more in aggregate for each class of inventory were noticed on such physical verification.

In our opinion and based on the information and explanation given to us, the coverage and procedure of such verification by the management is appropriate having regard to the size of the Company and the nature of its operations.

 - (b) According to the information and explanation given to us and on the basis of examination of the records of the Company, the Company has been sanctioned working capital limits in excess of ₹ 5 crore, in aggregate during the year, from banks or financial institutions on the basis of security of current assets. The returns or statements filed by the Company with such banks or financial institutions are in agreement with the unaudited/audited books of account of the Company of the respective quarters and no material discrepancies have been observed.
- iii. During the year, company has made an investment of ₹ 9.80 lakhs in Provenio Astral International LLP towards 4.90% of the total capital contribution of the LLP. In our opinion, the investment made in the LLP is not prima facie prejudicial to the interest of the Company.

During the year Company has not provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties. Hence, other sub clauses under this clause are not applicable.
- iv. According to the information and explanations given to us and on the basis of our examination of records of the Company, during the year, the Company has neither made any investments nor has it given loans or provided guarantee or security and therefore the relevant provisions of Sections 185 and 186 of the Act ("the Act") are not applicable to the Company. Accordingly, clause 3(iv) of the Order is not applicable.
- v. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable.
- vi. We have broadly reviewed the cost records maintained by the Company pursuant to the rules prescribed by the Central Government of India under section 148(1) of the Companies Act, 2013 and are of the opinion that prima facie the prescribed cost records have been made

and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

vii. In respect of statutory dues:

- (a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, duty of Custom, Duty of Excise, Cess and other material statutory dues applicable to it with the appropriate authorities. There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, duty of Custom, Duty of Excise, Cess and other material statutory dues in arrears as at March 31, 2023 for a period of more than six months from the date they became payable.
- (b) There were no statutory dues which have not been deposited as on March 31, 2023 on account of disputes.

viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

- ix. (a) In our opinion, the Company has not defaulted in repayment of any loans or other borrowings or in the payment of interest thereon to any lender.
- (b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
- (c) In our opinion and according to the information and explanation given to us by the management term loans were applied for the same purpose for which the loans were obtained.
- (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- (e) According to the information and explanation given to us by the management and examination of the records of the Company, the Company is having investment in associate company. However, the Company has not raised any funds from any entity or person or to meet the obligations of its associate. Accordingly, provisions of the clause 3(ix)(e) of the Order is not applicable to the Company.

(f) According to the information and explanation given to us by the management and examination of the records of the Company, the Company is having investment in associate company. However, the Company has not raised any loan on pledge of securities held in associate Company. Accordingly, provisions of the clause 3(ix)(f) of the Order is not applicable to the Company.

- x. (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.
- xi. (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- (c) During the year the company has not received any whistle blower complaints (and up to the date of this report), while determining the nature, timing and extent of our audit procedures.
- xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- xiii. In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- xiv. (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv. In our opinion during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors, and hence

provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

- xvi. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi) (a), (b) and (c) of the Order is not applicable.
- (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors of the Company during the year.
- xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the

financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

- xx. In our opinion and according to the information and explanations given to us, there is no unspent amount under sub-section (5) of Section 135 of the Companies Act, 2013 pursuant to any project. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

Annexure “B” to the Independent Auditor’s Report

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of SMS Pharmaceuticals Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the “Act”)

We have audited the internal financial controls over financial reporting of SMS Pharmaceuticals Limited (the “Company”) as of March 31, 2023 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Management of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

2. Basis of preparation of Standalone Financial Statements

2.1 Statement of Compliance

The standalone financial statements of the Company have been prepared in accordance with the Indian Accounting Standards as notified under section 133 of the Companies Act 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules 2015 issued by Ministry of Corporate Affairs ('MCA'). The Company has uniformly applied the accounting policies during the years presented.

These standalone financial statements have been prepared by the Company as a going concern on the basis of relevant Ind AS that are effective at the Company's annual reporting date, March 31, 2023. These Standalone Financial Statements for the year ended t March 31, 2023 were authorized and approved for issue by the Board of Directors on May 24, 2023.

3. Summary of Significant Accounting Policies:

The standalone financial statements have been prepared using the accounting policies and measurement basis summarized below:

3.1 Basis of Measurement

The standalone financial statements have been prepared on a historical cost and on accrual basis, except for the following items in the balance sheet:

- Certain financial assets are measured either at fair value or at amortised cost depending on the classification.
- Employee defined benefit assets/ (liability) are recognized as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligation.
- Right-of use the assets are recognized at the present value of lease payments that are not paid at that date.
- Assets held for sale are measured at fair value less cost to sell.

3.2 Current and Non- Current Classification:

The Company presents assets and liabilities in the balance sheet based on current and non-current classification.

- (a) An asset is treated as current when it satisfies the below mentioned criteria
 - Expected to be realized or intended to be sold or consumed in normal operating cycle;
 - Held primarily for the purpose of trading;
 - Expected to be realized within twelve months after the reporting period, or
 - Cash or Cash Equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- (b) All Other Assets are classified as non-current.
- (c) A liability is classified as current when it satisfies the below mentioned criteria:
 - Expected to settle the liability in normal operating cycle;
 - Held primarily for the purpose of trading;
 - Due to be settled within twelve months after the reporting period, or
 - There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period
- (d) All Other liabilities are classified as non-current.

Notes to the Standalone Financial Statements

(All amounts in Indian Rupees in Lakhs, unless otherwise stated)

- (e) Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities.
- (f) The Operating Cycle is the time between the acquisition of assets for processing and their realization in Cash and Cash Equivalents. The Company has identified Twelve months as its Operating Cycle.

3.3 Revenue Recognition:

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, the Company applies the following five step approach:

- (1) identify the contract with a customer,
- (2) identify the performance obligations in the contract,
- (3) determine the transaction price,
- (4) allocate the transaction price to the performance obligations in the contract, and
- (5) recognize revenues when a performance obligation is satisfied.

The specific recognition criteria described below must also be met before revenue is recognised.

The Company's revenue is derived from sale of goods, sale of services and income from licensing arrangements. Most of such revenue is generated from the sale of goods. Accounting policies relating to revenue for the periods are as follows:

(i) Revenue from Sale of Goods:

Revenue is recognized when the control of the goods has been transferred to a third party. This is usually when the title passes to the customer, either upon shipment or upon receipt of goods by the customer. At that point, the customer has full discretion over the channel and price to sell the products, and there are no unfulfilled obligations that could affect the customer's acceptance of the product.

Revenue from the sale of goods is measured at the transaction price which is the consideration received or receivable, net of returns, taxes and applicable trade discounts and allowances. Revenue includes shipping and handling costs billed to the customer.

In arriving at the transaction price, the Company considers the terms of the contract with the customers and its customary business practices. The transaction price is the amount of consideration the Company is entitled to receive in exchange for transferring promised goods or services, excluding amounts collected on behalf of third parties. The amount of consideration varies because of estimated rebates, returns and chargebacks, which are considered to be key estimates. Any amount of variable consideration is recognised as revenue only to the extent that it is highly probable that a significant reversal will not occur. The Company estimates the amount of variable consideration using the expected value method

Presented below are the points of recognition of revenue with respect to the Company's sale of goods:

Particulars	Point of recognition of revenue
Domestic Sales	Upon delivery of products to customers (generally formulation manufacturers), from the factories of the Company.
Export Sales	Upon delivery of the products to the customers unless the terms of the applicable contract provide for specific revenue generating activities to be completed, in which case revenue is recognised once all such activities are completed.

(ii) Revenue from Sale of Services:

Revenue from Sale of services is recognised as per the terms of the contracts with customers when the related services are performed or the agreed milestones are achieved.

(iii) Export incentives:

Export incentives are recognized as income when the right to receive credit as per the terms of the scheme is established in respect of the export made and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

(iv) Dividend Income:

Dividends are received from financial assets at fair value through profit or loss and at FVOCI. Dividends are recognised as other income in profit or loss when

Notes to the Standalone Financial Statements

(All amounts in Indian Rupees in Lakhs, unless otherwise stated)

the right to receive payment is established. This applies even if they are paid out of pre-acquisition profits, unless the dividend clearly represents a recovery of part of the cost of the investment.

