**iii) Price risk**

The Group's exposure to price risk arises from investments held and classified in the balance sheet at fair value through profit or loss. To manage the price risk arising from investments, the group diversifies its portfolio of assets.

**Sensitivity**

**Impact on restated profit before tax**

| Particulars | As at June 30, 2025 | As at June 30, 2024 | As at March 31, 2025 | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|---|---|---|
| **Mutual funds carried at fair value through profit or loss** | | | | | |
| Net assets value – increase by 100 bps | 104.37 | 107.39 | 98.78 | 96.16 | 75.14 |
| Net assets value – decrease by 100 bps | (104.37) | (107.39) | (98.78) | (96.16) | (75.14) |

**b) Credit risk**

Credit risk is the risk of financial loss to the group if a customer or counterparty to a financial asset fails to meet its contractual obligations, and arises principally from the group's receivables from customers, loans and other deposits etc.

The carrying amounts of financial assets represent the maximum credit risk exposure.

*(i) Credit risk management*

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Group only deals with parties which has good credit rating/ worthiness given by external rating agencies or based on Group's internal assessment.

All doubtful receivables are duly recognized from time to time post discussion with key stakeholders and provided for in the Restated Consolidated Financial Informations as deemed appropriate.

All the financial assets carried at amortized cost were considered good as at June 30, 2025, June 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023. The Group has not acquired any credit impaired asset. There was no modification in any financial assets.

Set out below is the information about the credit risk exposure of the Company trade receivables and contract asset using provision matrix.

**Reconciliation of impairment allowance on trade receivables:**

Impairment allowance measured as per simplified approach

| | |
|---|---|
| **Loss allowance as on April 01, 2022** | **28.86** |
| Add/ (less): asset originated or acquired | 58.03 |
| **Loss allowance as on March 31, 2023** | **86.89** |
| Add/ (less): asset originated or acquired | (31.10) |
| **Loss allowance as on March 31, 2024** | **55.79** |
| Add/ (less): asset originated or acquired | - |
| **Loss allowance as on June 30, 2024** | **55.79** |
| **Loss allowance as on April 01, 2024** | **55.79** |
| Add/ (less): asset originated or acquired | (15.77) |
| **Loss allowance as on March 31, 2025** | **40.02** |
| Add/ (less): asset originated or acquired | (0.24) |
| **Loss allowance as on June 30, 2025** | **39.78** |

**a. Financial instruments and cash deposits**

Credit risk from balances with banks and financial institutions is managed by the group's treasury department. Investments of surplus funds are made in approved investment instruments as aligned with the Board. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

**b. Security deposit and other advances**

With regards to security deposit and other advances, the management believes these to be high quality assets with negligible credit risk. The management believes the parties to which these deposits and other advances have been made have strong capacity to meet the obligations and where the risk of default is negligible or nil and accordingly no provision for excepted credit loss has been provided on these financial assets.

**c. Trade receivables (Expected credit loss for trade receivables under simplified approach)**

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. Under the simplified approach, the Group does not track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from initial recognition.

For homogeneous group of receivables, the Group uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default and delay rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At year end, the historical observed default and delay rates are updated and changes in the forward-looking estimates are analysed.

For other debtors that are heterogenous in nature, individual receivables which are known to be uncollectible are written off by reducing the carrying amount of trade receivable and the amount of the loss is recognised in the Restated consolidated summary statement of profit and loss within other expenses.

**c) Liquidity risk**

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Considering the business requirements, the group's treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows.

*(i) Maturities of financial liabilities*

The tables below analyse the Group's financial liabilities into relevant maturity groupings based on their contractual maturities. This is done for all financial liabilities for which the contractual maturities are essential for an understanding of the timing of the cash flows. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

**Excessive risk concentration**

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

**d) Capital management**

For the purpose of the Group's capital management, capital includes issued equity capital, preference shares, securities premium and all other equity reserves attributable to the equity holders. The primary objective of the Group's capital management is to ensure the Group's ability to continue as a going concern and maximise the shareholder value. Management assesses the Group's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. No changes were made in the objectives, policies or processes for managing capital during the period ended June 30, 2025, June 30, 2024 and year ended March 31, 2025, March 31, 2024 and March 31, 2023.

The Group monitors capital using gearing ratio, which is net debt (total debt including lease liabilities less cash and cash equivalents) divided by total capital(including non controlling interest) plus net debt.

**39A. Audit trail**

**March 31, 2025**

The Holding Company has used multiple accounting software's including third party applications for maintaining its books of account, which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software, however (a) with respect to main accounting software operated by third party management could not identify the control relating to audit trail features at database level in the service organisation control report thus management is unable to assess whether audit trail feature was enabled and operated throughout the year at database level. (b) For two Inventory management software's audit trail feature was enabled in phase wise manner i.e. July 30, 2024 onwards and therefore was effective through the remaining part of the year. Further, post effectiveness of audit trail features, management has not identified any instances of audit trail features being tampered, to the extent enabled.

Additionally, with respect to main accounting software, in the absence of controls in the service organization control report, the Holding Company is unable to assess whether the audit trail has been preserved and with respect to inventory management software's audit trail have been preserved by the Holding Company as per the statutory requirements for record retention, to the extent it was enabled.

Further, subsidiaries, associates and joint ventures incorporated in India, have used multiple accounting software including third party applications for maintaining its books of account which has a feature of recording audit trail (edit log) facility and have complied with the requirement of rule 3 (1) of the Companies (Accounts) Rules, 2014, wherein there is no instance of tampering of records and audit trail (edit log) have been preserved as per the statutory requirements of Ministry of Corporate Affairs to the extent it was enabled and recoded in those respective years except:

a.with respect to one subsidiary, the audit trail feature over the accounting software is not enabled, and

b.with respect to three subsidiaries, the accounting software used for maintaining the books of account does not have the feature of recording audit trail (edit log) facility.

**March 31, 2024**

The Group has used main accounting software (ERP) and it's related application for maintaining its books of account which has a feature of recording audit trail (edit log) facility, however the audit trail functionality was not enabled throughout the year for all relevant transactions recorded in the software. The Group is in the process of enabling the said functionality in order to be compliant with the with Rules as applicable under Companies Act 2013.

**39B. Audit backup**

**March 31, 2025**

The Group has maintained proper books of accounts as required by law except that (a) with respect to one inventory management software, the Holding Company does not have server located in India for the daily backup of the books of account and other books and papers maintained in electronic mode and (b) with respect to one subsidiary, the server is not located in India for the daily back up of books of accounts and other books and paper maintained in electronic mode . The Holding Company and subsidiary company is in process of setting up server in India in order to be in compliance with Rules as applicable under Companies Act 2013.

**March 31, 2024**

The Group has maintained proper books of accounts as required by law except that the Group does not have the server located in India for the daily back up. The Group is in process of setting up server in India in order to be in compliance with Rules as applicable under Companies Act 2013.

**March 31, 2023**

The Group has maintained proper books of accounts as required by law except that the Group does not have the server located in India for the daily back up. The Group is in process of setting up server in India in order to be in compliance with Rules as applicable under Companies Act 2013.

**40. Components of Other Comprehensive Income (OCI)**

The disaggregation of changes to OCI by each type of reserve in equity is shown below:

**For the three months ended June 30, 2025**

**41. Details of dues to micro and small enterprises as defined under the MSMED Act, 2006.**

The Ministry of Micro, Small and Medium Enterprises has issued an Office Memorandum dated 26 August 2008 which recommends that the Micro and Small Enterprises should mention in their correspondence with its customers the Entrepreneurs Memorandum number as allocated after filling the Memorandum. Based on the information received and available with the Group, there are no dues outstanding to micro and small enterprises (Suppliers) other than covered below under the Micro, Small and Medium Enterprises Development Act, 2006 as at June 30, 2025, June 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023.

**Disclosure as required under the Micro, Small and Medium Enterprises Development Act, 2006 based on the information available with the Company**

| | **June 30, 2025** | **June 30, 2024** | **March 31, 2025** | **March 31, 2024** | **March 31, 2023** |
|---|---|---|---|---|---|
| The principal amount and the interest due thereon remaining unpaid to any supplier as at the end of each accounting period/ year | | | | | |
| Principal amount due to micro and small enterprises | 476.13 | 310.69 | 462.36 | 252.35 | 89.00 |
| Interest due on above | 3.90 | 2.91 | 12.66 | 3.41 | 0.21 |
| The amount of interest paid by the buyer in terms of section 16 of the MSMED Act, 2006, along with the amounts of the payment made to the supplier beyond the appointed day during each accounting period/ year | - | - | - | - | - |
| The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under MSMED Act, 2006. | - | - | 4.72 | - | - |
| The amount of interest accrued and remaining unpaid at the end of each accounting period/year | 3.90 | 2.91 | 16.99 | 3.36 | 0.64 |
| The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the MSMED Act, 2006. | 24.25 | 6.27 | 20.35 | 3.36 | 0.64 |

**42. Segment information**

The Group's operating businesses are organized and managed separately according to the geographical locations of the customers, with each segment representing a strategic business unit that serves different markets.
Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance. The Group's chief operating decision maker is the Chief Executive Officer and Directors.

The Chief Operating Decision Maker of the Group, primarily uses a measure of revenue, profit/(loss) to assess the performance of the operating segments.

The Group has identified geographical segments as reportable segments. The geographical segments comprise:
1) India
2) International

**Revenue and expenses** : Revenue and expenses are attributed to the segments based on the direct relationship to the specific activities of each segment. This includes both directly attributable costs and revenue and a proportionate allocation of common cost. Inter-segment revenue and expenses are eliminated upon consolidation.
**Assets** : These are directly attributable to the segments where they are utilized.
**Liabilities** : These are directly attributable to the segments where they incur.

Summarised segment information for the period ended June 30, 2025 is as follows:

| **Particulars** | **India** | **International** | **Total segments** | **Adjustments and Eliminations** | **Consolidated** |
|---|---|---|---|---|---|
| **Revenue** | | | | | |

| Less: Refund liabilities | 88.25 | 63.41 | 74.95 | 84.15 | 35.97 |
| **Revenue from operations** | 18,895.66 | 14,696.40 | 64,926.82 | 52,708.64 | 36,925.66 |

**d) Timing of revenue recognition**

| | **As at June 30, 2025** | **As at June 30, 2024** | **As at March 31, 2025** | **As at March 31, 2024** | **As at March 31, 2023** |
|---|---|---|---|---|---|
| Goods transferred at a point in time | 18,221.82 | 14,356.04 | 63,599.39 | 51,662.99 | 36,098.18 |
| Services recognised over time | 672.37 | 337.17 | 1,319.79 | 1,035.44 | 815.30 |
| Services recognised at point in time | 1.47 | 3.19 | 7.64 | 10.21 | 12.18 |
| Total revenue from Contract with customers | 18,895.66 | 14,696.40 | 64,926.82 | 52,708.64 | 36,925.66 |

**e) Performance obligation:**

**Sale of goods**

The performance obligation is satisfied upon delivery of the goods. The Group also provides upto one year warranty which has been provided for as per applicable Ind AS 37.

**Sale of services**

Revenue from membership fees is recognised over the period of membership by measuring the progress towards complete satisfaction of that performance obligation.

**f) Revenue recognised in relation to contract liabilities**

Ind AS 115 also requires disclosure of 'revenue recognised in the reporting period that was included in the contract liability balance at the beginning of the period' and 'revenue recognised in the reporting period from performance obligations satisfied (or partially satisfied) in previous periods. Same has been disclosed as below:

| | **As at June 30, 2025** | **As at June 30, 2024** | **As at March 31, 2025** | **As at March 31, 2024** | **As at March 31, 2023** |
|---|---|---|---|---|---|
| Revenue recognised in the reporting period that was included in the contract liability balance at the beginning of the period/ year | 1,327.56 | 1,602.77 | 1,602.77 | 1,043.38 | 572.72 |
| Revenue recognised in the reporting period from performance obligations satisfied (or partially satisfied) in previous periods/ years | - | - | - | - | - |

## 45 Business Combinations

### A Business Combinations - Tango IT Solutions India Private Limited

**a. Summary of acquisition**

During the year ended March 31,2024 the Holding Company has acquired 100% shareholding of Tango IT Solutions India Private Limited ("Tango") of INR 10 each. Due to the said transaction, Tango has been classified as wholly owned subsidiary, per the requirement of Ind AS 103 - Business combinations step up accounting has been followed. The group will benefit from use of Tango IT Solutions algorithms to analyse customer data.

Details of the purchase consideration, the net assets acquired and goodwill are as follows:

| Particulars | Amount |
|---|---|
| Cash consideration paid for 69.97% acquisition | 72.09 |
| Cash consideration of 30.03% stake (earlier held as associate) | 70.00 |
| **Purchase consideration (A)** | **142.09** |
| Less: Loss on account of fair valuation of earlier stake | (38.99) |
| Net Carrying value of 100 % stake | **103.10** |
| | |
| **Assets and liabilities recognised as a result of acquisition are as follows:** | |
| **Non current assets** | |
| Property, plant and equipment (including Capital work-in-progress) | 1.99 |
| **Current assets** | |
| Trade receivables* | 3.12 |
| Cash and cash equivalents | 26.90 |
| Other assets | 1.63 |
| **Less: Liabilities assumed** | |
| Other liabilities - trade and non trade | (5.08) |
| Other financial liabilities (current) | (4.00) |
| Statutory dues | (1.52) |
| Deferred tax liabilities (net) | 0.64 |
| | |
| **Net assets acquired (B)** | **23.68** |
| **Assets identified on account of purchase price allocation ( C )** | |
| Trade Name - Tango IT | 8.30 |
| Technology | 29.35 |
| Deferred tax liabilities on account of above identified assets | (9.48) |
| | |
| **Goodwill (A-B-C)** | **51.25** |

* The fair value of the trade receivables amounts to INR 3.12 million. The gross amount of trade receivables is INR 3.12 million. However, none of the trade receivables is credit impaired and it is expected that the full contractual amounts can be collected.

Goodwill represents the fair value of expected synergies arising from this acquisition.

**b. Measurement of fair value of identifiable net assets**

The valuation model for fair valuation of property, plant and equipment considers quoted market prices for similar items when available, and depreciated replacement cost when appropriate. Depreciated replacement cost reflects adjustments for physical deterioration as well as functional and economic obsolescence. Intangible assets are fair valued based on the relief–from–royalty method and multi–period excess earnings methods. The relief–from–royalty method considers the discounted estimated royalty payments that are expected to be avoided as a result of the patents or trademarks being owned. The multi–period excess earnings method considers the present value of net cash flows expected to be generated by the customer relationships, by excluding any cash flows related to contributory assets.

**c. Revenue and profit contribution**

The acquired business contributed revenue of Rs. 26.25 million and loss of Rs. 17.80 million to the group for the period October 14, 2023 to March 31, 2024.

## B Business Combinations - Owndays Inc.

### a. Summary of acquisition

During the year ended March 31, 2023, a subsidiary company named - Lenskart Singapore Pte Limited has made an investment for acquisition of 92.27% of total share capital of Owndays Inc as on August 10, 2022, for a consideration of Rs. 25,128.40 million. Further, the Holding Company has executed a contract to acquire the remaining 7.73% stake from existing shareholders at a consideration to be determined as per the contractual terms. Such consideration payable by the group has been accounted as a deferred liability and measured at fair value through profit or loss.

Owndays Inc is one of the fast growing eyewear company in South-East Asia & Japan. The acquisition of Owndays coupled with Lenskart's technology and manufacturing capabilities will enable to create one of the most impactful eyewear companies in the world.

Details of the purchase consideration, the net assets acquired and goodwill are as follows:

| Particulars | Amount |
|---|---|
| Cash consideration paid | 25,128.40 |
| Deferred consideration measured at fair value | 4,147.99 |
| **Purchase consideration (A)** | **29,276.39** |
| | |
| **Assets and liabilities recognised as a result of acquisition are as follows:** | |
| **Non current assets** | |
| Property, plant and equipment (including Capital work-in-progress) | 2,574.56 |
| Software | 49.17 |
| Right to use of leased properties | 6,346.40 |
| Other assets | 1,393.48 |
| **Current assets** | |
| Inventories | 1,490.38 |
| Trade receivables | 1,075.52 |
| Cash and cash equivalents | 3,914.17 |
| Other assets | 526.13 |
| **Less: Liabilities assumed** | |
| Long term borrowings from Banks | (2,708.96) |
| Short term borrowings | (766.42) |
| Lease liabilities | (6,731.20) |
| Other liabilities - trade and non trade | (3,241.44) |
| Other financial liabilities (current) | (137.33) |
| Contingent liability for amount payable against litigations | (16.29) |
| Income tax liabilities | (59.71) |
| Deferred tax liabilities (net) | (3.47) |
| | |
| **Net assets acquired (B)** | **3,704.99** |
| **Assets identified on account of purchase price allocation ( C )** | |
| Brands | 8,006.22 |
| Franchisee Agreements | 1,211.45 |
| Non-compete Agreement | 335.41 |
| Deferred tax liabilities on account of above identified assets | (1,634.30) |
| | |
| **Non-controlling interest in the acquired entity (D)** | **959.09** |
| | |
| **Goodwill (A-B-C-D)** | **18,611.71** |

Goodwill represents the fair value of expected synergies arising from this acquisition.

### b. Consideration transferred

The acquisition of Rs. 25,128.40 million was settled in cash.

### c. Measurement of fair value of identifiable net assets

The valuation model for fair valuation of property, plant and equipment considers quoted market prices for similar items when available, and depreciated replacement cost when appropriate. Depreciated replacement cost reflects adjustments for physical deterioration as well as functional and economic obsolescence. Intangible assets are fair valued based on the relief–from–royalty method and multi–period excess earnings methods. The relief–from–royalty method considers the discounted estimated royalty payments that are expected to be avoided as a result of the patents or trademarks being owned. The multi–period excess earnings method considers the present value of net cash flows expected to be generated by the customer relationships, by excluding any cash flows related to contributory assets. Raw materials are fair valued using the replacement cost method of the cost approach. Finished goods and work–in–progress are valued using the comparative sales method of the market approach which uses the actual or expected selling prices of finished goods as the base amount. The fair value of the trade and other receivables acquired as part of the business combination amounted to Rs. 2,995.13 million, with a gross contractual amount of Rs. 2,995.13 million.

### d. Revenue and profit contribution

During the year ended March 31, 2023, the acquired business contributed revenue of Rs. 13,076.00 million and profit of Rs. 586.00 million to the group for the period August 10, 2022 to March 31, 2023.

## C Business Combinations - Dealskart Online Services Private Limited

### a. Summary of acquisition

During the year the Holding Company has acquired 100% shareholding of Dealskart Online Services Private Limited as on December 31, 2024 for a consideration of INR 20 million. Due to the said transaction, Dealskart has been classified as wholly owned subsidiary, as per the requirement of Ind AS 103 - Business combinations step up accounting has been followed. The acquisition has helped the holding company in running stores as it is providing operations and maintenance (O&M) services to Lenskart's omni-channel stores, pan India.

Details of the purchase consideration, the net assets acquired and goodwill are as follows:

| **Particulars** | **Amount** |
|---|---|
| Cash consideration paid | 20.00 |
| **Purchase consideration (A)** | **20.00** |
| **Assets and liabilities recognised as a result of acquisition are as follows:** | |
| **Non current assets** | |
| Property, plant and equipment (including Capital work-in-progress) | 1,078.51 |
| Other intangible assets | 0.57 |
| Right of use asset | 1,104.48 |
| Other assets | 687.83 |
| Deferred tax Assets (net) | 209.76 |
| **Current assets** | |
| Trade receivables* | 131.15 |
| Cash and cash equivalents | 53.86 |
| Other assets | 168.70 |
| **Less: Liabilities assumed** | |
| Lease liabilities | (1,187.90) |
| Trade payables | (2,112.45) |
| Other financial liabilities (current) | (42.21) |
| Statutory Dues | (44.04) |
| Provisions | (106.19) |
| **Net assets acquired (B)** | **(57.93)** |
| **Assets identified on account of purchase price allocation ( C )** | **-** |
| **Goodwill (A-B-C)** | **77.93** |

* The fair value of the trade receivables amounts to INR 131.15 million. The gross amount of trade receivables is INR 131.15 million. However, none of the trade receivables is credit impaired and it is expected that the full contractual amounts can be collected.

Goodwill represents the fair value of expected synergies arising from this acquisition.

### b. Measurement of fair value of identifiable net assets

The valuation model for fair valuation of property, plant and equipment considers quoted market prices for similar items when available, and depreciated replacement cost when appropriate. Depreciated replacement cost reflects adjustments for physical deterioration as well as functional and economic obsolescence.

### c. Revenue and profit contribution

The acquired business contributed revenue of Rs. 1,237.71 million (before elimination) and profit after tax of Rs. 30.31 million (before elimination) to the group for the period January 01, 2025 to March 31, 2025.

*(This space has been left blank intentionally)*

*The above amounts / percentage of net assets and net profit or (loss) in respect of Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited), its subsidiaries, joint venture and associate are determined based on the amounts of the respective entities included in Restated Consolidated Financial Informations before inter-Company eliminations / consolidation adjustments.

*(This space has been left blank intentionally)*

**49. Right of use assets (ROU) and lease liability**

The Group has lease contracts for various properties (including leasehold land, office buildings and stores) used in the normal course of business.
- Leasehold land is a lease executed with Rajasthan State Industrial Development and Investment Corporation Ltd. ('RIICO') for a period of 99 years.
- Lease of office building and stores generally have lease term between 5 to 15 Years.

The Group's obligation under its leases are secured by the lessor's title to the leased asset. Such leases are recognised as right to use asset. Further, out of such properties, there are certain property leases further given on sub lease during the year and classified as Investment property in the Restated Consolidated Financial Informations.

The Group also has certain leases of building with less than 12 months and certain lease assets with low value. Low value leases means whose rentals are upto INR 10,000 per month. The Group applies the " short term lease" and " lease of low value asset" recognition exemption for these leases.

**a) Group as lessee**

The changes in the carrying value of Right to Use (ROU) assets for the period ended June 30, 2025 and June 30, 2024 and year ended March 31, 2025; March 31, 2024; and March 31, 2023 are as follows:

Government grant to be received for the purchase of certain items of property, plant and equipment. The Holding Company has to fulfil export obligation of six times of amount of duty saved over a period of six years, from respective date of import, under the Export Promotion Capital Goods scheme against import of plant and machinery. (refer note 33)

**53 Impairment of Goodwill and Brand - indefinite life**

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any. Goodwill is tested for impairment annually or when events or circumstances indicate that the implied fair value of goodwill is less than its carrying amount.

CGUs to which goodwill and indefinite life brand has been allocated are tested for impairment annually, or more frequently when there is indication for impairment. The financial projections basis which the future cash flows have been estimated consider economic uncertainties, reassessment of the discount rates, revisiting the growth rates factored while arriving at terminal value and subjecting these variables to sensitivity analysis. If the recoverable amount of a CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit.

**Goodwill consists of the following:**

| Particulars | As at June 30, 2025 | As at June 30, 2024 | As at 31 March 2025 | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|---|---|---|
| Balance at the beginning of the period/year | 18,755.94 | 18,673.83 | 18,673.83 | 18,622.58 | 10.87 |
| Adjustment due to business acquisition (refer note 45) | - | - | 92.98 | 51.25 | 18,611.71 |
| Impairment | - | (10.87) | (10.87) | - | - |
| **Closing balance** | **18,755.94** | **18,662.96** | **18,755.94** | **18,673.83** | **18,622.58** |

**Brand with indefinite life consists of the following:**

| Particulars | As at June 30, 2025 | As at June 30, 2024 | As at 31 March 2025 | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|---|---|---|
| Balance at the beginning of the period/year | 8,597.45 | 8,383.19 | 8,383.19 | 8,323.02 | - |
| Adjustment due to business acquisition (refer note 45) | - | - | - | - | 7,979.57 |
| Exchange translation difference | 21.96 | - | 214.26 | 60.17 | 343.45 |
| **Closing balance** | **8,619.41** | **8,383.19** | **8,597.45** | **8,383.19** | **8,323.02** |

Goodwill of Rs. 18,626.76 milllion, Rs.18,611.71, Rs. 18,626.76 million, Rs. 18,611.71 million and Rs. 18,611.71 million and Brand of Rs. 8,619.41 million, Rs. 8,383.19 million, Rs. 8,597.45 million, Rs. 8,383.19 million and Rs. 8,323.02 as at June 30, 2025, June 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023, respectively, has been allocated to the business in International geography CGU. The estimated value-in-use of this CGU is based on the future cash flows using a inflation adjusted terminal annual growth rate and discount rate of 9.5%. An analysis of the sensitivity of the computation to a change in key parameters (operating margin, discount rates and long term average growth rate), based on reasonable assumptions, did not identify any probable scenario in which the recoverable amount of the CGU would decrease below its carrying amount.

The remaining amount of goodwill of 129.18 million, 51.25 million, 129.18 million, 62.12 million and 10.87 million as at June 30, 2025, June 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023, respectively, (relating to India geography CGUs) has been evaluated based on the cash flow forecasts of the related CGU and the recoverable amounts of the CGU exceeded their carrying amounts except impairment of 10.87 million has recognised during the period ended June 30, 2024 and year ended March 31, 2025.

**54** During the three months ended June 30, 2025, Company entered into a binding agreement to acquire additional stake equivalen tto 78.79% at a consideration of Rs. 108.60Mn. Based on the consumated transaction, the said purchase consideration for considered as fair value. Accordingly, management has recorded the impairment amounting to Rs. 103.86 Mn in relation to earlier held stake, which has been disclosed as exceptional item in the Restated Consolidated Financial Information .

**55** Capital advance includes advance of Rs.163.40 million given to Telangana State Industrial Infrastructure Corporation Limited (TSIIC) towards allotment of land for setting up a greenfield manufacturing facility for optical glasses. Subsequent to the period ended June 30, 2025, based on discussions with TSIIC, an alternate land allotment has been proposed by TSIIC. The management based on these discussions with TSIIC believes that the amount paid is fully adjustable against the proposed new land allotment and therefore does not need any provision to be made on this account.

**56** A. Subsequent to the three months ended June 30, 2025, the Company's wholly owned subsidiary, Lenskart Singapore Pte. Ltd., acquired an 84.21% stake in Stellio Ventures S.L for Rs 4,125.30 million.

B.Subsequent to the three months ended June 30, 2025, the Company has acquired the additional stake of 78.79% in QuantDuo Technologies Private Limited, pursuant to which it has become a subsidiary of the Company with a total stake of 96.50% for Rs. 113 million.

C. Subsequent to the three months ended June 30, 2025, the Company has investment of Rs. 215.02 million for acquisition of 5.05% stake in Dimension NXG Private Limited pursuant to which it has been classified as an associate.

**57** Subsequent to June 30, 2025, the Board of directors in their meeting held on October 10, 2025, has approved conversion of all outstanding Preference Shares as mentioned in note 13(B) into equity shares as per the terms of issue. The Company has filed relevant forms with Ministry of Corporate Affairs (MCA), such conversion has not resulted into any change in the total shareholder's fund.

**58** The Group has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under section 92-92F of the Income Tax Act 1961. Since, the law requires existence of such information and documentation of to be contemporaneous in nature, group has executed necessary agreement/document with all such related parties wherever transfer pricing is applicable. The management is of the opinion that it's transaction are at arm's length so that the aforesaid legislation will not have any impact on the Restated Consolidated Financial Informations, particularly on the amount of tax expenses and that of provision for tax.

Golf Course Road Sector 43, DLF QE,
Gurgaon, Haryana, India, 122009

**Report on the Compilation of Unaudited Proforma Financial Information included in Red Herring Prospectus ("RHP") and Prospectus (together referred to as "Offer Documents") (referred to as "Offer Documents")**

1. We have completed our assurance engagement to report on the compilation of unaudited proforma financial information of Lenskart Solutions Limited (formerly as Lenskart Solutions Private Limited) (hereinafter referred to as "the Company") by the management of the Company. The unaudited proforma financial information consists of the unaudited proforma balance sheets as at June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, the unaudited proforma statements of profit and loss for the three months period ended June 30, 2025 and for the each years ended March 31, 2025, March 31, 2024 and March 31, 2023 and related notes to the unaudited proforma financial information ("Unaudited Proforma Financial Information"). The applicable criteria on the basis of which the management of the Company has compiled the Unaudited Proforma Financial Information are described in note 2 to the Unaudited Proforma Financial Information.

2. The Unaudited Proforma Financial Information has been compiled by the management of the Company to illustrate :

   i the impact of the acquisition Dealskart Online Service Private Limited, acquired as on December 31, 2024, and as set out in note 2 to the Unaudited Proforma Financial Information on the Company's financial position as at March 31, 2024 and March 31, 2023 as if the aforesaid acquisitions had been consummated on March 31, 2024 and March 31, 2023 and its financial performance for the nine months period from April 01, 2024 to December 31, 2024 and for each of the years ended March 31, 2024 and March 31, 2023 as if the aforesaid acquisitions had been consummated on April 01, 2024, April 01, 2023 and April 01, 2022.

   ii the impact of the acquisition of Stellio Ventures, S.L. and Quantduo Technologies Private Limited, subsequent to June 30, 2025 and as set out in note 2 to the Unaudited Proforma Financial Information on the Company's financial position as at June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 as if the aforesaid acquisitions had been consummated on June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, and its financial performance for the three months period ended June 30, 2025 and for each of the years ended March 31, 2025, March 31, 2024 and March 31, 2023 as if the aforesaid acquisitions had been consummated on April 01, 2025, April 01, 2024, April 01, 2023 and April 01, 2022.

   The above-mentioned entities namely Dealskart Online Services Private Limited, Stellio Ventures, S.L. and Quantduo Technologies Private Limited (collectively referred to as "Acquired Enterprises").

3. As part of this process, information about the Company's financial position and financial performance has been extracted by the management of the Company from the Restated Consolidated Financial Information of the Company, its subsidiaries, associates and joint ventures for the three months period ended June 30, 2025 and for the each years ended March 31, 2025, March 31, 2024 and March 31, 2023, on which we have issued an examination report on October 14, 2025. The information about the financial position and the financial performance of the Acquired Enterprises, have been extracted by the management of the Company from:

   (i) the audited Special Purpose Financial Statements of Dealskart Online Private Limited for the nine months period ended December 31, 2024 and the audited Special Purpose Financial Statements for each of the years ended March 31, 2024, and March 31, 2023 on which JC Bhalla & Co., Chartered Accountants have expressed an unmodified audit opinion vide their audit reports dated July 07, 2025.

   (ii) the audited Special Purpose Financial Statements of Stellio Ventures, S.L. for the three months period ended June 30, 2025 and for each of the years ended March 31, 2025, March 31, 2024, and March 31, 2023, on which Bansal & CO LLP, Chartered Accountants have expressed an unmodified audit opinion vide their audit reports dated October 13, 2025.

   (iii) the audited Special Purpose Financial Statements of Quantduo Technologies Private Limited for the three months period ended June 30, 2025 on which MDA & CO., Chartered Accountants have expressed an unmodified audit opinion vide their audit reports dated October 08, 2025.

(iv) the audited Financial Statements of Quantduo Technologies Private Limited for each of the years ended March 31, 2025, March 31, 2024, and March 31, 2023, on which MDA & CO., Chartered Accountants have expressed an unmodified audit opinion vide their audit reports dated May 08, 2025, June 28, 2024 and August 24, 2023 respectively.

**Management's Responsibility for the Unaudited Proforma Financial Information**

4. The management of the Company is responsible for compiling the Unaudited Proforma Financial Information on the basis set out in note 2 to the Unaudited Proforma Financial Information. This responsibility includes the responsibility for designing, implementing and maintaining internal control relevant for compiling the Unaudited Proforma Financial Information on the basis set out in note 2 to the Unaudited Proforma Financial Information that is free from material misstatement, whether due to fraud or error. The management of the Company is also responsible for identifying and ensuring that the Company complies with the laws and regulations applicable to its activities, including compliance with the provisions of the laws and regulations for the compilation of Unaudited Proforma Financial Information.

**Practitioner's Responsibilities**

5. Our responsibility is to express an opinion, whether the Unaudited Proforma Financial Information have been compiled, in all material respects, by the management of the Company on the basis set out in note 2 to the Unaudited Proforma Financial Information ("Applicable Criteria").

6. We conducted our engagement in accordance with Standard on Assurance Engagements (SAE) 3420, Assurance Engagements to Report on the Compilation of Proforma Financial Information included in a Prospectus, issued by the Institute of Chartered Accountants of India. This Standard requires that we comply with ethical requirements and plan and perform procedures to obtain reasonable assurance about whether the management of the Company has compiled, in all material respects, the Unaudited Proforma Financial Information on the basis set out in Applicable Criteria.

7. For purposes of this engagement, we are not responsible for updating or reissuing any reports or opinions on any historical financial information / Restated Consolidated Financial Information used in compiling the Unaudited Proforma Financial Information, nor have we, in the course of this engagement, performed an audit or review of the financial information used in compiling the Unaudited Proforma Financial Information.

8. For our assurance engagement, we have placed reliance on the following:

   a) the Restated Consolidated Financial Information of the Company, its subsidiaries, associates and joint venture for three months period ended June 30, 2025 and for the each of the years ended March 31, 2025, March 31, 2024 and March 31, 2023 and the relevant supporting information;

   b) the audited Special Purpose Financial Statements of Dealskart Online Private Limited for nine months ended December 31, 2024 and the audited Special Purpose Financial Statements for each of the years ended March 31, 2024, and March 31, 2023 on which JC Bhalla & Co., Chartered Accountants have expressed an unmodified audit opinion vide their audit reports dated July 07, 2025;

   c) the audited Special Purpose Financial Statements of Stellio Ventures, S.L. for the three months period ended June 30, 2025 and for each of the years ended March 31, 2025, March 31, 2024, and March 31, 2023, on which Bansal & CO LLP, Chartered Accountants have expressed an unmodified audit opinion vide their audit reports dated October 13, 2025.

   d) the audited Special Purpose Financial Statements of Quantduo Technologies Private Limited for the three months period ended June 30, 2025 on which MDA & CO., Chartered Accountants have expressed an unmodified audit opinion vide their audit reports dated October 08, 2025.

   e) the audited Financial Statements of Quantduo Technologies Private Limited for each of the years ended March 31, 2025, March 31, 2024, and March 31, 2023, on which MDA & CO., Chartered Accountants have expressed an unmodified audit opinion vide their audit reports dated May 08, 2025, June 28, 2024 and August 24, 2023 respectively.

9. The purpose of Unaudited Proforma Financial Information included in the Offer Documents is solely to illustrate the impact of significant acquisition of Acquired Enterprises as mentioned in para 2 on unadjusted financial information of the Company as if the acquisition had occurred at an earlier date selected for purposes of the illustration. Accordingly, we do not provide any assurance that the actual outcome of the event or transaction on the three month period ended June 30, 2025 and as at March 31, 2025, March 31, 2024 and March 31, 2023 and for each of the years then ended or would have been, as presented.

10. A reasonable assurance engagement to report on whether the Unaudited Proforma Financial Information has been compiled, in all material respects, on the basis of the Applicable Criteria, involves performing procedures to assess whether the Applicable Criteria used by the management of the Company in the compilation of the Unaudited Proforma

Financial Information provide a reasonable basis for presenting the significant effects directly attributable to the event or transaction, and to obtain sufficient appropriate evidence about whether:

a. The related proforma adjustments give appropriate effect to those Applicable Criteria; and.

b. The Unaudited Proforma Financial Information reflects the proper application of those adjustments to the unadjusted financial information of the Company.

The procedures selected depend on the practitioner's judgement, having regard to the practitioner's understanding of the nature of the Company, the event or transaction in respect of which the Unaudited Proforma Financial Information has been compiled, and other relevant engagement circumstances.

The engagement also involves evaluating the overall presentation of the Unaudited Proforma Financial Information.

11. Our work has not been carried out in accordance with auditing and other standards and practices generally accepted in other jurisdictions and accordingly should not be relied upon as if it had been carried out in accordance with those standards and practices.

12. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Opinion**

13. In our opinion, the Unaudited Proforma Financial Information has been compiled, in all material respects, on the basis set out in the Note 2 to the Unaudited Proforma Financial Information.

**Restrictions on use**

14. This report should not in any way be construed as a reissuance or re-auditing or re-examination of any of the previous audit reports issued by us or other auditors. We have no responsibility to update our report for events and circumstances occurring after the date of the report.

15. Our report is intended solely for use of the Board of Directors of the Company for inclusion in the Offer Documents, to be filed with Securities and Exchange Board of India, National Stock Exchange of India Limited and BSE Limited in connection with the Proposed initial public offering of the Company and is not to be used, referred to or distributed for any other purpose.

**Notes to the Unaudited Proforma Financial Information for the three months ended June 30, 2025 and as at and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023**
**(All amounts in Indian Rupees millions, unless otherwise stated)**

**1 Background:**

Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited) (thereinafter referred to as "the Company","Holding Company" ), was incorporated on May 19, 2008 under the provisions of the Companies Act, 1956. The registered office of the company is located at Plot No. 151, Okhla Industrial Estate, Phase III, New Delhi 110020, Delhi, India.

The Holding Company and its subsidiaries (referred to collectively as the 'Group'), its joint ventures and associates is engaged into designing, manufacturing, branding, and retailing of own-branded eyewear products. The Company sells prescription eyeglasses, sunglasses, and other products including contact lenses and eyewear accessories.

The Unaudited Proforma Financials Information has been prepared to illustrate the impact of following acquisitions (together these acquisition are referred as "Acquired Entreprises") :

**Acquisition before June 30, 2025:**

i. The Company acquired 100% equity interest in Dealskart Online Services Private Limited ("DOSPL") on December 31, 2024. The principal activity of Dealskart Online Services Private Limited is in the retail and distribution of branded and private labelled Eyeglasses, Sunglasses and Contact lenses and also operating in online market place.

**Acquisitions subsequent to June 30, 2025:**

(i) The Company acquired 84.21% equity interest in Stellio Ventures ,S.L ("Meller") on August 11, 2025 which has with effect from that date become a subsidiary of Lenskart Solutions Pte. Ltd (wholly owned subsidiary of the Holding Company). Lenskart Solutions Pte. Ltd. also entered into a put and call option for the acquisition of the remaining shares in Meller from the founders of the Meller. The principal activity of Meller is import and sale of sunglasses.

(ii) The Company acquired 79.04% equity interest in Quantduo Technologies Private Limited ("QTPL") on October 04, 2025, previously Company has 17.11% equity interest in QTPL accounted as associate, aggregating to a total of 96.15% equity interest, which has with effect from that date become a subsidiary of the Company. The principal activity of QTPL is to develop analytics solutions for industries that deal with a large amount of data and carry on all or any business of marketing and distributing the software solutions developed by the QTPL and provide consulting services directly to consumers or enterprises.

Refer note 3(d) for consideration paid for the acquired entities.

**2 Basis of preparation:**

2.1 The Unaudited Proforma Financial Information as at and for the three months period ended June 30, 2025 and for the each year ended March 31, 2025, March 31, 2024 and March 31, 2023 have been voluntarily prepared by the management of the Company in accordance with the requirements of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended to date (the "SEBI Regulations") issued by the Securities and Exchange Board of India (the "SEBI") to illustrate the impact of the acquired enterprises for which financial information is to be disclosed in the Red Herring Prospectus ("RHP").

Considering that the acquisitions are significant for the purpose of the business, the Company, as advised by Book Running Lead Managers and based on their discussion, is included such information in the Unaudited Proforma Financial Information, although the same is not required to be mandatorily included as per SEBI Regulations, as amended.

2.2 The Unaudited Proforma Financial Information have been prepared specifically for inclusion in the UDRHP to be filed by the Company with SEBI in connection with proposed Initial Public Offering ("IPO")

2.3 The Unaudited Proforma Financial Information has been prepared by the Company to illustrate the impact of

1. acquisition transaction of DOSPL undertaken as if such acquisition had taken place:
a. on March 31, 2024 and March 31, 2023 respectively for the purpose of unaudited proforma balance sheet as at March 31, 2024 and March 31, 2023 respectively and
b. on April 01, 2024, April 01, 2023 and April 01, 2022 respectively for the purpose of unaudited proforma statement of profit and loss for the year ended March 31, 2025, March 31, 2024 and March 31, 2023 respectively.

2. acquisition transaction of Meller and QTPL undertaken as if the acquisition had taken place:
a. on June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 respectively for the purpose of unaudited proforma balance sheet as at June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 respectively and
b. on April 01, 2025, April 01, 2024, April 01, 2023 and April 01, 2022 respectively for the purpose of unaudited proforma statement of profit and loss for the three months period ended June 30, 2025 and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023 respectively.

2.4 The Unaudited Proforma Financial Information are derived from:

i) restated consolidated financial information of the Group as at and for the three months period ended June 30, 2025 and as at year ended March 31, 2025, March 31, 2024 and March 31, 2023.

ii) Audited Special Purpose Ind AS Financial Statements of DOSPL as at for the nine months period ended December 31, 2024 and as at for the year ended March 31, 2024 and March 31, 2023.

ii) Audited Special Purpose Ind AS Financial Statements of Meller as at for the three months period ended June 30, 2025 and as at for the year ended March 31, 2025, March 31, 2024 and March 31, 2023.

iii) Audited Standalone Ind AS Financial Statements of QTPL as at for the three months period ended June 30, 2025 and as at for the year ended March 31, 2025, March 31, 2024 and March 31, 2023.

Adjusted for intercompany eliminations, uniformity of accounting policies and acquisition adjustments for the Acquired Enterprise mentioned above, as if the transaction related to such acquisition to obtain control over the Acquired Enterprises had occurred on June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 for the purpose of unaudited proforma balance sheet.

Further, the unaudited proforma statement of profit and loss for the three months period ended June 30, 2025 and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023 has been illustrated to reflect the Acquired Enterprises as if the transaction related to acquisition to obtain control over Acquired Enterprises occurred on and from April 01, 2025, April 01, 2024, April 01, 2023 and April 01, 2022 respectively. The description of adjustments made to the Unaudited Proforma Financial Information are included in the note 3 below.

The Unaudited Proforma Financial Information are presented in Indian Rupees which is also the Holding Company's functional currency. All values are rounded to the nearest million except when otherwise stated.

The assumptions and estimates underlying the adjustments to the Unaudited Proforma Financial Information are described hereinafter which should be read together with the unaudited proforma balance sheet, unaudited proforma statement of profit and loss.

The Unaudited Proforma Financial Information should be read together with the Group's restated consolidated financial information, the Special Purpose Ind AS Audited Financial Statements of DOSPL and Meller and the standalone of QTPL Ind As Audited Financial Statement.

The business combination of Acquired Enterprises have been accounted for under the acquisition method in accordance with Ind AS 103 'Business Combinations'. Accordingly, Company has allocated the purchase consideration to the estimated fair value of assets acquired and liabilities assumed and recognised the difference between purchase consideration and net assets as goodwill in the unaudited proforma balance sheet as at June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023.

The Unaudited Proforma Financial Information were approved by the Board of Directors of the Company on October 14, 2025.

Because of the nature, the Unaudited Proforma Financial Information addresses a hypothecial situation and therefore, does not represent the Company's factual financial position or results. Accordingly, the Unaudited Proforma Financial Information does not necessarily reflect what the Company's financial condition or results of operations would have been had the acquisition occurred on the dates indicated and is also not intended to be indicative of expected financial position or results of operations in future periods. The actual consolidated balance sheet, consolidated statement of profit and loss may differ significantly from the proforma amounts reflected herein due to variety of factors.

The proforma adjustments are based upon available information and assumptions that the management of the Company believes to be reasonable. Further, such Unaudited Proforma Financial Information has not been prepared in accordance with standards and practices acceptable in any other jurisdiction which may vary significantly from basis of preparation mentioned in Para 2 and accordingly, should not be relied upon as if it had been carried out in accordance with those standards and practices in any other jurisdiction.

4 Accordingly, the degree of reliance placed by anyone on such Unaudited Proforma Financial Information should be limited.

The restated consolidated financial information have been adjusted in the Unaudited Proforma Financial Information to give effect to the proforma event that are (1) directly attributable to such acquisition and (2) factually supportable.

The Unaudited Proforma Financial Information has been prepared taking into consideration:

(i) the restated summary consolidated statement of assets and liabilities as at June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 and restated summary consolidated statement of profit and loss account of the Company for the three months period ended June 30, 2025 and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023;

(ii) Audited Special Purpose Ind AS Financial Statements of DOSPL for the nine months period ended December 31, 2024 and for the year ended March 31, 2024 and March 31, 2023.

(ii) Audited Special Purpose Ind AS Financial Statements of Meller for the three months period ended June 30, 2025 and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023.

(ii) Audited Standalone Ind AS Financial Statements of QTPL for the three months period ended June 30, 2025 and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023.

(iii) inter-company eliminations between the Company and the Acquired Enterprises, for the three months period ended June 30, 2025, for the nine months period ended December 31, 2024 and as at and for the year ended March 31, 2025, March 31, 2024 and March 31, 2023;

(iv) adjustments to recognise the impact of allocation of purchase consideration paid/payable by the Company.

*(This space has been left blank intentionally)*

**3 Proforma Adjustments**

The Special Purpose Ind AS Audited Financial Statements of the Acquired Enterprises have been prepared in accordance with Indian Accounting Standards ("Ind AS") and adjusted to comply with the Group's accounting policies in all material aspects (collectively referred to as "Group accounting policies" as appearing in Restated Consolidated Financial Information). | **Impairment of QTPL** | **-** | **(118.89)** | **(120.12)** | **(127.30)** |

Impairment of QTPL recorded in exceptional item in Unaudited Proforma Statement of Profit and Loss.

| Particulars | June 30, 2025 | March 31, 2025 | March 31, 2024 | March 31, 2023 |
|---|---|---|---|---|
| Carrying amount | 23.33 | 128.18 | 142.22 | 143.45 |
| Reversal of share of loss of associates | 0.99 | 14.04 | 10.44 | 7.18 |

The Company entered into a binding agreement to acquire an additional 78.97% equity stake in Quantduo Investment, raising its shareholding to 96.15% and making Quantduo a subsidiary. Due to acquisition, a fair value assessment revealed that the existing investment in Quantduo was impaired.

**i. Earnings/(loss) per share attributable to owner of the Holding Company**

Proforma basic and diluted EPS calculation for the three months period ended June 30, 2025, for the year ended March 31, 2025, March 31, 2024 and March 31, 2023 has been calculated on unaudited proforma statement of profit and loss for the year and the weighted average number of equity shares outstanding during the year/period. The weighted average number of equity shares outstanding during the period/year is adjusted for number of equity shares issued to shareholders via bonus issues.

| Particulars | June 30, 2025* | March 31, 2025 | March 31, 2024 | March 31, 2023 |
|---|---|---|---|---|
| Proforma profit/(loss) for the year attributable to owners of the Holding Company | 768.31 | 3,750.05 | (51.65) | (1,309.31) |
| **Weighted-average number of equity shares** | | | | |
| Weighted average number of equity shares and preference shares outstanding during the period/year (No's) | 1,68,10,15,590 | 1,64,54,63,060 | 1,62,64,84,246 | 1,50,47,79,528 |
| Add: Weighted average number of equity shares issued (includes exercise of stock options) | - | 2,70,49,395 | 63,18,814 | 6,58,54,131 |
| Less: Treasury shares held by the company at the period/year end | (1,18,146) | (74,695) | (2,36,259) | - |
| **Weighted-average number of equity shares in calculating Basic EPS (C)** | **1,68,08,97,444** | **1,67,24,37,760** | **1,63,25,66,801** | **1,57,06,33,659** |
| **Effect of dilution:** | | | | |
| Weighted average number of share options outstanding including impact of bonus issued during the period/year | 37,71,111 | 36,99,256 | 53,24,093 | 61,40,007 |
| **Weighted average number of Equity shares adjusted for the effect of dilution** | **1,68,46,68,555** | **1,67,61,37,016** | **1,63,78,90,894** | **1,57,67,73,666** |
| Face value per share (in INR) | 2.00 | 2.00 | 2.00 | 2.00 |
| **Proforma Basic Earnings/(loss) per share (in INR)** | **0.46** | **2.24** | **(0.03)** | **(0.83)** |
| **Proforma Diluted Earnings/(loss) per share (in INR)** | **0.46** | **2.24** | **(0.03)** | **(0.83)** |

Diluted EPS represents earning per share based on the total number of shares including the potential estimated number of shares to be issued against stock options in force under the existing stock option plan/scheme, except where diluted EPS would be anti-dilutive.

The Holding Company has issued bonus shares of 69,39,92,016 fully paid-up Equity shares of INR 2/- (Rupees one) each as fully paid-up Equity Shares in proportion of 9 new fully paid-up Equity Shares of INR 2/- for every 1 existing fully paid-up Equity Shares of INR 1/- each to the eligible shareholders of the Holding Company whose names appear in the Registers of Members or in the Register of Beneficial Owner maintained by the depositories on the record date, i.e., October 16, 2024. Consequent to this bonus issue, the earnings per share has also been adjusted for all the previous periods presented, in accordance with Ind AS 33, Earnings per share.

*EPS number are not annualised for three months period ended June 30, 2025.

**j. Exchange rate used for translation of Meller's purchase price allocation**

| Particulars | June 30, 2025 | March 31, 2025 | March 31, 2024 | March 31, 2023 |
|---|---|---|---|---|
| Closing rate | 100.75 | 92.43 | 89.97 | 89.39 |
| Average rate | 97.08 | 90.79 | 89.80 | 83.53 |

**4 Intragroup Eliminations**

This represents elimination adjustments in respect of transactions between the Company and the Acquired Enterprises that have been eliminated from the Unaudited Proforma Financial Information.

| Particulars | As at and for the period ended June 30, 2025 | As at and for the year ended March 31, 2025 | As at and for the year ended March 31, 2024 | As at and for the year ended March 31, 2023 |
|---|---|---|---|---|
| **Unaudited Proforma Balance sheet** | | | | |

## INDEPENDENT AUDITOR'S REPORT ON SPECIAL PURPOSE FINANCIAL STATEMENTS

**To the Board of Directors**
**Dealskart Online Services Private Limited**

### Opinion

We have audited the accompanying Special Purpose Financial Statements of Dealskart Online Services Private Limited (the "Company"), which comprise the Special Purpose Balance Sheet as at December 31, 2024, and the Special Purpose Statement of Profit and Loss (including Other Comprehensive Income), the Special Purpose Statement of Cash Flows and Special Purpose Changes in Other Equity for the financial year from April 01, 2024 to December 31, 2024 and a summary of the material accounting policies and other explanatory information (together hereinafter referred to as "Special Purpose Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Special Purpose Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and its profit including other comprehensive income and the changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Special Purpose Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Special Purpose Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Special Purpose Financial Statements.

### Responsibilities of Management and those charged with Governance for the Special Purpose Financial Statements

The Management of the Company is responsible for the preparation of these Special Purpose Financial Statements in accordance with the basis of preparation indicated in note 2 to the accompanying Special Purpose Financial Statements.

This responsibility also includes maintenance of adequate accounting records in accordance with the accounting principles for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records relevant to the preparation of the Special Purpose Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Special Purpose Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

**Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Special Purpose Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special Purpose Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Special Purpose Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risk, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing opinion on the operating effectiveness of company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Special Purpose Financial Statements, including the disclosures, and whether the Special Purpose Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**Restriction on distribution or use**

Our report is intended solely for your information and for use of the Holding Company in connection with their preparation of Proforma financial Information and for reliance, reference and use of S.R. Batliboi & Associates ("SRBA"), in connection with their Report on the Compilation of Unaudited Proforma Financial Information included in the Draft Red Herring Prospectus ('DRHP') (referred to as "Offer Document") in connection with the proposed initial public offer of Lenskart Solutions Limited (formerly as Lenskart Solutions Private Limited). Our report should not be used, referred to, or distributed for any other purpose except with our prior consent in writing.

Our opinion is not qualified with respect to the above matter.

**Dealskart Online Services Private Limited**
**Summary of material accounting policies and other explanatory information for the period ended 31 December 2024**

## 1. Corporate information

1. Dealskart Online Services Private Limited ("the Company"), incorporated on September 8, 2011. The Company was operating as a master franchisee for retail and distribution of branded and private-label eyeglasses, sunglasses, and contact lenses, operating within both online and omni-channel market segments. The master franchise agreement has been terminated with effect from 26 December 2024.

   Further, Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited) (“Lenskart” or “Acquirer”) acquired the 100% share of the Company on 31 December 2024. Effective from 1 January 2025, the Company is providing operations and maintenance (O&M) services to Lenskart's omni-channel stores PAN India.

## 2. Material accounting policies

### Basis of preparation

These Special Purpose Ind AS Financial Statements will be used by the Acquirer for the purpose of Proforma Financial Statements to be included in the Offer document to be filed by the acquirer in connection with the Proposed IPO, as aforesaid pursuant to the requirement of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018.

These Special Purpose Ind AS Financial Statements of the Company have been prepared in accordance with recognition and measurement principles prescribed under Section 133 of the Companies Act, 2013 read with the rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules 2016 issued thereunder, principles of Ind AS 101, and other accounting principles generally accepted in India ("Ind AS"). However, all the disclosures as required under Ind AS have not been furnished in these Special Purpose Financial Statements.

The financial statements up to year ended March 31, 2024 issued by the Company's management on September 24, 2024 were prepared in accordance with the accounting standards notified under Companies Accounting Standards) Rule, 2021 (as amended) and other relevant provisions of the Companies Act, 2013 ('Indian GAAP' or Previous GAAP').

The preparation of these Special Purpose Ind AS Financial Statements resulted in changes to the accounting policies as compared to most recent annual financial statements prepared under Indian GAAP. The accounting policies have been applied insistently to all periods presented in these Special Purpose IND AS Financial Statements.

These Special Purpose Ind AS Financial Statements for the period ended December 31, 2024 have been prepared after making suitable adjustments to the accounting heads from their Indian GAAP values following accounting policies and accounting policy choices (both mandatory and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (April 1, 2022). These special purpose Ind AS financial statements were approved by the Board of Directors on July 07, 2025.

The items in the Special Purpose Financial Statements have been classified considering the principles under IndAS 1, "Presentation of Financial Statements". Management of the Company has prepared the Special Purpose IND AS Financial Statements which comprise the Special Purpose Balance Sheet as at December 31, 2024 and March 31, 2024, the Special Purpose Statement of Profit and Loss, Special Purpose Statement of Cash Flows and Special Purpose Statement of Changes in Equity for the period ended December 31, 2024 and year ended March 31, 2023.

The management has prepared and issued first complete Ind AS Financial Statements as at and for the year ended March 31, 2025. Only a complete set of Ind AS Financial Statements together with comparative financial information can provide a fair presentation of the Company's state of affairs (Balance Sheet), profit and loss (Statement of Profit and Loss including Other Comprehensive Income (OCI)), cash flows and the changes in equity. While preparing the Special Purpose Ind AS financial statements for the period ended December 31, 2024, the relevant comparative financial information under Ind AS for the period ended December 31, 2023 has not been presented.

### 2A. Functional and presentation currency

These Special Purpose IND AS Financial Statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest millions, unless otherwise indicated.

### 2B. Basis of measurement

These Special Purpose IND AS Financial Statements have been prepared on the historical cost basis except for the following items:

| Items | Measurement basis |
|---|---|
| Financial assets and liabilities | Amortised cost |

The Company has prepared the Special Purpose IND AS Financial Statements on the basis that it will continue to operate as a going concern and climate related matters have been duly considered in going concern assessment.

