**RISKS IN RELATION TO THE FIRST OFFER**

This being the first public issue of Equity Shares of our Company, there has been no formal market for the Equity Shares. The face value of the Equity Shares is ₹2 each. The Floor Price, Cap Price and the Offer Price as determined by our Company in consultation with the book running lead managers ("**BRLMs**"), and on the basis of the assessment of market demand for the Equity Shares by way of the Book Building Process in accordance with the SEBI ICDR Regulations, as stated under "***Basis for Offer Price***" beginning on page 222, should not be considered to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active or sustained trading in the Equity Shares nor regarding the price at which the Equity Shares will be traded after listing.

**GENERAL RISK**

Investments in equity and equity-related securities involve a degree of risk and Bidders should not invest any funds in the Offer unless they can afford to take the risk of losing their entire investment. Bidders are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, Bidders must rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares in the Offer have neither been recommended, nor approved by the Securities and Exchange Board of India ("**SEBI**"), nor does SEBI guarantee the accuracy or adequacy of the contents of this Red Herring Prospectus. Specific attention of the Bidders is invited to "***Risk Factors***" beginning on page 64.

## COMPANY'S AND SELLING SHAREHOLDERS' ABSOLUTE RESPONSIBILITY

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Red Herring Prospectus contains all information with regard to our Company and the Offer, which is material in the context of the Offer, that the information contained in this Red Herring Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Red Herring Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect. Further, each of the Selling Shareholders, severally and not jointly, accept responsibility for and confirms only statements expressly made by such Selling Shareholder in this Red Herring Prospectus to the extent such statements are solely in relation to itself and its respective portion of the Offered Shares and assumes responsibility that such statements are true and correct in all material respects and not misleading in any material respect.

## LISTING

The Equity Shares offered through this Red Herring Prospectus are proposed to be listed on the stock exchanges, being BSE Limited ("**BSE**") and National Stock Exchange of India Limited ("**NSE**" and together with BSE, the "**Stock Exchanges**"). For the purposes of the Offer, the Designated Stock Exchange shall be NSE.

100% Book Built Offer

# LENSKART SOLUTIONS LIMITED

Our Company was originally incorporated as '*Valyoo Technologies Private Limited*', as a private limited company under the Companies Act, 1956, pursuant to a certificate of incorporation dated May 19, 2008, issued by the Registrar of Companies, National Capital Territory of Delhi and Haryana at New Delhi. Thereafter, the name of our Company was changed to '*Lenskart Solutions Private Limited*' pursuant to a fresh certificate of incorporation dated May 19, 2015, issued by the Registrar of Companies, Delhi and Haryana, at New Delhi (the "**RoC**"). Subsequently, our Company was converted to a public limited company and the name of our Company changed to '*Lenskart Solutions Limited*' pursuant to a resolution passed by our Board on May 21, 2025, and resolution passed by our Shareholders on May 30, 2025, and a fresh certificate of incorporation dated June 16, 2025, was issued by the RoC. For details in relation to the changes in registered office address of our Company, see "***History and Certain Corporate Matters - Changes in the registered office of our Company***" on page 344.

**Registered Office**: Plot No. 151, Okhla Industrial Estate, Phase III, New Delhi – 110 020, Delhi, India
**Corporate Office**: Ground Floor Vipul Tech Square, Golf Course Road Sector 43, DLF QE, Gurugram – 122 009, Haryana, India
**Corporate Identity Number:** U33100DL2008PLC178355
**Contact Person**: Preeti Gupta, Company Secretary and Chief Compliance Officer
**Tel.**: +91 124 429 3191; **E-mail**: compliance.officer@lenskart.com; **Website**: https://www.lenskart.com

**PROMOTERS OF OUR COMPANY: PEYUSH BANSAL, NEHA BANSAL, AMIT CHAUDHARY AND SUMEET KAPAHI**

**INITIAL PUBLIC OFFERING OF UP TO [●] EQUITY SHARES OF FACE VALUE OF ₹2 EACH ("EQUITY SHARES") OF LENSKART SOLUTIONS LIMITED (OUR "COMPANY" OR THE "ISSUER") FOR CASH AT A PRICE OF ₹[●] PER EQUITY SHARE OF FACE VALUE OF ₹2 EACH (INCLUDING A SHARE PREMIUM OF ₹ [●] PER EQUITY SHARE) ("OFFER PRICE"), AGGREGATING UP TO ₹[●] MILLION COMPRISING A FRESH ISSUE OF UP TO [●] EQUITY SHARES OF FACE VALUE OF ₹2 EACH, AGGREGATING UP TO ₹ 21,500.00 MILLION BY OUR COMPANY ("FRESH ISSUE") AND AN OFFER FOR SALE OF UP TO 127,562,573 EQUITY SHARES OF FACE VALUE OF ₹2 EACH, AGGREGATING UP TO ₹ [●] MILLION ("OFFERED SHARES") BY CERTAIN SHAREHOLDERS ("(SELLING SHAREHOLDERS") (SUCH SALE, THE "OFFER FOR SALE", AND TOGETHER WITH THE FRESH ISSUE, THE "OFFER"). FOR A COMPLETE LIST OF SELLING SHAREHOLDERS, SEE "THE OFFER" ON PAGE 114.**

**THE OFFER INCLUDES A RESERVATION OF UP TO [●] EQUITY SHARES OF FACE VALUE OF ₹2 EACH, AGGREGATING UP TO ₹150.00 MILLION (CONSTITUTING UP TO [●]% OF THE POST-OFFER PAID-UP EQUITY SHARE CAPITAL, FOR SUBSCRIPTION BY ELIGIBLE EMPLOYEES ("EMPLOYEE RESERVATION PORTION"). THE OFFER LESS THE EMPLOYEE RESERVATION PORTION IS HEREINAFTER REFERRED TO AS THE "NET OFFER". THE OFFER AND THE NET OFFER SHALL CONSTITUTE [●]% AND [●]% OF THE POST-OFFER PAID-UP EQUITY SHARE CAPITAL OF OUR COMPANY, RESPECTIVELY.**

**THE FACE VALUE OF EQUITY SHARES IS ₹2 EACH. THE OFFER PRICE IS [●] TIMES THE FACE VALUE OF THE EQUITY SHARES. THE PRICE BAND AND THE MINIMUM BID LOT SHALL BE DECIDED BY OUR COMPANY IN CONSULTATION WITH THE BOOK RUNNING LEAD MANAGERS AND WILL BE ADVERTISED IN ALL EDITIONS OF FINANCIAL EXPRESS, AN ENGLISH NATIONAL DAILY NEWSPAPER AND ALL EDITIONS OF JANSATTA, A HINDI NATIONAL DAILY NEWSPAPER (HINDI ALSO BEING THE REGIONAL LANGUAGE OF NEW DELHI WHERE OUR REGISTERED OFFICE IS LOCATED), EACH HAVING WIDE CIRCULATION, AT LEAST TWO WORKING DAYS PRIOR TO THE BID/ OFFER OPENING DATE AND SHALL BE MADE AVAILABLE TO THE STOCK EXCHANGES FOR THE PURPOSE OF UPLOADING ON THEIR RESPECTIVE WEBSITES IN ACCORDANCE WITH THE SEBI ICDR REGULATIONS.**

In case of any revision in the Price Band, the Bid/ Offer Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the total Bid/ Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar unforeseen circumstances, our Company, in consultation with the BRLMs, may for reasons to be recorded in writing, extend the Bid/ Offer Period for a minimum of one Working Day, subject to the total Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/ Offer Period, if applicable, will be widely disseminated by notification to the Stock Exchanges, by issuing a public notice, and also by indicating the change on the respective websites of the BRLMs and at the terminals of the Syndicate Members and by intimation to Self-Certified Syndicate Banks ("**SCSBs**"), other Designated Intermediaries and the Sponsor Bank(s), as applicable.

The Offer is being made in terms of Rule 19(2)(b) of the SCRR, read with Regulation 31 of the SEBI ICDR Regulations. The Offer is being made through the Book Building Process, in compliance with Regulation 6(2) of SEBI ICDR Regulations, wherein not less than 75% of the Net Offer shall be available for allocation on a proportionate basis to QIBs (the "**QIB Portion**"), provided that our Company, in consultation with the BRLMs, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis, in accordance with the SEBI ICDR Regulations (the "**Anchor Investor Portion**"), of which one-third shall be reserved for the domestic Mutual Funds, subject to valid Bids being received from the domestic Mutual Funds at or above the price at which allocation is made to Anchor Investors ("**Anchor Investor Allocation Price**"). In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Portion (other than Anchor Investor Portion) ("**Net QIB Portion**"). Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds ("**Mutual Fund Portion**"), and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining QIB Portion for proportionate allocation to QIBs. Further, not more than 15% of the Net Offer shall be available for allocation on a proportionate basis to Non-Institutional Bidders, of which (a) one-third of such portion shall be reserved for Bidders with application size of more than ₹200,000 and up to ₹1,000,000; and (b) two-third of such portion shall be reserved for Bidders with application size of more than ₹1,000,000, provided that the unsubscribed portion in either of such sub-categories may be allocated to Bidders in the other sub-category of Non-Institutional Bidders and not more than 10% of the Net Offer shall be available for allocation to RIBs in accordance with SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price. Further, Equity Shares will be allocated on a proportionate basis to Eligible Employees applying under the Employee Reservation Portion, subject to valid Bids received from them at or above the Offer Price. All potential Bidders, other than Anchor Investors, are required to mandatorily utilise the Application Supported by Blocked Amount ("**ASBA**") process by providing details of their respective bank account (including UPI ID (*defined hereinafter*) in case of UPI Bidders (*defined hereinafter*)) in which the corresponding Bid Amounts will be blocked by the SCSBs, or under the UPI Mechanism, as applicable to participate in the Offer. Anchor Investors are not permitted to participate in the Anchor Investor Portion through the ASBA process. For details, see "***Offer Procedure***" beginning on page 994.

**RISKS IN RELATION TO FIRST OFFER**

This being the first public issue of Equity Shares of our Company, there has been no formal market for the Equity Shares. The face value of each Equity Share is ₹2. The Floor Price, Cap Price and Offer Price determined by our Company in consultation with the BRLMs, in accordance with the SEBI ICDR Regulations and on the basis of the assessment of market demand for the Equity Shares by way of the Book Building Process as stated in "***Basis for Offer Price***" beginning on page 222 should not be taken to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active and/or sustained trading in the Equity Shares or regarding the price at which the Equity Shares will be traded after listing.

**GENERAL RISKS**

Investments in equity and equity-related securities involve a degree of risk and Bidders should not invest any funds in the Offer unless they can afford to take the risk of losing their investment. Bidders are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, Bidders must rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares in the Offer have neither been recommended, nor approved by the SEBI, nor does SEBI guarantee the accuracy or adequacy of the contents of this Red Herring Prospectus. Specific attention of the Bidders is invited to "***Risk Factors***" beginning on page 64.

**COMPANY AND SELLING SHAREHOLDERS' ABSOLUTE RESPONSIBILITY**

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Red Herring Prospectus contains all information with regard to our Company and the Offer, which is material in the context of the Offer, that the information contained in this Red Herring Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Red Herring Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect. Further, each of the Selling Shareholders, severally and not jointly, accepts responsibility for and confirms only statements expressly made by such Selling Shareholder in this Red Herring Prospectus solely in relation to itself and its respective portion of the Offered Shares and assumes responsibility that such statements are true and correct in all material respects and not misleading in any material respect. No Selling Shareholder assumes responsibility for any other statement, disclosure and undertaking, including without limitation any and all of the statements, disclosures and undertakings made or confirmed by or relating to our Company or its business, or any other Selling Shareholder or any other person(s) in this Red Herring Prospectus.

**LISTING**

The Equity Shares offered through this Red Herring Prospectus are proposed to be listed on the Stock Exchanges. Our Company has received 'in-principle' approvals from BSE and NSE for the listing of the Equity Shares pursuant to letters, each dated September 5, 2025. For the purposes of the Offer, the Designated Stock Exchange shall be NSE. A copy of this Red Herring Prospectus and the Prospectus shall be filed with the RoC in accordance with Section 26(4) and Section 32 of the Companies Act, 2013. For details of the material contracts and documents available for inspection from the date of this Red Herring Prospectus up to the Bid/ Offer Closing Date, see "***Material Contracts and Documents for Inspection***" beginning on page 1,044.

| Term | Description |
|---|---|
| UPI Bidders | Collectively, individual investors applying as Retail Individual Bidders in the Retail Portion, Eligible Employees Bidding in the Employee Reservation Portion and Non-Institutional Bidders with an application size of up to ₹500,000 in the Non-Institutional Portion, and Bidding under the UPI Mechanism through ASBA Form(s) submitted with Syndicate Members, Registered Brokers, Collecting Depository Participants and Registrar and Share Transfer Agents.<br><br>Pursuant to the SEBI ICDR Master Circular, all individual investors applying in public issues where the application amount is up to ₹500,000 shall use UPI and shall provide their UPI ID in the bid-cum-application form submitted with: (i) a syndicate member, (ii) a stock broker registered with a recognized stock exchange (whose name is mentioned on the website of the stock exchange as eligible for such activity), (iii) a depository participant (whose name is mentioned on the website of the stock exchange as eligible for such activity), and (iv) a registrar to an offer and share transfer (whose name is mentioned on the website of the stock exchange as eligible for such activity) |
| UPI Circulars | SEBI circular number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, SEBI RTA Master Circular (to the extent that such circulars pertain to the UPI Mechanism), the SEBI ICDR Master Circular and any subsequent circulars or notifications issued by SEBI in this regard, along with the circulars issued by the Stock Exchanges in this regard, including the circular issued by the NSE having reference number 25/2022 dated August 3, 2022, and the circular issued by BSE having reference number 20220803-40 dated August 3, 2022 and any subsequent circulars or notifications issued by SEBI or Stock Exchanges in this regard |
| UPI ID | ID created on the UPI for single-window mobile payment system developed by the NPCI |
| UPI Mandate Request | A request (intimating the UPI Bidders by way of a notification on the UPI linked mobile application as disclosed by SCSBs on the website of SEBI and by way of an SMS on directing the UPI Bidders to such UPI linked mobile application) to the UPI Bidders initiated by the Sponsor Bank(s) to authorise blocking of funds on the UPI application equivalent to Bid Amount and subsequent debit of funds in case of Allotment |
| UPI Mechanism | Process for applications by UPI Bidders submitted with intermediaries with UPI as mode of payment, in terms of the UPI Circulars |
| UPI PIN | Password to authenticate UPI transaction |
| "Wilful Defaulter" or "Fraudulent Borrower" | Wilful defaulter or fraudulent borrower as defined under Regulation 2(1)(lll) of the SEBI ICDR Regulations. |
| Working Day | All days on which commercial banks in Mumbai are open for business; provided however, with reference to (a) announcement of Price Band; and (b) Bid/ Offer Period, the term Working Day shall mean all days, excluding Saturdays, Sundays and public holidays, on which commercial banks in Mumbai are open for business; and (c) the time period between the Bid/ Offer Closing Date and the listing of the Equity Shares on the Stock Exchanges, "Working Day" shall mean all trading days of the Stock Exchanges, excluding Sundays and bank holidays, as per circulars issued by SEBI, including the UPI Circulars |

**Technical/ Industry Related Terms/ Abbreviations**

| Term | Description |
|---|---|
| Accessories | Clip-ons, bags, chains, contact lens solutions, frame swaps, bitz and eyedrops |
| Adaptive Lenses | Eyewear lenses that automatically adjust their tint or focus based on lighting conditions or user needs, enhancing visual comfort and performance |
| Adjustable Temple Lengths | Eyewear frames designed with extendable or customisable temple arms, allowing users to modify the length for a more comfortable and secure fit based on their head size and preference |
| Adjusted SSSG | Adjusted same-store sales growth. Adjusted SSSG is computed as the weighted average of quarterly revenue year-on-year growth for all active stores that were commissioned at least one year ago, at the beginning of a given quarter, adjusted to exclude stores which are temporarily non-comparable with base due to refurbishment, cannibalization, area reduction, or any such event which may make it incomparable with base. |
| AI-Driven Customisation | The use of artificial intelligence to personalise products based on individual preferences and needs |
| Astigmatism | An eye condition where an irregularly shaped cornea or lens causes distorted or blurred vision |
| Average Selling Price (ASP) | Ratio of value sales to unit sales |
| Awareness of Refractive Errors | An individual's understanding and recognition of their own refractive errors, such as myopia, hyperopia, astigmatism, or presbyopia, including the ability to identify symptoms and seek appropriate corrective measures |
| BharatNet | A large-scale government project in India aimed at providing high-speed broadband connectivity to rural areas, improving access to digital services, e-governance, and online education |
| Blue-Light Filtering | Lens coating designed to reduce exposure to blue light from digital screens, helping reduce eye strain |
| Boutique-Style Layouts | Store designs offering a premium, personalised shopping experience |
| CAGR (Compounded Annual Growth Rate) | Annualised growth rate for compounding values over a given time period, calculated as (Final Value/Initial Value) ^ (1/Time Period) - 1 |
| Capsule-Edition Collections | Limited-edition product lines featuring a small, curated selection of designs, often released for a specific season, collaboration, or theme, emphasising exclusivity and trend-driven appeal |
| Computer Vision | Our in-house AI-enabled Computer Vision platform which analyses CCTV footage from our retail locations |
| Contact Lenses | Lenses placed directly on the eye's surface to correct vision, used as an alternative to eyeglasses, and for aesthetic purposes (coloured contact lenses) |
| CR-39 (Columbia Resin-39) | A lightweight, cost-effective plastic material used for eyeglass lenses, known for its good optical clarity, impact resistance, and affordability. |
| Customer Conversion Rate | The percentage of visitors to a website or store who complete a purchase |

| Term | Description |
|---|---|
| Developed Markets | Highly industrialised economies with stable growth, high per capita income, advanced technological infrastructure, strong financial markets, and well-established regulatory frameworks |
| Digital Try-Ons | Digital tools that allow users to preview eyewear or other products online using augmented reality or facial recognition technology |
| Digital India | A government initiative launched by the Government of India aimed at enhancing digital infrastructure, increasing internet connectivity, and promoting digital literacy to empower citizens and businesses |
| Digital Transactions | The electronic exchange of money or financial assets between parties using digital platforms, including online banking, mobile payments, and card transactions |
| Digital-First Brands | Brands prioritising digital channel for customer acquisition, sales and retention |
| Digitally-Influenced Spending | Consumer purchasing behaviour that is shaped by digital interactions, including online research, social media influence, digital advertisements, and e-commerce platforms |
| Digitally-Influenced Sales | Retail purchases driven by digital interactions, including online research, social media influence, or digital marketing, even if the final purchase occurs in a physical store |
| Direct-to-Consumer (D2C) Models | Business model where companies sell their products or services directly to customers online or through their own stores, without relying on intermediaries, such as wholesalers, retailers, or distributors |
| Discretionary Retail | Consumer spending on non-essential goods and services, includes spending on categories such as FMCG (excl. staples) apparel, eyewear, consumer electronics, consumer appliances, general merchandise, and beauty & personal care (BPC), among others; these tend to have cyclical demand, fluctuating with economic conditions |
| Disposable Incomes | Total personal income minus taxes on income |
| EBIT | Earnings before interest and taxes |
| EBITDA | The sum of profit / (loss) for the year / period, total tax expense/(credit), finance costs and depreciation and amortisation expense |
| EBITDA excluding other income and exceptional item | The sum of profit / (loss) for the year / period, total tax expense/(credit), and exceptional item, finance costs and depreciation and amortisation expense, less other income |
| Eco-Friendly Materials | Sustainably sourced or biodegradable materials designed to minimise environmental impact throughout their lifecycle |
| Economic Diversification | The process of shifting an economy from reliance on a single sector to a broader range of industries |
| Emerging Markets | Economies that are transitioning from low-income, less developed status to modern industrial economies with higher living standards, characterised by high growth, increasing foreign investment, and expanding infrastructure |
| EPS | Earnings per share |
| Eye Care Providers | Professionals and facilities that offer clinical eye-care services (examinations, diagnosis, treatment, LASIK) and may additionally retail prescription eyewear as a secondary service |
| Eyeglasses | Consist of prescription eyeglasses, unpowered sunglasses and unpowered smart glasses |
| Eyewear | Includes eyeglasses and contact lenses (powered and unpowered) |
| Eyewear Accessories | Supplementary eyewear products such as clip-ons, lens care kits, designer cases, and interchangeable eyewear fittings |
| Eyewear Market | Retail market size for sales of frames, lenses, contact lenses and sunglasses |
| Eyewear Market Categories | The three main categories: prescription eyeglasses (frames and lenses), sunglasses, and contact lenses |
| Fashion | Fashion includes accessories, apparel and footwear |
| Fast Fashion | A business model focused on fast-paced design, production, and distribution of trendy, affordable apparel and accessories, often inspired by high-fashion trends and updated frequently to meet consumer demand |
| Financial Impact of Refractive Errors | Economic losses (e.g., productivity, healthcare costs) due to uncorrected refractive errors |
| Function-to-Fashion | A market shift where products originally designed for practicality or utility evolve into style-driven items, influencing consumer purchasing decisions based on aesthetic appeal rather than just functionality |
| GDP (Gross Domestic Product) | The total monetary value of all final goods and services produced within a country's borders over a specific period |
| GDP per Capita | The GDP divided by the total population, indicating the average economic output per person |
| General Merchandise | General Merchandise includes small household appliances (food preparation appliances, personal care appliances, irons, fans, heating appliances, small cooking appliances, lighting, etc.), home decor and furnishing, homeware, luggage, stationery, toys and games, footwear, and fashion accessories, etc. |
| Grocery | Grocery includes fresh foods such as fruits, vegetables, dairy and meat, FMCG (packaged foods and non-foods (for e.g. cleaning and laundry products)) and staples |
| Gross Margins (Retailers) | Profit percentage for retailers, calculated as (Retail Price - Wholesale Price)/Retail Price |
| High-Income Households (India) | Households in India with annual income more than ₹1.1 million (US$ 12,791) |
| High-Index Lenses | Eyeglass lenses with a higher refractive index, allowing them to be thinner and lighter than standard lenses, making them ideal for higher-power (high-dioptre) prescriptions and aesthetic appeal |
| Hyperopia | An eye condition where nearby objects appear blurry due to a shorter-than-normal eye lens |
| In-Store Personalisation | Customising the in-store shopping experience based on individual customer preferences, purchase history, or behaviour to enhance engagement and satisfaction |
| Inventory Management | The process of overseeing stock levels, tracking product flow, and optimising supply to meet demand while minimising costs and shortages |
| Just-In-Time (JIT) | A supply chain strategy where materials or products are delivered exactly when needed rather than stored in advance, minimizing inventory costs but requiring precise supplier coordination |
| Large Organised Retailers | Multi-regional retail chains with standardised operations, defined as chains with > 30 stores |

| Term | Description |
|---|---|
| LASIK (Laser-Assisted in Situ Keratomileusis) | A refractive eye surgery that uses a laser to reshape the cornea, correcting vision issues such as myopia, hyperopia, and astigmatism, reducing or eliminating the need for glasses or contact lenses |
| Lens Coatings | Specialised treatments applied to eyeglass lenses to enhance durability, functionality, and visual comfort, including anti-reflective, scratch-resistant, UV-blocking, and blue-light filtering coatings |
| Lens Customisation | The process of tailoring lenses to specific prescriptions, coatings, tints, or design preferences to meet individual vision and aesthetic needs |
| Lifestyle Retail Spending | Spending on goods enhancing personal style or leisure, notably apparel, footwear, accessories, beauty & personal care, and eyewear |
| Localised Designs | Eyewear tailored to local requirements, such as anti-fog, turban-friendly, anti-dust features |
| Lower Middle-Class Income Households (India) | Households in India with annual income between ₹0.3 to 0.8 million (US$ 3,488 to 9,302) |
| Low-Income Households (India) | Households in India with annual income less than ₹0.3 million (US$ 3,488) |
| Market Consolidation | The process by which larger, well-established companies dominate an industry through acquisitions, mergers, or competitive advantages, reducing the number of independent players in the market |
| Metro Cities | Defined as Delhi/NCR (includes New Delhi, Gurugram, Ghaziabad, Noida, and Faridabad), Hyderabad, Ahmedabad, Bengaluru, Pune, Mumbai, Chennai and Kolkata |
| Middle East | Consists of the United Arab Emirates and the Kingdom of Saudi Arabia |
| Myopia | An eye condition where distant objects appear blurry due to elongation of the eye lens |
| National Programme for Control of Blindness (NPCB) | An Indian government initiative focused on reducing the prevalence of blindness through preventive, curative, and rehabilitative eye care services, including screening, treatment, and awareness programs |
| NAV | Net asset value represents the net worth attributable to equity holders of Holding Company (on a fully diluted basis) as at the end of the financial year |
| Nominal GDP | The total market value of goods and services produced in an economy, not adjusted for inflation |
| Nuclear Households | Includes “couple only” households, “couple with children” households, and “single parent with children” households |
| Omnichannel Retail | A retail strategy that unifies consumer touch-points, including digital (website, mobile app, social media), physical (stores, kiosks, pop-ups), and remote/in-home interactions (phone orders, video or chat consultations, home-try-on, doorstep fitting and delivery) to deliver an integrated, consistent shopping and service experience throughout the customer journey |
| Optical Lens Labs | Specialised facilities where eyeglass lenses are processed from raw lens blanks, including surfacing, edging, coating, and finishing to meet prescription specifications and optical quality standards |
| Optical Store Density | The number of eyewear retail stores per million population in a given region, indicating market penetration and accessibility of optical products |
| Optometrist | A healthcare professional specialising in eye care, including vision testing, prescribing corrective lenses, and detecting eye diseases |
| Organised B&M | Organised Brick & Mortar includes the purchase of goods with large-scale, standardised operations, professional management, and regulatory adherence which provides better product assortment and access to the consumers. It includes chain stores, supermarkets, hypermarkets, malls, etc. |
| Other Retail | Other retail includes large appliances, consumer electronic, personal accessories (jewellery & watches, etc.), alcohol & tobacco, consumer health, eyewear, furniture, etc. |
| Penetration of Prescription Eyeglasses | Percentage of people with refractive errors using corrective eyewear |
| PFCE (Private Final Consumption Expenditure) | Expenditure incurred by the resident households and non-profit institutions serving households on final consumption of goods and services, whether made within or outside the economic territory |
| Polycarbonate | A high-impact-resistant, lightweight plastic material used in eyeglass lenses, offering durability, UV protection, and shatter resistance, making it ideal for sports and safety eyewear |
| Presbyopia | An age-related condition where the eye loses its ability to focus on close objects due to the hardening of the lens |
| Prescription Eyeglasses | All powered eyeglasses, sunglasses and smart glasses used for vision correction from refractive errors, reading glasses and computer vision glasses |
| Prescription Eyewear | Consists of prescription eyeglasses, prescription contact lenses and powered sunglasses |
| Powered Sunglasses | Sunglasses with vision correction lenses |
| Progressive Lenses | Multifocal lenses that provide a gradual transition between different refractive error corrections (near, intermediate, and far), includes bifocal lenses |
| Pupillary Distance (PD) | The measured distance between the centres of the pupils in millimetres, essential for correctly aligning prescription lenses within eyeglass frames to ensure optimal vision clarity |
| Purchase Frequency | Number of units of a certain product purchased in a span of 2 years |
| Pure-Play Online Retail | Retail businesses that operate exclusively through digital channels, selling products online without any physical storefronts |
| Reactive Approach | A decision-making approach in which action is taken only after an issue reaches critical stage or becomes unavoidable, rather than proactively addressing potential risks or opportunities |
| Real GDP Growth | GDP growth adjusted for inflation |
| Refractive Errors | Vision problems caused by the shape of the eye preventing light from focusing correctly on the retina. Includes myopia (near-sightedness), hyperopia (far-sightedness), astigmatism, and presbyopia |
| Retail Market | The sector encompassing businesses involved in the distribution and sale of consumer goods to end customers through various channels, including physical stores, e-commerce providers, and direct-to-consumer models |

| Term | Description |
|---|---|
| Screen Time | The total duration an individual spends using digital screens, including smartphones, computers, and televisions, often measured for health and productivity analysis |
| Single Vision Lenses | Eyeglass lenses designed to correct vision for a single focal distance, either near or far; it also includes zero power lenses, which are worn for non-corrective purposes such as reducing digital-screen eye strain (e.g., blue-light coatings), providing UV or impact protection, or serving fashion and cosmetic needs |
| Smart Glasses | Eyewear equipped with technology such as augmented reality (AR) or audio features |
| Smartphone Penetration | The percentage of a population that owns and actively uses smartphones, indicating the level of mobile technology adoption |
| SMILE (Small Incision Lenticule Extraction) | A minimally invasive laser eye surgery used to correct refractive errors such as myopia, involving the removal of a small lenticule from the cornea to reshape it and improve vision |
| Social Commerce | The buying and selling of products directly through social media networks, integrating e-commerce features such as in-app checkout, shoppable posts, and live shopping experiences |
| Southeast Asia | Consists of Singapore, Thailand, Malaysia, Vietnam, Indonesia and Philippines |
| SPSG | Same-pincode sales growth. SPSG is computed as the weighted average of quarterly revenue year-on-year growth for all Indian postal pincodes that were commissioned at least one year ago, at the beginning of a given quarter |
| Style-Conscious Consumers | Consumers who prioritise aesthetics, trends, and fashion appeal in their purchasing decisions, often valuing design and appearance over functional or economic considerations |
| Sunglasses | Eyewear designed to protect the eyes from harmful UV rays and reduce glare, available in both prescription and non-prescription forms |
| Supply Chain Agility | The ability of a supply chain to quickly adapt to changes in demand, disruptions, or market conditions while maintaining efficiency and service quality |
| Thematic Collections | Curated eyewear collections designed around a specific theme, concept, or inspiration, often reflecting cultural trends, seasonal styles, or brand storytelling |
| Tier 1 Cities | Defined as Lucknow, Raipur, Patna, Jaipur, Ranchi, Surat, Jammu, Madurai, Chandigarh, Rajkot, Nagpur, Hubli, Coimbatore, Bhubaneswar, Mangalore, Jodhpur, Gwalior, Tiruchirappalli, Indore, Visakhapatnam, Dehradun, Aurangabad, Rajahmundry, Nashik, Vadodara, Belgaum, Udaipur, Gorakhpur, Agra, Vijayawada, Jabalpur, Siliguri, Kolhapur, Bhopal, Goa, Varanasi, Bareilly, Dhanbad, Gaya |
| Tier 2+ Cities | Cities other than metro and Tier 1 in India |
| Tiered Product Strategies | A pricing and product differentiation approach where a brand offers multiple product variations at different price points to cater to diverse customer profiles and budgets |
| Trade Price | The price paid by distributors for one unit of a certain product |
| Traditional Organised Retailer (Eyewear) | Eyewear retail chains with 5-30 stores |
| Unorganised Retailers (Eyewear) | Small-scale independent eyewear retailers with 1-5 stores and informal operations |
| Upper Middle-Class Income Households (India) | Households in India with annual income between ₹0.8 to 1.1 million (US$ 9,302 to 12,791) |
| Urban | Defined as areas having at least 5,000 inhabitants, density of 400 people per sq. km. or more and at least 75% of male working population engaged in non-farm activities |
| UV Protection Awareness | Consumer recognition and understanding of the importance of protecting eyes from harmful ultraviolet (UV) rays, which can cause long-term eye damage and vision problems |
| Value-Conscious | Consumers who seek products that offer the best balance between cost and quality, emphasising affordability without compromising essential product features or durability |
| Visual Analytics | Analysis of CCTV footage using computer vision to derive insights on factory floor operations, store operations and customer behaviour |
| Value-Focused Retailers | Retail businesses that prioritise affordability while maintaining product quality, catering to budget-conscious consumers |
| Vision 2020 - The Right to Sight | A global initiative launched by the World Health Organisation (WHO) and the International Agency for the Prevention of Blindness (IAPB) to eliminate avoidable blindness through improved eye care access and public health strategies |
| World Council of Optometry (WCO) | A global organisation responsible for setting professional standards, promoting eye health awareness, and advocating for the advancement of optometry as a primary healthcare profession worldwide |

**Key Performance Indicators (*under the section titled "Basis for Offer Price" beginning on page 222*)**

| Term | Description |
|---|---|
| Annual/ Quarterly Transacting Customer Accounts | Annual/ Quarterly Transacting Customer Accounts refers to accounts which have transacted at least once on any of our online or offline channels in a given Financial Year/ Quarter |
| EBITDA excluding other income and exceptional item | EBITDA excluding other income and exceptional item is computed as the sum of profit / (loss) for the year / period, tax expenses/(credit), exceptional item finance cost and depreciation and amortisation expense reduced by other income |
| EBITDA excluding other income and exceptional item Margin (%) | EBITDA excluding other income and exceptional item Margin is computed as EBITDA excluding other income and exceptional item divided by revenue from operations |
| India – Segment Product Margin | India – Segment Product Margin refers to Segment Total Revenue as per Ind AS 108 less the sum of segment cost of raw material and components consumed, segment purchase of stock in trade and segment changes in inventory of traded and finished goods. This is computed on a pre-intersegment elimination basis |

| Term | Description |
|---|---|
| India – Segment Product Margin % | India – Segment Product Margin % is computed by dividing Segment product margin by Segment Total revenue as per Ind AS 108 |
| India – Segment Results Pre-depreciation and Amortisation | India – Segment Results Pre-depreciation and Amortisation is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and Segment Depreciation and amortization expense. This is computed on a pre-intersegment elimination basis |
| India – Segment Results Pre-depreciation and Amortisation Margin (%) | India – Segment Results Pre-depreciation and Amortisation Margin (%) is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and Segment Depreciation and amortization expense divided by Segment Total revenue as per Ind AS 108. This is computed on a pre-intersegment elimination basis |
| India – Segment Total Revenue as per Ind AS 108 | India - Segment Total Revenue as per Ind AS 108 refers to India - segment revenue recognized in accordance with Ind AS pre-intersegment elimination |
| India – Segment Total Revenue as per Ind AS 108 growth | India - Segment Total Revenue as per Ind AS 108 growth represents the percentage growth in India - Segment Total Revenue as per Ind AS 108 of the relevant financial year over the India - Segment Total Revenue as per Ind AS 108 of the previous financial year |
| International – Segment Product Margin | International – Segment Product Margin refers to Segment Total Revenue as per Ind AS 108 less the sum of segment cost of raw material and components consumed, segment purchase of stock in trade and segment changes in inventory of traded and finished goods. This is computed on a pre-intersegment elimination basis |
| International – Segment Product Margin % | International – Segment Product Margin (%) is computed by dividing Segment product margin by Segment Total revenue as per Ind AS 108 |
| International – Segment Results Pre-depreciation and Amortisation | International – Segment Results Pre-depreciation and Amortisation is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and International – Segment Depreciation and amortization expense. This is computed on a pre-intersegment elimination basis |
| International – Segment Results Pre-depreciation and Amortisation Margin (%) | International – Segment Results Pre-depreciation and Amortisation Margin (%) is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and Segment Depreciation and amortization expense divided by Segment Total revenue as per Ind AS 108. This is computed on a pre-intersegment elimination basis |
| International – Segment Total Revenue as per Ind AS 108 | International - Segment Total Revenue as per Ind AS 108 Refers to International - segment revenue recognized in accordance with Ind AS |
| International – Segment Total Revenue as per Ind AS 108 growth | International - Segment Total Revenue as per Ind AS 108 growth represents the percentage growth in International - Segment Total Revenue as per Ind AS 108 of the relevant financial year over the International - Segment Total Revenue as per Ind AS 108 of the previous financial year |
| Net Working Capital Days | Net Working Capital Days is computed as the ratio of the sum of closing trade receivables and inventories, less trade payables to revenue from operations for the relevant year, multiplied by 365 |
| Number of Eyewear Units Sold | Number of Eyewear Units Sold refers to the total quantity of eyeglasses, sunglasses and contact lenses sold in a given Financial Year |
| Product Margin | Product Margin is computed as revenue from operations less the sum of cost of raw material and components consumed, purchase of stock in trade and changes in inventory of traded and finished goods |
| Product Margin % | Product Margin % is computed by dividing Product Margin by revenue from operations |
| Profit/(Loss) before Tax | Profit/(Loss) before Tax is Profit/ (loss) for the year / period before adjusting for tax expense/(credit) |
| Profit/(Loss) for the year / period | Profit/ (Loss) for the year / period after adjusting for tax expense/(credit) |
| Return on Capital Employed | Return on Capital Employed is computed as EBIT divided by capital employed with EBIT being computed as the sum of restated profit/(loss) for the year / period, tax expense/ (credit) and finance costs; capital employed being computed as the sum of total equity and current and non-current borrowings and deferred tax liabilities less goodwill and other intangible assets, intangible assets under development and deferred tax assets |
| Revenue from Operations | Refers to revenue recognized in accordance with Ind AS |
| Revenue from Operations Growth | Revenue from operations growth represents the percentage growth in Revenue from Operations of the relevant financial year over Revenue from Operations of the previous financial year |
| Total Stores | Total Stores includes all store formats (i.e., CoCo, FoFo and CoFo) |

**Conventional and General Terms or Abbreviations**

| Term | Description |
|---|---|
| "₹" or "Rs" or "INR" or "Rupees" | Indian rupees |
| AGM | Annual general meeting |
| AIF | An alternative investment fund as defined in and registered with SEBI under the SEBI AIF Regulations |
| BSE | BSE Limited |
| CAGR | Compounded annual growth rate |
| Category I AIF | AIFs registered as "Category I Alternative Investment Funds" under the SEBI AIF Regulations |
| Category I FPI | FPIs registered as "Category I foreign portfolio investors" under the SEBI FPI Regulations |
| Category II AIF | AIFs registered as "Category II Alternative Investment Funds" under the SEBI AIF Regulations |
| Category II FPI | FPIs registered as "Category II foreign portfolio investors" under the SEBI FPI Regulations |
| Category III AIF | AIFs registered as "Category III Alternative Investment Funds" under the SEBI AIF Regulations |
| CCPS | Compulsorily convertible cumulative preference shares |
| CCNPS | Compulsorily convertible non-cumulative preference shares |
| CDSL | Central Depository Services (India) Limited |
| CIN | Corporate identity number |
| CIT | Commissioner of income tax |
| Companies Act | Companies Act, 1956 and Companies Act, 2013, as applicable |
| Companies Act, 1956 | The erstwhile Companies Act, 1956 along with the relevant rules made thereunder |

| Term | Description |
|---|---|
| Companies Act, 2013 | Companies Act, 2013, along with the relevant rules, regulations, clarifications, circulars and notifications issued thereunder, as amended |
| Consolidated FDI Policy | Consolidated foreign direct investment policy notified by the DPIIT under DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, effective from October 15, 2020 |
| CSR | Corporate social responsibility |
| Depositories | Together, NSDL and CDSL |
| Depositories Act | The Depositories Act, 1996, read with regulations framed thereunder |
| DIN | Director identification number |
| DP ID | Depository participant's identity number |
| "DP" or "Depository Participant" | A depository participant as defined under the Depositories Act |
| DPIIT | Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as Department of Industrial Policy and Promotion) |
| EGM | Extraordinary general meeting |
| FCNR | Foreign currency non-resident account |
| FDI | Foreign direct investment |
| FEMA | Foreign Exchange Management Act, 1999, read with rules and regulations thereunder |
| FEMA NDI Rules | Foreign Exchange Management (Non-debt Instrument) Rules, 2019 |
| "Financial Year" or "Fiscal" or "Fiscal Year" or "FY" | The period of 12 months commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year |
| FIR | First information report |
| FPI(s) | Foreign portfolio investors as defined under the SEBI FPI Regulations |
| FVCI | Foreign venture capital investors as defined and registered under the SEBI FVCI Regulations |
| GDP | Gross domestic product |
| "GoI" or "Government" or "Central Government" | The government of India |
| GST | Goods and services tax |
| HUF | Hindu undivided family |
| ICAI | The Institute of Chartered Accountants of India |
| ICSI | Institute of Company Secretaries of India |
| IFRS | International financial reporting standards of the International Accounting Standards Board |
| Income Tax Act | Income Tax Act, 1961 |
| Income Tax Rules | Income Tax Rules, 1962 |
| "Ind AS" or "Indian Accounting Standards" | Indian accounting standards notified under section 133 of the Companies Act, 2013, read with the Companies (Indian Accounting Standard) Rules, 2015 and other relevant provisions of the Companies Act, 2013 |
| Ind AS 108 | Indian Accounting Standard 108 – Operating Segments |
| India | Republic of India |
| Indian GAAP | Accounting standards notified under section 133 of the Companies Act, 2013, read with Companies (Accounting Standards) Rules, 2006 and the Companies (Accounts) Rules, 2014 |
| IRDAI | Insurance Regulatory and Development Authority of India |
| IST | Indian standard time |
| IT | Information technology |
| IT Act | Information Technology Act, 2000 |
| KMP | Key managerial personnel |
| KYC | Know your customer |
| LLP | Limited liability partnership |
| MCA | Ministry of Corporate Affairs, Government of India |
| Mn | Million |
| MSMEs | Micro, small and medium enterprises |
| N.A. | Not applicable |
| NACH | National Automated Clearing House |
| National Investment Fund | National Investment Fund set up by resolution F. No. 2/3/2005-DD-II dated November 23, 2005 of the GoI, published in the Gazette of India |
| NEFT | National electronic fund transfer |
| NPCI | National Payments Corporation of India |
| NRE | Non-resident external |
| NRE Account | NRE account |
| NRI | A person resident outside India, who is a citizen of India or an overseas citizen of India cardholder within the meaning of section 7(A) of the Citizenship Act, 1955 |
| NRO | Non-resident ordinary |
| NSDL | National Securities Depository Limited |
| NSE | National Stock Exchange of India Limited |
| "OCB" or "Overseas Corporate Body" | A company, partnership, society or other corporate body owned directly or indirectly to the extent of at least 60% by NRIs including overseas trusts, in which not less than 60% of beneficial interest is irrevocably held by NRIs directly or indirectly and which was in existence on October 3, 2003 and immediately before such date was eligible to undertake transactions pursuant to general permission granted to OCBs under FEMA. OCBs are not allowed to invest in the Offer |
| p.a. | Per annum |
| P/E Ratio | Price/earnings ratio |

| Term | Description |
|---|---|
| PAN | Permanent account number |
| PAT | Profit after tax |
| RBI | Reserve Bank of India |
| RBI Act | The Reserve Bank of India Act, 1934, as amended |
| Regulation S | Regulation S under the U.S. Securities Act |
| RoNW | Return on net worth |
| RTGS | Real time gross settlement |
| Rule 144A | Rule 144A under the U.S. Securities Act |
| SCRA | Securities Contracts (Regulation) Act, 1956 |
| SCRR | Securities Contracts (Regulation) Rules, 1957 |
| SEBI | Securities and Exchange Board of India constituted under the SEBI Act, 1992 |
| SEBI Act | Securities and Exchange Board of India Act, 1992 |

## CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF PRESENTATION

### Certain Conventions

All references in this Red Herring Prospectus to 'India' are to the Republic of India and its territories and possessions and all references herein to the 'Government', 'Indian Government', 'GoI', 'Central Government' or the 'State Government' are to the Government of India, central or state, as applicable. All references to:

- "U.S.", "US", "U.S.A." or "United States" are to the United States of America and its territories and possessions;
- "Singapore" are to Singapore and its territories and possessions;
- "Japan" are to Japan and its territories and possessions;
- "Malaysia" are to Malaysia and its territories and possessions;
- "Hong Kong" are to Hong Kong and its territories and possessions;
- "Kingdom of Saudi Arabia" or "Saudi Arabia" are to the Kingdom of Saudi Arabia and its territories and possessions;
- "China" are to the People's Republic of China and its territories and possessions;
- "Thailand" are to Thailand and its territories and possessions;
- "United Arab Emirates" or "UAE" are to the United Arab Emirates and its territories and possessions;
- "Vietnam" are to Vietnam and its territories and possessions;
- "Indonesia" are to Indonesia and its territories and possessions; and
- "Spain" are to the Kingdom of Spain and its territories and possessions.

Unless stated otherwise, all information in this Red Herring Prospectus is as of the date of this Red Herring Prospectus and any time mentioned in this Red Herring Prospectus is in IST. Unless indicated otherwise, all references to a 'year' in this Red Herring Prospectus are to a calendar year.

Unless stated otherwise, all references to page numbers in this Red Herring Prospectus are to the corresponding page numbers of this Red Herring Prospectus.

### Currency and Units of Presentation

All references to:

- "Rupee(s)", "Rs." or "₹" or "INR" are to the Indian Rupee, the official currency of the Republic of India;
- "AED" or "UAE Dirhams" are to the United Arab Emirates Dirham, the official currency of United Arab Emirates;
- "EUR" or "€" are to Euro, the official currency of the European Union;
- "HKD" are to the Hong Kong Dollar, the official currency of Hong Kong;
- "IDR" are to the Indonesian Rupiah, the official currency of Indonesia;
- "JPY" are to the Japanese Yen, the official currency of Japan;
- "MYR" are to the Malaysian Ringgit, the official currency of Malaysia;
- "RMB" or "¥" are to the Renminbi, the official currency of China;
- "SGD" are to the Singapore Dollar, the official currency of Singapore;
- "THB" are to the Thai Baht, the official currency of the Kingdom of Thailand;
- "US$" or "U.S. Dollars" or "USD" or "$" are to the United States Dollar, the official currency of the United States of America; and
- "VND" are to the Vietnamese dong, the official currency of Vietnam.

**Exchange Rates**

This Red Herring Prospectus contains conversion of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the periods indicated, information with respect to the exchange rate between the Rupee, AED, EUR, HKD, IDR, JPY, MYR, RMB, SGD, THB, USD and VND:

| Currency | Rupee, as at | | | | |
|---|---|---|---|---|---|
| | June 30, 2025 | June 30, 2024 | March 31, 2025 | March 31, 2024 | March 31, 2023 |
| 1 AED | 23.31 | 22.69 | 23.28 | 22.69 | 22.36 |
| 1 EUR | 100.54 | 89.29 | 92.32 | 90.22 | 89.61 |
| 1 HKD | 10.91 | 10.68 | 11.00 | 10.65 | 10.47 |
| 1 IDR | 0.0053 | 0.0051 | 0.0051 | 0.0052 | 0.0055 |
| 1 JPY | 0.59 | 0.52 | 0.57 | 0.55 | 0.62 |
| 1 MYR | 20.30 | 17.66 | 19.27 | 17.61 | 18.57 |
| 1 RMB | 11.91 | 11.47 | 11.77 | 11.53 | 11.94 |
| 1 SGD | 67.23 | 61.47 | 63.69 | 61.67 | 61.83 |
| 1 THB | 2.63 | 2.27 | 2.51 | 2.29 | 2.40 |
| 1 USD | 85.62 | 83.36 | 85.58 | 83.37 | 82.22 |
| 1 VND | 0.0033 | 0.0033 | 0.0033 | 0.0034 | 0.0035 |

*Source: www.rbi.org.in, www.oanda.com and www.fbil.org.in.*

*Note: The exchange rates are rounded off to two decimal places and in case March 31 of any of the respective years is a public holiday, the previous Working Day not being a public holiday has been considered.*

**Financial and Other Data**

Our Company's Financial Year commences on April 1 and ends on March 31 of the next calendar year. Unless stated otherwise, all references in this Red Herring Prospectus to the terms Fiscal, Fiscal Year or Financial Year are to the 12 month period commencing on April 1 and ending on March 31 of the next calendar year.

Unless stated or the context requires otherwise, the financial information in this Red Herring Prospectus is derived from our Restated Consolidated Financial Information For more information, please see "***Financial Information***" beginning on 398.

The Restated Consolidated Financial Information of our Company comprising of the restated consolidated balance sheet as at June 30, 2025, June 30, 2024 and as at March 31, 2025, March 31, 2024 and March 31, 2023, the restated consolidated statement of profit and loss (including other comprehensive income), the restated consolidated statement of changes in equity and the restated consolidated statement of cash flows for the three months period ended June 30, 2025, June 30, 2024 and Financial Years ended March 31, 2025, March 31, 2024 and March 31, 2023, the summary statement of significant accounting policies, and other explanatory information based on audited financial statements and as at for the financial years ended March 31, 2025, March 31, 2024 and March 31, 2023, prepared in accordance with Ind AS and our audited interim consolidated financial statements for the three months period ended June 30, 2025 and June 30, 2024 prepared in accordance with Ind AS 34 and each restated in terms of the requirements of Section 26 of Part I of Chapter III of the Companies Act and SEBI ICDR Regulations and the Guidance Note on "Reports in Company Prospectuses (Revised 2019)" issued by ICAI, as amended from time to time.

We have also included in this Red Herring Prospectus, the Unaudited Proforma Financial Information of our Company, comprising of unaudited proforma balance sheet as at June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, and unaudited proforma statement of profit and loss for the period ended June 30, 2025, and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023, read with the select explanatory notes thereon. The unaudited proforma financial information has been prepared by our Company to illustrate the impact of the acquisitions of Dealskart Online Services Private Limited on financial position at March 31, 2024 and March 31, 2023 as if such acquisition had taken place as at March 31, 2024 and March 31, 2023 respectively and on our results of operations for the years ended March 31, 2025, March 31, 2024 and March 31, 2023 as if such acquisition had taken place as at April 1, 2024, April 1, 2023 and April 1, 2022 respectively and to illustrate the impact of acquisition of Stellio Ventures, S.L. and Quantduo Technologies Private Limited as if the acquisitions had taken place on June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, respectively, for the purpose of the unaudited proforma balance sheet as at June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 respectively, and on April 1, 2025, April 1, 2024, April 1, 2023 and April 1, 2022, respectively, for the purpose of the unaudited proforma statement of profit and loss for the three months period ended June 30, 2025, and for Financial Years ended March 31, 2025, March 31, 2024 and March 31, 2023 respectively.

Financial information for the three months period ended June 30, 2025 may not be indicative of the financial results for the full year and are not comparable with financial information for the financial years ended March 31, 2025, March 31, 2024, and March 31, 2023 and has not been annualised.

Also see, "***Risk Factors – The Unaudited Proforma Financial Information included in this Red Herring Prospectus which has been prepared to illustrate the effects of the acquisition of Dealskart Online Services Private Limited during the Financial Year 2025 and the acquisitions of Stellio Ventures, S.L. and Quantduo Technologies Private Limited during the***

***Financial Year 2026 on our Restated Consolidated Financial Information is not indicative of our expected results of operations in future periods or our future financial position or a substitute for our past results***." on page 95.

There are significant differences between Ind AS, U.S. GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices in relation to the financial disclosures presented in this Red Herring Prospectus should, accordingly, be limited. For risks relating to significant differences between Ind AS and other accounting principles, see "***Risk Factors – Significant differences exist between Ind AS used to prepare our financial information and other accounting principles, such as IFRS and U.S. GAAP, with which investors may be more familiar***." on page 108.

All the figures in this Red Herring Prospectus have been presented in million or in whole numbers where the numbers have been too small to present in million unless stated otherwise. One million represents 1,000,000 and one billion represents 1,000,000,000. Certain figures contained in this Red Herring Prospectus, including financial information, have been subject to rounding adjustments. Any discrepancies in any table between the totals and the sum of the amounts listed are due to rounding off. All figures in decimals have been rounded off to two decimal points. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given, and (ii) the sum of the figures in a column or row in certain tables may not conform exactly to the total figure given for that column or row. However, figures sourced from third-party industry sources may be expressed in denominations other than million or may be rounded off to other than two decimal points in the respective sources, and such figures have been expressed in this Red Herring Prospectus in such denominations or rounded-off to such number of decimal points as provided in such respective sources.

Unless the context otherwise indicates, any percentage amounts (except certain operational metrics), as set forth in "***Risk Factors***", "***Our Business"*** and "***Management's Discussion and Analysis of Financial Condition and Results of Operations***" beginning on pages 64, 287 and 904, respectively, and elsewhere in this Red Herring Prospectus, have been calculated on the basis of amounts derived from the Restated Consolidated Financial Information.

**Non-Generally Accepted Accounting Principles and Financial Measures**

In addition to our results determined in accordance with Ind AS, we use a variety of financial and operational performance measures like Product Margin and Product Margin %, Net worth, Return on Net Worth, EBIT, EBITDA, EBITDA excluding Other Income and Exceptional Item, EBITDA excluding Other Income and Exceptional Item Margin %, Capital Employed and Return on Capital Employed, Net Working Capital and Net Working Capital Days, Debt Service Coverage Ratio and Interest Coverage Ratio, NAV Per Share, India Segment Total revenue as per Ind AS 108, India Segment Total revenue growth %, International Segment Total revenue as per Ind AS 108, International Segment Total revenue growth %, India Segment results pre depreciation and amortisation, India Segment results pre depreciation and amortisation %, India Segment Product Margin and India Segment Product Margin %, International Segment results pre depreciation and amortisation, International Segment results pre depreciation and amortisation %, International Segment Product Margin and International Segment Product Margin % ("**Non-GAAP Measures**") presented in this Red Herring Prospectus which are a supplemental measure of our performance and are not required by, or presented in accordance with, Ind AS, Indian GAAP, or IFRS. Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, or IFRS and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the year/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, or IFRS. In addition, these Non-GAAP Measures are not a standardised term, hence a direct comparison of similarly titled Non-GAAP Measures between companies may not be possible. Other companies may calculate the Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. Although the Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it is useful to a bidder in evaluating us because it is a widely used measure to evaluate a company's operating performance. See "***Risk Factors*** – ***Certain non-generally accepted accounting principle financial measures and other statistical information relating to our operations and financial performance have been included in this Red Herring Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable with those presented by other companies****"* on page 103.

**Industry and Market Data**

Unless stated otherwise, industry and market data used throughout this Red Herring Prospectus has been obtained from various industry publications and sources, including the report titled '*Industry Report on the Eyewear Market*' dated October 15, 2025 issued by Redseer, which has been paid for and commissioned by our Company for an agreed fee and which will be available on the website of our Company at https://www.lenskart.com/corporate/investorrelations from the date of this Red Herring Prospectus until the Bid/ Offer Closing Date. The Redseer Report has been exclusively commissioned and paid for by our Company for the purposes of confirming our understanding of the industry in which our Company operates, in connection with the Offer and was appointed by our Company pursuant to an engagement letter dated February 12, 2025. Redseer is an independent agency which has no relationship with our Company, any of our Promoters or Directors or the Book Running Lead

Managers and is not a related party with respect to us, as per the definition of "related party" provided under the Companies Act, 2013 and the SEBI Listing Regulations.

Industry publications generally state that the information contained in such publications has been obtained from publicly available documents from various sources which are believed to be reliable but accuracy, completeness and relevance of such information shall be subject to the context and underlying assumptions of such sources. Although the industry and market data used in this Red Herring Prospectus is reliable, the data used in these sources may have been re-classified by us for the purposes of presentation. Data from these sources may also not be comparable.

Industry sources and publications may base their information on estimates and assumptions that may prove to be incorrect. The extent to which the industry and market data presented in this Red Herring Prospectus is meaningful depends upon the reader's familiarity with, and understanding of, the methodologies used in compiling such information. There are no standard data gathering methodologies in the industry in which our Company conducts business and methodologies and assumptions may vary widely among different market and industry sources. Such information involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in "***Risk Factors***" beginning on page 64.

References to various segments in the Redseer Report and information derived therefrom are references to industry segments in accordance with the presentation, analysis and categorisation in the Redseer Report. Our segment reporting in our financial statements is based on the criteria set out in Ind AS 108: Operating Segments, and we do not present such industry segments as operating segments.

**Notice to Prospective Investors in the United States**

The Equity Shares have not been recommended by any U.S. federal or state securities commission or regulatory authority. Furthermore, the foregoing authorities have not confirmed the accuracy or determined the adequacy of this Red Herring Prospectus or approved or disapproved the Equity Shares. Any representation to the contrary is a criminal offence in the United States. In making an investment decision, investors must rely on their own examination of our Company and the terms of the Offer, including the merits and risks involved. The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act or any other applicable law of the United States and, unless so registered, may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws in the United States. Accordingly, the Equity Shares are being offered and sold (a) within the United States only to persons reasonably believed to be "qualified institutional buyers" (as defined in Rule 144A under the U.S. Securities Act and referred to in this Red Herring Prospectus as "**U.S. QIBs**"; for the avoidance of doubt, the term U.S. QIBs does not refer to a category of institutional investor defined under applicable Indian regulations and referred to in this Red Herring Prospectus as "**QIBs**") pursuant to Section 4(a) of the U.S. Securities Act and (b) outside the United States in "offshore transactions" as defined in, and in compliance with, Regulation S under the U.S. Securities Act ("**Regulation S**") and, in each case, in compliance with the applicable laws of the jurisdiction where those offers and sales are made. See "***Other Regulatory and Statutory Disclosures – Eligibility and Transfer Restrictions***" on page 964.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made, by persons in any such jurisdiction except in compliance with the applicable laws of such jurisdiction.

**Notice to Prospective Investors in the European Economic Area**

This Red Herring Prospectus is not a prospectus for the purposes of Regulation (EU) 2017/1129, as amended (the "**Prospectus Regulation**"). This Red Herring Prospectus has been prepared on the basis that any offer to the public of Equity Shares in any Member State of the European Economic Area (the "**EEA**") (each a "**Member State**") will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus.

Accordingly, any person making or intending to make an offer to the public in any Member State of Equity Shares which are the subject of the Offer contemplated in this Red Herring Prospectus may only do so in circumstances in which no obligation arises for our Company, the Selling Shareholders or any of the BRLMs to publish a prospectus pursuant to Article 3 of the Prospectus Regulation in relation to such offer. None of our Company, the Selling Shareholders or the BRLMs have authorised, nor do they authorise, the making of any offer of Equity Shares through any financial intermediary, other than the offers made by the Book Running Lead Managers which constitute the final placement of Equity Shares contemplated in this Red Herring Prospectus.

For the purposes of this provision, the expression an "offer to the public" in relation to the Equity Shares in any Member State means the communication in any form and by any means of sufficient information on the terms of the Offer and any Equity Shares to be offered so as to enable an investor to decide to purchase or subscribe for any Equity Shares.

**Information to EEA Distributors (as defined below)**

Solely for the purposes of the product governance requirements contained within: (a) EU Directive 2014/65/EU on markets in financial instruments, as amended ("**MiFID II**"); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593

supplementing MiFID II; and (c) local implementing measures (together, the "**MiFID II Product Governance Requirements**"), and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any "manufacturer" (for the purposes of the MiFID II Product Governance Requirements) may otherwise have with respect thereto, the Equity Shares have been subject to a product approval process, which has determined that such Equity Shares are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in MiFID II; and (ii) eligible for distribution through all distribution channels as are permitted by MiFID II (the "**Target Market Assessment**"). Notwithstanding the Target Market Assessment, "distributors" (for the purposes of the MiFID II Product Governance Requirements) ("**EEA Distributors**") should note that: the price of the Equity Shares may decline and investors could lose all or part of their investment; the Equity Shares offer no guaranteed income and no capital protection; and an investment in the Equity Shares is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Offer. Furthermore, it is noted that, notwithstanding the Target Market Assessment, the Book Running Lead Managers will only procure investors who meet the criteria of professional clients and eligible counterparties.

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of MiFID II; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the Equity Shares. Each EEA Distributor is responsible for undertaking its own target market assessment in respect of the Equity Shares and determining appropriate distribution channels.

**Notice to Prospective Investors in The United Kingdom**

This Red Herring Prospectus is not a prospectus for the purposes of Regulation (EU) 2017/1129 as it forms part of domestic law in the United Kingdom (the "**UK Prospectus Regulation**"). This Red Herring Prospectus has been prepared on the basis that any offer to the public of Equity Shares in the United Kingdom will be made pursuant to an exemption under the UK Prospectus Regulation from the requirement to publish a prospectus. Accordingly, any person making or intending to make an offer to the public within the United Kingdom of Equity Shares which are the subject of the Offer contemplated in this Red Herring Prospectus should only do so in circumstances in which no obligation arises for our Company, the Selling Shareholders or any of the BRLMs to publish a prospectus pursuant to Section 85 of the United Kingdom's Financial Services and Markets Act 2000, as amended (the "**FSMA**") in relation to such offer. None of our Company, the Selling Shareholders or the BRLMs have authorized, nor do they authorize, the making of any offer of Equity Shares through any financial intermediary, other than the offers made by the members of the Syndicate which constitute the final placement of Equity Shares contemplated in this Red Herring Prospectus.

The communication of this Red Herring Prospectus and any other document or materials relating to the issue of the Equity Shares offered hereby is not being made, and this Red Herring Prospectus and such other documents and/or materials have not been approved, by an authorized person for the purposes of Section 21 of the FSMA. Accordingly, this Red Herring Prospectus and such other documents and/or materials are not being distributed to, and must not be passed on to, the general public in the United Kingdom. This Red Herring Prospectus and such other documents and/or materials are for distribution only to persons who (i) have professional experience in matters relating to investments and who fall within the definition of investment professionals (as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "**Financial Promotion Order**")), (ii) fall within Article 49(2)(a) to (d) of the Financial Promotion Order, (iii) are outside the United Kingdom, or (iv) are other persons to whom it may otherwise lawfully be communicated or distributed under the Financial Promotion Order (all such persons together being referred to as "**relevant persons**"). This Red Herring Prospectus and any such other documents and/or materials are directed only at relevant persons and must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which this Red Herring Prospectus and any such other documents and/or materials relate will be engaged in only with relevant persons. Any person in the United Kingdom that is not a relevant person should not act or rely on this Red Herring Prospectus or any other documents and/or materials relating to the issue of the Equity Shares offered hereby or any of their contents.

For the purposes of this provision, the expression an '*offer to the public*' in relation to the Equity Shares in the United Kingdom means the communication in any form and by any means of sufficient information on the terms of the Offer and any Equity Shares to be offered so as to enable an investor to decide to purchase or subscribe for any Equity Shares.

**Information to UK Distributors**

Solely for the purposes of the product governance requirements contained within the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**"), and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any "manufacturer" (for the purposes of the UK MiFIR Product Governance Rules) may otherwise have with respect thereto, the Equity Shares have been subject to a product approval process, which has determined that such Equity Shares are: (i) compatible with an end target market of: (a) investors who meet the criteria of professional clients as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law; (b) eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook ("**COBS**"); and (c) retail clients who do not meet the definition of professional client under (a) or eligible counterparty per (b); and (ii) eligible for distribution through all distribution channels as permitted by the UK MiFIR Productive Governance Rules (the "**Target Market Assessment**"). Notwithstanding the Target Market Assessment, distributors (for the purposes of the UK MiFIR Product

Governance Rules) ("**UK Distributors**") should note that: the price of the Equity Shares may decline and investors could lose all or part of their investment; the Equity Shares offer no guaranteed income and no capital protection; and an investment in the Equity Shares is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Offer.

Furthermore, it is noted that, notwithstanding the Target Market Assessment, the Book Running Lead Managers will only procure investors who meet the criteria of professional clients and eligible counterparties.

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of COBS 9A and COBS 10A respectively; or (b) a recommendation to any investor or group of investors to invest in, or purchase or take any other action whatsoever with respect to the Equity Shares. Each UK Distributor is responsible for undertaking its own target market assessment in respect of the Equity Shares and determining appropriate distribution channels.

**Available Information**

Our Company is not currently required to file periodic reports under Section 13 or 15 of the Securities Exchange Act of 1934, as amended (the "**U.S. Exchange Act**"). In order to permit compliance with Rule 144A under the U.S. Securities Act in connection with the resales of the Equity Shares, we agree to furnish upon the request of a shareholder or a prospective purchaser the information required to be delivered under Rule 144A(d)(4) of the U.S. Securities Act if at the time of such request we are not a reporting company under Section 13 or Section 15(d) of the U.S. Exchange Act, or are not exempt from reporting pursuant to Rule 12g3-2(b) thereunder.

## FORWARD-LOOKING STATEMENTS

This Red Herring Prospectus contains certain "forward-looking statements". All statements regarding our expected financial condition and results of operations, business, plans and prospects are forward-looking statements, which include statements with respect to our business strategy, our revenue and profitability, our goals and other matters discussed in this Red Herring Prospectus regarding matters that are not historical facts. These forward-looking statements generally can be identified by words or phrases such as ***"aim", "anticipate", "achieve", "believe", "goal", "expect", "estimate", "intend", "likely to", "objective", "plan", "project", "propose", "should", "shall" "will", "will continue", "seek to", "will pursue"*** or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, prospects, plans or goals are also forward-looking statements. All forward-looking statements are based on our current plans, estimates, presumptions and expectations and are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

Actual results may differ materially from those suggested by the forward-looking statements due to risks or uncertainties associated with the expectations with respect to, but not limited to, regulatory changes pertaining to the industry in which our Company has businesses and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and globally which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in laws, incidence of any natural calamities and/or acts of violence, regulations and taxes and changes in competition in our industry.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

1. Our cost of raw materials consumed constitutes a significant portion of our expenses (amounting to ₹4,673.39 million, or 25.45% and ₹16,229.74 million, or 24.52%, of our total expenses in the three months ended June 30, 2025 and the Financial Year 2025, respectively) and delays, interruptions or reduction in the supply of raw materials to manufacture our prescription eyeglasses or fluctuations in the prices of our raw materials could adversely affect our business, results of operations, financial condition and cash flows.

2. We manufacture some of our frames in, and import some of our raw materials from, the People's Republic of China, including through Baofeng Framekart Technology Limited, our Joint Venture. Any delay, interruption or reduction in the supply of such frames or other raw materials could adversely affect our business, financial condition, results of operations and cash flows

3. An inability to maintain or improve our capacity utilization levels at our manufacturing facilities could have an adverse effect on our business, results of operations, financial condition and cash flows

4. The Directorate of Enforcement, Gurugram under the Foreign Exchange Management Act, 1999, requested us for certain information and documents. While we have provided such requested documents, we cannot assure you that no regulatory or other actions will be initiated against our Company in the future, in relation to such orders, which could adversely affect our business, reputation, results of operations, financial condition and cash flows

5. Our manufacturing facilities are subject to environmental, health, and safety laws and regulations that impose significant compliance costs and liabilities on our operations, and any non-compliance or violation could expose us to legal actions, penalties, and reputational harm.

For a further discussion of factors that could cause our actual results to differ from our expectations, see "***Risk Factors***", "***Our Business***" and "***Management's Discussion and Analysis of Financial Condition and Results of Operations***" beginning on pages 64, 287 and 904, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

Forward-looking statements reflect our views as of the date of this Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management's beliefs and assumptions, which in turn are based on the currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. None of our Company, Directors, the Selling Shareholders, and the BRLMs or their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. There can be no assurance to Bidders that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, Bidders are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

In accordance with the requirements of the SEBI ICDR Regulations, our Company shall ensure that Bidders in India are informed of material developments, in relation to statements and undertakings confirmed and undertaken by our Company,

from the date thereof until the time of the grant of listing and trading permission by the Stock Exchanges for the Offer. In accordance with the requirements of the SEBI ICDR Regulations, each of the Selling Shareholders shall, severally and not jointly, ensure that our Company and BRLMs are informed of material developments, solely to the extent of statements specifically made or confirmed by such Selling Shareholder in relation to itself or its portion of Offered Shares in this Red Herring Prospectus, from the date of this Red Herring Prospectus thereof until the time of the grant of listing and trading permission by the Stock Exchanges for the Offer. Only statements and undertakings which are specifically confirmed or undertaken by the Selling Shareholders, as the case may be, in this Red Herring Prospectus shall, severally and not jointly, deemed to be statements and undertakings made by such Selling Shareholders.

## SUMMARY OF THE OFFER DOCUMENT

*The following is a general summary of the terms of the Offer and is neither exhaustive, nor does it purport to contain a summary of the disclosures in the Draft Red Herring Prospectus, or this Red Herring Prospectus or the Prospectus when filed or all details relevant to Bidders. This summary should be read in conjunction with, and is qualified in its entirety by, more detailed information appearing elsewhere in this Red Herring Prospectus, including the sections titled "**Risk Factors**", "**Objects of the Offer**", "**Capital Structure**", "**Our Business**", "**Restated Consolidated Financial Information**", "**Outstanding Litigation and Material Developments**", "**Offer Procedure**" and "**Provisions of the Articles of Association**" beginning on pages 64, 206, 132, 287, 398, 946, 994 and 1,016 respectively.*

**Summary of our primary business**

We are a technology-driven eyewear company with integrated operations spanning designing, manufacturing, branding and retailing of eyewear products. We primarily sell prescription eyeglasses, sunglasses, and other products such as contact lenses and eyewear accessories, under multiple brands and sub-brands. Our focus markets are India, Southeast Asia, Japan and the Middle East. We operate frame and lens design and eyeglass manufacturing facilities at two locations in India, supplemented by regional facilities in Singapore and the United Arab Emirates. We have an established presence across channels, including our websites, mobile applications and retail stores.

For further information, see "***Our Business***"' beginning on page 287.

**Summary of the industry in which our Company operates**

India is one of the fastest-growing retail markets, driven by urbanisation, rising disposable incomes, and a technology-proficient young population. The eyewear market in India is projected to expand at approximately 13% CAGR, reaching ₹1,483 billion (approximately US$17.2 billion) by the Financial Year 2030. Prescription eyeglasses dominate with approximately 73% of market value. The rising global prevalence of refractive errors is driven by evolving lifestyles, coupled with an ageing population. Organised retail channels, driven by efficient supply chains and improved consumer experience, are projected to account for approximately 31% of India's eyewear market by the Financial Year 2030.

For further information, see "***Industry Overview***" beginning on page 246.

**Our Promoters**

Our Promoters are Peyush Bansal, Neha Bansal, Amit Chaudhary and Sumeet Kapahi.

For details, see "***Our Promoters and Promoter Group***" beginning on page 393.

**Offer Size**

The following table summarizes the details of the Offer:

| | |
|---|---|
| **Offer of Equity Shares[(1)(2)]** | Up to [●] Equity Shares of face value of ₹2 each, aggregating up to ₹[●] million |
| ***of which*** | |
| **Fresh Issue** | Up to [●] Equity Shares of face value of ₹2 each, aggregating up to ₹21,500.00 million |
| **Offer for Sale[(1)]** | Up to 127,562,573 Equity Shares of face value of ₹2 each, aggregating up to ₹[●] million |
| **Employee Reservation Portion[(3)]** | Up to [●] Equity Shares of face value of ₹2 each, aggregating up to ₹150.00 million |
| **Net Offer** | Up to [●] Equity Shares of face value of ₹2 each, aggregating up to ₹[●] million |

*(1) The Offer has been authorized by the resolution of our Board at their meeting held on July 11, 2025, and the Fresh Issue has been authorised by a special resolution passed by our Shareholders on July 26, 2025. Our Board has taken on record the approval for the Offer for Sale of each of the Selling Shareholders pursuant to their resolutions dated July 28, 2025 and October 25, 2025. Each of the Selling Shareholders has severally and not jointly confirmed their respective eligibility to participate in the Offer for Sale in accordance with Regulation 8 of the SEBI ICDR Regulations and each of the Selling Shareholders, severally and not jointly, confirms its compliance with the conditions specified in Regulation 8A of the SEBI ICDR Regulations, to the extent applicable to such Selling Shareholder, as on the date of this Red Herring Prospectus. See also, "**The Offer**" and "**Other Regulatory and Statutory Disclosures**" beginning on pages 114 and 960 respectively.*

*(2) Subject to valid bids being received at or above the Offer Price, under-subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories of Bidders at the discretion of our Company, in consultation with the Book Running Lead Managers, and the Designated Stock Exchange, subject to applicable laws.*

*(3) The Employee Reservation Portion shall not exceed 5% of our post-Offer equity share capital. Eligible Employees bidding in the Employee Reservation Portion must ensure that the maximum Bid Amount does not exceed ₹500,000. However, the initial Allotment to an Eligible Employee in the Employee Reservation Portion shall not exceed ₹200,000. Only in the event of an under-subscription in the Employee Reservation Portion post the initial Allotment, such unsubscribed portion may be Allotted on a proportionate basis to Eligible Employees Bidding in the Employee Reservation Portion, for a value in excess of ₹200,000, subject to the total Allotment to an Eligible Employee not exceeding ₹500,000. The unsubscribed portion, if any, in the Employee Reservation Portion (after allocation of up to ₹500,000), shall be added to the Net Offer. Further, an Eligible Employee Bidding in the Employee Reservation Portion can also Bid under the Net Offer and such Bids will not be treated as multiple bids subject to applicable limits. See also, "**The Offer**" beginning on page 114.*

The Offer and Net Offer shall constitute [●]% and [●]% of the post Offer paid up Equity Share capital of our Company, respectively. For further details, see "***The Offer***", and "***Offer Structure***" beginning on pages 114 and 990, respectively.

**Objects of the Offer**

Our Company proposes to utilise the Net Proceeds towards funding the following objects:

*(₹ in million)*

| Particulars | Total estimated Amount/ expenditure[@] |
|---|---|
| Capital expenditure towards set-up of new CoCo stores in India | 2,726.22 |
| Expenditure for lease/rent/license agreements related payments for our CoCo stores operated by our Company, in India | 5,914.40 |
| Investing in technology and cloud infrastructure | 2,133.75 |
| Brand marketing and business promotion expenses for enhancing brand awareness | 3,200.63 |
| Unidentified inorganic acquisitions and general corporate purposes | [●][#] |
| **Total Net Proceeds** | [●][#] |

[@] *Exclusive of all refundable duties and taxes such as GST.*

[#] *To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC. The aggregate amount to be utilised for general corporate purposes and unidentified inorganic acquisition shall not exceed 35% of the Gross Proceeds. The amount to be utilised for general corporate purposes or unidentified inorganic acquisition, individually, as the case may be, shall not exceed 25% of the Gross Proceeds. Our Company further confirms that the amounts, if any, that will be utilised towards capital expenditure related items as part of either general corporate purposes and/ or unidentified inorganic acquisitions, such amount(s) shall not exceed 25% of the Gross Proceeds.*

For further details, see "***Objects of the Offer***" beginning on page 206.

*Note: To be updated at the Prospectus stage.*

* *Includes all options that have been exercised until date of Prospectus and any transfers of equity shares by existing shareholders after the date of the pre-Offer and price band advertisement and Red Herring Prospectus until date of Prospectus. Assuming all vested ESOPs as on date of the Red Herring Prospectus are exercised.*

^ *Assuming full subscription in the Offer. The post-Offer shareholding details as at Allotment will be based on the actual subscription and the Offer Price and updated in the Prospectus, subject to finalization of the Basis of Allotment. Further, assuming that there is no transfer of shares by the Shareholders between the date of the Price Band advertisement and Allotment, and if any such transfers occur prior to the date of Prospectus, it will be updated in the shareholding pattern in the Prospectus. The post-Offer shareholding shall be updated in the Prospectus based on ESOPs exercised until such date.*

\# *Amit Mittal, PB LK Family Trust and NB LK Family Trust are members of our promoter group.*

**Summary of Restated Consolidated Financial Information**

The following details are derived from the Restated Consolidated Financial Information as at and for the three months period ended June 30, 2025, June 30, 2024 and for the financial years ended March 31, 2025, March 31, 2024 and March 31, 2023.

*(₹ in million, unless otherwise stated)*

| Particulars | As at and for the three months period ended June 30, 2025 | As at and for the three months period ended June 30, 2024 | As at and for the Financial Year ended March 31, 2025 | As at and for the Financial Year ended March 31, 2024 | As at and for the Financial Year ended March 31, 2023 |
|---|---|---|---|---|---|
| Equity Share capital | 1,543.37 | 154.18 | 1,543.37 | 154.18 | 152.86 |
| Net Worth(1) | 61,768.66 | 57,949.22 | 61,082.99 | 56,423.78 | 54,444.79 |
| Revenue from operations | 18,944.55 | 15,204.26 | 66,525.17 | 54,277.03 | 37,880.28 |
| Total income | 19,461.01 | 15,637.49 | 70,092.76 | 56,098.72 | 39,279.74 |
| Restated profit/(loss) for the period/ year | 611.73 | (109.57) | 2,973.40 | (101.54) | (637.57) |
| Basic earnings/(loss) per equity share attributable to owners of the Holding Company (face value of ₹2 each) (2)* (in ₹) | 0.36 | (0.06) | 1.77 | (0.11) | (0.43) |
| Diluted earnings/(loss) per equity share attributable to owners of the Holding Company (face value of ₹2 each)(2)* (in ₹) | 0.36 | (0.06) | 1.76 | (0.11) | (0.43) |
| Return on Net Worth ("**RoNW**")(3) (%)* | 0.97% | (0.18)% | 4.84% | (0.31)% | (1.25)% |
| Net assets value per Share(4) (in ₹) | 36.74 | 35.22 | 36.34 | 34.29 | 33.54 |
| Total borrowings(5) | 3,354.82 | 3,783.39 | 3,459.39 | 4,971.54 | 9,172.08 |

** Not annualised for period ended June 30, 2025 and June 30, 2024*

*Notes:*

*The ratios have been computed as follows:*

1. *Net worth means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation in accordance*

*with Regulation 2(1)(hh) of the SEBI ICDR Regulations. We have calculated net worth by aggregate value of equity share capital, Instruments entirely equity in nature, Other equity excluding Foreign currency translation reserve.*

2. *Basic earnings/ (loss) per equity share attributable to owners of the Holding Company (face value of ₹2 each) and Diluted earnings/ (loss) per equity share attributable to owners of the Holding Company (face value of ₹2 each) has been calculated in accordance with Ind AS 33 – "Earnings per share."*
3. *Return on Net Worth (RoNW) %= Restated net profit/(loss) attributable to owners of the Holding Company divided by net worth of our Company as at the end of the year / period. RoNW for period ended June 30, 2025 and June 30, 2024 are not annualised.*
4. *Net Assets Value per Share (in ₹) is calculated as Net Worth as of the end of relevant year / period divided by the number of equity and preference shares outstanding at the end of the year / period. (Net Asset Value per share disclosed above is after considering the impact of bonus of the issued equity shares and conversion of outstanding preference shares in accordance with principles of Ind AS 33: Earnings per Share. During the year ended March 31, 2025, the Company issued bonus equity shares in the ratio of 1:9 to the existing equity shareholders. Further, appropriate adjustments to the conversion ratio of outstanding cumulative/non-cumulative compulsorily convertible preference shares (CCCPS) have been made and the conversion ratio accordingly stands adjusted to 1:10, pursuant to such bonus issuance).*
5. *Total borrowings = Total borrowings represent sum of current borrowings and non-current borrowings.*

For further details, see "***Management's Discussion and Analysis of Financial Condition and Results of Operations***" on page 904.

* *To the extent quantifiable.*

** *This includes matters where the Directors and our Key Managerial Personnel have been impleaded along with our Company.*

As on date of this Red Herring Prospectus, there are no outstanding litigations involving the Group Companies, which may have a material impact on our Company.

For further details of the outstanding litigation proceedings, see "***Risk Factors - There are outstanding legal proceedings involving our Company, our Directors, our Key Managerial Personnel and Senior Management Personnel, our Promoters and our Subsidiaries. An unfavourable outcome in such proceedings may have an adverse effect on our business, results of operations, financial condition and cash flows.****"* and "***Outstanding Litigation and Material Developments*****"** on pages 96 and 946, respectively.

**Risk Factors**

For details of the risks applicable to us, see "***Risk Factors***" beginning on page 64. Bidders are advised to read the risk factors carefully before making an investment decision in the Offer.

Set out below are the top 10 risk factors, in their order of materiality that could cause actual results to differ materially from our expectations:

(1) Our cost of raw materials consumed constitutes a significant portion of our expenses (amounting to ₹4,673.39 million, or 25.45% and ₹16,229.74 million, or 24.52%, of our total expenses in the three months ended June 30, 2025 and the Financial Year 2025, respectively) and delays, interruptions or reduction in the supply of raw materials to manufacture

our prescription eyeglasses or fluctuations in the prices of our raw materials could adversely affect our business, results of operations, financial condition and cash flows.

(2) We manufacture some of our frames in, and import some of our raw materials from, the People's Republic of China, including through Baofeng Framekart Technology Limited, our Joint Venture. Any delay, interruption or reduction in the supply of such frames or other raw materials could adversely affect our business, financial condition, results of operations and cash flows.

(3) An inability to maintain or improve our capacity utilization levels at our manufacturing facilities could have an adverse effect on our business, results of operations, financial condition and cash flows.

(4) The Directorate of Enforcement, Gurugram under the Foreign Exchange Management Act, 1999, requested us for certain information and documents. While we have provided such requested documents, we cannot assure you that no regulatory or other actions will be initiated against our Company in the future, in relation to such orders, which could adversely affect our business, reputation, results of operations, financial condition and cash flows.

(5) Our manufacturing facilities are subject to environmental, health, and safety laws and regulations that impose significant compliance costs and liabilities on our operations, and any non-compliance or violation could expose us to legal actions, penalties, and reputational harm.

(6) Slowdowns, breakdowns or shutdowns at any of our manufacturing facilities could have an adverse effect on our business, results of operations, financial condition and cash flows.

(7) Our reliance on manufacturing facilities located in the Gurugram industrial cluster (which are our Bhiwadi and Gurugram facilities) exposes us to concentration risks across production and logistics, which could adversely affect our business, results of operations, financial condition and cash flows.

(8) We have entered into a memorandum of understanding with the Government of Telangana to set up a greenfield manufacturing facility in Hyderabad, and may encounter delays in the planning, construction and commercialization of our proposed manufacturing facility, which could adversely affect our business, results of operations, financial condition and cash flows.

(9) The location, size and performance of our retail store network component of our omnichannel retail network are critical to our success. We cannot assure you that our retail store network will expand and operate as expected or that the current locations of our retail stores will continue to be attractive as demographic patterns change.

(10) Our historical performance may not be indicative of our future growth or financial results and if we fail to manage our growth or implement our growth strategies, our business, financial condition, results of operations and cash flows may be adversely affected.

**Summary of contingent liabilities**

A summary of our contingent liabilities as at June 30, 2025, as per Ind AS 37– provisions, contingent liabilities and contingent assets derived from our Restated Consolidated Financial Information is set forth below:

*(₹ in million)*

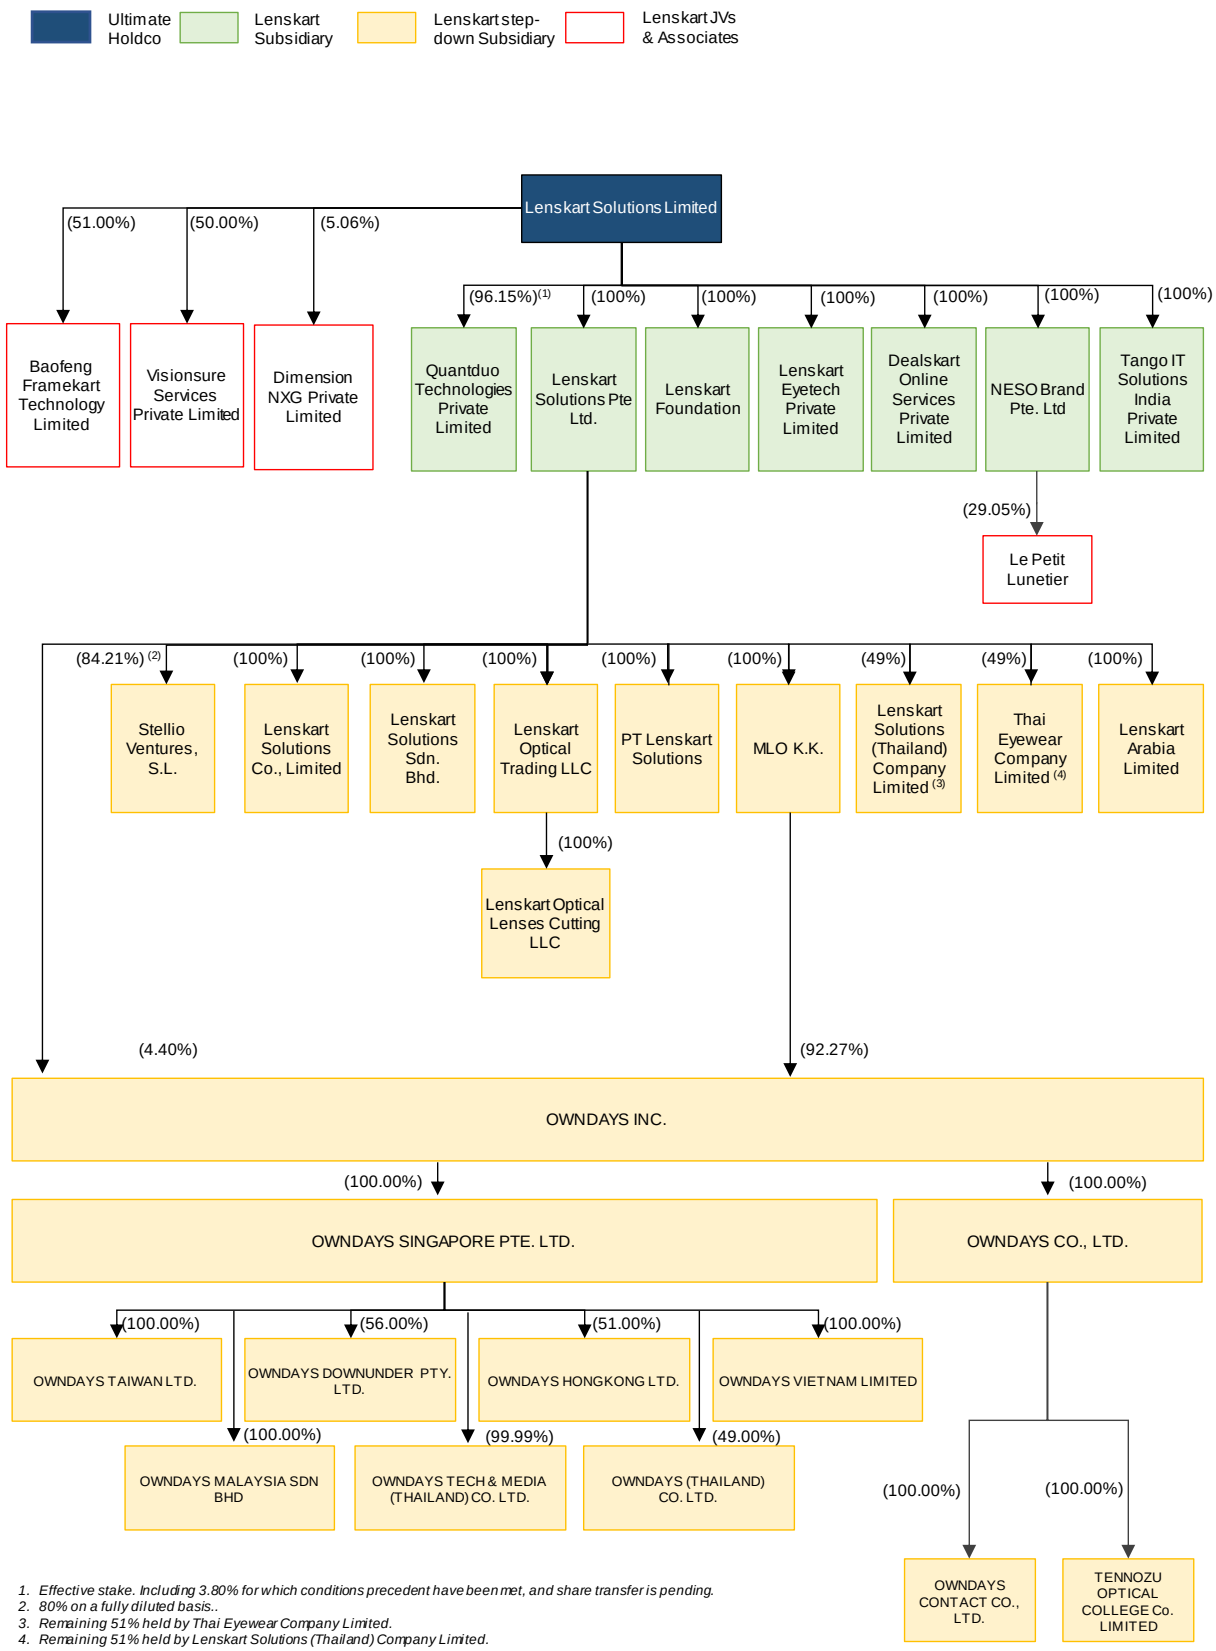
| Particulars | As at June 30, 2025 |
|---|---|
| Income tax litigation - not been acknowledged as claims | 140.19 |
| GST and Customs related matter | 505.86 |
| Disallowance related to certain capital expenditure | 129.15 |

*Notes: The management, based on internal assessment and legal opinion obtained, believes that no material liability is likely to arise on account of such claims/law suits.*

1. *Income tax litigation: not acknowledged as claims: The Holding Company had received assessment order for AY 2013-14 from income tax authorities wherein the department raised demand on account of certain unexplained cash credits.*
2. *GST and Customs related matter:*
    a. *The contingent liability for GST and Custom case is on account of classification of Zero power glasses. Such glasses were being sold @ 12% GST, however, the GST authorities are of the view that such spectacles with zero power lenses are taxable @ 18%.*
    b. *The Group has received a show cause notice from the GST Intelligence Department relating to taxability of LK Cash redeemed during FY 2018-19 to FY 2023-24. The Group, based on legal opinions and supporting documents, considers LK Cash to be in the nature of discounts and not liable to GST.*
    c. *The Holding Company has received a show cause notice from Customs, Delhi amounting to ₹65.89 million regarding classification of imported eyeframes with clip-ons for the period October 2019 to October 2024. The Holding Company has classified these products under eyeframes supported by legal opinions, while Customs seeks to classify them as sunglasses.*
3. *Disallowance related to certain capital expenditure: This is in respect of assessment year 2018-19, Income-tax authorities has disallowed certain expenditure amounting to INR 519.56 million. The Holding Company has accepted the disallowance of INR 390.41 million and for balance disallowance appeal has been filed with Income-tax authorities. Further, no demand has been issued against the above disallowances by the Income-tax authorities.*

For details on contingent liabilities, as per Ind AS 37 as at June 30, 2025, see "***Restated Consolidated Financial Information***"– ***Note 34: Contingent liabilities and commitments****"* on page 454.

## Corporate Structure of our Company



1. *Effective stake. Including 3.80% for which conditions precedent have been met, and share transfer is pending.*
2. *80% on a fully diluted basis..*
3. *Remaining 51% held by Thai Eyewear Company Limited.*
4. *Remaining 51% held by Lenskart Solutions (Thailand) Company Limited.*

**Summary of related party transactions**

**Weighted average cost of acquisition of Specified Securities transacted in one year, 18 months and three years immediately preceding this Red Herring Prospectus**

The weighted average price for all Specified Securities acquired in one year, 18 months and three years preceding the date of this Red Herring Prospectus, respectively is mentioned below:

| Period | Weighted average cost of acquisition per Equity Share (in ₹) | Cap Price is 'X' times the weighted average cost of acquisition* | Range of acquisition price: per Equity Share: lowest price – highest price (in ₹) |
|---|---|---|---|
| Last one year | 55.93 | [●]* | Nil** - 208.75 |
| Last 18 months | 37.54 | [●]* | Nil** - 208.75 |
| Last three years | 40.15 | [●]* | Nil** - 208.75 |

*Note: As certified by A D M S & Co, Chartered Accountants, (FRN: 014626C), by way of certificate dated October 25, 2025*

* *To be updated upon finalization of the Price Band.*

*** Acquisition price of bonus shares have been considered as Nil.*

**Issuance of Equity Shares made in the last one year for consideration other than cash**

Our Company has not issued any Equity Shares for consideration other than cash in the last one year preceding the date of this Red Herring Prospectus.

**Split or consolidation of Equity Shares in the last one year**

Our Company has not undertaken split or consolidation of the Equity Shares in the last one year preceding the date of this Red Herring Prospectus.

**Details of pre-IPO placement**

Our Company has not undertaken any pre-IPO placement.

**Exemption from complying with any provisions of securities laws, if any, granted by SEBI**

Our Company has not applied for or received any exemption from the SEBI from complying with any provisions of securities laws, as on the date of this Red Herring Prospectus.

## SECTION II - RISK FACTORS

*An investment in our Equity Shares involves a high degree of risk. Prospective investors should carefully consider all information in this Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. If any or some combination of the following risks actually occur, our business, prospects, financial condition, results of operations and cash flows could suffer, the trading price of the Equity Shares could decline, and prospective investors may lose all or part of their investment.*

*We have described the risks and uncertainties that we believe are material, but these risks and uncertainties may not be the only risks relevant to us, the Equity Shares, or the industry in which we operate in. Some risks may be unknown to us and other risks currently believed to be immaterial, could be or become material. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. To obtain a complete understanding of our business, prospective investors should read this section in conjunction with the sections "**Our Business**", "**Management's Discussion and Analysis of Financial Condition and Results of Operations**" and "**Restated Consolidated Financial Information**" on pages 287, 904 and 398, respectively. In addition, please refer to the Unaudited Proforma Financial Information as of and for the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023 on page 505. This information has been prepared to illustrate the impact of (i) the acquisition of Dealskart Online Services Private Limited on our financial position at March 31, 2024 and March 31, 2023, as if such acquisition had taken place as at March 31, 2024 and March 31, 2023, respectively, and on our results of operations for the years ended March 31, 2025, March 31, 2024 and March 31, 2023, as if such acquisition had taken place as at April 1, 2024, April 1, 2023 and April 1, 2022, respectively; and (ii) the acquisitions of Stellio Ventures, S.L. and Quantduo Technologies Private Limited, as if the acquisitions had taken place on June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, respectively, for purposes of the unaudited pro forma balance sheet as at June 30, 2025, March 31, 2025, 2024 and 2023, respectively, and on April 1, 2025, April 1, 2024, April 1, 2023 and April 1, 2022, respectively, for purposes of the unaudited proforma statement of profit and loss for the three months period ended June 30, 2025, and for Financial Years ended March 31, 2025, March 31, 2024 and March 31, 2023, respectively. See also"— **The Unaudited Proforma Financial Information included in this Red Herring Prospectus, which has been prepared to illustrate the effects of the acquisition of Dealskart Online Services Private Limited during the Financial Year 2025 and the acquisitions of Stellio Ventures, S.L. and Quantduo Technologies Private Limited during the Financial Year 2026 on our Restated Consolidated Financial Information, is not indicative of our expected results of operations in future periods or of our future financial position, or a substitute for our past results**" on page 95.*

*Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment which may differ in certain respects from that of other countries. In making an investment decision, prospective investors must rely on their own examination of our business and the terms of the Offer, including the merits and risks involved. Prospective investors should consult their tax, financial and legal advisors about the particular consequences to them of an investment in the Equity Shares.*

*This Red Herring Prospectus also contains forward-looking statements, which refer to future events that involve known and unknown risks, uncertainties and other factors, many of which are beyond our control, which may cause the actual results to be materially different from those expressed or implied by the forward-looking statements. See "**Forward Looking Statements**" on page 26.*

*Unless otherwise indicated, the industry and market-related information contained in this Red Herring Prospectus is derived from the Redseer Report. The Redseer Report will be available on the website of our Company at https://www.lenskart.com/corporate/investorrelations in compliance with applicable law and has also been included in "**Material Contracts and Documents for Inspection – Material Documents**" on page 1,044. The information included in this section includes excerpts from the Redseer Report and may have been reordered by us for the purposes of presentation. There are no parts, data or information (which may be relevant for the Offer), that have been left out or changed in any manner. For more information, see "**—This Red Herring Prospectus contains information from third parties, including an industry report prepared by an independent third-party research agency, Redseer Management Consulting Private Limited, which we have commissioned and paid for to confirm our understanding of our industry exclusively in connection with the Offer and reliance on such information for making an investment decision in the Offer is subject to inherent risks**" on page 102.*

### INTERNAL RISK FACTORS

***1. Our cost of raw materials consumed constitutes a significant portion of our expenses (amounting to ₹4,673.39 million, or 25.45% and ₹16,229.74 million, or 24.52%, of our total expenses in the three months ended June 30, 2025 and the Financial Year 2025, respectively) and delays, interruptions or reduction in the supply of raw materials to manufacture our prescription eyeglasses or fluctuations in the prices of our raw materials could adversely affect our business, results of operations, financial condition and cash flows.***

We source raw materials such as blank and powered lenses, certain types of frames, eyeglass cases, packaging materials and consumables from third-party suppliers for the manufacture of our eyewear products, along with raw materials for the manufacturing of frames, such as metal wires, acetate sheets and transparent resin granules. While we have long-term master supply contracts with many of our raw material suppliers, a majority of our raw materials are purchased on a spot purchase order basis.

Set out below are details of our cost of raw materials consumed, total expenses and cost of raw materials consumed as a percentage of total expenses, for the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| Cost of raw materials consumed (A) | 4,673.39 | 3,639.94 | 16,229.74 | 14,092.21 | 10,618.14 |
| Total expenses (B) | 18,365.80 | 15,606.22 | 66,194.78 | 55,495.94 | 40,250.74 |
| Cost of raw materials consumed as % of total expenses *(%)* (A)/(B) | 25.45% | 23.32% | 24.52% | 25.39% | 26.38% |

Further, our procurement relationships are concentrated among a limited number of raw material suppliers. While our ten largest suppliers did not contribute in the aggregate to more than 50% of purchases made during any of the three months ended June 30, 2025 and the last three Financial Years, our reliance on a limited number of raw material suppliers exposes us to a variety of risks, such as:

- delays, interruptions or reductions in the supply of raw materials due to factors beyond our control, such as natural disasters, pandemics, accidents, labour disputes, transportation disruptions, regulatory actions, political instability, trade restrictions, sanctions or tariffs;
- deterioration in the quality of raw materials supplied;
- fluctuations in the prices or availability of raw materials due to changes in market conditions, demand and supply dynamics, currency exchange rates, inflation, tariffs or taxes;
- loss of or deterioration in our relationships with our key raw material suppliers or inability to find alternative or additional suppliers on acceptable terms or at all;
- breaches of contractual obligations, warranties or representations by our raw material suppliers or disputes or litigation arising from such breaches;
- non-compliance by our raw material suppliers with applicable laws, regulations, standards or ethical practices relating to quality, safety, environment, labour, human rights or anti-corruption;
- competition from other manufacturers or distributors of similar or substitute eyewear products, or changes in customer preferences;
- infringement by our raw material suppliers of any intellectual property rights of third parties or claims of such infringement against us; or
- increase in concentration of suppliers and a consequent lack of ability to negotiate prices.

Such risks could adversely affect our ability to manufacture and deliver our eyewear products in a timely, cost effective and of a consistent quality, which could result in loss of customers, reputation, market share and revenue. While we have not experienced such risks during the three months ended June 30, 2025 and the last three Financial Years, we cannot assure you that such risks will not materialize in the future. Additionally, any increase in the cost of raw materials could adversely affect our margins and profitability, unless we are able to pass on such an increase to our customers, which may not be possible in a competitive market. Furthermore, any failure by our raw material suppliers to comply with applicable laws, regulations, standards or ethical practices could expose us to legal, regulatory or reputational risks, which could adversely affect our business, financial condition, results of operations and cash flows.

***2. We manufacture some of our frames in, and import some of our raw materials from, the People's Republic of China, including through import of frames through Baofeng Framekart Technology Limited, our Joint Venture. Any delay, interruption or reduction in the supply of such frames or other raw materials could adversely affect our business, financial condition, results of operations and cash flows.***

We source some of our raw materials and frames from the People's Republic of China (the "**PRC**"), where we also operate a manufacturing facility through Baofeng Framekart Technology Limited, our Joint Venture. Baofeng Framekart Technology Limited was incorporated on February 9, 2018. It is engaged in the business of production and sale of spectacle lenses, spectacle frames and accessories; import and export of goods and technology. Our Company holds 51% of the total equity shareholding of Baofeng Framekart Technology Limited. See also "***History and Certain Corporate Matters - Joint Ventures - Baofeng Framekart Technology Limited***" on page 369. We have also filed an application dated October 15, 2025, with the DPIIT seeking approval under Press Note 3 of 2020 for a separate, proposed joint venture with a Chinese entity to establish a manufacturing facility in India, which is currently pending.

Our supply of raw materials and finished goods from suppliers in the PRC may be disrupted due to factors outside of our control including the disruption of global supply chain operations, trade, currency fluctuations, increases in import duties and other taxes (including pursuant to changing global tariff structures) and the imposition of new rules, regulations and directives, that may affect our supply chain. The table below sets out details of our direct imports from the PRC and other purchases, in absolute terms and as a percentage of our total purchases for the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | | | For the Financial Year ended March 31, | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2025 | | 2024 | | 2025 | | 2024 | | 2023 | |
| | *(₹ in million)* | *% of total purchases* | *(₹ in million)* | *% of total purchases* | *(₹ in million)* | *% of total purchases* | *(₹ in million)* | *% of total purchases* | *(₹ in million)* | *% of total purchases* |
| Direct imports from the PRC | 3,547.49 | 53.38% | 1,746.30 | 40.93% | 10,624.33 | 42.21% | 7,699.71 | 41.09% | 8,682.22 | 54.15% |
| Direct purchases from other countries (including India) | 3,098.83 | 46.62% | 2,519.91 | 59.07% | 14,543.52 | 57.79% | 11,039.58 | 58.91% | 7,350.39 | 45.85% |
| comprising: | | | | | | | | | | |
| India | 1,172.98 | 17.65% | 1,047.64 | 24.56% | 6,647.75 | 26.41% | 3,591.25 | 19.16% | 2,842.71 | 17.73% |
| Japan | 756.94 | 11.39% | 538.86 | 12.63% | 2,355.64 | 9.36% | 2,576.92 | 13.75% | 1,771.14 | 11.05% |
| Others* | 1,168.91 | 17.59% | 933.41 | 21.88% | 5,540.13 | 22.02% | 4,871.41 | 26.00% | 2,736.54 | 17.07% |
| **Total Purchases** | **6,646.32** | **100.00%** | **4,266.21** | **100.00%** | **25,167.85** | **100.00%** | **18,739.29** | **100.00%** | **16,032.61** | **100.00%** |

** Others includes the countries of Singapore, Thailand, and Australia, among others.*

While we have not faced any instances of disruption in our supply chains during the past three Financial Years, given that we are directly and indirectly dependent on suppliers in the PRC for the import of raw materials and on our relationship with our joint venture partner in Baofeng Framekart Technology Limited for the import of frames, we cannot assure you that we may not encounter any delay, interruption or reduction in the supply of raw materials or finished eyewear products in the future. Further, in the event of a disruption in our supply chain, we cannot assure you that we will be able to find an alternate source of supply of raw materials in a timely and cost-efficient manner, or at all. Any of the foregoing could adversely affect our business, financial condition and results of operations.

We are exposed to risks related to our imports and manufacturing operations in the PRC, which could adversely affect our reputation, brand perception, customer loyalty, and business. These risks include potential negative publicity arising from importing from the PRC. Additionally, geopolitical tensions, trade disputes, diplomatic conflicts, or regulatory changes could disrupt our supply chain, increase costs, impose tariffs or trade restrictions, or otherwise affect our ability to import or manufacture our eyewear products in the PRC. Rising nationalism, protectionist policies, or shifts in customer sentiment against products associated with Chinese supply chains could further reduce demand. If we are unable to address these risks, or adapt to evolving market conditions, our business, results of operations, and financial condition could be affected.

***3. An inability to maintain or improve our capacity utilization levels at our manufacturing facilities could have an adverse effect on our business, results of operations, financial condition and cash flows.***

The following table sets forth our capacity utilization across our manufacturing facilities for the three months ended June 30, 2025 and 2024, and for the Financial Years 2025, 2024 and 2023, as certified by the Chartered Engineer pursuant to their certificate dated October 25, 2025:

| Manufacturing Facility | For the three months ended June 30, | | | | | |
|---|---|---|---|---|---|---|
| | 2025 | | | 2024 | | |
| | Installed Capacity *(in units)*[1] | Actual Production *(in units)* | Capacity Utilization *(in %)*[2] | Installed Capacity *(in units)*[1] | Actual Production *(in units)* | Capacity Utilization *(in %)*[2] |

***Notes:***

*(1) Annual Installed Capacity: The annual installed capacity of a manufacturing plant is the maximum amount of production that a company can achieve in a year, assuming that all machines are running at full speed, 365 days a year. It is determined after taking into account the product mix and cycle time and can be produced in the specific production line. The installed capacity for each Fiscal Year is adjusted on account of the addition of capacity during the year. The capacity utilization for the three months ended June 30, 2025 and June 30, 2024 is calculated by considering effective capacity as one-fourth of annual capacity.*

*(2) Capacity Utilization: Capacity utilization has been calculated based on actual production made during the relevant fiscal year/ period, divided by the annual installed capacity of relevant manufacturing facilities as of the end of the relevant fiscal year/ period.*

The above capacity utilization details are based on the assumptions and estimates by the Chartered Engineer. These assumptions involve uncertainties and may materially differ from actual outcomes due to factors unique to the manufacturing processes, facility-specific constraints, and market conditions.

We may not be able to maintain our current capacity utilization at our manufacturing facilities in the future, which could negatively affect our margins and profitability. See "***Our Business – Description of our Business – Manufacturing capacity, volumes and capacity utilization***" on page 327. Failure to fully utilize our available capacity to meet customer demand may result in continued low levels of utilization, which could negatively impact our business and financial condition. Our inability to maintain or increase current capacity utilization levels may negatively affect our business, results of operations, and cash flows. Our capacity utilization is affected by market demand for our products and specific quality requirements for individual products. In case of oversupply or a lack of demand, we may not be able to utilize our expanded capacity efficiently.

***4. The Directorate of Enforcement, Gurugram under the Foreign Exchange Management Act, 1999, requested us for certain information and documents. While we have provided such requested documents, we cannot assure you that no regulatory or other actions will be initiated against our Company in the future, in relation to such orders, which could adversely affect our business, reputation, results of operations, financial condition and cash flows.***

The Directorate of Enforcement, Gurugram (the "**ED**"), has initiated an inquiry into procedural delays in our filings on the IDPMS and EPDMS portals by a show cause notice dated July 25, 2022 to our Company, under section 37 of the Foreign Exchange Management Act, 1999 ("**FEMA**"), which are required for import-export transactions, including information on bank accounts, business profile, pending exports without realization, outstanding advance export proceeds, pending outward remittances, and imports with delayed payments. In connection with this ongoing matter, our Company has responded to a notice and subsequent summons, pursuant to which our Promoter, Neha Bansal, has made appearances before the ED, on behalf of our Company. We have provided information as requested by the ED and the matter is currently pending.

We cannot assure you that the ED will not issue further notices, summons, or seek additional requisitions for information in relation to this matter. While penalties associated with such administrative delays have historically been nominal, any repeated or prolonged non-compliance could subject us to additional scrutiny, penalties, and reputational risk.

Furthermore, our Company requires a no-objection certificate ("**NOC**") from the ED to undertake any overseas direct investment ("**ODI**"). Our Company is actively pursuing the necessary legal steps and has submitted several applications requesting the ED to issue an NOC in our favour. However, in some instances, the ED has denied our requests via letter dated June 14, 2023 and order dated November 18, 2023. The ED, through its order dated November 18, 2023 directed our Company to provide further information and documents. Further, via the said order dated November 18, 2023, the ED directed the Company to provide further information/documents, to which our Company has responded vide letter dated January 9, 2024. Further, our Company received an e-mail correspondence from the ED dated May 7, 2025, to which our Company has furnished the requisite documents to the ED on May 13, 2025. For details, please see *"**Outstanding Litigation and Material Developments - Litigation involving our Company - Litigation against our Company – Actions taken by regulatory or statutory authorities against our Company**"* on page 947.

The Foreign Exchange Management (Overseas Investment) Rules, 2022, provides a framework wherein an Authorised Dealer bank may consider an NOC to be deemed granted if the ED does not respond to a request within a prescribed period. While our Company has availed this provision in the past, we cannot assure you that we will be able to continue doing so in the future. The continued absence of an explicit NOC may pose challenges to our ability to make future overseas direct investments, potentially impacting our growth strategies and international business operations.

Further, we are required to file various forms, returns, and other related documents with regulators and authorities such as the Ministry of Corporate Affairs, the Reserve Bank of India, and other relevant agencies, in a timely manner. Although we strive to comply with all filing requirements on schedule, there can be instances where routine filings are delayed due to administrative, procedural, or operational reasons. Section 37 of the FEMA empowers the Directorate of Enforcement to conduct an investigation in relation to a contravention of section 13 of FEMA. If a contravention of section 13 of FEMA is found upon adjudication, our Company may be liable to a penalty of up to thrice the sum involved where such amount is quantifiable or up to ₹200,000 where the amount is not quantifiable and where such contravention is continuous in nature further penalty which may extend to ₹5,000 for every day after the first day during which the contravention continues. Although such penalties have not, to date, materially impacted our business operations or financial condition, we cannot assure you that future delays or non-compliance will not adversely affect our business, results of operations, or reputation.

5. ***Our manufacturing facilities are subject to environmental, health, and safety laws and regulations that impose significant compliance costs and liabilities on our operations, and any non-compliance or violation could expose us to legal actions, penalties, and reputational harm.***

We maintain environmental licenses, permits, and clearances for our manufacturing facilities in India, such as (i) licenses obtained under the Factories Act, 1948; (ii) consents to establish and consent to operate under the Water (Prevention and Control of Pollution) Act, 1974 and Air (Prevention and Control of Pollution) Act, 1981; (iii) registrations and authorizations obtained under the Hazardous & Other Wastes (Management & Transboundary Movement) Rules, 2016; and (iv) registrations under the Contract Labour (Regulation and Abolition) Act, 1970, among others. For further details, see "***Government and Other Approvals – Material Approvals in relation to our Manufacturing Facilities***" on page 955.

We have also implemented environmental, health, and safety policies, systems, and practices across our operations and monitor and report our environmental, health, and safety performance and compliance to the relevant authorities on a regular basis. However, we cannot assure you that we have complied or will comply with all applicable environmental, health, and safety laws and regulations, or that we have obtained or will obtain all necessary environmental, health, and safety licenses, permits, and clearances for our operations, or that we have adequately addressed or will adequately address all potential environmental, health, and safety risks and impacts arising from our operations. We may also face difficulties or delays in obtaining or renewing our environmental, health, and safety licenses, permits, and clearances, or we may face changes or revisions in the applicable environmental, health, and safety laws and regulations that may impose more stringent or additional standards and requirements on our operations. We may also be subject to inspections, investigations, notices, orders or actions by the relevant authorities or third parties for any actual or alleged non-compliance or violation of the applicable environmental, health, and safety laws and regulations or for any actual or alleged environmental, health, or safety damage or harm caused by our operations. Such risks are also applicable to any third-party raw material suppliers' arrangements that we enter into, and are heightened by the fact that we do not exercise full operational control over such third parties. Any such non-compliance, violation, damage, or harm could result in the suspension, cancellation, or revocation of our environmental, health, and safety licenses, permits, and clearances, the imposition of fines, penalties, or compensation, the initiation of civil, criminal, or administrative proceedings, the issuance of stop-work orders or closure orders, the seizure or confiscation of our assets, equipment, or products, or the requirement to undertake remedial or corrective measures. Any of these consequences could adversely affect our business, results of operations, financial condition, and cash flows.