(v) Interest Income:

Interest income from financial assets at fair value through profit or loss is disclosed as interest income within other income. Interest income, on financial assets at amortised cost and financial assets at FVOCI, is calculated using the effective interest method and the same is recognized in the statement of profit and loss as part of other income. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

3.4 Foreign Currency Transactions:

i. Functional and Presentation Currency:

The standalone financial statements are presented in Indian Rupee ('INR' or '₹') which is also the functional and presentation currency of the Company.

ii. Initial Recognition:

Foreign currency transactions are recorded in the functional currency, by applying to the exchange rate between the functional currency and the foreign currency at the date of the transaction.

iii. Conversion on Reporting Date:

Transactions in foreign currencies are initially recorded by the Company at its functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

iv. Exchange Differences:

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognized in the statement of profit and loss in the year in which they arise.

3.5 Property, Plant and Equipment:

(a) Recognition and Initial Measurement

Property, Plant and Equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Cost includes non-refundable taxes, duties, freight, borrowing costs and other incidental expenses related to the acquisition and installation of the respective assets.

Assets under installation or under construction as at the Balance Sheet date are shown as Capital Work in Progress. Advances paid towards acquisition of assets are shown as Capital Advances.

Borrowing Cost relating to acquisition of Property, Plant and Equipment which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to put to use.

Subsequent Costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognized in statement of profit or loss as incurred.

(b) Subsequent Measurement (Depreciation and Useful Lives)

Depreciation on property, plant and equipment is provided on the straight-line method, computed on the basis of useful lives as estimated by management which coincides with rates prescribed in Schedule II to the Companies Act, 2013.

Depreciation on addition to/deletion from fixed assets made during the year is provided on pro-rata basis from/up to the date of such addition/deletion as the case may be. In case of assets costing less than ₹ 5,000/- purchased during the year also depreciation has been provided at normal rates on pro-rata basis from the date of purchase.

Cost of the leasehold land is amortized on a straight-line basis over the term of the lease. Depreciation on

Notes to the Standalone Financial Statements

(All amounts in Indian Rupees in Lakhs, unless otherwise stated)

landscape is being provided @10% under straight line method.

The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

(c) De-recognition

An item of Property, Plant and Equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognized.

(d) Capital advances

Advances paid towards acquisition of tangible fixed assets outstanding at each balance sheet date are shown under other non-current assets as capital advances.

(e) Capital work-in-progress

Capital work-in-progress includes cost of property, plant and equipment under installation/development as at the balance sheet date.

3.6 Intangible Assets:

(a) Recognition and Initial Measurement

Intangible assets are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

(b) Subsequent measurement (amortization):

The cost incurred on Intangible Assets is amortized over a period of 6 years in case of Computer Software and 4 years for Patents on Straight Line Method.

3.7 Leases:

The company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset

for a period of time in exchange for consideration. Effective April 1, 2019, the Company adopted Ind AS 116 "Leases", applied to all lease contracts existing on April 1, 2019 using the modified retrospective method.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

i) Right-of-use assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

ii) Lease Liabilities

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

Notes to the Standalone Financial Statements

(All amounts in Indian Rupees in Lakhs, unless otherwise stated)

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is premeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of asset (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing activity in cash flow statement.

3.8 Inventories:

Raw material, packaging material, are carried at cost. Stores and spares are being charged to revenue as and when purchased. Cost includes purchase price excluding taxes those are subsequently recoverable by the company from the concerned authorities, freight inwards and other expenditure incurred in bringing such inventories to their present location and condition. Cost of Raw Material, packaging material is determined using the weighted average cost method.

Finished goods and work in progress are valued at the lower of cost and net realizable value. Cost of work in progress and manufactured finished goods is determined on weighted average basis and comprises cost of direct

material, cost of conversion and other costs incurred in bringing these inventories to their present location and condition. Cost of traded goods is determined on weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Spare Parts, Stand-by Equipment and Servicing Equipment are recognized in accordance with this Ind AS-16 when they meet the definition of property, plant and Equipment. Otherwise, such items are classified as inventory and are valued at Cost.

The carrying cost of raw materials, packing materials are appropriately written down when there is a decline in replacement cost of such materials and finished products in which they will be incorporated are expected to be sold below cost.

3.9 Cash and Cash Equivalents:

Cash and Cash equivalents include cash on hand and at bank, deposits held at call with banks, other short-term highly liquid investment with original maturities of three months or less that are readily convertible to a known amount of cash which are subject to an insignificant risk of changes in value and are held for meeting short-term cash commitments.

For the Statement of Cash Flows, cash and cash equivalents consists of short term deposits, as defined above, net of outstanding bank overdraft as they are being considered as integral part of the Company cash management.

3.10 Trade Receivables:

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. Trade receivables are recognized initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognized at fair value. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

Notes to the Standalone Financial Statements

(All amounts in Indian Rupees in Lakhs, unless otherwise stated)

3.11 FINANCIAL INSTRUMENTS

(a) Financial Assets

(i) Initial recognition and measurement

All financial assets are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial asset is also adjusted.

(ii) Subsequent measurement

a. Debt instruments –

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

b. Equity investments –

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are generally classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL). The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

Investment in Associates, Subsidiaries and Joint Venture:

Investments in Subsidiaries, Associates and Joint ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down to its recoverable amount. On disposal of investments in subsidiaries and joint venture, the difference between net disposal proceeds and the carrying amounts are recognised in the statement of profit and loss.

Upon first-time adoption of Ind AS, the Company has elected to measure its investments in Subsidiaries, Associates and Joint ventures at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., 1 April 2016.

(iii) De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

(b) Financial liabilities

(i) Initial Recognition and Measurement

All financial liabilities are recognized initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. These liabilities are classified as amortized cost.

(ii) Subsequent Measurement

These liabilities include borrowings and deposits. Subsequent to initial recognition, these liabilities are measured at amortized cost using the effective interest method.

(iii) De-recognition of Financial Liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the

Notes to the Standalone Financial Statements

(All amounts in Indian Rupees in Lakhs, unless otherwise stated)

terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(c) Financial Guarantee Contracts

Financial Guarantee Contracts are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified party fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of expected loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortization.

(d) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(e) Impairment of Financial Assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive. When estimating the cash flows, the Company is required to consider –

- All contractual terms of the financial assets (including Prepayment and extension) over the expected life of the assets.

- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

(f) Trade Receivables

The Company applies approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of receivables.

(g) Other Financial Assets

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

3.12 Impairment of Non-Financial Assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

3.13 Income Taxes:

Current Income Tax

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Provisions of Income Tax Act. Current tax includes taxes to be paid on the profit earned during the year and for the prior periods, if any.

Deferred Income Tax

Deferred income taxes are provided based on the balance sheet approach considering the temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Notes to the Standalone Financial Statements

(All amounts in Indian Rupees in Lakhs, unless otherwise stated)

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where a component has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if it is probable that they can be utilised against future taxable profits.

The Carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain that sufficient future taxable income will be available.

3.14 Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Chairman and managing director has been identified as being the Chief Operating Decision Maker (CODM). The Company is engaged in manufacturing and sale of Active Pharma Ingredients and their Intermediates and operates in a single operating segment. Revenues are attributed to geographical areas based on the location of the customers.

3.15 Government Grants:

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

Government grants relating to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

Government grants relating to loans or similar assistance with an interest rate below the current applicable market rate are initially recognized and measured at fair value. The effect of this favorable interest is regarded as a

government grant and is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

3.16 Borrowings:

Borrowings are initially recognized at fair value, net of transaction cost incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of financial statements for issue, not to demand payment as consequence of the breach.

3.17 Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

3.18 Provisions

Provisions are recognized when there is a present legal or constructive obligation that can be estimated reliably, as a result of a past event, when it is probable that an outflow

Notes to the Standalone Financial Statements

(All amounts in Indian Rupees in Lakhs, unless otherwise stated)

of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognized for future operating losses.

Any reimbursement that the Company can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset. However, this asset may not exceed the amount of the related provisions.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provisions are reversed. Where the effect of the time of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provisions due to the passage of time is recognized as a finance cost.