### 2C. Use of estimates and judgements

In preparing these Special Purpose IND AS Financial Statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

#### A. Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the Special Purpose IND AS Financial Statements:

**Determining the lease term of the contract with renewal and termination option - Company as a lessee**
The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

**Leases - Estimating the incremental borrowing rate:**
The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

#### B. Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the Special Purpose IND AS Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the

Company. Such changes are reflected in the assumptions when they occur. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

**i) Provision for employee benefits**
The measurement of obligations and assets related to defined benefit / other long term benefits plans makes it necessary to use several statistical and other factors that attempt to anticipate future events. These factors include assumptions about the discount rate, the rate of future compensation increases, withdrawal, mortality rates etc. The management has used the past trends and future expectations in determining the assumptions which are used in measurements of obligations.

**ii) Recognition of deferred tax assets**
Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is an evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised.

**iii) Measurement of expected credit loss on trade receivables, loan and other financial assets**
The loss allowance for trade receivables**,** loan and other financial assets disclosed are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's history, existing market conditions as well as forward looking estimates at the end of each reporting period. Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

**iv) Provision for litigation**
The management determines the estimated probability of outcome of any litigation based on its assessment supported by technical advice on the litigation matters, wherever required.

**v) Provision for warranties**
The Company offers one year warranty on Eyeglass and Sunglass. Warranty costs on sale of goods are provided on the basis of management's estimate of the expenditure to be incurred during the unexpired period. Provision is made for the estimated liability in respect of warranty costs in the year of recognition of revenue and is included in the Special Purpose Statement of Profit and Loss. The estimates used for accounting for warranty costs are reviewed periodically and revisions are made as and when required.

**vi) Fair value measurement of financial instruments**
When the fair values of financial assets and financial liabilities recorded in the Special Purpose Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

**vii) Impairment of non-financial assets**
The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ('CGU') is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets ('CGU').

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted

average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

**2D. Measurement of fair values**

A number of the Company's accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

**2E. Current versus non-current classification**

The Company presents assets and liabilities in the Special Purpose Balance Sheet based on current / non-current classification. The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by the Ministry of Corporate Affairs.

An asset is classified as current when it is:
a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
b) Held primarily for the purpose of trading,
c) Expected to be realised within twelve months after the reporting period, or
d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:
a) It is expected to be settled in normal operating cycle,
b) It is held primarily for the purpose of trading,
c) It is due to be settled within twelve months after the reporting period, or
d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

All assets and liabilities have been classified as current or non- current as per the Company's operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as less than 12 months for the purpose of current and non- current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

### 2.1 Property, plant and equipment

**i. Recognition and measurement**

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use, amount of government grant and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. **Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and cost can be measured reliably.

iii. **Depreciation**

Depreciation is provided on a pro-rata basis under the straight-line method. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Plant and machinery# | 7 |
| Office Equipment | 5 |
| Furniture and fixtures | 5 |
| Computers and peripherals | 3 |
| Vehicles | 10 |

# for these class of assets, based on internal technical evaluation, the management believes useful lives as given above best represent the period over which company expects to use these assets.

Leasehold improvements are depreciated over the useful life of individual assets or period of lease, whichever is lower.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

### 2.2 Capital work-in-progress

The cost of property, plant and equipment not ready for their intended use is recorded as capital work-in-progress before such date. Cost of construction that relate directly to specific property, plant and equipment and that are attributable to construction activity in general and can be allocated to specific property, plant and equipment are included in capital work-in-progress.

### 2.3 Intangible assets

**i. Recognition and initial measurement**

Intangible assets represent computer software and trademarks. Intangible assets are stated at acquisition cost less accumulated amortization and impairment loss, if any. The cost of intangible asset comprises its purchase price, including any import duties and non-refundable taxes or levies and any directly attributable expenditure on making the asset ready for its intended use. Intangible assets are amortised in Special Purpose Statement of Profit and Loss on a

straight-line basis in accordance with the estimated useful lives of respective assets. The management's estimates of the rate of amortisation of intangible assets are as follows:

| **Asset category** | **Life (in years)** |
|---|---|
| Software | 5 years |
| Trademarks | 10 years |

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates and cost can be measured reliably. All other expenditure is recognised in profit or loss as incurred.

**iii. Amortisation**

Amortisation expense is charged on a pro-rata basis for assets purchased during the year. Amortisation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

2.4 **Inventories**

Inventories which comprise of traded goods and packing material are carried at the lower of cost and net realisable value.

Cost of inventories comprises all costs of purchase and other expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition.

The methods of determination of cost of various categories of inventories are as follows:

| **Particulars** | **Basis of Valuation** |
|---|---|
| Consumables | Weighted average cost |
| Traded goods | Actual cost |

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

The comparison of cost and net realisable value is made on item by item basis.

**2.5 Financial instruments**

***(i) Recognition and initial measurement***

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Trade receivables are initially recognised at transaction value. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

***(ii) Classification and subsequent measurement***
***Financial assets***

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured *at amortised cost* if it meets both of the following conditions and is not designated as at FVTPL:
- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

*Financial assets: Business model assessment*

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:
- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

*Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest*

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:
- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non- recourse features).

*Financial assets: Subsequent measurement and gains and losses*

*Financial assets at FVTPL*

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

*Financial assets at amortised cost*

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

***Financial liabilities: Classification, subsequent measurement and gains and losses***

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

***(iii) Derecognition***

A financial asset is derecognised only when:

- the Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised.

Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

***(iv) Offsetting***

Financial assets and financial liabilities are offset and the net amount presented in the Special Purpose Balance Sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

***(v) Impairment of financial assets***

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit- impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer; or
- a breach of contract such as a default or being past due.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward- looking information.

***Measurement of expected credit losses***

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. Under the simplified approach, the Company does not track changes in credit risk for individual customers. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates and delays in realisations over the expected life of the trade receivable and is adjusted for forward looking estimates. At every Special Purpose Balance Sheet date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

***Presentation of allowance for expected credit losses in the Balance Sheet***

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

***Write-off***

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery and the amount of the loss is recognised in the Special Purpose Statement of Profit and Loss within other expenses. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

**2.6 Impairment of assets**

Assessment is done at each Special Purpose Balance Sheet date as to whether there is any indication that an asset (PPE and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Assessment is also done at each Special Purpose Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

### 2.7 Cash and cash equivalents

Cash and cash equivalents in the Special Purpose Balance Sheet comprise cash at banks and on hand, demand deposits with banks with an original maturity of three months or less and short-term highly liquid investments that are readily convertible into known amount of cash and are subject to an insignificant risk of change in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

### 2.8 Provisions (other than employee benefits)

A provision is recognized if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the legal or contractual obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the Special Purpose Balance Sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

**Contingencies**

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

### 2.9 Revenue recognition

**Revenue from contracts with customers**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer, at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

a) Revenue from the sale of product is recognized upfront at the point in time when the product is delivered to the customer. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

b) Revenue from services is recognized in accordance with the terms of contract when the services are rendered and the related costs are incurred and the balance amount is recognised as deferred revenue.

c) Revenue from membership fees is recognised over the period of membership.

**Contract balances**

***Trade receivables***
A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in financial instrument – initial recognition and subsequent measurement.

***Contract liabilities***

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or

the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

### 2.10 Government grants

Government grants are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant; they are then recognised in profit or loss as other operating revenue on a systematic basis. Grants related to the acquisition of assets are recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate the Company for expenses incurred are recognised in profit or loss as other operating revenue on a systematic basis in the periods in which such expenses are recognised.

### 2.11 Employee benefits

The Company's obligation towards various employee benefits has been recognised as follows:

**i. Short-term employee benefits**
Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

**ii. Share based payment transactions**
The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and nonmarket vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes. If the entity elects to settle in cash, the cash payment shall be accounted for as the repurchase of an equity interest, i.e. as a deduction from equity

**iii. Defined contribution plans**
A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

**iv. Defined benefit plans**
A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the

discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

The group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date. Actuarial gains/losses are immediately taken to the Special Purpose Statement of Profit and Loss and are not deferred. The obligations are presented as current liabilities in the Special Purpose Balance Sheet if the entity does not have an unconditional right to defer the settlement for at least twelve months after the reporting date.

**v. Other long-term employee benefits**

The Company's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Remeasurements gains or losses are recognised in profit or loss in the period in which they arise.

**vi. Termination benefits**

Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

**2.12 Foreign currency**

**Foreign currency transactions**

Transactions in foreign currencies are translated into the functional currencies of Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in profit or loss.

**2.13 Leases**

The company assesses at contract inception whether a contract is, or contains a, lease. That is if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration.

**Company as a lessee**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**i) Right of use asset**

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less

any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets**.**

**ii) Lease liabilities**

At the commencement date of the lease, the company recognizes lease liabilities measured at the present value of the lease payment to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset

**iii) Short-term leases and leases of low value assets**

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

**Company as a lessor**

At inception or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.
If an arrangement contains lease and non-lease components, then the Company applies Ind AS 115 to allocate the consideration in the contract.

The Company applies the derecognition and impairment requirements in Ind AS 109 to the net investment in the lease. The Company further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.

The Company recognised lease payments received under operating leases as income on a straight-line basis over the lease term as part of ‘other income’.

**2.14 Income tax**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

**i. Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**ii. Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that

    - at the time of transaction that neither affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.

    - temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is an evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**2.15 Recognition of dividend income, interest income or expense**

Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established. Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

### 2.16 Borrowing cost

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs).

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

All other borrowing costs are expensed in the period in which they occur.

### 2.17 Earnings per share

**Basic Earnings Per Share**
Basic earnings/(loss) per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

**Diluted Earnings Per Share**
For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless they have been issued at a later date.

### 2.18 Segment reporting

An operating segment is a component that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the other components, and for which discrete financial information is available. The Company is engaged into designing, manufacturing, branding, and retailing of own-branded eyewear products. The Company sells prescription eyeglasses, sunglasses, and other products including contact lenses and eyewear accessories which has been defined as one business segment. Accordingly, the Company's activities/business are reviewed regularly by the Company's Board of Director’s from an overall business perspective, rather than reviewing its products/services as individual standalone components.

## 3A Property, plant and equipment

| Gross block | Leasehold improvements | Plant and machinery | Office equipments | Furniture and fixtures | Computers and peripherals | Vehicles | Total |

| **At the end of the period/year** | **1,00,000** | **1.00** | **1,00,000** | **1.00** |

**(a) Terms/ rights attached to equity shares**

The Company has equity shares having a par value of Rs.10 per share. Each shareholder is eligible to one vote per share held. The dividend proposed, if any, by the Board of Directors is subject to approval of shareholders in the ensuing Annual General Meeting, except in case of interim dividend. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to their share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid. In the event of liquidation, the equity shareholders are entitled to receive remaining assets of the Company (after distribution of all preferential amounts) in the proportion of equity shares held by the shareholders.

**(b) Equity shares of Company held by each shareholder holding more than 5% shares**

| | As at 31 December 2024 | | As at 31 March 2024 | |
|---|---|---|---|---|
| **Name of shareholders** | **No. of shares** | **% holding** | **No. of shares** | **% holding** |
| **Equity shares of Rs. 10 each** | | | | |
| Neetu Mittal | 45,000 | 45.00% | 45,000 | 45.00% |

## 27 Earnings per share (EPS)

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

Diluted earnings per share amounts are calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares. The following reflects the income and share data used in the basic and diluted EPS computations:

| | Period ended 31 Dec 2024 | Year ended 31 March 2024 |
|---|---|---|
| **Profit attributable to equity shareholders (A)** | 161.86 | 573.19 |
| Effect of dilution | - | - |
| **Profit attributable to equity shareholders after adjusting the effect of dilution (B)** | **161.86** | **573.19** |
| **Weighted-average number of equity shares** | | |
| Number of equity shares outstanding at the beginning of the year | 1,00,000 | 1,00,000 |
| Add: Weighted average number of equity shares issued | - | - |
| **Weighted-average number of equity shares in calculating Basic EPS (C)** | **1,00,000** | **1,00,000** |
| **Effect of dilution:** | **-** | **-** |
| **Weighted average number of Equity shares adjusted for the effect of dilution (D)** | **1,00,000** | **1,00,000** |
| Nominal value per equity shares | 10.00 | 10.00 |
| Earnings per share - basic (A/C) (Rs.) | 1,618.60 | 5,731.80 |
| Earnings per share - diluted (A/D) (Rs.) | 1,618.60 | 5,731.80 |

*(This space has been intentionally left blank)*

## 28 Employee benefit obligations

| Particulars | As at 31 Dec 2024 | | As at 31 March 2024 | |
|---|---|---|---|---|
| | Current | Non-current | Current | Non-current |
| Provision for gratuity | 10.43 | 39.61 | 10.12 | 28.20 |
| Provision for compensated absences | 24.52 | 31.64 | 16.12 | 20.13 |
| **Total** | **34.95** | **71.25** | **26.24** | **48.33** |

### A Gratuity- Unfunded

The Company has a unfunded defined benefit gratuity plan for qualifying employees. The scheme provide for lump sum payment to vested employees at retirement, death while in employment or on termination of employment. Vesting occurs upon completion of five year of services.

Every employee who has completed five years or more of services, gets a gratuity on departure at 15 days basic salary (last drawn) for each completed year of service on terms not less favourable than the provisions of the payment of Gratuity Act, 1972.

The following tables summaries the components of net benefit expense recognized in the Statement of Profit and Loss and the status and amounts recognized in the balance sheet for the plan.

**Disclosure of gratuity**

(i) **Amount recognised in the statement of profit and loss is as under:**

| Description | Period ended 31 Dec 2024 | Year ended 31 March 2024 |
|---|---|---|
| Current service cost | 12.83 | 12.30 |
| Interest cost | 1.98 | 1.80 |
| **Amount recognised in the statement of profit and loss** | **14.81** | **14.10** |

(ii) **Movement in the liability recognised in the balance sheet is as under:**

| Description | As at 31 Dec 2024 | As at 31 March 2024 |
|---|---|---|
| Present value of defined benefit obligation as at the start of the year | 38.32 | 26.57 |
| Current service cost | 12.83 | 12.30 |
| Interest cost | 1.98 | 1.80 |
| Actuarial loss recognised during the year | 2.33 | 2.06 |
| Net Liability transferred | (0.89) | (1.40) |
| Benefits paid | (4.54) | (3.01) |
| **Present value of defined benefit obligation as at the end of the year** | **50.03** | **38.32** |

(iii) **Breakup of actuarial loss/(gain):**

| Description | Period ended 31 Dec 2024 | Year ended 31 March 2024 |
|---|---|---|
| Actuarial loss/(gain) on arising from change in financial assumption | 0.33 | 0.06 |
| Actuarial loss on arising from experience adjustment | 2.00 | 2.00 |
| **Total actuarial loss** | **2.33** | **2.06** |

(iv) **Actuarial assumptions**

| Description | As at 31 Dec 2024 | As at 31 March 2024 |
|---|---|---|
| Discount rate | 6.90% | 7.10% |
| Retirement age | 58 years | 58 years |
| Employee attrition rate | 40% | 40% |
| Rate of increase in compensation | 5.5% | 5.5% |

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

(v) **Sensitivity analysis for gratuity liability**

| Description | As at 31 Dec 2024 | As at 31 March 2024 |
|---|---|---|
| **Impact of the change in discount rate** | | |
| Present value of obligation at the end of the year | **50.03** | **38.32** |
| - Impact due to increase of 1 % | 48.43 | 37.16 |
| - Impact due to decrease of 1 % | 51.74 | 39.55 |
| **Impact of the change in salary increase** | | |
| Present value of obligation at the end of the year | **50.03** | **38.32** |
| - Impact due to increase of 1 % | 51.74 | 39.56 |
| - Impact due to decrease of 1 % | 48.39 | 37.13 |

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied which was applied while calculating the defined benefit obligation liability recognised in the balance sheet.

(vi) **Maturity profile of defined benefit obligation (undiscounted)**

As at 31 Dec 2024, the weighted average duration of defined benefit obligation (based on discounted cashflow) was 3 years (31 March 2024: 3 years).

| Description | As at 31 Dec 2024 | As at 31 March 2024 |
|---|---|---|
| Within next 12 months | 10.43 | 10.12 |
| Between 2-5 years | 40.23 | 29.13 |
| Between 6-10 years | 12.10 | 8.59 |
| Beyond 10 years | 1.34 | 0.95 |

**B Compensated absences**

The liability for compensated absences cover the Company's liability for Leave (as per Company Policy). The amount of the provision presented as current represents the leaves over which the Company does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next twelve months.

| Compensated absences | As at 31 Dec 2024 | As at 31 March 2024 |
|---|---|---|
| Current | 24.52 | 16.12 |
| Non current | 31.64 | 20.13 |

**C** The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. Certain sections of the Code came into effect on 3 May 2024. However, the final rules/interpretation have not yet been issued. Based on a preliminary assessment, the entity believes the impact of the change will not be significant.

*(This space has been intentionally left blank)*

**29 Capital and other commitments:**

| Particulars | As at 31 Dec 2024 | As at 31 March 2024 |
|---|---|---|
| a) Estimated amount of contracts remaining to be executed on capital account and not provided for (net of capital advance) | 2.54 | 98.47 |

**30 Contingent liabilities**

| Particular | As at 31 Dec 2024 | As at 31 March 2024 |
|---|---|---|
| Claims against the Company not acknowledged as debts | - | - |

In the financial year 2023-24, DRC-07 were issued to the Company by Karnataka GST Department, requiring the Company to make the payment of INR 41,35,753 (incl Interest and Penalty of INR 22,87,710) by 28 March 2024. Further management has deposited INR 1,84,806 for filing the appeal under GST APL-01. The Company has settled the liability with authorities.

**31 Related party disclosures**

**a) Related parties with whom transactions have taken place during the year**

**Key Management Personnel**
Udit Bagga (Director)
Neetu Mittal (Director)

**b) Key managerial personnel compensation**

| Particular | Period ended 31 December 2024 | Year ended 31 March 2024 |
|---|---|---|
| **Employee benefits expense** | | |
| Salaries and bonus | 4.49 | 4.57 |
| Contribution to provident and other funds | 0.02 | 0.02 |

*The remuneration to the key managerial personnel does not include the provisions made for gratuity and leave benefits, as they are determined on an actuarial basis for the Company as a whole.

**c) Key managerial personnel compensation**

| Particular | Period ended 31 December 2024 | Year ended 31 March 2024 |
|---|---|---|
| Other current liabilities- Employee benefits payable | 0.59 | 0.54 |

*(This space has been intentionally left blank)*

## 32 Income tax

**Reconciliation of tax expense and accounting profit**

| | Period ended 31 Dec 2024 | Year ended 31 March 2024 |
|---|---|---|
| **Tax expense** | | |
| Current income tax | - | 161.73 |

## INDEPENDENT AUDITOR'S REPORT ON SPECIAL PURPOSE FINANCIAL STATEMENTS

**To the Board of Directors**
**Dealskart Online Services Private Limited**

### Opinion

We have audited the accompanying Special Purpose Financial Statements of Dealskart Online Services Private Limited (the "Company"), which comprise the Special Purpose Balance Sheet as at March 31, 2024, and the Special Purpose Statement of Profit and Loss (including Other Comprehensive Income), the Special Purpose Statement of Cash Flows and Special Purpose Changes in Other Equity for the financial year from April 01, 2023 to March 31, 2024 and a summary of the material accounting policies and other explanatory information (together hereinafter referred to as "Special Purpose Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Special Purpose Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and its profit including other comprehensive income and the changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Special Purpose Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Special Purpose Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Special Purpose Financial Statements.

### Responsibilities of Management and those charged with Governance for the Special Purpose Financial Statements

The Management of the Company is responsible for the preparation of these Special Purpose Financial Statements in accordance with the basis of preparation indicated in note 2 to the accompanying Special Purpose Financial Statements.

This responsibility also includes maintenance of adequate accounting records in accordance with the accounting principles for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records relevant to the preparation of the Special Purpose Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Special Purpose Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

**Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Special Purpose Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special Purpose Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Special Purpose Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risk, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing opinion on the operating effectiveness of company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Special Purpose Financial Statements, including the disclosures, and whether the Special Purpose Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**Restriction on distribution or use**

Our report is intended solely for your information and for use of the Holding Company in connection with their preparation of Proforma financial Information and for reliance, reference and use of S.R. Batliboi & Associates ("SRBA"), in connection with their Report on the Compilation of Unaudited Proforma Financial Information included in the Draft Red Herring Prospectus ('DRHP') (referred to as "Offer Document") in connection with the proposed initial public offer of Lenskart Solutions Limited (formerly as Lenskart Solutions Private Limited). Our report should not be used, referred to, or distributed for any other purpose except with our prior consent in writing.

Our opinion is not qualified with respect to the above matter.

**Dealskart Online Services Private Limited**
**Summary of material accounting policies and other explanatory information for the year ended 31 March 2024**

## 1. Corporate information

1. Dealskart Online Services Private Limited ("the Company"), incorporated on September 8, 2011. The Company was operating as a master franchisee for retail and distribution of branded and private-label eyeglasses, sunglasses, and contact lenses, operating within both online and omni-channel market segments. The master franchise agreement has been terminated with effect from 26 December 2024.

   Further, Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited) (“Lenskart” or “Acquirer”) acquired the 100% share of the Company on 31 December 2024. Effective from 1 January 2025, the Company is providing operations and maintenance (O&M) services to Lenskart's omni-channel stores PAN India.

## 2. Material accounting policies

### Basis of preparation

These Special Purpose Ind AS Financial Statements will be used by the Acquirer for the purpose of Proforma Financial Statements to be included in the Offer document to be filed by the acquirer in connection with the Proposed IPO, as aforesaid pursuant to the requirement of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018.

These Special Purpose Ind AS Financial Statements of the Company have been prepared in accordance with recognition and measurement principles prescribed under Section 133 of the Companies Act, 2013 read with the rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules 2016 issued thereunder, principles of Ind AS 101, and other accounting principles generally accepted in India ("Ind AS"). However, all the disclosures as required under Ind AS have not been furnished in these Special Purpose Financial Statements.

The financial statements up to year ended March 31, 2024 and March 31, 2023 issued by the Company's management on September 24, 2024 and September 29, 2023 were prepared in accordance with the accounting standards notified under Companies Accounting Standards) Rule, 2021 (as amended) and other relevant provisions of the Companies Act, 2013 ('Indian GAAP' or Previous GAAP').

The preparation of these Special Purpose Ind AS Financial Statements resulted in changes to the accounting policies as compared to most recent annual financial statements prepared under Indian GAAP. The accounting policies have been applied insistently to all periods presented in these Special Purpose IND AS Financial Statements.

These Special Purpose Ind AS Financial Statements for the year ended March 31, 2024 have been prepared after making suitable adjustments to the accounting heads from their Indian GAAP values following accounting policies and accounting policy choices (both mandatory and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (April 1, 2022). These special purpose Ind AS financial statements were approved by the Board of Directors on July 07, 2025.

The items in the Special Purpose Financial Statements have been classified considering the principles under IndAS 1, "Presentation of Financial Statements". Management of the Company has prepared the Special Purpose IND AS Financial Statements which comprise the Special Purpose Balance Sheet as at March 31, 2024 and March 31, 2023, the Special Purpose Statement of Profit and Loss, Special Purpose Statement of Cash Flows and Special Purpose Statement of Changes in Equity for the year ended March 31, 2024 and March 31, 2023.

The management has prepared and issued first complete Ind AS Financial Statements as at and for the year ended March 31, 2025. Only a complete set of Ind AS Financial Statements together with comparative financial information can provide a fair presentation of the Company's state of affairs (Balance Sheet), profit and loss (Statement of Profit and Loss including Other Comprehensive Income (OCI)), cash flows and the changes in equity. While preparing the Special Purpose Ind AS financial statements for the year ended March 31, 2024, the relevant comparative financial information under Ind AS for the year ended March 31, 2023 has been presented.

### 2A. Functional and presentation currency

These Special Purpose IND AS Financial Statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest millions, unless otherwise indicated.

### 2B. Basis of measurement

These Special Purpose IND AS Financial Statements have been prepared on the historical cost basis except for the following items:

| Items | Measurement basis |
|---|---|
| Financial assets and liabilities | Amortised cost |

The Company has prepared the Special Purpose IND AS Financial Statements on the basis that it will continue to operate as a going concern and climate related matters have been duly considered in going concern assessment.

### 2C. Use of estimates and judgements

In preparing these Special Purpose IND AS Financial Statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

#### A. Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the Special Purpose IND AS Financial Statements:

**Determining the lease term of the contract with renewal and termination option - Company as a lessee**
The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

**Leases - Estimating the incremental borrowing rate:**
The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

#### B. Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the Special Purpose IND AS Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the

Company. Such changes are reflected in the assumptions when they occur. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

**i) Provision for employee benefits**
The measurement of obligations and assets related to defined benefit / other long term benefits plans makes it necessary to use several statistical and other factors that attempt to anticipate future events. These factors include assumptions about the discount rate, the rate of future compensation increases, withdrawal, mortality rates etc. The management has used the past trends and future expectations in determining the assumptions which are used in measurements of obligations.

**ii) Recognition of deferred tax assets**
Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is an evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised.

**iii) Measurement of expected credit loss on trade receivables, loan and other financial assets**
The loss allowance for trade receivables**,** loan and other financial assets disclosed are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's history, existing market conditions as well as forward looking estimates at the end of each reporting period. Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

**iv) Provision for litigation**
The management determines the estimated probability of outcome of any litigation based on its assessment supported by technical advice on the litigation matters, wherever required.

**v) Provision for warranties**
The Company offers one year warranty on Eyeglass and Sunglass. Warranty costs on sale of goods are provided on the basis of management's estimate of the expenditure to be incurred during the unexpired period. Provision is made for the estimated liability in respect of warranty costs in the year of recognition of revenue and is included in the Special Purpose Statement of Profit and Loss. The estimates used for accounting for warranty costs are reviewed periodically and revisions are made as and when required.

**vi) Fair value measurement of financial instruments**
When the fair values of financial assets and financial liabilities recorded in the Special Purpose Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

**vii) Impairment of non-financial assets**
The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ('CGU') is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets ('CGU').

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted

average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

**2D. Measurement of fair values**

A number of the Company's accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

**2E. Current versus non-current classification**

The Company presents assets and liabilities in the Special Purpose Balance Sheet based on current / non-current classification. The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by the Ministry of Corporate Affairs.

An asset is classified as current when it is:
a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
b) Held primarily for the purpose of trading,
c) Expected to be realised within twelve months after the reporting period, or
d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:
a) It is expected to be settled in normal operating cycle,
b) It is held primarily for the purpose of trading,
c) It is due to be settled within twelve months after the reporting period, or
d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

All assets and liabilities have been classified as current or non- current as per the Company's operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as less than 12 months for the purpose of current and non- current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**2.1 Property, plant and equipment**

**i. Recognition and measurement**

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use, amount of government grant and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. **Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and cost can be measured reliably.

iii. **Depreciation**

Depreciation is provided on a pro-rata basis under the straight-line method. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Plant and machinery# | 7 |
| Office Equipment | 5 |
| Furniture and fixtures | 5 |
| Computers and peripherals | 3 |
| Vehicles | 10 |

# for these class of assets, based on internal technical evaluation, the management believes useful lives as given above best represent the period over which company expects to use these assets.

Leasehold improvements are depreciated over the useful life of individual assets or period of lease, whichever is lower.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

**2.2 Capital work-in-progress**

The cost of property, plant and equipment not ready for their intended use is recorded as capital work-in-progress before such date. Cost of construction that relate directly to specific property, plant and equipment and that are attributable to construction activity in general and can be allocated to specific property, plant and equipment are included in capital work-in-progress.

**2.3 Intangible assets**

**i. Recognition and initial measurement**

Intangible assets represent computer software and trademarks. Intangible assets are stated at acquisition cost less accumulated amortization and impairment loss, if any. The cost of intangible asset comprises its purchase price, including any import duties and non-refundable taxes or levies and any directly attributable expenditure on making the asset ready for its intended use. Intangible assets are amortised in Special Purpose Statement of Profit and Loss on a

straight-line basis in accordance with the estimated useful lives of respective assets. The management's estimates of the rate of amortisation of intangible assets are as follows:

| **Asset category** | **Life (in years)** |
|---|---|
| Software | 5 years |
| Trademarks | 10 years |

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates and cost can be measured reliably. All other expenditure is recognised in profit or loss as incurred.

**iii. Amortisation**

Amortisation expense is charged on a pro-rata basis for assets purchased during the year. Amortisation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

2.4 **Inventories**

Inventories which comprise of traded goods and packing material are carried at the lower of cost and net realisable value.

Cost of inventories comprises all costs of purchase and other expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition.

The methods of determination of cost of various categories of inventories are as follows:

| **Particulars** | **Basis of Valuation** |
|---|---|
| Consumables | Weighted average cost |
| Traded goods | Actual cost |

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

The comparison of cost and net realisable value is made on item by item basis.

**2.5 Financial instruments**

***(i) Recognition and initial measurement***

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Trade receivables are initially recognised at transaction value. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

***(ii) Classification and subsequent measurement***
***Financial assets***

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured *at amortised cost* if it meets both of the following conditions and is not designated as at FVTPL:
- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

*Financial assets: Business model assessment*

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:
- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

*Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest*

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:
- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non- recourse features).

*Financial assets: Subsequent measurement and gains and losses*

*Financial assets at FVTPL*

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

*Financial assets at amortised cost*

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

***Financial liabilities: Classification, subsequent measurement and gains and losses***

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

***(iii) Derecognition***

A financial asset is derecognised only when:

- the Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised.

Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

***(iv) Offsetting***

Financial assets and financial liabilities are offset and the net amount presented in the Special Purpose Balance Sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

***(v) Impairment of financial assets***

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit- impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer; or
- a breach of contract such as a default or being past due.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward- looking information.

***Measurement of expected credit losses***

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. Under the simplified approach, the Company does not track changes in credit risk for individual customers. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates and delays in realisations over the expected life of the trade receivable and is adjusted for forward looking estimates. At every Special Purpose Balance Sheet date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

***Presentation of allowance for expected credit losses in the Balance Sheet***

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

***Write-off***

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery and the amount of the loss is recognised in the Special Purpose Statement of Profit and Loss within other expenses. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

**2.6 Impairment of assets**

Assessment is done at each Special Purpose Balance Sheet date as to whether there is any indication that an asset (PPE and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Assessment is also done at each Special Purpose Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

### 2.7 Cash and cash equivalents

Cash and cash equivalents in the Special Purpose Balance Sheet comprise cash at banks and on hand, demand deposits with banks with an original maturity of three months or less and short-term highly liquid investments that are readily convertible into known amount of cash and are subject to an insignificant risk of change in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

### 2.8 Provisions (other than employee benefits)

A provision is recognized if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the legal or contractual obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the Special Purpose Balance Sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

**Contingencies**

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

### 2.9 Revenue recognition

**Revenue from contracts with customers**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer, at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

a) Revenue from the sale of product is recognized upfront at the point in time when the product is delivered to the customer. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

b) Revenue from services is recognized in accordance with the terms of contract when the services are rendered and the related costs are incurred and the balance amount is recognised as deferred revenue.

c) Revenue from membership fees is recognised over the period of membership.

**Contract balances**

***Trade receivables***
A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in financial instrument – initial recognition and subsequent measurement.

***Contract liabilities***

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or

the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

### 2.10 Government grants

Government grants are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant; they are then recognised in profit or loss as other operating revenue on a systematic basis. Grants related to the acquisition of assets are recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate the Company for expenses incurred are recognised in profit or loss as other operating revenue on a systematic basis in the periods in which such expenses are recognised.

### 2.11 Employee benefits

The Company's obligation towards various employee benefits has been recognised as follows:

**i. Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

**ii. Share based payment transactions**

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and nonmarket vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes. If the entity elects to settle in cash, the cash payment shall be accounted for as the repurchase of an equity interest, i.e. as a deduction from equity

**iii. Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

**iv. Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the

discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

The group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date. Actuarial gains/losses are immediately taken to the Special Purpose Statement of Profit and Loss and are not deferred. The obligations are presented as current liabilities in the Special Purpose Balance Sheet if the entity does not have an unconditional right to defer the settlement for at least twelve months after the reporting date.

**v. Other long-term employee benefits**

The Company's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Remeasurements gains or losses are recognised in profit or loss in the period in which they arise.

**vi. Termination benefits**

Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

**2.12 Foreign currency**

**Foreign currency transactions**

Transactions in foreign currencies are translated into the functional currencies of Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in profit or loss.

**2.13 Leases**

The company assesses at contract inception whether a contract is, or contains a, lease. That is if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration.

**Company as a lessee**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**i) Right of use asset**

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less

any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets**.**

**ii) Lease liabilities**

At the commencement date of the lease, the company recognizes lease liabilities measured at the present value of the lease payment to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset

**iii) Short-term leases and leases of low value assets**

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

**Company as a lessor**

At inception or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.
If an arrangement contains lease and non-lease components, then the Company applies Ind AS 115 to allocate the consideration in the contract.

The Company applies the derecognition and impairment requirements in Ind AS 109 to the net investment in the lease. The Company further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.

The Company recognised lease payments received under operating leases as income on a straight-line basis over the lease term as part of ‘other income’.

**2.14 Income tax**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

**i. Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**ii. Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that

    - at the time of transaction that neither affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.

    - temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is an evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**2.15 Recognition of dividend income, interest income or expense**

Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established. Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

### 2.16 Borrowing cost

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs).

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

All other borrowing costs are expensed in the period in which they occur.

### 2.17 Earnings per share

**Basic Earnings Per Share**
Basic earnings/(loss) per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

**Diluted Earnings Per Share**
For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless they have been issued at a later date.

### 2.18 Segment reporting

An operating segment is a component that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the other components, and for which discrete financial information is available. The Company is engaged into designing, manufacturing, branding, and retailing of own-branded eyewear products. The Company sells prescription eyeglasses, sunglasses, and other products including contact lenses and eyewear accessories which has been defined as one business segment. Accordingly, the Company's activities/business are reviewed regularly by the Company's Board of Director’s from an overall business perspective, rather than reviewing its products/services as individual standalone components.

## 3A Property, plant and equipment

| Gross block | Leasehold improvements | Plant and machinery | Office equipments | Furniture and fixtures | Computers and peripherals | Vehicles | Total |
|---|---|---|---|---|---|---|---|
| **Cost as at 1 April 2022** | **103.17** | **234.78** | **133.24** | **84.09** | **56.27** | **0.04** | **611.59** |
| Additions | 30.81 | 137.60 | 91.48 | 38.45 | 66.48 | - | 364.82 |
| Disposals | (2.89) | - | (0.59) | (0.02) | (0.08) | - | (3.58) |
| **Cost as at 31 March 2023** | **131.09** | **372.38** | **224.13** | **122.52** | **122.67** | **0.04** | **972.83** |
| Additions | 25.46 | 218.21 | 160.20 | 20.77 | 112.52 | - | 537.16 |

| **At the end of the year** | **1,00,000** | **1.00** | **1,00,000** | **1.00** |

**(a) Terms/ rights attached to equity shares**

The Company has equity shares having a par value of Rs.10 per share. Each shareholder is eligible to one vote per share held. The dividend proposed, if any, by the Board of Directors is subject to approval of shareholders in the ensuing Annual General Meeting, except in case of interim dividend. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to their share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid. In the event of liquidation, the equity shareholders are entitled to receive remaining assets of the Company (after distribution of all preferential amounts) in the proportion of equity shares held by the shareholders.

**(b) Equity shares of Company held by each shareholder holding more than 5% shares**

| | As at 31 March 2024 | | As at 31 March 2023 | |
|---|---|---|---|---|
| **Name of shareholders** | **No. of shares** | **% holding** | **No. of shares** | **% holding** |

|---|---|---|
| Statutory audit fee | 0.95 | 0.85 |
| Tax audit fee | 0.17 | 0.15 |

## 28 Earnings per share (EPS)

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

Diluted earnings per share amounts are calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares. The following reflects the income and share data used in the basic and diluted EPS computations:

| | Year ended 31 March 2024 | Year ended 31 March 2023 |
|---|---|---|
| **Profit attributable to equity shareholders (A)** | 573.18 | (249.58) |
| Effect of dilution | - | - |
| **Profit attributable to equity shareholders after adjusting the effect of dilution (B)** | **573.18** | **(249.58)** |
| **Weighted-average number of equity shares** | | |
| Number of equity shares outstanding at the beginning of the year | 1,00,000 | 1,00,000 |
| Add: Weighted average number of equity shares issued | - | - |
| **Weighted-average number of equity shares in calculating Basic EPS (C)** | **1,00,000** | **1,00,000** |
| **Effect of dilution:** | **-** | **-** |
| **Weighted average number of Equity shares adjusted for the effect of dilution (D)** | **1,00,000** | **1,00,000** |
| Nominal value per equity shares | 10.00 | 10.00 |
| Earnings per share - basic (A/C) (Rs.) | 5,731.75 | (2,495.80) |
| Earnings per share - diluted (A/D) (Rs.) | 5,731.75 | (2,495.80) |

*(This space has been intentionally left blank)*

## 29 Employee benefit obligations

| Particulars | As at 31 March 2024 | | As at 31 March 2023 | |
|---|---|---|---|---|
| | Current | Non-current | Current | Non-current |
| Provision for gratuity | 10.12 | 28.20 | 7.26 | 19.31 |
| Provision for compensated absences | 16.12 | 20.13 | 12.35 | 14.79 |
| **Total** | **26.24** | **48.33** | **19.61** | **34.10** |

### A Gratuity- Unfunded

The Company has a unfunded defined benefit gratuity plan for qualifying employees. The scheme provide for lump sum payment to vested employees at retirement, death while in employment or on termination of employment. Vesting occurs upon completion of five year of services.

Every employee who has completed five years or more of services, gets a gratuity on departure at 15 days basic salary (last drawn) for each completed year of service on terms not less favourable than the provisions of the payment of Gratuity Act, 1972.

The following tables summaries the components of net benefit expense recognized in the Statement of Profit and Loss and the status and amounts recognized in the balance sheet for the plan.

**Disclosure of gratuity**

(i) **Amount recognised in the statement of profit and loss is as under:**

| Description | Year ended 31 March 2024 | Year ended 31 March 2023 |
|---|---|---|
| Current service cost | 12.30 | 9.47 |
| Interest cost | 1.80 | 1.05 |
| **Amount recognised in the statement of profit and loss** | **14.10** | **10.52** |

(ii) **Movement in the liability recognised in the balance sheet is as under:**

| Description | As at 31 March 2024 | As at 31 March 2023 |
|---|---|---|
| Present value of defined benefit obligation as at the start of the year | 26.57 | 21.07 |
| Current service cost | 12.30 | 9.47 |
| Interest cost | 1.80 | 1.05 |
| Actuarial loss recognised during the year | 2.06 | (2.36) |
| Net Liability transferred | (1.40) | (0.30) |
| Benefits paid | (3.01) | (2.36) |
| **Present value of defined benefit obligation as at the end of the year** | **38.32** | **26.57** |

(iii) **Breakup of actuarial loss/(gain):**

| Description | Year ended 31 March 2024 | Year ended 31 March 2023 |
|---|---|---|
| Actuarial loss/(gain) on arising from change in financial assumption | 0.06 | 1.81 |
| Actuarial loss on arising from experience adjustment | 2.00 | 0.55 |
| **Total actuarial loss** | **2.06** | **2.36** |

(iv) **Actuarial assumptions**

| Description | As at 31 March 2024 | As at 31 March 2023 |
|---|---|---|
| Discount rate | 7.10% | 7.15% |
| Retirement age | 58 years | 58 years |
| Employee attrition rate | 40% | 40% |
| Rate of increase in compensation | 5.5% | 5.5% |

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

(v) **Sensitivity analysis for gratuity liability**

| Description | As at 31 March 2024 | As at 31 March 2023 |
|---|---|---|
| **Impact of the change in discount rate** | | |
| Present value of obligation at the end of the year | **38.32** | **26.57** |
| - Impact due to increase of 1 % | 37.16 | 25.80 |
| - Impact due to decrease of 1 % | 39.55 | 27.39 |
| **Impact of the change in salary increase** | | |
| Present value of obligation at the end of the year | **38.32** | **26.57** |
| - Impact due to increase of 1 % | 39.56 | 27.40 |
| - Impact due to decrease of 1 % | 37.13 | 25.78 |

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied which was applied while calculating the defined benefit obligation liability recognised in the balance sheet.

(vi) **Maturity profile of defined benefit obligation (undiscounted)**

As at 31 March 2024, the weighted average duration of defined benefit obligation (based on discounted cashflow) was 3 years (31 March 2023: 3 years).

| Description | As at 31 March 2024 | As at 31 March 2023 |
|---|---|---|
| Within next 12 months | 10.12 | 7.26 |
| Between 2-5 years | 29.13 | 20.07 |
| Between 6-10 years | 8.59 | 5.64 |
| Beyond 10 years | 0.95 | 0.62 |

**B Compensated absences**

The liability for compensated absences cover the Company's liability for Leave (as per Company Policy). The amount of the provision presented as current represents the leaves over which the Company does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next twelve months.

| Compensated absences | As at 31 March 2024 | As at 31 March 2023 |
|---|---|---|
| Current | 16.12 | 12.35 |
| Non current | 20.13 | 14.79 |

**C** The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. Certain sections of the Code came into effect on 3 May 2024. However, the final rules/interpretation have not yet been issued. Based on a preliminary assessment, the entity believes the impact of the change will not be significant.

*(This space has been intentionally left blank)*

**30 Capital and other commitments:**

| Particulars | As at 31 March 2024 | As at 31 March 2023 |
|---|---|---|
| a) Estimated amount of contracts remaining to be executed on capital account and not provided for (net of capital advance) | 98.47 | 29.32 |

**31 Contingent liabilities**

| Particular | As at 31 March 2024 | As at 31 March 2023 |
|---|---|---|
| Claims against the Company not acknowledged as debts | - | - |

In the financial year 2023-24, DRC-07 were issued to the Company by Karnataka GST Department, requiring the Company to make the payment of INR 41,35,753 (including Interest and Penalty of INR 22,87,710) by 28 March 2024. Further management has deposited INR 1,84,806 for filing the appeal under GST APL-01. The Company has settled the liability with authorities.

**32 Related party disclosures**

**a) Related parties with whom transactions have taken place during the year**

**Key Management Personnel**
Udit Bagga (Director)
Neetu Mittal (Director)

**b) Key managerial personnel compensation**

| Particular | Year ended 31 March 2024 | Year ended 31 March 2023 |
|---|---|---|
| **Employee benefits expense** | | |
| Salaries and bonus | 4.57 | 4.22 |
| Contribution to provident and other funds | 0.02 | 0.02 |

*The remuneration to the key managerial personnel does not include the provisions made for gratuity and leave benefits, as they are determined on an actuarial basis for the Company as a whole.

**c) Key managerial personnel compensation**

| Particular | Year ended 31 March 2024 | Year ended 31 March 2023 |
|---|---|---|
| Other current liabilities- Employee benefits payable | 0.54 | 0.50 |

*(This space has been intentionally left blank)*

## 33 Income tax

**Reconciliation of tax expense and accounting profit**

| | Year ended 31 March 2024 | Year ended 31 March 2023 |
|---|---|---|
| **Tax expense** | | |
| Current income tax | 161.73 | - |
| Deferred tax (credit) | (265.11) | - |
| Tax expense/(credit) recognized in statement of profit and loss | **(103.38)** | **-** |
| **Accounting profit before tax** | **469.80** | **-** |
| Tax at applicable tax rate of 25.168% (31 March 2024: tax rate of 25.168%) | 118.24 | - |
| Effect of deferred tax created on timing differences for earlier years | (208.76) | - |
| Effect of permanent differences | (21.13) | - |
| Others | 8.27 | - |
| | **(103.38)** | **-** |

**Deferred tax movement**

| Particulars | Balance as at 1 April 2023 | Unrecognised deferred tax recognised during the year | Charges to profit and loss | Charges to other comprehensive income | Balance as at 31 March 2024 |
|---|---|---|---|---|---|
| **Deferred tax assets** | | | | | |
| Employee beneifts liabilities | 13.52 | 13.52 | 5.25 | - | 18.77 |
| Carried forward business losses | 34.36 | 34.36 | (34.36) | - | - |
| Security depsoits | 17.75 | 17.75 | (4.19) | - | 13.56 |
| Lease liabilities | 1,409.46 | 1,409.46 | 284.57 | - | 1,694.03 |
| Loss allowance | - | - | 0.42 | - | 0.42 |
| Property, plant and equipment and intangible assets | 89.29 | 89.29 | 21.68 | - | 110.97 |
| **Sub-Total(A)** | **1,564.38** | **1,564.38** | **273.37** | **-** | **1,837.75** |
| **Deferred tax liabilities** | | | | | |
| Right of use assets | 1,427.21 | 1,427.21 | 145.43 | - | 1,572.64 |
| **Sub-Total(B)** | **1,427.21** | **1,427.21** | **145.43** | **-** | **1,572.64** |
| **Total (A-B)** | **137.17** | **137.17** | **127.94** | **-** | **265.11** |
| **Deferred tax assets recognised to the extent of liability** | **1,427.21** | **-** | **-** | **-** | **-** |
| **Deferred tax not recognised **** | **137.17** | **-** | **-** | **-** | **-** |
| **Deferred tax recognised *** | **-** | **-** | **-** | **-** | **265.11** |

**Deferred tax movement**

* Deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which they can be used. During the previous year ended 31 March 2024, the Company for the first time had recognised deferred tax on all timing differences to the extent there will be sufficient taxable profits against which such deferred tax asset can be realized.

** Deferred tax asset is not recognized since it is not probable that future taxable profits will be available against which they can be used.

*(This space has been intentionally left blank)*

**Note 34. Additional Regulatory Information**

(a) The Company does not hold any immovable property whose titles deeds are not in the name of the company during current or preceding financial year.

## INDEPENDENT AUDITOR'S REPORT ON SPECIAL PURPOSE FINANCIAL STATEMENTS

**To the Board of Directors**
**Dealskart Online Services Private Limited**

### Opinion

We have audited the accompanying Special Purpose Financial Statements of Dealskart Online Services Private Limited (the "Company"), which comprise the Special Purpose Balance Sheet as at March 31, 2023, and the Special Purpose Statement of Profit and Loss (including Other Comprehensive Income), the Special Purpose Statement of Cash Flows and Special Purpose Changes in Other Equity for the financial year from April 01, 2022 to March 31, 2023 and a summary of the material accounting policies and other explanatory information (together hereinafter referred to as "Special Purpose Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Special Purpose Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and its loss including other comprehensive income and the changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Special Purpose Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Special Purpose Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Special Purpose Financial Statements.

### Responsibilities of Management and those charged with Governance for the Special Purpose Financial Statements

The Management of the Company is responsible for the preparation of these Special Purpose Financial Statements in accordance with the basis of preparation indicated in note 2 to the accompanying Special Purpose Financial Statements.

This responsibility also includes maintenance of adequate accounting records in accordance with the accounting principles for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records relevant to the preparation of the Special Purpose Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Special Purpose Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

**Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Special Purpose Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special Purpose Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Special Purpose Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risk, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing opinion on the operating effectiveness of company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Special Purpose Financial Statements, including the disclosures, and whether the Special Purpose Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**Restriction on distribution or use**

Our report is intended solely for your information and for use of the Holding Company in connection with their preparation of Proforma financial Information and for reliance, reference and use of S.R. Batliboi & Associates ("SRBA"), in connection with their Report on the Compilation of Unaudited Proforma Financial Information included in the Draft Red Herring Prospectus ('DRHP') (referred to as "Offer Document") in connection with the proposed initial public offer of Lenskart Solutions Limited (formerly as Lenskart Solutions Private Limited). Our report should not be used, referred to, or distributed for any other purpose except with our prior consent in writing.

Our opinion is not qualified with respect to the above matter.

**Dealskart Online Services Private Limited**
**Summary of material accounting policies and other explanatory information for the year ended 31 March 2023**

## 1. Corporate information

1. Dealskart Online Services Private Limited ("the Company"), incorporated on September 8, 2011. The Company was operating as a master franchisee for retail and distribution of branded and private-label eyeglasses, sunglasses, and contact lenses, operating within both online and omni-channel market segments. The master franchise agreement has been terminated with effect from 26 December 2024.

   Further, Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited) (“Lenskart” or “Acquirer”) acquired the 100% share of the Company on 31 December 2024. Effective from 1 January 2025, the Company is providing operations and maintenance (O&M) services to Lenskart's omni-channel stores PAN India.

## 2. Material accounting policies

### Basis of preparation

These Special Purpose Ind AS Financial Statements will be used by the Acquirer for the purpose of Proforma Financial Statements to be included in the Offer document to be filed by the acquirer in connection with the Proposed IPO, as aforesaid pursuant to the requirement of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018.

These Special Purpose Ind AS Financial Statements of the Company have been prepared in accordance with recognition and measurement principles prescribed under Section 133 of the Companies Act, 2013 read with the rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules 2016 issued thereunder, principles of Ind AS 101, and other accounting principles generally accepted in India ("Ind AS"). However, all the disclosures as required under Ind AS have not been furnished in these Special Purpose Financial Statements.

The financial statements up to year ended March 31, 2023 and March 31, 2022 issued by the Company's management on September 29, 2023 and September 26, 2022 were prepared in accordance with the accounting standards notified under Companies Accounting Standards) Rule, 2021 (as amended) and other relevant provisions of the Companies Act, 2013 ('Indian GAAP' or Previous GAAP')

The transition to Ind AS was carried out from the accounting principles generally accepted in India ('Indian GAAP') which is considered as "Previous GAAP" as defined in Ind AS 101, "First Time Adoption". An explanation of how the transition to Ind AS has impacted the Company's equity and profits/loss is provided in the Special Purpose Reconciliation of Equity as at April 1, 2022 and March 31, 2023 and Special Purpose Reconciliation of profit/loss for the year ended March 31, 2023.

The preparation of these Special Purpose Ind AS Financial Statements resulted in changes to the accounting policies as compared to most recent annual financial statements prepared under Indian GAAP. The accounting policies have been applied insistently to all periods presented in these Special Purpose IND AS Financial Statements. They have also been applied in preparing the Special Purpose Ind AS opening Balance Sheet as at April 1, 2022 (date of transition) for the purpose of transition to Ind AS required by Ind AS 101. The impact arising from the adoption of Ind AS on the date of transition has been adjusted against Other Equity.

These Special Purpose Ind AS Financial Statements for the year ended March 31, 2023 have been prepared after making suitable adjustments to the accounting heads from their Indian GAAP values following accounting policies and accounting policy choices (both mandatory and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (April 1, 2022). These special purpose Ind AS financial statements were approved by the Board of Directors on July 07, 2025.

The items in the Special Purpose Financial Statements have been classified considering the principles under IndAS 1, "Presentation of Financial Statements". Management of the Company has prepared the Special Purpose IND AS Financial Statements which comprise the Special Purpose Balance Sheet as at March 31, 2023 and April 1, 2022, the Special Purpose Statement of Profit and Loss, Special Purpose Statement of Cash Flows and Special Purpose Statement of Changes in Equity for the year ended March 31, 2023, Reconciliation of Equity as at March 31, 2023 and as at March 31, 2022, Reconciliation of Profit and Loss for the year ended March 31, 2023, Notes to First time adoption, Notes to Reconciliation and Significant Accounting Policies.

The management has prepared and issued first complete Ind AS Financial Statements as at and for the year ended March 31, 2025. Only a complete set of Ind AS Financial Statements together with comparative financial information can provide a fair presentation of the Company's state of affairs (Balance Sheet), profit and loss (Statement of Profit and Loss including Other Comprehensive Income (OCI)), cash flows and the changes in equity. While preparing the Special Purpose Ind AS financial statements for the year ended March 31, 2023, the relevant comparative financial information under Ind AS for the year ended March 31, 2022 has not been presented.

**2A. Functional and presentation currency**

These Special Purpose IND AS Financial Statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest millions, unless otherwise indicated.

**2B. Basis of measurement**

These Special Purpose IND AS Financial Statements have been prepared on the historical cost basis except for the following items:

| Items | Measurement basis |
|---|---|
| Financial assets and liabilities | Amortised cost |

The Company has prepared the Special Purpose IND AS Financial Statements on the basis that it will continue to operate as a going concern and climate related matters have been duly considered in going concern assessment.

**2C. Use of estimates and judgements**

In preparing these Special Purpose IND AS Financial Statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

**A. Judgements**

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the Special Purpose IND AS Financial Statements:

**Determining the lease term of the contract with renewal and termination option - Company as a lessee**
The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

**Leases - Estimating the incremental borrowing rate:**
The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

**B. Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the Special Purpose IND AS Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

**i) Provision for employee benefits**
The measurement of obligations and assets related to defined benefit / other long term benefits plans makes it necessary to use several statistical and other factors that attempt to anticipate future events. These factors include assumptions about the discount rate, the rate of future compensation increases, withdrawal, mortality rates etc. The management has used the past trends and future expectations in determining the assumptions which are used in measurements of obligations.

**ii) Recognition of deferred tax assets**
Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is an evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised.

**iii) Measurement of expected credit loss on trade receivables, loan and other financial assets**
The loss allowance for trade receivables**,** loan and other financial assets disclosed are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's history, existing market conditions as well as forward looking estimates at the end of each reporting period. Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

**iv) Provision for litigation**
The management determines the estimated probability of outcome of any litigation based on its assessment supported by technical advice on the litigation matters, wherever required.

**v) Provision for warranties**
The Company offers one year warranty on Eyeglass and Sunglass. Warranty costs on sale of goods are provided on the basis of management's estimate of the expenditure to be incurred during the unexpired period. Provision is made for the estimated liability in respect of warranty costs in the year of recognition of revenue and is included in the Special Purpose Statement of Profit and Loss. The estimates used for accounting for warranty costs are reviewed periodically and revisions are made as and when required.

**vi) Fair value measurement of financial instruments**
When the fair values of financial assets and financial liabilities recorded in the Special Purpose Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

**vii) Impairment of non-financial assets**
The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ('CGU') is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the

asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets ('CGU').

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

**2D. Measurement of fair values**

A number of the Company's accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

**2E. Current versus non-current classification**

The Company presents assets and liabilities in the Special Purpose Balance Sheet based on current / non-current classification. The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by the Ministry of Corporate Affairs.

An asset is classified as current when it is:
a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
b) Held primarily for the purpose of trading,
c) Expected to be realised within twelve months after the reporting period, or
d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:
a) It is expected to be settled in normal operating cycle,
b) It is held primarily for the purpose of trading,
c) It is due to be settled within twelve months after the reporting period, or
d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

All assets and liabilities have been classified as current or non- current as per the Company's operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as less than 12 months for the purpose of current and non- current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

### 2.1 Property, plant and equipment

**i. Recognition and measurement**

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use, amount of government grant and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. **Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and cost can be measured reliably.

iii. **Depreciation**

Depreciation is provided on a pro-rata basis under the straight-line method. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Plant and machinery# | 7 |
| Office Equipment | 5 |
| Furniture and fixtures | 5 |
| Computers and peripherals | 3 |
| Vehicles | 10 |

# for these class of assets, based on internal technical evaluation, the management believes useful lives as given above best represent the period over which company expects to use these assets.

Leasehold improvements are depreciated over the useful life of individual assets or period of lease, whichever is lower.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

### 2.2 Capital work-in-progress

The cost of property, plant and equipment not ready for their intended use is recorded as capital work-in-progress before such date. Cost of construction that relate directly to specific property, plant and equipment and that are attributable to construction activity in general and can be allocated to specific property, plant and equipment are included in capital work-in-progress.