6. ***Slowdowns, breakdowns or shutdowns at any of our manufacturing facilities could have an adverse effect on our business, results of operations, financial condition and cash flows.***

As of June 30, 2025, we operated centralized manufacturing facilities in India (Bhiwadi, Rajasthan and Gurugram, Haryana), Singapore and the United Arab Emirates, along with manufacturing operations in the PRC through our Joint Venture. Our business is dependent upon our ability to operate our manufacturing facilities without disruption. Our manufacturing operations are subject to several risks and uncertainties, such as:

- disruptions or delays in the availability, procurement, transportation, or delivery of raw materials, equipment, or utilities, or increases in the prices of such inputs;
- breakdowns, accidents, fires or other natural disasters, acts of sabotage, vandalism, terrorism, or war;
- labour disputes, strikes, lockouts or shortages, or non-compliance with labour laws;
- environmental, health, and safety incidents or non-compliance with the conditions of our regulatory approvals and other applicable laws;
- technical failures, cyberattacks, data breaches; and
- any other events or circumstances that may impair our manufacturing operations or performance, or prevent us from meeting our production targets, quality standards, or customer expectations, such as natural disasters, adverse

weather conditions or pandemics and political instability, including any instability arising out of issues with local authorities.

If the above risks materialize, we may be required to incur significant capital expenditure to address any shut down, breakdown or slowdown at our manufacturing facilities and may not be able to pass on such costs to customers. Further, we may be required to carry out planned shutdowns of our facilities for maintenance, inspections and testing, or may shut down certain facilities for capacity expansion and equipment upgrades. While we have obtained customary insurance coverage for our property, plant and equipment, we cannot assure you that such general repair and maintenance costs for our machinery will not increase in the future. Our inability to effectively respond to any shutdowns or slowdown, and rectify any disruption in a timely manner and at an acceptable cost, could result in us being unable to continue to manufacture our products or maintain our production capacity, which could have an adverse effect on our business, results of operations and financial condition. While such risks have not led to a material and adverse effect on our business and results of operations during the three months ended June 30, 2025 and the last three Financial Years, we cannot assure you that such risks will not materialize in the future. We have not experienced any instances of slowdowns, breakdowns or shutdowns at any of our manufacturing facilities that materially and adversely affected our results of operations during the three months ended June 30, 2025 and the last three Financial Years. This or the occurrence of any other factors could have an adverse effect on our business, results of operations, financial condition, cash flows and future prospects. Such shutdowns, breakdowns or slowdowns, along with any of the other risks described above, could adversely affect our ability to fulfil our delivery commitments to customers, which could adversely affect our business, results of operations, financial condition and cash flows.

***7. Our reliance on manufacturing facilities located in the Gurugram industrial cluster across the states of Haryana and Rajasthan (which are our Bhiwadi and Gurugram facilities) exposes us to concentration risks across production and logistics, which could adversely affect our business, results of operations, financial condition and cash flows.***

We operate a hub-and-spoke model for manufacturing, where almost all single-vision, bifocal and progressive lenses (excluding lenses manufactured at our international facilities) are cut, edged, coated and matched to frames at our two manufacturing facilities located at Bhiwadi, Rajasthan and Gurugram, Haryana within the broader Gurugram industrial cluster across the states of Haryana and Rajasthan, following which finished eyeglasses are dispatched to our stores and e-commerce fulfilment centres across India and to overseas jurisdictions. Set out below are details of the actual production of our Bhiwadi (Rajasthan), Gurugram (Haryana) and our other owned manufacturing facilities, in absolute units and as a percentage of our overall owned production, for the three months ended June 30, 2025 and 2024, and for the financial years indicated:

| Location of manufacturing facility | For the three months ended June 30, | | | | For the Financial Year ended March 31, | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2025 | | 2024 | | 2025 | | 2024 | | 2023 | |
| | Actual production *(in units)* | (% of total production across owned manufacturing facilities) | Actual production *(in units)* | (% of total production across owned manufacturing facilities) | Actual production *(in units)* | (% of total production across owned manufacturing facilities) | Actual production *(in units)* | (% of total production across owned manufacturing facilities) | Actual production *(in units)* | (% of total production across owned manufacturing facilities) |
| Gurugram, Haryana | 1,248,488 | 31.75% | 1,174,022 | 40.23% | 5,209,089 | 39.59% | 5,661,085 | 56.14% | 6,655,311 | 92.84% |
| Bhiwadi, Rajasthan | 2,621,726 | 66.67% | 1,707,909 | 58.52% | 7,748,642 | 58.90% | 4,306,995 | 42.71% | 437,876 | 6.11% |
| Others* | 62,079 | 1.58% | 36,497 | 1.25% | 198,845 | 1.51% | 116,156 | 1.15% | 75,158 | 1.05% |
| **Total** | **3,932,293** | **100.00%** | **2,918,428** | **100.00%** | **13,156,576** | **100.00%** | **10,084,236** | **100.00%** | **7,168,345** | **100.00%** |

* *Others comprises our Singapore and Dubai manufacturing facilities.*

While this model enables scale advantages and improved turnaround times, it simultaneously concentrates a substantial portion of our production capacity, machinery, labour and technology infrastructure within a single geographic catchment that is exposed to physical, regulatory and socio-economic risks. Any localized disruptions, such as natural disasters (such as earthquakes, floods or fire), prolonged power or water shortages, labour unrest, epidemics, civil disturbances, adverse changes in state-level industrial policy, or the revocation or non-renewal of environmental, health, safety or other statutory licences, could halt or adversely affect operations at both facilities simultaneously. Given that finished prescription eyewear cannot be shipped to customers until lenses have been precisely customized and fitted to frames, even a brief stoppage may create a significant order backlog, increase lead times, impair our delivery propositions in key cities and, in turn, erode customer satisfaction and goodwill.

This strategy also amplifies our exposure to geographic concentration. Our mould-making workshops, frame manufacturing units, robotic lens-surfacing lines and automated coating chambers are largely co-located with final-assembly areas; consequently, any event that forces a shutdown of these plants would simultaneously interrupt upstream component production and downstream order fulfilment. Although we maintain disaster-recovery protocols, multi-shift maintenance teams and insurance coverage, there can be no assurance that these safeguards would fully mitigate the operational, financial or reputational effects of a prolonged or concurrent outage at our Gurugram-cluster

facilities or of raw-material supply interruptions. Any such event could lead to increased costs (including expedited freight, overtime, external contract manufacturing or warranty claims) and loss of revenues, thereby adversely affecting our business, results of operations, financial condition and cash flows.

***8. We have entered into a memorandum of understanding with the Government of Telangana to set up a greenfield manufacturing facility in Hyderabad, Telangana and may encounter delays in the planning, construction and commercialization of our proposed manufacturing facility, which could adversely affect our business, results of operations, financial condition and cash flows.***

We have entered into a non-binding memorandum of understanding dated December 8, 2024 ("**MOU**") with the Government of Telangana ("**GoT**") for setting up a greenfield manufacturing facility for optical glasses with an investment of ₹15,000 million by us, and certain incentives and support from the GoT. These incentives include subsidies and reimbursements subject to certain conditions and limitations, such as commencement of operations within two years from the date of taking possession of land, priority to local people in employment, priority to procurement of raw materials from local markets, and compliance with environmental and other norms. The MOU is also non-binding in nature and may be amended by mutual agreement between parties.

We cannot assure you that we will be able to avail of the full benefits of the incentives as envisaged. The GoT may change, withdraw, or reduce the incentives or impose additional obligations or restrictions on us due to factors such as changes in political, economic, fiscal, or legal environment, budgetary constraints, public interest, or other reasons. Any such change, withdrawal, reduction, or imposition may adversely affect our profitability, cash flows, competitiveness, and growth prospects. We may also incur additional costs or liabilities in complying with the revised terms and conditions of the MOU or in seeking alternative sources of funding or support for our operations or investments. Accordingly, our dependence on government incentives may expose us to significant risks and uncertainties that may adversely affect our business, financial condition, results of operations, and prospects.

We may also face delays in completion of the construction of this facility on account of several factors, including disruptions or challenges in land acquisition, cost overruns, delays in receiving governmental, statutory, and other regulatory approvals and permits, and delays in or non-delivery of construction equipment by suppliers, among others. We may also experience interruptions in the supply of electricity and water required for the completion of construction and establishment of this facility. While there have been no material instances of delay in connection with the completion of the construction of this facility, we may face such instances in the future, which could have an impact on our operations. Any failure to complete the construction of this facility in a timely manner, and within budget, or at all, could adversely affect our business, results of operations, financial condition, and cash flows.

Under Indian laws, the construction of manufacturing facilities is subject to, government supervision and approval procedures, including but not limited to environment protection approvals, the pollution discharge permits, drainage license, work safety approvals, fire protection approvals, and the completion of inspection and acceptance by relevant authorities. Our manufacturing facilities require approvals under law, such as consent to establish and consent to operate under the Air (Prevention and Control of Pollution) Act, 1981, as amended and under the Water (Prevention and Control of Pollution) Act, 1974, as amended, and fire licenses. There is no assurance that we will be able to comply with the requirements of such government supervision or procure the aforementioned approvals in a timely manner or at all. While we have not experienced any material delays in the receipt of approvals for our other manufacturing facilities, any such delays in the receipt of approvals for construction and operationalization of our Hyderabad facility could adversely affect our business, financial condition, results of operations and cash flows.

***9. The location, size and performance of our retail store network component of our omnichannel retail network are critical to our success. We cannot assure you that our retail store network will expand and operate as expected or that the current locations of our retail stores will continue to be attractive as demographic patterns change.***

We operate an omnichannel business model that relies on our retail store network to provide convenient access, personalized service, and brand visibility to our customers. As of June 30, 2025, we had 2,806 stores worldwide, of which 2,137 were in India and 669 were overseas. Our retail store network is a key driver of our revenue growth, customer acquisition, and customer loyalty. We aim to deepen and broaden our store network in India through continued omnichannel expansion, deepening our presence and retail footprint across Metropolitan, Tier 1, and Tier 2+ cities in India. Furthermore, we intend to deepen our presence in other existing international markets by opening stores, leveraging our unified technology, supply chain, and remote optometry capabilities to deliver consistent customer experience and operational efficiency. We also continue to selectively evaluate opportunities to expand into new international markets through both organic growth and strategic acquisitions.

Our ability to open and operate new stores depends on several factors, including the availability of suitable locations, acceptable rental costs, regulatory approvals, competitive dynamics, customer preferences, and overall economic conditions. We may experience difficulties or delays in securing leases, obtaining necessary permits, hiring and training staff, or integrating new stores into our existing operations. Additionally, we may incur costs and liabilities related to store openings, operations, or closures, including lease obligations, capital expenditures, inventory losses, and potential litigation. Further, in the event that our lessors do not have appropriate rights to lease out the relevant properties, we may incur losses on our security deposits placed with such lessors, as well as any capital expenditure incurred for store fitouts at such properties. While we have not experienced any instances in the past three Financial

Years that materially and adversely affected our results of operations and financial condition, there can be no assurance that such events will not occur in the future. There can be no assurance that new stores will generate sufficient sales or profitability to cover associated costs or achieve our anticipated return on investment, which could adversely affect our business, results of operations, financial condition, and cash flows.

Set out below are details of our rent and total expenses for the periods and financial years indicated and total lease liabilities as of the dates indicated:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| Rent *(₹ in million)* (A) | 436.48 | 280.72 | 1,397.71 | 1,080.83 | 595.03 |
| Total expenses *(₹ in million)* (B) | 18,365.80 | 15,606.22 | 66,194.78 | 55,495.94 | 40,250.74 |
| Rent as a percentage of total expenses *(%)* (A)/(B) | 2.38% | 1.80% | 2.11% | 1.95% | 1.48% |

| Particulars | As of June 30, | | As of March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million)* | | | | |
| Non-current liabilities – Financial liabilities – Lease liabilities *(₹ in million)* (A) | 18,237.50 | 13,795.30 | 17,011.90 | 12,906.43 | 10,875.84 |
| Current liabilities – Financial liabilities – Lease liabilities *(₹ in million)* (B) | 5,760.57 | 4,177.84 | 5,256.44 | 3,880.46 | 3,535.87 |
| **Total lease liabilities *(₹ in million)* ((C) = (A)+(B))** | **23,998.07** | **17,973.14** | **22,268.34** | **16,786.89** | **14,411.71** |

Additionally, we cannot assure you that the current locations of our retail stores will continue to be attractive or profitable as demographic patterns, customer behaviour, and competitive landscape change. Our retail store locations are based on our analysis of several factors, such as population density, income levels, customer experience, satisfaction and demand, traffic patterns, and availability of complementary businesses. However, these factors may change over time due to urbanization, migration, economic fluctuations, social trends, or other events, which may affect the footfall, sales, and profitability of our stores. Furthermore, we may experience disruptions or adverse events at our retail stores, such as natural disasters, pandemics, civil unrest, vandalism, theft, or cyberattacks, which may damage our property, inventory, or reputation, or prevent us from operating our stores normally. Aside from the effects of the COVID-19 pandemic and measures instituted to curb its spread which led to temporary closures of physical stores and adversely affected our delivery operations, our retail store operations have not been otherwise materially affected during the past three Financial Years. Set out below are details of our new store openings and store closures for the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| Number of stores at the start of the Financial Year / period | 2,723 | 2,389 | 2,389 | 1,959 | 1,508 |
| Number of new stores opened | 100 | 70 | 445* | 489* | 518* |
| Number of store closures*** | 17 | 24 | 111 | 59 | 67 |
| Number of stores at the end of the Financial Year / period** | 2,806 | 2,435 | 2,723 | 2,389 | 1,959 |

* *Number of new stores opened includes stores acquired in the Financial Year 2023 pursuant to our acquisition of Owndays.*

** *Number of stores as of March 31, 2024 and 2023 is set out on a pro forma basis to illustrate the effect of the Dealskart Acquisition.*

*** *Store closures were primarily due to (i) the closure of certain malls and commercial establishments by government authorities on account of several reasons, e.g. to facilitate nearby infrastructure development, such as flyover construction; (ii) closures initiated by franchisee partners, with certain stores subsequently converted into COCO stores; and (iii) relocation of stores due to strategic reasons.*

Expanding into new geographic regions, including by building, developing, and operating new manufacturing facilities and retail stores, will subject us to challenges, including those relating to our lack of familiarity with the social, political, economic and cultural conditions of these new regions, language barriers, difficulties in staffing and managing such operations and the lack of brand recognition and reputation in such regions. As we operate in a highly competitive industry, we may have to revise our estimates and our expansion strategies, from time to time, which may result in significant changes in our funding requirements and may put significant strain on our resources. Any adverse economic, political, regulatory, environmental or infrastructural developments in the states we expand into could adversely affect our business. Such developments include:

- changes in GST or other tax rates, imposition of additional levies, curbs on intra-state movement of goods, or withdrawal of local incentives for organised retail,

- amendments to shops and establishment laws, optical-trade-specific regulations or zoning restrictions that limit store hours, mandate additional compliance costs, restrict advertising or require re-fit of existing outlets,

- delays in renewal or non-grant of licenses, approvals or no-objection certificates necessary for our stores or for state electricity-duty reimbursements,

- localised supply-chain bottlenecks, labour unrest, power outages, water shortages or logistical disruptions,

- adverse court or municipal orders in relation to encroachments, "Lal Dora" land or building-plan deviations that force temporary or permanent store closures,

- civil disturbances, natural disasters, epidemics, pandemics or extreme weather events that reduce footfall or disrupt last-mile deliveries, and

- demographic shifts, urban-planning changes or migration patterns that diminish the attractiveness of our existing store micro-markets.

If any such events occur, we may experience reduced sales, inventory build-ups, write-offs of store-level assets, increased operating costs, impairment of right-of-use assets, deterioration in working-capital metrics and erosion of our profitability. While we continuously monitor our geographic diversification, there can be no assurance that we will mitigate these concentration risks or that similar exposures will not arise in states in which we may expand, which could adversely affect our business, results of operations, financial condition and cash flows. For instance, we are in the process of closing our Lenskart-branded store in Indonesia and currently intend to operate in this jurisdiction solely through Owndays-branded stores. While the above challenges have not adversely affected our results of operations during the past three Financial Years, we cannot assure you that such challenges will not materialize in the future.

Even if we are able to expand our retail store network as planned, we may not be able to continue to integrate and optimize a larger network. There can be no assurance that such investments and expansions of our business into new geographies will achieve their anticipated benefits. Any of these factors could adversely affect the size and performance of our retail store network, along with the locations of our retail stores, and consequently, our business, results of operations, financial condition and cash flows.

***10. Our historical performance may not be indicative of our future growth or financial results and if we fail to manage our growth or implement our growth strategies, our business, financial condition, results of operations and cash flows may be adversely affected.***

We have experienced significant growth in the three months ended June 30, 2025 and 2024 and the past three Financial Years, on a restated basis, as set out below:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| Revenue from operations (A) | 18,944.55 | 15,204.26 | 66,525.17 | 54,277.03 | 37,880.28 |
| Revenue from operations growth (YoY%) | 24.60% | NA | 22.57% | 43.29% | NA |
| Restated profit/(loss) before tax (B) | 997.19 | 26.32 | 3,853.56 | 590.31 | (1,011.76) |
| Restated profit/(loss) before tax as a percentage of revenue from operations *(%)* ((B)/(A) | 5.26% | 0.17% | 5.79% | 1.09% | (2.67)% |
| Restated profit/(loss) for the year / period (C) | 611.73 | (109.57) | 2,973.40 | (101.54) | (637.57) |
| Restated profit/(loss) for the year / period Margin *(%)* (C)/(A) | 3.23% | (0.72)% | 4.47% | (0.19)% | (1.68)% |
| EBITDA excluding other income and exceptional item | 3,366.28 | 1,834.19 | 9,710.56 | 6,720.91 | 2,597.09 |
| EBITDA excluding other income and exceptional item Margin *(%)* | 17.77% | 12.06% | 14.60% | 12.38% | 6.86% |

We cannot assure you that our revenue from operations or restated profit/(loss) after tax will continue to grow at the rates described above. For further details of the year-on-year changes in our results of operations, see "***Management's Discussion and Analysis of Financial Condition and Results of Operations – Our Results of Operations***" on page 929.

As part of our growth strategies, we plan to invest in customer experience, invest in technology to further enhance efficiencies in our operations, strengthen our brand, continue to innovate and expand our product portfolio and increase penetration and customer access with new stores and assisted channels. For details, see "***Our Business – Our Growth Strategies***" beginning on page 317. There is no assurance that our growth strategies will be successfully implemented.

To manage and support our growth, we must enhance our existing operational and administrative systems, as well as our financial and management controls. These endeavours will require substantial management attention and efforts, and significant additional expenditures. If we fail to expand at a pace as we plan, we may face capacity and financial constraint in the future which may adversely affect our business, results of operations, financial condition and cash flows.

As we operate in a highly competitive industry, we may have to revise our growth and expansion strategies from time to time, which may result in significant changes in our funding requirements and may put significant strain on our resources. If we are unable to successfully execute our growth strategies in a timely manner, or at all, we may not witness the expected level of growth in the number of customers that we serve and our business, results of operations, financial condition and cash flows could be adversely affected.

***11. Our global operations expose us to management, legal, tax, political, economic and foreign exchange risks, and our failure to address such risks could adversely affect our business, results of operations, financial condition and cash flows.***

We offer our eyewear products through our online channel and through our retail store networks across 14 countries, which as of June 30, 2025, included India, Singapore, Taiwan, Japan, Thailand, the United Arab Emirates, the Kingdom of Saudi Arabia, among others. Set out below is a breakdown of our global store network by country or region, as of the dates indicated:

| Particulars | As of June 30, | | As of March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| India (A) | 2,137 | 1,816 | 2,067 | 1,785 | 1,416 |
| *comprising* | | | | | |
| *Metro cities*[(1)] | 928 | 809 | 900 | 791 | 656 |
| *Tier-1 cities* [(2)] | 491 | 395 | 469 | 385 | 277 |
| *Tier-2 towns and cities and beyond* [(3)] | 718 | 612 | 698 | 609 | 483 |
| Japan (B) | 272 | 263 | 267 | 259 | 232 |
| Southeast Asia* (C) | 258 | 231 | 251 | 229 | 214 |

| **Total (A+B+C+D+E)** | **2,806** | **2,435** | **2,723** | **2,389** | **1,959** |

***Notes:***

*(1) Includes Delhi/NCR (includes New Delhi, Gurugram, Ghaziabad, Noida, and Faridabad), Hyderabad, Ahmedabad, Bengaluru, Pune, Mumbai, Chennai and Kolkata.*

*(2) Includes Lucknow, Raipur, Patna, Jaipur, Ranchi, Surat, Jammu, Madurai, Chandigarh, Rajkot, Nagpur, Hubli, Coimbatore, Bhubaneswar, Mangalore, Jodhpur, Gwalior, Tiruchirappalli, Indore, Visakhapatnam, Dehradun, Aurangabad, Rajahmundry, Nashik, Vadodara, Belgaum, Udaipur, Gorakhpur, Agra, Vijayawada, Jabalpur, Siliguri, Kolhapur, Bhopal, Goa, Varanasi, Bareilly, Dhanbad, Gaya*

*(3) Includes cities other than metro cities and Tier 1 cities*

* *Southeast Asia comprises Singapore, Thailand, Indonesia, Philippines, Vietnam, Malaysia, and Cambodia.*

** *The Middle East comprises the United Arab Emirates and the Kingdom of Saudi Arabia.*

*** *Others comprise Taiwan, Hong Kong and Australia.*

The following table sets forth a breakdown of our segment revenue from external customers in India and International, as per Ind AS 108 (Operating Segments) in absolute terms and as a percentage of our revenue from operations, during the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | | | For the Financial Year ended March 31, | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2025 | | 2024 | | 2025 | | 2024 | | 2023 | |
| | *(₹ in million)* | *(% of revenue from operations)* | *(₹ in million)* | *(% of revenue from operations)* | *(₹ in million)* | *(% of revenue from operations)* | *(₹ in million)* | *(% of revenue from operations)* | *(₹ in million)* | *(% of revenue from operations)* |
| Revenue – External Customers – India | 11,580.05 | 61.13% | 9,266.29 | 60.95% | 40,148.52 | 60.35% | 31,628.08 | 58.27% | 23,522.22 | 62.10% |
| Revenue – External Customers – International | 7,364.50 | 38.87% | 5,937.97 | 39.05% | 26,376.65 | 39.65% | 22,648.95 | 41.73% | 14,358.05 | 37.90% |
| **Revenue from Operations** | **18,944.55** | **100.00%** | **15,204.26** | **100.00%** | **66,525.17** | **100.00%** | **54,277.03** | **100.00%** | **37,880.28** | **100.00%** |

Our global operations expose us to a range of risks inherent in doing business across multiple international geographies. These risks include: (i) the potential for unexpected deterioration in diplomatic or trade relations between India and the countries in which we operate; (ii) political instability, civil unrest, or changes in government that could disrupt our operations or supply chains; (iii) unanticipated changes in legal, regulatory, tax, economic, or social conditions or policies, including import and distribution rules for eyewear products; (iv) increasing rates of inflation or foreign exchange rate fluctuations, which could adversely affect our profitability and cost structure; and (v) operational and reputational challenges stemming from differing cultural norms, language barriers, and consumer expectations, which may impact the perception and consistency of our brand in overseas markets. While we have not experienced any material impact from such risks over the past three Financial Years, there can be no assurance that such risks will not materialize in the future or materially affect our operations, brand equity, or financial performance.

Our manufacturing facilities and operations located in overseas jurisdictions are also required to comply with the regulatory requirements of such jurisdictions, which are evolving. While our local partners in such jurisdictions (for example, our Joint Venture partner in the People's Republic of China) may be responsible for regulatory compliance under the terms of our arrangements, we may not be able to fully control such partners and may experience instances of non-compliance in such foreign jurisdictions. While our manufacturing facilities in overseas jurisdictions have not been found to be in non-compliance with applicable regulatory requirements during the three months ended June 30, 2025 and the last three Financial Years, we cannot assure you that such instances will not occur in the future. Consequently, we may inadvertently fail to comply with applicable regulations, which could lead to enforced shutdowns and other sanctions imposed by the relevant authorities.

We may also be affected by fluctuations in the currency exchange rate between foreign currencies and the Indian Rupee. The exchange rate between the Indian Rupee and foreign currencies has historically fluctuated and high volatility may affect our operating margins. Foreign currency translation risk can also affect our reported assets and liabilities, as well as our equity and reserves, depending on the functional currency of our businesses in the jurisdictions in which we operate. While we have entered into hedging arrangements in the past and currently maintain foreign currency hedging arrangements, we cannot assure you that we will be able to adequately insulate ourselves from, or mitigate, any unhedged foreign currency exposures in the future. Liquidity risks can create volatility in our cash flows and profitability, as well as affect our ability to meet our obligations and commitments in different currencies. We monitor our foreign currency exposure and manage our working capital and liquidity accordingly, but we may face challenges in accessing foreign exchange markets or securing favorable rates in times of high volatility or uncertainty.

The occurrence of any of the above instances could adversely affect our business, results of operations, financial condition and cash flows.

12. ***We do not exercise complete operational or financial control over our franchisee-operated retail stores. As a result, franchisees may take actions that are inconsistent with our brand standards, operational policies, or strategic objectives. Any such actions could adversely affect our reputation, customer experience, and, consequently, our business, results of operations, financial condition, and cash flows.***

A portion of our retail stores are owned or operated through franchise agreements with third-party entities. Our franchise arrangements are through a combination of franchise-owned and franchise-operated ("**FoFo**"), and company-owned and franchise-operated ("**CoFo**") stores. The table below sets out our retail store network by franchisee and CoFo stores (in India and in international markets), as of the dates indicated:

| Particulars | For the three months ended June 30, | | | | As of March 31 | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2025 | | 2024 | | 2025 | | 2024 | | 2023 | |
| | Number of retail stores | % of total retail stores | Number of retail stores | % of total retail stores | Number of retail stores | % of total retail stores | Number of retail stores | % of total retail stores | Number of retail stores | % of total retail stores |
| ***Franchise stores – India*** | | | | | | | | | | |
| - FoFo | 306 | 14.32% | 347 | 19.11% | 310 | 11.38% | 359 | 15.03% | 369 | 18.81% |
| - CoFo | 8 | 0.37% | 8 | 0.44% | 8 | 0.29% | 9 | 0.38% | 11 | 0.56% |
| ***Franchise stores – International*** | | | | | | | | | | |
| - FoFo | 158 | 7.39% | 151 | 8.31% | 158 | 5.80% | 152 | 6.36% | 143 | 7.30% |
| **Total franchise stores** | **472** | **22.09%** | **506** | **27.86%** | **476** | **17.47%** | **520** | **21.77%** | **523** | **26.67%** |

Under our franchise agreements, we provide our franchisees with the right to use our brand name, intellectual property, including our trademarks, designs, patents, designs, as well as marketing support, and we receive a fixed one-time license fee. However, we do not have complete operational or financial control over the actions of our franchisees. While our standard franchisee agreements include covenants for the franchisees to abide by certain service standards, they may not comply with our service standards and policies, inventory management, or other operational guidelines. Moreover, our franchisees may face financial difficulties, legal disputes, regulatory issues, labour problems, or other

challenges that could adversely affect their ability to operate our retail stores effectively or at all. We may experience disputes or complaints from our franchisees arising due to issues related to product defects, delays in product deliveries, or service quality, which could negatively impact their business operations and brand reputation. Additionally, disagreements over pricing, contractual terms, or regulatory compliance obligations may lead to claims or litigation, potentially disrupting our relationship with franchisees. Dissatisfied franchisees may also actively attempt to damage our reputation or initiate litigation. For instance, a first information report was filed by one of our franchisees alleging fabrication of the 'point of sales' software and other IT databases by our Company, misuse by certain managerial personnel of our Company to falsify the records and financial statements, among other things. See "***Outstanding Litigation and Material Developments***" on page 946 for details of ongoing litigation and disputes with certain franchisees. There can be no assurance that such events will not occur in the future as well.

Any of these factors could result in lower sales, customer dissatisfaction, damage to our brand and reputation, loss of market share, or increased costs for us. Furthermore, we may not be able to enforce our contractual rights against our franchisees in a timely or effective manner, or at all. We may also face difficulties in finding suitable franchisees or terminating or renewing our franchise agreements on favourable terms. Our dependence on our franchisees exposes us to significant risks that are beyond our control and could adversely affect our business, financial condition, and results of operations.

***13. We are dependent on our Promoters, Key Managerial Personnel, members of our Senior Management and other key personnel for our business and growth, and the loss of, or an inability to attract or retain qualified personnel could adversely affect our business, results of operations, financial condition and cash flows.***

We are dependent on our Promoters (and in particular, the services of Peyush Bansal), Key Managerial Personnel ("**KMP**"), Senior Management Personnel ("**SMP**"), and other key personnel for strategic direction and to manage our operations and meet future business challenges. The loss of, or inability to attract or retain, such persons could adversely affect our business, results of operations, financial condition and cash flows. In particular, the active involvement of our Promoters and the services of our KMP, SMP and other senior personnel have been integral to the growth of our business. The reputation of our Promoter, Peyush Bansal, is linked to our Company's brand and accordingly, any negative publicity or adverse circumstances in relation to Peyush Bansal could adversely affect our business. For details in relation to the experience of our Promoters, KMP and SMP, see "***Our Promoters and Promoter Group***" and "***Our Management***" on pages 393 and 373, respectively. If one or more of these individuals were unwilling or unable to continue in their present positions, we may not be able to replace them with persons of comparable skill and expertise promptly, which could have an adverse effect on our business, results of operations financial condition and cash flows. See also, "***Our Management***" on page 373 for details of the changes in our KMP and SMP during the past three Financial Years until the date of this Red Herring Prospectus.

We may take a significant period of time to hire and train replacement personnel when skilled personnel terminate their employment with us. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting skilled employees that our business requires. If we are unable to hire and train replacement personnel in a timely manner or increase our levels of employee compensation to remain competitive, our business, results of operations, financial condition and cash flows may be adversely affected.

***14. Certain of our Subsidiaries and Group Companies have incurred losses in the past. If our Subsidiaries and Group Companies continue to incur losses, we may be required to continue providing financial support to them and our consolidated results of operations and financial condition could be adversely affected.***

Set out below are details of our Subsidiaries and Group Companies that have incurred losses during the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023, along with the amounts of such losses:

| Particulars | Loss after tax | | | | |

** This entity has been liquidated and is no longer part of the Group.*
*\# As on date of this Red Herring Prospectus, Tango IT Solutions India Private Limited is our Subsidiary and has not been identified as our Group Company.*

In the event our Subsidiaries and Group Companies continue to incur losses, we may need to provide financial support to such entities and our consolidated results of operations and financial condition may be adversely affected. We may not be able to recover our investment in such entities. Further, our Company has given loans to Lenskart Solutions Pte. Ltd. and Neso Brands Pte. Ltd. and the outstanding balance as of July 21, 2025 was ₹3,488.98 million and ₹88.74 million, respectively. These loans are unsecured and carry an interest rate of 5.97% per annum. If our Subsidiaries or Group Companies are unable to repay their debt in a timely manner, we may not be able to recover the loans given by us to such entities. While we have not had such instances during the past three Financial Years, the occurrence of such additional financial obligations could adversely affect our business, results of operations, financial condition and cash flows.

See also "***Summary of the Offer Document***" on page 28.

***15. Medical advancements in the eyecare industry may adversely affect the demand for our eyewear products.***

We operate in the eyewear industry, which is subject to technological changes and innovations that may affect the demand for our products. In particular, medical advancements in eyecare, such as laser-assisted in situ keratomileusis ("**LASIK**") and small incision lenticule extraction ("**SMILE**") surgeries, may reduce the need for corrective eyewear among potential customers. These surgeries are designed to correct refractive errors, such as myopia, hyperopia, and astigmatism, by reshaping the cornea of the eye. According to the Redseer Report, refractive error correction through surgical procedures such as LASIK and SMILE is increasingly accessible across emerging markets.

We cannot assure you that the demand for our eyewear products will not be adversely affected by the increasing popularity and availability of LASIK and SMILE surgeries. If more customers opt for these surgeries, our revenue may decline, and our growth prospects may be impaired. Moreover, we may face increased competition from other eyewear companies, as well as from medical service providers, who may offer these surgeries as part of their product portfolio. We may also incur additional costs to adapt our product offerings, marketing strategies, and customer service to the changing preferences and needs of our customers. We may not be able to successfully anticipate or respond to these changes in a timely or effective manner, which may adversely affect our business, results of operations, financial condition and cash flows.

***16. We have entered into joint venture arrangements for frame manufacturing and distribution capabilities. Non-compliance with the terms of these joint venture arrangements may adversely affect our business, results of operations, financial condition and cash flows.***

We have entered into joint venture arrangements for frame manufacturing and distribution of eyewear products and vision care plans. Pursuant to these arrangements, we entered into joint ventures with certain entities for Baofeng Framekart Technology Limited and Visionsure Services Private Limited. The joint venture agreements of our Company provide for the terms and conditions of these Joint Ventures and the obligations of the respective parties. Under the terms of the arrangements, our Company and the respective joint venture partners have agreed to, among

other things, capital contribution obligations, restrictions on share transfers, reserved matters requiring affirmative approval, and non-compete and exclusivity covenants. These arrangements also include obligations relating to supply of products and technical know-how, board and shareholder governance rights, and specific exit and termination provisions. Any failure by us or our joint venture partners to comply with these terms, or a breakdown in the commercial relationship, may impact the continuity, financial performance, or strategic value of these joint ventures and, may adversely affect our business, results of operations, financial condition and cash flows.

While we have not experienced any adverse incidents involving our joint venture arrangements or non-compliance with the terms of our joint venture agreements during the three months ended June 30, 2025 and the last three Financial Years, we cannot assure you that such events will not occur in the future, including due to factors that may be beyond our control, such as escalating geopolitical tensions between India and the People's Republic of China. Any such adverse incidents may adversely affect our business, results of operations, financial condition and cash flows.

***17. We are dependent on third-party contractual labour for several aspects of our manufacturing activities, who are primarily sourced through labour contractors. Any disruptions in the supply of such contractual labour could adversely affect our business, results of operations, financial conditions and cash flows.***

Our manufacturing activities are labour intensive, and as of June 30, 2025, we had 18,173 permanent employees and a contractual workforce of 5,812 employees across the jurisdictions in which we operate. We have entered into service and manpower agreements with contractors to provide us with services in relation to manpower supply, outsourcing and payroll management services, among others at such locations mutually decided between our Company and the contractors. Disruptions in these arrangements could have an adverse effect on our ability to source third-party contractual labour, which could adversely affect our business, results of operations, financial conditions and cash flows. Our requirements for contractual labour vary depending on the nature and scope of work involved in our ongoing projects. There is no assurance that these arrangements can be renewed in a timely manner, or at all. We also do not have direct control over the timing or quality of services provided by third parties. Contractors hired by us may be unable to supply the necessary workforce on a timely basis, or at all, may face disputes with their personnel, or may fail to comply with applicable regulations and requirements regarding the deployment of contractual labour. These issues could, in turn, impact production at our manufacturing facilities and the timely delivery of our products to customers.

Set out below are our contractual labour expenses in absolute terms and as a percentage of our total expenses during the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise specified)* | | | | |
| Contractual labour (A) | 239.14 | 207.62 | 895.10 | 697.37 | 556.98 |
| Total expenses (B) | 18,365.80 | 15,606.22 | 66,194.78 | 55,495.94 | 40,250.74 |
| Contractual labour as percentage of total expenses *(%)* (A)/(B) | 1.30% | 1.33% | 1.35% | 1.26% | 1.38% |

Although we do not engage such contractual labour directly, we may be held responsible for any wage payments to be made to such contractual labour in the event of default by the independent contractors. While the amount paid in such an event can be recovered from the independent contractor, any significant requirement to fund the wage requirements of the engaged contractual labour or delay in recovering such amounts from the independent contractors may have an adverse effect on our cash flows and results of operations. Any disruption to the supply of such contractual labour for our manufacturing facilities or our inability to control the composition and cost of our contractual labour could adversely affect our business, results of operations, financial condition and cash flows.

***18. If we are not able to attract and retain vision care professionals (comprising optometrists and opticians) for our retail stores, our business, results of operations, financial condition and cash flows could be adversely affected.***

We rely on the availability and quality of vision care professionals (comprising optometrists and opticians) to provide eye examinations, prescriptions, fittings and other services to our customers. As of June 30, 2025, we retained 4,647 vision care professionals in India, who were all acquired pursuant to our acquisition of Dealskart Online Services Private Limited ("**Dealskart**"). We avail the services of such vision care professionals, who are engaged as our employees, through ordinary-course employment contracts. The optometry profession is regulated in certain jurisdictions and requires prescribed qualifications, including registration with professional councils in those jurisdictions. The number of qualified and available optometrists is limited and there is demand for their services across sectors such as hospitals, clinics, NGOs, research and education. As a result, we face competition in hiring and retaining optometrists for our retail stores. We attract and retain vision care professionals by offering training and skilling initiatives, and performance-based incentives. We also provide relocation assistance and flexible posting

options, in addition to other engagement and retention initiatives such as continuous professional development workshops.

Vision care professionals are essential for our retail operations, as they assist customers in selecting, fitting and dispensing eyewear products. They also require certain skills, training and certification to perform their duties effectively and in accordance with the relevant standards and guidelines. We may face difficulties in finding, training and retaining qualified opticians and optometrists, especially in Tier 2 and 3 cities, where the availability and awareness of such professionals may be lower than in Tier 1 cities.

If we are not able to attract and retain sufficient number of optometrists, opticians and vision care professionals for our retail stores, or if they fail to perform their services in a satisfactory manner, we may experience reduced customer satisfaction, loyalty and retention, lower sales and margins, increased costs and liabilities, regulatory actions and penalties, and damage to our reputation and brand. Any of these factors could have an adverse effect on our business, financial condition, results of operations and cash flows.

***19. The launch of new sub-brands, eyewear categories or designs that prove to be unsuccessful could affect our growth plans, which could adversely affect our business, results of operations, financial condition, and cash flows.***

We operate in the eyewear industry which is highly competitive and dynamic, and where customer preferences and needs are influenced by a range of factors, such as quality, price, service, innovation and sustainability. We have launched and may continue to launch new premium and affordable categories, new sub-brands or eyewear collections, such as Hooper Creatr, Phonic and others, to cater to the evolving customer demands, to scale, sustain and diversify our eyewear portfolio, to enhance our brand equity and reputation, and to gain a competitive edge in the market.

However, we may not be able to successfully launch, market, or sell such new categories, brands or eyewear products, or to achieve the expected growth, profitability, performance, or synergies from such new brands or products, for multiple reasons, including:

- failure to conduct adequate market research, customer feedback, or eyewear product testing, or to anticipate or understand the customer preferences, needs, or behavior, especially in new product categories, such as smart glasses or audio-enabled glasses;
- failure to innovate, develop, or design new brands or eyewear products that meet the quality, performance, or functionality standards or expectations of our customers;
- failure to protect or enforce the intellectual property rights of the new brands or eyewear products, or to defend against any infringement or misappropriation claims or litigation involving such intellectual property rights;
- failure to establish or maintain effective marketing, advertising, or promotional strategies or campaigns for the new brands or eyewear products, or to communicate the value proposition or differentiation of such new brands or products to the customers, influencers, or other stakeholders;
- failure to price the new brands or eyewear products competitively or attractively, or to offer adequate discounts, incentives, or loyalty programs, for new brands or products;
- competition from other manufacturers or distributors of similar or substitute products, or changes in customer preferences, needs, or behavior, which may affect the demand, pricing, or margins of the new brands or products; or
- any other events or circumstances that may impair the launch, marketing, or sale of the new brands or eyewear products, or prevent us from meeting our growth, diversification, or expansion objectives.

Any of the above factors could result in the launch of new brands or eyewear products that prove to be unsuccessful, or that fail to generate the desired customer response, satisfaction, or loyalty, which could adversely affect our growth plans, and our business, results of operations, financial condition, and cash flows.

***20. There have been certain instances of delays in payment of statutory dues by our Company. Any further delays in payment of statutory dues may attract financial penalties from the respective government authorities and in turn may have a material adverse impact on our financial condition and cash flows.***

The table below sets forth the details statutory dues paid by our Company and Subsidiaries in relation to our employees for the periods indicated is set out below:

| Nature of Payment | Three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million)* | | | | |
| Employee State Insurance Act, 1948 | 11.31 | 0.50 | 15.11 | 1.84 | 2.01 |
| Payment of Gratuity Act, 1972 | 3.60 | 3.93 | 17.54 | 9.40 | 10.09 |
| The Employees Provident Fund and Miscellaneous Provisions Act, 1952 | 161.23 | 42.10 | 315.98 | 148.14 | 119.79 |
| Labour Welfare Fund | 0.49 | 0.44 | 2.97 | 3.44 | 1.45 |
| Professional taxes | 4.20 | 0.50 | 7.09 | 1.83 | 0.69 |
| Tax Deducted at Source as per Income Tax Act, 1961 | 132.46 | 99.43 | 523.92 | 419.17 | 312.10 |

The table below sets forth the details of the delays in payments of statutory dues paid by our Company and Subsidiaries in relation to our employees for the years indicated is set out below:

| Particulars | Number of employees | Amount *(₹ in million)* | Number of instances | Number of days delayed |
|---|---|---|---|---|
| ***Employees Provident Fund and Miscellaneous Provisions Act, 1952*** | | | | |
| As of the three months ended June 30, 2025 | 15,005 | 1.86 | 22 | 27 – 123 days |
| As of the three months ended June 30, 2024 | 73 | 0.27 | 04 | 2 – 122 days |

| As of Fiscal 2023 | 2,266 | 0.02 | 2 | 2 – 10 days |

We are generally regular in depositing statutory dues. These delays were primarily due to administrative reasons and issues relating to technical problems with government portals, filing portals, glitches, and certain instances of oversight on our part. We have implemented several corrective measures to ensure adherence to regulatory requirements and maintaining our obligations regarding statutory dues such as a compliance tracking tool that requires our teams to enter statutory compliance details, including due dates and actual payment dates. This also includes an alert mechanism put in place to track upcoming dates. We conduct regular internal checks to assess compliance with statutory obligations and provide updates to our finance, accounting, and HR teams on regulatory requirements. We engage with external advisors to stay informed on regulatory changes. While we have subsequently made payments in relation to the pending statutory dues and implemented measures, we cannot assure you that in future such measures will be effective or that

there will be no similar delays and no penalties or fines that can be levied by regulators and which can have material impact on our financial condition and cash flows.

***21. Errors or inaccuracies in eye examinations conducted by our vision care professionals could adversely affect our reputation, business, results of operations, financial condition and cash flows.***

We rely on the professional skill and judgment of the optometrists and opticians who perform eye examinations in our retail stores and through our remote-testing channels to prescribe corrective lenses that meet each customer's visual requirements. Although we have established standard operating procedures, training programs and quality-control protocols that are designed to ensure the accuracy and consistency of every eye test, we cannot eliminate the possibility that individual practitioners may make errors in refraction, fail to detect contra-indications, incorrectly interpret diagnostic readings, enter data inaccurately into our systems or otherwise deviate from our prescribed methodologies. Inaccurate prescriptions can result in eyewear that does not provide the intended correction, causes discomfort, headaches or aggravated vision issues, and may necessitate re-examination, remake or replacement of lenses and frames at our cost.

If customers experience adverse effects attributable to an erroneous prescription (whether actual or perceived) they may return products, demand refunds, invoke warranty claims, post negative reviews on social media, or initiate legal or regulatory proceedings, including claims for professional negligence, personal injury or deceptive trade practices. Any such claims could require us to incur legal fees, settlement amounts, recall costs and higher warranty provisions. Further, widespread or highly publicised incidents of inaccurate prescriptions could trigger investigations by healthcare regulators or consumer-protection authorities in the jurisdictions where we operate, lead to stricter licensing or supervision requirements for our vision care professionals and compel us to devote additional resources to compliance and preventive controls.

In addition, any perception that our eye-examination services may be unreliable (whether arising from isolated incidents or systemic deficiencies) could undermine our brand reputation, discourage both existing and prospective customers from purchasing our products or subscribing to our membership programs, and impede our planned expansion into new markets or categories. Although such events have not materially affected our business during the three months ended June 30, 2025 and the last three Financial Years, we cannot assure you that similar incidents will not occur in the future or that our current training, supervision and audit mechanisms will be sufficient to prevent, detect or remediate every error. Any failure to maintain consistently accurate eye-testing standards could, therefore, have an adverse effect on our reputation, business, results of operations, financial condition and cash flows.

***22. We have not entered into any definitive arrangements to utilise certain portions of the Net Proceeds of the Offer and our funding requirements and the proposed deployment of Net Proceeds are based on management estimates.***

We intend to utilise a portion of the Net Proceeds towards setting up new CoCo stores in India. The expenditure to be incurred by us towards setting up these CoCo stores, will involve capital expenditure to be incurred on obtaining furniture and fittings, leasehold improvements (including civil interiors), digital peripherals and store equipment. While we have obtained a quotation from a vendor in relation to such furniture and fittings, leasehold improvements (including civil interiors), digital peripherals and store equipment, which is certified by PS Architects & Consultants, independent architect, pursuant to their certificate dated July 28, 2025, the quotation is valid for a limited period of time and may be subject to revisions, and other commercial factors. The cost of such furniture and fittings, leasehold improvements (including civil interiors), digital peripherals and store equipment may escalate owing to any revision in the commercial terms of such quotations, rate of inflation or other macroeconomic factors. We are yet to enter into any definitive agreement(s) to place orders for furniture and fittings, leasehold improvements (including civil interiors), digital peripherals and store equipment towards opening the CoCo stores and there can be no assurance that the same contractor/ vendor would be engaged eventually to supply or provide the requisite furniture and fittings, leasehold improvements (including civil interiors), digital peripherals and store equipment or supply at the same costs and that such costs will not adversely affect our business, cash flows, financial condition and results of operations in this regard. Various risks and uncertainties, such as economic trends and business requirements, competitive landscape, as well as general factors affecting our results of operations, financial condition and access to capital and including those set forth in this section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. Further, the outcome of this expenditure and investment is not ascertainable or quantifiable at this stage and may be disproportionate to the revenue generated or user conversion rates. Further, our growth initiatives and expansion plans could be delayed due to failure to receive regulatory approvals, technical difficulties, human resource, technological or other resource constraints, or for other unforeseen reasons, events or circumstances. Accordingly, use of the Net Proceeds for other purposes identified by our management may not result in actual growth of our business, increased profitability or an increase in the value of our business and your investment.

***23. We are yet to finalize the exact locations or properties for setting up Company owned and Company operated stores, for which we intend to utilise the amount from Net Proceeds. If we are unable to find suitable locations or if the lease or license payments for these locations are in excess of our estimates, our operations and financial conditions may be adversely impacted.***

Our Lenskart stores in India are in three formats: (i) Company owned and Company operated stores ("**CoCo Stores**"), (ii) Franchisee owned and Franchisee operated stores ("**FoFo Stores**"), and (iii) Company owned-Franchisee operated stores ("**CoFo Stores**"). As on June 30, 2025, out of 2,137 stores in India, 1,823 were CoCo Stores and 314 were FoFo Stores and CoFo Stores. We are yet to finalize the exact locations or enter into agreements for lease of suitable properties for setting up CoCo Stores for which we intend to utilise the amount from Net Proceeds. Such locations will be determined by our Company at the time of setting up these new CoCo Stores, after conducting a detailed analysis of the demographics, lease rentals and other business and market considerations such as demand of the products in the region and optimisation of delivery time and cost. We aim to address this gap through continued omnichannel expansion, deepening our presence and retail footprint across Metropolitan (which will include Delhi NCR, Mumbai, Chennai and Kolkata, among others), Tier 1 (which will include Coimbatore, Nagpur, Surat and Raipur, among others), and Tier 2+ (which will include Kollam, Cuttack, Haldwani and Tinsukia, among others) cities in India. However, these locations are only indicative in nature and will be determined in accordance with the annual business plan of our Company which will be approved by our Board of Directors. If we are unable to find suitable locations or if the lease or license payments for these locations are in excess of our estimates, our operations and financial conditions may be adversely impacted. For further details, please see "***Objects of the Offer – Details of Objects - Capital expenditure towards set-up of new CoCo stores in India****"* on page 208.

Further, the success of our CoCo Stores depends in part on the location, size and density of our CoCo Stores. This is critical for us to gain access to a wide user base, enable a wider selection and assortment of products and in turn deliver a superior user experience. We cannot assure you that we will be successful in opening new CoCo Stores, in suitable locations or in time. User demand or economic conditions where CoCo Stores will be located could decline in the future, lease / license payments of our CoCo Stores could increase substantially; residential and demographic patterns may shift; There can, be no assurance that such Net Proceeds will be deployed effectively, or at all, and failure to do so may have an adverse effect on our business and financial condition. For risks relating to our use of Net Proceeds, see "—***Our funding requirements and proposed deployment of the Net Proceeds of the Offer have not been appraised by a bank or a financial institution or any external agency and if there are any delays or cost overruns, our business, results of operations, financial condition, and cash flows could be adversely affected. Further, any variation in the utilization of our Net Proceeds as disclosed in this Red Herring Prospectus would be subject to certain compliance requirements, including prior Shareholders' approval."*** on pages 109.

***24. We intend to utilize a portion of the Net Proceeds for unidentified inorganic acquisitions. Further, if the allocated portion of the Net Proceeds is insufficient to cover for the cost of the relevant inorganic acquisition, we may need to seek alternative forms of funding.***

We propose to utilize a portion of the Net Proceeds to fund inorganic growth through unidentified acquisitions, as set forth in the section "***Objects of the Offer- Details of the Objects - Unidentified inorganic acquisitions and General Corporate Purposes***" beginning on page 217. These proposed unidentified acquisitions by our Company and/or our Subsidiaries shall be undertaken in accordance with the applicable laws, including the Companies Act, FEMA, the regulations notified thereunder and the SEBI Listing Regulations, as the case may be, including obtaining approval from the shareholders of our Company and/or our Subsidiaries, as may be required. While we cannot presently quantify the amount that will be used towards such initiatives since such amount will be authorized upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC, the amount to be utilised for general corporate purposes and unidentified inorganic acquisitions shall together not exceed 35% of the Gross Proceeds and the amount to be utilised for each, general corporate purposes or for unidentified inorganic acquisitions individually, shall not exceed 25% of the Gross Proceeds. Further, the amount utilized for our object of unidentified inorganic acquisitions shall not exceed 25% of the Gross Proceeds. We further confirm that the amounts, if any, that will be utilised towards capital expenditure related items as part of either general corporate purposes and/or unidentified inorganic acquisitions, shall not exceed 25% of the Gross Proceeds. Consequently, we may be required to explore a range of options to raise requisite capital, including utilizing our existing cash reserves and/or seeking debt, including from third party lenders or institutions. Pending utilization of the portion of the Net Proceeds set aside for pursuing unidentified acquisitions, our Company may only invest such funds in deposits in one or more scheduled commercial banks included in the Second Schedule of the Reserve Bank of India Act, 1934, as may be approved by our Board. The actual deployment of funds will depend on a number of factors, including the timing, nature, size and number of acquisitions undertaken, as well as general factors affecting our results of operations, financial condition and access to capital. These factors will also determine the form of investment for these potential acquisitions, i.e., whether they will be directly done by our Company or through investments in our Subsidiaries in the form of equity, debt or any other instrument or combination thereof, or whether these will be in the nature of business/asset or technology acquisitions or joint ventures. Acquisitions and inorganic growth initiatives may be undertaken as business transfers or share-based transactions, including share swaps, merger/ demerger or a combination thereof, or any other mode permitted under applicable laws and at this stage, we cannot determine whether the form of investment will be cash, equity, debt or any other instrument or combinations thereof. The amounts deployed towards such initiatives may not be the total

value or cost of such acquisitions or investments, resulting in a shortfall in raising requisite capital from the Net Proceeds towards such acquisitions or investments. Acquisitions could result in the use of substantial amounts of cash, potentially dilutive issuances of equity securities, the occurrence of significant goodwill impairment charges, amortisation expenses for other intangible assets, and exposure to potential unknown liabilities of the acquired business.

***25. Our investments in marketing and branding may not result in proportionate increases in revenue, which could adversely affect our business, results of operations, financial condition and cash flows.***

We intend to utilize a portion of the Net Proceeds of the Offer towards brand marketing and business promotion expenses to enhance brand awareness. The tables below set out details relating to our marketing and promotion expenses (in absolute numbers and as a percentage of revenue from operations) during the periods and financial years indicated, on a restated basis:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| Marketing and promotion expenses (A) | 1,276.24 | 1,091.12 | 4,484.13 | 3,521.06 | 2,938.36 |
| Revenue from operations (B) | 18,944.55 | 15,204.26 | 66,525.17 | 54,277.03 | 37,880.28 |
| Marketing and promotion expenses as a percentage of revenue from operations *(%)* (A/B) | 6.74% | 7.18% | 6.74% | 6.49% | 7.76% |

The success of our marketing and branding initiatives depends on several factors, including the appeal of our campaigns to target customers, the extent of brand recall and retention achieved, competitive activity, evolving customer behavior and broader economic conditions. There can be no assurance that such expenditure will result in increased customer acquisition, higher sales volumes or enhanced profitability. If our marketing campaigns do not generate the anticipated benefits, our revenue may not increase despite incurring significant costs, which could adversely affect our business, results of operations, financial condition and cash flows.

***26. Our Registered Office, corporate headquarters, three of our manufacturing facilities, all of our retail stores and multiple offices across India and in international markets, are operated from leased premises. We are subject to risks associated with leasing real estate, including the potential inability to renew leases on commercially reasonable terms, unexpected increases in rental costs, lease terminations, or disputes with landlords. Any such adverse developments could disrupt our operations and could have a material adverse effect on our business, results of operations, financial condition, and cash flows.***

Our Registered Office, corporate headquarters, three of our manufacturing facilities (one domestic and two overseas, in the UAE and Singapore), all of our retail stores and multiple offices across India and international markets, are operated from leased premises. Lease arrangements for stores which are occupied by us on a leasehold basis, and which have been entered into with related parties were at arm's length and in compliance with applicable laws and regulations. The details of our key leased properties in India are set out, as below:

| Particulars | Type | Address | Owned / Leased | Lease tenure (if leased) |
|---|---|---|---|---|
| Office in New Delhi | Registered Office | Plot No. 151, Okhla Industrial Estate, Phase III, New Delhi, 110020 | Leased | Leased for a period of 5 years from November 10, 2024 |
| Office in Gurugram, Haryana | Headquarters | Ground Floor, Vipul Tech Square, Golf Course Road Sector 42, DLF QE, Gurugram, 122 002, Haryana, India | Leased | Leased for a period of 9 years, from November 1, 2022 |
| Facility in Gurugram, Haryana | Manufacturing facility | Khasra No. 29//24/2, 25/2/1, 30//4/4, 5/1, 5/2, 6/1/1, 6/1/2, Village Begumpur Khatola, Gurugram | Leased | Leased for a period of 13 years, from July 1, 2019 |

The lease periods and rental amounts for these properties vary based on their locations. We cannot assure you that we will be able to renew our leases on acceptable terms or at all. In the event that we are required to vacate our current premises, we would be required to make alternative arrangements for new offices and other infrastructure, and we cannot assure that the new arrangements will be on acceptable terms. If we are required to relocate our business operations or shut down our manufacturing facilities during this period, we may suffer a disruption in our operations or have to pay increased charges, which could have an adverse effect on our business, prospects, results of operations and financial condition. We have not faced any such instances where our leases were not renewed for the past three Financial Years due to refusals from our landlords. While we endeavour to ensure that adequate care and due diligence in relation to the ability of the lessor to lease out the stores is taken when we lease our stores, we cannot guarantee that such registry would be in place for all our stores. While we endeavour to ensure all our lease agreements are duly stamped and registered, in certain instances, the registration of the lease deeds remains pending. Such delays are

typically attributable to procedural requirements at local registration offices or the physical unavailability of the lessors in India. A lack of registration could potentially affect our ability to enforce our rights and remedies under these agreements.

***27. We depend significantly on sales of our eyewear products to our Lenskart Gold members in India. Any failure to retain such customers could lead to a decline in the sales of our products, which could have an adverse effect on our business, results of operations, financial condition and cash flows.***

Lenskart Gold is our membership program that offers customers in India several benefits, such as "buy one get one free" offers, discounts, free shipping, early access to new collections and exclusive deals. Lenskart Gold includes multiple tiers. Set out below are details of our Lenskart Gold members and Lenskart Gold subscription fees as of and for the periods and financial years indicated:

| Particulars | As of June 30, | | As of and for the Financial Year | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| Number of Lenskart Gold members in India *(in million)* | 7.12 | 6.28 | 6.77 | 5.82 | 3.41 |
| Gold Membership Subscription Fees *(₹ in million)* | 420.77 | 212.16 | 1,080.34 | 660.57 | 656.01 |

We believe that the Lenskart Gold membership program enhances our customer value proposition and strengthens our brand loyalty and differentiation in the eyewear industry. However, we cannot assure you that we will be able to retain our members or attract new customers to join the program in the future. Our members may also choose to not renew their membership or may switch to competing products or services that offer similar or better benefits, prices, quality, convenience or customer experience.

Our membership program may also face challenges in maintaining its attractiveness and relevance in the face of changing customer preferences, market trends, regulatory developments, technological innovations or competitive pressures. Moreover, our membership program may entail significant costs and investments in terms of marketing and technology which may not be offset by the revenues generated from the program.

Any decline in the size or engagement of this membership base could result in lower revenues, reduced profitability, and decreased customer retention. There can be no assurance that we will be able to retain existing members or attract new customers to our Lenskart Gold program. Any failure to do so could adversely affect our business, financial condition, results of operations, and cash flows.

***28. We have experienced losses and negative cash flows from investing and financing activities in the past and any increases in expenses, decline in revenues or negative cash flows in future periods could adversely affect our business, results of operations, financial condition and the trading price of our Equity Shares.***

Set out below are details of our restated profit/(loss) before tax, restated profit/(loss) for the year / period and cash flows in the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million)* | | | | |
| Restated profit/(loss) before tax | 997.19 | 26.32 | 3,853.56 | 590.31 | (1,011.76) |
| Restated profit/(loss) for the period/ year | 611.73 | (109.57) | 2,973.40 | (101.54) | (637.57) |
| Net cash flow from operating activities | 2,832.96 | 2,693.03 | 12,306.32 | 4,873.83 | 947.40 |
| Net cash flow (used in) / from investing activities | (1,663.78) | (414.41) | (2,658.67) | 1,586.76 | (29,764.87) |
| Net cash flow (used in) / from financing activities | (1,937.52) | 52.47 | (5,347.76) | (7,217.68) | 27,767.03 |

We incurred restated losses for the year for the Financial Years 2024 and 2023, primarily due to lower operating leverage during such Financial Years. We experienced negative cash flows in relation to financing and investing activities during the Financial Years 2024 and 2023, respectively, primarily due to (i) repayment of long-term borrowings and payments towards lease liabilities during the Financial Year 2024; and (ii) our acquisition of Owndays, investments in fixed deposits and purchase of property, plant and equipment in the Financial Year 2023. For further details, see "***Management's Discussion and Analysis of Financial Condition and Results of Operations – Cash Flows***" on page 936.

We expect our expenses to increase over time as we continue to grow our operations and invest in expanding our manufacturing capabilities and the addition of new stores in new markets. These investments, including those related to enhancing our use of technology, increasing marketing efforts, and developing new eyewear products, may be more

costly than anticipated and may not result in increased revenue or growth in our business as planned. Any failure to increase our revenue sufficiently to keep pace with our investments and other expenses could prevent us from maintaining or increasing profitability or generating positive cash flow on a consistent basis. Additionally, if we are unable to effectively manage our expenses and cash flows, we may incur losses in the future, which could adversely affect our business, results of operations, financial condition, and cash flows. For a discussion of the significant factors affecting our results of operations and a discussion of our financial performance for the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023, see "***Management's Discussion and Analysis of Financial Condition and Results of Operations***" on page 904.

***29. Our success depends on our ability to identify market trends and meet evolving customer demands, including through ongoing research and development and innovation in our omnichannel model. If we are unable to do so, our business, results of operations, financial condition and cash flows could be adversely affected.***

We operate in a highly competitive and dynamic eyewear industry where customer preferences, fashion trends, technological innovations and regulatory changes can affect the demand for our eyewear products. We strive to anticipate and respond to these changes by investing in research and development, offering a range of eyewear products and services, leveraging our omnichannel retail network, enhancing our customer experience, investing in our brand and marketing campaigns, and expanding our geographic presence. However, we cannot assure you that we will be able to successfully identify and adapt to changing market conditions and customer expectations in a timely and effective manner, or that our eyewear products will continue to appeal to our existing and potential customers. If we fail to do so, we may lose our competitive advantage and customer loyalty, and face increased price competition, reduced margins and lower sales volumes. This could have an adverse effect on our business, results of operations, financial condition and cash flows.

Our omnichannel model depends on the integration of our online platform with our physical retail network to deliver a seamless customer experience. Customer expectations for online features, user experience, and convenience are constantly evolving. If we are unable to timely enhance our website and mobile applications, adopt new technologies, or match competitor innovations, customers may perceive our platform as less attractive and shift to alternatives. Given the interdependence of our online and offline channels, any decline in the functionality or appeal of our online platform could reduce both online sales and in-store footfall, adversely affecting our business, results of operations, financial condition and cash flows.

Additionally, our ability to identify and meet customer demands depends on factors, such as our research, design and innovation capabilities, our supply chain efficiency and flexibility, our quality control and assurance processes, our technology and data analytics systems, our customer feedback and engagement mechanisms. We cannot assure you that our investments and initiatives in these fields, such as our acquisition of Tango IT Solutions India Private Limited, enabling computer vision at our manufacturing facilities for quality checks and at retail stores for mapping customer flow, and implementation of geoanalytics for identifying suitable locations to open new retail stores, will yield the desired outcomes, or that we will be able to sustain and enhance our capabilities in the future. We may also face operational, technical, regulatory, legal or financial challenges or disruptions that could impair our capabilities or increase our costs. Any failure or delay in developing, maintaining or improving our capabilities could limit our ability to identify and meet customer demands, and adversely affect our business, results of operations, financial condition and cash flows.

***30. Our commission and incentive expenses are linked to network expansion and sales performance and may fluctuate with changes in sales volumes and employee incentive structures, which could adversely affect our business, results of operations, financial condition and cash flows.***

We incur commission and incentive expenses primarily in connection with payments linked to sales performance, productivity, and achievement of business targets by employees, franchisees, and channel partners. These expenses are influenced by factors such as network expansion, the number of CoFo and FoFo stores, growth in sales volumes, competitive conditions in the labour market, and changes in employee incentive structures.

The following table sets out details of our commission and incentive expenses, including as a percentage of total expenses for the periods and financial years indicated:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| Commission and incentive expenses *(₹ in million)* (A) | 422.63 | 2,310.33 | 7,331.63 | 7,614.68 | 5,833.79 |
| Total expenses *(₹ in million)* (B) | 18,365.80 | 15,606.22 | 66,194.78 | 55,495.94 | 40,250.74 |
| Commission and incentive as a percentage of total expenses *(%)* (A)/(B) | 2.30% | 14.80% | 11.08% | 13.72% | 14.49% |

Changes in such expenses are primarily attributable to higher employee sales incentives, resulting from the expansion of our retail network and growth in sales volumes. Any material increase in our commission and incentive expenses without a corresponding increase in revenues, could adversely affect our business, results of operations, financial condition and cash flows.

***31. Our Statutory Auditors' audit reports for the past three Financial Years have included certain modifications in their reports and annexures to their report on certain matters specified in the Companies (Auditor's Report) Order, 2020. If similar modifications and comments are included in the Statutory Auditors' reports for our financial statements in the future, the trading price of our Equity Shares could be adversely affected.***

Our Statutory Auditors have included certain modifications in the "Other Legal and Regulatory Requirements" section of their audit report on our financial statements for the Financial Year 2025, 2024 and 2023. These modifications indicated that (a) we do not have servers physically located in India for the daily backup of books of account and other books and papers maintained in electronic mode; and (b) in respect of our main accounting software (ERP) and related applications for maintaining books of accounts, the audit trail facility was not enabled throughout the year for all relevant transactions recorded in the software. As of June 30, 2025, we have addressed some of the above modifications of our Statutory Auditors and have physically located our servers for the daily back-up of books of account and other books and papers maintained in electronic mode, in India, except for one inventory management software. We have also enabled the audit trail facility phase-wise for the inventory management system but have not been able to do so for the main accounting software in the absence of controls in the service organization.

Further, the audit report on our audited financial statements as of and for the year ended March 31, 2024, included as annexure, a statement on certain matters specified in the Companies (Auditors Report) Order 2020, which was modified for observations to indicate slight delays in depositing of statutory dues.

While we seek to comply with applicable financial accounting and record-keeping requirements, we cannot assure you that we will be able to maintain compliance or rectify any instances of non-compliance in a timely manner, or at all. We cannot assure you that our Statutory Auditors' modifications on audit reports for any future financial period will not contain similar remarks or other matters, including any matters required to be reported under the Companies (Auditors Report) Order 2020, which could adversely affect our business, reputation and the trading price of our Equity Shares.

***32. Our brands, sub-brands and reputation are critical to the success of our business. Failure to maintain and enhance our brand equity and reputation, including on account of negative publicity and unfavourable media coverage, may adversely affect our business, results of operations, financial condition and cash flows.***

We own and operate a range of brands and sub-brands across 14 countries, as of June 30, 2025. We believe that the recognition and reputation of our Lenskart and Owndays brands along with our other product categories and eyewear brands such as John Jacobs, Vincent Chase and Hustlr, as well as our omnichannel retail network, significantly contribute to our competitive position. Maintaining and enhancing the recognition and reputation of our brands is critical to our future business success and competitiveness.

We may suffer damage to our brands and reputation in many ways and to varying degrees. For example, public perception may deteriorate if counterfeit, spurious, or damaged or defective goods resembling our eyewear products are purchased by customers from third parties, or if we are not able to provide satisfactory customer service, including fulfilling our delivery guarantees. We may face customer complaints or negative publicity, whether justified or not, on our business or industry, such as product quality, safety, performance, functionality, design, innovation, pricing, discounts, promotions, customer service, delivery, returns, refunds, warranties, recalls, data privacy, security, environmental, social, or governance practices, or compliance with laws and regulations. Further, we rely on celebrities for certain of our campaigns. Any negative publicity involving such celebrities may have negative publicity in relation to our products and brands and may adversely affect our business and reputation. Such complaints or publicity may arise from sources such as customers, competitors, regulators, media, social media, influencers, or other stakeholders, and may be disseminated quickly and widely, and may influence the opinions and sentiments of our existing and potential customers and other stakeholders. Any customer complaints or negative publicity involving our brands and sub-brands or influencers associated with our eyewear products, brands or sub-brands, even if not directly related, could harm our reputation, brand image, customer loyalty, and market share, as well as reduce our revenues and margins.

The rising use of social media presents additional risks. Social media allows rapid and widespread distribution of content, often without accuracy checks, which could lead to misinformation, negative comments, data breaches, fraud, hoaxes, or malicious content targeting us. Such occurrences can immediately damage our business or reputation without providing us an opportunity to respond promptly. These risks could increase our operational costs, lead to legal actions, and further negative publicity, adversely affecting our business, results of operations, financial condition and cash flows. We may also incur significant costs and resources in addressing or resolving such complaints or publicity, or taking legal or remedial actions, which may not be successful or adequate to protect our interests. See "***Our Business – Customer Service and Grievance Redressal***" on page 332 for details of our customer redressal mechanism in India. While we have not experienced any incidents that had a material and adverse effect on our

business and results of operations during the three months ended June 30, 2025 and the last three Financial Years, if we are unable to prevent, mitigate, or respond effectively to any customer complaints or negative publicity in the future, our business, results of operations, financial condition, and cash flows may be adversely affected.

If we are unable to maintain our reputation, enhance our brand recognition or increase positive awareness of our omnichannel retail network and eyewear products and brands, it may be difficult to maintain and grow our customer base, and our business, results of operations, financial condition, and cash flows may be adversely affected.

***33. We have pursued and are likely to continue to pursue acquisitions for inorganic growth. Our inability to successfully complete and integrate suitable acquisitions on acceptable terms in the future could adversely affect our business, results of operations, financial condition and cash flows.***

As part of our growth strategy, we have pursued and are likely to continue to pursue acquisitions of companies, businesses, assets, or technologies that are complementary or synergistic to our existing eyewear products, services, capabilities, or markets, or that provide us with access to new eyewear or adjacent products, brands, services, capabilities, or markets. For instance, in August 2022, we acquired Owndays and introduced the brand in select Lenskart stores in India and outside India. In 2024, we made a minority investment in Le Petit Lunetier and launched their products in Lenskart stores in India. Further, in 2025, we acquired Dealskart, which was a master franchise operator for our retail stores in India, and made a minority investment in Dimension NXG Private Limited as well. Further, pursuant to a share purchase agreement dated July 12, 2025 among Lenskart Solutions Pte. Ltd., which is one of our Subsidiaries ("**Lenskart Singapore**"), Stellio Ventures S.L. ("**Stellio**"), the investor shareholders of Stellio and the founders of Stellio, Lenskart Singapore has acquired 84.21% of Stellio's share capital with effect from August 11, 2025. Pursuant to share purchase agreements in August 2025, our Company has also acquired additional equity shares increasing our effective stake to 96.15% of the equity share capital in Quantduo Technologies Private Limited. See also "***History and Certain Corporate Matters***" on page 344.

Going forward, we may not be able to successfully complete, or integrate such acquisitions, or realize the anticipated benefits or synergies from such acquisitions, for reasons, such as:

- inability to obtain the necessary approvals or consents from the relevant authorities, lenders, or other stakeholders, to consummate such acquisitions;
- inability to secure sufficient financing for such acquisitions;
- inability to retain or integrate the key personnel, customers, suppliers, or distributors, of the acquired companies, or to manage the cultural, operational and strategic differences or conflicts;
- inability to successfully integrate the financial, accounting, information technology, human resource, legal, compliance, or other systems, processes, policies, or practices of the acquired companies, businesses, assets, or technologies, or to maintain adequate internal controls, governance, or reporting standards;
- inability to protect or enforce the intellectual property rights of the acquired companies, businesses, assets, or technologies, or to defend against any infringement or misappropriation claims or litigation involving such intellectual property rights; or
- inability to adapt to the changing market, competitive, regulatory, or customer conditions affecting the acquired companies, businesses, assets, or technologies, or to respond to the technological advances or innovations in the relevant industry or sector.

Any of the above factors could adversely affect our ability to successfully execute our acquisition strategy, or to achieve our growth, diversification, or expansion objectives, which could adversely affect our business, financial condition, results of operations, and cash flows. Further, we cannot assure you that any acquisitions undertaken by us will generate the results that we anticipate or that we will be able to obtain the expected benefits of such acquisitions.

***34. The eyewear industry in India is largely unorganized, which exposes us to competition from a fragmented base of smaller retailers and may affect our business, results of operations, financial condition and cash flows.***

According to the Redseer Report, approximately 77% of prescription eyewear sales in India by value are catered to by the unorganized sector, with organized players accounting for the balance ~23% as of Financial Year 2025. The unorganized sector comprises numerous small, independent retailers with lower cost structures and flexible pricing, which may limit the ability of organized players to increase prices, gain market share, or deliver standardized customer experiences. This large and fragmented presence may also lead to variability in product quality and service standards across the industry.

Further, according to the Redseer Report, we are the largest retailer within the organized segment in India in terms of volumes sold in Financial Year 2025. However, the continued predominance of the unorganized sector creates a competitive landscape that may adversely affect our ability to grow our market share, margins, and profitability.

***35. Any disruptions in the availability of, or fluctuations in the price of, electricity and water at our manufacturing facilities may adversely affect our business, results of operations, financial condition and cash flows.***

Our manufacturing operations require a significant amount and continuous supply of electricity and water, and any shortage or non-availability may adversely affect our operations. Set out below are our electricity and water expenses in absolute terms and as a percentage of our total expenses for the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise specified)* | | | | |
| Electricity and water (A) | 306.98 | 107.54 | 582.26 | 377.82 | 204.96 |
| Total expenses (B) | 18,365.80 | 15,606.22 | 66,194.78 | 55,495.94 | 40,250.74 |
| Electricity and water as a % of total expenses *(%)* (A)/(B) | 1.67% | 0.69% | 0.88% | 0.68% | 0.51% |

Moreover, prolonged disruptions in the availability of electricity or water may require us to suspend or modify our operations. We depend on state-owned electricity distribution companies for our electricity requirements and our water requirements from government-owned utility providers and through extraction of ground water. While we have not faced any instances of power cuts or shortage of water that has required us to shut down, suspend or modify operations at any of our manufacturing facilities during the past three Financial Years, we cannot assure you that such instances will not occur in the future. Abrupt increases in power tariffs or water procurement expenses may increase our operating costs, which we may not be able to pass on to customers. Any failure on our part to obtain alternate sources of electricity or water, in a timely fashion, and in a cost-effective manner could adversely affect our business, results of operations, financial condition and cash flows.

***36. Globally, we face competition from other eyewear product manufacturers, distributors and brands. If we are unable to compete effectively, our business, results of operations, financial condition and cash flows may be adversely affected.***

According to the Redseer Report, the global eyewear industry operates across diverse business models defined by capability and scale, shaped further by financial capacity, market structure, and strategic priorities. Some of our competitors may have greater financial, marketing, distribution and other resources than us, and may offer a wider range of products, services, prices, discounts, promotions and customer loyalty programs. They may also have more established brand recognition, customer relationships, market presence and access to key suppliers and channels than us. Furthermore, the eyewear industry is subject to changing customer preferences, fashion trends, technological innovations and regulatory developments, which may create new opportunities for existing or potential competitors to enter or expand their market share.

We compete primarily on the basis of our omnichannel customer experience, our innovative and affordable eyewear offerings, our in-house design and manufacturing capabilities, our brand portfolio, our extensive retail network, our technology-enabled solutions and our customer-centric approach. However, we cannot assure you that we will be able to maintain or enhance our competitive advantages or respond effectively to the challenges posed by our competitors. Our competitors may significantly increase their marketing expenses to promote their brands and products, which may require us to engage third-party service providers to a greater extent to maintain our brand recognition and recall value, resulting in an increase in our advertising and marketing expenses, which we may not be able to pass on to our customers. If we fail to compete effectively, we may lose our existing or potential customers, market share, revenues, profitability and growth prospects. This may have an adverse effect on our business, results of operations and cash flows.

***37. Our operations are labour intensive and our business, results of operations, financial condition and cash flows could be adversely affected by strikes, lockouts or increased wage demands by, disputes with, or misconduct by, our employees.***

India and the other jurisdictions where we maintain manufacturing operations and a retail presence have stringent labour legislations that protect the interests of workers, which includes legislation that sets forth detailed procedures for the establishment of labour unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment of employees. For instance, from March 2024 to May 2024, Owndays Taiwan failed to meet the mandated quota for employing individuals with disabilities. According to the Workforce Development Agency of the Ministry of Labour, our Company employed only three individuals with disabilities, while regulations required the employment of four individuals. Further, Owndays Co. Ltd. has been unable to meet the statutorily mandated quota for employment of persons with disabilities, and has not entered into a labour management agreement regarding deduction of certain amounts from monthly wages with its employee representatives. Although such non-compliance has not, to date, materially impacted our business operations or

financial condition, we cannot assure you that future non-compliance will not adversely affect our business, results of operations, cash flows or reputation.

While our employees and staff members are not unionized and there have not been any instances of employee disputes, unrest, strikes, lockouts or work stoppages in the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023, any strikes, lockouts or work-stoppages for any reason in the future could adversely affect our business, results of operations, financial condition and cash flows.

Compliance with labour laws and the negotiation of collective agreements might result in increased financial commitments, affecting our employee costs. We are also subject to laws and regulations governing aspects of our relationship with our employees, encompassing minimum wages, working hours, working conditions, hiring and termination practices, and work permit authorization. See also "***Key Regulations and Policies in India***" on page 338. Employee misconduct could also involve the improper use or disclosure of confidential information, sexual harassment and other offenses, which could result in regulatory sanctions and serious reputational or financial harm for us.

***38. Technology failures or interruptions in the availability of our online channel, operations at our manufacturing facilities, our point-of-sale systems or of our network infrastructure, could have an adverse effect on our business, results of operations, financial condition and cash flows.***

Our success is predicated on the seamless and simultaneous functioning of multiple, inter-dependent technology environments, each of which is critical to a different stage of the customer experience and to a different node of our value chain. These environments include: (i) our customer-facing websites, mobile applications and related back-end infrastructure; (ii) highly automated, software-driven lens-cutting, frame-etching, coating, robotic assembly and warehouse-management systems deployed across our manufacturing facilities in India; (iii) store-level POS hardware and software, including payment gateways, e-invoice generators and inventory-tracking modules; (iv) cloud-hosted enterprise resource planning, customer-relationship-management, artificial-intelligence and machine-learning engines, data-warehouses and analytics dashboards; and (v) the telecommunications networks, internet service providers, cloud-infrastructure vendors and other third-party service providers that connect, host, secure and maintain all of the foregoing.

Our reputation and ability to attract, retain and serve our customers depend upon the reliable performance of our mobile applications and websites, our manufacturing facilities, our store-level POS hardware and software, and the underlying network infrastructure. While we have not experienced significant interruptions in these systems during the past three Financial Years, we may experience issues in the future, including server failures that could temporarily slow down or interfere with the performance of our mobile applications and websites. While we have incident response protocols in place and our order losses have not had a materially adverse effect on our results of operations during the past three Financial Years, such protocols may not be sufficient for future incidents.

As our customer base and the amount of information shared on our mobile applications and websites continue to grow, we will need an increasing amount of network capacity and computing power. We have spent and expect to continue to spend substantial amounts on our technology infrastructure to handle the traffic on our mobile applications and websites, manage in-store analytics and further develop our integrated manufacturing and supply chain operations. Set out below are details of our information technology support expenses in absolute terms and as a percentage of total expenses for the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| Information technology support expenses *(₹ in million)* (A) | 384.36 | 261.55 | 1,107.02 | 1,023.47 | 752.06 |
| Total expenses *(₹ in million)* (B) | 18,365.80 | 15,606.22 | 66,194.78 | 55,495.94 | 40,250.74 |
| Information technology support expenses as percentage of total expenses *(%)* (A)/(B) | 2.09% | 1.68% | 1.67% | 1.84% | 1.87% |

The operation of our technology-related systems is complex and could result in operational failures. Our manufacturing facility-level technologies are especially sensitive to real-time data inputs and rely on software algorithms to optimise cut-paths, minimise material wastage and maintain accuracy. If those algorithms malfunction, we may experience increased scrap rates, sub-optimal yields, production delays, quality deviations, warranty claims, product recalls and reputational harm. Likewise, if our POS systems fail, store teams may be unable to access customer histories, perform eye-tests, dispense the correct prescription or complete transactions, leading to lost sales, customer dissatisfaction and potential regulatory non-compliance. If the volume of traffic of our customers exceeds the capacity of our website infrastructure or if our customer base or the amount of traffic on our mobile applications and websites grows more quickly than anticipated, we may be required to incur additional costs to enhance our underlying website and app infrastructure.

The volume of traffic and activity on our online channels spike on certain days, such as during festivals and our sales periods, and any such interruption would have a heightened adverse effect if it were to occur at a time of high volume.

If sustained or repeated, these performance issues could reduce the attractiveness of our online channels. While there have not been any specific instances of performance issues that have materially and adversely affected our results of operations during the past three Financial Years, we may experience such issues in the future. In addition, the costs and complexities involved in expanding and upgrading our systems may prevent us from doing so in a timely manner and may prevent us from adequately meeting the demand placed on our systems. Any interruption or inadequacy that causes performance issues or interruptions in the availability of our mobile applications or websites could reduce customer satisfaction and result in a reduction in the number of customer purchasing our eyewear products, adversely affecting our business and results of operations.

We are also vulnerable to cyber attacks which could lead to extended interruptions of our operations, a corresponding loss of revenue and profits, cause breaches of data security, or otherwise impair our operations. For instance, in June, 2025, threat actors exploiting a vulnerability in the loyalty points scheme of a partner of one of our subsidiaries, Lenskart Arabia Limited, illegitimately credited approximately 64.4 million loyalty points across multiple user accounts without corresponding purchases. Our loyalty points scheme partner, on July 18, 2025, invoiced Lenskart Arabia Limited for SAR 1,546,345 (₹35.46 million; assuming an exchange rate of SAR 1 = ₹22.93) for point redemptions, including the aforementioned fraudulent transactions. While we are discussing avenues of resolution with our loyalty points scheme partner and a cyber insurance claim has been raised by us, we cannot assure you that such events will not happen in the future.

We also depend on the maintenance of reliable internet and mobile infrastructure with the necessary speed, data capacity and security, as well as timely development of complementary products, for providing reliable internet and mobile access. Failures by our telecommunications providers may interrupt our ability to provide continuous internet and phone support to our customers and distributed denial-of-service attacks directed at our telecommunication service providers could prevent customers from accessing our mobile applications or websites. If any such event occurs, our business, results of operations, financial condition, and cash flows may be adversely affected.

***39. The global eyewear industry is subject to a range of threats and challenges, which if unaddressed by us, could adversely affect our business, results of operations, financial condition and cash flows.***

According to the Redseer Report, legacy system limitations, category-specific complexities, and evolving consumer behaviours prevent the industry from realizing its potential. These risks are particularly pronounced in high-potential, low-penetration markets, where demand tailwinds are often tempered by frictions in access, affordability, trust, and scalability.

According to the Redseer Report, major risks influencing the competitive landscape include:

- *Gaps in infrastructure and diagnostics coverage may slow the adoption of eyewear in emerging geographies*

  The eyewear sector's expansion depends heavily on diagnostics and retail access. While approximately 4 billion people globally have refractive errors, penetration of prescription eyeglasses remains modest, especially in emerging markets such as India at approximately 35% and Southeast Asia at approximately 40% of refractive error incidences. This is partly due to low optometrist availability and optical store density, leading to limited last-mile availability of eye testing and prescription dispensing in these markets. However, expanding eyewear retail, increasing online penetration, and remote optometry initiatives by large organised players are beginning to address these gaps. Players investing in proactive and streamlined diagnostics gain by expanding access and accelerating first-time user adoption.

- *Fragmented service experience in unorganised retail limiting standardisation and trust*

  Prescription eyeglasses remains one of the most fragmented retail categories in emerging markets. For instance, in India and Southeast Asia, over 70% of prescription eyeglasses are still sold through unorganised channels as of the Financial Year 2025, which often lack standardised diagnostic tools and quality protocols. This results in wide variability in service quality, pricing, and product reliability. However, the growing footprint of organised and digitally enabled retailers is beginning to bring standardisation to the market through consistent diagnostics, consistent quality and reliability of branded lenses and frames, transparent pricing, and after-sales support. These players are shifting consumer preference toward service-led formats.

- *High customisation requirements and complexity posing scalability challenges*

  Unlike most lifestyle categories, eyewear products, especially prescription eyeglasses, require precision fitment, clinical accuracy, and individual customisation leading to highly fragmented SKU assortments and high working capital. Managing inventory, quality, and fulfilment at scale remains an operational challenge to solve for. However, increasing investment in backward integration, from automated lens manufacturing and just-in-time fulfilment to modular inventory design and new-age fitting tools are helping offset complexity, while enabling players to scale while maintaining personalisation.

- *Digital discovery is outpacing conversion due to trust and technology limitations*

Eyewear has increasingly become a digitally discovered category, especially among younger, urban consumers. However, conversion to online purchase remains low, with online channel constituting <5% of prescription eyeglasses sales in India as of the Financial Year 2025. Frictions include a lack of tactile interaction and limitations of current digital try-ons. Yet, players are increasingly investing in omnichannel infrastructure and enabling online discovery, in-store trials, and fulfilment, which is expected to unlock stronger online channel adoption in the medium term.

- *Affordability gap driven by cost structures, import dependencies, and perceived value mismatch in price-sensitive markets*

  Affordability in emerging markets is constrained by high input costs, import dependencies, and potential gaps in consumer perception. Limited domestic manufacturing scale and fragmented supply chains continue to inflate costs for retailers. Although India's ASP for prescription eyeglasses at approximately ₹2,370 (approximately US$28) in the Financial Year 2025 is nominally low, it represents a sizable outlay for many consumers. However, value-focused organised players disrupting affordability by leveraging direct sourcing, technology-driven diagnostics, and tiered pricing. As digital models scale and local manufacturing matures, value-led growth is likely to follow.

- *Surgical procedures to correct refractive errors offer an alternative but remain niche due to cost and eligibility constraints*

  Refractive error correction through surgical procedures such as LASIK and SMILE is increasingly accessible across emerging markets. However, LASIK procedures range from ₹20,640 to ₹103,200 (US$240-1,200) in India and from ₹86,000 to ₹344,000 (US$1,000-4,000) in emerging Southeast Asian markets, making them considerably more expensive than prescription eyeglasses. Uptake is further limited by low perceived urgency, surgical aversion, and medical ineligibility for a share of consumers (e.g., unstable prescriptions or thin corneas). As a result, penetration of surgical solutions remains limited and does not impact the large-scale, recurring demand for prescription eyeglasses.

  An inability to address the above risks could adversely affect our business, results of operations, financial condition and cash flows.

***40. Inability to convert existing customers into repeat buyers, retain existing customers or acquire new customers cost-effectively may adversely affect our business, results of operations, financial condition and cash flows.***

Our growth depends on our ability to (i) encourage repeat purchases from existing customers across our omni-channel network, including through the development of our Lenskart Gold program, (ii) retain existing customers over time, and (iii) acquire new customers.

Acquiring new customers requires sustained investment in marketing, promotions, and customer engagement. The tables below set out details relating to our marketing and promotion expenses (in absolute numbers and as a percentage of revenue from operations) during the periods and financial years indicated, on a restated basis:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| Marketing and promotion expenses (A) | 1,276.24 | 1,091.12 | 4,484.13 | 3,521.06 | 2,938.36 |
| Revenue from operations (B) | 18,944.55 | 15,204.26 | 66,525.17 | 54,277.03 | 37,880.28 |
| Marketing and promotion expenses as a percentage of revenue from operations *(%)* (A/B) | 6.74% | 7.18% | 6.74% | 6.49% | 7.76% |

Rising customer acquisition costs, changes in digital marketing algorithms, reduced effectiveness of advertising channels, or increased competition for online visibility may reduce the efficiency of our marketing spend. Additionally, the cost of retaining customers through discounts, promotions, or loyalty benefits may not be fully offset by increased revenues or lifetime customer value. For newly acquired customers during the Financial Years 2021, 2022 and 2023, repeat orders within two years from the first purchase constituted 93.26%, 98.90% and 98.16%, respectively.

Repeat purchases and retention are influenced by factors such as customer satisfaction, product quality, pricing, perceived value, brand affinity, and the effectiveness of our loyalty programs, including Lenskart Gold and the benefits offered thereunder. If we fail to maintain high levels of customer satisfaction, or if competitors offer more attractive value propositions, customers may reduce their purchase frequency, switch to competitors, or discontinue purchasing from us altogether.

Further, if we are unable to maintain average selling pricing levels due to competitive pricing pressures, changes in product mix, promotional strategies, or customer preference shifts towards lower-priced offerings, our business and results of operations could be adversely affected.

***41. We rely upon the services of third-party data hosting facilities and other third-party technology service providers for our business and operations. Failures or outages attributable to third-party technology service providers or others could have an adverse effect on our business, results of operations, financial condition, and cash flows.***

We rely on services from third parties, such as our telecommunications service providers, payment gateways, supply chain intermediaries, couriers, SMS service providers and online map providers. Services provided by such parties may be subject to outages and interruptions that are not within our control. Some of these contracts could be terminable by either parties at a short or no notice while other contracts are for fixed terms with no automatic renewal option.

We also rely on cloud infrastructure service providers and systems maintained by third-party service providers. Our operations depend on the virtual cloud infrastructure and its configuration, architecture and interconnection specifications, as well as the information stored in these virtual data centers. We have no physical access or control over our virtual cloud infrastructure services, and we cannot quickly or easily switch our operations to another third-party cloud infrastructure service provider. Termination or suspension of our key agreements with our technology vendors would interrupt our business by affecting our ability to access our data and infrastructure.

With respect to our marketing channels, we rely on providers of online services, search engines, social media, digital marketing companies, directories and other websites and ecommerce businesses to provide content, advertising banners and other links that direct customers to our websites. We rely on these service providers to provide traffic to our website. In particular, we rely on search engines and mobile application stores, as important marketing channels. Search engine companies change their natural search engine algorithms periodically, and our ranking in natural searches may be adversely affected by those changes, as has occurred from time to time. If search engines change their algorithms, terms of service, display and featuring of search results, or if competition increases for advertisements, we may be unable to cost-effectively drive customers to our mobile applications and websites. Independently, we also rely on app marketplaces to drive downloads, and host our mobile apps. These marketplaces could make changes to their content and other policies, and those changes could adversely affect customers' access to our services.

We also rely on e-mail service providers, internet service providers, and mobile networks to deliver e-mail and "push" communications to customers and to allow customers to access our mobile applications and websites. If the systems of these third parties fail, we could lose customer data and miss order fulfillment deadlines, which could result in decreased sales, increased overhead costs and product shortages. In addition, the third parties on which we rely could face financial difficulties, which may negatively affect our business.

In addition, our technology infrastructure and the technology infrastructure of our third-party providers are vulnerable to damage or interruption as a result of software or hardware malfunctions, system implementations or upgrades, computer viruses, third-party security breaches, employee error, misuse, war, natural calamities, power loss, telecommunications failures, cyber-attacks, human error, and other similar events could lead to extended interruptions of our operations, a corresponding loss of revenue and profits, cause breaches of data security, loss of intellectual property or critical data, or the release and misappropriation of sensitive information, or otherwise impair our operations. While we have disaster recovery arrangements, our disaster recovery and data redundancy plans may be inadequate, and our business interruption insurance may not be sufficient to compensate us for the losses that could occur. While we have not experienced any such events during the past three Financial Years, if any such event were to occur in the future, our business, results of operations, financial condition, and cash flows may be adversely affected.

***42. Failure to deliver an efficient omnichannel experience may adversely affect customer satisfaction and retention, which could adversely affect our business, results of operations, financial condition and cash flows.***

Our business model is built on an omnichannel strategy that integrates our physical retail stores, website, and mobile applications to provide customers with a unified shopping experience. This requires seamless coordination across multiple functions, including product discovery, eye-test scheduling, order placement, payments, fulfilment, and after-sales service. Any inefficiencies in integration, such as inconsistent product availability across channels, delays in order fulfilment, inability to synchronize customer data, or system outages, may disrupt the customer journey.

Customers increasingly expect flexibility to browse and purchase products across channels without friction. If we fail to meet these expectations, whether due to technology limitations, operational bottlenecks, or inadequate coordination between online and offline operations, our customer satisfaction and retention may decline. This could result in a loss of new or repeat business, negative brand perception and a reduction in our market share.

Accordingly, any deterioration in the efficiency or consistency of our omnichannel experience could adversely affect our business, results of operations, financial condition, and cash flows.

***43. We are subject to risks associated with product liability, warranty and recall if our eyewear products are found to be defective, which may adversely affect our reputation, business, results of operations, financial condition and cash flows.***

We are subject to risks associated with product liability, warranty and recall if our eyewear products are found to be defective, which may arise from our eyewear products failing to perform as expected or failing to meet prescribed quality standards. Our and our suppliers' manufacturing operations are subject to government policies and controls, both domestic and, for exports, overseas, international standards and prescribed customer quality standards, including pursuant to Quality Control Orders issued by the Bureau of Indian Standards and any manufacturing or quality control concerns may give rise to defective products. We also offer customers the ability to return, and exchange products conveniently through any channel.

We offer warranties to customers when they purchase our eyewear products. The table below sets out details of our current liabilities – provisions – provision for warranty in absolute terms, and other expenses - provision for warranty in absolute terms and as a percentage of revenue from operations, as of and for the periods / financial years indicated:

| Particulars | As of June 30, | | As of and for the Financial Year | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| Current liabilities – Provisions – Provision for Warranty (A) | 293.56 | 211.87 | 319.62 | 214.26 | 225.41 |
| Other Expenses – Provision for warranty (B) | 11.63 | 28.99 | 167.25 | 117.69 | 118.31 |
| Revenue from operations (C) | 18,944.55 | 15,204.26 | 66,525.17 | 54,277.03 | 37,880.28 |
| Other Expenses – Provision for warranty as a percentage of revenue from operations *(%)* ((B)/(C)) | 0.06% | 0.19% | 0.25% | 0.22% | 0.31% |

We offer warranties on the eyewear products we sell on our online channel and at our retail stores. Accordingly, if our customers encounter any defects or malfunctions in purchased products, they may trigger the warranty claims, which could increase our costs and liabilities. Although we have made provisions for warranties, we may receive warranty claims that are more than our provisions and incur significant expenses, which could reduce our operating profitability. In addition, if there is an increase in our sales volumes, we could experience an increase in the number of warranty claims and be required to increase our warranty provisions. These factors in turn could affect our financial condition, results of operations and cash flows.

We do not maintain any insurance coverage for product liability, warranty and recall. While we have not incurred product liability, warranty or recall claims that had a material and adverse effect on our business and results of operations during the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023, we cannot assure you that we will not experience losses relating to product liability, warranty and recall claims in the future or that we will not incur significant costs to defend any such claims, which may adversely affect our business, results of operations, financial condition and cash flows.

***44. Our inability to accurately forecast demand for our eyewear products and manage our inventory may have an adverse effect on our business, results of operations, financial condition and cash flows.***

Our inventories consist of raw materials, traded goods, consumables, tools, work-in-progress, store and spare parts and finished goods.

The table below provides the closing balance of the above as of the dates indicated:

| Particulars | As of June 30, | | As of March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million)* | | | | |
| Raw Materials (A) | 8,275.62 | 4,423.22 | 7,782.64 | 4,977.73 | 4,761.60 |
| Traded Goods (B) | 2,651.31 | 1,585.45 | 2,463.49 | 1,663.46 | 1,166.08 |
| Consumables (C) | 384.20 | 87.08 | 336.41 | 87.05 | 99.19 |
| Tools (D) | 22.48 | 12.44 | 17.56 | 9.35 | 8.99 |
| Work in progress (E) | 36.96 | 24.59 | – | 26.35 | 11.25 |
| Store and Spare Parts (F) | 81.96 | 35.48 | 68.56 | 37.29 | 21.16 |
| Finished Goods (G) | 123.71 | 93.97 | 145.73 | 79.56 | 43.62 |
| **Total Inventories ((A) + (B) + (C) + (D) + (E) + (F) + (G))** | **11,576.24** | **6,262.23** | **10,814.39** | **6,880.79** | **6,111.89** |

Any error in such identification could result in either surplus inventories, which we may not be able to sell in a timely manner, or under stocking, which will affect our ability to meet customer demand. While we aim to avoid under-stocking and over-stocking, our estimates and forecasts may not always be accurate. We believe that maintaining required levels of inventories helps us to meet the market demands in a timely manner and we generally maintain inventory according to our estimated customer demand. As our business expands, our inventory level increases and our inventory obsolescence risk may also increase along with the increased purchase of inventories. Furthermore, any unexpected material fluctuations or abnormalities in the supply of materials required to build frames or construct lenses, or changes in customers' preferences may lead to decreased demand and overstocking of supplies and increase the risk of obsolescence. A failure to maintain appropriate levels of inventories could have an adverse effect on our business, financial condition, results of operations and cash flows.

***45. Our intellectual property rights may be exposed to misappropriation and infringement claims by third parties and our eyewear products and brands are vulnerable to counterfeiting. Our inability to effectively address these risks and eliminate counterfeit products from the market could adversely affect our business, results of operations, financial condition, cash flows and prospects.***

As on the date of this Red Herring Prospectus, we have 242 registered trademarks, including in respect of our brands and logos, with the Registrar of Trademarks in India to protect our intellectual property. Further, we have 37 pending trademark applications in India. Further, our Company has registered four copyrights under the Copyright Act, 1957, applied for four patents under the Patents Act, 1970 and for two designs under the Designs Act, 2000. See "***Our Business – Intellectual Property***" and "***Government and Other Approvals***" on pages 334 and 955, respectively.

We operate in the eyewear industry, which is subject to the risk of counterfeiting and infringement of our intellectual property rights. Counterfeit products may imitate our designs, trademarks, logos, packaging, or other distinctive features, and may be sold at lower prices or through unauthorized channels. Counterfeit products may harm our reputation, brand image, customer loyalty, and market share, as well as reduce our revenues and margins. We may also incur significant costs and resources in enforcing our intellectual property rights and taking legal action against counterfeiters and infringers, which may not be successful or adequate to protect our interests.

We have taken measures to protect our intellectual property rights, such as registering our trademarks, designs, and domain names in India and other jurisdictions where we operate or intend to operate, implementing quality control and authentication procedures, and monitoring the market for potential infringements. However, these measures may not be sufficient or effective to prevent or deter counterfeiting and infringement activities, especially in countries where the enforcement of intellectual property rights is weak or inconsistent. Furthermore, we may face difficulties in identifying and pursuing counterfeiters and infringers, who may operate in multiple jurisdictions, use sophisticated methods to evade detection, or claim to have obtained valid licenses or authorizations from us or our affiliates.

Due to differences in regulatory bodies and varying global requirements, we may be unable to obtain intellectual property protection in jurisdictions outside India. As on the date of this RHP, we held 93 registered trademarks across a range of jurisdictions such as Japan, Singapore, UAE and Saudi Arabia, along with applications for 21 trademarks in Bangladesh, Nepal and Japan, which are currently pending approval. We cannot assure you that our intellectual property rights will not be challenged or circumvented by competitors or that such patents and trademarks will be found to be valid or sufficiently broad to protect our intellectual property. While we intend to defend against any threats to our intellectual property, we cannot assure you that our patents, trade secrets or other agreements will adequately protect our intellectual property. Further, we cannot be certain that the equipment provided by suppliers (including related software to operate such equipment) or the other service providers that we utilize have all requisite third-party consents and licenses for the intellectual property used in the equipment they manufacture. As a result, we may be exposed to risks associated with intellectual property infringement and misappropriation claims by third parties, which could adversely affect our business and reputation. This risk may arise, for example, if suppliers provide goods (such as frames or equipment) that contain third-party IP without the necessary rights, or through unauthorized use of marketing assets such as celebrity images beyond contractual terms, or the use of other assets that infringe third-party rights. Despite IP warranties in our contracts, we may unknowingly use third-party IP without proper licenses, leading to potential infringement claims and significant liabilities. Further, our marketing efforts may inadvertently use third-party content without proper clearances, leading to potential claims for copyright infringement, trademark dilution, or violation of publicity rights, resulting in financial and reputational damage. Such risks may further increase as we expand our product portfolio and enter new geographies.

The proliferation of counterfeit products and the infringement of our intellectual property rights could adversely affect our business, results of operations, financial condition and cash flows.

***46. We have in the past entered into related party transactions and may continue to do so in the future. We cannot assure you that we could not have achieved more favourable terms had such transactions not been entered into with related parties.***

We have in the past entered into, and will continue to enter into, transactions with related parties. These transactions include purchases, rent expenses, rental deposits, sale of assets, interest on loans and dividends paid, among others. While our related party transactions have been conducted on an arm's length basis in compliance with applicable laws

and accounting standards, including the Companies Act and other applicable regulations pertaining to the evaluation and approval of such transactions, we cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties. Further, we may enter into related party transactions in the future. While all related party transactions that we may enter into post-listing will be subject to Board or Shareholder approval, as necessary under the Companies Act and the SEBI Listing Regulations, we cannot assure you that such future transactions, individually or in the aggregate, will not have an adverse effect on our business, financial condition, cash flows and results of operations or that we could not have achieved more favourable terms if such future transactions had not been entered into with related parties. Further, any future transactions with our related parties could potentially involve conflicts of interest which may be detrimental to our Company. There can be no assurance that our Directors and executive officers will be able to address such conflicts of interests or others in the future. For further details of our related party transactions, see "***Summary of the Offer Document – Summary of Related Party Transactions***" on page 34.

***47. Our business exposes us to risks inherent to the operation of complex automated lens cutting and other equipment and machinery, which may experience failures or cause injury either because of defects, faulty maintenance or repair, or improper use, which may adversely affect our business, results of operations, financial condition and cash flows.***

Our fully automated robotic lens edging and polishing systems enable edging and fitting of lenses with micron-level precision at scale. These equipment and machinery are subject to wear and tear, breakdowns, malfunctions, power failures, cyberattacks, human errors, accidents, natural disasters, sabotage, theft, fire, explosion, or other events that may cause damage, disruption, or injury. Any such event may result in production delays, loss of inventory, damage to property, plant and equipment, environmental liabilities, legal claims, regulatory penalties, increased costs, loss of revenue, reputational harm, or harm to our employees or third parties. We may not be able to timely and effectively repair, replace, or restore the affected equipment and machinery, or find alternative sources of production, which may adversely affect our ability to meet the demand for our eyewear products. While we have not faced such instances during the three months ended June 30, 2025 and the last three Financial Years, such risks may materialize in the future.

We also rely on third-party vendors, contractors, and service providers for the installation, maintenance, repair, and upgrade of our equipment and machinery, as well as for the supply of components and spare parts necessary for our operations. Any failure or delay by these third parties to perform their obligations, including disruptions in supply chains, defects in goods or services, or lapses in maintenance, could adversely affect the efficiency, reliability, and safety of our operations.

***48. We rely on third-party logistics providers for the transportation and delivery of our eyewear products to customers and any disruption, delay, or quality issues in such logistics operations, or increases in our logistics costs, could adversely affect our business, results of operations, financial condition and cash flows.***

We sell our products through our online channel and through our global network of 2,806 retail stores as of June 30, 2025. We rely on third-party logistics providers for the transportation and delivery of our eyewear to our customers in a timely manner, both domestic and international. Set out below are details of our postage and courier expenses, in absolute terms and as a percentage of our total expenses, for the three months ended June 30, 2025 and 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| Postage and courier expenses *(₹ in million)* (A) | 413.32 | 234.23 | 1,272.22 | 796.39 | 605.93 |
| Total expenses *(₹ in million)* (B) | 18,365.80 | 15,606.22 | 66,194.78 | 55,495.94 | 40,250.74 |
| Postage and courier expenses as percentage of total expenses *(%)* ((A)/(B))) | 2.25% | 1.50% | 1.92% | 1.44% | 1.51% |

Our reliance on third-party logistics providers exposes us to risks and challenges, such as:

- an inability to control the quality, timeliness, or cost of the transportation or delivery services provided by our third-party logistics providers;
- competition from other customers of our third-party logistics providers, who may have greater bargaining power, financial resources, or market share than us, and who may demand preferential treatment, higher allocation, or lower prices;
- an inability to enter into long-term contracts or arrangements with our third-party logistics providers, or difficulties in renewing, extending, or terminating such contracts or arrangements;

- non-performance, default, or termination by our third-party logistics providers, due to reasons, some of which may be beyond our control, such as financial distress, operational issues, labour disputes, regulatory actions, or *force majeure* events;

- damage, loss, or theft of our products or materials during transportation or delivery, or liability claims arising from the transportation or delivery services provided by our third-party logistics providers; and

- transportation or delivery disruptions, delays, or inefficiencies caused by factors affecting our third-party logistics providers, or their sources of vehicles, equipment, or services, such as demand and supply imbalances, transportation bottlenecks, import and export restrictions, currency fluctuations, environmental regulations, or natural disasters.

Although we have taken steps to diversify our sources of transportation and delivery services, maintain quality standards and controls, and monitor the performance and compliance of our third-party logistics providers, we cannot assure you that we will not face any disruption, delay, or quality issues in our logistics operations in the future. Our arrangements with our third-party logistics providers are usually for terms ranging between one and three years, and generally provide for termination of the arrangements at short notice and for convenience, with prior notice requirements. If the arrangements with our transportation providers for our eyewear products are terminated, we may not be able to obtain services on similar or better terms from new transportation service providers, which could cause significant disruptions in our operations, loss of revenue, customer dissatisfaction, increase our costs and adversely affect our results of operations. We could also face legal disputes, penalties, or damages for breaching or terminating our contracts.

Further, if our transportation service providers do not have sufficient insurance coverage, any losses that may arise during transportation will need to be claimed under our insurance policies and there can be no assurance that we will receive compensation for such claims in a timely manner or at all. We may face the risk of our competitors offering better terms or prices (in particular, during the seasons of higher demand), which may cause them to cater to our competitors alongside us or on a priority basis, which could adversely affect our business, financial condition, cash flows and results of operations. Any disruption, delay, or quality issues in our logistics operations could adversely affect our business, results of operations, financial condition, results of operations and cash flows.

***49. The Unaudited Proforma Financial Information included in this Red Herring Prospectus, which has been prepared to illustrate the effects of the acquisition of Dealskart Online Services Private Limited during the Financial Year 2025 and the acquisitions of Stellio Ventures, S.L. and Quantduo Technologies Private Limited during the Financial Year 2026 on our Restated Consolidated Financial Information, is not indicative of our expected results of operations in future periods or of our future financial position, or a substitute for our past results.***

We acquired Dealskart on December 31, 2024, following which Dealskart became a wholly owned subsidiary of our Company. On completion of this acquisition, all store leases were restructured as follows: (i) leases held by our Company (including those which were sub-leased to Dealskart, and these sub-leases were subsequently terminated as a part of the above transition) remained unchanged; (ii) store leases held by Dealskart directly were novated to our Company; and (iii) a limited number of store leases continue to remain with Dealskart, for which Dealskart continues to pay rent and is reimbursed by our Company under a cost-sharing arrangement. For CoCo stores in India, store-level manpower and services continue to be provided by Dealskart, our wholly owned subsidiary, under an operations and maintenance agreement (with effect from January 2025), while we now manage all retail and fulfillment activities under a single, consolidated brand. Further, pursuant to a share purchase agreement dated July 12, 2025 among Lenskart Solutions Pte. Ltd ("**Lenskart Singapore**"), Stellio, the investor shareholders of Stellio and the founders of Stellio, Lenskart Singapore has acquired 84.21% of Stellio's share capital with effect from August 11, 2025. In addition, we acquired equity shares of Quantduo Technologies Private Limited (which was an erstwhile Associate) ("**Quantduo**") increasing our effective stake to 96.15% of the equity interest in Quantduo in September, 2025.

The Unaudited Proforma Financial Information of our Company, comprises of unaudited proforma balance sheet as at June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, and unaudited proforma statement of profit and loss for the period ended June 30, 2025, and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023, read with the select explanatory notes thereon. The Unaudited Proforma Financial Information has been prepared by our Company to illustrate the impact of the acquisitions of Dealskart Online Services Private Limited on financial position at March 31, 2024 and March 31, 2023 as if such acquisition had taken place as at March 31, 2024 and March 31, 2023 respectively and on our results of operations for the years ended March 31, 2025, March 31, 2024 and March 31, 2023 as if such acquisition had taken place as at April 1, 2024, April 1, 2023 and April 1, 2022 respectively and to illustrate the impact of acquisition of Stellio Ventures, S.L. and Quantduo Technologies Private Limited as if the acquisitions had taken place on June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, respectively, for the purpose of the unaudited pro forma balance sheet as at June 30, 2025, March 31, 2025, 2024 and 2023 respectively, and on April 1, 2025, April 1, 2024, April 1, 2023 and April 1, 2022, respectively, for the purpose of the unaudited proforma statement of profit and loss for the three months period ended June 30, 2025, and for Financial Years ended March 31, 2025, March 31, 2024 and March 31, 2023 respectively. Because of their nature, the Unaudited Proforma Financial Information addresses a hypothetical situation and does not represent our actual consolidated financial

condition, cash flows or results of operations, and is not intended to be indicative of our future financial condition, cash flows and results of operations. The adjustments set forth in the Unaudited Proforma Financial Information are based upon available information and assumptions that our management believes to be reasonable. Accordingly, the Unaudited Proforma Financial Information may not be an accurate representation of what our actual results of operations, cash flows and financial position would have been for such periods or as of such dates as they are assumed to have been effected, nor are these intended to be indicative of expected results or operations in the future periods or our future financial position. As the Unaudited Proforma Financial Information is prepared for illustrative purposes only, it is, by its nature, subject to change and may not give an accurate picture of the actual financial results that would have occurred had such transactions by us been effected on the dates they are assumed to have been effected.

Further, our Unaudited Proforma Financial Information were not prepared in accordance with accounting or other standards and practices generally accepted in jurisdictions other than India, such as Regulation S-X under the U.S. Securities Act, in connection with an offering registered with the SEC under the U.S. Securities Act and consequently do not comply with the SEC's rules or requirements of other jurisdictions on presentation of the proforma financial information. Further, the rules and regulations related to the preparation of proforma financial information in other jurisdictions may vary significantly from the basis of preparation as set out in the Unaudited Proforma Financial Information included in this Red Herring Prospectus. Therefore, the Unaudited Proforma Financial Information should not be relied upon as if it has been prepared in accordance with those standards and practices. If various assumptions underlying the preparation of the Unaudited Proforma Financial Information do not come to pass, our actual results could be materially different from those indicated in the Unaudited Proforma Financial Statements. Accordingly, the Unaudited Proforma Financial Statements included in this Red Herring Prospectus are not intended to be indicative of expected results or operations in the future periods or the future financial position of our Company or a substitute for our past results, and the degree of reliance placed by investors on our Unaudited Proforma Financial Statements should be limited.

Accordingly, the Unaudited Proforma Financial Information included in this Red Herring Prospectus is not intended to be indicative of expected results or operations in the future periods or the future financial position of our Company or a substitute for our past results, and the degree of reliance placed by investors on our Unaudited Proforma Financial Information should be limited.