Provision for litigation related obligation represents liabilities that are expected to materialize in respect of matters in appeal.

3.19 Trade and other Payables:

These amounts represent liabilities for goods supplied and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

3.20 Dividends

The Company recognises a liability to make cash distributions to equity holders when the distribution is authorized and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognized directly in equity. Interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

3.21 Equity:

Ordinary Shares are classified as Equity share Capital. Incremental costs directly attributable to the issue of new ordinary shares or share options and buy back are

recognized as a deduction from equity, net of tax effects, if any.

3.22 Research and Development:

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technical feasibility has been established, in which case such expenditure is capitalized. Development expenditure on an individual project are recognized as an intangible asset when the Company can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliability the expenditure during development.

The amount capitalized comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis to creating, producing and making the asset ready to its intended use.

3.23 Post Employee Benefits:

(a) Defined Contribution Plan:

The Company's contribution to provident fund and employee state insurance schemes is charged to the statement of profit and loss. The Company's contributions towards Provident Fund are deposited with the Regional Provident Fund Commissioner under a defined contribution plan.

(b) Defined Benefit Plan:

The Company has gratuity as defined benefit plan where the amount that an employee will receive on retirement is defined by reference to the employee's length of service and final salary. The liability recognized in the balance sheet for defined benefit plans as the present value of the defined benefit obligation (DBO) at the reporting date. Management estimates the DBO annually with the assistance of independent actuaries as per the requirements of

Notes to the Standalone Financial Statements

(All amounts in Indian Rupees in Lakhs, unless otherwise stated)

IND AS 19 "Employee Benefits". Actuarial gains and losses resulting from re-measurement of the liability are included in other comprehensive income.

The Company has subscribed to a group gratuity scheme of Life Insurance Corporation of India (LIC). Under the said policy, the eligible employees are entitled for gratuity upon their resignation, retirement or in the event of death in lump sum after deduction of necessary taxes upto a maximum limit as per the Gratuity Act, 1972. Liabilities in respect of the Gratuity Plan are determined by an actuarial valuation, based upon which the Company makes contributions to the Gratuity Fund.

(c) Other Long-Term Employee Benefits

The Company also provides benefit of compensated absences to its employees which are in the nature of long-term benefit plan. Liability in respect of compensated absences becoming due and expected to be availed more than one year after the balance sheet date is estimated on the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method as on the reporting date as per the requirements of IND AS "Employee Benefits". Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recorded in the statement of profit and loss in the year in which such gains or losses arise..

(d) Short-Term Employee Benefits

Short-term employee benefits comprise of employee costs such as salaries, bonus etc. is recognized on the basis of the amount paid or payable for the period during which services are rendered by the employee.

3.24 Earnings per Share:

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity

shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

3.25 Contingent Liabilities and Commitments:

Where it is not probable that an outflow of economic resources will be required, or the amount cannot be estimated reliably, the asset or the obligation is not recognised in the statement of balance sheet and is disclosed as a contingent liability.

Possible outcomes on obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities.

Contingent Assets are neither recognized nor disclosed. However, when realization of Income is virtually certain, related asset is recognized.

3.26 Exceptional Items

Exceptional items are disclosed separately in the financial statements where it is necessary to do so to provide further understanding of the financial performance of the Company. These are material items of income or expense that have to be shown separately due to the significance of their nature or amount.

3.27 Fair Value Measurement

The Company measures Financial Instruments at fair value at each Balance Sheet Date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for such asset or liability, or in the absence of a principal market, in the most advantageous market which is accessible to the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Notes to the Standalone Financial Statements

(All amounts in Indian Rupees in Lakhs, unless otherwise stated)

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted (unadjusted market prices) in active markets for identical assets or liabilities.

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurements is directly or indirectly observable.

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

3.28 Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the standalone financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company.

(i) Recognition of Deferred Tax Assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized. In addition, significant judgment is required in assessing the impact of any legal or economic limits or uncertainties in various tax jurisdictions.

(ii) Recognition of Deferred Tax Liability on Undistributed Profits:

The extent to which the Company can control the timing of reversal of deferred tax calculation on undistributed profits of its subsidiaries requires judgment.

(iii) Evaluation of Indicators for Impairment of Assets:

The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

(iv) Recoverability of Advances/Receivables:

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

(v) Useful lives of Depreciable/Amortizable Assets:

Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain software, customer relationships, IT equipment and other plant and equipment.

(vi) Defined Benefit Obligation (DBO):

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

(vii) Fair Value Measurements:

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

(viii) Provisions:

At each balance sheet date the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding warranties and guarantees. However, the actual future outcome may be different from this judgment.

3.29 Recent Accounting Pronouncements:

The Ministry of Corporate Affairs (MCA) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015, by issuing the companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer

applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company has evaluated the amendment and there is no impact on its financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements.

3.30 Rounding of Amounts:

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III of the Companies Act, 2013 unless otherwise stated.

Contributions are made to State Insurance Scheme in India for employees at the rate of 3.25%. The Contributions are made to Employees State Insurance Corporation(ESI) to the respective State Governments of the Company's location. This Corporation is administered by the Government and the obligation of the company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards ESI contribution is ₹ 23.00 lakhs(Previous Year- ₹ 22.36 lakhs).

39.2 Defined Benefit Plans

The Company has a defined benefit gratuity plan governed by Payment of Gratuity Act, 1972. Every Employee who has completed five years or more of service is entitled to a gratuity on departure at 15 days salary for each completed year of Service. The Scheme is funded through a policy with Life Insurance Corporation of India (LIC).

The Company has a defined benefit Compensated Absence Plan governed by The Factories Act, 1948. Every Employee who has worked for a period of 240 days or more during a calendar year shall be allowed during the subsequent calendar year, leave with wages for a number of days calculated as per Act.

The following table summarise net benefit expenses recognised in the statement of profit and loss, the status of funding and the amount recognised in the Balance Sheet for both the plans:

39.2.9 Actuarial Assumptions for estimating Company's Defined Benefit Obligation:

Particulars	March 31, 2023	March 31, 2022
Discount rate	7.24%	7.37%
Attrition Rate	PS : 0 to 40 : 2%	PS : 0 to 40 : 2%
Expected rate of increase in Salary	2.00%	3.00%
Mortality Table	IALM (2012-14)	IALM (2012-14)
Expected average remaining working lives of Employees	18.15	18.60

- (a) Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.
- (b) Plan assets does not comprise any of the Company's own financial instruments or any assets used by the Company. The Company has the plan covered under a policy with the Life Insurance Corporation of India.
- (c) The Significant actuarial assumptions for the determination of the defined benefit obligation are the discount rate, the salary growth rate and the average life expectancy. The calculation of the net defined benefit liability is sensitive to these assumptions. However, the impact of these changes is not ascertained to be material by the management.

39.2.10 Sensitivity Analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Particulars	March 31, 2023	March 31, 2022
Defined Benefit Obligation	145.01	161.20
Effect of 1% change in assumed discount rate on defined benefit obligation		
Increase : +1%	510.85	444.58
Decrease: -1%	604.71	531.27
Effect of 1% change in assumed salary escalation rate on defined benefit obligation		
Increase : +1%	600.89	527.19
Decrease: -1%	512.47	447.04

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (Projected Unit Credit Method) has been applied while calculating the defined benefit liability recognised within the Balance Sheet.

39.2.11 Other Information

(i) Expected rate of return basis

Since the scheme funds are invested with LIC of India EROA is based on rate of return declared by fund managers.

(ii) Description of Plan Assets and Reimbursement Conditions

100% of the Plan Asset is entrusted to LIC of India under their Group Gratuity Scheme. The reimbursement is subject to LIC's Surrender Policy

Notes to the Standalone Financial Statements

(All amounts in Indian Rupees in Lakhs, unless otherwise stated)

39 Employment Benefits (Contd..)

(iii) Discount Rate

The discount rate has decreased from 7.37% to 7.24% and hence there is a increase in liability leading to actuarial gain due to change in discount rate.