## 2.3 Intangible assets

### i. Recognition and initial measurement

Intangible assets represent computer software and trademarks. Intangible assets are stated at acquisition cost less accumulated amortization and impairment loss, if any. The cost of intangible asset comprises its purchase price, including any import duties and non-refundable taxes or levies and any directly attributable expenditure on making the asset ready for its intended use. Intangible assets are amortised in Special Purpose Statement of Profit and Loss on a straight-line basis in accordance with the estimated useful lives of respective assets. The management's estimates of the rate of amortisation of intangible assets are as follows:

| **Asset category** | **Life (in years)** |
|---|---|
| Software | 5 years |
| Trademarks | 10 years |

### ii. Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates and cost can be measured reliably. All other expenditure is recognised in profit or loss as incurred.

### iii. Amortisation

Amortisation expense is charged on a pro-rata basis for assets purchased during the year. Amortisation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

## 2.4 Inventories

Inventories which comprise of traded goods and packing material are carried at the lower of cost and net realisable value.

Cost of inventories comprises all costs of purchase and other expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition.

The methods of determination of cost of various categories of inventories are as follows:

| **Particulars** | **Basis of Valuation** |
|---|---|
| Consumables | Weighted average cost |
| Traded goods | Actual cost |

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

The comparison of cost and net realisable value is made on item by item basis.

## 2.5 Financial instruments

### *(i) Recognition and initial measurement*

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Trade receivables are initially recognised at transaction value. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

***(ii) Classification and subsequent measurement***
***Financial assets***

The Company classifies its financial assets in the following measurement categories:
- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured *at amortised cost* if it meets both of the following conditions and is not designated as at FVTPL:
- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

*Financial assets: Business model assessment*

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:
- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

*Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest*

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:
- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;

- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non- recourse features).

*Financial assets: Subsequent measurement and gains and losses*

*Financial assets at FVTPL*

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

*Financial assets at amortised cost*

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

***Financial liabilities: Classification, subsequent measurement and gains and losses***

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

***(iii) Derecognition***

A financial asset is derecognised only when:

- the Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised.

Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

***(iv) Offsetting***

Financial assets and financial liabilities are offset and the net amount presented in the Special Purpose Balance Sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

***(v) Impairment of financial assets***

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit- impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:
- significant financial difficulty of the borrower or issuer; or
- a breach of contract such as a default or being past due.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:
- bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward- looking information.

***Measurement of expected credit losses***

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. Under the simplified approach, the Company does not track changes in credit risk for individual customers. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates and delays in realisations over the expected life of the trade receivable and is adjusted for forward looking estimates. At every Special Purpose Balance Sheet date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

***Presentation of allowance for expected credit losses in the Balance Sheet***

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

***Write-off***

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery and the amount of the loss is recognised in the Special Purpose Statement of Profit and Loss within other expenses. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

**2.6 Impairment of assets**

Assessment is done at each Special Purpose Balance Sheet date as to whether there is any indication that an asset (PPE and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written

down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Assessment is also done at each Special Purpose Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

**2.7 Cash and cash equivalents**

Cash and cash equivalents in the Special Purpose Balance Sheet comprise cash at banks and on hand, demand deposits with banks with an original maturity of three months or less and short-term highly liquid investments that are readily convertible into known amount of cash and are subject to an insignificant risk of change in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

**2.8 Provisions (other than employee benefits)**

A provision is recognized if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the legal or contractual obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the Special Purpose Balance Sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

**Contingencies**

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

**2.9 Revenue recognition**

**Revenue from contracts with customers**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer, at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

a) Revenue from the sale of product is recognized upfront at the point in time when the product is delivered to the customer. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

b) Revenue from services is recognized in accordance with the terms of contract when the services are rendered and the related costs are incurred and the balance amount is recognised as deferred revenue.

c) Revenue from membership fees is recognised over the period of membership.

**Contract balances**

***Trade receivables***
A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in financial instrument – initial recognition and subsequent measurement.

***Contract liabilities***

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

## 2.10 Government grants

Government grants are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant; they are then recognised in profit or loss as other operating revenue on a systematic basis. Grants related to the acquisition of assets are recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate the Company for expenses incurred are recognised in profit or loss as other operating revenue on a systematic basis in the periods in which such expenses are recognised.

## 2.11 Employee benefits

The Company's obligation towards various employee benefits has been recognised as follows:

**i. Short-term employee benefits**
Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

**ii. Share based payment transactions**
The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and nonmarket vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes. If the entity elects to settle in cash, the cash payment shall be accounted for as the repurchase of an equity interest, i.e. as a deduction from equity

**iii. Defined contribution plans**
A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

**iv. Defined benefit plans**
A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

The group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date. Actuarial gains/losses are immediately taken to the Special Purpose Statement of Profit and Loss and are not deferred. The obligations are presented as current liabilities in the Special Purpose Balance Sheet if the entity does not have an unconditional right to defer the settlement for at least twelve months after the reporting date.

**v. Other long-term employee benefits**

The Company's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Remeasurements gains or losses are recognised in profit or loss in the period in which they arise.

**vi. Termination benefits**

Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

**2.12 Foreign currency**

**Foreign currency transactions**

Transactions in foreign currencies are translated into the functional currencies of Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in profit or loss.

**2.13 Leases**

The company assesses at contract inception whether a contract is, or contains a, lease. That is if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration.

**Company as a lessee**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**i) Right of use asset**

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets**.**

**ii) Lease liabilities**

At the commencement date of the lease, the company recognizes lease liabilities measured at the present value of the lease payment to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset

**iii) Short-term leases and leases of low value assets**

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

**Company as a lessor**

At inception or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.
If an arrangement contains lease and non-lease components, then the Company applies Ind AS 115 to allocate the consideration in the contract.

The Company applies the derecognition and impairment requirements in Ind AS 109 to the net investment in the lease. The Company further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.

The Company recognised lease payments received under operating leases as income on a straight-line basis over the lease term as part of ‘other income’.

### 2.14 Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

**i. Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**ii. Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that
    - at the time of transaction that neither affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.
    - temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is an evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

### 2.15 Recognition of dividend income, interest income or expense

Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established. Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have

become credit impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

### 2.16 Borrowing cost

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs).

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

All other borrowing costs are expensed in the period in which they occur.

### 2.17 Earnings per share

**Basic Earnings Per Share**
Basic earnings/(loss) per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

**Diluted Earnings Per Share**
For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless they have been issued at a later date.

### 2.18 Segment reporting

An operating segment is a component that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the other components, and for which discrete financial information is available. The Company is engaged into designing, manufacturing, branding, and retailing of own-branded eyewear products. The Company sells prescription eyeglasses, sunglasses, and other products including contact lenses and eyewear accessories which has been defined as one business segment. Accordingly, the Company's activities/business are reviewed regularly by the Company's Board of Director’s from an overall business perspective, rather than reviewing its products/services as individual standalone components.

| | **No. of shares** | **Amount** | **No. of shares** | **Amount** |
| **Equity shares** | | | | |
| At the beginning of the year | 1,00,000 | 1.00 | 1,00,000 | 1.00 |
| Add: Shares issued | - | - | - | - |
| **At the end of the year** | **1,00,000** | **1.00** | **1,00,000** | **1.00** |

**(a) Terms/ rights attached to equity shares**

The Company has equity shares having a par value of Rs.10 per share. Each shareholder is eligible to one vote per share held. The dividend proposed, if any, by the Board of Directors is subject to approval of shareholders in the ensuing Annual General Meeting, except in case of interim dividend. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to their share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid. In the event of liquidation, the equity shareholders are entitled to receive remaining assets of the Company (after distribution of all preferential amounts) in the proportion of equity shares held by the shareholders.

**(b) Equity shares of Company held by each shareholder holding more than 5% shares**

| | As at 31 March 2023 | | As at 1 April 2022 | |
|---|---|---|---|---|
| **Name of shareholders** | **No. of shares** | **% holding** | **No. of shares** | **% holding** |
| **Equity shares of Rs. 10 each** | | | | |
| Neetu Mittal | 45,000 | 45.00% | 45,000 | 45.00% |

## 27 Earnings per share (EPS)

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

Diluted earnings per share amounts are calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares. The following reflects the income and share data used in the basic and diluted EPS computations:

| | Year ended 31 March 2023 |
|---|---|
| **Profit attributable to equity shareholders (A)** | (249.58) |
| Effect of dilution | - |
| **Profit attributable to equity shareholders after adjusting the effect of dilution (B)** | **(249.58)** |
| **Weighted-average number of equity shares** | |
| Number of equity shares outstanding at the beginning of the year | 1,00,000 |
| Add: Weighted average number of equity shares issued | - |
| **Weighted-average number of equity shares in calculating Basic EPS (C)** | **1,00,000** |
| **Effect of dilution:** | **-** |
| **Weighted average number of Equity shares adjusted for the effect of dilution (D)** | **1,00,000** |
| Nominal value per equity shares | 10.00 |
| Earnings per share - basic (A/C) (Rs.) | (2,495.80) |
| Earnings per share - diluted (A/D) (Rs.) | (2,495.80) |

## 28 Employee benefit obligations

| Particulars | As at 31 March 2023 | | As at 1 April 2022 | |
|---|---|---|---|---|
| | Current | Non-current | Current | Non-current |
| Provision for gratuity | 7.26 | 19.31 | 5.18 | 15.89 |
| Provision for compensated absences | 12.35 | 14.79 | 6.38 | 8.88 |
| **Total** | **19.61** | **34.10** | **11.56** | **24.77** |

### A Gratuity- Unfunded

The Company has a unfunded defined benefit gratuity plan for qualifying employees. The scheme provide for lump sum payment to vested employees at retirement, death while in employment or on termination of employment. Vesting occurs upon completion of five year of services.

Every employee who has completed five years or more of services, gets a gratuity on departure at 15 days basic salary (last drawn) for each completed year of service on terms not less favourable than the provisions of the payment of Gratuity Act, 1972.

The following tables summaries the components of net benefit expense recognized in the Statement of Profit and Loss and the status and amounts recognized in the balance sheet for the plan.

**Disclosure of gratuity**

(i) **Amount recognised in the statement of profit and loss is as under:**

| Description | Year ended 31 March 2023 |
|---|---|
| Current service cost | 9.47 |
| Interest cost | 1.05 |
| **Amount recognised in the statement of profit and loss** | **10.52** |

(ii) **Movement in the liability recognised in the balance sheet is as under:**

| Description | As at 31 March 2023 | As at 1 April 2022 |
|---|---|---|
| Present value of defined benefit obligation as at the start of the year | 21.07 | 13.67 |
| Current service cost | 9.47 | 6.42 |
| Interest cost | 1.05 | 0.62 |
| Actuarial loss recognised during the year | (2.36) | 1.17 |
| Net Liability transferred | (0.30) | 0.03 |
| Benefits paid | (2.36) | (0.83) |
| **Present value of defined benefit obligation as at the end of the year** | **26.57** | **21.07** |

(iii) **Breakup of actuarial loss/(gain):**

| Description | Year ended 31 March 2023 |
|---|---|
| Actuarial loss/(gain) on arising from change in financial assumption | 1.81 |
| Actuarial loss/(gain) on arising from experience adjustment | 0.55 |
| **Total actuarial loss** | **2.36** |

(iv) **Actuarial assumptions**

| Description | As at 31 March 2023 | As at 1 April 2022 |
|---|---|---|
| Discount rate | 7.15% | 5.00% |
| Retirement age | 58 years | 58 years |
| Employee attrition rate | 40% | 40% |
| Rate of increase in compensation | 5.5% | 5.5% |

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

### B Compensated absences

The liability for compensated absences cover the Company's liability for Leave (as per Company Policy). The amount of the provision presented as current represents the leaves over which the Company does not have an unconditional right to defer settlement for any of these obligations. However, based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next twelve months.

| Compensated absences | As at 31 March 2023 | As at 1 April 2022 |
|---|---|---|
| Current | 12.35 | 6.38 |
| Non current | 14.79 | 8.88 |

**C** The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. Certain sections of the Code came into effect on 3 May 2024. However, the final rules/interpretation have not yet been issued. Based on a preliminary assessment, the entity believes the impact of the change will not be significant.

**29 Capital and other commitments:**

| Particulars | As at 31 March 2023 | As at 1 April 2022 |
|---|---|---|
| a) Estimated amount of contracts remaining to be executed on capital account and not provided for (net of capital advance) | 29.32 | 19.84 |

**30 Related party disclosures**

**i. Key management personnel**

Udit Bagga (Director)
Neetu Mittal (Director)

**Transactions with related parties during the year**

| Particulars | As at 31 March 2023 | As at 1 April 2022 |
|---|---|---|
| **Key managerial personnel** | | |
| Salaries and bonus | 4.22 | 7.24 |
| Contribution to provident and other funds | 0.02 | 0.04 |

*Compensation of the Company's key management personnel includes salaries, non-cash benefits. Provision for gratuity and compensated absences is computed for the Company as a whole and has not been included above.

**ii. Outstanding balances as at the year end**

| Particulars | As at 31 March 2023 | As at 1 April 2022 |
|---|---|---|
| **Key managerial personnel** | | |
| Remuneration Payable | 0.50 | 0.60 |

*(This space has been intentionally left blank)*

## 31 Impact of first time adoption of Ind AS

## 31A First time adoption of Ind AS

1 These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III).

2 The Companys management ('the management') had issued Financial of the Company for the year ended 31 March 2023 and 31 March 2022 on 29 September, 2023 and 26 September, 2022 respectively that were prepared in accordance with the accounting principal generally accepted in india, including the Accounting Standards specified under section 133 Of Companies Act. 2013 read paragraph 7 Of the Companies (Acccunts) Rules, 2014 ('Indian GAAP').

3 The transition to IndAS was carried out from the accounting principles generally accepted in India ('Indian GAAP') which is considered as "Previous GAAP" as defined in IndAS 101, "First-time Adoption". An explanation of how the transition to IndAS has impacted the Company's equity and profit/loss is provided in the Reconciliation of Equity as at 1 April 2022 and 31 March 2023 and Reconciliation of profit/loss for the year ended 31 March 2023. The preparation of these Financial Statements resulted in changes to the accounting policies as compared to most recent annual financial statements prepared under Indian GAAP. The accounting policies have been applied consistently to all periods presented in these Financial Statements. They have also been applied in preparing the IndAS opening Balance Sheet as at April 1, 2022 (date of transition) for the purpose of transition to IndAS required by IndAS 101. The impact arising from the adoption of IndAS on the date of transition has been adjusted against Retained Earnings.

4 The items in the Financial Statements have been classified considering the principles under IndAS 1, "Presentation of Financial Statements". The Management of the Company has prepared the Financial Statements which comprise the Balance Sheet as at 1 April 2022 and as at 31 March 2023, the Statement of Profit and Loss, Statement of Cash Flows and Statement of Changes in Equity for the year ended 31 March 2023. Reconciliation of Equity as at 1 April 2022 and 31 March 2023, Reconciliation of Profit and Loss for the year ended 31 March 2023, Notes to First-time adoption, Notes to Reconciliation and Significant Accounting Policies. Transition has been adjusted against Retained Earnings.

## 31B Exemptions applied

Ind AS 101, First-time Adoption allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. For transition to Ind AS, the Company has applied the following exemptions:

**(a) Deemed cost for property, plant and equipment**

IndAS 101 permits a first-time adopter to measure the carrying value for all of its Property, Plant and Equipment at written down value in the financial statements as at the date of transition to IndAS and use that as its deemed cost as at the date of transition. Accordingly, the Company has elected to measure all of its property, plant and equipment at written down value at the date of transition. Intangible assets have been measured at cost at the date of transition.

**(b) Derecognition of financial assets and financial liabilities**

The Company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after 1 April 2022 (the transition date).

**(c) Classification of Debt Instruments**

The Company has determined the classification of debt instruments in terms of whether they meet the amortised cost criteria or the FVTPL criteria based on the facts and circumstances that existed as of the transition date.

## 31C Exceptions

Ind AS 101, First-time Adoption provides that some exceptions from the retrospective application of certain requirements under Ind AS. For transition to Ind AS, the Company has applied the following exceptions:

**(a) Recognition of financial assets and liabilities**

The Company has recognised financial assets and liabilities on transition date which are required to be recognised by IndAS and were not recognised under previous GAAP.

**(b) Classification and measurement of Financial Assets**

Ind AS 101 requires that an entity should classify its financial assets on the basis of facts and circumstances exist on the date of transition. Accordingly, in its Opening Ind AS Balance Sheet, the company has classified all the financial assets on basis of facts and circumstances that existed on the date of transition i.e. 1 April 2022

**(c) Impairment of financial assets**

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind AS, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

**(d) Estimates**

The entity's estimates in accordance with IndAS at the date of transition to IndAS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

**31D** First time Ind AS adoption reconciliation - effect of Ind AS adoption on Balance sheet

| Particulars | Notes | As at 31 March 2023 | | | As at 01 April 2022 | | |

This special purpose financial information has been derived from the trial balance as of and for the period ended 30th June 2025.

**Management's Responsibility for the Special Purpose Financial Information**

Management is responsible for the preparation and presentation of this special purpose financial information in accordance with the instructions issued by the Group, in the format prescribed for consolidation purposes and reporting package as of and for the period ended 30th June 2025 and in accordance with the requirements of the accounting principles generally accepted in India including the Accounting Standards specified under section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules 2015 and other accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the special purpose financial information that is free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on this special purpose financial information based on our audit thereof.

We conducted our audit in accordance with Standards on Auditing issued by ICAI (SAs). These SAs require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the special purpose financial information is free from material misstatement.

The financial statements of the Company as at and for the period ended 30th June 2025, have been audited by us and the same trial balance has been used for the preparation of the special purpose financial information for inclusion in the consolidated financial statements of the Quantduo Technologies Private Limited for the period ended 30th June 2025, and you may in turn place reliance on it for the purpose of your audit of the consolidated financial statements of the Quantduo Technologies Private Limited for the period ended 30th June 2025.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the special purpose financial information. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the special purpose financial information, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the entity's preparation and presentation of the special purpose financial information that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the special purpose financial information.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the accompanying special purpose financial information of Quantduo Technologies Private Limited ("the Company or the component") as of 30th June 2025 has been prepared, in all material respects, the recognition and measurement principles laid down under the applicable Indian Accounting Standards (Ind AS) including the guidelines issued by ICAI.

**Restriction on Use and Distribution**

This special purpose financial information has been prepared to enable preparation of consolidated financial statements of the Group. As a result, the said special purpose financial information is not a complete set of financial statements of the Company/component and is not intended to give a true and fair view in all material respects of the financial position of the Company as of 30th June 2025, and of its financial performance, and its cash flows for the period then ended in accordance with the accounting policies generally accepted in India. The financial information may, therefore, not be suitable for another purpose.

This report is provided solely for the information and use of Quantduo Technologies Private Limited to assist you in your audit of the consolidated financial statements of the Group as of and for the period ended 30th June 2025. This report may also be relied upon by the Statutory Auditors of Quantduo Technologies Private Limited for the purposes of their report on the Consolidated Financial Statements of the Group in accordance with Standard on Auditing (SA) - 600 issued by the Institute of Chartered Accountants of India. It should not be distributed to anyone in the Group, any of its components, or any other third party.

**Notes to the financial statements**

**1 Company background**

"Quantduo Technologies Private Limited is a Private company incorporated on 29 August, 2018. Its Registered Office is at No. 795, 11th Cross, 26th Main, HSR Layout Bangalore KA 560102 IN KARNATAKA. Its main object is to develop analytics solutions for industries that deal with a large amount of data and carry on all or any business of marketing and distributing the software solutions developed by the Company and provide consulting services directly to consumers or enterprises."

**2 Basis of preparation of financial statements**

**a Basis of preparation and statement of compliance**

The financial statements are prepared under historical cost convention on a going concern and accrual basis in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) notified under Section 133 of the said Act to the extent applicable and presentation requirements of Division II of Schedule III to the Act, as applicable to the financial statements. All the assets and liabilities have been classified as current or non-current as per the company's normal operating cycle and other criteria set out in the Schedule III to the Act as well as guidance note issued by the Institute Of Chartered Accountants of India.

**b Functional and presentation currency**

These financial statements are presented in Indian Rupees, which is also the Company's functional currency.

**c Use of estimates and judgements**

The preparation of the financial statements requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates.

The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience, various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods. Information about judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are disclosed in financial statement wherever necessary.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the financial period ending 30 June 2025 are disclosed in financial statement wherever necessary.

**d Current versus non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:
- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.
Deferred tax assets and liabilities are classified as non-current assets and liabilities.
The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

**e Significant accounting policies**

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied, unless otherwise stated.

**2.1 Property, plant & equipment; intangible assets; depreciation and amortisation**

**a Property, plant & equipment and depreciation**

All items of property and equipment are initially recorded at cost. Cost of property and equipment comprises purchase price, non-refundable taxes, levies, and any directly attributable cost of bringing the asset to its working condition for the intended use. After initial recognition, property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. The cost of an item of property and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The cost includes the cost of replacing part of the property and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property and equipment.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Property and equipment are eliminated from standalone financial statements, either on disposal or when retired from active use. Losses arising in case of retirement of property and equipment and gains or losses arising from disposal of property and equipment are recognised in statement of profit and loss in the period of occurrence.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year and adjusted prospectively, if appropriate. Depreciation is calculated on a written down value method over the estimated useful lives of the assets. The useful lives of the property, plant and equipment are as follows:

| Nature of assets | Useful life |
|---|---|
| Computer equipment | 3 years |

**b Intangible assets and amortisation**

Intangible assets purchased are measured at cost as of the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any. Following initial recognition, intangible assets are carried at cost, less accumulated amortisation and accumulated impairment, if any. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement or profit and loss when the asset is derecognised.

**Research and Development cost:**

Research cost are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the company can demonstrate:

i. The technical feasibility of completing the intangible asset so that asset will be available for use or sale.
ii. Its intention to complete and its ability and intention to use or sell the asset.
iii. How the asset will generate to complete the asset.
iv. The availability of resources to complete the asset.
v. The ability to measure reliably the expenditure during the development.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete, and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

The useful lives are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

**2.2 Investment property**

Investment property is a property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses (if any).

Initial direct costs incurred by the company in negotiating and arranging an operating lease are added to the carrying amount of the respective investment property and are amortised over the lease term on the same basis as the lease income.

The fair values of investment property is disclosed in the notes. Fair values are determined by an independent valuer who holds a recognised and relevant professional qualification, and has seasoned experience in the location and category of the investment property being valued.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year and adjusted prospectively, if appropriate. Depreciation is calculated on a written down value method over the estimated useful lives of the assets. The useful lives of the investment property is 60 years.

**2.3 Leases**

**a. Company as a lessee**

**Recognition, measurement and depreciation**

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.
The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate standalone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

**b. Company as a lessor**

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

**2.4 Financial instruments**

**1 Financial assets**

**i. Initial recognition**

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through Profit or Loss. Financial assets carried at fair value through Profit or Loss are initially recognised at fair value and transaction costs are expensed in the Statement of Profit and Loss.

**ii. Subsequent measurement**

Financial assets are subsequently measured at:
- amortised cost;
- Fair value through other comprehensive income (FVOCI); or
- Fair value through profit & loss- (FVTPL)

On the basis of:
- The entity's business model for managing the financial assets; and
- The contractual cash flow characteristics of the financial assets

**a. Measured at amortised cost**

A financial asset is measured at amortised cost, if it is held under "the hold to collect business model" i.e. held with an objective of holding the assets to collect contractual cash flows and the contractual cash flows are solely payments of principal and interest on the principal outstanding.
Amortised cost is calculated using the effective interest rate ("EIR") method by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.
The losses arising from impairment of these assets are recognised in the Statement of Profit and Loss.
On derecognition of these assets, gain or loss, if any, is recognised to Statement of Profit and Loss.

**b. Measured at Fair Value through Other Comprehensive Income (FVOCI)**

A financial asset is measured at FVOCI, if it is held under "the hold to collect and sell business model" i.e. held with an objective to collect contractual cash flows and selling such financial asset, and the contractual cash flows are solely payments of principal and interest on the principal outstanding.
It is subsequently measured at fair value with fair value movements recognised in the OCI, except for interest income which recognised using EIR method.
Equity instruments:
Equity investments made by the Company are measured through FVTOCI. All fair value changes on the instrument, excluding dividends, are recognised in OCI. The Company will transfer the cumulative gain or loss upon disinvestment within equity.

**c. Measured at Fair Value through Profit & Loss (FVTPL)**

Investment in financial asset other than equity instrument, not measured at either amortised cost or FVOCI is measured at FVTPL. Such financial assets are measured at fair value and changes in fair value, including interest income and dividend income, if any, are recognised in the Statement of Profit and Loss.

**iii. Derecognition**

The Company derecognises a financial asset when the contractual right to the cash flows from the financial asset expires, or it transfers the contractual rights to receive the cash flows from the asset.

**iv. Impairment of financial assets**

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs arc provided for credit losses that result from default events that are possible within the next 12-months (a 12 month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL). For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs.

Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

**2 Financial liabilities**

**i. Initial recognition**

**ii. Subsequent measurement**

Financial liabilities measured at amortised cost are subsequently measured using EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

**iii. Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

**3 Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a current enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**2.5 Fair Value Measurement**

The Company measures financial instruments, such as, derivatives at fair value at each Balance Sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:
Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.
Level 2: Other valuation techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
Level 3: Valuation techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

**2.6 Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with banks and financial institutions, other short-term, highly liquid deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**2.7 Taxes**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

**Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates and tax laws enacted or substantially enacted by the reporting date.
Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:
- temporary difference arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction; and
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in any case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets - unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.
The measurement of the deferred tax reflects tax consequences that would flow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.
Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**2.8 Provisions and contingencies**

A provision is recognised if, as a result of past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability, which is expected to be settled 12 months after the Balance Sheet date. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

**Onerous contracts**

A Contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with the contract.

**Contingent liabilities**

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses it in the financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote.

**Contingent assets**

Contingent assets are neither recognised nor disclosed in the financial statements.

**2.9 Earnings per share**

The basic earnings per share is computed by dividing the net profit/ (loss) attributable to owner's of the company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/ (loss) per share comprises the weighted average shares considered for deriving basic earnings/ (loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

**2.10 Impairment of Non-financial Assets**

An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit (CGU) exceeds its recoverable amount. The recoverable amount of an asset is the greater of its fair value less cost to sell and value in use. To calculate value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market rates and the risk specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the CGU to which the asset belongs. Fair value less cost to sell is the best estimate of the amount obtainable from the sale of an asset in an arm’s length transaction between knowledgeable, willing parties, less the cost of disposal.

Impairment losses, if any, are recognized in the Statement of Profit and Loss. Impairment losses are reversed in the Statement of Profit and Loss only to the extent that the asset’s carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognized.

**2.11 Revenue recognition**

Revenue arises mainly from income from services and other income.

To determine whether the Company should recognise revenues, the Company follows 5-step process:
a. identifying the contract, or contracts, with a customer
b. identifying the performance obligations in each contract
c. determining the transaction price
d. allocating the transaction price to the performance obligations in each contract
e. recognizing revenue when, or as, we satisfy performance obligations by transferring the promised goods or services

**Revenue from operations**

The Company earns its revenue by developing analytics solutions for industries that deal with a large amount of data and carry on all or any business of marketing and distributing the software solutions developed by the Company and provide consulting services directly to consumers or enterprises."

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

A contract liability is an entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer and presented as 'Deferred revenue'. Advance payments received from customers for which no services have been rendered are presented as 'Advance from customer's'.

Unbilled revenues are classified as a financial asset where the right to consideration is unconditional upon passage of time.

**Other income - Interest income**

Interest income is recorded using the effective interest rate ('EIR') method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or over a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of the financial liability. Interest income is included under the head "finance income" in the statement of profit and loss account.

**2.12 Employee benefits**

**i. Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

**ii. Defined contribution plan - provident fund and other funds**

Employees receive benefits from a provident fund and other funds, which is a defined contribution plan. Both the employee and the Company make monthly contributions to these fund equal to a specified percentage of the covered employee's salary. The Company recognizes contribution payable to the funds scheme as an expenditure, when an employee renders the related service. The Company has no further obligations under the plan beyond its monthly contributions. The contributions are charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due and there are no other obligations other than the contribution payable.

**iii. Defined benefit plan - gratuity and compensated absences**

**Gratuity:**

**a.** The Company provides for gratuity in accordance with the Payment of Gratuity Act, 1972, a defined benefit retirement plan (the Plan) covering all employees. The plan, subject to the provisions of the above Act, provides a lump sum payment to eligible employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. Gratuity liability is accrued based on an actuarial valuation at the balance sheet date, carried out by an independent actuary.

The following table sets out the actuarial assumptions used for computing gratuity liability.

| Particulars | As at 30 June 2025 |
|---|---|
| Discount rate | 6.41% |
| Salary Escalation rate | 10.00% |
| Attrition rate | 10% |
| Normal retirement age | 58 Years |

**b. Compensated absences:**

The Company does not have any provision for compensated absences.

**iv. Termination benefits**

Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

**v. Share based payment arrangements**

Employees (including senior executives) of the Company and its subsidiaries receive remuneration in the form of share-based payments in form of employee stock options, whereby employees render services as consideration for equity instruments of the Company. The Company settles this transactions and hence these share based payment arrangements are recognised as equity-settled transactions.

The cost is recognised in employee benefits expense for employees of the Company and as an investment in subsidiaries for employees of the subsidiaries, together with a corresponding increase in share based payment reserve of the Company's equity over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

In respect of equity settled share based payment resulting from the Company to employees of the Group, the amount equivalent to the cost recorded by the Company is recorded at fair value of the the stock options.

The fair value of the stock options are measured at each grant date based on half yearly valuations conducted by the Company.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

No expense is recognised for awards that do not ultimately vest because nonmarket performance and/or service conditions have not been met.

**2.13 Employee Stock Option Plan (ESOP)**

The Company recognizes compensation expense relating to sharebased payments in net profit based on estimated fair values of the awards on the grant date. The estimated fair value of awards is recognized as an expense in the statement of profit and loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards with a corresponding increase to share options outstanding account.

**AMENDED AND RESTATED QUANTDUO TECHNOLOGIES PRIVATE LIMITED EMPLOYEE STOCK OPTION SCHEME, 2019**

On June 07, 2019, pursuant to approval by the shareholders in the Annual General Meeting, the Board has been authorized to introduce, offer, issue and provide share-based incentives to eligible employees of the Company and its subsidiaries under the 2019 Plan. These instruments will generally vest between a minimum of one to maximum of four years from the grant date.

**2.14 Investment in subsidiaries, associates, and joint venture**

The Company has accounted for its investment in subsidiaries or associates or joint venture at cost less impairment. The Company assesses investments in subsidiaries, associates and joint venture for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the investment in subsidiary, associate or joint venture. The recoverable amount of such investment is the higher of its fair value less cost of disposal (FVLCD) and its value-in-use (VIU). The VIU of the investment is calculated using projected future cash flows. If the recoverable amount of the investment is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss

Investment in a subsidiary or an associate or a joint venture acquired in stages are accounted after re-measuring the equity interest held up to the date on which control or significant influence was first achieved, at its fair value on date of obtaining control or significant influence.

**2.15 Cash flow statement**

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash from operating, investing and financing activities of the Company are segregated.

**2.16 Segment reporting**

i. **Identification of segments -** The Company's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

ii. **Inter-segment transfers -** The Company generally accounts for intersegment sales and transfers at appropriate margins.

iii. **Unallocated items -** Unallocated items include general corporate asset, liability, income and expense items which are not allocated to any business segment.

iv. **Segment accounting policies -** The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

**2.17 Related Party Disclosure**

Disclosure of transactions with related parties, as required by Ind AS 24 "Related Party Disclosures" has been set out in a separate note. Related parties as defined under Ind AS 24 have been identified on the basis of information available with the Company.

**Notes to the financial statements** **(Amount in INR)**

**14 Revenue from operations**

| | 01 April 2025 to 30 June 2025 | 01 April 2024 to 30 June 2024 |

**20 Earnings per share (EPS)**

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the Company (after adjusting for interest on the convertible preference shares) by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.
The following reflects the income and share data used in the basic and diluted EPS computations:

| | 01 April 2025 to 30 June 2025 | 01 April 2024 to 30 June 2024 |
|---|---|---|
| **Profit attributable to equity shareholders (A)** | (5,760,623) | (21,313,191) |
| Effect of dilution | | |
| **Profit attributable to equity shareholders after adjusting the effect of dilution** | (5,760,623) | (21,313,191) |
| Weighted-average number of equity shares in calculating Basic EPS | 103,403 | 103,403 |
| Effect of dilution | | |
| Weighted average number of Equity shares adjusted for the effect of dilution | **103,403** | **103,403** |
| Nominal value per equity shares | | |
| Earnings per share - basic (Rs.) | (55.71) | (206.12) |
| Earnings per share - diluted (Rs.) | (55.71) | (206.12) |

**23 Financial risk management**

The Company's principal financial liabilities comprises, Employee benefits and reimbursements, trade and other payables. The main purpose of these financial liabilities is to finance the Company's

**(A) Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial asset fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, loans and other deposits etc.

The carrying amounts of financial assets represent the maximum credit risk exposure.

(i) Credit risk management

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Company only deals with parties which has good credit rating/ worthiness given by external rating agencies or based on Company's internal assessment.

All doubtful receivables are duly recognized from time to time post discussion with key stakeholders and provided for in the financial statements as deemed appropriate.

All the financial assets carried at amortized cost were considered good as at 30 june 25 and 31 March 2025. The Company has not acquired any credit impaired asset. There was no modification in any financial assets.

**(B) Liquidity risk**

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Considering the business requirements, the treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows.

**Maturities of financial liabilities**

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for all financial liabilities, for which the contractual maturities are essential for an understanding of the timing of the cash flows. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

| Contractual maturities of financial liabilities | Less than 1 year | 1-5 year | >5 year | Total |
|---|---|---|---|---|
| **As at 30 June 2025** | | | | |
| Other Financial Liabilities | 45,623 | | | |
| **Total** | **45,623** | **-** | **-** | **-** |

**(C) Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include deposits, investments and foreign currency receivables and payables. The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations and provisions. The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Assets: The Company's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

**(ii) Price risk**

The Company's exposure price risk arises from investments held and classified in the balance sheet at fair value through profit or loss. To manage the price risk arising from investments, the Company diversifies its portfolio of assets.

**24 Capital management**

For the purpose of the Company's capital management, capital includes issued equity capital, convertible preference shares, securities premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to ensure the Company's ability to continue as a going concern and maximise the shareholder value. Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. No changes were made in the objectives, policies or processes for managing capital during the period ended 30 June 2024.

The Company's adjusted net debt to equity ratio at reporting date was as follows.

| **Particulars** | **As at 30 June 2025** | **As at 30 June 2024** |
|---|---|---|
| Total borrowings | | |
| Less : Cash and Cash Equivalents | 17,197,593 | 7,061,385 |

## 21 Income tax

**Reconciliation of tax expense and accounting profit**

| | 01 April 2025 to 30 June 2025 | 01 April 2024 to 30 June 2024 |
|---|---|---|
| **Accounting profit before tax** | (5,760,623) | (21,313,191) |
| Tax at applicable tax rate of 25.168% | | |
| **(A)** | **(5,760,623)** | **(21,313,191)** |
| Tax effect of items not deductible in determining taxable profit | | |
| Unrecognised deferred tax on temporary differences* | | |
| Impact of income taxed at differential rate | | |
| Unrecognised deferred tax on losses | | |
| Others | | |
| **(B)** | **-** | **-** |
| | **(5,760,623)** | **(21,313,191)** |

| **Deferred tax** | Balance sheet | | Statement of Profit and loss | |
|---|---|---|---|---|
| | As at 30 June 2025 | As at 30 June 2024 | 01 April 2025 to 30 June 2025 | 01 April 2024 to 30 June 2024 |
| **Deferred tax assets** | | | | |
| Excess of depreciation/amortization on property, plant and equipment and intangible assets under income –tax law over depreciation/amortization provided in accounts | - | | | |
| Disallowances under section 43B of the income tax Act,1961 | - | | | |
| Carry forward business losses and unabsorbed depreciation* | | | | |
| Others | | | | |
| **Deferred tax liabilities** | | | | |
| Excess of depreciation/amortization on property, plant and equipment and intangible assets under income –tax law over depreciation/amortization provided in accounts | - | | | |
| **Deferred tax charge/ (credit)*** | - | | | |
| **Net deferred tax assets*** | - | | | - |

* The Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available, against which they can be used. The existence of unabsorbed tax losses and depreciation is an evidence that future taxable profits may not be available. Therefore, in the case of history of losses, the Company has not recognised deferred tax. Deferred tax (recognised or unrecognised) is reviewed at each reporting date and recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

## 22 Financial instruments and fair value measurements

### A. Accounting classifications and fair values

The Company's assets and liabilities which are measured at amortised cost for which fair value are disclosed at 30 June 2025.

### (i) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the balance sheet are categorised into three levels of fair value hierarchy.
The three levels are defined based on the observability of significant inputs to the measurement, as follows

### (ii) Financial instruments by category

| Particulars | Classification | As at 30 June 2025 | As at 30 June 2024 |
|---|---|---|---|
| **Financial assets*** | | | |
| Trade receivables | Amortised cost | 12,802,216 | 11,470,078 |
| Investments- in fixed deposits | Amortised cost | 5,000,000 | 86,742,709 |
| Cash and cash equivalents | Amortised cost | 17,197,593 | 7,061,385 |
| Other current financial assets | Amortised cost | 1,925,660 | 1,894,425 |
| **Total financial assets** | | **36,925,469** | **107,168,597** |
| **Financial liabilities#** | | | |
| Other financial liabilities | Amortised cost | 45,623 | 315,476 |
| **Total financial liabilities** | | **45,623** | **315,476** |

* The Company has not disclosed the fair values for financial instruments carried at amortised cost such as trade receivables, cash and cash equivalents and other financial assets, because their carrying amounts are a reasonable approximation of fair value.

# The Company has not disclosed the fair value for financial instruments carried at amortised cost such as trade payables and other financial liabilities, because their carrying amounts are a reasonable approximation of fair value.

**27 Transfer pricing**

The Company is required to use certain specified methods in computing arm's length price of international transactions between the associated enterprises and maintain prescribed information and documents relating to such transactions. The appropriate method to be adopted will depend on the nature of transactions / class of transactions, class of associated persons, functions performed and other factors, which have been prescribed. The Company is in the process of updating a study to ascertain whether such international transactions with associated enterprises are in compliance with the transfer pricing norms referred to above. Management is of the view that the Company is in compliance with transfer pricing norms for determination of arm's length prices and maintenance of relevant documentation in relation to international transactions with associated enterprises entered into during the period. Accordingly, no accrual for tax, interest or penalty payable in case of such non-compliance, if any, has been made in these financial statements.

## Independent Auditor's Report

**To the Members of M/s. Quantduo Technologies Private Limited**

**Report on the standalone Ind AS Financial Statements**

**Opinion**

We have audited the accompanying Standalone financial statements of **M/s. Quantduo Technologies Private Limited ("*the Company*")** which comprises the Balance Sheet as at March 31, 2025 and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and statement of cash flows for the year ended, and notes to the Ind AS financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its *Loss* and total comprehensive income, its changes in equity and its cash flows for the year ended on that date.

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

**Other Information**

The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Board of Director's report, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statement or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

**Responsibility of Management and those charged with governance for the Standalone Ind AS Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance , including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, relevant to the preparation and presentation of the standalone Ind AS financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

**Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Ind AS financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Ind AS financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure "A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.

e) On the basis of the written representations received from the directors as on 31st March, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.

f) With reference to the notification no. G.S.R. 583(E) dated 13th June, 2017 reporting requirements on Internal Financial Control will not be applicable to this company;

g) The provisions of section 197 read with Schedule V of the Act relating to managerial remuneration are not applicable to the company for the period ended March 31, 2025; and

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial position;

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

   iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;

   iv. (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediary"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiary") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiary;

(b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entity, including foreign entity ("Funding Party"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiary") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiary; and

(c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. No dividend has been declared or paid during the year by the company; and

vi. In accordance with the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014, the management has represented that the company uses accounting software for maintaining its books of account and such accounting software has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled. The management has also represented that there is a system of daily back-up of data which is being followed by the company. Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations contain any material misstatement.

**'Annexure –A'**

**Referred to the Independent Auditor's Report to Member of M/s Quantduo Technologies Private Limited for the year ended 31st March 2025.**

We report that,

i. (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets including Right of use assets.
(b) According to the information and explanations given to us, the fixed assets have been physically verified by the management during the year which, in our opinion, is reasonable having regard to the size of Company and the nature of its assets. No material discrepancies were noticed on such verification.
(c) Since the Company does not own any immovable property, we have nothing to report
(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year
(e) Since there are no benami properties held by the Company, we have nothing to report.

ii. Since the Company does not have any inventory, we have nothing to report.

iii. The Company has not made investments, provided guarantee or security or granted loans or advances in the nature of loans, secured or unsecured to Companies, firms, limited liability partnerships or other parties.

iv. The provisions of Section 185 and Section 186 of Companies Act, 2013 in respect of making Investments, in respect of grant of loans and providing guarantees and securities is not applicable to the company.

v. The Company has not accepted any deposits to which the provisions of Section 73 to 76 or any other relevant provisions of Companies Act, and the rules framed there under and the directions issued by the RBI are applicable. Hence paragraph 3(v) of CARO is not applicable to the company.

vi. The Central Government has not prescribed maintenance of cost records under section 148(1) of the companies act for any of the products / services of the company. Thus paragraph 3(vi) of CARO is not applicable to the company.

vii. (a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income Tax, Goods and Service Tax, Customs Duty, Excise Duty, Cess and other material statutory dues to applicable authorities
(b) There were no undisputed amounts payable in respect of Provident Fund, Income-tax, Customs Duty, Goods and Services Tax, Cess and other material statutory dues in arrears as at 31 March 2024 for a period of more than six months from the date they became payable.

viii. There were no transactions recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961). Hence, this clause is not applicable.

ix. Based on our audit procedures and on the information and explanations given by the management, the Company has neither borrowed any loans from financial institutions, banks and government nor issued any debentures. Hence, this clause is not applicable.

x. There were no initial public offer or further public offer *(including debt instruments)* made during the year, hence this clause is not applicable.

xi. Based on our audit procedures and on the information and explanations given by the management, we report that, no fraud by the company and no fraud on the company by its officers/ employees has been noticed or reported during our audit. Hence, this clause is not applicable.

xii. The Company is not a Nidhi Co and therefore clause 3 (xii) of the order is not applicable to the Company.

xiii. All transactions with the related parties are in compliance with Section.188 of Companies Act, 2013 and the details thereof have been disclosed in the financial statements as required by the accounting standards and Companies Act, 2013. The provision of Section.177 are not applicable to the Company and accordingly reporting under Clause 3(13) insofar as it relates to Section.177 of the Act is not applicable to the Company and hence not commented upon.

xiv. Since, Section 138 is not applicable, we have nothing to report.

xv. The Company has not entered into any non-cash transactions with directors/persons connected with him and therefore clause 3(xv) of the order is not applicable to the company.

xvi. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934. Hence paragraph 3(16) of CARO is not applicable to the Company.

xvii. The Company has incurred cash losses of Rs. 6,65,47,547 in the current financial year and Rs.5,41,31,532 in the previous financial year.

xviii. There has been no resignation of the statutory auditors during the year. Hence, this clause is not applicable.

xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

xx. The Company is not liable to comply under section 135 of the Companies Act. Hence, this clause is not applicable.

xxi. Since, this is a standalone audit report, this clause is not applicable.

***Rights, preferences and restrictions attached to the complusary convertible preference shares:**
(i) Compulsory Convertible Preference Shares were issued during the year and each share is convertible into equity shares in accordance with share subscription Agreement.

(ii) Pre-series A1 Compulsorily convertible cumulative preference shares were issued at premium and each share is convertible into 1 equity share of par value of INR 1/- in the event of qualified IPO or on expiry of 20 years from the date of Issuance, whichever is earlier.

(iii) Compulsorily convertible cumulative preference shares were issued at premium and each share is convertible into 1 equity share of par value of INR 1/- in the event of qualified IPO or on expiry of 20 years from the date of Issuance, whichever is earlier.

(iv) Pre-series A Compulsorily convertible cumulative preference shares were issued at premium and each share is convertible into 1 equity share of par value of INR 1/- in the event of qualified IPO or on expiry of 20 years from the date of Issuance, whichever is earlier.

(v) The Company has issued preference shares pursuant to contract without payment being received in cash in the current year.
(vi) Each holder of preference shares is entitled to one vote per share as if converted basis. Preference shares of all the classes carry a preferential right as to dividend over the equity shareholders.

**Notes to the financial statements**

**1 Company background**

"Quantduo Technologies Private Limited is a Private company incorporated on 29 August, 2018. Its Registered Office is at No. 795, 11th Cross, 26th Main, HSR Layout Bangalore KA 560102 IN KARNATAKA. Its main object is to develop analytics solutions for industries that deal with a large amount of data and carry on all or any business of marketing and distributing the software solutions developed by the Company and provide consulting services directly to consumers or enterprises."

**2 Basis of preparation of financial statements**

**a Basis of preparation and statement of compliance**

The financial statements are prepared under historical cost convention on a going concern and accrual basis in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) notified under Section 133 of the said Act to the extent applicable and presentation requirements of Division II of Schedule III to the Act, as applicable to the financial statements. All the assets and liabilities have been classified as current or non-current as per the company's normal operating cycle and other criteria set out in the Schedule III to the Act as well as guidance note issued by the Institute Of Chartered Accountants of India.

**b Functional and presentation currency**

These financial statements are presented in Indian Rupees, which is also the Company's functional currency.

**c Use of estimates and judgements**

The preparation of the financial statements requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates.

The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience, various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods. Information about judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are disclosed in financial statement wherever necessary.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the financial year ending 31 March 2025 are disclosed in financial statement wherever necessary.

**d Current versus non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:
- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.
Deferred tax assets and liabilities are classified as non-current assets and liabilities.
The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

**e Significant accounting policies**

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied, unless otherwise stated.

**2.1 Property, plant & equipment; intangible assets; depreciation and amortisation**

**a Property, plant & equipment and depreciation**

All items of property and equipment are initially recorded at cost. Cost of property and equipment comprises purchase price, non-refundable taxes, levies, and any directly attributable cost of bringing the asset to its working condition for the intended use. After initial recognition, property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. The cost of an item of property and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The cost includes the cost of replacing part of the property and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property and equipment.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Property and equipment are eliminated from standalone financial statements, either on disposal or when retired from active use. Losses arising in case of retirement of property and equipment and gains or losses arising from disposal of property and equipment are recognised in statement of profit and loss in the year

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year and adjusted prospectively, if appropriate. Depreciation is calculated on a written down value method over the estimated useful lives of the assets. The useful lives of the property, plant and equipment are as follows:

| Nature of assets | Useful life |
|---|---|
| Computer equipment | 3 years |

**b Intangible assets and amortisation**

Intangible assets purchased are measured at cost as of the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any. Following initial recognition, intangible assets are carried at cost, less accumulated amortisation and accumulated impairment, if any. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement or profit and loss when the asset is derecognised.

**Research and Development cost:**

Research cost are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the company can

**i.** The technical feasibility of completing the intangible asset so that asset will be available for use or sale.
**ii.** Its intention to complete and its ability and intention to use or sell the asset.
**iii.** How the asset will generate to complete the asset.
**iv.** The availability of resources to complete the asset.
**v.** The ability to measure reliably the expenditure during the development.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete, and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

The useful lives are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

**2.2 Investment property**

Investment property is a property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses (if any).

Initial direct costs incurred by the company in negotiating and arranging an operating lease are added to the carrying amount of the respective investment property and are amortised over the lease term on the same basis as the lease income.

The fair values of investment property is disclosed in the notes. Fair values are determined by an independent valuer who holds a recognised and relevant professional qualification, and has seasoned experience in the location and category of the investment property being valued.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year and adjusted prospectively, if appropriate. Depreciation is calculated on a written down value method over the estimated useful lives of the assets. The useful lives of the investment property is 60 years.

**2.3 Leases**

**a. Company as a lessee**

**Recognition, measurement and depreciation**

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate standalone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

**b. Company as a lessor**

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

**2.4 Financial instruments**

**1 Financial assets**

**i. Initial recognition**

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through Profit or Loss. Financial assets carried at fair value through Profit or Loss are initially recognised at fair value and transaction costs are expensed in the Statement of Profit and Loss.

**ii. Subsequent measurement**

Financial assets are subsequently measured at:
- amortised cost;
- Fair value through other comprehensive income (FVOCI); or
- Fair value through profit & loss- (FVTPL)

On the basis of:
- The entity's business model for managing the financial assets; and
- The contractual cash flow characteristics of the financial assets

**a. Measured at amortised cost**

A financial asset is measured at amortised cost, if it is held under "the hold to collect business model" i.e. held with an objective of holding the assets to collect contractual cash flows and the contractual cash flows are solely payments of principal and interest on the principal outstanding.

Amortised cost is calculated using the effective interest rate (“EIR”) method by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.

The losses arising from impairment of these assets are recognised in the Statement of Profit and Loss.

On derecognition of these assets, gain or loss, if any, is recognised to Statement of Profit and Loss.

**b. Measured at Fair Value through Other Comprehensive Income (FVOCI)**

A financial asset is measured at FVOCI, if it is held under "the hold to collect and sell business model" i.e. held with an objective to collect contractual cash flows and selling such financial asset, and the contractual cash flows are solely payments of principal and interest on the principal outstanding.

It is subsequently measured at fair value with fair value movements recognised in the OCI, except for interest income which recognised using EIR method.

Equity instruments:

Equity investments made by the Company are measured through FVTOCI. All fair value changes on the instrument, excluding dividends, are recognised in OCI. The Company will transfer the cumulative gain or loss upon disinvestment within equity.

**c. Measured at Fair Value through Profit & Loss (FVTPL)**

Investment in financial asset other than equity instrument, not measured at either amortised cost or FVOCI is measured at FVTPL. Such financial assets are measured at fair value and changes in fair value, including interest income and dividend income, if any, are recognised in the Statement of Profit and Loss.

**iii. Derecognition**

The Company derecognises a financial asset when the contractual right to the cash flows from the financial asset expires, or it transfers the contractual rights to receive the cash flows from the asset.

**iv. Impairment of financial assets**

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs arc provided for credit losses that result from default events that are possible within the next 12-months (a 12 month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL). For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs.

Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

**2 Financial liabilities**

**i. Initial recognition**

**ii. Subsequent measurement**

Financial liabilities measured at amortised cost are subsequently measured using EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

**iii. Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

**3 Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a current enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**2.5 Fair Value Measurement**

The Company measures financial instruments, such as, derivatives at fair value at each Balance Sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:
Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.
Level 2: Other valuation techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
Level 3: Valuation techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

**2.6 Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with banks and financial institutions, other short-term, highly liquid deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**2.7 Taxes**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

**Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates and tax laws enacted or substantially enacted by the reporting date.
Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:
- temporary difference arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction; and
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in any case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets - unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.
The measurement of the deferred tax reflects tax consequences that would flow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.
Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**2.8 Provisions and contingencies**

A provision is recognised if, as a result of past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability, which is expected to be settled 12 months after the Balance Sheet date. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

**Onerous contracts**

A Contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with the contract.

**Contingent liabilities**

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses it in the financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote.

**Contingent assets**

Contingent assets are neither recognised nor disclosed in the financial statements.

**2.9 Earnings per share**

The basic earnings per share is computed by dividing the net profit/ (loss) attributable to owner's of the company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/ (loss) per share comprises the weighted average shares considered for deriving basic earnings/ (loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

**2.10 Impairment of Non-financial Assets**

An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit (CGU) exceeds its recoverable amount. The recoverable amount of an asset is the greater of its fair value less cost to sell and value in use. To calculate value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market rates and the risk specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the CGU to which the asset belongs. Fair value less cost to sell is the best estimate of the amount obtainable from the sale of an asset in an arm’s length transaction between knowledgeable, willing parties, less the cost of disposal.

Impairment losses, if any, are recognized in the Statement of Profit and Loss. Impairment losses are reversed in the Statement of Profit and Loss only to the extent that the asset’s carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognized.

**2.11 Revenue recognition**

Revenue arises mainly from income from services and other income.

To determine whether the Company should recognise revenues, the Company follows 5-step process:

a. identifying the contract, or contracts, with a customer
b. identifying the performance obligations in each contract
c. determining the transaction price
d. allocating the transaction price to the performance obligations in each contract
e. recognizing revenue when, or as, we satisfy performance obligations by transferring the promised goods or services

**Revenue from operations**

The Company earns its revenue by developing analytics solutions for industries that deal with a large amount of data and carry on all or any business of marketing and distributing the software solutions developed by the Company and provide consulting services directly to consumers or enterprises."

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

A contract liability is an entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer and presented as 'Deferred revenue'. Advance payments received from customers for which no services have been rendered are presented as 'Advance from customer's'.

Unbilled revenues are classified as a financial asset where the right to consideration is unconditional upon passage of time.

**Other income - Interest income**

Interest income is recorded using the effective interest rate ('EIR') method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or over a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of the financial liability. Interest income is included under the head "finance income" in the statement of profit and loss account.

**2.12 Employee benefits**

**i. Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

**ii. Defined contribution plan - provident fund and other funds**

Employees receive benefits from a provident fund and other funds, which is a defined contribution plan. Both the employee and the Company make monthly contributions to these fund equal to a specified percentage of the covered employee's salary. The Company recognizes contribution payable to the funds scheme as an expenditure, when an employee renders the related service. The Company has no further obligations under the plan beyond its monthly contributions. The contributions are charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due and there are no other obligations other than the contribution payable.

**iii. Defined benefit plan - gratuity and compensated absences**

**Gratuity:**

**a.** The Company provides for gratuity in accordance with the Payment of Gratuity Act, 1972, a defined benefit retirement plan (the Plan) covering all employees. The plan, subject to the provisions of the above Act, provides a lump sum payment to eligible employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. Gratuity liability is accrued based on an actuarial valuation at the balance sheet date, carried out by an independent actuary.

The following table sets out the actuarial assumptions used for computing gratuity liability.

| Particulars | As at 31 March 2025 |
|---|---|
| Discount rate | 6.78% |
| Salary Escalation rate | 10.00% |
| Attrition rate | 10% |
| Normal retirement age | 58 Years |

**b. Compensated absences:**

The Company does not have any provision for compensated absences.

**iv. Termination benefits**

Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

**v. Share based payment arrangements**

Employees (including senior executives) of the Company and its subsidiaries receive remuneration in the form of share-based payments in form of employee stock options, whereby employees render services as consideration for equity instruments of the Company. The Company settles this transactions and hence these share based payment arrangements are recognised as equity-settled transactions.

The cost is recognised in employee benefits expense for employees of the Company and as an investment in subsidiaries for employees of the subsidiaries, together with a corresponding increase in share based payment reserve of the Company's equity over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

In respect of equity settled share based payment resulting from the Company to employees of the Group, the amount equivalent to the cost recorded by the Company is recorded at fair value of the the stock options.

The fair value of the stock options are measured at each grant date based on half yearly valuations conducted by the Company.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

No expense is recognised for awards that do not ultimately vest because nonmarket performance and/or service conditions have not been met.

**2.13 Employee Stock Option Plan (ESOP)**

The Company recognizes compensation expense relating to sharebased payments in net profit based on estimated fair values of the awards on the grant date. The estimated fair value of awards is recognized as an expense in the statement of profit and loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards with a corresponding increase to share options outstanding account.