***50. Our business is subject to seasonality and our quarterly results published upon listing may not be indicative of our annual financial performance and results of operations.***

Our business is subject to seasonal fluctuations in demand for our eyewear products, which may affect our revenue, profitability and cash flows. We typically experience higher sales volumes during the festive season in the fourth quarter of the Financial Year. Conversely, we may experience lower sales volumes during the third quarter of the Financial Year, as well as during periods of economic slowdown, adverse weather conditions, public health emergencies or other factors that may affect customer spending and preferences. As a result, our quarterly results published upon listing may not be indicative of our annual financial performance and results of operations, and may vary significantly from quarter to quarter. Our quarterly results may also be affected by other factors, such as changes in accounting policies or standards, foreign exchange fluctuations, taxation rates, regulatory developments, competition, litigation, acquisitions or disposals, and operational or technical issues. Therefore, investors should not rely on our quarterly results as an indication of our future performance, and should consider our annual results and the factors that may cause fluctuations in our results.

***51. There are outstanding legal proceedings involving our Company, Directors, Promoters, Subsidiaries, Key Managerial Personnel and Senior Management Personnel. An unfavourable outcome in such proceedings may have an adverse effect on our business, results of operations, financial condition and cash flows.***

There are outstanding legal proceedings involving our Company, Directors, Promoters, Subsidiaries, Key Managerial Personnel and Senior Management Personnel. These proceedings are pending at different levels of adjudication before a range of courts, tribunals, authorities and arbitrators. In the event of adverse rulings in these proceedings or consequent levy of penalties, we may need to make payments or make provisions for future payments, and which may increase expenses and current or contingent liabilities. The table below sets forth a summary of the litigation involving our Company, Directors, Promoters, Subsidiaries, Key Managerial Personnel and Senior Management Personnel.

| Entity/Persons | Criminal proceedings | Tax proceedings | Statutory or regulatory proceedings | Disciplinary actions by the SEBI or Stock Exchanges against our Promoter | Material civil litigation | Aggregate amount involved* (₹ in million) |

* *To the extent quantifiable.*
** *This includes matters where the Directors and our Key Managerial Personnel have been impleaded along with our Company.*

A first information report dated October 26, 2024 (the "**FIR**") was filed against Peyush Bansal, our Chairman, Managing Director and Chief Executive Officer, Neha Bansal, our Executive Director, Ramneek Khurana, one of the members of our Senior Management, and others ("**Petitioners**"), with the Devaraja police station, Mysuru under Sections 120B, 420, 477A, 468, 471, 406, 34 and 37 of the erstwhile Indian Penal Code, 1860 ("**IPC**") by Soma Shekara A ("**Complainant**") in relation to the non-renewal of agreements for license and franchise agreements for three Lenskart franchise stores located in Mysore. The Complainant alleged fabrication of the 'point of sales' software and other IT databases by our Company, misuse by certain managerial personnel of our Company to falsify records and financial statements to cheat the Complainant's outlet out of its profits and manipulate government compliance reporting, among others. The Petitioners filed a memorandum of criminal petition dated January 22, 2025, under Section 528 of the Bharatiya Nagarik Suraksha Sanhita, 2023, (corresponding to Section 482 of the erstwhile Code of Criminal Procedure, 1973), before the High Court of Karnataka to quash the FIR. The High Court of Karnataka, pursuant to an order dated January 22, 2025, put a stay on all further proceedings and investigation in relation to the FIR until the next date of hearing. The matter is currently pending.

For further information, see "***Outstanding Litigation and other Material Developments – Litigation involving our Promoters – Litigation against our Promoters – Criminal litigations against our Promoters***" on page 948.

For further details of such outstanding legal proceedings, see "***Outstanding Litigation and Material Developments***" on page 946. Involvement in such proceedings could divert our management's time and attention. Any adverse outcome in any of these proceedings may have an adverse effect on our business, reputation, financial condition, results of operations and cash flows. We may also be subject to litigations in the international jurisdictions that we operate in, including pursuant to non-compliance with applicable regulatory requirements or further to customer complaints and disputes. In addition, we may receive customer complaints or face disputes with our franchisees from time to time, due to factors such as product defects, delivery delays, service quality, pricing, contractual terms, or regulatory compliance. Such complaints or disputes may result in negative publicity, legal claims, regulatory actions, loss of customers, or termination of franchise agreements, which could adversely affect our reputation, business and results of operations. We have established policies and procedures to address customer complaints and disputes with franchise partners, and we monitor and review them regularly. However, we cannot assure you that we will be able to prevent or resolve all such complaints or disputes satisfactorily, or that they will not have an adverse effect on our reputation, business and results of operations.

After filing of the Draft Red Herring Prospectus, our Company received six complaints by various third parties regarding (i) allegations of inadequate disclosures of an FIR filed by them against our Company, unfair value adjustment of shares purchased by the Company in Owndays Inc and inflation of inventory in the books of the Company (ii) allegations of suppression of material criminal proceedings in the Draft Red Herring Prospectus (iii) allegations of the Company having a Chinese origin and manufacturing its products solely in China (iv) allegations of fraudulent abuse of corporate structure of the Company (v) alleged non-disclosure of payment to auditors in the Draft Red Herring Prospectus and (vi) non-disclosure of an alleged pre-IPO placement and a secondary transfer ("**Complaints**"). We have denied these complaints as baseless. With regard to complaints (i) and (ii), we do not anticipate any significant impact on Company's operations or financials. With respect to (iii), (v) and (vi) there is no financial impact and with respect to (iv) the financial impact estimated has been provisioned in the Current Liabilities of our Company. While our Company has responded to the Complaints and has denied all

claims in relation to such Complaints, there can be no assurance that our Company will not receive such complaints in the future.

***52. There may be discrepancies in corporate filings made by us from time to time. Further, we have filed a compounding application with RBI. We cannot assure you that regulatory proceedings or actions will not be initiated against us in the future and that we will not be subject to any penalty imposed by the competent regulatory authority in this regard.***

We are required to make regulatory filings for certain corporate actions undertaken by our Company including for any allotment of shares in the ordinary course of business. In this regard, our corporate filings may have certain discrepancies, including in relation to the number of shares allotted or the details of consideration paid with respect to allotment of shares and appointment of directors mentioned in such forms filed by our Company. We cannot assure you that any such discrepancies in filings will be rectified, or if any regulatory proceedings or actions will be initiated against us in the future. While no penalty or fine has been levied by the appropriate authorities against us for such discrepancies and while we believe the penalty on such non-compliance will not be material, we cannot assure you that we will not be subject to any penalty imposed on us by any competent regulatory authority in this regard, which could have an adverse effect on our results of operations, financial condition and cash flows.

Our Company filed a compounding application dated June 30, 2025 with the RBI for *inter-alia* non-submission of the valuation report and not obtaining a no objection certificate before undertaking the disinvestment in relation to the Company's prior investment in Ditto Technologies Inc. The compounding application is pending before the RBI. Additionally, our Company had filed a compounding application dated April 1, 2022 with RBI for delayed filing and non-filing of the annual performance reports for the financial years ended December 2018 and December 2019, respectively. The RBI through their order dated October 14, 2022, compounded the application, and our Company was required to pay ₹0.02 million.

Further, Owndays Co. Ltd. and MLO K.K. have made certain delays in corporate filings in relation to publication of financial results and registration of appointment of directors. While no penalty or fine has been levied by the appropriate authorities against us for such delays and while we believe the penalty on such non-compliance will not be material, we cannot assure you that we will not be subject to any penalty imposed on us by any competent regulatory authority in this regard, which could have an adverse effect on our results of operations, financial condition and cash flows.

Additionally, while our Company has implemented measures such as review mechanisms involving multiple-level verification of filings prior to submission, use of monitoring tools to track statutory deadlines, periodic internal reviews and internal compliance trainings, we cannot assure you that such measures will be effective.

***53. Our inability to meet our obligations, including financial and other covenants under our debt financing arrangements could adversely affect our business, results of operations, financial condition, and cash flows.***

Our ability to meet our obligations under our debt financing arrangements and repayment of our outstanding borrowings will depend primarily on the cash generated by our business. The table below sets out details of our borrowings, interest coverage ratio and debt service coverage ratio as of the dates indicated:

| Particulars | As of June 30, | | As of March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| Total borrowings (A+B) | 3,354.82 | 3,783.39 | 3,459.39 | 4,971.54 | 9,172.08 |
| (A) Current – financial liabilities - borrowings | 1,363.13 | 1,313.21 | 1,344.09 | 2,290.46 | 3,434.01 |
| (B) Non-current – financial liabilities – borrowings | 1,991.69 | 2,470.18 | 2,115.30 | 2,681.08 | 5,738.07 |
| Interest coverage ratio (in times)[(1)] | 8.44 | 7.31 | 7.85 | 6.80 | 5.11 |
| Debt service coverage ratio (in times) [(2)] | 1.65 | 1.47 | 1.36 | 0.76 | 1.09 |

***Notes:***

*(1) Interest coverage ratio is Earnings available for debt and interest service (Restated profit/(loss) for the period/year + finance costs + depreciation and amortisation expense + share based payment to employees + provision for warranty + loss on sale of property, plant and equipment and intangible assets less FVTPL Gain/(loss) on deferred consideration, gain on fair value of call option, gain on termination of lease, grant income and fair value loss on financial liabilities / equity investments at fair value through profit or loss (net) divided by total interest paid (Payment of interest portion of lease liabilities + interest paid) during the period/year. Also see "**Other Financial Information – Reconciliation of Debt Service Coverage Ratio and Interest Coverage Ratio (in times)**" on page 901.*

*(2) Debt service coverage ratio is Earnings available for debt and interest service (Restated profit/(loss) for the period/year + finance costs + depreciation and amortisation expense + share based payment to employees + provision for warranty + loss on sale of property, plant and equipment and intangible assets less FVTPL Gain/(loss) on deferred consideration, gain on fair value of call option, gain on termination of lease, grant income and fair value loss on financial liabilities / equity investments at fair value through profit or loss (net) divided by total debt serviced (Payment of interest portion of lease liabilities + interest paid + Payment of principal portion of lease liabilities + repayment of borrowings) during the period/year. Also see "**Other Financial Information – Reconciliation of Debt Service Coverage Ratio and Interest Coverage Ratio (in times)**" on page 901.*

Our financing agreements generally include conditions and covenants that require us to obtain lender consents prior to carrying out certain activities and entering into certain transactions such as:

- any change in the capital structure, shareholding pattern, ownership, constitution, composition, management, or control, including any dilution in the shareholding of our Promoters;
- any amendments to our constitutional documents;
- formulation of any scheme of merger, de-merger, amalgamation, consolidation, restructuring, reorganization; and
- sale, assignment, mortgage or otherwise disposing of any assets charged by the lender.

These covenants vary depending on the requirements of the financial institution extending the loans or working capital facilities and the conditions negotiated under each financing document, and may restrict or delay certain actions or initiatives that we may propose to take from time to time. While we have not been found to be in non-compliance with the covenants under our financing arrangements during the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023, we have experienced temporary default classifications with HDFC Bank due to technical or operational delays in CRILC reporting in October 2023 and January 2024. These delays were rectified within a few days in each instance, with sufficient liquidity maintained in our current accounts throughout. Further, our loan account with the State Bank of India was briefly reported as in default in January 2023, prior to its foreclosure in August 2023. This arose from a repayment shortfall following a drawdown in June 2022, but the account was regularized later that month after the requisite instalment was paid from our current account. For Owndays Co., Ltd., a financial covenant under its term loan facility with Mizuho Bank requires that the company's non-consolidated net assets at the end of each fiscal year be at least 70% of the net assets recorded at the end of the previous fiscal year. This covenant was not met in each of the last three fiscal years. However, such non-compliance has not been treated as a breach by the lender, and the facility has continued to be reviewed and renewed on an annual basis. Any future inability to comply with the covenants under our financing arrangements or to obtain necessary consents required thereunder may lead to the termination of our credit facilities and the levy of penal interest. In addition, any failure to make payments of interest and principal on our outstanding indebtedness on a timely basis would likely result in a reduction of our creditworthiness, which could harm our ability to incur additional indebtedness on acceptable terms and consequently adversely affect our business, results of operations, financial condition, and cash flows.

***54. We may require additional capital to finance our operations (and in particular, our capital expenditure requirements), and the unavailability of such capital on terms acceptable to us, or at all, could adversely affect our business, financial condition, results of operations and cash flows.***

We make upfront investments in capital expenditure to set up our retail stores and manufacturing facilities and may need additional capital to finance our operations, including for continuing investments in manufacturing facility infrastructure, and our growth strategies. Sources of additional financing to meet such capital requirements may include commercial bank borrowings, supplier financing, or the sale of equity, debt or mezzanine instruments, among others. There can be no assurance that we will be able to obtain any additional financing on terms acceptable to us, or at all. Any additional financing we obtain may strain our cash flows and financial condition. The timely availability of capital is uncertain and may adversely affect our ability to raise additional financing in the future, which is subject to a range of uncertainties, including but not limited to our future financial condition, results of operations and cash flows; our credit ratings; general market conditions for debt financing and equity capital raising activities; and economic, political and other conditions in India. As of June 30, 2025, the credit ratings for our bank loan facilities were IND A- with a "stable" outlook, and any adverse developments in relation to such ratings could adversely affect our ability to secure financing on satisfactory terms. If we are unable to obtain adequate financing or financing on terms satisfactory to us, our ability to develop our manufacturing facility infrastructure, support our business growth and respond to business challenges could be significantly impaired and our business, financial condition and results of operations may be adversely affected.

If we raise additional capital through equity or equity-linked financing, your equity interest in our Company may be diluted. Alternatively, if we raise additional capital by incurring debt, we may be subject to covenants under the relevant debt instruments that may, among other things, restrict our ability to pay dividends or obtain additional financing. Servicing such debt obligations could also be burdensome to our operations. If we fail to service such debt obligations or are unable to comply with any of the covenants thereunder, we could be in default under such debt obligations and our liquidity, financial condition and credit rating could be adversely affected. Since our decision to raise additional capital will depend on numerous considerations, including factors beyond our control, we cannot predict or estimate the amount, timing or nature of any future debt or equity financing or terms on which any such financing may be completed.

***55. We require certain statutory and regulatory licenses and approvals to conduct our business and an inability to obtain, retain or renew such licenses and approvals could have an adverse effect on our business, results of operations, financial condition and cash flows.***

We are required to obtain and maintain a number of statutory and regulatory permits and approvals under central, state and local government rules in the jurisdictions where we operate. While we have obtained a number of approvals required for our operations, certain approvals for which we have submitted applications are currently pending. We are also in the process of applying for the renewal of certain approvals that have expired. We are required to obtain all

approvals which are required for our manufacturing facilities, whereas the approvals required for our retail stores are obtained either by us or our lessors, based on the terms of our agreements with such lessors. Further, we have obtained, or are in the process of obtaining or renewing, all environmental consents and licenses from the relevant governmental agencies that are necessary for our manufacturing facilities and our stores. We have not experienced any adverse instances of inability to renew our required licenses or had any government actions taken against us for any non-renewals during the past three Financial Years. For further details regarding our approvals, see "***Government and Other Approvals***" on page 955.

A significant portion of these approvals are granted for a limited duration and are subject to numerous conditions. We renew such approvals periodically, in the ordinary course of business. We cannot assure you that these approvals would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations, to obtain or retain any of the approvals or licenses, or renewals thereof, in a timely manner, or if the regulations governing our business are amended, we may incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business and results of operations.

***56. Our insurance coverage may not adequately protect us against losses and claims that exceed our insurance coverage could adversely affect our business, results of operations, financial condition and cash flows.***

Our principal types of coverage include insurance for public liability accident risks, product liability and directors' and officers' liability. Furthermore, accidents and fires could result in injury or death to our employees, and other persons present at our stores and manufacturing facilities. While we have not experienced such incidents during the three months ended June 30, 2025 and the Financial Years 2025, 2024 or 2023, in the event of such incidents occurring in the future, we cannot assure you that our insurance coverage will be sufficient to cover all damages and losses we become liable for.

Set out below are details of our insurance coverage on our total insured assets, as at the indicated dates:

| Particulars | As of June 30, | | As of March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| Total tangible assets[(1)] *(₹ in million)* | 26,535.72 | 16,343.44 | 25,314.13 | 17,063.62 | 14,725.47 |
| Total insurance coverage *(₹ in million)* | 25,276.94 | 22,221.55 | 32,644.29 | 26,879.69 | 20,213.96 |
| Insurance coverage as a percentage of total tangible assets *(%)* | 95.26% | 135.97% | 128.96% | 157.53% | 137.27% |

***Note:***

*(1) Total tangible assets are defined as the sum of the written down value of property, plant and equipment, capital-work-in-progress, inventories and cash-in-hand.*

Set out below are details of the insurance claims made by us during the financial periods indicated:

| Period | Claims made by our Company | Settlement amounts |
|---|---|---|
| | *(₹ in million)* | |
| Three months ended June 30, 2025 | 77.13 | 1.37 |
| Three months ended June 30, 2024 | 8.77 | 6.20 |
| Financial Year 2025 | 11.21 | 7.16 |
| Financial Year 2024 | 2.27 | 0.91 |
| Financial Year 2023 | 18.12 | 21.28 |

Any successful claims against us in excess of our insurance coverage in the future, or refusal by the insurance provider to fully honor the claim, may adversely affect our business, reputation, financial conditions, results of operations and cash flows.

Our insurance policies contain exclusions and limitations on coverage, and, accordingly, we may not be able to successfully assert claims for the full amount of any liability or losses. Additionally, we may not be insured for certain types of risks and losses that we may also be subject to, as such risks are either uninsurable or that relevant insurances are not available on acceptable terms. In addition, our insurance coverage expires from time to time. Furthermore, there can be no assurance that in the future we will be able to maintain insurance of the types or at levels which we deem necessary or adequate or at premiums which we deem to be commercially acceptable. Even if our insurance coverage is adequate to cover our direct losses, we may not be able to take remedial actions or other appropriate measures in a timely manner or at all, which could lead to disruptions of our business. Furthermore, our claim records may affect the premiums which insurance companies may charge us in the future. If we are unable to pass the effects of increased insurance costs on to our customers, the costs of higher insurance premiums could have an adverse effect on our costs and profitability. Additionally, some of our insurance claims may be rejected by the insurance agencies in the future and there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part, or on time. If the amount of one or more operations-related claims were to exceed our applicable aggregate coverage limits, we would bear the excess, in addition to amounts already incurred in connection with

deductibles, self-insured retentions, or otherwise paid by us. As a result, our insurance and claims expense could increase, or we may decide to raise our deductibles or self-insured retentions when our policies are renewed or replaced. To the extent that we suffer loss or damage for events for which we are not insured or for which our insurance is inadequate, the loss would have to be borne by us, and, as a result, our business, reputation, financial conditions, results of operations and cash flows could be adversely affected.

***57. If we are unable to establish and maintain effective internal financial and operational controls, our business and reputation could be adversely affected.***

We are responsible for establishing and maintaining adequate internal control measures commensurate with the size and complexity of our operations. Our internal audit functions make an evaluation of the adequacy and effectiveness of internal systems on an ongoing basis to ensure our operations adhere to our corporate policies, compliance requirements and internal guidelines. We also conduct facility-level and store-level operational audits to assess the effectiveness of our internal controls with respect to our eyewear manufacturing and testing procedures. We are exposed to operational risks arising from the potential inadequacy or failure of internal processes or systems, and our actions may not be sufficient to ensure effective internal checks and balances in all circumstances. While we have not experienced any material instances of internal fraud, embezzlement or theft at our stores or other failures of our internal controls during the past three Financial Years, we cannot assure you that such instances will not occur in the future.

We take reasonable steps to maintain appropriate procedures for compliance and disclosure and to maintain effective internal controls over our financial reporting. As risks evolve and develop, internal controls must be reviewed on an ongoing basis. Maintaining such internal controls requires human involvement and is therefore subject to lapses in judgment and failures that result from human error. While we have not faced any such instances that have had a material and adverse effect on our results of operations in the past three Financial Years, we cannot assure you that the accuracy of our financial reporting will not be affected in the future. Any such occurrence could affect our reputation, result in a loss of investor confidence and a decline in the price of our Equity Shares.

***58. We are subject to anti-bribery, anti-corruption and sanctions laws and regulations and a failure to comply with such laws and regulations could have an adverse effect on our business, reputation, financial condition, results of operations, investor confidence and the trading price of our Equity Shares.***

We are subject to anti-bribery and anti-corruption laws which prohibit us, our employees, and other intermediaries from bribing government officials for the purpose of obtaining or keeping business or otherwise obtaining favourable treatment. We operate in many parts of the world that have experienced governmental corruption to some degree, and, in certain circumstances, strict compliance with anti-bribery and anti-corruption laws may conflict with local customs and practices. Our competitors in such jurisdictions may not be subject to the same anti-bribery and anti-corruption laws as we are, and accordingly, may be better placed than us to do business. Our operations are also subject to laws and regulations restricting dealings with certain parties, including activities involving restricted countries, organizations, entities and persons that are subject to international economic sanctions. We cannot assure you that we will not discover any issues or violations with respect to anti-bribery, anticorruption and economic sanctions laws by us or our employees, or other intermediaries. While we have not faced any instances of non-compliance with anti-bribery, anti-corruption and economic sanctions laws that have adversely affected our business, financial condition, results of operations or cash flows in the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023, we cannot assure you that we will be in compliance with such laws in the future. Any violations of these laws and regulations could result in restrictions being imposed on our operations, expose us to administrative, civil or criminal penalties or fines and could adversely affect our reputation, business, financial condition, results of operations, investor confidence and the trading price of our Equity Shares.

***59. Our actual or perceived failure to appropriately handle personal information of our customers could have an adverse effect on our business, reputation, results of operations, financial condition and cash flows.***

Indian laws including the Digital Personal Data Protection Act, 2023 (the "**PDP Act**") and other applicable personal data protection laws of the jurisdictions in which we operate, such as Japan, Singapore, Thailand and the United Arab Emirates, among others, require organizations to protect the privacy of their customers and prohibit unauthorized disclosure of personal information. Compliance with new and evolving privacy and security laws, regulations and requirements may result in increased operating costs and may constrain or require us to alter our business model or operations, which may in turn affect our business, results of operations and financial condition. Deficiencies in managing our information systems and data security practices may lead to leaks of customer records, eye test results, optometry records and other confidential and sensitive information. We are also required to comply with the Information Technology Act, 2000 and the rules thereof, each as amended, which provides for civil and criminal liability, including compensation to persons affected, penalties and imprisonment for cyber related offenses, including unauthorized disclosure of confidential information and failure to protect sensitive personal data. In addition, our international operations are subject to the regulatory requirements of the jurisdictions in which we operate.

While we have not faced any such breach or theft of confidential and other sensitive information of our customers or procedures or any kind of data leakage in the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023, any future breach (or perceived breach) of our confidentiality obligations to our customers, including due

to data leakages or improper use of eyecare information notwithstanding the safeguards that we have implemented, could expose us to fines, potential liabilities and legal proceedings, such as litigation or regulatory proceedings, which would adversely affect our reputation. As cyber-attacks and similar events become increasingly sophisticated, we may need to incur additional costs to implement data security and privacy measures, modify or enhance our protective measures or investigate and remediate any vulnerability to cyber incidents.

***60. We have contingent liabilities, and our results of operations, financial condition and cash flows could be adversely affected if any of these contingent liabilities materialize.***

As at June 30, 2025, we had disclosed the following contingent liabilities, derived from our Restated Consolidated Financial Information in accordance with Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets, which are extracted below:

| Particulars | As at June 30, 2025 *(₹ in million)* |
|---|---|
| Income tax litigation - not been acknowledged as claims | 140.19 |
| GST and Customs related matter | 505.86 |
| Disallowance related to certain capital expenditure | 129.15 |

*Notes: The management, based on internal assessment and legal opinion obtained, believes that no material liability is likely to arise on account of such claims/law suits.*

1. *Income tax litigation: not acknowledged as claims: The Holding Company had received assessment order for AY 2013-14 from income tax authorities wherein the department raised demand on account of certain unexplained cash credits.*
2. *GST and Customs related matter:*
   a. *The contingent liability for GST and Custom case is on account of classification of Zero power glasses. Such glasses were being sold @ 12% GST, however, the GST authorities are of the view that such spectacles with zero power lenses are taxable @ 18%.*
   b. *The Group has received a show cause notice from the GST Intelligence Department relating to taxability of LK Cash redeemed during FY 2018-19 to FY 2023-24. The Group, based on legal opinions and supporting documents, considers LK Cash to be in the nature of discounts and not liable to GST.*
   c. *The Holding Company has received a show cause notice from Customs, Delhi amounting to ₹65.89 million regarding classification of imported eyeframes with clip-ons for the period October 2019 to October 2024. The Holding Company has classified these products under eyeframes supported by legal opinions, while Customs seeks to classify them as sunglasses.*
3. *Disallowance related to certain capital expenditure: This is in respect of assessment year 2018-19, Income-tax authorities has disallowed certain expenditure amounting to INR 519.56 million. The Holding Company has accepted the disallowance of INR 390.41 million and for balance disallowance appeal has been filed with Income-tax authorities. Further, no demand has been issued against the above disallowances by the Income-tax authorities.*

We cannot assure you that we will not incur similar or increased levels of contingent liabilities in the future. If any of these contingent liabilities materialize, our financial condition, results of operations and cash flows may be adversely affected. For further details on our contingent liabilities as of June 30, 2025 as per Ind AS 37, see also "***Financial Information***" on page 398 and "***Management's Discussion and Analysis of Results of Operations – Contingent Liabilities***" on page 904.

***61. Information relating to the installed manufacturing capacity, actual production and capacity utilization of our manufacturing facilities included in this Red Herring Prospectus are based on several assumptions and estimates and actual future results may differ.***

Information relating to the installed manufacturing capacity, actual production and capacity utilization of our manufacturing facilities included in this Red Herring Prospectus, including in "***Our Business – Description of our Business – Manufacturing, Procuring and Supply Chain***" on page 325, are based on several assumptions and estimates of our management that have been taken into account by an independent chartered engineer in the calculation of the installed manufacturing capacity, actual production and capacity utilization of our manufacturing facilities. These assumptions and estimates include the standard capacity calculation practice of the eyewear industry after examining the calculations and explanations provided by our Company. In addition, the information relating to the actual production at our manufacturing facilities during the last three Financial Years are based on, among other factors, the examination of our internal production records, the period during which our manufacturing facilities operate in a financial year or period, expected operations, availability of raw materials, downtime resulting from scheduled maintenance activities, unscheduled breakdowns, as well as expected operational efficiencies. Further, capacity utilization has been calculated on the basis of actual production during the relevant financial year or period divided by the aggregate installed capacity of relevant manufacturing facilities at the end of the relevant financial year or period. Accordingly, actual production levels and rates may differ significantly from the installed capacity information of our facilities or historical installed capacity information of our facilities depending on the product type. Undue reliance should therefore not be placed on our historical installed capacity information for our existing facilities included in this Red Herring Prospectus.

***62. This Red Herring Prospectus contains information from third parties including an industry report prepared by an independent third-party research agency, Redseer Management Consulting Private Limited, which we have commissioned and paid for to confirm our understanding of our industry exclusively in connection with the Offer, and reliance on such information for making an investment decision in the Offer is subject to inherent risks.***

The industry and market information contained in this Red Herring Prospectus includes information that is derived from the Redseer Report, prepared by an independent third-party research agency, Redseer Management Consulting Private Limited. The Redseer Report has been commissioned and paid for by our Company for an agreed fee for the purposes of confirming our understanding of the industry exclusively in connection with the Offer pursuant to an engagement letter dated March 12, 2025 and is available on the website of our Company at https://www.lenskart.com/corporate/investorrelations. Accordingly, investors should read the industry-related disclosure in this Red Herring Prospectus in this context.

Industry sources and publications are also prepared based on information as of specific dates. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Due to discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Red Herring Prospectus. Accordingly, investors should not place undue reliance on or base their investment decision solely on this information.

***63. We track certain operating metrics through our internal systems and tools, which may result in inaccurate data or may be subject to changes in the future.***

We track certain operating metrics (including number of stores, adjusted same-store sales growth, same-pincode sales growth, among others) through our internal systems and tools, including software. Our methodologies for tracking these metrics may change over time, which could result in changes to our metrics in the future, including metrics that we publicly disclose. In addition, while we report data based on what we believe, at the time of reporting, to be reasonable estimates of our metrics for the applicable period of measurement, there are inherent challenges and limitations with respect to such data or our methodologies. For example, if our internal systems and tools track our metrics inaccurately in the future, or if there is any deficiency in our internal systems and tools in the future, the corresponding data may be inaccurate. This may impair our understanding and evaluation of certain aspects of our business, which could affect our operations and long-term strategies. Such supplemental financial and operational information is therefore of limited utility as an analytical tool, and investors are cautioned against considering such information either in isolation or as a substitute for an analysis of our Restated Consolidated Financial Information disclosed elsewhere in this Red Herring Prospectus. If our operating metrics are not accurate representations of our business in the future, if investors do not perceive our operating metrics to be accurate, or if we discover material inaccuracies with respect to these figures in the future, we expect that our business, reputation, financial condition, results of operations and cash flows would be adversely affected.

***64. Certain non-generally accepted accounting principle financial measures and other statistical information relating to our operations and financial performance have been included in this Red Herring Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable with those presented by other companies.***

Certain non-generally accepted accounting principle financial measures ("**Non-GAAP Measures**") and other statistical information relating to our operations and financial performance such as Product Margin and Product Margin %, Net worth, Return on Net Worth, EBIT, EBITDA, EBITDA excluding Other Income and Exceptional Item, EBITDA excluding Other Income and Exceptional Item Margin %, Capital Employed and Return on Capital Employed, Net Working Capital and Net Working Capital Days, Debt Service Coverage Ratio and Interest Coverage Ratio, NAV Per Share, India Segment Total revenue as per Ind AS 108, India Segment Total revenue growth %, International Segment Total revenue as per Ind AS 108, International Segment Total revenue growth %, India Segment results pre depreciation and amortisation, India – Segment results pre depreciation and amortisation %, India Segment Product Margin and India – Segment Product Margin %, International – Segment results pre depreciation and amortisation, International – Segment results pre depreciation and amortisation %, International – Segment Product Margin and International – Segment Product Margin % have been included in this Red Herring Prospectus. For reconciliations of these numbers, see "***Other Financial Information – Reconciliation of Non-GAAP measures***" on page 898. We compute and disclose such Non-GAAP Measures and other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance. These Non-GAAP Measures are supplemental measures of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, U.S. GAAP or IFRS. Further, these Non-GAAP Measures should not be considered in isolation or construed as an alternative to cash flows, profit/(loss) or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, U.S. GAAP or IFRS.

Further, such information may not be computed on the basis of any standard methodology that is applicable across the industry and may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies, and are not measures of operating performance or liquidity defined by Ind AS. Such information may also not be comparable to titled measures presented by other companies and may have limited usefulness as a comparative measure, since there may be differences in the method of computation of such measures. We track such operating metrics with internal systems and tools, and our methodologies for tracking

these metrics may change over time, which could result in unexpected changes to our metrics, including the metrics we publicly disclose. If the internal systems and tools we use to track these metrics undercount or overcount performance, the data we report may not be accurate. While these numbers are based on what we believe to be reasonable estimates of our metrics for the applicable period of measurement, there are inherent challenges and limitations with respect to how we measure data or with respect to the data that we measure. This may affect our understanding of certain details of our business, which could affect our long-term strategies. If we discover material inaccuracies in the operating metrics we use, or if they are perceived to be inaccurate, our reputation may be harmed, and our evaluation methods and results may be impaired, which could negatively affect our business.

***65. Certain of our Promoters, Directors, Key Managerial Personnel and Senior Management Personnel may be interested in our Company and our Subsidiaries other than in terms of remuneration, perquisites or benefits and reimbursement of expenses.***

Certain of our Promoters, Directors, Key Managerial Personnel and Senior Management Personnel are interested in our Company, in addition to regular remuneration, perquisites or benefits and reimbursement of expenses, to the extent of their shareholding held by them or their relatives, directly or indirectly, as well as to the extent of any dividends, stock options, bonuses or other distributions on such shareholding. For details, see "***Capital Structure***", "***Our Management***" and "***Our Promoters and Promoter Group***" on pages 132, 373 and 393, respectively. Accordingly, we cannot assure you that our Promoters, Directors, and our Key Managerial Personnel, to the extent they are interested in our Company other than in terms of remunerations and reimbursement of expenses, will exercise their rights to the benefit and best interest of our Company.

***66. Our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.***

Our Company has not declared dividends on the Equity Shares during the current Financial Year and the last three Financial Years. Our ability to pay dividends in the future will depend on our profits, past dividend trends, capital requirements and financial commitments, including restrictive covenants under our financing arrangements. The declaration and payment of dividends will be recommended by our Board and approved by our Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act, 2013. We may retain all future earnings, if any, for use in the operations and expansion of the business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our future earnings, financial condition, cash requirements, business prospects and any other financing arrangements. We cannot assure you that we will be able to pay dividends in the future. Accordingly, realization of a gain on Shareholders' investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that the Equity Shares will appreciate in value. For details pertaining to our dividend policy, see "***Dividend Policy***" on page 397.

## EXTERNAL RISK FACTORS

### *Risks related to India*

***67. Political, economic or other factors that are beyond our control may have an adverse effect on our business, results of operations, financial condition and cash flows.***

The Indian economy and capital markets are influenced by economic, political and market conditions in India and globally. Our results of operations are significantly affected by factors influencing the Indian economy. Factors that could adversely affect the Indian economy, and hence our results of operations, may include:

- epidemics, pandemics or any other public health concerns in India or in countries in the region or globally, including in India's neighbouring countries, such as the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine and more recently, the COVID-19 pandemic;
- the macroeconomic climate, including any increase in Indian interest rates or inflation;
- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export/import assets;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian customers and Indian corporates;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- changes in India's tax, trade, fiscal or monetary policies;

- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's neighbouring countries;
- occurrence of natural or man-made disasters (such as typhoons, flooding, earthquakes and fires) which may cause us to suspend our operations;
- civil unrest, acts of violence, terrorist attacks, regional conflicts or situations or war, such as India's ongoing geopolitical tensions with Pakistan, and the Ukraine-Russia, Israel-Hamas and Israel-Iran conflicts;
- prevailing regional or global economic conditions, including in India's principal export markets;
- any downgrading of India's debt rating by a domestic or international rating agency;
- international business practices that may conflict with other customs or legal requirements to which we are subject, including anti-bribery and anti-corruption laws;
- logistical and communications challenges;
- financial instability in financial markets;
- difficulty in developing any necessary partnerships with local businesses on acceptable terms or on a timely basis;
- protectionist and other adverse public policies, including local content requirements, import/export tariffs, increased regulations or capital investment requirements;
- being subject to the jurisdiction of foreign courts, including uncertainty of judicial processes and difficulty enforcing contractual agreements or judgments in foreign legal systems or incurring additional costs to do so; and
- other significant regulatory or economic developments in or affecting India or its eyewear sector.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, results of operations, financial condition and cash flows and the price of the Equity Shares. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins. Our performance and the growth of our business depends on the overall performance of the Indian economy as well as the economies of the regional markets in which we operate.

We are dependent on the policies, initiatives and schemes proposed or implemented in India, however, there can be no assurance that such policies, initiatives and schemes will yield the desired results or benefits which we anticipate and rely upon for our growth. Further, we depend on the effectiveness of our supply chain management systems to ensure reliable and sufficient supply, on reasonably favourable terms, of raw materials used in our activities. While the raw materials we purchase and use in the ordinary course of our business are sourced from a wide variety of suppliers, we may still face disruption in the supply chain due to weather related events, natural disasters, trade restrictions, tariffs, border controls, acts of war, terrorist attacks, third-party strikes, ineffective cross dock operations, work stoppages or slowdowns, shipping capacity complaints, supply or shipping interruptions or other factors beyond our control. During such supply chain disruptions, the labour and raw materials we rely on in the ordinary course of business may not be available at similar or reasonable rate or at all. In addition, escalating geopolitical tensions between Taiwan and the People's Republic of China could adversely affect our operations, including our retail stores, in Taiwan, and potentially disrupt our supply chain, which could in turn adversely affect our business, results of operations, financial condition and cash flows.

***68. Fluctuations in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of the Equity Shares, independent of our operating results.***

On listing, the Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of the Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares, may reduce the proceeds received by Equity Shareholders. For example, the exchange rate between the Indian Rupee and the U.S. dollar has fluctuated in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the returns on the Equity Shares, independent of our operating results.

***69. Changing laws, rules and regulations and legal uncertainties, including adverse application of laws governing retail operations and the operations of our manufacturing facilities, corporate and tax laws, could adversely affect***

***our business, prospects and results of operations. Investors can be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares or dividend paid thereon.***

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, could adversely affect our business, prospects and results of operations, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

Further, any future amendments may affect our tax benefits such as exemptions for income earned by way of dividend from investments in other domestic companies and units of mutual funds, exemptions for interest received in respect of tax-free bonds, and long-term capital gains on equity shares. Changes in capital gains tax or tax on capital market transactions or the sale of shares could affect investor returns. As a result, any such changes or interpretations could negatively affect investor returns and have an adverse effect on our business and financial performance. For instance, the Government of India has announced the union budget for the Financial Year 2026 (the "**Budget**"), pursuant to which the Finance Act, 2025 has amended the Income-tax Act, 1961, including the capital gains tax rates with effect from the date of announcement of the Budget.

The PDP Act, which has received the assent of the President on August 11, 2023 (but is yet to be notified), provides for personal data protection and privacy of individuals, regulates cross border data transfer, and provides several exemptions for personal data processing by the Government. It also provides for the establishment of a Data Protection Board of India for taking remedial actions and imposing penalties for breach of the provisions of the PDP Act. It imposes restrictions and obligations on data fiduciaries, resulting from dealing with personal data and further, provides for levy of penalties for breach of obligations prescribed under the PDP Act.

As we continue expanding our operations internationally, we would become subject to an increasing number of foreign privacy and data protection laws and regulations, which may be more stringent than the requirements in the jurisdictions in which we currently operate. Should we fail to swiftly adjust to new and/or changing laws, regulations, and standards related to the privacy and data protection, our business, financial condition and results of operations could be adversely affected.

Further, we are engaged in the business of single brand retail trading (SBRT) of eyewear products in India, which is subject to certain conditions and restrictions under the Foreign Exchange Management (Non-debt Instruments) Rules, 2019 (NDI Rules) and the Consolidated FDI Policy, 2020 (FDI Policy) issued by the Department for Promotion of Industry and Internal Trade ("**DPIIT**"). As per the NDI Rules and the FDI Policy, foreign direct investment (FDI) up to 100% is permitted in SBRT under the automatic route, subject to specified conditions. While we believe that we are in compliance with the applicable conditions and restrictions, there can be no assurance that the relevant authorities will not raise any objections or seek clarifications on our compliance with the SBRT conditions in the future, or that the SBRT conditions will not be amended or modified in a manner that may adversely affect our business, operations, financial condition or prospects. Any non-compliance or alleged non-compliance with the SBRT conditions or any adverse changes in the SBRT policy or regulations may result in penalties, sanctions, revocation of approvals, cancellation of licenses, restrictions on our operations, or legal action against us, which may have an adverse effect on our reputation, business, operations, financial condition or prospects.

Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. Uncertainty in the applicability, interpretation, or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current businesses or restrict our ability to grow our businesses in the future.

We cannot predict whether any tax laws or other regulations affecting it will be enacted or predict the nature and effects of any such laws or regulations or whether, if at all, any laws or regulations would have an adverse effect on our business, prospects and results of operations. For details, see "***Key Regulations and Policies***" on page 338.

***70. A downgrade in India's sovereign debt ratings may affect the trading price of the Equity Shares.***

India's sovereign debt rating could be downgraded due to several factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, all which are outside our control. Our borrowing costs and our access to the debt capital markets depend significantly on the sovereign credit ratings of India, which are set out below:

| Rating Agency | Rating | Outlook |
|---|---|---|
| Fitch Ratings | BBB- | Stable |
| Moody's Ratings | Baa3 | Stable |
| Morningstar DBRS | BBB | Stable |
| S&P Global Ratings | BBB | Stable |

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies could adversely affect our ability to raise additional external financing, and the interest rates and other commercial terms at which such additional financing is available. India's credit ratings may be downgraded upon a change of government tax or fiscal policy, which is outside our control. This could have an adverse effect on our business and future financial performance and affect our ability to obtain financing for capital expenditures and the trading price of the Equity Shares.

***71. If inflation continues to rise in India, increased costs may result in a decline in profits.***

Inflation rates in India have been volatile in recent years, and such volatility may continue. India has experienced high inflation in the recent past. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our rental costs, wages, cost of materials consumed and other expenses, which we may not be able to adequately pass on to our customers, whether entirely or in part, and could adversely affect our business and financial condition. If we are unable to increase our revenues sufficiently to offset our increased costs due to inflation, it could have an adverse effect on our business, prospects, results of operations, financial condition, and cash flows. Further, the Government of India has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

***72. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which could adversely affect the trading price of the Equity Shares.***

Under foreign exchange regulations currently in force in India, the transfer of shares between non–residents and residents are freely permitted (subject to compliance with sectoral norms and certain other restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior regulatory approval will be required. Further, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no–objection or a tax clearance certificate from the Indian income tax authorities. Furthermore, this conversion is subject to such shares having been held on a repatriation basis and either the security having been sold in compliance with the pricing guidelines specified by the RBI or the relevant regulatory approval having been obtained for the sale of shares and corresponding remittance of the sale proceeds.

In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, which has been incorporated as the proviso to Rule 6(a) of the FEMA Non-debt Instruments Rules, investments where the beneficial owner of the equity shares is situated in or is a citizen of a country which shares a land border with India, can only be made through the Government approval route, as prescribed in the Consolidated FDI Policy dated October 15, 2020 and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India, has also made a similar amendment to the FEMA Non-debt Instruments Rules. These investment restrictions shall also apply to subscribers of offshore derivative instruments. We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or conditions or at all. For further information, see "***Restrictions on Foreign Ownership of Indian Securities***" on page 1,014.

***73. Our ability to raise foreign capital may be constrained by Indian law.***

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financings on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to us without onerous conditions, or at all. Limitations on foreign debt may have an adverse effect on our business growth, results of operations, and financial condition.

***74. Rights of shareholders under Indian laws may be different from laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may be different from shareholders' rights under the laws of other countries or jurisdictions.

***75. Any adverse application or interpretation of competition laws could adversely affect our business.***

The Competition Act, 2002, as amended (the "**Competition Act**") was enacted for the purpose of preventing practices that have or are likely to have an adverse effect on competition ("**AAEC**") in certain markets in India and has mandated the Competition Commission of India (the "**CCI**") to separate such practices. Under the Competition Act, any arrangement, understanding or action, whether formal or informal, which causes or is likely to cause an AAEC is deemed void and attracts substantial penalties.

Further, any agreement among competitors which directly or indirectly involves determination of purchase or sale prices, limits or controls production, or shares the market by way of geographical area or number of customers in the relevant market is presumed to have an appreciable adverse effect on competition in the relevant market in India and shall be void. Further, the Competition Act prohibits abuse of dominant position by any enterprise. If it is proved that the contravention committed by a company took place with the consent or connivance or is attributable to any neglect on the part of, any director, manager, secretary or other officer of such company, that person shall be guilty of the contravention and liable to be punished.

The Competition Act aims to, among others, prohibit all agreements and transactions which may have an AAEC in India. Consequently, certain agreements entered into by us could be within the purview of the Competition Act. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an AAEC in India. The effects of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage.

The Government of India has also passed the Competition (Amendment) Act, 2023, which has made several amendments to the Competition Act, such as introduction of deal value thresholds for assessing whether a merger or acquisition qualifies as a "combination", expedited merger review timelines, codification of the lowest standard of "control" and enhanced penalties for providing false information or a failure to provide material information.

If we pursue acquisitions in the future, we may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, any enforcement proceedings initiated by the CCI, any adverse publicity that may be generated due to scrutiny or prosecution by the CCI, or any prohibition or substantial penalties levied under the Competition Act, which would adversely affect our business, results of operations, cash flows and prospects.

***76. Significant differences exist between Ind AS used to prepare our financial information and other accounting principles, such as IFRS and U.S. GAAP, with which investors may be more familiar.***

Our Restated Consolidated Financial Information for the three months ended June 30, 2025 and June 30, 2024 is based on our audited interim financial statements for the three months ended June 30, 2025 and June 30, 2024 prepared and presented as per Ind AS 34, and our Restated Consolidated Financial Information for the Financial Years 2025, 2024 and 2023 is based on our audited financial statements as at and for the years ended March 31, 2025, March 31, 2024 and March 31, 2023, prepared and presented as per Ind AS. Our Restated Consolidated Financial Information has been restated in accordance with the requirements of Section 26 of Part I of the Companies Act, 2013, the SEBI ICDR Regulations, and the Guidance Note on "Reports in Company Prospectus (Revised 2019)" issued by the ICAI. Ind AS differs from accounting principles with which prospective investors may be familiar, such as Indian GAAP, IFRS and U.S. GAAP.

We have not attempted to quantify the effects of US GAAP or IFRS on the financial data included in this Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP or IFRS. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP. Accordingly, the degree to which the Ind AS and Indian GAAP financial statements, which are restated as per the SEBI ICDR Regulations included in this Red Herring Prospectus, will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Red Herring Prospectus should be limited accordingly.

***77. Investors may have difficulty enforcing foreign judgments against us or our management.***

Our Company is a company incorporated under the laws of India. A majority of our Directors and executive officers are citizens and residents of India. A substantial portion of our Company's assets and the assets of our Directors and executive officers resident in India are located in India. As a result, it may be difficult for investors to effect service of process upon us or such persons in India or to enforce judgments obtained against us or such parties outside India.

Recognition and enforcement of foreign judgments is provided for under Section 13 and Section 44A of the Code of Civil Procedure, 1908, as amended (the "**Civil Procedure Code**"). India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. India has reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions, including the United Kingdom, Singapore, UAE, and Hong Kong. A judgment from certain specified courts located in a jurisdiction with reciprocity must meet certain requirements of the Civil Procedure Code. The United States has not been notified as a reciprocating territory.

In order to be enforceable, a judgment obtained in a jurisdiction which India recognizes as a reciprocating territory must meet certain requirements of the Civil Procedure Code. Section 13 of the Civil Procedure Code provides that foreign judgments shall be conclusive regarding any matter directly adjudicated on except (i) where the judgment has not been pronounced by a court of competent jurisdiction, (ii) where the judgment has not been given on the merits of the case, (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or refusal to recognize the law of India in cases to which such law is applicable, (iv) where the proceedings in which the judgment was obtained were opposed to natural justice, (v) where the judgment has been obtained by fraud or (vi) where the judgment sustains a claim founded on a breach of any law then in force in India. Under the Civil Procedure Code, a court in India shall, on the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record; such presumption may be displaced by proving want of jurisdiction. The Civil Procedure Code only permits the enforcement of monetary decrees, not being in the nature of any amounts payable in respect of taxes, or other charges of a like nature or in respect of a fine or other penalty and does not provide for the enforcement of arbitration awards even if such awards are enforceable as a decree or judgment. A foreign judgment rendered by a superior court (as defined under the Civil Procedure Code) in any jurisdiction outside India which the Government of India has by notification declared to be a reciprocating territory, may be enforced in India by proceedings in execution as if the judgment had been rendered by a competent court in India. Judgments or decrees from jurisdictions which do not have reciprocal recognition with India cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be enforceable in India. Even if an investor obtained a judgment in such a jurisdiction against us, our officers or directors, it may be required to institute a new proceeding in India and obtain a decree from an Indian court.

However, the party in whose favour such final judgment is rendered may bring a new suit in a competent court in India based on a final judgment that has been obtained in the United States or other such jurisdiction within three years of obtaining such final judgment. It is unlikely that an Indian court would award damages on the same basis as a foreign court if an action is brought in India. Moreover, it is unlikely that an Indian court would award damages to the extent awarded in a final judgment rendered outside India if it believes that the amount of damages awarded were excessive or inconsistent with public policy in India. In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI to repatriate any amount recovered, and we cannot assure that such approval will be forthcoming within a reasonable period of time, or at all, or that conditions of such approvals would be acceptable. Such amount may also be subject to income tax in accordance with applicable law. Further, any judgment in a foreign currency would be converted into Indian Rupees on the date of judgment (and not on the date of payment), which could also increase risks relating to foreign exchange.

Consequently, it may not be possible to enforce in an Indian court any judgment obtained in a foreign court, or effect service of process outside of India, against Indian companies, entities, their directors and executive officers and any other parties resident in India. Additionally, there is no assurance that a suit brought in an Indian court in relation to a foreign judgment will be disposed of in a timely manner.

***78. A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.***

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of our Company. Under the SEBI Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of the SEBI Takeover Regulations. Further, there are requirements under the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015 and the SEBI Takeover Regulations if the shareholding of any entity exceeds the specified threshold.

***Risks related to the Offer and the Equity Shares***

***79. Our funding requirements and proposed deployment of the Net Proceeds of the Offer have not been appraised by a bank or a financial institution or any external agency and if there are any delays or cost overruns, our business, results of operations, financial condition, and cash flows could be adversely affected. Further, any variation in the utilization of our Net Proceeds as disclosed in this Red Herring Prospectus would be subject to certain compliance requirements, including prior Shareholders' approval.***

We intend to use the Net Proceeds for the purposes described in "***Objects of the Offer***" on page 206. The objects of the Offer have not been appraised by any bank or financial institution or any external agency. While a monitoring

agency will be appointed for monitoring the utilization of the Gross Proceeds (including in relation to the utilisation towards the general corporate purposes), the proposed utilization of the Gross Proceeds is based on current business plan, internal management estimates, prevailing market conditions and other commercial and technical factors, and quotations obtained from certain vendors, which are subject to change in future. Based on the competitive nature of our industry, we may have to revise our business plan and/or management estimates from time to time and consequently our funding requirements may also change. Our internal management estimates may exceed fair market value which may require us to reschedule or reallocate our capital expenditure and may have an adverse effect on our business, results of operations, financial condition, and cash flows. Any variation in the utilization of the Net Proceeds shall be on account of a variety of factors such as our financial condition, business and strategy and external factors such as market conditions and competitive environment, which may not be within the control of our management, and may be subject to other approvals, which includes, amongst others obtaining prior approval of the Shareholders of our Company.

Our Company, in accordance with the policies established by the Board from time to time, will have flexibility to deploy the Net Proceeds. Further, pending utilization of the Net Proceeds towards the objects of the Offer, we will have to temporarily deposit the Net Proceeds with one or more scheduled commercial banks listed in the Second Schedule of Reserve Bank of India Act, 1934, in a manner as may be approved by our Board.

Risks and uncertainties, such as economic trends and business requirements, competitive landscape, as well as general factors affecting our results of operations, financial condition and access to capital and including those set forth in this section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. For example, our growth initiatives and expansion plans could be delayed due to failure to receive regulatory approvals, technical difficulties, human resource, technological or other resource constraints, or for other unforeseen reasons, events or circumstances. Further, we may not be able to attract personnel with sufficient skills or sufficiently train our personnel to manage our expansion plans. Accordingly, the use of the Net Proceeds to fund our growth and for other purposes identified by our management may not result in actual growth of our business, increased profitability or an increase in the value of our business and your investment.

For further details, see "***Objects of the Offer***" on page 206.

***80. The determination of the Price Band is based on multiple factors and assumptions and the Offer Price of the Equity Shares, market capitalization and price to earnings ratio based on the Offer Price of the Equity Shares, may not be indicative of the market price of our Equity Shares upon listing or thereafter.***

Our market capitalization to revenue from operations for the Financial Year 2025 multiple is [●] times at the upper end of the Price Band and [●] times at the lower end of the Price Band, and our price to earnings ratio multiple for Financial Year 2025 is [●] times at the upper end of the Price Band and [●] times at the lower end of the Price Band. Further, our price to earnings ratio and market capitalization to revenue from operations at the Offer Price is [●] and [●] times, respectively. The Offer Price, multiples and ratios may not be indicative of the market price of our Company on listing or thereafter. The relevant financial parameters based on which the Price Band would be determined, shall be disclosed in the advertisement that would be issued for publication of the Price Band. Any valuation exercise undertaken by us for the purposes of the Offer is not based on a benchmark against our industry peers. Accordingly, our position in the market may differ from that presented in this Red Herring Prospectus.

The market price of our Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India or globally, announcements by us or our competitors of significant acquisitions, strategic alliances, our competitors launching new eyewear products, announcements by third parties or governmental entities of significant claims or proceedings against us, volatility in the securities markets in India and other jurisdictions, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. The occurrence of one or more of these factors may cause the market price of the Equity Shares to decline below the Offer Price.

***81. Proceeds from the Offer for Sale portion of the Offer aggregating to ₹[●] million will not be available to us.***

As this Offer includes an Offer for Sale of Equity Shares by the Selling Shareholders, the entire proceeds from the Offer for Sale aggregating to ₹[●] million (net of their proportion of the expenses of the Offer) will be received by the respective Selling Shareholders, to the extent of their respective portion of the Offered Shares, and our Company will not receive any proceeds from the Offer for Sale. For details relating to the Offer, see "***The Offer***" and "***Objects of the Offer***" on pages 114 and 206, respectively.

***82. Subsequent to the listing of the Equity Shares, we may be subject to surveillance measures, such as Additional Surveillance Measures and Graded Surveillance Measures by the Stock Exchanges in order to enhance the integrity of the market and safeguard the interest of investors.***

Subsequent to the listing of the Equity Shares, we may be subject to Additional Surveillance Measures ("**ASM**") and Graded Surveillance Measures ("**GSM**") by the Stock Exchanges and the SEBI. These measures have been introduced

to enhance the integrity of the market and safeguard the interest of investors. The criteria for shortlisting any security trading on the Stock Exchanges for ASM is based on objective criteria, which includes market-based parameters such as high low price variation, concentration of client accounts, close to close price variation, market capitalization, average daily trading volume and its change, and average delivery percentage, among others. A scrip is subject to GSM when the share price is not commensurate with the financial health and fundamentals of the company. Specific parameters for GSM include net worth, net fixed assets, price to equity, market capitalization and price to book value, among others. Factors within and beyond our control may lead to our securities being subject to GSM or ASM. In the event the Equity Shares are subject to such surveillance measures implemented by SEBI and the Stock Exchanges, we may be subject to certain additional restrictions in connection with trading of the Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of the Equity Shares or may in general cause disruptions in the development of an active trading market for the Equity Shares.

***83. Any future issuance of Equity Shares, or convertible securities or other equity–linked securities by us may dilute your shareholding. Any such issuances or sale of Equity Shares by our Promoters may adversely affect the trading price of the Equity Shares.***

We may be required to finance our growth through future equity offerings. Any future issuance of Equity Shares, convertible securities or securities linked to the Equity Shares by us, including through exercise of employee stock options, to the extent applicable, may dilute your shareholding in our Company. Any sale of the Equity Shares by our Promoters or future equity issuances by us could adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of the Equity Shares or incurring additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of the Equity Shares. We cannot assure you that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Promoters will not dispose of, pledge or encumber their Equity Shares in the future or any pledge or encumbrances, if applicable, will not be invoked.

***84. We have issued Equity Shares during the last one year from the date of this Red Herring Prospectus at a price which may not be indicative of the Offer Price (other than bonus issues). Further, the weighted average cost of acquisition of Specified Securities transacted in the preceding one year, 18 months and three years (including transactions by each of the Promoters and Selling Shareholders) may be less than the Offer Price.***

We have issued Equity Shares in the last 12 months in connection with the ESOP Schemes at a price which may be lower than the Offer Price. The Offer Price is not indicative of the price at which our Company has issued the Equity Shares in the preceding 12 months or that will prevail in the open market following listing of the Equity Shares. For details, see "***Capital Structure — Notes to Capital Structure - Share capital history- History of Equity Share capital of our Company***" on page 133. Further, the weighted average cost of acquisition of Specified Securities transacted in the preceding one year, 18 months and three years (including transactions by each of the Promoters and Selling Shareholders) may be less than the Offer Price, as set out below:

| Period | Weighted average cost of acquisition per Equity Share *(in ₹)* | Range of acquisition price: per Equity Share: lowest price – highest price *(in ₹)* |
|---|---|---|
| Last one year | 55.93 | Nil* - 208.75 |
| Last 18 months | 37.54 | Nil* - 208.75 |
| Last three years | 40.15 | Nil* - 208.75 |

** Acquisition price of bonus shares have been considered as Nil.*

***85. Investors may be subject to Indian taxes arising out of income arising on the sale of and dividend on the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company is generally taxable in India. Investors may be subject to payment of long-term or short-term capital gains tax in India, in addition to payment of Securities Transaction Tax ("**STT**"), on the sale of any Equity Shares held for more or less than 12 months immediately preceding the date of transfer. While non-residents may claim tax treaty benefits in relation to such capital gains income, generally, Indian tax treaties do not limit India's right to impose a tax on capital gains arising from the sale of shares of an Indian company.

The Government of India announced the interim union budget for Financial Year 2025-2026, following which the Finance Bill, 2025 ("**Finance Bill**") was introduced in the Lok Sabha on February 1, 2024. The Finance Bill received the assent from the President of India and became the Finance Act, 2025, with effect from April 1, 2025.

Further, pursuant to amendments notified by the Finance (No. 2) Act, 2024, long term capital gains exceeding the exempted limit of ₹125,000 arising from the sale of listed equity shares on the stock exchange are subject to tax at the rate of 12.5% (plus applicable surcharge and cess), without benefit of indexation. Further, any capital gains realized on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax at the rate of 20% (plus applicable surcharges and cess) for transfers taking

place after July 23, 2024. A securities transaction tax ("**STT**") will be levied on and collected by an Indian stock exchange on which our Equity Shares are sold.

Any gain realized on the sale of our Equity Shares other than on a recognized stock exchange (where no STT has been paid), will also be subject to short term capital gains tax or long-term capital gains tax, at such rates as may be applicable under the Income Tax Act. Further, capital gains arising from the sale of our Equity Shares will be exempt from taxation in India in cases where an exemption is provided under a treaty between India and the country of which the seller is a resident, subject to certain conditions being met. Subject to any relief available under an applicable tax treaty or under the laws of their own jurisdictions, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of our Equity Shares. Investors are advised to consult their own tax advisors to understand their tax liability as per the laws prevailing on the date of disposal of Equity Shares.

The Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020 and clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of certain securities, other than debentures, on a delivery basis is currently specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount.

Under the Finance Act 2020, any dividends paid by an Indian company will be subject to tax in the hands of the shareholders at applicable rates. Such taxes will be withheld by the Indian company paying dividends. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source pursuant to any corporate action including dividends. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning Equity Shares. Investors are advised to consult their own tax advisors to understand their tax liability as per the laws prevailing on the date of disposal of Equity Shares. Further, pursuant to the Finance Act 2024 II, any payment received by the shareholders from the Company pursuant to buyback of shares undertaken after October 1, 2024 on account of buy back of shares shall be taxable as dividend and no deduction from such dividend income shall be allowed.

We cannot predict whether any amendments made pursuant to the Finance Acts would have an adverse effect on our business, results of operations and financial condition. Unfavorable changes in or interpretations of existing laws, rules and regulations, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

***86. Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.***

Under the Companies Act, a company having share capital and incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three–fourths of the Equity Shares voting on such resolution.

However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in our Company would be diluted.

***87. QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid, and Retail Individual Investors are not permitted to withdraw their Bids after Bid/Offer Closing Date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Bid Amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/Offer Period and withdraw their Bids until the Bid/Offer Closing Date. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment, pursuant to the Offer within such period as may be prescribed under applicable law, events affecting the Bidders' decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition may arise between the date of submission of the Bid and Allotment. We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Bidders' ability to sell the Equity Shares allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline upon listing. QIBs and Non-Institutional Bidders will therefore not be able to withdraw or lower their bids following adverse developments in international or national monetary policy, financial, political or economic conditions, our business,

results of operations, cash flows or otherwise, between the dates of submission of their Bids and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidders' ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

***88. Our Equity Shares have never been publicly traded, and after the Offer, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the Offer Price may not be indicative of the market price of the Equity Shares after the Offer.***

Prior to the Offer, there has been no public market for the Equity Shares, and while our Equity Shares are expected to trade on NSE and BSE after the Offer, an active trading market for our Equity Share on the Stock Exchanges may not develop, be sustained, or be liquid after the Offer, or if such trading or liquidity develops, there can be no assurance that it will continue. If an active trading market does not develop, you may have difficulty selling any of our Equity Shares that you buy. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. Furthermore, the Offer Price of the Equity Shares will be based on multiple factors and assumptions, and will be determined through the Book Building Process. These will be based on numerous factors, including factors as described under "***Basis for Offer Price***" beginning on page 222 and may not be indicative of the market price for the Equity Shares after the Offer.

In addition to the above, the current market price of securities listed pursuant to certain previous initial public offerings managed by the Book Running Lead Managers is below their respective issue price. For further details, see "***Other Regulatory and Statutory Disclosures – Price information of past issues handled by the BRLMs***" on page 968. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, the failure of security analysts to cover the Equity Shares after this Offer, or changes in the estimates of our performance by analysts, the activities of competitors and lenders, future issuances and sales of the Equity Shares by our Company or our shareholders, variations in our operating results of our Company, differences between our actual financial and operating results and those expected by investors and analysts, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, actual or purported "short squeeze" trading activity, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, the market capitalization not being indicative of the valuation of our business, and changes in economic, legal and other regulatory factors. We cannot assure you that an active market will develop, or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing.

In addition, the stock market often experiences price and volume fluctuations that are unrelated or disproportionate to the operating performance of a particular company. Recent stock run-ups, divergences in valuation ratios relative to those seen during traditional markets, high short interest or short squeezes, and strong and atypical retail investor interest in the markets may also affect the demand for and price of our shares that are not directly correlated to our operating performance. On some occasions, our stock price may be, or may be purported to be, subject to "short squeeze" activity. A "short squeeze" is a technical market condition that occurs when the price of the stock increases substantially, forcing market participants who have taken a position that its price would fall (i.e. who had sold the stock "short"), to buy it, which in turn may create significant, short-term demand for the stock not for fundamental reasons, but rather due to the need for such market participants to acquire the stock in order to forestall the risk of even greater losses. A "short squeeze" condition in the market for a stock can lead to short-term conditions involving very high volatility and trading that may or may not track fundamental valuation models. As a result of these fluctuations, our Equity Shares may trade at prices significantly below the Offer Price. These broad market fluctuations and industry factors may materially reduce the market price of the Equity Shares, regardless of our Company's performance. There can be no assurance that an investor will be able to resell their Equity Shares at or above the Offer Price.

## SECTION III – INTRODUCTION

## THE OFFER

The following table summarizes details of the Offer:

| | |
|---|---|
| **Offer**[(1) (5)] | Up to [●] Equity Shares of face value of ₹2 each aggregating up to ₹[●] million |
| | |
| *The Offer consists of*: | |
| Fresh Issue[(1)(5)] | Up to [●] Equity Shares of face value of ₹2 each aggregating up to ₹21,500.00 million |
| Offer for Sale[(1)] | Up to 127,562,573 Equity Shares of face value of ₹2 each aggregating up to ₹[●] million |
| Employee Reservation Portion[(6)] | Up to [●] Equity Shares of face value of ₹2 each aggregating up to ₹150.00 million |
| Net Offer | Up to [●] Equity Shares of face value of ₹2 each aggregating up to ₹[●] million |
| | |
| *The Net Offer comprises of:* | |
| **A) QIB Portion**[(2)(3)] | Not less than [●] Equity Shares of face value of ₹2 each |
| *of which:* | |
| Anchor Investor Portion[(2)] | Up to [●] Equity Shares of face value of ₹2 each |
| Net QIB Portion (assuming Anchor Investor Portion is fully subscribed) | Up to [●] Equity Shares of face value of ₹2 each |
| *of which:* | |
| Available for allocation to Mutual Funds only (5% of the Net QIB Portion)[(3)] | Up to [●] Equity Shares of face value of ₹2 each |
| Balance of the Net QIB Portion for all QIBs including Mutual Funds | Up to [●] Equity Shares of face value of ₹2 each |
| **B) Non-Institutional Portion**[(2)(4)] | Not more than [●] Equity Shares of face value of ₹2 each |
| *Of which:* | |
| One-third of the Non-Institutional Portion available for allocation to Bidders with an application size of more than ₹200,000 to ₹1,000,000 | [●] Equity Shares of face value of ₹2 each |
| Two-third of the Non-Institutional Portion available for allocation to Bidders with an application size of more than ₹1,000,000 | [●] Equity Shares of face value of ₹2 each |
| **C) Retail Portion**[(4)] | Not more than [●] Equity Shares of face value of ₹2 each |
| | |
| **Pre and post-Offer Equity Shares** | |
| Equity Shares outstanding prior to the Offer | 1,681,015,590 Equity Shares of face value of ₹2 each |
| Equity Shares outstanding after the Offer | [●] Equity Shares of face value of ₹2 each |
| | |
| **Use of Net Proceeds of the Offer** | For details, see "***Objects of the Offer***" beginning on page 206 for details regarding the use of proceeds from the Fresh Issue. Our Company will not receive any proceeds from the Offer for Sale. |

(1) *The Offer has been authorised by our Board pursuant to the resolution passed at its meeting dated July 11, 2025 and by our Shareholders pursuant to the resolution passed at their annual general meeting dated July 26, 2025.*

*Each of the Selling Shareholders have, severally and not jointly approved their respective portion in the Offer for Sale as set out below:*

| *S. No.* | *Selling Shareholder* | *Maximum number of Offered Shares* | *Date of board resolution/ authorization* | *Date of consent letter* |
|---|---|---|---|---|

| 22. | TR Capital III Mauritius | Up to 3,986,272 Equity Shares aggregating up to ₹[●] million | May 12, 2025 | July 28, 2025 |
| 23. | TR Capital III Mauritius II | Up to 4,695,909 Equity Shares aggregating up to ₹[●] million | May 12, 2025 | July 28, 2025 |

*For details, see "**Other Regulatory and Statutory Disclosures**" beginning on page 960.*

*The Offered Shares are eligible to be offered for sale in the Offer in accordance with Regulations 8 and 8A of the SEBI ICDR Regulations, as on the date of this Red Herring Prospectus.*

(2) *In case of under-subscription in the Offer, the Equity Shares will be allotted in the following order: (i) such number of Equity Shares will first be Allotted by our Company such that 90% of the Fresh Issue portion is subscribed; (ii) upon (i), all the Equity Shares held by the Selling Shareholders and offered for sale in the Offer for Sale will be Allotted (in proportion to the Offered Shares being offered by each Selling Shareholder); and (iii) once Equity Shares have been Allotted as per (i) and (ii) above, such number of Equity Shares will be Allotted by our Company towards the balance 10% of the Fresh Issue portion., Equity Shares shall be allocated in the manner specified in "**Terms of the Offer**" beginning on page 983.*

(3) *Subject to valid bids being received at or above the Offer Price, under subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories of Bidders at the discretion of our Board or the IPO Committee, as applicable, in consultation with the Book Running Lead Managers, and the Designated Stock Exchange, subject to applicable laws. Further, unsubscribed portion in either of the sub-categories in the Non-Institutional Portion may be allocated to applicants in the other sub-category of Non-Institutional Bidders. Further, an Eligible Employee Bidding in the Employee Reservation Portion can also Bid under the Net Offer and such Bids will not be treated as multiple Bids. In the event of under-subscription in the Offer, Equity Shares shall be allocated in the manner specified in **"Terms of the Offer"** beginning on page 983.*

(4) *Our Company, in consultation with the Book Running Lead Managers, shall allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. The QIB Portion will be accordingly reduced for the Equity Shares allocated to Anchor Investors. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds only, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders other than Anchor Investors, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. In the event of under-subscription in the Anchor Investor Portion, the remaining Equity Shares shall be added to the Net QIB Portion. The Net QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders other than Anchor Investors, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. In the event the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion will be added to the QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investor) in proportion to their Bids. For details, see **"Offer Procedure"** beginning on page 994.*

(5) *The Equity Shares available for allocation to Non-Institutional Bidders under the Non-Institutional Portion, shall be subject to the following, and in accordance with the SEBI ICDR Regulations: (i) one-third of the portion available to Non-Institutional Bidders shall be reserved for Bidders with an application size of more than ₹200,000 and up to ₹1,000,000, and (ii) two-thirds of the portion available to Non-Institutional Bidders shall be reserved for Bidders with application size of more than ₹1,000,000, provided that the unsubscribed portion in either of the aforementioned sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders. The allocation to each Non-Institutional Bidder shall not be less than the minimum Non-Institutional Bidder Application Size, subject to availability of Equity Shares in the Non-Institutional Portion and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis in accordance with the conditions specified in this regard in Schedule XIII of the SEBI ICDR Regulations.*

(6) *The Employee Reservation Portion shall not exceed 5% of our post-Offer Equity Share capital. The initial Allotment to an Eligible Employee in the Employee Reservation Portion shall not exceed ₹200,000 (net of Employee Discount), however, an Eligible Employee may submit a Bid for a maximum Bid Amount of ₹500,000 (net of Employee Discount) under the Employee Reservation Portion. Only in the event of under-subscription in the Employee Reservation Portion, the unsubscribed portion will be available for allocation and Allotment, proportionately to all Eligible Employees who have Bid in excess of ₹200,000 (net of Employee Discount), subject to the maximum value of Allotment made to such Eligible Employees not exceeding ₹500,000 (net of Employee Discount). The unsubscribed portion, if any, in the Employee Reservation Portion (after allocation up to ₹500,000 to each Eligible Employee, net of Employee Discount), shall be added to the Net Offer. Further, an Eligible Employee Bidding in the Employee Reservation Portion can also Bid under the Retail Portion in the Net Offer and such Bids will not be treated as multiple Bids. For further details, see "**Offer Structure**" beginning on page 990.*

Pursuant to Rule 19(2)(b) of the SCRR, the Offer is being made for at least [●]% of the post-Offer paid-up Equity Share capital of our Company. Allocation to all categories, except the Anchor Investor Portion, Non Institutional Portion and the Retail Portion, shall be made on a proportionate basis subject to valid Bids being received at or above the Offer Price, as applicable.

The allocation to each Retail Individual Bidder shall not be less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion, and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis, in accordance with the conditions specified in this regard in Schedule XIII to the SEBI ICDR Regulations. Allocation to Anchor Investors shall be on a discretionary basis in accordance with the SEBI ICDR Regulations. For further details, see "***Offer Structure"*** and "***Offer Procedure*****"** beginning on pages 990, and 994, respectively.

## SUMMARY OF FINANCIAL INFORMATION

The following tables set forth summary financial information derived from our Restated Consolidated Financial Information. The summary financial information presented below should be read in conjunction with '***Financial Information***' and '***Management's Discussion and Analysis of Financial Condition and Results of Operations***' beginning on pages 398, and 904, respectively.

*(Remainder of this page has intentionally been left blank.)*

## SUMMARY OF RESTATED CONSOLIDATED BALANCE SHEET

**Company Secretary and Compliance Officer**

Preeti Gupta is the Company Secretary and Chief Compliance Officer of our Company. Her contact details are as follows:

**Lenskart Solutions Limited**
Ground Floor Vipul Tech Square,
Golf Course Road, Sector 43,
DLF QE, Gurugram – 122 009
Haryana, India
**Tel:** +124 4293191
**E-mail:** compliance.officer@lenskart.com

**Investor Grievances**

Investors may contact the Company Secretary and Chief Compliance Officer or the Registrar to the Offer in case of any pre-Offer or post-Offer related grievances including non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the

respective beneficiary account, non-receipt of refund orders or non-receipt of funds by electronic mode, etc. For all Offer related queries and for redressal of complaints, investors may also write to the BRLMs.

All Offer-related grievances, other than of Anchor Investors, may be addressed to the Registrar to the Offer with a copy to the relevant Designated Intermediary(ies) with whom the Bid cum Application Form was submitted, giving full details such as name of the sole or first bidder, Bid cum Application Form number, Bidder's DP ID, Client ID, PAN, address of Bidder, number of Equity Shares applied for, ASBA Account number in which the amount equivalent to the Bid Amount was blocked or the UPI ID (for UPI Investors who make the payment of Bid Amount through the UPI Mechanism), date of Bid cum Application Form and the name and address of the relevant Designated Intermediary(ies) where the Bid was submitted. Further, the Bidder shall enclose the Acknowledgment Slip or the application number from the Designated Intermediaries in addition to the documents or information mentioned hereinabove. All grievances relating to Bids submitted through Registered Brokers may be addressed to the Stock Exchanges with a copy to the Registrar to the Offer. The Registrar to the Offer shall obtain the required information from the SCSBs for addressing any clarifications or grievances of ASBA Bidders.

All Offer-related grievances of the Anchor Investors may be addressed to the Registrar to the Offer, giving full details such as the name of the sole or first bidder, Anchor Investor Application Form number, Bidders' DP ID, Client ID, PAN, date of the Anchor Investor Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Anchor Investor Application Form and the name and address of the BRLMs where the Anchor Investor Application Form was submitted by the Anchor Investor.

Except as disclosed below, our Company has not obtained any expert opinions in connection with this Red Herring Prospectus:

Our Company has received written consent dated October 25, 2025 from S. R. Batliboi & Associates LLP, Chartered Accountants, to include their name as required under Section 26 (1) of the Companies Act, 2013 read with SEBI ICDR Regulations, in this Red Herring Prospectus, and as an "expert" as defined under Section 2(38) of the Companies Act, 2013 to the extent and in their capacity as our Statutory Auditors, and in respect of their (i) examination report, dated October 14, 2025 on our Restated Consolidated Financial Statements; and (ii) their report dated October 16, 2025 on the Statement of Special Tax Benefits in this Red Herring Prospectus, and such consent has not been withdrawn as on the date of this Red Herring Prospectus. However, the term "expert" shall not be construed to mean an "expert" as defined under the U.S. Securities Act.

Our Company has received written consent dated October 25, 2025 from A D M S & Co, Chartered Accountants, independent chartered accountant, having firm registration number 014626C, and holding a valid peer review certificate from the ICAI, to include their name as required under Section 26(5) of the Companies Act, 2013 read with the SEBI ICDR Regulations in this Red Herring Prospectus, and as an "expert" as defined under Section 2(38) of the Companies Act with respect to the information in certificate dated October 25, 2025 and such consent has not been withdrawn as on the date of this Red Herring Prospectus. However, the term "expert" shall not be construed to mean an "expert" as defined under the U.S. Securities Act.

Our Company has received written consent dated October 25, 2025, from VULT AND COMPANY, Company Secretaries, holding a valid peer review certificate from ICSI, to include their name as an 'expert' as defined under Section 2(38) of the Companies Act, 2013 in respect of the certificates issued by them in their capacity as an independent practicing company secretary to our Company, and such consent has not been withdrawn as on the date of this Red Herring Prospectus.

Our Company has received written consent dated July 28, 2025 from PS Architects & Consultants, to include their name as required under Section 26(5) of the Companies Act, 2013 read with the SEBI ICDR Regulations in this Red Herring Prospectus, and as an "expert" as defined under Section 2(38) of the Companies Act with respect to the information in certificate dated July 28, 2025 and such consent has not been withdrawn as on the date of this Red Herring Prospectus. However, the term "expert" shall not be construed to mean an "expert" as defined under the U.S. Securities Act.

Our Company has received written consent dated October 25, 2025 from Annam Srinivasa Rao, Chartered Engineer, to include his name as required under Section 26(5) of the Companies Act, 2013, read with SEBI ICDR Regulations and as an "expert" as defined under Section 2(38) and 26(5) of the Companies Act to the extent and in his capacity as the independent chartered engineer and in respect of the information in the certificate dated October 25, 2025 issued by him and included in this Red Herring Prospectus and such consent has not been withdrawn as on the date of this Red Herring Prospectus. However, the term "expert" shall not be construed to mean an "expert" as defined under the U.S. Securities Act.

Our Company has received written consent dated October 25, 2025, from the ACME Company, Intellectual Property Attorneys & Advocates, intellectual property consultant, to include their name as required under the SEBI ICDR Regulations in this Red Herring Prospectus, and as an "expert" as defined under Section 2(38) of the Companies Act with respect to the information in certificate dated October 25, 2025, certifying, inter alia, details of intellectual properties applications and registrations in our name and such consent has not been withdrawn as on the date of this Red Herring Prospectus. However, the term "expert" shall not be construed to mean an "expert" as defined under the U.S. Securities Act.

**Book Building Process**

The Book Building Process, in the context of the Offer, refers to the process of collection of Bids from Bidders on the basis of this Red Herring Prospectus and the Bid Cum Application Forms and the Revision Forms within the Price Band, which will be decided by our Company, in consultation with the BRLMs, and which will either be included in this Red Herring Prospectus or will be advertised in all editions of English national daily newspaper, Financial Express and all editions of Hindi national daily newspaper, Jansatta (Hindi also being the regional language of Delhi, where our Registered Office is located) each with wide circulation, at least two Working Days prior to the Bid/Offer Opening Date and shall be made available to the Stock Exchanges for the purpose of uploading on their respective websites. The Offer Price shall be determined by our Company, in consultation with the BRLMs after the Bid/Offer Closing Date. For details, see "***Offer Procedure***" beginning on page 994.

**All Bidders, other than Anchor Investors, shall only participate through the ASBA process by providing the details of their respective ASBA Account in which the corresponding Bid Amount will be blocked by the SCSBs or in the case of UPI Bidders, by using the UPI Mechanism. Anchor Investors are not permitted to participate in the Offer through the ASBA process. Pursuant to the SEBI ICDR Master Circular all individual bidders in initial public offerings whose application sizes are up to ₹500,000 shall use the UPI Mechanism.**

**In terms of the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of the number of Equity Shares or the Bid Amount) at any stage. RIBs can revise their Bid(s) during the Bid/ Offer Period and withdraw their Bid(s) until Bid/ Offer Closing Date. Anchor Investors are not allowed to withdraw their Bids after the Anchor Investor Bidding Date. Except for Allocation to RIBs, Eligible Employees bidding in the Employee Reservation Portion, Non-Institutional Bidders and the Anchor Investors, allocation in the Offer will be on a proportionate basis. Further, allocation to Anchor Investors will be on a discretionary basis.**

**Each Bidder by submitting a Bid in the Offer, will be deemed to have acknowledged the above restrictions and the terms of the Offer.**

For further details, see "***Terms of the Offer***" "***Offer Structure***" and "***Offer Procedure***" beginning on pages 983, 990 and 994, respectively.

**The Book Building Process under the SEBI ICDR Regulations and the bidding process are subject to change from time to time and the Bidders are advised to make their own judgment about investment through the aforesaid processes prior to submitting a Bid in the Offer.**

Bidders should note that, the Offer is also subject to obtaining (i) the final approval of the RoC after the Prospectus is filed with the RoC; and (ii) final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment as per the prescribed timelines in compliance with the SEBI ICDR Regulations.

**Underwriting Agreement**

Prior to the filing of the Prospectus with the RoC, and in accordance with the nature of underwriting which is determined in accordance with Regulation 40(3) of SEBI ICDR Regulations, our Company and the Selling Shareholders intend to enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be offered through the Offer. The extent of underwriting obligations and the Bids to be underwritten in the Offer shall be as per the Underwriting Agreement. The Underwriting Agreement is dated [●]. Pursuant to the terms of the Underwriting Agreement, the obligations of each of the Underwriters will be several and will be subject to certain conditions specified therein.

The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

*(The Underwriting Agreement has not been executed as on the date of this Red Herring Prospectus. Specific details below have been intentionally left blank and will be filled in before, and this portion will be applicable upon the execution of the Underwriting Agreement and filing of the Prospectus with the RoC, as applicable.)*

| Name, address, telephone number and e-mail address of the Underwriters | Indicative number of Equity Shares to be underwritten | Amount underwritten (₹ in million) |
|---|---|---|
| [●] | [●] | [●] |
| [●] | [●] | [●] |
| [●] | [●] | [●] |
| [●] | [●] | [●] |

The aforementioned underwriting commitments are indicative and will be finalised after pricing of the Offer and actual allocation in accordance with provisions of the SEBI ICDR Regulations.

In the opinion of our Board (based on representations made to our Company by the Underwriters), the resources of the aforementioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The Underwriters are registered with SEBI or registered as brokers with the Stock Exchanges. Our Board and/or IPO Committee, at its meeting held on [●], approved the acceptance and entering into the Underwriting Agreement mentioned above on behalf of our Company.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitment set forth in the table above.

Notwithstanding the above table, the Underwriters shall be severally responsible for ensuring payment with respect to the Equity Shares allocated to Bidders respectively procured by them in accordance with the Underwriting Agreement.

## CAPITAL STRUCTURE

[$] *Formerly known as Unilazer Ventures.*

6. ***Issue of Equity Shares or Preference Shares under Section 391 to 394 of the Companies Act, 1956 and Sections 230 to 234 of the Companies Act, pursuant to schemes of arrangement***

Our Company has not allotted any Equity Shares or Preference Shares pursuant to any scheme of arrangement approved under sections 391 to 394 of the Companies Act, 1956 or sections 230 to 234 of the Companies Act, 2013, as applicable.

7. ***Issue of Equity Shares under employee stock option schemes***

Except as disclosed in "- ***History of Equity Share Capital of our Company***" above, our Company has not issued any Equity Shares under the ESOP Schemes as on date of this Red Herring Prospectus.

8. ***History of build-up of Promoters' shareholding and lock-in of Promoters' shareholding (including Promoters' contribution)***

As on the date of this Red Herring Prospectus, our Promoters hold, in aggregate, 334,186,084 Equity Shares. Further, as on the date of this Red Herring Prospectus, the aggregate equity shareholding of our Promoters constitutes 19.83% of the pre-Offer Equity Share capital of our Company on a fully diluted basis (*calculated on the basis of total Equity Shares and such number of Equity Shares which will result pursuant to exercise of any of the options vested under the ESOP Schemes*). All the Equity Shares and Preference Shares held by our Promoters are held in dematerialized form.

(a) ***Build-up of Promoters' shareholding in our Company***

Set forth below is the build-up of our Promoter's shareholding since the incorporation of our Company:

*Equity Share capital build-up of our Promoters*

***** *Assuming conversion of vested options under the ESOP Schemes as on the date of this Red Herring Prospectus.*

(e) **Details of Promoters' contribution and lock in**

Pursuant to Regulations 14 and 16 of the SEBI ICDR Regulations, an aggregate of 20% of the fully diluted post-Offer Equity Share capital of our Company held by our Promoters shall be considered as minimum promoters' contribution and locked-in for a period of eighteen months or any other period as may be prescribed under applicable law, from the date of Allotment ("**Minimum Promoters' Contribution**").

As on the date of this Red Herring Prospectus, the pre-Offer shareholding of our Promoters is 334,186,084 Equity Shares which constitutes 19.83% of the issued, subscribed and paid-up share capital of our Company on a fully diluted basis (*calculated on the basis of total Equity Shares and such number of Equity Shares which will result upon exercise of options vested under the ESOP Schemes, as applicable*).

Post-Offer, the shareholding of our Promoters eligible towards meeting Minimum Promoters' Contribution will be less than 20% of the post-Offer Equity Share capital of our Company, which is less than the requisite shareholding required for complying with minimum promoter's contribution, therefore, in accordance with Regulation 14 of the SEBI ICDR Regulations, (i) Platinum Jasmine A 2018 Trust (acting through its trustee, Platinum Owl C 2018 RSC Limited), (ii) PI Opportunities Fund - II (represented by its trustee, Hasham Premji Private Limited, and represented by its investment manager, PI Investment Advisory LLP), (iii) Kedaara Capital Fund II LLP, and (iv) SVF II Lightbulb (Cayman) Limited (collectively, "**PC Shortfall Contributors**") shall in aggregate contribute [●]^ Equity Shares ("**PC Shortfall Shares**") towards the shortfall in Minimum Promoters' Contribution, pursuant to their consent letters dated July 28, 2025 and October 24, 2025.

^ *Number of Equity Shares has been intentionally left blank and will be filled in once the Offer Price is finalised in the Prospectus to be filed with the RoC.*

The PC Shortfall Shares constitute [●]% of the subscribed and paid-up Equity Share capital of our Company, on a fully diluted basis post-Offer towards the shortfall in Minimum Promoters' Contribution subject to a maximum aggregate contribution of 10% of the post-Offer paid-up Equity Share capital of our Company. PC Shortfall Contributors are not, and have not been at any time, identified as a Promoters of our Company. PC Shortfall Contributors shall not be identified as our Promoters, pursuant to their contribution towards the PC Shortfall Shares.

Our Promoters, Peyush Bansal, Neha Bansal, Amit Chaudhary, Sumeet Kapahi and the PC Shortfall Contributors have, severally and not jointly, given their respective consent to include such number of Equity Shares held by them, in aggregate, as may constitute 20% of the fully diluted post-Offer Equity Share capital of our Company as Minimum Promoter's Contribution. Our Promoters, Peyush Bansal, Neha Bansal, Amit Chaudhary, Sumeet Kapahi and the PC Shortfall Contributors have agreed not to sell, transfer, pledge, lien or otherwise encumber in any manner the Minimum Promoters' Contribution from the date of this Red Herring Prospectus, until the expiry of the lock-in period specified above, or for such other time as required under SEBI ICDR Regulations, except as may be permitted, in accordance with the SEBI ICDR Regulations.

The details of Equity Shares held by our Promoters, Peyush Bansal, Neha Bansal, Amit Chaudhary, Sumeet Kapahi and the PC Shortfall Contributors which will be locked-in for Minimum Promoters' Contribution for a period of eighteen months or such other period as prescribed under the SEBI ICDR Regulations from the date of Allotment as Minimum Promoters' Contribution are as provided below:

* *Subject to finalisation of the Basis of Allotment.*

(1) *For a period of 18 months from the date of Allotment.*

(2) *All Equity Shares were fully paid-up at the time of allotment/acquisition.*

*Note: To be updated in the Prospectus*

The Equity Shares that are being locked-in for computation of Promoters' Contribution are not and will not be ineligible under Regulation 15 of the SEBI ICDR Regulations. In particular:

(i) these Equity Shares do not and shall not consist of Equity Shares acquired during the three years preceding the date of this Red Herring Prospectus (a) for consideration other than cash and revaluation of assets or capitalisation of intangible assets, or (b) as a result of bonus shares issued by utilization of revaluation reserves or unrealised profits of our Company or from bonus issue against Equity Shares which are otherwise in-eligible for computation of Promoters' Contribution;

(ii) these Equity Shares do not and shall not consist of Equity Shares acquired or subscribed to during the one year preceding the date of this Red Herring Prospectus, at a price (after adjustment for corporate actions such as share split or bonus issue) lower than the price at which the Equity Shares are being offered to the public in the Offer;

(iii) these Equity Shares do not and shall not consist of Equity Shares held by the Promoters that are subject to any pledge or any other form of encumbrance.

(a) ***Details of Equity Shares locked-in for six months***

In terms of the SEBI ICDR Regulations, except for:

(i) the Minimum Promoters' Contribution which shall be locked in as above;

(ii) the Equity Shares allotted to our employees under the ESOP Schemes pursuant to exercise of options held by such employees (whether current employees or not); and

(iii) the Equity Shares successfully transferred by the Selling Shareholders pursuant to the Offer for Sale, the entire pre-Offer Equity Share capital of our Company (in addition to the Minimum Promoters' Contribution), shall, unless otherwise permitted under the SEBI ICDR Regulations, be locked in for a period of six months from the date of Allotment or any other period as may be prescribed under

applicable law. In terms of Regulation 17(c) of the SEBI ICDR Regulations, Equity Shares held by Shareholders, who are venture capital funds or alternative investment funds of category I or category II or foreign venture capital investors shall not be locked-in for a period of six months from the date of Allotment, provided that such Equity Shares shall be locked-in for a period of at least six months from the date of purchase by the venture capital fund or alternative investment fund of category I or category II or foreign venture capital investor.

However, in accordance with Regulation 8A of the SEBI ICDR Regulations, the relaxation from lock-in period provided under Regulation 17(c) of the SEBI ICDR Regulations, as set out above, shall not be available to any Shareholder(s) holding, individually or with persons acting in concert, more than 20% of the pre-Offer equity shareholding of our Company on a fully diluted basis. Any unsubscribed portion of the Offered Shares being offered by the Selling Shareholders would also be locked-in as required under the SEBI ICDR Regulations. As required under Regulation 20 of the SEBI ICDR Regulations, our Company shall ensure that the details of the Equity Shares locked-in are recorded by the relevant Depository.

(iv) In terms of Regulation 22 of the SEBI ICDR Regulations, Equity Shares held by our Promoters which are locked-in, may be transferred to Promoters or members of our Promoter Group or to any new promoters, subject to continuation of lock-in in the hands of the transferees for the remaining period and compliance with provisions of the SEBI Takeover Regulations, as applicable and such transferee shall not be eligible to transfer them till the lock-in period stipulated in SEBI ICDR Regulations has expired.

(v) In terms of Regulation 22 of the SEBI ICDR Regulations, the Equity Shares held by persons other than our Promoters and locked-in for a period of six months from the date of Allotment in the Offer or any other period as may be prescribed under applicable law, may be transferred to any other person holding Equity Shares which are locked-in along with the Equity Shares proposed to be transferred, subject to the continuation of the lock-in the hands of the transferee for the remaining period and compliance with the provisions of the SEBI Takeover Regulations.

(vi) In terms of Regulation 21 of the SEBI ICDR Regulations, the Equity Shares held by our Promoters which are locked-in as per Regulation 16 of the SEBI ICDR Regulations, may be pledged only with scheduled commercial banks or public financial institutions or systemically important non-banking finance companies or housing finance companies as collateral security for loans granted by such entity, provided that: (i) in case of Equity Shares locked-in as the Promoter's Contribution for 18 months from the date of Allotment, such Equity Shares may be pledged only if the loan has been granted to our Company, for the purpose of financing one or more of the objects of the Offer, and pledge of the Equity Shares is a term of sanction of such loans; and (ii) in case of Equity Shares locked-in for a period of six months from the date of Allotment or any other period as may be prescribed under applicable law, such pledge of the Equity Shares is one of the terms of the sanctioned loan. Provided that the lock-in of Equity Shares shall continue post the invocation of the pledge referenced above, for the relevant lock-in period with the transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated in these regulations has expired.

(b) ***Lock-in of Equity Shares Allotted to Anchor Investors***

50% of the Equity Shares allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period of 90 days from the date of Allotment and the remaining Equity Shares allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period of 30 days from the date of Allotment.

(c) ***Sales or purchases of Equity Shares or other Specified Securities of our Company by our Promoters, the members of our Promoter Group, and/or our Directors and their relatives during the six months immediately preceding the date of this Red Herring Prospectus.***

Except for Peyush Bansal and Neha Bansal, the details for whom are disclosed in "***– Build-up of Promoters' Shareholding in our Company***" on page 167, none of our Promoters have sold or purchased any Equity Shares or Preference Shares of our Company during the six months immediately preceding the date of this Red Herring Prospectus.

Further, except as disclosed below, none of the members of our Promoter Group, and/or our Directors (apart from our Promoters) and their relatives and relatives of our Promoters have sold or purchased any Equity Shares or Preference Shares of our Company during the six months immediately preceding the date of this Red Herring Prospectus.

* *The percentage of the Equity Share capital on a fully diluted basis has been calculated assuming (i) conversion of outstanding Preference Shares as on that date, pursuant to the terms of the Preference Shares; and (ii) exercise of vested options under ESOP Schemes, as applicable.*

12. None of the Equity Shares being offered for sale through the Offer for Sale are pledged or otherwise encumbered, as on the date of this Red Herring Prospectus.

13. Our Company, our Directors and the BRLMs have not made or entered into any buy-back arrangements for the purchase of Specified Securities from any persons.

14. Except as disclosed below, as on the date of this Red Herring Prospectus, the BRLMs and their respective associates (as defined in the SEBI Merchant Bankers Regulations) do not hold any Equity Shares of our Company. The BRLMs and their respective associates and affiliates in their capacity as principals or agents may engage in transactions with, and perform services for, our Company and its respective directors and officers, partners, trustees, affiliates, associates or third parties in the ordinary course of business and have engaged, or may in the future engage, in commercial banking and investment banking transactions with our Company and each of its respective directors and officers, partners, trustees, affiliates, associates or third parties, for which they have received, and may in future receive, compensation.

*Avendus Future Leaders Fund II, an alternative investment fund managed by Avendus PE Investment Advisors Private Limited, an associate of Avendus, one of our BRLMs holds 10,154,129 Equity Shares, aggregating to 0.60% Equity Share capital of our Company on a fully diluted basis.*

*Axis Growth Avenues AIF -I, an affiliate of Axis Capital Limited, one of our BRLMs, holds an aggregate of 4,426,500 Equity Shares of our Company aggregating to 0.26% Equity Share capital of our Company on a fully diluted basis.*

15. No person connected with the Offer, including, but not limited to the BRLMs, the Syndicate Members, our Company, the Promoters, our Directors, or the members of our Promoter Group, shall offer in any manner whatsoever any incentive, whether direct or indirect, in the nature of discount, commission and allowance, except for fees or commission for services rendered in relation to the Offer, in any manner, whether in cash or kind or services or otherwise to any Bidder for making a Bid.

16. Except for outstanding options granted pursuant to the ESOP Schemes, our Company has no outstanding warrants, options to be issued or rights to convert debentures, loans or other convertible instruments into Equity Shares as on the date of this Red Herring Prospectus.

17. Except for the Equity Shares to be allotted pursuant to (i) the Fresh Issue, and; (ii) exercise of options granted under the ESOP Scheme, our Company presently does not intend or propose or is under negotiation or consideration to alter its capital structure for a period of six months from the Bid/ Offer Opening Date, by way of split or consolidation of the denomination of Equity Shares or further issue of Equity Shares (including issue of securities convertible into or exchangeable for, directly or indirectly into Equity Shares), whether on a preferential basis or issue of bonus or rights or further public issue of Equity Shares.

18. Except for the allotment of Equity Shares pursuant to the (i) Fresh Issue and (ii) exercise of options granted under the ESOP Schemes, there will be no further issue of Equity Shares whether by way of issue of bonus shares, preferential allotment, rights issue or in any other manner during the period commencing from filing of this Red Herring Prospectus

with SEBI until the Equity Shares have been listed on the Stock Exchanges or all application moneys have been refunded to the Anchor Investors, or the application moneys are unblocked in the ASBA Accounts on account of non-listing, under-subscription etc., as the case may be.

19. Except as disclosed above in *"***– *Shareholding of Directors, Key Managerial Personnel and members of Senior Management in our Company***" on page 198, none of our Directors or Key Managerial Personnel or Senior Management hold any Equity Shares of our Company.

20. During the period of six months immediately preceding the date of filing of this Red Herring Prospectus, no financing arrangements existed whereby our Promoter, members of our Promoter Group, Directors and their relatives may have financed the purchase of securities of our Company by any other person.

21. Our Promoters and members of our Promoter Group will not submit Bids, or otherwise participate in this Offer, except to the extent of the Offer for Sale.

22. There shall be only one denomination of the Equity Shares, unless otherwise permitted by law.

23. The Equity Shares are fully paid-up and there are no partly paid-up Equity Shares as on the date of this Red Herring Prospectus. All Equity Shares offered and Allotted pursuant to the Offer shall be fully paid-up at the time of Allotment.

24. All the Equity Shares held by our Promoters, members of the Promoter Group, Directors, Key Managerial Personnel, members of Senior Management, employees, QIBs, and entities regulated by the financial sector regulators (as defined under the SEBI ICDR Regulations), to the extent applicable, are held in dematerialised form.

25. All transactions in the securities of our Company by the Promoters and our Promoter Group, if any, during the period between the date of filing of this Red Herring Prospectus and the date of closure of the Offer shall be reported to the Stock Exchanges within 24 hours of the transactions.

26. None of the shareholders of our Company are directly or indirectly related to the BRLMs or their associates.

27. **ESOP Scheme**s

**A. Lenskart Employee Stock Option Plan, 2021 ("Lenskart ESOP 2021")**

Our Company, pursuant to the resolutions passed by our Board on October 9, 2012 and our Shareholders on October 9, 2012, adopted the Lenskart ESOP 2021 (then called Valyoo Stock Option Plan, 2012). The Lenskart ESOP 2021 was most recently amended by Board resolution dated June 24, 2025, and Shareholders resolution dated July 26, 2025.

The objective of the Lenskart ESOP 2021 is, inter alia, to (i) create a sense of ownership within the organization; (ii) attract, retain and motivate our employees; (iii) encourage Employees to align their performance with Company objectives; (iv) reward Employees with ownership in proportion to their contribution; and (v) align interest of Employees with those of the organization. The ESOP Scheme is in compliance with the SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021.

As on the date of this Red Herring Prospectus, under the Lenskart ESOP 2021, an aggregate of 21,347,202 options have been granted to employees of our Company, an aggregate of 4,259,511 options have been vested and 1,434,809 options have been exercised. All grants of options under the Lenskart ESOP 2021 are in compliance with the Companies Act, 2013 and all allotments have been made to employees of our Company.

The details of the Lenskart ESOP 2021, as certified by A D M S & Co, Chartered Accountants, (FRN: 014626C), through a certificate dated October 25, 2025 are as follows:

| Intention of the key managerial personnel, senior management, and whole-time directors who are holders of equity shares allotted on exercise of options granted, to sell their Equity Shares within three months after the date of listing of Equity Shares pursuant to the Offer, if any whether the equity shares arise out of options exercised before or after the Offer | As on the date of this Red Herring Prospectus, no key managerial personnel, senior management or whole-time director has expressed their intention to sell their Equity Shares that are allotted on exercise of options granted under an employee stock option scheme within three months after the listing of Equity Shares in the Offer. Hence not applicable. | | | | |
| Intention to sell Equity Shares arising out of, or allotted under an employee stock option scheme within three months after the date of listing of Equity Shares, by Directors, key managerial personnel, senior management and employees having Equity Shares arising out of an employee stock option scheme, amounting to more than 1% of the issued capital (excluding outstanding warrants and conversions) which inter-alia shall include name, designation and quantum of the equity shares issued under an employee stock option scheme or employee stock purchase scheme and the quantum they intend to sell within three months | N.A. | | | | |

**1 Option = 1 Equity Share.*

*** Pursuant to the issuance and allotment of bonus shares vide a resolution passed at the Extraordinary General Meeting held on July 17, 2024, appropriate adjustments have been made, for the financial year ended March 31, 2025 and three months period ended June 30, 2025 , to the options granted, including those outstanding, vested, exercised, forfeited, lapsed, cancelled, or settled in cash, as well as to the weighted average exercise price and the resultant number of equity shares.*

**** Diluted EPS is calculated as restated (loss)/profit after tax divided by the weighted average number of dilutive Equity Shares outstanding during the year/period including the potential estimated number of shares to be issued against stock options in force under the existing stock option plan/scheme, except where diluted EPS would be anti-dilutive.*

**B. Lenskart Employee Stock Option Plan, 2025 ("Lenskart ESOP 2025")**

Our Company, pursuant to the resolutions passed by our Board on July 18, 2025 and our Shareholders on July 25, 2025 adopted the Lenskart ESOP 2025. The objectives of Lenskart ESOP 2025 is *inter alia* to (i) create a sense of ownership within the organization; (ii) attract, retain and motivate employees of the organization and (iii) reward employees with ownership in proportion to their contribution. The Lenskart ESOP 2025 is in compliance with the SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021.

As on the date of this Red Herring Prospectus, 358,500 options have been granted under the Lenskart ESOP 2025, as certified by A D M S & Co, Chartered Accountants, (FRN: 014626C), pursuant to their certificate dated October 25, 2025.

Pursuant to transfer agreement dated July 16, 2025, Platinum Jasmine A 2018 Trust, acting through its trustee Platinum Owl C 2018 RSC Limited transferred 6,311,292 Equity Shares of face value ₹2 of the Company to the Lenskart ESOP Trust for a total consideration ₹94.66. Further, pursuant to transfer agreement dated July 18, 2024, the FMR Entities transferred 1,036,139 Equity Shares of the Company to the Lenskart ESOP Trust for a total consideration ₹0.12 million.

## OBJECTS OF THE OFFER

The Offer comprises of the Fresh Issue and the Offer for Sale.

**Offer for Sale**

The Selling Shareholders will be entitled to their respective portion of the proceeds of the Offer for Sale after deducting their respective proportion of Offer expenses and relevant taxes thereon in accordance with the Offer Agreement. Our Company will not receive any proceeds from the Offer for Sale and the proceeds received from the Offer for Sale will not form part of the Net Proceeds.

**Fresh Issue**

***Net Proceeds***

The details of the Net Proceeds are summarised in the table below.

| Particulars | Estimated Amount |
|---|---|
| Gross proceeds of the Fresh Issue | 21,500.00 |
| (Less) Offer related expenses to the extent applicable to the Fresh Issue (only those apportioned to our Company)* | [●]*# |
| **Net Proceeds** | [●]* |

* *To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC.*

\# *For details, see "- **Offer Related Expenses**" on page 219.*

***Requirement of funds***

We are a technology-driven eyewear company with integrated operations spanning designing, manufacturing, branding and retailing of eyewear products. In line with our goal of making quality eyewear accessible and affordable, we have established a presence across multiple channels, centred around our mobile applications and websites. As of June 30, 2025, our mobile applications had over 100 million cumulative downloads and we operated our business through 2,806 stores globally (comprising 2,137 stores in India and 669 stores internationally).

Through our technology led research and development initiatives, we seek to deliver better customer experience, drive operational efficiencies, and support long-term profitability. A large portion of our technology is built in-house. Over the years, we have leveraged AI to create sophisticated technologies that have allowed us to gain market share and deliver an improved customer experience. We have invested in a range of customized technology solutions, AI tools and automation to deliver enhanced customer experience and drive higher operational efficiencies.

Our aim is to build our Company as a trusted consumer brand across India and the geographies that we operate in, that customers associate with consistent quality, functionality, delivered at scale and at accessible price points. In the Financial Year 2025, Lenskart was awarded "India's Most Trusted Eyewear Brand of 2025" by TRA Research.

Our growth and expansion strategy is centered on enhancing customer experience, expanding our market reach (both geographically and demographically), and improving operational efficiency to drive sustainable, profitable growth. Our approach to expanding and diversifying our brand portfolio, product offerings and geographic presence includes both organic initiatives and selective brand collaborations, investments and acquisitions.

Key pillars of our growth strategy are as follows:

- increase markets' penetration and, expand customer access across channels
- strengthen manufacturing and supply chain capabilities
- continue to innovate and expand our product portfolio
- invest in new technologies
- continue to enhance customer experience
- continue to strengthen our brand across our markets

For further details on our growth strategies, see "***Our Business – Our Growth Strategies*** on page 317.

We expect especially these areas to continue to be critical for the growth of our business and operations in the future.

Accordingly, our Company proposes to utilize the Net Proceeds from the Fresh Issue towards funding the following objects (collectively, referred to herein as the "**Objects**"):

- Capital expenditure towards set-up of new CoCo stores in India;
- Expenditure for lease/rent/license agreements related payments for our CoCo stores operated by our Company in India;
- Investing in technology and cloud infrastructure;
- Brand marketing and business promotion expenses for enhancing brand awareness; and
- Unidentified inorganic acquisitions and general corporate purposes.

The main objects clause and objects incidental and ancillary to the main objects clause as set out in the MoA of our Company and its Subsidiaries enables our Company and its Subsidiaries to undertake our existing activities, which are proposed to be funded from the Net Proceeds.

***Proposed schedule of implementation and deployment of Net Proceeds***

We propose to utilize the Net Proceeds in the manner set forth in the table below.

(*₹ in million*)

| Particulars | Total estimated Amount/ expenditure[@] |
|---|---|
| Capital expenditure towards set-up of new CoCo stores in India | 2,726.22 |
| Expenditure for lease/rent/license agreements related payments for our CoCo stores operated by our Company, in India | 5,914.40 |
| Investing in technology and cloud infrastructure | 2,133.75 |
| Brand marketing and business promotion expenses for enhancing brand awareness | 3,200.63 |
| Unidentified inorganic acquisitions and general corporate purposes | [●][#] |
| **Total Net Proceeds** | [●][#] |

[@] *Exclusive of all refundable duties and taxes, such as GST.*

\# *To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC. The aggregate amount to be utilised for general corporate purposes and unidentified inorganic acquisition shall not exceed 35% of the Gross Proceeds. The amount to be utilised for general corporate purposes or unidentified inorganic acquisition, individually, as the case may be, shall not exceed 25% of the Gross Proceeds. Our Company confirms that the amounts, if any, that will be utilised towards capital expenditure related items as part of either general corporate purposes and/ or unidentified inorganic acquisitions, such amount(s) shall not exceed 25% of the Gross Proceeds.*

***Schedule of Implementation and Deployment of Net Proceeds***

| S. * *The funds will be utilised within three years from the date of listing of our Equity Shares.*

\# *To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC. The aggregate amount to be utilised for general corporate purposes and unidentified inorganic acquisition shall not exceed 35% of the Gross Proceeds. The amount to be utilised for general*

*corporate purposes or unidentified inorganic acquisition, individually, as the case may be, shall not exceed 25% of the Gross Proceeds. Our Company confirms that the amounts, if any, that will be utilised towards capital expenditure related items as part of either general corporate purposes and/ or unidentified inorganic acquisitions, such amount(s) shall not exceed 25% of the Gross Proceeds.*

We intend to deploy the Net Proceeds towards the Objects in accordance with the business needs of our Company and our subsidiaries, as required. The actual deployment of funds will depend on a number of factors, including the timing of completion of the Offer, identification of location for new stores to be opened, our relationship with and the pricing of the products and services offered by technology vendors or marketing agencies, ability to identify and consummate proposed investments and acquisitions, our Board's analysis of economic trends and business requirements, market conditions, competitive landscape, as well as general factors affecting our results of operations, financial condition and access to capital. In the event that the estimated utilization of the Net Proceeds in a scheduled Financial Year is not completely met, including due to the reasons stated above, the same shall be utilized in the next Financial Year, as may be determined by our Company, in accordance with applicable laws. Depending upon such factors, we may have to reduce or extend the deployment period for the stated Objects at the discretion of our Company and in accordance with applicable laws. For further details, see "***Risk Factors – Our funding requirements and proposed deployment of the Net Proceeds of the Offer have not been appraised by a bank or a financial institution or any external agency and if there are any delays or cost overruns, our business, results of operations, financial condition, and cash flows could be adversely affected. Further, any variation in the utilization of our Net Proceeds as disclosed in this Red Herring Prospectus would be subject to certain compliance requirements, including prior Shareholders' approval*"** on page 109.

The above requirement of funds is based on our current business plan, internal management estimates, prevailing market conditions and other commercial and technical factors, and quotations obtained from certain vendors, which are subject to change in the future. We have also relied on certificates from A D M S & Co., Chartered Accountants, independent chartered accountants for, *inter alia*, certifying the actual cost incurred by our Company for setting up the CoCo stores during the last three Financial Years for computation of the estimated costs to be incurred for setting up the New CoCo Stores (defined below), expenditure incurred for lease rental for our stores in the last three Financial Years and total expenditure incurred towards payroll costs towards technology team employees in the last three Financial Years, as disclosed in this section. Further, we have also relied on a certificate from an independent architect for the costs and description of fittings and installations relating to our stores. These funding requirements have not been appraised by any bank or financial institution. We may have to revise our funding requirements and deployment from time to time on account of various factors, such as changes in costs, financial and market conditions, our management's analysis of economic trends and our business requirements, changes in technology, ability to identify and consummate new business initiatives, inorganic and geographic expansion opportunities, competitive landscape as well as general factors affecting our results of operations, financial condition, access to capital, business and strategy and interest/exchange rate fluctuations or other external factors, which may not be within the control of our management. This may entail rescheduling (including preponing) and revising the funding requirement for a particular Object or increasing or decreasing the amounts earmarked towards any of the aforementioned Objects at the discretion of our Company, subject to compliance with applicable law.

Further, in case of a shortfall in raising requisite capital from the Net Proceeds towards meeting the aforementioned Objects, we may explore other options including utilizing our internal accruals. We believe that such alternate arrangements would be available to fund any such shortfalls.

See "***Risk Factors – Our funding requirements and proposed deployment of the Net Proceeds of the Offer have not been appraised by a bank or a financial institution or any external agency and if there are any delays or cost overruns, our business, results of operations, financial condition, and cash flows could be adversely affected. Further, any variation in the utilization of our Net Proceeds as disclosed in this Red Herring Prospectus would be subject to certain compliance requirements, including prior Shareholders' approval***." on page 109.

Our Statutory Auditors have provided no assurance or services related to any prospective financial information.

***Means of Finance***

The entire requirements of the Objects detailed above are intended to be funded from the Net Proceeds and internal accruals. Accordingly, we confirm that there are no requirements to make firm arrangements of finance under Regulation 7(1)(e) of the SEBI ICDR Regulations, through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Offer and internal accruals.

**Details of the Objects**

***1. Capital expenditure towards set-up of new CoCo stores in India***

Our Lenskart stores in India are in three formats: (i) Company owned and Company operated stores ("**CoCo stores**"), (ii) Franchisee owned and Franchisee operated stores ("**FoFo stores**") and (iii) Company owned-Franchisee operated stores ("**CoFo stores**"). As on June 30, 2025, out of 2,137 stores in India, 1,823 were CoCo Stores and 306 were FoFo Stores and 8 were CoFo Stores. India represents a growing market for prescription eyewear, driven by rising demand and relatively low penetration of corrective solutions. We aim to address this gap through continued omnichannel expansion, deepening our presence and retail footprint across Metropolitan, Tier 1, and Tier 2+ cities in India. For further details, see "***Our Business –Our Growth Strategies – Increase Markets' Penetration and, Expand Customer Access Across Channels***" on page 317.

We operate a total store footprint of 1.73 million sq. ft. in India, which is approximately 2.5 times larger than the store footprint operated by the next leading large, organized retailer of prescription eyeglasses in India, as of June 30, 2025, according to the Redseer Report. Our stores in India generated average annual revenue per square feet of ₹24,639.34 and ₹23,492.50 during the three months ended June 30, 2025 and the Financial Year 2025, respectively, which, according to the Redseer Report, was the highest among leading large organized prescription eyeglasses retailers in India for the Financial Year 2025.