(iv) Present Value of Defined Benefit Obligation:

Present value of the deined benefit obligation is calculated by using Projected Unit Credit Method (PUC Method). Under the PUC Method, a “projected accrued benefit” is calculated at the beginning of the year and again at the end of the year for each benefit that will accrue for all active members of the Plan. The “Projected accrued benefit” is based on the Plan’s accrual formula and upon service as of the beginning or end of the year, but using a member’s final compensation, projected to the age at which the employee is assumed to leave active service. The Plan Liability is the actuarial present value of the “ Projected accrued benefits” as of the beginning of the year for active members.

(v) Expected Average remaining service vs. Average remaining future service:

The average remaining service can be arithmetically arrived by deducting current age from normal retirement age whereas the expected average remaining service is arrived actuarially by applying multiple decrements to the average remaining future service namely mortality and withdrawals. Thus, the expected average remaining service is always less than the average remaining future service.

(vi) Current and Non Current Liability:

The total of current and non-current liability must be equal with the total of PVO (Present value obligation) at the end of the period plus short term compensated liability if any. It has been classified in terms of “ Schedule III” of the Companies Act, 2013.

(vii) Defined Benefit Liability and Employer Contributions

The Company has purchased insurance policy to provide for payment of gratuity to the employees. Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Company. Any deficit in the assets arising as a result of such valuation is funded by the Company. The company considers that the contribution rate set at the last valuation date are sufficient to eliminate the deficit over the agreed period and that regular contributions, which are based on service costs will not increase significantly.

The Weighted Average duration of the defined benefit obligation is 10.39 years(2020-21 : 10.96 years). The expected cash flows over the subsequent years is as follows:

Expected Payout Gratuity	March 31, 2023	March 31, 2022
1st Year	64.65	61.84
2nd Year	31.43	17.66
3rd Year	19.77	27.92
4th Year	34.93	16.80
5th Year	53.44	29.31
beyond 5th Year	285.23	265.73

39.2.12 Risk Exposure

Through its defined benefit plans, the company is exposed to a number of risks, the most significant of which are detailed below:

- (a) **Investment/Interest Rate Risk:** The Company is exposed to Investment / Interest risk if the return on the invested fund falls below the discount rate used to arrive at present value of the benefit.
- (b) **Longevity Risk:** The Company is not exposed to risk of the employees living longer as the benefit under the scheme ceases on the employee separating from the employer for any reason.
- (c) **Risk of Salary Increase:** The Company is exposed to higher liability if the future salaries rise more than assumption of salary escalation.

42.1 The Company's principal financial liabilities, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

42.2 The carrying amounts of trade payables, other financial liabilities, cash and cash equivalents, other bank balances, trade receivables and other financial assets are considered to be the same as their fair values due to their short term nature.

42.3 The management has assessed that fair value of borrowings approximate to their carrying amounts largely since they are carried at floating rate of interest.

42.4 Other non current financial assets consists of deposits with Government authorities where the fair value is considered to be the carrying value.

43 Fair Value Measurements

43.1 Fair Value Hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entry specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

43.2 Valuation Techniques used to determine fair value:

Specific Valuation techniques used to value financial instruments include:

- The use of quoted market prices or dealer quotes for similar instruments.
- The fair value of remaining financial instruments is determined using discounted cashflow analysis.

43 Fair Value Measurements (Contd..)

43.3 Valuation Process:

The Finance and accounts department of the Company performs the valuation of financial assets and liabilities required for financial reporting purposes, and report to the Board of Directors. The main Level 3 inputs are derived using the Discounted Cash Flow Analysis, Market Approach, Net Assets Value Method as applicable..

44 Financial Risk Management Objectives and Policies

Financial Risk Management Framework

The Company is exposed primarily to credit risk, liquidity risk and market risk (fluctuations in foreign currency exchange rates and interest rate), which may adversely impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company.

44.1 Credit Risk:

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company result in Material Concentration of credit risk, except for Trade Receivables.

Financial Instruments and Cash Deposits

For banks and financial institutions, only high rated banks/ institutions are accepted. Other Financial Assets (excluding Bank Deposits) majorly constitute deposits given to State Electricity Departments for supply of power, which the company considers to have negligible credit exposure. Counterparty credit limits are reviewed by the Management on an annual basis, and may be updated throughout the year. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Expected Credit Loss for Trade Receivables under simplified approach

For Trade Receivables, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Credit risk is the risk of financial loss to the Company if a customer to a financial instrument fails to meet its contractual obligations and arises primarily from trade receivables, treasury operations etc. The credit risk related to trade receivables is influenced mainly by the individual characteristics of each customer.

The credit risk is managed by the company by establishing credit limits and continuously monitoring the credit worthiness of the customer. The Company also provides for expected credit losses based on the past experience where it believes that there is high probability of default. In general, all trade receivables greater than 180 days are reviewed and provided for by analysing individual receivables. The Company has considered possible effect from the pandemic relating to Covid-19 on Credit risks including forward looking information to develop expected credit losses.

Net Carrying Amount of Trade Receivables	14,676.08	158.54	14,834.62

44.2 Liquidity Risk:

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

44 Financial Risk Management Objectives and Policies (Contd..)

44.3 Market Risk:

Market risk is the risk that the fair value or future cash flows of a financial instruments will fluctuate because of changes in market prices. Market prices comprise three types of risk, currency rate risk, interest rate risk and other price risks such as equity risk. Financial instruments affected by market risk include loans and advances deposits investments in debt securities mutual funds and other equity funds.

44.3.1 Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instruments will fluctuate because of change in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest risk management by balancing the proportion of fixed rate and floating rate financial instruments in its portfolio.

Particulars	Change in basis points		Effect on Profit before Tax	
	Increase	Decrease	Decrease	Increase
March 31, 2023	0.50%	0.50%	(126.26)	126.26
March 31, 2022	0.50%	0.50%	(130.06)	130.06

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment.

44.3.2 Foreign Currency Exchange Rate Risk:

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. Currency risk arises when transactions are denominated in foreign currencies.

The Company has transactional currency exposures arising from services provided or availed that are denominated in a currency other than the functional currency. The foreign currencies in which these transactions are denominated are mainly in US Dollars (\$). The Company's trade receivable and trade payable balances at the end of the reporting period have similar exposures.

(a) Details of Unhedged Foreign Currency Exposure:

44 Financial Risk Management Objectives and Policies (Contd..)

(b) Foreign Currency Sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD exchange rate, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives. The Company's exposure to foreign currency changes for all other currencies is not material.

Particulars	Effect on Profit before Tax	
	March 31, 2023	March 31, 2022
USD Sensitivity		
₹/USD - Increases by 1%	46.12	1.06
₹/USD - Decreases by 1%	(46.12)	(1.06)

44.3.3 Other Price Risk:

Other price risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer or by factors affecting all similar financial instruments traded in the market.

45 Capital Management

For the purposes of the Company's Capital Management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure in consideration to the changes in economic conditions and the requirements of the financial covenants. The Company monitors capital using a gearing ratio, which is net debt divided by total equity plus net debt. The Company intends to keep the gearing ratio less than 1. The Company includes within net debt, borrowings including interest accrued on borrowings less cash and short term deposits.

Particulars	March 31, 2023	March 31, 2022
Borrowings including Interest Accrued (Note 20 & 23)	25,251.34	26,011.37
Less: Cash and Short Term Deposits (Note 13)	737.78	4,658.28
Net Debt	24,513.56	21,353.09
Equity	846.52	846.52
Other Equity	48,663.47	48,529.50
Total Equity	49,509.99	49,376.02
Total Capital	74,023.55	70,729.11
Gearing Ratio (Net Debt/(Net Debt +Total Equity))	0.33	0.30

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year

Independent Auditors' Report

To the Board of Directors of **SMS Pharmaceuticals Limited**

Report on the Audit of the Ind AS Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of SMS Pharmaceuticals Limited (herein after referred to as "the holding Company") and its associate (Holding Company and its associate together referred to as "the Group") which comprise the consolidated balance sheet as at March 31, 2023, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2023, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143 (10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters ('KAM') are those matters that, in our professional judgment, were of most significance in our audit

of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Consolidated Financial Statements.

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Boards of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities;

selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Company, as aforesaid.