**AMENDED AND RESTATED QUANTDUO TECHNOLOGIES PRIVATE LIMITED EMPLOYEE STOCK OPTION SCHEME, 2019**

On June 07, 2019, pursuant to approval by the shareholders in the Annual General Meeting, the Board has been authorized to introduce, offer, issue and provide share-based incentives to eligible employees of the Company and its subsidiaries under the 2019 Plan. These instruments will generally vest between a minimum of one to maximum of four years from the grant date.

**2.14 Investment in subsidiaries, associates, and joint venture**

The Company has accounted for its investment in subsidiaries or associates or joint venture at cost less impairment. The Company assesses investments in subsidiaries, associates and joint venture for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the investment in subsidiary, associate or joint venture. The recoverable amount of such investment is the higher of its fair value less cost of disposal (FVLCD) and its value-in-use (VIU). The VIU of the investment is calculated using projected future cash flows. If the recoverable amount of the investment is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss

Investment in a subsidiary or an associate or a joint venture acquired in stages are accounted after re-measuring the equity interest held up to the date on which control or significant influence was first achieved, at its fair value on date of obtaining control or significant influence.

**2.15 Cash flow statement**

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash from operating, investing and financing activities of the Company are segregated.

**2.16 Segment reporting**

i. **Identification of segments -** The Company's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

ii. **Inter-segment transfers -** The Company generally accounts for intersegment sales and transfers at appropriate margins.

iii. **Unallocated items -** Unallocated items include general corporate asset, liability, income and expense items which are not allocated to any business segment.

iv. **Segment accounting policies -** The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

**2.17 Related Party Disclosure**

Disclosure of transactions with related parties, as required by Ind AS 24 "Related Party Disclosures" has been set out in a separate note. Related parties as defined under Ind AS 24 have been identified on the basis of information available with the Company.

| Tax audit fee | - | - |
| | **85.00** | **72.00** |

## 21 Earnings per share (EPS)

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the Company (after adjusting for interest on the convertible preference shares) by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.
The following reflects the income and share data used in the basic and diluted EPS computations:

| | Year ended 31 March 2025 | Year ended 31 March 2024 |
|---|---|---|
| **Profit attributable to equity shareholders (A)** | (82,033.67) | (61,018.20) |
| Effect of dilution | - | - |
| **Profit attributable to equity shareholders after adjusting the effect of dilution** | (82,033.67) | (61,018.20) |
| Weighted-average number of equity shares in calculating Basic EPS | 103,403 | 103,403 |
| Effect of dilution | | - |
| Weighted average number of Equity shares adjusted for the effect of dilution | **103,403** | **103,403** |

## 22 Income tax

**Reconciliation of tax expense and accounting profit**

| | Year ended 31 March 2025 | Year ended 31 March 2024 |
|---|---|---|
| **Accounting profit before tax** | (82,033.67) | (61,018.20) |
| Tax at applicable tax rate of 25.168% (31 March 2024: tax rate of 25.168%) | | |
| **(A)** | **(82,033.67)** | **(61,018.20)** |
| Tax effect of items not deductible in determining taxable profit | | |
| Unrecognised deferred tax on temporary differences* | | |
| Impact of income taxed at differential rate | | |
| Unrecognised deferred tax on losses | | |
| Others | | |
| **(B)** | - | - |
| | **(82,033.67)** | **(61,018.20)** |

| **Deferred tax** | Balance sheet | | Statement of Profit and loss | |
|---|---|---|---|---|
| | Year ended 31 March 2025 | Year ended 31 March 2024 | Year ended 31 March 2025 | Year ended 31 March 2024 |
| **Deferred tax assets** | | | | |
| Excess of depreciation/amortization on property, plant and equipment and intangible assets under income –tax law over depreciation/amortization provided in accounts | | | | |
| Disallowances under section 43B of the income tax Act,1961 | | | | |
| Carry forward business losses and unabsorbed depreciation* | | - | | - |
| Others | | | | |
| | | - | | - |
| **Deferred tax liabilities** | | | | |
| Excess of depreciation/amortization on property, plant and equipment and intangible assets under income –tax law over depreciation/amortization provided in accounts | | | | |
| **Deferred tax charge/ (credit)*** | - | - | | - |
| **Net deferred tax assets*** | - | - | | - |

* The Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available, against which they can be used. The existence of unabsorbed tax losses and depreciation is an evidence that future taxable profits may not be available. Therefore, in the case of history of losses, the Company has not recognised deferred tax. Deferred tax (recognised or unrecognised) is reviewed at each reporting date and recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

## 23 Financial instruments and fair value measurements

### A. Accounting classifications and fair values

The Company's assets and liabilities which are measured at amortised cost for which fair value are disclosed at 31 March 2025.

### (i) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the balance sheet are categorised into three levels of fair value hierarchy.
The three levels are defined based on the observability of significant inputs to the measurement, as follows

### (ii) Financial instruments by category

| Particulars | Classification | As at 31 March 2025 | As at 31 March 2024 |
|---|---|---|---|
| **Financial assets*** | | | |
| Trade receivables | Amortised cost | 14,416.23 | 8,172.32 |
| Investments- in fixed deposits | Amortised cost | - | - |
| Cash and cash equivalents | Amortised cost | 23,034.42 | 3,483.90 |
| Other current financial assets | Amortised cost | 6,892.03 | 1,830.79 |
| **Total financial assets** | | **44,342.68** | **13,487.01** |
| **Financial liabilities#** | | | |
| Other financial liabilities | Amortised cost | 607.44 | 588.38 |
| **Total financial liabilities** | | **607.44** | **588.38** |

* The Company has not disclosed the fair values for financial instruments carried at amortised cost such as trade receivables, cash and cash equivalents and other financial assets, because their carrying amounts are a reasonable approximation of fair value.

# The Company has not disclosed the fair value for financial instruments carried at amortised cost such as trade payables and other financial liabilities, because their carrying amounts are a reasonable approximation of fair value.

**24 Financial risk management**

The Company's principal financial liabilities comprises, Employee benefits and reimbursements, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company is exposed to market risk, credit risk and liquidity risk. The Company's management oversees the management of these risks and appraises the Board of Directors from time to time basis the impact assessment.

**(A) Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial asset fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, loans and other deposits etc.

The carrying amounts of financial assets represent the maximum credit risk exposure.

(i) Credit risk management

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Company only deals with parties which has good credit rating/ worthiness given by external rating agencies or based on Company's internal assessment.

All doubtful receivables are duly recognized from time to time post discussion with key stakeholders and provided for in the financial statements as deemed appropriate.

All the financial assets carried at amortized cost were considered good as at 31 March 2025 and 31 March 2024. The Company has not acquired any credit impaired asset. There was no modification in any financial assets.

**(B) Liquidity risk**

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Considering the business requirements, the treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows.

**Maturities of financial liabilities**

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for all financial liabilities, for which the contractual maturities are essential for an understanding of the timing of the cash flows. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

| Contractual maturities of financial liabilities | Less than 1 year | 1-5 year | >5 year | Total |
|---|---|---|---|---|
| **As at 31 March 2025** | | | | |
| Other Financial Liabilities | 607.44 | | | |
| **Total** | **607.44** | **-** | **-** | **-** |
| **As at 31 March 2024** | | | | |
| Other Financial Liabilities | 588.38 | | | |
| **Total** | **588.38** | **-** | **-** | **-** |
| **As at 31 March 2023** | | | | |
| Other Financial Liabilities | 936.94 | | | |
| **Total** | **936.94** | **-** | **-** | **-** |

**(C) Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include deposits, investments and foreign currency receivables and payables. The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations and provisions. The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2025 and 31 March 2024.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Assets: The Company's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

**(ii) Price risk**

The Company's exposure price risk arises from investments held and classified in the balance sheet at fair value through profit or loss. To manage the price risk arising from investments, the Company diversifies its portfolio of assets.

**25 Capital management**

For the purpose of the Company's capital management, capital includes issued equity capital, convertible preference shares, securities premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to ensure the Company's ability to continue as a going concern and maximise the shareholder value. Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2025 and 31 March 2024.

The Company's adjusted net debt to equity ratio at reporting date was as follows.

| **Particulars** | **As at 31 March 2025** | **As at 31 March 2024** |
|---|---|---|
| Total borrowings | - | - |
| Less : Cash and Cash Equivalents | 23,034.42 | 3,483.90 |
| **Net debt** | - | - |

**28 Transfer pricing**

The Company is required to use certain specified methods in computing arm's length price of international transactions between the associated enterprises and maintain prescribed information and documents relating to such transactions. The appropriate method to be adopted will depend on the nature of transactions / class of transactions, class of associated persons, functions performed and other factors, which have been prescribed. The Company is in the process of updating a study to ascertain whether such international transactions with associated enterprises are in compliance with the transfer pricing norms referred to above. Management is of the view that the Company is in compliance with transfer pricing norms for determination of arm's length prices and maintenance of relevant documentation in relation to international transactions with associated enterprises entered into during the period. Accordingly, no accrual for tax, interest or penalty payable in case of such non-compliance, if any, has been made in these financial statements.

## Independent Auditor's Report

**To the Members of M/s. Quantduo Technologies Private Limited**

**Report on the standalone Financial Statements**

**Opinion**

We have audited the accompanying Standalone financial statements of **M/s. Quantduo Technologies Private Limited ("*the Company*")** which comprises the Balance Sheet as at March 31, 2024 and the Statement of Profit and Loss including Other Comprehensive Income, Statement of cash flows and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its *Loss* and total comprehensive income, its changes in equity and its cash flows for the year ended on that date.

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

**Other Information**

The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Board of Director's report, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statement or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

**Responsibility of Management and those charged with governance for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the company's financial reporting process

**Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from

- Error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required

to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

**Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure "A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Companies (Accounting Standards) Rules, 2021;

e) On the basis of the written representations received from the directors as on 31st March, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.

f) With reference to the notification no. G.S.R. 583(E) dated 13th June, 2017 reporting requirements on Internal Financial Control will not be applicable to this company;

g) The provisions of section 197 read with Schedule V of the Act relating to managerial remuneration are not applicable to the company for the period ended March 31, 2024; and

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial position;

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

   iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;

   iv. (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediary"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly

or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiary") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiary;

(b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entity, including foreign entity ("Funding Party"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiary") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiary; and

(c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. No dividend has been declared or paid during the period by the company; and

vi. In accordance with the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014, the management has represented that the company uses accounting software for maintaining its books of account and such accounting software has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled. The management has also represented that there is a system of daily back-up of data which is being followed by the company. Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations contain any material misstatement.

The provisions of Section 197 read with Schedule V to the Act are applicable only to Public Companies. Accordingly, reporting under Section 197(16) of the Act is not applicable to the Company.

**'Annexure –A'**

**Referred to the Independent Auditor's Report to Member of M/s Quantduo Technologies Private Limited for the year ended 31st March 2024.**

We report that,

i. (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets including Right of use assets.
(b) According to the information and explanations given to us, the fixed assets have been physically verified by the management during the year which, in our opinion, is reasonable having regard to the size of Company and the nature of its assets. No material discrepancies were noticed on such verification.
(c) Since the Company does not own any immovable property, we have nothing to report
(d) the company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year
(e) Since there are no benami properties held by the Company, we have nothing to report.

ii. Since the Company does not have any inventory, we have nothing to report.

iii. The Company has not made investments, provided guarantee or security or granted loans or advances in the nature of loans, secured or unsecured to Companies, firms, limited liability partnerships or other parties.

iv. The provisions of Section 185 and Section 186 of Companies Act, 2013 in respect of making Investments, in respect of grant of loans and providing guarantees and securities is not applicable to the company.

v. The Company has not accepted any deposits to which the provisions of Section 73 to 76 or any other relevant provisions of Companies Act, and the rules framed there under and the directions issued by the RBI are applicable. Hence paragraph 3(v) of CARO is not applicable to the company.

vi. The Central Government has not prescribed maintenance of cost records under section 148(1) of the companies act for any of the products / services of the company. Thus paragraph 3(vi) of CARO is not applicable to the company.

vii. (a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income Tax, Goods and Service Tax, Customs Duty, Excise Duty, Cess and other material statutory dues to applicable authorities
(b) There were no undisputed amounts payable in respect of Provident Fund, Income-tax, Customs Duty, Goods and Services Tax, Cess and other material statutory dues in arrears as at 31 March 2024 for a period of more than six months from the date they became payable.

viii. There were no transactions recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961). Hence, this clause is not applicable.

ix. Based on our audit procedures and on the information and explanations given by the management, the Company has neither borrowed any loans from financial institutions, banks and government nor issued any debentures. Hence, this clause is not applicable.

x. There were no initial public offer or further public offer *(including debt instruments)* made during the year, hence this clause is not applicable.

xi. Based on our audit procedures and on the information and explanations given by the management, we report that, no fraud by the company and no fraud on the company by its officers/ employees has been noticed or reported during our audit. Hence, this clause is not applicable.

xii. The Company is not a Nidhi Co and therefore clause 3 (xii) of the order is not applicable to the Company.

xiii. All transactions with the related parties are in compliance with S.188 of Companies Act, 2013 and the details thereof have been disclosed in the financial statements as required by the accounting standards and Companies Act, 2013. The provision of S.177 are not applicable to the Company and accordingly reporting under Clause 3(13) insofar as it relates to S.177 of the Act is not applicable to the Company and hence not commented upon.

xiv. Since, Section 138 is not applicable, we have nothing to report.

xv. The Company has not entered into any non-cash transactions with directors/persons connected with him and therefore clause 3(xv) of the order is not applicable to the company.

xvi. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934. Hence paragraph 3(16) of CARO is not applicable to the Company.

xvii. The company has incurred cash losses of Rs.5,44,16,349 in the current financial year and Rs. 3,77,35,030 in the previous financial year.

xviii. There has been no resignation of the statutory auditors during the year. Hence, this clause is not applicable.

xix. In our opinion, no material uncertainty exists as on the date of the audit report that Company is capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date.

xx. The Company is not liable to comply under section 135 of the Companies Act. Hence, this clause is not applicable.

xxi. Since, this is a standalone audit report, this clause is not applicable.

**CIN: U74999KA2018PTC115801**
**No. 792, Ground floor, 19th Main Road, Parangi Palaya, Sector 3, HSR Layout, Bangalore 560102**

**Notes to the financial statements**

**1 Company background**

"Quantduo Technologies Private Limited is a Private company incorporated on 29 August, 2018. Its Registered Office is at No. 795, 11th Cross, 26th Main, HSR Layout Bangalore KA 560102 IN KARNATAKA. Its main object is to develop analytics solutions for industries that deal with a large amount of data and carry on all or any business of marketing and distributing the software solutions developed by the Company and provide consulting services directly to consumers or enterprises."

**2 Basis of preparation of financial statements**

**a Basis of preparation and statement of compliance**

The financial statements are prepared under historical cost convention on a going concern and accrual basis in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) notified under Section 133 of the said Act to the extent applicable and presentation requirements of Division II of Schedule III to the Act, as applicable to the financial statements. All the assets and liabilities have been classified as current or non-current as per the company's normal operating cycle and other criteria set out in the Schedule III to the Act as well as guidance note issued by the Institute Of Chartered Accountants of India.

**b Functional and presentation currency**

These financial statements are presented in Indian Rupees, which is also the Company's functional currency.

**c Use of estimates and judgements**

The preparation of the financial statements requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates.

The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience, various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods. Information about judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are disclosed in financial statement wherever necessary.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the financial year ending 31 March 2022 are disclosed in financial statement wherever necessary.

**d Current versus non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:
- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.
Deferred tax assets and liabilities are classified as non-current assets and liabilities.
The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

**e Significant accounting policies**

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied, unless otherwise stated.

**2.1 Property, plant & equipment; intangible assets; depreciation and amortisation**

**a Property, plant & equipment and depreciation**

All items of property and equipment are initially recorded at cost. Cost of property and equipment comprises purchase price, non-refundable taxes, levies, and any directly attributable cost of bringing the asset to its working condition for the intended use. After initial recognition, property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. The cost of an item of property and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The cost includes the cost of replacing part of the property and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property and equipment.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Property and equipment are eliminated from standalone financial statements, either on disposal or when retired from active use. Losses arising in case of retirement of property and equipment and gains or losses arising from disposal of property and equipment are recognised in statement of profit and loss in the year of occurrence.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year and adjusted prospectively, if appropriate. Depreciation is calculated on a written down value method over the estimated useful lives of the assets. The useful lives of the property, plant and equipment are as follows:

| Nature of assets | Useful life |
|---|---|
| Computer equipment | 3 years |

**b Intangible assets and amortisation**

Intangible assets purchased are measured at cost as of the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any. Following initial recognition, intangible assets are carried at cost, less accumulated amortisation and accumulated impairment, if any. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement or profit and loss when the asset is derecognised.

**Research and Development cost:**

Research cost are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the company can demonstrate:

**i.** The technical feasibility of completing the intangible asset so that asset will be available for use or sale.
**ii.** Its intention to complete and its ability and intention to use or sell the asset.
**iii.** How the asset will generate to complete the asset.
**iv.** The availability of resources to complete the asset.
**v.** The ability to measure reliably the expenditure during the development.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete, and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

The useful lives are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

**2.2 Investment property**

Investment property is a property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses (if any).

Initial direct costs incurred by the company in negotiating and arranging an operating lease are added to the carrying amount of the respective investment property and are amortised over the lease term on the same basis as the lease income.

The fair values of investment property is disclosed in the notes. Fair values are determined by an independent valuer who holds a recognised and relevant professional qualification, and has seasoned experience in the location and category of the investment property being valued.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year and adjusted prospectively, if appropriate. Depreciation is calculated on a written down value method over the estimated useful lives of the assets. The useful lives of the investment property is 60 years.

**2.3 Leases**

**a. Company as a lessee**

**Recognition, measurement and depreciation**

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.
The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate standalone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

**b. Company as a lessor**

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

**2.4 Financial instruments**

**1 Financial assets**

**i. Initial recognition**

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through Profit or Loss. Financial assets carried at fair value through Profit or Loss are initially recognised at fair value and transaction costs are expensed in the Statement of Profit and Loss.

**ii. Subsequent measurement**

Financial assets are subsequently measured at:
- amortised cost;
- Fair value through other comprehensive income (FVOCI); or
- Fair value through profit & loss- (FVTPL)

On the basis of:
- The entity's business model for managing the financial assets; and
- The contractual cash flow characteristics of the financial assets

**a. Measured at amortised cost**

A financial asset is measured at amortised cost, if it is held under "the hold to collect business model" i.e. held with an objective of holding the assets to collect contractual cash flows and the contractual cash flows are solely payments of principal and interest on the principal outstanding.

Amortised cost is calculated using the effective interest rate ("EIR") method by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.

The losses arising from impairment of these assets are recognised in the Statement of Profit and Loss.

On derecognition of these assets, gain or loss, if any, is recognised to Statement of Profit and Loss.

**b. Measured at Fair Value through Other Comprehensive Income (FVOCI)**

A financial asset is measured at FVOCI, if it is held under "the hold to collect and sell business model" i.e. held with an objective to collect contractual cash flows and selling such financial asset, and the contractual cash flows are solely payments of principal and interest on the principal outstanding.

It is subsequently measured at fair value with fair value movements recognised in the OCI, except for interest income which recognised using EIR method.

Equity instruments:

Equity investments made by the Company are measured through FVTOCI. All fair value changes on the instrument, excluding dividends, are recognised in OCI. The Company will transfer the cumulative gain or loss upon disinvestment within equity.

**c. Measured at Fair Value through Profit & Loss (FVTPL)**

Investment in financial asset other than equity instrument, not measured at either amortised cost or FVOCI is measured at FVTPL. Such financial assets are measured at fair value and changes in fair value, including interest income and dividend income, if any, are recognised in the Statement of Profit and Loss.

**iii. Derecognition**

The Company derecognises a financial asset when the contractual right to the cash flows from the financial asset expires, or it transfers the contractual rights to receive the cash flows from the asset.

**iv. Impairment of financial assets**

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs arc provided for credit losses that result from default events that are possible within the next 12-months (a 12 month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL). For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs.

Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

**2.5 Financial liabilities**

**i. Initial recognition**

**ii. Subsequent measurement**

Financial liabilities measured at amortised cost are subsequently measured using EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

**iii. Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

**3 Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a current enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**4 Fair Value Measurement**

The Company measures financial instruments, such as, derivatives at fair value at each Balance Sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:
Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.
Level 2: Other valuation techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
Level 3: Valuation techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.
For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

**2.6 Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with banks and financial institutions, other short-term, highly liquid deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**2.7 Taxes**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

**Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates and tax laws enacted or substantially enacted by the reporting date.
Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:
- temporary difference arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction; and
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in any case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets - unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.
The measurement of the deferred tax reflects tax consequences that would flow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.
Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**2.8 Provisions and contingencies**

A provision is recognised if, as a result of past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability, which is expected to be settled 12 months after the Balance Sheet date. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

**Onerous contracts**

A Contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with the contract.

**Contingent liabilities**

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses it in the financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote.

**Contingent assets**

Contingent assets are neither recognised nor disclosed in the financial statements.

**2.9 Earnings per share**

The basic earnings per share is computed by dividing the net profit/ (loss) attributable to owner's of the company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/ (loss) per share comprises the weighted average shares considered for deriving basic earnings/ (loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

**2.10 Impairment of Non-financial Assets**

An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit (CGU) exceeds its recoverable amount. The recoverable amount of an asset is the greater of its fair value less cost to sell and value in use. To calculate value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market rates and the risk specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the CGU to which the asset belongs. Fair value less cost to sell is the best estimate of the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal.

Impairment losses, if any, are recognized in the Statement of Profit and Loss. Impairment losses are reversed in the Statement of Profit and Loss only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognized.

**2.11 Revenue recognition**

Revenue arises mainly from income from services and other income.

To determine whether the Company should recognise revenues, the Company follows 5-step process:
a. identifying the contract, or contracts, with a customer
b. identifying the performance obligations in each contract
c. determining the transaction price
d. allocating the transaction price to the performance obligations in each contract
e. recognizing revenue when, or as, we satisfy performance obligations by transferring the promised goods or services

**Revenue from operations**

The Company earns its revenue by developing analytics solutions for industries that deal with a large amount of data and carry on all or any business of marketing and distributing the software solutions developed by the Company and provide consulting services directly to consumers or enterprises."

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

A contract liability is an entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer and presented as 'Deferred revenue'. Advance payments received from customers for which no services have been rendered are presented as 'Advance from customer's'.

Unbilled revenues are classified as a financial asset where the right to consideration is unconditional upon passage of time.

**Other income - Interest income**

Interest income is recorded using the effective interest rate ('EIR') method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or over a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of the financial liability. Interest income is included under the head "finance income" in the statement of profit and loss account.

**2.12 Employee benefits**

**i. Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

**ii. Defined contribution plan - provident fund and other funds**

Employees receive benefits from a provident fund and other funds, which is a defined contribution plan. Both the employee and the Company make monthly contributions to these fund equal to a specified percentage of the covered employee's salary. The Company recognizes contribution payable to the funds scheme as an expenditure, when an employee renders the related service. The Company has no further obligations under the plan beyond its monthly contributions. The contributions are charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due and there are no other obligations other than the contribution payable.

**iii. Defined benefit plan - gratuity and compensated absences**

**Gratuity:**

**a.** The Company provides for gratuity in accordance with the Payment of Gratuity Act, 1972, a defined benefit retirement plan (the Plan) covering all employees. The plan, subject to the provisions of the above Act, provides a lump sum payment to eligible employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. Gratuity liability is accrued based on an actuarial valuation at the balance sheet date, carried out by an independent actuary.

The following table sets out the actuarial assumptions used for computing gratuity liability.

| Particulars | As at 31 March 2024 |
|---|---|
| Discount rate | 7.46% |
| Salary Escalation rate | 10.00% |
| Attrition rate | 10% |
| Normal retirement age | 58 Years |

**b. Compensated absences:**

The company does not have any provision for compensated absences.

**iv. Termination benefits**

Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

**v. Share based payment arrangements**

Employees (including senior executives) of the Company and its subsidiaries receive remuneration in the form of share-based payments in form of employee stock options, whereby employees render services as consideration for equity instruments of the Company. The Company settles this transactions and hence these share based payment arrangements are recognised as equity-settled transactions.
The cost is recognised in employee benefits expense for employees of the Company and as an investment in subsidiaries for employees of the subsidiaries, together with a corresponding increase in share based payment reserve of the Company's equity over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.
In respect of equity settled share based payment resulting from the Company to employees of the Group, the amount equivalent to the cost recorded by the Company is recorded at fair value of the the stock options.
The fair value of the stock options are measured at each grant date based on half yearly valuations conducted by the Company.
Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.
No expense is recognised for awards that do not ultimately vest because nonmarket performance and/or service conditions have not been met.

**2.13 Investment in subsidiaries, associates, and joint venture**

The Company has accounted for its investment in subsidiaries or associates or joint venture at cost less impairment. The Company assesses investments in subsidiaries, associates and joint venture for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the investment in subsidiary, associate or joint venture. The recoverable amount of such investment is the higher of its fair value less cost of disposal (FVLCD) and its value-in-use (VIU). The VIU of the investment is calculated using projected future cash flows. If the recoverable amount of the investment is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss

Investment in a subsidiary or an associate or a joint venture acquired in stages are accounted after re-measuring the equity interest held up to the date on which control or significant influence was first achieved, at its fair value on date of obtaining control or significant influence.

**2.14 Cash flow statement**
Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash from operating, investing and financing activities of the Company are segregated.

**2.15 Segment reporting**

**i. Identification of segments -** The Company's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

**ii. Inter-segment transfers -** The Company generally accounts for intersegment sales and transfers at appropriate margins.

**iii. Unallocated items -** Unallocated items include general corporate asset, liability, income and expense items which are not allocated to any business segment.

**iv. Segment accounting policies -** The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

**2.16 Related Party Disclosure**
Disclosure of transactions with related parties, as required by Ind AS 24 "Related Party Disclosures" has been set out in a separate note. Related parties as defined under Ind AS 24 have been identified on the basis of information available with the Company.

**2.17 Current versus non-current classification**

The Company presents assets and liabilities in the Standalone Balance Sheet based on current / non-current classification. The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by the Ministry of Corporate Affairs.

An asset is classified as current when it is:
a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
b) Held primarily for the purpose of trading,
c) Expected to be realised within twelve months after the reporting period, or
d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:
a) It is expected to be settled in normal operating cycle,
b) It is held primarily for the purpose of trading,
c) It is due to be settled within twelve months after the reporting period, or
d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

All assets and liabilities have been classified as current or non- current as per the Company's operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as less than 12 months for the purpose of current and non- current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**2.18 Earnings per share**

**Basic Earnings Per Share**
Basic earnings/(loss) per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

**Diluted Earnings Per Share**
For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless they have been issued at a later date.

**2.19 Borrowing Cost**
General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs).

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

All other borrowing costs are expensed in the period in which they occur.

| **A) Payment to auditors include:** | | |
| Statutory audit fee | 72 | 60 |
| Tax audit fee | | |
| | **72** | **60** |

## 20 Earnings per share (EPS)

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the Company (after adjusting for interest on the convertible preference shares) by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.
The following reflects the income and share data used in the basic and diluted EPS computations:

| | Year ended 31 March 2024 | Year ended 31 March 2023 |
|---|---|---|
| **Profit attributable to equity shareholders (A)** | (61,018) | (42,433) |
| Effect of dilution | - | - |
| **Profit attributable to equity shareholders after adjusting the effect of dilution** | (61,018) | (42,433) |
| | | |
| Weighted-average number of equity shares in calculating Basic EPS | 1,03,403 | 1,03,403 |
| Effect of dilution | - | - |
| Weighted average number of Equity shares adjusted for the effect of dilution | **1,03,403** | **1,03,403** |
| | | |
| Nominal value per equity shares | | |
| Earnings per share - basic (Rs.) | (590.09) | (410.36) |
| Earnings per share - diluted (Rs.) | (590.09) | (410.36) |

## 21 Income tax

**Reconciliation of tax expense and accounting profit**

| | Year ended 31 March 2024 | Year ended 31 March 2023 |
|---|---|---|
| **Accounting profit before tax** | **(61,018)** | **(42,433)** |
| Tax at applicable tax rate of 25.168% (31 March 2023: tax rate of 25.168%) | | |
| **(A)** | **(61,018)** | **(42,433)** |
| Tax effect of items not deductible in determining taxable profit | | |
| Unrecognised deferred tax on temporary differences* | | |
| Impact of income taxed at differential rate | | |
| Unrecognised deferred tax on losses | | |
| Others | | |
| **(B)** | - | - |
| | **(61,018)** | **(42,433)** |

| **Deferred tax** | Balance sheet | | Statement of Profit and loss | |
|---|---|---|---|---|
| | Year ended 31 March 2024 | Year ended 31 March 2023 | Year ended 31 March 2024 | Year ended 31 March 2023 |
| **Deferred tax assets** | | | | |
| Excess of depreciation/amortization on property, plant and equipment and intangible assets under income –tax law over depreciation/amortization provided in accounts | | | | |
| Disallowances under section 43B of the income tax Act,1961 | | | | |
| Carry forward business losses and unabsorbed depreciation* | | - | | - |
| Others | | | | |
| | | - | | - |
| **Deferred tax liabilities** | | | | |
| Excess of depreciation/amortization on property, plant and equipment and intangible assets under income –tax law over depreciation/amortization provided in accounts | | | | |
| **Deferred tax charge/ (credit)*** | - | - | | - |
| **Net deferred tax assets*** | - | - | | - |

* The Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available, against which they can be used. The existence of unabsorbed tax losses and depreciation is an evidence that future taxable profits may not be available. Therefore, in the case of history of losses, the Company has not recognised deferred tax. Deferred tax (recognised or unrecognised) is reviewed at each reporting date and recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

## 22 Financial instruments and fair value measurements

### A. Accounting classifications and fair values

The Company's assets and liabilities which are measured at amortised cost for which fair value are disclosed at 31 March 2024.

### (i) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the balance sheet are categorised into three levels of fair value hierarchy.
The three levels are defined based on the observability of significant inputs to the measurement, as follows

### (ii) Financial instruments by category

| Particulars | Classification | As at 31 March 2024 | As at 31 March 2023 |
|---|---|---|---|
| **Financial assets*** | | | |
| Trade receivables | Amortised cost | 8,172 | 20,266 |
| Investments- in fixed deposits | Amortised cost | - | - |
| Cash and cash equivalents | Amortised cost | 3,484 | 844 |
| Other current financial assets | Amortised cost | 1,831 | 1,198 |
| **Total financial assets** | | **13,487** | **22,308** |
| **Financial liabilities#** | | | |
| Other financial liabilities | Amortised cost | 588 | 937 |
| **Total financial liabilities** | | **588** | **937** |

* The Company has not disclosed the fair values for financial instruments carried at amortised cost such as trade receivables, cash and cash equivalents and other financial assets, because their carrying amounts are a reasonable approximation of fair value.

# The Company has not disclosed the fair value for financial instruments carried at amortised cost such as trade payables and other financial liabilities, because their carrying amounts are a reasonable approximation of fair value.

**Notes to the financial statement for the year ended 31st March 2024**

**23 Financial risk management**

The Company's principal financial liabilities comprises, Employee benefits and reimbursements, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company is exposed to market risk, credit risk and liquidity risk. The Company's management oversees the management of these risks and appraises the Board of Directors from time to time basis the impact assessment.

**(A) Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial asset fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, loans and other deposits etc.

The carrying amounts of financial assets represent the maximum credit risk exposure.

(i) Credit risk management

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Company only deals with parties which has good credit rating/ worthiness given by external rating agencies or based on Company's internal assessment.

All doubtful receivables are duly recognized from time to time post discussion with key stakeholders and provided for in the financial statements as deemed appropriate.

All the financial assets carried at amortized cost were considered good as at 31 March 2023, 31 March 2022 and 01 April 2021. The Company has not acquired any credit impaired asset. There was no modification in any financial assets.

**(B) Liquidity risk**

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Considering the business requirements, the treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows.

**Maturities of financial liabilities**

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for all financial liabilities, for which the contractual maturities are essential for an understanding of the timing of the cash flows. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

| Contractual maturities of financial liabilities | Less than 1 year | 1-5 year | >5 year | Total |
|---|---|---|---|---|
| **As at 31 March 2024** | | | | |
| Other Financial Liabilities | 588 | | | |
| **Total** | **588** | - | - | - |
| | | | | |
| **As at 31 March 2023** | | | | |
| Other Financial Liabilities | 937 | | | |
| **Total** | **937** | - | - | - |
| | | | | |
| **As at 31 March 2022** | | | | |
| Other Financial Liabilities | 2,284 | | | |
| **Total** | **2,284** | - | - | - |

**(C) Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include deposits, investments and foreign currency receivables and payables. The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations and provisions. The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2024 and 31 March 2023.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Assets: The Company's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

**(ii) Price risk**

The Company's exposure price risk arises from investments held and classified in the balance sheet at fair value through profit or loss. To manage the price risk arising from investments, the Company diversifies its portfolio of assets.

**24 Capital management**

For the purpose of the Company's capital management, capital includes issued equity capital, convertible preference shares, securities premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to ensure the Company's ability to continue as a going concern and maximise the shareholder value. Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2024 and 31 March 2023.

The Company's adjusted net debt to equity ratio at reporting date was as follows.

| **Particulars** | **As at 31 March 2024** | **As at 31 March 2023** |

**27 Transfer pricing**

The Company is required to use certain specified methods in computing arm's length price of international transactions between the associated enterprises and maintain prescribed information and documents relating to such transactions. The appropriate method to be adopted will depend on the nature of transactions / class of transactions, class of associated persons, functions performed and other factors, which have been prescribed. The Company is in the process of updating a study to ascertain whether such international transactions with associated enterprises are in compliance with the transfer pricing norms referred to above. Management is of the view that the Company is in compliance with transfer pricing norms for determination of arm's length prices and maintenance of relevant documentation in relation to international transactions with associated enterprises entered into during the period. Accordingly, no accrual for tax, interest or penalty payable in case of such non-compliance, if any, has been made in these financial statements.

**28 Other Statutory Information**

**(i)** The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.

## Independent Auditor's Report

### To the Members of M/s. Quantduo Technologies Private Limited

### Report on the standalone Financial Statements

### Opinion

We have audited the accompanying Standalone financial statements of **M/s. Quantduo Technologies Private Limited ("*the Company*")** which comprises the Balance Sheet as at March 31, 2023 and the Statement of Profit and Loss including Other Comprehensive Income, Statement of cash flows and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its *Loss* and total comprehensive income, its changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

### Other Information

The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Board of Director's report, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statement or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we

conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

**Responsibility of Management and those charged with governance for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the company's financial reporting process

**Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from

- Error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

**Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure "A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

e) On the basis of the written representations received from the directors as on 31st March, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.

f) With reference to the notification no. G.S.R. 583(E) dated 13th June, 2017 reporting requirements on Internal Financial Control will not be applicable to this company;

g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial position.
   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
   iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

The provisions of Section 197 read with Schedule V to the Act are applicable only to Public Companies. Accordingly, reporting under Section 197(16) of the Act is not applicable to the Company.

**'Annexure –A'**

**Referred to the Independent Auditor's Report to Member of M/s Quantduo Technologies Private Limited for the year ended 31st March 2023.**

We report that,

i. (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets including Right of use assets.
(b) According to the information and explanations given to us, the fixed assets have been physically verified by the management during the year which, in our opinion, is reasonable having regard to the size of Company and the nature of its assets. No material discrepancies were noticed on such verification.
(c) Since the Company does not own any immovable property, we have nothing to report
(d) the company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year
(e) Since there are no benami properties held by the Company, we have nothing to report.

ii. Since the Company does not have any inventory, we have nothing to report.

iii. The Company has not made investments, provided guarantee or security or granted loans or advances in the nature of loans, secured or unsecured to Companies, firms, limited liability partnerships or other parties.

iv. The provisions of Section 185 and Section 186 of Companies Act, 2013 in respect of making Investments, in respect of grant of loans and providing guarantees and securities is not applicable to the company.

v. The Company has not accepted any deposits to which the provisions of Section 73 to 76 or any other relevant provisions of Companies Act, and the rules framed there under and the directions issued by the RBI are applicable. Hence paragraph 3(v) of CARO is not applicable to the company.

vi. The Central Government has not prescribed maintenance of cost records under section 148(1) of the companies act for any of the products / services of the company. Thus paragraph 3(vi) of CARO is not applicable to the company.

vii. (a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income Tax, Goods and Service Tax, Customs Duty, Excise Duty, Cess and other material statutory dues to applicable authorities
(b) There were no undisputed amounts payable in respect of Provident Fund, Income-tax, Customs Duty, Goods and Services Tax, Cess and other material statutory dues in arrears as at 31 March 2023 for a period of more than six months from the date they became payable.

viii. There were no transactions recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961). Hence, this clause is not applicable.

*ix*. Based on our audit procedures and on the information and explanations given by the management, the Company has neither borrowed any loans from financial institutions, banks and government nor issued any debentures. Hence, this clause is not applicable.

*x*. There were no initial public offer or further public offer *(including debt instruments)* made during the year, hence this clause is not applicable.

xi. Based on our audit procedures and on the information and explanations given by the management, we report that, no fraud by the company and no fraud on the company by its officers/ employees has been noticed or reported during our audit. Hence, this clause is not applicable.

xii. The Company is not a Nidhi Co and therefore clause 3 (xii) of the order is not applicable to the Company.

xiii. All transactions with the related parties are in compliance with S.188 of Companies Act, 2013 and the details thereof have been disclosed in the financial statements as required by the accounting standards and Companies Act, 2013. The provision of S.177 are not applicable to the Company and accordingly reporting under Clause 3(13) insofar as it relates to S.177 of the Act is not applicable to the Company and hence not commented upon.

xiv. Since, Section 138 is not applicable, we have nothing to report.

xv. The Company has not entered into any non-cash transactions with directors/persons connected with him and therefore clause 3(xv) of the order is not applicable to the company.

xvi. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934. Hence paragraph 3(16) of CARO is not applicable to the Company.

xvii. The company has not incurred any cash losses in the financial year.

xviii. There has been no resignation of the statutory auditors during the year. Hence, this clause is not applicable.

xix. In our opinion, no material uncertainty exists as on the date of the audit report that Company is capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date.

*xx*. The Company is not liable to comply under section 135 of the Companies Act. Hence, this clause is not applicable.

xxi. Since, this is a standalone audit report, this clause is not applicable.

**Notes to the financial statements**

**1 Company background**

"Quantduo Technologies Private Limited is a Private company incorporated on 29 August, 2018. Its Registered Office is at No. 795, 11th Cross, 26th Main, HSR Layout Bangalore KA 560102 IN KARNATAKA. Its main object is to develop analytics solutions for industries that deal with a large amount of data and carry on all or any business of marketing and distributing the software solutions developed by the Company and provide consulting services directly to consumers or enterprises."

**2 Basis of preparation of financial statements**

**a Basis of preparation and statement of compliance**

The financial statements are prepared under historical cost convention on a going concern and accrual basis in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) notified under Section 133 of the said Act to the extent applicable and presentation requirements of Division II of Schedule III to the Act, as applicable to the financial statements. All the assets and liabilities have been classified as current or non-current as per the company's normal operating cycle and other criteria set out in the Schedule III to the Act as well as guidance note issued by the Institute Of Chartered Accountants of India.

As these are the Company's first financial statements prepared in accordance with Ind AS, Ind AS 101- First Time Adoption of Indian Accounting Standards has been applied. An explanation of how the transition to Ind AS has affected the previously reported financial position, financial performance and cash flows of the Company is provided in Note Ind AS 101

**b Functional and presentation currency**

These financial statements are presented in Indian Rupees, which is also the Company's functional currency.

**c Use of estimates and judgements**

The preparation of the financial statements requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates.

The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience, various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods. Information about judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are disclosed in financial statement wherever necessary.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the financial year ending 31 March 2022 are disclosed in financial statement wherever necessary.

**d Current versus non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:
- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.
Deferred tax assets and liabilities are classified as non-current assets and liabilities.
The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

**e Significant accounting policies**

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied, unless otherwise stated.

**2.1 Property, plant & equipment; intangible assets; depreciation and amortisation**

**a Property, plant & equipment and depreciation**

All items of property and equipment are initially recorded at cost. Cost of property and equipment comprises purchase price, non-refundable taxes, levies, and any directly attributable cost of bringing the asset to its working condition for the intended use. After initial recognition, property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. The cost of an item of property and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The cost includes the cost of replacing part of the property and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property and equipment.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

Property and equipment are eliminated from standalone financial statements, either on disposal or when retired from active use. Losses arising in case of retirement of property and equipment and gains or losses arising from disposal of property and equipment are recognised in statement of profit and loss in the year of occurrence.

**Transistion to Ind AS:**

As permitted by Ind AS 101, the Company has elected to continue with the carrying values under Indian GAAP for all items of property, plant and equipment except for adjustment of certain prior period errors and certain consequential adjustments due to application of Ind AS 101.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year and adjusted prospectively, if appropriate. Depreciation is calculated on a written down value method over the estimated useful lives of the assets. The useful lives of the property, plant and equipment are as follows:

| Nature of assets | Useful life |
|---|---|
| Computer equipment | 3 years |

**b Intangible assets and amortisation**

Intangible assets purchased are measured at cost as of the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any. Following initial recognition, intangible assets are carried at cost, less accumulated amortisation and accumulated impairment, if any. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement or profit and loss when the asset is derecognised.

**Research and Development cost:**

Research cost are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the company can demonstrate:

**i.** The technical feasibility of completing the intangible asset so that asset will be available for use or sale.
**ii.** Its intention to complete and its ability and intention to use or sell the asset.
**iii.** How the asset will generate to complete the asset.
**iv.** The availability of resources to complete the asset.
**v.** The ability to measure reliably the expenditure during the development.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete, and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

The useful lives are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

**Transistion to Ind AS:**
The Company doesnot own any intangible assets as at 31st March 2023

**2.2 Investment property**

Investment property is a property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses (if any).

Initial direct costs incurred by the company in negotiating and arranging an operating lease are added to the carrying amount of the respective investment property and are amortised over the lease term on the same basis as the lease income.

The fair values of investment property is disclosed in the notes. Fair values are determined by an independent valuer who holds a recognised and relevant professional qualification, and has seasoned experience in the location and category of the investment property being valued.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year and adjusted prospectively, if appropriate. Depreciation is calculated on a written down value method over the estimated useful lives of the assets. The useful lives of the investment property is 60 years.

**2.3 Leases**

**a. Company as a lessee**

**Recognition, measurement and depreciation**

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.
The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate standalone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

**b. Company as a lessor**

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

**2.4 Financial instruments**

**1 Financial assets**

**i. Initial recognition**

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through Profit or Loss. Financial assets carried at fair value through Profit or Loss are initially recognised at fair value and transaction costs are expensed in the Statement of Profit and Loss.

**ii. Subsequent measurement**

Financial assets are subsequently measured at:
- amortised cost;
- Fair value through other comprehensive income (FVOCI); or
- Fair value through profit & loss- (FVTPL)

On the basis of:
- The entity's business model for managing the financial assets; and
- The contractual cash flow characteristics of the financial assets

**a. Measured at amortised cost**

A financial asset is measured at amortised cost, if it is held under "the hold to collect business model" i.e. held with an objective of holding the assets to collect contractual cash flows and the contractual cash flows are solely payments of principal and interest on the principal outstanding.

Amortised cost is calculated using the effective interest rate ("EIR") method by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in interest income in the Statement of Profit and Loss.

The losses arising from impairment of these assets are recognised in the Statement of Profit and Loss.

On derecognition of these assets, gain or loss, if any, is recognised to Statement of Profit and Loss.

**b. Measured at Fair Value through Other Comprehensive Income (FVOCI)**

A financial asset is measured at FVOCI, if it is held under "the hold to collect and sell business model" i.e. held with an objective to collect contractual cash flows and selling such financial asset, and the contractual cash flows are solely payments of principal and interest on the principal outstanding.

It is subsequently measured at fair value with fair value movements recognised in the OCI, except for interest income which recognised using EIR method.

Equity instruments:

Equity investments made by the Company are measured through FVTOCI. All fair value changes on the instrument, excluding dividends, are recognised in OCI. The Company will transfer the cumulative gain or loss upon disinvestment within equity.

**c. Measured at Fair Value through Profit & Loss (FVTPL)**

Investment in financial asset other than equity instrument, not measured at either amortised cost or FVOCI is measured at FVTPL. Such financial assets are measured at fair value and changes in fair value, including interest income and dividend income, if any, are recognised in the Statement of Profit and Loss.

**iii. Derecognition**

The Company derecognises a financial asset when the contractual right to the cash flows from the financial asset expires, or it transfers the contractual rights to receive the cash flows from the asset.

**iv. Impairment of financial assets**

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs arc provided for credit losses that result from default events that are possible within the next 12-months (a 12 month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL). For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs.

Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

**2 Financial liabilities**

**i. Initial recognition**

**ii. Subsequent measurement**

Financial liabilities measured at amortised cost are subsequently measured using EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

**iii. Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

**3 Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a current enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**2.5 Fair Value Measurement**

The Company measures financial instruments, such as, derivatives at fair value at each Balance Sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:
Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.
Level 2: Other valuation techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
Level 3: Valuation techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.
For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

**2.6 Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with banks and financial institutions, other short-term, highly liquid deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**2.7 Taxes**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

**Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates and tax laws enacted or substantially enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary difference arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction; and
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in any case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets - unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of the deferred tax reflects tax consequences that would flow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**2.8 Provisions and contingencies**

A provision is recognised if, as a result of past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability, which is expected to be settled 12 months after the Balance Sheet date. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

**Onerous contracts**

A Contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with the contract.

**Contingent liabilities**

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses it in the financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote.

**Contingent assets**

Contingent assets are neither recognised nor disclosed in the financial statements.

**2.9 Earnings per share**

The basic earnings per share is computed by dividing the net profit/ (loss) attributable to owner's of the company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/ (loss) per share comprises the weighted average shares considered for deriving basic earnings/ (loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

**2.10 Impairment of Non-financial Assets**

An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit (CGU) exceeds its recoverable amount. The recoverable amount of an asset is the greater of its fair value less cost to sell and value in use. To calculate value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market rates and the risk specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the CGU to which the asset belongs. Fair value less cost to sell is the best estimate of the amount obtainable from the sale of an asset in an arm’s length transaction between knowledgeable, willing parties, less the cost of disposal.

Impairment losses, if any, are recognized in the Statement of Profit and Loss. Impairment losses are reversed in the Statement of Profit and Loss only to the extent that the asset’s carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognized.

**2.11 Revenue recognition**

Revenue arises mainly from income from services and other income.

To determine whether the Company should recognise revenues, the Company follows 5-step process:
a. identifying the contract, or contracts, with a customer
b. identifying the performance obligations in each contract
c. determining the transaction price
d. allocating the transaction price to the performance obligations in each contract
e. recognizing revenue when, or as, we satisfy performance obligations by transferring the promised goods or services

**Revenue from operations**

The Company earns its revenue by developing analytics solutions for industries that deal with a large amount of data and carry on all or any business of marketing and distributing the software solutions developed by the Company and provide consulting services directly to consumers or enterprises."

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

A contract liability is an entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer and presented as 'Deferred revenue'. Advance payments received from customers for which no services have been rendered are presented as 'Advance from customer's'.

Unbilled revenues are classified as a financial asset where the right to consideration is unconditional upon passage of time.

**Other income - Interest income**

Interest income is recorded using the effective interest rate ('EIR') method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or over a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of the financial liability. Interest income is included under the head "finance income" in the statement of profit and loss account.

**2.12 Employee benefits**

**i. Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

**ii. Defined contribution plan - provident fund and other funds**

Employees receive benefits from a provident fund and other funds, which is a defined contribution plan. Both the employee and the Company make monthly contributions to these fund equal to a specified percentage of the covered employee's salary. The Company recognizes contribution payable to the funds scheme as an expenditure, when an employee renders the related service. The Company has no further obligations under the plan beyond its monthly contributions. The contributions are charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due and there are no other obligations other than the contribution payable.

**iii. Defined benefit plan - gratuity and compensated absences**

**Gratuity:**

**a.** The Company provides for gratuity in accordance with the Payment of Gratuity Act, 1972, a defined benefit retirement plan (the Plan) covering all employees. The plan, subject to the provisions of the above Act, provides a lump sum payment to eligible employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. Gratuity liability is accrued based on an actuarial valuation at the balance sheet date, carried out by an independent actuary.

The following table sets out the actuarial assumptions used for computing gratuity liability.

| Particulars | As at 31 March 2023 |
|---|---|
| Discount rate | 7.46% |
| Salary Escalation rate | 10.00% |
| Attrition rate | 10% |
| Normal retirement age | 58 Years |

**b. Compensated absences:**

The company does not have any provision for compensated absences.

**iv. Termination benefits**

Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

**v. Share based payment arrangements**

Employees (including senior executives) of the Company and its subsidiaries receive remuneration in the form of share-based payments in form of employee stock options, whereby employees render services as consideration for equity instruments of the Company. The Company settles this transactions and hence these share based payment arrangements are recognised as equity-settled transactions.

The cost is recognised in employee benefits expense for employees of the Company and as an investment in subsidiaries for employees of the subsidiaries, together with a corresponding increase in share based payment reserve of the Company's equity over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

In respect of equity settled share based payment resulting from the Company to employees of the Group, the amount equivalent to the cost recorded by the Company is recorded at fair value of the the stock options.

The fair value of the stock options are measured at each grant date based on half yearly valuations conducted by the Company.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

No expense is recognised for awards that do not ultimately vest because nonmarket performance and/or service conditions have not been met.

**2.13 Investment in subsidiaries, associates, and joint venture**

The Company has accounted for its investment in subsidiaries or associates or joint venture at cost less impairment. The Company assesses investments in subsidiaries, associates and joint venture for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the investment in subsidiary, associate or joint venture. The recoverable amount of such investment is the higher of its fair value less cost of disposal (FVLCD) and its value-in-use (VIU). The VIU of the investment is calculated using projected future cash flows. If the recoverable amount of the investment is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss

Investment in a subsidiary or an associate or a joint venture acquired in stages are accounted after re-measuring the equity interest held up to the date on which control or significant influence was first achieved, at its fair value on date of obtaining control or significant influence.

**2.14 Cash flow statement**

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash from operating, investing and financing activities of the Company are segregated.

**2.15 Segment reporting**

i. **Identification of segments -** The Company's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

ii. **Inter-segment transfers -** The Company generally accounts for intersegment sales and transfers at appropriate margins.

iii. **Unallocated items -** Unallocated items include general corporate asset, liability, income and expense items which are not allocated to any business segment.

iv. **Segment accounting policies -** The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

**2.16 Related Party Disclosure**

Disclosure of transactions with related parties, as required by Ind AS 24 "Related Party Disclosures" has been set out in a separate note. Related parties as defined under Ind AS 24 have been identified on the basis of information available with the Company.

**2.17 Recent accounting pronuncements**

**New and amended standards**

The accounting policies adopted and methods of computation followed are consistent with those of the previous financial year, except for items disclosed below. There were several amendments to standards and interpretations which are applicable for the first time for the year ended 31 March 2023, but either the same are not relevant or do not have an impact on the financial statements of the Company. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

**Amendment to Ind AS 105, Ind AS 16 and Ind AS 28**

The definition of "Recoverable amount" is amended such that the words "the higher of an asset's fair value less costs to sell and its value in use" are replaced with "higher of an asset's fair value less costs of disposal and its value in use". The consequential amendments are made in Ind AS 105, Ind AS 16 and Ind AS 28.
These amendments had no impact on the financial statements of the Company.

Several other amendments apply for the first time for the year ended 31 March 2023, but do not have an impact on the financial statements of the Company.

**1 First time adoption**

These financial statements are the first set of Ind AS financial statements prepared by the Company. Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for year ending on 31 March 2023, together with the comparative year data as at and for the year ended 31 March 2021 and 31st March 2020, as described in the significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at 1 April 2021, being the Company's date of transition to Ind AS. This note explains the principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheet as at 1 April 2021 and the financial statements as at and for the year ended 31 March 2023.

**Optional exemptions availed and mandatory exceptions**

In preparing these financial statements, the Company has applied the below mentioned optional exemptions and mandatory exceptions.

**A Optional exemptions availed:**

Ind AS 101 allows first-time adopters certain optional exemptions from the retrospective application of certain requirements under Ind AS for transition from the previous GAAP. The Company has availed the following:

**(i) Property, plant and equipment and intangible assets**

As per Ind AS 101 an entity may elect to:
As permitted by Ind AS 101, the Company has elected to continue with the carrying values under previous GAAP for all items of property, plant and equipment except for adjustment of certain prior period errors and certain consequential adjustments due to application of Ind AS 101. The said election has been made in respect of intangible assets also.

**(ii) Business combinations**

Ind AS 101 provides the option to apply Ind AS 103 prospectively from the transition date or from a specific date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date.
The Company elected to apply Ind AS 103 prospectively to business combinations occurring after its transition date. Business combinations occurring prior to the transition date have not been restated. Intangible assets having no future economic benefits taken over as been fully impaired.

**B Mandatory exceptions:**

Ind AS 101 also allows first-time adopters certain mandatory exceptions to be applied for retrospective application of certain requirements under Ind AS for transition from the previous GAAP (IGAAP).

**(i) Classification and measurement of financial assets**

Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as at the date of transition. Further, the standard permits measurement of financial assets accounted at amortised cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable.

Accordingly, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. Measurement of financial assets accounted at amortised cost has been done retrospectively, except where the same is impracticable.

**(ii) Estimates**

As per Ind AS 101, an entity's estimates in accordance with Ind AS, at the date of transition to Ind AS, at the end of the comparative period presented in the entity's first Ind AS financial statements, as the case may be, should be consistent with estimates made for the same date in accordance with the previous GAAP unless there is objective evidence that those estimates were in error. However, the estimates should be adjusted to reflect any differences in accounting policies.

As per Ind AS 101, where application of Ind AS requires an entity to make certain estimates that were not required under previous GAAP, those estimates should be made to reflect conditions that existed at the date of transition (for preparing opening Ind AS balance sheet) or at the end of the comparative period (for presenting comparative information as per Ind AS).

The Company's estimates under Ind AS are consistent with the above requirements.

**(iii) De-recognition of financial assets and liabilities**

Ind AS 101 requires a first-time adopter to apply the derecognition requirements of Ind AS 109 prospectively to transactions occurring

on or after the date of transition. However, it also allows the first-time adopter that wants to apply the derecognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing may only do so, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

The Company has opted for derecognition prospectively, whenever a transaction arises after the date of transition.