In the ordinary course of our business and to build our track record of expansion, our Company, together with our wholly owned subsidiary, Dealskart, has been increasing its presence across geographies in India. We opened 1,280 stores across India in the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023 of these 82, 366, 395 and 321 were CoCo stores in the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023, respectively (including stores opened through Dealskart, prior to acquisition). Further, 80.80%, or 568 out of the 703 CoCo stores opened by us during Financial Years 2024 and 2023 (which were active as of March 31, 2025), achieved store payback until March 31, 2025, with an average payback period of 10.29 months.

We strategically look for opportunities for further growth specifically in the markets in which we are already operating. We intend to leverage our existing channels to curate a brand experience for our customers and deepen engagement with them in the offline retail environment. From time to time, we also enter into new geographies in India depending on detailed analysis of the demographics, footfalls, lease rentals and other business and market considerations such as brand visibility, customer reach i.e. expansion of customer base by tapping into different geographic locations. We utilize a machine learning-based platform to identify new potential store locations by running predictive revenue models using historical store data, local demographic profiles and external market information.

On account of the aforesaid considerations, as on the date of this Red Herring Prospectus, we are yet to identify the exact locations or enter into agreements for lease of suitable properties for setting up the New CoCo Stores (defined below) in India towards which we intend to utilize the amount from Net Proceeds. As a part of our growth strategy to deepen and broaden store network in India, we aim to increase our presence and retail footprint across Metropolitan, Tier 1, and Tier 2+ cities in India. We may open New CoCo Stores in certain new geographies where we do not have direct presence through our own stores in accordance with the annual business plan of our Company which will be approved by our Board of Directors. For further details, see "***Risk Factors - We are yet to identify the exact locations or properties for the setting up Company owned and Company operated stores ("CoCo Stores"), for which we intend to utilise the amount from Net Proceeds."***

While we intend to open new CoCo stores as part of our ongoing expansion strategy, only a portion of these store openings will be funded from the Net Proceeds of the Offer. The balance store rollout will be financed through internal accruals and/or other sources of funding available to the Company in the ordinary course of business. From the Net Proceeds, our Company proposes to utilize ₹2,726.22 million towards capital expenditure for store setup costs and additional equipment at each store which will be used for approximately 620 new CoCo stores ("**New CoCo Stores**") over Financial Years 2026, 2027, 2028 and from April, 2028 till November, 2028.[*] As stated above, locations of the New CoCo Stores will be determined by our Company at the time of setting up the New CoCo Stores, after conducting a detailed analysis of the demographics, lease rentals and other business and market considerations such as demand of the products in the region and optimisation of delivery time and cost. Additional factors such as penetration levels of prescription eyeglasses, in metros and Tier 1 / Tier 2 towns in India as well utilisation of geo-analytics to predict revenue potential and payback period for potential stores based on their locations, shall be considered at the time of setting up the New CoCo Stores.

[*]*The funds will be utilised within three years from the date of listing of our Equity Shares.*

Set out below is the break-up of CoCo stores opened in the three months period ended June 30, 2025 and June 30, 2024 and the last three Financial Years:

| Particulars# | Three months period ended June 30, 2025 | Three months period ended June 30, 2024 | During the year ended March 31, 2025 | During the year ended March 31, 2024 | During the year ended March 31, 2023 |
|---|---|---|---|---|---|
| Number of CoCo stores opened during the year | 82 | 49 | 366 | 395 | 321 |

*# The year-on-year new store additions presented have been aggregated at the consolidated level and include stores opened either by Lenskart or by Dealskart prior to its acquisition. These are gross additions in a year and are not adjusted for any store closures.*

Set out below is the break-up of the New CoCo stores opened across metro, tier – 1 and tier 2+ cities in India during the three months period ended June 30, 2025 and June 30, 2024 and Financial Years 2025, 2024 and 2023:

| Particulars | During the three months period ended June 30, 2025 | During the three months period ended June 30, 2024 | During the year ended March 31, 2025 | During the year ended March 31, 2024 | During the year ended March 31, 2023 |

| **Total** | **82** | **49** | **366** | **395** | **321** |

***Details of expenditure for setting up New CoCo Stores***

The Company proposes to utilize the Net Proceeds towards New CoCo Stores as follows:

| Particulars | Financial Year 2026 | Financial Year 2027 | Financial Year 2028 | From April, 2028 till November, 2028* |
|---|---|---|---|---|
| Number of New CoCo Stores to be set up using Net Proceeds | 50 | 190 | 190 | 190 |

*As certified by A D M S & Co, Chartered Accountants, (FRN: 014626C), by way of their certificate dated October 25, 2025.*
** The funds will be utilised within three years from the date of listing of our Equity Shares.*

The primary costs for setting up of CoCo stores are categorized under (i) store setup costs and (ii) store equipment costs. Store setup costs primarily include expenditure on furniture and fittings (such as air conditioners, fixtures, lighting and signage), leasehold improvements (including civil works and fire safety equipment (e.g., fire extinguishers)), and digital peripherals (such as TV screens). Store equipment costs include clinical equipment (such as auto refractometers and lensometers), chair units (including acuity charts), and other electrical and IT equipment (such as CCTV systems, UPS, consumables, and IT assets).

The estimated costs set out below, for setting up a New CoCo Store of an average size of 1,000 square feet ("**Average Size New CoCo Store**"), are based on: (i) a certificate dated July 28, 2025 from PS Architects & Consultants, independent architect, for the purposes of certifying the furniture and fittings, leasehold improvements and digital peripherals; (ii) valid quotation obtained by our Company from Zenith Interiors; and (iii) capital expenditure incurred by our company for setting up of CoCo stores, in the three months period ended June 30, 2025 and June 30, 2024 and Financial Years 2025, 2024 and 2023, prior to the date of this Red Herring Prospectus, which has been computed and certified by A D M S & Co, Chartered Accountants, (FRN: 014626C), pursuant to their certificate dated October 25, 2025.

Set forth below are the details in relation to the actual cost incurred by our Company for setting up of our CoCo stores for the years and the periods mentioned:

*(In ₹ million)*

| Particulars* | Three months period ended June 30, 2025 | Three months period ended June 30, 2024 | During the year ended March 31, 2025 | During the year ended March 31, 2024 | During the year ended March 31, 2023 |
|---|---|---|---|---|---|
| **Store set up costs** | | | | | |
| Furniture and fittings | 111.67 | 61.44 | 533.59 | 518.14 | 382.36 |
| Leasehold improvements | 81.68 | 51.20 | 395.39 | 414.01 | 297.57 |
| Digital peripherals | 12.49 | 7.87 | 68.19 | 75.14 | 42.38 |
| **Store equipment costs** | 61.75 | 40.59 | 259.79 | 313.16 | 260.91 |
| **Total** | **267.59** | **161.10** | **1,256.96** | **1,320.45** | **983.23** |

*As certified by A D M S & Co, Chartered Accountants, (FRN: 014626C), by way of certificate dated October 25, 2025.*
** Except for civil costs under the 'Leasehold Improvements', all other costs are exclusive of GST.*

Based on the certificate dated July 28, 2025 received from PS Architects & Consultants ("**Architect Certificate**"), the estimated cost per square foot for setting up an Average Size New CoCo Store, is set out below:

| Particulars | Total estimated cost per square foot* (in ₹ ) |
|---|---|
| Furniture and fittings | 1,645.00 |
| Leasehold improvements | 1,218.00 |
| Digital peripherals | 184.00 |
| **Total store setup cost** | **3,047.00** |

** Exclusive of all refundable duties and taxes such as GST*

| Particulars | Total estimated cost per store * (₹ in million) |
|---|---|
| **Total Store equipment cost** | **0.97** |

** Exclusive of all refundable duties and taxes, such as GST*

A detailed break-up of the total estimated costs to be incurred for setting the number of New CoCo Stores included in the table above, is as follows:

| Particulars* | Financial Year 2026 | Financial Year 2027 | Financial Year 2028 | From April, 2028 till November, 2028* |
|---|---|---|---|---|
| Number of New CoCo Stores in India | 50 | 190 | 190 | 190 |
| Average area per New CoCo Store (approximate) (in square feet)# | 1,000.00 | 1,000.00 | 1,000.00 | 1,000.00 |
| Average Store Setup Cost per New CoCo Store (in ₹ / square feet) | 3,047.00 | 3,199.35 | 3,359.32 | 3,527.28 |
| **Aggregate Store Setup Cost (₹ in million)** | **152.35** | **607.88** | **638.27** | **670.18** |
| Average Equipment Cost per New CoCo Store (₹ in million / store) | 0.97 | 1.02 | 1.07 | 1.12 |
| **Aggregate Equipment Cost (₹ in million)** | **48.42** | **193.22** | **202.88** | **213.02** |
| **Aggregate capital expenditure (₹ in million)^** | **200.77** | **801.09** | **841.15** | **883.20** |

*As certified by A D M S & Co, Chartered Accountants, (FRN: 014626C), by way of certificate dated October 25, 2025.*

* *The funds will be utilised within three years from the date of listing of our Equity Shares.*

\# *This is the average store size and the actual store size may deviate from this.*

^ *Exclusive of GST*

A break-down of the capital expenditure based on existing quotation dated June 2, 2025, received from Zenith Interiors, and as certified by PS Architects & Consultants, independent architect, pursuant to their certificate dated July 28, 2025 is as follows:

| Particulars | Validity of Quotations | Amount |
|---|---|---|
| Furniture and fittings | 12 months | ₹1,645.00 / sq foot |
| Leasehold improvements (including civil interiors) | 12 months | ₹1,218.00 / sq foot |
| Digital peripherals | 12 months | ₹184.00 / sq foot |
| Store equipment | 12 months | ₹0.97 million / store |

While the quotation above is valid as on the date of this Red Herring Prospectus, our Company has not entered into any definitive agreements or placed orders with the contractor/ vendor and there can be no assurance that the same contractor/ vendor would be engaged eventually to supply the requisite equipment/ fittings or supply at the same costs. For details, see "***Risk Factors – Our funding requirements and proposed deployment of the Net Proceeds of the Offer have not been appraised by a bank or a financial institution or any external agency and if there are any delays or cost overruns, our business, results of operations, financial condition, and cash flows could be adversely affected. Further, any variation in the utilization of our Net Proceeds as disclosed in this Red Herring Prospectus would be subject to certain compliance requirements, including prior Shareholders' approval***." on page 109. Our Company will, thus, seek new quotations upon expiry of such quotations or engage new vendors, which may result in additional costs to be incurred per Average Size New CoCo Store. Nevertheless, we have assumed an inflation rate of approximately 5% year-on-year in Financial Years 2027, 2028 and from April, 2028 till November, 2028, resulting in an increase in capital expenditure to be incurred per Average Size New CoCo Store.*

**The funds will be utilised within three years from the date of listing of our Equity Shares.*

The above estimated costs may increase or decrease depending on the revised commercial terms, rate of inflation or other macroeconomic factors, amongst others. In the event of any increase in estimated cost, such additional cost shall be funded through alternate funding options such as internal accruals and/ or availing future debt from lenders. The quantity of equipment/ fittings to be purchased is based on the present estimates of our management and the same may be subject to revision according to various factors including our evolving business requirements. For details, see "***Risk Factors – We have not entered into any definitive arrangements to utilise certain portions of the Net Proceeds of the Offer and our funding requirements and the proposed deployment of Net Proceeds are based on management estimates***" on page 80.

*Approvals required for setting up of New CoCo Stores*

For each New CoCo Store proposed to be set up, we will have to procure registrations under the relevant state's shops and establishments legislations as well as obtain registrations under the other applicable labour laws, including but not limited to the trade licenses, to the extent applicable, under the relevant laws in each state where we propose to set up a New CoCo Store. Upon finalisation of the location of the New CoCo Stores, we will apply for the relevant approvals in accordance with applicable laws. For further details, see "***Key Regulations and Policies***" and "***Government and Other Approvals***" beginning on pages 338 and 955, respectively.

***2. Expenditure for lease/ rent/ license agreements related payments for our CoCo stores operated by our Company***

As of June 30 , 2025, we had 1,823 CoCo stores in India. All our CoCo stores in India are on a leasehold basis pursuant to various lease agreements or leave and license agreements, and under such agreements, we are under an obligation to make lease payments to our lessors/ licensors. For CoCo stores in India, we typically enter into lease agreements and leave and license agreements with tenures ranging from 5 to 15 years. For further details, see "***Our Business – Properties and Facilities***" on page 336.

Our Company together with its wholly owned Subsidiary, Dealskart has incurred the following expenditure towards lease rentals on CoCo stores in India in the three months period ended June 30, 2025 and June 30, 2024 and the last three Financial Years.

| Particulars | For the three months period ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025* | 2024* | 2023* |
| Total number of CoCo stores in India for which rental payments were made in the Financial Year | 1,787 | 1,464 | 1,772 | 1,428 | 1,058 |
| Total lease rental expenditure incurred on lease payments for the CoCo stores in India (₹ in million)#$ | 738.09 | 569.28 | 2,477.11 | 1,883.92 | 1,416.05 |

*As certified by A D M S & Co, Chartered Accountants, (FRN: 014626C), by way of certificate dated October 25, 2025.*

* *This includes CoCo stores which have been shut down over the course of the relevant Financial Year.*

\# *The lease expenses presented for the last three Financial Years, and for the three months period ended June 30, 2025 and June 30, 2024, have been prepared on a proforma basis, treating Dealskart as if it were a wholly owned subsidiary of our Company during that period. The amounts reflect the total rental outflows to landlords without considering any inter-company reimbursements or cost-sharing arrangements between our Company and Dealskart.*

$ *In addition to rental expenditures this also includes the monthly civil and AC maintenance charges which are incurred for some stores, as per the commercial lease agreements, as well as the full and final settlements (typically rentals for one or two months) with the lessor while closing a store. This does not include the security deposits paid by the Company when entering into a lease, and is exclusive of GST.*

We expect to utilize ₹5,914.40 million of the Net Proceeds towards lease rentals for approximately 1,118 of our total CoCo stores in India for Financial Years 2026, 2027, 2028 and from April, 2028 till November, 2028.* The lease rentals are based on the actual amounts payable based on valid and existing lease agreements and leave and license agreements which have been executed by our Company or Dealskart with various lessors and landlords for these stores. The majority of our lease arrangements provide for a rental escalation of approximately 15% in a span of three years.

**The funds will be utilised within three years from the date of listing of our Equity Shares.*

The lease payment estimates below reflect expected rentals for all relevant store leases as of the date of this Red Herring Prospectus. These estimates factor in applicable escalations as per the terms of individual lease agreements, reasonable assumptions based on historical trends, and extension of any expiring leases based on existing commercial terms.

Set out below is the expected break-up of the lease rentals payable by our CoCo stores in India in Financial Years 2026, 2027, 2028 and from April, 2028 till November, 2028:

*(₹ in million, except for number of Stores)*

| Store Format | Number of Stores | Aggregate lease payments to be made in*# | | | | Total |
|---|---|---|---|---|---|---|
| | | Financial Year 2026$ | Financial Year 2027 | Financial Year 2028 | From April, 2028 till November, 2028@ | |
| CoCo Stores | Up to 1,530^ | 420.79 | 1,735.49 | 1,833.13 | 1,924.99 | 5,914.40 |

* *The abovementioned estimates have also been verified, computed and certified by A D M S & Co, Chartered Accountants, (FRN: 014626C), by way of its certificate dated October 25, 2025.*

\# *The estimated outflows over this period exceed the amount proposed to be deployed from the Net Proceeds towards lease-related payments, and accordingly, a portion of these payments will be funded through internal accruals or other sources.*

$ *This pertains to aggregate lease payments to be made in the last quarter of Financial Year 2026.*

^ *The number of stores is basis the number of CoCo Stores as of March 31, 2025 with valid existing leases as on the date of this Red Herring Prospectus.*

@ *The funds will be utilised within three years from the date of listing of our Equity Shares.*

The Net Proceeds shall be utilised for CoCo stores belonging to our Company.

Further, while the Net Proceeds shall not be utilized towards lease/ license payments of the New CoCo Stores proposed to be opened out of the Net Proceeds, however, in the event that the lease agreements or leave and license agreements for any of the existing CoCo stores are terminated prior to the completion of its terms, or if any of such agreements are amended, to reduce the respective lease/ license amount, our management may use the remaining/surplus Net Proceeds towards lease rentals for the New CoCo Stores to be set up by our Company, subject to applicable law.

Our Promoters, Directors, Key Managerial Personnel, Senior Management and Group Companies do not have any interest in the aforesaid Object.

***3. Investing in technology, software and cloud infrastructure by our Company and/or our Subsidiaries***

We have invested in a range of customized technology solutions, AI tools and automation to deliver enhanced customer experience and drive higher operational efficiencies. Technology is a crucial component of our operations across our organization, including customer engagement, supply chain and post order fulfilment, retail store operations and internal business functions. One such technology is our in-house developed facial analysis and frame recommendation tool wherein 38.59 million virtual trials were done in the Financial Year 2025. The data gathered from these trials allows our recommendation algorithm to become better equipped, thereby enhancing customer experience. Similarly, our in-house AI-enabled Computer Vision tool analyses CCTV footage from our retail locations with a goal to optimize customer flow at our stores, increase conversion rates, and overall deliver volume-based same-store growth consistently. The data collected through the technology allows us to make operational and strategic decisions for improving customer experience and financial performance. We also utilise geo-analytics to predict revenue potential and payback period for potential stores based on their locations and were able to open 1,280 new stores across India during the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023. This data collected in the process has allowed us to improve the algorithm of our geo-analytics tool over the years.

Our technology infrastructure has helped us achieve our scale, operational efficiency and network flexibility. Data sciences, artificial intelligence and machine learning power our business, right from sourcing and manufacturing to inventory management and integrated logistics. Through our technology platform, we are able to derive insights across our markets of presence which help us in making informed data driven strategic and operational decisions. Our technology platform helps us continuously increase our scale, increase efficiencies and innovate for our customers. As we advance our journey in international markets, we will continue to invest in enhancing our operations in these markets led by technology, in line with India.

For further details please refer to "***Our Business - Our Technology Platform to Support Customer Experience***" and *"**Our Business - Our Technology First Approach to Customer Experience and Operational Efficiency***" on pages 298 and 313, respectively.

To continue to maintain our standards of customer experience, compliance, innovation and growth sustainably, we need to proactively invest in raising our technology and talent density to deliver seamless, data-driven experiences across every touchpoint of our omni-channel network. We propose to utilise a portion of the Net Proceeds towards strengthening and scaling our end-to-end technology infrastructure, which underpins our omni-channel business model and centralized supply chain and manufacturing.

Basis the requirements for investment in technology and data science capabilities including cloud infrastructure, our Board of Directors, pursuant to its resolution dated October 25, 2025, has approved the proposed investment of an aggregate amount up to ₹2,133.75 million by our Company, out of the Net Proceeds towards investment in enhancement of our technological and cloud infrastructure.

*Software and Cloud Infrastructure*

To support our technology-first approach and enable scalable growth, we allocate investment across several critical areas. We have developed a robust, scalable technology platform utilizing a microservices architecture hosted primarily on cloud infrastructure. For further details please see *"**Our Business – Technology and Automation**"* on page 329 We continually upgrade capacity and performance, to ensure our systems readily absorb rising data volumes and user interactions, while embedding machine learning and AI into real-time operational workflows. We aim to continue to invest organically and inorganically in technology, automation and AI solutions to improve our customer value proposition and our operational efficiency.

We further plan to continue our investments on targeted initiatives that drive efficiency, quality and customer engagement. These include smart manufacturing technologies, AI-based eye testing solution to enhance the affordability and accessibility of the offering, integration of AI into our front-end platform for generating better frame recommendations, advanced digital customer channels, strengthened cybersecurity infrastructure, and enterprise-wide data and AI capabilities for AI driven buying assistance. These initiatives are integral to enhancing our scalability, efficiency, and ability to deliver a seamless and personalised customer experience across all channels.

Our Company, from time to time, enters into agreements and arrangements with technology service providers for the provision of technology and cloud infrastructure services.

Our Company has entered into a cloud infrastructure subscription agreement dated December 24, 2024, effective January 1, 2025 till December 31, 2027, with Cloudkeeper India Private Limited ("**CIPL**"), pursuant to which our Company avails the spend management service ("**Cloudkeeper Agreement**"). Pursuant to the Cloudkeeper Agreement, our Company has commitment to spend a total of ₹898.59 million (USD 10.50 million) over a term of three years till December 31, 2027, and an annual commitment to spend ₹299.53 million (USD 3.50 million) for three consecutive years starting from January 1, 2025 (for the purposes of this estimations, a conversion rate of USD 1 = ₹85.58 as on March 31, 2025 has been considered). CIPL, which is one of the technology service providers of the Company, is not a related party of our Company, the Promoters, the Directors, Key Managerial Personnel, Senior Management Personnel, Subsidiaries or the Group Companies.

In addition to our cloud bandwidth and hosting charges, we engage with a range of third-party technology service providers to support various aspects of our technology infrastructure. These include providers for communication platforms, application performance monitoring, geographic information services, and enterprise software licensing. While the nature and term of these agreements vary, some being long-term, others structured as recurring annual or project-based contracts, many of these arrangements have been in place over multiple years and are renewed or extended on a routine basis. Pursuant to these agreements and our ongoing vendor relationships, we benefit from predictable contracts and renewal frameworks.

Pursuant to the Cloudkeeper Agreement and any similar arrangements which may be entered into by our Company with technology service providers in the future, including with CIPL, our Company proposes to continue to invest in technology, automation and AI solutions to improve our customer value proposition and our operational efficiency. For details see, "***Our Business – Our Growth Strategies***" on page 317.

Our Company's information technology support expenses for three months period ended June 30, 2025 and June 30, 2024 and Financial Years 2025, 2024 and 2023, on a restated basis, were as follows:

*(₹ in million, unless otherwise mentioned)*

| Particulars | Three months period ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| Cloud and Infrastructure services(A) | 145.36 | 93.54 | 440.38 | 328.46 | 201.41 |
| Software, licenses cost and others(B) | 239.00 | 168.01 | 666.64 | 695.01 | 550.65 |
| **Information technology support expenses (C)= (A+ B)** | **384.36** | **261.55** | **1,107.02** | **1,023.47** | **752.06** |
| Revenue from operations (D) | 18,944.55 | 15,204.26 | 66,525.17 | 54,277.03 | 37,880.28 |
| Cloud and Infrastructure services as a percentage of revenue from operations (A)/(D) (in %) | 0.77% | 0.62% | 0.66% | 0.61% | 0.53% |
| Software, licenses cost and others as a percentage of revenue from operations (B)/(D) (in %) | 1.26% | 1.10% | 1.00% | 1.28% | 1.46% |
| Information technology support expenses as a percentage of revenue from operations (C)/(D) (in %) | 2.03% | 1.72% | 1.66% | 1.89% | 1.99% |

We intend to utilize a portion of the Net Proceeds towards this Object (including payment of the commitment fees payable under the terms of the Cloudkeeper Agreement), in order to enhance our technology and cloud infrastructure.

*Technical Manpower*

Recruiting and retaining top-tier technology talent is integral to sustaining and scaling our technology infrastructure, platforms and systems. The ability to build and evolve technology in-house across customer-facing applications, fulfilment systems, analytics engines and enterprise tools is directly dependent on the depth and capability of our technology team. Accordingly, our manpower costs form a critical component of our overall technology investment, and include salaries, benefits and recruitment expenses for the engineers, data scientists, product managers and IT professionals who drive ongoing development, maintenance and innovation across our platform, including within our Subsidiaries and other operating units, where relevant.

As of June 30, 2025, our technology team comprised 491 members. These employees represent 2.70% of our on-roll workforce, as on June 30, 2025. This team is responsible for building, maintaining, and enhancing our core technology infrastructure, including our websites, mobile applications, warehouse management system and AI-driven tools, which collectively support our operations and customer experience.

Below are the details of our payroll costs incurred towards technology team employees for our Company, and our Subsidiary, Tango IT Solutions India Private Limited during the three months ended June 30, 2025 and June 30, 2024 and last three Financial Years:

| Financial Year / Period | Payroll Cost of Technology team employees for our Company and our Subsidiary, Tango IT Solutions India Private Limited (₹ in million) |
|---|---|
| March 31, 2023 | 653.58 |
| March 31, 2024 | 963.82 |
| March 31, 2025 | 1,148.43 |
| Three months ended June 30, 2024 | 285.23 |
| Three months ended June 30, 2025 | 292.24 |

*Note: As certified by A D M S & Co, Chartered Accountants, (FRN: 014626C), by way of certificate dated October 25, 2025.*

A portion of the Net Proceeds will also be utilised to fund the employee expenses of our technology team across the organization. The actual deployment of funds will also depend on a number of factors, including the current technical business plan, management estimates and other commercial and technical factors. These factors will also determine the form of deployment of the Net Proceeds, i.e., whether they will be directly done by our Company or through investments in our Subsidiaries in the form of equity, debt or any other instrument or combination thereof.

Our Promoters, Directors, Key Managerial Personnel, Senior Management and Group Companies do not have any interest in the proposed investment to be made by our Company towards technological manpower, software and cloud infrastructure.

***4. Brand marketing and business promotion expenses for enhancing the brand awareness***

*Brand marketing and business promotion initiatives*

The reach of our brand is shown by the number of potential customer base visiting our stores. In the Financial Year 2025, 29.52 million entries were recorded in our queue management system from potential customers in India. As of March 31, 2025, the Lenskart Instagram account for India has over 1.33 million followers. Our Annual Transacting Customer Account base (which are accounts that have transacted at least once on any of our online or offline channels in a given Financial Year) in India grew at a CAGR of 25.75% between the Financial Years 2023 and 2025, increasing from 6.29 million in the Financial Year 2023, to 8.06 million in the Financial Year 2024 and 9.94 million in the Financial Year 2025.

We target different customer categories through a portfolio of brands and sub-brands that include premium collections through John Jacobs and Owndays, and economy and affordable premium collections through Lenskart Air, Vincent Chase, hustlr, and Hooper Kids. Our Lenskart and Owndays brands and 22 curated sub-brands are designed to serve specific customer use cases. This multi-brand strategy enables mutual reinforcement between our Lenskart brand and our sub-brands, while facilitating entry for new customers and re-engagement with existing ones. During the three months ended June 30, 2025 and the Financial Year 2025, we launched 42 and 105 new in-house designed and engineered collections globally, respectively, including in collaboration with popular brands and celebrities.

We believe we have built an aspirational brand that appeals across customer categories. This is reflected in the diversity of our price points for prescription eyeglasses, which during the Financial Year 2025 in India, ranged from ₹399 to ₹41,199, and outside India, from USD 48.41 (₹4,142.93) to USD 670.06 (₹57,343.73).

Our marketing strategy is focused on positioning our brand as a customer-centric and innovative, eyewear brand, increasing our market share and customer base in India and International markets and enhancing customer loyalty and retention. We utilise both television-based advertising and digital channels. We leverage popular culture, and influencer-led campaigns to create engaging and culturally relevant narratives that resonate with our target audience. Our marketing strategy is localised based on geographic and regional trends, and implemented through multiple channels, including television advertisements and online social media. Furthermore, we actively collaborate with celebrities, influencers, and media platforms to enhance brand visibility, customer engagement, and foster strong brand awareness. For details, see "***Our Business***" beginning on page 287.

Our campaigns, community and product offering have helped position eyewear as a lifestyle and fashion category. We believe that our brands are recognized for offering both functional and fashionable eyewear. Our products are marketed under the Lenskart and Owndays brands and a portfolio of sub-brands owned by us, and we intend to further strengthen the awareness, affinity and equity of each of our brands.

Our campaigns typically serve one of two purposes: (i) brand-building and awareness creation during new product launches, festive periods or category-education phases; and (ii) demand-generation for existing product lines through sustained micro-marketing and performance-driven formats. Notable campaigns over the past three years have included collection-led influencer campaigns (e.g., Hip Hop Collection, Lenskart Phonic), nostalgia-driven digital activations, and regional promotions. Our in-house and partner-led marketing capabilities also support social commerce features on our platforms, including interactive tools like 'Find Your Perfect Match' and geo-targeted advertising. Further, our significant online presence allows us to open stores in a new city or market with limited brand marketing and take advantage of the existing latent demand available in that city.

Our Company was awarded the Gold medal at the Campaign Media 360 Awards in the 'best use of Media – TV sports – Hindi' category in 2022, and multiple medals at the IMA, Prime Time, and Maddies awards for excellence in TV, mobile, and content marketing. For further details, see "***History and Corporate Matters – Awards and Accreditations***" on page 350.

*Historical expenditure on brand marketing and business promotion*

Our marketing and brand promotion expenses are incurred across a wide range of activities and service providers. These include payments to digital channels for performance marketing and paid media, creative and production agencies for campaign development and content shoots, influencer and PR agencies for brand collaborations and placements, and event and activation partners for offline consumer engagements. We also engage CRM-focused creative partners for campaign design and execution across email, and messaging. In addition, we work with strategic partners for brand positioning, creator-led campaigns, regional activations and experiential marketing.

Our marketing and promotion expenses in absolute terms and as percentage of revenue from the operations for the three months period ended June 30, 2025 and June 30, 2024 and Financial Years 2025, 2024 and 2023, respectively, on a restated basis, is set out below:

*(₹ in million, unless otherwise stated)*

| Particulars | Three months period ended June 30, 2025 | Three months period ended June 30, 2024 | Financial Year 2025 | Financial Year 2024 | Financial Year 2023 |
|---|---|---|---|---|---|
| Marketing and promotion expenses (A) | 1,276.24 | 1,091.12 | 4,484.13 | 3,521.06 | 2,938.36 |
| Revenue from operations (B) | 18,944.55 | 15,204.26 | 66,525.17 | 54,277.03 | 37,880.28 |
| Marketing and promotion expenses as percentage of revenue from operations (A)/ (B) (in %) | 6.74% | 7.18% | 6.74% | 6.49% | 7.76% |

Out of the marketing and promotion expense for three months period ended June 30, 2025, and June 30, 2024, and Financial Years 2025, 2024 and 2023, the amount pertaining to TLG was ₹47.55 million, ₹463.60 million, ₹847.16 million, ₹583.11 million and ₹556.05 million, respectively.

The category wise split for marketing cost incurred by the Company on a standalone basis in India is as provided below:

*(₹ in million)*

| Particulars | Three months period ended June 30, 2025 | Three months period ended June 30, 2024 | Financial Year 2025 | Financial Year 2024 | Financial Year 2023 |
|---|---|---|---|---|---|
| Performance Marketing | 229.87 | 115.72 | 509.91 | 508.76 | 626.11 |
| Brand Media | 71.77 | 523.73 | 1,001.53 | 688.32 | 610.24 |
| CRM Marketing | 73.39 | 46.33 | 226.49 | 165.73 | 108.79 |
| Marketplace Advertisements | 83.16 | 28.59 | 231.72 | 92.13 | 27.73 |
| Social Marketing | 93.76 | 27.28 | 227.42 | 84.38 | 40.03 |
| Others | 113.71 | 52.29 | 351.99 | 260.35 | 277.63 |

*Proposed utilisation of Net Proceeds*

We plan to continue investing in brand-building initiatives, including targeted marketing campaigns through digital media, endorsements, sponsorships, television advertising and influencers, expand presence on social media platforms through content led strategies, across India and especially in international markets. We will also focus on expanding our presence on social media platforms by creating content that resonates with our customers. These will enable us to enhance the awareness and relevance of our brands, especially in international markets.

Our Company has entered into agreements from time to time with a range of media and marketing service providers to support the execution of these campaigns regarding branding and marketing for the products of our Company and our Subsidiaries. These include arrangements for buying media across various platforms, managing digital marketing operations, influencer and social media management, affiliate marketing and performance tracking.

Our Company has entered into a Master Media Service Agreement dated March 20, 2018, as amended from time to time, with TLG India Private Limited through its division Starcom ("**TLG**"), pursuant to which TLG provides media planning, buying, and execution services across various platforms including print, television, radio, digital, cinema, and other online and offline media. Pursuant to the Eleventh Extension Addendum dated April 30, 2025, effective from May 1, 2025, to April 30, 2029, our Company has committed to deploy up to ₹4,000.00 million towards marketing efforts through TLG during the extended term. The actual deployment of funds under this arrangement is

subject to a number of factors, including any revisions based on management's assessment and shall be at the sole discretion of our Company.

The deployment of the Net Proceeds towards brand marketing and business promotion expenses and the medium through which marketing initiatives may be undertaken is contingent on various internal and external factors, such as our Company's and Subsidiaries' business and marketing plans, expected viewership of advertisements in different geographies, our proposed launches, the nature of our marketing campaigns and advertising, etc. and will be guided by campaign goals, expected audience reach, platform relevance, seasonal opportunities and our overall business and marketing plans. Further, maintaining and improving our marketing strategies may involve expenditures which may not be proportionate to the revenue generated and customers acquired.

Our Company proposes to utilise up to ₹3,200.63 million towards brand marketing and business promotion expenses for our Company and our Subsidiaries. In the event our Subsidiaries require to use the Net Proceeds directly towards such expenses, our Company will make an investment in our subsidiaries in the form of equity, debt or any other instrument or combination thereof. Any additional expenses which may be incurred by our Company towards brand marketing and business promotion expenses would be funded through internal accruals of our Company or means other than the Net Proceeds.

***5. Unidentified inorganic acquisitions and General Corporate Purposes***

We propose to deploy the balance Net Proceeds, aggregating to ₹[●] million, towards general corporate purposes and unidentified inorganic acquisitions subject to such utilisation not exceeding 35% of the Gross Proceeds, in compliance with the SEBI ICDR Regulations. Further, the amount to be utilised for general corporate purposes and unidentified inorganic acquisitions, individually, as the case may be, shall not exceed 25% of the Gross Proceeds. We further confirm that the amounts, if any, that will be utilised towards capital expenditure related items as part of either general corporate purposes and/ or unidentified inorganic acquisitions, such amount(s) shall not exceed 25% of the Gross Proceeds.

We believe that we have benefited significantly from the acquisitions and investments undertaken by us in the past. The table below summarizes the key acquisitions that we have undertaken in the past. In the future as well, we may undertake acquisitions from our internal accruals, borrowings, Net Proceeds or any other method as may be permissible under applicable laws:

| Financial Year of Acquisition | Name of the Entity Acquired | Nature of Acquisition | Country of Incorporation | Consideration for Acquisition (₹ in million) | Acquisition rationale and benefits accrued | Source of Funding |
|---|---|---|---|---|---|---|
| 2026 | Stellio Ventures S.L. | Investment to acquire 84.21% stake by our Company | Spain | 4,125.30[#] | To introduce a new sub-brand within our portfolio, focused on Gen Z and Millennial customers | Cash reserves |

*Note: For international acquisitions, consideration is originally paid in foreign currency. However, we have represented INR equivalent consideration amounts above by using exchange rate prevailing on the date of transfer.*

*[*] 100% of the stake of Tango IT Solutions India Private Limited was acquired by our Company in tranches in Financial Year 2022 and 2024. For further details with respect to acquisition of Tango IT Solutions India Private Limited, see "**History and Certain Other Corporate Matters - Details regarding material acquisitions or divestments of business/undertakings, mergers, amalgamation, any revaluation of assets, etc. in the last 10 years**" on page 351.*

*[#] Includes a deferred consideration of ₹550.87 million payable to founders within 45 days 3 years post closing date.*

*[&] Excludes a consideration of ₹13.31 million for the remaining 3.85% to be paid upon completion of conditions in the SPA*

For further details, see "***History and Certain Other Corporate Matters - Details regarding material acquisitions or divestments of business/undertakings, mergers, amalgamation, any revaluation of assets, etc. in the last 10 years***" on page 351.

*Rationale for investments and acquisitions in future*

Some of the selection criteria that we may consider when evaluating strategic acquisitions include:

a. expertise in the domain we operate in or wish to expand into;

b. strategic fit to our existing business or serving connected extensions;

c. acquisition of established brands that align with our portfolio and growth strategy;

d. new customers/users that we can serve with our existing capabilities;

e. newer technology infrastructure, service/product offerings, and advanced personnel including ones which plug-in gaps in our existing ecosystem/value chain;

f. enhance our geographical reach;

g. strengthen market share in existing markets; and

h. strong management team.

Our acquisition strategy is primarily driven by our Board and the typical framework and process that would be followed by us for acquisitions will involve identifying the strategic acquisitions based on the rationale set out above, entering into requisite non-disclosure agreements and conducting diligence of the target. On satisfactory conclusion of the diligence exercise, we will enter into definitive agreements to acquire the target based on requisite approvals of our Board and the shareholders, if required. As on the date of this Red Herring Prospectus, and except as disclosed under "***Our Business-Recent Developments – Acquisition of Stellio Ventures S.L.***" on page 320, we have not entered into any definitive agreements towards any future acquisitions or strategic initiatives for the object set out above.

We intend to utilise the above-stated portion of the Net Proceeds towards our strategic acquisitions and/or investments which may be undertaken over the course of next three Financial Years. The proposed inorganic acquisitions shall be undertaken in accordance with the applicable laws, including the Companies Act, FEMA and the regulations notified thereunder, as the case may be.

We will directly through Company or indirectly through our Subsidiaries from time to time undertake potential acquisitions and/ or investments in line with our business objectives. The amount of Net Proceeds to be used for each individual acquisition

and/ or investments will be based on our management's decision and may not be the total value or cost of any such investments but is expected to provide us with sufficient financial leverage to pursue such investments. The actual deployment of funds will also depend on a number of factors, including the timing, nature, size and number of acquisitions undertaken in a particular period, as well as general factors affecting our results of operations, financial condition and access to capital. These factors will also determine the form of investment for these potential acquisitions, i.e., whether they will be directly done by our Company or through investments in our Subsidiaries in the form of equity, debt or any other instrument or combination thereof, or whether these will be in the nature of partnerships or joint ventures. Acquisitions and inorganic growth initiatives may be undertaken as share-based transactions, including share swaps, or a combination thereof, or be undertaken as cash transactions. At this stage, our Company cannot identify any acquisition targets and whether the form of investment will be cash, equity, debt or any other instrument or combinations thereof.

*General Corporate Purposes*

Our Company intends to deploy the balance Net Proceeds aggregating to ₹[●] million towards general corporate purposes of our Company and our subsidiaries, subject to such utilization not exceeding 25% of the Gross Proceeds, in accordance with Regulation 7(2) of the SEBI ICDR Regulations, for our business requirements, including, amongst other things, to drive our business growth, payment towards purchase of equipment, payment of commission and/or fees to consultants, working capital funding, future loan pre-payments or repayments, insurance, investment in international expansion, general repairs and maintenance and payments of taxes and duties, and any other purpose in the ordinary course of business as may be approved by the Board or a duly appointed committee from time to time, subject to compliance with applicable laws.

The allocation or quantum of authorized funds towards each of the above purposes will be determined by our management, based on our business requirements and other relevant considerations, from time to time. Our Company's management shall have flexibility in utilising surplus amounts, if any.

Our Promoters, Directors, Key Managerial Personnel, Senior Management and Group Companies do not have any interest in the proposed investment to be made by our Company towards general corporate purposes.

**Offer related expenses**

The total expenses of the Offer are estimated to be approximately ₹[●] million including applicable taxes.

The Offer related expenses primarily include fees payable to the BRLMs and legal counsels, fees payable to the Statutory Auditors, brokerage and selling commission, underwriting commission, commission payable to Registered Brokers, RTAs, CDPs, SCSBs' fees, Sponsor Banks' fees, Registrar's fees, printing and stationery expenses, advertising and marketing expenses and all other incidental and miscellaneous expenses for listing the Equity Shares on the Stock Exchanges.

Except for (i) the listing fees, stamp duty payable on issue of Equity Shares pursuant to Fresh Issue and audit fees of statutory auditors and expenses in relation to product or corporate advertisements, i.e., any corporate advertisements consistent with past practices of the Company (other than the expenses relating to marketing and advertisements undertaken in connection with the Offer) which shall be solely borne by the Company (ii) fees for legal counsels to the Selling Shareholders, if any, which shall be solely borne by the respective Selling Shareholders; all costs, fees and expenses with respect to the Offer shall be shared by our Company and the Selling Shareholders on a pro rata basis, in proportion to the number of Equity Shares issued and Allotted by our Company through the Fresh Issue and sold by each of the Selling Shareholders respectively through the Offer for Sale in accordance with applicable law including section 28(3) of the Companies Act. All the expenses relating to the Offer shall be paid by our Company in the first instance. Upon commencement of listing and trading of the Equity Shares on the Stock Exchanges pursuant to the Offer, each Selling Shareholder shall, severally and not jointly, reimburse our Company for any expenses in relation to the Offer paid by our Company on behalf of the respective Selling Shareholder (on a pro rata basis in proportion to its respective portion of the Offered Shares). In the event the Offer is withdrawn, or not successful or not consummated, including in the event the Company fails to open the Offer during the period of validity of SEBI final observations on the Draft Red Herring Prospectus, all Offer related expenses (including but not limited to the costs, charges, fees and reimbursement of the BRLMs and the legal counsels in relation to the Offer) which may have accrued up to the date of such withdrawal, or failure of Offer shall be borne by our Company and Selling Shareholders, in a proportionate manner as mentioned in the Offer Agreement, if required by Applicable Law or written observations issued by any Governmental Authority in relation to the Offer. Further, if a Selling Shareholder fully withdraws from the Offer or the Offer Agreement is terminated in respect of a Selling Shareholder, in each case, at any stage prior to the completion of the Offer, such Selling Shareholder will not be liable to reimburse our Company for any costs, charges, fees and expenses associated with and incurred in connection with the Offer.

The estimated Offer related expenses are as follows:

| S. No. | Activity | Estimated amount (₹ in million) [(1)] | As a % of total estimated Offer Expenses | As a % of Offer Size |
|---|---|---|---|---|
| (1) | BRLMs' fees and commissions (including underwriting commission) | [●] | [●] | [●] |
| (2) | Brokerage, selling commission, bidding charges, processing fees and bidding charges for the Members of the Syndicate, Registered Brokers, SCSBs, RTAs and CDPs [(2)] | [●] | [●] | [●] |
| (3) | Fees payable to the Registrar to the Offer | [●] | [●] | [●] |
| (4) | Other expenses: | [●] | [●] | [●] |

| S. No. | Activity | Estimated amount (₹ in million) (1) | As a % of total estimated Offer Expenses | As a % of Offer Size |
|---|---|---|---|---|
| | Listing fees, SEBI filing fees, BSE & NSE processing fees, book building software fees | [●] | [●] | [●] |
| | Other regulatory expenses | [●] | [●] | [●] |
| | Printing and stationery expenses | [●] | [●] | [●] |
| | Fees payable to the legal counsels | [●] | [●] | [●] |
| | Advertising and marketing expenses for the Offer | [●] | [●] | [●] |
| | Fees payable to other parties to the Offer including but not limited to the Statutory Auditors, independent chartered accountants, industry report provider and Monitoring Agency | [●] | [●] | [●] |
| | **Total estimated Offer expenses** | [●] | [●] | [●] |

*(1) Offer expenses include applicable taxes, where applicable. Offer expenses will be finalised on determination of Offer Price and incorporated at the time of filing of the Prospectus. Offer expenses are estimates and are subject to change.*

*(2) **Brokerage and Processing Fee for SCSBs***

*Selling commission payable to the SCSBs on the portion for RIBs, Non-Institutional Bidders, Eligible Employee Bidders which are directly procured and uploaded by the SCSBs, would be as follows:*

| | |
|---|---|
| *Portion for RIBs** | *0.30% of the Amount Allotted (plus applicable taxes)* |
| *Portion for Non-Institutional Bidders** | *0.15% of the Amount Allotted (plus applicable taxes)* |
| *Portion for Eligible Employees** | *0.15% of the Amount Allotted (plus applicable taxes)* |

* *Amount Allotted is the product of the number of Equity Shares Allotted and the Offer Price.*

*Selling commission payable to the SCSBs will be determined based on the bidding terminal ID as captured in the bid book of BSE or NSE.*

*No processing fees shall be payable by the Company and the Selling Shareholders to the SCSBs on the applications directly procured by them.*

***Processing Fee for Syndicate ASBA above ₹ 0.50 million***

*Processing fees payable to the SCSBs for capturing Syndicate Member/sub-syndicate (broker)/sub-broker code on the ASBA Form for Non-Institutional Bidders and Qualified Institutional Bidders with bids above ₹ 0.50 million would be Rs. 10 plus applicable taxes, per valid application subject to a maximum cap of ₹ 2.00 million. In case the total uploading charges/processing fees payable exceeds ₹2.00 million, then the amount payable to SCSBs would be proportionately distributed based on the number of valid applications such that the total uploading charges / processing fees payable does not exceed ₹2.00 million.*

***Base Brokerage for 3-in1***

*Brokerage, selling commission and processing/uploading charges on the portion for RIBs (using the UPI mechanism), Eligible Employee Bidders, and Non-Institutional Bidders which are procured by members of the Syndicate (including their sub-Syndicate Members), RTAs and CDPs or for using 3-in-1 type accounts- linked online trading, demat & bank account provided by some of the brokers which are members of Syndicate (including their sub-Syndicate Members) would be as follows:*

| | |
|---|---|
| *Portion for RIBs** | *0.30% of the Amount Allotted (plus applicable taxes)* |
| *Portion for Non-Institutional Bidders** | *0.15% of the Amount Allotted (plus applicable taxes)* |
| *Portion for Eligible Employees** | *0.15% of the Amount Allotted (plus applicable taxes)* |

* *Amount Allotted is the product of the number of Equity Shares Allotted and the Offer Price.*

*The Selling commission payable to the Syndicate / sub-Syndicate Members (RII up to ₹ 0.20 million), and Non-Institutional Bidders (from ₹ 0.20 - ₹ 0.50 million) will be determined on the basis of the application form number / series, provided that the application is also bid by the respective Syndicate / sub-Syndicate Members. For clarification, if a Syndicate ASBA application on the application form number / series of a Syndicate / sub-Syndicate Members, is bid by an SCSB, the Selling Commission will be payable to the SCSB and not the Syndicate / sub-Syndicate Members.*

*For Non-Institutional Bidders (above ₹ 0.50 million), Syndicate ASBA Form bearing 'SM Code' and 'Sub-Syndicate Code' of the application form submitted to SCSBs for Blocking of funds and uploading on the Stock Exchange platform by SCSBs. For clarification, if a Syndicate ASBA application on the application form number / series of a Syndicate / Sub-Syndicate Member, is bid by an SCSB, the selling commission will be payable to the Syndicate / Sub Syndicate members and not the SCSB.*

***Processing fee for 3-in-1***

*Uploading charges payable to members of the Syndicate (including their sub-Syndicate Members), RTAs and CDPs on the applications made by RIBs, Eligible Employee Bidders using 3-in-1 accounts/Syndicate ASBA mechanism and Non-Institutional Bidders which are procured by them and submitted to SCSB for blocking or using 3-in-1 accounts/Syndicate ASBA mechanism, would be as follows: ₹ 10 plus applicable taxes, per valid application bid by the Syndicate (including their sub-Syndicate Members), RTAs and CDPs.*

*Bidding charges/ processing charges payable on the application made using 3-in-1 accounts will be subject to a maximum cap of ₹ 3.00 million (plus applicable taxes), in case if the total Bidding charges /processing charges exceeds ₹ 3.00 million (plus applicable taxes) then it will be paid on pro-rata basis for portion of (i) RIB's (ii) NIB's (iii) Eligible Employee, as applicable.*

*The selling commission and bidding charges payable to Registered Brokers, the RTAs and CDPs will be determined on the basis of the bidding terminal ID as captured in the Bid Book of BSE or NSE.*

***Processing Fee for non-Syndicate Member***

*Selling commission/ uploading charges payable to the Registered Brokers on the portion for RIBs, Eligible Employee Bidders, and Non-Institutional Bidders which are directly procured by the Registered Broker and submitted to SCSB for processing, would be as follows:*

| | |
|---|---|
| *Portion for RIBs** | *₹ 10 per valid application (plus applicable taxes)* |
| *Portion for Non-Institutional Bidders** | *₹ 10 per valid application (plus applicable taxes)* |
| *Portion for Eligible Employees** | *₹ 10 per valid application (plus applicable taxes)* |

*Uploading charges/ Processing fees for applications made by RIBs using the UPI Mechanism (up to ₹ 0.20 million) and Non-Institutional Bidders (from ₹ 0.20 - ₹ 0.50 million) would be as under:*

***Processing Fee for UPI Broker***

| | |
|---|---|
| *Members of the Syndicate / RTAs / CDPs /Registered Brokers* | *₹ 30 per valid application (plus applicable taxes) subject to a maximum cap of ₹ 20.00 million (plus applicable taxes)* |

*The total uploading charges / processing fees payable to Members of the Syndicate, RTAs, CDPs, Registered Brokers will be subject to a maximum cap of ₹20.00 million (plus applicable taxes). In case the total uploading charges/processing fees payable exceeds ₹20.00 million, then the amount payable to Members of the Syndicate, RTAs, CDPs, Registered Brokers would be proportionately distributed based on the number of valid applications such that the total uploading charges / processing fees payable does not exceed ₹20.00 million.*

** Based on valid applications*

***Sponsor Bank Charges***

*All such commissions and processing fees set out above shall be paid as per the timelines in terms of the Syndicate Agreement and Cash Escrow and Sponsor Bank Agreement.*

| | |
|---|---|
| *Kotak Mahindra Bank Limited* | *₹ Nil for per applications made by UPI Bidders using the UPI mechanism. The Sponsor Bank(s) shall be responsible for making payments to the third parties such as remitter bank, NPCI and such other parties as required in connection with the performance of its duties under the SEBI circulars, the Syndicate Agreement and other applicable laws.* |
| *ICICI Bank Limited* | *₹ Nil for per applications made by UPI Bidders using the UPI mechanism. The Sponsor Bank(s) shall be responsible for making payments to the third parties such as remitter bank, NPCI and such other parties as required in connection with the performance of its duties under the SEBI circulars, the Syndicate Agreement and other applicable laws.* |

*The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI RTA Master Circular, in a format as prescribed by SEBI, from time to time and in accordance with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.*

**Monitoring of Utilisation of Funds**

Our Company will appoint a monitoring agency in accordance with Regulation 41 of the SEBI ICDR Regulations. The Monitoring Agency will monitor the utilisation of the Gross Proceeds (including in relation to the utilisation towards the general corporate purposes) and the Monitoring Agency shall submit the report required under Regulation 41(2) of the SEBI ICDR Regulations, on a quarterly basis, to the Audit Committee until such time as the Gross Proceeds have been utilised in full. The Audit Committee shall make recommendations to our Board for further action, if appropriate. Our Company will disclose the utilisation of the Gross Proceeds, including interim use under a separate head in its balance sheet for such Financial Years as required under the SEBI ICDR Regulations, the SEBI Listing Regulations and any other applicable laws or regulations, clearly specifying the purposes for which the Gross Proceeds have been utilised, till the time any part of the proceeds remains unutilised. Our Company will also, in its balance sheet for the applicable Financial Years, provide details, if any, in relation to all such Gross Proceeds that have not been utilised, if any, of such currently unutilised Gross Proceeds. Further, as our Company intends to utilize a portion of the Net Proceeds towards any unidentified inorganic growth initiatives, details pertaining to such acquisitions, as and when undertaken, will be published on the website of our Company and will be disclosed to the Stock Exchanges in accordance with the SEBI Listing Regulations.

Pursuant to Regulation 18(3), Regulation 32(3) and Part C of Schedule II of the SEBI Listing Regulations, our Company shall, on an annual basis, prepare a statement of funds utilised for purposes other than those stated in this Red Herring Prospectus and place it before our Audit Committee. Such disclosure shall be made until such time that all the Gross Proceeds have been utilised in full. The statement shall be certified by the statutory auditor of our Company and such certification shall be provided to the Monitoring Agency. Further, in accordance with Regulation 32 of the SEBI Listing Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the utilisation of the Gross Proceeds from the objects as stated above; and (ii) details of category wise variations in the utilisation of the Gross Proceeds from the objects as stated above. Further, our Company, on a quarterly basis, shall include the deployment of Gross Proceeds under various heads, as applicable, in the notes to our quarterly results. Our Company will indicate investments, if any, of unutilised Gross Proceeds in the balance sheet of our Company for the relevant Financial Years subsequent to receipt of listing and trading approvals from the Stock Exchanges.

**Interim use of Net Proceeds**

Pending utilization of the Net Proceeds for the purposes described above, our Company undertakes to deposit the Net Proceeds only in one or more scheduled commercial banks included in the second schedule of the Reserve Bank of India Act, 1934, as amended. Our Company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in shares of any other listed company or for any investment in the equity markets. No lien in any manner shall be created on the Net Proceeds till such Net Proceeds are utilised towards the Objects of the Offer.

**Appraisal of the Objects and Bridge Financing**

The objects of the Fresh Issue have not been appraised by any bank, financial institution or agency and we have not raised any bridge loans against the Net Proceeds.

**Other Confirmations**

No part of the Net Proceeds will be paid by our Company to our Promoters, our Directors or our Key Managerial Personnel, Senior Management or Group Companies, except in the ordinary course of business of our Company and in compliance with applicable law. Our Company has not entered into and is not planning to enter into any arrangement/ agreements with our Promoters, members of Promoter Group, Directors, or Key Managerial Personnel, Senior Management or Group Companies in relation to the utilisation of the Net Proceeds.

**Variation in Objects**

In accordance with Sections 13(8) and 27 of the Companies Act, 2013, our Company shall not vary the Objects without our Company being authorised to do so by the Shareholders by way of a special resolution. The dissenting Shareholders shall be provided an exit opportunity at a price and in such manner as prescribed under the applicable law include Companies Act, and Regulation 59 and Schedule XX of the SEBI ICDR Regulations.

## BASIS FOR OFFER PRICE

The Price Band will be determined by our Company, in consultation with the BRLMs, and the Offer Price will be determined by our Company, in consultation with the BRLMs, on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹2 each and the Offer Price is [●] times the face value. Investors should also see "***Risk Factors***", "***Summary of Financial Information***", "***Our Business***", "***Restated Consolidated Financial Information***", and "***Management's Discussion and Analysis of Financial Condition and Results of Operations***" beginning on pages 64, 116, 287, 398 and 904, respectively, to have an informed view before making an investment decision.

**Qualitative Factors**

Some of the qualitative factors and our strengths which form the basis for computing the Offer Price are as follows:

- **Centralized Supply Chain and Automated Manufacturing:**
    - Our centralized supply chain has enabled us to deliver a consistent quality at scale, achieve lower raw materials and manufacturing costs and enable fast delivery of our products. Further, it helps us provide a wide product assortment to customers, with centralized inventory management (as of March 31, 2025, 75.37% of inventory centralized and stored at manufacturing facilities).
    - We have focused on automation in our facilities, with our Bhiwadi facility being 75% automated, as of June 30, 2025.
- **In-House Frame and Lens Engineering and Manufacturing Capabilities:**
    - We commenced manufacturing our own frames in the People's Republic of China through Baofeng Framekart Technology Limited, our Joint Venture, in 2017 and, since 2021 have been manufacturing frames at our owned Indian facilities.
    - In three months period ended June 30, 2025, we manufactured 1.87 million frames and 1.31 million lenses in-house.
- **Customer-Focused Product Design Capabilities:**
    - We have increased new product development, expanding from a limited number of launches annually to introducing 105 new collections across our markets during the Financial Year 2025.
    - As of June 30, 2025, our design and merchandising team comprised 109 members across our markets, focused on creating new collections.
- **Lenskart Brand and Portfolio of Owned Sub-brands:**
    - The brand appeals across price segments, with 18.13% of sales below ₹2,000.00 and 18.14% from products with a transaction value above ₹10,000.00.
    - Lenskart was awarded "India's Most Trusted Eyewear Brand of 2025" by TRA Research.
- **Technology First Approach to Customer Experience and Operational Efficiency:**
    - Technology is a crucial component of our operations across our organization. We have invested in a range of customized technologies, AI tools and automation across customer experience, supply chain, retail store operations, eye-testing and internal day-to-day operations.
- **Omnichannel Retail Platform:**
    - We operate an omnichannel retail platform comprising our mobile applications, websites, and physical stores in India and internationally. As of June 30, 2025, we had 2,137 stores in India and 669 stores outside of India.
- **Track Record of Financial:**
    - We have demonstrated consistent growth in our revenues. Between the Financial Years 2023 and 2025, our revenue from operations grew at a CAGR of 32.52%, increasing from ₹37,880.28 million in Financial Year 2023 to ₹66,525.17 million in Financial Year 2025. Our revenue from operations has exhibited period-on-period growth of 24.60% from ₹15,204.26 million for the three months ended June 30, 2024 to ₹18,944.55 million for the three months ended June 30, 2025
    - We improved our EBITDA excluding Other Income and exceptional item margin from 6.86% in FY2023 to 14.60% in FY2025 to 17.22% in three months ended June 30, 2025.

For details, see "***Our Business – Our Strengths***" on page 308.

**Quantitative Factors**

Some of the information presented below relating to our Company is derived from the Restated Consolidated Financial Information. For details, see "***Restated Consolidated Financial Information***" and "***Other Financial Information***" beginning on pages 398 and 898, respectively.

Some of the quantitative factors which may form the basis for computing the Offer Price are as follows:

**1. Basic and Diluted Earnings per equity share ("EPS"):**

| Financial Year ended | Basic EPS (in ₹) | Diluted EPS (in ₹) | Weight |
|---|---|---|---|
| March 31, 2025 | 1.77 | 1.76 | 3 |
| March 31, 2024 | (0.11) | (0.11) | 2 |
| March 31, 2023 | (0.43) | (0.43) | 1 |
| **Weighted Average** | 0.78 | 0.77 | - |
| June 30, 2025* | 0.36 | 0.36 | - |
| June 30, 2024* | (0.06) | (0.06) | - |

**Not annualised*

***Notes:***

1. *Earnings per share calculations are in accordance with Ind AS 33 (Earnings per Share) prescribed by the Ind AS Rules.*
   - *Basic EPS is calculated as restated (loss)/profit after tax divided by the weighted average number of Equity Shares outstanding during the year/period.*
   - *Diluted EPS is calculated as restated (loss)/profit after tax divided by the weighted average number of dilutive Equity Shares outstanding during the year/period including the potential estimated number of shares to be issued against stock options in force under the existing stock option plan/scheme, except where diluted EPS would be anti-dilutive.*
2. *Weighted average is aggregate of year/period-wise weighted EPS divided by the aggregate of weights i.e. (EPS x Weight) for each year/period divided by total of weights.*
3. *Weighted average outstanding equity shares is the number of equity shares outstanding at the beginning of the year/period adjusted by the number of equity shares issued during the year/period multiplied by the time weighting factor.*
4. *Weights have been determined by our Company.*
5. *Basic EPS and Diluted EPS are further retrospectively adjusted for the changes in equity share capital pursuant to bonus issuance, conversion of outstanding CCPS into equity shares and proposed issuance of equity shares against the outstanding options granted and vested to the employees under the ESOP schemes at the end of the year.*
6. *Basic and diluted earnings per share are computed in accordance with Indian Accounting Standard 33 notified under the Companies (Indian Accounting Standards) Rules of 2015 (as amended) read with the requirements of SEBI ICDR Regulations.*

**2. Price earning ratio ("P/E") in relation to Price Band of our Company**

| Particulars | P/E at the lower end of Price Band (no. of times) | P/E at the higher end of Price band (no. of times) |
|---|---|---|
| Based on basic EPS for the financial year ended 2025* | [●]* | [●]* |
| Based on diluted EPS for the financial year ended 2025* | [●]* | [●]* |

** To be computed after finalization of price band.*

**3. Industry Peer Group P/E ratio**

There are no listed companies in India or globally which operate in a similar business model as ours.

**4. Return on net worth ("RoNW"):**

| Financial Year ended | RoNW (%) | Weight |
|---|---|---|
| March 31, 2025 | 4.84 | 3 |
| March 31, 2024 | (0.31) | 2 |
| March 31, 2023 | (1.25) | 1 |
| **Weighted Average** | **2.11** | - |
| June 30, 2025* | 0.97 | - |
| June 30, 2024* | (0.18) | - |

**Not annualised*

*Notes:*

*i. Return on Net Worth (RoNW) %= Restated net profit/(loss) attributable to owners of the Holding Company divided by net worth of our Company as at the end of the year. RoNW for period ended June 30, 2025 and June 30, 2024 are not annualised.*

*ii. Net worth means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation in accordance with Regulation 2(1)(hh) of the SEBI ICDR Regulations. We have calculated net worth by aggregate value of equity share capital, Instruments entirely equity in nature, Other equity excluding Foreign currency translation reserve.*

*iii. Weighted average = Aggregate of year-wise weighted Return on Net Worth divided by the aggregate of weights i.e., Return on Net Worth x Weight for each year/total of weights.*

*iv. The figures for profit for the year attributable to equity shareholders of our Company and total equity to calculate Net worth and Return on Net Worth.*

**5. Net asset value per equity share ("NAV") bearing face value of ₹2 each:**

| Particulars | Amount (₹) |
|---|---|
| As on March 31, 2025 | 36.34 |
| As on June 30, 2025 | 36.74 |
| After the Offer* | |
| - At the Floor Price | [●] |
| - At the Cap Price | [●] |
| - At the Offer Price | [●] |

** To be computed post finalization of Price Band.*

*Notes:*

1. *Offer Price per Equity Share will be determined on conclusion of the Book Building Process.*
2. *Net assets value per share = Net asset value per share is calculated by dividing net worth by weighted average number of equity shares outstanding at the end of the year, in accordance with principles of Ind AS 33.*
3. *Net Assets Value per Share (in ₹) is calculated as Net Worth as of the end of relevant year divided by the number of equity and preference shares outstanding at the end of the year. (Net Asset Value per share disclosed above is after considering the impact of bonus of the issued equity shares and conversion of outstanding preference shares in accordance with principles of Ind AS 33: Earnings per Share. During the year ended March 31, 2025, the Company issued bonus equity shares in the ratio of 1:9 to the existing equity shareholders. Further, appropriate adjustments to the conversion ratio of outstanding cumulative/non-cumulative compulsorily convertible preference shares (CCCPS) have been made and the conversion ratio accordingly stands adjusted to 1:10, pursuant to such bonus issuance).*

## 6. Comparison of Accounting Ratios with listed industry peers

We are a technology-driven eyewear company, with integrated operations spanning designing, manufacturing, branding and retailing of eyewear products. We primarily sell prescription eyeglasses, sunglasses, and other products such as contact lenses and eyewear accessories. While India is our largest market, we have expanded into select international markets including Japan, Southeast Asia and the Middle East. Our centralized supply chain and manufacturing allows us to address customer demand for each store location. We have in-house capabilities for the manufacturing of frames as well as lens types, including single vision, progressive and bifocal lenses.

According to the Redseer Report, we operate in an eyewear market that remains highly fragmented, with ~77% of India's prescription eyeglasses market (in value terms) being led by small, unorganised opticians, as of Financial Year 2025. We are the only vertically integrated retailer with centralised supply chain, amongst leading large organised retailers of prescription eyeglasses globally and in India, as of Financial Year 2025 (as per the Redseer Report).

In India, we principally compete with leading large organized retailers of prescription eyeglasses, which include:

- Eyewear retailers such as Eyegear Optics India Private Limited, Gangar Opticians Private Limited, GKB Opticals Limited, Lawrence and Mayo (India) Private Limited, Specsmakers Opticians Private Limited, and Titan Company Limited (Eyecare division).
- Only few of these retailers have a pan-India presence
- None of the remaining leading large organized retailers are listed companies except Titan Company Limited which houses the Titan Eyecare division.
- Revenue from operations of these companies in Financial Year 2025 was at least ~65% lower than the India revenue of operations of Lenskart.

Growth dynamics in the global eyewear market vary considerably between developed and emerging markets. Emerging markets, such as parts of Southeast Asia, are witnessing a shift towards organised retailers, similar to India. While, developed markets have a higher share of organised retail. Globally, the leading large organized retailers of prescription eyeglasses include:

- Eyewear retailers such as De Rigo Vision S.p.A., Essilor Luxottica SA, Fielmann AG, JINS Holdings Inc., Megane Top Co., Ltd., National Vision Holdings, Inc., Specsavers Optical Group Ltd, Synsam Group AB, and Warby Parker Inc.
- These retailers differ from our business model as they are either partially integrated or are vertically integrated with a decentralized supply chain or primarily have a wholesale/ franchisee model through which they operate in India.

We also face indirect competition from global lens companies such as Hoya Corporation, Carl Zeiss AG, amongst others, that supply branded lenses to other retailers, as lens manufacturing is only a part of Lenskart's business operations.

Therefore, we have not identified any listed peer in relation to our Company.

## 7. Key Performance Indicators ("KPIs")

Our Company considers that the KPIs set forth below are the ones that may have a bearing for arriving at the basis for Offer Price. The KPIs disclosed below have been used historically by our Company to understand and analyse our business performance, which in result, help us in analysing the growth in comparison to our peers. The KPIs disclosed below have been approved and confirmed by a resolution of our Audit Committee dated October 25, 2025, and certified by our Chief Financial Officer on behalf of the management of our Company by way of certificate dated October 25, 2025. Further, the KPIs disclosed in this section have been certified by A D M S & Co, Chartered Accountants, (FRN: 014626C), by way of their certificate dated October 25, 2025.

For details of our other operating metrics disclosed elsewhere in this Red Herring Prospectus, see "***Our Business***", and "***Management's Discussion and Analysis of Financial Position and Results of Operations***" beginning on pages 287 and 904, respectively.

Our Company confirms that it shall continue to disclose all the KPIs included in this section on a periodic basis, at least once in a year (or any lesser period as determined by the Board of Directors of our Company) for a duration of one year after the date of listing of the Equity Shares on the Stock Exchanges or till the utilisation of the proceeds from the Offer, whichever is later, or for such other duration as may be required under the SEBI ICDR Regulations.

Details of the key performance indicators as at and for the three months ended June 30, 2025, June 30, 2024, and Financial Years ended March 31, 2025, March 31, 2024 and March 31, 2023, are set forth below:

| KPI List | Unit | As at and for the three months period ended | | Financial Year | | |
|---|---|---|---|---|---|---|
| | | June 30, 2025[@] | June 30, 2024 | 2025[#] | 2024 | 2023 |

[@] *We acquired 84.21% stake in Stellio Ventures S.L on August 11, 2025, and we increased our effective stake in Quantduo Technologies Private Limited to 96.15% in September, 2025, pursuant to which Stellio Ventures S.L and Quantduo Technologies Private Limited became subsidiaries of our Company.*

[#] *We acquired Dealskart on December 31, 2024, following which Dealskart became a wholly owned subsidiary of our Company.*

* *Growth percentages for the three months ended June 30, 2024 and the Financial Year 2023 are not presented due to the non-inclusion of information for the three months ended June 30, 2023 and the Financial Year 2022, respectively, in this Red Herring Prospectus.*

** *Not annualised for period ended June 30, 2025 and June 30, 2024.*

***Notes:***

1. *India - Segment Total Revenue as per Ind AS 108 Refers to India - segment revenue recognized in accordance with Ind AS, pre-intersegment elimination.*

2. *India - Segment Total Revenue as per Ind AS 108 growth represents the percentage growth in India - Segment Total Revenue as per Ind AS 108 of the relevant financial period/year over the India - Segment Total Revenue as per Ind AS 108 of the previous financial year on a pre-intersegment elimination basis.*
3. *India – Segment Product Margin is defined as Segment Total Revenue as per Ind AS 108 less the sum of segment cost of raw material and components consumed, segment purchase of stock in trade and segment changes in inventory of traded and finished goods. This is computed on a pre-intersegment elimination basis.*
4. *India – Segment Product Margin % is computed by dividing Segment product margin by Segment Total revenue as per Ind AS 108 on a pre-intersegment elimination basis.*
5. *India – Segment Results Pre-depreciation and Amortisation is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and Segment Depreciation and amortization expense. This is computed on a pre-intersegment elimination basis.*
6. *India – Segment Results Pre-depreciation and Amortisation Margin (%) is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and Segment Depreciation and amortization expense divided by Segment Total revenue as per Ind AS 108. This is computed on a pre-intersegment elimination basis.*
7. *International - Segment Total Revenue as per Ind AS 108 Refers to International - segment revenue recognized in accordance with Ind AS on a pre-intersegment elimination basis.*
8. *International - Segment Total Revenue as per Ind AS 108 growth represents the percentage growth in International - Segment Total Revenue as per Ind AS 108 of the relevant financial year / period over the International - Segment Total Revenue as per Ind AS 108 of the previous financial year / period.*
9. *International – Segment Product Margin is defined as Segment Total Revenue as per Ind AS 108 less the sum of segment cost of raw material and components consumed, segment purchase of stock in trade and segment changes in inventory of traded and finished goods. This is computed on a pre-intersegment elimination basis.*
10. *International – Segment Product Margin % is computed by dividing Segment product margin by Segment Total revenue as per Ind AS 108.*
11. *International – Segment Results Pre-depreciation and Amortisation is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and International – Segment Depreciation and amortization expense. This is computed on a pre-intersegment elimination basis.*
12. *International – Segment Results Pre-depreciation and Amortisation Margin (%) is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and Segment Depreciation and amortization expense divided by Segment Total revenue as per Ind AS 108. This is computed on a pre-intersegment elimination basis.*
13. *Annual Transacting Customer Accounts are accounts which have transacted at least once on any of our online or offline channels in a given Financial Year. Quarterly Transacting Customer Accounts are accounts which have transacted at least once on any of our online or offline channels in a given Financial Quarter.*
14. *Number of Eyewear Units Sold refers to the total quantity of eyeglasses and contact lenses sold in a given Financial Year/period.*
15. *Total Stores include all store formats (i.e., CoCo, FoFo, CoFo).*
16. *Revenue from operations refers to revenue recognized in accordance with Ind AS115 Revenue from Contracts with Customers.*
17. *Revenue from operations Growth % represents the percentage growth in Revenue from Operations of the relevant financial period/year over Revenue from Operations of the previous financial period/year.*
18. *Product Margin is computed as revenue from operations less the sum of cost of raw material and components consumed, purchase of stock in trade and changes in inventory of traded and finished goods.*
19. *Product Margin % is computed by dividing Product Margin by revenue from operations.*
20. *EBITDA excluding other income and exceptional item is computed as the sum of profit / (loss) for the year / period, total tax expense / (credit), exceptional item, finance costs and depreciation and amortisation expense less other income.*
21. *EBITDA excluding other income and exceptional item Margin (%) is computed as EBITDA excluding other income and exceptional item divided by revenue from operations.*
22. *Profit/(Loss) before Tax is Profit/ (loss) for the year / period before adjusting for tax expense/(credit).*
23. *Profit/ (Loss) for the year / period after adjusting for tax expense/(credit)*
24. *Net Working Capital Days is computed as the ratio of the sum of closing trade receivables and inventories, less trade payables to revenue from operations for the relevant period/year, multiplied by 365 (for financial years) or 90 in case of three months ended June 30, 2024 and June 30, 2025*
25. *Return on Capital Employed is computed as EBIT divided by capital employed with EBIT being computed as the sum of restated profit/(loss) for the year / period, tax expense/ (credit) and finance costs; capital employed being computed as the sum of total equity and current and non-current borrowings and deferred tax liabilities less goodwill and other intangible assets, intangible assets under development and deferred tax assets. Return on Capital Employed for three months ended June 30, 2025 and June 30, 2024 are not annualised.*

The list of our KPIs along with brief explanation of the relevance of the KPI for our business operations are set forth below:

| KPIs | Significance of the KPIs |
|---|---|
| Revenue from operations | Revenue from operations helps us understand the income generated from our businesses.<br><br>Also, tracking the revenue from operation of each geographical segment, viz., India and International helps track income from each segment. We have accordingly included Segment revenue - India and Segment revenue – International. |
| India – Segment Total Revenue as per Ind AS 108 | |
| International – Segment Total Revenue as per Ind AS 108 | |
| Revenue from operations Growth | Describes the improvement in revenue year on year by geographical segment as well as consolidated basis. |
| India – Segment Total Revenue as per Ind AS 108 Growth | |
| International – Segment Total Revenue as per Ind AS 108 Growth | |
| Product margin | Helps in understanding the product-level profitability. The segment level disclosures showcase the different product-level unit economics across India and International segments. |
| India – Segment Product Margin | |
| International – Segment Product Margin | |
| India – Segment Product Margin % | |
| International – Segment Product Margin % | |
| EBITDA excluding other income and exceptional item | Helps in understanding the operational profitability, after removing non-operational income and costs of the company's operations and for our geographical segments. |
| India – Segment Results Pre-Depreciation and Amortisation | |
| International – Segment Results Pre-Depreciation and Amortisation | |

| KPIs | Significance of the KPIs |
|---|---|
| EBITDA excluding other income and exceptional item Margin (%) | |
| India - Segment Results Pre-depreciation and Amortisation Margin | |
| International - Segment Results Pre-depreciation and Amortisation Margin | |
| Profit/(Loss) before tax | Helps ascertain the overall profitability of the company prior to the impact of taxes. |
| Profit/(Loss) for the year / period | Helps ascertain the overall profitability of the company |
| Net Working Capital Days | The tracking working capital days helps us to track our investment in working capital across inventory, payables and receivables. Shows the efficiency of the company's ability to manage its operating cash flows. |
| Return on Capital Employed | Describes how efficiently the company deploys its funds to generate operating profits. |
| Annual/Quarterly Transacting Customer Accounts | Tracking our annual/quarterly transacting customer accounts helps us identify the scale, identity of our customer base and thereby reach of our omnichannel platform and helps in marketing and growth decisions. |
| Number of Eyewear Units Sold | Tracking our aggregate units sold helps us summarily understand the volume trends which is an important driver of our revenue from operations. |
| Total Stores | The count of total stores helps us to track the breadth of our store footprint, which is an important part of our omni-channel retail. |

**8. Comparison of KPIs based on additions or dispositions to our business**

We acquired Dealskart on December 31, 2024, following which Dealskart became a wholly owned subsidiary of our Company. On completion of this acquisition, all store leases were restructured as follows: (i) leases held by our Company (including those which were sub-leased to Dealskart, and these sub-leases were subsequently terminated as a part of the above transition) remained unchanged; (ii) store leases held by Dealskart directly were novated to our Company; and (iii) a limited number of store leases continue to remain with Dealskart, for which Dealskart continues to pay rent and is reimbursed by our Company under a cost-sharing arrangement.

Further, we acquired 84.21% stake in Stellio Ventures S.L on August 11, 2025 Stellio Ventures S.L markets a range of fashion sunglasses as well as related accessories direct-to-consumers under the "Meller" brand. Pursuant to share purchase agreements executed in August 2025, our Company increased its effective stake to 96.15% in Quantduo Technologies Private Limited ("**Quantduo**"). Quantduo develops advanced analytics solutions for industries that deal with large volumes of data and has designed and refined a proprietary geo-analytics tool that leverages location-based data to predict revenue potential and payback periods for prospective store locations.

**9. Description on the historic use of the KPIs by our Company to analyze, track or monitor the operational and/or financial performance of our Company**

In evaluating our business, we consider and use certain KPIs, as presented above, as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs are not intended to be considered in isolation or as a substitute for the Restated Consolidated Financial Information. We use these KPIs to evaluate our financial and operating performance. Some of these KPIs are not defined under Ind AS and are not presented in accordance with Ind AS. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Therefore, these KPIs should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our operating performance, liquidity, profitability or results of operation. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance, when taken collectively with financial measures prepared in accordance with Ind AS.

Investors are encouraged to review the Ind AS financial statements and to not rely on any single financial or operational KPIs to evaluate our business.

**10. Price per share of our Company based on primary / new issue and/or secondary sale/acquisition of Equity Shares or convertible securities, during eighteen months preceding the date of filing of this Red Herring Prospectus:**

I. Price per share of our Company based on primary / new issue of Equity Shares or convertible securities, during eighteen months preceding the date of filing of this Red Herring Prospectus, where such issuance is equal to or more than 5 per cent of the fully diluted paid-up share capital of our Company (calculated based on the pre-Offer capital before such transactions and excluding ESOPs granted but not vested), in a single transaction or multiple transactions combined together over a span of rolling 30 days.

| Date of allotment | Name of allottees | Number of Equity Shares or convertible securities Preference Shares allotted | Transaction as a% of fully diluted capital of the Company (calculated based on the pre-issue capital before such (%) | Total Cost (₹) | Weighted average cost of acquisition based on primary issue of Equity Shares or convertible securities (₹) |
|---|---|---|---|---|---|
| October 7, 2025 | Conversion of (i) 6,184,525 Series A CCPS; (ii) 9,409,019 Series B CCPS; (iii) 9,364,021 Series D CCPS; (iv)3,811,068 Series E CCPS; (v) 6,037,823 Series F CCPS; (vi) 22,976,465 Series G CCPS; (vii) 3,467,279 Series H CCPS (viii) 5,684,565 Series I CCPS (ix) 4,187,543 Series I1 CCPS; (x) 746,786,003 Series I2 CCPS; (xi) 8,968,849 Class 1 CCNPS; (xii) 565,783 Class 2 CCNPS; and (xiii) 695,875 Class 3 CCPS | 858,482,930 | 50.94% | 74,818,230,157.50 | 87.15 |

II. Price per share of our Company based on secondary sale/ acquisitions of Equity Shares or convertible securities, where the Selling Shareholders or Shareholders having the right to nominate Directors on our Company's board of directors which are a party to the transaction (excluding gifts), during eighteen months preceding the date of this Red Herring Prospectus, where either acquisition or sale is equal to or more than 5% of the fully diluted paid up share capital of our Company (calculated based on the pre-Offer capital before such transaction/s and excluding ESOPs granted but not vested), in a single transaction or multiple transactions combined together over a span of rolling 30 days.

| S. No. | Name of the acquirer / transferee | Name of the transferor | Details of transferor (Selling Shareholder or shareholder(s) having the right to nominate director(s)) | Date of acquisition / transfer of Equity Shares or Preference Shares | Number of Equity Shares or Preference Shares | Price per Equity Share or Preference Shares (in ₹) | Transaction as a % of fully diluted capital of our Company |
|---|---|---|---|---|---|---|---|
| 1. | NA* | NA* | NA* | NA* | NA* | NA* | NA* |
| **Weighted average cost of acquisition (WACA)** | | | | | | | NA* |

** There have been no secondary sale/ acquisitions of Equity Shares or CCPS, where the Selling Shareholders, or Shareholder(s) having the right to nominate Director(s) on our Board, are a party to the transaction, during the 18 months preceding the date of this Red Herring Prospectus, where either acquisition or sale is equal to or more than 5% of the fully diluted paid up share capital of our Company (calculated based on the pre-Offer capital before such transaction/s and excluding ESOPs granted but not vested), in a single transaction or multiple transactions combined together over a span of rolling 30 days.*

III. Since there are no such transactions to report under (II) above, therefore, information on price per equity share for the last five secondary transactions (secondary transactions where our Promoters, (*also the Promoter Selling Shareholders*) or Investor Selling Shareholder(s) or other Shareholder(s) having the right to nominate director(s) to the Board of our Company, are a party to the transaction), not older than three years prior to the date of this Red Herring Prospectus, irrespective of the size of transactions is as below:

| Date of allotment/transfer | Name of the Transferor | Name of the Transferee | Instrument (Equity/ convertible Securities) | Number of securities Transferred (fully diluted basis) | Face value per security (₹) | Transfer price per security (₹) | Nature of Transaction | Nature of consideration | Total consideration (in ₹ million) |
|---|---|---|---|---|---|---|---|---|---|
| October 23, 2025 | Neha Bansal | Shrikanta R Damani | Equity | 22,38,806 | 2 | 402.00 | Secondary Acquisition | Cash | 900.00 |
| October 14, 2025 | Shruti Marwaha | Amit Mittal | Equity | 10,000 | 2 | 230.00 | Secondary Acquisition | Cash | 2.30 |
| October 10, 2025 | Ayush Goel | Amit Mittal | Equity | 50,000 | 2 | 230.00 | Secondary Acquisition | Cash | 11.50 |
| October 07, 2025 | Gagan Bajpai | Amit Mittal | Equity | 25,350 | 2 | 230.00 | Secondary Acquisition | Cash | 5.83 |

| Date of allotment/transfer | Name of the Transferor | Name of the Transferee | Instrument (Equity/ convertible Securities) | Number of securities Transferred (fully diluted basis) | Face value per security (₹) | Transfer price per security (₹) | Nature of Transaction | Nature of consideration | Total consideration (in ₹ million) |
|---|---|---|---|---|---|---|---|---|---|
| October 03, 2025 | Apeksha Suryakant Gupta | Amit Mittal | Equity | 13,092 | 2 | 230.00 | Secondary Acquisition | Cash | 3.01 |
| | | | | **2,337,248** | | | | | **922.64** |
| **Weighted average cost of acquisition (WACA) (secondary transactions) (₹ per security)** | | | | | | | | | **394.76** |

**11.** Below are the details of the weighted average cost of acquisition ("**WACA**"), as compared to the Floor Price and Cap Price:

| Past Transactions | Weighted average cost of acquisition (in ₹) | Floor Price (i.e. ₹ [●])* | Cap Price (i.e. ₹ [●])* |
|---|---|---|---|
| WACA of Primary issuance | 87.15 | [●] | [●] |
| WACA of Secondary transactions | NA | | |
| Since there are no such transactions to report under (II) above, therefore, information on price per equity share for the last five secondary transactions (secondary transactions our Promoters (also the Promoter Selling Shareholders), or Investor Selling Shareholders or other Shareholder(s) having the right to nominate director(s) to the Board of our Company, are a party to the transaction, not older than three years prior to the date of this Red Herring Prospectus irrespective of the size of transactions, is as below: | | | |
| **Based on secondary transaction** | **394.76** | [●] | [●] |

* *To be updated at Prospectus stage*

**12. Justification for Basis of Offer price***

The following provides an explanation to the Cap Price being [●] times of weighted average cost of acquisition of Equity Shares that were issued by our Company or acquired or sold by the our Selling Shareholders or other shareholders with rights to nominate directors on our Board by way of primary and secondary transactions for the three months period ended June 30, 2025, June 30, 2024, and in the last three full Financial Years preceding the date of this Red Herring Prospectus compared to our Company's KPIs for the [●].

**STATEMENT OF SPECIAL TAX BENEFITS (Under Direct and Indirect tax laws) FOR THE COMPANY AND ITS SHAREHOLDERS.**

The Board of Directors

**Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited)**

Ground Floor Vipul Tech Square,
Golf Course Road Sector 43, DLF QE,
Gurgaon, Haryana, India, 122009

Dear Sirs,

Statement of Special Tax Benefits available to Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited) and its shareholders under the Indian tax laws

1. We hereby confirm that the enclosed Annexure 1 and 2 (together, "Annexures"), prepared by Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited) ('the Company'), provides the special tax benefits available to the Company and to the shareholders of the Company under the Income-tax Act, 1961 (the "Act") as amended by the Finance Act 2025, i.e. applicable for the Financial Year 2025-26 relevant to the assessment year 2026-27, the Central Goods and Services Tax Act, 2017 / the Integrated Goods and Services Tax Act, 2017 ("GST Act"), the Customs Act, 1962 ("Customs Act") and the Customs Tariff Act, 1975 ("Tariff Act"), each read with rules, circulars, and notifications, and each as amended by the Finance Act 2025, i.e., applicable for the Financial Year 2025-26 relevant to the assessment year 2026-27 and Foreign Trade Policy ("FTP" and together with the Act, GST Act, Customs Act, and Tariff Act, the "Tax Laws"), presently in force in India. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws. Hence, the ability of the Company and / or its shareholders to derive the tax benefits is dependent upon their fulfilling such conditions which, based on business imperatives the Company faces in the future, the Company or its shareholders may or may not choose to fulfil.

2. The benefits discussed in the enclosed Annexures are not exhaustive and the preparation of the contents stated is the responsibility of the Company's management. We are informed that the Annexures is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offer of equity shares of the Company ("Offer").

3. We do not express any opinion or provide any assurance as to whether:

   i) the Company or its shareholders will continue to obtain these benefits in future;
   ii) the conditions prescribed for availing the benefits have been / would be met with; and
   iii) the revenue authorities/courts will concur with the views expressed herein.

4. The contents of the enclosed Annexures are based on information, explanations and representations obtained from the Company and on the basis of their understanding of the business activities and operations of the Company.

5. This Statement is issued solely in connection with the proposed Offer issue of the Company and is not to be used, referred to or distributed for any other purpose. We have no responsibility to update this Statement for events and circumstances occurring after the date of this Statement.

**ANNEXURE "1" TO THE STATEMENT OF SPECIAL DIRECT TAX BENEFITS AVAILABLE TO THE COMPANY AND ITS SHAREHOLDERS UNDER THE APPLICABLE TAX LAWS IN INDIA**

Outlined below are the special tax benefits available to the Company and its shareholders under the Income-tax Act, 1961 read with rules, circulars and notifications thereunder ('the Act') as amended by the Finance Act 2025, i.e., applicable for the Financial Year 2025-26 relevant to the Assessment Year 2026-27, presently in force in India.

**A. Special tax benefits available to the Company under the Income-tax Act, 1961 ('Act')**

1. **Lower corporate tax rate under section 115BAA of the Act**
   The Company has opted for lower corporate tax rate of 25.168% (prescribed under section 115BAA of the Act) from AY 2021-22 and will continue to opt for the same in subject to the conditions as prescribed under the Act. The conditions for availing the same are stated in the notes below.

2. **Deduction under section 80M of the Act**
   The Company is eligible to claim deduction under section 80M of the Act. As per the provisions of section 80M of the Act, where the gross total income of a domestic company includes income by way of dividends from any other domestic company or foreign company or business trust, then while computing the total income of the said company a deduction of an amount equal to income by way of dividends received from such other domestic company or foreign company or business trust shall be allowed. However, the amount of deduction shall not exceed the amount of dividend distributed by the said company on or before the due date prescribed under the section.

3. **Deduction under section 80JJAA of the Act**
   The Company is eligible to claim deduction under section 80JJAA of the Act. The said section enables the deduction to the employer for generating employment in the formal sector. A deduction of an amount equal to thirty per cent of additional employee cost incurred in the course of business is allowed for three consecutive assessment years subject to fulfillment of certain conditions prescribed under the Act.

**B. Special tax benefits available to the shareholders of the Company**

1. Dividend income earned by the shareholders would be taxable in their hands at the applicable rates. However, in case of domestic corporate shareholders, deduction under Section 80M of the Act would be available on fulfilling the conditions. Further, in case of shareholders who are individuals, Hindu Undivided Family, Association of Persons, Body of Individuals, whether incorporated or not, surcharge would be restricted to 15%, irrespective of the amount of dividend income.

2. As per section 112A of the Act, long-term capital gains arising from transfer of an equity share, or an unit of an equity-oriented fund or a unit of business trust shall be taxed at the rate of 12.5% (without indexation) of such capital gains where the transfer takes place on or after July 23, 2024. It is worthwhile to note that tax shall be levied where such capital gains exceed INR 125,000.

3. As per section 111A of the Act, short term capital gains arising from transfer of an equity share, or a unit of an equity-oriented fund or a unit of a business trust shall be taxed at 20% of such capital gains subject to fulfilment of prescribed conditions under the Act.

**Notes:**

1. The benefits in A and B above are as per the provisions of the IT Act and current tax law as amended by the Finance Act, 2025.

2. This annexure does not discuss any tax consequences in the country outside India of an investment in the shares. The shareholders / investors in the country outside India are advised to consult their own professional advisors regarding possible income tax consequences that apply to them.

3. Surcharge is to be levied on domestic companies at the rate of 7% where the income exceeds INR one crore but does not exceed INR ten crores and at the rate of 12% where the income exceeds INR ten crores. However, if the Company opts for concessional income tax rate under Section 115BAA of the IT Act, surcharge shall be levied at the rate of 10%.

4. Health and education cess @ 4% on the tax and surcharge is payable by all category of taxpayers.

5. If the Company opts for concessional income tax rate as prescribed under Section 115BAA of the IT Act, it will not be allowed to claim any of the following deductions:

   - Deduction under the provisions of Section 10AA of the IT Act (deduction for units in Special Economic Zone)
   - Deduction under clause (iia) of sub-section (1) of Section 32 of the IT Act (Additional depreciation)

- Deduction under Section 32AD or Section 33AB or Section 33ABA of the IT Act (Investment allowance in backward areas, Investment deposit account, site restoration fund)
- Deduction under sub-clause (ii) or sub-clause (via) or sub-clause (iii) of sub-section (1) or sub-section (2AA) or sub-section (2AB) of Section 35 of the IT Act (Expenditure on scientific research)
- Deduction under Section 35AD or Section 35CCC of the IT Act (Deduction for specified business, agricultural extension project)
- Deduction under Section 35CCD of the IT Act (Expenditure on skill development)
- Deduction under any provisions of Chapter VI-A other than the provisions of Section 80JJAA or Section 80M of the IT Act;
- No set off of any loss carried forward or depreciation from any earlier assessment year, if such loss or depreciation is attributable to any of the deductions referred above;
- No set off of any loss or allowance for unabsorbed depreciation deemed so under Section 72A of the IT Act, if such loss or depreciation is attributable to any of the deductions referred above.

**ANNEXURE "2" TO THE STATEMENT OF SPECIAL INDIRECT TAX BENEFITS AVAILABLE TO THE COMPANY AND ITS SHAREHOLDERS UNDER THE APPLICABLE TAX LAWS IN INDIA**

Outlined below are the special tax benefits available to the Company, and its Shareholders under the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017, respective Union Territory Goods and Services Tax Act, 2017, and respective State Goods and Services Tax Act, 2017 (hereinafter collectively referred to as "GST laws"), the Customs Act, 1962 ("Customs Act"), as amended from time to time and presently in force in India (collectively referred to as "Indirect Tax Laws").

**A. TO THE COMPANY**

**1. GST related benefits**

Under the GST laws, if a supply of goods qualifies as an export, the following benefits are available to the supplier:

1.1. Unutilized ITC of GST paid on inward supply can be claimed as refund, or

1.2. IGST paid (if any) on such zero-rated supply can be claimed as refund.

**2. Custom Related benefits**

Under the Customs law, duty is payable at the time of import of goods into India. The Custom law provides following benefit to the importer on export of goods outside India: -

2.1. The Manufacture and Other Operations in Warehouse Regulations, 2019 (MOOWR), issued under Section 65 of the Customs Act, permits manufacturing and other operations on imported goods (capital goods, spares, and inputs) within a bonded warehouse, while allowing deferral of customs duty. This scheme aims to promote the "Make in India" initiative by enabling duty-free import of raw materials, capital goods, and consumables, with customs duty payable only at the time of clearance for domestic consumption.

2.2. Certificate of Authorized Economic Operator (AEO): The eligible importer or exporter can apply for AEO Certificate, and such programme is divided into multiple tiers, each offering increasing levels of benefits. For quick reference, few benefits given to different Tiers are given below:

| AEO Tier | Key Benefits |
|---|---|
| AEO Tier 1 | -Facility of Direct Port Delivery (DPD)<br>-50% waiver in Bank Guarantee<br>-24 hours clearance with No Merchant Overtime Fee (MOT) charge<br>-Separate space for custodian premises<br>-Faster resolution of investigation<br>-E-mail regarding arrival/ departure of the vessel<br>-Not subjected to regular transactional Post Clearance Audit (PCA), instead of that onsite PCA will be conducted once in three years only |
| AEO Tier 2 | In addition to Tier 1 benefit, following are the additional benefits: -<br>- Facility for Duty Deferment payment<br>- 75% waiver in Bank Guarantee<br>-Waiver of seal verification by Customs Officer<br>- Faster disbursal of drawback amount within 72 hours of Export General Manifest submission<br>-Priority processing of Bill of Entry /Shipping Bill<br>-Access to consolidated data through ICEGATE<br>-Faster completion of Special Valuation Branch proceedings<br>- Refund/Rebate of Customs/ IGST would be granted within 45 days of the submission of complete documents |
| AEO Tier 3 | In addition to above benefits offered in T2 below are the additional benefits:<br>-100% waiver in Bank Guarantee<br>- accorded highest level of facilitation<br>- containers will not be selected for scanning except based on specific intelligence<br>-assessing/examining custom officer will rely on the self-certified copies of documents submitted by them<br>- refund/Rebate of Customs/IGST would be granted within 30 days of the submission of complete documents |

2.3. Duty Drawback scheme: Under the Customs law, duty drawback is allowed under two circumstances, i.e.,

i. U/s 74 of the Customs Act: If goods imported into India have been exported outside India without any change or modification within 2 years, then duty drawback to the extent of 98% of the Customs duty paid at the time of import is allowed provided the goods are identified to the satisfaction of the officer as the as the same goods

that were imported. Drawback under this section shall include custom duty paid along with IGST and Compensation Cess.

ii. U/s 75 of the Customs Act: Goods manufactured or processed in India, which are intended for exports and received clearance for exportation, shall be eligible for a drawback of customs duties paid on imported materials used in their production, subject to fulfillment of conditions laid down in the rules made thereunder. The rate of duty drawback varies depending on the specific goods and materials involved prescribed based on the HS code. Drawback herein shall include custom duty paid only.

2.4. Duty Exemption Schemes: Under Chapter 4 of the Foreign Trade Policy, there are two duty exemption schemes wherein duty-free import of goods can be done including raw materials, packaging materials, fuel, oil, and catalysts used in the production process and the finished goods are exported outside India:

a. Advance Authorization (AA): This is a pre-export scheme, wherein the exporter must apply for AA license before import of inputs required for manufacturing the export product. Based on the license no duty shall pe paid for the imported raw material subject to fulfillment of various conditions as laid down in the law, some of which are:
   i. Exporters must fulfill multiple export obligation such as 15% value addition and they must import and export the products within a specified time frame.
   ii. The quantity of inputs allowed for duty-free import based on the specific norms defined for each export product which is determined by the SION list.

   This scheme exempts Basic Customs Duty (BCD), Additional Customs Duty (ACD), Education Cess (EC), Anti-dumping duty (ADD), Safeguard Duty (SD), Integrated tax (IGST), and Compensation Cess.

b. Duty Free Import Authorization (DFIA): In this scheme, tax on import of goods shall be paid first and such duty paid shall be refunded back to the exporter by way of scrips post filing of DFIA application subject to fulfillment of various conditions such as minimum value addition of 20% and the product must be available in the SION list.
   This scheme refunds only BCD levied on import of goods.

2.5 Export Promotion Capital Goods Scheme (EPCG): EPCG Scheme allows import of capital goods (except those specified in negative list in Appendix 5 F) at zero customs duty. Benefit on Import under EPCG Scheme shall be subject to an Export Obligation (EO) equivalent to 6 times of duties, taxes and cess saved on capital goods imported under the EPCG scheme, to be fulfilled in 6 years reckoned from date of issue of Authorization. Under this Scheme, BCD, ACD, IGST and Compensation Cess shall be exempted.

2.6 RoDTEP Scheme: The Scheme's objective is to refund, currently un-refunded duties/ taxes / levies, at the Central, State and local level, borne on the exported product, including prior stage cumulative indirect taxes on goods and services used in the production of the exported product and such indirect Duties/ taxes / levies in respect of distribution of exported product.

The rebate under the Scheme shall not be available in respect of duties and taxes already exempted or remitted or credited. Under the Scheme, a rebate would be granted to eligible exporters at a notified rate as a percentage of FOB value.

Various conditions must be met to be eligible for this scheme. For instance, the scheme is not applicable if the product is manufactured partly or wholly in a warehouse under the MOOWR scheme.

2.7 Import benefits based on country of Origin: As per Section 25(1) of the Customs Law the Government has exempted either absolutely or subject to such conditions (to be fulfilled before or after clearance), as may be specified in the notification, goods of any specified description from the whole or any part of duty of customs leviable thereon. The rate of concession varies basis the import from country of origin and product to product based on the exemption rate provided in against each HS code, which needs to be analyzed individually.

We understand that Company is currently importing goods from countries including China, Thailand, Japan, Vietnam, Singapore and Korea. Following country specific Custom Notification exempts the goods mentioned in the said notification: -

a. Import from Thailand, Vietnam, Singapore: Notification No. 46/2011-Customs dated 01/06/2011
b. Import from Japan: Notification No. 69/2011-Customs dated 29/07/2011

c. Import from Korea: Notification No. 152/2009-Customs dated 31/12/2009
d. Import from China: Notification No. 89/2006-Customs dated 01/09/2006

**3 State Incentive:**

3.1 We understand that Company has setup a manufacturing plant in Rajasthan. Under the Rajasthan Investment Promotion Scheme (RIPS) 2022, the manufacturing enterprises are broadly eligible for the following benefits:

a. Asset Creation Incentive: Enterprises have the option to choose from the following 3 categories of asset creation incentives: -
   i. Investment Subsidy (SGST Reimbursement)
   ii. Capital Subsidy
   iii. Turnover linked subsidy
b. Special Incentives: Enterprises have the option to availing special incentives like employment booster, green incentives, training and skill incentives etc.
c. Exemptions: Enterprises can avail certain exemptions like electricity duty, stamp duty etc.

**B. TO THE SHAREHOLDERS**

There are no special indirect tax benefits available to the shareholders of the Company.

**Notes:**

1. This Annexure sets out the only the special tax benefits available to the Company and its Shareholders under the GST Laws and relevant rules made thereunder, the Customs Act, 1962 ("Customs Act"), as amended from time to time, presently in force in India.
2. Our comments are based on the major business activities carried out by the Company from April 1, 2024, till March 31, 2025. Any variation in the understanding could require our comments to be suitably modified.
3. During the period from April 1, 2025, to June 30, 2025, the Company has not claimed any incentive under any State Incentive Policy.
4. This Annexure is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice or validation of position opted by the Company. In view of the individual nature of tax consequences, the changing tax laws, each investor is advised to consult his/her own tax advisor with respect to specific tax implications arising out of their participation in the Proposed IPO.
5. This annexure covers only indirect tax laws benefits and does not cover any income tax law benefits or benefit under any other law.
6. These comments are based upon the provisions of the specified Indirect Tax Laws, and judicial interpretation thereof prevailing in the country, as on the date of this Annexure.
7. This annexure provides the tax position currently opted by the Company based on GST filings done by the Company. This do not factor in the proposed/future business model of the Company.
8. No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.

**STATEMENT OF SPECIAL TAX BENEFITS (Under Direct and Indirect tax laws) for the MLO K.K.**

The Board of Directors

MLO K.K.
2-1-12 3F Matsuyama,
Naha, Okinawa, Japan, 9000032

Dear Sirs,

**Statement of Special Tax Benefits available to MLO K.K. under the Japan tax laws**

1. We hereby confirm that the enclosed Annexure, prepared by MLO K.K. ('the Company'), provides the special tax benefits available to the Company under the Corporation Tax Act [("the Corporation Tax Act")], i.e. applicable for the Financial Year 2025-26, the Consumption Tax Act ("Consumption Tax Act") and the Customs Act ("Customs Act"), i.e., applicable for the Financial Year 2025-26, presently in force in Japan. Several of these benefits are dependent on the Company fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company to derive the tax benefits is dependent upon their fulfilling such conditions which, based on business imperatives the Company faces in the future, the Company may or may not choose to fulfil.

2. The benefits discussed in the enclosed Annexures are not exhaustive and the preparation of the contents stated is the responsibility of the Company's management. We are informed that the Annexures is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offer of equity shares of the Company ("**Offer**").

3. We do not express any opinion or provide any assurance as to whether:

   i) the Company will continue to obtain these benefits in future;
   ii) the conditions prescribed for availing the benefits have been / would be met with; and
   iii) the revenue authorities/courts will concur with the views expressed herein.

4. The contents of the enclosed Annexures are based on information, explanations and representations obtained from the Company and on the basis of their understanding of the business activities and operations of the Company.

5. This Statement is issued solely in connection with the proposed Offer of the Company and can be included in the draft red herring prospectus, red herring prospectus and prospectus proposed to be filed by the Company or any other offer documents prepared/materials used in connection with the Offer with the relevant regulatory/statutory authorities and is not to be used, referred to or distributed for any other purpose. We have no responsibility to update this Statement for events and circumstances occurring after the date of this Statement.

6. We consent to the inclusion of our names as "experts" in the Offer Documents as required under Section 26 (1) of the Companies Act 2013 read with the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended, and under Section 2(38) of the Companies Act 2013 in respect of the letters issued by us. However, we should not be construed to be "expert" as defined under the U.S. Securities Act of 1933.

## STATEMENT OF SPECIAL TAX BENEFITS FOR LENSKART SOLUTIONS PTE. LTD.

Board of Directors
Lenskart Solutions Pte Ltd
152, Beach Road, #18-07/08
Singapore 189721

Dear Sirs

**RE: STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO LENSKART SOLUTIONS PTE LTD ("LENSKART" OR "COMPANY") UNDER THE SINGAPORE TAX LAWS**

1. We hereby confirm that the enclosed Annexure, prepared by Lenskart, provides the special tax benefits available to the Company under the Income Tax Act, 1947, Goods & Services Act 1993 and the Customs Act 1960 ("Acts"), i.e., applicable for the financial year 2025-26, presently in force in Singapore. Several of these benefits are dependent on the Company fulfilling the conditions prescribed under the relevant provisions of the Acts. Hence, the ability of the Company and / or its shareholders to derive the tax benefits is dependent upon their fulfilling such conditions which, based on business imperatives the Company faces in the future, the Company may or may not choose to fulfil.

2. The benefits discussed in the enclosed Annexures are not exhaustive and the preparation of the contents stated is the responsibility of the Company's management. We are informed that the Annexures is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offer of equity shares of the holding Company ("**Offer**").

3. The Company is not entitled to any special tax benefits detailed by the Company in the Annexure. It is only subject to the prevailing corporate tax rates, exemptions, rebates and capital allowances claim under the Income Tax Act, 1947 subject to the entities meeting certain conditions to be entitled to certain capital allowances claim, tax exemption, rebates and grants; and the prevailing GST rates for companies under the Goods & Services Act 1993, and the prevailing duties per the Customs Act 1960.

4. We do not express any opinion or provide any assurance as to whether:

   i) the Company will continue to obtain these benefits in future;
   ii) the conditions prescribed for availing the benefits have been / would be met with; and
   iii) the revenue authorities/courts will concur with the views expressed herein.

5. The contents of the enclosed Annexures are based on information, explanations and representations obtained from the Company and on the basis of their understanding of the business activities and operations of the Company.

6. This Statement is issued solely in connection with the proposed Offer of the Company and can be included in the draft red herring prospectus, red herring prospectus and prospectus proposed to be filed by the Company or any other offer documents prepared/materials used in connection with the Offer with the relevant regulatory/statutory authorities and is not to be used, referred to or distributed for any other purpose. We have no responsibility to update this Statement for events and circumstances occurring after the date of this Statement.

7. We consent to the inclusion of our name as "experts" in the Offer Documents as required under Section 26 (1) of the Companies Act 2013 read with the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended, and under Section 2(38) of the Companies Act 2013 in respect of the letters issued by us. Date: October 15, 2025

## Annexure

**Possible special tax benefits for OWNDAYS CO., LTD.**

**Special tax benefits available to the Company under the Corporation Tax Act**

- The Company is not entitled to any special tax benefit under the Corporation Tax Act.

**Special tax benefits available to the Company under the Consumption Tax Act and the Customs Act**

- The Company is not entitled to any special tax benefit under the Consumption Tax Act and the Customs Act.

## STATEMENT OF SPECIAL TAX BENEFITS FOR OWNDAYS SINGAPORE PTE. LTD

Board of Directors

Owndays Singapore Pte Ltd
21 Merchant Road, #07-01
Singapore 058267

Dear Sirs

**RE: STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO [OWNDAYS SINGAPORE PTE LTD ("OWNDAYS" OR "COMPANY")] UNDER THE SINGAPORE TAX LAWS**

1. We hereby confirm that the enclosed Annexure, prepared by Owndays, provides the special tax benefits available to the Company under the Income Tax Act, 1947, Goods & Services Act 1993 and the Customs Act 1960 ("Acts"), i.e., applicable for the financial year 2025-26, presently in force in Singapore. Several of these benefits are dependent on the Company fulfilling the conditions prescribed under the relevant provisions of the Acts. Hence, the ability of the Company to derive the tax benefits is dependent upon their fulfilling such conditions which, based on business imperatives the Company faces in the future, the Company may or may not choose to fulfil.

2. The benefits discussed in the enclosed Annexures are not exhaustive and the preparation of the contents stated is the responsibility of the Company's management. We are informed that the Annexures is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offer of equity shares of the holding Company ("**Offer**").

3. The Company is entitled to the special tax benefit as detailed by the company in the Annexure. Other than the special tax benefit, it is subject to prevailing corporate tax rates, exemptions, rebates and capital allowances claim under the Income Tax Act, 1947 subject to the entities meeting certain conditions to be entitled to certain capital allowances claim, tax exemption, rebates and grants; and the prevailing GST rates for companies under the Goods & Services Act 1993, and the prevailing duties per the Customs Act 1960.

4. We do not express any opinion or provide any assurance as to whether:

   i) the Company will continue to obtain these benefits in future;
   ii) the conditions prescribed for availing the benefits have been / would be met with; and
   iii) the revenue authorities/courts will concur with the views expressed herein.

5. The contents of the enclosed Annexures are based on information, explanations and representations obtained from the Company and on the basis of their understanding of the business activities and operations of the Company.

6. This Statement is issued solely in connection with the proposed Offer of the Company and can be included in the draft red herring prospectus, red herring prospectus and prospectus proposed to be filed by the Company or any other offer documents prepared/materials used in connection with the Offer with the relevant regulatory/statutory authorities and is not to be used, referred to or distributed for any other purpose. We have no responsibility to update this Statement for events and circumstances occurring after the date of this Statement.

7. We consent to the inclusion of our name as "experts" in the Offer Documents as required under Section 26 (1) of the Companies Act 2013 read with the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended, and under Section 2(38) of the Companies Act 2013 in respect of the letters issued by us. However, we should not be construed to be "expert" as defined under the U.S. Securities Act of 1933.

Yours faithfully

**Natarajan & Swaminathan LLP**
**Public Accountants and Chartered Accountants Singapore**

Place: Singapore
Date: October 15, 2025

**Encl: Annexure – Possible Special Tax Benefits for Owndays Singapore Pte Ltd**

## Annexure

**Possible special tax benefits for Owndays Singapore Pte Ltd**

**Special tax benefits available to the Company under the Income Tax Act, 1947**

- The Company is claiming an additional 300% deduction under the Enterprise Innovation Scheme (EIS), which is designed to encourage research and development (R&D), innovation, and capability development activities in Singapore.

- The Company is not entitled to any other special tax benefit under direct tax laws.

**Special tax benefits available to the Company under the Goods and Service Tax Act 1993 and the Customs Act 1960**

- The Company is not entitled to any special tax benefit under the Goods and Service Tax Act 1993 and Customs Act 1960.

## SECTION IV – ABOUT OUR COMPANY

## INDUSTRY OVERVIEW

*The information in this section is from the report titled "Industry Report on the Eyewear Market" dated October 15, 2025 (the "**Redseer Report**"), prepared and released by Redseer Strategy Consultants Private Limited ("**Redseer**"), which has been paid for and commissioned by our Company pursuant to an engagement letter dated February 12, 2025, for the purpose of confirming our understanding of the industry we operate in, exclusively in connection with the Offer. The Redseer Report will be made available on the website of our Company at https://www.lenskart.com/corporate/investorrelations in accordance with applicable laws and has also been included in "**Material Contracts and Documents for Inspection – Material Documents**" on page 1,044. The data included herein includes excerpts from the Redseer Report and may have been re-ordered by us for the purposes of presentation. There are no material parts, data or information (which may be relevant for the Offer) that have been left out or changed in any manner. The Redseer Report was prepared on the basis of information as of specific dates and opinions in the Redseer Report may be based on estimates, projections, forecasts and assumptions that may be as of such dates, which may no longer be current or reflect current trends. Further, forecasts, estimates, predictions, and other forward-looking statements contained in the Redseer Report are inherently uncertain because of changes in factors underlying their assumptions, or events or combinations of events that cannot be reasonably foreseen. Actual results and future events could differ materially from such forecasts, estimates, predictions, or such statements. Accordingly, investment decisions should not be based on such information. The Redseer Report is not a recommendation to invest or disinvest in any company covered in the report. The views expressed in the Redseer Report are that of Redseer. Prospective investors are advised not to unduly rely on the Redseer Report, and should conduct their own investigation and analysis of all facts and information contained in this Red Herring Prospectus. See "**Certain Conventions, Use of Financial Information and Market Data and Currency of Presentation – Industry and Market Data**" and "**Risk Factors — This Red Herring Prospectus contains information from third parties, including an industry report prepared by an independent third-party research agency, Redseer Strategy Consultants Private Limited, which we have commissioned and paid for to confirm our understanding of our industry exclusively in connection with the Offer and reliance on such information for making an investment decision in the Offer is subject to inherent risks.**" on pages 20 and 102, respectively.*

*References to various segments in the Redseer Report and information derived therefrom are references to industry segments and in accordance with the presentation, analysis and categorisation in the Redseer Report. Our segment reporting in our financial statements is based on the criteria set out in Ind AS 108, Operating Segments and we do not present such industry segments as operating segments.*

## Macroeconomic Context and Consumer Demographic Trends

***Global economic momentum is being driven by emerging markets, particularly those in Asia, such as India and Southeast Asia, where sustained GDP growth, rising disposable incomes, and digital adoption are shifting consumption patterns and catalysing retail expansion. Amongst developed markets, Japan is exhibiting stability, underpinned by sustained consumption, while growth in Singapore is driven by its advanced services economy. In the Middle East, economic diversification and growing affluence are evolving consumption patterns across both high-income and aspirational consumers. Emerging markets are closing the digital gap with developed markets, leading to higher consumption, especially in lifestyle categories. Lifestyle-led discretionary spending and omnichannel retail adoption are rising across both emerging and developed markets, as consumers increasingly prioritise style, quality, and convenience in their purchase journeys.***

### Global Macroeconomic Outlook

***Rising Gross Domestic Product (GDP) and Incomes***

Global economic activity is projected to remain resilient over the next five years, underpinned by sustained momentum in emerging Asian markets. Within the region, India and emerging Southeast Asian[1] markets are becoming increasingly integrated into global supply chains, supported by continuing investment in transportation corridors, renewable energy, and digital infrastructure, which in turn is fostering an expanding, mobile-centric consumer base. India is projected to reinforce these trends at scale, as policy reforms, broad-based infrastructure programmes, and the high adoption of digital consumer platforms and digital public infrastructure continue to elevate productivity and domestic consumption. According to IMF, India is positioned to become the world's third-largest economy by CY 2029P, with nominal GDP projected to exceed ₹ 525 trillion (~US$ 6,100 billion).