In preparing the consolidated financial statements, the respective Boards of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Boards of Directors either intend to liquidate their respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Boards of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its associate company which are companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the consolidated financial statements.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

(a) We did not audit the financial statements and other financial information, in respect of associate company, whose financial statements include total assets of ₹ 19,734.02 lakhs as at March 31, 2023, and total revenues of ₹ 3,193.41 lakhs and net cash inflows of ₹ 7.57 lakhs for the year ended on that date. These financial statements and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of the associate, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid associate is based solely on the report(s) of such other auditors.

Our opinion above on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act.
- e) On the basis of the written representations received from the directors of the Company as on March 31, 2023 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its associate company incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls; refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Company and its associate company incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i) The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.

- ii) Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
- iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its associate company incorporated in India.
- iv) (a) The respective Managements of the Company and its associate which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or any of such associate to or in any other person or entity, including foreign entity (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or any of such associate (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The respective Managements of the Company and its associate which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company or any of such associate from any person or entity, including foreign entity (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company or any of such associate shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Company and its associate which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v) The dividend declared or paid during the year by the Company is in compliance with Section 123 of the Act.
2. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor’s Report) Order, 2020 (the “Order”/“CARO”) issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor’s report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and its associate included in the consolidated financial statements of the Company, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports.

Annexure “A” to the Independent Auditor’s Report

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of SMS Pharmaceuticals Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the “Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2023, we have audited the internal financial controls over financial reporting of **SMS Pharmaceuticals Limited** (hereinafter referred to as the “Company”) and its associate company, which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Boards of Directors of the Company and its Associate company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its associate company, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”) and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan

and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its associate company, which are companies incorporated in India.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Date: 24.05.2023

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company and its associate company, which are companies incorporated in India, have in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023 based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

These Consolidated Financial Statements for the year ended t March 31, 2023 were authorized and approved for issue by the Board of Directors on May 24, 2023.

3. Summary of Significant Accounting Policies:

The Consolidated financial statements have been prepared using the accounting policies and measurement basis summarized below:

3.1 Basis of Measurement

The Consolidated financial statements have been prepared on a historical cost and on accrual basis, except for the following items in the balance sheet:

- Certain financial assets are measured either at fair value or at amortised cost depending on the classification.
- Employee defined benefit assets/ (liability) are recognized as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligation.
- Right-of use the assets are recognized at the present value of lease payments that are not paid at that date.
- Assets held for sale are measured at fair value less cost to sell.

3.2 Current and Non- Current Classification:

The Group presents assets and liabilities in the balance sheet based on current and non-current classification.

- (a) An asset is treated as current when it satisfies the below mentioned criteria:
- Expected to be realized or intended to be sold or consumed in normal operating cycle;
 - Held primarily for the purpose of trading;
 - Expected to be realized within twelve months after the reporting period, or
 - Cash or Cash Equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- (b) All Other Assets are classified as non-current.
- (c) A liability is classified as current when it satisfies the below mentioned criteria:
- Expected to settle the liability in normal operating cycle;
 - Held primarily for the purpose of trading;
 - Due to be settled within twelve months after the reporting period, or

Notes to Consolidated Financial Statements

(All amounts : Indian Rupees in Lakhs, unless otherwise stated)

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period
- (d) All Other liabilities are classified as non-current.
- (e) Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities.
- (f) The Operating Cycle is the time between the acquisition of assets for processing and their realization in Cash and Cash Equivalents. The Group has identified Twelve months as its Operating Cycle.

3.3 Revenue Recognition:

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Group expects to receive in exchange for those products or services. To recognize revenues, the Group applies the following five step approach:

- (1) identify the contract with a customer,
- (2) identify the performance obligations in the contract,
- (3) determine the transaction price,
- (4) allocate the transaction price to the performance obligations in the contract, and
- (5) recognize revenues when a performance obligation is satisfied.

The specific recognition criteria described below must also be met before revenue is recognised.

The Group's revenue is derived from sale of goods, sale of services and income from licensing arrangements. Most of such revenue is generated from the sale of goods. Accounting policies relating to revenue for the periods are as follows:

(i) Revenue from Sale of Goods:

Revenue is recognized when the control of the goods has been transferred to a third party. This is usually when the title passes to the customer, either upon shipment or upon receipt of goods by the customer. At that point, the customer has full discretion over the channel and price to sell the products, and there are no unfulfilled obligations that could affect the customer's acceptance of the product.

Revenue from the sale of goods is measured at the transaction price which is the consideration received or receivable, net of returns, taxes and applicable trade discounts and allowances. Revenue includes shipping and handling costs billed to the customer.

In arriving at the transaction price, the Group considers the terms of the contract with the customers and its customary business practices. The transaction price is the amount of consideration the Group is entitled to receive in exchange for transferring promised goods or services, excluding amounts collected on behalf of third parties. The amount of consideration varies because of estimated rebates, returns and chargebacks, which are considered to be key estimates. Any amount of variable consideration is recognised as revenue only to the extent that it is highly probable that a significant reversal will not occur. The Group estimates the amount of variable consideration using the expected value method

Presented below are the points of recognition of revenue with respect to the Group's sale of goods:

Particulars	Point of recognition of revenue
Domestic Sales	Upon delivery of products to customers (generally formulation manufacturers), from the factories of the Group.
Export Sales	Upon delivery of the products to the customers unless the terms of the applicable contract provide for specific revenue generating activities to be completed, in which case revenue is recognised once all such activities are completed.

(ii) Revenue from Sale of Services:

Revenue from Sale of services is recognised as per the terms of the contracts with customers when the related services are performed or the agreed milestones are achieved.

(iii) Export incentives:

Export incentives are recognized as income when the right to receive credit as per the terms of the scheme

Notes to Consolidated Financial Statements

(All amounts : Indian Rupees in Lakhs, unless otherwise stated)

is established in respect of the export made and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

(iv) Dividend Income:

Dividends are received from financial assets at fair value through profit or loss and at FVOCI. Dividends are recognised as other income in profit or loss when the right to receive payment is established. This applies even if they are paid out of pre-acquisition profits, unless the dividend clearly represents a recovery of part of the cost of the investment.

(v) Interest Income:

Interest income from financial assets at fair value through profit or loss is disclosed as interest income within other income. Interest income, on financial assets at amortised cost and financial assets at FVOCI, is calculated using the effective interest method and the same is recognized in the statement of profit and loss as part of other income. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

3.4 Foreign Currency Transactions:

i. Functional and Presentation Currency:

The Consolidated financial statements are presented in Indian Rupee ('INR' or '₹') which is also the functional and presentation currency of the Group.

ii. Initial Recognition:

Foreign currency transactions are recorded in the functional currency, by applying to the exchange rate between the functional currency and the foreign currency at the date of the transaction.

iii. Conversion on Reporting Date:

Transactions in foreign currencies are initially recorded by the Group at its functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

iv. Exchange Differences:

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognized in the statement of profit and loss in the year in which they arise.

3.5 Property, Plant and Equipment:

(a) Recognition and Initial Measurement

Property, Plant and Equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Cost includes non-refundable taxes, duties, freight, borrowing costs and other incidental expenses related to the acquisition and installation of the respective assets.

Assets under installation or under construction as at the Balance Sheet date are shown as Capital Work in Progress. Advances paid towards acquisition of assets are shown as Capital Advances.

Borrowing Cost relating to acquisition of Property, Plant and Equipment which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to put to use.

Subsequent Costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group. All other repair and maintenance costs are recognized in statement of profit or loss as incurred.

(b) Subsequent Measurement (Depreciation and Useful Lives)

Depreciation on property, plant and equipment is provided on the straight-line method, computed on the basis of useful lives as estimated by management which coincides with rates prescribed in Schedule II to the Companies Act, 2013.

Notes to Consolidated Financial Statements

(All amounts : Indian Rupees in Lakhs, unless otherwise stated)

Depreciation on addition to/deletion from fixed assets made during the year is provided on pro-rata basis from/up to the date of such addition/deletion as the case may be. In case of assets costing less than ₹5,000/- purchased during the year also depreciation has been provided at normal rates on pro-rata basis from the date of purchase.

Cost of the leasehold land is amortized on a straight-line basis over the term of the lease. Depreciation on landscape is being provided @10% under straight line method.

