Renewable Electricity Consumption (GJ)

From FY24 to FY25, there was an overall increase in renewable electricity use, with most existing plants reporting growth in their renewable energy mix. Although two new plants—New Raipur and Dubai—were added and currently rely solely on national grid electricity, they are in the process of transitioning to renewable sources.

Excluding these new facilities, the renewable electricity share across operations stands at 52%, highlighting continued progress in sustainability despite expansion.

Front runner for Steel for Green

- APL Apollo is the **1st** Company to innovate readymade Doorframe, Fence, Plank and Hand rails as **Steel for Green** Concept which replaced conventional wood application in building construction
- Our Products are saving **250,000 trees** every year, going ahead we will be saving more and more trees to keep the planet greener
- Keeping the **Steel for Green** as priority APL is the **1st** Company to innovate **narrow and thicker color coated** galvanized sheets which will save more trees

Steel Buildings = Decarbonization

- Construction sector contributes 30% of direct and indirect Co2 emissions
- Structural steel is preferred for steel buildings because steel is
 - Infinitely recyclable
 - Easy to pre-fabricate
 - High volume to weight ratio
 - Lighter/ stronger structure allow gains in vertical space

Research indicates replacing reinforced concrete with steel structures can reduce emission by 60%

- Net Profit of Rs2.4bn (+23% YoY, -19% QoQ)

Noida, July 24, 2025: APL Apollo Tubes Limited (APL Apollo), India's leading branded structural steel tube company, today announced its financial results for the quarter ending June 30, 2025.

Q1FY26 Financial performance highlights

- Sales volume increased by 10% YoY to 794,350 Ton
- Revenue increased by 4% YoY to Rs51.7bn
- EBITDA increased by 23% YoY to Rs3.7bn
 - EBITDA per ton at Rs4,683/Ton
- Net Profit increased by 23% YoY to Rs2.4bn

Mr. Sanjay Gupta, Chairman, APL Apollo, comments on Q1FY26 results

"The company reported 10% YoY growth in sales volume which was below our own expectations. The demand conditions for the structural steel tube industry were tough due to challenging macroeconomic environment, geopolitical tension, USA tariff uncertainty and slowdown in government spending. Early onset of monsoon season across India impacted construction industry.

We expect demand conditions to improve in second half of the current financial year on the back of an improved government budget allocation for the infrastructure sector.

We are ready with our capacity, product range, distribution network and brand pull. Henceforth we expect 2HFY26 to perform much better than 1HFY26.

The company's commitment to delivering exceptional quality, coupled with its unwavering dedication to customer satisfaction, has propelled it to the forefront of the industry. We continue to remain prudent with our working capital management, which remains best in the construction material sector".