Among developed markets, Japan is projected to have incremental gains driven by premiumisation, automation, and digitisation, while Singapore's economy is projected to expand driven by its advanced services economy and its role as a regional financial and innovation hub. Meanwhile, the Middle East[2] is witnessing economic diversification across non-oil sectors such as clean energy, logistics, retail, and tourism, while an increase in household spending towards both premium and aspirational consumers support a gradual broadening of its consumption base.

### Rising Disposable Incomes are Driving Higher Consumption

Rising GDP is driving higher disposable incomes leading to shifts in consumer spending across regions. Historically, surpassing a GDP per capita of ₹ 1,72,000-2,58,000 (US$ 2,000-3,000) has catalysed higher discretionary spending. India crossed the ~₹ 1,72,000 (~US$ 2,000) threshold in CY 2019 and since then has witnessed a PFCE growth of ~11% between FY 2020-25, despite the COVID-19 disruption, with ~61.5%[3] of GDP being driven by PFCE as of FY 2025. With GDP per capita levels projected to reach ~₹ 3,49,383 billion (~US$ 4,063) by CY 2029P, the share of the middle-income households and above[4] in India's population is projected to increase from ~63% in CY 2024 to ~73% in CY 2029P, which will further boost discretionary consumption in India.

In Southeast Asia, emerging markets benefit from a high PFCE[5] share and consumption growth is projected to be driven by increasing digitisation and organisation of the retail market. In developed markets such as Singapore, growth is driven by higher incomes, rising digital adoption, and premiumisation. In other developed Asian markets such as Japan, stable income trends continue to drive high levels of discretionary spending, making PFCE[5] a central pillar of economic activity. In the Middle East, a growing affluent consumer group is influencing consumption habits, with private consumption gaining economic prominence as the region moves towards more diversified spending patterns.

*[space intentionally left blank]*

[1] Southeast Asia includes emerging markets of Indonesia, Malaysia, Philippines, Thailand and Vietnam and developed market Singapore

[2] The Middle East includes Saudi Arabia and United Arab Emirates (UAE)

[3] As per Second Advanced Estimates by Ministry of Statistics and Program Implementation (MOSPI)

[4] Defined as households with annual income of more than US$ 3,488

[5] PFCE or Private Final Consumption Expenditure refers to capital expenditure incurred by the resident households and non-profit institutions serving households on final consumption of goods and services, whether made within or outside the economic territory

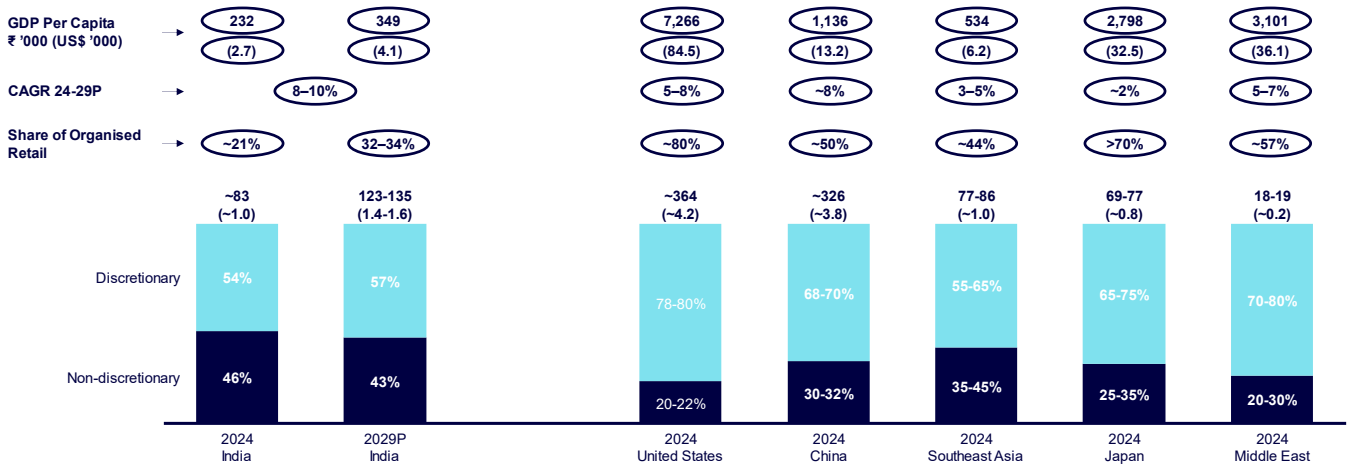
***Rise of Discretionary Retail Consumption and Organisation of the Retail Markets***

India is one of the fastest-growing retail markets, driven by increasing organisation of the market and the rising share of discretionary retail. India's retail market growth is underpinned by urbanisation, rising disposable incomes, and a large, technology proficient young population driving greater adoption of standardised and quality-driven products. Further, the relatively lower share of both organised and discretionary retail in India (when compared with more developed markets) suggests headroom for growth.

In Southeast Asia, retail organisation is being driven by deployment of omnichannel strategies, the integration of unified payments and last-mile logistics, which are collectively broadening access and reach of organised players. In Japan, a mature and resilient retail market continues to record incremental gains, supported by stable household spending, premiumisation across discretionary categories, and the digital enhancement of convenience and department-store networks. Meanwhile, in the Middle East - a young, digitally engaged consumer base, together with sustained investment in destination malls, lifestyle districts, and mixed-use commercial developments, is driving a shift toward higher-value, experience-led retail supporting long-term growth.

**Exhibit 2: Retail Market by Discretionary and Non-Discretionary and Share of Organised Retail - India and Key Geographies**
*CY 2024, in ₹ trillion (US$ trillion), Splits and Share of Organised Retail in %*



*Note(s): 1. Considering exchange rate of US$ 1 = ₹ 86*
*2. Southeast Asia includes Indonesia, Malaysia, Philippines, Singapore, Thailand, and Vietnam*
*3. The Middle East includes Saudi Arabia and the UAE*
*4. Discretionary expenditures include spending on categories such as FMCG (excl. staples), apparel, eyewear, consumer electronics, consumer appliances, general merchandise, and beauty & personal care (BPC), among others. These tend to have cyclical demand, fluctuating with economic conditions*
*5. Non-discretionary expenditures encompass spending on essential categories such as pharmaceuticals, staples and fresh food, which are less sensitive to economic changes*

## Emerging Consumer Trends

***Lifestyle Focused Consumption is on the Rise with Higher Discretionary Consumption and Growing Awareness Among Consumers***

Increasing discretionary spends, driven by rising disposable incomes and social media awareness, are leading to increased consumption of lifestyle categories. These categories form a large subset of discretionary retail and typically include apparel, footwear, accessories, eyewear, and beauty & personal care - products closely tied to personal style and self-expression. As social media and digitisation broaden access and expand the reach of lifestyle brands, consumers are becoming fashion and value-conscious, prioritising both style and quality at affordable prices in their purchases. This is evident from the increasing adoption of fast fashion globally which has resulted in increase in the number of items owned per user across categories such as apparel, accessories and footwear.

***Rise of Value Retail and D2C Brand Prominence in Retail***

Value retail is gaining prominence in India, driven by consumer demand for affordable pricing, broad assortments, and accessibility across retail categories. This model traditionally is being increasingly enabled by direct-to-consumer[6] (D2C) brands. Through direct sourcing arrangements and reduced reliance on traditional intermediaries, these brands are able to lower costs, maintain tighter control over product and pricing, and offer competitive value to consumers. Their digital-first approach and owned retail presence further support discovery-led purchase journeys aligned with the needs of value-conscious shoppers.

***Rise of Digital Penetration***

Emerging markets are closing the digital gap with developed markets. In India, large growth in internet users has been fuelled by the expansion of the mobile network and low-cost data, supported by government initiatives. Driven by these factors, India's internet user base is projected to grow steadily to reach more than 1 billion users by CY 2029P with a per capita GDP of ₹ 3,49,383 (~US$ 4,063), significantly ahead of the trajectory of other economies at similar income levels.

Increased digital penetration leads to higher consumption by fuelling product and brand awareness, influencing purchase preferences purchase frequency, and improving conversion rates, particularly in lifestyle categories where consumer purchase journey begins with exploration and discovery. As of CY 2024, India had a large portion of 'digitally influenced' customers (who browse online but do not transact online). Higher digital penetration is also visible across Southeast Asia, the Middle East, and Japan, driven by distinct underlying factors. In emerging markets in Southeast Asia, a young, digitally enabled and mobile-first population is fuelling social commerce-led growth in the online retail market; in the Middle East, strong government-led digital initiatives are accelerating adoption; while in Japan and Singapore, a mature internet ecosystem is seeing renewed digital retail growth through convenience-driven innovation and offline-to-online integration.

*[space intentionally left blank]*

[6] Business model where companies sell their products or services directly to customers online or through their own stores, without relying on intermediaries, such as wholesalers, retailers, or distributors

***Shift to Digitally Influenced, Omnichannel Purchase Journeys Led by Digital-First Omnichannel Brands***

Globally, digitally influenced spending has been increasing, driven by the growing penetration of internet and smartphone usage, rising engagement on digital platforms, and the increasing role of online search and discovery in purchase decisions. Digital exploration plays a major role in shaping consumer choices, especially in lifestyle categories, reinforcing the need for brands to establish a strong presence across discovery channels.

Driven by these tailwinds, omnichannel retail[7] is gaining prominence, as consumers are increasingly expecting flexibility and convenience in their shopping journeys. Brands are expanding both online and offline touchpoints, catering to varied preferences and vertical-specific requirements. Omnichannel retail models are growing in broadly two ways – flexible purchases (online or offline shopping) and integrated purchases (online research and offline validation). Consumers can choose to buy either online for value, convenience and variety, or offline for instant access and physical inspection. This dual approach allows brands to cater to both convenience-driven shoppers and those seeking in-person assurance. Further, unlike multi-channel retail, where online and offline experiences remain fragmented, omnichannel retail ensures an integrated journey – from product discovery to post-purchase engagement.

**Core Demand Drivers for Prescription Eyeglasses[8]**

***Globally, refractive errors have become a public health challenge due to evolving lifestyles (particularly increasing screen time, reduced outdoor time, higher air pollution in urban areas, poor dietary practices and shorter sleep cycles), coupled with an ageing population. The global incidence of refractive errors has risen from ~45% of the world population in FY 2020 (i.e., ~3.5 billion individuals) to ~49% in FY 2025 (i.e., ~4.0 billion individuals) and is projected to reach ~55% by FY 2030P (i.e., ~4.7 billion individuals). India and Southeast Asia together contribute to ~30% (i.e., ~1.2 billion individuals) of the global population affected by refractive errors as of FY 2025, with refractive error incidences of ~53% and ~65% of the total population in these regions, respectively. Despite their high contribution to the global prevalence of refractive errors, the penetration of prescription eyeglasses in these markets remains low at ~35% and ~40% of total refractive error incidences respectively, as of FY 2025, primarily due to limited awareness, insufficient access to optometrists and stores, high dependency on unorganised channels, and lack of affordability. In Japan, increasing prevalence of presbyopia coupled with increasing penetration of affordable prescription eyeglasses, especially by direct-to-consumer (D2C) brands, is driving both penetration and growth. While in the Middle East, growth is driven by the increasing frequency of purchase of prescription eyeglasses. This increasing frequency reflects not just medical need but also rising lifestyle orientation of the category.***

[7] Omnichannel retail strategy integrates online and offline shopping experiences for an uninterrupted consumer journey

[8] Prescription eyeglasses refer to eyewear designed to correct vision based on a prescription, consisting of frames and corrective lenses tailored to the wearer's needs, includes computer glasses and zero-power eyeglasses

**Refractive Errors are a Global Public Health Challenge**

***Types of Refractive Errors***

Refractive errors are a silent modern-day global public health challenge, often unnoticed since eyesight deterioration occurs gradually, making changes difficult to detect. Additionally, without a clear reference for normal vision, many remain unaware they have impaired eyesight. Growth in refractive errors is driven largely by rising cases of myopia, presbyopia, hyperopia, and astigmatism. Myopia (near-sightedness) blurs distant objects due to eyeball elongation, linked to excessive near-work and less outdoor time. Hyperopia (far-sightedness) makes close-up focus difficult due to a shorter eyeball, causing eye strain. Presbyopia, an age-related condition, reduces the eye's ability to focus on nearby objects as the lens loses flexibility, often requiring reading glasses. Astigmatism, from an irregular cornea or lens, distorts vision at all distances, leading to discomfort and headaches.

***Incidence and Evolution of Refractive Errors***

According to the "World Report on Vision" by the World Health Organization (WHO) published in October 2019, ~2.6 billion individuals were estimated to be affected by myopia and ~1.8 billion individuals by presbyopia. As per WHO estimates, these figures are projected to grow to ~3.4 billion and ~2.1 billion for myopia and presbyopia respectively by CY 2030P. Given the overlaps between incidences of both myopia and presbyopia and accounting for other refractive disorders such as hyperopia and astigmatism, the number of individuals with refractive errors globally is estimated to be ~3.5 billion (~45% of total population) in FY 2020. The incidence of refractive errors has increased to ~4.0 billion (~49% of total population) in FY 2025 and is further projected to increase to ~4.7 billion (~55% of total population) by FY 2030P.

Asia has the highest contribution to the global population with refractive errors and in India alone, the number of individuals affected by refractive errors has increased from ~590 million (~43% of the population) in FY 2020 to an estimated ~777 million (~53% of the population) in FY 2025, and is projected to rise to ~943 million (~62% of the population) by FY 2030P. This trajectory of increasing refractive errors in India is similar to Asian markets such as China with a lag of ~8 years. Further, markets such as Japan and Southeast Asia have also recorded a steady increase in incidences, with projections indicating higher incidences by 3-5% over the next five years (FY 2025-30P). Singapore and Japan have among the highest incidences of refractive errors globally at ~75% and ~68% of the population, respectively, as of FY 2025.

Globally, refractive errors have become a public health challenge due to evolving lifestyles, coupled with an ageing population. Refractive errors due to lifestyle changes amongst young adults, teenagers, and children can be attributed to increased screen times, reduced outdoor activities, higher air pollution in urban areas (reducing natural-light exposure), and shorter sleep cycles. Additionally, genetic predisposition remains a factor, with a family history of refractive errors increasing the likelihood of developing such conditions.

*[space intentionally left blank]*

***Penetration[9] of Prescription Eyeglasses***

As of March 31, 2025, ~4 billion individuals globally require vision correction for refractive errors. However, only ~2 billion individuals (~50% of refractive error incidences) use prescription eyeglasses, primarily due to a lack of awareness and limited access to affordable products. Additionally, a limited fraction of the population with refractive errors also uses contact lenses for vision correction. Developed markets such as Japan and the United States have higher prescription eyeglasses penetration rates at ~69% and ~88% of the refractive error incidences, respectively, as of FY 2025, driven by better awareness, accessibility and affordability. Meanwhile, India lags with a penetration of ~35% of total refractive error incidences, Metro[10] cities have a higher penetration at ~53% of refractive error incidences, while penetration drops to ~32% of refractive error incidences, among individuals residing in Tier 2+[10] cities/regions, underscoring the need for increased awareness, accessibility and affordability of prescription eyeglasses. The out-of-pocket, cash-pay nature for prescription eyeglasses often delays or discourages adoption. However, rising penetration of vision and general health insurance, particularly through employer-sponsored and government schemes, is beginning to increase penetration of prescription eyeglasses.

Penetration in Southeast Asia remains slightly higher than in India at ~40%, while that in the Middle East remains moderate at ~60% of refractive error incidences as of FY 2025, driven by higher awareness of refractive error correction solutions, disposable incomes, and better access to prescription eyeglasses.

**Exhibit 6: Penetration of Prescription Eyeglasses in India and Key Geographies**

*[space intentionally left blank]*

[9] Penetration of prescription eyeglasses refers to the ratio of people wearing prescription eyeglasses to people with refractive errors

[10] Refer to glossary for definition of Metro, Tier 1 and Tier 2+ cities/regions

### *Financial and Productivity Impact of Refractive Errors*

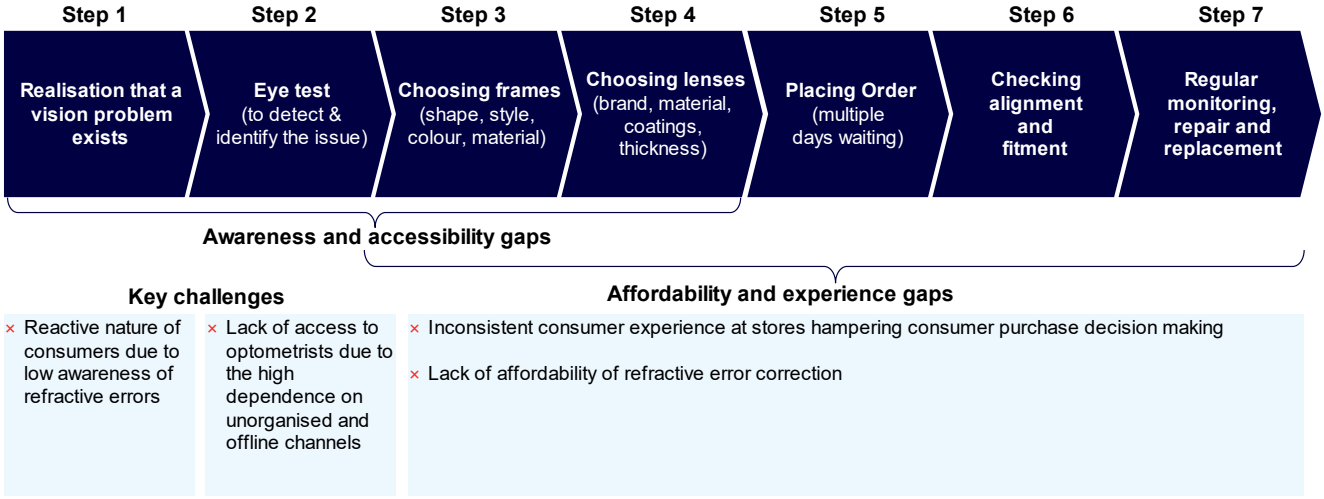
Untreated refractive errors have high financial and social costs, especially in labour-intensive sectors where vision issues reduce worker efficiency, increase error rates, and heighten safety risks. This not only affects individual earnings but also results in productivity losses at scale, placing a burden on national economies. According to the WHO Q&A on refractive errors, updated in August 2024, global economic losses due to uncorrected refractive errors are estimated to be more than ~₹ 21,500 billion (~US$ 250 billion) annually. Asia is estimated to account for 50%+ (i.e., ₹ 10,750-12,900 billion (US$ 125-150 billion)) of the global economic losses, with India's annual economic losses estimated at ₹ 2,580-3,870 billion (US$ 30-45 billion). Providing access to prescription eyeglasses, particularly in rural and lower-income areas, can enhance student performance, workplace efficiency, reduce healthcare costs and unlock economic benefits making policy intervention crucial to support inclusive growth.

### Reasons for Limited Adoption of Prescription Eyeglasses and Evolution over Time

The typical refractive error correction journey should ideally begin with an eye test, which involves detecting and identifying potential refractive errors, followed by purchasing eyeglasses (which itself involves choosing frames and lenses separately, placing the order and waiting for fulfilment, followed by checking for alignment and fitment), regular monitoring of eye health, and repair and replacement of prescription eyeglasses.

**Exhibit 8: Consumer Journey for Refractive Error Correction**

*Descriptive*



*Source(s): Redseer research & analysis*

These gaps in the consumer's refractive error correction journey globally are further expanded below:

### *Reactive Nature of Consumers due to Low Awareness of Refractive Errors, especially in India and Emerging Southeast Asian Economies*

Eyewear penetration in India and emerging Southeast Asian economies remain low due to a lack of awareness and accessibility, and a reactive approach to refractive error correction. Unlike Japan and developed Southeast Asian economies such as Singapore, where regular eye tests drive early identification and diagnosis, refractive error correction in India and emerging Southeast Asian economies is often delayed until impairment is noticed. Further, there still exists a social stigma around wearing eyeglasses, where eye defects are often perceived negatively, discouraging timely vision correction. While challenges persist, increasing awareness driven by social media, growing store density, and policy initiatives are gradually improving penetration. Providing access to free eye testing is a critical first step toward raising awareness about vision correction and encouraging the adoption of prescription eyeglasses.

### *Lack of Access to Optometrists in India, Emerging Southeast Asian Economies, and the Middle East*

The World Council of Optometry (WCO) recommends an optimal benchmark of 100 optometrists per million of the country's population to ensure adequate eye care services. India, emerging markets in Southeast Asia, and the Middle East are actively working towards strengthening optometry coverage through increasing investments in healthcare infrastructure, tele-optometry solutions, and policy initiatives such as the Indian government's National Programme for Control of Blindness and Visual Impairment (NPCBVI), and the World Health Organisation's (WHO) SPECS 2030 initiative. In parallel, large organised eyewear players are increasingly stepping in to address the gap through retail network expansion, in-house optometrists, and remote optometry. The introduction of remote optometry, in particular, improves the utilisation efficiency of optometrists and accessibility for customers.

*[space intentionally left blank]*

*Source(s): Redseer research & analysis*

***Limited Accessibility due to Low Optical Store Density in India and Emerging Southeast Asian Economies***

Prescription eyeglasses penetration remains constrained by the low density of optical stores, influencing accessibility. Emerging markets in Southeast Asia have fewer than 100 optical stores per million population. This gap is compounded by considerable latent demand coming from first-time users, making adoption dependent on physical access. Further, optical store density in India, with only ~60 optical stores per million population, is below store densities across most other retail categories in India, such as pharmacy, electronics, fashion, or jewellery, many of which are also further supplemented by online channels. Meanwhile, online eyewear retail in India remains relatively nascent, reinforcing the dependence on physical outlets.

Optical retail requires infrastructure such as diagnostic equipment, and edging and fitting machinery, which increases setup and operating costs (compared to other retail formats) and compounding this is the limited availability of skilled professionals. Limited availability of qualified optometrists not only inflates hiring costs but also makes staffing expansion across geographies logistically difficult. Similarly, trained personnel for on-site lens cutting and fitting are in short supply, creating further bottlenecks in delivering quick and accurate prescription fulfilment. This gap highlights a challenge - limited store presence with high operational costs and skill gap, fragmented supply chains, and weaker unit economics restrict consumer access to high-quality refractive error correction solutions.

**Exhibit 10a: Number of Optical Stores per Million Population in India and Key Geographies**

***Lack of Affordable Refractive Error Correction in India and Emerging Southeast Asian Economies***

Prescription eyeglass prices exhibit variance across geographies. In India, economy single vision and progressive eyeglasses retail for under ~₹ 1,500 (~US$ 17) and ~₹ 3,000 (~US$ 35), while luxury options exceed ~₹ 8,600 (~US$ 100). Southeast Asia sees similar thresholds at under ~₹ 1,700 (~US$ 20) and ~₹ 3,400 (~US$ 40), respectively, with luxury pairs above ~₹ 8,600 (~US$ 100). In Singapore, these rise to under ~₹ 4,300 (~US$ 50) and ~₹ 8,600 (~US$ 100) respectively, with luxury options over ~₹ 17,200 (~US$ 200). Japan's economy range extends to under ~₹ 11,500 (~US$ 134) and ~₹ 17,200 (~US$ 200),

respectively, with luxury glasses priced above ~₹ 28,900 (~US$ 336). The Middle East reflects higher variation, with economy options under ~₹ 7,700 (~US$ 90) and ~₹ 12,900 (~US$ 150), respectively, and luxury prices surpassing ~₹ 23,200 (~US$ 270). The average selling price for prescription eyeglasses in India and Southeast Asia remains a major expense for many requiring prescription eyeglasses, albeit lower than the global average.

**Exhibit 11: Average Selling Price (ASP) of Prescription Eyeglasses - India and Key Geographies**

*Source(s): World Bank, Redseer research & analysis*

The lack of affordability of prescription eyeglasses limit access for many consumers across India and emerging markets in Southeast Asia. This is driven by multiple factors:

- *Concentrated global supply chain of lenses:* The global prescription lens supply is dominated by a few manufacturers from developed markets which specialise in sophisticated lens coatings, advanced surfacing techniques, and proprietary manufacturing technologies. As most emerging market retailers rely on importing these lenses, particularly for higher-index or coated variants, input costs tend to be higher. This dependence on external sourcing combined with limited local manufacturing capabilities raises retail prices. The cost impact is more noticeable for progressive lenses, which require complex optical alignment and are, on average, twice as expensive as single-vision lenses.

- *Import dependency for frames:* While frames are more widely manufactured than lenses, many branded or premium variants - particularly acetate and metal frames - are still imported through multiple intermediaries, primarily from China. This fragmented sourcing structure and reliance on brand markups further elevate retail prices, especially for players that lack direct procurement or manufacturing integration.

- *High intermediary margins:* The presence of multiple intermediaries across the traditional prescription eyeglasses supply chain cumulatively inflates retail prices, driven by distributor and retailer markups.

- *Requirement of skilled labour:* Skilled labour needs to be recruited and trained not just for general manufacturing, but for high precision, customised work that adheres to tight optical tolerances. For instance, lenses are traditionally manually cut and edged over a spinning wheel, leading to inconsistent outcomes which are highly dependent on the skill of the professional involved. Further, ongoing investment is required in labour upskilling, as outcomes vary significantly with individual skill.

- *Limited availability of skilled optometrists:* In addition to higher product costs, the limited availability of skilled optometrists across traditional retailers often leads consumers to seek testing at private clinics or hospitals, where consultation fees are higher. This drives up the cost of eye testing, an essential step in the correction journey, further amplifying the affordability challenge.

Given the recurring nature of expenses on prescription eyeglass purchases (as refractive powers change), these factors collectively make affordability a substantial concern, particularly in emerging markets. Moreover, the adoption of surgical refractive error correction procedures such as LASIK (Laser-Assisted In Situ Keratomileusis) and SMILE (Small Incision Lenticule Extraction) remain limited in these markets owing to the high cost of treatment. The cost for a LASIK procedure in India ranges anywhere between ₹ 20,640-1,03,200 (US$ 240-1,200), while that in emerging Southeast Asian markets ranges from ₹ 86,000-3,44,000 (US$ 1,000-4,000), higher than the price of a pair of prescription eyeglasses. Other factors affecting the adoption of surgical refractive error correction solutions include low perceived urgency, limited awareness, fear of surgical procedures and risks, eligibility constraints (e.g., thin corneas, dry eyes, unstable prescriptions), and uneven access to qualified eye care providers. Furthermore, surgical correction does not always eliminate the eventual need for prescription eyeglasses, particularly as vision changes with age, further dampening its perceived value in the eyes of potential patients.

*[space intentionally left blank]*

***High Dependence on Unorganised Retailers Globally With Inconsistent Customer Experience***

Globally, eyewear retailing is composed of several types of retailers. Smaller, unorganised retailers generally have fewer than five stores and offer fragmented, store-dependent service models. Whereas traditional organised retailers typically have more than five outlets but have limited backend integration and localised operations. Most of these traditional organised retailers have limited presence outside of large cities. Meanwhile, large organised retailers typically have a multi-regional footprint, partially or fully integrated supply chains, and deliver a standardised customer experience across thirty or more outlets. The prescription eyeglass market in emerging markets such as India and Southeast Asia has historically been dominated by unorganised retailers, with only ~23% and 28-30% of the respective markets being driven by organised players (including traditional organised and large integrated organised players) respectively, as of FY 2025. This creates multiple challenges for consumers, as access to affordable high-quality options is limited.

The in-store experience among unorganised and traditional organised eyewear retailers shows marked variation compared to large organised retailers in pricing transparency, product availability, diagnostic technology, design options, customisation capabilities, and service timelines leading to an inconsistent purchase experience, further deterring adoption. These retailers often rely on third-party suppliers, offer a constrained product assortment, and operate with less streamlined supply chain processes. Frames and lenses are typically sourced from different vendors, creating a fragmented supply chain. This fragmentation hinders communication and creates a broken feedback loop, often preventing issues like misalignment or quality concerns from being adequately addressed. Consequently, customers may encounter inconsistent quality and longer wait times. Additionally, a shortage of trained sales professionals further compounds the challenge, making it difficult for consumers to navigate the complex process of selecting frames and lenses, including decisions on frame brand, lens material, coatings, and quality, and ensuring accurate alignment and fitment.

Meanwhile, the share of organised retailers is much higher in markets such as the Middle East, Japan, and the United States, driving higher penetration of prescription eyeglasses in these markets and supporting the scale-up of online channels, aided by a higher purchasing power of consumers in these markets (driving higher average selling prices), greater consumer trust in brand-backed offerings and familiarity with consistent retail experiences.

**Exhibit 12: Organised Share of Prescription Eyeglasses Retail Sales in India and Key Geographies**

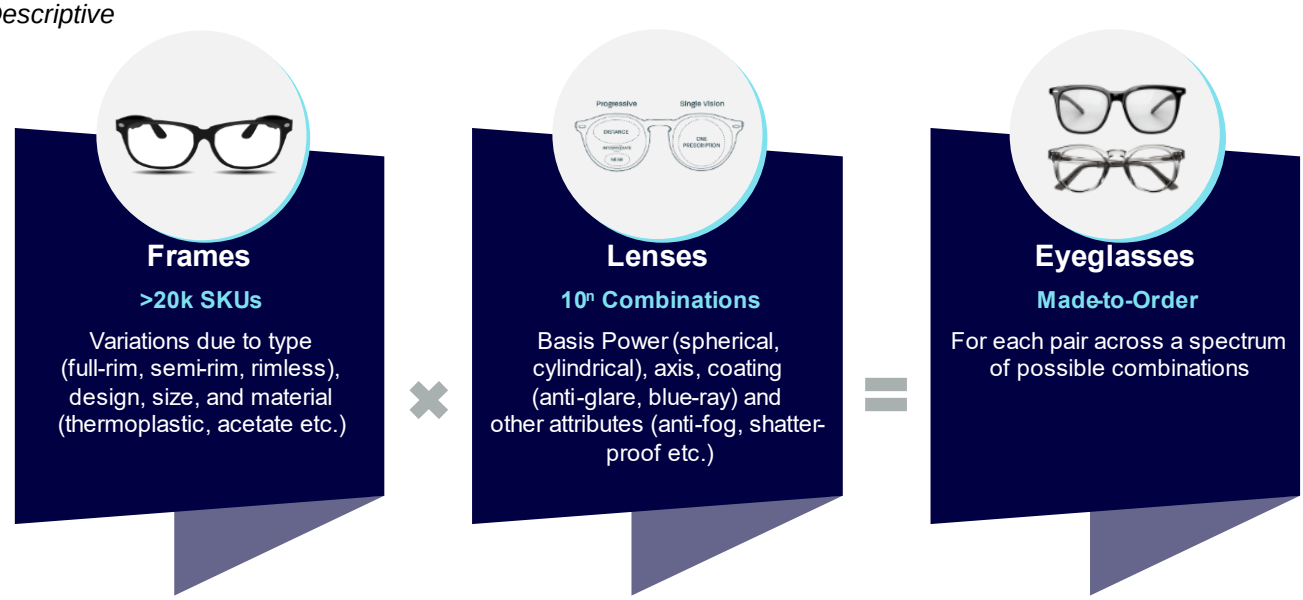
*3. The Middle East includes Saudi Arabia and the UAE*
*Source(s): Redseer research & analysis*

***Complex Category Requiring Customisation Leading to Scalability Challenges for Unorganised Retailers***

The prescription eyeglasses industry requires significant customisation, starting with precise prescription measurements. Lens customisation extends beyond basic prescriptions to include specialised coatings, materials, and designs individual requirements. For single-vision lenses alone, there are millions of possible combinations when factoring in power, coating, and material choices - while progressive lenses can involve billions of permutations due to the need for precise multifocal alignment and wearer-specific fitting. Frame selection further adds to the complexity, with retailers required to manage large and diverse SKU counts across styles, sizes, and colours to cater to varied aesthetic preferences.

*[space intentionally left blank]*

**Exhibit 13: Possible Combinations of Prescription Eyeglasses**
*Descriptive*



*Source(s): Redseer research & analysis*

These customisation requirements make scaling prescription eyeglasses challenging, with each unit being made-to-order. Unlike consumer categories with standardised SKUs, prescription eyeglass retailing must balance mass production efficiency with bespoke specifications for each user. Customer experience is reliant on the opticians' skills, particularly in the precise fitting of lenses into frames. This involves cutting and edging lenses to match each prescription, ensuring correct alignment based on pupillary distance, and adjusting frame fit for comfort, all of which require in-store expertise. Without these capabilities, bottlenecks in production and fulfilment arise, limiting scalability while maintaining quality and customisation.

***Nascency of Online Channels with Large Share of First Time Buyers, Especially in Emerging Markets***

Consumers remain hesitant to buy prescription eyeglasses online due to limited digital familiarity, lack of tactile experience, and absence of in-person adjustments, which together hinder at-scale adoption in low digital penetration markets. As a result, penetration of the organised online channel globally has been limited to less than 8% of the total sales of prescription eyeglasses as of FY 2025. In India, the share was less than 5% of total sales for prescription eyeglasses in FY 2025, which is lower than other discretionary categories (~50% in consumer electronics, ~25% in fashion, beauty & personal care, and ~6% in jewellery).

Although the online channel is in its early stages, it is increasingly influencing offline store operations and customer purchase journeys. This underscores the importance of a truly omnichannel approach, where online and offline channels are integrated to provide a consistent shopping experience. Further, the bespoke nature of prescription eyeglasses requires strong technology integration, like digital try-ons, driving disruption in traditional retail workflows.

As omnichannel, vertically integrated large organised players solve these initial challenges through quality products and investments in tech-led solutions, future growth of the online channel is projected to be driven by higher repeat purchases, improved customer experience, easier browsing journeys, and expanding SKU depth. Technology-led features such as AR-powered digital try-ons and online prescription capture are increasingly bridging the gap with offline stores, positioning online eyewear for future expansion.

## Rise of Prescription Eyeglasses as a Lifestyle Category

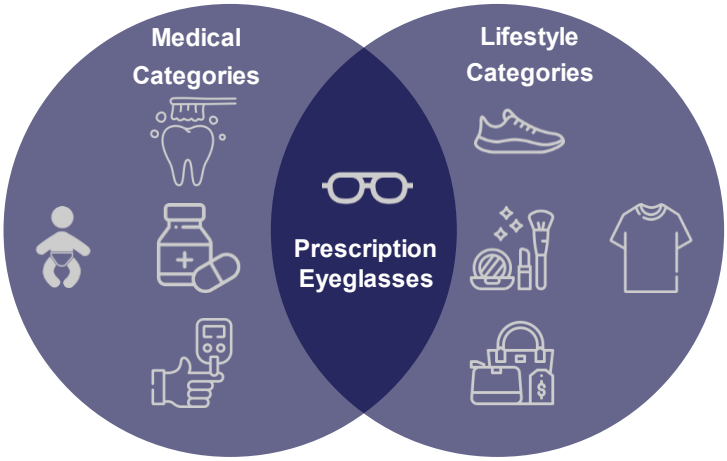
***Globally, prescription eyeglasses are evolving from a necessity to becoming a fashion-driven lifestyle accessory, straddling both essential healthcare and discretionary spending. While still in nascent stages, consumers are starting to use multiple pairs of prescription eyeglasses that elevate their style and personalisation, similar to other fashion products such as apparel, footwear, and accessories. This trend of function to fashion is fuelled by societal acceptance of corrective eyeglasses, improving affordability, the influence of digital content & social media, and frequent design refreshes by large organised retailers and brands. Technological advancements and product innovation by these large organised retailers are further enhancing customisation requirements.***

***Increasing Demand for Fashionable Prescription Eyeglasses***

Prescription eyeglasses straddle lifestyle and essential spending - while essential from a medical use case standpoint, they are also influenced by fashion trends and gradually driving higher frequency of purchase, aligning with the broader growth trajectory of lifestyle categories.

*[space intentionally left blank]*

**Exhibit 14: Prescription Eyeglasses as a Medical as well as Lifestyle Category**
*Descriptive*



*Source(s): Redseer research & analysis*

Globally, the demand for more fashionable prescription eyeglasses has been on the rise, driven by the factors outlined below:

*Growing social media prevalence and omnichannel retail experiences has influenced consumer behaviour, fuelling the perception of prescription eyeglasses as a fashion-forward accessory*

Prescription eyeglasses are no longer viewed purely as a medical necessity but are becoming a fashion-forward lifestyle accessory. This shift is driven by growing social media influence, rising digital engagement, and the increasing presence of organised retailers offering seamless online-offline shopping journeys. These younger cohorts of consumers rely on influencers, brand collaborations, and user-generated content to guide their purchasing decisions, where factors such as peer recommendations and online reviews, and visibility subtly shape brand perception alongside traditional advertising.

As a result of this, the selection of frame styles, types of coating within lenses, and the overall aesthetic of prescription eyeglasses has become a thoughtful and deliberate process in the consumer's prescription eyeglass purchase journey. According to global Google search trends, between CY 2019 and CY 2024, global average monthly searches for shopping "oversized glasses", "transparent glasses", "cat-eye glasses" and "geometric glasses" increased by ~45%, ~80%, ~171%, and ~247% worldwide, respectively. Further, powered sunglasses are gaining traction as a hybrid category, bridging the need for UV protection with refractive correction, offering a stylish and practical solution for outdoor environments.

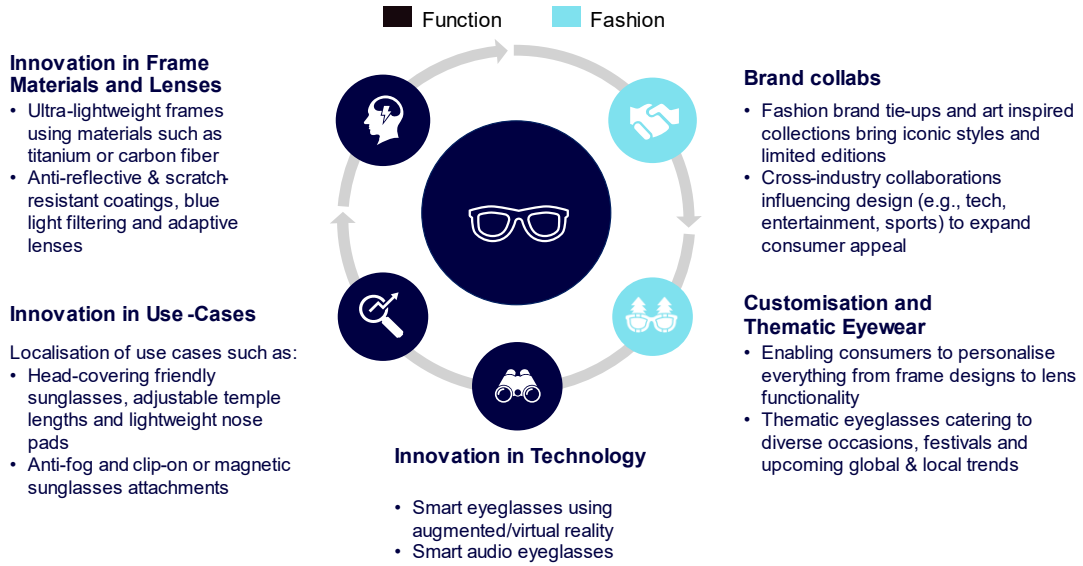
Large organised retailers and brands are experimenting with offerings such as broader frame selections online, digital try-on tools, and AI-enabled chatbots to assist customers in choosing frames and lenses, though these features are still in early stages of adoption. While these features enhance convenience, their impact is currently more visible in urban markets, with broader uptake expected as digital familiarity increases. Further, large organised retailers are also beginning to refine the in-store experience with boutique-style layouts, interactive displays, data-driven product placements, complementary on-site eye tests, and home eye-test bookings. Some stores are incorporating style-savvy consultants to guide customers on face shapes, trends, and lens needs. Complementary after-sales services, such as free adjustments and easy returns, are also emerging to complete the shopping journey for customers.

*Brands are responding with more frequent collections, greater customisation, and product innovation*

The rising demand for stylish, contemporary designs requires these players to refresh their collections more frequently to stay relevant. As a result, large organised retailers, globally, are increasingly forming more collaborations with fashion designers, tech companies, and even cultural figures, creating capsule-edition collections that blend style and cutting-edge technology. This is reflected in the wide assortment offered by these retailers. Typically, large organised retailers have over 20,000 SKUs (stock keeping units) of frames, depending on the level of vertical integration, whereas traditional organised players have less than 10,000 SKUs, and unorganised retailers have less than 1,500 SKUs. Large organised retailers are also investing in personalisation through varied frame shapes, colours, and sizes, creating a more tailored shopping experience.

Recent global product innovations in prescription eyeglasses have focused on enhancing comfort, functionality, and design, with brands and large organised retailers such as direct-to-consumer (D2C), vertically integrated and digital-first retailers developing tailored products to address specific consumer needs. In India, while functional enhancements such as blue-light filtering and lightweight materials are gaining traction, transition of prescription eyeglasses into a lifestyle category is still at a relatively early stage. Introduction of a variety of fashionable designs and thematic collections are gradually driving personalisation, but affordability remains a key consideration. The market is evolving to offer eyewear that blends style, functionality, and lasting comfort, catering to both fashion-conscious and practical consumers. Innovation is also expanding into technology-enabled formats, with smart glasses beginning to scale, as improvements in hardware and user experience make them more viable for everyday use.

**Exhibit 15: Product Innovation in Prescription Eyeglasses Led by Large Organised Retailers Globally**
*Descriptive*



*Source(s): Redseer research & analysis*

*This has led to more frequent prescription eyeglasses purchases, mirroring trends witnessed across other discretionary lifestyle retail categories such as 'Fashion'*

Eyewear has traditionally been a low-frequency purchase category compared to other discretionary lifestyle categories such as footwear, apparel, and fashion accessories. However, as eyewear becomes a form of self-expression, consumers are purchasing multiple pairs of prescription eyeglasses to suit different styles, occasions, and use cases, there has been increase in the frequency of purchases. This trend is particularly more evident in emerging markets such as India, where consumers on average purchase ~1.8 pairs of eyewear every 2 years, as of FY 2025, witnessing growth over the past two decades.

**Exhibit 16a: Average Units of Prescription Eyeglasses Purchased in 2 years among Users - India**
*FY 2010-25, in units*

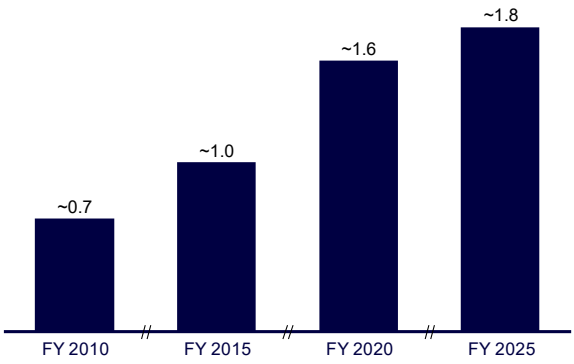


**Exhibit 16b: Average Consumer Purchases across Categories in 2 years - India**
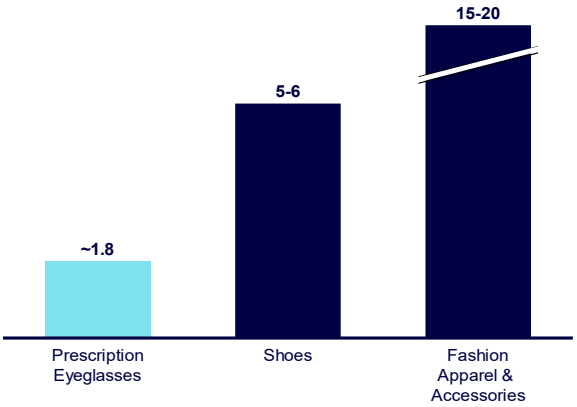
*FY 2025, in units*



*Source(s): Redseer research & analysis*

These higher frequency purchase patterns mirror those seen in discretionary lifestyle categories. However, this is still quite lower than the average units of footwear, fashion apparel, and accessories bought in the same duration, indicating headroom for eyewear growth, especially in markets such as India, driven particularly by the rising demand from fashion-forward younger cohorts of consumers.

**Eyewear Opportunity Overview**

***The global eyewear market, valued at ~₹ 15,207 billion (~US$ 177 billion) in FY 2025, is projected to reach ~₹ 18,657 billion (~US$ 217 billion) by FY 2030P. Prescription eyeglasses have the highest contribution with ~70% of total market by value, followed by contact lenses and sunglasses. Asia contributes 29-37% of the global eyewear market as of FY 2025, and emerging markets such as India and Southeast Asia are projected to be the fastest growing markets, with their organised eyewear markets projected to grow at ~19% and 10-14% respectively between FY 2025-30P. Their growth is driven by increasing awareness on prevalence of refractive errors, improving affordability of prescription eyeglasses, and the expanding presence of organised players. Japan's stable market is consolidating around value-focused organised chains, due to the rising share of direct-to-consumer brands and private labels, while the organised eyewear market growth of ~10% in the Middle East is attributed to higher purchase frequency and omnichannel retail adoption driven by direct-to-consumer***

***(D2C) brands. Further, the category's dual relevance across healthcare and lifestyle is driving growth across developed and emerging markets alike.***

**Global Eyewear Opportunity Overview**

The global eyewear market is large and steadily growing, driven by the increasing incidence of refractive errors, increasing awareness and access driving penetration of prescription eyeglasses with rising disposable incomes, and evolving consumer preferences. This growth has been complemented by a rapid shift from unorganised to organised retailers in the eyewear market across geographies. As of FY 2025, the global eyewear market is estimated at ~₹ 15,207 billion (~US$ 177 billion) and is projected to grow at a CAGR of ~4% to reach ~₹ 18,657 billion (~US$ 217 billion) by FY 2030P. The eyewear market opportunity in Asia alone is sized at ₹ 4,700-5,600 billion (US$ 55-65 billion) as of FY 2025 and is projected to increase to ₹ 6,000-7,800 billion (US$ 70-90 billion) by FY 2030P, growing at a CAGR of 6-8%. Prescription eyeglasses account for ~70% of the global eyewear market as of FY 2025, driven by their dual relevance across healthcare and lifestyle and rising penetration. Sunglasses and contact lenses, while smaller in share, represent important lifestyle and functional divisions. Consumer behaviour across these categories varies widely by use-case and price-sensitivity. While price-sensitive consumers continue to patronise neighbourhood opticians, fashion-forward consumers increasingly experiment with international labels.

**Exhibit 17a: Global Eyewear Market Value**
*Value in ₹ billion (US$ billion) for FY 2020, 2025, 2030P*

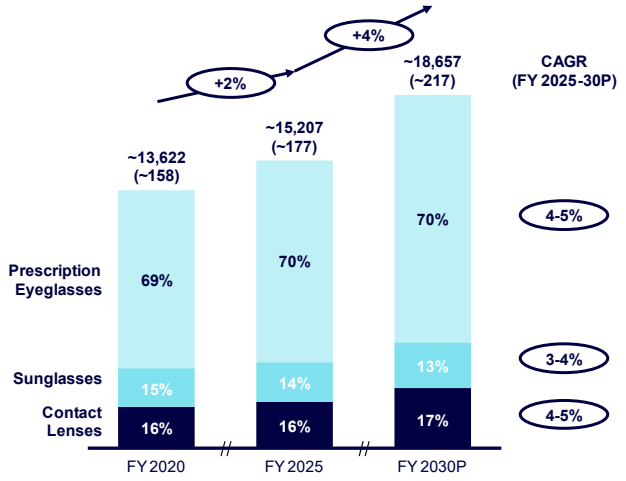


**Exhibit 17b: Global Eyewear Market Value - Split by Major Countries & Regions**
*In % of total eyewear market size, Value in ₹ billion (US$ billion) for FY 2025*

*3. Southeast Asia comprises of Indonesia, Malaysia, Philippines, Singapore, Thailand and Vietnam*
*4. The eyewear market in Taiwan is valued at valued at ~₹ 112 billion (~US$ 1.3 billion) in FY 2025 and is projected to grow to ~₹ 147 billion (US$ 1.7 billion) by FY 2030P, with prescription eyeglasses contributing to 40-50% of the eyewear market*
*5. The eyewear market in Hong Kong is valued at valued at ~₹ 39 billion (~US$ 0.5 billion) in FY 2025 and is projected to grow to ~₹ 47 billion (US$ 0.6 billion) by FY 2030P*
*6. Rest of the world refers to eyewear market in geographies excluding Asia, the United States, Europe, and Australia*
*Source(s): Redseer research & analysis*

Growth dynamics in the global eyewear market vary considerably between developed and emerging markets. Emerging markets, such as India and parts of Southeast Asia, are projected to see the fastest growth, driven by the rising need for prescription eyeglasses due to the increasing incidence of refractive errors, growing penetration, and a shift toward organised retailers boosting adoption. This growth is further supported by premiumisation trends, driven by macroeconomic tailwinds such as rising disposable incomes and demographic shifts and fashion-oriented demand for prescription eyeglasses.

Meanwhile, developed markets such as Europe, Japan, Singapore, and the United States are projected to experience steady growth, driven by premiumisation and lifestyle spending that boosts demand for both prescription eyeglasses and other eyewear products such as sunglasses and contact lenses. These developed markets also benefit from a higher share of organised retail, with established brands and chains dominating distribution, unlike the more fragmented market structures typical of emerging markets.

## Geography-Wise Opportunity Deep Dives

### *India is One of the Fastest Growing Eyewear Markets Globally*

With a CAGR of ~13% between FY 2025 and FY 2030P, the eyewear market in India is projected to expand at ~1.5x the rate of the overall retail market in India and 3x faster than global eyewear market during the same period and projected to reach ~₹ 1,483 billion (~US$ 17.2 billion) by FY 2030P, from ~₹ 788 billion (~US$ 9.2 billion) in FY 2025. Prescription eyeglasses constitute the largest category at ~73% of this market in value terms, followed by sunglasses and contact lenses.

**Exhibit 19a: India Eyewear - Market Value**
*Value in ₹ billion (US$ billion) for FY 2020, 2025, 2030P*

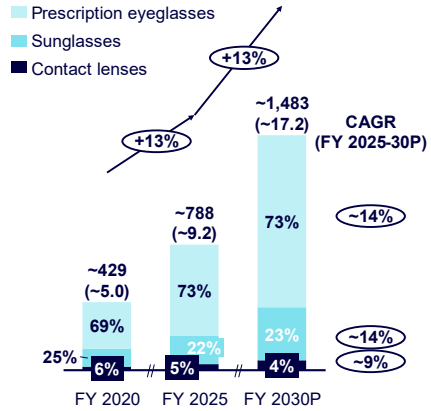

**Exhibit 19b: India Eyewear - Market Volume**
*Volume in million units for FY 2020, 2025, 2030P*

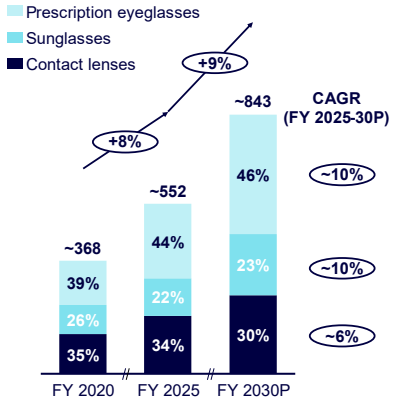

**Exhibit 19c: India Eyewear - Average Selling Price (ASP)**
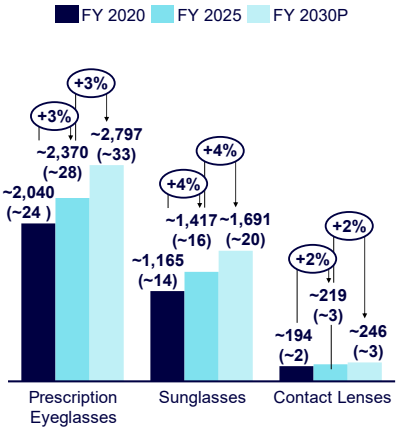
*Price in ₹ (US$) for FY 2020, 2025, 2030P*



*Note(s): 1. Considering exchange rate of US$ 1 = ₹ 86*
*Source(s): Redseer research & analysis*

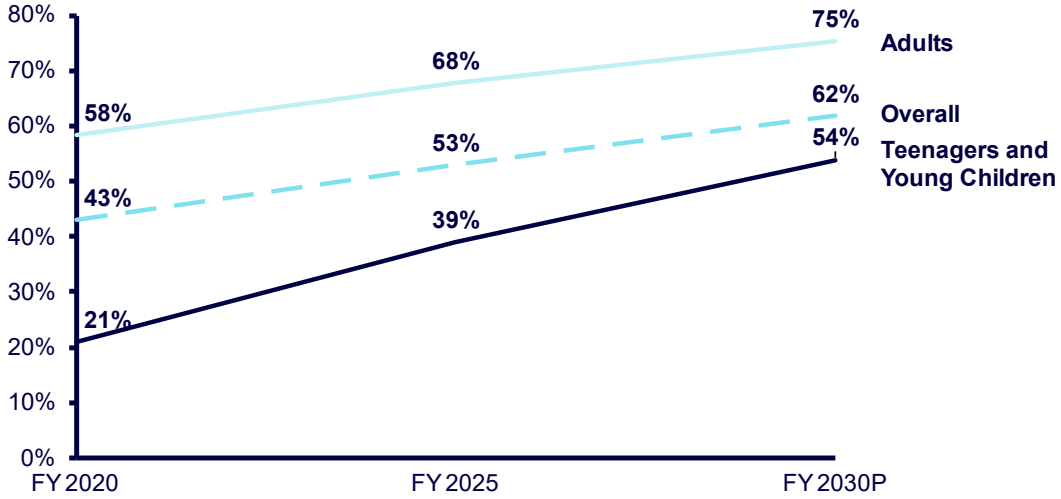
There are multiple factors driving the Indian eyewear market, as detailed below:

*Rising refractive errors among teenagers and young children*

Increasing prevalence of refractive errors, especially myopia, among teenagers and children is being driven by a combination of behavioural and lifestyle factors. Contributors include excessive screen time, particularly late-night smartphone use, prolonged near-work activities like reading and studying, limited exposure to natural light due to reduced outdoor play, and poor visual habits such as incorrect posture and inadequate lighting. Academic pressure and irregular sleep patterns also play a role in straining eye health. While the overall prevalence of refractive error grew from ~43% of the population in FY 2020 to ~53% of the population in FY 2025, it grew much faster among children from ~21% of the population in FY 2020 to ~39% of the population in FY 2025 and is projected to reach ~54% of the population by FY 2030P - more than doubling over the current decade.

*[space intentionally left blank]*

**Exhibit 20: Prevalence of Refractive Errors in India by Age Group**
*% of population for FY 2020, 2025, 2030P*



*Note(s): Teenagers and young children refer to people within the age group 10-19 years, while adults refer to those 20 and above*
*Source(s): Redseer research & analysis*

*Lifestyle factors and increasing awareness of refractive errors are driving growth across city tiers*

Prevalence of refractive errors is highest in India's Metro[11] cities, largely driven by modern lifestyles, followed by Tier 1[11] cities and lowest in Tier 2+[11] cities/regions. Prescription eyeglasses penetration also follows a similar pattern, reflecting varying degrees of consumer awareness, affordability, and retail access across cities/regions. In Tier 2+ cities/regions, limited early eye screenings leave many people unaware of their vision issues, and relatively high eyeglass costs further restrict prescription eyeglasses penetration. Growth in prescription eyeglasses in Tier 1 and Tier 2+ cities/regions is largely refractive error correction-driven and catalysed by increasing access to affordable eyeglasses, especially amongst first-time users. While these markets continue to expand driven by essential healthcare needs, lifestyle-led consumption is also gaining ground. At the same time, Metros are witnessing a more pronounced shift toward lifestyle-led consumption and premiumisation, driven by higher fashion consciousness and a stronger presence of organised players. Additionally, the gradual rise of vision-related insurance coverage - particularly through employer health plans - is expected to support penetration.

**Exhibit 21: India - Prescription Eyeglasses Funnel by City Tier**
*FY 2025*

*Source(s): Redseer research & analysis*

*Growth in the organised channels is influencing India's eyewear market by solving for better access, affordability, and improved customer experience*

The Indian eyewear market is highly fragmented with ~24% of the market driven by organised channels as of FY 2025. The growth of organised channels has historically been constrained by limited infrastructure and accessibility, driven by the inefficiencies in the traditional supply chain and the presence of multiple intermediaries, coupled with the operational intensity of the category which requires the presence of skilled professionals, such as optometrists for eye testing and opticians for frame and lens dispensing, adjustments, and customer assistance, at each store location. However, large integrated organised retailers

[11] Refer to glossary for definition of Metro, Tier 1, and Tier 2+ cities/region

are driving growth in the organised channel through efficient supply chains, better value-for-money offerings, and in-store trained optometrists and opticians. This leads to a consistent product quality across price-points, wider assortments, and a customer experience enhanced by the blend of digital and physical retail touchpoints. As a result, the organised channel is projected to grow ~1.6x times faster than the unorganised channel, accounting for ~31% of the overall market by FY 2030P.

**Exhibit 22a: India Eyewear Split by Channel**
*Market size in ₹ billion (US$ billion) for FY 2020, 2025, 2030P*

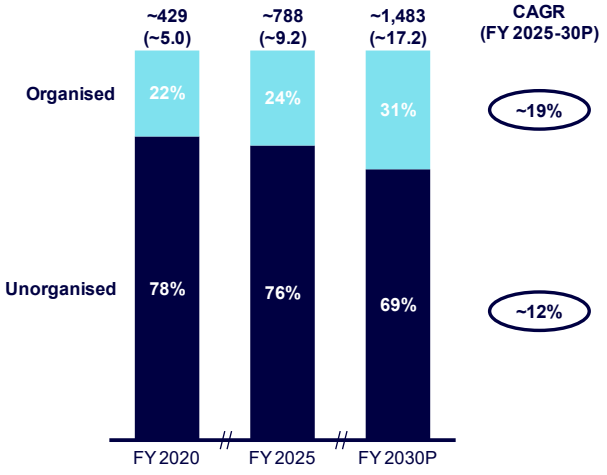


**Exhibit 22b: India Organised Eyewear Split by Category**

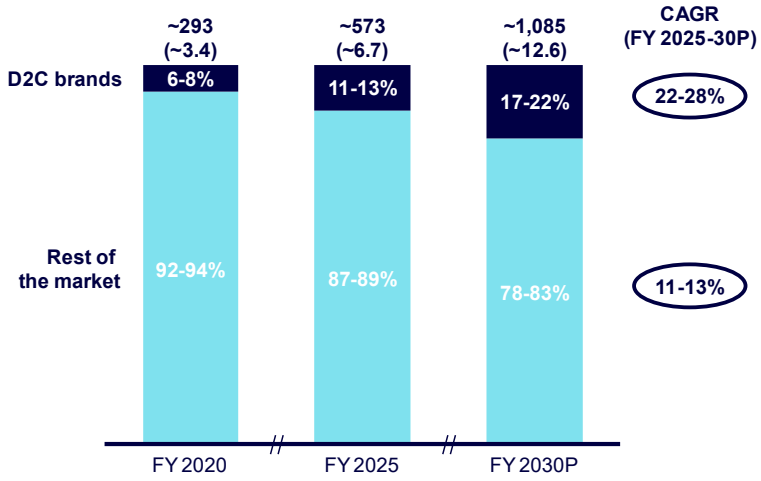
*Note(s): Considering exchange rate of US$ 1 = ₹ 86*
*Source(s): Redseer research & analysis*

Historically, the prescription eyeglasses market in India has exhibited a wide range of price points, with organised incumbents commanding a premium over unorganised alternatives and providing consistent quality, wider assortments, and enhanced service. While the unorganised channel remains relatively inexpensive, it often leads to lower customer satisfaction owing to instances of inconsistent quality due to lack of durability, long delivery timelines due to fragmented supply chain, narrow product assortment, lack of trained optometrists, limited use of technology and the absence of after-sales service. This has created a whitespace for value-focused offerings by direct-to-consumer players to capture, as consumers increasingly demand reliability, affordability, and a more seamless shopping experience. As a result, these players are investing in improved product design, wider and trendier assortment, after-sales support, and omnichannel models, making organised retail increasingly attractive across consumer groups. Direct-to-consumer (D2C) brands' share of prescription eyeglasses market (in value terms) has grown from 6-8% of the prescription eyeglasses market in FY 2020 to 11-13% in FY 2025, growing at a CAGR of 25-30%. This is further projected to grow at a CAGR of 22-28% to reach 17-22% of the market by FY 2030P.

**Exhibit 23: India Prescription Eyeglasses Market - Split by D2C Brands and Others**
*Market size in ₹ billion (US$ billion) for FY 2020, 2025, 2030P*



*Note(s): 1. Considering exchange rate of US$ 1 = ₹ 86*
*2. Rest of the market consists of brands sold through traditional intermediaries such as wholesalers and third-party retailers*

*[space intentionally left blank]*

*Growth in sunglasses, contact lenses and accessories*

The sunglasses market in India is valued at ~₹ 174 billion (~US$ 2.0 billion) in FY 2025 and is projected to grow at a CAGR of ~14%, reaching ~₹ 335 billion (~US$ 3.9 billion) by FY 2030P. This growth is fuelled by shifting consumer perceptions of sunglasses as both a functional necessity and a lifestyle accessory, alongside rising disposable incomes and a growing affinity for premium and branded offerings. Additionally, increasing UV protection awareness, expansion of omnichannel retail models, and the proliferation of fashion-driven trends are accelerating demand. Organised players are particularly well-positioned to capture this growth, offering a wider assortment of stylish, high-quality sunglasses and advanced contact lens solutions with value-added services such as customised fittings, specialist consultations, and digital-to-store experiences. Powered sunglasses are an emerging subcategory, catering to consumers seeking vision correction along with UV protection. As awareness and outdoor lifestyle needs grow, this sub-category is gaining traction for its functional utility and style appeal.

The contact lenses category is also poised for sustained growth, driven by evolving consumer preferences. The market for contact lenses in India is sized at ~₹ 41,164 million (~US$ 480 million) in FY 2025 and is projected to grow at a CAGR of ~9%, reaching ~₹ 62,966 million (~US$ 730 million) by FY 2030P. The category is benefiting from rising consumer awareness, greater access to advanced lens technologies, and evolving lifestyle preferences.

The eyewear industry is seeing early signs of growth in accessories, with clip-ons, interchangeable fittings, and premium lens-care kits gaining interest among consumers seeking customisation. While still a nascent trend, few large organised retailers are experimenting with bundled deals and premium add-ons to enhance engagement and increase transaction values. As multi-use eyewear solutions attract more attention, accessories could become a small but valuable avenue for differentiation and incremental revenue.

***Japan is a Stable Market Undergoing Organisation Led by Value-Focused Players***

The Japanese eyewear market is large and stable, valued at ~₹ 690 billion (~US$ 8.0 billion) in FY 2025 and is projected to grow at a CAGR of ~3%, reaching ~₹ 787 billion (~US$ 9.2 billion) by FY 2030P.

*Increasing prevalence of refractive errors driven by an ageing population*

With ~68% of the population affected by refractive errors in FY 2025, prescription eyeglasses remain the largest category with stable growth supported by an ageing population, driving an increasing incidence of presbyopia and sustained demand for refractive error correction solutions. Prevalence of refractive errors is further projected to increase to ~71% of the population in FY 2030P.

*Source(s): Redseer research & analysis*

*Value-focused large organised retailers dominate the prescription eyeglass market in Japan, driven by their private labels and direct-to-consumer approach*

While the market for prescription eyeglasses has been stable, in value terms, organised retailers have witnessed slightly higher CAGR of 4-5% from FY 2020-25, compared to a CAGR of 2-3% for overall prescription eyeglasses market during the same period. Growth of organised retailers was primarily driven by value-focused direct-to-consumer (D2C) brands, who outperformed traditional optical chains, department stores, and unorganised retailers. These players gained traction by offering functional, fashionable, and quick-service eyewear through fixed-price, all-inclusive packages that disrupted the traditional model of charging separately for frames, lenses, and additional coatings.

This shift in the prescription eyeglasses market has led to:

- *Long term reduction in average selling prices historically:* Over the past two decades, these value-focused large organised retailers have disrupted the market by introducing low-cost, standardised pricing models, making prescription eyeglasses more accessible. The average selling price (ASP)[12] of prescription eyeglasses has declined from ~₹ 17,200 (~US$ 200) in FY 2001 to ~₹ 12,315 (~US$ 143) in FY 2025. This decline has been driven by a shift in the market structure towards value-focused models, alongside a long-term supply-side shift in manufacturing from Japan to lower-cost hubs such as China. Though prices reduction has stabilised in recent years, rising input costs have led to 1-2% CAGR in ASP between FY 2020-2025, and are projected to witness a moderate upward movement in the coming years.
- *Higher frequency of purchases by younger consumers:* This has encouraged higher purchase frequency among young customers, with consumers aged under 50 years now having purchase frequency over 3 times of those aged over 50 years, as these consumers are increasingly purchasing multiple pairs for different occasions and styles.

Despite lower ASPs, value-focused direct-to-consumer large organised retailers are able to protect their margins by offering differentiated, value-added products such as lightweight, durable frames, and advanced lenses with anti-fatigue and blue-light filtering features. Their growth is supported by private label offerings and greater control through vertically integrated supply chains. As a result, the market share of direct-to-consumer (D2C) brands rose from 24-26% in FY 2020 to 30-32% in FY 2025, growing at a CAGR of 6-8%. This is further projected to rise to 40-45% by FY 2030P, growing at 7-10% CAGR, outpacing overall and organised market growth. This momentum is also expected to increase the organised retail share of the overall eyewear market from ~63% in FY 2025 to ~69% by FY 2030P, as these players continue to gain ground over unorganised retailers and traditional multi-brand optical chains.

**Exhibit 25: Japan Prescription Eyeglasses Market - Split by D2C Brands and Others**
*Market size in ₹ billion (US$ billion) for FY 2020, 2025, 2030P*

*2. Rest of the market consists of brands sold through traditional intermediaries such as wholesalers and third-party retailers*
*Source(s): Redseer research & analysis*

*Sunglasses and contact lenses markets are witnessing adoption-led growth*

The Japanese sunglasses market is a large and fast-growing market, valued at ~₹ 68 billion (~US$ 0.8 billion) in FY 2025 with ~34% of the population using sunglasses, and is projected to grow at a CAGR of ~8%, reaching ~₹ 101 billion (~US$ 1.2 billion) by FY 2030P. Previously viewed unfavourably due to the anti-social stigma associated with them, sunglasses are now seen as both a functional necessity (offering benefits such as UV protection) and a style accessory accelerating mainstream adoption. Japanese consumers continue to prioritise precision, durability, and functionality, which led to steady revenue growth for organised players in the region.

The market is also witnessing a rise in contact lenses, fuelled by improved safety perceptions and the availability of disposable lenses, catering to younger users who prefer eyeglass-free refractive error correction. Japan has one of the highest adoption rates of contact lens globally, driven by strong consumer preference for aesthetics, convenience, and an active lifestyle. Further, growth is also driven by consumers who are switching from prescription eyeglasses to contact lenses. This is driven by higher awareness of eye health, increasing availability of daily disposables, and preference for neat, professional appearances have further cemented contact lenses as a mainstream choice.

***Southeast Asia's Eyewear Market is Growing Rapidly Driven by Increasing Eyewear Adoption***

The Southeast Asia market[13] includes Indonesia, Malaysia, Philippines, Singapore, Thailand and Vietnam. The Southeast Asia eyewear market is witnessing penetration-led growth in emerging markets such as Indonesia, Vietnam, Malaysia, Philippines, and Thailand, and rising share of organised retail in more developed markets such as Singapore. As a result, the market in these countries is projected to grow from ~₹ 637 billion (~US$ 7.4 billion) in FY 2025 to ~₹ 912 billion (~US$ 10.6 billion) by FY 2030, at a CAGR of ~7%.

As of FY 2025, prescription eyeglasses dominated the eyewear market in Southeast Asia with a contribution of ~69% of the total market by value, followed by sunglasses at ~23%, and contact lenses at ~8%. Prescription eyeglasses are projected to drive the eyewear market in Southeast Asia, with a CAGR of 9-10% over FY 2025-2030P. This growth is largely fuelled by the rising prevalence of refractive errors, which affect 60-70% of the population, with myopia being the most common. Rising adoption and increased usage frequency are driving steady volume growth in sunglasses and contact lenses.

With penetration rate at ~40% of refractive error incidences, prescription eyeglasses in Southeast Asia show variation by country, indicating headroom for further adoption. While Singapore in particular, resembles markets such as the United States and Europe, having one of the highest refractive error rates globally (~75% of the population) and prescription eyeglasses penetration of ~80% of the refractive error incidences, penetration in other markets such as Indonesia, Vietnam, Malaysia, and Philippines, remains much lower. The average selling prices for prescription eyeglasses also vary widely, from ₹ 2,150-2,580 (US$ 25-30) in Indonesia and the Philippines to ~₹ 8,250 (~US$ 96) in Singapore, due to variation in purchasing power across the region and varying supply-side dynamics. Organised retail is increasingly gaining a foothold in the Southeast Asia eyewear market, with the share of the organised market projected to grow from 33-35% in FY 2025 to 40-45% by FY 2030P, growing 2.3-3x times faster than the unorganised market in the same period.

**Exhibit 26a: Southeast Asia Eyewear - Market Value**

***Growth in the Middle East is Driven by Higher Frequency of Purchases, the Rising Share of Direct-to-Consumer Brands, and Increasing Omnichannel Retail Adoption***

The Middle East market includes[14] Saudi Arabia and the United Arab Emirates (UAE). The eyewear market in these countries in the Middle East is projected to expand at a CAGR of ~7% from ~₹ 162 billion (~US$ 1.9 billion) in FY 2025 to ~₹ 225 billion (~US$ 2.6 billion) by FY 2030P. This growth is driven by increasing disposable incomes, expanding retail infrastructure, a growing preference for premium eyewear, and the increasing presence of international brands. The share of prescription eyeglasses continues to expand as younger consumers increasingly seek eyewear as a fashion-driven lifestyle accessory, and the expansion is further bolstered by government insurance coverage for prescription eyeglasses. Sunglasses also drive category growth, with adoption shaped by both fashion aspirations and the region's climate - particularly among the large expat population living in high-sun conditions.

[13] Southeast Asia is defined report as emerging markets of Indonesia, Malaysia, Philippines, Thailand and Vietnam and developed market Singapore

[14] The Middle East has been defined in this report as Saudi Arabia and United Arab Emirates (UAE)

**Exhibit 27a: Middle East Eyewear - Market Value**
*In ₹ billion (US$ billion) for FY 2020, 2025, 2030P*

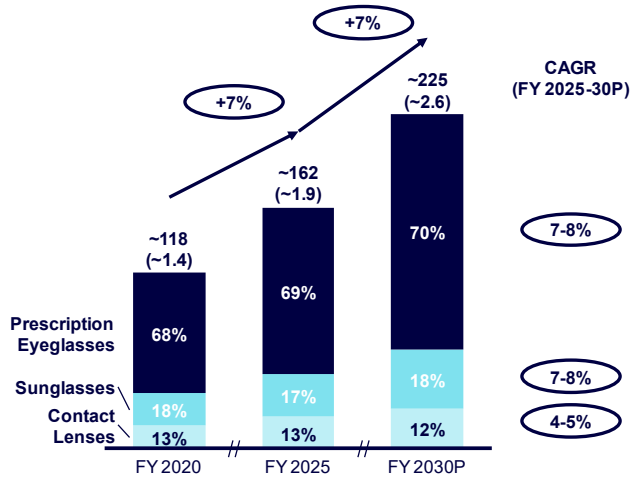

**Exhibit 27b: Middle East Eyewear Split by Channel**
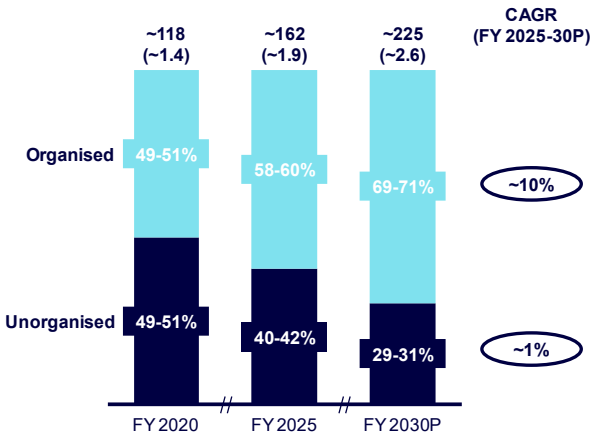
*Market size in ₹ billion (US$ billion) for FY 2020, 2025, 2030P*



*Note(s): 1. Considering exchange rate of US$ 1 = ₹ 86*
*2. Middle East includes Saudi Arabia and the UAE*
*Source(s): Redseer research & analysis*

The Middle East eyewear market is also evolving with strong omnichannel retail adoption, as well as an increasing focus on localised eyewear designs suited to the region's climate and consumer preferences, though it continues to be dominated by international eyewear manufacturers. Examples of localised designs for the Middle East include sunglasses with enhanced UV and dust protection for desert climates, lightweight frames made to withstand high temperatures, and styles that incorporate traditional Middle Eastern aesthetics such as intricate geometric patterns or luxury embellishments. As in other global markets, digital retail and e-commerce are playing an increasing role in eyewear sales in the Middle East, helping brands tap into a younger, tech-savvy consumer base. Organised retailers dominate the Middle East eyewear market, and their share is projected to grow further, increasing from 58-60% in FY 2025 to 69-71% by FY 2030P, growing over ~10x faster than the unorganised market in the same period.

The Middle East prescription eyeglasses market is evolving similarly to Europe and the United States in the premium bracket although it remains at least a decade behind in overall development. Optical store density is lower than that of mature markets such as the United States and France, indicating significant growth potential. ASP stands at ~₹ 14,677 (~US$ 171) with few organised players commanding premium ASPs as high as ~₹ 34,400 (~US$ 400), while unorganised players range between ₹ 12,900-17,200 (US$ 150-200). 58-60% of the eyewear market in the Middle East (by value) is accounted for by organised retailers, as of FY 2025. However, outside the luxury bracket, consumer behaviour at the lower and mid-price points aligns more closely with emerging markets such as India. The market exhibits a high share of value-conscious consumers with demand for affordable yet stylish eyewear, and considerable presence of unorganised retail. Direct-to-consumer (D2C) brands' share of prescription eyeglasses market has grown from 7-10% of the prescription eyeglasses market in FY 2020 to 12-15% in FY 2025, growing at a CAGR of 15-20%. This is further projected to grow to 20-25% of the market by FY 2030P at 15-20% CAGR.

**Overview of Supply Chain and Key Success Factors**

***The prescription eyeglasses' value chain (involving product design, procurement of lenses and frames, manufacturing of finished eyeglasses, retailing, along with horizontal adoption of technology and R&D along the entire value chain) is intrinsically complex and difficult to execute. As a result, this value chain has traditionally been highly fragmented with multiple intermediaries, providing limited control over product design, quality, delivery timelines, and pricing for unorganised and traditional organised retailers, leading to challenges for consumers. However, vertically integrated large organised retailers, especially those with centralised supply chain, are consolidating procurement of frames and lenses, manufacturing of finished prescription eyeglasses, and omnichannel retailing, by embedding technology-led automation, R&D-driven product improvement, eliminating intermediary margins, and just-in-time inventory systems that minimise stockholding by aligning supply with real-time demand. Hence, these business models are better positioned to deliver a better value proposition to consumers with wider fashionable assortments, affordable pricing, faster fulfilment, and standardised and enhanced product quality and experience.***

**Overview of Retail Business Models Globally**

Retailing of prescription eyeglasses globally encompasses a diverse array of business models, each tailored to local market characteristics and varying degree of presence (and hence control) across the value chain. These models primarily include unorganised retailers, traditional organised retailers, large organised retailers, and other emerging retailers (such as pure-play online retailers, and the eye care provider model).

**Exhibit 29: Overview of Major Retail Business Models by Level of Control over Value Chain**

*Descriptive*

Degree of control across the value chain: Low ○ ● High

| Business models | | 1. Product design | 2. Procurement of lenses & frames | 3. Manufacturing of finished eyeglasses | 4. Retailing | 5. Technology and R&D |

| | Vertically integrated with centralised supply chain | ● | ● | ● | ● | ● |

*Source(s): Redseer research & analysis*

1. *Unorganised Retail Model:* The unorganised retail model consists of small, independent retailers with fewer than five stores. These retailers operate through fragmented, store-dependent service structures. This model is prevalent globally, dominating prescription eyeglasses retailing in markets like India and emerging Southeast Asia. In these markets, unorganised retailers primarily offer unbranded and entry-level cheaper brands, particularly in smaller cities. Conversely, in developed markets such as Singapore, the Middle East, and Japan, these retailers are typically long-standing, family-run businesses that stock a wider range of domestic branded frames and cater to older demographics.

2. *Traditional Organised Retail Model:* This model consists of regional chain stores with fewer than 30 stores, with some standardisation in store format, product assortment, and service vis-à-vis unorganised stores, developing some customer loyalty through word-of-mouth and localised promotions. These focus on branded products at mid-to-premium price points and provide greater quality and breadth of products and improved service compared to unorganised players, but with limited backend integration and localised nature of operations. Traditionally, these retailers have relied on white-labelling frames rather than in-house production, which limits their ability to fully optimise product design, control quality, and drive innovation across the value chain. This model is more prominent in developed markets such as Japan and Middle East, as well as larger cities of emerging markets like India and Southeast Asia.

3. *Large Organised Retail Model:* This model features a multi-regional presence and integrated supply chains (with varying degree), delivering a standardised customer experience across 30 or more outlets. Leading large organised retailers of prescription eyeglasses globally[15] include players such as De Rigo Vision S.p.A., Essilor Luxottica SA, Fielmann AG, JINS Holdings Inc., Marcolin S.p.A., Lenskart Solutions Limited, Megane Top Co., Ltd., National Vision Holdings, Inc.,

[15] Leading large organised retailers of prescription eyeglasses globally include retailers with a revenue of more than ₹ 43 billion (US$ 500 million) as of CY 2024 and more than 30 physical stores

Safilo Group S.p.A., Specsavers Optical Group Ltd, Synsam Group AB, and Warby Parker Inc. while those in India[16] include players such as Eyegear Optics India Private Limited (Ben Franklin), Gangar Opticians Private Limited, GKB Opticals Limited, Lawrence And Mayo (India) Private Limited, Specsmakers Opticians Private Limited, and Titan Company Limited (Eyecare Division). There are three kind of approaches that retailers follow in this model depending upon their presence across the value chain and manufacturing capabilities:

- *Partially Integrated Value Chain:* This approach encompasses retailers with presence across few stages of the prescription eyeglasses value chain. For instance, some of these retailers manage the design and direct-to-consumer retailing but outsource manufacturing of frames and lenses to third parties, while others manage design and manufacturing of frames and lenses, but depend on distributors for retailing, with limited direct-to-consumer touchpoints. These players typically offer third-party licensed brands with few players having their own brands. They are focused on premium positioning and high-touch retail experiences. However, they often struggle to scale in diverse markets or adapt product and pricing due to reliance on third-party brands. This approach is common in developed markets such as Japan, Singapore, and the Middle East, and in major cities within emerging markets such as India and parts of Southeast Asia.

- *Vertically Integrated Value Chain with Decentralised Supply Chain:* This approach encompasses retailers that have complete integration and control across all stages of the value chain, with managed design and manufacturing of frames, lenses, and finished prescription eyeglasses, owned brands and omnichannel retailing. Supply chain for manufacturing finished prescription eyeglasses, for such retailers, is however not co-located/centralised. This approach enables better control over quality, pricing, timelines, and product design, when compared to partially integrated and traditional retailing models and is seeing early traction in developed markets such as Japan, Singapore, and the United States.

- *Vertically Integrated Value Chain with Centralised Supply Chain:* This is the newest and most innovative approach in the industry, involving complete control across all stages of the value chain along with co-location of supply chain for manufacturing of finished prescription eyeglasses. This results in increased agility across the value chain enabling better control over quality, faster delivery timelines, real-time product design-to-manufacturing feedback loop, and better pricing enabled by cost savings due to just-in-time inventory management.

4. *Other Models:* Other retail business models include the pure-play online retail model and the eye care provider model. The pure-play online retail model is effective in urban areas with high digital penetration. The eye care provider model, run by hospitals and clinics, offers prescription eyeglasses within medical services, but prioritises healthcare over retail, with prescription eyeglasses sales as a secondary focus.

**Retail Business Models Vary in Terms of their Presence and Control Over the Value Chain**

**Product Design**

Product design in prescription eyeglasses encompasses dimensions of frame design, lens design, and their integration from functional, technological, and aesthetic perspectives.

- *Frame Design* - Frame design defines geometry (shape, size, nose bridge, and temple configuration) ensuring a fit across facial profiles. Designers balance aesthetics (style, colour, trends) with functional elements like weight distribution, pressure points, and flexibility. Frame style is influenced by fashion trends and materials impacting both durability and visual appeal. Frames require dimensional drawings, CAD modelling, lens fitting tolerances, and hinge integration. Variants cater to different demographics, with compliance to safety and structural standards.

*[space intentionally left blank]*

[16] Leading large organised retailers of prescription eyeglasses in India include retailers with a revenue of more than ₹ 500 million (~US$ 6 million) as of FY 2024 and more than 30 physical stores

**Exhibit 30: Commonly Used Frame Materials**
*Descriptive*

Average Trade Price
₹ 43 (US$ 0.5) ○ ● ₹ 1,290 (US$ 15)

| Frame Material | Relative Price | Benefits |
|---|---|---|
| Thermoplastics (TR) | ○ | Affordable, lightweight, flexible |
| Acetate | ◔ | Durable, hypoallergenic, premium feel |
| Stainless Steel | ◑ | Strong, corrosion -resistant, durable |
| Titanium | ● | Ultra -lightweight, superior durability, hypoallergenic |
| Other Metals (Aluminium, Zinc, Copper, Beryllium) | ◕ | Strength, corrosion resistance (specifics vary by metal) |

*Note(s): Considering exchange rate of US$ 1 = ₹ 86*
*Source(s): Redseer research & analysis*

- *Lens Design* - Lens design begins with prescription mapping, base parameters (index of refraction, base curve, diameter), and lens type (single vision, bifocal, progressive). Lenses are digitally or conventionally surfaced and optimised for frame size. Design factors include style (lens shape and colour) and functional coatings like anti-reflective, scratch-resistant, UV-protective, hydrophobic, oleophobic, and blue-light filtering. These coatings are applied to maintain optical clarity, durability, and comfort. Final design considers centration, thickness optimisation, and aesthetic finishes (e.g., edge polish, tinting), especially for high-power or customised lenses.

- *Fit Optimisation* - Designs are tested for weight distribution, face compatibility, heat tolerance (for fitting), and wearability over long durations.

*Complexities in the Design Process*

The design of prescription eyeglasses is an intricate process, demanding a balance of optical precision, engineering detail, user-centric ergonomics, and style. Even small dimensional errors in frame geometry can lead to inconsistent fit, slippage, pressure points, and lens incompatibility. Achieving a comfortable fit for diverse facial structures requires iterative prototyping, real-world trials, and virtual prototyping tools, balancing aesthetics with practicality.

Lens design integrates optical correction with mechanical performance and aesthetic quality. High-index lenses, progressives, and prism-corrected variants require exact calibration, as minor deviations can introduce distortions or discomfort. The multi-coating process demands precise control over layer adhesion, curing cycles, and material compatibility to ensure clarity and durability.

Creating quality prescription eyeglasses requires expertise in optics, materials science, ergonomics, fashion trends, and manufacturing. Although the final product appears straightforward, achieving consistency and reliability at scale presents a challenge for new entrants. Products developed without sufficient rigor often underperform in comfort, durability, or clarity, which can undermine repeat purchases, increase returns, and erode brand trust.

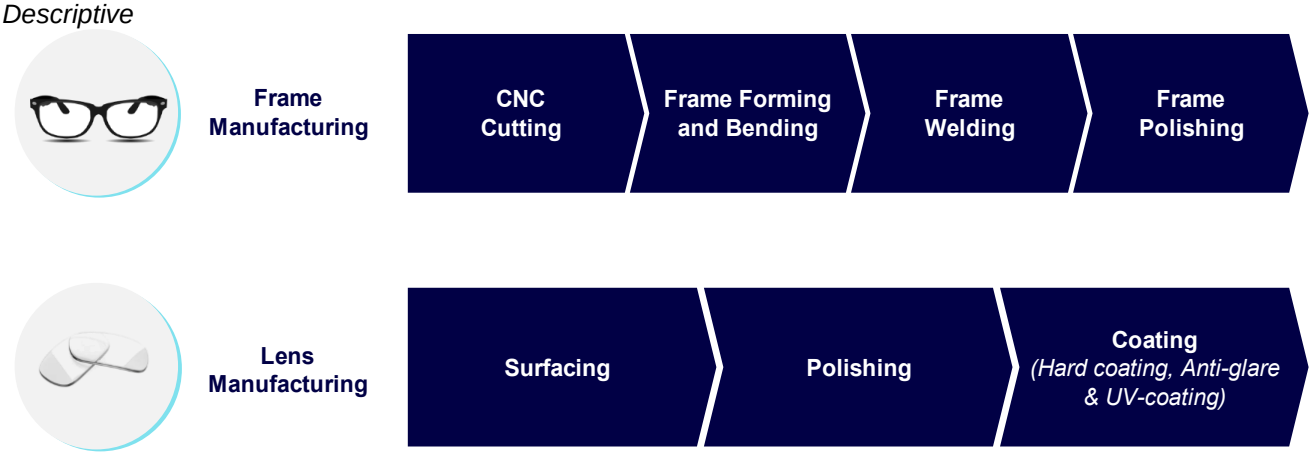
**Procurement of Frames and Lenses**

Procurement of frames and lenses itself is a multi-layered process that traditionally involves the manufacturing of frames and lenses and their distribution to retailers through a complex network of intermediaries separately, with distribution variances between branded and unbranded products.

*[space intentionally left blank]*

**Exhibit 31: Frame and Lens Manufacturing Processes**

*Descriptive*



*Source(s): Redseer research & analysis*

*Frame manufacturing and complexities involved*

Frame manufacturing involves the production of individual components, surface finishing (polishing and coating), and precise assembly. Manufacturing these frames to be lightweight, durable, skin-safe, and comfortable requires sophisticated capabilities.

- *Material selection and specific handling requirements:* Frame materials such as acetate, thermoplastics, stainless steel, titanium, and other alloys each demand distinct processes. Acetate frames undergo sheet-cutting, tumbling, and hand polishing, whereas metal frames rely on precision welding, CNC shaping, and surface treatments like electroplating. Manufacturers may develop expertise across all processes or specialise in particular materials.

- *Barriers posed by development of moulds and dyes:* Custom-engineered tools for injection moulding or metal stamping entail high upfront investment. Each new frame size typically requires its own mould, making production capital-intensive and slowing time to market. Tooling errors can cause misalignments, leading to rework or quality rejections.

- *Complexities associated with precision manufacturing*: Ensuring consistent dimensions, hinge alignment, and surface finish across batches adds further complexity. Deviations can compromise lens alignment and overall product quality.

- *Scaling challenges due to a lack of skilled labour and advanced machinery*: Scaling production depends on skilled labour, precision machinery, and advanced finishing technologies such as lamination or anodising. In India, the frame manufacturing ecosystem remains nascent, with limited infrastructure for high-volume output. As a result, many retailers import from established Chinese clusters in Xiamen and Guangzhou, which benefit from mature supply chains, economies of scale, and specialised labour - making domestic alternatives challenging on cost, capacity, and quality.

*Lens manufacturing*

The manufacture of lenses requires high optical precision. Single vision lenses are typically mass-produced at scale and are often pre-manufactured to standard prescriptions, with their manufacturing being highly consolidated in regions with strong industrial ecosystems. Danyang, China, stands out as a global hub due to its integrated prescription eyeglasses manufacturing base, availability of skilled labour, and established supply chain networks.

**Exhibit 32: Commonly Used Lens Materials**

*Descriptive*

Average Trade Price for Single Vision Lenses
₹ 86 (US$ 1) ○ ● ₹ 1,290 (US$ 15)

| Lens Material | Relative Price | Benefits |
|---|---|---|
| CR-39 (Columbia Resin -39) | ○ | Cost-effective, adequate optical performance |
| Polycarbonate | ◑ | High impact resistance, suitable for rimless designs |
| Trivex | ● | Superior optical clarity, lightweight, built -in UV protection |

*Note(s): Considering exchange rate of US$ 1 = ₹ 86*
*Source(s): Redseer research & analysis*

Progressive lens manufacturing is a relatively niche capability within the prescription eyeglasses value chain, shaped by high technical complexity, precision requirements, and R&D intensity. It is typically carried out in advanced laboratories by few

global manufacturers, often located near demand centres, to accommodate the high degree of customisation required for individual prescriptions. Manufacturing of progressive lenses begins with lens blanks, which are semi-finished pieces of optical material. These undergo subsequent processes, such as surfacing, finishing, polishing, coating, and inspection of lenses, before being fitted into eyeglass frames. Although the lens at this stage is not yet shaped for a specific frame, it is optically complete, fully coated, and quality assured. The steps and complexities involved in progressive lens processing are detailed below:

- *Complexity in lens blank selection and matching:* The process begins with the selection of an appropriate lens blank. These blanks are pre-moulded with a standardised front surface curvature. The back surface remains unfinished to allow for individual prescription customisation. Selection is based on parameters such as refractive index, base curve, diameter, functional attributes and raw material required for the final lens. The choice of raw material directly affects downstream processing and lens performance, as each material responds differently to grinding, polishing, and coating, requiring specialised equipment and processes tailored to the specific material properties of the chosen blank.

- *High precision requirements in surfacing operations:* Prescription values are applied to the back surface of the lens blank using precision-controlled surfacing equipment. In most modern laboratories, digital or freeform surfacing is used, employing computer-guided lathes that sculpt the optical surface with sub-micron accuracy. This stage defines the lens's optical characteristics, including spherical power, cylindrical correction, axis, and near addition, where applicable. The surfacing process is fraught with the risk of minute inaccuracies, as even slight deviations in the optical power or alignment can result in visual distortion.

- *Process sensitivity in fining and polishing:* After surfacing, the lens undergoes fining to remove the coarse texture left by the generator. This is followed by polishing, which restores optical clarity and ensures the surface meets required transmission and visual standards. These steps are essential to eliminate micro-imperfections and prepare the lens for downstream coating applications.

- *Precise sequencing and careful handling in coating application:* Once polished, the lens receives multiple coatings that enhance durability, comfort and performance. Hard coatings improve scratch resistance, while blue light coatings help reduce digital eye strain. Photochromic coatings, which adapt to changing light by darkening outdoors and clearing indoors, are emerging as a popular trend for added convenience. Multi-coating options combine features such as anti-glare, UV protection, and scratch resistance, making them standard in premium lenses. Applying these coatings in multiple layers requires precise sequencing, controlled temperature and humidity conditions, and careful handling to prevent defects or uneven finishes.

- *Stringent validation in inspection and quality control:* Before release, the lens undergoes comprehensive inspection. Prescription accuracy is validated using lensometers or automated systems, while surface integrity is examined under specific lighting to identify any cosmetic or functional defects. Alignment markings are applied to guide later positioning. Only lenses that meet all optical and aesthetic standards are approved for dispatch.

- *High levels of customisation impacting scalability:* Progressive lenses are increasingly expected to accommodate a wide range of prescription parameters - including spherical and cylindrical powers, axis orientations, and additional features such as blue-light filtering, anti-reflective coating, or photochromic behaviour. Managing this level of variability necessitates detailed clustering strategies and inventory planning to meet service level requirements without excessive working capital.

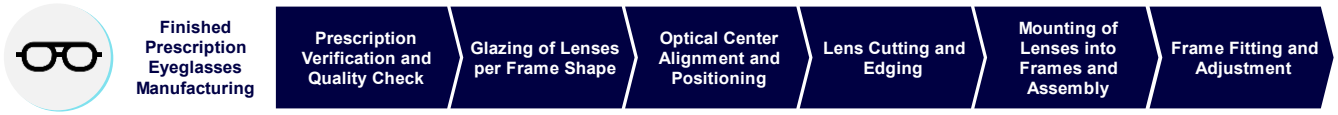
The high degree of customisation and capital investment requirements in high-precision equipment for manufacturing progressive lenses present operational challenges for new entrants. Consequently, the industry remains reliant on imports from more mature manufacturing ecosystems. In emerging markets such as India, some manufacturers have begun establishing local lens production facilities. As a result, progressive lens manufacturing in India has gained momentum, particularly in grinding, coating, and prescription customisation. A decade ago, China's lens procurement cost was 40-45% lower than India's on average. However, this gap has now narrowed to ~25% (as of FY 2025), driven by the rising import duties and advancements in India's optical manufacturing capabilities. India's progress in progressive lens manufacturing signals a shift in supply chain dynamics. With growing investments in high-value optical manufacturing, the country is steadily building a stronger foothold in the global prescription eyeglasses industry.

*Distribution of frames and lenses, and the complexities involved*

The global prescription eyeglasses supply chain is characterised by import dependence, with frames and lenses largely sourced from specialised manufacturing hubs. Often, multiple parties are involved with distribution to the retailers, with variations across branded and unbranded products. Unbranded lenses and frames are largely imported, and wholesalers procure the products in bulk from importers to sell to distributors. Distributors then supply the products to retailers in their respective regions of operation. In case of branded products, the supply chain is relatively shorter, as leading brands disseminate products through authorised national distributors, followed by regional distributors. Each layer adds complexity, contributing to fragmented inventory and limited supply chain visibility. The distribution structure in the traditional supply chain remains rooted in offline ordering systems and decentralised post-order processing.

**Manufacturing of Finished Prescription Eyeglasses**

**Exhibit 33: Finished Prescription Eyeglasses Manufacturing Processes**
*Descriptive*



*Source(s): Redseer research & analysis*

Traditionally, the manufacturing of finished prescription eyeglasses begins once the optical retailer has received the processed lenses and frames. Traditional prescription eyeglasses retailers in India typically procure lenses from global manufacturers through multiple layers of distribution. The first step is to verify that the lenses correspond to the prescription, which is typically done using a lensometer to check the power and alignment. Once verified, the retailer moves on to the glazing - the precise fitting of the processed lenses into the selected frame. This process requires careful consideration of the frame size and shape to ensure a secure fit. The lenses are centred and aligned properly, marking the optical centres for perfect positioning. For progressive lenses, additional precision is required to ensure the alignment of the near and distance sections of the lens with the wearer's visual needs.

The lens is then manually cut to fit the frame. This step is typically done using an edging machine, which trims the lens to the correct size and shape. Depending on the frame style, the lenses might be cut into specific shapes such as circular, oval, or custom geometries to match the frame's unique design. The goal is to ensure that the lens fits within the frame's groove or mounting structure.

After the lens is cut, it is carefully mounted into the frame. For this step, different frame materials, such as metal, plastic, and acetate, require specific techniques. The lens is either held in place by frame rims, screws, or sometimes adhesives, depending on the frame design. Following the lens placement, the frame may need to be adjusted to ensure that the eyeglass fits comfortably on the wearer. This involves modifying the nose pads, adjusting the temple length, and ensuring the overall comfort and visual alignment of the finished pair.

In contrast to traditional retail-based manufacturing, large vertically integrated organised retailers typically manufacture finished prescription eyeglasses in optical laboratories or factories rather than in-store. These facilities are equipped with advanced machinery, such as automated edging systems, that enable automated lens cutting and fitting with extremely high precision. By shifting this process away from the retail stores, these players achieve several advantages: tighter quality control, reduced error rates, better consistency in optical alignment, and enhanced comfort due to precise fit, as manual handling of lenses is not as precise as robotic handling. Automation also enables faster turnaround times and scalability, allowing high volumes to be processed efficiently without compromising on accuracy. As a result, these centralised workflows minimise manual intervention, reduce remakes and defects, and ensure that complex prescriptions and lens geometries are handled more effectively than in a manual or semi-automated retail setting. However, centralized robotic machines are capital-intensive and economically viable only at high manufacturing volumes.

*Complexity in Manufacturing of Finished Prescription Eyeglasses*

The manufacturing of finished prescription eyeglasses is a complex process that demands precision throughout.

- *Precision requirement during glazing:* The glazing phase involves the intricate fitting of processed lenses into frames, where even minor inaccuracies can compromise both the optical function and aesthetic integrity of the finished product. Precision is required in cutting the lenses to the exact size and shape necessary to fit within the frame, while also ensuring that the optical centres align correctly with the wearer's eyes.

- *Requirement of skilled labour and specialised machinery:* The process also requires skilled labour, as technicians are expected to be proficient in handling different frame materials and understanding the distinct challenges posed by each. Moreover, the equipment used, such as edging machines, fitting jigs, and specialised tools, need to be calibrated with high precision. Any slight miscalibration can result in improperly fitted lenses, misaligned optical centres, or damaged frames, making the entire process more challenging. The dependency on skilled personnel and precision equipment at the store level also poses a challenge when scaling up retail operations, as it becomes increasingly difficult to ensure consistent quality and technician availability across a larger network of stores.

**Retailing of Prescription Eyeglasses**

Retailing of prescription eyeglasses involves two key elements: channel presence across offline and online formats, and retail experience delivered at the point of sale, both of which shape customer reach and purchase behaviour. Within this, channel presence dictates reach and availability, while retail experience (determined by availability of affordable and consistent eye tests, assortment depth and customisation options, value for money, and assisted selling) directly influences conversion and customer satisfaction. As a result, the traditional retail value chain often struggles to balance depth of offering, personalisation,

professional guidance, and affordability of offerings, thereby impacting both customer experience and the consistency of service delivery across touchpoints.

*Omnichannel approach expands customer reach, improves conversions, and increases digital adoption*

Prescription eyeglasses are retailed through three approaches: offline-first, pure-play online, and omnichannel.

- The offline-first approach, adopted by unorganised and traditional organised retailers, remains the most prevalent globally. These retailers benefit from localised trust of existing customers leading to higher conversions amongst this cohort. However, new customer reach and access is limited. Further, decentralised in-store inventory also limits the assortment and customisation options offered by these retailers, thereby impacting conversions.

- Retailers adopting the pure-play online approach offer a wider assortment, digital try-ons, and doorstep delivery, catering to convenience-driven, digitally native consumers. However, adoption by consumers at large remains limited due to the lack of trust in fit and accuracy, and the inability of these retailers to offer physical trials, and value-added services such as eye-testing.

- The omnichannel model adopted by vertically integrated large organised retailers facilitates higher customer conversion rates as compared to models relying exclusively on either the online or offline channel. By integrating physical and digital experiences, it enables customers to browse, try, purchase, and access services across touchpoints. An online presence improves customer reach and awareness with personalised targeting, while an offline presence improves conversions by enabling physical trials, complementary eye-testing, and assisted sales. Some of them adopt a low-inventory or digitally assisted store model, offering the full product catalogue digitally while minimising in-store stock, which reduces inventory costs and allows for smaller, more efficient retail spaces without compromising customer choice.

*Retail experience and challenges with traditional models*

Several factors influence the retail experience for prescription eyeglasses: the availability of consistent and affordable eye tests, breadth of assortment and customisation options, value for money and assisted sales. These elements are crucial for high-involvement products like prescription eyeglasses, where aesthetics and optical clarity are equally important.

Within traditional offline-first and pure-play online formats, however, the ability to deliver a consistent and high-quality experience across these dimensions remains limited due to operational constraints.

- *Availability of consistent and affordable eye tests:* Eye testing plays a foundational role in the prescription eyeglasses value chain, ensuring that the product meets their visual needs with precision. In traditional offline-first models (including unorganised retailers and traditional organised retailers), access to qualified optometrists and reliable diagnostic tools is inconsistent, often limiting the scope and quality of service. Pure-play online formats typically rely on users to upload existing prescriptions, making them less equipped to serve first-time users or those with changing vision needs. Large organised retailers address this gap by embedding free or subsidised eye tests into their in-store experience, using them as a driver of footfall, conversion, and brand loyalty.

- *Number of SKUs / Customisation options:* A major component of retail experience is the breadth of choice available to the customer, across frame styles, materials, colours, sizes, and lens specifications. Availability of coatings such as anti-reflective coatings or blue light filters further allow customers to tailor the product to their comfort and usage patterns. In the traditional offline-first model, the range of SKUs and customisation capabilities are severely constrained. Small-format stores operate with limited shelf space and working capital, resulting in narrow assortments often focused on fast-moving or higher margin SKUs. The lack of integrated digital tools also prevents real-time visibility into extended catalogues, thereby restricting customer choice.

- *Value for money:* Customer satisfaction hinges on the perceived value for money. For consumers globally, the importance of quality for the price paid is increasingly becoming a core-part of their purchase decision making. Unorganised and traditional organised models have an inconsistent product quality and higher costs as these retailers often rely on third-party suppliers, primarily based in China, for design and manufacturing of frames and lenses (suppliers of frames and lenses, labour/local contractors for manufacturing of finished prescription eyeglasses). Additionally, these models typically have a limited customer feedback loop, restricting their ability to quickly identify and address quality or service issues, which further impacts perceived value and customer loyalty.

- *Assisted sales:* Given the dual-functional nature of prescription eyeglasses requiring both medical accuracy and aesthetic appeal, specialist guidance at the point of sale is a crucial determinant of customer experience. Assisted sales involve optometric consultation, interpretation of prescriptions, lifestyle-based product recommendation, and help with frame selection based on fit and face shape. In the traditional retail formats, the quality and consistency of assisted sales remains a challenge. Sales personnel often lack formal training and rely on anecdotal experience, which can lead to incorrect or unsuitable product recommendations. Moreover, without standardised selling protocols or digital selling aids, the customer journey is largely unstructured and heavily dependent on individual staff competence, resulting in widely varying outcomes.

**Technology Adoption and Research and Development**

Technology and Research and Development (R&D) serve as horizontal enablers across the prescription eyeglasses value chain, shaping advancements in design, manufacturing, and retail. While technology facilitates operational efficiency, precision, and personalisation, R&D drives product innovation across materials, coatings, lens science, and design ergonomics, ultimately enhancing both product performance and consumer experience.

- *Product design and development:* In this stage, these capabilities enable the use of advanced lightweight materials (such as TR90, titanium alloys, and memory plastics), hypoallergenic or skin-friendly coatings, and frame engineering for improved comfort and durability. In lenses, continuous innovation around progressive designs, anti-fatigue zones, blue light filters, and high-index materials allows for thinner, lighter, and more specialised solutions tailored to different visual profiles and lifestyles.

- *Manufacturing of finished prescription eyeglasses:* On the manufacturing side, technology adoption and R&D spends support in the optimisation of surfacing techniques, coating durability, and scratch resistance. Further, technologies such as visual analytics can enable better quality control by driving higher traceability.

- *Retailing:* In retail, innovations such as digital frame measurement and personalised fitting algorithms draw on both technology and R&D inputs to deliver higher precision and customisation. Further, tools such as digital try-on and digital catalogues also enable in easing the customer purchase decision making.

*Limited technology adoption and R&D spending in traditional retail formats*

Despite the strategic importance of these levers, traditional retail remains largely disconnected from both technological advancement and formal R&D pipelines. Most unorganised and traditional organised retailers source ready-made frames and lenses from third-party distributors, with little visibility into underlying material properties, coating compositions, or optical design logic. There is little internal capacity or access to evaluate or select products based on technical performance metrics. In retail stores, diagnostic tools and selling processes remain analogue, with minimal adoption of innovations in virtual visualisation, digital optometry, or guided recommendation systems. The focus is typically on commercial assortment rather than product differentiation or innovation-driven value creation.

This limited adoption of technology and R&D in traditional formats stems from operational constraints. Investments in advanced tools, materials, and design capabilities demand scale, capital, and specialised human resources, all of which are beyond the reach of most unorganised and traditional organised retailers. Further, R&D-driven product development necessitates coordination with manufacturers and lab partners, along with an understanding of customer needs and usage contexts - capabilities that are absent in fragmented, transactional distribution setups. On the technology side, the absence of interoperable systems and trained personnel restricts the deployment of digital tools, even where basic infrastructure is available. Lastly, without centralised data capture or feedback loops, traditional retailers are unable to generate or leverage insights that typically feed into iterative product or process innovation.

As a result, technology and R&D have emerged as differentiators for integrated and modern players. However, the traditional retail model remains product-agnostic and manually operated, with limited ability to create or deliver technically advanced or personalised prescription eyeglass solutions.

**Vertically Integrated Value Chain and Centralised Supply Chain are Key Success Factors**

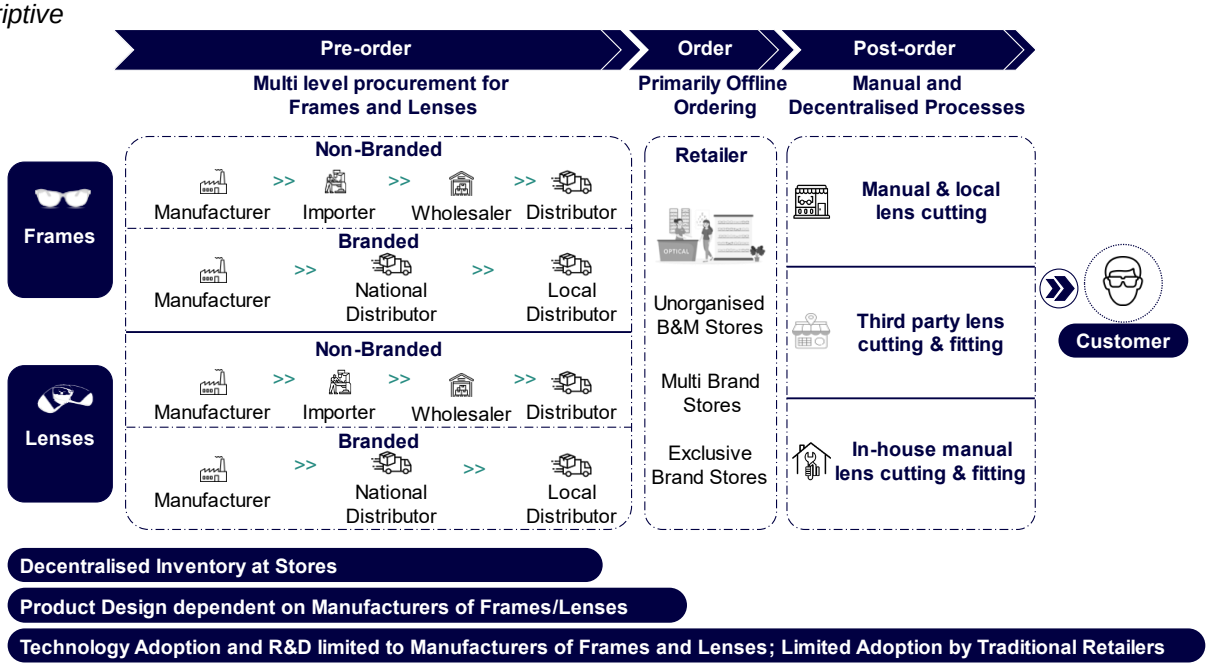
***Traditional Value Chain for Prescription Eyeglasses is Fraught with Challenges for All Stakeholders Involved***

The value chain for prescription eyeglasses is complex, involving high degree of precision and accuracy to create a made-to-order product for every customer. This process entails product design, procurement of frames and lenses (involving manufacturing, distribution of frames and lenses, and lens processing[17]), manufacturing of finished prescription eyeglasses (including glazing of lenses and fitting into frames to create a finished product), and retailing of prescription eyeglasses.

The traditional prescription eyeglasses supply chain is fragmented and disaggregated, involving manufacturers, importer/brands, wholesalers, distributors and retailers before the product reaches customers. It is characterised by multi-layered procurement and cutting and fitting processes that are often managed by individual retailers or local merchants serving a limited number of retailers. Cutting, edging, polishing, and fitting processes are often managed by individual retailers in-store (by hiring skilled professionals) or by local third-party contractors serving a limited number of retailers. Inventory is decentralised in stores. Product design is completely dependent on manufacturers of frames and lenses with limited control of retailers. While technology adoption and R&D is limited to manufacturers of frames and lenses, with limited adoption by retailers. This multi-tiered approach in the tradition supply chain increases lead times, costs and contributes to inefficiencies around quality and delivery timelines in the supply chain. The graphic below sets out an overview of the traditional prescription eyeglasses supply chain for unorganised and traditional organised retailers.

[17] Lens processing involves surfacing, finishing, polishing, coating, and inspection of lenses

**Exhibit 34: Traditional Prescription Eyeglasses Supply Chain**
*Descriptive*



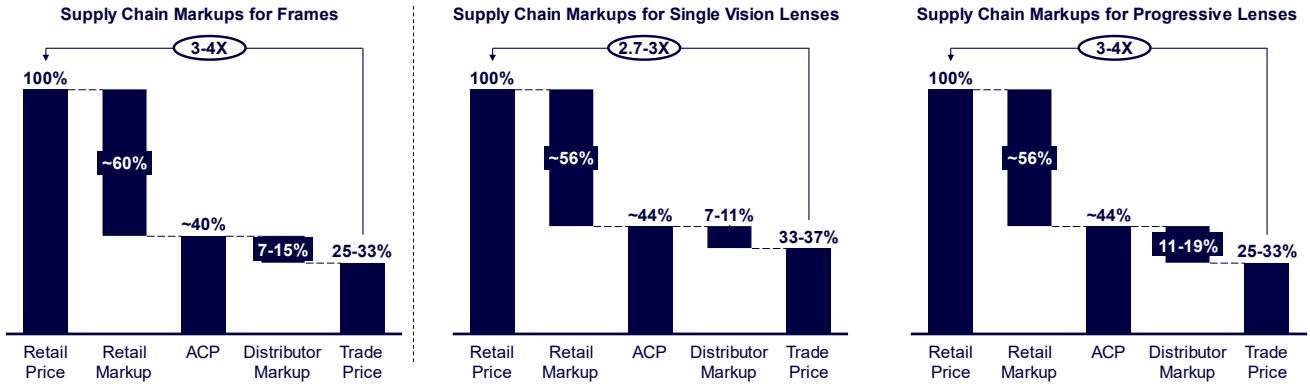
*Source(s): Redseer research & analysis*

***The Presence of Multiple Intermediaries Across the Value Chain Drives Up Retail Prices***

The highly fragmented traditional value chain structure considerably drives up trade prices across the value chain with markups from multiple intermediaries involved (including importers, national and regional distributors, and wholesalers) before the product even reaches the retailer.