The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

(c) De-recognition

An item of Property, Plant and Equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognized.

(d) Capital advances

Advances paid towards acquisition of tangible fixed assets outstanding at each balance sheet date are shown under other non-current assets as capital advances.

(e) Capital work-in-progress

Capital work-in-progress includes cost of property, plant and equipment under installation/development as at the balance sheet date.

3.6 Intangible Assets:

(a) Recognition and Initial Measurement

Intangible assets are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

(b) Subsequent measurement (amortization):

The cost incurred on Intangible Assets is amortized over a period of 6 years in case of Computer Software and 4 years for Patents on Straight Line Method.

3.7 Leases:

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Effective April 1, 2019, the Group adopted Ind AS 116 "Leases", applied to all lease contracts existing on April 1, 2019 using the modified retrospective method.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

i) Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Notes to Consolidated Financial Statements

(All amounts : Indian Rupees in Lakhs, unless otherwise stated)

ii) Lease Liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is premeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

iii) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of asset (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing activity in cash flow statement.

3.8 Inventories:

Raw material, packaging material, are carried at cost. Stores and spares are being charged to revenue as and when purchased. Cost includes purchase price excluding taxes those are subsequently recoverable by the Group from the concerned authorities, freight inwards and other expenditure incurred in bringing such inventories to their present location and condition. Cost of Raw Material, packaging material is determined using the weighted average cost method.

Finished goods and work in progress are valued at the lower of cost and net realizable value. Cost of work in progress and manufactured finished goods is determined on weighted average basis and comprises cost of direct material, cost of conversion and other costs incurred in bringing these inventories to their present location and condition. Cost of traded goods is determined on weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Spare Parts, Stand-by Equipment and Servicing Equipment are recognized in accordance with this Ind AS-16 when they meet the definition of property, plant and Equipment. Otherwise, such items are classified as inventory and are valued at Cost.

The carrying cost of raw materials, packing materials are appropriately written down when there is a decline in replacement cost of such materials and finished products in which they will be incorporated are expected to be sold below cost.

3.9 Cash and Cash Equivalents:

Cash and Cash equivalents include cash on hand and at bank, deposits held at call with banks, other short-term highly liquid investment with original maturities of three months or less that are readily convertible to a known amount of cash which are subject to an insignificant risk of changes in value and are held for meeting short-term cash commitments.

For the Statement of Cash Flows, cash and cash equivalents consists of short term deposits, as defined above, net of outstanding bank overdraft as they are being considered as integral part of the Group cash management.

Notes to Consolidated Financial Statements

(All amounts : Indian Rupees in Lakhs, unless otherwise stated)

3.10 Trade Receivables:

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. Trade receivables are recognized initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognized at fair value. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

3.11 FINANCIAL INSTRUMENTS

(a) Financial Assets

(i) Initial recognition and measurement

All financial assets are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial asset is also adjusted.

(ii) Subsequent measurement

a. Debt instruments –

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

b. Equity investments –

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are generally classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Group decides to classify

the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL). The Group makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

Investment in Associates, Subsidiaries and Joint Venture:

Investments in Subsidiaries, Associates and Joint ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down to its recoverable amount. On disposal of investments in subsidiaries and joint venture, the difference between net disposal proceeds and the carrying amounts are recognised in the statement of profit and loss.

Upon first-time adoption of Ind AS, the Group has elected to measure its investments in Subsidiaries, Associates and Joint ventures at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., 1 April 2016.

(iii) De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive cash flows from the asset.

(b) Financial liabilities

(i) Initial Recognition and Measurement

All financial liabilities are recognized initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. These liabilities are classified as amortized cost.

(ii) Subsequent Measurement

These liabilities include borrowings and deposits. Subsequent to initial recognition, these liabilities are measured at amortized cost using the effective interest method.

Notes to Consolidated Financial Statements

(All amounts : Indian Rupees in Lakhs, unless otherwise stated)

(iii) De-recognition of Financial Liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(c) Financial Guarantee Contracts

Financial Guarantee Contracts are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified party fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of expected loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortization.

(d) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(e) Impairment of Financial Assets

In accordance with Ind-AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. When estimating the cash flows, the Group is required to consider.

- All contractual terms of the financial assets (including Prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

(f) Trade Receivables

The Group applies approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of receivables.

(g) Other Financial Assets

For recognition of impairment loss on other financial assets and risk exposure, the Group determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

3.12 Impairment of Non-Financial Assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

3.13 Income Taxes:

Current Income Tax

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Provisions of Income Tax Act. Current tax includes taxes to be paid on the profit earned during the year and for the prior periods, if any.

Notes to Consolidated Financial Statements

(All amounts : Indian Rupees in Lakhs, unless otherwise stated)

Deferred Income Tax

Deferred income taxes are provided based on the balance sheet approach considering the temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where a component has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if it is probable that they can be utilised against future taxable profits.

The Carrying amount of deferred tax assets are reviewed at each balance sheet date. The Group writes-down the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain that sufficient future taxable income will be available.

3.14 Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Chairman and managing director has been identified as being the Chief Operating Decision Maker (CODM). The Group is engaged in manufacturing and sale of Active Pharma Ingredients and their Intermediates and operates in a single operating segment. Revenues are attributed to geographical areas based on the location of the customers.

3.15 Government Grants:

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

Government grants relating to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities

as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

Government grants relating to loans or similar assistance with an interest rate below the current applicable market rate are initially recognized and measured at fair value. The effect of this favorable interest is regarded as a government grant and is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

3.16 Borrowings:

Borrowings are initially recognized at fair value, net of transaction cost incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of financial statements for issue, not to demand payment as consequence of the breach.

3.17 Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection

Notes to Consolidated Financial Statements

(All amounts : Indian Rupees in Lakhs, unless otherwise stated)

with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

3.18 Provisions

Provisions are recognized when there is a present legal or constructive obligation that can be estimated reliably, as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognized for future operating losses.

Any reimbursement that the Group can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset. However, this asset may not exceed the amount of the related provisions.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provisions are reversed. Where the effect of the time of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provisions due to the passage of time is recognized as a finance cost.

Provision for litigation related obligation represents liabilities that are expected to materialize in respect of matters in appeal.

3.19 Trade and other Payables:

These amounts represent liabilities for goods supplied and services provided to the Group prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

3.20 Dividends

The Group recognises a liability to make cash distributions to equity holders when the distribution is authorized and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

Interim dividends are recorded as a liability on the date of declaration by the Group's Board of Directors.

3.21 Equity:

Ordinary Shares are classified as Equity share Capital. Incremental costs directly attributable to the issue of new ordinary shares or share options and buy back are recognized as a deduction from equity, net of tax effects, if any.

3.22 Research and Development:

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technical feasibility has been established, in which case such expenditure is capitalized. Development expenditure on an individual project are recognized as an intangible asset when the Group can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliability the expenditure during development.

The amount capitalized comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis to creating, producing and making the asset ready to its intended use.

3.23 Post Employee Benefits:

(a) Defined Contribution Plan:

The Group's contribution to provident fund and employee state insurance schemes is charged to the statement of profit and loss. The Group's contributions towards Provident Fund are deposited with the Regional Provident Fund Commissioner under a defined contribution plan.

(b) Defined Benefit Plan:

The Group has gratuity as defined benefit plan where the amount that an employee will receive on retirement

Notes to Consolidated Financial Statements

(All amounts : Indian Rupees in Lakhs, unless otherwise stated)

is defined by reference to the employee's length of service and final salary. The liability recognized in the balance sheet for defined benefit plans as the present value of the defined benefit obligation (DBO) at the reporting date. Management estimates the DBO annually with the assistance of independent actuaries as per the requirements of IND AS 19 "Employee Benefits". Actuarial gains and losses resulting from re-measurement of the liability are included in other comprehensive income.

The Group has subscribed to a group gratuity scheme of Life Insurance Corporation of India (LIC). Under the said policy, the eligible employees are entitled for gratuity upon their resignation, retirement or in the event of death in lump sum after deduction of necessary taxes upto a maximum limit as per the Gratuity Act, 1972. Liabilities in respect of the Gratuity Plan are determined by an actuarial valuation, based upon which the Group makes contributions to the Gratuity Fund.