**20 Earnings per share (EPS)**

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the Company (after adjusting for interest on the convertible preference shares) by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.
The following reflects the income and share data used in the basic and diluted EPS computations:

| | Year ended 31 March 2023 | Year ended 31 March 2022 | Year ended 1 April 2021 |
|---|---|---|---|
| **Profit attributable to equity shareholders (A)** | (42,433,133.67) | (3,396,880.00) | (8,792,030.00) |
| Effect of dilution | - | - | - |
| **Profit attributable to equity shareholders after adjusting the effect of dilution** | (42,433,133.67) | (3,396,880.00) | (8,792,030.00) |
| Weighted-average number of equity shares in calculating Basic EPS | 103,403.00 | 100,009.32 | 100,000.00 |
| Effect of dilution | - | - | - |
| Weighted average number of Equity shares adjusted for the effect of dilution | **103,403** | **100,009** | **100,000** |
| Nominal value per equity shares | | | |
| Earnings per share - basic (Rs.) | -410.37 | -33.97 | -87.92 |
| Earnings per share - diluted (Rs.) | -410.37 | -33.97 | -87.92 |

| | - | - | - | - | - | 5.71 |
| **Deferred tax liabilities** | | | | | | |
| Excess of depreciation/amortization on property, plant and equipment and intangible assets under income –tax law over depreciation/amortization provided in accounts | | | | | | |
| **Deferred tax charge/ (credit)*** | - | - | - | - | - | 1,402.84 |
| **Net deferred tax assets*** | - | - | - | - | - | 1,402.84 |

* The Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available, against which they can be used. The existence of unabsorbed tax losses and depreciation is an evidence that future taxable profits may not be available. Therefore, in the case of history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profits will be available against which such deferred tax asset can be realised. Deferred tax assets (recognised or unrecognised) are reviewed at each reporting date and recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised. In view of this, the above mentioned amounts pertaining to carry forward business losses and unabsorbed depreciation have been restricted to an amount, so that deferred tax assets do not exceed deferred tax liabilities.

## 22 Financial instruments and fair value measurements

### A. Accounting classifications and fair values

The Company's assets and liabilities which are measured at amortised cost for which fair value are disclosed at 31 March 2023.

### (i) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the balance sheet are categorised into three levels of fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows

### (ii) Financial instruments by category

| Particulars | Classification | As at 31 March 2023 | As at 31 March 2022 | As at 01 April 2021 |
|---|---|---|---|---|
| **Financial assets*** | | | | |
| Trade receivables | Amortised cost | 20,266.44 | 6,921.93 | 1,863.28 |
| Cash and cash equivalents | Amortised cost | 843.94 | 24,602.41 | 4,238.58 |
| Other current financial assets | Amortised cost | 1,197.55 | 610.04 | 10.04 |
| **Total financial assets** | | **22,307.93** | **32,134.38** | **6,111.90** |
| | | | | |
| **Financial liabilities#** | | | | |
| Other financial liabilities | Amortised cost | 936.94 | 2,283.65 | 1,161.76 |
| **Total financial liabilities** | | **936.94** | **2,283.65** | **1,161.76** |

* The Company has not disclosed the fair values for financial instruments carried at amortised cost such as trade receivables, cash and cash equivalents and other financial assets, because their carrying amounts are a reasonable approximation of fair value.

# The Company has not disclosed the fair value for financial instruments carried at amortised cost such as trade payables and other financial liabilities, because their carrying amounts are a reasonable approximation of fair value.

## 23 Financial risk management

The Company's principal financial liabilities comprises, Employee benefits and reimbursements, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company is exposed to market risk, credit risk and liquidity risk. The Company's management oversees the management of these risks and appraises the Board of Directors from time to time basis the impact assessment.

### (A) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial asset fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, loans and other deposits etc.

The carrying amounts of financial assets represent the maximum credit risk exposure.

(i) Credit risk management

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Company only deals with parties which has good credit rating/ worthiness given by external rating agencies or based on Company's internal assessment.

All doubtful receivables are duly recognized from time to time post discussion with key stakeholders and provided for in the financial statements as deemed appropriate.

All the financial assets carried at amortized cost were considered good as at 31 March 2023, 31 March 2022 and 01 April 2021. The Company has not acquired any credit impaired asset. There was no modification in any financial assets.

### (B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Considering the business requirements, the treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows.

**Maturities of financial liabilities**

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for all financial liabilities, for which the contractual maturities are essential for an understanding of the timing of the cash flows. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

| Contractual maturities of financial liabilities | Less than 1 year | 1-5 year | >5 year | Total |
|---|---|---|---|---|
| **As at 31 March 2023** | | | | |
| Other Financial Liabilities | 9.37 | | | |
| **Total** | **9.37** | **-** | **-** | **-** |
| | | | | |
| **As at 31 March 2022** | | | | |
| Other Financial Liabilities | 22.84 | | | |
| **Total** | **22.84** | **-** | **-** | **-** |
| | | | | |
| **As at 01 April 2021** | | | | |
| Other Financial Liabilities | 11.62 | | | |
| **Total** | **11.62** | **-** | **-** | **-** |

**(C) Market risk**

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include deposits, investments and foreign currency receivables and payables. The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations and provisions. The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2023, 31 March 2022 and 01 April 2021.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Assets: The Company's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

**(ii) Price risk**

The Company's exposure price risk arises from investments held and classified in the balance sheet at fair value through profit or loss. To manage the price risk arising from investments, the Company diversifies its portfolio of assets.

**24 Capital management**

For the purpose of the Company's capital management, capital includes issued equity capital, convertible preference shares, securities premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to ensure the Company's ability to continue as a going concern and maximise the shareholder value. Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2023 and 31 March 2022.

The Company's adjusted net debt to equity ratio at reporting date was as follows.

| **Particulars** | **As at 31 March 2023** | **As at 31 March 2022** | **As at 01 April 2021** |

*Also the Company was incorporated in October 2020 and had operated for part of the last year. Therefore, there has been a variance in the ratios.

1 **Current Ratio**

The current ratio indicates a company's overall liquidity position. It is widely used by banks in making decisions regarding the advancing of working capital credit to their clients.

Current Ratio = Current Assets/ Current Liabilities

2 **Debt – Equity Ratio**

Debt-to-equity ratio compares a Company's total debt to shareholders equity. Both of these numbers can be found in a Company's balance sheet.

Debt – Equity Ratio = Total Debt/ Shareholder's Equity

3 **Debt Service Coverage Ratio**

Debt Service coverage ratio is used to analyse the firm's ability to pay-off current interest and instalments.

Debt Service Coverage Ratio = Earnings available for debt service / Debt Service

Earning for Debt Service = Net Profit before taxes + Non-cash operating expenses like depreciation and other amortizations + Interest + other adjustments

4 **Return on Equity (ROE)**

It measures the profitability of equity funds invested in the Company. The ratio reveals how profitability of the equity-holders' funds have been utilized by the Company. It also measures the percentage return generated to equity-holders. The ratio is computed as:

Return on Equity (ROE) = Net Profits after taxes – Preference Dividend (if any)/ Average Shareholder's Equity

5 **Inventory Turnover Ratio**

It measures the profitability of equity funds invested in the Company. The ratio reveals how profitability of the equity-holders' funds have been utilized by the Company. It also measures the percentage return generated to equity-holders. The ratio is computed as:

Inventory Turnover ratio = Cost of Goods sold or Sale / Average

Average inventory is (Opening + Closing balance / 2)

When the information opening and closing balances of inventory is not available then the ratio can be calculated by dividing COGS OR Sales by closing balance of Inventory.

6 **Trade receivables turnover ratio**

It measures the efficiency at which the firm is managing the receivables.

Trade receivables turnover ratio = Net Credit Sales/ Average Accounts Receivable

Net credit sales consist of gross credit sales minus sales return. Trade receivables includes sundry debtors and bill's receivables.

Average trade debtors = (Opening + Closing balance / 2)

7 **Trade payables turnover ratio**

It indicates the number of times sundry creditors have been paid during a period. It is calculated to judge the requirements of cash for paying sundry creditors. It is calculated by dividing the net credit purchases by average creditors.

Trade payables turnover ratio = Net Credit Purchases / Average Trade Payables

Net credit purchases consist of gross credit purchases minus purchase return.

When the information about credit purchases, opening and closing balances of trade creditors is not available then the ratio is calculated by dividing total purchases by the closing balance of trade creditors.

8 **Net capital turnover ratio**

It indicates a company's effectiveness in using its working capital.

Net capital turnover ratio = Net Sales / Average Working Capital

Net Sales shall be calculated as total sales minus sales returns.

Working capital shall be calculated as current assets minus current liabilities.

9 **Net profit ratio**

It measures the relationship between net profit and sales of the business.

Net Profit Ratio = Net Profit / Net Sales

Net profit shall be after tax.

10 **Return on capital employed (ROCE)**

Return on capital employed indicates the ability of a company's management to generate returns for both the debt holders and the equity holders. Higher the ratio, more efficiently is the capital being employed by the company to generate returns.

Return on capital employed (ROCE) = Earnigs before interest and taxes / Capital Employed

Capital Employed = Tangible Net Worth + Total Debt + Deferred Tax Liability

11 **Return on investment**

Return on investment (ROI) is a financial ratio used to calculate the benefit an investor will receive in relation to their investment cost. The higher the

Return on investment = {MV(T1) – MV(T0) – Sum [C(t)]}

OR

**27** **Transfer pricing**

The Company is required to use certain specified methods in computing arm's length price of international transactions between the associated enterprises and maintain prescribed information and documents relating to such transactions. The appropriate method to be adopted will depend on the nature of transactions / class of transactions, class of associated persons, functions performed and other factors, which have been prescribed. The Company is in the process of updating a study to ascertain whether such international transactions with associated enterprises are in compliance with the transfer pricing norms referred to above. Management is of the view that the Company is in compliance with transfer pricing norms for determination of arm's length prices and maintenance of relevant documentation in relation to international transactions with associated enterprises entered into during the period. Accordingly, no accrual for tax, interest or penalty payable in case of such non-compliance, if any, has been made in these financial statements.

**28** **Other Statutory Information**

**(i)** The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.

**(ii)** The Company has no balance with any companies struck off under section 248 of Companies Act, 2013 or section 560 of Companies Act, 1956

**(iii)** The Company does not have any changes or satisfaction which is yet to be registered with ROC beyound the statutory period.

**(iv)** The Company does not have any cryptocurrency transactions/balances for the year ended 31 March 2023, 31 March 2022 and 01 April 2021.

**(v)** The Company had not advanced funds to intermediaries for further advancing beneficiary.

**(vi)** The Company does not have any such transactions which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessment under the income tax Act 1961(such as search or survey or any other relevant provisions of the Income Tax Act, 1961.

**29** **Impact of COVID - 19**

The Company has considered the possible effects that may result from the pandemic relating to COVID – 19 in the preparation of these financial statements. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company has at the date of approval of these financial statements, used internal and external sources of information and economic forecasts and expects that the carrying amount of these assets will be recovered. The impact of COVID-19 on the financial statements may differ from that estimated as at the date of approval of the financial statements.

**30** **Rounded off figures**

Certain amounts (currency value or percentages) shown in the various tables and paragraphs included in these financial statements have been rounded off or truncated as deemed appropriate by the management of the Company.

CHARTERED ACCOUNTANTS

**INDEPENDENT AUDITROS' REPORT**

**To Stellio Ventures, S.L**

**Report on the Audit of Special Purpose Ind AS Financial Statements**

## 1. Opinion

We have audited the Special Purpose Ind AS Financial Statements of Stellio Ventures, S.L ("the Company"), which comprise the Special Purpose Ind AS Balance Sheet as at June 30, 2025, the Special Purpose Ind AS Statement of Profit and Loss and other comprehensive income, the Special Purpose Ind AS Statement of Cash flows and the Special Purpose Ind AS Statement of changes in equity for the three months period ended June 30, 2025 then ended and notes, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Special Purpose Ind AS Financial Statements"). The Special Purpose Ind AS Financial Statements have been prepared by the management of the Company in accordance with the basis of preparation as set out in Note 2.1 to the Special Purpose Ind AS Financial Statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Special Purpose Ind AS Financial Statements as at and for the for the three months period ended June 30, 2025, are prepared, in all material aspects, in accordance with the basis of preparation as set out in Note 2 to the Special Purpose Ind AS Financial Statements.

## 2. Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) as specified under Section 143(10) of the Companies Act 2013. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Special Purpose Ind AS Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountant of India together with the ethical requirements that are relevant to our audit of the Special Purpose Ind AS Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and Code of Ethics. We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our opinion on the Special Purpose Ind AS Financial Statements.

## 3. Other matter

**Basis of preparation** - We draw attention to Note 2.1 of the Special Purpose Ind AS Financial Statements, which describes the basis of preparation of the Special Purpose Ind AS Financial Statements. As explained therein, these Special Purpose Ind AS Financial Statements are prepared solely for the purpose of Proforma Financial Statements to be included in the Offer document to be filed by the acquirer in connection with the Proposed IPO, as aforesaid pursuant to the requirement of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 and submission to the Book Running Lead Managers ("BRLMs") (namely Kotak Mahindra Capital Limited, Morgan Stanley India Company Private Limited, Avendus Capital Private Limited, Citigroup Global Markets India Private Limited, Axis Capital Limited and Intensive Fiscal Services Private Limited), and legal counsels (namely, Cyril Amarchand Mangaldas counsels to the Offer under domestic law) appointed in connection with the Offer by the Company and hence these Special Purpose

Ind AS Financial Statements do not include full disclosures and presentation, which are required for general purpose financial statements prepared under Ind AS. These Special Purpose Ind AS Financial Statements are not complete set of financial statements prepared under Ind AS. These Special Purpose Ind AS Financial Statements are not the statutory financial statements of the Company, and are not intended to, and do not, comply with the disclosure provisions applicable to statutory financial statements prepared under the Companies Act, 2013.

Our opinion is not modified in respect of above matter.

**4. Management's Responsibilities for the Special Purpose Ind AS Financial Statements**

The Company's Management is responsible for the preparation of these Special Purpose Ind AS Financial Statements in accordance with the basis of preparation as stated in Note 2.1 to the Special Purpose Ind AS Financial Statements. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the applicable law for safeguarding of the assets of and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Special Purpose Ind AS Financial Statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is also responsible for overseeing the financial reporting process of the Company.

**5. Auditor's Responsibilities for the Audit of the Special Purpose Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Special Purpose Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special Purpose Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Special Purpose Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

**HEAD OFFICE:**
A-6, Maharani Bagh
New Delhi- 110065
Ph.: 011-41027248, 41626470
Fax: 011-41328425
E-mail: kapil@bansalco.com

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the Special Purpose Ind AS Financial Statements made by the management.

- Conclude on the appropriateness of Management use of the going concern basis of accounting in preparation of Special Purpose Ind AS Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Special Purpose Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion.

  Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Special Purpose Ind AS Financial Statements, including the disclosures, and whether the Special Purpose Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**6. Restriction on Use**

This report has been prepared for and only for the purpose set out above. This report should not be otherwise used or shown to or otherwise distributed to any other party or used for any other purpose except with our prior consent in written. We neither accept nor assume any duty, responsibility or liability to any other party or for any other purpose.

## 1. Corporate information

Stellio Ventures,S.L ("the Company") referred to in this report was incorporated in 2014 and its registered office and tax domicile are located at CL Aragon, 247, EN, 1, 08007, Barcelona, Barcelona. The legal status at the time of its incorporation was Sociedad Limitada. The Company's corporate purpose is the import and sale of fashion accessories and its main activities are the retail trade of articles.

## 2. Material Accounting Policies

### 2.1 Basis of preparation of Special Purpose Ind AS Financial Statements

These Special Purpose Ind AS Financial Statements will be used by the Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited) ("Lenskart" or "Acquirer") for the purpose of Proforma Financial Statements to be included in the Offer document to be filed by the acquirer in connection with the Proposed IPO, as aforesaid pursuant to the requirement of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018.

These Special Purpose Ind AS Financial Statements of the Company have been prepared in accordance with recognition and measurement principles prescribed under Section 133 of the Companies Act, 2013 read with the rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules 2016 issued thereunder, principles of Ind AS 101, and other accounting principles generally accepted in India ("Ind AS"). However, all the disclosures as required under Ind AS have not been furnished in these Special Purpose Financial Statements.

The audited financial statements of the Company were prepared in accordance with the Spanish General Accounting Plan for period ended June 30, 2025 and year ended March 31, 2025 having audit report signed on October 10 , 2025 and July 18, 2025 respectively.

These Special Purpose Ind AS Financial Statements for the year ended June 30, 2025 have been prepared after making suitable adjustments to the accounting heads from their Spanish General Accounting Plan values following accounting policies and accounting policy choices (both mandatory and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (April 01, 2022).

The items in the Special Purpose Financial Statements have been classified considering the principles under Ind AS 1, "Presentation of Financial Statements". Management of the Company has prepared the Special Purpose Ind AS Financial Statements which comprise the Special Purpose Balance Sheet as at June 30, 2025 and March 31, 2025 the Special Purpose Ind AS Statement of Profit and Loss and Special Purpose Statement of Changes in Equity for the period ended June 30, 2025 and for the year ended March 31, 2025.

### 2.2 Summary of material accounting policies

### 2A. Functional and presentation currency

These Special Purpose Ind AS Financial Statements are presented in Indian Rupees (INR). All amounts have been rounded-off to the nearest millions (INR 000,000), unless otherwise indicated.

### 2B. Basis of measurement

The Special Purpose Ind AS Financial Statements have been prepared on the historical cost basis except for the following items:

| Items | Measurement basis |
|---|---|
| Investments | Fair value |
| Other financial assets and liabilities | Amortised cost |

The Company has prepared the Special Purpose Ind AS Financial Statements on the basis that it will continue to operate as a going concern and climate related matters have been duly considered in going concern assessment.

### 2C. Use of estimates and judgements

In preparing these Special Purpose Ind AS Financial Statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

**A. Judgements**

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the Special Purpose Ind AS Financial

Determining the lease term of the contract with renewal and termination option - Company as a lessee

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

Leases - Estimating the incremental borrowing rate:

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

**B. Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the Special Purpose Ind AS Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

**Fair value measurement of financial instruments**

When the fair values of financial assets and financial liabilities recorded in the Special Purpose Ind AS Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

**Impairment of non-financial assets**

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ('CGU') is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are Companyed together into the smallest Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Companys of assets ('CGU').

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

**2D. Measurement of fair values**

A number of the Company's accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

**2E. Current versus non-current classification**

The Company presents assets and liabilities in the Special Purpose Ind AS Balance Sheet based on current / non-current classification.

An asset is classified as current when it is:
a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
b) Held primarily for the purpose of trading,
c) Expected to be realised within twelve months after the reporting period, or
d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:
a) It is expected to be settled in normal operating cycle,
b) It is held primarily for the purpose of trading,
c) It is due to be settled within twelve months after the reporting period, or
d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

All assets and liabilities have been classified as current or non- current as per the Company's operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as less than 12 months for the purpose of current and non- current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**2.3 Property, plant and equipment**

**i. Recognition and measurement**

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

**iii.Depreciation**

Depreciation is provided on a pro-rata basis under the straight-line method. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Technical installations and machinery | 7 |
| Furniture and furnishings | 10 |
| Other facilities | 3 |
| Information processing equipment | 4 |
| Other property, plant, and equipment | 5 |

Leasehold improvements are depreciated over the useful life of individual assets or period of lease, whichever is lower.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

**2.4 Intangible assets**

**i.Recognition and initial measurement**

Intangible assets represent computer software and trademarks. Intangible assets are stated at acquisition cost less accumulated amortization and impairment loss, if any. The cost of intangible asset comprises its purchase price, including any import duties and non-refundable taxes or levies and any directly attributable expenditure on making the asset ready for its intended use. Intangible assets are amortised in Special Purpose Ind AS Statement of Profit and Loss for the year ended on a straight line basis in accordance with the estimated useful lives of respective assets. The management's estimates of the rate of amortisation of intangible assets are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Industrial property | 13 |
| Tansfer rights | 7 |
| Website development | 5 |
| Computer applications | 3 |

**ii. Subsequent expenditure**
Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

**iii. Amortisation**
Amortisation expense is charged on a pro-rata basis for assets purchased during the year. Amortisation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

**2.5 Inventories**
Inventories which comprise of traded goods are carried at the actual cost.

The methods of determination of cost of various categories of inventories are as follows:

| Particulars | Basis of Valuation |
|---|---|
| Traded goods | Actual cost |

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

The comparison of cost and net realisable value is made on item by item basis.

**2.6 Financial instruments**

***(i). Recognition and initial measurement***
A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Trade receivables are initially recognised at transaction value. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

***(ii). Classification and subsequent measurement***

***Financial assets***
The Company classifies its financial assets in the following measurement categories:
·those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
·those measured at amortised cost.
Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:
−the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
−the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

***Financial assets: Business model assessment***
The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:
− the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
−how the performance of the portfolio is evaluated and reported to the Company's management;
−the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
−how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
−the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

***Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest***
For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:
− contingent events that would change the amount or timing of cash flows;
− terms that may adjust the contractual coupon rate, including variable interest rate features;
− prepayment and extension features; and
− terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

***Financial assets: Subsequent measurement and gains and losses***

***Financial assets at FVTPL***
These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

***Financial assets at amortised cost***
These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

***Financial liabilities: Classification, subsequent measurement and gains and losses***
Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

***(iii) Derecognition***

A financial asset is derecognised only when:
−the Company has transferred the rights to receive cash flows from the financial asset or
−retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised.

Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

***(iv) Offsetting***
Financial assets and financial liabilities are offset and the net amount presented in the Special Purpose Ind AS Balance Sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

***(v) Impairment of financial assets***
The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:
-significant financial difficulty of the borrower or issuer; or
-a breach of contract such as a default or being past due.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:
-bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.
Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.
Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward- looking information.

***Measurement of expected credit losses***
Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. Under the simplified approach, the Company does not track changes in credit risk for individual customers. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates and delays in realisations over the expected life of the trade receivable and is adjusted for forward looking estimates. At every balance sheet date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

***Presentation of allowance for expected credit losses in the balance sheet***
Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets

***Write-off***
The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery and the amount of the loss is recognised in the Special Purpose Ind AS Statement of Profit and Loss for the year ended within other expenses. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

***(vi)Impairment of assets***
Assessment is done at each Special Purpose Ind AS Balance Sheet date as to whether there is any indication that an asset (PPE and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or Companys of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Assessment is also done at each Special Purpose Ind AS Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

**2.7 Cash and cash equivalents**
Cash and cash equivalents in the balance sheet comprise cash at banks and on hand.

**2.8 Revenue recognition**
**Revenue from contracts with customers**
Revenue from the sale of goods and the rendering of services is measured at the monetary amount or, where appropriate, the fair value of the consideration received or expected to be received, which is the agreed price of the assets to be transferred to the customer, less the amount of any discounts, rebates, or similar items that the company may grant and any interest incorporated in the face value of the receivables. However, embedded interest on trade receivables maturing in less than one year that do not have a contractual interest rate may be included where the effect of not discounting cash flows is not material.

The Company will take into account, in measuring revenue, the best estimate of the variable consideration if it is highly probable that there will not be a material reversal of the amount of revenue recognised when the uncertainty associated with the variable consideration is subsequently resolved.

**Contract balances**

***Trade receivables***
A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in financial instrument – initial recognition and subsequent measurement.

***Contract liabilities***
A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

**2.9 Government grants**
Government grants are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant; they are then recognised in profit or loss as other operating revenue on a systematic basis. Grants related to the acquisition of assets are recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate the Company for expenses incurred are recognised in profit or loss as other operating revenue on a systematic basis in the periods in which such expenses are recognised.

**2.10 Employee benefits**
The Company's obligation towards various employee benefits has been recognised as follows:

**Defined contribution plans**
A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

**2.11 Foreign currency**

**Foreign currency transactions**
Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ("the functional currency") which is Euro ("EUR"). These financial statements are presented in Indian Rupees (INR). All values are reported in INR millions. These financial statements have been translated into INR using the following rates:
(a) Assets and liabilities for each reporting dates are translated at the closing rates at the date of reporting dates i.e. three month ended June 30, 2025 - INR 100.7548 per EUR, 2025 - INR 92.4326 per EUR.
(b) Income and expenses for each statement of comprehensive income are translated at average rate for the period/year i.e. three month ended June 30, 2025 - INR 97.0793 per EUR, 2025 - INR 90.7931 per EUR.
(c) Share Capital and Other equity as at April 01, 2022, have been computed at opening rate as at April 01, 2022 i.e. INR 84.7550 per EUR.
(d) Dividend paid during the year ended March 31, 2025 computed at transaction date.
(e) All resulting exchange difference are recognised in other comprehensive income and accumulated in "Foreign Currency Translation Reserve" in other equity.

**2.12 Leases**
The Company assesses at contract inception whether a contract is, or contains a, lease. That is if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration.

**Company as a lessee**
The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**i) Right of use asset**
The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

**ii) Lease Liabilities**
At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of the lease payment to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

**iii) Short-term leases and leases of low value assets**

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

**2.13 Income tax**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

**i. Current tax**
Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**ii. Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that :at the time of transaction that neither affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.
- temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**2.14 Borrowing cost**

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs).

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

All other borrowing costs are expensed in the period in which they occur.

**2.15 Earnings per share**

**Basic Earnings per share**

Basic earnings/(loss) per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

**Diluted Earnings per share**

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless they have been issued at a later date.

**2.16 Recognition of interest income or expense**

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

**2.17 Recent accounting pronouncement**

A. Standards and amendments effective from April 01, 2025

The Ministry of Corporate Affairs (MCA) has notified certain amendments to Ind AS. Key amendments relevant to the Company are summarised below:

• Ind AS 1 – Classification of Liabilities as Current or Non-current:

The amendment clarifies the meaning of a right to defer settlement, requires that such right must exist at the end of the reporting period, and confirms that classification is not affected by the likelihood of exercising this right. It also clarifies that the terms of a convertible liability affect classification only if the embedded derivative is equity classified.

The amendment is to be applied retrospectively in accordance with Ind AS 8. The Company has evaluated the impact and determined that these amendments do not have a material effect on the classification or presentation of liabilities for the period ended June 30, 2025.

• Ind AS 7 and Ind AS 107 – Disclosures: Supplier Finance Arrangements:

These amendments require enhanced disclosures to help users of financial statements understand the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The amendments are effective for annual periods beginning on or after April 01, 2025. Comparative information for earlier periods and disclosures for interim periods ending on or before March 31, 2026 are not required. These amendments do not have an impact on recognition or measurement in the current financial statements.

• Ind AS 12 – International Tax Reform: Pillar Two Model Rules:

The amendment introduces a mandatory temporary exception from recognising and disclosing deferred tax assets and liabilities related to Pillar Two income taxes. This exception is applicable immediately and retrospectively, with additional disclosure requirements effective from April 01, 2025 (but not for interim periods ending on or before March 31, 2026).

The Company has applied the temporary exception and concluded that the amendment does not have a material impact on its financial results for the quarter ended June 30, 2025.

B. Standards and amendments issued but not yet effective

Further amendments to Ind AS 1 – Non-current Liabilities with Covenants specify that if a covenant breach existing at the reporting date is rectified after the reporting date, such rectification shall be treated as a non-adjusting event under Ind AS 10.

These amendments are effective for annual reporting periods beginning on or after April 01, 2026. The Company will evaluate the implications of these amendments upon their applicability. Based on the preliminary assessment, no material impact is expected on the recognition or measurement of liabilities.

## 16 Lease liabilities

The Company has lease contracts for office and retail premises used in its operations. The lease for the office premises at Calle Aragó, 247, Barcelona has a tenure of 7 years, commenced on March 01, 2019. The lease for the retail premises at Calle Portaferrissa, 18, Barcelona has a tenure of 10 years, commenced on August 01, 2024. During financial year 2024–25, the Company entered into a new lease agreement for retail premises located at Kalverstraat 160, Amsterdam, with a tenure of 5 years commencing on April 16, 2025, automatically renewable for successive 5-year terms unless terminated with 12 months' notice. The Company's obligations under its leases are secured by the lessor's title to the leased assets.

All lease contracts include termination options. The Aragó lease allows termination after 12 months with 2 months' notice, the Portaferrissa lease permits termination after 24 months with 3–6 months' notice, and the Kalverstraat lease may be terminated by either party with 12 months' notice prior to the end of any term. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Company's business needs. Management exercises significant judgment in determining whether these options are reasonably certain to be exercised.

The Company does not apply the 'short-term lease' or 'lease of low-value assets' recognition exemptions for these leases.

Set out below are the carrying amounts of lease liabilities and the movements during the year:

| Particulars | As at June 30, 2025 | As at March 31, 2025 |
|---|---|---|
| **Opening Balance as on April 01** | **153.99** | **4.47** |
| Additions | 45.92 | 155.87 |
| Accretion of interest | 0.93 | 2.00 |
| Payment of principal portion of lease liabilities | (4.37) | (9.11) |
| Payment of interest portion of lease liabilities | (0.93) | (2.00) |
| Exchange translation difference | 15.44 | 2.76 |
| **Closing Balance** | **210.98** | **153.99** |
| Non - Current | 189.14 | 136.76 |
| Current | 21.84 | 17.23 |

The effective interest rate for lease liabilities is 1.90 %

The following are the amounts recognised in profit and loss account:

| Particulars | For the period ended June 30, 2025 | For the year ended March 31, 2025 |
|---|---|---|
| Depreciation expense of right-of-use assets | 6.72 | 12.75 |
| Interest expense on lease liabilities | 0.93 | 2.00 |
| Variable lease payments (included in other expenses) | 1.08 | 0.36 |
| **Total amount recognised in profit and loss** | **8.73** | **15.11** |

**Maturity analysis of lease liabilities is as follows:**

| Particulars | As at June 30, 2025 | As at March 31, 2025 |
|---|---|---|
| Within one year | 25.65 | 19.98 |
| After one year but not more than three years | 82.22 | 35.49 |
| After three years but not more than five years | 120.00 | 112.40 |

## 17 Trade payables

| Particulars | As at June 30, 2025 | As at March 31, 2025 |
|---|---|---|
| Total outstanding dues of micro enterprises and small enterprises | - | - |
| Total outstanding dues of creditors other than micro enterprises and small enterprises | 601.99 | 358.22 |
| | **601.99** | **358.22** |

## 18 Other financial liabilities

| | **689.95** | **1,496.44** |

*(This space has been left blank intentionally)*

## 29 Earnings per share (EPS)

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

Diluted earnings per share amounts are calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares. The following reflects the income and share data used in the basic and diluted EPS computations:

| Particulars | For the period ended June 30, 2025 | For the year ended March 31, 2025 |
|---|---|---|
| **Profit attributable to equity shareholders (A)** | 272.34 | 253.40 |
| Effect of dilution | - | - |
| **Profit attributable to equity shareholders after adjusting the effect of dilution (B)** | **272.34** | **253.40** |
| | | |
| **Weighted-average number of equity shares** | | |
| Number of equity shares outstanding at the beginning of the year | 38,269 | 38,269 |
| Add: Weighted average number of equity shares issued | - | - |
| **Weighted-average number of equity shares in calculating Basic EPS (C)** | **38,269** | **38,269** |
| Effect of dilution | - | - |
| **Weighted average number of Equity shares adjusted for the effect of dilution (D)** | **38,269** | **38,269** |
| | | |
| Nominal value per equity shares (EUR) | 0.10 | 0.10 |
| Earnings per share - basic (A/C) (Rs.) | 7,116.47 | 6,621.66 |
| Earnings per share - diluted (B/D) (Rs.) | 7,116.47 | 6,621.66 |

*(This space has been left blank intentionally)*

## 30 Financial instruments and fair value measurements

### A. Accounting classifications and fair values

The Company's assets and liabilities which are measured at amortised cost for which fair value are disclosed for respective reporting period.

**(i) Fair value hierarchy**

Financial assets and financial liabilities measured at fair value in the balance sheet are categorised into three levels of fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows

**Level 1:** quoted prices (unadjusted) in active markets for financial instruments.
**Level 2:** inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
**Level 3:** Inputs which are not based on observable market data.

**Disclosures fair value measurement hierarchy for assets as at June 30, 2025:**

| | As at June 30, 2025 | Level 2 |
|---|---|---|
| **Assets** | | |
| Investment fund - Debt | 2.05 | 2.05 |

**Disclosures fair value measurement hierarchy for assets as at March 31, 2025:**

| | As at March 31, 2025 | Level 2 |
|---|---|---|
| **Assets** | | |
| Investment fund - Debt | 1.88 | 1.88 |

**(ii) Financial instruments by category**

| Particulars | Classification | As at June 30, 2025 | As at March 31, 2025 |
|---|---|---|---|
| **Financial assets** | | | |
| Investments in investment funds | FVTPL | 2.05 | 1.88 |
| Trade receivables* | Amortised cost | 120.56 | 80.48 |
| Cash and cash equivalents* | Amortised cost | 959.95 | 531.25 |
| Other financial assets | Amortised cost | 9.22 | 5.37 |
| **Total financial assets** | | **1,091.78** | **618.98** |
| | | | |
| **Financial liabilities** | | | |
| Borrowings# | Amortised cost | - | - |
| Trade payables# | Amortised cost | 601.99 | 358.22 |
| Lease liabilities | Amortised cost | 210.98 | 153.99 |
| Other financial liabilities# | Amortised cost | - | 0.07 |
| **Total financial liabilities** | | **812.97** | **512.28** |

* The Company has not disclosed the fair values for financial instruments carried at amortised cost such as trade receivables and cash and bank balances because their carrying amounts are a reasonable approximation of fair value.

# The Company has not disclosed the fair value for financial instruments carried at amortised cost such as borrowings, trade payables and other financial liabilities, because their carrying amounts are a reasonable approximation of fair value.

**INDEPENDENT AUDITROS' REPORT**

**To Stellio Ventures, S.L**

**Report on the Audit of Special Purpose Ind AS Financial Statements**

## 1. Opinion

We have audited the Special Purpose Ind AS Financial Statements of Stellio Ventures, S.L ("the Company"), which comprise the Special Purpose Ind AS Balance Sheet as at March 31, 2025, the Special Purpose Ind AS Statement of Profit and Loss and other comprehensive income, the Special Purpose Ind AS Statement of Cash flows and the Special Purpose Ind AS Statement of changes in equity for the year then ended and notes, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Special Purpose Ind AS Financial Statements"). The Special Purpose Ind AS Financial Statements have been prepared by the management of the Company in accordance with the basis of preparation as set out in Note 2.1 to the Special Purpose Ind AS Financial Statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Special Purpose Ind AS Financial Statements as at and for the year ended, are prepared, in all material aspects, in accordance with the basis of preparation as set out in Note 2 to the Special Purpose Ind AS Financial Statements.

## 2. Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) as specified under Section 143(10) of the Companies Act 2013. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Special Purpose Ind AS Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountant of India together with the ethical requirements that are relevant to our audit of the Special Purpose Ind AS Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and Code of Ethics. We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our opinion on the Special Purpose Ind AS Financial Statements.

## 3. Other matter

**Basis of preparation** - We draw attention to Note 2.1 of the Special Purpose Ind AS Financial Statements, which describes the basis of preparation of the Special Purpose Ind AS Financial Statements. As explained therein, these Special Purpose Ind AS Financial Statements are prepared solely for the purpose of Proforma Financial Statements to be included in the Offer document to be filed by the acquirer in connection with the Proposed IPO, as aforesaid pursuant to the requirement of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 and submission to the Book Running Lead Managers ("BRLMs") (namely Kotak Mahindra Capital Limited, Morgan Stanley India Company Private Limited, Avendus Capital Private Limited, Citigroup Global Markets India Private Limited, Axis Capital Limited and Intensive Fiscal Services Private Limited), and legal counsels (namely, Cyril Amarchand Mangaldas counsels to the Offer under domestic law) appointed in connection with the Offer by the Company and hence these Special Purpose

Ind AS Financial Statements do not include full disclosures and presentation, which are required for general purpose financial statements prepared under Ind AS. These Special Purpose Ind AS Financial Statements are not complete set of financial statements prepared under Ind AS. These Special Purpose Ind AS Financial Statements are not the statutory financial statements of the Company, and are not intended to, and do not, comply with the disclosure provisions applicable to statutory financial statements prepared under the Companies Act, 2013.

Our opinion is not modified in respect of above matter.

**4. Management's Responsibilities for the Special Purpose Ind AS Financial Statements**

The Company's Management is responsible for the preparation of these Special Purpose Ind AS Financial Statements in accordance with the basis of preparation as stated in Note 2.1 to the Special Purpose Ind AS Financial Statements. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the applicable law for safeguarding of the assets of and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Special Purpose Ind AS Financial Statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is also responsible for overseeing the financial reporting process of the Company.

**5. Auditor's Responsibilities for the Audit of the Special Purpose Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Special Purpose Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special Purpose Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Special Purpose Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

**HEAD OFFICE:**
A-6, Maharani Bagh
New Delhi- 110065
Ph.: 011-41027248, 41626470
Fax: 011-41328425
E-mail: kapil@bansalco.com

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the Special Purpose Ind AS Financial Statements made by the management.

- Conclude on the appropriateness of Management use of the going concern basis of accounting in preparation of Special Purpose Ind AS Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Special Purpose Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion.

  Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Special Purpose Ind AS Financial Statements, including the disclosures, and whether the Special Purpose Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**6. Restriction on Use**

This report has been prepared for and only for the purpose set out above. This report should not be otherwise used or shown to or otherwise distributed to any other party or used for any other purpose except with our prior consent in written. We neither accept nor assume any duty, responsibility or liability to any other party or for any other purpose.

**Notes forming part of these Special Purpose Ind AS Financial Statements**
(All amounts in Rs. in million unless otherwise stated)

**1. Corporate information**

Stellio Ventures,S.L ("the Company") referred to in this report was incorporated in 2014 and its registered office and tax domicile are located at CL Aragon, 247, EN, 1, 08007, Barcelona, Barcelona. The legal status at the time of its incorporation was Sociedad Limitada. The Company's corporate purpose is the import and sale of fashion accessories and its main activities are the retail trade of articles.

**2. Material Accounting Policies**

**2.1 Basis of preparation of Special Purpose Ind AS Financial Statements**

These Special Purpose Ind AS Financial Statements will be used by the Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited) ("Lenskart" or "Acquirer") for the purpose of Proforma Financial Statements to be included in the Offer document to be filed by the acquirer in connection with the Proposed IPO, as aforesaid pursuant to the requirement of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018.

These Special Purpose Ind AS Financial Statements of the Company have been prepared in accordance with recognition and measurement principles prescribed under Section 133 of the Companies Act, 2013 read with the rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules 2016 issued thereunder, principles of Ind AS 101, and other accounting principles generally accepted in India ("Ind AS"). However, all the disclosures as required under Ind AS have not been furnished in these Special Purpose Financial Statements.

The audited financial statements of the Company were prepared in accordance with the Spanish General Accounting Plan for year ended March 31, 2025 and March 31, 2024 having audit report signed on July 18, 2025 and March 25, 2025 respectively.

These Special Purpose Ind AS Financial Statements for the year ended March 31, 2025 have been prepared after making suitable adjustments to the accounting heads from their Spanish General Accounting Plan values following accounting policies and accounting policy choices (both mandatory and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (April 01, 2022).

The items in the Special Purpose Financial Statements have been classified considering the principles under Ind AS 1, "Presentation of Financial Statements". Management of the Company has prepared the Special Purpose Ind AS Financial Statements which comprise the Special Purpose Balance Sheet as at March 31, 2025 and March 31, 2024 the Special Purpose Ind AS Statement of Profit and Loss and Special Purpose Statement of Changes in Equity for the period ended March 31, 2025 and March 31, 2024.

**2.2 Summary of material accounting policies**

**2A. Functional and presentation currency**

These Special Purpose Ind AS Financial Statements are presented in Indian Rupees (INR). All amounts have been rounded-off to the nearest millions (INR 000,000), unless otherwise indicated.

**2B. Basis of measurement**

The Special Purpose Ind AS Financial Statements have been prepared on the historical cost basis except for the following items:

| Items | Measurement basis |
|---|---|
| Investments | Fair value |
| Other financial assets and liabilities | Amortised cost |

The Company has prepared the Special Purpose Ind AS Financial Statements on the basis that it will continue to operate as a going concern and climate related matters have been duly considered in going concern assessment.

**2C. Use of estimates and judgements**

In preparing these Special Purpose Ind AS Financial Statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

**A. Judgements**

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the Special Purpose Ind AS Financial Statements:

Determining the lease term of the contract with renewal and termination option - Company as a lessee
The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

Leases - Estimating the incremental borrowing rate:
The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

**B. Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the Special Purpose Ind AS Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

**Fair value measurement of financial instruments**

When the fair values of financial assets and financial liabilities recorded in the Special Purpose Ind AS Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

**Impairment of non-financial assets**

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ('CGU') is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are Companyed together into the smallest Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Companys of assets ('CGU').

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

**2D. Measurement of fair values**

A number of the Company's accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

**2E. Current versus non-current classification**

The Company presents assets and liabilities in the Special Purpose Ind AS Balance Sheet based on current / non-current classification.

An asset is classified as current when it is:
a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
b) Held primarily for the purpose of trading,
c) Expected to be realised within twelve months after the reporting period, or
d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:
a) It is expected to be settled in normal operating cycle,
b) It is held primarily for the purpose of trading,
c) It is due to be settled within twelve months after the reporting period, or
d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

All assets and liabilities have been classified as current or non- current as per the Company's operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as less than 12 months for the purpose of current and non- current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**2.3 Property, plant and equipment**

**i. Recognition and measurement**

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

**iii.Depreciation**

Depreciation is provided on a pro-rata basis under the straight-line method. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Technical installations and machinery | 7 |
| Furniture and furnishings | 10 |
| Other facilities | 3 |
| Information processing equipment | 4 |
| Other property, plant, and equipment | 5 |

Leasehold improvements are depreciated over the useful life of individual assets or period of lease, whichever is lower.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

**2.4 Intangible assets**

**i. Recognition and initial measurement**

Intangible assets represent computer software and trademarks. Intangible assets are stated at acquisition cost less accumulated amortization and impairment loss, if any. The cost of intangible asset comprises its purchase price, including any import duties and non-refundable taxes or levies and any directly attributable expenditure on making the asset ready for its intended use. Intangible assets are amortised in Special Purpose Ind AS Statement of Profit and Loss for the year ended on a straight line basis in accordance with the estimated useful lives of respective assets. The management's estimates of the rate of amortisation of intangible assets are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Industrial property | 13 |
| Tansfer rights | 7 |
| Website development | 5 |
| Computer applications | 3 |

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

**iii. Amortisation**
Amortisation expense is charged on a pro-rata basis for assets purchased during the year. Amortisation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

**2.5 Inventories**
Inventories which comprise of traded goods are carried at the actual cost.

The methods of determination of cost of various categories of inventories are as follows:

| Particulars | Basis of Valuation |
|---|---|
| Traded goods | Actual cost |

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

The comparison of cost and net realisable value is made on item by item basis.

**2.6 Financial instruments**

***(i). Recognition and initial measurement***
A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Trade receivables are initially recognised at transaction value. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

***(ii). Classification and subsequent measurement***

***Financial assets***
The Company classifies its financial assets in the following measurement categories:
·those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
·those measured at amortised cost.
Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:
−the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
−the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

***Financial assets: Business model assessment***
The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:
− the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest ra profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
−how the performance of the portfolio is evaluated and reported to the Company's management;
−the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
−how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
−the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

***Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest***
For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:
− contingent events that would change the amount or timing of cash flows;
− terms that may adjust the contractual coupon rate, including variable interest rate features;
− prepayment and extension features; and
− terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

***Financial assets: Subsequent measurement and gains and losses***

***Financial assets at FVTPL***
These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

***Financial assets at amortised cost***
These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

***Financial liabilities: Classification, subsequent measurement and gains and losses***
Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

***(iii) Derecognition***

A financial asset is derecognised only when:
−the Company has transferred the rights to receive cash flows from the financial asset or
−retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised.

Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

***(iv) Offsetting***
Financial assets and financial liabilities are offset and the net amount presented in the Special Purpose Ind AS Balance Sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

***(v) Impairment of financial assets***
The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:
-significant financial difficulty of the borrower or issuer; or
-a breach of contract such as a default or being past due.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:
-bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.
Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.
Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

***Measurement of expected credit losses***
Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. Under the simplified approach, the Company does not track changes in credit risk for individual customers. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates and delays in realisations over the expected life of the trade receivable and is adjusted for forward looking estimates. At every balance sheet date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

***Presentation of allowance for expected credit losses in the balance sheet***
Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets

***Write-off***
The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery and the amount of the loss is recognised in the Special Purpose Ind AS Statement of Profit and Loss for the year ended within other expenses. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

***(vi)Impairment of assets***
Assessment is done at each Special Purpose Ind AS Balance Sheet date as to whether there is any indication that an asset (PPE and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or Companys of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Assessment is also done at each Special Purpose Ind AS Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

**2.7 Cash and cash equivalents**
Cash and cash equivalents in the balance sheet comprise cash at banks and on hand.

**2.8 Revenue recognition**
**Revenue from contracts with customers**
Revenue from the sale of goods and the rendering of services is measured at the monetary amount or, where appropriate, the fair value of the consideration received or expected to be received, which is the agreed price of the assets to be transferred to the customer, less the amount of any discounts, rebates, or similar items that the company may grant and any interest incorporated in the face value of the receivables. However, embedded interest on trade receivables maturing in less than one year that do not have a contractual interest rate may be included where the effect of not discounting cash flows is not material.

The Company will take into account, in measuring revenue, the best estimate of the variable consideration if it is highly probable that there will not be a material reversal of the amount of revenue recognised when the uncertainty associated with the variable consideration is subsequently resolved.

**Contract balances**

***Trade receivables***

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in financial instrument – initial recognition and subsequent measurement.

***Contract liabilities***

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

**2.9 Government grants**

Government grants are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant; they are then recognised in profit or loss as other operating revenue on a systematic basis. Grants related to the acquisition of assets are recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate the Company for expenses incurred are recognised in profit or loss as other operating revenue on a systematic basis in the periods in which such expenses are recognised.

**2.10 Employee benefits**

The Company's obligation towards various employee benefits has been recognised as follows:

**Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

**2.11 Foreign currency**

**Foreign currency transactions**

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ("the functional currency") which is Euro ("EUR"). These financial statements are presented in Indian Rupees (INR). All values are reported in INR millions. These financial statements have been translated into INR using the following rates:

(a) Assets and liabilities for each reporting dates are translated at the closing rates at the date of reporting dates i.e. 2025 - INR 92.4326 per EUR, 2024 - INR 89.9685 per EUR.
(b) Income and expenses for each statement of comprehensive income are translated at average rate for the year i.e. 2025 - INR 90.7931 per EUR, 2024 - INR 89.8000 per EUR.
(c) Share Capital and Other equity as at April 01, 2022, have been computed at opening rate as at April 01, 2022 i.e. INR 84.7550 per EUR.
(d) Dividend paid during the year ended March 31, 2025 and year ended March 31, 2024 computed at transaction date.
(e) All resulting exchange difference are recognised in other comprehensive income and accumulated in "Foreign Currency Translation Reserve" in other equity.

**2.12 Leases**

The Company assesses at contract inception whether a contract is, or contains a, lease. That is if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration.

**Company as a lessee**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**i) Right of use asset**

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

**ii) Lease Liabilities**

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of the lease payment to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

**iii) Short-term leases and leases of low value assets**

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

**2.13 Income tax**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

**i. Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**ii. Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that :at the time of transaction that neither affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.
- temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**2.14 Borrowing cost**

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs).

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

All other borrowing costs are expensed in the period in which they occur.

**2.15 Earnings per share**

**Basic Earnings per share**

Basic earnings/(loss) per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

**Diluted Earnings per share**

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless they have been issued at a later date.

**2.16 Recognition of interest income or expense**

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

**2.17 Recent accounting pronouncement**

**Standard notified but not yet effective:**

The Ministry of Corporate Affairs vide notification dated May 07, 2025 has notified Companies (Indian Accounting Standards) Amendment rules 2025 respectively, which amended/ notified certain accounting standards (see below), and are effective for annual reporting periods beginning on or after April 01, 2025.

-The Effects of Changes in Foreign Exchange Rates – Amendments to Ind AS 21

These amendments are not expected to significantly affect the current or future periods.

**16 Lease liabilities**

The Company has lease contracts for office and retail premises used in its operations. The lease for the office premises at Calle Aragó, 247, Barcelona has a tenure of 7 years, commenced on March 01, 2019. The lease for the retail premises at Calle Portaferrissa, 18, Barcelona has a tenure of 10 years, commenced on August 01, 2024. The Company's obligations under its leases are secured by the lessor's title to the leased assets.

Both lease contracts include termination options. The Aragó lease allows termination after 12 months with 2 months' notice, while the Portaferrissa lease permits termination after 24 months with 3–6 months' notice. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Company's business needs. Management exercises significant judgment in determining whether these options are reasonably certain to be exercised.

The Company does not apply the 'short-term lease' or 'lease of low-value assets' recognition exemptions for these leases.

Set out below are the carrying amounts of lease liabilities and the movements during the year:

| Particulars | As at March 31, 2025 | As at March 31, 2024 |
|---|---|---|
| **Opening Balance as on April 01** | **4.47** | **6.69** |
| Additions | 155.87 | - |
| Accretion of interest | 2.00 | 0.11 |
| Payment of principal portion of lease liabilities | (9.11) | (2.26) |
| Payment of interest portion of lease liabilities | (2.00) | (0.11) |
| Exchange translation difference | 2.76 | 0.04 |
| **Closing Balance** | **153.99** | **4.47** |
| Non - Current | 136.76 | 2.16 |
| Current | 17.23 | 2.31 |

The effective interest rate for lease liabilities is 1.90 %

| Fair value loss on financial instruments at fair value through profit or loss | - | 0.12 |
| Miscellaneous expenses | 1.91 | 1.17 |
| | **1,496.44** | **1,011.47** |

*(This space has been left blank intentionally)*

## 30 Earnings per share (EPS)

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

Diluted earnings per share amounts are calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares. The following reflects the income and share data used in the basic and diluted EPS computations:

| Particulars | For the year ended March 31, 2025 | For the year ended March 31, 2024 |
|---|---|---|
| **Profit attributable to equity shareholders (A)** | 253.40 | 297.51 |
| Effect of dilution | - | - |
| **Profit attributable to equity shareholders after adjusting the effect of dilution (B)** | **253.40** | **297.51** |
| | | |
| **Weighted-average number of equity shares** | | |
| Number of equity shares outstanding at the beginning of the year | 38,269 | 38,269 |
| Add: Weighted average number of equity shares issued | - | - |
| **Weighted-average number of equity shares in calculating Basic EPS (C)** | **38,269** | **38,269** |
| Effect of dilution | - | - |
| **Weighted average number of Equity shares adjusted for the effect of dilution (D)** | **38,269** | **38,269** |
| | | |
| Nominal value per equity shares (EUR) | 0.10 | 0.10 |
| Earnings per share - basic (A/C) (Rs.) | 6,621.66 | 7,774.18 |
| Earnings per share - diluted (B/D) (Rs.) | 6,621.66 | 7,774.18 |

*(This space has been left blank intentionally)*

## 31 Financial instruments and fair value measurements

### A. Accounting classifications and fair values

The Company's assets and liabilities which are measured at amortised cost for which fair value are disclosed for respective reporting period.

### (i) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the balance sheet are categorised into three levels of fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows

**Level 1:** quoted prices (unadjusted) in active markets for financial instruments.
**Level 2:** inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
**Level 3:** Inputs which are not based on observable market data.

**Disclosures fair value measurement hierarchy for assets as at March 31, 2025:**

| | As at March 31, 2025 | Level 2 |
|---|---|---|
| **Assets** | | |
| Investment fund - Debt | 1.88 | 1.88 |

**Disclosures fair value measurement hierarchy for assets as at March 31, 2024:**

| | As at March 31, 2024 | Level 2 |
|---|---|---|
| **Assets** | | |
| Investment fund - Debt | 2.29 | 2.29 |

### (ii) Financial instruments by category

| Particulars | Classification | As at March 31, 2025 | As at March 31, 2024 |
|---|---|---|---|
| **Financial assets** | | | |
| Investments in investment funds | FVTPL | 1.88 | 2.29 |
| Trade receivables* | Amortised cost | 80.48 | 71.70 |
| Cash and cash equivalents* | Amortised cost | 531.25 | 574.40 |
| Other financial assets | Amortised cost | 5.37 | 0.39 |
| **Total financial assets** | | **618.98** | **648.78** |
| **Financial liabilities** | | | |
| Borrowings# | Amortised cost | - | 1.59 |
| Trade payables# | Amortised cost | 358.22 | 318.94 |
| Lease liabilities | Amortised cost | 153.99 | 4.47 |
| Other financial liabilities# | Amortised cost | 0.07 | - |
| **Total financial liabilities** | | **512.28** | **325.00** |

* The Company has not disclosed the fair values for financial instruments carried at amortised cost such as trade receivables and cash and bank balances because their carrying amounts are a reasonable approximation of fair value.

# The Company has not disclosed the fair value for financial instruments carried at amortised cost such as borrowings, trade payables and other financial liabilities, because their carrying amounts are a reasonable approximation of fair value.

As per our report of even date attached.

**INDEPENDENT AUDITROS' REPORT**

**To Stellio Ventures, S.L**

**Report on the Audit of Special Purpose Ind AS Financial Statements**

## 1. Opinion

We have audited the Special Purpose Ind AS Financial Statements of Stellio Ventures, S.L ("the Company"), which comprise the Special Purpose Ind AS Balance Sheet as at March 31, 2024, the Special Purpose Ind AS Statement of Profit and Loss and other comprehensive income, the Special Purpose Ind AS Statement of Cash flows and the Special Purpose Ind AS Statement of changes in equity for the year then ended and notes, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Special Purpose Ind AS Financial Statements"). The Special Purpose Ind AS Financial Statements have been prepared by the management of the Company in accordance with the basis of preparation as set out in Note 2.1 to the Special Purpose Ind AS Financial Statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Special Purpose Ind AS Financial Statements as at and for the year ended, are prepared, in all material aspects, in accordance with the basis of preparation as set out in Note 2 to the Special Purpose Ind AS Financial Statements.

## 2. Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) as specified under Section 143(10) of the Companies Act 2013. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Special Purpose Ind AS Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountant of India together with the ethical requirements that are relevant to our audit of the Special Purpose Ind AS Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and Code of Ethics. We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our opinion on the Special Purpose Ind AS Financial Statements.

## 3. Other matter

**Basis of preparation** - We draw attention to Note 2.1 of the Special Purpose Ind AS Financial Statements, which describes the basis of preparation of the Special Purpose Ind AS Financial Statements. As explained therein, these Special Purpose Ind AS Financial Statements are prepared solely for the purpose of Proforma Financial Statements to be included in the Offer document to be filed by the acquirer in connection with the Proposed IPO, as aforesaid pursuant to the requirement of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 and submission to the Book Running Lead Managers ("BRLMs") (namely Kotak Mahindra Capital Limited, Morgan Stanley India Company Private Limited, Avendus Capital Private Limited, Citigroup Global Markets India Private Limited, Axis Capital Limited and Intensive Fiscal Services Private Limited), and legal counsels (namely, Cyril Amarchand Mangaldas counsels to the Offer under domestic law) appointed in connection with the Offer by the Company and hence these Special Purpose

Ind AS Financial Statements do not include full disclosures and presentation, which are required for general purpose financial statements prepared under Ind AS. These Special Purpose Ind AS Financial Statements are not complete set of financial statements prepared under Ind AS. These Special Purpose Ind AS Financial Statements are not the statutory financial statements of the Company, and are not intended to, and do not, comply with the disclosure provisions applicable to statutory financial statements prepared under the Companies Act, 2013.

Our opinion is not modified in respect of above matter.

**4. Management's Responsibilities for the Special Purpose Ind AS Financial Statements**

The Company's Management is responsible for the preparation of these Special Purpose Ind AS Financial Statements in accordance with the basis of preparation as stated in Note 2.1 to the Special Purpose Ind AS Financial Statements. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the applicable law for safeguarding of the assets of and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Special Purpose Ind AS Financial Statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is also responsible for overseeing the financial reporting process of the Company.