In emerging markets such as India, where players in the dominant unorganised channel rely heavily on importers, wholesalers and distributors for procuring frames and lenses, markups on frames typically range between 3-4x over the trade price. Lenses typically have a greater variance in the markup, typically ranging from 2.7-4x over the trade price, with progressive lenses incurring higher markups than single vision lenses and unbranded lenses incurring higher markups than branded ones. Branded lenses typically offer retailer markups of 40-50%, while unbranded lenses have large variance in markups depending on the scale and business model of the retailers, going as high as 100%. Moreover, within the branded market, developed markets such as the Japan, Singapore, and the Middle East command even higher markups, frequently exceeding 4x the trade price, due to elevated operating expenses incurred by retailers, substantial investments in brand positioning and service infrastructure, and higher purchasing power of customers.

**Exhibit 35: Markups for Frames and Lenses in India**
*As % of Retail Price*



*Note(s): 1. Distributor margin is the margin captured by parties between manufacturer and retailer, which may constitute some of or all the following: importers, wholesalers, national and regional distributors*
*2. ACP is the average cost price for frames and lenses incurred by traditional retailers*
*Source(s): Redseer research & analysis*

This fragmented and decentralised nature of the traditional supply chain creates multiple challenges for consumers purchasing prescription eyeglasses leading to lower value for money, inconsistent product quality, long delivery times, and limited fashionable assortment and customisation options.

The business models vary across the value chain from design capabilities, procurement of frames and lenses, manufacturing of finished prescription eyeglasses, and retailing approaches. Furthermore, these models also vary substantially in their deployment of technology and R&D capabilities, which influence all the stages of value chain.

**Exhibit 36: Comparison of Retailing Business Models across Key Parameters along Value Chain**

*Descriptive*

Favourability: Low → High

| Value Chain Stage | Parameter | Unorganised Retail Model | Traditional Organised Retail Model | Large Organised Retail Model | | |
|---|---|---|---|---|---|---|
| | | | | Partially Integrated Model | Vertically Integrated Model (Decentralised Supply Chain) | Vertically Integrated Model (Centralised Supply Chain) |
| Product Design | No. of designs | Basic, dated designs with limited variety | Limited variety in design | Mix of third-party and owned brands | In-house design integrated with retail touchpoints enabling faster feedback loop | |
| | Trend Responsiveness | No control over design | Reliance on third-party brands though with limited responsiveness | Moderately trend-responsive | Slightly slower cycles due to split production | Real-time trend-responsive cycles enabled by co-located teams |
| Procurement of Frames and Lenses & Manufacturing of Finished Prescription Eyeglasses | Agility in Supply Chain | Dependent on suppliers and local contractors | | • Models with managed manufacturing but limited D2C presence: Faster than traditional models, but lag in demand forecasting<br>• Models with D2C presence but outsourced manufacturing: Faster than unorganised/ traditional organised but dependent on suppliers | Faster than partially integrated models due to end-to-end supply chain visibility and tech driven automation | Most agile model, driven by end-to-end supply chain visibility, tech driven automation, and JIT inventory management |
| | Share of Margin Pool | Low – due to the presence of multiple intermediaries | | Higher than traditional organised model, but stages are still outsourced | Access to the entire margin pool by eliminating intermediaries | |
| | Inventory Turnover Ratio | Decentralised inventory, low footfall, high unsold stock | Some standardisation, steadier sales but significant unsold stock | Centralised procurement and ERP to lower unsold inventory | Advanced forecasting and rapid replenishment drive fast turnover | Centralised supply chain leads to low inventory procurement for a design, thereby reducing shrinkage |
| | Cash Conversion Cycle (days) | Manual processes and weak supplier leverage extend the cycle | Consolidated orders help, yet legacy systems slow cash flow | Real-time planning and strong market leverage produce a short cycle | Real-time planning and streamlined supply shorten the cycle | Real-time planning and streamlined supply chain sync minimises the cycle |
| | Return on Capital Employed | Limited margins due to higher fixed costs relative to scale | Modest returns due to small scale and manual processes | Scale and operational optimisation yield decent returns | End-to-end control; moderate ROI due to distributed capex | End-to-end control maximises margins, centralised supply chain reduces capex compared to decentralised models |
| Retailing | Online/ Offline Reach | Limited digital presence; relies on local, fragmented offline access | Standardised stores with some basic online visibility | Strong offline scale, often lacking full online integration | Integrated omnichannel access with free eye tests driving both online and offline reach | |
| | SKUs/ Assortment | Basic, limited product variety focused on essentials | Wider assortment though without significant product differentiation | Broad range with emphasis on premium selections | Deep, curated assortment driven by full-stack control: slightly staggered SKU rollout due to split production cycles | Deep, curated assortment driven by full-stack control and rapid product innovation (faster refresh rate driven by real-time feedback loop implementation) |
| | Brand Recall | No/low recall due to lack of differentiation | Modest regional recognition enabled by standardised store experiences | Strong recall from scale and long-established offline brand equity, though with limited reinforcement | Strong recall achieved via omnichannel strategies and compelling brand storytelling | |
| | Repeat Purchase Rate | Moderate repeat purchase rate driven by change in optical power or breakage of eyewear | Moderate repeat visits driven by habitual eye tests and service standardisation | Slightly higher repeat purchases moderate despite scale and standardisation | High repeat rates fuelled by fast fashion, personalised offerings and free eye tests | |
| | Customer Convenience | Limited to in-store interactions with minimal service extras | In-store convenience exists with some advisory support but few digital tools | Convenience is modest with some digital touchpoints, yet lacking full integration | High convenience through omnichannel access, integrated services, and free eye tests | |
| Technology Adoption and R&D Spends | Level of Technology Adoption and R&D Spends | Minimal technology adoption; limited to basic eye testing | Low to moderate tech; mostly CRM and digital catalogues | In-store tech with some procurement automation; limited integration | AI-driven personalisation, omnichannel interface integrated with manufacturing & distribution | |
| | Operation Efficiency | | Limited to accounting and some inventory management | Higher than traditional organised, but dependence on external partners reduces efficiency gains | High operational efficiency driven by automation, better quality control, but dispersion of manufacturing sites limits consistency | Highest operational efficiency driven by automation, JIT enable by centralised supply chain driving lower costs, better quality control through visual analytics, and higher traceability |

*Source(s): Redseer research & analysis*

Large organised models fare better across these parameters, with higher extent of vertical integration accompanying greater control over design and procurement, and precision in manufacturing finished eyeglasses. Within vertically integrated retailers, the extent of centralisation and coordination between their manufacturing facilities determines their agility and speed to market, although it also requires the players to manage complexity associated with central manufacturing, and arrange the capital required to set up and maintain the integrated setup.

Driven by these factors, vertically integrated large organised retailers with centralised supply chain can provide enhanced and consistent product quality, more fashionable SKUs, reduced waiting times for customers, all while providing value for money for consumers.

**Global Competitive Landscape**

***The global eyewear industry operates across diverse business models defined by capability and scale, shaped further by financial capacity, market structure, and strategic priorities. Lenskart being the only leading[18, 19] vertically integrated retailer with a centralised supply chain outperforms other leading[18,19] large organized retailers of prescription eyeglasses on multiple input and output factors.***

Lenskart Solutions Limited (Lenskart) is the only vertically integrated retailer with centralised supply chain, amongst leading large organised retailers of prescription eyeglasses globally[18] and in India[19], as of Financial Year 2025.

In India, Lenskart principally competes with leading[19] large organized retailers of prescription eyeglasses, which include:

- Eyewear retailers such as Eyegear Optics India Private Limited (Ben Franklin), Gangar Opticians Private Limited, GKB Opticals Limited, Lawrence and Mayo (India) Private Limited, Reliance Vision Express Private Limited, Specsmakers Opticians Private Limited, and Titan Company Limited (Eyecare Division).

- Only few of these retailers have a pan-India presence.

- None of the remaining leading large organized retailers are listed companies except Titan Company Limited which houses the Titan Eyecare division.

- Revenue from operations of these companies in Financial Year 2025 was at least ~65% lower than the India revenue of operations of Lenskart.

Globally, the leading[18] large organized retailers of prescription eyeglasses include:

- Eyewear retailers such as De Rigo Vision S.p.A., Essilor Luxottica SA, Fielmann AG, JINS Holdings Inc., Marcolin S.p.A., Megane Top Co., Ltd., National Vision Holdings, Inc., Safilo Group S.p.A., Specsavers Optical Group Ltd, Synsam Group AB, and Warby Parker Inc.

- Further, majority of revenue for most of these global eyewear retailers continues to come from developed markets such as the US and the EU, markets with fundamentally different consumer behavior, price points, and retail maturity compared to emerging markets.

- These retailers differ from Lenskart's business model as they are either partially integrated or are vertically integrated with a decentralized supply chain or primarily have a wholesale/franchisee model.

- Lenskart also faces indirect competition from global lens manufacturers such as Carl Zeiss AG, Essilor Luxotica SA, Hoya Corporation, amongst others, as lens manufacturing is a smaller part of Lenskart's business operations and from a nascent cohort of pure-play online platforms, pharmacy marketplaces and e-commerce aggregators that have begun to add eyewear as an adjacency.

*The total addressable market for Lenskart is ~1.3 billion individuals and ₹ 2,429 billion (US$ 28.2 billion) by value as of Financial Year 2025*

- Lenskart's geographies of presence (India, Japan, Southeast Asia and Middle East) have ~1.3 billion individuals estimated to be affected by refractive errors as of Financial Year 2025, representing ~32% of global population estimated to be affected by refractive errors. However, ~0.8 billion individuals are not able to correct their refractive error with an eyewear due to limited awareness, insufficient access to optometrists, lack of affordability, and high dependency on unorganised channels.

[18] Leading large organised retailers of prescription eyeglasses globally include retailers with a revenue of more than ₹ 43 billion (US$ 500 million) as of CY 2024 and more than 30 physical stores

[19] Leading large organised retailers of prescription eyeglasses in India include retailers with a revenue of more than ₹ 500 million (~US$ 6 million) as of FY 2024 and more than 30 physical stores

- The total addressable market for eyewear in India is ~₹ 788 billion (US$ 9.2 billion) in India. Considering Lenskart's market share in India in Financial Year 2025 is 4-6%, this represents a significant headroom for growth. By Financial Year 2030P, the total addressable market in India is projected to grow to ~₹ 1,483 billion (US$ 17.2 billion).

- The total addressable market for eyewear in the markets Lenskart operates in is estimated at ~₹ 2,429 billion (US$ 28.2 billion) in Financial Year 2025. The addressable market comprises of ~₹ 788 billion (US$ 9.2 billion) in India, ~₹ 690 billion (US$ 8.0 billion) in Japan, ~₹ 637 billion (US$ 7.4 billion) in Southeast Asia, ~₹ 162 billion (US$ 1.9 billion) in the Middle East, ~₹ 112 billion (US$ 1.3 billion) in Taiwan, and ~₹ 39 billion (US$ 0.5 billion) in Hong Kong, as of in Financial Year 2025.

- By Financial Year 2030P, the total addressable market across all aforementioned geographies is projected to grow to ~₹ 3,601 billion (US$ 41.9 billion). The total addressable market for Lenskart internationally (across the geographies other than India mentioned above) is projected to grow from ~₹ 1,641 billion (US$ 19.1 billion) in Financial Year 2025 to ~₹ 2,118 billion (US$ 24.6 billion) in Financial Year 2030P.

The vertically integrated model with a centralised supply chain enables Lenskart to outperform other business models driven by the following factors:

*Lower Costs Driven by Scaled, Centralised Manufacturing*

- The vertically integrated model with a centralised supply chain allows Lenskart to retain end-to-end control over quality, reduce manufacturing lead times, and achieve greater cost efficiency compared to traditional eyewear retailers. This enables Lenskart to deliver products to customers at a lower cost and with quicker delivery timelines, with the average cost incurred for frames and lenses that Lenskart sold in India in the Financial Year 2025 being 35-40% lower than the industry average.

- Lenskart's manufacturing facility in Bhiwadi (Rajasthan) is amongst the top two vertically integrated centralised manufacturing facilities for prescription eyeglasses globally, in terms of manufacturing capacity for the Financial Year 2025.

- Centralized robotic machines are capital-intensive and economically viable only at high manufacturing volumes, adding to Lenskart's competitive differentiation.

- Lenskart manufactured the third largest number of eyeglasses globally and the largest in India, amongst leading[20,21] large organised retailers of prescription eyeglasses in Financial Year 2025.

*Faster Intercity Logistics*

- Lenskart has the fastest intercity logistics network amongst leading[21] large organised eyewear retailers in India, as defined by the highest number of cities covered by next-day delivery, with Lenskart being the only eyewear retailer in India providing next-day delivery across 58 cities, as of 30th June 2025.

*High Consumer Reach and Wide In-house Brand Portfolio*

- Lenskart operates a total store footprint of 1.73 million sq. ft. and 2,137 stores in India, which is ~2.5 times larger than the store count operated by the next leading[21] large organised retailer of prescription eyeglasses in India, as of 30th June 2025.

- Consumers are increasingly associating Lenskart with purchases of prescription eyeglasses, as exemplified by Google Trends data for CY 2024 comparing search interest over time for Lenskart vs. search terms such as "Chasma", "Eyeglass", "Specs", and "Glasses".

- As of Financial Year 2025, the two-year purchase frequency among new customer accounts acquired by Lenskart in the Financial Year 2023 was 3.62 eyeglasses as compared to India average of ~1.8 eyeglasses.

- Lenskart's direct-to-consumer strategy, with its wide in-house brand portfolio, together enhance customer experience with Lenskart having created several large eyeglass sub-brands in India, such as Vincent Chase and John Jacobs, which are among the top three eyeglass brands[22] in India, in terms of sales value and volume in Financial Year 2025.

[20] Leading large organised retailers of prescription eyeglasses globally include retailers with a revenue of more than ₹ 43 billion (US$ 500 million) as of CY 2024 and more than 30 physical stores

[21] Leading large organised retailers of prescription eyeglasses in India include retailers with a revenue of more than ₹ 500 million (~US$ 6 million) as of FY 2024 and more than 30 physical stores

[22] Eyeglass brands include brands which sell both frames and lenses, and exclude brands which only sell lenses

*Value-added Service Offerings*

- Lenskart is improving the accessibility of eye tests, given the shortage of optometrists in India, and is the only leading[23] large organised prescription eyeglass retailer to offer remote optometry for eye tests in India as of 30th June 2025.

- Lenskart performed the highest number of eye tests amongst leading[23] large organised prescription eyeglass retailers in India in the Financial Year 2025 and three months ended June 30, 2025.

These factors have led to Lenskart outperforming other leading players on the following metrics:

- Lenskart ranks in the top two for B2C eyeglasses sales volumes and is the second largest retailer of prescription eyeglasses in terms of B2C revenue from operations, in Asia during Financial Year 2025, amongst leading[24] large organised retailers of prescription eyeglasses.

- Lenskart has the number one position in India and Singapore in Financial Year 2025, in terms of B2C revenue from operations, amongst leading[23,24] large organised retailers of prescription eyeglasses.

- Lenskart is India's most prominent and fastest growing leading[23] large organised prescription eyeglasses retailer, in terms of revenue from operations scale and growth respectively between Financial Year 2022 to 2025.

- Lenskart stores in India generate an average annual sales per square feet of ₹ 23,492.50 (US$ 273), which is the highest amongst the leading[23] large organised prescription eyeglasses retailers in India in Financial Year 2025.

**Potential Threats & Challenges**

The global eyewear industry is poised for consistent growth, driven by high-growth markets such as India, Southeast Asia, and the Middle East. However, legacy systems, category-specific complexities, and evolving consumer behaviour prevent the industry from realising its potential. These risks are particularly pronounced in high-potential, low-penetration markets, where access, affordability, trust, and scalability remain hurdles to solve for. Major risks influencing the competitive landscape include:

*1. Gaps in infrastructure and diagnostics coverage may slow the adoption of eyewear in emerging geographies*

The eyewear sector's expansion depends heavily on diagnostics and retail access. While ~4 billion people globally have refractive errors, penetration of prescription eyeglasses remains modest, especially in emerging markets such as India at ~35% and Southeast Asia at ~40% of refractive error incidences. This is partly due to low optometrist availability and optical store density, leading to limited last-mile availability of eye testing and prescription dispensing in these markets. However, expanding eyewear retail, increasing online penetration, and remote optometry initiatives by large organised players are beginning to address these gaps. Players investing in proactive and streamlined diagnostics gain by expanding access and accelerating first-time user adoption.

*2. Fragmented service experience in unorganised retail limiting standardisation and trust*

Prescription eyeglasses remains one of the most fragmented retail categories in emerging markets. For instance, in India and Southeast Asia, over 70% of prescription eyeglasses are still sold through unorganised channels as of FY 2025, which often lack standardised diagnostic tools and quality protocols. This results in wide variability in service quality, pricing, and product reliability. However, the growing footprint of organised and digitally enabled retailers is beginning to bring standardisation to the market through consistent diagnostics, consistent quality and reliability of branded lenses and frames, transparent pricing, and after-sales support. These players are shifting consumer preference toward service-led formats.

*3. High customisation requirements and complexity posing scalability challenges*

Unlike most lifestyle categories, eyewear products, especially prescription eyeglasses, require precision fitment, clinical accuracy, and individual customisation leading to highly fragmented SKU assortments and high working capital. Managing inventory, quality, and fulfilment at scale remains an operational challenge to solve for. However, increasing investment in supply chain, from automated lens manufacturing and just-in-time fulfilment to modular inventory design and new-age fitting tools are helping offset complexity, while enabling players to scale while maintaining personalisation.

*4. Affordability gap driven by cost structures, import dependencies, and perceived value mismatch in price-sensitive markets*

[23] Leading large organised retailers of prescription eyeglasses in India include retailers with a revenue of more than ₹ 500 million (~US$ 6 million) as of FY 2024 and more than 30 physical stores

[24] Leading large organised retailers of prescription eyeglasses globally include retailers with a revenue of more than ₹ 43 billion (US$ 500 million) as of CY 2024 and more than 30 physical stores

Affordability in emerging markets is constrained by high input costs, import dependencies, and potential gaps in consumer perception. Limited domestic manufacturing scale and fragmented supply chains continue to inflate costs for retailers. Although India's ASP for prescription eyeglasses at ~₹ 2,370 (~US$ 28) in FY 2025 is nominally low, it represents a sizable outlay for many consumers. However, value-focused organised players disrupting affordability by leveraging direct sourcing, technology-driven diagnostics, and tiered pricing. As digital models scale and local manufacturing matures, value-led growth is likely to follow.

*5. Surgical procedures to correct refractive errors offer an alternative but remain niche due to cost and eligibility constraints*

Refractive error correction through surgical procedures such as LASIK (Laser-Assisted in Situ Keratomileusis) and SMILE (Small Incision Lenticule Extraction) is increasingly accessible across emerging markets. However, LASIK procedures range from ₹ 20,640-1,03,200 (US$ 240-1,200) in India and from ₹ 86,000-3,44,000 (US$ 1,000-4,000) in emerging Southeast Asian markets, making them considerably more expensive than prescription eyeglasses. Uptake is further limited by low perceived urgency, surgical aversion, and medical ineligibility for a share of consumers (e.g., unstable prescriptions or thin corneas). As a result, penetration of surgical solutions remains limited at <1% of refractive error population in most emerging markets, and does not impact the large-scale, recurring demand for prescription eyeglasses.

**Technical/ Industry Related Terms/ Abbreviations**

| Term | Definition |
|---|---|
| Adaptive Lenses | Eyewear lenses that automatically adjust their tint or focus based on lighting conditions or user needs, enhancing visual comfort and performance |
| Adjustable Temple Lengths | Eyewear frames designed with extendable or customisable temple arms, allowing users to modify the length for a more comfortable and secure fit based on their head size and preference |
| AI-Driven Customisation | The use of artificial intelligence to personalise products based on individual preferences and needs |
| Astigmatism | An eye condition where an irregularly shaped cornea or lens causes distorted or blurred vision |
| Average Selling Price (ASP) | Ratio of value sales to unit sales |
| Awareness of Refractive Errors | An individual's understanding and recognition of their own refractive errors, such as myopia, hyperopia, astigmatism, or presbyopia, including the ability to identify symptoms and seek appropriate corrective measures |
| BharatNet | A large-scale government project in India aimed at providing high-speed broadband connectivity to rural areas, improving access to digital services, e-governance, and online education |
| Blue-Light Filtering | Lens coating designed to reduce exposure to blue light from digital screens, helping reduce eye strain |
| Boutique-Style Layouts | Store designs offering a premium, personalised shopping experience |
| CAGR (Compounded Annual Growth Rate) | Annualised growth rate for compounding values over a given time period, calculated as (Final Value/Initial Value) ^ (1/Time Period) - 1 |
| Capsule-Edition Collections | Limited-edition product lines featuring a small, curated selection of designs, often released for a specific season, collaboration, or theme, emphasising exclusivity and trend-driven appeal |
| Contact Lenses | Lenses placed directly on the eye's surface to correct vision, used as an alternative to eyeglasses, and for aesthetic purposes (coloured contact lenses) |
| CR-39 (Columbia Resin-39) | A lightweight, cost-effective plastic material used for eyeglass lenses, known for its good optical clarity, impact resistance, and affordability. |
| Currency Conversion Rate | US$ 1 = ₹ 86 |
| Customer Conversion Rate | The percentage of visitors to a website or store who complete a purchase |
| Developed Markets | Highly industrialised economies with stable growth, high per capita income, advanced technological infrastructure, strong financial markets, and well-established regulatory frameworks |
| Digital Try-Ons | Digital tools that allow users to preview eyewear or other products online using augmented reality or facial recognition technology |
| Digital India | A government initiative launched by the Government of India aimed at enhancing digital infrastructure, increasing internet connectivity, and promoting digital literacy to empower citizens and businesses |
| Digital Transactions | The electronic exchange of money or financial assets between parties using digital platforms, including online banking, mobile payments, and card transactions |
| Digital-First Brands | Brands prioritising digital channel for customer acquisition, sales and retention |
| Digitally-Influenced Spending | Consumer purchasing behaviour that is shaped by digital interactions, including online research, social media influence, digital advertisements, and e-commerce platforms |
| Digitally-Influenced Sales | Retail purchases driven by digital interactions, including online research, social media influence, or digital marketing, even if the final purchase occurs in a physical store |
| Direct-to-Consumer (D2C) Models | Business model where companies sell their products or services directly to customers online or through their own stores, without relying on intermediaries, such as wholesalers, retailers, or distributors |
| Discretionary Retail | Consumer spending on non-essential goods and services, includes spending on categories such as FMCG (excl. staples) apparel, eyewear, consumer electronics, consumer appliances, general merchandise, and beauty & personal care (BPC), among others; these tend to have cyclical demand, fluctuating with economic conditions |
| Disposable Incomes | Total personal income minus taxes on income |
| Eco-Friendly Materials | Sustainably sourced or biodegradable materials designed to minimise environmental impact throughout their lifecycle |
| Economic Diversification | The process of shifting an economy from reliance on a single sector to a broader range of industries |
| Emerging Markets | Economies that are transitioning from low-income, less developed status to modern industrial economies with higher living standards, characterised by high growth, increasing foreign investment, and expanding infrastructure |
| Eye Care Providers | Professionals and facilities that offer clinical eye-care services (examinations, diagnosis, treatment, LASIK) and may additionally retail prescription eyewear as a secondary service |
| Eyewear | Refers to prescription eyeglasses, sunglasses and contact lenses |
| Eyewear Accessories | Supplementary eyewear products such as clip-ons, lens care kits, designer cases, and interchangeable eyewear fittings |
| Eyewear Market | Retail market size for sales of frames, lenses, contact lenses and sunglasses |
| Eyewear Market Categories | The three main categories: prescription eyeglasses (frames and lenses), sunglasses, and contact lenses |

| | |
|---|---|
| Fashion | Fashion includes accessories, apparel and footwear |
| Fast Fashion | A business model focused on fast-paced design, production, and distribution of trendy, affordable apparel and accessories, often inspired by high-fashion trends and updated frequently to meet consumer demand |
| Financial Impact of Refractive Errors | Economic losses (e.g., productivity, healthcare costs) due to uncorrected refractive errors |
| Function-to-Fashion | A market shift where products originally designed for practicality or utility evolve into style-driven items, influencing consumer purchasing decisions based on aesthetic appeal rather than just functionality |
| GDP (Gross Domestic Product) | The total monetary value of all final goods and services produced within a country's borders over a specific period. |
| GDP per Capita | The GDP divided by the total population, indicating the average economic output per person. |
| General Merchandise | General Merchandise includes small household appliances (food preparation appliances, personal care appliances, irons, fans, heating appliances, small cooking appliances, lighting, etc.), home décor and furnishing, homeware, luggage, stationery, toys and games, footwear, and fashion accessories, etc. |
| Grocery | Grocery includes fresh foods such as fruits, vegetables, dairy and meat, FMCG (packaged foods and non-foods (for e.g. cleaning and laundry products)) and staples |
| Gross Margins (Retailers) | Profit percentage for retailers, calculated as (Retail Price - Wholesale Price)/Retail Price - 1 |
| High-Income Households (India) | Households in India with annual income more than ₹ 1.1 million (US$ 12,791) |
| High-Index Lenses | Eyeglass lenses with a higher refractive index, allowing them to be thinner and lighter than standard lenses, making them ideal for higher-power (high-dioptre) prescriptions and aesthetic appeal |
| Hyperopia | An eye condition where nearby objects appear blurry due to a shorter-than-normal eye lens |
| In-Store Personalisation | Customising the in-store shopping experience based on individual customer preferences, purchase history, or behaviour to enhance engagement and satisfaction |
| Inventory Management | The process of overseeing stock levels, tracking product flow, and optimising supply to meet demand while minimising costs and shortages |
| Just-In-Time (JIT) | A supply chain strategy where materials or products are delivered exactly when needed rather than stored in advance, minimizing inventory costs but requiring precise supplier coordination |
| Large Organised Retailers | Multi-regional retail chains with standardised operations, defined as chains with > 30 stores |
| LASIK (Laser-Assisted In Situ Keratomileusis) | A refractive eye surgery that uses a laser to reshape the cornea, correcting vision issues such as myopia, hyperopia, and astigmatism, reducing or eliminating the need for glasses or contact lenses |
| Lens Coatings | Specialised treatments applied to eyeglass lenses to enhance durability, functionality, and visual comfort, including anti-reflective, scratch-resistant, UV-blocking, and blue-light filtering coatings |
| Lens Customisation | The process of tailoring lenses to specific prescriptions, coatings, tints, or design preferences to meet individual vision and aesthetic needs |
| Lifestyle Retail Spending | Spending on goods enhancing personal style or leisure, notably apparel, footwear, accessories, beauty & personal care, and eyewear |
| Localised Designs | Eyewear tailored to local requirements, such as anti-fog, turban-friendly, anti-dust features |
| Lower Middle-Class Income Households (India) | Households in India with annual income between ₹ 0.3 to 0.8 million (US$ 3,488 to 9,302) |
| Low-Income Households (India) | Households in India with annual income less than ₹ 0.3 million (US$ 3,488) |
| Market Consolidation | The process by which larger, well-established companies dominate an industry through acquisitions, mergers, or competitive advantages, reducing the number of independent players in the market |
| Metro Cities | Defined as Delhi/NCR (includes New Delhi, Gurugram, Ghaziabad, Noida, and Faridabad), Hyderabad, Ahmedabad, Bengaluru, Pune, Mumbai, Chennai, Kolkata |
| Middle East | Consists of UAE and Saudi Arabia |
| Myopia | An eye condition where distant objects appear blurry due to elongation of the eye lens |
| National Programme for Control of Blindness (NPCB) | An Indian government initiative focused on reducing the prevalence of blindness through preventive, curative, and rehabilitative eye care services, including screening, treatment, and awareness programs |
| Nominal GDP | The total market value of goods and services produced in an economy, not adjusted for inflation |
| Nuclear Households | Includes “couple only” households, “couple with children” households, and “single parent with children” households |
| Omnichannel Retail | A retail strategy that unifies consumer touch-points, including digital (website, mobile app, social media), physical (stores, kiosks, pop-ups), and remote/in-home interactions (phone orders, video or chat consultations, home-try-on, doorstep fitting and delivery) to deliver an integrated, consistent shopping and service experience throughout the customer journey |
| Optical Lens Labs | Specialised facilities where eyeglass lenses are processed from raw lens blanks, including surfacing, edging, coating, and finishing to meet prescription specifications and optical quality standards |
| Optical Store Density | The number of eyewear retail stores per million population in a given region, indicating market penetration and accessibility of optical products |

| | |
|---|---|
| Optometrist | A healthcare professional specialising in eye care, including vision testing, prescribing corrective lenses, and detecting eye diseases |
| Organised B&M | Organised Brick & Mortar includes the purchase of goods with large-scale, standardised operations, professional management, and regulatory adherence which provides better product assortment and access to the consumers. It includes chain stores, supermarkets, hypermarkets, malls, etc. |
| Other Retail | Other retail includes large appliances, consumer electronic, personal accessories (jewellery & watches, etc.), alcohol & tobacco, consumer health, eyewear, furniture, etc. |
| Penetration of Prescription Eyeglasses | Percentage of people with refractive errors using corrective eyewear |
| PFCE (Private Final Consumption Expenditure) | Expenditure incurred by the resident households and non-profit institutions serving households on final consumption of goods and services, whether made within or outside the economic territory |
| Polycarbonate | A high-impact-resistant, lightweight plastic material used in eyeglass lenses, offering durability, UV protection, and shatter resistance, making it ideal for sports and safety eyewear |
| Presbyopia | An age-related condition where the eye loses its ability to focus on close objects due to the hardening of the lens |
| Prescription Eyeglasses | Eyewear designed to correct vision based on a prescription, consisting of frames and corrective lenses tailored to the wearer's needs, includes computer glasses and zero-power eyeglasses |
| Prescription Eyewear | Consists of prescription eyeglasses, prescription contact lenses and powered sunglasses |
| Powered Sunglasses | Sunglasses with vision correction lenses |
| Progressive Lenses | Multifocal lenses that provide a gradual transition between different refractive error corrections (near, intermediate, and far), includes bifocal lenses |
| Pupillary Distance (PD) | The measured distance between the centres of the pupils in millimetres, essential for correctly aligning prescription lenses within eyeglass frames to ensure optimal vision clarity |
| Purchase Frequency | Number of units of a certain product purchased in a span of 2 years |
| Pure-Play Online Retail | Retail businesses that operate exclusively through digital platforms, selling products online without any physical storefronts |
| Reactive Approach | A decision-making approach in which action is taken only after an issue reaches critical stage or becomes unavoidable, rather than proactively addressing potential risks or opportunities |
| Real GDP Growth | GDP growth adjusted for inflation |
| Refractive Errors | Vision problems caused by the shape of the eye preventing light from focusing correctly on the retina. Includes myopia (near-sightedness), hyperopia (far-sightedness), astigmatism, and presbyopia |
| Retail Market | The sector encompassing businesses involved in the distribution and sale of consumer goods to end customers through various channels, including physical stores, e-commerce platforms, and direct-to-consumer models |
| Screen Time | The total duration an individual spends using digital screens, including smartphones, computers, and televisions, often measured for health and productivity analysis |
| Single Vision Lenses | Eyeglass lenses designed to correct vision for a single focal distance, either near or far; it also includes zero power lenses, which are worn for non-corrective purposes such as reducing digital-screen eye strain (e.g., blue-light coatings), providing UV or impact protection, or serving fashion and cosmetic needs |
| Smart Glasses | Eyewear equipped with technology such as augmented reality (AR) or audio features |
| Smartphone Penetration | The percentage of a population that owns and actively uses smartphones, indicating the level of mobile technology adoption |
| SMILE (Small Incision Lenticule Extraction) | A minimally invasive laser eye surgery used to correct refractive errors such as myopia, involving the removal of a small lenticule from the cornea to reshape it and improve vision |
| Social Commerce | The buying and selling of products directly through social media platforms, integrating e-commerce features such as in-app checkout, shoppable posts, and live shopping experiences |
| Southeast Asia | Consists of Singapore, Thailand, Malaysia, Vietnam, Indonesia and Philippines |
| Style-Conscious Consumers | Consumers who prioritise aesthetics, trends, and fashion appeal in their purchasing decisions, often valuing design and appearance over functional or economic considerations |
| Sunglasses | Eyewear designed to protect the eyes from harmful UV rays and reduce glare, available in both prescription and non-prescription forms |
| Supply Chain Agility | The ability of a supply chain to quickly adapt to changes in demand, disruptions, or market conditions while maintaining efficiency and service quality |
| Thematic Collections | Curated eyewear collections designed around a specific theme, concept, or inspiration, often reflecting cultural trends, seasonal styles, or brand storytelling |
| Tier 1 Cities | Defined as Lucknow, Raipur, Patna, Jaipur, Ranchi, Surat, Jammu, Madurai, Chandigarh, Rajkot, Nagpur, Hubli, Coimbatore, Bhubaneswar, Mangalore, Jodhpur, Gwalior, Tiruchirappalli, Indore, Visakhapatnam, Dehradun, Aurangabad, Rajahmundry, Nashik, Vadodara, Belgaum, Udaipur, Gorakhpur, Agra, Vijayawada, Jabalpur, Siliguri, Kolhapur, Bhopal, Goa, Varanasi, Bareilly, Dhanbad, Gaya |
| Tier 2+ Cities | Cities other than metro and Tier 1 in India |
| Tiered Product Strategies | A pricing and product differentiation approach where a brand offers multiple product variations at |

| | |
|---|---|
| | different price points to cater to diverse customer groups and budgets |
| Trade Price | The price paid by distributors for one unit of a certain product |
| Traditional Organised Retailer (Eyewear) | Eyewear retail chains with 5-30 stores |
| Unorganised Retailers (Eyewear) | Small-scale independent eyewear retailers with 1-5 stores and informal operations |
| Upper Middle-Class Income Households (India) | Households in India with annual income between ₹0.8 to 1.1 million (US$ 9,302 to 12,791) |
| Urban | Defined as areas having at least 5,000 inhabitants, density of 400 people per sq. km. or more and at least 75% of male working population engaged in non-farm activities |
| UV Protection Awareness | Consumer recognition and understanding of the importance of protecting eyes from harmful ultraviolet (UV) rays, which can cause long-term eye damage and vision problems |
| Value-Conscious | Consumers who seek products that offer the best balance between cost and quality, emphasising affordability without compromising essential product features or durability |
| Visual Analytics | Analysis of CCTV footage using computer vision to derive insights on factory floor operations, store operations and customer behavior. |
| Value-Focused Retailers | Retail businesses that prioritise affordability while maintaining product quality, catering to budget-conscious consumers |
| Vision 2020 - The Right to Sight | A global initiative launched by the World Health Organisation (WHO) and the International Agency for the Prevention of Blindness (IAPB) to eliminate avoidable blindness through improved eye care access and public health strategies |
| World Council of Optometry (WCO) | A global organisation responsible for setting professional standards, promoting eye health awareness, and advocating for the advancement of optometry as a primary healthcare profession worldwide |

## OUR BUSINESS

*Some of the information in this section, including information with respect to our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read "**Forward-Looking Statements**" on page 26 for a discussion of the risks and uncertainties related to those statements and also the section "**Risk Factors**" on page 64 for a discussion of the risks that may affect our business, financial condition, or results of operations, and "**Restated Consolidated Financial Information**" and "**Management's Discussion and Analysis of Financial Condition and Results of Operations**" on pages 398 and 904, respectively, for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. In addition, please refer to the Unaudited Proforma Financial Information as of and for the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023 on page 505. This information has been prepared to (i) illustrate the impact of the acquisitions of Dealskart Online Services Private Limited on financial position at March 31, 2024 and March 31, 2023 as if such acquisition had taken place as at March 31, 2024 and March 31, 2023 respectively and on our results of operations for the years ended March 31, 2025, March 31, 2024 and March 31, 2023 as if such acquisition had taken place as at April 1, 2024, April 1, 2023 and April 1, 2022 respectively; and (ii) illustrate the impact of acquisition of Stellio Ventures, S.L. and Quantduo Technologies Private Limited as if the acquisitions had taken place on June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, respectively, for the purpose of the unaudited pro forma balance sheet as at June 30, 2025, March 31, 2025, 2024 and 2023 respectively, and on April 1, 2025, April 1, 2024, April 1, 2023 and April 1, 2022, respectively, for the purpose of the unaudited proforma statement of profit and loss for the three months period ended June 30, 2025, and for Financial Years ended March 31, 2025, March 31, 2024 and March 31, 2023 respectively. See also "**Risk Factors — The Unaudited Proforma Financial Information included in this Red Herring Prospectus which has been prepared to illustrate the effects of the acquisition of Dealskart Online Services Private Limited during the Financial Year 2025 and the acquisitions of Stellio Ventures, S.L. and Quantduo Technologies Private Limited during the Financial Year 2026 on our Restated Consolidated Financial Information is not indicative of our expected results of operations in future periods or our future financial position or a substitute for our past results**" on page 95.*

*Unless otherwise indicated, financial information is derived from our Restated Consolidated Financial Information. We have included certain non-Ind AS financial measures and other performance indicators relating to our financial performance and business in this Red Herring Prospectus, each of which is a supplemental measure of our performance and liquidity and not required by, or presented in accordance with, Ind AS, IFRS or U.S. GAAP. Furthermore, such measures and indicators are not defined under Ind AS, IFRS, U.S. GAAP or other accounting standards, and therefore should not be viewed as substitutes for performance, liquidity, or profitability measures under such accounting standards. In addition, such measures, and indicators are not standardized terms and a direct comparison of these measures and indicators between companies may not be possible. Other companies may calculate these measures and indicators differently from us, limiting their usefulness as a comparative measure. Although such measures and indicators are not a measure of performance calculated in accordance with applicable accounting standards, our management believes that they are useful to an investor in evaluating our operating performance. See also, "**Risk Factors – Certain non-generally accepted accounting principle financial measures and other statistical information relating to our operations and financial performance have been included in this Red Herring Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable with those presented by other companies**" on page 103.*

*Certain images and graphics included in this section are provided for illustrative purposes only. Unless otherwise indicated, the industry and market-related information contained in this Red Herring Prospectus is derived from the Redseer Report. We officially engaged Redseer Management Consulting Private Limited in connection with the preparation of the Redseer Report pursuant to an engagement letter dated February 12, 2025. The Redseer Report will be available on the website of our Company at https://www.lenskart.com/corporate/investorrelations in compliance with applicable law and has also been included in "**Material Contracts and Documents for Inspection – Material Documents**" on page 1,044. The information included in this section includes excerpts from the Redseer Report and may have been reordered by us for the purposes of presentation. There are no parts, data or information (which may be relevant for the Offer), that have been left out or changed in any manner. For more information, see "**Risk Factors —This Red Herring Prospectus contains information from third parties, including an industry report prepared by an independent third-party research agency, Redseer Management Consulting Private Limited, which we have commissioned and paid for to confirm our understanding of our industry exclusively in connection with the Offer and reliance on such information for making an investment decision in the Offer is subject to inherent risks**" on page 102.*

*All operational data includes data aggregated for company-owned and company-operated stores and franchisee stores for the Financial Years presented. Unless otherwise indicated, references to (i) "prescription eyeglasses" include all powered eyeglasses, sunglasses and smart glasses used for vision correction from refractive errors, reading glasses and computer vision glasses; (ii) "eyeglasses" include prescription eyeglasses, unpowered sunglasses and unpowered smart glasses; (iii) "eyewear" includes eyeglasses and contact lenses (powered and unpowered); and (iv) "accessories" include clip-ons, bags, chains, contact lens solutions, frame swaps, bitz and eyedrops.*

### OVERVIEW

We believe that clear vision is fundamental to the personal development and well-being of an individual, and our aim is to build tech-enabled supply and distribution solutions that improve access to affordable and quality 'Eyewear for All'.

We are a technology-driven eyewear company with integrated operations spanning designing, manufacturing, branding and retailing

of eyewear products. We primarily sell prescription eyeglasses, sunglasses, and other products such as contact lenses and eyewear accessories. India is our largest market, and according to the Redseer Report, we are the largest seller of prescription eyeglasses in terms of volumes sold in India in Financial Year 2025, among organized retailers. Leveraging our experience and capabilities in India, we have expanded into select international markets including Japan, Southeast Asia and the Middle East. We are India's largest, and in Asia, are amongst the two largest, organized retailers of prescription eyeglasses in terms of B2C eyeglasses sales volumes during the Financial Year 2025, according to the Redseer Report.

We are a direct-to-consumer company that designs and sells a wide range of eyewear products under our own brands and sub-brands. We design our eyeglasses, both frames and lenses, supported by our 109-member design and merchandising team, as of June 30, 2025. We offer products across a wide range of price points and age categories, catering to the requirements of an entire household. During the three months ended June 30, 2025 and the Financial Year 2025, we launched 42 and 105 new in-house designed and engineered collections globally, respectively, including in collaboration with popular brands and celebrities. The two-year purchase frequency among new customer accounts acquired by us in the Financial Year 2023 was 3.62 eyeglasses as compared to an India average of 1.8 eyeglasses, according to the Redseer Report.

Our brands are designed to be aspirational and appeal to a wide range of customer categories. In the Financial Year 2025, Lenskart was awarded "India's Most Trusted Eyewear Brand of 2025" by TRA Research. We offer our customers a convenient purchase journey through our omnichannel retail network. As of June 30, 2025, our mobile applications had over 100 million cumulative downloads and we operated our business through 2,806 stores globally (comprising 2,137 stores in India and 669 stores internationally).

According to the Redseer Report, the value chain for prescription eyeglasses is complex, involving high degree of precision and accuracy to create a made-to-order product for every customer. In order to provide a satisfactory customer experience, we have made a strategic choice to centralize and control the entire prescription eyeglasses supply chain, comprising lens manufacturing, lens edging, lens design, frame design, frame manufacturing and delivery. We own and operate frame and lens design and prescription eyeglasses manufacturing facilities at two locations in India in Bhiwadi, Rajasthan and Gurugram, Haryana, supplemented by regional facilities in Singapore and the United Arab Emirates. This centralized manufacturing and controlled supply chain in India has allowed us to deliver quality prescription eyeglasses at affordable costs and enable next day delivery at select locations. This integrated approach also allows us to adapt our offerings based on customer feedback. According to the Redseer Report, our Bhiwadi facility in India is amongst the top two vertically integrated centralized manufacturing facility for prescription eyeglasses globally in terms of manufacturing capacity for the Financial Year 2025. See "– ***Manufacturing, Procurement and Supply Chain***" on page 317.

During the three months ended June 30, 2025 and 2024, we had revenue from operations amounting to ₹18,944.55 million and ₹15,204.26 million, respectively, and during the Financial Years 2025, 2024 and 2023, we had revenue from operations amounting to ₹66,525.17 million, ₹54,277.03 million and ₹37,880.28 million, respectively, reflecting period-on-period growth of 24.60% between the three months ended June 30, 2024 and the three months ended June 30, 2025, year-on-year growth of 22.57% between Financial Years 2025 and 2024, and 43.29% between Financial Year 2024 and 2023.

**Our Market Presence**

We commenced our operations in India as an online business in 2010 and opened our first retail store in New Delhi in 2013. Since then, we have scaled through both the online and offline channels and have established a presence through our retail stores, websites, mobile applications, and other channels. During the three months ended June 30, 2025 and the Financial Year 2025, in India, 3.73 million and 9.94 million customer accounts, respectively, transacted with us, and we sold 6.72 million and 22.91 million units of eyewear, respectively. As of June 30, 2025, we have 2,137 stores in India, of which, 1,831 were owned by us and 306 were franchisee-owned. During the three months ended June 30, 2025 and the Financial Year 2025, our India segment total revenue as per Ind AS 108 amounted to ₹11,691.84 million and ₹40,604.66 million, respectively, and our India segment results pre-depreciation and amortisation amounted to ₹2,280.77 million and ₹4,894.76 million, respectively, reflecting an India segment total revenue as per Ind AS 108 CAGR of 30.29% and an India segment results pre-depreciation and amortisation CAGR of 111.67% between Financial Years 2023 and 2025. We are India's largest and fastest-growing eyewear company in terms of revenue from operations for the Financial Years 2025, 2024 and 2023, according to the Redseer Report.

We have built a scalable and replicable model by investing in technology solutions, AI tools and automation across customer engagement, supply chain and post order fulfilment, retail store operations and internal business functions. These capabilities enable us to deliver an enhanced customer experience and drive operational efficiency at scale. Moreover, our manufacturing capabilities in India provide us with an opportunity to serve affordable eyewear to customers in international markets.

We commenced our international operations in 2019 by expanding to Singapore by launching a website and one store. Since then, we have established our international footprint in nearby geographies, primarily across Southeast Asia, Japan, and the Middle East. We acquired Owndays, a Japan and Southeast Asia-based eyewear brand, in August 2022. This acquisition has enabled us to deliver affordable and quality prescription eyeglasses in these markets, which, according to the Redseer Report, have a rising incidence of refractive errors. During the three months ended June 30, 2025 and the Financial Year 2025, in our international markets, 0.70 million and 2.47 million customer accounts, respectively, transacted with us in our international markets, and we sold 1.13 million and 4.29 million units of eyewear, respectively. As of June 30, 2025, we have 669 stores in International markets. During the three months ended June 30, 2025 and the Financial Year 2025, our International segment total revenue as per Ind AS 108 amounted to ₹7,364.50 million and ₹26,387.29 million, respectively, and our International segment results pre-depreciation and amortisation amounted to ₹1,172.06 million and ₹4,584.94 million, respectively. Between Financial Years 2024 and 2025, we recorded International segment total revenue growth, as per Ind AS 108, of 16.51% and International segment results pre-depreciation and amortisation growth of 33.11%. Similarly, between Financial Years 2023 and 2024, we recorded International segment total revenue growth, as per Ind AS 108, of 57.74% and International segment results pre-depreciation and amortisation growth of 144.07%.

We believe that our international expansion has been, and will continue to be, instrumental in establishing Lenskart and Owndays as well-known eyewear brands globally. We leverage our experience from centralized supply chain operations in India, where we use technology to enhance customer experience and offer improved customer propositions, which in turn strengthens our brands outside of India. Our omnichannel retail network and merchandising strategies are tailored to each geography in which we operate, while maintaining operational consistency and adhering to our brand values of offering quality eyewear at affordable prices.

**The Refractive Error Problem**

The number of individuals affected by refractive errors in India has increased from approximately 43% (approximately 590 million) in the Financial Year 2020 to approximately 53% (approximately 777 million) in the Financial Year 2025 and is projected to increase to approximately 62% (approximately 943 million) by the Financial Year 2030, according to the Redseer Report. To address this growing problem, we have deepened geographic penetration and our omnichannel presence in India, enabled by 358 home try-on agents as of June 30, 2025, and the addition of 1,280 new stores between the Financial Year 2023 and June 30, 2025, with 64.38% of such stores located outside metropolitan cities in India.

According to the Redseer Report, in the Financial Year 2025, Asia accounts for the largest share of global population with refractive error incidences with Southeast Asia and Japan having an incidence rate of approximately 65% and 68%, respectively, which is expected to increase to 70% and 71%, respectively, by the Financial Year 2030, indicating increasing demand for vision correction solutions across the region. Additionally, according to the Redseer Report, the penetration of prescription eyeglasses in Asia is low with Southeast Asia at 40%, Middle East at 60%, and Japan at 69%, as compared to the United States at 88%.

The growth in global eyewear market has been complemented by a rapid shift from unorganized to organized eyewear retailers across geographies, according to the Redseer Report. The organized sector in India is projected to grow approximately 1.6 times faster than the unorganized sector, accounting for approximately 31% of the overall market by the Financial Year 2030, according to the Redseer Report. Similarly, in Japan, the share of organized retail is projected to increase from approximately 63% in the Financial Year 2025 to approximately 69% by the Financial Year 2030, in South-East Asia, it is projected to increase from 33-35% in the Financial Year 2025 to 40-45% by the Financial Year 2030, and in the Middle East, it is projected to increase from 58-60% in the Financial Year 2025 to 69-71% in the Financial Year 2030. This presents an opportunity for organized players to make prescription eyeglasses accessible to the growing population with refractive errors.

According to the Redseer Report, in India, Southeast Asia and the Middle East, approximately 1.3 billion individuals (aggregating to approximately 32% of the global population) are estimated to be affected by refractive errors as of March 31, 2025. Of these individuals, 0.8 billion individuals are not able to correct their refractive error with prescription eyeglasses due to several reasons,

including affordability, limited awareness and insufficient access to optometrists.

**Eyewear for All**

We strive to provide Eyewear for All and make quality eyeglasses accessible and affordable across our markets of operations. According to the Redseer Report, our total addressable market in India, South-East Asia, Japan, the Middle East and other international markets is expected to grow to approximately ₹3,601 billion by the Financial Year 2030, as illustrated in the graphic below.

**Market size of Lenskart's current markets**

| Market | 2025 (₹ Bn) | 2030 (₹ Bn) |
|---|---|---|
| India | 788 | 1,483 |
| International | 1,641 | 2,118 |
| **Total** | **2,429** | **3,601** |

*International Markets include Japan, Indonesia, Malaysia, Philippines, Singapore, Thailand, Vietnam, Taiwan, Hong Kong, the United Arab Emirates and the Kingdom of Saudi Arabia. The combined market size for Hong Kong and Taiwan is estimated at ₹151 billion for Financial Year 2025, and ₹194 billion for Financial Year 2030. Market sizes for Cambodia and Australia have not been considered in the above graphic.*
*Source: Exhibit 18(b), Redseer Report.*

As of June 30, 2025, we offered complementary eye tests across our 2,806 stores in our Indian and international markets. During the three months ended June 30, 2025 and the Financial Year 2025, we conducted approximately 4.43 million and 13.45 million eye tests, respectively, in India and 0.68 million and 2.56 million eye tests, respectively, outside India. According to the Redseer Report, this was the highest number of eye tests among leading large, organized prescription eyeglasses retailers in India in such year/period. Prescription eyeglasses represented more than 80% of our revenue from operations, on a restated basis, during each of the Financial Years 2025, 2024 and 2023.

To address low optometrist density and access, we launched remote optometry solutions wherein the customer can be seated in the clinic of a store, facing a remote-controlled eye-testing machine, and optometrists are able to attend customers remotely (over video conference) to determine their vision prescription. This leads to improved optometrist utilization and enables us to increase the reach of our eye testing services, particularly in remote locations. The additional data gathered during such eye tests also enables us to train our optometrists better. As of June 30, 2025, we employed 164 optometrists at two central locations in India in Kolkata and Gurugram, conducting remote eye tests for customers at 298 stores across India as well as in select international markets. As of June 30, 2025, we provide remote optometry services across 266 stores in Japan, and recently introduced remote optometry services in Thailand.

*(Remainder of this page has intentionally been left blank.)*

Set out below is an illustrative depiction of our remote optometry solutions offered:

**Centralized Supply Chain and Automated Manufacturing**

According to the Redseer Report, the manufacturing of prescription eyeglasses is complex, requiring a high degree of precision and customization for every customer order. Moreover, each order involves a multi-step process, including matching lenses to frames, cutting and edging lenses, assembling components, and final fitting to produce a made-to-order product tailored for every customer. Further, according to the Redseer Report, the traditional prescription eyeglasses supply chain is fragmented and disaggregated, with multi-layered procurement and cutting and fitting processes that are often managed by individual retailers or local merchants serving a limited number of retailers, resulting in increased costs for customers, inconsistent quality, high dependence on locally available skilled manpower, limited choices and unpredictable delivery timelines.

We operate a centralized supply chain that fulfils customer orders across all our channels in India (comprising our websites, mobile applications and retail stores). This includes centralized procurement of frames and lenses, matching frames to lenses, lens coating, edging, cutting and polishing, and assembling lenses and frames. We manufactured 69.87% of the prescription eyeglasses sold by us during the Financial Year 2025, respectively, at our centralized manufacturing facilities in India. Since 2019, we have also expanded the servicing of our international operations through these centralized facilities in Bhiwadi, Rajasthan and Gurugram, Haryana, in addition to our facilities in Singapore and the United Arab Emirates, which we set up in 2022 and 2024, respectively. According to the Redseer Report, our Bhiwadi facility is amongst the top two vertically integrated centralized manufacturing facilities for prescription eyeglasses globally, in terms of manufacturing capacity, for the Financial Year 2025. See "– ***Manufacturing, Procurement and Supply Chain***" on page 325.

Our Bhiwadi facility has a high level of automation of 75% which enables us to adhere to and ensure strict quality control guidelines. This facility is also equipped with fully automated robotic surfacing to ensure alignment with each order's specifications. The dispatch and delivery systems in our Bhiwadi facility is also automated enabling us to reduce time to service a customer.

Our centralized supply chain and manufacturing model enables us to leverage economies of scale across all our markets of presence (as reflected in the growth of our product margin over the past three Financial Years). This has also helped us scale operations efficiently, maintain product quality at low costs, offer a wide assortment of eyewear to customers, and achieve next day delivery.

We have the ability to leverage our India supply chain in our international markets, both for procurement of lens, frame and other raw materials for facilities outside of India and supplying products manufactured in our Indian facilities to such international markets. For instance, post-acquisition of Owndays, our International Segment Product Margin % increased from 70.42% in the Financial Year 2023 to 74.43% in the Financial Year 2025 and was 75.87% during the three months ended June 30, 2025, primarily by leveraging our centralized procurement.

We have centralized the manufacturing process for prescription eyeglasses, and as a consequence, have moved manufacturing and logistics coordination out of stores as compared to order fulfilment at stores in the traditional supply chain. In India, our centralized supply chain has enabled us to deliver a consistent quality at scale (as we do not rely on different localized suppliers for our products), lower cost (as compared to traditional models, according to the Redseer Report) and next-day delivery. We are able to offer our customers next-day delivery in 58 cities and 3-day delivery in 49 cities across India for single vision prescription eyeglasses as of June 30, 2025. We are also focused on implementing a centralized supply chain and manufacturing models in our international markets such as Singapore and the United Arab Emirates.

The graphic below outlines an overview of the traditional distributed supply chain as compared to our centralised supply chain.

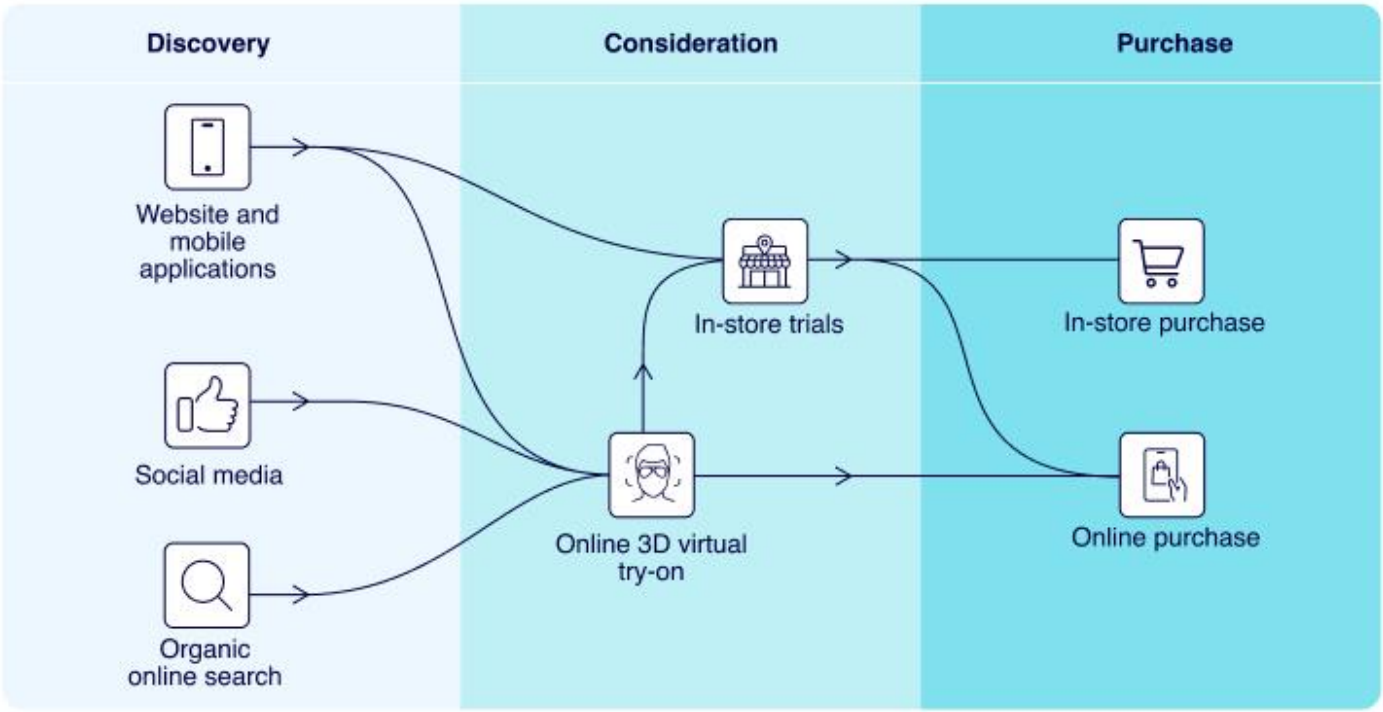
**Our Mobile Applications enabling an Omnichannel Experience**

In line with our goal of making quality eyewear accessible and affordable, we have established a presence across multiple channels, centred around our mobile applications and websites. As of June 30, 2025, our mobile applications had more than 100 million cumulative app downloads and our web traffic for the Financial Year 2025 was 104.97 million annual visitors globally.

Customers are able to visit our internet platforms to browse and learn about our products, and can then subsequently purchase products across both online and offline touchpoints. Our mobile applications feature a large catalogue containing details of all our products, recommendations from influencers, customer reviews, virtual try-on and size measurement features, and include AI-enabled frame recommendations to assist customers with their purchases across channels.

In the Financial Year 2025, customers contributing 44.82% of our revenue from operations in India (on a proforma basis) engaged with us digitally through organic searches, social media or other online channels in the 90 days prior to completing their purchase. During Financial Year 2025, we conducted 38.59 million virtual try-ons and 37.87 million face/frame size measurements for our customers in India through our mobile applications.

**Lenskart's omnichannel model**



**Lenskart's Virtual try-on**

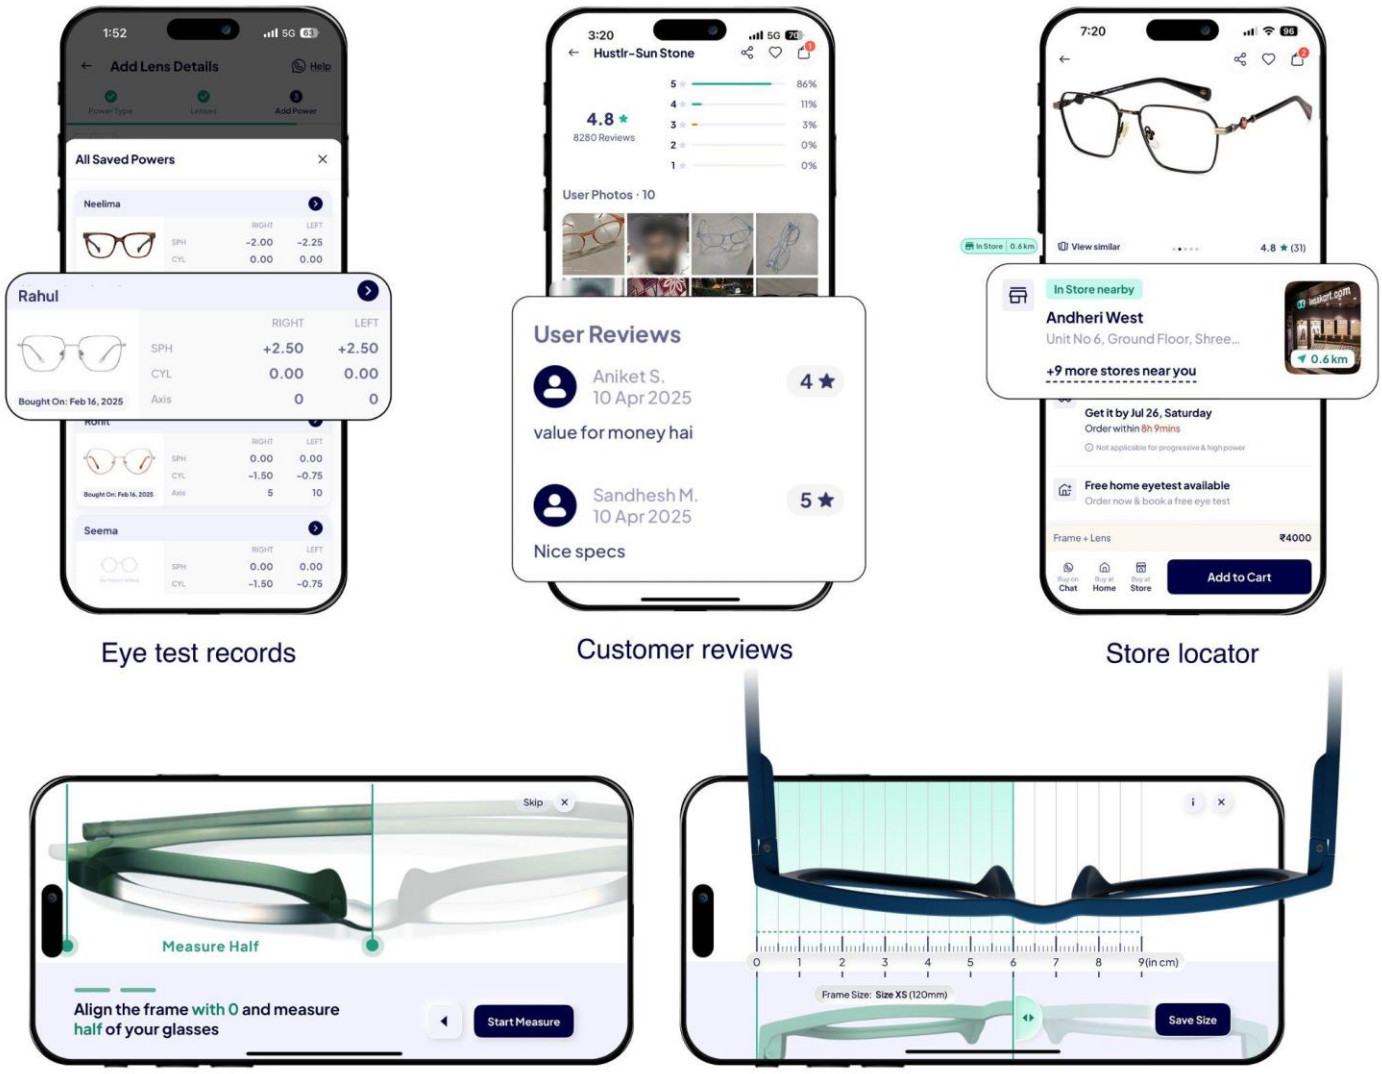
Virtual size guide

Virtual frame try-on

Virtual recommendation

Our customers can track their activity with us through our mobile applications, including accessing shortlisted products, reviewing eye-test results from our stores, and monitoring the status of orders placed. For repeat customers, our mobile applications enable efficient repeat purchases by pre-selecting preferred styles, sizes, lenses, and prescriptions. Customers can also check the availability of specific style options at nearby stores and visit those locations for an in-person trial.

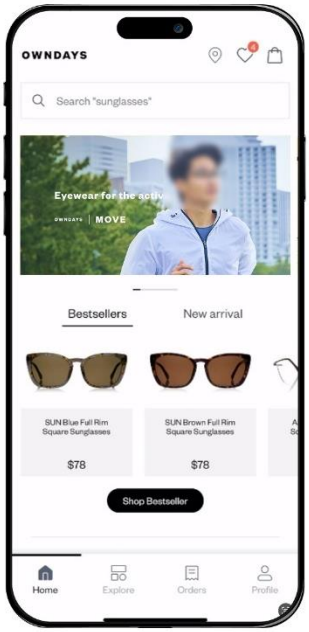
The graphic below sets out certain details and features of our Lenskart mobile application available for download in India:



Our omnichannel model allows customers to seamlessly purchase, collect, receive or return products across any of our touchpoints. In the Financial Year 2025, 40.68% of all eyewear sold by us in India (excluding eyewear units collected over the counter) was shipped directly to our customers' personal addresses. While we maintain limited inventory at our physical stores owing to our centralized supply chain and manufacturing, our customers have access to our entire collection through our online channel, which is serviced by our centralised supply chain and manufacturing operations. As of March 31, 2025, 75.37% of our inventory in India was centralised and stored at our manufacturing facilities.

As we have expanded internationally, we have also begun delivering omnichannel customer experiences in these markets. For example, we started our Singapore operations by launching a website and store in 2019 and serving such customer demand through our manufacturing operations in India. Similarly, following our acquisition of Owndays, we have launched an Owndays mobile application in Singapore. We have also launched the Lenskart mobile application in countries such as Singapore, the Kingdom of Saudi Arabia and Thailand.

Set out below are snapshots of our mobile applications in Singapore, the Kingdom of Saudi Arabia and Thailand:



Owndays Singapore

Lenskart Kingdom of Saudi Arabia

Lenskart Thailand

**Leveraging our Stores and Home Try-on Service for Customer Assistance**

A significant portion of our online traffic is driven by customers seeking to try frames and obtain eye tests, and they require assistance in meeting these needs. As of June 30, 2025, our 2,806 stores globally fulfil these requirements and play a key role in converting visitors into customers. Additionally, we had 358 home try-on agents offering at-home eye test appointments to customers in India as of June 30, 2025.

*(Remainder of this page has intentionally been left blank.)*

Set out below are images of some of our Lenskart stores across India, Singapore and Thailand

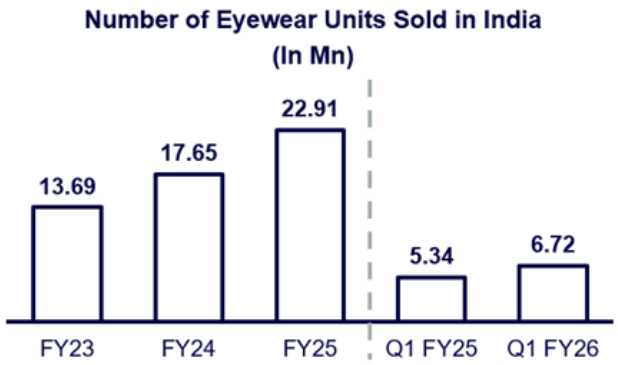
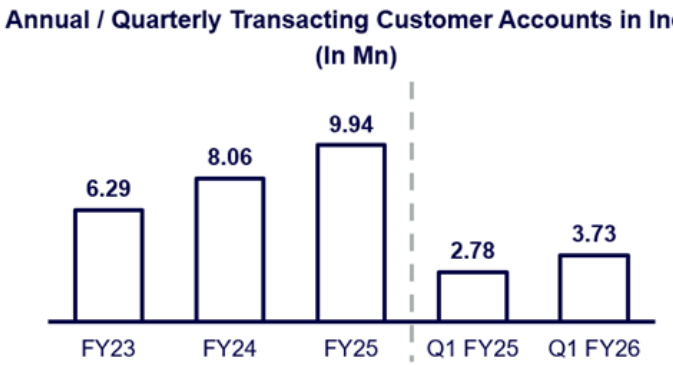
Owndays Thailand

Our omnichannel model enables us to scale our operations while efficiently investing in our marketing efforts. In India, our adjusted same-store sales growth ("**SSSG**") and same-pincode sales growth ("**SPSG**") was 15.67% and 20.54%, respectively, in the Financial Year 2025.

The strength of our omnichannel model is reflected in the growth of our customer base. Our Annual/Quarterly Transacting Customer Account base (which are accounts that have transacted at least once on any of our online or offline channels in a given Financial Year/Quarter) in India grew at a CAGR of 25.75% between the Financial Years 2023 and 2025, increasing from 6.29 million in the Financial Year 2023, to 8.06 million in the Financial Year 2024 and 9.94 million in the Financial Year 2025, and to 3.73 million during the three months ended June 30, 2025. We have scaled our business due to the effectiveness of our end-to-end operating model, which comprises our in-house design capabilities, centralised supply chain, and manufacturing that allows us to cater to a growing customer base. Similarly, our Annual/Quarterly Transacting Customer Account base in our International markets grew at 15.73% CAGR year-on-year between the Financial Years 2024 and 2025, increasing from 2.14 million in the Financial Year 2024 and 2.47 million in the Financial Year 2025, standing at 0.70 million in the three months ended June 30, 2025.

The graphic below sets out the number of eyewear units sold in India and the number of annual transaction customer accounts in India during the periods and Financial Years indicated:





***Note:***

*Annual Transacting Customer Accounts are accounts which have transacted at least once on any of our online or offline channels in a given Financial Period/Year. Tracking our annual transacting customer accounts helps us identify the scale, identity of our customer base and thereby reach of our omnichannel platform and helps in marketing and growth decisions.*

*Quarterly Transacting Customer Accounts are accounts which have transacted at least once on any of our online or offline channels in a given Quarter. Tracking our quarterly transacting customer accounts helps us identify the scale, identity of our customer base and thereby reach of our omnichannel platform and helps in marketing and growth decisions.*

We have continued to broaden and deepen the geographic presence of our stores. We opened 1,280 stores across India in the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023. Further, 80.80%, or 568 out of the 703 CoCo stores opened by us during Financial Years 2024 and 2023 (which were active as of March 31, 2025), achieved store payback until March 31, 2025, with an average payback period of 10.29 months. The table below sets out the average payback of all new CoCo stores opened by us across city tiers in India during the Financial Years 2023 and 2024:

| City tier | Number of new stores opened in Financial Years 2024 and 2023 (net of store closures) | Number of new stores opened in Financial Years 2024 and 2023 (net of store closures) achieving payback as of March 31, 2025 | Percentage of new stores opened in Financial Years 2024 and 2023 (net of store closures) achieving payback as of March 31, 2025 (%) | Average payback period as of March 31, 2025 (in months)[(1)] |
|---|---|---|---|---|
| Metropolitan cities | 276 | 224 | 81.16% | 10.41 |
| Tier 1 cities | 200 | 157 | 78.50% | 10.35 |
| Tier 2+ cities | 227 | 187 | 82.38% | 10.10 |
| **Total** | **703** | **568** | **80.80%** | **10.29** |

***Note:***

*(1) Average payback period is calculated by dividing the relevant stores capex divided by cumulative stores post-rent EBITDA until capex is completely recovered.*

We have extended our omnichannel experience to customers' homes, by launching home eye test and frame try-on services in 30 cities in India, wherein our agent travels to the location of the customer to conduct eye tests and provide product trials. This enables an additional level of convenience for our customers, especially senior citizens, corporate employees, and families. We had 358 home try-on agents offering at-home eye test appointments to our customers in India, as of June 30, 2025.

**Our Technology Platform to Support Customer Experience**

We have invested in a range of customized technology solutions, AI tools and automation to deliver enhanced customer experience and drive higher operational efficiencies. Technology is a crucial component of our operations across our organization, including customer engagement, supply chain and post order fulfilment, retail store operations and internal business functions. Through our technology platform, we are able to derive insights across our markets of presence which help us in making informed data driven strategic and operational decisions. Through our technology led research and development initiatives, we seek to deliver better customer experience, drive operational efficiencies, and support long term profitability.

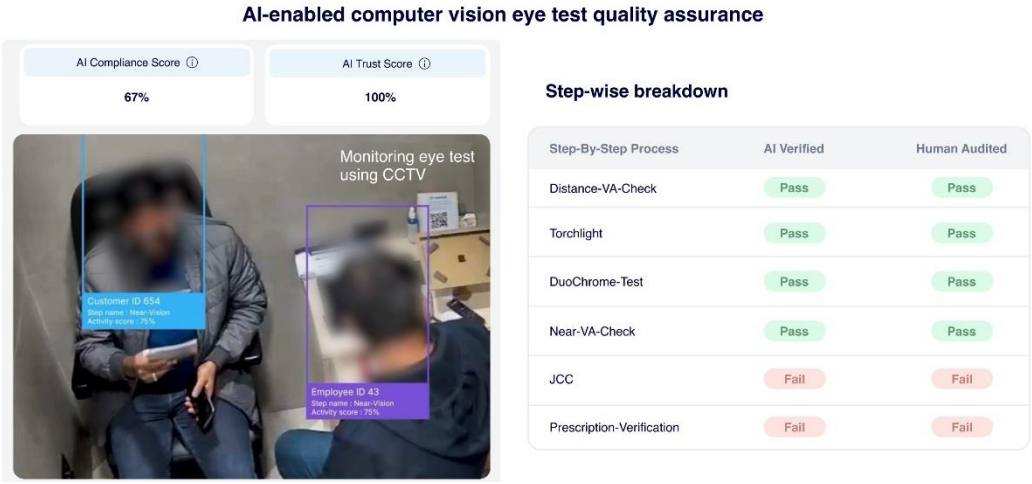
As of June 30, 2025, our technology team comprised 491 members. This team is responsible for building, maintaining, and enhancing our core technology infrastructure, including our websites, mobile applications, warehouse management system and AI-driven tools, which collectively support our operations and customer experience. The technology infrastructure created by this team service both India and our International markets. We have also started using many of these capabilities for Owndays post-acquisition.

Over the years, we have leveraged AI to create sophisticated technologies that have allowed us to gain market share and deliver an improved customer experience. One such technology is our in-house developed facial analysis and frame recommendation tool wherein 38.59 million virtual trials were done in the Financial Year 2025. The data gathered from these trials allows our recommendation algorithm to become better equipped, thereby enhancing customer experience.

Similarly, our in-house AI-enabled Computer Vision platform analyses CCTV footage from our retail locations with a goal to optimize customer flow at our stores, increase conversion rates, and overall deliver volume-based same-store growth consistently. The data collected through the technology allows us to make operational and strategic decisions for improving customer experience and financial performance. This technology is deployed across our stores globally, including in Owndays stores post-acquisition. We also utilise geo-analytics to predict revenue potential and payback period for potential stores based on their locations and were able to open 1,280 new stores across India during the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023. This data collected in the process has allowed us to improve the algorithm of our geo-analytics tool over the years.

*(Remainder of this page has intentionally been left blank.)*

The graphic below illustrates our in-house AI-enabled Computer Vision platform:



**Our Design Assortment for Customers in Our Markets**

In addition to our aspiration of Eyewear for All, we aim to enhance customer lifestyles by promoting the use of multiple pairs of eyewear for different occasions and needs, much like how people choose different shoes, bags, or accessories, supporting our second goal of "More Eyewear for Each." We believe that customers purchase products (especially eyeglasses) not only for their functional utility but also for their symbolic value. Our products seek to enable customers to express their identity, status, affiliations, and personal values through their eyewear choices. We design our eyeglasses frames, sunglasses, prescription lenses, and lens coatings in-house through our dedicated eyewear design teams in India and Japan. Facilitated by our presence in 14 countries as of June 30, 2025, we are able to share design collections across markets, helping us launch innovative products that suit local preferences while maintaining a consistent global brand. In the three months ended June 30, 2025 and the Financial Year 2025, we launched 42 and 105 new in-house designed and engineered collections globally, respectively, including in collaboration with popular brands and celebrities.

We believe we have been able to increase customer purchase frequency of our eyewear products by launching new fashion and functional eyewear designs, including based on customer feedback. For instance, we offer a specialized collection designed for customers who wear turbans, a durable eyewear range for children, lightweight frames suitable for officegoers, and a bejewelled premium wedding collection. We have also introduced localized collections catering to festive occasions such as Navratri in India, Ramadan in the Middle East, Lunar New Year and Halloween. Additionally, we have specialised collections featuring popular fictional characters and media franchises, as well as a hip-hop-inspired range, in addition to endorsements by designers and celebrities. In December 2024, we launched our affordable smart glasses category through "Phonic", our audio-enabled smart eyeglasses, in India.

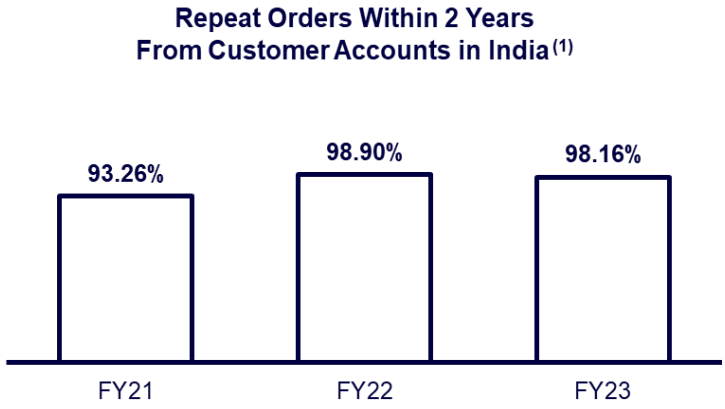
The graph below sets out the details of repeat orders within two years from newly acquired customers during the Financial Years 2021, 2022 and 2023:



***Note:***

*(1) Calculated as the cumulative number of all repeat orders within two years of first purchase divided by cumulative orders of first purchase of all the newly acquired customer accounts in India in a particular year.*

We target different customer categories through a portfolio of brands and sub-brands that include premium collections through John Jacobs and Owndays, and economy and affordable premium collections through Lenskart Air, Vincent Chase, hustlr, and Hooper Kids.

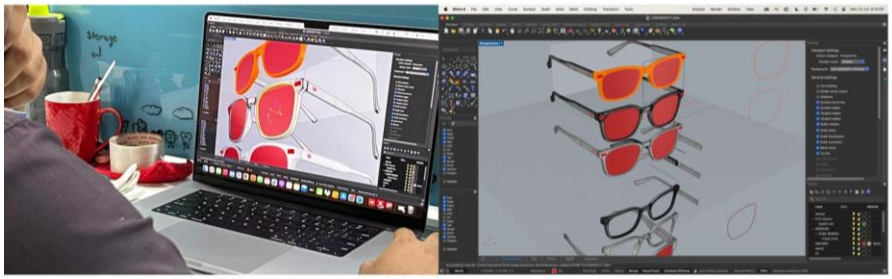
*(Remainder of this page has intentionally been left blank.)*

The graphic below sets out our Company's select brands and sub-brands:

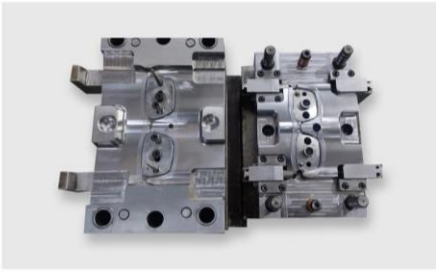
***Re-engineering Design and Quality of Frames and Lenses***

In 2021, we initiated generating frame structures and mould designing, lens designing and manufacturing in-house to allow us to launch new designs more frequently, improved quality and further lower cost versus procuring these from other third-party vendors. We have established in-house capabilities to manufacture both frames and lenses.

**Frame designing**



In-house CAD designing



Frame moulding

In India, we produce a wide range of lenses across all powers, including single-vision, bifocal, and progressive lenses, supported by advanced, automated technology and precision tooling. We have also focused on lens research and development to enhance lens quality, functionality, and durability. At our Bhiwadi facility, our entire lens surfacing line is fully automated with no human intervention until the quality check process. We use precision engineering to ensure consistent cutting quality across lenses and accuracy of power.

During the three months ended June 30, 2025 and the Financial Year 2025, we manufactured 1.31 million and 4.06 million lenses, respectively, in-house at our manufacturing facilities in India. Similarly, during the three months ended June 30, 2025 and the Financial Year 2025, we manufactured 1.87 million and 6.44 million frames, respectively, at our own facilities in India and through Baofeng Framekart Technology Limited, our Joint Venture in China. See also "— ***Our Business Relationships – Joint Venture manufacturing arrangements***" on page 331.

**Our Brand**

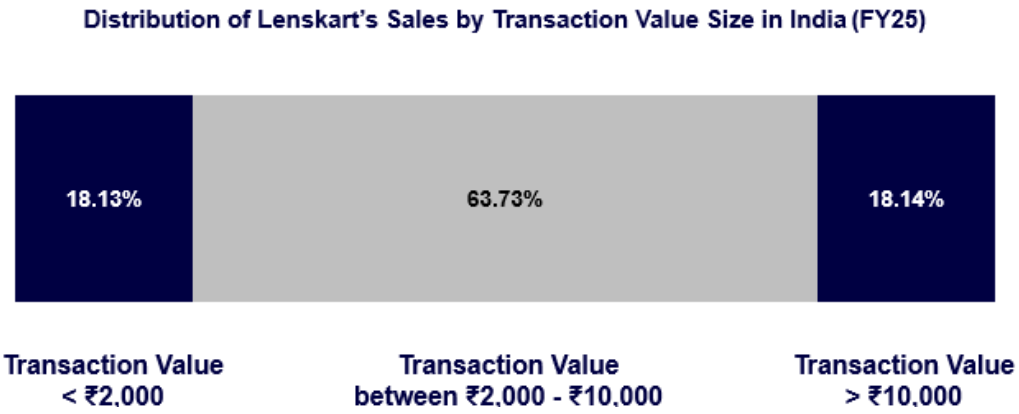
Our aim is to build our Company as a trusted consumer brand across India and the geographies that we operate in, that customers associate with consistent quality, functionality, delivered at scale and at accessible price points. In the Financial Year 2025, Lenskart was awarded "India's Most Trusted Eyewear Brand of 2025" by TRA Research. Our commitment to delivering a quality customer experience is reflected in our consistently rising NPS which increased from 69.77 in the Financial Year 2023 to 78.47 in the Financial Year 2025 in India. Our store employees are trained to maintain professionalism and courteousness, helping us reinforce the strength of our brand by delivering positive customer experiences at each of our touch points.

The development of our brand logo is set out in the graphic below:

We believe we have built an aspirational brand that appeals across customer categories. This is reflected in the diversity of our price points for prescription eyeglasses, which during the Financial Year 2025 in India, ranged from ₹399 to ₹41,199, and outside India, from USD 48.41 (₹4,142.93) to USD 670.06 (₹57,343.73). As of March 31, 2025, we offered over 79,000 SKUs across our frame

portfolio in India, with products across economy, affordable premium and premium categories.

Further, we also see a diversified range of transaction values showcasing our appeal to customers across low to high spending patterns. During the Financial Year 2025, the transaction value of our orders was as set out below:



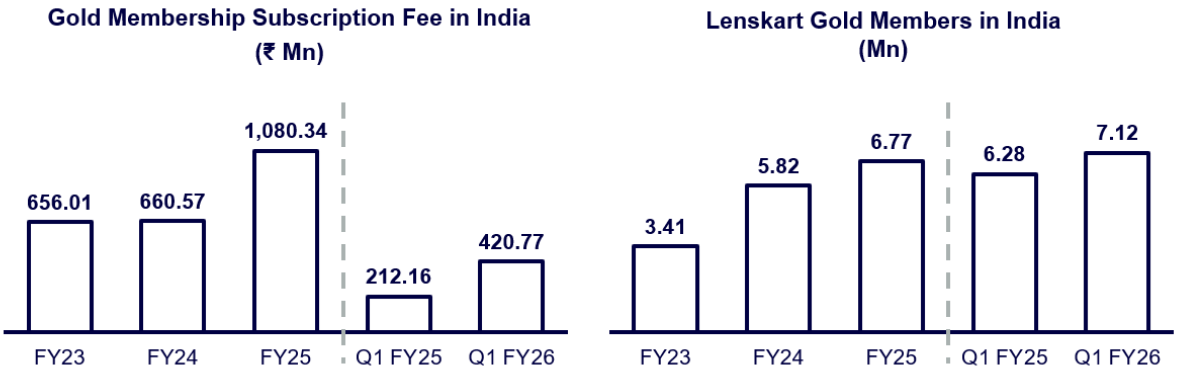
***Note:*** *Transaction value includes one or more products and discounts, if any, within the same order.*

The strength of our brand is also reflected in our marketing and promotion expenses as a percentage of our revenue from operations reducing from the Financial Year 2023 to the Financial Year 2025 and from the three months ended June 30, 2024 to the three months ended June 30, 2025. The table below sets out details relating to our marketing and promotion expenses (in absolute numbers and as a percentage of revenue from operations) during the periods and financial years indicated, on a restated basis:

| Particulars | Three months ended June 30, | | Financial Year | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| Marketing and promotion expenses (A) | 1,276.24 | 1,091.12 | 4,484.13 | 3,521.06 | 2,938.36 |
| Revenue from operations (B) | 18,944.55 | 15,204.26 | 66,525.17 | 54,277.03 | 37,880.28 |
| Marketing and promotion expenses as a percentage of revenue from operations *(%)* (A/B) | 6.74% | 7.18% | 6.74% | 6.49% | 7.76% |

We launched our loyalty membership program in India in 2018 as a paid membership. As of June 30, 2025, our "Lenskart Gold" membership program had 7.12 million members, with 0.35 million and 0.95 million Lenskart Gold members acquired during the three months ended June 30, 2025 and the Financial Year 2025, respectively.

The graphs below set out the gold membership subscription fees and number of Lenskart Gold members in India during the periods and Financial Years indicated:



**Our Environment, Social and Governance Initiatives**

Our commitment to achieving Eyewear for All extends to underserved communities in India through the Lenskart Foundation. Established to address vision correction needs among disadvantaged groups in India, and particularly children, the Lenskart Foundation launched its flagship program, "*Drishti Har Gaon Har Ghar*" in the Financial Year 2024. This initiative, also known as the "Women Eye Marshall" program, trains local women to conduct preliminary eye screenings and transmit the results to certified optometrists, who then perform remote consultations or through organised camps to prescribe corrective eyewear, as needed. According to the Redseer Report, providing access to free eye testing is a critical first step toward raising awareness about vision correction and encouraging the adoption of prescription eyeglasses. Through these initiatives, we have screened more than 650,000

individuals across more than 700 villages in six Indian states and facilitated the distribution of more than 158,000 prescription eyeglasses across the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023.

Environment and sustainability are crucial to our business. We promote sustainable sourcing through initiatives focused on social improvement, economic development, and environmental impact reduction. Our Bhiwadi facility operates as a zero liquid discharge manufacturing facility, ensuring that no wastewater is released into the environment. In addition, both our Bhiwadi and Gurugram facilities are equipped with rainwater harvesting systems, capturing 1,060 KLD and 110 KLD, respectively. To reduce our carbon footprint, we have invested in renewable energy solutions and our facilities in India have a total installed solar capacity of 2,755 KW. Further, we are driving multiple initiatives to reduce our carbon footprint such as piloting an eyeglasses case made out of recycled plastic and frames made out of eco-friendly materials. We also have an eco-acetate collection by John Jacobs, crafted from plant-based bioplastic, which helps reduce our carbon footprint.

Our management is driven by a corporate governance philosophy that aims to have an ethical and transparent approach to all actions and behaviours of our Company, its employees, and its stakeholders. Given our international operations, we employ personnel from 25 nationalities and run a diverse organization with a gender ratio with 35.82% of female employees as of June 30, 2025. We have also begun actively employing specially abled staff in our stores.

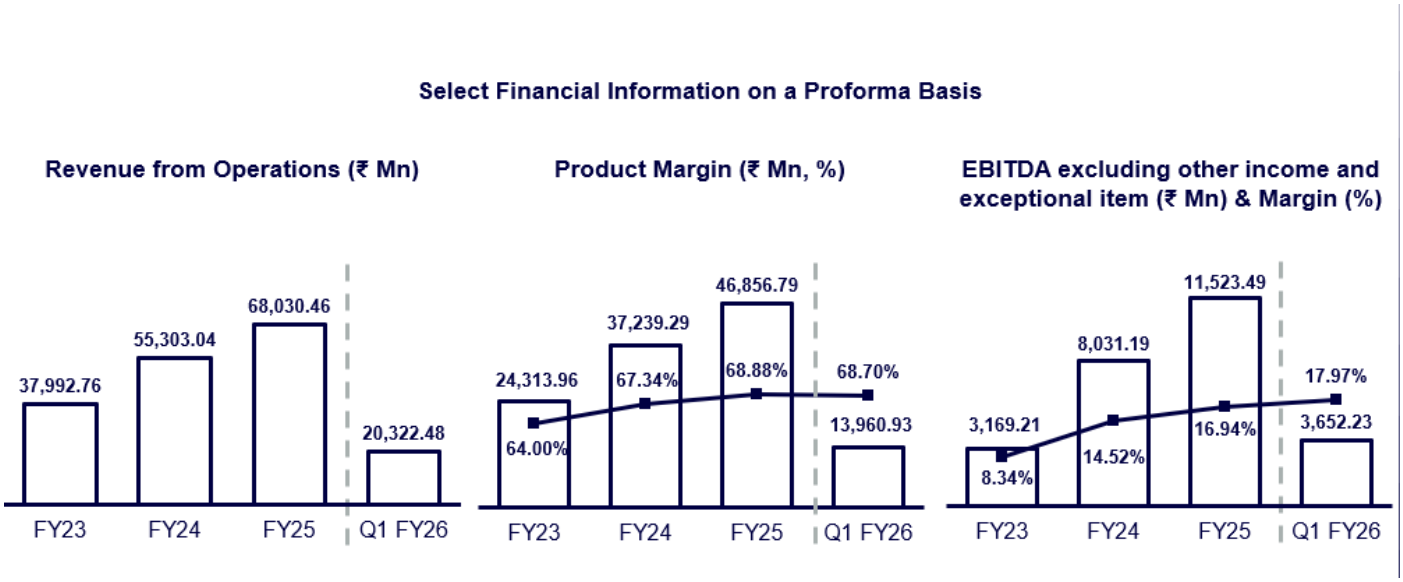
**Our Summary Financials**

Our revenue from operations was ₹66,525.17 million for the Financial Year 2025, growing at a CAGR of 32.52% from ₹37,880.28 million in the Financial Year 2023. Further, our revenue from operations was ₹18,944.55 million in the three months ended June 30, 2025, having grown period-on-period at a rate of 24.60% from ₹15,204.26 million in the three months ended June 30, 2024. Our total income was ₹70,092.76 million for the Financial Year 2025, having grown from ₹39,279.74 million for the Financial Year 2023; our total income was ₹19,461.01 million in the three months ended June 30, 2025, having grown year-on-year at a rate of 24.45% from ₹15,637.49 million in the three months ended June 30, 2024. Our EBITDA excluding other income and exceptional item for the three months ended June 30, 2025 and the Financial Year 2025 was ₹3,366.28 million and ₹9,710.56 million, respectively, representing an EBITDA excluding other income and exceptional item margin of 17.77% and 14.60%, respectively. Our restated profit / (loss) before tax for the three months ended June 30, 2025 and the Financial Year 2025 was ₹997.19 million and ₹3,853.56 million, respectively. Further, our restated profit/(loss) for the period/year for the three months ended June 30, 2025 and the Financial Year 2025 was ₹611.73 million and ₹2,973.40 million, respectively. In the three months ended June 30, 2025 and the Financial Year 2025, our segment total revenue as per Ind AS 108 for our India segment was ₹11,691.84 million and ₹40,604.66 million, respectively, with India segment results pre-depreciation and amortisation margin of 19.51% and 12.05%, respectively. Similarly, our segment total revenue as per Ind AS 108 for our International segment was ₹7,364.50 million and ₹26,387.29 million, for the three months ended June 30, 2025 and the Financial Year 2025, respectively, with an International segment results pre-depreciation and amortisation margin of 15.91% and 17.38%, for the three months ended June 30, 2025 and the Financial Year 2025, respectively. Our total assets were ₹108,456.82 million as of June 30, 2025, ₹104,710.19 million as of March 31, 2025, ₹95,310.21 million as of March 31, 2024, and ₹95,282.80 million as of March 31, 2023. Our total equity was ₹63,234.50 million as of June 30, 2025, ₹62,061.70 million as of March 31, 2025, ₹57,559.50 million as of March 31, 2024, and ₹55,697.86 million as of March 31, 2023. Our total liabilities were ₹45,222.32 million as of June 30, 2025, ₹42,648.49 million as of March 31, 2025, ₹37,750.71 million as of March 31, 2024, and ₹39,584.94 million as of March 31, 2023.

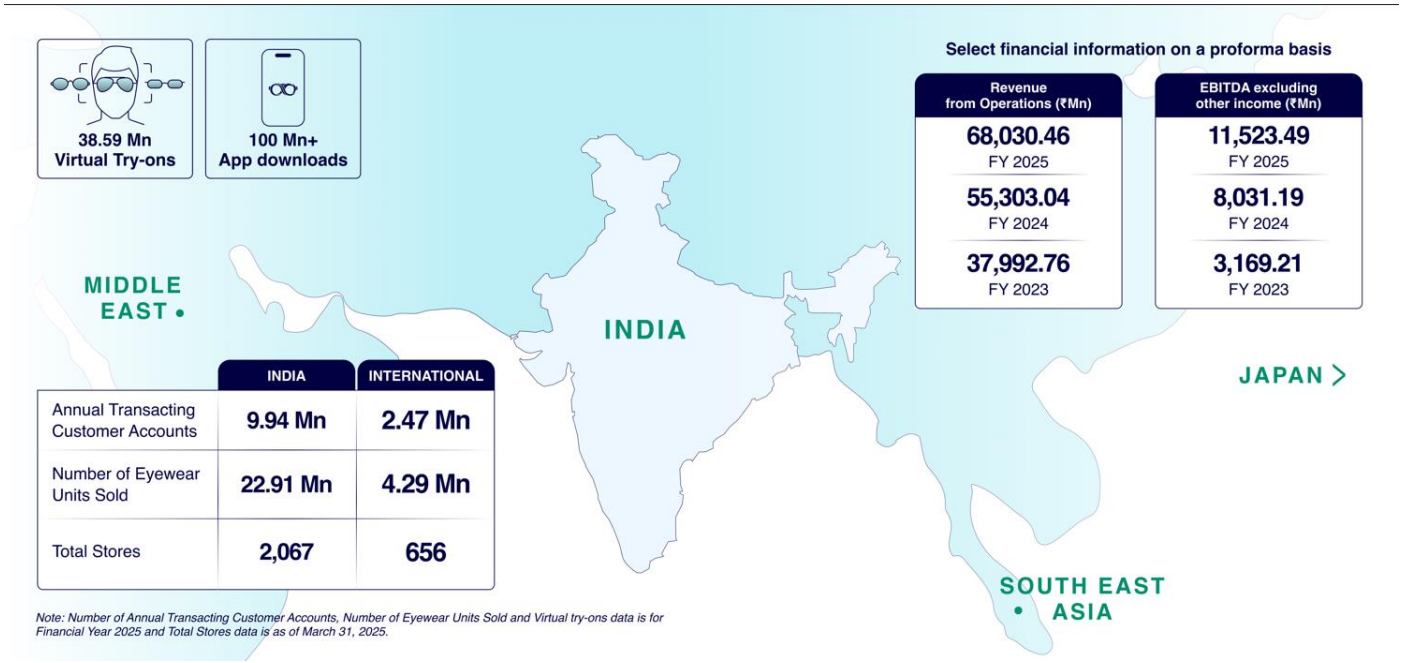
We acquired Dealskart Online Services Private Limited ("**Dealskart**") on December 31, 2024, Stellio Ventures, S.L ("**Stellio**") on August 11, 2025 and Quantduo Technologies Private Limited ("**Quantduo**") in September, 2025. On a proforma basis, our revenue

from operations amounted to ₹20,322.48 million and ₹68,030.46 million for the three months ended June 30, 2025 and the Financial Year 2025, respectively, indicating a year-on-year growth of 23.01% from ₹55,303.04 million during the Financial Year 2024, and a year-on-year growth of 45.56% from ₹37,992.76 million during the Financial Year 2023. On a proforma basis, our EBITDA excluding other income and exceptional item for the three months ended June 30, 2025 and the Financial Year 2025 amounted to ₹3,652.23 million and ₹11,523.49 million, respectively, representing an EBITDA excluding other income and exceptional item margin of 17.97% and 16.94%, respectively.

The graphs below sets out select financial information on a proforma basis for the periods and financial years indicated:



The graph below sets out a snapshot of our market presence as at June 30, 2025, and select financial information on a pro forma basis for the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023:



For the three months ended June 30, 2025, we had 3.73 million Quarterly transacting customer accounts in India and 0.70 million across international markets, with 6.72 million eyewear units sold in India and 1.13 million units sold internationally. As on June 30, 2025, we operate 2,137 stores in India and 669 stores across international markets.

***Note:*** *Number of Quarterly Transacting Customers Accounts, Number of Eyewear Units Sold data is for the three months ended June 30, 2025, and stores data is as of June 30, 2025.*

**Operational KPIs**

The following table provides our operational KPIs for the three months ended June 30, 2025 and 2024 and the Financial Years 2025, 2024 and 2023, as certified by A D M S & Co, Chartered Accountants, (FRN: 014626C) pursuant to their certificate dated October 25, 2025:

| Particulars | Unit | For the three months ended June 30, | | Financial Year | | |
|---|---|---|---|---|---|---|
| | | 2025 | 2024 | 2025 | 2024 | 2023 |
| **India** | | | | | | |
| Quarterly / Annual Transacting Customer Accounts | *million* | 3.73[1] | 2.78[1] | 9.94[2] | 8.06[2] | 6.29[2] |
| Number of Eyewear Units Sold [3] | *million* | 6.72 | 5.34 | 22.91 | 17.65 | 13.69 |
| Total Stores [4] | *Number* | 2,137 | 1,816 | 2,067 | 1,785 | 1,416 |
| **International** | | | | | | |
| Quarterly / Annual Transacting Customer Accounts | *million* | 0.70[1] | 0.63[1] | 2.47[2] | 2.14[2] | 1.41[2] |
| Number of Eyewear Units Sold [3] | *million* | 1.13 | 1.01 | 4.29 | 3.58 | 2.26 |
| Total Stores [4] | *Number* | 669 | 619 | 656 | 604 | 543 |
| **Consolidated** | | | | | | |
| Quarterly / Annual Transacting Customer Accounts | *million* | 4.43[1] | 3.41[1] | 12.41[2] | 10.20[2] | 7.70[2] |
| Number of Eyewear Units Sold [3] | *million* | 7.85 | 6.35 | 27.20 | 21.23 | 15.95 |
| Total Stores [4] | *Number* | 2,806 | 2,435 | 2,723 | 2,389 | 1,959 |

***Notes:***

1. *Quarterly Transacting Customer Accounts are accounts which have transacted at least once on any of our online or offline channels in a given quarter. Tracking our quarterly transacting customer accounts helps us identify the scale, identity of our customer base and thereby reach of our omnichannel platform and helps in marketing and growth decisions.*
2. *Annual Transacting Customer Accounts are accounts which have transacted at least once on any of our online or offline channels in a given Financial Period/Year. Tracking our annual transacting customer accounts helps us identify the scale, identity of our customer base and thereby reach of our omnichannel platform and helps in marketing and growth decisions.*
3. *Number of Eyewear Units Sold refers to the total quantity of eyeglasses and contact lenses sold in a given Financial Period/Year. Tracking our aggregate units sold helps us summarily understand the volume trends which is an important driver of our revenue from operations.*
4. *Total Stores include all store formats (i.e., CoCo, FoFo and CoFo). The count of total stores helps us to track the breadth of our store footprint, which is an important part of our omni-channel retail.*

We are a technology-driven eyewear company with integrated operations spanning designing, manufacturing, branding and retailing of eyewear products. We operate in two business segments: (i) India and (ii) International. Our business performance depends on our ability to attract new customers and sell eyewear units through our omnichannel network, led by 1everaging our stores for customer assistance.

**Financial Metrics**

The following tables set forth certain of our financial metrics as at and for the three months ended June 30, 2025 and 2024 and the Financial Years 2025, 2024 and 2023:

| Particulars | Unit | As of and for the three months ended June 30, | | As of and for the Financial Year ended March 31, | | |
|---|---|---|---|---|---|---|

* *Growth percentages for the three months ended June 30, 2024 and the Financial Year 2023 are not presented due to the non-inclusion of information for the three months ended June 30, 2023 and the Financial Year 2022, respectively, in this Red Herring Prospectus.*

** *Dealskart was acquired on December 31, 2024, following which Dealskart became a wholly owned subsidiary of the Company*

***Notes**:*

1. *India - Segment Total Revenue as per Ind AS 108 Refers to India - segment revenue recognized in accordance with Ind AS pre intersegment elimination.*
2. *India - Segment Total Revenue as per Ind AS 108 growth represents the percentage growth in India - Segment Total Revenue as per Ind AS 108 of the relevant financial period/year over the India - Segment Total Revenue as per Ind AS 108 of the previous financial year / period pre intersegment elimination.*
3. *India – Segment Product Margin is defined as Segment Total Revenue as per Ind AS 108 less the sum of segment cost of raw material and components consumed, segment purchase of stock in trade and segment changes in inventory of traded and finished goods. This is computed on a pre-intersegment elimination basis.*
4. *India – Segment Product Margin % is computed by dividing Segment product margin by Segment Total revenue as per Ind AS 108 pre intersegment elimination.*
5. *India – Segment Results Pre-depreciation and Amortisation is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and Segment Depreciation and amortization expense. This is computed on a pre-intersegment elimination basis.*
6. *India – Segment Results Pre-depreciation and Amortisation Margin (%) is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and Segment Depreciation and amortization expense divided by Segment Total revenue as per Ind AS 108. This is computed on a pre-intersegment elimination basis.*
7. *International - Segment Total Revenue as per Ind AS 108 Refers to International - segment revenue recognized in accordance with Ind AS pre intersegment elimination*
8. *International - Segment Total Revenue as per Ind AS 108 growth represents the percentage growth in International - Segment Total Revenue as per Ind AS 108 of the relevant financial year / period over the International - Segment Total Revenue as per Ind AS 108 of the previous financial year /period pre intersegment elimination.*
9. *International – Segment Product Margin is defined as Segment Total Revenue as per Ind AS 108 less the sum of segment cost of raw material and components consumed, segment purchase of stock in trade and segment changes in inventory of traded and finished goods. This is computed on a pre-intersegment elimination basis.*
10. *International – Segment Product Margin % is computed by dividing Segment product margin by Segment Total revenue as per Ind AS 108 pre intersegment elimination.*
11. *International – Segment Results Pre-depreciation and Amortisation is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and International – Segment Depreciation and amortization expense. This is computed on a pre-intersegment elimination basis.*
12. *International – Segment Results Pre-depreciation and Amortisation Margin (%) is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and Segment Depreciation and amortization expense divided by Segment Total revenue as per Ind AS 108. This is computed on a pre-intersegment elimination basis.*
13. *Revenue from operations refers to revenue recognized in accordance with Ind AS 115 Revenue from Contracts with Customers.*
14. *Revenue from operations Growth % represents the percentage growth in Revenue from Operations of the relevant financial year / period over Revenue from Operations of the previous financial period/year.*
15. *Product Margin is computed as revenue from operations less the sum of cost of raw material and components consumed, purchase of stock in trade and changes in inventory of traded and finished goods.*
16. *Product Margin % is computed by dividing Product Margin by Revenue from Operations.*
17. *EBITDA excluding other income and exceptional item is computed as the sum of profit / (loss) for the year / period, total tax expense / (credit), finance costs and depreciation and amortisation expense less other income and exceptional item.*
18. *EBITDA excluding other income and exceptional item Margin (%) is computed as EBITDA excluding other income and exceptional item divided by revenue from operations.*
19. *Restated profit/(loss) before Tax is profit/(loss) for the period/year before adjusting for tax expense/(credit).*
20. *Restated profit/(loss) for the period/year after adjusting for tax expense/(credit).*
21. *For the three months ended June 30, 2025 and June 30, 2024, Net Working Capital Days is computed as the ratio of the sum of closing trade receivables and inventories, less trade payables to revenue from operations for the relevant period, multiplied by 90. Further, for the Financial Years 2025, 2024 and 2023, Net Working Capital Days is computed as the ratio of the sum of closing trade receivables and inventories, less trade payables to revenue from operations for the relevant year, multiplied by 365.*
22. *Return on Capital Employed is computed as EBIT divided by capital employed. EBIT being computed as the sum of restated profit/(loss) for the period/ year, tax expense/ (credit) and finance costs; capital employed being computed as the sum of total equity and current and non-current borrowings and deferred tax liabilities less goodwill and other intangible assets, intangible assets under development and deferred tax assets. Return on Capital Employed for the three months ended June 30, 2025 and June 30, 2024, are calculated on a non-annualised basis.*
23. *Net Cash flow from operating activities is considered from Summary of Restated Consolidated Cash Flows.*

| Particulars | Unit | For the three months ended June 30, 2025 | Financial Year | | |

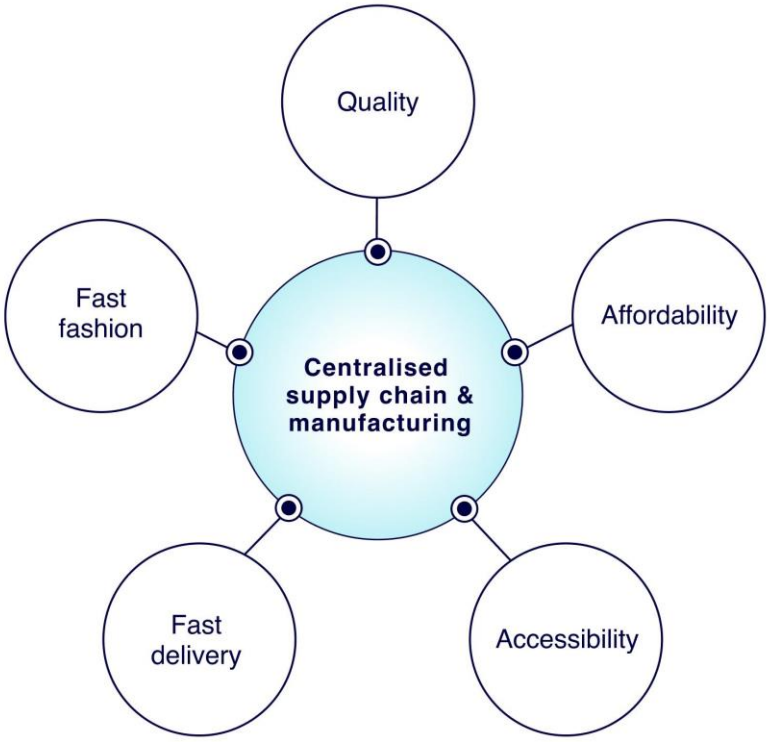
## OUR STRENGTHS

### *1. Our Centralized Supply Chain and Manufacturing Processes*

Our centralized prescription eyeglasses supply chain and manufacturing allows us to manage our supply chain operations and address customer demand for each store location. This drives our core proposition of providing better accessibility to quality eyewear products at affordable prices to a large number of customers, by enabling faster delivery for a large selection of SKUs and thereby eyewear as a 'fast fashion' category. This has allowed us to remove the inefficiencies in traditional store led eyewear retailing model. By moving most of the complexity in eyewear retail to a centralized manufacturing source, we have been able to achieve scale and accessibility, consistent quality, lower cost, faster delivery while providing a large selection of eyewear products with 'fast fashion'.

Set out below are the key benefits of our centralised supply chain and manufacturing in India to our customers:



- *Consistent Quality at Scale*: We maintain end-to-end control over the manufacturing process of our prescription eyeglasses, including frame shape tracing, lens material and coatings, lens edging including centring and polishing, assembly and quality checks. Our fully automated robotic lens edging and polishing systems enable edging and fitting of lenses with micron-level precision at scale. According to the Redseer Report, lenses are traditionally manually cut and edged over a spinning wheel, leading to inconsistent outcomes which are highly dependent on the skill of the professional involved. We have implemented robotic handling of lenses to achieve higher precision as compared to manual handling. It is capable of cutting and customizing up to 27 prescription eyeglasses per minute, at a consistent quality. Communication between our customer touchpoints and centralized manufacturing infrastructure is integrated through our in-house designed software, with individual details of each customized eyewear product being recorded and communicated to our robots. Centralized robotic machines are capital-intensive and economically viable only at high manufacturing volumes, supporting our ability to deliver consistent quality at scale and also adding to our competitive differentiation. We employ our in-house AI-enabled Computer Vision technology to monitor adherence to standard operating procedures and maintain stringent quality control across our manufacturing facilities. Our quality assurance framework includes warranty coverage of up to 12 months for corrosion, rusting, coating defects, and colour fading for all eyeglasses frames.

- *Affordability*: As we manufacture at scale and control our entire supply chain in India, we are able to achieve a lower cost of raw materials and manufacturing, while continuing to use quality raw materials and processes. According to the Redseer Report, the average materials cost incurred by us for manufacturing prescription eyeglasses in the Financial Year 2025 was 35-40% lower than the cost incurred by traditional retail stores in India for similar quality products.

- *Fast Delivery*: Customer orders placed across any of our channels, including our websites, mobile applications,

at-home services or stores, are primarily routed directly to our manufacturing facilities where prescription eyeglasses are produced on a just-in-time basis and shipped as fully assembled products. Within a few hours of customers placing an order for a customized pair of single vision prescription eyeglasses, the eyewear product is manufactured and ready to be shipped. Our self-designed and dedicated logistics operations deliver eyeglasses orders placed up to 9 pm in 58 cities by the next day. According to the Redseer Report, we have one of the fastest intercity logistics network in India, and as of June 30, 2025, we are the only eyewear company in India providing next-day delivery at scale across 58 cities for single vision prescription eyeglasses. In select international markets such as Singapore and the United Arab Emirates, we also offer next-day delivery from our regional facilities. In addition, we are able to serve customers in Singapore and the United Arab Emirates from our facilities in India.

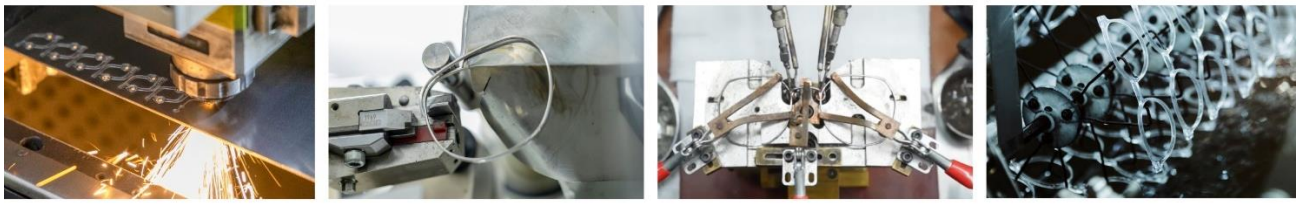
- *Fast Fashion*: As of March 31, 2025, we offered over 79,000 SKUs across our frame portfolio in India, with products across the economy, affordable premium and premium categories, enabling us to address a range of customers. Further, during the Financial Year 2025, we launched 105 eyewear collections globally. We believe that this is largely attributable to, and made possible by, our centralized inventory, with our in-store inventory largely acting as display inventory until the end of its life as an SKU. As of March 31, 2025, 75.37% of our inventory in India was centralised and stored at our manufacturing facilities. This centralised supply chain model allows us to offer customers a wide assortment of products, similar to an e-commerce fulfilment model, without being constrained by in-store SKU availability.