(c) Other Long-Term Employee Benefits

The Group also provides benefit of compensated absences to its employees which are in the nature of long-term benefit plan. Liability in respect of compensated absences becoming due and expected to be availed more than one year after the balance sheet date is estimated on the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method as on the reporting date as per the requirements of IND AS "Employee Benefits". Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recorded in the statement of profit and loss in the year in which such gains or losses arise.

(d) Short-Term Employee Benefits

Short-term employee benefits comprise of employee costs such as salaries, bonus etc. is recognized on the basis of the amount paid or payable for the period during which services are rendered by the employee.

3.24 Earnings per Share:

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the

weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

3.25 Contingent Liabilities and Commitments:

Where it is not probable that an outflow of economic resources will be required, or the amount cannot be estimated reliably, the asset or the obligation is not recognised in the statement of balance sheet and is disclosed as a contingent liability.

Possible outcomes on obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities.

Contingent Assets are neither recognized nor disclosed. However, when realization of Income is virtually certain, related asset is recognized.

3.26 Exceptional Items

Exceptional items are disclosed separately in the financial statements where it is necessary to do so to provide further understanding of the financial performance of the Group. These are material items of income or expense that have to be shown separately due to the significance of their nature or amount.

3.27 Fair Value Measurement

The Group measures Financial Instruments at fair value at each Balance Sheet Date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for such asset or liability, or in the absence of a principal market, in the most advantageous market which is accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use

Notes to Consolidated Financial Statements

(All amounts : Indian Rupees in Lakhs, unless otherwise stated)

when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted (unadjusted market prices) in active markets for identical assets or liabilities.

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurements is directly or indirectly observable.

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

3.28 Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the Consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group.

(i) Recognition of Deferred Tax Assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Group's future taxable income against which the deferred tax assets can be utilized.

In addition, significant judgment is required in assessing the impact of any legal or economic limits or uncertainties in various tax jurisdictions.

(ii) Recognition of Deferred Tax Liability on Undistributed Profits:

The extent to which the Group can control the timing of reversal of deferred tax calculation on undistributed profits of its subsidiaries requires judgment.

(iii) Evaluation of Indicators for Impairment of Assets:

The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

(iv) Recoverability of Advances/Receivables:

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

(v) Useful lives of Depreciable/Amortizable Assets:

Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain software, customer relationships, IT equipment and other plant and equipment.

(vi) Defined Benefit Obligation (DBO):

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, medical cost trends, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses..

(vii) Fair Value Measurements:

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument.

Notes to Consolidated Financial Statements

(All amounts : Indian Rupees in Lakhs, unless otherwise stated)

Management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

(viii) Provisions:

At each balance sheet date the management judgment, changes in facts and legal aspects, the Group assesses the requirement of provisions against the outstanding warranties and guarantees. However, the actual future outcome may be different from this judgment.

3.29 Recent Accounting Pronouncements:

The Ministry of Corporate Affairs (MCA) notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015, by issuing the companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Group does not expect this amendment to have any significant impact in its financial statements.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Group has evaluated and the amendment and there is no impact on its financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Group does not expect this amendment to have any significant impact in its financial statements.

3.30 Rounding of Amounts:

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III of the Companies Act, 2013 unless otherwise stated.

Expected average remaining working lives of Employees	18.15	18.60

Notes to Consolidated Financial Statements

(All amounts : Indian Rupees in Lakhs, unless otherwise stated)

39 Post Employment Benefits (Contd.)

- (a) Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.
- (b) Plan assets does not comprise any of the Company's own financial instruments or any assets used by the Company. The Company has the plan covered under a policy with the Life Insurance Corporation of India.
- (c) The Significant actuarial assumptions for the determination of the defined benefit obligation are the discount rate, the salary growth rate and the average life expectancy. The calculation of the net defined benefit liability is sensitive to these assumptions. However, the impact of these changes is not ascertained to be material by the management.

39.2.10 Sensitivity Analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Particulars	March 31, 2023	March 31, 2022
Defined Benefit Obligation	145.01	161.20
Effect of 1% change in assumed discount rate on defined benefit obligation		
Increase : +1%	510.85	444.58
Decrease: -1%	604.71	531.27
Effect of 1% change in assumed salary escalation rate on defined benefit obligation		
Increase : +1%	600.89	527.19
Decrease: -1%	512.47	447.04

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (Projected Unit Credit Method) has been applied while calculating the defined benefit liability recognised within the Balance Sheet.

39.2.11 Other Information

(i) Expected rate of return basis

Since the scheme funds are invested with LIC of India EROA is based on rate of return declared by fund managers.

(ii) Description of Plan Assets and Reimbursement Conditions

100% of the Plan Asset is entrusted to LIC of India under their Group Gratuity Scheme. The reimbursement is subject to LIC's Surrender Policy

(iii) Discount Rate

The discount rate has decreased from 7.37% to 7.24% and hence there is a increase in liability leading to actuarial gain due to change in discount rate.

(iv) Present Value of Defined Benefit Obligation:

Present value of the deined benefit obligation is calculated by using Projected Unit Credit Method (PUC Method). Under the PUC Method, a "projected accrued benefit" is calculated at the beginning of the year and again at the end of the year for each benefit that will accrue for all active members of the Plan. The "Projected accrued benefit" is based on the Plan's accrual formula and upon service as of the beginning or end of the year, but using a member's final compensation, projected to the age at which the employee is assumed to leave active service. The Plan Liability is the actuarial present value of the "Projected accrued benefits" as of the beginning of the year for active members.

39 Post Employment Benefits (Contd.)

39.2.11 Other Information (contd..)

(v) Expected Average remaining service vs. Average remaining future service:

The average remaining service can be arithmetically arrived by deducting current age from normal retirement age whereas the expected average remaining service is arrived actuarially by applying multiple decrements to the average remaining future service namely mortality and withdrawals. Thus, the expected average remaining service is always less than the average remaining future service.

(vi) Current and Non Current Liability:

The total of current and non-current liability must be equal with the total of PVO (Present value obligation) at the end of the period plus short term compensated liability if any. It has been classified in terms of " Schedule III" of the Companies Act, 2013.

(vii) Defined Benefit Liability and Employer Contributions

The Company has purchased insurance policy to provide for payment of gratuity to the employees. Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Company. Any deficit in the assets arising as a result of such valuation is funded by the Company. The company considers that the contribution rate set at the last valuation date are sufficient to eliminate the deficit over the agreed period and that regular contributions, which are based on service costs will not increase significantly.

The Weighted Average duration of the defined benefit obligation is 10.39 years(2020-21 : 10.96 years). The expected cash flows over the subsequent years is as follows:

Expected Payout Gratuity	March 31, 2023	March 31, 2022
1st Year	64.65	61.84
2nd Year	31.43	17.66
3rd Year	19.77	27.92
4th Year	34.93	16.80
5th Year	53.44	29.31
beyond 5th Year	285.23	265.73

39.2.12 Risk Exposure

Through it is defined benefit plans, the company is exposed to a number of risks, the most significant of which are detailed below:

- (a) Investment/Interest Rate Risk:** The Company is exposed to Investment / Interest risk if the return on the invested fund falls below the discount rate used to arrive at present value of the benefit.
- (b) Longevity Risk:** The Company is not exposed to risk of the employees living longer as the benefit under the scheme ceases on the employee separating from the employer for any reason.
- (c) Risk of Salary Increase:** The Company is exposed to higher liability if the future salaries rise more than assumption of salary escalation.

42.1 The Company's principal financial liabilities, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

42.2 The carrying amounts of trade payables, other financial liabilities, cash and cash equivalents, other bank balances, trade receivables and other financial assets are considered to be the same as their fair values due to their short term nature.

42.3 The management has assessed that fair value of borrowings approximate to their carrying amounts largely since they are carried at floating rate of interest.

42.4 Other non current financial assets consists of deposits with Government authorities where the fair value is considered to be the carrying value.