**5. Auditor's Responsibilities for the Audit of the Special Purpose Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Special Purpose Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special Purpose Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Special Purpose Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

**HEAD OFFICE:**
A-6, Maharani Bagh
New Delhi- 110065
Ph.: 011-41027248, 41626470
Fax: 011-41328425
E-mail: kapil@bansalco.com

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the Special Purpose Ind AS Financial Statements made by the management.

- Conclude on the appropriateness of Management use of the going concern basis of accounting in preparation of Special Purpose Ind AS Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Special Purpose Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion.

  Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Special Purpose Ind AS Financial Statements, including the disclosures, and whether the Special Purpose Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**6. Restriction on Use**

This report has been prepared for and only for the purpose set out above. This report should not be otherwise used or shown to or otherwise distributed to any other party or used for any other purpose except with our prior consent in written. We neither accept nor assume any duty, responsibility or liability to any other party or for any other purpose.

**1. Corporate information**

Stellio Ventures,S.L (“the Company”) referred to in this report was incorporated in 2014 and its registered office and tax domicile are located at CL Aragon, 247, EN, 1, 08007, Barcelona, Barcelona. The legal status at the time of its incorporation was Sociedad Limitada. The Company's corporate purpose is the import and sale of fashion accessories and its main activities are the retail trade of articles.

**2. Material Accounting Policies**

**2.1 Basis of preparation of Special Purpose Ind AS Financial Statements**

These Special Purpose Ind AS Financial Statements will be used by the Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited) (“Lenskart” or “Acquirer”) for the purpose of Proforma Financial Statements to be included in the Offer document to be filed by the acquirer in connection with the Proposed IPO, as aforesaid pursuant to the requirement of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018.

These Special Purpose Ind AS Financial Statements of the Company have been prepared in accordance with recognition and measurement principles prescribed under Section 133 of the Companies Act, 2013 read with the rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules 2016 issued thereunder, principles of Ind AS 101, and other accounting principles generally accepted in India ("Ind AS"). However, all the disclosures as required under Ind AS have not been furnished in these Special Purpose Financial Statements.

The audited financial statements of the Company were prepared in accordance with the Spanish General Accounting Plan for year ended March 31, 2024 and March 31, 2023 having audit report signed on March 25, 2025.

These Special Purpose Ind AS Financial Statements for the year ended March 31, 2024 have been prepared after making suitable adjustments to the accounting heads from their Spanish General Accounting Plan values following accounting policies and accounting policy choices (both mandatory and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (April 01, 2022).

The items in the Special Purpose Financial Statements have been classified considering the principles under Ind AS 1, "Presentation of Financial Statements". Management of the Company has prepared the Special Purpose Ind AS Financial Statements which comprise the Special Purpose Balance Sheet as at March 31, 2024 and March 31, 2023 the Special Purpose Ind AS Statement of Profit and Loss and Special Purpose Statement of Changes in Equity for the period ended March 31, 2024 and March 31, 2023.

**2.2 Summary of material accounting policies**

**2A. Functional and presentation currency**

These Special Purpose Ind AS Financial Statements are presented in Indian Rupees (INR). All amounts have been rounded-off to the nearest millions (INR 000,000), unless otherwise indicated.

**2B. Basis of measurement**

The Special Purpose Ind AS Financial Statements have been prepared on the historical cost basis except for the following items:

| **Items** | **Measurement basis** |
|---|---|
| Investments | Fair value |
| Other financial assets and liabilities | Amortised cost |

The Company has prepared the Special Purpose Ind AS Financial Statements on the basis that it will continue to operate as a going concern and climate related matters have been duly considered in going concern assessment.

**2C. Use of estimates and judgements**

In preparing these Special Purpose Ind AS Financial Statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

**A. Judgements**

In the process of applying the Company’s accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the Special Purpose Ind AS Financial Statements:

Determining the lease term of the contract with renewal and termination option - Company as a lessee
The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

Leases - Estimating the incremental borrowing rate:
The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company ‘would have to pay’, which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

**B. Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the Special Purpose Ind AS Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

**Fair value measurement of financial instruments**

When the fair values of financial assets and financial liabilities recorded in the Special Purpose Ind AS Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

**Impairment of non-financial assets**

The carrying amounts of the Company’s non-financial assets, other than deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset’s recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit (‘CGU’) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are Companyed together into the smallest Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Companys of assets (‘CGU’).

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management’s best estimate about future developments.

**2D. Measurement of fair values**

A number of the Company's accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

**2E. Current versus non-current classification**

The Company presents assets and liabilities in the Special Purpose Ind AS Balance Sheet based on current / non-current classification.

An asset is classified as current when it is:
a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
b) Held primarily for the purpose of trading,
c) Expected to be realised within twelve months after the reporting period, or
d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:
a) It is expected to be settled in normal operating cycle,
b) It is held primarily for the purpose of trading,
c) It is due to be settled within twelve months after the reporting period, or
d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

All assets and liabilities have been classified as current or non- current as per the Company's operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as less than 12 months for the purpose of current and non- current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**2.3 Property, plant and equipment**

**i. Recognition and measurement**

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

**iii.Depreciation**

Depreciation is provided on a pro-rata basis under the straight-line method. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Technical installations and machinery | 7 |
| Furniture and furnishings | 10 |
| Other facilities | 3 |
| Information processing equipment | 4 |
| Other property, plant, and equipment | 5 |

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

**2.4 Intangible assets**

**i.Recognition and initial measurement**

Intangible assets represent computer software and trademarks. Intangible assets are stated at acquisition cost less accumulated amortization and impairment loss, if any. The cost of intangible asset comprises its purchase price, including any import duties and non-refundable taxes or levies and any directly attributable expenditure on making the asset ready for its intended use. Intangible assets are amortised in Special Purpose Ind AS Statement of Profit and Loss for the year ended on a straight line basis in accordance with the estimated useful lives of respective assets. The management's estimates of the rate of amortisation of intangible assets are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Industrial property | 13 |
| Tansfer rights | 7 |
| Website development | 5 |
| Computer applications | 3 |

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

**iii. Amortisation**
Amortisation expense is charged on a pro-rata basis for assets purchased during the year. Amortisation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

**2.5 Inventories**
Inventories which comprise of traded goods are carried at the actual cost.

The methods of determination of cost of various categories of inventories are as follows:

| Particulars | Basis of Valuation |
|---|---|
| Traded goods | Actual cost |

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

The comparison of cost and net realisable value is made on item by item basis.

**2.6 Financial instruments**

***(i). Recognition and initial measurement***
A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Trade receivables are initially recognised at transaction value. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

***(ii). Classification and subsequent measurement***

***Financial assets***
The Company classifies its financial assets in the following measurement categories:
·those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
·those measured at amortised cost.
Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:
−the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
−the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

***Financial assets: Business model assessment***
The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:
− the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest ra profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
−how the performance of the portfolio is evaluated and reported to the Company's management;
−the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
−how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
−the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

***Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest***
For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:
− contingent events that would change the amount or timing of cash flows;
− terms that may adjust the contractual coupon rate, including variable interest rate features;
− prepayment and extension features; and
− terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

***Financial assets: Subsequent measurement and gains and losses***

***Financial assets at FVTPL***
These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

***Financial assets at amortised cost***
These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

***Financial liabilities: Classification, subsequent measurement and gains and losses***
Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

***(iii) Derecognition***

A financial asset is derecognised only when:
−the Company has transferred the rights to receive cash flows from the financial asset or
−retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised.

Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

***(iv) Offsetting***
Financial assets and financial liabilities are offset and the net amount presented in the Special Purpose Ind AS Balance Sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

***(v) Impairment of financial assets***
The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:
-significant financial difficulty of the borrower or issuer; or
-a breach of contract such as a default or being past due.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:
-bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.
Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.
Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

***Measurement of expected credit losses***
Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. Under the simplified approach, the Company does not track changes in credit risk for individual customers. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates and delays in realisations over the expected life of the trade receivable and is adjusted for forward looking estimates. At every balance sheet date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

***Presentation of allowance for expected credit losses in the balance sheet***
Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets

***Write-off***
The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery and the amount of the loss is recognised in the Special Purpose Ind AS Statement of Profit and Loss for the year ended within other expenses. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

***(vi)Impairment of assets***
Assessment is done at each Special Purpose Ind AS Balance Sheet date as to whether there is any indication that an asset (PPE and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or Companys of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Assessment is also done at each Special Purpose Ind AS Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

**2.7 Cash and cash equivalents**
Cash and cash equivalents in the balance sheet comprise cash at banks and on hand.

**2.8 Revenue recognition**
**Revenue from contracts with customers**
Revenue from the sale of goods and the rendering of services is measured at the monetary amount or, where appropriate, the fair value of the consideration received or expected to be received, which is the agreed price of the assets to be transferred to the customer, less the amount of any discounts, rebates, or similar items that the company may grant and any interest incorporated in the face value of the receivables. However, embedded interest on trade receivables maturing in less than one year that do not have a contractual interest rate may be included where the effect of not discounting cash flows is not material.

The Company will take into account, in measuring revenue, the best estimate of the variable consideration if it is highly probable that there will not be a material reversal of the amount of revenue recognised when the uncertainty associated with the variable consideration is subsequently resolved.

**Contract balances**

***Trade receivables***
A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in financial instrument – initial recognition and subsequent measurement.

***Contract liabilities***

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

**2.9 Government grants**

Government grants are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant; they are then recognised in profit or loss as other operating revenue on a systematic basis. Grants related to the acquisition of assets are recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate the Company for expenses incurred are recognised in profit or loss as other operating revenue on a systematic basis in the periods in which such expenses are recognised.

**2.10 Employee benefits**

The Company's obligation towards various employee benefits has been recognised as follows:

**Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

**2.11 Foreign currency**

**Foreign currency transactions**

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ("the functional currency") which is Euro ("EUR"). These financial statements are presented in Indian Rupees (INR). All values are reported in INR millions. These financial statements have been translated into INR using the following rates:

(a) Assets and liabilities for each reporting dates are translated at the closing rates at the date of reporting dates i.e. 2024 - INR 89.9685 per EUR and 2023 - INR 89.3895 per EUR.
(b) Income and expenses for each statement of comprehensive income are translated at average rate for the year i.e. 2024 - INR 89.8000 per EUR and 2023 - INR 83.5282 per EUR.
(c) Share Capital and Other equity as at April 01, 2022, have been computed at opening rate as at April 01, 2022 i.e. INR 84.7550 per EUR.
(d) Dividend paid during the year ended March 31, 2024 computed at transaction date.
(e) All resulting exchange difference are recognised in other comprehensive income and accumulated in "Foreign Currency Translation Reserve" in other equity.

**2.12 Leases**

The Company assesses at contract inception whether a contract is, or contains a, lease. That is if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration.

**Company as a lessee**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**i) Right of use asset**

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

**ii) Lease Liabilities**

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of the lease payment to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

**iii) Short-term leases and leases of low value assets**

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

**2.13 Income tax**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

**i. Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**ii. Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that :at the time of transaction that neither affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.
- temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**2.14 Borrowing cost**

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs).

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

All other borrowing costs are expensed in the period in which they occur.

**2.15 Earnings per share**

**Basic Earnings per share**

Basic earnings/(loss) per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

**Diluted Earnings per share**

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless they have been issued at a later date.

**2.16 Recognition of interest income or expense**

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

| **Balance at the end of the year** | **(20.29)** | **15.10** |
| **Total (I+II+III+IV+V+VI)** | **471.32** | **250.88** |

**16 Lease liabilities**

The Company has lease contracts for office and retail premises used in its operations. The lease for the office premises at Calle Aragó, 247, Barcelona has a tenure of 7 years, commenced on March 01, 2019. The Company's obligations under its leases are secured by the lessor's title to the leased assets.

The lease contract includes termination options. The Aragó lease allows termination after 12 months with 2 months' notice. This option is negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Company's business needs. Management exercises significant judgment in determining whether this option is reasonably certain to be exercised.

The Company does not apply the 'short-term lease' or 'lease of low-value assets' recognition exemptions for this lease.

Set out below are the carrying amounts of lease liabilities and the movements during the year:

| Particulars | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|
| **Opening Balance as on April 01** | **6.69** | **8.44** |
| Additions | - | - |
| Accretion of interest | 0.11 | 0.14 |
| Payment of principal portion of lease liabilities | (2.26) | (2.07) |
| Payment of interest portion of lease liabilities | (0.11) | (0.14) |
| Exchange translation difference | 0.04 | 0.32 |
| **Closing Balance** | **4.47** | **6.69** |
| Non - Current | 2.16 | 4.44 |
| Current | 2.31 | 2.25 |

The effective interest rate for lease liabilities is 1.90 %

The following are the amounts recognised in profit and loss account:

| Particulars | For the year ended March 31, 2024 | For the year ended March 31, 2023 |
|---|---|---|
| Depreciation expense of right-of-use assets | 2.29 | 2.13 |
| Interest expense on lease liabilities | 0.11 | 0.14 |
| Variable lease payments (included in other expenses) | 0.27 | 0.13 |
| **Total amount recognised in profit and loss** | **2.67** | **2.40** |

| | **1,011.47** | **602.22** |

*(This space has been left blank intentionally)*

## 30 Earnings per share (EPS)

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

Diluted earnings per share amounts are calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares. The following reflects the income and share data used in the basic and diluted EPS computations:

| Particulars | For the year ended March 31, 2024 | For the year ended March 31, 2023 |
|---|---|---|
| **Profit attributable to equity shareholders (A)** | 297.51 | 157.64 |
| Effect of dilution | - | - |
| **Profit attributable to equity shareholders after adjusting the effect of dilution (B)** | **297.51** | **157.64** |
| | | |
| **Weighted-average number of equity shares** | | |
| Number of equity shares outstanding at the beginning of the year | 38,269 | 38,269 |
| Add: Weighted average number of equity shares issued | - | - |
| **Weighted-average number of equity shares in calculating Basic EPS (C)** | **38,269** | **38,269** |
| Effect of dilution | - | - |
| **Weighted average number of Equity shares adjusted for the effect of dilution (D)** | **38,269** | **38,269** |
| | | |
| Nominal value per equity shares (EUR) | 0.10 | 0.10 |
| Earnings per share - basic (A/C) (Rs.) | 7,774.18 | 4,119.26 |
| Earnings per share - diluted (B/D) (Rs.) | 7,774.18 | 4,119.26 |

## 31 Financial instruments and fair value measurements

### A. Accounting classifications and fair values

The Company's assets and liabilities which are measured at amortised cost for which fair value are disclosed for respective reporting period.

### (i) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the balance sheet are categorised into three levels of fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows

**Level 1:** quoted prices (unadjusted) in active markets for financial instruments.
**Level 2:** inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
**Level 3:** Inputs which are not based on observable market data.

**Disclosures fair value measurement hierarchy for assets as at March 31, 2024:**

| | As at March 31, 2024 | Level 2 |
|---|---|---|
| **Assets** | | |
| Investment fund - Debt | 2.29 | 2.29 |

**Disclosures fair value measurement hierarchy for assets as at March 31, 2023:**

| | As at March 31, 2023 | Level 2 |
|---|---|---|
| **Assets** | | |
| Investment fund - Debt | 2.43 | 2.43 |

### (ii) Financial instruments by category

| Particulars | Classification | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|---|
| **Financial assets** | | | |
| Investments in investment funds | FVTPL | 2.29 | 2.43 |
| Trade receivables* | Amortised cost | 71.70 | 27.27 |
| Cash and cash equivalents* | Amortised cost | 574.40 | 390.36 |
| Other financial assets | Amortised cost | 0.39 | 0.38 |
| **Total financial assets** | | **648.78** | **420.44** |
| | | | |
| **Financial liabilities** | | | |
| Borrowings# | Amortised cost | 1.59 | 3.43 |
| Trade payables# | Amortised cost | 318.94 | 179.64 |
| Lease liabilities | Amortised cost | 4.47 | 6.69 |
| Other financial liabilities# | Amortised cost | - | 0.02 |
| **Total financial liabilities** | | **325.00** | **189.78** |

* The Company has not disclosed the fair values for financial instruments carried at amortised cost such as trade receivables and cash and bank balances because their carrying amounts are a reasonable approximation of fair value.

# The Company has not disclosed the fair value for financial instruments carried at amortised cost such as borrowings, trade payables and other financial liabilities, because their carrying amounts are a reasonable approximation of fair value.

As per our report of even date attached.

**INDEPENDENT AUDITROS' REPORT**

**To Stellio Ventures, S.L**

**Report on the Audit of Special Purpose Ind AS Financial Statements**

## 1. Opinion

We have audited the Special Purpose Ind AS Financial Statements of Stellio Ventures, S.L ("the Company"), which comprise the Special Purpose Ind AS Balance Sheet as at March 31, 2023, the Special Purpose Ind AS Statement of Profit and Loss and other comprehensive income, the Special Purpose Ind AS Statement of Cash flows and the Special Purpose Ind AS Statement of changes in equity for the year then ended and notes, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Special Purpose Ind AS Financial Statements"). The Special Purpose Ind AS Financial Statements have been prepared by the management of the Company in accordance with the basis of preparation as set out in Note 2.1 to the Special Purpose Ind AS Financial Statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Special Purpose Ind AS Financial Statements as at and for the year ended, are prepared, in all material aspects, in accordance with the basis of preparation as set out in Note 2 to the Special Purpose Ind AS Financial Statements.

## 2. Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) as specified under Section 143(10) of the Companies Act 2013. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Special Purpose Ind AS Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountant of India together with the ethical requirements that are relevant to our audit of the Special Purpose Ind AS Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and Code of Ethics. We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our opinion on the Special Purpose Ind AS Financial Statements.

## 3. Other matter

**Basis of preparation** - We draw attention to Note 2.1 of the Special Purpose Ind AS Financial Statements, which describes the basis of preparation of the Special Purpose Ind AS Financial Statements. As explained therein, these Special Purpose Ind AS Financial Statements are prepared solely for the purpose of Proforma Financial Statements to be included in the Offer document to be filed by the acquirer in connection with the Proposed IPO, as aforesaid pursuant to the requirement of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 and submission to the Book Running Lead Managers ("BRLMs") (namely Kotak Mahindra Capital Limited, Morgan Stanley India Company Private Limited, Avendus Capital Private Limited, Citigroup Global Markets India Private Limited, Axis Capital Limited and Intensive Fiscal Services Private Limited), and legal counsels (namely, Cyril Amarchand Mangaldas counsels to the Offer under domestic law) appointed in connection with the Offer by the Company and hence these Special Purpose

Ind AS Financial Statements do not include full disclosures and presentation, which are required for general purpose financial statements prepared under Ind AS. These Special Purpose Ind AS Financial Statements are not complete set of financial statements prepared under Ind AS. These Special Purpose Ind AS Financial Statements are not the statutory financial statements of the Company, and are not intended to, and do not, comply with the disclosure provisions applicable to statutory financial statements prepared under the Companies Act, 2013.

Our opinion is not modified in respect of above matter.

**4. Management's Responsibilities for the Special Purpose Ind AS Financial Statements**

The Company's Management is responsible for the preparation of these Special Purpose Ind AS Financial Statements in accordance with the basis of preparation as stated in Note 2.1 to the Special Purpose Ind AS Financial Statements. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the applicable law for safeguarding of the assets of and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Special Purpose Ind AS Financial Statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is also responsible for overseeing the financial reporting process of the Company.

**5. Auditor's Responsibilities for the Audit of the Special Purpose Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Special Purpose Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special Purpose Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Special Purpose Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the Special Purpose Ind AS Financial Statements made by the management.

- Conclude on the appropriateness of Management use of the going concern basis of accounting in preparation of Special Purpose Ind AS Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Special Purpose Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion.

  Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Special Purpose Ind AS Financial Statements, including the disclosures, and whether the Special Purpose Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**1. Corporate information**

Stellio Ventures,S.L ("the Company") referred to in this report was incorporated in 2014 and its registered office and tax domicile are located at CL Aragon, 247, EN, 1, 08007, Barcelona, Barcelona. The legal status at the time of its incorporation was Sociedad Limitada. The Company's corporate purpose is the import and sale of fashion accessories and its main activities are the retail trade of articles.

**2. Material Accounting Policies**

**2.1 Basis of preparation of Special Purpose Ind AS Financial Statements**

These Special Purpose Ind AS Financial Statements will be used by the Lenskart Solutions Limited (formerly known as Lenskart Solutions Private Limited) ("Lenskart" or "Acquirer") for the purpose of Proforma Financial Statements to be included in the Offer document to be filed by the acquirer in connection with the Proposed IPO, as aforesaid pursuant to the requirement of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018.

These Special Purpose Ind AS Financial Statements of the Company have been prepared in accordance with recognition and measurement principles prescribed under Section 133 of the Companies Act, 2013 read with the rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) (Amendment) Rules 2016 issued thereunder, principles of Ind AS 101, and other accounting principles generally accepted in India ("Ind AS"). However, all the disclosures as required under Ind AS have not been furnished in these Special Purpose Financial Statements.

The audited financial statements of the Company were prepared in accordance with the Spanish General Accounting Plan for year ended March 31, 2023 having audit report signed on March 25, 2025 respectively.

These Special Purpose Ind AS Financial Statements for the year ended March 31, 2023 have been prepared after making suitable adjustments to the accounting heads from their Spanish General Accounting Plan values following accounting policies and accounting policy choices (both mandatory and optional exemptions availed as per Ind AS 101) consistent with that used at the date of transition to Ind AS (April 1, 2022).

The items in the Special Purpose Financial Statements have been classified considering the principles under Ind AS 1, "Presentation of Financial Statements". Management of the Company has prepared the Special Purpose Ind AS Financial Statements which comprise the Special Purpose Balance Sheet as at March 31, 2023 the Special Purpose Ind AS Statement of Profit and Loss and Special Purpose Statement of Changes in Equity for the period ended March 31, 2023.

**2.2 Summary of material accounting policies**

**2A. Functional and presentation currency**

These Special Purpose Ind AS Financial Statements are presented in Indian Rupees (INR). All amounts have been rounded-off to the nearest millions (INR 000,000), unless otherwise indicated.

**2B. Basis of measurement**

The Special Purpose Ind AS Financial Statements have been prepared on the historical cost basis except for the following items:

| Items | Measurement basis |
|---|---|
| Investments | Fair value |
| Other financial assets and liabilities | Amortised cost |

The Company has prepared the Special Purpose Ind AS Financial Statements on the basis that it will continue to operate as a going concern and climate related matters have been duly considered in going concern assessment.

**2C. Use of estimates and judgements**

In preparing these Special Purpose Ind AS Financial Statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

**A. Judgements**

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the Special Purpose Ind AS Financial

Determining the lease term of the contract with renewal and termination option - Company as a lessee

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

Leases - Estimating the incremental borrowing rate:

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

**B. Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the Special Purpose Ind AS Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

**Fair value measurement of financial instruments**

When the fair values of financial assets and financial liabilities recorded in the Special Purpose Ind AS Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

**Impairment of non-financial assets**

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ('CGU') is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are Companyed together into the smallest Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Companys of assets ('CGU').

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

**2D. Measurement of fair values**

A number of the Company's accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

**2E. Current versus non-current classification**

The Company presents assets and liabilities in the Special Purpose Ind AS Balance Sheet based on current / non-current classification.

An asset is classified as current when it is:
a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
b) Held primarily for the purpose of trading,
c) Expected to be realised within twelve months after the reporting period, or
d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:
a) It is expected to be settled in normal operating cycle,
b) It is held primarily for the purpose of trading,
c) It is due to be settled within twelve months after the reporting period, or
d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

All assets and liabilities have been classified as current or non- current as per the Company's operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as less than 12 months for the purpose of current and non- current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**2.3 Property, plant and equipment**

**i. Recognition and measurement**

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

**iii.Depreciation**

Depreciation is provided on a pro-rata basis under the straight-line method. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Technical installations and machinery | 7 |
| Furniture and furnishings | 10 |
| Other facilities | 3 |
| Information processing equipment | 4 |
| Other property, plant, and equipment | 5 |

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

**2.4 Intangible assets**

**i.Recognition and initial measurement**

Intangible assets represent computer software and trademarks. Intangible assets are stated at acquisition cost less accumulated amortization and impairment loss, if any. The cost of intangible asset comprises its purchase price, including any import duties and non-refundable taxes or levies and any directly attributable expenditure on making the asset ready for its intended use. Intangible assets are amortised in Special Purpose Ind AS Statement of Profit and Loss for the year ended on a straight line basis in accordance with the estimated useful lives of respective assets. The management's estimates of the rate of amortisation of intangible assets are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Industrial property | 13 |
| Tansfer rights | 7 |
| Website development | 5 |
| Computer applications | 3 |

**ii. Subsequent expenditure**

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

**iii. Amortisation**
Amortisation expense is charged on a pro-rata basis for assets purchased during the year. Amortisation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

**2.5 Inventories**
Inventories which comprise of traded goods are carried at the actual cost.

The methods of determination of cost of various categories of inventories are as follows:

| Particulars | Basis of Valuation |
|---|---|
| Traded goods | Actual cost |

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

The comparison of cost and net realisable value is made on item by item basis.

**2.6 Financial instruments**

***(i). Recognition and initial measurement***
A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Trade receivables are initially recognised at transaction value. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

***(ii). Classification and subsequent measurement***

***Financial assets***
The Company classifies its financial assets in the following measurement categories:
·those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
·those measured at amortised cost.
Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:
−the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
−the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

***Financial assets: Business model assessment***
The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:
− the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
−how the performance of the portfolio is evaluated and reported to the Company's management;
−the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
−how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
−the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

***Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest***
For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:
− contingent events that would change the amount or timing of cash flows;
− terms that may adjust the contractual coupon rate, including variable interest rate features;
− prepayment and extension features; and
− terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

***Financial assets: Subsequent measurement and gains and losses***

***Financial assets at FVTPL***
These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

***Financial assets at amortised cost***
These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

***Financial liabilities: Classification, subsequent measurement and gains and losses***
Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

***(iii) Derecognition***

A financial asset is derecognised only when:
−the Company has transferred the rights to receive cash flows from the financial asset or
−retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised.

Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

***(iv) Offsetting***
Financial assets and financial liabilities are offset and the net amount presented in the Special Purpose Ind AS Balance Sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

***(v) Impairment of financial assets***
The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:
-significant financial difficulty of the borrower or issuer; or
-a breach of contract such as a default or being past due.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:
-bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.
Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.
Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward- looking information.

***Measurement of expected credit losses***
Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. Under the simplified approach, the Company does not track changes in credit risk for individual customers. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from initial recognition.

The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates and delays in realisations over the expected life of the trade receivable and is adjusted for forward looking estimates. At every balance sheet date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

***Presentation of allowance for expected credit losses in the balance sheet***
Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets

***Write-off***
The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery and the amount of the loss is recognised in the Special Purpose Ind AS Statement of Profit and Loss for the year ended within other expenses. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

***(vi)Impairment of assets***
Assessment is done at each Special Purpose Ind AS Balance Sheet date as to whether there is any indication that an asset (PPE and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or Companys of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Assessment is also done at each Special Purpose Ind AS Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

**2.7 Cash and cash equivalents**
Cash and cash equivalents in the balance sheet comprise cash at banks and on hand.

**2.8 Revenue recognition**
**Revenue from contracts with customers**
Revenue from the sale of goods and the rendering of services is measured at the monetary amount or, where appropriate, the fair value of the consideration received or expected to be received, which is the agreed price of the assets to be transferred to the customer, less the amount of any discounts, rebates, or similar items that the company may grant and any interest incorporated in the face value of the receivables. However, embedded interest on trade receivables maturing in less than one year that do not have a contractual interest rate may be included where the effect of not discounting cash flows is not material.

The Company will take into account, in measuring revenue, the best estimate of the variable consideration if it is highly probable that there will not be a material reversal of the amount of revenue recognised when the uncertainty associated with the variable consideration is subsequently resolved.

**Contract balances**

***Trade receivables***
A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in financial instrument – initial recognition and subsequent measurement.

***Contract liabilities***

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

**2.9 Government grants**

Government grants are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant; they are then recognised in profit or loss as other operating revenue on a systematic basis. Grants related to the acquisition of assets are recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate the Company for expenses incurred are recognised in profit or loss as other operating revenue on a systematic basis in the periods in which such expenses are recognised.

**2.10 Employee benefits**

The Company's obligation towards various employee benefits has been recognised as follows:

**Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

**2.11 Foreign currency**

**Foreign currency transactions**

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ("the functional currency") which is Euro ("EUR"). These financial statements are presented in Indian Rupees (INR). All values are reported in INR millions. These financial statements have been translated into INR using the following rates:
(a) Assets and liabilities for each reporting dates are translated at the closing rates at the date of reporting dates i.e. 2023 - INR 89.3895 per EUR and 2022 - INR 84.7550 per EUR.
(b) Income and expenses for each statement of comprehensive income are translated at average rate for the year i.e. 2023 - INR 83.5282 per EUR.
(c) Share Capital and Other equity as at April 01, 2022, have been computed at opening rate as at April 01, 2022 i.e. INR 84.7550 per EUR.
(d) All resulting exchange difference are recognised in other comprehensive income and accumulated in "Foreign Currency Translation Reserve" in other equity.

**2.12 Leases**

The Company assesses at contract inception whether a contract is, or contains a, lease. That is if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration.

**Company as a lessee**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

**i) Right of use asset**

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

**ii) Lease Liabilities**

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of the lease payment to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

**iii) Short-term leases and leases of low value assets**

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

**2.13 Income tax**

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

**i. Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

**ii. Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for
- temporary differences arising on the initial recognition of assets or liabilities in a transaction that :at the time of transaction that neither affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.
- temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

**2.14 Borrowing cost**

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs).

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

All other borrowing costs are expensed in the period in which they occur.

**2.15 Earnings per share**

**Basic Earnings per share**

Basic earnings/(loss) per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

**Diluted Earnings per share**

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless they have been issued at a later date.

**2.16 Recognition of interest income or expense**

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:
- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

## 16 Lease liabilities

The Company has lease contracts for office and retail premises used in its operations. The lease for the office premises at Calle Aragó, 247, Barcelona has a tenure of 7 years, commenced on March 01, 2019. The Company's obligations under its leases are secured by the lessor's title to the leased assets.

The lease contract includes termination options. The Aragó lease allows termination after 12 months with 2 months' notice. This option is negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Company's business needs. Management exercises significant judgment in determining whether this option is reasonably certain to be exercised.

The Company does not apply the 'short-term lease' or 'lease of low-value assets' recognition exemptions for this lease.

Set out below are the carrying amounts of lease liabilities and the movements during the year:

| Particulars | As at March 31, 2023 | As at April 01, 2022 |
|---|---|---|
| **Opening Balance as on April 01** | **8.44** | **8.44** |
| Additions | - | - |
| Accretion of interest | 0.14 | - |
| Payment of principal portion of lease liabilities | (2.07) | - |
| Payment of interest portion of lease liabilities | (0.14) | - |
| Exchange translation difference | 0.32 | - |
| **Closing Balance** | **6.69** | **8.44** |
| Non - Current | 4.44 | 6.34 |
| Current | 2.25 | 2.10 |

The effective interest rate for lease liabilities is 1.90 %

The following are the amounts recognised in profit and loss account:

| Particulars | For the year ended March 31, 2024 | For the year ended March 31, 2023 |
|---|---|---|
| Depreciation expense of right-of-use assets | 2.29 | 2.13 |
| Interest expense on lease liabilities | 0.11 | 0.14 |
| Variable lease payments (included in other expenses) | 0.27 | 0.13 |
| **Total amount recognised in profit and loss** | **2.67** | **2.40** |

**Maturity analysis of lease liabilities is as follows:**

| Particulars | As at March 31, 2023 | As at April 01, 2022 |
|---|---|---|
| Within one year | 2.36 | 2.24 |
| After one year but not more than three years | 4.52 | 4.48 |
| After three years but not more than five years | - | 2.05 |

## 17 Borrowings

| Particulars | As at March 31, 2023 | As at April 01, 2022 |
|---|---|---|
| **A Non- current** | | |
| **Unsecured** | | |
| Term loan from banks | 2.05 | 4.96 |
| | **2.05** | **4.96** |
| **B Current** | | |
| **Unsecured loans from banks** | | |
| Current maturities of long term borrowings | 1.38 | 0.12 |
| | **1.38** | **0.12** |

## 18 Trade payables

| Particulars | As at March 31, 2023 | As at April 01, 2022 |
|---|---|---|
| Total outstanding dues of micro enterprises and small enterprises | - | - |
| Total outstanding dues of creditors other than micro enterprises and small enterprises | 179.64 | 54.96 |
| | **179.64** | **54.96** |

## 19 Other financial liabilities

| Particulars | As at March 31, 2023 | As at April 01, 2022 |
|---|---|---|
| Employee benefits payable | 0.02 | - |
| | **0.02** | **-** |

## 20 Other current liabilities

| Particulars | As at March 31, 2023 | As at April 01, 2022 |
|---|---|---|
| Statutory dues | | |

| | **602.22** |

## 30 Earnings per share (EPS)

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

Diluted earnings per share amounts are calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares. The following reflects the income and share data used in the basic and diluted EPS computations:

| Particulars | For the year ended March 31, 2023 |
|---|---|
| **Profit attributable to equity shareholders (A)** | 157.64 |
| Effect of dilution | - |
| **Profit attributable to equity shareholders after adjusting the effect of dilution (B)** | **157.64** |
| | |
| **Weighted-average number of equity shares** | |
| Number of equity shares outstanding at the beginning of the year | 38,269 |
| Add: Weighted average number of equity shares issued | - |
| **Weighted-average number of equity shares in calculating Basic EPS (C)** | **38,269** |
| Effect of dilution | - |
| **Weighted average number of Equity shares adjusted for the effect of dilution (D)** | **38,269** |
| | |
| Nominal value per equity shares (EUR) | 0.10 |
| Earnings per share - basic (A/C) (Rs.) | 4,119.26 |
| Earnings per share - diluted (B/D) (Rs.) | 4,119.26 |

## 31 Impact of first time adoption of Ind AS

### A First time adoption of Ind AS

1 These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III).

2 The Companys management ('the management') had issued financial of the Company for the year ended March 31, 2023 and April 01, 2022 respectively that were prepared in accordance with the accounting principal generally accepted in India, including the Accounting Standards specified under section 133 Of Companies Act. 2013 read paragraph 7 of the Companies (Acccunts) Rules, 2014 ('Indian GAAP').

3 The transition to IndAS was carried out from the accounting principles generally accepted in India ('Indian GAAP') which is considered as "Previous GAAP" as defined in IndAS 101, "First-time Adoption". An explanation of how the transition to IndAS has impacted the Company's equity and profit/loss is provided in the Reconciliation of Equity as at April 01, 2022 and March 31, 2023 and Reconciliation of profit/loss for the year ended March 31, 2023. The preparation of these Financial Statements resulted in changes to the accounting policies as compared to most recent annual financial statements prepared under Indian GAAP. The accounting policies have been applied consistently to all periods presented in these Financial Statements. They have also been applied in preparing the IndAS opening Balance Sheet as at April 01, 2022 (date of transition) for the purpose of transition to IndAS required by IndAS 101. The impact arising from the adoption of IndAS on the date of transition has been adjusted against Retained Earnings.

4 The items in the Financial Statements have been classified considering the principles under IndAS 1, "Presentation of Financial Statements". The Management of the Company has prepared the Financial Statements which comprise the Balance Sheet as at April 01, 2022 and as at March 31, 2024, the Statement of Profit and Loss, Statement of Cash Flows and Statement of Changes in Equity for the year ended March 31, 2023. Reconciliation of Equity as at April 01, 2022 and March 31, 2023, Reconciliation of Profit and Loss for the year ended March 31, 2023, Notes to First-time adoption, Notes to Reconciliation and Significant Accounting Policies. Transition has been adjusted against Retained Earnings.

### B Exemptions applied

Ind AS 101, First-time Adoption allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. For transition to Ind AS, the Company has applied the following exemptions:

**(a) Deemed cost for property, plant and equipment**

IndAS 101 permits a first-time adopter to measure the carrying value for all of its Property, Plant and Equipment at written down value in the financial statements as at the date of transition to IndAS and use that as its deemed cost as at the date of transition. Accordingly, the Company has elected to measure all of its property, plant and equipment at written down value at the date of transition. Intangible assets have been measured at cost at the date of transition.

**(b) Derecognition of financial assets and financial liabilities**

The Company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after April 01, 2022 (the transition date).

**(c) Classification of Debt Instruments**

The Company has determined the classification of debt instruments in terms of whether they meet the amortised cost criteria or the FVTPL criteria based on the facts and circumstances that existed as of the transition date.

### C Exceptions

Ind AS 101, First-time Adoption provides that some exceptions from the retrospective application of certain requirements under Ind AS. For transition to Ind AS, the Company has applied the following exceptions:

**(a) Recognition of financial assets and liabilities**

The Company has recognised financial assets and liabilities on transition date which are required to be recognised by IndAS and were not recognised under previous GAAP.

**(b) Classification and measurement of Financial Assets**

Ind AS 101 requires that an entity should classify its financial assets on the basis of facts and circumstances exist on the date of transition. Accordingly, in its Opening Ind AS Balance Sheet, the company has classified all the financial assets on basis of facts and circumstances that existed on the date of transition i.e. April 01, 2022.

**(c) Impairment of financial assets**

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind AS, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

**(d) Estimates**

The entity's estimates in accordance with IndAS at the date of transition to IndAS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

b. Inventory has been revalued in accordance with Ind AS 2 using the FIFO method. Under the Previous GAAP, inventory was recorded at replacement cost.

c. Deferred tax impact of Ind AS 116 related adjustment made in balance sheet and statement of profit and loss.

d. Exchange difference related Ind As adjustment made in statement of profit and loss.

## 32 Financial instruments and fair value measurements

### A. Accounting classifications and fair values

The Company's assets and liabilities which are measured at amortised cost for which fair value are disclosed for respective reporting period.

### (i) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the balance sheet are categorised into three levels of fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows

**Level 1:** quoted prices (unadjusted) in active markets for financial instruments.
**Level 2:** inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
**Level 3:** Inputs which are not based on observable market data.

**Disclosures fair value measurement hierarchy for assets as at March 31, 2023:**

| | As at March 31, 2023 | Level 2 |
|---|---|---|
| **Assets** | | |
| Investment fund - Debt | 2.43 | 2.43 |

**Disclosures fair value measurement hierarchy for assets as at March 31, 2022:**

| | As at April 01, 2022 | Level 2 |
|---|---|---|
| **Assets** | | |
| Investment fund - Debt | 2.31 | 2.31 |

### (ii) Financial instruments by category

| Particulars | Classification | As at March 31, 2023 | As at April 01, 2022 |
|---|---|---|---|
| **Financial assets** | | | |
| Investments in investment funds | FVTPL | 2.43 | 2.31 |
| Trade receivables* | Amortised cost | 27.27 | 17.07 |
| Cash and cash equivalents* | Amortised cost | 390.36 | 102.86 |
| Other financial assets | Amortised cost | 0.38 | 0.35 |
| **Total financial assets** | | **420.44** | **122.59** |
| **Financial liabilities** | | | |
| Borrowings# | Amortised cost | 3.43 | 5.08 |
| Trade payables# | Amortised cost | 179.64 | 54.96 |
| Lease liabilities | Amortised cost | 6.69 | 8.44 |
| Other financial liabilities# | Amortised cost | 0.02 | - |
| **Total financial liabilities** | | **189.78** | **68.48** |

* The Company has not disclosed the fair values for financial instruments carried at amortised cost such as trade receivables and cash and bank balances because their carrying amounts are a reasonable approximation of fair value.

# The Company has not disclosed the fair value for financial instruments carried at amortised cost such as borrowings, trade payables and other financial liabilities, because their carrying amounts are a reasonable approximation of fair value.

| Net Asset Value per Share (in ₹) [(5)] | 36.74 | 35.22 | 36.34 | 34.29 | 33.54 |
| EBITDA [(6)] | 3,778.88 | 2,267.42 | 13,278.15 | 8,542.60 | 3,996.55 |
| EBITDA excluding Other Income and exceptional item [(7)] | 3,366.28 | 1,834.19 | 9,710.56 | 6,720.91 | 2,597.09 |

** Not annualised for period ended June 30, 2025 and June 30, 2024.*

1. *As per Ind AS 33 – "Earning per share", Basic Earning/(loss) per equity share attributable to owners of Holding Company(₹) = Restated profit/(loss) for the year / period attributable to equity shareholders of the Holding Company / Weighted average number of Equity Shares.*
2. *As per Ind AS 33 – "Earning per share", Diluted Earning/(loss) per equity share attributable to owners of Holding Company (₹) = Restated profit/(loss) attributable to equity shareholders after adjusting the effect of dilution / Weighted average number of Equity Shares adjusted for the effect of dilution.*
3. *Net worth means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation in accordance with Regulation 2(1)(hh) of the SEBI ICDR Regulations. We have calculated net worth by aggregate value of equity share capital, Instruments entirely equity in nature, Other equity excluding Foreign currency translation reserve.*
4. *Return on Net Worth (RoNW) %= Restated net profit/(loss) for the year / period attributable to owners of the Holding Company divided by net worth of our Company as at the end of the year/ period.*
5. *Net Assets Value per Share (in ₹) is calculated as Net Worth as of the end of relevant year / period divided by the number of equity and preference shares outstanding at the end of the year/ period. (Net Asset Value per share disclosed above is after considering the impact of bonus of the issued equity shares and conversion of outstanding preference shares in accordance with principles of Ind AS 33: Earnings per Share. During the year ended March 31, 2025, the Company issued bonus equity shares in the ratio of 1:9 to the existing equity shareholders. Further, appropriate adjustments to the conversion ratio of outstanding cumulative/non-cumulative compulsorily convertible preference shares (CCCPS) has been made and the conversion ratio accordingly stands adjusted to 1:10, pursuant to such bonus issuance).*
6. *EBITDA is calculated as Restated profit/loss for the year / period + Total tax expense + Depreciation and Amortisation expense + Finance costs.*
7. *EBITDA excluding Other Income and exceptional item is calculated as Restated profit/loss for the year / period + Total tax expense + Depreciation and Amortisation expense + Finance costs – Other Income + exceptional item.*

## RECONCILIATION OF NON-GAAP MEASURES

Reconciliation for the following non-GAAP financial measures included in this Red Herring Prospectus, are as set out below.

See also, "***Risk Factor -Certain non-generally accepted accounting principle financial measures and other statistical information relating to our operations and financial performance have been included in this Red Herring Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable with those presented by other companies***" on page 103

### A. On restated basis

### 1. Reconciliation of Product Margin and Product Margin %

| Particulars | For the three months period ended | | For the Financial Year | | |
|---|---|---|---|---|---|
| | June 30, 2025 | June 30, 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| Revenue from operations (**A**) | 18,944.55 | 15,204.26 | 66,525.17 | 54,277.03 | 37,880.28 |
| Less: Cost of raw materials and components consumed (B) | 5,123.32 | 3,949.56 | 17,603.27 | 14,829.42 | 11,328.03 |
| Less: Purchase of stock in trade **(C)** | 1,006.45 | 876.45 | 4,573.45 | 3,473.70 | 2,673.82 |
| Less: Changes in inventory of traded and finished goods (D) | (89.42) | (26.32) | (832.68) | (541.72) | (320.75) |
| **Product Margin (E)=(A)-(B)-(C)-(D)** | **12,904.20** | **10,404.57** | **45,181.13** | **36,515.63** | **24,199.18** |
| **Product Margin % (F) = (E)/(A)** | **68.12%** | **68.43%** | **67.92%** | **67.28%** | **63.88%** |

### 2. Reconciliation from restated profit/(loss) for the year/ period to EBIT

| Particulars | For the three months period ended | | For the Financial Year | | |
|---|---|---|---|---|---|
| | June 30, 2025 | June 30, 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million)* | | | | |
| Restated profit/(loss) for the year/ period (A) | 611.73 | (109.57) | 2,973.40 | (101.54) | (637.57) |
| Add: Total tax expense/(credit) (B) | 385.46 | 135.89 | 880.16 | 691.85 | (374.19) |
| Add: Finance costs (C) | 410.38 | 377.12 | 1,458.90 | 1,229.89 | 832.78 |
| **EBIT (D)=(A)+(B)+(C)** | **1,407.57** | **403.43** | **5,312.46** | **1,820.20** | **(178.98)** |

**3. Reconciliation from restated profit/(loss) for the year/ period to EBITDA, EBITDA excluding Other Income and exceptional item and EBITDA excluding Other Income and exceptional item Margin %**

| Particulars | For the three months period ended | | For the Financial Year | | |
|---|---|---|---|---|---|
| | June 30, 2025 | June 30, 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| Restated profit/(loss) for the year/ period | 611.73 | (109.57) | 2,973.40 | (101.54) | (637.57) |
| Add: Total tax expense/(credit) | 385.46 | 135.89 | 880.16 | 691.85 | (374.19) |
| Add: Finance costs | 410.38 | 377.12 | 1,458.90 | 1,229.89 | 832.78 |
| Add: Depreciation and amortization expense | 2,371.31 | 1,863.98 | 7,965.69 | 6,722.40 | 4,175.53 |
| **Earnings before Interest, Tax, Depreciation and Amortisation (EBITDA)** | **3,778.88** | **2,267.42** | **13,278.15** | **8,542.60** | **3,996.55** |
| Less: Other income | 516.46 | 433.23 | 3,567.59 | 1,821.69 | 1,399.46 |
| Add: exceptional item | 103.86 | - | - | - | - |
| **EBITDA excluding Other Income and exceptional item (A)** | **3,366.28** | **1,834.19** | **9,710.56** | **6,720.91** | **2,597.09** |
| Revenue from operations (**B**) | 18,944.55 | 15,204.26 | 66,525.17 | 54,277.03 | 37,880.28 |
| EBITDA excluding Other Income and exceptional item Margin % **(A)/(B)** | 17.77% | 12.06% | 14.60% | 12.38% | 6.86% |

**4. Reconciliation from Segment Total Revenue as per Ind AS 108 to Segment Product Margin and Segment Product Margin %, pre intersegment elimination – India segment**

| Particulars | For the three months period ended | | For the Financial Year | | |
|---|---|---|---|---|---|
| | June 30, 2025 | June 30, 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million unless otherwise stated)* | | | | |
| India Segment Total revenue as per Ind AS 108 **(A)** | 11,691.84 | 9,369.44 | 40,604.66 | 32,062.08 | 23,920.49 |

| Net worth (A) | 61,768.66 | 57,949.22 | 61,082.99 | 56,423.78 | 54,444.79 |
| Number of outstanding equity shares as at year end/ period (B) | 771,685,020 | 770,926,240 | 771,685,020 | 770,926,240 | 764,316,320 |
| Number of preference shares as at year end/ period (C) | 909,330,570 | 874,536,820 | 909,330,570 | 874,536,820 | 858,773,228 |
| **Net assets value per share as at the year end/ period (in ₹) (A)/((B)+(C))** | **36.74** | **35.22** | **36.34** | **34.29** | **33.54** |

***Notes:***

*Net Assets Value per Share (in ₹) is calculated as Net Worth as of the end of relevant year divided by the number of equity and preference shares outstanding at the end of the year. (Net Asset Value per share disclosed above is after considering the impact of bonus of the issued equity shares and conversion of outstanding preference shares in accordance with principles of Ind AS 33: Earnings per Share. During the year ended March 31, 2025, the Company issued bonus equity shares in the ratio of 1:9 to the existing equity shareholders. Further, appropriate adjustments to the conversion ratio of outstanding cumulative/non-cumulative compulsorily convertible preference shares (CCCPS) have been made and the conversion ratio accordingly stands adjusted to 1:10, pursuant to such bonus issuance).*

## B. On proforma basis

### 13. Reconciliation of Product Margin and Product Margin %

| Particulars | For the three months period ended | | For the Financial Year | |
|---|---|---|---|---|
| | June 30, 2025 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | |
| Revenue from operations (**A**) | 20,322.48 | 68,030.46 | 55,303.04 | 37,992.76 |
| Less: Cost of raw materials and components consumed (B) | 5,123.32 | 17,603.27 | 14,829.42 | 11,328.03 |
| Less: Purchase of stock in trade **(C)** | 1,440.11 | 2,737.26 | 4,015.42 | 2,996.13 |
| Less: Changes in inventory of traded and finished goods (D) | (201.88) | 833.14 | (781.09) | (645.36) |
| **Product Margin (E)=(A)-(B)-(C)-(D)** | **13,960.93** | **46,856.79** | **37,239.29** | **24,313.96** |
| **Product Margin % (F) = (E)/(A)** | **68.70%** | **68.88%** | **67.34%** | **64.00%** |

### 14. Reconciliation from Proforma profit/(loss) for the year / period to EBIT

| Particulars | For the three months period ended | | For the Financial Year | |
|---|---|---|---|---|
| | June 30, 2025 | 2025 | 2024 | 2023 |
| | *(₹ in million)* | | | |
| Profit/(loss) for the year / period (A) | 808.93 | 3,811.86 | 68.31 | (1,249.34) |
| Add: Total tax expense/(credit) (B) | 457.37 | 975.22 | 694.93 | (330.08) |
| Add: Finance costs (C) | 417.67 | 1,574.52 | 1,408.33 | 1,042.74 |
| **EBIT (D)=(A)+(B)+(C)** | **1,683.97** | **6,361.60** | **2,171.57** | **(536.68)** |

### 15. Reconciliation from Proforma profit/(loss) for the year / period to EBITDA, EBITDA before exceptional item excluding Other Income and exceptional item and EBITDA excluding Other Income and exceptional item Margin %

| Particulars | For the three months period ended | | For the Financial Year | |
|---|---|---|---|---|
| | June 30, 2025 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | |
| Profit/(loss) for the year / period | 808.93 | 3,811.86 | 68.31 | (1,249.34) |
| Add: Total tax expense/(credit) | 457.37 | 975.22 | 694.93 | (330.08) |
| Add: Finance costs | 417.67 | 1,574.52 | 1,408.33 | 1,042.74 |
| Add: Depreciation and amortization expense | 2,383.31 | 8,640.06 | 7,593.68 | 5,011.83 |
| **Earnings before Interest, Tax, Depreciation and Amortisation (EBITDA)** | **4,067.28** | **15,001.66** | **9,765.25** | **4,475.15** |
| Less: Other income | 518.91 | 3,597.06 | 1,854.18 | 1,433.24 |
| Add: exceptional item | 103.86 | - | - | - |
| **EBITDA excluding Other Income and exceptional item (A)** | **3,652.23** | **11,523.49** | **8,031.19** | **3,169.21** |
| Revenue from operations (**B**) | 20,322.48 | 68,030.46 | 55,303.04 | 37,992.76 |

|---|---|---|---|---|
| | June 30, 2025 | 2025 | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | |
| EBITDA excluding Other Income and exceptional item Margin % **(A)/(B)** | 17.97% | 16,94% | 14.52% | 8.34% |

In accordance with the SEBI ICDR Regulations, the audited standalone financial statements of our Company and our Material Subsidiaries for Fiscal Years 2025, 2024, and 2023, together with all annexures, schedules and notes thereto ("**Audited Financial Statements**") are available on our website at https://www.lenskart.com/corporate/investorrelations. Our Company is providing a link to this website solely to comply with the requirements specified in the SEBI ICDR Regulations. The Audited Financial Statements and reports thereon do not constitute, (i) a part of this Red Herring Prospectus; or (ii) a prospectus, a statement in lieu of a prospectus, an offering circular, an offering memorandum, an advertisement, an offer or a solicitation of any offer or an offer document to purchase or sell any securities under the Companies Act, 2013, the SEBI ICDR Regulations, or any other applicable law in India or elsewhere in the world. The Audited Financial Statements and reports thereon should not be considered as part of information that any investor should consider to subscribe for or purchase any securities of our Company, or any entity in which it or its shareholders have significant influence and should not be relied upon or used as a basis for any investment decision. Neither our Company or any of its advisors, nor any BRLM or the Selling Shareholders, nor any of their respective employees, directors, affiliates, agents or representatives accept any liability whatsoever for any loss, direct or indirect, arising from any information presented or contained in the Audited Financial Statements and the reports thereon, or the opinions expressed therein.

**RELATED PARTY TRANSACTIONS**

For details of the related party transactions, as per the requirements under applicable Accounting Standards i.e. Ind AS 24 'Related Party Disclosures', read with SEBI ICDR Regulations for the three months period ended June 30, 2025 and June 30, 2024, and for the Fiscal Years ended March 31, 2025, March 31, 2024, and March 31, 2023, and as reported in the Restated Consolidated Financial Information, see "***Restated Consolidated Financial Information – Note 44. Related Party Transactions***" on page 471.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

*You should read the following discussion of our financial condition and results of operations in conjunction with our Restated Consolidated Financial Information included in this Red Herring Prospectus as of and for the three months ended June 30, 2025 and June 30, 2024 and the Financial Years 2025, 2024 and 2023, including the related notes, schedules and annexures on page 398. Our Restated Consolidated Financial Information is based on our audited financial statements, which have been prepared and presented in accordance with Ind AS and restated in accordance with Section 26 of the Companies Act, 2013, the SEBI ICDR Regulations and the Guidance Note. Ind AS differs in certain material respects from IFRS and U.S. GAAP. See "**Risk Factors - Significant differences exist between Ind AS used to prepare our financial information and other accounting principles, such as IFRS and U.S. GAAP, with which investors may be more familiar**" on page 108. In addition, please refer to the Unaudited Proforma Financial Information as of and for the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023 on page 505. This information has been prepared to illustrate the impact of (i) the acquisition of Dealskart Online Services Private Limited on our financial position at March 31, 2024 and March 31, 2023 as if such acquisition had taken place as at March 31, 2024 and March 31, 2023 respectively and on our results of operations for the years ended March 31, 2025, March 31, 2024 and March 31, 2023 as if such acquisition had taken place as at April 1, 2024, April 1, 2023 and April 1, 2022, respectively; and (ii) to illustrate the impact of acquisition of Stellio Ventures, S.L. and Quantduo Technologies Private Limited as if the acquisitions had taken place on June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, respectively, for the purpose of the unaudited pro forma balance sheet as at June 30, 2025, March 31, 2025, 2024 and 2023 respectively, and on April 1, 2025, April 1, 2024, April 1, 2023 and April 1, 2022, respectively, for the purpose of the unaudited proforma statement of profit and loss for the three months period ended June 30, 2025, and for Financial Years ended March 31, 2025, March 31, 2024 and March 31, 2023, respectively. See also "**Risk Factors — The Unaudited Proforma Financial Information included in this Red Herring Prospectus which has been prepared to illustrate the effects of the acquisition of Dealskart Online Services Private Limited during the Financial Year 2025 and the acquisitions of Stellio Ventures, S.L. and Quantduo Technologies Private Limited during the Financial Year 2026 on our Restated Consolidated Financial Information is not indicative of our expected results of operations in future periods or our future financial position or a substitute for our past results**" on page 95.*

*This discussion contains certain forward-looking statements that involve risks and uncertainties and reflect our current view with respect to future events and financial performance, many of which are beyond our control, which may cause the actual results to be different from those expressed or implied by the forward-looking statements. See "**Forward-Looking Statements**" and "**Risk Factors**" on pages 26 and 64, respectively. Unless otherwise indicated, financial information is derived from our Restated Consolidated Financial Information. We have included certain non-Ind AS financial measures and other performance indicators relating to our financial performance and business in this Red Herring Prospectus, each of which is a supplemental measure of our performance and liquidity and not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or U.S. GAAP. Furthermore, such measures and indicators are not defined under Ind AS, Indian GAAP, IFRS, U.S. GAAP or other accounting standards, and therefore should not be viewed as substitutes for performance, liquidity, or profitability measures under such accounting standards. In addition, such measures, and indicators are not standardized terms and a direct comparison of these measures and indicators between companies may not be possible. Other companies may calculate these measures and indicators differently from us, limiting their usefulness as a comparative measure. Although such measures and indicators are not a measure of performance calculated in accordance with applicable accounting standards, our management believes that they are useful to an investor in evaluating our operating performance. See also "**Risk Factors - Certain non-generally accepted accounting principle financial measures and other statistical information relating to our operations and financial performance have been included in this Red Herring Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable with those presented by other companies**" on page 103.*

*Certain images and graphics included in this section are provided for illustrative purposes only. Unless otherwise indicated, the industry and market-related information contained in this Red Herring Prospectus is derived from the Redseer Report. We officially engaged Redseer Management Consulting Private Limited in connection with the preparation of the Redseer Report pursuant to an engagement letter dated February 12, 2025. The Redseer Report will be available on the website of our Company at https://www.lenskart.com/corporate/investorrelations in compliance with applicable law and has also been included in "**Material Contracts and Documents for Inspection - Material Documents**" on page 1,044. The information included in this section includes excerpts from the Redseer Report and may have been reordered by us for the purposes of presentation. There are no parts, data or information (which may be relevant for the Offer), that have been left out or changed in any manner. For more information, see "**Risk Factors - This Red Herring Prospectus contains information from third parties, including an industry report prepared by an independent third-party research agency, Redseer Management Consulting Private Limited, which we have commissioned and paid for to confirm our understanding of our industry exclusively in connection with the Offer and reliance on such information for making an investment decision in the Offer is subject to inherent risks**" on page 102.*

### Overview

We are a technology-driven eyewear company with integrated operations spanning designing, manufacturing, branding and retailing of eyewear products. We primarily sell prescription eyeglasses, sunglasses, and other products such as contact lenses and eyewear accessories. India is our largest market, and we have expanded into international markets including Japan, Southeast Asia and the Middle East. We are a direct-to-consumer company that designs and sells a wide range of eyewear

products under our own brands and sub-brands. We design our own eyewear, both frames and lenses, supported by our 109-member design and merchandising team, as of June 30, 2025. We offer products across a wide range of price points and age categories, catering to the requirements of an entire household. We are India's largest, and in Asia, are amongst the two largest, organized retailers of prescription eyeglasses in terms of B2C eyeglasses sales volumes during the Financial Year 2025, according to the Redseer Report.