- *Accessibility*: Our centralised supply chain model reduces the reliance on localized prescription eyeglasses manufacturing, reducing complexity and enabling us to expand our physical footprint. As of June 30, 2025, we operated 2,137 stores across 415 cities in India, ranging from Srinagar to Thiruvananthapuram and Bhuj to Tinsukia, and 669 stores across 145 cities outside India. We have added 1,552 new stores globally during the three months ended June 30, 2025 and the last three Financial Years. Since order management and the complexities of lens edging and assembly of eyewear units is removed from our customer touchpoints, our stores largely act as centers for assistance, eye testing and order booking, making them relatively easier to scale.

***2. Our Frame and Lens Engineering and Manufacturing Capabilities***

For the last few years, we have been developing in-house capabilities for the manufacturing of frames, which allows us to improve our materials and processes, design our own styles with attributes catering to specific customer trends and requirements. In addition, we believe our in-house supply chain reduces dependency on external suppliers and improves quality and cost control. Set out below are images of our frame manufacturing processes:

**Frame manufacturing**

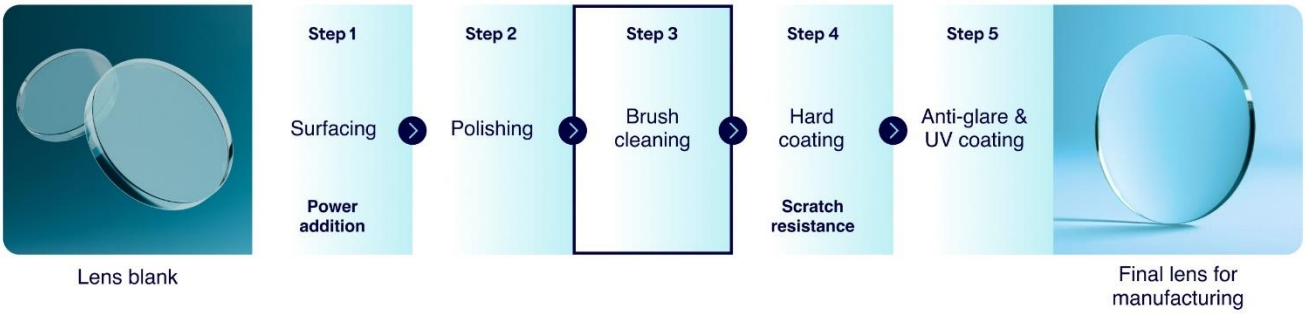


CNC Cutting | Frame Forming and Bending | Frame Welding | Frame Polishing

We commenced manufacturing our own frames in the People's Republic of China through Baofeng Framekart Technology Limited, our Joint Venture, in 2017, at our facility in Gurugram, Haryana in 2021, followed by our facility in Bhiwadi, Rajasthan. We manufacture a wide range of frames in-house, spanning several designs and a range of materials. Our in-house mould design for frames and frame manufacturing capabilities enables us to launch new collections more frequently, with innovative features, improved quality and lower production costs. For example, our range of Lenskart AIR eyeglasses are lightweight, durable and has achieved popularity among our customer base.

We manufacture complex lens types, including progressive, bifocal lenses and selectively, single vision lenses, in-house, which allows us to focus on innovations in materials, coatings and processes to enhance product quality, reduce manufacturing lead times, and lower costs as compared to sourcing such lenses from third-party suppliers. In addition, we have focused on lens research and development to better meet diverse customer requirements across geographies.

The graphic below outlines our re-engineered processes for lens manufacturing with an additional step of brush cleaning, ensuring stronger coating on lenses:

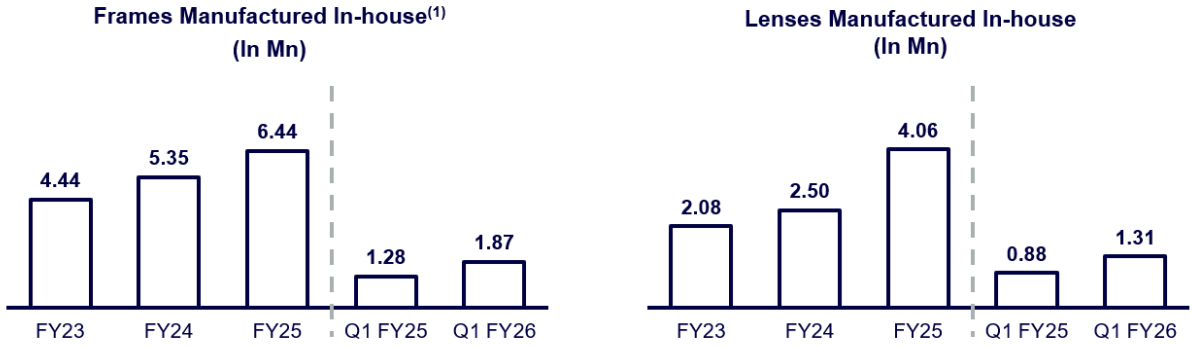


Surfacing

Polishing

Coating

The graph below sets out the total number of frames and lenses manufactured in-house during the three months ended June 30, 2025 and June 30, 2024, and the Financial Years 2023, 2024 and 2025:



*(1) Includes frames manufactured at our Joint Venture*

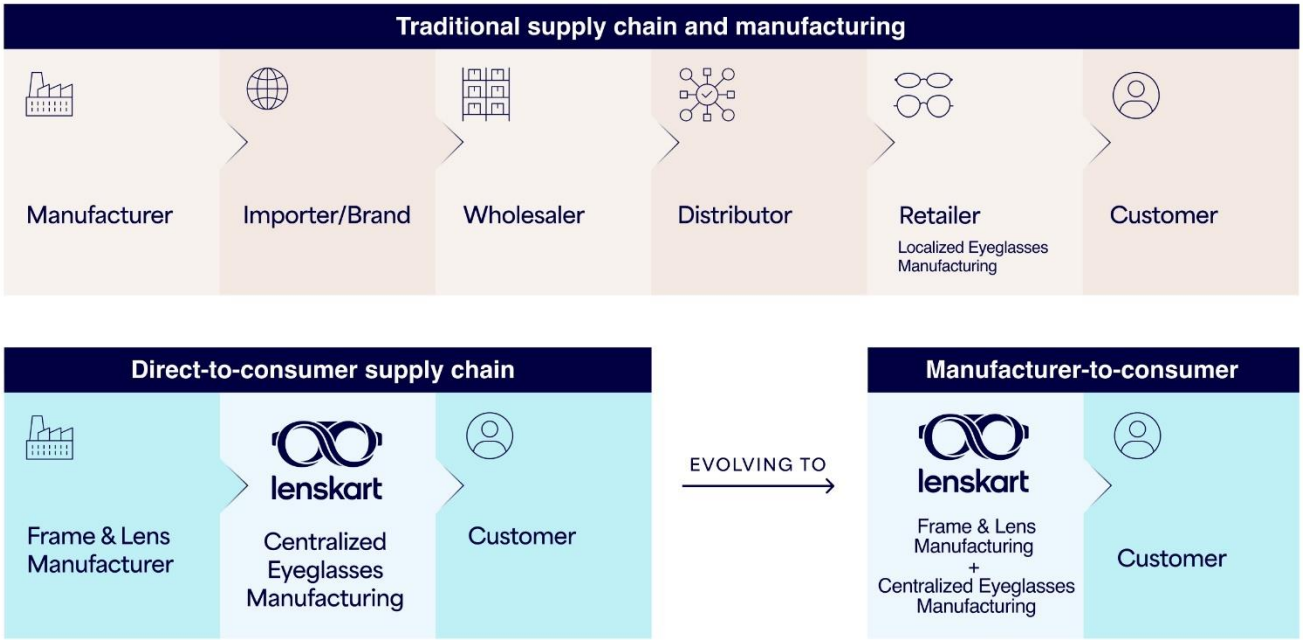
### *3. Our Direct-to-consumer model*

We operate a direct-to-consumer model that eliminates multiple layers of intermediaries in the traditional prescription eyeglasses supply chain, enabling us to deliver products to customers at an affordable cost and with next day delivery. This model also allows us to retain end-to-end control over quality, reduce manufacturing lead times, and, according to the Redseer Report, achieve greater cost efficiency compared to conventional eyewear retailers. According to the Redseer Report, we manufactured the third largest number of prescription eyeglasses globally among leading large organized retailers of prescription eyeglasses in Financial Year 2025.

*(Remainder of this page has intentionally been left blank.)*

In the traditional supply chain model, products pass through multiple intermediaries, from the manufacturer to an importer or brand owner, to a wholesaler and subsequently a distributor, and finally to a retailer who sells products to the end-customer. In contrast, in our earlier direct-to-consumer supply chain model, we sourced frames and lenses from select manufacturers through long-term supply relationships and acted as the single point of contact for both suppliers and customers, combining the roles of importer, wholesaler, distributor and retailer. We are now shifting towards a manufacturer-to-consumer model, where we are able to manufacture our frames and lenses in-house and sell directly to our customers.

The graphic below illustrates the differences in the traditional prescription eyeglasses supply chain and manufacturing model as compared to our model, according to the Redseer Report.



According to the Redseer Report, the multi-tiered approach in a traditional supply chain increases lead times, costs and contributes to inefficiencies around quality and delivery timelines in the supply chain.

***4. Our Customer-Focused Product Design Capabilities***

We have developed holistic design and merchandising capabilities, including in-house designs, structural configurations, and frame moulds, which we use to manufacture frames in-house. This has enabled us to exercise greater design innovation to meet customer requirements and drive purchasing frequency. We have increased new product development, expanding from a limited number of launches annually to 105 new in-house designed and engineered collections across our markets during the Financial Year 2025. As of June 30, 2025, our design and merchandising team comprised 109 members across our markets, focused on creating new collections.

We believe that eyewear is more than just a functional vision correction tool and can be a fashion-forward and affordable lifestyle accessory. We believe eyewear allows individuals to "Do More" and "Be More". Accordingly, we have started designing eyewear to address specific customer problems and based on customer insights. Certain examples are set out below:

- *Turban Fit*: This range of eyeglasses is specifically designed for turban-wearers where the temple is constructed in a specific manner to be able to slip inside the wearer's turban without distorting alignment.

- *Creatr for Kids*: These eyeglasses have fully adjustable temples and nose-pads and are durable, being designed for children and aimed at maximizing comfort. These eyeglasses are designed to fit new myopia progression control lenses, and do not use any paint or plastic. This range was designed using 11 different in-house designed moulds.

- *Twyst*: These eyeglasses contain a durable and flexible hinge, with a specially designed hinge.

- *Bitz*: This range allows customers to stick magnetic charms on their temples, enabling them to express their own style, celebrate an occasion or convey an emotion. The temples of these eyeglasses have an embedded magnet, and charms can be separately purchased.

- *Switch*: These eyeglasses include a magnetic lens cover, which enables them to be converted into sunglasses.

- *SWAPS*: This range includes an attachment for customers to be able to change the design of their eyeglasses' frame temples.

The graphic below sets out the above designs launched by us:

By offering a wide variety of eyewear with different styles, materials, and price points, we enable customers to own and wear multiple pairs of eyewear for different occasions, and activities, similar to how customers engage with other fashion categories such as apparel, footwear and jewellery. By combining functionality with style in our eyewear product offerings, we believe we have helped drive purchasing frequency of our eyewear products by customers, as reflected in our growing base of high-frequency customers and increasing purchase frequency. For instance, the customer accounts acquired in the Financial Year 2017, on an average, purchased 2.30 eyeglasses within 24 months of their first purchase. The corresponding number for the customer accounts acquired in the Financial Year 2021 increased to 3.45 eyeglasses, and to 3.62 eyeglasses for customer accounts acquired in the Financial Year 2023. Measuring two-year customer purchase frequency over an extended period allows us to assess long-term customer retention and purchasing patterns.

### *5. Our Lenskart Brand and Portfolio of Owned Sub-brands*

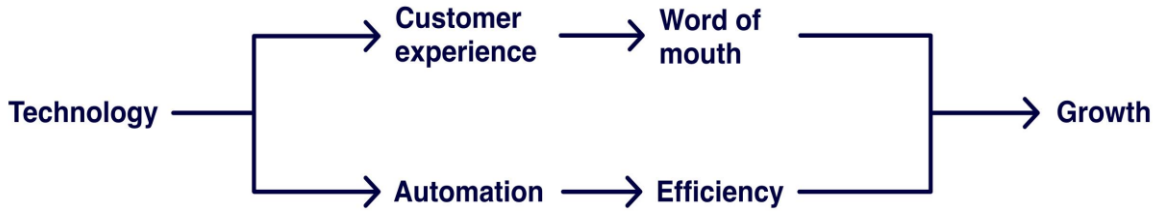
Our Lenskart brand represents our aspiration of allowing people to "Do More" and "Be More". Through our eyewear products, we aim to offer customers a wide and evolving range of choices across occasions, styles, and needs, empowering them to see better every day. In the Financial Year 2025, Lenskart was awarded "India's Most Trusted Eyewear Brand of 2025" by TRA Research.

The reach of our brand is evidenced by the number of potential customers visiting our stores. In the Financial Year 2025, 29.52 million entries were recorded in our queue management system from potential customers in India. As of March 31, 2025, the Lenskart Instagram account for India has over 1.33 million followers. We believe we have built an aspirational brand that appeals to customers across low to high spending patterns. We also observe a diversified range of sales by transaction value, with 18.14% of our sales in India during Financial Year 2025 from orders with a transaction value over ₹10,000, 18.13% from orders with a transaction value below ₹2,000, and 63.73% from orders with a transaction value between ₹2,000 and ₹10,000. Our Lenskart and Owndays brands and 22 curated sub-brands are designed to serve specific customer use cases. This multi-brand strategy enables mutual reinforcement between our Lenskart brand and our sub-brands, while facilitating entry for new customers and re-engagement with existing ones. Our design philosophy is derived from several key customer categories based on their behavioural and usage preferences, including: (i) comfort-seekers, who prioritize wellness and simplicity at accessible price points; (ii) quality-focused customers, who value durability and performance; (iii) experimenters, who actively explore new trends and designs; and (iv) fashion-forward consumers, who view eyewear as a medium for self-expression and personal style.

### *6. Our Technology First Approach to Customer Experience and Operational Efficiency*

Our founder-promoters, Peyush Bansal and Amit Chaudhary, are both engineers by education and believe in leveraging technology to address operational challenges with scalable solutions. Peyush and Amit are supported by our technology team of 491 members, as of June 30, 2025.

We have invested in a range of customized technology solutions, AI tools and automation to deliver improved customer experience, automate our design and manufacturing processes to drive higher operational efficiency and growth as shown in the graphic below.



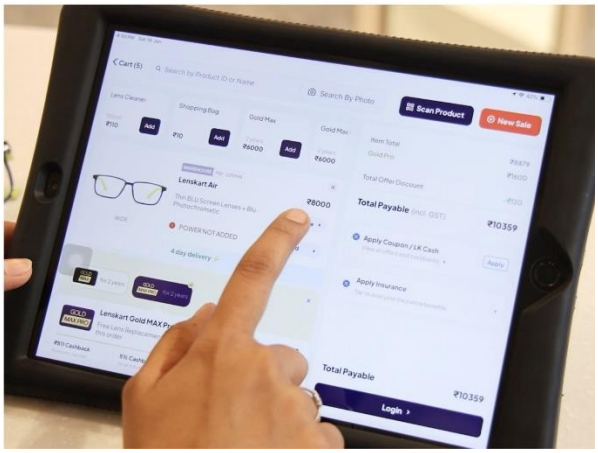
Technology is a crucial component of our operations across our organization, including customer engagement, supply chain and post order fulfilment, retail store operations and internal business functions.

- *Customer Experience Across Channels:* Our stores globally operate on our in-house developed and customized point-of-sale ("**POS**") solution enabling delivery of an integrated customer experience. Our POS system operates through a tablet interface visible simultaneously to both the customer and our sales associate, enhancing transparency and enabling customers to independently explore options and make informed choices. We continuously improve our store operations through pilot testing to introduce new product and pricing propositions by rolling out real-time upgrades to our POS system, thereby contributing to same-store sales growth. We have also digitized several aspects of the in-store customer experience, including implementing a queue management system, integrating store inventory with our online channel for digital browsing, and reducing customer wait times.

  We have developed and refined our mobile applications over the years to do size measurement, near-real trials, and relevant recommendations. Frame recommendation and virtual-try-on with size are the most used features on our mobile applications. In Financial Year 2025, customers conducted 38.59 million virtual try-ons on our mobile applications and websites.

*(Remainder of this page has intentionally been left blank.)*

**In-house developed point of sale to provide omni-channel experience and transparency to customers**

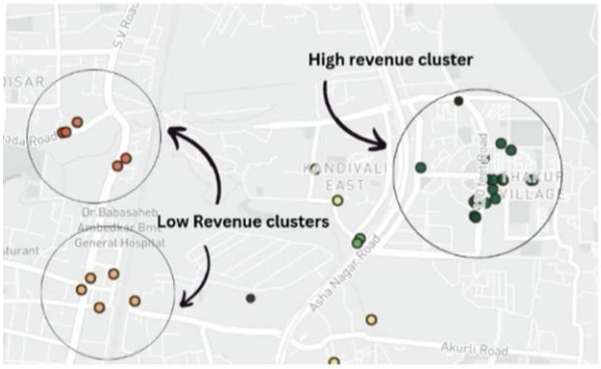


- *Fast Fulfilment Capabilities*: Our centralised supply chain utilizes our in-house developed warehouse management system, NexS, specifically developed to efficiently manage our eyewear supply chain and manufacturing operation. Within minutes of receiving customer orders across any channel, our just-in-time manufacturing processes begin producing customized prescription eyeglasses, with capabilities for dispatch through our self-controlled and managed logistics network. As of June 30, 2025, we delivered customized single-vision eyeglasses within 24 hours to customers in over 58 cities in India, and within 72 hours to customers in 49 cities.

- *Retail Store Operations*: We leverage our in-house AI-enabled Computer Vision tool to optimize customer flow and movement at our stores, increase conversion rates, and enhance the overall customer shopping experience. Our AI tools help identify peak store hours, popular products, and potential improvements in store layouts. In addition, it optimizes customer flow at our stores, increase conversion rates, and overall deliver volume-based same-store growth consistently. This technology is deployed across our stores globally.

- *Store Expansion:* We also employ AI-tools to evaluate new store locations, forecast revenue potential, and estimate payback periods prior to lease commitments. We opened 1,280 new stores across India in the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023. Further, 80.80%, or 568 out of the 703 CoCo stores opened by us during Financial Years 2024 and 2023 (which were active as of March 31, 2025), achieved store payback until March 31, 2025, with an average payback period of 10.29 months.

**AI-enabled geo analytics to identify new store locations and revenue prediction of a potential location**

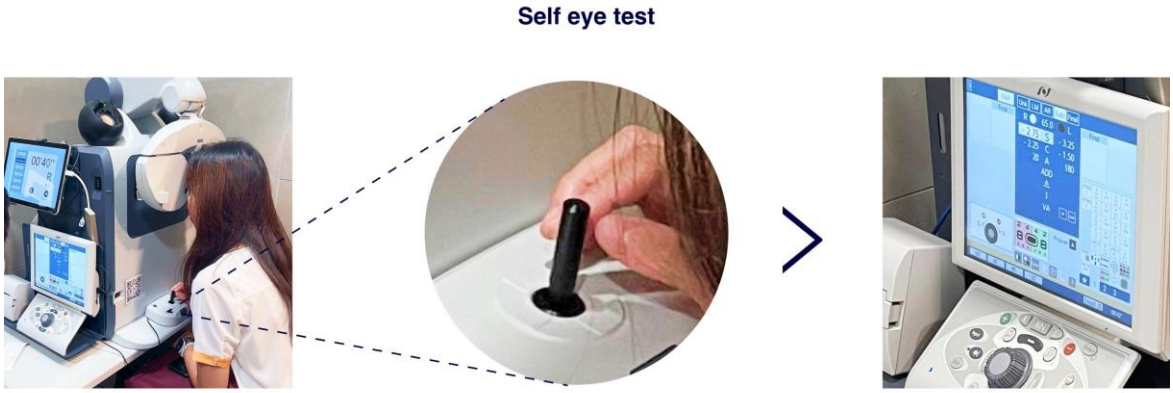


Revenue cluster mapping

Street level mapping

*(Remainder of this page has intentionally been left blank.)*

- *Remote and Self Eye-Testing*: We have digitized the eye testing process. In order to scale eye-testing, we have been focused on innovations in processes and have also launched remote optometry solutions to expand access to eye-testing services. Customers can be seated in the clinic of any store, facing a remote-controlled eye-testing machine, and can be served by an optometrist remotely (over video conference), thereby increasing our reach. Leveraging these remote optometry capabilities, we launched additional stores in cities such as Sirsa, Jodhpur, Udaipur and Visakhapatnam in the period between April 1, 2024 and June 30, 2025. As of June 30, 2025, we have 164 optometrists conducting remote eye tests for customers at 298 stores from two central locations in India, and provide remote optometry services across 266 stores in Japan and Thailand. Similarly, we are now also testing and enabling self-eye tests where a computer chats with customers and operates vision charts based on responses provided by customers. As of June 30, 2025, we had deployed the self-eye test facility in 146 of our stores globally.

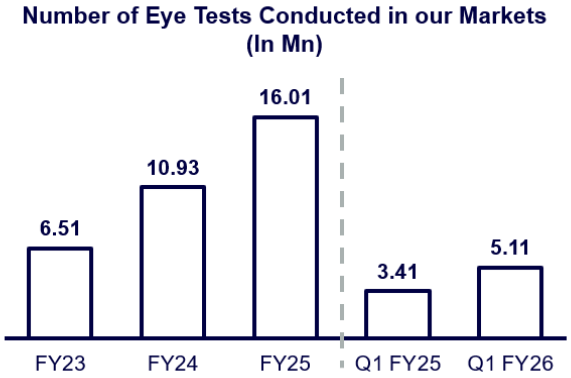


- *Internal day-to-day operations*: Our technology infrastructure is critical to the efficient operation of our business. Our technology-driven processes include AI-assisted candidate screening, and AI-enabled chatbots that help us track employee sentiment and enhance internal engagement. Additionally, our automated invoicing and forex adjustment system accelerates processing times for goods receipt notes automatically generates debit notes to vendors, leading to an efficient working capital cycle.

### *7. Our Omnichannel Retail Network*

We operate an omnichannel retail network comprising our mobile applications, websites, and physical stores in India and internationally, aligned with our aspiration to provide Eyewear for All. This enables us to cater to customers who only browse online but prefer to transact at our physical stores. Customers can access our products and services across channels with consistent pricing (excluding a nominal home-delivery charge) and the ability to purchase, return, and exchange products conveniently through any channel.

Our customers can also centrally access their purchase history, past eye test results, prescription details, order tracking information, and manage returns or exchanges through any of our channels. Repeat customers benefit from a simplified purchasing experience, as their historical choices, including lens specifications, prescriptions, and frame sizes, are automatically retained on our online platforms for future purchases. Our omnichannel network allows to conduct a large number of eye-tests, as provided in the chart below:



Our omnichannel approach also facilitates high customer conversion rates as compared to relying exclusively on either the online or offline channel. In the Financial Year 2025, customers contributing 44.82% of our revenue from operations in India (on a proforma basis) engaged with us digitally through organic searches, social media or other online channels in

the 90 days prior to completing their purchase. For example, our customers can conveniently browse our collection online and identify which stores have the desired product in stock before visiting the store to view the item in person. These interactions were facilitated through features such as browsing collections, virtual 3D try-ons, or booking eye-test appointments, contributing positively to our profitability. Our stores in India generated average annual revenue per square feet of ₹24,639.34 and ₹23,492.50 during the three months ended June 30, 2025 and the Financial Year 2025, respectively, which, according to the Redseer Report, was the highest among leading large organized prescription eyeglasses retailers in India for the Financial Year 2025.

***8. Our Culture and Values***

We are guided by a purpose-driven approach to build supply and distribution solutions that improve access to quality and affordable eyewear for all. This approach is focused on solving problems within the eyewear industry, ensuring that every initiative, strategy, and decision supports our core commitment to improving access to eyewear. Our cross-functional teams further leverage technology-driven solutions across all operational processes, not just in customer experience and manufacturing, but throughout the business, including store openings, human resource management, and accounting. Technology is central to our culture and drives operational efficiency, enabling us to streamline processes, gather insights, and ensure that all parts of the organization operate effectively and cohesively.

Moreover, we adopt a local-first approach in every market in which we operate. This includes establishing local customer-facing teams and product development teams. This enables us to embed within local cultures, build trust and relevance in each geography while maintaining a unified global identity. As of June 30, 2025, our workforce across 13 international geographies includes employees from 25 nationalities, reflecting our inclusive culture and global footprint.

9. ***Our Category Leadership, Scale, and Track Record of Revenue and EBITDA Growth***

According to the Redseer Report, we are India's largest and in Asia, are among the two largest, organized retailer of prescription eyeglasses in terms of B2C eyeglasses sales volumes during Financial Year 2025. Further, according to the Redseer Report, our total addressable market in India, South-East Asia, Japan, the Middle East and other international markets is expected to grow to approximately ₹3,601 billion by the Financial Year 2030.

For the three months ended June 30, 2025 and the Financial Year 2025, we sold 7.85 million and 27.20 million eyewear units, respectively, across the markets we operate in. As of June 30, 2025, our mobile applications had over 100 million app downloads and we had 2,137 stores in India and 669 stores in international markets. We operate a total store footprint of 1.73 million sq. ft. in India, which is approximately 2.5 times larger than the store footprint operated by the next leading large, organized retailer of prescription eyeglasses in India, as of June 30, 2025, according to the Redseer Report. In addition, as of June 30, 2025, we operate a total store footprint of 0.69 million square feet in international markets.

We have demonstrated consistent growth in our revenues. Between the Financial Years 2023 and 2025, our revenue from operations grew at a CAGR of 32.52%, increasing from ₹37,880.28 million in Financial Year 2023 to ₹66,525.17 million in Financial Year 2025; our revenue from operations has exhibited period-on-period growth of 24.60% from ₹15,204.26 million for the three months ended June 30, 2024 to ₹18,944.55 million for the three months ended June 30, 2025. Over the same periods, our EBITDA excluding other income and exceptional item margin expanded significantly from 6.86% in Financial Year 2023 to 14.60% in Financial Year 2025 and stood at 17.77% for the three months ended June 30, 2025. Additionally, our product margins improved from 63.88% in Financial Year 2023 to 67.92% in Financial Year 2025 and stood at 68.12% for the three months ended June 30, 2025, driven by efficiencies gained from our centralised supply chain and automated and vertically integrated manufacturing processes. Further, our restated profit/(loss) for the year improved, from a restated loss for the year of ₹637.57 million in the Financial Year 2023 to ₹101.54 million in the Financial Year 2024, and a restated profit for the year of ₹2,973.40 million in the Financial Year 2025. We earned a restated profit for the period of ₹611.73 million during the three months ended June 30, 2025, growing significantly from a restated loss for the period of ₹109.57 million during the three months ended June 30, 2024.

On a proforma basis, our revenue from operations amounted to ₹20,322.48 million and ₹68,030.46 million for the three months ended June 30, 2025 and the Financial Year 2025, respectively, indicating a year-on-year growth of 23.01% from ₹55,303.04 million during the Financial Year 2024, and a year-on-year growth of 45.56% from ₹37,992.76 million during the Financial Year 2023. On a proforma basis, our EBITDA excluding other income and exceptional item for the three months ended June 30, 2025 and the Financial Year 2025 amounted to ₹3,652.23 million and ₹11,523.49 million, respectively, representing an EBITDA excluding other income and exceptional item margin of 17.97% and 16.94%, respectively.

*(Remainder of this page has intentionally been left blank.)*

## OUR GROWTH STRATEGIES

Our growth and expansion strategy is centred on expanding our market reach (both geographically and demographically), enhancing customer experience and, improving operational efficiency to drive longer term sustainable growth.

Key pillars of our growth strategy are as follows:

### *1. Increase Markets' Penetration and, Expand Customer Access Across Channels*

We aim to increase penetration in existing markets, enter new markets and geographies, and expand customer access through new initiatives.

- *Deepen and Broaden Store Network in India*: India represents a growing market for prescription eyewear, driven by rising demand and relatively low penetration of corrective solutions. According to the Redseer Report, our market share in prescription eyewear in India was 4-6% in Financial Year 2025, and the number of individuals affected by refractive errors in India has increased from approximately 43% (approximately 590 million) in the Financial Year 2020 to approximately 53% (approximately 777 million) in the Financial Year 2025 and is projected to increase to approximately 62% (approximately 943 million) by the Financial Year 2030. We aim to address this gap through continued omnichannel expansion, deepening our presence and retail footprint across Metropolitan, Tier 1, and Tier 2+ cities in India.

  Furthermore, we aim to continue to expand our footprint in Metropolitan cities. For instance, we had 169 stores in Bengaluru as of June 30, 2025, of which 63 were opened during the three months ended June 30, 2025 and the Financial Years 2025, 2024, and 2023. In Bengaluru, 36 out of the 39 CoCo stores opened by us in Financial Years 2024 and 2023 (and active as of March 31, 2025) achieved payback by March 31, 2025, with an average payback period of 11.36 months.

  Moreover, as of March 31, 2025, our CoCo stores opened outside Metropolitan cities and in Tier 1 and Tier 2+ cities in India during Financial Years 2024 and 2023 recorded an average payback period of 10.35 months and 10.10 months, respectively. This is a key driver of our ability to expand our footprint across India. We intend to utilize a portion of the Net Proceeds for capital expenditure towards set-up of new CoCo stores in India, with the revenue generated from such stores being applied towards our business and growth strategies. For further details, see "***Objects of the Offer***" on page 206.

  The table below sets out the average payback of all new CoCo stores opened by us across city tiers in India during the Financial Years 2024 and 2023:

| City tier | Number of new stores opened in Financial Years 2024 and 2023 (net of store closures) | Number of new stores opened in Financial Years 2024 and 2023 (net of store closures) achieving payback as of March 31, 2025 | Percentage of new stores opened in Financial Years 2024 and 2023 (net of store closures) achieving payback as of March 31, 2025 (%) | Average payback period as of March 31, 2025 (in months)[(1)] |
|---|---|---|---|---|
| Metropolitan cities | 276 | 224 | 81.16% | 10.41 |
| Tier 1 cities | 200 | 157 | 78.50% | 10.35 |
| Tier 2+ cities | 227 | 187 | 82.38% | 10.10 |
| **Total** | **703** | **568** | **80.80%** | **10.29** |

***Note:***

*(1) Average payback period is calculated by dividing the relevant stores capex divided by cumulative stores post-rent EBITDA until capex is completely recovered.*

- *Deepen and Expand Store Network in International Markets:* Our international expansion has been recent and deliberate, focused on building depth in select markets through our integrated technology and supply chain network. We commenced our international operations in 2019 by expanding to Singapore by launching a website and one store, and as of June 30, 2025, operate 64 stores in Singapore. Similarly, we intend to deepen our presence in other existing international markets by opening stores, leveraging our unified technology, supply chain, and remote optometry capabilities to deliver consistent customer experience and operational efficiency. We also continue to selectively evaluate opportunities to expand into new international markets through both organic growth and strategic acquisitions.

- *Further Enhance Online Presence:* We aim to continue to leverage our online channels to generate customer demand, drive product trials and awareness. We aim to continue investing in and growing the reach of our mobile applications, websites and channels across India and international markets, including electronic messaging and quick commerce.

### *2. Strengthen Manufacturing and Supply Chain Capabilities*

As part of our long-term strategy, we are focused on progressively reducing our dependence on imported raw materials and frames by deepening our manufacturing presence in India. Our direct imports from the PRC decreased from 54.15% of our total purchases (₹8,682.22 million) in Financial Year 2023 to 42.21% of total purchases (aggregating to ₹10,624.33 million) in Financial Year 2025. We commenced manufacturing operations in India in 2021 and manufactured 69.87% of prescription eyeglasses sold by us during Financial Year 2025 at our centralized manufacturing facilities in India. We have also expanded our prescription eyeglasses manufacturing capacity in India, with our Bhiwadi facility's annual installed capacity increasing from 2,195,000 units as of March 31, 2023 to 14,267,000 units of March 31, 2025. Further, we are in the process of setting up a facility in Hyderabad (Telangana) for which we entered into a memorandum of understanding in December 2024 with the Government of Telangana. This facility will be significantly larger than our existing 10.69 acre Bhiwadi facility, and is intended to support our growing demand in India and internationally, and create redundancy for any potential risks to our existing facilities and mitigating manufacturing-related risks.

We will invest in following specific areas to strengthen our manufacturing and supply chain capabilities both organically and inorganically:

- *Prescription Eyeglasses Manufacturing*: To expand our capacity to deliver prescription eyeglasses, we aim to invest in lens edging, fitting, quality control, packaging, warehousing, and sorting solutions. in a modular manner to service the demand growth expected in our markets.

- *Increasing Frame and Lens Manufacturing:* We aim to continue to invest in expanding our frame and lens manufacturing capabilities to reduce cost, improve quality, drive innovation, and reduce time to market, including by way of joint ventures or similar arrangement with overseas entities. Further, by investing in the localization of frame production in India, we also aim to enhance efficiency, reduce import dependency, and create a more robust and centralised supply chain.

- *International Regional Facilities:* We seek to set up small regional facilities in our International markets under the umbrella of our centralized supply chain, enabling us to serve local demands faster to drive improved customer experience.

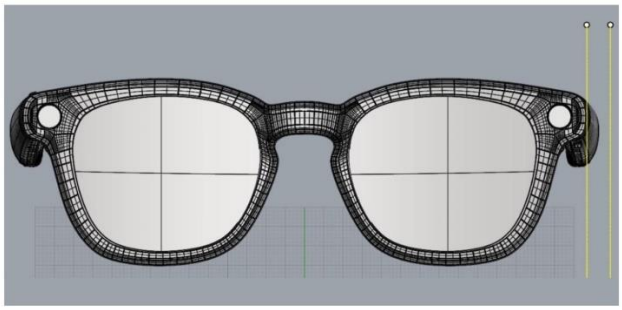
### *3. Continue to Innovate and Expand our Product Portfolio*

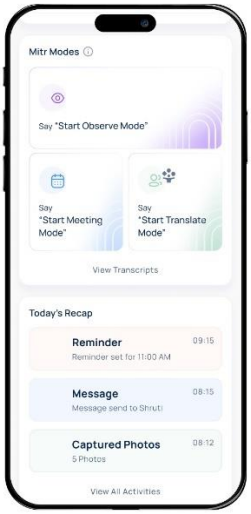
We will continue to expand and diversify our brand portfolio and our product offerings to address evolving customer needs and enhance customer engagement.

- *Target New Customer Categories and Launch New Brands:* We will continue to expand our addressable market by targeting new customer categories and communities across price points. We will also expand our portfolio of sub-brands through organic design and innovation, as well as selective brand collaborations, investments and acquisitions. For example, we recently entered into exclusive agreements to launch branded collections featuring popular fictional characters and media franchises. Further, in 2024, we invested in a French brand, Le Petit Lunetier, and launched their products in Lenskart stores in India. In August 2022, we acquired Owndays and have since introduced the brand across Lenskart stores in India and other international markets.

- *Smart Glasses:* We are developing and piloting advanced eyewear products that incorporate emerging technologies, such as Bluetooth-enabled audio eyewear (our Phonic range) and camera-enabled eyewear. Furthermore, we intend to invest in product development and related technologies comprising hardware and software solutions for Smart Glasses, organically or inorganically.

**Research & development model images of our camera-enabled smart glasses**





- *Lens Innovation:* Our continued investments in lens innovation, including myopia control lenses, powered sun lenses, and other advanced optical technologies, will enable us to address a broader range of vision correction and lifestyle use cases.

- *Sustainable Eyewear:* As part of our sustainability efforts, we are investing in the development of eyewear made from recycled and eco-friendly materials. We are also expanding our offerings for children through durable frame designs and paediatric vision solutions, including myopia management.

***4. Invest in New Technologies***

Technology is core to our scalable operations and business model. For instance, we have developed in-house a facial analysis and frame recommendation tool, and the data gathered from these trials allows our recommendation algorithm to become better equipped, thereby enhancing customer experience. Similarly, our in-house AI-enabled Computer Vision tool analyses CCTV footage from our retail locations with a goal to optimize customer flow at our stores, increase conversion rates, and overall deliver volume-based same-store growth consistently. The data collected through the technology allows us to make operational and strategic decisions for improving customer experience and financial performance. We have also digitized the eye testing process. In order to scale eye-testing, we have been focused on innovations in processes and have also launched remote optometry solutions to expand access to eye-testing services. We also utilise geo-analytics to predict revenue potential and payback period for potential stores based on their locations. The data collected in the process has allowed us to improve the algorithm of our geo-analytics tool over the years. Our technology infrastructure has helped us achieve our scale, operational efficiency and network flexibility. Data sciences, artificial intelligence and machine learning power our business, right from sourcing and manufacturing to inventory management and integrated logistics. Through our technology platform, we are able to derive insights across our markets of presence which help us in making informed data driven strategic and operational decisions. Our technology platform helps us continuously increase our scale, increase efficiencies and innovate for our customers. We will continue to invest organically and inorganically in technology, automation and AI solutions to improve our customer value proposition and our operational efficiency. As an example, we plan to implement the following technology initiatives across the eyewear value chain:

- We will continue to integrate AI into our front-end platform for generating better frame recommendations;

- We will introduce an AI-based eye testing solution to enhance the affordability and accessibility of the offering;

- We will also enhance the quality of in-store and online customer experience by introducing AI driven buying assistance;

- We will continue to enhance the utilisation of AI for merchandising to shorten lead times for new collections;

- Automation is a key pillar of our in-house manufacturing capabilities; we will further extend the use of automation for in-house frame and lens design capabilities;

- We will integrate our international order management platform with our India supply chain to leverage the strength of our centralised supply chain in India; and

- We will continue to enhance the technology we use for identification of new stores and adopt AI-based analytics to further improve store productivity.

***5. Continue to Enhance Customer Experience***

Delivering an improved customer experience remains central to our growth strategy. We aim to make investments to:

- Improve in-store customer experience and increase customer engagement on our mobile applications;

- Scale up remote optometry to give easier and wider access to customers for eye testing;

- Enhance lens related research and development to offer improved quality eyewear products with better functionalities;

- Further scale our next-day delivery services to reduce order fulfilment times further;

- Invest in data analytics and predictive models to offer higher personalization to our customers;

- Drive innovation towards enrichment of customer journeys, fostering loyalty and increasing lifetime purchase value, including ongoing improvements to, and increase the adoption of, our digital channels (mobile applications and website) with AI-driven personalization and augmented reality features for virtual try-on, making online shopping more immersive; and

- Further enhance our loyalty program with more value for our loyalty membership programs.

***6. Continue to strengthen our brand across our markets***

Our campaigns, community and product offering have helped position eyewear as a lifestyle and fashion category. We believe that our brands are recognized for offering both functional and fashionable eyewear. Our products are marketed under the Lenskart and Owndays brands and a portfolio of sub-brands owned by us, and we intend to further strengthen the awareness, affinity and equity of each of our brands. To this end, we aim to continue the following strategies:

- Invest in maintaining brand relevance to match the evolving aspirations of Gen-Z and beyond;
- Invest in brand-building initiatives, including targeted marketing campaigns through digital media, endorsements, sponsorships, television advertising and influencers, expand presence on social media platforms though content led strategies, across India and especially in international markets;
- Continue to innovate our store designs, which serve as a key representation of our brand and make our products aspirational, to provide an improved experience to our customers; and
- Reinforce our brand positioning as an environmentally responsible brand by piloting new sustainable materials and processes.

**Recent Developments**

*The Dealskart Acquisition*

We initially entered into a master franchise agreement with Dealskart on November 1, 2018, which formalized the operation of Lenskart-branded FoFo stores managed by Dealskart, while our other franchisees continued to operate their respective stores independently. Under the master franchise arrangement, Dealskart operated Lenskart-branded stores with commercial terms primarily comprising a sales-based fee and a one-time franchise fee. As part of our broader restructuring efforts, we expanded our commercial arrangement with Dealskart, effective October 1, 2019, to include the grant of an exclusive license for online platform operations pursuant to a separate license agreement, along with the provision of fulfillment and logistics support services under a vendor agreement. Subsequently, beginning in October 2020, we adopted a revised store operating structure whereby we directly leased newly established retail locations and sub-leased them to Dealskart, which continued to manage day-to-day operations and reimbursed us for rent and associated capital expenditures. In order to consolidate our control over retail and fulfillment operations, we entered into a termination agreement with Dealskart on November 30, 2024, pursuant to which all existing commercial agreements were terminated and we assumed direct control and operation of all retail stores and platform operations managed by Dealskart. We acquired Dealskart on December 31, 2024, following which Dealskart became a wholly owned subsidiary of our Company. On completion of this acquisition, all store leases were restructured as follows: (i) leases held by our Company (including those which were sub-leased to Dealskart, and these sub-leases were subsequently terminated as a part of the above transition) remained unchanged; (ii) store leases held by Dealskart directly were novated to our Company; and (iii) a limited number of store leases continue to remain with Dealskart, for which Dealskart continues to pay rent and is reimbursed by our Company under a cost-sharing arrangement. For CoCo stores in India, store-level manpower and services continue to be provided by Dealskart, our wholly owned subsidiary, under an operations and maintenance agreement with effect from January 2025), while we now manage all retail and fulfillment activities under a single, consolidated brand.

*Acquisition of Stellio Ventures, S.L.*

Pursuant to a Share Purchase Agreement dated July 12, 2025, by and among our subsidiary Lenskart Solutions Pte. Ltd. ("**Lenskart Singapore**"), Stellio, investor shareholders of Stellio and founders of Stellio, Lenskart Solutions Pte. Ltd has acquired 32,226 shares of Stellio, representing 84.21% of its share capital, for a total consideration of ₹4,125.30 million (assuming an exchange rate of €1 = ₹102.06), which comprises of ₹2,386.73 million paid to the investors shareholders of Stellio and ₹1,187.69 million paid to the founders of Stellio and ₹550.87 million being deferred consideration, payable to the founders of Stellio within 45 days after the third anniversary of the closing date of the transaction, that is, August 11, 2025.

Stellio markets a range of fashion sunglasses as well as related accessories direct-to-consumers under the "Meller" brand. Its products are sold mostly online through their website to customers across several countries. It also has two retail stores, one located in Barcelona, Spain and another located in Amsterdam, Netherlands. Stellio was profit-making under Spanish GAAP for the Calendar Year 2024. The acquisition is expected to deliver the following strategic benefits to our Company:

- introduces a new sub-brand within our portfolio, focused on Gen Z and Millennial customers;
- strengthens our offering in the sunglasses category for our customers;
- augments our Lenskart brand by offering contemporary fashionable sunglass designs to our customers;
- further strengthen our social media brand building and online e-commerce capabilities; and
- provides cost synergies to our supply chain network.

*Acquisition of Quantduo Technologies Private Limited*

Pursuant to share purchase agreements executed in August 2025, our Company increased its effective stake to 96.15% in Quantduo Technologies Private Limited ("**Quantduo**") for a total consideration of ₹109.16 million. Quantduo develops advanced analytics solutions for industries that deal with large volumes of data and has designed and refined a proprietary geo-analytics tool that leverages location-based data to predict revenue potential and payback periods for prospective store locations.

See also, "***History and Certain Corporate Matters***" and "***Risk Factors – We have pursued and are likely to continue to pursue acquisitions for inorganic growth. Our inability to successfully complete and integrate suitable acquisitions on acceptable terms in the future could adversely affect our business, results of operations, financial condition and cash flows***" on pages 344 and 86, respectively.

## DESCRIPTION OF OUR BUSINESS

### *Our Products and Services*

Founded in 2008, we are a technology-driven eyewear company and primarily sell prescription eyeglasses, sunglasses, and other products such as contact lenses and eyewear accessories. We sell our products in India, our largest market, and have recently expanded into select international markets, including Japan, Southeast Asia, and the Middle East. We design and sell a wide range of eyewear products primary under multiple owned in-house brands and sub-brands and as of June 30, 2025, offered an assortment of collections across 22 brands and sub-brands.

*Prescription Eyeglasses*

We offer prescription eyeglasses in a wide range of frame and lens selections. Our prescription eyeglasses include powered eyeglasses, sunglasses and smart glasses used for vision correction from refractive errors, reading glasses and computer vision glasses. These products are available in the economy, affordable premium and premium categories across our markets. Our custom-designed frames are made of materials such as acetate, titanium, stainless steel and aluminium, among others. These frames are offered in full-rim, half-rim and rimless designs. Customers can customize prescription lenses from a variety of options, including blue light, ultraviolet protection, anti-glare, shatter-proof durability and photochromic lenses, among others. We offer customers the ability to choose from a range of in-house and third-party branded single vision, progressive and bi-focal lenses for their prescription eyeglasses. Customers are also able to purchase standalone frames without lenses, as well as lenses for their existing frames. Prescription eyeglasses represented more than 80% of our revenue from operations, on a restated basis, during each of the Financial Years 2025, 2024 and 2023.

Prescription eyeglasses are generally custom manufactured for each customer. We manufacture prescription eyeglasses at our centralized manufacturing facilities at Bhiwadi, Rajasthan and Gurugram, Haryana, in-store in select countries and stores, or through third-party contract manufacturing arrangements. During the three months ended June 30, 2025 and the Financial Year 2025, we manufactured 3.93 million and 13.16 million units of prescription eyeglasses, respectively, at our centralized manufacturing facilities, representing 66.92% and 69.87% of the total prescription eyeglasses sold by us globally during the respective financial period. The balance of our prescription eyeglasses sales was fulfilled through in-store manufacturing in certain overseas markets to meet local demand and prescription fulfilment requirements and also through third-party suppliers. We offer our prescription eyeglasses in all the regions we operate in, delivering products either through our own channels or through franchise partners.

*Sunglasses*

We offer a wide range of sunglasses in various styles, shapes, colours, and lens options, catering to different customer preferences and occasions. Our sunglasses are designed to provide protection from harmful ultraviolet rays, glare, and dust, as well as enhance the aesthetic appeal of our customers. We offer sunglasses across a range of brands, such as Vincent Chase, John Jacobs, Hustlr and Owndays, among others.

*Others*

Contact Lenses

Our contact lens portfolio includes a comprehensive range of contact lenses in various types, materials, and power options, catering to different customer needs and preferences. Our contact lenses are designed to provide comfort, convenience, and clear vision while correcting refractive errors. Contact lenses can also be colorized to an individual customer's preference. We rely on numerous third-party suppliers for procuring powered lenses, coloured contact lenses and contact lens solutions. We offer and market contact lenses and solutions across our own brands and sub-brands, such as Aqualens and Owndays.

Accessories

In addition, we offer a range of eyewear accessories such as lens cleaning solutions and kits, cleaning cloths, eyeglasses and sunglasses cases, repair accessories, cords and chains, contact lens cases and eyewear stands. We procure these accessories from a range of third-party suppliers.

Value Added Services

In addition to our product lines, we also offer value-added services to customers through our online platform and at our stores, including eye tests, at-home trial services and after-sales services for product defects and repairs. We also offer gift cards for purchase on third party channels.

We offer a membership program called "Lenskart Gold" in India and select international markets for our customers. In India, we had 7.12 million members as of June 30, 2025. We launched Lenskart Gold in 2018, with subsequent versions named Lenskart Gold Max launched in the Financial Year 2024 and Lenskart Gold Max Pro recently in the Financial Year 2025.

In addition to Lenskart Gold, we also offer a loyalty program through Owndays. The Owndays loyalty program is a membership-based scheme that allows customers to earn points for purchases of eyewear products at our stores or online channels. Customers

can redeem these points for discounts, vouchers, free products, or other exclusive offers.

***Our Brands***

Our brand architecture consists of our Lenskart and Owndays brands and 23 other curated sub-brands, each designed to serve specific customer use cases. Our design philosophy is derived from several key customer categories based on their behavioural and usage preferences, including: (i) comfort-seekers, who prioritize wellness and simplicity at accessible price points; (ii) quality-focused customers, who value durability and performance; (iii) experimenters, who actively explore new trends and designs; and (iv) fashion-forward consumers, who view eyewear as a medium for self-expression and personal style. We cater to these customers through our brands and sub-brands that offer frames in a range of fashion, quality, comfort, and innovative features, a few of which are illustrated below.

- Elegant comfort through ***Owndays***: Owndays is directed towards working professionals who are focused on quality, minimalist design, durability and comfort. Most frames are made with titanium material.

- Ramp fashion, through ***John Jacobs***: John Jacobs is directed towards designers, experimenters, and working professionals who like to style themselves and stay updated with the latest trends. John Jacobs is made with quality materials and workmanship, with a fashion focus. We partner with fashion designers for John Jacobs. We recently launched a premium wedding collection with embedded crystals.

- Fast fashion, through ***Vincent Chase***: Vincent Chase is directed towards fashion conscious customers and experimenters who seek value driven products with latest trends and styles. We released over 35 eyewear collections in Vincent Chase in Financial Year 2025.

- Performative comfort, through ***Lenskart AIR***: Lenskart AIR is directed towards comfort seekers. Comfort with durability is a preference for many, including office professionals. Lenskart Air products are lightweight, durable, and affordable.

- Enterprising spirit, through ***Hustlr***: Hustlr is available in one single frame shape with multiple color options. Despite limited choice, Hustlr has gained popularity with creators, entrepreneurs, influencers and professionals.

- Infinite possibilities, through ***Hooper***: Hooper is a sub-brand directed towards children and seeks to deliver on comfort and durability. We recently launched our flagship product, Creatr, a self-adjustable and unbreakable pair of children's glasses specially designed for myopia-control lenses. Creatr is designed, moulded, and manufactured in our in-house facility. The 'Infinite possibilities' sub-brand is designed to cater to the unique needs of children, offering a wide range of durable and stylish eyewear options that prioritize comfort and safety.

Further, in 2023, we made a minority investment in Le Petit Lunetier, a French eyewear brand, and introduced it in Lenskart stores in India in the Financial Year 2025. In addition to the above brands, we also offer customers the option of purchasing eyewear products of select third-party brands.

We make inorganic brand investments and leverage such investments by commercializing products of these brands within our markets, particularly in countries where these brands have not yet gained a significant market share but have growth potential based on their success in other markets. For example, we began selling Owndays-branded products in Lenskart stores in India within nine months of our acquisition, demonstrating our operational agility and integration capabilities. Presently, Owndays is a premium frame and lens brand for Lenskart customers in India.

Furthermore, we actively collaborate with celebrities, influencers, and media platforms to enhance brand visibility, customer engagement, and foster strong brand awareness. For instance, we offer a specialized collection designed for customers who wear turbans, a durable eyewear range for children, lightweight frames suitable for office goers, and a bejewelled premium wedding collection. We have also introduced localized collections catering to festive occasions such as Navratri in India, Ramadan in the Middle East, Lunar New Year and Halloween. Additionally, we have specialised collections featuring popular fictional characters and media franchises, as well as a Hip-Hop-inspired range, in addition to endorsements by designers and celebrities. In December 2024, we launched our affordable smart glasses category through "Phonic", our audio-enabled smart eyeglasses, in India. We also offer eyewear accessories such as clip-ons, bags, chains, contact lens solutions, frame swaps, bitz and eyedrops.

***Our Omnichannel Retail Network***

Our technology-enabled omnichannel retail network comprises 2,806 stores, including 669 stores outside India, as of June 30, 2025, as well as our mobile applications (with over 100 million downloads as of June 30, 2025), websites, home try-on service, and other third-party online channels. We served 4.43 million and 12.41 million customer accounts globally in the three months ended June 30, 2025 and the Financial Year 2025, respectively, across India, Japan, Singapore, Thailand, Indonesia, Malaysia, Philippines, Vietnam, Cambodia, the United Arab Emirates, the Kingdom of Saudi Arabia, Taiwan, the Special Administrative Region of Hong Kong and Australia. We also have the ability to service online orders for our products to several other regions through global logistics providers, such as North America and Europe.

*Our Retail Stores*

As of June 30, 2025, our footprint included 2,137 retail stores spread across 1.73 million square feet in 415 cities in India and 669 retail stores spread across 0.69 million square feet outside of India.

We operate stores across a range of formats, including company-owned and company-operated ("**CoCo**"), franchisee-owned and franchisee-operated and company-owned and franchisee-operated. See also, "—***Our Business Relationships – Franchisees***" on page 331 for a description of the general terms of our franchise arrangements. On December 31, 2024, we acquired Dealskart, which was a master franchise operator of 1,606 stores in India, integrating the ownership and operation of such stores into our store network.

Set out below is a breakdown of our global store network by CoCo and franchise stores, as of the dates indicated:

| Particulars | As of June 30, 2025 | As of March 31, | | |
|---|---|---|---|---|
| | | 2025 | 2024[(1)] | 2023[(1)] |
| ***CoCo Stores*** | | | | |
| India | 1,823 | 1,749 | 1,417 | 1,036 |
| International | 488 | 475 | 433 | 383 |
| **Total** | **2,311** | **2,224** | **1,850** | **1,419** |
| ***Franchisees (including Company-owned, joint-venture and franchise-operated stores)*** | | | | |

*** *Others comprise Taiwan, Hong Kong and Australia.*

Set out below is a state-wise breakdown of the Company's retail store network in India as of March 31, 2025:

| State/Union Territory | Number of stores |
|---|---|
| Maharashtra | 325 |
| Karnataka | 228 |
| Tamil Nadu | 205 |
| Uttar Pradesh | 139 |
| West Bengal | 130 |
| Kerala | 123 |
| Gujarat | 118 |
| Telangana | 117 |
| Delhi | 89 |
| Rajasthan | 72 |
| ***Top 10 states*** | ***1,546*** |
| Others | 521 |
| **Total** | **2,067** |

*Online Channels*

Owned

We offer a wide online discovery catalogue and purchase experience through our mobile apps, the Lenskart app, the Lenskart website, the Owndays app, the Owndays website, and other sub-brand websites and apps. Through these channels, customers can discover our products, schedule an eye test in any of our stores and complete their purchase on our mobile apps or websites, or place

an order at our nearest store for delivery at their doorstep. We also service customers through telephonic assisted calling and offer an "at-home try-on" service for customers to test out eyewear before making a final purchase, with 358 home agents offering at-home eye test appointments to our customers in India as of June 30, 2025.

Third-party

In addition to our own online websites and mobile apps, we sell our products through third-party online sales and messaging channels that include e-commerce and quick commerce channels, social media networks and messaging services, where we list our products and offer customers the convenience of online shopping and delivery.

Set out below is a breakdown of the number of our eyewear units booked at stores or outside stores, for the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, 2025 | | For the Financial Year ended March 31, | | | | | |

***Product Development***

We believe eyewear is more than just a functional vision correction tool and also a fashion-forward and affordable lifestyle accessory. By offering a wide variety of eyewear with different styles, materials, and price points, we enable customers to own and wear multiple pairs of eyewear for different occasions and activities, similar to how customers engage with other product categories such as apparel and footwear.

We maintain a dedicated in-house design and merchandising team responsible for identifying target customer personas and developing brand concepts aligned with customer lifestyle, values, aesthetic preferences, interests, and eyewear needs. As of June 30, 2025, our design and merchandising team comprised 109 members across our markets, focused on creating new collections.

We follow a four-step process for product development:

- *Ideation*: We generate ideas for new products based on our market insights, customer feedback, and competitive analysis. We evaluate the feasibility, profitability, and differentiation of each idea, and select certain concepts for further development.

- *Validation*: We test and validate our new concepts with our potential customers, using online and offline channels, such as surveys, focus groups, and few of our stores. We collect and analyze data on customer response and demand, and refine our product concepts accordingly.

- *Launch*: We launch our new product in select markets and channels, using a mix of online and offline marketing strategies. We monitor and measure the performance of our new brands, using key indicators, such as sales, traffic, conversion, retention, and loyalty.

- *Scaling*: We scale our new products to other markets and channels based on the results of our launch phase. We also continue to innovate and improve products further by introducing new collections, features, and services, and by engaging with our customers through various touchpoints, such as social media and our membership programs.

***Manufacturing, Procurement and Supply Chain***

We have operated our own centralized manufacturing facilities since 2015 and today, we own and operate centralized manufacturing facilities in India (Bhiwadi, Rajasthan and Gurugram, Haryana), Singapore and the United Arab Emirates. We also operate a facility

for manufacturing of frames in the People's Republic of China through Baofeng Framekart Technology Limited, our Joint Venture. Our manufacturing facilities in India also supply prescription eyeglasses for sale in our international business.

*Process Overview*

Our centralized manufacturing model encompasses our in-house frame and lens manufacturing along with procurement from our third-party suppliers into automated manufacturing processes. According to the Redseer Report, the manufacturing of prescription eyeglasses is complex, requiring a high degree of precision and customization for every customer order. We have focused on shifting the complexity of manufacturing prescription eyeglasses to a centralized locations instead of in-store manufacturing. We have also strengthened our in-house capabilities to design and manufacture both frames and lenses. We have also focused on automation in our facilities, with our Bhiwadi facility being 75% automated, as of June 30, 2025. This allows us to maintain greater control over quality, cost-efficiency, and faster product development cycles, as set out below.

- *Prescription Eyeglasses Manufacturing*: Our centralized manufacturing encompasses automated multi-step processes, including matching lenses to frames, cutting and edging lenses, assembling components, and final fitting to produce a made-to-order product tailored for every customer.

- *Own Frame Manufacturing Capabilities*: We produce frames using metal and non-metal materials. We use computer-aided design (CAD) software to create innovative and fashionable designs, and computer numerical control (CNC) machines to cut and shape the frames, among others. We also use various processes, such as polishing, painting, electroplating, and laser engraving, to enhance the appearance and durability of the frames. In Financial Year 2025, we produced 6.44 million frames in-house, compared to 4.06 million frames produced in-house in the Financial Year 2023. In addition to this, we also procure frames from third parties. Set out below is a breakdown of the frames manufactured through our owned facilities and through our Joint Venture during each of the Financial Years and for the three months ended June 30, 2025 and 2024 indicated:

| Particulars | For the three months ended June 30, | | | | For the Financial Year ended March 31, | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2025 | | 2024 | | 2025 | | 2024 | | 2023 | |
| | *Number of frames manufactured (in millions)* | *% of total frames manufactured in-house* | *Number of frames manufactured (in millions)* | *% of total frames manufactured in-house* | *Number of frames manufactured (in millions)* | *% of total frames manufactured in-house* | *Number of frames manufactured (in millions)* | *% of total frames manufactured in-house* | *Number of frames manufactured (in millions)* | *% of total frames manufactured in-house* |
| Owned manufacturing facilities | 0.86 | 45.76% | 0.45 | 35.40% | 2.46 | 38.20% | 1.37 | 25.63% | 0.71 | 16.04% |
| Joint Venture manufacturing facility | 1.01 | 54.24% | 0.83 | 64.60% | 3.98 | 61.80% | 3.98 | 74.37% | 3.72 | 83.96% |
| **Total frames manufactured in-house** | **1.87** | **100.00%** | **1.28** | **100.00%** | **6.44** | **100.00%** | **5.35** | **100.00%** | **4.44** | **100.00%** |

- *Own Lens Manufacturing Capabilities*: We produce powered and customized lenses using lens blanks sourced from our vendors. We manufacture complex lens types, including progressive, bifocal lenses and selectively, single vision lenses. Lens manufacturing encompasses surfacing of blank lens (adding prescription power to the lens), polishing, brush cleaning, hard coating, anti-glare and UV coating. In Financial Year 2025, we manufactured 4.06 million lenses in-house, compared to 2.08 million lenses produced in-house in the Financial Year 2023.

Our manufacturing facilities in India rely on our automated warehousing and retrieval systems, enabling faster turnaround time and spatial efficiency. Our in-house developed warehouse management system powers our manufacturing operations, including automated in-bound and out-bound logistics workflows, pick and stow processes and managing the routing algorithm for our frames, lenses and finished products to the dispatch centre.

Set out below are details of our manufacturing facilities, as of June 30, 2025:

| Location | Size (in acres) | Key manufacturing capabilities |
|---|---|---|
| Bhiwadi, Rajasthan | 10.69 | ● Manufacturing of prescription eyeglasses<br>● Frame manufacturing<br>● Lens manufacturing<br>● AI-enabled Quality Check<br>● Automated dispatch system |
| Gurugram, Haryana | 2.95 | ● Manufacturing of prescription eyeglasses<br>● Frame manufacturing<br>● Lens manufacturing<br>● AI-enabled Quality Check |
| People's Republic of China (through Baofeng Framekart Technology Limited, our Joint Venture) | 0.11 | ● Frame manufacturing |
| Singapore | 0.08 | ● Manufacturing of prescription eyeglasses |

| Location | Size (in acres) | Key manufacturing capabilities |
|---|---|---|
| Dubai, United Arab Emirates | 0.28 | • Manufacturing of prescription eyeglasses |

In addition to the above manufacturing facilities, we are also in the process of setting up a facility in Hyderabad (Telangana) for which we entered into a memorandum of understanding in December 2024 with the Government of Telangana.

*Manufacturing capacity, volumes and capacity utilization*

We have invested in setting up manufacturing facilities to cater to the rising incidence of refractive errors in our markets (as indicated in the Redseer Report). The following table sets forth the installed capacities, actual production volumes and capacity utilization of prescription eyeglasses in our manufacturing facilities for the three months ended June 30, 2025 and 2024, and for the Financial Years indicated:

| Manufacturing Facility | For the three months ended June 30, | | | | | |
|---|---|---|---|---|---|---|
| | 2025 | | | 2024 | | |
| | Installed Capacity *(in units)*[1] | Actual Production *(in units)* | Capacity Utilization *(in %)*[2] | Installed Capacity *(in units)*[1] | Actual Production *(in units)* | Capacity Utilization *(in %)*[2] |

***Notes:***

*(1) Annual Installed Capacity: The annual installed capacity of a manufacturing plant is the maximum amount of production that a company can achieve in a year, assuming that all machines are running at full speed, 365 days a year. It is determined after taking into account the product mix and cycle time and can be produced in the specific production line. The installed capacity for each Fiscal Year is adjusted on account of the addition of capacity during the year. The capacity utilization for the three months ended June 30, 2025 and June 30, 2024 is calculated by considering effective capacity as one-fourth of annual capacity.*

*(2) Capacity Utilization: Capacity utilization has been calculated based on actual production made during the relevant year, divided by the annual installed capacity of relevant manufacturing facilities as of the end of the relevant year.*

Although our prescription eyeglasses manufacturing facilities recorded a capacity utilization of 47.93% in the Financial Year 2025, we are proactively investing in a new facility in Hyderabad, Telangana, anticipating future growth in demand consistent with our historical business performance. Additionally, this facility seeks to mitigates operational risk associated with our existing facilities in Bhiwadi, Rajasthan and Gurugram, Haryana, both situated in the Gurugram industrial cluster in India. Our proposed Hyderabad expansion further supports deeper vertical integration by enhancing our capabilities for in-house production of frames and lenses, while also enabling us to effectively leverage our Indian operations to supply eyeglasses to international markets.

*Raw materials*

Raw materials essential to our business are procured in the ordinary course of business from numerous third-party suppliers. The key raw materials that we use for our manufacturing operations include manufactured frames and materials to manufacture frames, such as metal wires and acetate sheets, manufactured lenses or blank lenses, chips and associated products for our smart glasses, and packaging materials such as cases and boxes.

We identify and approve third party suppliers to source our key raw materials, and we place purchase orders with them from time to time. We do not have any long-term contracts with our suppliers and prices are typically negotiated for each purchase order. We seek to de-risk our operations by continuing to diversify our procurement base, reduce the amount of materials that we import and procure more materials from Indian suppliers. The table below sets out details of our direct imports from the PRC and other purchases, in absolute terms and as a percentage of our total purchases for the three months ended June 30, 2025 and 2024 and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | | | For the Financial Year | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2025 | | 2024 | | 2025 | | 2024 | | 2023 | |

***Manufacturing Quality Control***

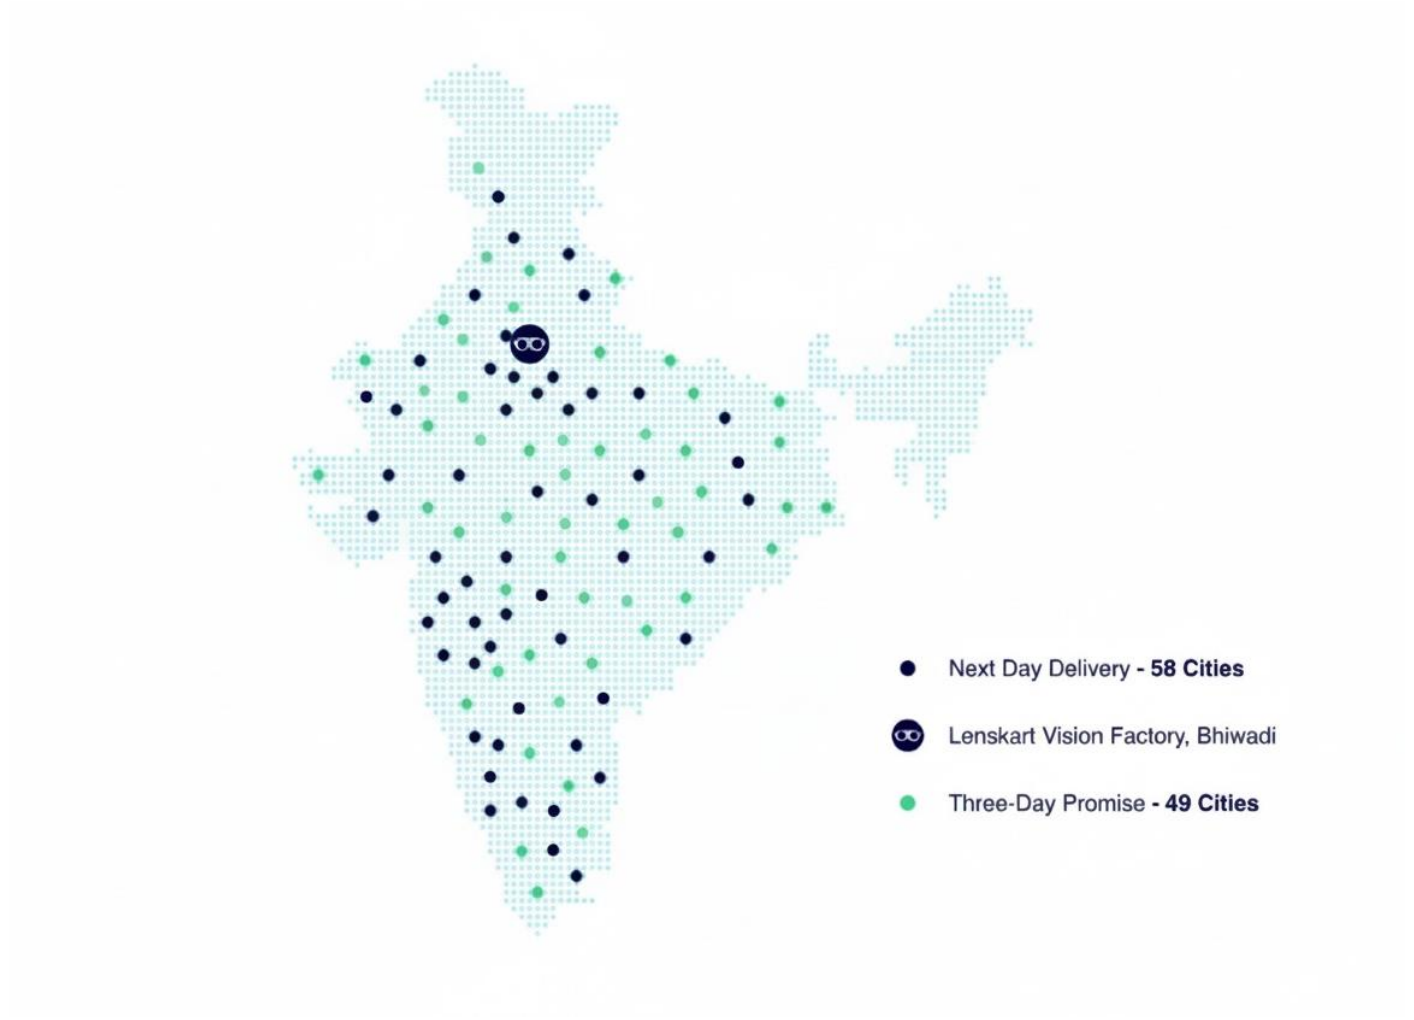
We are committed to delivering quality eyewear products to our customers, adhering to applicable international standards. We have established adequate quality processes and systems throughout our value chain, from design and development to manufacturing and distribution. We leverage advanced technology, data analytics, and customer feedback to continuously monitor, analyze, and improve our product quality and customer satisfaction. For instance, we employ our artificial intelligence-enabled Computer Vision technology to monitor adherence to standard operating procedures and maintain stringent quality control across our manufacturing facilities. We have implemented quality gateways at various stages of our manufacturing process, which are compliant with ISO 9001:2015 and ISO 13485:2016 for quality management systems. These include incoming quality checks for raw materials, consumables, and packaging materials; process quality checks for frame and lens manufacturing and assembly; and final quality checks for product, fitting, and cosmetic aspects.

***Delivery and Logistics***

We manage a centralized supply chain, comprising our manufacturing facilities and our self-controlled and managed logistics for supplying finished goods to the customer or at our stores.

*(Remainder of this page has intentionally been left blank.)*

The graphic below sets out details of our store locations and delivery timelines across India, as of June 30, 2025:



Our logistics operations are carried out by third-party service providers, with a combination of dedicated and non-dedicated fleet operations. While we do not own or operate the logistics infrastructure, these services are integrated into our network and designed and managed by our in-house team to ensure quick delivery and customer convenience. We use automated sorting facilities to robotically sort orders by destination, integrating customized sorting algorithms with our fleet management systems to serve our omnichannel retail network. This also enables us to seamlessly integrate with our last-mile logistics and delivery partners.

***Technology and Automation***

We have developed a robust, scalable technology platform utilizing a microservices architecture hosted primarily on cloud infrastructure. Our technology infrastructure enables seamless interaction across customer-facing applications, franchisee and supplier interfaces, and third-party service integrations, enhancing automation, operational efficiency, and customer experience. As of June 30, 2025, we have a 491-member technology team that is responsible for building our technology stack.

Set out below are details of certain key technology systems and features implemented across our operations:

- *Customer purchase experience:* Through technology, we have enabled customers to complete the entire purchase experience at a location of their choice across online channels, in store or at home, while enjoying a consistent shopping experience. A customer can choose to take an eye test anywhere, browse and purchase from the same range of eyewear across any touchpoint, have an order delivered to a location of their choice within India, and, if required, return it at any store or schedule a home pick-up.

  All our stores are integrated through a centralized order management system which gives our customers a connected experience. Our store inventory is integrated with our online inventory to provide customers with an integrated shopping experience. We have also digitized multiple aspects of the in-store customer journey, including implementing a queue management system, integrating store inventory with our online channel to enable in-store digital browsing.

  We record and analyse details of customer experience through touchpoints on our omnichannel retail network. Our data-driven decision-making capabilities enable us to launch new products and collections based on customer requirements and identified product whitespaces, while also improving product refresh rates.

Through technology integrations across our front-end platforms and supply chain operations, we provide real-time updates to customers post purchase, keeping them informed on the progress and status of delivery. Post purchase, we actively seek customer feedback on the overall shopping experience to continuously identify areas of improvement.

- *Merchandising AI:* We utilize artificial intelligence for merchandising to create catalogues on our apps and websites. Utilizing AI for merchandising helps significantly reduce our time-to-market for new collections.

- *Virtual Try Ons and Personalized Recommendation:* Through virtual try-ons, we provide personalized recommendations based on facial recognition and pupillary distance, among other parameters. By analyzing data gathered through virtual try-ons, we further refine and improve our product recommendations to customers. In the Financial Year 2025, customers conducted 38.59 million virtual try-ons on our mobile applications and websites.

- *Remote Optometry and Self Eye Check Ups:* We are continuously innovating to improve our value proposition to customers. We believe eye checkups are an important step in the customer purchase experience and have introduced innovations such as remote optometry in India, which was developed by us in-house. Further, our stores in Japan are equipped with self-eye checkup capabilities.

*Technology for operations*

- *AI-driven in-store analytics:* We leverage an artificial intelligence-powered computer vision platform ("**Computer Vision**") to measure foot traffic, monitor in-store activity, and automatically analyze visual data from store CCTV footage. This data is used to optimize customer flow, merchandise placement, and store operations, enhancing footfall-to-sale conversion.

- *New Store Location:* We utilize a machine learning-based platform to identify new potential store locations by running predictive revenue models using historical store data, local demographic profiles and external market information.

- *Computer Vision-led Quality Control:* We utilize Computer Vision to automatically analyse store CCTV footage at our manufacturing facilities as well as for eye-test in stores. This analysis generates an audit report to detect deviations from standard operating procedures and drive process adherence.

- *Automated supply chain and manufacturing capabilities*: Our technology systems are tailored and designed to handle complex eyeglasses manufacturing operations. We operate a platform integrating our stores and online channels directly with our manufacturing facilities, enabling real-time manufacturing inputs and precise inventory monitoring. We also employ automated storage and retrieval systems for efficient inventory management and for movement of goods within our manufacturing facilities. Our in-house developed warehouse management system, NexS, streamlines our operations from purchase to delivery. Our warehouses feature automated robotic dispatch systems designed to sort products into last-mile delivery bins.

Our dedicated security team, led by a Chief Information Security Officer, employs robust policies and advanced tools to protect sensitive data and user privacy, adhering to global standards such as ISO 27001. We regularly conduct internal and external quality audits and vulnerability assessments to maintain compliance and mitigate cybersecurity risks. Our technology team consists of various verticals such as customer experience, supply chain, pre-order, data science, information security, and platform engineering, that work together to create an integrated global eyewear technology platform.

We are focused on investing in our technology systems and platform. Set out below are details of our information technology support expenses during the periods and Financial Years indicated:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| Information technology support expenses (A) | 384.36 | 261.55 | 1,107.02 | 1,023.47 | 752.06 |
| Total expenses (B) | 18,365.80 | 15,606.22 | 66,194.78 | 55,495.94 | 40,250.74 |
| Information technology support expenses as percentage of total expenses *(%)* (A)/(B) | 2.09% | 1.68% | 1.67% | 1.84% | 1.87% |

***Marketing and Advertising***

Our marketing strategy is focused on positioning our brand as a customer-centric and innovative, eyewear brand, increasing our market share and customer base in India and International markets and enhancing customer loyalty and retention. We utilise both television-based advertising and digital channels. We leverage popular culture, and influencer-led campaigns to create engaging and culturally relevant narratives that resonate with our target audience. Our marketing strategy is localised based on geographic and regional trends, and implemented through multiple channels, including television advertisements and online social media.

Set out below are details of our marketing and promotion expenses for the periods and Financial Years indicated:

| Particulars | For the three months ended June 30, | | For the Financial Year ended March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| Marketing and promotion expenses (A) | 1,276.24 | 1,091.12 | 4,484.13 | 3,521.06 | 2,938.36 |
| Total expenses (B) | 18,365.80 | 15,606.22 | 66,194.78 | 55,495.94 | 40,250.74 |
| Marketing and promotion expenses as a percentage of total expenses *(%)* (A)/(B) | 6.95% | 6.99% | 6.77% | 6.34% | 7.30% |

***Our Business Relationships***

Our business supplier arrangements primarily include raw material and packaging suppliers, third-party manufacturers, logistics providers, franchisees and technology vendors. In addition, we have arrangements with other intermediaries such as service providers who provide certain digital services including digital marketing and search engine optimization services, payment gateway operators who facilitate customer payments on our platform, manpower service providers who provide personnel for services such as loading, unloading, packaging, security and housekeeping. Our customer sales arrangements are based on the terms and conditions listed on our online platform and in invoices generated at the time of physical purchases at our physical stores.

Our general arrangements with assembly and manufacturing partners, raw material and packaging suppliers, logistics service providers, franchise partners, third-party manufacturing vendors and key technology vendors are set out below.

*Joint Venture manufacturing arrangements*

We operate manufacturing facilities in the People's Republic of China through our Joint Venture, Baofeng Framekart Technology Limited ("**Baofeng**"). We have entered into a 30-year equity joint venture in the PRC with a joint venture partner, pursuant to which we hold 51% of the registered capital of Baofeng (aggregating to RMB 10 million) and control the board, with our joint venture partner holding the remaining 49%. Baofeng's sole business is to manufacture, wholesale, and export spectacle frames, sunglasses, and related eyewear exclusively under the "Lenskart" family of brands (and any other brand that we may designate). All products are first offered to us or our nominated distributors on a cost-plus-10 per cent basis. Surplus quantities may be sold to third parties (who are not our competitors) with our prior written approval.

*Raw Material and Packaging Suppliers*

We generally enter into supply agreements under which suppliers manufacture and sell to us optical frames, lenses, and related eyeglass raw materials that meet our specifications, further to which we process and sell these products through our channels. Suppliers are required to deliver on agreed purchase orders, bear delivery costs, meet quality standards, and provide specified product warranties. Title to goods passes to us on acceptance, and we pay as per individual purchase-order terms. All designs, moulds, and other intellectual property created for us are exclusively our property and may be used only for our orders; certain contracts also restrict the supplier from supplying identical or similar products to any third party. We may impose penalties for late delivery, reject or return non-conforming goods, and terminate the agreement immediately for material breach, unethical conduct, or other specified events.

*Logistics Service Providers*

We enter into non-exclusive agreements with courier and logistics service providers to support the collection, carriage and delivery of our eyewear products, accessories and related materials. Service providers are required to meet defined service-level standards, including on-time delivery standards with minimal loss or damage, and are required to maintain applicable licenses and insurance. Logistics service providers are generally liable (subject to monetary caps) for loss, damage or theft occurring between pick-up and delivery, and they indemnify us against claims arising from their breach, negligence or misconduct; we retain the right to withhold or set off payments against such claims. We generally pay monthly invoices in accordance with pre-agreed rate cards that cover line-haul, last-mile, reverse logistics and ancillary services. We may terminate for convenience with prior notice or immediately for specified causes, including material breach of compliance obligations or sustained service-level failures. We are not generally obliged to service any minimum volumes through a specific logistics provider and parties may contract with other service providers or customers for similar services.

*Franchisees*

We enter into franchise agreements with franchisees, pursuant to which we grant a non-exclusive, non-assignable, non-transferable and revocable license to use specified trademarks for retailing authorized eyewear products at the franchise location specified in the agreement. These agreements are generally valid for a period of five years from their respective effective dates, unless terminated earlier as per the terms of the agreements. These agreements set out the terms and conditions for, among other things, the supply and purchase of the authorized products, the establishment, operation and management of the authorized outlet. The agreement also incorporates various policies and standards issued by us from time to time, such as the brand use and marketing policy, the

development standards and specifications, the operational standards and specifications, the NPS policy and the code of conduct, among others. The franchisor may, at its sole discretion, renew the agreement for such further period as it may deem fit on mutually agreed terms.

*Cloud platform vendors*

We enter into subscription agreements with independent cloud-cost-management providers to optimize our expenditure on the cloud platforms on which our technology platform is hosted. Under this arrangement our cloud platform accounts are billed through the provider's payer account, allowing us to benefit from volume-based discounts, access to a financial operating platform and related professional services. We are required to adhere to certain conditions under these contracts, such as keeping our accounts enrolled in enterprise-level support, refrain from making direct reservations or savings-plan purchases, and meet agreed annual cloud-spend thresholds. The provider issues INR-denominated invoices to us each month, supported by detailed usage reports, and assumes responsibility for paying the cloud platform directly. These agreements may not be terminated for convenience during their term, but either party can end it for uncured material breach or certain defined business exigencies. These contracts include customary indemnity, confidentiality, data-security and limitation-of-liability provisions.

***Competition***

According to the Redseer Report, we operate in an eyewear market that remains highly fragmented, with more than 70 percent of prescription eyewear sales through unorganised channels as of the Financial Year 2025.

In India, we principally compete with leading large organized retailers of prescription eyeglasses, which include eyewear retailers such as Eyegear Optics India Private Limited (branded as "Ben Franklin"), Gangar Opticians Private Limited, GKB Opticals Limited, Lawrence and Mayo (India) Private Limited, Reliance Vision Express Private Limited, Specsmakers Opticians Private Limited, and the eyecare division of Titan Company Limited. Only a few of these retailers have a pan-India presence.

Globally, the leading large organized retailers of prescription eyeglasses include eyewear retailers such as De Rigo Vision S.p.A., Essilor Luxottica SA, Fielmann AG, JINS Holdings Inc., Marcolin S.p.A., Megane Top Co., Ltd., National Vision Holdings, Inc., Safilo Group S.p.A., Specsavers Optical Group Ltd, Synsam Group AB, and Warby Parker Inc. Further, a majority of revenue for most of these global eyewear retailers continues to come from developed markets such as the United States and the European Union, which are markets with fundamentally different consumer behavior, price points, and retail maturity compared to emerging markets. These retailers differ from our business model as they are either partially integrated or are vertically integrated with a decentralized supply chain or primarily have a wholesale or franchisee model through which they operate in India.

We also face indirect competition from global lens manufacturers such as Essilor Luxotica SA, Hoya Corporation and Carl Zeiss AG, among others, that supply branded lenses to other retailers, as lens manufacturing is a smaller part of our business operations. See also, "***Industry Overview – Global Competitive Landscape***" on page 279.

Our strategy to control the entire value chain through frame and lens design and manufacturing and centralized supply chain and manufacturing of prescription eyeglasses to offer value-for-money owned brands, to provide eye-testing across a growing network, and retailing, allows us to compete effectively across each of these channels by combining the trust and reach of offline retail with the discovery, convenience and data-led personalisation of digital channels.

***Customer Service and Grievance Redressal***

We continuously strive to improve user experience on our platform and have a standard operating procedure that is reviewed and implemented by our management for managing user grievances. Our centralized customer service department includes:

- a dedicated order retention team, which handles incorrect lens package orders and incompatible power orders, and assists customers in placing correct orders. This team also offers free home eye checkups, image upload options, and prescription links to customers; and

- a return excellence team, which comprises advisors who handle customer calls related to returns.

We are subject to various regulations for customer service in India, such as the Information Technology Act, 2000 and the Customer Protection Act, 2019, among others. For more details, see "***Key Regulations and Policies in India***" on page 338.

Customers in India are able to contact us for grievance redressal and to raise issues through the following contact details or at any of our retail stores:

| Escalation matrix | Contact details |
|---|---|
| Level 1 | • Toll-free telephone number: 1800-202-4444<br>• Online chat facility |
| Level 2 | customergrievances@lenskart.in |

During the Financial Year 2025, we have received 130,835 customer complaints (raised directly by customers with the centralized

customer service department, excluding tickets resolved through first call resolution), of which 975 remained pending as of March 31, 2025.

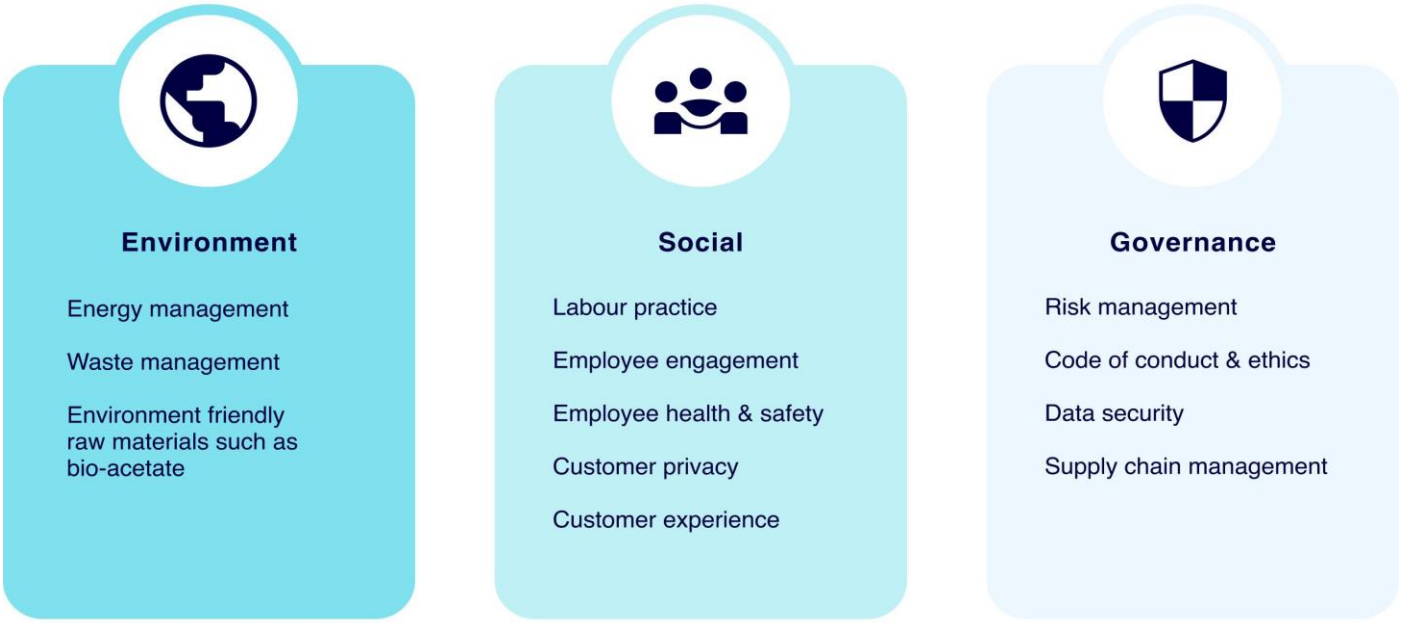
***Information Security and Data Privacy***

We are committed to protecting the confidentiality, integrity, and availability of our information assets and ensuring compliance with relevant standards and regulations. We have established and implemented an Information Security Management System (ISMS) based on ISO/IEC 27001:2022, which covers the policies, procedures, and controls for managing information security risks and protecting personal data in the cloud.

We have established an information security governance structure, with defined roles and responsibilities for various stakeholders and committees. We have also classified and protected our information assets and systems with suitable measures, and conduct regular risk assessments and quality audits to ensure their security and compliance. We have documented procedures for managing changes, incidents, and risks related to our information systems and services, and for ensuring data privacy. We also monitor and review our suppliers, vendors, and third parties that provide us with information systems and services, and require them to follow our information security and data privacy standards and agreements. We provide training and awareness programs to our staff and associates on information security and data privacy, and review and update our policies and procedures annually or as needed. We aim to continuously improve our information security and data privacy practices and performance, and to align them with the best industry standards and practices.

***Environment, Social and Governance***

We are focused on environmental sustainability, social progressiveness and good governance in our business. Set out below are our environment, social and governance ("**ESG**") focus areas:



With environmental sustainability at the core of our focus, we pursue programs with the aim of reducing waste and reducing the carbon footprint of our business. We prioritize improvements in energy efficiency, renewable energy utilization, and the integration of low-carbon technologies. Our Bhiwadi facility operates as a zero liquid discharge manufacturing facility, ensuring that no wastewater is released into the environment. In addition, both our Bhiwadi and Gurugram facilities are equipped with rainwater harvesting systems, capturing 1,060 kiloliters per day ("**KLD**") and 110 KLD, respectively. Further, notably, our Bhiwadi facility has installed a 2,300-kilowatt ("**KW**") rooftop solar plant, while our Gurugram facility operates a 455 KW solar plant, enabling us to offset emissions and reduce grid dependency. We also recognize the impacts of climate change on our business, both in terms of risks and opportunities. We have undertaken a climate risk assessment of our operations to develop more effective strategies to mitigate potential risks on operations. This climate risk assessment was designed to identify both physical and transition-related climate risks and to formulate strategies to enhance our resilience. We systematically evaluate the exposure and vulnerability of our assets and operations to physical climate hazards, such as extreme weather events, rising temperatures, and sea level rise.

Our management is driven by a corporate governance philosophy rooted in an ethical and transparent approach to our actions and behaviour, and of our employees and suppliers. We encourage our suppliers to adhere to our supplier code of conduct to underscore our mutual endeavours to implement ethical practices in our business. Our risk management process also integrates climate-related risks into our overall risk management framework.

We promote sustainable sourcing through initiatives focused on social improvement, economic development, and environmental

impact reduction. Our supplier code of conduct outlines our expectations for sourcing, manufacturing, and distributing our products responsibly. This helps us manage our supplier relationships and assess them based on ESG criteria, incorporating sustainable practices such as sustainable procurement and human rights protection into our supply chain. This assessment is a core component of our sustainability initiatives, allowing us to evaluate and improve the ESG practices of our suppliers. By evaluating suppliers' ESG performance, we aim to cultivate a culture of responsibility and continuous improvement, enabling our business to positively contribute to society and the environment.

Set out below is an illustration of our eyewear cases made from recycled plastic bottles:

Eyewear cases made from recycled plastic

*Health and Safety Matters*

We are committed to providing a safe and healthy work environment for our employees, contractors, and visitors. We have developed a structured training program for all employees across various levels of the organization, covering topics such as company-specific safety protocols, emergency response procedures, job-specific safety skills, fire extinguisher operation, first aid, and safety culture. We monitor and measure our safety performance using metrics such as safe man-hours worked, accident frequency rate, accident severity rate, and near-miss incidents. We also conduct periodic quality audits and inspections to identify and rectify any potential hazards or non-compliances. We have a dedicated team that oversees the implementation and improvement of our safety management system and coordinates with the relevant authorities and stakeholders.

*Corporate Social Responsibility*

We are committed to fulfilling our corporate social responsibility ("**CSR**") obligations by addressing the issue of vision care in India. We have formulated a CSR policy that outlines our vision, objectives, activities, funding, implementation, and monitoring mechanisms for our CSR initiatives.

Through the Lenskart Foundation, we carry out our CSR activities in the field of preventive eye healthcare for the needy and impoverished sections of the society. Through Lenskart Foundation, we aim to create awareness, enhance accessibility, and advocate for the inclusion of vision correction in the national healthcare agenda.

Our "*Drishti Didi Har Gaon Har Ghar*" program or "*Women Eye Marshall*" is our ambitious effort to ensure preliminary eye check-ups for every village every house of India. We train local women to perform preliminary eye tests and relay vision data to our team, conducting comprehensive eye exams and providing spectacles accordingly. We have screened more than 650,000 people in more than 700 villages across six states in India as of June 30, 2025.

To further enhance access to primary eye care and reach out to unserved people, in July 2023, we launched the "Lenskart Foundation on Wheels", which is our mobile primary eye care service offering complimentary eye tests and prescription eyeglasses at nominal rates in the Delhi-National Capital Region in India. The Lenskart Foundation also runs six child eye care centers, offering complimentary eye examinations and eyeglasses to children in underserved communities. In these centers, we have conducted more than 25,000 eye tests during the three months ended June 30, 2025 and the Financial Year 2025.

Our Board of Directors and CSR Committee approve, oversee, and report on our CSR policy and programs. We have also put in place a monitoring mechanism to track the progress and outcome of our CSR program.

***Intellectual Property***

We rely on a range of trademarks and other proprietary rights, such as trade secrets, know-how and confidentiality agreements to develop, maintain and strengthen our competitive position. In addition, we have registered multiple domains, including "Lenskart.com" and "Owndays.com". We have registered 242 trademarks in India, including for our brands "John Jacobs" and "Vincent Chase", among others. With our business expansion across southeast Asia, we have also registered 93 trademarks overseas in countries such as Singapore, Japan, Thailand and the United Arab Emirates.

***Employees***

As of June 30, 2025, we had 18,173 permanent employees and a contractual workforce of 5,812 employees across the jurisdictions in which we operate. We have entered into service and manpower agreements with contractors to provide us with services in relation to manpower supply, outsourcing and payroll management services, among others at such locations mutually decided between our Company and the contractors.

We are committed to employee development through Lenskart Academy, our training academy for offline retail staff employees. This academy provides continuous learning programs for our offline retail staff, covering topics such as optometry, products, customer experience, and leadership. Through these programs, we are able to provide human resources for our growing store network with a similar training, culture and mindset, enabling us to deliver consistent customer experience.

As of June 30, 2025, we have established three training centers in Gurugram (Haryana), Bengaluru (Karnataka) and Mumbai (Maharashtra). We also leverage our learning management system ("**LMS**") to deliver online content and assessments to our employees across various businesses. Our new hire training ("**NHT**") program is designed to equip our staff with the necessary skills and knowledge to deliver a remarkable customer experience and achieve our business goals. The NHT program consists of classroom training, store shift, and on-the-job training, with different durations and modules for different roles.

Further, our continuous learning ("**CL**") program is aimed at providing ongoing development and career progression opportunities for our staff. The CL program includes handover to business programs, such as UpRise Basic and Advanced, which prepare our store associates, optometrists, and store managers for higher roles and responsibilities. The CL program also includes periodic refresher courses, skill enhancement workshops, and online courses on our LMS. Our CL program has helped us retain and motivate our talent, as well as improve their performance and contribution. We also conduct training for non-store staff such as home try ons. We have also successfully conducted in-person training for our store staff in Singapore on store flow and customer experience. Our Lenskart UpRise programs are designed to accelerate the career progression of our employees. Our UpRise Advanced (SM to AOM) and Master (AOM to ZM) programs ensure that internally developed Area Operations Managers and Zonal Managers are well-equipped to handle the responsibilities of their new roles.

We run a diverse organization, with employees from 25 nationalities and a balanced gender ratio with 35.82% of female employees, as of June 30, 2025. The following table sets forth a breakdown of our permanent employees by function, as of June 30, 2025:

| Function | Number of Employees (Global) |
|---|---|
| Retail staff | 15,211 |
| Corporate and Administration | 844 |
| Manufacturing, Quality and Supply chain | 815 |
| Technology | 491 |
| Customer support | 400 |
| Treasury and Finance | 152 |
| Sales and marketing | 151 |
| Design and merchandising team | 109 |
| **Total** | **18,173** |

***Insurance***

Our operations are subject to hazards inherent in manufacturing facilities such as risk of equipment failure, work accidents, fire, earthquakes, flood and other force majeure events, acts of terrorism and explosions including hazards that may cause injury and loss of life, severe damage to and the destruction of property and equipment and environmental damage. We may also be subject to customer product liability claims if our products are not in compliance with regulatory standards.

We maintain insurance policies that we believe are customary for companies operating in our industry. Our principal types of coverage include insurance for public liability accident risks, product liability and directors' and officers' liability. We also offer group term life, group medical claim, group personal accident and business travel accident insurance to our employees. Our policies are subject to customary exclusions and deductibles.

***Awards and Accreditations***

Set out below are details of key awards and accreditations received by us:

| Calendar Year | Award/Accreditation |
|---|---|
| 2025 | "Most Preferred Workplace 2025-26" by Marksmen Daily |
| | Recognised as "India's Most Trusted Eyewear Brand of 2025" by TRA Research |
| 2024 | 'Startup of the Year' award at the Economic Times Startup Awards 2024 |
| | Bronze medal at the Indian Marketing Awards in the 'best Use of segmentation' category |
| | Silver medal at the e4m Primetime Awards in the 'Best Use of Influencers/Celebrities on TV' category |
| | Owndays Singapore was the runner-up in the "Best Optical Store - Retail Chain (ROW)" category at the You&Eye Global Opticians Awards 2024. |
| | Awarded as the 'most tech-savvy and omnichannel integrated brand' at the 600 Forward Event held in Riyadh, KSA |
| | Silver medal at the e4m Primetime Awards in the 'best use of influencers/celebrities on TV' category |
| 2023 | Silver medal at the e4m Indian Marketing Awards in the 'best use of content marketing' |
| | Awarded "the most admired e-commerce company of the year" - in the omnichannel capability category" at the IMAGES Most Admired Company of The Year Awards. |
| | Silver medal at the Media ABBY Awards in the 'Innovative Use of Audio Video' category |
| | Gold medal at the e4m Mobile Awards in the 'Best Use of Mobile Integration' category |
| 2022 | Bronze medal at the Brand Disruption Awards in the 'best use of ATL media' category |
| | Awarded "the most admired emerging tech adopter of the year" at the images RetailME Awards |
| | Gold medal at the e4m Indian Marketing Awards in the 'Best Use of TV' category |
| | Gold medal at the Campaign Media 360 Awards in the 'Best Use of Media – TV Sports – Hindi' category |
| 2021 | Bronze medal at the Media Strategy Awards 'Media Plan for TV' category |

***Properties and Facilities***

Our Registered Office and our Headquarters are each held by us on a leasehold basis. Our manufacturing facilities are located in the states of Haryana and Rajasthan in India, with an upcoming facility proposed to be situated in Hyderabad in the state of Telangana. Our Gurugram facility is occupied by us on a leasehold basis, while we hold our Bhiwadi facility on a freehold basis. Our proposed facility in Hyderabad, Telangana will also be held by us on a freehold basis. The details of our key properties are set out, as below:

| Particulars | Type | Address | Owned / Leased | Lease tenure (if leased) | Area of manufacturing facility (in acres) |
|---|---|---|---|---|---|
| Office in New Delhi | Registered Office | Plot No. 151, Okhla Industrial Estate, Phase III, New Delhi, 110020 | Leased by our Company | Leased for a period of 5 years from November 10, 2024 | - |
| Office in Gurugram, Haryana | Headquarters | Ground Floor, Vipul Tech Square, Golf Course Road Sector 42, DLF QE, Gurugram, 122 002, Haryana, India | Leased by our Company | Leased for a period of 9 years, from date of November 1, 2022 | - |
| Facility in Gurugram, Haryana | Manufacturing facility | Khasra No. 29//24/2, 25/2/1, 30//4/4, 5/1, 5/2, 6/1/1, 6/1/2, Village Begumpur Khatola, Gurugram | Leased by our Company | Leased for a period of 15 years, from the date of July 1, 2019 | 2.95 |
| Facility in Bhiwadi, Rajasthan | Manufacturing facility | SP – 9,10,11 Industrial Area, Kahrani, Bhiwadi Ext. | Owned by our Company | - | 10.69 |
| Facility in Dubai, United Arab Emirates | Manufacturing facility | Plot No – 786, Warehouse 1 Dubai Investment Park 2, Dubai, UAE Street No 74 | Leased by Lenskart Optical Lenses Cutting L.L.C, our Subsidiary | Leased for a period of five years from January 1, 2024 | 0.28 |
| Facility in Singapore | Manufacturing facility | 2 Kaki Bukit Avenue 1 #04-04, 417938, Singapore | Leased by Lenskart Solutions Pte. Ltd., our Subsidiary | Leased for a period of three years from July 27, 2024 | 0.08 |

In India, our store network is generally occupied by us through leasehold arrangements (for CoCo stores) and are leased directly by us or by our Subsidiaries. We typically enter into lease agreement and leave and license agreements for our stores with tenures ranging from 5 to 15 years (with a few exceptions).

We also have corporate offices located in the states of Karnataka, Maharashtra, New Delhi, Telangana and West Bengal, and we maintain a global presence through offices located in Singapore, Taiwan, Thailand, KSA, the United Arab Emirates, Australia and Japan. We occupy such offices through a combination of leave and license, co-working, managed office and membership arrangements.

## KEY REGULATIONS AND POLICIES

*Given below is an indicative summary of certain sector specific and relevant laws and regulations in India, which are applicable to our Company and our Material Subsidiaries. The information in this chapter has been obtained from publications available in the public domain. The description of the applicable regulations as given below is only intended to provide general information to the investors and may not be exhaustive and is neither designed nor intended to be treated as a substitute for professional legal advice. The indicative summaries are based on the current provisions of applicable law in India, which are subject to change, modification, or amendment by subsequent legislative, regulatory, administrative, or judicial decisions.*

**Laws in relation to our business**

***Consumer Protection Act, 2019 ("Consumer Protection Act") and the rules made thereunder***

The Consumer Protection Act, which repeals the Consumer Protection Act, 1986, was designed and enacted to provide simpler and quicker access to redress consumer grievances. It seeks, inter alia, to promote and protect the interests of consumers against deficiencies and defects in goods or services and secures the rights of the consumers against unfair trade practices, which may be practiced by manufacturers, service providers and traders. The definition of "consumer" has been expanded under the Consumer Protection Act to include persons engaged in offline or online transactions through electronic means or by tele-shopping or direct-selling or multi-level marketing. One of the substantial changes introduced by the Consumer Protection Act is the inclusion of the e-commerce industry under the ambit of the Consumer Protection Act, with "e-commerce" defined to refer to the buying and selling of goods or services over digital or electronic network. The Consumer Protection Act aims to cover entities that are involved in the process of selling goods or services online. It provides for the establishment of consumer disputes redressal forums and commissions for the purposes of redressal of consumer grievances. In addition to awarding compensation and/or passing corrective orders, the forums and commissions under the Consumer Protection Act, in cases of misleading and false advertisements, are empowered to impose imprisonment for a term which may extend to two years and fine which may extend to ₹1,000,000. In cases of manufacturing for sale or storing, selling or distributing or importing products containing an adulterant, the imprisonment may vary between six months to seven years and fine between ₹100,000 to ₹1,000,000 depending upon the nature of injury to the consumer.

The Consumer Protection (E-Commerce) Rules, 2020, issued under the Consumer Protection Act apply to, among other things, goods and services bought or sold over digital or electronic networks, all models of e-commerce and all forms of unfair trade practice across e-commerce models. The rules specify the duties of sellers, duties and liability of e-commerce entities and inventory ecommerce entities.

***Draft E-Commerce Policy, 2019 ("2019 Draft Policy")***

In March 2019, the DPIIT had invited comments from stakeholders and the public on the 2019 Draft Policy. Among other items, the 2019 Draft Policy proposed that measures should be taken to regulate cross-border data flow, establish a level playing field for domestic and foreign e-commerce players, boost sale of domestic products through e-commerce, and generally regulate e-commerce in India DPIIT is currently working on a revised draft policy.

***The Guidelines for Prevention of Misleading Advertisements and Endorsements for Misleading Advertisements, 2022 ("Advertisement Guidelines")***

The Advertisement Guidelines provide for the prevention of false or misleading advertisements and making endorsements relating thereto. The Advertisement Guidelines apply, *inter alia*, to a manufacturer and to all advertisements regardless of form, format or medium. The Advertisement Guidelines law down the conditions for non-misleading and valid advertisement and prohibit surrogate or indirect advertisements of goods or services whose advertising is prohibited or restricted by law, by portraying it to be an advertisement for other goods or services, the advertising of which is not prohibited or restricted by law.

Further, the Advertisement Guidelines lay down duties of, *inter alia*, a manufacturer and provide, *inter alia*, that every manufacturer shall ensure that all descriptions, claims and comparisons in an advertisement which relate to matters of objectively ascertainable facts shall be capable of substantiation. The Advertisement Guidelines further provide that any endorsement in an advertisement must reflect the genuine, reasonably current opinion of the individual, group or organisation making such representation and must be based on adequate information about, or experience with, the identified goods, product or service and must not otherwise be deceptive.

***Competition Act, 2002 (the "Competition Act")***

The Competition Act is an act to prevent practices having adverse effect on competition, to promote and sustain competition in markets, to protect the interests of consumers and to ensure freedom of trade in India. The act deals with prohibition of (i) certain agreements such as anti-competitive agreements and (ii) abuse of dominant position and regulation of combinations. No enterprise or group shall abuse its dominant position in various circumstances as mentioned under the Competition Act.

The prima facie duty of the Competition Commission of India ("**CCI**") is to eliminate practices having adverse effect on competition, promote and sustain competition, protect interests of consumers and ensure freedom of trade. The CCI shall issue notice to show cause to the parties to combination calling upon them to respond within 30 days in case it is of the opinion that there has been an appreciable adverse effect on competition in India. In case a person fails to comply with the directions of the CCI and

Director General (appointed under Section 16(1) of the Competition Act), he shall be punishable with a fine which may exceed to ₹100,000 for each day during such failure subject to maximum of ₹10,000,000, as the CCI may determine.

The Competition (Amendment) Act, 2023 introduces significant changes to the Competition Act in India. It introduces a Deal Value Threshold of ₹2,000.00 Crores for reporting merger and acquisition transactions to the CCI. The time limit for CCI's assessment of mergers and acquisitions is reduced from 210 days to 150 days. The scope of anticompetitive agreements is broadened by replacing "Exclusive Supply Agreement" with "Exclusive Dealing Agreement" and now covers the selling side of such agreements. The definition of cartel is expanded to include hubs and spoke arrangements involving trade associates, consultants or intermediaries. Additionally, the Amendment Act grants the CCI the power to appoint a Director General for more effective enforcement.

***The Digital Personal Data Protection Act, 2023 ("Data Protection Act")***

The Data Protection Act provides for collection and processing of digital personal data by persons, including companies.

According to Data Protection Act companies collecting and dealing in high volumes of personal data will be defined as significant data fiduciaries. These significant data fiduciaries will be required to fulfil certain additional obligations under the Data Protection Act including appointment of data protection officer who will be point of contact between such fiduciaries and individuals for grievance redressal. Further such data fiduciaries will also be required to appoint an independent data auditor who will evaluate their compliance with the Data Protection Act. The Central Government will also establish the Data Protection Board of India (the "**DPB**"), whose key functions include: (i) monitoring compliance and imposing penalties, (ii) directing data fiduciaries to take necessary measures in the event of a data breach, and (iii) hearing grievances made by data principals.

***The Legal Metrology Act, 2009 ("LM Act") and the Legal Metrology (Packaged Commodities) Rules, 2011 ("Packaged Commodity Rules")***

The LM Act establishes and enforces standards of weights and measures, regulates trade and commerce in weights, measures, and goods sold or distributed by weight, measure, or number. It governs the labelling and packaging of commodities, verification of weights and measures, and prescribes penalties for offences, including compounding provisions. The Controller of the Legal Metrology Department grants licences under the LM Act, and manufacturers dealing with weighing or measuring instruments must obtain a licence from the state department. The non-compliance with obtaining of licenses may lead to monetary penalties, seizure of goods, or imprisonment.

The Packaged Commodity Rules mandate standard quantities for certain packaged commodities and specify required declarations, their placement, and manner of disclosure on packages. It lays out specific prohibitions where manufacturing, packing, selling, importing, distributing, delivering, offering for sale would be illegal and requires that any form of advertisement where the retail sale price is given must contain a net quantity declaration. Contravention of the Packaged Commodity Rules is punishable with a fine.

***The Sale of Goods Act, 1930 ("Sale of Goods Act")***

The Sale of Goods Act governs contracts relating to sale of goods. The contracts for sale of goods are subject to the general principles of the law relating to contracts, i.e., the Indian Contract Act, 1872. A contract for sale of goods has, however, certain peculiar features such as, transfer of ownership of the goods, delivery of goods, rights and duties of the buyer and seller, remedies for breach of contract, conditions and warranties implied under a contract for sale of goods, etc. which are the subject matter of the provisions of the Sale of Goods Act.

***The Information Technology Act, 2000 ("IT Act") and the rules made thereunder***

The IT Act seeks to (i) provide legal recognition to transactions carried out by various means of electronic data interchange involving alternatives to paper-based methods of communication and storage of information; (ii) facilitate electronic filing of documents; and (iii) create a mechanism for the authentication of electronic documentation through digital signatures. The IT Act facilitates electronic commerce by recognizing contracts concluded through electronic means, protects intermediaries in respect of third-party information liability and creates liability for failure to protect sensitive personal data. The IT Act also prescribes civil and criminal liability. Including fines and imprisonment, for computer related offences including those relating to unauthorized access to computer systems, tampering with or unauthorised manipulation of any computer, computer system or computer network and, damaging computer systems and creates liability for negligence in dealing with or handling any sensitive personal data or information in a computer resource and in maintaining reasonable security practices and procedures in relation thereto.

The IT Act empowers the Government of India to formulate rules with respect to reasonable security practices and procedures and sensitive personal data. In exercise of this power, the Department of Information Technology, Ministry of Electronics and Information Technology, Government of India ("**DoIT**"), in April 2011, notified the Information Technology (Reasonable Security Practices and Procedures and Sensitive Personal Data or Information) Rules, 2011 ("**IT Security Rules**") which prescribe directions for the collection, disclosure, transfer and protection of sensitive personal data by a body corporate or any person acting on behalf of a body corporate. The IT Security Rules require every such body corporate to provide a privacy policy for handling and dealing with personal information, including sensitive personal data, ensuring security of all personal data collected by it and publishing such policy on its website. The IT Security Rules further require that all such personal data be used solely for the purposes for which

it was collected, and any third-party disclosure of such data is made with the prior consent of the information provider, unless contractually agreed upon between them or where such disclosure is mandated by law.

***Factories Act, 1948 ("Factories Act")***

The Factories Act defines a "factory" to cover any premises which employs 10 or more workers and in which manufacturing process is carried on with the aid of power and any premises where there are at least 20 workers, even while there may not be an electrically aided manufacturing process being carried on. The State Governments have the authority to formulate rules in respect of matters such as prior submission of plans and their approval for the establishment of factories and registration and licensing of factories. The Factories Act provides that the person who has ultimate control over the affairs of the factory and in the case of a company, any one of the directors, must ensure the health, safety, and welfare of all workers. It provides such safeguards of workers in the factories as well as offers protection to the exploited workers and improve their working conditions. The Factories Act provides for imposition of fines and imprisonment of the manager and occupier of the factory in case of any contravention of its provisions.

**Environmental Legislation**

***The Water (Prevention and Control of Pollution) Act, 1974 ("Water Act")***

The Water Act was enacted to prevent and control water pollution and to maintain or restore water wholesomeness. The Water Act mandates obtaining prior consent from the relevant State Pollution Control Boards ("**SPCBs")** before establishing any industry, process, treatment, or disposal system that may discharge waste, trade effluents, or sewage into a stream, well, sewer, or land. Violations of the Water Act, including failure to comply with directions, are punishable with imprisonment of up to three months, a fine of ₹10,000.00, or both. Continuous offences attract an additional fine of ₹5,000.00 per day after conviction.