43 Fair Value Measurements

43.1 Fair Value Hierarchy

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data rely as little as possible on entry specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

43.2 Valuation Techniques used to determine fair value:

Specific Valuation techniques used to value financial instruments include:

- The use of quoted market prices or dealer quotes for similar instruments.
- The fair value of remaining financial instruments is determined using discounted cashflow analysis.

43 Fair Value Measurements (Contd.)

43.3 Valuation Process:

The Finance and accounts department of the Company performs the valuation of financial assets and liabilities required for financial reporting purposes, and report to the Board of Directors. The main Level 3 inputs are derived using the Discounted Cash Flow Analysis, Market Approach, Net Assets Value Method as applicable.

44 Financial Risk Management Objectives and Policies

Financial Risk Management Framework

The Company is exposed primarily to credit risk, liquidity risk and market risk (fluctuations in foreign currency exchange rates and interest rate), which may adversely impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company.

44.1 Credit Risk:

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company result in Material Concentration of credit risk, except for Trade Receivables.

Financial Instruments and Cash Deposits

For banks and financial institutions, only high rated banks/ institutions are accepted. Other Financial Assets (excluding Bank Deposits) majorly constitute deposits given to State Electricity Departments for supply of power, which the company considers to have negligible credit exposure. Counterparty credit limits are reviewed by the Management on an annual basis, and may be updated throughout the year. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Expected Credit Loss for Trade Receivables under simplified approach

For Trade Receivables, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Credit risk is the risk of financial loss to the Company if a customer to a financial instrument fails to meet its contractual obligations and arises primarily from trade receivables, treasury operations etc. The credit risk related to trade receivables is influenced mainly by the individual characteristics of each customer.

The credit risk is managed by the company by establishing credit limits and continuously monitoring the credit worthiness of the customer. The Company also provides for expected credit losses based on the past experience where it believes that there is high probability of default. In general, all trade receivables greater than 180 days are reviewed and provided for by analysing individual receivables. The Company has considered possible effect from the pandemic relating to Covid-19 on Credit risks including forward looking information to develop expected credit losses.

Net Carrying Amount of Trade Receivables	14,676.08	158.54	14,834.62

44.2 Liquidity Risk:

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

Particulars	Upto 1 Year	1 to 3 Years	3 to 5 Years	> 5 Years	Total

44 Financial Risk Management Objectives and Policies (Contd.)

44.3 Market Risk:

Market risk is the risk that the fair value or future cash flows of a financial instruments will fluctuate because of changes in market prices. Market prices comprise three types of risk, currency rate risk, interest rate risk and other price risks such as equity risk. Financial instruments affected by market risk include loans and advances deposits investments in debt securities mutual funds and other equity funds.

44.3.1 Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instruments will fluctuate because of change in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest risk management by balancing the proportion of fixed rate and floating rate financial instruments in its portfolio.

Particulars	Change in basis points		Effect on Profit before Tax	
	Increase	Decrease	Decrease	Increase
March 31, 2023	0.50%	0.50%	(126.26)	126.26
March 31, 2022	0.50%	0.50%	(130.06)	130.06

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment.

44.3.2 Foreign Currency Exchange Rate Risk:

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. Currency risk arises when transactions are denominated in foreign currencies.

The Company has transactional currency exposures arising from services provided or availed that are denominated in a currency other than the functional currency. The foreign currencies in which these transactions are denominated are mainly in US Dollars (\$). The Company's trade receivable and trade payable balances at the end of the reporting period have similar exposures.

(a) Details of Unhedged Foreign Currency Exposure:

The year end foreign currency exposures that have not been hedged by a derivative instrument or otherwise are as under:

Particulars	Currency	Amount in Foreign Currency	Amount in ₹ In Lakhs	Conversion Rate
March 31, 2023				
Trade Receivables	USD	75.15	6,158.14	81.95

Advance from Customers	USD	1.62	121.99	75.20
Advance to Suppliers	USD	3.04	233.93	76.90

(b) Foreign Currency Sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD exchange rate, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives. The Company's exposure to foreign currency changes for all other currencies is not material.

Particulars	Effect on Profit before Tax	
	March 31, 2023	March 31, 2022
USD Sensitivity		
Rs/USD - Increases by 1%	46.12	1.06
Rs/USD - Decreases by 1%	(46.12)	(1.06)

44.3.3 Other Price Risk:

Other price risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer or by factors affecting all similar financial instruments traded in the market.

45 Capital Management

For the purposes of the Company's Capital Management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure in consideration to the changes in economic conditions and the requirements of the financial covenants. The Company monitors capital using a gearing ratio, which is net debt divided by total equity plus net debt. The Company intends to keep the gearing ratio less than 1. The Company includes within net debt, borrowings including interest accrued on borrowings less cash and short term deposits.

45 Capital Management (Contd.)

Particulars	March 31, 2023	March 31, 2022
Borrowings including Interest Accrued (Note 20 & 23)	25,251.34	26,011.37
Less: Cash and Short Term Deposits (Note 13)	737.78	4,658.28
Net Debt	24,513.56	21,353.09
Equity	846.52	846.52
Other Equity	45,206.00	46,182.34
Total Equity	46,052.52	47,028.86
Total Capital	70,566.08	68,381.95
Gearing Ratio (Net Debt/(Net Debt +Total Equity))	0.35	0.31

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year

46 Segment Information

INSTRUCTIONS FOR REMOTE E-VOTING & E-VOTING DURING AGM AND JOINING MEETING THROUGH VC/ OAVM ARE AS UNDER:

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in Demat mode.

Step 2 : Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in Demat mode.

- i. Pursuant to the provisions of Section 108 of the Act read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of Listing Regulations (as amended) and the MCA Circulars, the Company is providing facility of remote e-Voting to its Members in respect of the business to be transacted at the 35th AGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorised e-Voting agency. The facility of casting votes by a Member using remote e-voting system as well as e-voting during the AGM will be provided by CDSL.
- ii. The remote e-voting period commences on **Tuesday, 26th September, 2023 at 9.00 a.m. (IST)** and **ends on Friday, 29th September, 2023 at 5.00 p.m. (IST)**. The remote e-voting module shall be disabled by CDSL for voting thereafter. Once the vote on a resolution is cast by the Member, the Member shall not be allowed to change it subsequently. The voting rights of the Members shall be in proportion to their share of the paid-up equity share capital of the Company as on the

cut-off date i.e., as on the closure of business hours on **Friday, 22nd September, 2023**.

- iii. Members of the Company holding shares either in physical form or in electronic form as on the closure of business hours on Friday, 22nd September, 2023 i.e., cut-off date may cast their vote by remote e-voting. A person who is not a Member as on the cut-off date should treat this Notice for information purpose only. A person whose name is recorded in the Register of Members or in the Register of Beneficial Owners maintained by the depositories as on the cut-off date only shall be entitled to avail the facility of e-voting before the AGM as well as remote e-voting during the AGM.

Any person who acquires shares of the Company and becomes a Member of the Company after the dispatch of the Notice and holds shares as on the cut-off date i.e., as on the closure of business hours on Friday, 22nd September, 2023, may obtain a copy of AGM Notice by sending a request to info@arthiconsultants.com or can also be downloaded from the Company's website at www.smspharma.com and participate in remote e-voting or e-voting at AGM by following the instructions provided herein.

- iv. The Members who have cast their vote by remote e-voting prior to the AGM may attend / participate in the AGM through VC / OAVM but shall not be entitled to cast their vote on such resolution again. Members who have voted on some of the resolutions during the said voting period are also eligible to vote on the remaining resolutions during the AGM.
- v. Mr. C. Sudhir Babu, Practicing Company Secretary, Hyderabad has been appointed as the Scrutiniser(s) to scrutinise the e-voting process in a fair and transparent manner and they have communicated their willingness to be appointed and will be available for same purpose.
- vi. Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in

India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the Demat account holders, by way of a single login credential, through their Demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in Demat mode.

vii. In terms of **SEBI circular no. SEBI/HO/CFD/CMD/ CIR/P/2020/242** dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in Demat mode are allowed to vote through their Demat Account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their Demat accounts in order to access e-Voting facility.

Pursuant to above said SEBI Circular, Login method for e-Voting and joining virtual meetings **for Individual shareholders holding securities in Demat mode CDSL/NSDL** is given below:

Type of shareholders	Login Method