In line with our goal of making quality eyewear accessible and affordable, we have established presence across multiple distribution channels, including our websites, mobile applications and retail stores. Our websites and mobile applications are central to our omnichannel retailing presence, which is powered by our technology platform, providing customers with the ability to engage with our brands and sub-brands, purchase products across both online and offline touchpoints. As of June 30, 2025, our mobile applications had over 100 million cumulative app downloads and we operated our business through 2,806 stores globally (comprising 2,137 stores in India and 669 stores internationally). We own and operate frame and lens design and prescription eyeglass manufacturing facilities at two locations in India in Bhiwadi, Rajasthan and Gurugram, Haryana, supplemented by regional facilities in Singapore and the United Arab Emirates. This centralized supply chain and manufacturing in India has allowed us to deliver quality eyewear at low costs and at faster fulfilment time to our customers. We have also established in-house capabilities to manufacture both frames and lenses.

Our revenue from operations was ₹66,525.17 million for the Financial Year 2025, growing at a CAGR of 32.52% from ₹37,880.28 million in the Financial Year 2023; further, our revenue from operations was ₹18,944.55 million in the three months ended June 30, 2025, having grown period-on-period at a rate of 24.60% from ₹15,204.26 million in the three months ended June 30, 2024. Our total income was ₹70,092.76 million for the Financial Year 2025, having grown from ₹39,279.74 million for the Financial Year 2023; our total income was ₹19,461.01 million in the three months ended June 30, 2025, having grown period-on-period at a rate of 24.45% from ₹15,637.49 million in the three months ended June 30, 2024.

Our EBITDA excluding other income and exceptional item for the three months ended June 30, 2025 and the Financial Year 2025 was ₹3,366.28 million and ₹9,710.56 million, respectively, representing an EBITDA excluding other income and exceptional item margin of 17.77% and 14.60%, respectively. Our restated profit / (loss) before tax for the three months ended June 30, 2025 and the Financial Year 2025 was ₹1,101.05 million and ₹3,853.56 million, respectively. Further, our restated profit/(loss) for the period/year for the three months ended June 30, 2025 and the Financial Year 2025 was ₹611.73 million and ₹2,973.40 million, respectively.

In the three months ended June 30, 2025 and the Financial Year 2025, our segment total revenue as per Ind AS 108 for our India segment was ₹11,691.84 million and ₹40,604.66 million, respectively, with India segment results pre-depreciation and amortisation margin of 19.51% and 12.05%, respectively. Similarly, our segment total revenue as per Ind AS 108 for our International segment was ₹7,364.50 million and ₹26,387.29 million, for the three months ended June 30, 2025 and the Financial Year 2025, respectively, with an International segment results pre-depreciation and amortisation margin of 15.91% and 17.38%, for the three months ended June 30, 2025 and the Financial Year 2025, respectively.

Our total assets were ₹108,456.82 million as of June 30, 2025, ₹104,710.19 million as of March 31, 2025, ₹95,310.21 million as of March 31, 2024, and ₹95,282.80 million as of March 31, 2023. Our total equity was ₹63,234.50 million as of June 30, 2025, ₹62,061.70 million as of March 31, 2025, ₹57,559.50 million as of March 31, 2024, and ₹55,697.86 million as of March 31, 2023. Our total liabilities were ₹45,222.32 million as of June 30, 2025, ₹42,648.49 million as of March 31, 2025, ₹37,750.71 million as of March 31, 2024, and ₹39,584.94 million as of March 31, 2023.

We acquired Dealskart Online Services Private Limited ("**Dealskart**") on December 31, 2024, Stellio Ventures, S.L ("**Stellio**") on August 11, 2025 and Quantduo Technologies Private Limited ("**Quantduo**") in September, 2025. On a proforma basis, our revenue from operations amounted to ₹20,322.48 million and ₹68,030.46 million for the three months ended June 30, 2025 and the Financial Year 2025, respectively, indicating a year-on-year growth of 23.01% from ₹55,303.04 million during the Financial Year 2024, and a year-on-year growth of 45.56% from ₹37,992.76 million during the Financial Year 2023. On a proforma basis, our EBITDA excluding other income and exceptional item for the three months ended June 30, 2025 and the Financial Year 2025 amounted to ₹3,652.23 million and ₹11,523.49 million, respectively, representing an EBITDA excluding other income and exceptional item margin of 17.97% and 16.94 %, respectively.

** Growth percentage for the three months ended June 30, 2024 and the Financial Year 2023 is not presented due to the non-inclusion of information for the three months ended June 30, 2023 and the Financial Year 2022, respectively, in this Red Herring Prospectus.*

*** Dealskart was acquired on December 31, 2024, following which Dealskart became a wholly owned subsidiary of the Company*

***Notes:***

1. *India - Segment Total Revenue as per Ind AS 108 Refers to India - segment revenue recognized in accordance with Ind AS pre intersegment elimination.*
2. *India - Segment Total Revenue as per Ind AS 108 growth represents the percentage growth in India - Segment Total Revenue as per Ind AS 108 of the relevant financial period/year over the India - Segment Total Revenue as per Ind AS 108 of the previous financial year / period pre intersegment elimination.*
3. *India – Segment Product Margin is defined as Segment Total Revenue as per Ind AS 108 less the sum of segment cost of raw material and components consumed, segment purchase of stock in trade and segment changes in inventory of traded and finished goods. This is computed on a pre-intersegment elimination basis.*
4. *India – Segment Product Margin % is computed by dividing Segment product margin by Segment Total revenue as per Ind AS 108 pre intersegment elimination.*
5. *India – Segment Results Pre-depreciation and Amortisation is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and Segment Depreciation and amortization expense. This is computed on a pre-intersegment elimination basis.*
6. *India – Segment Results Pre-depreciation and Amortisation Margin (%) is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and Segment Depreciation and amortization expense divided by Segment Total revenue as per Ind AS 108. This is computed on a pre-intersegment elimination basis.*
7. *International - Segment Total Revenue as per Ind AS 108 Refers to International - segment revenue recognized in accordance with Ind AS pre intersegment elimination*
8. *International - Segment Total Revenue as per Ind AS 108 growth represents the percentage growth in International - Segment Total Revenue as per Ind AS 108 of the relevant financial period/ year over the International - Segment Total Revenue as per Ind AS 108 of the previous financial year /period pre intersegment elimination.*
9. *International – Segment Product Margin is defined as Segment Total Revenue as per Ind AS 108 less the sum of segment cost of raw material and components consumed, segment purchase of stock in trade and segment changes in inventory of traded and finished goods. This is computed on a pre-intersegment elimination basis.*
10. *International – Segment Product Margin % is computed by dividing Segment product margin by Segment Total revenue as per Ind AS 108 pre intersegment elimination.*
11. *International – Segment Results Pre-depreciation and Amortisation is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and International – Segment Depreciation and amortization expense. This is computed on a pre-intersegment elimination basis.*
12. *International – Segment Results Pre-depreciation and Amortisation Margin (%) is computed as the sum of Segment profit/ (loss) as per Ind AS 108 and Segment Depreciation and amortization expense divided by Segment Total revenue as per Ind AS 108. This is computed on a pre-intersegment elimination basis.*

13. *Revenue from operations refers to revenue recognized in accordance with Ind AS 115 Revenue from Contracts with Customers.*
14. *Revenue from operations Growth % represents the percentage growth in Revenue from Operations of the relevant financial year / period over Revenue from Operations of the previous financial period/year.*
15. *Product Margin is computed as revenue from operations less the sum of cost of raw material and components consumed, purchase of stock in trade and changes in inventory of traded and finished goods.*
16. *Product Margin % is computed by dividing Product Margin by Revenue from Operations.*
17. *EBITDA excluding other income and exceptional item is computed as the sum of profit / (loss) for the year / period, total tax expense / (credit), finance costs and depreciation and amortisation expense less other income and exceptional item.*
18. *EBITDA excluding other income and exceptional item Margin (%) is computed as EBITDA excluding other income and exceptional item divided by revenue from operations.*
19. *Restated profit/(loss) before Tax is profit/(loss) for the period/ year before adjusting for tax expense/(credit).*
20. *Restated profit/(loss) for the period/ year after adjusting for tax expense/(credit).*
21. *For the three months ended June 30, 2025 and June 30, 2024, Net Working Capital Days is computed as the ratio of the sum of closing trade receivables and inventories, less trade payables to revenue from operations for the relevant period, multiplied by 90. Further, for the Financial Years 2025, 2024 and 2023, Net Working Capital Days is computed as the ratio of the sum of closing trade receivables and inventories, less trade payables to revenue from operations for the relevant year, multiplied by 365.*
22. *Return on Capital Employed is computed as EBIT divided by capital employed. EBIT being computed as the sum of restated profit/(loss) for the period/ year, tax expense/ (credit) and finance costs; capital employed being computed as the sum of total equity and current and non-current borrowings and deferred tax liabilities less goodwill and other intangible assets, intangible assets under development and deferred tax assets. Return on Capital Employed for the three months ended June 30, 2025 and June 30, 2024, are calculated on a non-annualised basis.*
23. *Net Cash flow from operating activities is considered from Summary of Restated Consolidated Cash Flows.*

** Growth percentage for the three months ended June 30, 2024 and the Financial Year 2023 is not presented due to the non-inclusion of information for the three months ended June 30, 2023 and the Financial Year 2022, respectively, in this Red Herring Prospectus.*

***Notes:***

*(1) Product Margin is computed as proforma revenue from operations less the sum of proforma cost of raw material and components consumed, proforma purchase of stock in trade and proforma changes in inventory of traded and finished goods.*

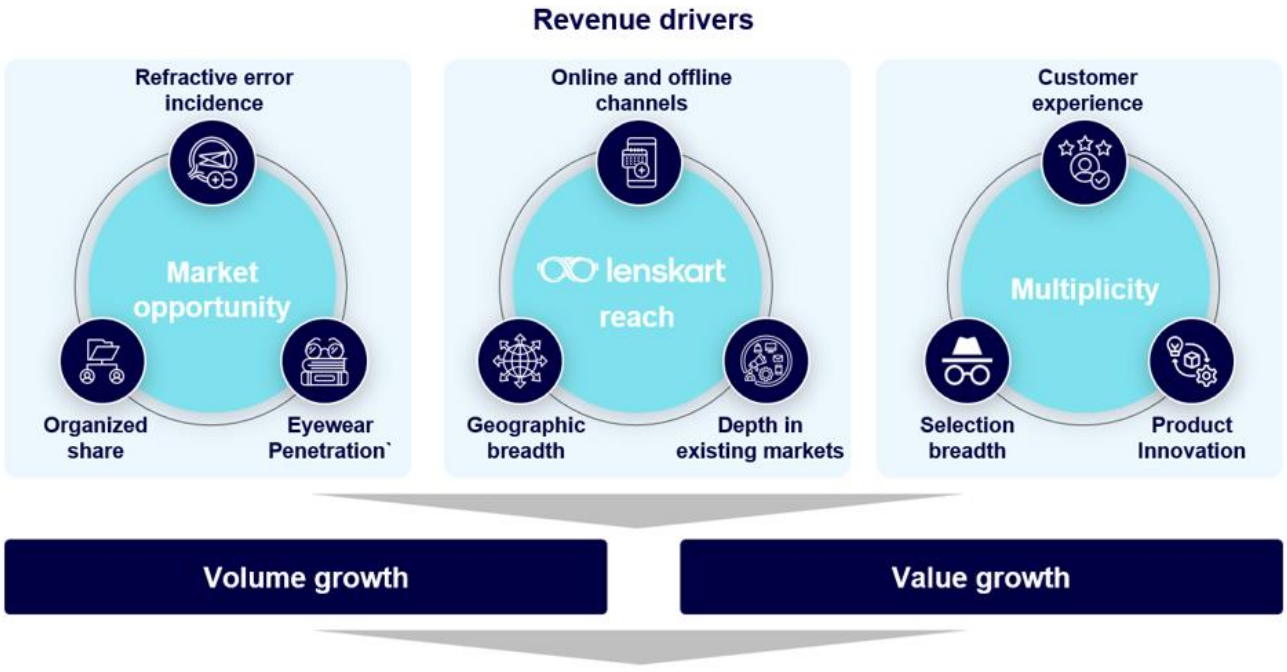
*(2) Product Margin % is computed by dividing product margin by proforma revenue from operations.*

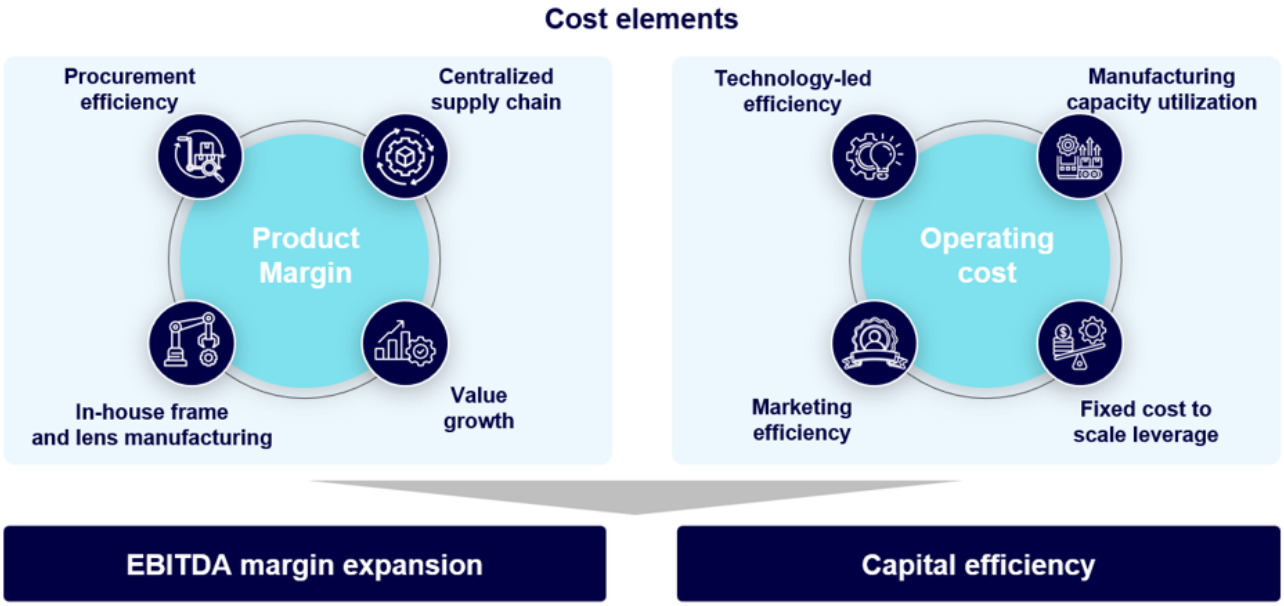
*(3) EBITDA excluding other income and exceptional item is computed as the sum of proforma profit / (loss) for the year, proforma total tax expense / (credit), proforma finance costs and proforma depreciation and amortisation expense, less proforma other income and proforma exceptional item.*

*(4) EBITDA excluding other income and exceptional item Margin (%) is computed as proforma EBITDA excluding other income and exceptional item divided by proforma Revenue from Operations.*

## Significant Factors Affecting our Results of Operations

The graphics below illustrate the key revenue and cost drivers affecting our results of operations:





***Market Opportunity - Demand for Eyewear***

The demand for eyewear in both domestic and international markets plays a pivotal role in driving our revenue, influencing the sales volume of eyewear. The demand for eyewear in both domestic and international markets plays a pivotal role in driving our revenue, influencing the sales volume of eyewear and the overall number of customer accounts we serve. According to the Redseer Report, refractive errors have become a major public health challenge globally due to evolving lifestyles (particularly increasing screen times, reduced outdoor time, higher air pollution in urban areas, and shorter sleep cycles) coupled with an ageing population. The incidence of refractive errors is approximately 4 billion (approximately 50% of the total population) in the Financial Year 2025 and is further projected to increase to approximately 4.7 billion (approximately 55% of the total population) by the Financial Year 2030. The number of individuals affected by refractive errors in India has increased from approximately 43% (approximately 590 million) in Financial Year 2020 to an estimated 53% (approximately 777 million) in Financial Year 2025 and is projected to rise to approximately 62% (approximately 943 million) by Financial Year 2030, according to the Redseer Report. In the Financial Year 2025, Asia accounts for the largest share of global population, with refractive error incidences of approximately 65% and approximately 68% in Southeast Asia and Japan respectively, which is expected to grow to 70% and 71%, respectively by Financial Year 2030, indicating a growing need for vision correction solutions across the region.

Further, the penetration of prescription eyewear in Asia is lower than in developed markets such as the United States with Southeast Asia at 40%, Middle East at 60%, and Japan at 69%, versus the United States at 88%, as of March 31, 2025, according to the Redseer Report. An increase in awareness, accessibility and affordability could lead to improvement in penetration. To increase awareness, as of June 30, 2025, we offered complementary eye tests across our 2,806 stores in our Indian and International markets. During the three months ended June 30, 2025 and the Financial Year 2025, we conducted approximately 4.43 million and 13.45 million eye tests, respectively, in India and 0.68 million and 2.56 million eye tests, respectively, outside India. We provided home eye tests and frame try-on services in 30 cities in India as of June 30, 2025, wherein our agent travels to the location of the customer to conduct eye tests and provide product trials. This is an additional level of convenience for our customers, especially senior citizens, corporate employees, and families.

According to the Redseer Report, the growth in global eyewear market has been complemented by a rapid shift from unorganized to organized retailers across geographies. The organized segment in India is projected to grow approximately 1.6x times faster than the unorganized segment, accounting for approximately 31% of the overall market by the Financial Year 2030. Similarly, in Japan, the share of organized retail is projected to increase from approximately 63% in the Financial Year 2025 to approximately 69% by the Financial Year 2030, 33-35% in the Financial Year 2025 to 40-45% by the Financial Year 2030 in Southeast Asia and 58-60% in the Financial Year 2025 to 69-71% in the Financial Year 2030 in Middle East.

According to the Redseer Report, in Japan, direct-to-consumer (or "***D2C***") market share has increased from 24-26% in the Financial Year 2020 to 30-32% in the Financial Year 2025 and is projected to reach to 40-45% in the Financial Year 2030. Similarly, in the Middle East, D2C market share has increased from 7-10% in the Financial Year 2020 to 12-15% in the Financial Year 2025 to 20-25% in the Financial Year 2030. We believe our D2C brands will continue to benefit from this trend.

See also, "***Risk Factors - Our global operations expose us to management, legal, tax, political and economic risks, and our failure to address such risks could adversely affect our business, results of operations, financial condition and cash flows", "Risk Factors - The global eyewear industry is subject to a range of threats and challenges, which if unaddressed by us, could adversely affect our business, results of operations, financial condition and cash flows"*** *and* ***"Risk Factors - Medical advancements in the eyecare industry may adversely affect the demand for our eyewear products***" on pages 73, 89 and 76, respectively.

***Our Reach - Omnichannel Retail Network***

According to the Redseer Report, globally, digitally influenced spending has been increasing, driven by the growing penetration of internet and smartphone usage, rising engagement on digital platforms, and the increasing role of online search and discovery in purchase decisions. Driven by these tailwinds, omnichannel retail is growing rapidly, as consumers increasingly expect flexibility and convenience in their shopping journeys. Our omnichannel model, including our websites, mobile applications and retail stores position us well for this growing preference for omnichannel retail. Our mobile applications and websites are enabled by our technology platform, providing customers with the ability to engage with our brands and purchase products across both online and offline touchpoints. In the Financial Year 2025, 40.68% of all eyewear sold by us in India (excluding eyewear units collected over the counter) was shipped directly to our customers' personal addresses, reducing the need for in-store collection. This approach enhances customer convenience, drives engagement, encourages repeat purchases and loyalty. Our mobile applications and websites have a large catalogue with details of our products, including recommendations, customer reviews and virtual try-ons, size measurement, and an AI-enabled frame recommendation facility used by customers shopping across channels. Our mobile applications and websites also allow existing customers to shop for similar styles with pre-selected sizes, lenses, and prescriptions, reducing friction for repeat transactions.

Our omnichannel model also facilitates higher customer conversion rates as compared to models relying exclusively on either the online or offline channel. As of June 30, 2025, we had more than 100 million mobile app downloads and operated our business through 2,806 stores globally, with 2,137 stores in India and 669 stores in international locations. In the Financial Year 2025, customers contributing 44.82% of our revenue from operations in India (on a proforma basis) engaged with us digitally through organic searches, social media or other online channels in the 90 days prior to completing their purchase.

As part of our strategy to increase geographic penetration and support our omnichannel growth, we opened 1,280 new stores in India cumulatively from the Financial Year 2023 to the three months ended June 30, 2025 with 64.38% of such stores located outside metro cities. Our international markets are also a strategic focus area, and we intend to continue growing our presence in global markets both organically and inorganically. While we have increased the depth of our store network in the cities we have been operating, we have also added stores in 415 cities in India and 145 cities in international markets during the three months ended June 30, 2025 and the last three Financial Years.

The table below sets out the number of annual transaction customer accounts, number of eyewear units sold and total stores (India and International) for the three months ended June 30, 2025 and June 30, 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | Unit | For the three months ended June 30, | | Financial Year | | |
|---|---|---|---|---|---|---|
| | | 2025 | 2024 | 2025 | 2024 | 2023 |
| **India** | | | | | | |
| Quarterly / Annual Transacting Customer Accounts | *million* | 3.73[(1)] | 2.78[(1)] | 9.94[(2)] | 8.06[(2)] | 6.29[(2)] |
| Number of eyewear units sold[(3)] | *million* | 6.72 | 5.34 | 22.91 | 17.65 | 13.69 |
| Total Stores[(4)] | *Number* | 2,137 | 1,816 | 2,067 | 1,785 | 1,416 |
| **International** | | | | | | |
| Quarterly / Annual Transacting Customer Accounts | *million* | 0.70[(1)] | 0.63[(1)] | 2.47[(2)] | 2.14[(2)] | 1.41[(2)] |
| Number of eyewear units sold[(3)] | *million* | 1.13 | 1.01 | 4.29 | 3.58 | 2.26 |
| Total Stores[(4)] | *Number* | 669 | 619 | 656 | 604 | 543 |
| **Consolidated** | | | | | | |
| Quarterly / Annual Transacting Customer Accounts | *million* | 4.43[(1)] | 3.41[(1)] | 12.41[(2)] | 10.20[(2)] | 7.70[(2)] |
| Number of eyewear units sold[(3)] | *million* | 7.85 | 6.35 | 27.20 | 21.23 | 15.95 |
| Total Stores[(4)] | *Number* | 2,806 | 2,435 | 2,723 | 2,389 | 1,959 |

***Notes:***

*(1) Quarterly Transacting Customer Accounts are accounts which have transacted at least once on any of our online or offline channels in a given quarter.*

*(2) Annual Transacting Customer Accounts are accounts which have transacted at least once on any of our online or offline channels in a given period/ financial year.*

*(3) Number of Eyewear Units Sold refers to the total quantity of eyeglasses and contact lenses sold in a given period/ financial year.*

*(4) Total Stores include all store formats (i.e., CoCo, FoFo, CoFo).*

***Multiplicity - Eyewear as a Lifestyle Category***

Consumers are increasingly using multiple pairs of prescription eyeglasses, not only for vision correction but also to elevate their personal style, similar to other fashion categories such as apparel, footwear, and accessories, albeit still in its nascent stages. This trend of function to fashion is driven by improving affordability and the influence of digital content and social media. We have managed to increase customer purchase frequency by launching new fashion and functional eyewear designs including:

- localized collections catering to festive occasions, such as Navratri in India, Ramadan in the Middle East, Lunar New Year in Southeast Asia;
- collaborations with celebrities and influencers; and
- introducing add-ons such as frame swaps, bitz (frame accessory), among others.

We have been improving the functionality of our eyewear products with targeted collections or upgrades catering to specific customer sections, for instance, Turban-edit collection, specialized for customers who wear turbans, Creatr, a durable range for children and Pro-fit, a range with adjustable temples for athletes. We have also recently launched our smart glasses category with the launch of "Phonic" audio-enabled smart eyeglasses. We have also made investments in lens research and development to enhance lens quality, functionality, and durability. Our focus on lens innovation, including myopia control powered lenses, powered sun lenses, and other advanced optical technologies, allows us to address a range of vision correction and lifestyle use cases.

We are able to share design collections across markets, helping us to launch innovative products that suit local preferences while maintaining a consistent global brand. In the three months ended June 30, 2025 and the Financial Year 2025, we launched 42 and 105 new in-house designed and engineered collections, respectively, globally, including in collaboration with popular brands and celebrities. By offering a wide variety of eyeglasses with different styles, materials, and price points, we enable customers to own and wear multiple pairs of eyeglasses for different occasions and activities, similar to how customers engage with other product categories such as apparel and footwear. For instance, the two-year purchase frequency among new customer accounts acquired by us in the Financial Year 2023 was 3.62 eyeglasses as compared to an India average of 1.8 eyeglasses, according to the Redseer Report.

See also, "***Risk Factors - Our success depends on our ability to identify market trends and meet evolving customer demands. If we are unable to do so, our business, results of operations, financial condition and cash flows could be adversely affected***" *and* ***"Risk Factors - The launch of new sub-brands, eyewear categories or designs that prove to be unsuccessful could affect our growth plans, which could adversely affect our business, results of operations, financial condition, and cash flows***" on pages 84 and 78, respectively.

***Eyewear market opportunity, our omnichannel reach and multiplicity of eyewear enabling our volume and value focus***

We are focused on driving the sales volume of eyewear, particularly through growing our annual transacting customer accounts through factors such as demand for eyewear in our current geographies of focus, expanding our omnichannel reach and growing multiplicity of eyewear purchases.

The increasing demand for prescription eyewear, growing omnichannel reach, our focus on improving customer experience, and the breadth and innovation of our collections allow us to attract new customers and help in the retention of our existing customers. The two-year order repeat rate from new customer accounts was 98.16%, 98.90% and 93.26% in the Financial Years 2023, 2022 and 2021, respectively. As of June 30, 2025, our "Lenskart Gold" membership program had 7.12 million members in India. In the three months ended June 30, 2025 and the Financial Year 2025, we acquired 0.35 million and 0.95 million Lenskart Gold members, respectively. Our Annual Transacting Customer Accounts increased from 7.70 million customers in the Financial Year 2023 to 12.41 million customers in the Financial Year 2025 and grew from 3.41 million customers in the three months ended June 30, 2024 to 4.43 million customers in the three months ended June 30, 2025. Additionally, our number of eyewear units sold increased from 15.95 million in Financial Year 2023 to 21.23 million in Financial Year 2024 to 27.20 million in Financial Year 2025, and from 6.35 million in the three months ended June 30, 2024 to 7.85 million in the three months ended June 30, 2025.

| **Numbers of Eyewear Units Sold *(in millions)*** | **For the three months ended June 30,** | | **Financial Years** | | |
|---|---|---|---|---|---|
| | **2025** | **2024** | **2025** | **2024** | **2023** |
| India | 6.72 | 5.34 | 22.91 | 17.65 | 13.69 |
| International | 1.13 | 1.01 | 4.29 | 3.58 | 2.26 |
| **Consolidated** | **7.85** | **6.35** | **27.20** | **21.23** | **15.95** |

Our aim is to build our Company as a trusted consumer brand across India and the geographies that we operate in, that customers associate with consistent quality, functionality, delivered at scale and at accessible price points. We have curated a portfolio of sub-brands that caters to the economy, affordable premium and premium categories of customers. We believe we have built a brand that appeals to a wide range of customer categories. This is reflected in the diversity of our price points, with 18.13% of our sales in India during the Financial Year 2025 from orders with a transaction value below ₹2,000 and 18.14% from products with transaction value above ₹10,000. During the Financial Year 2025, prices for our prescription eyeglasses in India ranged from ₹399 to ₹41,199, and outside India, from USD 48.41 (₹4,142.93) to USD 670.06 (₹57,343.73).

See also, "***Risk Factors - The location, size and performance of our retail store network component of our omnichannel retail network are critical to our success. We cannot assure you that our retail store network will expand and operate as expected or that the current locations of our retail stores will continue to be attractive as demographic patterns change***." on page 70.

***Our Acquisitions and Proforma Results***

Our approach to expanding and diversifying our brand, product portfolio and offerings, and geographical presence includes both organic initiatives and selective brand collaboration, investments and acquisitions. We acquired a substantial stake in Owndays on August 10, 2022 to expand our footprint across Japan and Southeast Asia. We started selling Owndays-branded products in Lenskart stores in India within nine months of our acquisition, demonstrating our operational agility and integration

capabilities. In 2024, we invested in French brand 'Le Petit Lunetier' and launched their products in Lenskart stores in India.

We initially entered into a master franchise agreement with Dealskart on November 1, 2018, which formalized the operation of Lenskart-branded FoFo stores managed by Dealskart, while our other franchisees continued to operate their respective stores independently. Under the master franchise arrangement, Dealskart operated Lenskart-branded stores with commercial terms primarily comprising a sales-based fee and a one-time franchise fee. As part of our broader restructuring efforts, we expanded our commercial arrangement with Dealskart, effective October 1, 2019, to include the grant of an exclusive license for online platform operations pursuant to a separate license agreement, along with the provision of fulfillment and logistics support services under a vendor agreement. Subsequently, beginning in October 2020, we adopted a revised store operating structure whereby we directly leased newly established retail locations and sub-leased them to Dealskart, which continued to manage day-to-day operations and reimbursed us for rent and associated capital expenditures. In order to consolidate our control over retail and fulfillment operations, we entered into a termination agreement with Dealskart on November 30, 2024, pursuant to which all existing commercial agreements were terminated and we assumed direct control and operation of all retail stores and platform operations managed by Dealskart.

Pursuant to a Share Purchase Agreement dated July 12, 2025, by and among our subsidiary Lenskart Solutions Pte. Ltd. ("**Lenskart Singapore**"), Stellio, investor shareholders of Stellio and founders of Stellio, Lenskart Solutions Pte. Ltd has acquired 32,226 shares of Stellio, representing 84.21% of its share capital, for a total consideration of ₹4,125.30 million (assuming an exchange rate of €1 = ₹102.06), which comprises of ₹2,386.73 million paid to the investors shareholders of Stellio and ₹1,187.69 million paid to the founders of Stellio and ₹550.87 million being deferred consideration, payable to the founders of Stellio within 45 days after the third anniversary of the closing date of the transaction, that is, August 11, 2025.

Stellio markets a range of fashion sunglasses as well as related accessories direct-to-consumers under the "Meller" brand. Its products are sold mostly online through their website to customers across several countries. It also has two retail stores, one located in Barcelona, Spain, and another located in Amsterdam, Netherlands. Stellio was profit-making under Spanish GAAP for the Calendar Year 2024. The acquisition is expected to deliver the following strategic benefits to our Company:

- introduces a new sub-brand within our portfolio, focused on Gen Z and Millennial customers;
- strengthens our offering in the sunglasses category for our customers;
- augments our Lenskart brand by offering contemporary fashionable sunglass designs to our customers;
- further strengthen our social media brand building and online e-commerce capabilities; and
- provides cost synergies to our supply chain network.

Further, pursuant to share purchase agreements executed in August 2025, our Company increased its effective stake to 96.15% in Quantduo Technologies Private Limited ("**Quantduo**") for a total consideration of ₹109.16 million. Quantduo develops advanced analytics solutions for industries that deal with large volumes of data and has designed and refined a proprietary geo-analytics tool that leverages location-based data to predict revenue potential and payback periods for prospective store locations.

See also, "***History and Certain Corporate Matters***" and "***Risk Factors – We have pursued and are likely to continue to pursue acquisitions for inorganic growth. Our inability to successfully complete and integrate suitable acquisitions on acceptable terms in the future could adversely affect our business, results of operations, financial condition and cash flows***" on pages 344 and 86, respectively.

Our growth is expected to be complemented by our ability to replicate our successful operating model in new markets. Our entry into new international geographies, supported by our scalable manufacturing and supply chain infrastructure and proposed acquisitions, is expected to enhance our business and growth potential.

We have included the Unaudited Proforma Financial Information as of and for the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023 to illustrate the impact of (i) the acquisition of Dealskart Online Services Private Limited on our financial position at March 31, 2024 and March 31, 2023 as if such acquisition had taken place as at March 31, 2024 and March 31, 2023 respectively and on our results of operations for the years ended March 31, 2025, March 31, 2024 and March 31, 2023 as if such acquisition had taken place as at April 1, 2024, April 1, 2023 and April 1, 2022, respectively; and (ii) the acquisitions of Stellio Ventures, S.L. and Quantduo Technologies Private Limited, as if the acquisitions had taken place on June 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023, respectively, for the purpose of the unaudited pro forma balance sheet as at June 30, 2025, March 31, 2025, 2024 and 2023 respectively, and on April 1, 2025, April 1, 2024, April 1, 2023 and April 1, 2022, respectively, for the purpose of the unaudited proforma statement of profit and loss for the three months period ended June 30, 2025, and for Financial Years ended March 31, 2025, March 31, 2024 and March 31, 2023, respectively. See also "***Our Business – Recent Developments***" on page 320.

The table below sets out our results, on a pro forma basis, for the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023:

| Particulars | Unit | For the three months ended June 30, 2025 | Financial Year | | |
|---|---|---|---|---|---|
| | | | 2025 | 2024 | 2023 |
| Revenue from Operations | ₹ *million* | 20,322.48 | 68,030.46 | 55,303.04 | 37,992.76 |

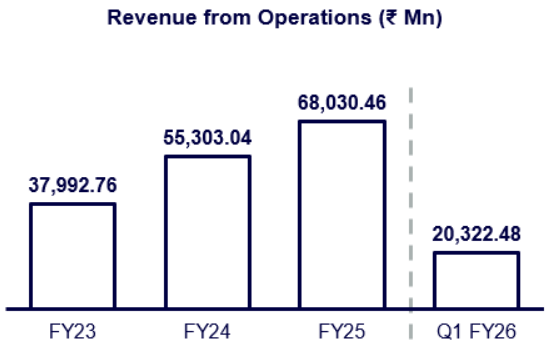
The table below sets out our India Segment Total Revenue as per Ind AS 108, Segment Results Pre-Depreciation and Amortisation (pre-intersegment elimination) and India Segment Product Margin, on a restated basis, for the three months ended June 30, 2025 and June 30, 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | Unit | For the three months ended June 30, | | Financial Year | | |
|---|---|---|---|---|---|---|
| | | 2025 | 2024 | 2025 | 2024 | 2023 |
| India Segment Total Revenue as per Ind AS 108 | ₹ *million* | 11,691.84 | 9,369.44 | 40,604.66 | 32,062.08 | 23,920.49 |
| India Segment Product Margin | ₹ *million* | 7,402.96 | 5,938.37 | 25,455.73 | 20,003.09 | 14,068.58 |
| India Segment Results Pre-Depreciation and Amortisation | ₹ *million* | 2,280.77 | 745.30 | 4,894.76 | 3,034.14 | 1,054.51 |

***Note:*** *All the above segmental numbers are pre-intersegment elimination.*

The graphic below sets out details of our revenue from operations, on a proforma basis, for the three months ended June 30, 2025 and the Financial Years 2023, 2024 and 2025:



See also, "***Risk Factors – The Unaudited Proforma Financial Information included in this Red Herring Prospectus which has been prepared to illustrate the effects of the acquisition of Dealskart Online Services Private Limited during the Financial Year 2025 and the acquisitions of Stellio Ventures, S.L. and Quantduo Technologies Private Limited during the Financial Year 2026 on our Restated Consolidated Financial Information is not indicative of our expected results of operations in future periods or our future financial position or a substitute for our past results***" on page 95. See also, "***Risk Factors - We have pursued and are likely to continue to pursue acquisitions for inorganic growth. Our inability to successfully complete and integrate suitable acquisitions on acceptable terms in the future could adversely affect our business, results of operations, financial condition and cash flows"*** and ***"Risk Factors - Our global operations expose us to management, legal, tax, political and economic risks, and our failure to address such risks could adversely affect our business, results of operations, financial condition and cash flows***" on pages 86 and 73, respectively.

***Materials Costs and Product Margin Optimization***

Our cost of materials consumed is impacted by the volume of raw materials required for the manufacturing and delivery of our eyewear, and correspondingly the price at which we procure such materials. Furthermore, our ability to manage our inventory while maintaining and enhancing operational efficiency, impacts our ability to maintain or increase our product margins.

As of March 31, 2025, 75.37% of our inventory in India was centralised and stored at our manufacturing facilities, with only

limited display inventory and limited for-sale-inventory maintained at individual stores. This centralised supply chain model allows us to offer customers a wide assortment of products, without being constrained by in-store SKU availability. Further, it allows us to reduce inventory risk, improve demand forecasting, and improve inventory turnover.

We manufacture a wide range of frames in-house, spanning several designs and a range of materials. We commenced manufacturing frames in China through our joint venture in 2017 and extended these capabilities to our manufacturing facilities in India in 2021. Our in-house frame mould design and frame and lens manufacturing capabilities allows us to launch new original designs, frequently and with lower cost versus procuring these from other third-party vendors. During the three months ended June 30, 2025 and Financial Year 2025, we manufactured 1.87 and 6.44 million frames, respectively, at our own facilities in India and through our joint venture in China, as compared to 5.35 million in the Financial Year 2024 and 4.44 million in the Financial Year 2023. In India, we manufacture a wide range of lenses across all powers, including single-vision, bifocal, and progressive lenses, supported by advanced, automated technology and precision tooling. During the three months ended June 30, 2025 and Financial Year 2025, we manufactured 1.31 million and 4.06 million lenses, respectively, in-house at our manufacturing facilities in India.

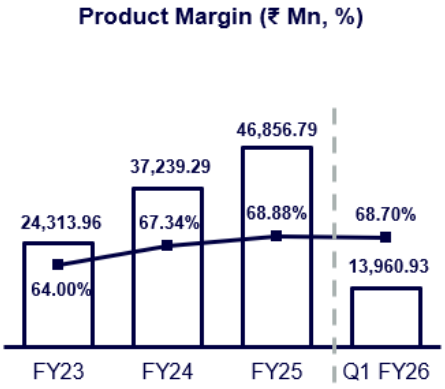
Following the acquisition of Owndays on August 10, 2022, we integrated procurement operations across both entities and established a centralized sourcing team. This integration has not only led to significant synergies, including improved vendor terms, higher order consolidation, and better price discovery, but also helped us in efficient inventory planning and streamlined supply chain coordination across markets. As a result, we are better positioned to drive margin improvements while maintaining product quality and availability. Our operations enable us to manufacture at scale, reduce reliance on intermediaries, and achieve better price realization from suppliers. This structure enables us to achieve economies of scale and generate operating leverage across our business. According to the Redseer Report, the average cost incurred for frames and lenses sold by Lenskart in India in the Financial Year 2025 was 35-40% lower than the industry average. In addition, we are able to serve customers in Singapore and the United Arab Emirates from our facilities in India.

Set out below is our product margin, product margin %, India segment product margin, India segment product margin %, International segment product margin and International segment product margin %, on a restated basis, for the three months ended June 30, 2025 and June 30, 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | | | Financial Year | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 2025 | | 2024 | | 2025 | | 2024 | | 2023 | |
| | Amount *(₹ in million)* | % | Amount *(₹ in million)* | % | Amount *(₹ in million)* | % | Amount *(₹ in million)* | % | Amount *(₹ in million)* | % |
| India Segment Product Margin | 7,402.96 | 63.32% | 5,938.37 | 63.38% | 25,455.73 | 62.69% | 20,003.09 | 62.39% | 14,068.58 | 58.81% |
| International Segment Product Margin | 5,587.79 | 75.87% | 4,441.07 | 74.79% | 19,639.17 | 74.43% | 16,483.46 | 72.78% | 10,110.93 | 70.42% |
| **Product Margin** | **12,904.20** | **68.12%** | **10,404.57** | **68.43%** | **45,181.13** | **67.92%** | **36,515.63** | **67.28%** | **24,199.18** | **63.88%** |

***Note:*** *All the above segmental numbers are pre-intersegment elimination.*

The graphic below sets out our product margin and product margin %, on a proforma basis, for the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023:



***Cost-effectiveness and Operating Leverage***

Our profitability depends on our ability to remain cost-effective, which depends on a number of factors such as product margin improvement, the efficiency of our sales and marketing initiatives, and the continued enhancement of our technology infrastructure to drive operational effectiveness. As our retail stores mature and customer cohorts deepen, we expect capital already deployed will yield stronger returns. Operating leverage will also play a meaningful role in enhancing ROCE. As fixed infrastructure, whether in retail, manufacturing, or technology, is utilized more efficiently, incremental growth is expected to contribute disproportionately to operating profit, improving key return ratios such as return on equity and return on capital employed.

*Marketing and promotion expenses*: We invest in marketing and advertisement initiatives to drive new customer acquisitions, customer retention and to increase awareness. While we have gained prominence as a lifestyle retail company by leveraging our core capabilities in content marketing, social media and influencer marketing, our cost effectiveness depends on our ability to attract and retain consumers at reasonable marketing expenses. On a restated basis, marketing and promotion expenses as a percentage of revenue from operations has decreased from 7.76% in the Financial Year 2023 to 6.74% in the Financial Year 2025 and from 7.18% in the three months ended June 30, 2024 to 6.74% in the three months ended June 30, 2025. On a proforma basis, the marketing expenses as a percentage of revenue from operations has declined even further. Our omnichannel strategy offers cost advantages. In a single-channel setup, marketing tends to be expensive because every campaign must work harder to drive conversion through just one touchpoint. In contrast, our omnichannel approach creates marketing leverage. Promotions on one channel (such as digital) often drive engagement and footfall in others (such as stores or home visits). This overlap allows us to maximize the impact of our marketing investments, achieving better reach and conversion without proportionally increasing budgets.

*Employee benefits expense* : Our employees are critical to our success. As of June 30, 2025, we had 18,173 employees with 14,938 in India and 3,235 outside India. The consolidation of Dealskart subsequent to its acquisition on December 31, 2024 also resulted in an increase in our employee base. We took over Dealskart-operated stores and operations into our CoCo store network, thereby increasing the share of CoCo stores in our total store network. This has led to an increase in the number of employees in our payroll leading to higher employee benefits expenses. However, this was partially offset by the operating leverage resulting from a reduction in central employee costs, including head office payroll expenses. We continue to make investments in our manpower with the addition of stores and improving customer experience at our high-footfall stores. In addition, we continue to strengthen our technology team.

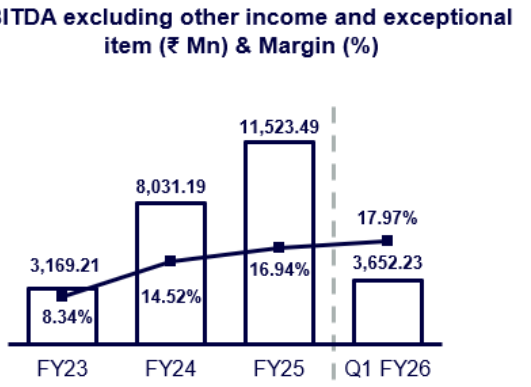
*Commission and incentive expenses*: We operate our store network across a range of formats: CoCo, FoFo and CoFo. In India, commission to franchise stores is based on the terms agreed with franchisee partners at the time of entering into agreement. See also, "***Our Business - Our Business Relationships - Franchisees***" on page 331 for a description of the general terms of our franchise arrangements. On a proforma basis, our commission and incentive expenses as a percentage of revenue from operations has declined over the last three years, consistent with the increasing percentage of our CoCo stores among out total stores, and effect of the acquisition of Dealskart.

Set out below is our segment results pre-depreciation and amortisation and segment results pre-depreciation and amortisation margin (India and International) and EBITDA excluding other income and exceptional item and EBITDA excluding other income and exceptional item margin, on a restated basis, as per Ind AS 108, for the three months ended June 30, 2025 and June 30, 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | Unit | For the three months ended June 30, | | Financial Year | | |
|---|---|---|---|---|---|---|
| | | 2025 | 2024 | 2025 | 2024 | 2023 |
| India – Segment Results Pre-depreciation and Amortisation | *₹ million* | 2,280.77 | 745.30 | 4,894.76 | 3,034.14 | 1,054.51 |
| India – Segment Results Pre-depreciation and Amortisation Margin | *%* | 19.51% | 7.95% | 12.05% | 9.46% | 4.41% |
| International – Segment Results Pre-depreciation and Amortisation | *₹ million* | 1,172.06 | 1,007.25 | 4,584.94 | 3,444.37 | 1,411.21 |
| International – Segment Results Pre-depreciation and Amortisation Margin (13) | *%* | 15.91% | 16.96% | 17.38% | 15.21% | 9.83% |
| EBITDA excluding other income and exceptional item | *₹ million* | 3,366.28 | 1,834.19 | 9,710.56 | 6,720.91 | 2,597.09 |
| EBITDA excluding other income and exceptional item Margin | *%* | 17.77% | 12.06% | 14.60% | 12.38% | 6.86% |

***Note:*** *All the above segmental numbers are pre-intersegment elimination.*

Set out below is our EBITDA excluding other income and exceptional item and EBITDA excluding other income and exceptional item margin for the three months ended June 30, 2025 and the Financial Years 2025, 2024 and 2023, on a proforma basis:



***Capital Efficiency and Return on Capital Employed***

Return on Capital Employed ("**ROCE**") is a metric that reflects how efficiently our business converts its capital into profits. Our operations span omnichannel retail, in-house manufacturing, and technology-enabled processes in India, and we have recently commenced operations in select international markets. Efficient capital allocation across these areas is critical to maintaining and improving our ROCE.

Our revenue from operations for the Financial Years 2025, 2024 and 2023 was ₹66,525.17 million, ₹54,277.03 million and ₹37,880.28 million, respectively and during the three months ended June 30, 2025 and June 30, 2024 was ₹18,944.55 million and ₹15,204.26 million, respectively. As of June 30, 2025, our capital employed was ₹39,354.95 million. Capital employed comprises the sum of total equity of ₹63,234.50 million, current liabilities – financial liabilities – borrowings of ₹1,363.13 million, non-current liabilities – financial liabilities – borrowings of ₹1,991.69 million and non-current liabilities – financial liabilities – deferred tax liabilities (net) of ₹1,514.41 million less non-current assets – goodwill of ₹18,755.94 million, non-current assets – other intangible assets of ₹9,054.55 million and non-current assets – deferred tax assets (net) of ₹938.29 million. In the three months ended June 30, 2025 and the Financial Year 2025, our EBIT was ₹1,407.57 million and ₹5,312.46 million, respectively, which for the Financial Year 2025 includes one-time benefit recorded as other income - FVTPL gain on deferred consideration for the acquisition of Owndays shares of ₹1,671.98 million. Our restated profit/(loss) before tax was ₹997.19 million, ₹26.32 million, ₹3,853.56 million, ₹590.31 million and ₹(1,011.76) million for the three months ended June 30, 2025 and 2024 and the Financial Years 2025, 2024 and 2023, respectively, and our restated profit/(loss) for the year was ₹611.73 million, ₹(109.57) million, ₹2,973.40 million, ₹(101.54) million and ₹(637.57) million for the three months ended June 30, 2025 and 2024 and the Financial Years 2025, 2024 and 2023, respectively. On a restated basis, our ROCE for the three months ended June 30, 2025 and the Financial Year 2025 was 3.58% and 13.84%, respectively. On a proforma basis, our ROCE for the Financial Year 2025 was 16.30%.

ROCE is positively influenced by scale up of our India and international business. In addition, higher manufacturing capacity utilization, improvement in profitability and working capital days are key drivers to improvement in ROCE. The table below sets out details of our capital employed, earnings before interest and tax and return on capital employed during the three months ended June 30, 2025 and June 30, 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | Unit | For the three months ended June 30, | | Financial Year | | |
|---|---|---|---|---|---|---|
| | | 2025 | 2024 | 2025 | 2024 | 2023 |
| Capital Employed | *₹ in million* | 39,354.93 | 36,122.90 | 38,398.40 | 35,848.29 | 37,476.47 |
| Earnings Before Interest and Tax (EBIT) | *₹ in million* | 1,407.57 | 403.44 | 5,312.46 | 1,820.20 | (178.98) |
| Return on Capital Employed (ROCE) | *%* | 3.58% | 1.12% | 13.84% | 5.08% | (0.48%) |

***Note:*** *Return on Capital Employed is computed as EBIT divided by capital employed with EBIT being computed as the sum of restated profit /(loss) for the year, tax expense/(credit) and finance costs; capital employed being computed as the sum of total equity and current and non-current borrowings and deferred tax liabilities less goodwill and other intangible assets, intangible assets under development and deferred tax assets. Return on Capital Employed for the three month periods ended June 30, 2025 and June 30, 2024 is calculated on a non-annualised basis.*

**Material Accounting Policies**

***Functional and presentation currency***

The Restated Consolidated Financial Information is presented in Indian Rupees (₹ or INR), which is also our functional currency. All amounts have been rounded-off to the nearest millions, unless otherwise indicated.

*Basis of measurement*

The Restated Consolidated Financial Information has been prepared on the historical cost basis except for the following items:

| Items | Measurement basis |
|---|---|
| Investments in equity shares other than subsidiary, associate and joint venture | Fair value |
| Investments in mutual funds | Fair Value |
| Liabilities for share-based payment arrangements | Fair Value |
| Other financial assets and liabilities | Amortised cost |

***Use of estimates and judgements***

In preparing the Restated Consolidated Financial Information, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

*Judgements*

In the process of applying our accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the Restated Consolidated Financial Information:

*Determining the lease term of the contract with renewal and termination option – Group as a lessee*

We determine the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

We have several lease contracts that include extension and termination options. We apply judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, we reassess the lease term if there is a significant event or change in circumstances that is within our control and affects our ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

*Leases - Estimating the incremental borrowing rate*

We cannot readily determine the interest rate implicit in the lease, therefore, we use our incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that we would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what we 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease.

*Operating lease commitments – Group as a lessor*

We have entered into commercial property leases on our investment property portfolio. We have determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the fair value of the asset, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

*Estimates and assumptions*

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. We have based our assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond our control. Such changes are reflected in the assumptions when they occur. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

*Provision for employee benefits*

The measurement of obligations and assets related to defined benefit / other long-term benefits plans makes it necessary to use several statistical and other factors that attempt to anticipate future events. These factors include assumptions about the discount rate, the rate of future compensation increases, withdrawal, mortality rates etc. The management has used the past trends and future expectations in determining the assumptions which are used in measurements of obligations.

*Recognition of deferred tax assets*

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, we recognise a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised.

*Impairment of trade receivables*

The impairment provisions for trade receivables disclosed are based on assumptions about risk of default and expected loss rates. We use judgement in making these assumptions and selecting the inputs to the impairment calculation, based on our history, existing market conditions as well as forward looking estimates at the end of each reporting period. Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on us and that are believed to be reasonable under the circumstances.

*Provision for litigation*

The management determines the estimated probability of outcome of any litigation based on our assessment supported by technical advice on the litigation matters, wherever required.

*Provision for warranties*

We offer one-year warranty on Eyeglasses and Sunglasses. Warranty costs on sale of goods are provided on the basis of management's estimate of the expenditure to be incurred during the unexpired period. Provision is made for the estimated liability in respect of warranty costs in the year of recognition of revenue and is included in the statement of profit and loss. The estimates used for accounting for warranty costs are reviewed periodically and revisions are made as and when required.

*Fair value measurement of financial instruments*

When the fair values of financial assets and financial liabilities recorded in the statement of assets and liabilities cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

*Impairment of non-financial assets*

The carrying amounts of our non-financial assets, other than deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ('CGU') is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets ('CGU').

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

***Measurement of fair values***

A number of our accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, we use observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value

measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

We recognise transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

***Current versus non-current classification***

We present assets and liabilities in statement of assets and liabilities based on current / non-current classification.

An asset is classified as current when it is:

Expected to be realised or intended to be sold or consumed in normal operating cycle,

Held primarily for the purpose of trading,

Expected to be realised within twelve months after the reporting period, or

Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

It is expected to be settled in normal operating cycle,

It is held primarily for the purpose of trading,

It is due to be settled within twelve months after the reporting period, or

There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

All assets and liabilities have been classified as current or non-current as per our operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, we have ascertained our operating cycle as less than 12 months for the purpose of current and non- current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

***Property, plant and equipment***

Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to us.

Depreciation

Depreciation is provided on a pro-rata basis under the straight-line method. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

| Asset category | Estimated useful life (in years) |
|---|---|
| Building (Non RCC Structure) | 30 |
| Building (RCC Structure) | 60 |
| Roads | 10 |
| Plant and machinery (Other than MEI Auto lens cutting machine) | 7[#] |
| Plant and machinery (MEI Auto lens cutting machine, ASRS)* | 15 |
| Furniture and fixtures | 7-10 |
| Office equipment | 5-7 |
| Computers and peripherals (including server) | 3-6 |
| Electrical fittings | 10 |
| Vehicles | 6-10 |

*# For these class of assets, based on internal technical evaluation, our management believes useful lives as given above best represent the period over which we expect to use these assets.*

** Assets working in double shift and triple shift any time during the year, the depreciation has been increased by 50% and 100%, respectively.*

Leasehold improvements are depreciated over the useful life of individual assets or period of lease, whichever is lower.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, we believe that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

***Capital work-in-progress***

The cost of property, plant and equipment not ready for their intended use is recorded as capital work-in-progress before such date. Cost of construction that relate directly to specific property, plant and equipment and that are attributable to construction activity in general and can be allocated to specific property, plant and equipment are included in capital work-in-progress.