***The Air (Prevention and Control of Pollution) Act, 1981 ("Air Act")***

The Air Act was enacted to prevent, control, and abate air pollution and established the Central Pollution Control Boards ("**CPCBs**") and SPCBs for enforcement. The State Government may designate specific areas as air pollution control zones, where prior consent from the SPCB is required before establishing or operating an industrial plant. Industries operating in such areas must comply with the air quality standards set by the SPCB. Violations of the Air Act, including exceeding emission limits, attract penalties, with imprisonment ranging from one year and six months to six years, along with fines. Continuous violations result in an additional fine of ₹5,000.00 per day after the first conviction.

***Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 ("HWM Rules")***

The HWM Rules assign responsibility to occupiers and facility operators handling hazardous waste, ensuring they collect, treat, store, and dispose of such waste without harming the environment. They must also provide training and equipment for workers handling hazardous materials. Hazardous waste can only be processed in authorized facilities, and occupiers are liable for environmental damages caused by improper handling or disposal, along with any fines imposed by the respective State Pollution Control Boards.

***The Plastic Waste Management Rules, 2016 (the "Plastic Rules")***

The Plastic Rules give thrust on plastic waste minimisation, source segregation, recycling, involving waste pickers, recyclers and waste processors in collection of plastic waste fraction either from households or any other source of its generation or intermediate material recovery facility and adoption of polluter's pay principle for the sustainability of the waste management system. The manufacture, import, stocking, distribution, sale and use of carry bags, plastic sheets or like, or cover made of plastic sheet and multi-layered packaging, shall be, *inter alia*, subject to the following conditions like: carry bags and plastic packaging shall either be in natural shade which is without any added pigments or made using only those pigments and colourants which are in conformity with Indian Standard: IS 9833:1981, among other things.

***The E-waste Management Rules, 2022 (the "E-waste Rules")***

The E-waste Rules provide for different responsibilities of the manufacturer, producer, consumer, bulk consumer, collection centres, dealers, e-retailer, refurbisher, dismantler and recycler involved in manufacture, sale, transfer, purchase, collection, storage and processing of e-waste or electrical and electronic equipment listed in Schedule I of the E-waste Rules. The State Government is also responsible for earmarking or allocation of industrial space or shed for e-waste dismantling and recycling in the existing and upcoming industrial park, estate and industrial clusters.

***Noise Pollution (Regulation and Control) Rules, 2000 ("Noise Pollution Rules")***

The Noise Pollution Rules regulate noise-generating sources, including industrial activities, and set ambient air quality standards for different zones. They impose penalties under the EPA for unauthorized use of loudspeakers and public address systems, especially in designated silence zones or areas.

**Laws relating to Foreign Investment and Trade Regulations**

***The Foreign Exchange Management Act, 1999 and regulations framed thereunder***

Foreign investment in India is governed by the provisions of Foreign Exchange Management Act, 1999, as amended, along with the rules, regulations and notifications made by the Reserve Bank of India thereunder, and the consolidated FDI Policy, effective from October 15, 2020, issued by the DPIIT, and any modifications thereto or substitutions thereof, issued from time to time (the "**Consolidated FDI Policy**"). Under the current Consolidated FDI Policy, foreign investment in manufacturing sector is under automatic route. Further, a manufacturer is permitted to sell its products manufactured in India through wholesale and/or retail, including through e-commerce, without Government approval.

***Foreign Trade (Development and Regulation) Act, 1992 (the "FTA") and the rules framed thereunder***

The FTA seeks to provide for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India. The FTA provides that no person shall make any import or export except under an importer-exporter code number ("**IEC**") granted by the Director General of Foreign Trade, Ministry of Commerce ("**DGFT**"). The IEC granted to any person may be suspended or cancelled, *inter alia*, in case the person contravenes any of the provisions of FTA or any rules or orders made thereunder or the DGFT or any other officer authorized by him has reason to believe that any person has made an export or import in a manner prejudicial to the trade relations of India. Any person who makes any export or import in contravention of any provision of this Act or any rules or orders made thereunder or the foreign trade policy would become liable to a penalty under the FTA.

***Customs Act, 1962 (the "Customs Act")***

Under the Customs Act, the Central Government has the power to prohibit either absolutely or subject to such conditions, the import or export of goods of any specified description. Further, the Central Government may specify goods of such class or description, if it is satisfied that it is necessary to take special measures for the purpose of checking the illegal import, circulation or disposal of such goods.

**Intellectual Property Legislation**

***The Trade Marks Act, 1999 (the "Trademarks Act")***

The Trademarks Act governs the statutory protection of trademarks and prohibits any registration of deceptively similar trademarks, among others. The purpose of the Trade Marks Act is to grant exclusive rights to marks such as a brand, label and heading, and to obtain relief in case of infringement of such marks. Indian law permits the registration of trademarks for both goods and services. Under the provisions of the Trademarks Act, an application for trademark registration may be made before the Trademark Registry by any person claiming to be the proprietor of a trade mark, whether individual or joint applicants, and can be made on the basis of either actual use or intention to use a trademark in the future. Once granted, a trademark registration is valid for 10 years unless cancelled, subsequent to which, it can be renewed. If not renewed, the mark lapses and the registration are required to be restored. Further, pursuant to the notification of the Trade Marks (Amendment) Act, 2010 ("**Trademark Amendment Act**") simultaneous protection of trademarks in India and other countries has been made available to owners of Indian and foreign trademarks. The Trademark Amendment Act also seeks to simplify the law relating to transfer of ownership of trademarks by assignment or transmission and to conform Indian trademark law to international practice.

***The Patents Act, 1970 (the "Patents Act")***

The Patents Act governs the patent regime in India. A patent under the Patents Act is an intellectual property right relating to inventions and grant of exclusive right, for limited period, provided by the Government to the patentee, in exchange of full disclosure of his invention, for excluding others from making, using, selling and importing the patented product or process or produce that product. Being a signatory to the Agreement on Trade Related Aspects of Intellectual Property Rights, India is required to recognize product patents as well as process patents. In addition to the broad requirement that an invention must satisfy the requirements of novelty, utility and non-obviousness in order for it to avail patent protection, the Patents Act further provides that patent protection may not be granted to certain specified types of inventions and materials even if they satisfy the above criteria.

***The Copyright Act, 1957 and the Copyright Rules, 2013 (the "Copyright Rules")***

The Copyright Laws governs copyright protection in India. Even while copyright registration is not a prerequisite for acquiring or enforcing a copyright in an otherwise copyrightable work, registration under the Copyright Laws acts as prima facie evidence of the particulars entered therein and helps expedite infringement proceedings and reduce delay caused due to evidentiary considerations. The Copyright Laws prescribe a fine, imprisonment or both for violations, with enhanced penalty on second or subsequent convictions.

**Local Municipal Laws**

Our Company is subject to various laws framed by the municipal corporations of the states in which our stores and manufacturing facilities are located, which regulate and require us to obtain licenses for various actions, including regarding usage of hoardings and hiring practices, among other things.

**Labour Law Legislations**

***Contract Labour (Regulation and Abolition) Act, 1970 (the "CLRA")***

The CLRA regulates the employment of contract labour in certain establishments. The CLRA provides that the appropriate Government may, after consultation with the Central or State Advisory Boards (constituted under the CLRA), prohibit employment of contract labour in any process, operation or other work in any establishment.

***Shops and establishments legislations***

Under the provisions of local shops and establishments legislations applicable in the states in India where our establishments are set up and business operations exist, such establishments are required to be registered. Such legislations regulate the working and employment conditions of the workers employed in shops and establishments, including commercial establishments, and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of records, maintenance of shops and establishments and other rights and obligations of the employers and employees. These shops and establishments' acts, and the relevant rules framed thereunder, also prescribe penalties in the form of monetary fine or imprisonment for violation of provisions, as well as procedures for appeal in relation to such contravention of the provisions. In addition to the Factories Act, the CLRA and the local shops and establishments legislations, the employment of workers, depending on the nature of activity, is regulated by a wide variety of generally applicable labour laws.

The various other labour and employment-related legislations (and rules issued thereunder) that may apply to our operations, from the perspective of protecting the workers' rights and specifying registration, reporting and other compliances, and the requirements that may apply to us as an employer, would include the following:

- Apprentices Act, 1961;
- Employee's Compensation Act, 1923;
- Employees' Provident Funds and Miscellaneous Provisions Act, 1952;
- Employees' State Insurance Act, 1948;
- The Equal Remuneration Act, 1976;
- Maternity Benefit Act, 1961;
- Minimum Wages Act, 1948;
- Payment of Bonus Act, 1965;
- Payment of Gratuity Act, 1972;
- Payment of Subsistence Allowance Act, 1988
- Payment of Wages Act, 1936;
- The Child Labour (Prohibition and Regulation) Act, 1986;
- The Labour Welfare Fund Act, 1965;
- The Public Liability Insurance Act, 1991;
- Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

In order to rationalize and reform labour laws in India, the Government of India has framed four labour codes, which will be applicable to the operations of our Company, once they have been notified, namely:

(a) The Occupational Safety, Health and Working Conditions Code, 2020 received the assent of the President of India on September 28, 2020, and proposes to subsume certain existing legislations, including the Factories Act, 1948, the Contract Labour (Regulation and Abolition) Act, 1970, and the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979. This code proposes to provide for, among other things, standards for health, safety and working conditions for employees of establishments, and will come into effect on a date to be notified by the Central Government.

(b) The Industrial Relations Code, 2020 received the assent of the President of India on September 28, 2020, and proposes to subsume three existing legislations, namely, the Industrial Disputes Act, 1947, the Trade Unions Act, 1926 and the Industrial Employment (Standing Orders) Act, 1946. The Industrial Relations Code, 2020 will come into effect on a date

to be notified by the Central Government.

**(c)** The Code on Wages, 2019 received the assent of the President of India on August 8, 2019. Through its notification dated December 18, 2020, the Government of India brought into force certain sections of the Code on Wages, 2019. The remaining provisions of this code will be brought into force on a date to be notified by the Government of India. It proposes to subsume four separate legislations, namely, the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976.

(d) The Code on Social Security, 2020 received the assent of the President of India on September 28, 2020. Through its notification dated April 30, 2021, the Government of India brought into force section 142 of the Code on Social Security, 2020. The remaining provisions of this code will be brought into force on a date to be notified by the Government of India. It proposes to subsume several separate legislations including the Employee's Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959, the Maternity Benefit Act, 1961, and the Payment of Gratuity Act, 1972.

**LAWS RELATING TO TAXATION**

In addition to the aforementioned material legislations which are applicable to our Company, some of the tax legislations that may be applicable to the operations of our Company include:

- Central Goods and Service Tax Act, 2017 and various state-wise legislations made thereunder;
- Integrated Goods and Services Tax Act, 2017;
- Income Tax Act, 1961, and Income Tax Rules, 1962, as amended in respective years;
- Indian Stamp Act, 1899 and various state-wise legislations made thereunder; and
- State-wise legislations in relation to professional tax.

**OTHER LAWS**

***The Medical Devices Rules, 2017 ("MDR")***

The MDR mandates registration for all manufacturers and importers of medical devices in India. Framed under the Drugs and Cosmetics Act, 1940 (**"DCA"**), these rules establish quality standards for manufacturers, importers, and sellers of notified medical devices such as contact lenses and lens solutions.

Medical devices are categorized into Classes A to D based on risk levels, with a mandatory license required at every stage of the supply chain. Importers, manufacturers, and sellers must obtain a license from the appropriate licensing authority, granted only after quality checks. Business premises of license holders undergo periodic inspections, and they must maintain detailed sales and purchase records to ensure traceability in case of safety issues or complaints.

For testing, evaluation, and manufacturing, the Central Licensing Authority grants a testing license, particularly for devices with or without a predicate device. Additionally, manufacturers and importers of notified medical devices were required to register with the Drug Controller General of India by October 1, 2021. Failure to obtain registration prohibits the sale and marketing of such devices in India.

Registered medical devices must display the registration number on their labels, and compliance with ISO-13485 (Medical Devices – Quality Management Systems) is mandatory for newly notified devices.

## HISTORY AND CERTAIN CORPORATE MATTERS

Our Company was originally incorporated as 'Valyoo Technologies Private Limited', as a private limited company under the Companies Act, 1956, pursuant to a certificate of incorporation dated May 19, 2008, issued by the Registrar of Companies, National Capital Territory of Delhi and Haryana at New Delhi. Our Company changed its name to 'Lenskart Solutions Private Limited' as part of a corporate rebranding initiative by our Company, pursuant to a fresh certificate of incorporation dated May 19, 2015, issued by the RoC. Subsequently, our Company was converted to a public limited company and the name of our Company changed to 'Lenskart Solutions Limited' pursuant to a resolution passed by our Board on May 21, 2025, and resolution passed by our Shareholders on May 30, 2025 and a fresh certificate of incorporation dated June 16, 2025 was issued by the RoC.

### Changes in registered office of our Company

Except as disclosed below, there has been no change in the registered office of our Company since its incorporation.

| Date of change | Details of change in the registered office | Reason for change |
|---|---|---|
| June 24, 2025 | Registered office moved from W-123, Greater Kailash, Part-2, New Delhi – 110 048, India, to Plot No. 151, Okhla Industrial Estate, Phase III, New Delhi – 110 020, India | Administrative and operational convenience |

### Main objects of our Company

The main objects of our Company as contained in our Memorandum of Association are set forth below.

1) *To carry on the business of providing services in the field of internet, web designing, web hosting, content management, strategy, portal development, web consultancy, web maintenance and advertisement, cyber space, all types of communication system, electronic commerce and all other related services in India and abroad*

2) *To carry on the business as consultants and advisors whether in India or abroad on problem relating to system design and software developments and to carry on the business of technical know how and training in all the fields of information technology and voice transcription and processing.*

3) *To establish and run database center and data processing/compute training centers and to offer consultancy and data processing and other services that are normally offered by data processing computer centers to industrial, business and other types of customers to impart training on electronics data processing, computer software and hardware to customers and others in India and abroad.*

4) *To develop, improve, buy, sell, assemble, install, import, export, exchange, repair, maintain and otherwise deal in all kinds of computers, micro processor, based systems, peripherals and their parts, components and systems, computer hardware and accessories and related equipments, software, their programs and accessories.*

5) *To carry on the business of wholesale buying, selling, reselling, importing, exporting, transporting, storing, developing, promoting, marketing or supplying, wholesale trading, and dealing in all kinds apparels and accessories including contact lenses, eye glasses, sunglasses, watches, bags, footwear, readymade garments, cosmetics, jewellery etc. in India or elsewhere.*

6) *To engage in wholesale trading of all goods and products in fashion wear, accessories, electronics, furnishings, appliances, books and develop websites for online services of buying, selling and dealing in all kinds of goods in India or elsewhere in the world.*

7) *To carry on, in India and elsewhere in the world, whether as owner, manager, operator, consultant, partner, adviser or otherwise, any and all activities relating to the business of creating technology, including software and services, for the purpose of facilitating the sale of any and all kinds of goods and commodities including eye wear products, watches, bags, shoes, garments, jewellery, electronics, furnishings, appliances and provide services relating thereto online through the internet.*

8) *To carry on the business of designing, engineering, manufacturing, producing, assembling, fabricating, altering, repairing, buying, selling, trading, acquiring, storing, packing, transporting, forwarding, distributing, importing, exporting and disposing of optical and ophthalmic lenses, both glass and plastic, blanks, bifocal blanks, frames, spectacles, spectacle cases, hinges, microscopes, lensometers, telescope, and camera lenses of every description and kind and all component parts, spare parts, accessories, eye and lens testing equipments including gauges, meters, measuring instruments and apparatus for use in connection therewith.*

9) *To produce, manufacture, metalize, coat, purchase, refine, prepare, import, export, sell and to deal in frames goggles, spectacles, spectacle cases, lensometers, camera lenses, screws, hinges, eye and lens testing equipments in all its forms or products thereof and in connection therewith.*

10) *To maintain labouratory and manufacture, to get manufactured or to manufacture for others on loan licence basis or on contract or understanding with other firms, companies and individual irrespective of the brand name in India and elsewhere,*

**A. Key terms of all subsisting shareholders agreements and investment agreements**

***Shareholders' Agreement as amended pursuant to the amendment agreement to the SHA dated July 26, 2025 ("Waiver cum Amendment Agreement").***

The parties to the Shareholders' Agreement entered into the Shareholders' Agreement, for the purpose of regulating their relationship, their inter-se rights and obligations as well as making provision for certain matters relating to the management and operation of our Company and Subsidiaries. The Shareholders' Agreement sets out the terms and conditions based on which the parties to the Shareholders' Agreement will participate in the business of our Company and the terms governing their relationship in respect of the management and governance of our Company. Certain rights that the parties are entitled to under the Shareholders' Agreement include (i) rights in relation to restrictions on transfer of Equity Shares; (ii) right to nominate/ appoint directors, (iii) information and inspection rights; and (iv) certain affirmative voting matters available to specific investors.

Under the Shareholders' Agreement, each investor as long as it holds, together with its affiliates, at least 10% (ten percent) or more of the share capital of our Company, shall be entitled to nominate either (a) 1 (one) director each on the Board of our Company or (b) 1 (one) representative each ("**Observer**") to attend all the meetings of the Board and all committees thereof in a non-voting, observer capacity. Further, in the event, PIOF-II (as defined in the Shareholders' Agreement), Kedaara (as defined in the Shareholders' Agreement), Softbank (as defined in the Shareholders' Agreement) and Platinum Jasmine's (as defined in the Shareholders' Agreement) are unable to nominate a director as per the above, they shall continue to have the right to nominate an investor director till *inter-alia* their shareholding does not fall below 3% (three

percent) of the share capital of our Company on a fully diluted basis. Our Promoters together have the right to nominate 2 (two) directors to the Board our Company. In the event the shareholding of our Promoters in our Company falls below 7.5% (Seven Point Five percent) of the share capital of our Company on a fully diluted basis, they will have the right to nominate only 1 (one) director on our Board. Further, parties are also entitled to certain other customary rights including inter-se share transfer restrictions (including tag-along and drag along rights), and reporting covenants. Further, the parties are also entitled to reserved matter rights including in relation to the ability of our Company to undertake the Offer.

In view of the Offer, the parties have entered into the Waiver cum Amendment Agreement with the objective of enabling implementation of the Offer. Pursuant to the Waiver cum Amendment Agreement, the parties have amended certain provisions of the Shareholders' Agreement and provided certain waivers and consents on some matters in relation to the Offer, such as waiver of right to appoint observers from the date of filing of this Red Herring Prospectus, waiver of information and inspection rights from the date of filing of this Red Herring Prospectus to the extent required under the applicable laws, including the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015. Pursuant to the Shareholders' Agreement read with the Waiver cum Amendment Agreement, from the date of filing of the DRHP until the termination of the Waiver cum Amendment Agreement, Kedaara (as defined in the Shareholders' Agreement) and Platinum Jasmine (as defined in the Shareholders' Agreement), have the right to nominate one director each on our Board.

The Waiver cum Amendment Agreement will stand automatically terminated on the date which is earlier of: (i) 12 (twelve) months from the date of the Draft Red Herring Prospectus; or (ii) December 31, 2026; or (iii) the date on which the Board decides not to undertake the Offer or decides to withdraw the Offer or any offer document filed with any regulator/ authorities in respect of the Offer, including any draft offer document filed with SEBI or receives any final, non-appealable order stating the IPO cannot proceed from any governmental authority, including a final, non-appealable order from SEBI rejecting the draft offer document; or (iv) the Waiver cum Amendment Agreement being terminated by the mutual written agreement of all parties to the Waiver cum Amendment Agreement, including if the listing of the Equity Shares pursuant to the Offer is not completed by then ("**IPO Long Stop Date**"). In case of termination of the Waiver Cum Amendment Agreement upon the IPO Long Stop Date, the provisions of the Shareholders' Agreement shall (i) immediately and automatically stand reinstated with full force and effect, without any further action or deed required on the part of any parties to the Shareholders' Agreement and (ii) be deemed to have been in force during the period between the date of execution of Waiver cum Amendment Agreement and the date of termination of the Amendment Agreement, without any break or interruption whatsoever. The Shareholders' Agreement including the Waiver cum Amendment Agreement shall automatically terminate in respect to each party, in its entirety, immediately upon the commencement of trading of Equity Shares of our Company on the Stock Exchanges, pursuant to the Offer without any further act or deed required by any party to the Shareholders' Agreement. The Company acknowledges that post consummation of the Offer and subject to applicable law, in the agenda for the first shareholders meeting after the Offer, our Company shall include, subject to Platinum Jasmine (as defined in the Shareholders' Agreement) and Softbank (as defined in the Shareholders' Agreement) holding securities which constitute at least 10% (ten percent) of the share capital of our Company on a fully diluted basis, the right of Platinum Jasmine (as defined in the Shareholders' Agreement) and Softbank (as defined in the Shareholders' Agreement) to nominate a director each, on the Board of our Company. All provisions of Part B of the Articles of Association of our Company containing the special rights available to the Shareholders of our Company under the Shareholders' Agreement shall automatically terminate and cease to have any force and effect from the date of commencement of trading of Equity Shares of our Company.

The person recommended to the Board for appointment as an independent director shall have the capabilities identified in such description. For the purpose of identifying suitable candidates, the Committee may

(i) use the services of an external agencies, if required;

(ii) consider candidates from a wide range of backgrounds, having due regard to diversity; and

(iii) consider the time commitments of the candidates;

The Nomination and Remuneration Committee, while formulating the above policy, should ensure that:

i. the level and composition of remuneration be reasonable and sufficient to attract, retain and motivate directors of the quality required to run our Company successfully;

ii. relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and

iii. remuneration to directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long term performance objectives appropriate to the working of the Company and its goals.

(c) Formulating criteria for evaluation of performance of independent directors and the Board;

(d) Devising a policy on diversity of Board;

(e) Identifying persons who are qualified to become directors and who may be appointed in senior management in accordance with the criteria laid down, and recommend to the Board their appointment and removal and specify the manner for effective evaluation of performance of the Board, its committees and individual directors to be carried out either by the Board, by the Nomination and Remuneration Committee or by an independent external agency and review its implementation and compliance. The Company shall disclose the remuneration policy and the evaluation criteria in its annual report;

(f) Extending or continuing the term of appointment of the independent director, on the basis of the report of performance evaluation of independent directors;

(g) Recommending to the board, all remuneration, in whatever form, payable to senior management;

(h) Analysing, monitoring and reviewing various human resource and compensation matters, including the compensation and talent strategy;

(i) Reviewing and making recommendations on the Company's overall compensation structure, including annual increments and performance-linked incentives for all employees, and the effectiveness of the performance management system.

(j) Determining the Company’s policy on specific remuneration packages for executive directors including pension rights and any compensation payment, and determining remuneration packages of such directors;

(k) Recommending the remuneration, in whatever form, payable to non-executive directors and the senior management personnel and other staff (as deemed necessary);

(l) Reviewing and approving compensation strategy from time to time in the context of the then current Indian market in accordance with applicable laws;

(m) Administering, monitoring and formulating detailed terms and conditions of the Employees Stock Option Scheme(s) of the Company;

(n) Framing suitable policies and systems to ensure that there is no violation, as amended from time to time, of any securities laws or any other applicable laws in India or overseas, including:

(i) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015, as amended; and

(ii) The Securities and Exchange Board of India (Prohibition of Fraudulent and Unfair Trade Practices relating to the Securities Market) Regulations, 2003, as amended;

(o) Performing such other functions as may be delegated by the Board and/or prescribed under the SEBI Listing Regulations, the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021, the Companies Act, each as amended or other applicable law or by any regulatory authority and performing such other functions as may be necessary or appropriate for the performance of its duties;

(p) Performing such functions as are required to be performed by the Compensation Committee under the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021;

(q) Administering the employee stock option scheme/plan approved by the Board and shareholders of the Company in accordance with the terms of such scheme/plan ("**ESOP Scheme**") including the following:

(i) Determining the eligibility of employees to participate under the ESOP Scheme;

(ii) Determining the quantum of option to be granted under the ESOP Scheme per employee and in aggregate;

(iii) Date of grant;

(iv) Determining the exercise price of the option under the ESOP Scheme;

(v) The conditions under which option may vest in employee and may lapse in case of termination of employment for misconduct;

(vi) The exercise period within which the employee should exercise the option and that option would lapse on failure to exercise the option within the exercise period;

(vii) The specified time period within which the employee shall exercise the vested option in the event of termination or resignation of an employee;

(viii) The right of an employee to exercise all the options vested in him at one time or at various points of time within the exercise period;

(ix) Re-pricing of the options which are not exercised, whether or not they have been vested if stock option rendered unattractive due to fall in the market price of the equity shares;

(x) The grant, vest and exercise of option in case of employees who are on long leave;

(xi) The vesting and exercise of option in case of grantee who has been transferred or whose services have been seconded to any other entity within the group at the instance of the Company;

(xii) Allowing exercise of unvested options on such terms and conditions as it may deem fit;

(xiii) The procedure for cashless exercise of options;

(xiv) Procedure for funding exercise of options;

(xv) The procedure for buy-back of specified securities issued under the ESOP Scheme if to be undertaken at any time by the Company, and the applicable terms and conditions, including: (i) permissible sources of financing for buy-back; (ii) any minimum financial thresholds to be maintained by the company as per its last financial statements; and (iii) limits upon quantum of specified securities that the company may buy-back in a financial year. Explanation—Specified securities means as defined under the Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018.

(xvi) Forfeiture/ cancellation of options granted;

(xvii) Arranging to get the shares issued under the ESOP Scheme listed on the stock exchanges on which the equity shares of the Company are listed or maybe listed in future.

(xviii) Formulating and implementing the procedure for making a fair and reasonable adjustment to the number of options and to the exercise price in case of corporate actions such as rights issues, bonus issues, merger, sale of division and others. In this regard following shall be taken into consideration:

- The number and the price of stock option shall be adjusted in a manner such that total value of the option to the employee remains the same after the corporate action;
- for this purpose, global best practices in this area including the procedures followed by the derivative markets in India and abroad may be considered; and
- The vesting period and the life of the option shall be left unaltered as far as possible to protect the rights of the employee who is granted such option.

(r) Construing and interpreting the Employee Stock Option Scheme ("**ESOP Scheme**") and any agreements defining the rights and obligations of the Company and eligible employees under the ESOP Scheme, and prescribing, amending and/or rescinding rules and regulations relating to the administration of the ESOP Scheme;

(s) engaging the services of any consultant/professional or other agency for the purpose of recommending compensation structure/policy; and

(t) Performing such other functions as may be necessary or appropriate for the performance of its duties.

**Stakeholders' Relationship Committee**

The Stakeholders' Relationship Committee was constituted pursuant to a resolution passed by our Board on June 24, 2025, in compliance with Section 178 and any other applicable law of the Companies Act 2013 and Regulation 20 of the SEBI Listing Regulations.

His permanent account number is AJKPK8492M

Our Company confirms that the permanent account number, bank account number, passport number, and driving license number, as available, of our Promoters have been submitted to the Stock Exchanges at the time of filing of the Draft Red Herring Prospectus.

**Change in the control of our Company**

Pursuant to a resolution passed by the Board of Directors dated June 24, 2025, certain of our existing Shareholders, namely, Peyush Bansal, Neha Bansal, Amit Chaudhary and Sumeet Kapahi, have been identified as the Promoters of our Company. Accordingly, as on the date of this Red Herring Prospectus, our Company has four Promoters.

Other than as stated above, there has been no change in the control of our Company during the last five years preceding the date of this Red Herring Prospectus.

**Interests of Promoters**

Our Promoters are interested in our Company to the extent: (i) that they have promoted our Company and to the extent of their shareholding in our Company and to the extent of the shareholding held by their relatives in our Company, directly and indirectly; (ii) the dividend payable, if any and any other distributions in respect of the Equity Shares held by them in our Company, directly or indirectly, from time to time; and (iii) any directorships that they may hold in our Company or our Subsidiary, and to the extent of remuneration payable to them in this regard. For details of the Promoters' shareholding in our Company, see "***Capital Structure - History of the Equity Share capital held by our Promoters***" on page 168.

Our Promoters do not have interest, whether direct or indirect, in any property acquired by our Company during the three years immediately preceding the date of this Red Herring Prospectus or proposed to be acquired by our Company, or in any transaction by our Company for acquisition of land, construction of building or supply of machinery, or any other transaction, contract, agreement or arrangement entered into by our Company, and no payments have been made or are proposed to be made in respect of these transactions contracts, agreements or arrangements.

No sum has been paid or agreed to be paid to our Promoters or to the firms or companies in which our Promoters are interested as member in cash or shares or otherwise by any person, either to induce it to become or to qualify it, as director or promoter or otherwise for services rendered by our Promoters or by such firms or companies in connection with the promotion or formation of our Company.

Our Promoters, namely, Peyush Bansal, and Neha Bansal, and Amit Chaudhary, who are also our Directors, and Sumeet Kapahi, who is also a member of our Senior Management, may be deemed to be interested to the extent of their remuneration/ fees and reimbursement of expenses, payable to them, if any, in their capacity as our Directors. For further details, see "***Our Management –Board of Directors – Interests of Directors***" and "***Our Management – Interest of Key Managerial Personnel and Senior Management***" on pages 378 and 391.

Our Promoters are not related to any entity from whom our Company has acquired or proposes to acquire land in the five immediately preceding years

There exists no conflict of interest between the suppliers of raw materials and third-party service providers of our Company (crucial for operations of our Company) and our Promoters.

There exists no conflict of interest between the lessors of the immovable properties of our Company (crucial for operation of our Company) and our Promoters.

There are no loans outstanding, or advances taken by our Promoter from our Company or given by our Promoter to our Company.

Our Promoters have no interest in any intellectual property rights used by our Company, or any entity in the name of which the intellectual property rights of our Company are registered.

**Payments or benefits to our Promoters or Promoter Group**

Except as disclosed in *"–* ***Interests of Promoters****"* above, and ₹0.91 million paid to A Chaudhary & Co, a member of our Promoter Group, for services rendered in the nature of procuring local licenses for Lenskart stores, no amount or benefit has been paid or given to our Promoters or members of our Promoter Group during the two years preceding the filing of this Red Herring Prospectus.

**Confirmations**

Our Promoters and members of our Promoter Group have not been prohibited from accessing or operating in capital markets or restrained from buying, selling or dealing in securities under any order or direction passed by SEBI or any other regulatory or governmental authority.

Our Promoters and members of our Promoter Group have not been declared Wilful Defaulters or Fraudulent Borrowers by any bank or financial institution or consortium thereof, as defined under SEBI ICDR Regulations. Our Promoters are not and have never been a promoter, director or person in control of any other company which is prohibited from accessing or operating in capital markets under any order or direction passed by SEBI.

None of the companies our Promoters are associated with or companies promoted by any of them, have been delisted or suspended from being traded on the stock exchanges in the past.

**Companies or firms with which our Promoters have disassociated in the last three years**

Except as disclosed below, our Promoters have not disassociated themselves from any company or firm in the three years immediately preceding the date of this Red Herring Prospectus:

| Sr. No. | Name of the Promoter | Name of entity | Date of disassociation | Reasons for and circumstances leading to disassociation |

## DIVIDEND POLICY

The declaration and payment of dividends on our Equity Shares, if any, will be recommended by our Board to the Shareholders for their approval, at their discretion, subject to compliance with the provisions of our Articles of Association and the Companies Act, including the rules made thereunder and other relevant regulations, if any, each as amended. Further the Board shall also have the absolute power to declare interim dividend in compliance with the Companies Act. The dividend distribution policy of our Company was approved and adopted by our Board on May 21, 2025. In terms of the Dividend Policy, the dividend, if any, will depend of a number of internal and external factors, which, *inter alia*, include (a) capital expenditure for expansion, (b) prospective projects, (c) growth of business, (d) working capital needs, (e) acquisitions, (f) political, tax or regulatory changes, and (g) material changes relating to the operations of our Company or the economic or technological environment impacting the business of our Company. The circumstances under which the shareholders may not expect dividend distribution, *inter alia*, include (a) where eligibility criteria for recommendation of dividend has not been met by our Company including any regulatory restriction placed on our Company; (b) where our Board of Directors strongly believes in the need to conserve capital or funds required for contingencies or unforeseen future events; (c) where there is inadequacy of profits.

There is no guarantee that any dividends will be declared or paid in the future. For details in relation to risks involved in this regard, see *"**Risk Factors – Our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.**"* on page 104.

Our Company has not paid any dividends for the three months period ended June 30, 2025 and during the preceding three Fiscals and since July 1, 2025, until the date of this Red Herring Prospectus.

## SECTION V – FINANCIAL INFORMATION

## RESTATED CONSOLIDATED FINANCIAL INFORMATION

*(Remainder of this page has intentionally been left blank.)*

**Independent Auditors' Examination Report on the restated consolidated summary statements of assets and liabilities as at June 30, 2025, June 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023, restated consolidated summary statement of profits and loss (including other comprehensive income), restated consolidated summary statement of cash flows and changes in equity for the three month period ended June 30, 2025 and June 30, 2024 and each of the years ended March 31, 2025, March 31, 2024 and March 31, 2023, restated statement of material accounting policies and other explanatory information of Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited) (collectively, the "Restated Consolidated Financial Information").**

To
The Board of Directors
Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited)
Ground Floor Vipul Tech Square,
Golf Course Road Sector 43, DLF QE,
Gurgaon, Haryana, India, 122009

Dear Sirs:

1. We, S.R. Batliboi & Associates LLP, Chartered Accountants ("we" or "us" or "SRBA") have examined the attached Restated Consolidated Financial Information of Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited) (the "Company") and its subsidiaries, associates and joint ventures (the Company together with its subsidiaries, associates and joint ventures hereinafter referred to as "the Group") annexed to this report and prepared by the Company for the purpose of inclusion in the Red Herring Prospectus ("RHP") and Prospectus (together referred to as "Offer Documents") in connection with its proposed Initial Public Offer ("IPO") of equity shares of face value of Rs. 2 each of the Company comprising a fresh issue of equity shares and an offer for sale of Equity Shares held by the selling shareholders (the "Offer"). The Restated Consolidated Financial Information, which have been approved by the Board of Directors of the Company at their meeting held on October 14, 2025 have been prepared in accordance with the requirements of:

   a) Section 26 of Part I of Chapter III of the Companies Act 2013 (the "Act");

   b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("ICDR Regulations"); and

   c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) (as amended) issued by the Institute of Chartered Accountants of India ("ICAI"), (the "Guidance Note").

**Management's Responsibility for the Restated Consolidated Financial Information**

2. The preparation of the Restated Consolidated Financial Information, which are to be included in the Offer Documents is the responsibility of the management of the Company. The Restated Consolidated Financial Information have been prepared by the Management of the Company on the basis of preparation, as stated in note 2.1 to the Restated Consolidated Financial Information. The Management's responsibility includes designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the Restated Consolidated Financial Information. The Management is also responsible for identifying and ensuring that the Group complies with the Act, ICDR Regulations and the Guidance Note.

**Auditors' Responsibilities**

3. We have examined such Restated Consolidated Financial Information taking into consideration:

   a) the terms of reference and terms of our engagement agreed with you vide our engagement letter dated May 05, 2025, requesting us to carry out the assignment, in connection with the proposed IPO of the Company;

   b) The Guidance Note also requires that we comply with ethical requirements of the Code of Ethics Issued by ICAI.

   c) concepts of test checks and materiality to obtain reasonable assurance based on the verification of evidence supporting the Restated Consolidated Financial Information; and

   d) The requirements of Section 26 of the Act and the ICDR Regulations.

   Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the ICDR Regulations and the Guidance Note in connection with the proposed IPO.

**Restated Consolidated Financial Information**

4. These Restated Consolidated Financial Information have been compiled by the Management of the Company from:

a) Audited interim consolidated financial statements of the Group as at and for the three month ended June 30, 2025, which were prepared in accordance with the Indian Accounting Standard 34 – "Interim Financial Reporting" specified under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Act (Ind AS compliant Schedule III), as applicable, which have been approved by the Board of Directors at their meeting held on October 14, 2025.

b) Audited interim consolidated financial statements of the Group as at and for the three month ended June 30, 2024, which were prepared in accordance with the Indian Accounting Standard 34 – "Interim Financial Reporting" specified under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Act (Ind AS compliant Schedule III), as applicable, which have been approved by the Board of Directors at their meeting held on October 14, 2025.

c) Audited consolidated financial statements of the Group as at and for the year ended March 31, 2025, which were prepared in accordance with the Indian Accounting Standard (referred to as "Ind AS") as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Act (Ind AS compliant Schedule III), as applicable, which have been approved by the Board of Directors at their meeting held on May 21, 2025.

d) Audited consolidated financial statements of the Group as at and for the year ended March 31, 2024, which were prepared in accordance with the Indian Accounting Standard (referred to as "Ind AS") as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Act (Ind AS compliant Schedule III), as applicable, which have been approved by the Board of Directors at their meeting held on July 04, 2024.

e) Audited consolidated financial statements of the Group as at and for the year ended March 31, 2023, which were prepared in accordance with the Indian Accounting Standard (referred to as "Ind AS") as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Act (Ind AS compliant Schedule III), as applicable, which have been approved by the Board of Directors at their meeting held on September 12, 2023.

f) Financial statements and other financial information in relation to the Company's subsidiaries, associates and joint ventures, as tabulated below, audited by Other Auditors and included in the consolidated financial statements of the Group as at and for the three months period ended June 30, 2025, June 30, 2024 and as at and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023:

**Auditors Report**

5. For the purpose of our examination, we have relied on:

a) Auditors' reports issued by us, dated October 14, 2025, dated October 14, 2025, dated May 21, 2025**,** July 04, 2024 and September 12, 2023 on the consolidated financial statements of the Group as at and for the three months period ended June 30, 2025, June 30, 2024 and as at and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023 as referred in Paragraph 4 (a) to (c) above.

b) As indicated in Paragraph 4 (d) above, we did not audit the financial statements of subsidiaries, associates and joint ventures as at and for the three months period ended June 30, 2025, June 30, 2024 and as at and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023 whose financial statements reflect total assets, total revenues and net cash inflow, share of loss in associates and share of loss in joint ventures as tabulated below and included in the Restated Consolidated Financial Information:

*(Rs. In millions)*

| As at and for the three months/year ended | Total assets of subsidiaries | Total revenue of subsidiaries | Net cash inflow of subsidiaries | Share of (loss)/profit in associates/ joint venture |
|---|---|---|---|---|
| Three months ended June 30, 2025 | 46,863.85 | 9,199.49 | 312.78 | (0.24) |
| Three months ended June 30, 2024 | 36,612.04 | 6,225.74 | 633.77 | (0.82) |

| As at and for the three months/year ended | Total assets of subsidiaries | Total revenue of subsidiaries | Net cash inflow of subsidiaries | Share of (loss)/profit in associates/ joint venture |
|---|---|---|---|---|
| Year ended March 31, 2025 | 19,291.42 | 3,028.02 | 62.40 | 27.92 |
| Year ended March 31, 2025 | 14,996.68 | 742.31 | 5.74 | 5.60 |
| Year ended March 31, 2025 | 13,684.12 | 196.83 | 13.32 | 20.30 |

These financial statements have been audited by other firms of Chartered Accountants as listed in Para 4(d) above, whose reports have been furnished to us and our opinion in so far as it relates to the amounts included in the financial statements referred to in Para 4(a) to 4(c) above are based solely on the report of other auditors.

c) As indicated in our audit report referred to in Para 4(e) above, the financial statements in respect of subsidiaries, associates and joint ventures as at as at and for the three months period ended June 30, 2025, June 30, 2024 and as at and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023, as tabulated below solely based on the management certified financial statements:

**i. Subsidiaries**

6. The audit reports on consolidated financial statements of the Group as at and for the three months period ended June 30, 2025, June 30, 2024 and as at and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023 referred to in paragraph 4(a) to 4 (c) above were modified and included the following matters which caused such modification:

- For the year ended March 31, 2025 modification relating to the maintenance of books of account and other matters connected therewith (included in Annexure VI in the attached Restated Consolidated Financial Information).

- For the year ended March 31, 2024 modification relating to the maintenance of books of account and other matters connected therewith and item relating to qualification in our report on the Companies (Auditor Report) Order, 2020 issued by the Central Govt of India in terms of sub section (11) of section 143 of the Act (included in Annexure VI in the attached Restated Consolidated Financial Information).

- For the year ended March 31, 2023 modification relating to the maintenance of books of account and other matters connected therewith (included in Annexure VI in the attached Restated Consolidated Financial Information).

7. In respect of examination performed by Other Auditors:

   The audits of the Company's subsidiaries, associates and joint ventures for the three months ended June 30, 2025 and June 30, 2024 and for the financial year ended March 31, 2025, March 31, 2024 and March 31, 2023 was conducted by Other Auditors and accordingly reliance has been placed on the restated consolidated statement of assets and liabilities and the restated consolidated statements of profit and loss (including other comprehensive income), restated consolidated statements of changes in equity and cash flow statements, the restated summary statement of material accounting policies, and other explanatory information (the "June 2025 Restated Summary Statements", the "June 2024 Restated Summary Statements ", the "2025 Restated Summary Statements", the "2024 Restated Summary Statements" and the "2023 Restated Summary Statements") examined by them for the said periods. The examination report included for the said periods is based solely on the examination report submitted by the Other Auditor. The Other Auditors have also confirmed that June 2025 Restated Summary Statements, June 2024 Restated Summary Statements, 2025 Restated Summary Statements, the 2024 Restated Summary Statements and the 2023 Restated Summary Statements:

   (i) have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/reclassifications retrospectively in the three months ended June 30, 2024 and financial years ended March 31, 2025, March 31, 2024 and March 31, 2023 to reflect the same accounting treatment as per the accounting policies and grouping/classifications followed for the year ended June 30, 2025.
   (ii) does not contain any qualifications requiring adjustments. However, there are emphasis of matter and modifications in their report on Other Legal and Regulatory Requirements relating to maintenance of books of account and other matters connected therewith, as disclosed in Annexure VI to the Restated Consolidated Financial Information, which do not require any adjustment to the Restated Consolidate Financial Information; and
   (iii) have been prepared in accordance with the Act, ICDR Regulations and the Guidance Note.

8. Based on our examination and according to the information and explanations given to us and also as per the reliance placed on the examination reports submitted by Other Auditor as at and for the three months ended June 30, 2025, June 30, 2024 and for the financial year ended March 31, 2025, March 31, 2024 and March 31, 2023 in respect of the Company's subsidiaries, associates and joint ventures, we report that Restated Consolidated Financial Information of the Group:

   i. have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/reclassifications retrospectively in the three months ended June 30, 2024 and financial years ended March 31, 2025, March 31, 2024 and March 31, 2023 to reflect the same accounting treatment as per the accounting policies and grouping/classifications followed for the year ended June 30, 2025;

   ii. there are no qualifications in the auditors reports on the consolidated audited financial statements of the Group which require any adjustments to the Restated Consolidated Financial Information. However, there are modifications in our report on Other Legal and Regulatory Requirements relating to maintenance of books of account and other matters connected therewith and items relating to qualifications in our report on the Companies (Auditor's Report) Order, 2020 issued by the Central Government of India in terms of Sub section (11) of Section 143 of the Act, as disclosed in Annexure VI to the Restated Consolidated Financial Information, which do not require any adjustment to the Restated Consolidate Financial Information; and

   iii. have been prepared in accordance with the Act, ICDR Regulations and the Guidance Note.

9. We have not audited any financial statements of the Group as of any date or for any period subsequent to June 30, 2025. Accordingly, we express no opinion on the financial position, results of operations, cash flows and statement of changes in equity of the Group as of any date or for any period subsequent to June 30, 2025.

10. This report should not in any way be construed as a reissuance or re-dating of any of the previous audit reports issued by us, nor should this report be construed as a new opinion on any of the financial statements referred to herein.

11. The Restated Consolidated Financial Information do not reflect the effects of events that occurred subsequent to the audited financial statements mentioned in paragraph 5 (a) above.

12. We have no responsibility to update our report for events and circumstances occurring after the date of the report.

13. Our report is intended solely for use of the Board of Directors for inclusion in the Offer Documents to be filed with Securities and Exchange Board of India, National Stock Exchange of India Limited and BSE Limited in connection with the proposed IPO. Our report should not be used, referred to, or distributed for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come.

**Part B : Non adjusting events**

**1. Audit qualifications for the respective years, which do not require any corrective adjustments in the Restated Consolidated Financial Information are as follows:**

In addition to the audit opinion on the Consolidated Financial Statements, the auditors are required to comment upon the matters included in the Companies (Auditor's Report) Order 2020 ("the CARO 2020 Order") issued by the Central Government of India under sub-section (11) of Section 143 of Companies Act, 2013 on the consolidated financial statements as at and for the period ending June 30, 2025, June 30, 2024 and financial years ended March 31, 2025, March 31, 2024 and March 31, 2023 respectively. Certain statements/comments included in the CARO in the respective financial statements, which do not require any adjustments in the Restated Consolidated Financial Information are reproduced below in respect of the financial statements presented.

**(i) Lenskart Solutions Private Limited (Consolidated Financial Statements)**

**For the year ended March 31, 2024**
**Clause (xxi) of CARO 2020 Order**
As required by clause (xxi) of paragraph 3 of Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, based on the consideration of the Order reports issued till date by us and by the respective other auditors, of companies included in the Consolidated Financial Statements for the year ended March 2024 and covered under the Act, we report that:

Qualifications by the respective auditors in the Companies (Auditors Report) Order (CARO) reports of the companies included in the Consolidated Financial Statements are:

| Name | CIN | Clause number of the CARO report which is qualified |
|---|---|---|
| Quantduo Technologies Private Limited | U74999KA2018PTC115801 | vii(a) |

**2. Emphasis of Matter and other matter paragraph which do not require any adjustments in the Restated Consolidated Financial Information.**

**Lenskart Solutions INC**

**For the year ended March 31, 2025:**

Basis of preparation.
The management of the Company has decided that it does not intend to continue the operations of the Company and has decided to initiate liquidation proceedings. Accordingly, the financial statements have not been prepared on a going concern basis, but instead, have been prepared on a cash basis of accounting.

*(This space has been left blank intentionally)*

**3. Modification in Other Legal and Regulatory Requirements included in the auditor's report on the Consolidated and Standalone Financial Statements of the Company and its subsidiaries for the respective years, which do not require any corrective adjustments in the Restated Consolidated Financial Information.**

**Lenskart Solutions Private Limited (Consolidated)**

**For the year ended March 31, 2025:**

(i) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidation of the IndAS Financial Statements have been kept so far as it appears from our examination of those books and reports of the other auditors, except that
i. a) With respect to Holding Company, in relation to one inventory management software, and in one subsidiary, the server is not located in India for the daily back up of books of accounts and other books and paper maintained in electronic mode, refer note 53B to the Consolidated IndAS Financial Statements, and;
ii. the matters stated in the paragraph 2(i)(vi) below on reporting under Rule 11(g).

(ii) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (b) above on reporting under Section 143(3)(b) and serial number (vi) of paragraph (i) below on reporting under Rule 11(g).

(iii) Based on our examination which included test checks and that performed by the respective auditors of the subsidiaries, associate and joint venture which are companies incorporated in India whose financial statements have been audited under the Act, the Holding Company, subsidiaries, associate and joint venture have used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility except as explained in note 53A of the Consolidated IndAS Financial Statements:

a. With respect to Holding Company, the main accounting software operated by third party, in the absence of control around audit trail feature at database level in the service organization control report, we are unable to comment on whether audit trail feature was enabled and operated throughout the year. For two Inventory management softwares audit trail feature was enabled in phase wise manner i.e. July 30, 2024 onwards and therefore was effective through the remaining part of the year till year end.

Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, in respect of accounting softwares including third party applications from the date audit trail feature has been enabled. Additionally, with respect to main accounting software, in the absence of controls in the service organization control report, we are unable to comment whether the audit trail has been preserved and with respect to inventory management softwares audit trail the audit trail has been preserved and have been preserved by the company as per the statutory requirements for record retention, to the extent it was enabled.

b. With respect to one subsidiary, based on the report of its auditor, the audit trail feature over the accounting software is not enabled, and

c. With respect to three subsidiaries, based on the report of their auditors, such subsidiaries have used accounting software for maintaining its books of account which does not have the feature of recording audit trail (edit log) facility,

Accordingly, for (b) and (c), based on the report of those auditors, we are unable to comment upon whether during the year there any instance of audit trail feature was being tampered. Additionally, we are unable to comment on whether audit trail as per the applicable requirements has been preserved by the company as per the statutory requirements for record retention in respect of the year ended.

**For the year ended March 31, 2024:**
Remarks as required by section 143(3) under heading 'Report on Other Legal and Regulatory Requirement

(i) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidation of Ind AS Financial Statements, have been kept so far as it appears from our examination of those books and reports of the other auditors, except that:

i. with respect to certain subsidiaries, associate and joint venture as disclosed in note 52 to the Consolidated Financial Statements, the back-up of books of account was not kept in servers physically location in India on a daily basis; and

ii. the matters stated in the paragraph 2(i)(vi) below on reporting under Rule 11(g).

(ii) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph (b) above on reporting under Section 143(3)(b) and serial number (vi) of paragraph (i) below on reporting under Rule 11(g)

(iii) Based on our examination which included test checks the Group and its associate has used accounting software's for maintaining its books of account which has a feature of recording audit trail (edit log) facility which was not enabled throughout the year for all relevant transactions recorded in the software's as described in note 53 to the Consolidated IndAS Financial Statements. Accordingly, we are unable to comment upon whether during the year there was any instance of audit trail feature being tampered with in respect of accounting software.

**For the year ended March 31, 2023:**
In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidation of the IND AS Financial Statements have been kept so far as it appears from our examination of those books and reports of the other auditors except
(a) that with respect to certain subsidiaries, associates, joint ventures as disclosed in Note 53 to the Consolidated IND AS Financial Statements, the server is not physically located in India for the daily backup of the books of account and other books and papers maintained in electronic mode
(b)The observation relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (b) above.

**Lenskart Solutions Private Limited (Standalone)**

**For the year ended March 31, 2025:**
Remarks as required by section 143(3) under heading 'Report on Other Legal and Regulatory Requirement

(i) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except (a) with respect to one inventory management software, the Company does not have server located in India for the daily backup of the books of account and other books and papers maintained in electronic mode, refer Note 47B of the Standalone IndAS Financial Statements and (b) the matters stated in the paragraph 2(i)(vi) below on reporting under Rule 11(g).

(ii) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (b) above on reporting under section 143(3)(b) and serial number (vi) of paragraph (i) below on reporting under Rule 11(g).

(iii) Based on our examination which included test checks, the Company have used multiple accounting softwares including third party applications for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all relevant transactions recorded in the software except, as explained in note 47A of the Standalone IndAS Financial Statements, (a) in respect of main accounting software operated by third party, in the absence of control around audit trail feature at database level in the service organization control report, we are unable to comment on whether audit trail feature was enabled and operated throughout the year (b) for two Inventory management softwares audit trail feature was enabled in phase wise manner i.e. July 30, 2024 onwards and therefore was effective through the remaining part of the year till year end.

Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, in respect of accounting softwares including third party applications from the date audit trail feature has been enabled. Additionally, with respect to main accounting software, in the absence of controls in the service organization controls, we are unable to comment whether the audit trail has been preserved and with respect to inventory management softwares audit trail have been preserved by the company as per the statutory requirements for record retention, to the extent it was enabled.

**For the year ended March 31, 2024:**
Remarks as required by section 143(3) under heading 'Report on Other Legal and Regulatory Requirement

(i) In our opinion. proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except

(a) that the Company does not have server located in India for the daily backup of the books of account and other books and papers maintained in electronic mode, refer Note 51 of the Standalone IndAS Financial Statements and

(b) the matters stated in the paragraph 2(i)(vi) below on reporting under Rule 11(g).

(ii) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (b) above on reporting under Section 143(3)(b) and serial number (vi) of paragraph (i) below on reporting under Rule 11(g).

(iii) Based on our examination which included test checks, the Company has used accounting software's for maintaining its books of account which has a feature of recording audit trail (edit log) facility which was not enabled throughout the year for all relevant transactions recorded in the software's, as described in note 52 to the Standalone IndAS Financial Statements. Accordingly, we are unable to comment upon whether during the year there was any instance of audit trail feature being tampered with in respect of the accounting software.

**For the year ended March 31, 2023:**
In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except
(a) that the Company does not have server physically located in India for the daily backup of the books of account and other books and papers maintained in electronic mode. Refer Note 53 of the Standalone IND AS Financial Statement.
(b) The observation relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (b) above.

*(This space has been left blank intentionally)*

**Lenskart Foundation**

**For the year ended March 31, 2025:**
2. As required by Section 143(3) of the Act, we report that:

(a). in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the certain matters in respect of audit trail as stated in the paragraph 2(h)(vi).

(b). the qualification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2(b) above.

Based on our examination, which included test checks, the company has used accounting software for maintaining its books of account for the financial year ended March 31st, 2025 which did not have a feature of recording audit trail (edit log) facility and due to this the same has not operated throughout the year for all relevant transactions recorded in the software. Consequently, we are unable to comment on any instance of the audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 01st, 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is applicable from the financial year ended March 31st, 2025. However, since the company does not have accounting software which has a feature of recording audit trail (edit log) facility, the company is not able to preserve the audit trail as per the statutory requirements for record retention.

**For the year ended March 31, 2024:**
2. As required by Section 143(3) of the Act, we report that:
(a). in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the certain matters in of audit frail as stated in the paragraph 2(h)(vi)

(b). the qualification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2(b) above.

Based on our examination, which included test checks, the company has used accounting software for maintaining its books of account for the financial year ended March 31, 2024 which did not have a feature of recording audit trail (edit log) facility and due to this the same has not operated throughout the year for all relevant transactions recorded in the software. Consequently, we are unable to comment on any instance of the audit trail feature being tampered with.

**Tango IT Solutions India Private Limited**

**For the year ended March 31, 2025:**

Based on our Examination, which included test checks, the company has used accounting software for maintain books of account for the financial year ended on 31st March 2025 which did not have a feature of recording audit (edit log) trail facility and due to this the same has not operated throughout the year for all relevant transactions recorded in the software. Consequently, we are unable to comment an any instance of the audit trail feature being tampered with.

**Dealskart Online Services Private Limited**

**For the year ended March 31, 2025:**
In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except (a) that the company does not have server located in India for the daily backup of the books of account and other books and paper maintained in electronic mode; and (b) the matters stated in the paragraph I(i)(vi) below on reporting under Rule II(g).

Based on our examination which included test checks, the company has used accounting software's for maintaining its books of account which has a feature of recording audit trail (edit log) facility which has not enabled throughout the year for all relevant transactions recorded in the software. Accordingly, we are unable to comment upon whether during the year there was any instance of audit trail feature being tampered with in respect of the accounting software and the audit trail has been not preserved by the Company as per the statutory requirements for record retention.

**Lenskart Eyetech Private Limited**

**For the year ended March 31, 2025:**
Based on our examination, which included test checks, the company has used accounting software for maintaining its books of account for the financial year ended March 31, 2025 which did not have a feature of recording audit trail (edit log) facility and due to this the same has not operated throughout the year for all relevant transactions recorded in the software. Consequently, we are unable to comment on any instance of the audit trail feature being tampered with.

**For the year ended March 31, 2024:**
Remarks as required by section 143(3) under heading 'Report on Other Legal and Regulatory Requirement
Based on our examination, which included test checks, the company has used accounting software for maintaining its books of account for the financial year ended March 31, 2024 which did not have a feature of recording audit trail (edit log) facility and due to this the same has not operated throughout the year for all relevant transactions recorded in the software. Consequently, we are unable to comment on any instance of the audit trail feature being tampered with.

**Part C : Material regrouping:**
There are no material re-groupings made in the audited consolidated financials statements on account of restatement to any of the years presented in these Restated Consolidated Financial Information.

*(This space has been left blank intentionally)*

**Lenskart Solutions Limited**
**(formerly known as Lenskart Solutions Private Limited)**
**Annexure V**
**Restated statement of material accounting policies and other explanatory information**
**(All amounts in Rs. million, except per share data and as stated otherwise)**

**1. Corporate information**

Lenskart Solutions Private Limited ("the Holding Company") was incorporated under the Companies Act, 1956 on May 19, 2008, as Private Limited Company. The Company's registered address is Plot No. 151, Okhla Industrial Estate, Phase III, New Delhi 110020, Delhi, India. These Restated Consolidated Financial Information comprise the Holding Company and its subsidiaries (referred to collectively as the 'Group'), its joint ventures and associates. The Group is engaged into designing, manufacturing, branding, and retailing of own-branded eyewear products. The Group sells prescription eyeglasses, sunglasses, and other products including contact lenses and eyewear accessories.

The Company has converted from Private Limited Company to Public Limited Company, pursuant to a special resolution passed in the extraordinary general meeting of the shareholders of the Company held on May 30, 2025 and consequently the name of the Company has changed to Lenskart Solutions Limited pursuant to a fresh certificate of incorporation by the Registrar of Companies on June 16, 2025.

The Restated Consolidated Financial Information for the period ended June 30, 2025, June 30, 2024 and year ended March 31, 2025, March 31, 2024, March 31, 2023 were approved for issue in accordance with a resolution of the Board of directors on October 14, 2025.

**2. Material Accounting Policies**

**2.1 Basis of preparation of Restated Consolidated Financial Information**

The Restated Consolidated Financial Information of the Group comprises of the Restated Consolidated Summary Statement of Assets and Liabilities as at June 30, 2025, June 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023; the Restated Consolidated Summary Statement of Profit and Loss (including restated other comprehensive income/(loss)), the Restated Consolidated Summary Statement of Cash Flows and the Restated Consolidated Summary Statement of Changes in Equity for the period ended June 30, 2025, June 30, 2024 and years ended March 31, 2025, March 31, 2024 and March 31, 2023 and the material accounting policy and explanatory notes and notes to restated consolidated financial information (collectively, the 'Restated Consolidated Financial Information').

These Statements have been prepared by the Management for filling by the Company with the Securities and Exchange Board of India ("SEBI"), BSE limited and National Stock exchange of India Limited (collectively the stock exchanges ) and the registrar of companies in connection with its proposed Initial Public Offering (IPO) of equity shares of face value of INR 2 each of the Company comprising a fresh issue of equity shares and an offer for sale of equity shares held by the selling shareholders (collectively, the "Offering")

These Restated Consolidated Financial Information have been prepared to comply in all material respects with the requirements of:

(a) Section 26 of Part I of Chapter III of the Companies Act, 2013 ("the Act");
(b) Relevant provisions of The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("the SEBI ICDR Regulations") issued by the Securities and Exchange Board of India ("SEBI") on September 11, 2018 as amended from time to time in pursuance of the Securities and Exchange Board of India Act, 1992; and
(c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India ("ICAI"), as amended from time to time (the "Guidance Note").

The Restated Consolidated Financial Information has been compiled by the Group from:

Special purpose consolidated interim financial statements of the Group as at and for the three months period ended June 30, 2025 and June 30, 2024 ; prepared in accordance with the Indian Accounting Standard 34 ('Ind AS 34') "Interim Financial Reporting",as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and presentation requirements of Division II of Schedule III of Companies Act, 2013, as applicable to Consolidated Financial Statements and other accounting principles generally accepted in India (hereafter referred as "Consolidated Financial Statements") except for presentation of comparative financial information in the special purpose consolidated interim financial statements of the Group as at and for the three months period ended June 30, 2024 as it is not required for the intended purpose, which have been approved by the Board of Directors at their meetings held on October 14, 2025.

Audited consolidated financial statements of the Group as at and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023; prepared in accordance with the Indian Accounting Standards (referred to as "IND AS") as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and presentation requirements of Division II of Schedule III of Companies Act, 2013, as applicable to Consolidated Financial Statements and other accounting principles generally accepted in India (hereafter referred as "Consolidated Financial Statements"), which have been approved by the Board of Directors at their meetings held on May 21, 2025, July 04 2024 and September 12, 2023 respectively.

The accounting policies have been consistently applied by the Group in preparation of the restated consolidated financial information and are consistent with those adopted in the preparation of restated consolidated financial information for the three months period ended June 30, 2025. The Group has prepared the restated consolidated financial information on the basis that it will continue to operate as a going concern.

**2.2 Summary of material accounting policies**

**2A. Functional and presentation currency**

These Restated Consolidated Financial Information are presented in Indian Rupees (INR), which is also the holding company's functional currency. All amounts have been rounded-off to the nearest millions (INR 000,000), unless otherwise indicated.

**2B. Basis of measurement**

The Restated Consolidated Financial Information have been prepared on the historical cost basis except for the following items:

| Items | Measurement basis |
|---|---|
| Investments in equity shares other than subsidiary, associate and joint venture | Fair value |
| Investments in mutual funds | Fair value |
| Liabilities for share-based payment arrangements | Fair Value |
| Other financial assets and liabilities | Amortised cost |

**2C. Use of estimates and judgements**

In preparing these Restated Consolidated Financial Information, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

**A. Judgements**
In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the Restated Consolidated Financial Information:

**Determining the lease term of the contract with renewal and termination option - Group as a lessee**
The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

**Leases - Estimating the incremental borrowing rate:**
The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

**Operating lease commitments – Group as a lessor**
The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the fair value of the asset, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

**B. Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the Restated Consolidated Financial Information were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

**i) Provision for emplovee benefits**

The measurement of obligations and assets related to defined benefit / other long term benefits plans makes it necessary to use several statistical and other factors that attempt to anticipate future events. These factors include assumptions about the discount rate, the rate of future compensation increases, withdrawal, mortality rates etc. The management has used the past trends and future expectations in determining the assumptions which are used in measurements of obligations.

**ii) Recognition of deferred tax assets**

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is an evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Group recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised.

**iii) Impairment of trade receivables**

The impairment provisions for trade receivables disclosed are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's history, existing market conditions as well as forward looking estimates at the end of each reporting period. Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

**iv) Provision for litigation**

The management determines the estimated probability of outcome of any litigation based on its assessment supported by technical advice on the litigation matters, wherever required.

**v) Provision for warranties**

The Group offers upto one-year warranty on Eyeglass and Sunglass. Warranty costs on sale of goods are provided on the basis of management's estimate of the expenditure to be incurred during the unexpired period. Provision is made for the estimated liability in respect of warranty costs in the year of recognition of revenue and is included in the Restated consolidated summary statement of profit and loss. The estimates used for accounting for warranty costs are reviewed periodically and revisions are made as and when required.

**vi) Fair value measurement of financial instruments**

When the fair values of financial assets and financial liabilities recorded in the Restated consolidated summary statement of assets and liabilities cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See note 35 for further disclosures.

**vii) Impairment of non-financial assets**

The carrying amounts of the Group's non-financial assets, other than deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ('CGU') is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets ('CGU').

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

**2D. Measurement of fair values**

A number of the Group's accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

*(This space has been left blank intentionally)*

**2E. Current versus non-current classification**

The Group presents assets and liabilities in the Restated consolidated summary statement of assets and liabilities based on current / non-current classification.

An asset is classified as current when it is:
a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
b) Held primarily for the purpose of trading,
c) Expected to be realised within twelve months after the reporting period, or
d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:
a) It is expected to be settled in normal operating cycle,
b) It is held primarily for the purpose of trading,
c) It is due to be settled within twelve months after the reporting period, or
d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

All assets and liabilities have been classified as current or non- current as per the Group's operating cycle and other criteria set out in Schedule III, Division II to the Companies Act, 2013 notified by the Ministry of Corporate Affairs. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Group has ascertained its operating cycle as less than 12 months for the purpose of current and non- current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**2.3 Principles of Consolidation**

**i. Subsidiary**

Subsidiary is an entity controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiary are included in the Restated Consolidated Financial Information from the date on which control commences until the date on which control ceases.

**ii. Investment in joint ventures and associates**
An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries.

The Group's investments in its joint venture and associate are accounted for using the equity method. Under the equity method, the investment joint venture and associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

The statement of profit and loss reflects the Group's share of the results of operations of joint venture and associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and joint venture are eliminated to the extent of the interest in the associate or joint venture.

**iii. Non-controlling interests (NCI)**

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

**iv. Loss of control**
When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in profit or loss.

**v. Transactions eliminated on consolidation**
Intra-group balances and transactions, and any unrealised income and expenses arising from intragroup transactions, are eliminated.

*(This space has been left blank intentionally)*

**vi. The Restated Consolidated Financial Information are comprised of financial statements of members of the Group as under:**

| Subsidiaries | Country of incorporation | % of interest as at June 30, 2025 | % of interest as at June 30, 2024 | % of interest as at March 31, 2025 | % of interest as at March 31, 2024 | % of interest as at March 31, 2023 |

**2.4 Property, plant and equipment**

**i. Recognition and measurement**

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

**iii.Depreciation**

Depreciation is provided on a pro-rata basis under the straight-line method. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Building (Non RCC Structure) | 30 |
| Building (RCC Structure) | 60 |
| Roads | 10 |
| Plant and machinery (Other than MEI Auto lens cutting machine) | 7# |
| Plant and machinery (MEI Auto lens cutting machine, ASRS)* | 15 |
| Furniture and fixtures | 7-10 |
| Office equipment | 5-7 |
| Computers and peripherals (including server) | 3-6 |
| Electrical fittings | 10 |
| Vehicles | 6-10 |

# for these class of assets, based on internal technical evaluation, the management believes useful lives as given above best represent the period over which Group expects to use these assets.

*Assets working in double shift and triple shift any time during the year, the depreciation has been increased by 50% and 100%, respectively.

Leasehold improvements are depreciated over the useful life of individual assets or period of lease, whichever is lower.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

**2.5 Capital work-in-progress**

The cost of property, plant and equipment not ready for their intended use is recorded as capital work-in-progress before such date. Cost of construction that relate directly to specific property, plant and equipment and that are attributable to construction activity in general and can be allocated to specific property, plant and equipment are included in capital work-in-progress.

**2.6 Intangible assets**

**i.Recognition and initial measurement**
Intangible assets represent computer software and trademarks. Intangible assets are stated at acquisition cost less accumulated amortization and impairment loss, if any. The cost of intangible asset comprises its purchase price, including any import duties and non-refundable taxes or levies and any directly attributable expenditure on making the asset ready for its intended use. Intangible assets are amortised in restated consolidated summary statement of profit and loss on a straight line basis in accordance with the estimated useful lives of respective assets. The management's estimates of the rate of amortisation of intangible assets are as follows:

| **Asset category** | **Life (in years)** |
|---|---|
| Software | 5 years |
| Trademarks | 10 years |
| Brand | 3.33 years |
| Other than mentioned above Brand and Goodwill | Indefinite* |
| Non- Compete | As per agreement |

*Brand and Goodwill are evaluated annually for impairment and adjusted if required.

**ii. Subsequent expenditure**
Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

**iii. Amortisation**
Amortisation expense is charged on a pro-rata basis for assets purchased during the year. Amortisation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

**2.7 Inventories**

Inventories which comprise of finished goods, traded goods, raw material, consumables, tools and stores and spares are carried at the lower of cost and net realisable value.

Cost of inventories comprises all costs of purchase and other expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition.

The methods of determination of cost of various categories of inventories are as follows:

| **Particulars** | **Basis of Valuation** |
|---|---|
| Raw Material | Weighted average cost except for certain raw materials including prescription lenses and frames which are carried at actual cost. |
| Consumables, tools and stores and spares | Weighted average cost |
| Traded goods | Actual cost |
| Work in progress | Weighted average cost |

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

The comparison of cost and net realisable value is made on item by item basis.

**2.8 Financial instruments**

**(i). Recognition and initial measurement**
A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Trade receivables are initially recognised at transaction value. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

**(ii). Classification and subsequent measurement**

**Financial assets**
The Group classifies its financial assets in the following measurement categories:
·those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
·those measured at amortised cost.
Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:
−the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
−the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

**Financial assets: Business model assessment**
The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:
−the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
−how the performance of the portfolio is evaluated and reported to the Group's management;
−the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
−how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
−the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

**Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest**
For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:
- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features).

**Financial assets: Subsequent measurement and gains and losses**

**Financial assets at FVTPL**
These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

**Financial assets at amortised cost**
These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

**Financial liabilities: Classification, subsequent measurement and gains and losses**
Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

**(iii) Derecognition**
A financial asset is derecognised only when:
−the Group has transferred the rights to receive cash flows from the financial asset or
−retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Group has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised.

Where the Group has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Group has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

**(iv) Offsetting**
Financial assets and financial liabilities are offset and the net amount presented in the restated consolidated summary statement of assets and liabilities when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

**(v) Impairment of financial assets**
The Group recognises loss allowances for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Group assesses whether financial assets carried at amortised cost are credit- impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:
-significant financial difficulty of the borrower or issuer; or
-a breach of contract such as a default or being past due.

The Group measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:
-bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.
Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.
Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward- looking information.

**Measurement of expected credit losses**
Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. Under the simplified approach, the Group does not track changes in credit risk for individual customers. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from initial recognition.

The Group uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates and delays in realisations over the expected life of the trade receivable and is adjusted for forward looking estimates. At every balance sheet date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

**Presentation of allowance for expected credit losses in the balance sheet**

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets

**Write-off**
The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery and the amount of the loss is recognised in the restated consolidated summary statement of profit and loss within other expenses. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

**(vi)Impairment of assets**

Assessment is done at each restated consolidated summary statement of assets and liabilities date as to whether there is any indication that an asset (PPE and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Assessment is also done at each restated consolidated summary statement of assets and liabilities date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

**2.9 Cash and cash equivalents**

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand, demand deposits with banks with an original maturity of three months or less and short-term highly liquid investments that are readily convertible into known amount of cash and are subject to an insignificant risk of change in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits, net of defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

**2.10 Provisions (other than employee benefits)**

A provision is recognized if, as a result of a past event, the Group has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the legal or contractual obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

**Contingencies**

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

**2.11 Revenue recognition**

**Revenue from contracts with customers**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer, at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

a) Revenue from the sale of product is recognized upfront at the point in time when the product is delivered to the customer. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

b) Revenue from services is recognized in accordance with the terms of contract when the services are rendered and the related costs are incurred and the balance amount is recognised as deferred revenue.

c) Revenue from membership fees is recognised over the period of membership by measuring the progress towards complete satisfaction of that performance obligation.

**Contract balances**

**Trade receivables**

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in financial instrument – initial recognition and subsequent measurement.

**Contract liabilities**

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

**2.12 Government grants**

Government grants are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received and the Group will comply with the conditions associated with the grant; they are then recognised in profit or loss as other operating revenue on a systematic basis. Grants related to the acquisition of assets are recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate the Group for expenses incurred are recognised in profit or loss as other operating revenue on a systematic basis in the periods in which such expenses are recognised.

**2.13 Employee benefits**

The Group's obligation towards various employee benefits has been recognised as follows:

**i. Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term cash bonus, if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

**ii. Share based payment transactions**

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and nonmarket vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes. If the entity elects to settle in cash, the cash payment shall be accounted for as the repurchase of an equity interest, i.e. as a deduction from equity.

**iii. Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

**iv. Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

The group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date. Actuarial gains/losses are immediately taken to the restated consolidated summary statement of profit and loss and are not deferred. The obligations are presented as current liabilities in the restated consolidated summary statement of assets and liabilities if the entity does not have an unconditional right to defer the settlement for at least twelve months after the reporting date.

**v. Other long-term employee benefits**

The Group's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Remeasurements gains or losses are recognised in profit or loss in the period in which they arise.

**vi. Termination benefits**

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

**2.14 Foreign currency**

**Foreign currency transactions**

Transactions in foreign currencies are translated into the respective functional currencies of Group at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in profit or loss.

**Foreign operations**

The assets and liabilities of foreign operations of its subsidiary, are translated into INR, the functional currency of the Holding Company, at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into INR at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.
Foreign currency translation differences are recognised in OCI and accumulated in equity (as exchange differences on translating the financial statements of a foreign operation), except to the extent that the exchange differences are allocated to NCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.

**2.15 Leases**

The Group assesses at contract inception whether a contract is, or contains a, lease. That is if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration.

**Group as a lessee**

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**i) Right of use asset**

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

**ii) Lease Liabilities**

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of the lease payment to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

**iii) Short-term leases and leases of low value assets**

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

**Group as a lessor**

At inception or on modification of a contract that contains a lease component, the group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the group applies the exemption described above, then it classifies the sub-lease as an operating lease.
If an arrangement contains lease and non-lease components, then the group applies Ind AS 115 to allocate the consideration in the contract.

The group applies the derecognition and impairment requirements in Ind AS 109 to the net investment in the lease. The group further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.

The group recognised lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

**2.16 Income tax**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

**i. Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**ii. Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for
- temporary differences arising on the initial recognition of assets or liabilities in a transaction that :at the time of transaction that neither affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.
- temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Group recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**2.17 Borrowing cost**

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs).

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

All other borrowing costs are expensed in the period in which they occur.

**2.18 Earnings per share**

**Basic Earnings per share**

Basic earnings/(loss) per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

**Diluted Earnings per share**

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless they have been issued at a later date.

**2.19 Segment Reporting**

An operating segment is a component that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the other components, and for which discrete financial information is available. The Group is engaged into designing, manufacturing, branding, and retailing of own-branded eyewear products. The Group sells prescription eyeglasses, sunglasses, and other products including contact lenses and eyewear accessories, which has been defined as one business segment. Accordingly, the Group's activities/business are reviewed regularly by the Group's Board of Director's from an overall business perspective, rather than reviewing its products/services as individual standalone components.

**2.20 Investment Property:**

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the group is classified as investment property.
Investment property also includes property that is being constructed or developed for future use as investment property.

**Initial measurement**

Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Investment property that is obtained through a lease is measured initially at the lease liability amount adjusted for any lease payments made at or before the commencement date (less any lease incentives received), any initial direct costs incurred by the group, and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.
Though the group measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes to the Restated Consolidated Financial Information.

**Subsequent measurement (depreciation and useful lives)**

Depreciation on investment properties comprising right-of-use held for sublease is provided on straight-line basis over the period of lease and other tangible assets as per the policy defined for same class of assets under property, plant and equipment. The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

Where during any financial year, any addition has been made to any asset, or where any asset has been sold, discarded, demolished or destroyed, or significant components replaced; depreciation on such assets is calculated on a pro rata basis as individual assets with specific useful life from the month of such addition or, as the case may be, up to the month on which such asset has been sold, discarded, demolished or destroyed or replaced.

**De-recognition**

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of de-recognition.

**2.21 Business Combination**

The Group accounts for its business combinations (other than common control) under acquisition method of accounting. Acquisition related costs are recognised in restated consolidated summary statement of profit and loss as incurred. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognised at their fair values at the acquisition date.

Purchase consideration paid in excess of the fair value of net assets acquired is recognised as goodwill. Where the fair value of identifiable assets and liabilities exceed the cost of acquisition, after reassessing the fair values of the net assets and contingent liabilities, the excess is recognised as gain on bargain purchase.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in other comprehensive income (OCI) and accumulated in equity as gain on bargain purchase. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

**2.22 Recognition of dividend income, interest income or expense**

Dividend income is recognised in profit or loss on the date on which the Group's right to receive payment is established. Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:
- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

**2.23 Recent accounting pronouncement**

**A. Standards and amendments effective from 1 April 2025**

The Ministry of Corporate Affairs (MCA) has notified certain amendments to Ind AS. Key amendments relevant to the Group are summarised below:

•Ind AS 1 – Classification of Liabilities as Current or Non-current:

The amendment clarifies the meaning of a right to defer settlement, requires that such right must exist at the end of the reporting period, and confirms that classification is not affected by the likelihood of exercising this right. It also clarifies that the terms of a convertible liability affect classification only if the embedded derivative is equity classified.

The amendment is to be applied retrospectively in accordance with Ind AS 8. The Group has evaluated the impact and determined that these amendments do not have a material effect on the classification or presentation of liabilities for the period ended June 30, 2025.

•Ind AS 7 and Ind AS 107 – Disclosures: Supplier Finance Arrangements:

These amendments require enhanced disclosures to help users of financial statements understand the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The amendments are effective for annual periods beginning on or after April 01, 2025. Comparative information for earlier periods and disclosures for interim periods ending on or before March 31, 2026 are not required. These amendments do not have an impact on recognition or measurement in the current financial statements.

•Ind AS 12 – International Tax Reform: Pillar Two Model Rules:

The amendment introduces a mandatory temporary exception from recognising and disclosing deferred tax assets and liabilities related to Pillar Two income taxes. This exception is applicable immediately and retrospectively, with additional disclosure requirements effective from April 01, 2025 (but not for interim periods ending on or before March 31, 2026).

The Group has applied the temporary exception and concluded that the amendment does not have a material impact on its financial statements for the period ended June 30, 2025.

**B. Standards and amendments issued but not yet effective**

Further amendments to Ind AS 1 – Non-current Liabilities with Covenants specify that if a covenant breach existing at the reporting date is rectified after the reporting date, such rectification shall be treated as a non-adjusting event under Ind AS 10.

These amendments are effective for annual reporting periods beginning on or after April 01, 2026. The Group will evaluate the implications of these amendments upon their applicability. Based on the preliminary assessment, no material impact is expected on the recognition or measurement of liabilities.

# Rs. 2,820 in absolute rupees.

**c) Rights, preferences and restrictions attached to equity shares**

The Holding Company has equity shares having a par value of Rs. 2 per share. Each shareholder is eligible to one vote per share held. The dividend proposed, if any, by the Board of Directors is subject to approval of shareholders in the ensuing Annual General Meeting, except in case of interim dividend. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital of the Holding Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid. In the event of liquidation, the equity shareholders are entitled to receive remaining assets of the Holding Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders .

**d) Rights, preferences and restrictions attached to equity shares Series A**

The Holding Company has issued equity shares Series A having a par value of Rs. 2 per share. Each shareholders is eligible to one vote per share held. The dividend proposed, If any, by the Board of Directors is subject to approval of shareholders in Annual General Meeting, except in case of interim dividend. The voting rights of an equity Series A shareholder on a poll (not on show of hands) are in proportion to its share of paid equity capital of the Holding Company. Voting rights can not be exercised in respect of the shares on which any calls or others sums presently payable have not been paid. In the event of liquidation, equity shareholders are entitled to receive remaining assets of the Holding Company after distribution of preferential amount in the proportion of equity shares Series A held by the shareholders.

**e) Rights, preferences and restrictions attached to equity shares Series B**

The Holding Company has equity shares Series B having a par value of Rs. 2 per share. Each shareholders is eligible to one vote per share held. The dividend proposed, If say, by the Board of Directors is subject to approval of shareholders in Annual General Meeting, except in case of interim dividend. The voting rights of an equity Series B shareholder a poll (not on show of hands) are in proportion to its share of paid equity capital of the Holding Company. Voting rights can not be exercised in respect of the shares on which any calls or others sums presently payable haven not been paid. In the event of liquidation, equity shareholders are entitled to receive remaining assets of the Holding Company after distribution of preferential amount) in the proportion of equity shares Series B held by the shareholders.

All the class of equity share holders have equal rights.

**f) Terms attached to stock options granted to employees are described in note 37 regarding employee share based payments.**

**g) Equity shares of Holding Company held by each shareholder holding more than 5% shares**

**d) Rights, preferences and restrictions attached to preference shares**

The Holding Company has issued Compulsorily convertible preference shares (CCPS) having a par value of Rs. 2 per share (other than CCPS Class 2 of Rs 10 each). Preference shares carry a preferential right as to dividend over equity shareholders. Dividend on cumulative preference shares is not declared for a financial year, the entitlement thereto is carried forward to the next year. The preference shares are entitled to one vote per share at meetings of the Holding Company on any resolutions of the Holding Company directly affecting their rights. In the event of liquidation, preference shareholders have a preferential right over equity shareholders to be repaid to the extent of capital paid-up and dividend in arrears on such shares. And all the preferred rights as stipulated in under Articles 8 of Articles of Association (AOA).

The preference shares carry a dividend of 0.001% per annum. The rate of dividend is reduced to 0.001% per annum from 8% per annum earlier w.e.f. March 29, 2018. The dividend rights are cumulative. The preference shares rank ahead of the equity shares in the event of a liquidation.

**e) Term of conversion of preference shares**

0.001% (June 30, 2024: 0.001%, March 31, 2025: 0.001% , , March 31, 2024: 0.001%, March 31, 2023: 0.001%) Compulsorily Convertible Cumulative Preference Shares of the Company, having a nominal value of Rs. 2 each (other than CCPS Class 2 of Rs 10 each) of which shall be entitled to be converted into Equity Shares at the earliest of the following events in the manner stipulated under Articles 11 and AOA:

Series A
One business day immediately preceding the filing of the Red Herring Prospectus in connection with a qualified IPO; or The exercise of an option by the Preference Shares Series A Shareholders in respect of either the full or a part of the Preference Shares; or Not later than 15 years from October 04, 2011 in the manner stipulated under Articles 11 of AOA;

Series B
One business day immediately preceding the filing of the Red Herring Prospectus in connection with a qualified IPO; or The exercise of an option by the Preference Shares Series B Shareholders in respect of either the full or a part of the Preference Shares; or Not later than 15 years from the February 06, 2013;

Series C2
One business day immediately preceding the filing of the Red Herring Prospectus in connection with a qualified IPO; or The exercise of an option by the Preference Shares Series C2 Shareholders in respect of either the full or a part of the Preference Shares; or Not later than 15 years from the March 22, 2016;

Series D
One business day immediately preceding the filing of the Red Herring Prospectus in connection with a qualified IPO; or The exercise of an option by the Preference Shares Series D Shareholders in respect of either the full or a part of the Preference Shares; or Not later than 15 years from the May 02, 2016.

Series E
One business day immediately preceding the filing of the Red Herring Prospectus in connection with a qualified IPO; or The exercise of an option by the Preference Shares Series E Shareholders in respect of either the full or a part of the Preference Shares; or Not later than 15 years from the September 02, 2016.

Series F
One business day immediately preceding the filing of the Red Herring Prospectus in connection with a qualified IPO; or The exercise of an option by the Preference Shares Series F Shareholders in respect of either the full or a part of the Preference Shares; or Not later than 15 years from the September 16, 2019.

Series G
One business day immediately preceding the filing of the Red Herring Prospectus in connection with a qualified IPO; or The exercise of an option by the Preference Shares Series G Shareholders in respect of either the full or a part of the Preference Shares; or Not later than 15 years from the December 20, 2019.

Series H
One business day immediately preceding the filing of the Red Herring Prospectus in connection with a qualified IPO; or The exercise of an option by the Preference Shares Series H Shareholders in respect of either the full or a part of the Preference Shares; or Not later than 15 years from the July 26, 2021.

Series I
One business day immediately preceding the filing of the Red Herring Prospectus in connection with a qualified IPO; or The exercise of an option by the Preference Shares Series I Shareholders in respect of either the full or a part of the Preference Shares; or Not later than 15 years from the date of issuance of shares. The below table provides the details w.r.t issuance of shares:

| Number of shares | Date of Allotment |
|---|---|
| 36,41,646 | April 13, 2022 |
| 3,64,165 | April 30, 2022 |
| 3,64,165 | May 16, 2022 |
| 99,782 | June 01, 2022 |
| 10,53,882 | June 08, 2022 |
| 82,300 | June 17, 2022 |
| 5,65,956 | July 07, 2022 |
| 4,79,037 | August 06, 2022 |

Series I1
One business day immediately preceding the filing of the Red Herring Prospectus in connection with a qualified IPO; or The exercise of an option by the Preference Shares Series I1 Shareholders in respect of either the full or a part of the Preference Shares; or Not later than 15 years from the date of issuance of shares. The below table provides the details w.r.t issuance of shares:

| Number of shares | Date of Allotment |
|---|---|
| 5,46,249 | November 17, 2022 |
| 4,42,650 | November 17, 2022 |
| 4,42,650 | November 18, 2022 |
| 4,42,650 | December 23, 2022 |
| 33,05,870 | March 29, 2023 |

Series I2
One business day immediately preceding the filing of the Red Herring Prospectus in connection with a qualified IPO; or The exercise of an option by the Preference Shares Series I2 Shareholders in respect of either the full or a part of the Preference Shares; or Not later than 15 years from the date of issuance of shares. The conversion ratio is 112956:100 (100 equity share for 112956 Series I2 CCPS subject to the terms and conditions of the definitive agreement/s executed by the Company including the SHA).

Class 1
The CCPS shall be convertible into Equity Shares (as defined in the Articles) in the ratio of 9.91:1 (for every 9.91 CCPS held, 1 Equity Share) to be issued after considering the impact of bonus issue.

Class 2
The CCPS shall be convertible into Equity Shares (as defined in the Articles) in the ratio of: 1:30 (for every 1 CCPS held, 30 Equity Share) to be issued after considering the impact of bonus issue.

Class 3
The CCPS shall be convertible into Equity Shares (as defined in the Articles) in the ratio of:
(i) 100:40 (for every 100 CCPS held, 40 Equity Shares to be issued) in the event either domestic or international expansion target has been achieved on or before September 30, 2025
(ii) 1:5 (for every 1 CCPS held, 5 Equity Share to be issued) in the event both domestic and international expansion target has been achieved on or before September 30, 2025
(iii) 100:10 (for every 10 CCPS held, 1 Equity Share to be issued) in the event neither domestic nor international expansion target has been achieved on or before September 30, 2025

at the option of the holder of CCPS at any time prior to 20 years; automatically, 5 days prior to expiry of 20 years; automatically 5 days prior to occurrence of an exit event, liquidation or winding up of the Holding Company. This conversion is subject to CCPS being fully paid and holders attending and participating in the discussions of the Shareholders of the Holding Company until September 30, 2025.

**Nature and purpose of reserves**

**(a) Securities premium**

Securities premium is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

**(b) Share options outstanding account**

The Holding Company has established various equity-settled share-based payment plans for certain categories of employees of the Holding Company. Refer to Note 37 for further details on these plans.

**(c) Foreign currency translation reserve**

This reserve is created due to changes in historic rates and closing rates of assets and liabilities of foreign subsidiaries.

**(d) Retained earnings**

Retained earnings are the profits/(loss) that the Group has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss.

**(e) Treasury Shares**

This represents cost incurred by the Holding Company to purchase its own equity shares from secondary market through the Holding Company's ESOP trust for issuing the shares to the eligible employees on exercise of stock options.

**I Gratuity- Unfunded**

The Group has a unfunded defined benefit gratuity plan for qualifying employees. The scheme provide for lump sum payment to vested employees at retirement, death while in employment or on termination of employment. Vesting occurs upon completion of five year of services. Every employee who has completed five years or more of services, gets a gratuity on departure at 15 days basic salary (last drawn) for each completed year of service on terms not less favourable than the provisions of the Payment of Gratuity Act, 1972.

The following tables summaries the components of net benefit expense recognized in the Statement of Profit and Loss and the status and amounts recognized in the balance sheet for the plan.

**Disclosure of gratuity**

The following tables summarises the components of gratuity expenses recognised in the Restated Consolidated Summary Statement of Profit and Loss and Restated Consolidated Summary Statement of Assets and Liabilities :

| Description | Period ended 30 June 2025 | Period ended 30 June 2024 | Year ended 31 March 2025 | Year ended 31 March 2024 | Year ended 31 March 2023 |
|---|---|---|---|---|---|
| Current service cost | 16.44 | 9.74 | 57.55 | 32.63 | 28.87 |
| Interest cost | 3.77 | 1.76 | 8.00 | 5.29 | 2.89 |

| Exchange Translation Difference | 3.98 | (0.24) | 3.63 | 0.12 | - |
| **Present value of defined benefit obligation as at the end of the period/ year** | **290.20** | **167.65** | **268.48** | **158.85** | **112.30** |

**Expense recognised in the Other Comprehensive Income (excluding tax)**

| Particulars | For the three months ended June 30, 2025 | For the three months ended June 30, 2024 | For the year ended March 31, 2025 | For the year ended March 31, 2024 | For the year ended March 31, 2023 |
|---|---|---|---|---|---|
| Actuarial loss/(gain) on arising from change in financial assumption | 3.80 | (0.14) | 2.91 | 0.12 | (4.11) |
| Actuarial loss on arising from experience adjustment | (1.37) | (2.27) | 7.21 | 13.29 | 10.14 |
| | **2.43** | **(2.41)** | **10.12** | **13.41** | **6.03** |

Re-measurement gain/(loss) on defined benefit plans comprises the actuarial losses resulting from increase or decrease in the present value of the defined benefit obligations because of changes in actuarial assumptions and experience adjustments and recognised in 'Other comprehensive income/(loss)', in accordance with IndAS 19, Employee Benefits.

**The principal actuarial assumptions used in determining gratuity benefit obligations for the Company's plans are shown below:**

| Particulars | For the three months ended June 30, 2025 | For the three months ended June 30, 2024 | For the year ended March 31, 2025 | For the year ended March 31, 2024 | For the year ended March 31, 2023 |
|---|---|---|---|---|---|
| Discount rate | 5.85% | 7.05% | 6.5% - 7% | 7.10% | 7.15% |
| Retirement age | 58 years | 58 years | 58 years | 58 years | 58 years |
| Employee attrition rate | 40% | 40% | 40% | 40% | 40% |
| Rate of increase in compensation | 7% | 7% | 6% - 7% | 7% | 7% |

**Due to its defined benefit plans, the Company is exposed to following significant risk :-**

Change in Discount Rate : A decrease in discount rate will increase plan liability.

Salary Risk : The present value of the defined benefit plan liability is calculated by reference to the future salaries of the plan participants. As such, an increase in the salary of the plan participants will increase the plans liability.

Mortality & Morbidity rates - 100% of IALM (2012-14) rates have been assumed which also includes the allowance for disability benefits.

Withdrawal Rate : A decrease in withdrawal rate will increase plan liability.

**Demographical Assumption used**

Assumption regulating future mortality are based on published statistics and mortality table IALM (2012-14)

Retirement Age : The employees of the Company are assumed to retire at the age of 58 years.

**A quantitative sensitivity analysis for significant assumptions is as shown below :**

| Particulars | As at June 30, 2025 | As at June 30, 2024 | As at March 31, 2025 | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|---|---|---|
| Base Liability | 290.20 | 167.65 | 268.48 | 158.85 | 112.30 |
| Increase discount rate by 1% | (5.80) | (2.83) | (2.85) | (2.67) | (3.59) |
| Decrease discount rate by 1% | 8.18 | 2.95 | 3.05 | 2.88 | 3.78 |
| Increase salary inflation by 1% | 5.73 | 2.66 | 2.77 | 2.55 | 2.91 |
| Decrease salary inflation by 1% | (7.71) | (2.62) | (2.64) | (2.41) | (3.40) |

*(This space has been left blank intentionally)*

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied which was applied while calculating the defined benefit obligation liability recognised in the balance sheet.

**The following payments are expected contributions to the defined benefit plan in future years:**

| Year | As at June 30, 2025 | As at June 30, 2024 | As at March 31, 2025 | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|---|---|---|
| 0 to 1 Year | 53.10 | 37.62 | 16.00 | 35.27 | 25.70 |
| 1 to 5 Year | 148.13 | 74.84 | 54.77 | 72.01 | 49.19 |
| 5 Year onwards | 39.71 | 19.58 | 16.76 | 19.02 | 12.32 |

The weighted average duration of the defined benefit plan obligation at the end of the reporting period is 2 years (June 30, 2024: 2 years, March 31, 2025: 2 years, March 31, 2024: 2 years, March 31, 2023: 2 years)

**II Compensated absences**

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as undiscounted liability at the Restated consolidated summary statement of assets and liabilities date. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as liability at the present value of the defined benefit obligation at the Restated consolidated summary statement of assets and liabilities date.

| Compensated absences | As at June 30, 2025 | As at June 30, 2024 | As at March 31, 2025 | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|---|---|---|
| Current | 263.18 | 156.32 | 240.48 | 188.83 | 147.39 |
| Non current | 67.36 | 29.77 | 65.39 | 28.15 | 22.56 |

**III Provident fund**

Contribution made by Companies in the Group during the year is 217.84 million (June 30, 2024: Rs 131.45 million, March 31, 2025: Rs. 616.35 million, March 31, 2024: Rs. 492.22 million, March 31, 2023: Rs. 321.97 million).

**IV** The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. Certain sections of the Code came into effect on 3 May 2024. However, the final rules/interpretation have not yet been issued. Based on a preliminary assessment, the entity believes the impact of the change will not be significant.

**18. Trade payables**

| Particulars | As at June 30, 2025 | As at June 30, 2024 | As at March 31, 2025 | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|---|---|---|
| Total outstanding dues of micro enterprises and small enterprises (MSME) (Refer note 41) | 500.38 | 316.96 | 482.71 | 255.71 | 89.64 |
| Total outstanding dues of creditors other than micro enterprises and small enterprises | 7,396.60 | 4,694.51 | 6,916.85 | 4,905.95 | 5,682.69 |
| | **7,896.98** | **5,011.47** | **7,399.56** | **5,161.66** | **5,772.33** |

Trade payables are non-interest bearing and are normally settled on 60-day terms. The Group's exposure to currency risks are disclosed in note 38.

| | **1,796.02** | **4,679.50** | **1,765.09** | **4,423.92** | **4,403.91** |

During the previous year ended March 31,2025, the Group has further acquired an additional 4.40% equity stake from an existing shareholder on January 13, 2025, for a consideration of Rs. 1,312.65 million, increasing its total holding in Owndays Inc. to 96.67%. The remaining 3.33% stake from existing shareholders at a consideration to be determined as per the contractual terms. Deferred consideration represents the amount payable against a put option executed by Company's subsidiary - Lenskart Pte. Limited in favour of existing shareholder for 3.33% (June 30, 2024- 7.73%, March 31, 2025- 3.33%, March 31, 2024- 7.73%, March 31, 2023- 7.73%) of the share capital of Owndays Inc. Such consideration has been accounted as financial liability under Ind AS 109. It is measured at fair value on acquisition date and subsequently as fair value through statement of profit and loss (refer note no 35).

**B Current**

**Notes:**

a) During the year ended March 31, 2023, the Holding Company for the first time had recognised deferred tax on all timing differences (including carry forward business losses and unabsorbed depreciation).

b) The Company's subsidiaries has recognised deferred tax only to the extent that it is probable that profit will be available against which they can be used. The existence of unabsorbed tax losses and depreciation is an evidence that future taxable profits may not be available. Therefore, in the case of history of recent losses, the subsidiary company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profits will be available against which such deferred tax asset can be realised. Deferred tax assets (recognised or unrecognised) are reviewed at each reporting date and recognised/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realised.

*(This space has been left blank intentionally)*

**32. Earning/(loss) per share (EPS/LPS)**

The calculation of basic earning/(loss) per share has been based on the following profit attributable to equity shareholders of the holding company and weighted-average number of ordinary shares outstanding.

Diluted EPS/LPS amounts are calculated by dividing the profit attributable to equity holders of the Holding Company (after adjusting for interest on the convertible preference shares) by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

| | For the three months ended June 30, 2025* | For the three months ended June 30, 2024* | For the year ended March 31, 2025 | For the year ended March 31, 2024 | For the year ended March 31, 2023 |
|---|---|---|---|---|---|
| Restated Profit/(loss) for the year attributable to equity shareholders of the Holding Company (A) | 600.82 | (106.15) | 2,955.89 | (174.61) | (679.85) |
| Effect of dilution | - | - | - | - | - |
| **Restated Profit/(loss) attributable to equity shareholders after adjusting the effect of dilution (B)** | **600.82** | **(106.15)** | **2,955.89** | **(174.61)** | **(679.85)** |
| **Weighted-average number of equity shares** | | | | | |
| Number of equity shares and CCPS outstanding at the beginning of the period/ year including impact of bonus issued during the period/year | 1,68,10,15,590 | 1,64,54,63,060 | 1,64,54,63,060 | 1,62,64,84,246 | 1,50,47,79,528 |
| Add: Weighted average number of equity shares and CCPS issued (includes exercise of stock options) including impact of bonus issued during the period/year | - | 26,76,442 | 2,70,49,395 | 63,18,814 | 6,58,54,131 |
| Less: Treasury shares held by the company at the period/year end | (1,18,146) | (3,53,420) | (74,695) | (2,36,259) | - |
| **Weighted-average number of equity shares in calculating Basic EPS (C)** | **1,68,08,97,444** | **1,64,77,86,082** | **1,67,24,37,760** | **1,63,25,66,801** | **1,57,06,33,659** |
| **Effect of dilution:** | | | | | |
| Weighted average number of share options outstanding including impact of bonus issued during the period/year | 37,71,111 | 63,89,180 | 36,99,256 | 53,24,093 | 61,40,007 |
| **Weighted average number of Equity shares adjusted for the effect of dilution (D)** | **1,68,46,68,555** | **1,65,41,75,262** | **1,67,61,37,016** | **1,63,78,90,894** | **1,57,67,73,666** |
| **Calculation of earning/(loss) per share** | | | | | |
| Nominal value per equity shares | 2.00 | 2.00 | 2.00 | 2.00 | 2.00 |
| Basic Earning/(loss) per equity share attributable to owners of Holding Company [In Rs.] [(A)/(C)] | 0.36 | (0.06) | 1.77 | (0.11) | (0.43) |
| Diluted Earning/(loss) per equity share attributable to owners of Holding Company [In Rs.] (B/D) | 0.36 | (0.06) | 1.76 | (0.11) | (0.43) |

***** Basic/ Diluted EPS for the quarter are not annualized

Diluted EPS represents earning per share based on the total number of shares including the potential estimated number of shares to be issued against stock options in force under the existing stock option plan/scheme, except where diluted EPS would be anti-dilutive.

The Holding Company has issued bonus shares of 69,39,92,016 fully paid-up Equity shares of INR 2/- (Rupees one) each as fully paid-up Equity Shares in proportion of 9 new fully paid-up Equity Shares of INR 2/- for every 1 existing fully paid-up Equity Shares of INR 1/- each to the eligible shareholders of the Holding Company whose names appear in the Registers of Members or in the Register of Beneficial Owner maintained by the depositories on the record date, i.e., October 16, 2024.Consequent to this bonus issue, the earnings per share has also been adjusted for all the previous periods presented, in accordance with Ind AS 33, Earnings per share. Also Refer note 57 to the Restated Consolidated Financial Information.

**33. Capital and other commitments:**

|---|---|---|---|---|---|
| a) Estimated amount of contracts remaining to be executed on capital account and not provided for (net of capital advance) | 2,383.92 | 510.62 | 369.17 | 512.19 | 1,183.25 |
| b) Outstanding export obligation to be fulfilled over a period of 6 years, from respective date of import, under the EPCG scheme against import of plant and machinery# | 3,247.60 | 3,259.46 | 3,247.60 | 2,990.09 | 1,211.68 |
| c) Other commitments (Information technology support expenses) | 749.83 | - | 822.71 | - | - |

# in the absence of fulfilment of the related export obligation, the group will be liable to pay the amount of duty saved along with interest.

**34. Contingent liabilities**

**A**

| Particulars | As at June 30, 2025 | As at June 30, 2024 | As at March 31, 2025 | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|---|---|---|
| Income tax litigation - not been acknowledged as claims (in Rs million) (refer note 2 below) | 140.19 | 192.17 | 192.17 | 192.17 | 192.17 |
| GST and Customs related matter (in Rs million) (refer note 3 to 5 below) | 505.86 | 136.97 | 136.97 | 125.00 | - |

**B**

| | | | | | |
|---|---|---|---|---|---|
| Disallowance related to certain capital expenditure (refer note 1 below) | 129.15 | 129.15 | 129.15 | 129.15 | - |

Notes:

1. This is in respect of assessment year 2018-19, Income-tax authorities has disallowed certain expenditure amounting to INR 519.56 million. The Holding Company has accepted the disallowance of INR 390.41 million and for balance disallowance appeal has been filed with Income-tax authorities. Further, no demand has been issued against the above disallowances by the Income-tax authorities

2. The Holding Company had received assessment order for AY 2013-14 from income tax authorities wherein the department raised demand on account of certain unexplained cash credits.

3. The contingent liability for GST and Custom case is on account of classification of Zero power glasses. Such glasses were being sold @ 12% GST, however, the GST authorities are of the view that such spectacles with zero power lenses are taxable @ 18%.

4.The Group has received a show cause notice from the GST Intelligence Department relating to taxability of LK Cash redeemed during FY 2018-19 to FY 2023-24. The Group, based on legal opinions and supporting documents, considers LK Cash to be in the nature of discounts and not liable to GST.

5.The Holding Company has received a show cause notice from Customs, Delhi amounting to ₹65.89 million regarding classification of imported eyeframes with clip-ons for the period October 2019 to October 2024. The Holding Company has classified these products under eyeframes supported by legal opinions, while Customs seeks to classify them as sunglasses.

The management based on internal assessment and legal opinion obtained, believes that no material liability is likely to arise on account of such claims/law suits.

| **Total** | **27,940.38** | **4,423.92** | **32,364.30** | **32,364.30** |

*(This space has been left blank intentionally)*

The carrying value and fair value of financial instruments by categories as at March 31, 2023 were as follows:

| Particulars | Amortised cost | FVTPL** | Total carrying value | Total fair value |
|---|---|---|---|---|
| **Financial Assets :** | | | | |
| Cash and cash equivalent (Refer note 11)* | 3,343.56 | - | 3,343.56 | 3,343.56 |
| Bank balances other than cash and cash equivalent (Refer note 12)* | 6,523.01 | - | 6,523.01 | 6,523.01 |
| Trade receivables (Refer note 10)* | 2,810.70 | - | 2,810.70 | 2,810.70 |
| Investment (Refer note 5B and 5C) | 2.67 | 7,641.40 | 7,644.07 | 7,644.07 |
| Other financial assets (Refer note 6A and 6B)* | 12,916.34 | - | 12,916.34 | 12,916.34 |
| **Total** | **25,596.28** | **7,641.40** | **33,237.68** | **33,237.68** |
| | | | | |
| **Financial Liabilities:** | | | | |
| Borrowings (Refer note 16A and 16B)# | 9,172.08 | - | 9,172.08 | 9,172.08 |
| Lease liabilities (Refer note 49) | 14,411.71 | - | 14,411.71 | 14,411.71 |
| Trade payables (Refer note 18)# | 5,772.33 | - | 5,772.33 | 5,772.33 |
| Other financial liabilities (Refer note 19A and 19B)# | 951.89 | 4,403.91 | 5,355.80 | 5,355.80 |
| **Total** | **30,308.01** | **4,403.91** | **34,711.92** | **34,711.92** |

The following methods / assumptions were used to estimate the fair values:

* The Group has not disclosed the fair values for financial instruments carried at amortised cost such as trade receivables, cash and bank balances, other financials assets, because their carrying amounts are a reasonable approximation of fair value.

** Fair value through profit and loss account

# The Group has not disclosed the fair value for financial instruments carried at amortised cost such as borrowings, trade payables and other financial liabilities, because their carrying amounts are a reasonable approximation of fair value.

**36. Fair value hierarchy**

Financial assets and financial liabilities measured at fair value in the balance sheet are categorised into three levels of fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

**Level 1**: Quoted prices (unadjusted) in active markets for financial instruments.
**Level 2**: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
**Level 3**: Inputs which are not based on observable market data.

*(This space has been left blank intentionally)*

**Quantitative disclosures of fair value measurement hierarchy for assets as at June 30, 2025:**

| | As at June 30, 2025 | Level 1 | Level 2 | Level 3 |

**(i) Valuation technique used to determine fair value**

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair values are disclosed in the Restated Consolidated Financial Informations. To provide an indication about the reliability of inputs used determining the fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard.

The following methods and assumptions have been used to estimate the fair values:

(A) The fair value of investments in mutual fund units is based on the net asset value (NAV) as stated by the issuers of these mutual fund units in the published statements as at the Balance Sheet date. NAV represents the price at which the issuer will issue further units of mutual fund and the price at which issuers will redeem such units from the investors.

(B) In order to arrive at the fair value of unquoted investments, the Group obtains independent valuations. The techniques used by the valuer are as follows:

a) Income approach - Discounted cash flows ("DCF") method

b) Market approach - Enterprise value/Sales multiple method

(C) In order to arrive at the fair value of the deferred consideration payable for Owndays group :-Monte Carlo Simulations use random sampling techniques based on continuous-time stochastic processes to generate asset price paths. Similar to binomial trees, payoffs are calculated based on the difference between the asset price and exercise price in each individual price path and then discounted back to the measurement date.

(D) In order to arrive at the fair value of the call option of Le Petite Lunetier (LPL):- Simulated the equity value of LPL as of the expected exercise date of the Third Tranche Warrants under a risk-neutral framework, using the expected volatility derived from guideline public companies (GPCs). For each simulation iteration, calculated the value of Neso Brands Pte. Ltd.'s stake in LPL before and after the exercise of the warrants using the Option Pricing Method for equity value allocation. The payoff for each path was computed as the greater of: (i) the incremental value of the stake post-exercise less the aggregate exercise price of the warrants, or (ii) zero. This payoff was then discounted to present value using the risk-free rate.

**(ii) Valuation inputs and relationship to fair values**

| Key inputs | As at June 30, 2025 | As at June 30, 2024 | As at March 31, 2025 | As at March 31, 2024 | As at March 31, 2023 |

**37 Employee stock option plan**

The Company has instituted an Employee Stock Option Scheme in the year 2012, known as 'VALYOO ESOP 2012. This Scheme was adopted by the Board of Directors on 9 October 2012. This Scheme was subsequently amended by shareholders' approval dated June 22, 2016, November 27, 2020, September, 27 2021 ("Third Amendment") and January 17, 2024 ("Fourth Amendment"). In Extra ordinary General Meeting held on September 27, 2021 the Option plan was also renamed as Lenskart Employee Stock Option Plan, 2021 ("ESOP Scheme"). Total number of options outstanding as on June 30, 2025 are 9,673,532 ( June 30, 2024: 1,045,382, March 31, 2025: 10,797,430, March 31, 2024: 952,665, March 31 2023: 993,562). These options are convertible into equal number of equity shares of the par value of Rs. 2 each. The scheme has been described below:

| Grant month | As at June 30, 2025 | | As at June 30, 2024 | | As at March 31, 2025 | | As at March 31, 2025 | | As at March 31, 2024 | | As at March 31, 2023 | |

*(This space has been left blank intentionally)*

During the previous year ended March 31, 2025 the company has issued bonus in the ratio of 1:9 on October 16, 2024. Accordingly number of ESOPs outstanding till October 16, 2024 are adjusted with the bonus impact.

**Vesting pattern (%)**
The options shall not vest at any time prior to expiry of two years from the date of grant of options, unless otherwise determined by the Board. The vesting schedule of the options would normally be as under:

| Description | % to be vested |
|---|---|
| Cliff* (2 Year anniversary) | |
| At the end of 1st year from grant date | - |
| At the end of 2nd year from grant date | 40% |
| At the end of 3rd year from grant date | 25% |
| At the end of 4th year from grant date | 35% |

* Cliff is an initial minimum period of service required for any stocks to vest. On completion of this period, vesting occurs for the full cliff period.

**Reconciliation of outstanding share options**
The number and weighted average exercise price of share options under ESOP scheme 2021 are as follows:

| Description | June 30, 2025 | | June 30, 2024 | | March 31, 2025 | | March 31, 2024 | | March 31, 2023 | |
|---|---|---|---|---|---|---|---|---|---|---|
| | No. of options | Weighted average exercise price | No. of options | Weighted average exercise price | No. of options | Weighted average exercise price | No. of options | Weighted average exercise price | No. of options | Weighted average exercise price |
| **Options outstanding at the beginning of the year** | 1,07,97,430 | 140.84 | 9,52,665.00 | 1,074.09 | 9,52,665 | 1,074.09 | 9,93,562 | 585.19 | 8,39,614 | 353.87 |

| Range of exercise price for outstanding options | 'Rs. 2.20 to Rs. 230 per option | | Rs. 22 to Rs. 1,839 per option | | 'Rs. 2.2 to Rs. 230 per option | | Rs. 22 to Rs. 1,839 per option | | Rs. 22 to Rs. 1,839 per option | |

The fair value of options has been measured using Black-Scholes option pricing model. Expected volatility has been based on an evaluation of the historical volatility of the Company's share price, particularly over the historical period commensurate with the expected term. The expected term of the instrument has been based on historical experience and general option holder behaviour.

The fair value of the options and the inputs used in the measurement of the grant-date fair values of options are as follows:

| Particulars | Grant period | For the three months ended June 30, 2025* | For the three months ended June 30, 2024* | Year ended March 31, 2025* | Year ended March 31, 2024** | Year ended March 31, 2023** |
|---|---|---|---|---|---|---|
| Weighted average fair value at grant date | | | | | | |
| | April 01, 2022 to October 31, 2022 | | | | | 512.70 |
| | November 01, 2022 to January 15, 2023 | | | | | 630.00 |
| | January 16, 2023 to March 31, 2023 | | | | | 501.00 |

## 38 Financial risk management objectives and policies

The Group's principal financial liabilities comprise of loans, borrowings, trade payables, lease liabilities, capital creditor, retention money payables, employee benefit payables, deferred consideration and refund liabilities. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include loans, trade and other receivables, investment in preference shares, bank deposits, security deposits and cash and cash equivalents that derive directly from its operations. The Group is exposed to market risk, credit risk and liquidity risk. The Group's management oversees the management of these risks and appraises the Board of Directors from time to time basis the impact assessment.

### a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include deposits, investments and foreign currency receivables and payables. The sensitivity analysis in the following sections relate to the position as at June 30, 2025, June 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023. The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations and provisions. The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at June 30, 2025, June 30, 2024, March 31, 2025, , March 31, 2024 and March 31, 2023.

### i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Liabilities: The Group has certain exposure of interest rate risk with respect to its borrowings taken during the period/ year.

Assets: The Group's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Group's outstanding borrowings as at the end of reporting period is as follows:

| Particulars | As at June 30, 2025 | As at June 30, 2024 | As at March 31, 2025 | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|---|---|---|
| Borrowings with floating interest rate | 969.34 | 1,158.56 | 2,161.45 | 4,171.68 | 5,125.37 |
| Borrowings with fixed interest rate | 2,385.48 | 2,624.83 | 1,297.94 | 799.86 | 4,046.71 |

**Sensitivity analysis**

The sensitivity of profit or loss to change in the interest rates on the borrowings with floating interest rates. The impact on profit/ loss before tax is as below:

| Particulars | As at June 30, 2025 | As at June 30, 2024 | As at March 31, 2025 | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|---|---|---|
| Interest Increase by 5 bps | 0.46 | 0.25 | (1.38) | (0.59) | 0.38 |
| Interest decrease by 5 bps | (0.46) | (0.25) | 1.38 | 0.59 | (0.38) |

### ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities and the Group's net investments in foreign subsidiary. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the functional currency of any of the Group entities. The Group does not use forward contracts and swaps for speculative purposes.

The Group's exposure to foreign currency risk at the end of the reporting period are as follows:

| | Currency | As at June 30, 2025 | | As at June 30, 2024 | | As at March 31, 2025 | | As at March 31, 2024 | |