***Intangible assets***

Recognition and initial measurement

Intangible assets represent computer software and trademarks. Intangible assets are stated at acquisition cost less accumulated amortization and impairment loss, if any. The cost of intangible asset comprises its purchase price, including any import duties and non-refundable taxes or levies and any directly attributable expenditure on making the asset ready for its intended use. Intangible assets are amortised in the statement of profit and loss on a straight-line basis in accordance with the estimated useful lives of respective assets. The management's estimates of the rate of amortisation of intangible assets are as follows:

| Asset category | Life (in years) |
|---|---|
| Software | 5 years |
| Trademarks | 10 years |
| Brand | 3.33 years |
| Other than Brand and Goodwill | Indefinite* |
| Non- Compete | As per agreement |

** Brand and Goodwill are evaluated annually for impairment and adjusted if required.*

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

Amortisation

Amortisation expense is charged on a pro-rata basis for assets purchased during the year. Amortisation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

***Inventories***

Inventories which comprise of finished goods, traded goods, raw material, consumables, tools and stores and spares are carried at the lower of cost and net realisable value.

Cost of inventories comprises all costs of purchase and other expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition.

The methods of determination of cost of various categories of inventories are as follows:

| Particulars | Basis of Valuation |
|---|---|
| Raw Material | Weighted average cost except for certain raw materials including prescription lenses and frames which are carried at actual cost. |
| Consumables, tools and stores and spares | Weighted average cost |
| Traded goods | Actual cost |
| Work in progress | Weighted average cost |

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realisable value.

The comparison of cost and net realisable value is made on item by item basis.

***Financial instruments***

Recognition and initial measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

Trade receivables are initially recognised at transaction value. All other financial assets and financial liabilities are initially recognised when we become a party to the contractual provisions of the instrument.

Classification and subsequent measurement

*Financial assets*

We classify our financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period, we change our business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and

the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, we may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

*Financial assets: Business model assessment*

We make an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to our management. The information considered includes:

the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;

how the performance of the portfolio is evaluated and reported to our management;

the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;

how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or

the contractual cash flows collected; and

the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with our continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

*Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest*

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, we consider the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, we consider:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit our claim to cash flows from specified assets (e.g. non-recourse features).

*Financial assets: Subsequent measurement and gains and losses*

*Financial assets at FVTPL*: These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

*Financial assets at amortised cost*: These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

*Financial liabilities: Classification, subsequent measurement and gains and losses*

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Derecognition

A financial asset is derecognised only when:

we have transferred the rights to receive cash flows from the financial asset; or

retains the contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where we have transferred an asset, we evaluate whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised.

Where we have not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where we have neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if we have not retained control of the financial asset. Where we retain control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

We derecognise a financial liability when its contractual obligations are discharged or cancelled or expire. We also derecognise a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

Offsetting

Financial assets and financial liabilities are offset, and the net amount presented in the balance sheet when, and only when, we currently have a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Impairment of financial assets

We recognise loss allowances for expected credit losses on financial assets measured at amortised cost. At each reporting date, we assess whether financial assets carried at amortised cost are credit- impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer; or
- a breach of contract such as a default or being past due.

We measure loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.
- Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which we are exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, we consider reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on our historical experience and informed credit assessment and including forward-looking information.

*Measurement of expected credit losses*

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to us in accordance with the contract and the cash flows that we expect to receive).

We follow 'simplified approach' for recognition of impairment loss allowance on trade receivable. Under the simplified approach, we do not track changes in credit risk for individual customers. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from initial recognition.

We use a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on our historically observed default rates and delays in realisations over the expected life of the trade receivable and is adjusted for forward looking estimates. At every balance sheet date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

*Presentation of allowance for expected credit losses in the balance sheet*

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

*Write-off*

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery, and the amount of the loss is recognised in the Statement of Profit and Loss within other expenses. This is generally the case when we determine that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with our procedures for recovery of amounts due.

Impairment of assets

Assessment is done at each Balance Sheet date as to whether there is any indication that an asset (PPE and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount

is higher of an asset's or cash generating unit's fair value less cost of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

Assessment is also done at each statement of assets and liabilities date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

***Cash and cash equivalents***

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand, demand deposits with banks with an original maturity of three months or less and short-term highly liquid investments that are readily convertible into known amount of cash and are subject to an insignificant risk of change in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, net of defined above, net of outstanding bank overdrafts as they are considered an integral part of our cash management.

***Provisions (other than employee benefits)***

A provision is recognized if, as a result of a past event, we have a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the legal or contractual obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for:

*Contingencies*: Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within our control or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle, or a reliable estimate of the amount cannot be made.

***Revenue recognition***

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer, at an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services. We have generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

a) Revenue from the sale of products is recognized upfront at the point in time when the product is delivered to the customer. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

b) Revenue from services is recognized in accordance with the terms of contract when the services are rendered, and the related costs are incurred, and the balance amount is recognised as deferred revenue.

c) Revenue from membership fees is recognised over the period of membership.

Contract balances

*Trade receivables*: A receivable represents our right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in financial instrument - initial recognition and subsequent measurement.

*Contract liabilities*: A contract liability is the obligation to transfer goods or services to a customer for which we have received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before we transfer goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when we perform under the contract.

***Government grants***

Government grants are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received, and we will comply with the conditions associated with the grant; they are then recognised in profit or loss as other operating revenue on a systematic basis. Grants related to the acquisition of assets are recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate us for expenses incurred are recognised in profit or loss as other operating revenue on a systematic basis in the periods in which such expenses are recognised.

***Employee benefits***

Our obligation towards various employee benefits has been recognised as follows:

Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term cash bonus, if we have a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

Share based payment transactions

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and nonmarket vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes. If the entity elects to settle in cash, the cash payment shall be accounted for as the repurchase of an equity interest, i.e. as a deduction from equity.

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. We make specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. Our net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. We determine the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service (‘past service cost’ or ‘past service gain’) or the gain or loss on curtailment is recognised immediately in profit or loss. We recognise gains and losses on the settlement of a defined benefit plan when the settlement occurs.

We treat accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer the settlement for at least twelve months after the reporting date.

Other long-term employee benefits

Our net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Remeasurements gains or losses are recognised in profit or loss in the period in which they arise.

Termination benefits

Termination benefits are expensed at the earlier of when we can no longer withdraw the offer of those benefits and when we recognize costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then

they are discounted.

***Foreign currency***

Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of our Companies at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in profit or loss.

Foreign operations

The assets and liabilities of foreign operations of its subsidiary, are translated into INR, the functional currency of the Holding Company, at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into INR at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Foreign currency translation differences are recognised in OCI and accumulated in equity (as exchange differences on translating the financial statements of a foreign operation), except to the extent that the exchange differences are allocated to NCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.

***Leases***

We assess at contract inception whether a contract is or contains a lease. That is if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration.

Group as a lessee

We apply a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. We recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

*Right of use asset*

We recognise right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

*Lease Liabilities*

At the commencement date of the lease, We recognise lease liabilities measured at the present value of the lease payment to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by us and payments of penalties for terminating the lease, if the lease term reflects us exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, we use its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

*Short-term leases and leases of low value assets*

We apply the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

*Company as a lessor*

At inception or on modification of a contract that contains a lease component, our Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When our Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, our Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, our Company considers certain indicators such as whether the lease is for a major part of the economic life of the asset.

When our Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which our Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, then our Company applies Ind AS 115 to allocate the consideration in the contract.

Our Company applies the derecognition and impairment requirements in Ind AS 109 to the net investment in the lease. Our Company further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.

Our Company recognised lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

***Income tax***

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that :at the time of transaction that neither affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.

- temporary differences related to investments in subsidiaries to the extent that our Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future;

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, we recognise a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which we expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they

intend to settle current tax liabilities and assets on a net basis, or their tax assets and liabilities will be realised simultaneously.

***Borrowing cost***

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Borrowing costs consist of interest and other costs that we incur in connection with the borrowing of funds (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs).

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

All other borrowing costs are expensed in the period in which they occur.

***Earnings per share***

*Basic Earnings per share*

Basic earnings/(loss) per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

*Diluted Earnings per share*

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless they have been issued at a later date.

***Segment Reporting***

An operating segment is a component that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the other components, and for which discrete financial information is available. Our Company is engaged into designing, manufacturing, branding, and retailing of own-branded eyewear products. We sells prescription eyeglasses, sunglasses, and other products including contact lenses and eyewear accessories, which has been defined as one business segment. Accordingly, our activities/business are reviewed regularly by our Board of Director's from an overall business perspective, rather than reviewing its products/services as individual standalone components.

***Investment Property***

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by us is classified as investment property.

Investment property also includes property that is being constructed or developed for future use as investment property.

Initial measurement

Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Investment property that is obtained through a lease is measured initially at the lease liability amount adjusted for any lease payments made at or before the commencement date (less any lease incentives received), any initial direct costs incurred by us, and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Though we measure investment property using cost based measurement, the fair value of investment property is disclosed in the notes to the Restated Consolidated Financial Information.

Subsequent measurement (depreciation and useful lives)

Depreciation on investment properties comprising right-of-use held for sublease is provided on straight-line basis over the period of lease and other tangible assets as per the policy defined for same class of assets under property, plant and equipment. The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

Where during any financial year, any addition has been made to any asset, or where any asset has been sold, discarded,

demolished or destroyed, or significant components replaced; depreciation on such assets is calculated on a pro rata basis as individual assets with specific useful life from the month of such addition or, as the case may be, up to the month on which such asset has been sold, discarded, demolished or destroyed or replaced.

De-recognition

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of de-recognition.

***Business Combination***

Dividend income is recognised in profit or loss on the date on which our Company's right to receive payment is established. Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

**Recognition of dividend income, interest income or expense**

Dividend income is recognised in profit or loss on the date on which our Company's right to receive payment is established. Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

**Key Components of our Restated Consolidated Statement of Profit and Loss**

The key components of our Restated Consolidated Statement of Profit and Loss are described below:

***Income***

Income consists of (i) revenue from operations; and (ii) other income.

*Revenue from operations*. Revenue from operations comprises (i) revenue from sale of goods; (ii) revenue from sale of services; and (iii) other operating revenue. Revenue from the sale of goods comprises revenue from the sale of prescription eyewear, sunglasses, contact lenses and accessories. Revenue from sale of services comprises fees received from memberships, training, services and home eye check-ups. Other operating revenues primarily comprise lease income, customer support fees, sale of scrap and website licence fee.

The following table sets forth a breakdown of our segment total revenue as per Ind AS 108 (India and International) and revenue from operations, for the three months ended June 30, 2025 and June 30, 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | Financial Year | | |
|---|---|---|---|---|---|
| | 2025** | 2024 | 2025** | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| India Segment Total Revenue as per Ind AS 108 | 11,691.84 | 9,369.44 | 40,604.66 | 32,062.08 | 23,920.49 |
| India Segment Total Revenue as per Ind AS 108 Growth | 24.79% | NA* | 26.64% | 34.04% | NA* |

| Particulars | For the three months ended June 30, | | Financial Year | | |
|---|---|---|---|---|---|
| | 2025** | 2024 | 2025** | 2024 | 2023 |
| | *(₹ in million, unless otherwise stated)* | | | | |
| (%) | | | | | |

** Growth percentages for the three months ended June 30, 2024 and the Financial Year 2023 are not presented due to the non-inclusion of information for the three months ended June 30, 2023 and the Financial Year 2022, respectively, in this Red Herring Prospectus.*

*** Dealskart was acquired on December 31, 2024, following which Dealskart became a wholly owned subsidiary of the Company*

Our international segment revenue is mainly attributable to the sale of our products and services in Asia, the Middle East and other countries in which we offer our products.

Other income. Other income comprises interest income (which includes interest on fixed deposits, financial assets carried at amortised cost, income tax refund and others), gains on redemption/fair valuation of mutual fund units, gain on sale/fair value change of non-current investments carried at fair value through profit or loss (net), grant income, management support service fee, duty drawback, gain on termination of lease, rent concession and miscellaneous income. Other income also consists of foreign exchange gains and losses which comprises realized as well as translation effects of income, given our global operations across 14 countries.

***Expenses***

Expenses consist of cost of materials consumed, purchase of stock-in-trade, changes in inventory of traded goods, employee benefits expense, finance costs, depreciation and amortisation expense and other expenses.

*Cost of materials consumed*. Cost of material consumed comprise our costs of raw materials, consumables and tools consumed during the year and translation differences.

*Purchases of stock-in-trade*. Purchases of stock-in-trade relates to costs incurred for the purchase of traded goods.

*Changes in inventory of traded and finished goods*. Changes in inventory of traded and finished goods comprises net increases or decreases in stock of traded and finished goods.

Cost of materials consumed, purchases of stock-in-trade and changes in inventory of traded and finished goods have been discussed in a consolidated manner below, as "**Materials Cost**".

*Employee benefits expense*. Employee benefits expense comprises salaries, wages and bonus, contribution to provident and other funds, gratuity, share based payments to employees and staff welfare.

*Finance costs*. Finance costs comprise interest expenses on long term borrowings, cash credit and short-term borrowings, lease liabilities and MSME payables.

*Depreciation and amortisation expense*. Depreciation and amortisation expense comprises depreciation of property, plant and equipment, depreciation of investment property, amortization of intangible assets and amortization and impairment of right of use assets.

*Other expenses*. The largest components of other expenses are commission and incentive expense, marketing and promotion expenses, information technology support expenses and rent expenses.

Other components of other expenses include postage and courier expenses, contractual labour, professional fees, payment and collection charges, travel and conveyance expenses, marketplace fee, electricity and water expenses, repair and maintenance - others, consumption of store and spares expenses, foreign exchange loss (net), communication expenses, staff recruitment and training expenses, office maintenance and security expenses, miscellaneous expenses, provision for warranty expenses, rates and taxes expenses, insurance expenses, loss on sale of property, plant and equipment expenses, printing and stationary expenses, loss on sale /fair value investments carried at fair value through profit or loss (net), bank charges, and loss allowance for doubtful debt and advances and trade receivables.

***Share of (loss) of associates and joint ventures***

Share of (loss) of associates and joint ventures represents our share of loss in Tango IT Solutions India Private Limited, Baofeng Framekart Technology Limited, QuantDuo Technologies Private Limited, Visionsure Services Private Limited and Le Petit Lunetier.

***Tax expense***

Tax expense consists of current tax, income tax (credit)/charge relating to previous year, and deferred tax charge / (credit).

**Our Results of Operations**

Set out below is select financial information for the three months ended June 30, 2025 and June 30, 2024, and the Financial Years 2025, 2024 and 2023, the components of which are also expressed as a percentage of our total income for such periods and years:

| Particulars | For the three months ended June 30, | | | |

***Three months ended June 30, 2025 compared to three months ended June 30, 2024***

*Total income*: Total income increased by 24.45% to ₹19,461.01 million for the three months ended June 30, 2025 from ₹15,637.49 million for the three months ended June 30, 2024 primarily due to an increase in revenue from operations.

Revenue from operations: Revenue from operations increased by 24.60% to ₹18,944.55 million for the three months ended June 30, 2025 from ₹15,204.26 million for the three months ended June 30, 2024 primarily due to:

- increase in revenue from operations from sales of goods by 26.93% to ₹18,221.82 million for the three months ended June 30, 2025 from ₹14,356.04 million for the three months ended June 30, 2024. This increase was primarily due to:

    - **India**: our revenue growth was driven by an increase in the demand for our eyewear products across our omnichannel network. Our quarterly transacting customer accounts increased by 34.09% from 2.78 million customer accounts during three months ended June 30, 2024 to 3.73 million quarterly transacting customer accounts during three months ended June 30, 2025. The number of eyewear units sold has also increased by 25.85% from 5.34 million during three months ended June 30, 2024 to 6.72 million during three months ended June 30, 2025. We added 70 stores during the three months ended June 30, 2025; and

    - **International**: our revenue growth was driven primarily by an increase in demand for our eyewear products across our omnichannel network across international locations. Our quarterly transacting customer accounts increased by 11.46% from 0.63 million customer accounts during the three months ended June 30, 2024 to 0.70 million customer accounts during the three months ended June 30, 2025. The number of eyewear units sold has increased by 11.94% from 1.01 million during three months ended June 30, 2024 to 1.13 million during three months ended June 30, 2025. We added 13 new stores in the three months ended June 30, 2025; and

- increase in revenue from operations from sales of services by 97.98% to ₹673.84 million for the three months ended June 30, 2025 from ₹340.36 million for the three months ended June 30, 2024. The increase was primarily attributable to an increase in sale of membership fees on account of an increase in our Lenskart Gold memberships (including 'Gold', 'Gold Pro', and 'Gold Pro Max') to 7.12 million members as of June 30, 2025 from 6.28 million members as of June 30, 2024.

- increase in other operating revenue due to increase in others which includes customer support fees, sales of scrap and website licence fees aggregating by 106.29% to ₹48.89 million for the three months ended June 30, 2025 from ₹23.70 million for the three months ended June 30, 2024 and decrease in lease income by 100% to Nil for the three months ended June 30, 2025 from ₹484.16 million for the three months ended June 30, 2024 due to acquisition of Dealskart. See also "***Our Business – Recent Developments – The Dealskart Acquisition***" on page 320.

Other income: Other income increased by 19.21% to ₹516.46 million for the three months ended June 30, 2025 from ₹433.23 million for the three months ended June 30, 2024.

*Total expenses*: Total expenses increased by 17.68% to ₹18,365.80 million for the three months ended June 30, 2025 from ₹15,606.22 million for the three months ended June 30, 2024, due to increases in cost of materials consumed, changes in inventories of traded goods, purchase of stock-in-trade, employee benefits expense, depreciation and amortisation expense, finance costs, and other expenses.

Material Cost: Our Material Cost increased due to increase in cost of raw materials and components consumed by 29.72% to ₹5,123.32 million for the three months ended June 30, 2025 from ₹3,949.56 million for the three months ended June 30, 2024, increase in purchase of stock in trade by 14.83% to ₹1,006.45 million for the three months ended June 30, 2025 from ₹876.45 million for the three months ended June 30, 2024, and decrease in changes in inventory of traded and finished goods by

(239.74)% to ₹(89.42) million for the three months ended June 30, 2025 from ₹(26.32) million for the three months ended June 30, 2024. The changes in cost of raw materials and components consumed was consistent with the increase in revenue from sales of our products and services within and outside India. Our product margin % decreased marginally to 68.12% in the three months ended June 30, 2025 from 68.43% in the three months ended June 30, 2024.

Employee benefits expense: Employee benefits expense increased by 58.53% to ₹4,655.98 million for the three months ended June 30, 2025 from ₹2,937.02 million for the three months ended June 30, 2024. In our India segment, as disclosed in segment disclosure as per Ind AS 108, employee benefits expense increased by 125.67% to ₹2,064.98 million in the three months ended June 30, 2025 from ₹915.04 million in the three months ended June 30, 2024, partially driven by the acquisition of Dealskart, while in our International segment, as disclosed in segment disclosure as per Ind AS 108, our employee benefits expense increased by 28.14% to ₹2,591.00 million in the three months ended June 30, 2025 from ₹2,021.98 million in the three months ended June 30, 2024.

The increases were primarily due to increases in (i) salaries, wages and bonus by 59.64% to ₹4,294.05 million for the three months ended June 30, 2025 from ₹2,689.81 million for the three months ended June 30, 2024; (ii) contribution to provident and other funds by 65.72% to ₹217.84 million for the three months ended June 30, 2025 from ₹131.45 million for the three months ended June 30, 2024; (iii) staff welfare expenses by 51.25% to ₹111.76 million for the three months ended June 30, 2025 from ₹73.89 million for the three months ended June 30, 2024; and (iv) gratuity expenses by 75.74% to ₹20.21 million for the three months ended June 30, 2025 from ₹11.50 million for the three months ended June 30, 2024, which was partially offset by a decrease in share based payments to employees by 60.09% to ₹12.12 million for the three months ended June 30, 2025 from ₹30.37 million for the three months ended June 30, 2024. The increases were primarily attributable to annual employee compensation increments and an increase in our employee headcount. Our employee headcount stands at 18,173 as of June 30, 2025.

Depreciation and amortisation expense: Depreciation and amortisation expense increased by 27.22% to ₹2,371.31 million for the three months ended June 30, 2025 from ₹1,863.98 million for the three months ended June 30, 2024. This increase in depreciation and amortisation expense was attributable to increases in (i) depreciation of right-of-use assets by 79.09% to ₹1,594.95 million for the three months ended June 30, 2025 from ₹890.59 million for the three months ended June 30, 2024, primarily due to the opening of new stores during the three months ended June 30, 2025; (ii) depreciation of property, plant and equipment by 73.44% to ₹738.33 million for the three months ended June 30, 2025 from ₹425.69 million for the three months ended June 30, 2024, due to additions to property, plant and equipment of ₹923.37 million during the three months ended June 30, 2025, partially offset by decreases in (i) amortization of intangible assets by 74.86% to ₹38.03 million for the three months ended June 30, 2025 from ₹151.30 million for the three months ended June 30, 2024, and (ii) depreciation of investment property to nil for the three months ended June 30, 2025 from ₹396.40 million for the three months ended June 30, 2024, due to acquisition of Dealskart.

Finance costs: Finance costs increased by 8.82% to ₹410.38 million for the three months ended June 30, 2025 from ₹377.12 million for the three months ended June 30, 2024. This increase in finance costs was attributable to increases in interest on lease liabilities by 29.74% to ₹373.10 million for the three months ended June 30, 2025 from ₹287.57 million for the three months ended June 30, 2024, primarily on account of the opening of new stores during the three months ended June 30, 2025, partially offset by decreases in (i) interest on long term borrowings by 25.82% to ₹17.12 million for the three months ended June 30, 2025 from ₹23.08 million for the three months ended June 30, 2024; (ii) asset retirement obligation by 70.50% to ₹16.24 million for the three months ended June 30, 2025 from ₹55.06 million for the three months ended June 30, 2024; and (iii) interest on others by 65.82% to ₹3.90 million for the three months ended June 30, 2025 from ₹11.41 million for the three months ended June 30, 2024.

Other expenses: Other expenses decreased by 13.16% to ₹4,887.78 million for the three months ended June 30, 2025 from ₹5,628.41 million for the three months ended June 30, 2024. Marketing and promotion expenses, which were the largest component of our other expenses, increased by 16.97% to ₹1,276.24 million for the three months ended June 30, 2025 from ₹1,091.12 million for the three months ended June 30, 2024, primarily on account of an increase in marketing and promotional activities. Other key components of our other expenses that changed were (i) rent expenses, increased by 55.49% to ₹436.48 million for the three months ended June 30, 2025 from ₹280.72 million for the three months ended June 30, 2024, primarily on account of increased rental expenditure such as variable rent, common area charges and common area maintenance associated with the opening of new stores during the three months ended June 30, 2025; (ii) commission & incentive expenses, decreased by 81.71% to ₹422.63 million for the three months ended June 30, 2025 from ₹2,310.33 million for the three months ended June 30, 2024, primarily on account of decreased on commission and incentives on sales paid to franchisees, attributable to a decreased number of franchisee operated and franchisee owned stores (FoFo), as compared to total number of stores, aided by the acquisition of Dealskart; (iii) postage and courier expenses, increased by 76.46% to ₹413.32 million for the three months ended June 30, 2025 from ₹234.23 million for the three months ended June 30, 2024; (iv) marketplace fee, decreased by 83.98% to ₹18.30 million for the three months ended June 30, 2025 from ₹114.21 million for the three months ended June 30, 2024; and (v) provision for warranty, decreased by 59.98%, to ₹11.63 million for the three months ended June 30, 2025 from ₹28.99 million for the three months ended June 30, 2024.

*Share of profit/(loss) of associates and joint ventures, net of tax*: Share of profit/(loss) of associates or joint ventures, net of tax increased to ₹5.84 million in three months ended June 30, 2025 from ₹(4.95) million in three months ended June 30, 2024.

*Exceptional Item*: Exceptional item increased to ₹103.86 million in three months ended June 30, 2025 from nil in three months ended June 30, 2024, due to our Company entering into a binding agreement to acquire an additional 79.04% equity stake in Quantduo on June 3, 2025 for ₹113.00 million, raising its effective stake to 96.15%, and to make Quantduo a wholly owned subsidiary of our Company. Following this acquisition, a fair value assessment revealed that the existing investment in

Quantduo was impaired. As a result, an impairment loss of ₹103.86 million was recognized in our consolidated financial statements for the three months ended June 30, 2025.

*Total tax expenses/(credit)*: Total tax expenses increased to ₹385.46 million for the three months ended June 30, 2025 from ₹135.89 million for the three months ended June 30, 2024, primarily due to higher profits earned during the period. For the three months ended June 30, 2025, we had a current tax expense of ₹497.79 million and a deferred tax credit of ₹112.33 million. For the three months ended June 30, 2024, we had a current tax expense of ₹202.84 million, and a deferred tax credit of ₹66.95 million.

*Restated profit/(loss) for the period*: As a result of the foregoing, we reported a restated profit for the period of ₹611.73 million for the three months ended June 30, 2025, compared to a restated loss for the period of ₹109.57 million for the three months ended June 30, 2024.

***Financial Year 2025 compared to Financial Year 2024***

We acquired Dealskart on December 31, 2024 and hence our results of operations for the Financial Year 2025 consolidated Dealskart's results of operations for approximately three months.

*Total income*: Total income increased by 24.95% to ₹70,092.76 million for the Financial Year 2025 from ₹56,098.72 million for the Financial Year 2024 primarily due to an increase in revenue from operations.

Revenue from operations: Revenue from operations increased by 22.57% to ₹66,525.17 million for the Financial Year 2025 from ₹54,277.03 million for the Financial Year 2024 primarily due to:

- increase in revenue from operations from sales of goods by 23.10% to ₹63,599.39 million for the Financial Year 2025 from ₹51,662.99 million for the Financial Year 2024. This increase was primarily due to:

    - **India**: our revenue growth was driven by an increase in the demand for our eyewear products across our omnichannel network. Our annual transacting customer accounts increased by 23.33% from 8.06 million customer accounts during Financial Year 2024 to 9.94 million annual transacting customer accounts during Financial Year 2025. The number of eyewear units sold has also increased by 29.80% from 17.65 million during Financial Year 2024 to 22.91 million during Financial Year 2025. We added 282 stores during the Financial Year 2025; and

    - **International**: our revenue growth was driven primarily by an increase in demand for our eyewear products across our omnichannel network across international locations. Our annual transacting customer accounts increased by 15.73% from 2.14 million customer accounts during the Financial Year 2024 to 2.47 million customer accounts during the Financial Year 2025. The number of eyewear units sold has increased by 19.99% from 3.58 million during Financial Year 2024 to 4.29 million during Financial Year 2025. We added 52 new stores in the Financial Year 2025.

- increase in revenue from operations from sales of services by 26.95% to ₹1,327.43 million for the Financial Year 2025 from ₹1,045.65 million for the Financial Year 2024. The increase was primarily attributable to an increase in sale of membership fees on account of an increase in our Lenskart Gold memberships (including 'Gold', 'Gold Pro', and 'Gold Pro Max') to 6.77 million members as of March 31, 2025 from 5.82 million members as of March 31, 2024; and

- increase in other operating revenue due to increase in others which includes customer support fees, sales of scrap and website licence fees aggregating by 57.75% to ₹165.72 million for the Financial Year 2025 from ₹105.05 million for the Financial Year 2024 and decrease in lease income by 2.10% to ₹1,432.63 million for the Financial Year 2025 from ₹1,463.34 million for the Financial Year 2024. We acquired Dealskart on December 31, 2024, following which Dealskart became a wholly owned subsidiary of our Company. Following the completion of this acquisition, all store leases were restructured as follows: (i) leases held by our Company (including those which were sub-leased to Dealskart, and these sub-leases were subsequently terminated as a part of the above transition) remained unchanged; (ii) store leases held by Dealskart directly were novated to our Company; and (iii) a limited number of store leases continue to remain with Dealskart, for which Dealskart continues to pay rent and is reimbursed by our Company under a cost-sharing arrangement. For CoCo stores in India, store-level manpower and services continue to be provided by Dealskart, our wholly owned subsidiary, under an operations and maintenance agreement (with effect from January 2025), while we now manage all retail and fulfillment activities under a single, consolidated brand.

Other income: Other income increased by 95.84% to ₹3,567.59 million for the Financial Year 2025 from ₹1,821.69 million for the Financial Year 2024, primarily due to (i) a significant increase in FVTPL gain on deferred consideration to ₹1,671.98 million for the Financial Year 2025 from nil for the Financial Year 2024, due to one-time benefit from FVTPL gain on deferred consideration for the acquisition of shares of Owndays; and (ii) an increase in gain on redemption/fair valuation of mutual fund units to ₹726.59 million for the Financial Year 2025 from ₹641.43 million for the Financial Year 2024, which was partially offset by a decrease in interest income on financial assets measured at amortised cost – on fixed deposits of ₹576.29 million for the Financial Year 2025 from ₹820.39 million for the Financial Year 2024, due to redemption of fixed deposits as part of our regular treasury operations.

*Total expenses*: Total expenses increased by 19.28% to ₹66,194.78 million for the Financial Year 2025 from ₹55,495.94 million for the Financial Year 2024, due to increases in cost of materials consumed, changes in inventories of traded goods, purchase

of stock-in-trade, employee benefits expense, depreciation and amortisation expense, finance costs, and other expenses.

Material Cost: Our Material Cost increased due to increase in cost of raw materials and components consumed by 18.71% to ₹17,603.27 million for the Financial Year 2025 from ₹14,829.42 million for the Financial Year 2024, increase in purchase of stock in trade by 31.66% to ₹4,573.45 million for the Financial Year 2025 from ₹3,473.70 million for the Financial Year 2024, and increase in changes in inventory of traded and finished goods by 53.71% to ₹(832.68) million for the Financial Year 2025 from ₹(541.72) million for the Financial Year 2024. The changes in cost of raw materials and components consumed was consistent with the increase in revenue from sales of our products and services within and outside India. We also had an improvement in product margin % to 67.92% in the Financial Year 2025 from 67.28% in the Financial Year 2024, primarily due to integrated procurement operations and increase in in-house frame manufacturing of lenses and frames.

Employee benefits expense: Employee benefits expense increased by 26.90% to ₹13,787.54 million for the Financial Year 2025 from ₹10,864.91 million for the Financial Year 2024. In our India segment, as disclosed in segment disclosure as per Ind AS 108, employee benefits expense increased by 45.79% to ₹5,026.37 million in the Financial Year 2025 from ₹3,447.57 million in the Financial Year 2024, partially driven by the acquisition of Dealskart on December 31, 2024 while in our International segment, as disclosed in segment disclosure as per Ind AS 108, our employee benefits expense increased by 18.12% to ₹8,761.17 million in the Financial Year 2025 from ₹7,417.34 million in the Financial Year 2024.

The increases were primarily due to increases in (i) salaries, wages and bonus by 27.09% to ₹12,628.04 million for the Financial Year 2025 from ₹9,936.03 million for the Financial Year 2024; (ii) contribution to provident and other funds by 25.22% to ₹616.35 million for the Financial Year 2025 from ₹492.22 million for the Financial Year 2024; (iii) staff welfare expenses by 16.00% to ₹388.65 million for the Financial Year 2025 from ₹335.04 million for the Financial Year 2024; (iv) share based payments to employees by 39.64% to ₹88.95 million for the Financial Year 2025 from ₹63.70 million for the Financial Year 2024; and (v) gratuity expenses by 72.86% to ₹65.55 million for the Financial Year 2025 from ₹37.92 million for the Financial Year 2024. These increases were primarily attributable to annual employee compensation increments and an increase in our employee headcount. Our employee headcount stands at 17,607 as of March 31, 2025.

Depreciation and amortisation expense: Depreciation and amortisation expense increased by 18.49% to ₹7,965.69 million for the Financial Year 2025 from ₹6,722.40 million for the Financial Year 2024. This increase in depreciation and amortisation expense was attributable to increases in (i) depreciation of right-of-use assets by 28.46% to ₹4,371.82 million for the Financial Year 2025 from ₹3,403.32 million for the Financial Year 2024, primarily due to the opening of new stores during the Financial Year 2025; (ii) depreciation of property, plant and equipment by 34.36% to ₹2,041.34 million for the Financial Year 2025 from ₹1,519.25 million for the Financial Year 2024, due to additions to property, plant and equipment of ₹3,112.35 million during the Financial Year 2025; (iii) depreciation on investment property by 7.77% to ₹1,292.62 million for the Financial Year 2025 from ₹1,199.43 million for the Financial Year 2024, partially offset by a decrease in amortization of intangible assets by 56.71% to ₹259.91 million for the Financial Year 2025 from ₹600.40 million for the Financial Year 2024.

Finance costs: Finance costs increased by 18.62% to ₹1,458.90 million for the Financial Year 2025 from ₹1,229.89 million for the Financial Year 2024. This increase in finance costs was attributable to increases in (i) interest on lease liabilities by 40.43% to ₹1,245.67 million for the Financial Year 2025 from ₹887.04 million for the Financial Year 2024, primarily on account of the opening of new stores during the Financial Year 2025; and (ii) other interest to ₹17.36 million for the Financial Year 2025 from ₹3.43 million for the Financial Year 2024, which was partially offset by decreases in (a) interest on long term borrowings by 62.39% to ₹120.89 million for the Financial Year 2025 from ₹321.47 million for the Financial Year 2024, primarily on account of the repayment of term-loan facilities during the previous Financial Year, leading to reduced interest expense in the Financial Year 2025; and (b) interest on cash credit and short term borrowings by 19.28% to ₹14.49 million for the Financial Year 2025 from ₹17.95 million for the Financial Year 2024.

Other expenses: Other expenses increased by 14.39% to ₹21,638.61 million for the Financial Year 2025 from ₹18,917.34 million for the Financial Year 2024. Commission and incentive expenses, which were the largest component of our other expenses, decreased by 3.72% to ₹7,331.63 million for the Financial Year 2025 from ₹7,614.68 million for the Financial Year 2024, primarily on account of decreased commissions and incentives on sales paid to franchisees, attributable to reduced number of franchisee-operated and franchisee-owned stores (FoFo), as compared to total number of stores, aided by the acquisition of Dealskart. Other key components of our other expenses that increased were (i) marketing and promotion expenses by 27.35% to ₹4,484.13 million for the Financial Year 2025 from ₹3,521.06 million for the Financial Year 2024, primarily on account of increase in marketing and promotional activities; (ii) rent expenses by 29.32% to ₹1,397.71 million for the Financial Year 2025 from ₹1,080.83 million for the Financial Year 2024, primarily on account of increased rental expenditure such as variable rent, common area charges and common area maintenance associated with the opening of new stores during the Financial Year 2025; (iii) information technology support expenses by 8.16% to ₹1,107.02 million for the Financial Year 2025 from ₹1,023.47 million for the Financial Year 2024; (iv) postage and courier expenses by 59.75% to ₹1,272.22 million for the Financial Year 2025 from ₹796.39 million for the Financial Year 2024, primarily on account of increase in direct shipments to customers and expansion in the number of cities catered to as well as initiatives such as next day delivery; (v) contractual labour by 28.35% to ₹895.10 million for the Financial Year 2025 from ₹697.37 million for the Financial Year 2024; and (vi) professional fees by 50.01%, to ₹979.00 million for the Financial Year 2025 from ₹652.63 million for the Financial Year 2024.

*Share of (loss) of associates and joint ventures, net of tax*. Share of (loss) of associates or joint ventures, net of tax increased to ₹44.42 million in Financial Year 2025 from ₹12.47 million in Financial Year 2024.

*Total tax expenses/(credit)*: Total tax expenses increased by 27.22% to ₹880.16 million for the Financial Year 2025 from ₹691.85 million for the Financial Year 2024, primarily due to higher profits earned during the year. For the Financial Year 2025, we had a current tax expense of ₹1,023.64 million and a deferred tax credit of ₹143.48 million. For the Financial Year

2024, we had a current tax expense of ₹593.22 million, income tax credit relating to the previous year of ₹26.04 million and a deferred tax charge of ₹124.67 million.

*Restated profit/(loss) for the year*: As a result of the foregoing, we reported a restated profit for the year of ₹2,973.40 million for the Financial Year 2025, compared to a restated loss for the year of ₹101.54 million for the Financial Year 2024.

***Financial Year 2024 compared to Financial Year 2023***

We acquired Owndays on August 10, 2022 and hence our results of operations for the Financial Year 2023 consolidated Owndays' results of operations for approximately eight months.

*Total income*: Total income increased by 42.82% to ₹56,098.72 million for the Financial Year 2024 from ₹39,279.74 million for the Financial Year 2023 primarily due to an increase in revenue from operations.

Revenue from operations: Revenue from operations increased by 43.29% to ₹54,277.03 million for the Financial Year 2024 from ₹37,880.28 million for the Financial Year 2023 primarily due to:

- an increase in Revenue from operation from sale of goods by 43.12% to ₹51,662.99 million for the Financial Year 2024 from ₹36,098.18 million for the Financial Year 2023. This increase was primarily due to:

  - **India**: growth was driven by an increase in the demand for our eyewear products across our omnichannel network in India. Our annual transacting customer accounts increased by 28.14% from 6.29 million customer accounts during the Financial Year 2023 to 8.06 million customer accounts during the Financial Year 2024. The number of eyewear units sold has increased by 28.91% from 13.69 million during Financial Year 2023 to 17.65 million during Financial Year 2024. We added 369 new stores during the Financial Year 2024;

  - **International**: growth was driven by an increase in demand for our eyewear products across our omnichannel network across international locations. During this year, the number of stores increased by 61. Further, our annual transacting customer accounts increased by 50.67% from 1.41 million customer accounts during the Financial Year 2023 to 2.14 million customer accounts during the Financial Year 2024. This was accompanied by our expansion into the Kingdom of Saudi Arabia leading to higher sales volumes. The number of eyewear units sold has increased by 58.65% from 2.26 million during Financial Year 2023 to 3.58 million during Financial Year 2024. We added 61 new stores during Financial Year 2024; and

- Our acquisition of Owndays on August 10, 2022, and our results of operations for the Financial Year 2023 reflects the sales attributable to Owndays since the acquisition, with sales being consolidated for a period of approximately eight months during the Financial Year 2023 and the full year for the Financial Year 2024.

- an increase in Revenue from operations from sales of services by 26.37% to ₹1,045.65 million for the Financial Year 2024 from ₹827.48 million for the Financial Year 2023. This increase was primarily attributable to increases in membership fees on account of an increase in our Lenskart Gold memberships to 5.82 million members as of March 31, 2024 from 3.41 million members as of March 31, 2023; and

- an increase in other operating revenue due to an increase in lease income by 70.03% to ₹1,463.34 million for the Financial year 2024 from ₹860.63 million for the Financial Year 2023, and an increase in Others (which include customer support fees, sales of scrap and website licence fees) by 11.77% to ₹105.05 million for the Financial year 2024 from ₹93.99 million for the Financial Year 2023.

Other income: Other income increased by 30.17% to ₹1,821.69 million for the Financial Year 2024 from ₹1,399.46 million for the Financial Year 2023. This increase was primarily attributable to increase in other non-operating income by 35.62% to ₹970.83 million for the Financial Year 2024 from ₹715.82 million for the Financial Year 2023, increase in interest income on fixed deposits by 24.40% to ₹820.39 million for the Financial Year 2024 from ₹659.48 million for the Financial Year 2023.

*Total expense*: Total expense increased by 37.88% to ₹55,495.94 million for the Financial Year 2024 from ₹40,250.74 million for the Financial Year 2023, due to increases in cost of materials consumed, purchased of stock-in-trade, other expenses, employee benefits expense, depreciation and amortisation expense, and finance costs.

Material Cost: Our Material Cost increased due to increase in cost of raw materials and components consumed by 30.91% to ₹14,829.42 million for the Financial Year 2024 from ₹11,328.03 million for the Financial Year 2023, increase in purchase of stock in trade by 29.92% to ₹3473.70 million for the Financial Year 2024 from ₹2,673.82 million for the Financial Year 2023, and increase in changes in inventory of traded and finished goods by 68.89% to ₹(541.72) million for the Financial Year 2024 from ₹(320.75) million for the Financial Year 2023. These changes in our cost of raw materials and components were driven by an increasing share of in-house production and synergies in procurement. Further, following the acquisition of Owndays, we integrated procurement operations across both entities and established a centralized sourcing team leading to synergies, including improved vendor terms, higher order consolidation, and better price discovery, while also helping us improve inventory planning and streamlined supply chain coordination across markets.

Employee benefits expense: Employee benefits expense increased by 51.42% to ₹10,864.91 million for the Financial Year 2024 from ₹7,175.58 million for the Financial Year 2023. In our India segment, as disclosed in segment disclosure as per Ind AS 108, employee benefits expense increased by 37.98% to ₹3,447.57 million in the Financial Year 2024 from ₹2,498.55 million in the Financial Year 2023. For our International segment, employee benefits expense increased by 58.59% to ₹7,417.34 million

in the Financial Year 2024 from ₹4,677.04 million in the Financial Year 2023, primarily due to the acquisition of Owndays.

The increases were primarily due to increases in (i) salaries, wages and bonus by 51.08% to ₹9,936.03 million for the Financial Year 2024 from ₹6,576.49 million for the Financial Year 2023; (ii) contribution to provident and other funds by 52.88% to ₹492.22 million for the Financial Year 2024 from ₹321.97 million for the Financial Year 2023. (iii) staff welfare by 64.67% to ₹335.04 million for the Financial Year 2024 from ₹203.46 million for the Financial Year 2023; (iv) share based payments to employees by 52.03% to ₹63.70 million for the Financial Year 2024 from ₹41.90 million for the Financial Year 2023; and (v) gratuity by 19.40% to ₹37.92 million for the Financial Year 2024 from ₹31.76 million for the Financial Year 2023. These increases were primarily attributable to annual employee increments and an increase in our employee headcount.

Depreciation and amortisation expense: Depreciation and amortisation expense increased by 61.00% to ₹6,722.40 million for the Financial Year 2024 from ₹4,175.53 million for the Financial Year 2023. These increases in depreciation and amortisation expense was attributable to increases in (i) depreciation of right-of-use assets by 51.85% to ₹3,403.32 million for the Financial Year 2024 from ₹2,241.19 million for the Financial Year 2023, primarily due to the opening of new stores during the Financial Year 2024; (ii) depreciation of property, plant and equipment by 77.94% to ₹1,519.25 million for the Financial Year 2024 from ₹853.79 million for the Financial Year 2023, due to additions to property, plant and equipment of ₹4,130.22 million during the Financial Year 2024; (iii) depreciation of investment property by 71.12% to ₹1,199.43 million for the Financial Year 2024 from ₹700.91 million for the Financial Year 2023; and (iv) amortization of intangible assets by 58.15% to ₹600.40 million for the Financial Year 2024 from ₹379.64 million for the Financial Year 2023.

Finance costs: Finance costs increased by 47.68% to ₹1,229.89 million for the Financial Year 2024 from ₹832.78 million for the Financial Year 2023. These increases in finance costs was attributable to (i) interest on lease liabilities by 51.75% to ₹887.04 million for the Financial Year 2024 from ₹584.53 million for the Financial Year 2023, primarily on account of the opening of new stores during the Financial Year 2024; and (ii) interest on long term borrowings by 71.00% to ₹321.47 million for the Financial Year 2024 from ₹187.99 million for the Financial Year 2023, primarily on account of the extension of a term-loan facility which was repaid during the Financial Year 2024. These increases were partially offset by a decrease in interest on cash credit and short term borrowings by 70.11% to ₹17.95 million for the Financial Year 2024 from ₹60.05 million for the Financial Year 2023.

Other expenses: Other expenses increased by 31.50% to ₹18,917.34 million for the Financial Year 2024 from ₹14,385.75 million for the Financial Year 2023. Commission and incentive expenses, which were the largest component of our other expenses, increased by 30.53% to ₹7,614.68 million for the Financial Year 2024 from ₹5,833.79 million for the Financial Year 2024, primarily on account of increased commissions and incentives on sales paid to franchisees, attributable to increased number of franchisee-operated and franchisee-owned stores (FoFo), as compared to total number of stores consistent with the growth of our business. Other key components of our other expenses that increased were (i) marketing and promotion expenses by 19.83% to ₹3,521.06 million for the Financial Year 2024 from ₹2,938.36 million for the Financial Year 2023, consistent with the growth of our business; (ii) rent expenses by 81.64% to ₹1,080.83 million for the Financial Year 2024 from ₹595.03 million for the Financial Year 2023, primarily on account of increased rental expenditure such as variable rent, common area charges and common area maintenance associated with the opening of new stores during the Financial Year 2024; (iii) information technology support expenses by 36.09% to ₹1,023.47 million for the Financial Year 2024 from ₹752.06 million for the Financial Year 2023; (iv) postage and courier expenses by 31.43% to ₹796.39 million for the Financial Year 2024 from ₹605.93 million for the Financial Year 2023; and (v) contractual labour by 25.21% to ₹697.37 million for the Financial Year 2024 from ₹556.98 million for the Financial Year 2024. These increases were partially offset by decreases in our (i) loss allowance for doubtful debt and advances and trade receivables, to nil for the Financial Year 2024 from ₹58.03 million for the Financial Year 2023; and (ii) FVTPL loss on deferred consideration by 93.53% to ₹20.00 million for the Financial Year 2024 from ₹309.02 million for the Financial Year 2023.

*Share of (loss) of associates and joint ventures, net of tax*. Share of loss of associates or joint ventures, net of tax decreased to ₹12.47 million in Financial Year 2024 from ₹40.76 million in Financial Year 2023.

*Total tax expense/(credit)*: Total tax expenses increased significantly to ₹691.85 million for the Financial Year 2024 from a tax credit of ₹374.19 million for the Financial Year 2023. For the Financial Year 2024, we had a current tax expense of ₹593.22 million, adjustment of tax relating to earlier periods of ₹26.04 million and a deferred tax charge of ₹124.67 million. For the Financial Year 2023, we had a current tax expense of ₹242.25 million, adjustment of tax relating to earlier periods of ₹8.47 million and a deferred tax credit of ₹624.91 million.

*Restated profit/(loss) for the year*: As a result of the foregoing, our restated loss for the year decreased by 84.07% to ₹101.54 million for the Financial Year 2024 from ₹637.57 million for the Financial Year 2023.

**Liquidity and Capital Resources**

Our primary source of liquidity is cash generated from operations. As of June 30, 2025, we had liquid assets of ₹20,145.80 million consisting of deposits with remaining maturity of more than twelve months of ₹310.45 million, current investments – investments in mutual funds (at fair value through profit or loss) - quoted of ₹10,436.59 million, cash and cash equivalent of ₹6,049.64 million, bank balances other than cash and cash equivalents of ₹3,270.09 million and bank deposits remaining maturity within 12 months of the reporting date of ₹79.03 million.

Our financing requirements are primarily for working capital and investments in our business such as capital expenditures. We expect that cash flow from revenue from operations will continue to be our principal source of cash in the long-term. We evaluate our funding requirements periodically in light of our net cash flow from operating activities, the requirements of our business and operations, and potential acquisition opportunities.

***Cash Flows***

The following table summarizes our cash flows data for the three months ended June 30, 2025 and June 30, 2024, and the Financial Years 2025, 2024 and 2023:

| Particulars | For the three months ended June 30, | | For the Financial Year | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million)* | | | | |
| Net cash flow from operating activities | 2,832.96 | 2,693.03 | 12,306.32 | 4,873.83 | 947.40 |
| Net cash flow (used in) / from investing activities | (1,663.78) | (414.41) | (2,658.67) | 1,586.76 | (29,764.87) |
| Net cash flow (used in)/ from financing activities | (1,937.52) | 52.47 | (5,347.76) | (7,217.68) | 27,767.03 |
| **Net increase/(decrease) in cash and cash equivalents** | **(768.34)** | **2,331.09** | **4,299.89** | **(757.09)** | **(1,050.44)** |
| **Cash and cash equivalents at the beginning of the period/ year** | **6,542.11** | **2,199.93** | **2,199.93** | **2,918.32** | **64.20** |
| Cash and cash equivalent of acquired subsidiary | - | - | 53.86 | 41.70 | 3,904.56 |
| Effect of movement in exchange rates of cash held in Foreign Subsidiaries | 274.70 | 79.50 | (11.57) | (3.00) | - |
| **Cash and cash equivalents at the end of the period/ year** | **6,048.47** | **4,610.52** | **6,542.11** | **2,199.93** | **2,918.32** |

*Operating activities*

Net cash flow from operating activities was ₹2,832.96 million for the three months ended June 30, 2025. We had restated profit before tax of ₹997.19 million for the three months ended June 30, 2025, which was primarily adjusted for depreciation and amortization expense of ₹2,371.31 million and finance costs of ₹410.38 million, which was partially offset by FVTPL gain on deferred consideration of ₹55.70 million, gain on redemption / fair valuation of mutual fund units of ₹228.62 million and interest income of ₹118.18 million. This was further adjusted for changes in working capital, comprising adjustments for changes in operating assets such as an increase in inventories of ₹807.95 million, an increase in other financial assets of ₹337.93 million, a increase in other assets of ₹82.84 million, an increase in other financial liabilities of ₹494.68 million, a decrease in other liabilities of ₹312.51 million, an increase in trade receivables of ₹198.92 million, an increase in trade payables of ₹545.37 million and an increase in provisions of ₹51.66 million. As a result, cash generated from operations for the three months ended June 30, 2025 was ₹2,895.56 million, before adjusting income tax paid (net of refund) of ₹62.60 million.

Net cash flow from operating activities was ₹12,306.32 million for the Financial Year 2025. We had restated profit before tax of ₹3,853.56 million for the Financial Year 2025, which was primarily adjusted for depreciation and amortization expense of ₹7,965.69 million and finance costs of ₹1,458.90 million, which was partially offset by FVTPL gain on deferred consideration of ₹1,671.98 million, gain on redemption / fair valuation of mutual fund units of ₹726.59 million and interest income of ₹724.72 million. This was further adjusted for changes in working capital, comprising adjustments for changes in operating assets such as an increase in inventories of ₹4,027.48 million, a decrease in other financial assets of ₹3,969.81 million, an increase in other assets of ₹660.38 million, an increase in other financial liabilities of ₹122.78 million, an increase in other liabilities of ₹981.07 million, a decrease in trade receivables of ₹2,274.64 million, an increase in trade payables of ₹219.07 million and an increase in provisions of ₹204.47 million. As a result, cash generated from operations for the Financial Year 2025 was ₹13,363.58 million, before adjusting income tax paid (net of refund) of ₹1,057.26 million.

Net cash flow from operating activities was ₹4,873.83 million for the Financial Year 2024. We had restated profit before tax of ₹590.31 million for the Financial Year 2024, which was primarily adjusted for depreciation and amortization expense of ₹6,722.40 million, finance costs of ₹1,229.89 million and provision for warranty of ₹117.69 million, which was partially offset by gain on redemption / fair valuation of mutual fund units of ₹641.43 million and interest income of ₹850.86 million. This was further adjusted for changes in working capital, comprising adjustments for changes in operating assets such as an increase in inventories of ₹1,152.41 million, an increase in other financial assets of ₹507.26 million, an increase in other assets of ₹578.31 million, a decrease in other financial liabilities of ₹12.39 million, an increase in other liabilities of ₹287.15 million, an increase in trade receivables of ₹949.84 million, an increase in trade payables of ₹1,245.44 million and an increase in provisions of ₹11.46 million. As a result, cash generated from operations for the Financial Year 2024 was ₹5,454.97 million, before adjusting income tax paid (net of refund) of ₹581.14 million.

Net cash flow from operating activities was ₹947.40 million for the Financial Year 2023. We had restated loss before tax for the year of ₹1,011.76 million for the Financial Year 2023, which was primarily adjusted for interest income of ₹683.64 million, unrealized foreign exchange gain(net) of ₹711.45 million and gain on redemption / fair valuation of mutual fund units of ₹199.88 million, which was partially offset by depreciation and amortization expense of ₹4,175.53 million, finance costs of ₹832.78 million and FVTPL loss on deferred consideration of ₹309.02 million. This was further adjusted for changes in working capital, comprising adjustments for changes in operating assets such as an increase in inventories of ₹2,305.84 million, a decrease in other financial assets of ₹96.23 million, an increase in other assets of ₹687.97 million, an increase in other financial liabilities of ₹256.50 million, a decrease in other liabilities of ₹12.05 million, an increase in trade receivables of ₹645.27 million, an increase in trade payables of ₹1,561.41 million and an increase in provisions of ₹115.49 million. As a result, cash generated from operations for the Financial Year 2023 was ₹1,183.95 million, before adjusting income tax paid (net of refund) of ₹236.55

million.

*Investing activities*

Net cash used in investing activities was ₹1,663.78 million in the three months ended June 30, 2025. This was primarily due to investment in mutual funds of ₹1,349.98 million, redemption of fixed deposits of ₹2,060.10 million, interest received on fixed deposits of ₹207.10 million, proceeds from sale of property, plant and equipment and intangible assets of ₹16.00 million, partially offset by investment in fixed deposits of ₹2,049.87 million, purchase of property, plant and equipment, capital work-in-progress, investment property and right of use of ₹1,564.64 million, proceeds from sale of mutual funds of ₹1,020.32 million, and acquisition of shares in Joint Venture/Associates of ₹2.81 million.

Net cash used in investing activities was ₹2,658.67 million in the Financial Year 2025. This was primarily due to investment in mutual funds of ₹8,359.62 million, purchase of property, plant and equipment, capital work-in-progress, investment property and right of use of ₹4,164.41 million, and partially offset by redemption of fixed deposits of ₹1,901.13 million, interest received on fixed deposits of ₹578.44 million and proceeds from sale of mutual funds of ₹8,823.54 million.

Net cash flow from investing activities was ₹1,586.76 million in the Financial Year 2024. This was primarily due to redemption of fixed deposits of ₹10,904.55 million, interest received on fixed deposits of ₹1,036.60 million, proceeds from sale of mutual funds of ₹3,675.00 million, and partially offset by investment in fixed deposits of ₹4,400.36 million, Purchase of property, plant and equipment, capital work-in-progress, investment property and right of use of ₹4,306.44 million and investment in mutual funds of ₹5,135.00 million.

Net cash used in investing activities was ₹29,764.87 million in the Financial Year 2023. This was primarily due to investment in acquisition of investment in subsidiaries of ₹25,128.40 million, investment in fixed deposits of ₹6,713.75 million, investment in mutual funds of ₹9,242.08 million and purchase of property, plant and equipment, capital work-in-progress, investment property and right of use of ₹3,987.69 million, and partially offset by redemption of fixed deposits of ₹3,832.30 million, proceeds from sale of mutual funds of ₹11,413.99 million.

*Financing activities*

Net cash used in financing activities was ₹1,937.52 million in the three months ended June 30, 2025. This was primarily due to payment of principal portion of lease liabilities of ₹1,426.99 million, payment of interest portion of lease liabilities of ₹373.10 million, repayment of borrowings of ₹196.24 million, and interest paid of ₹22.56 million, partially offset by proceeds from sales of treasury shares of ₹81.37 million.

Net cash used in financing activities was ₹5,347.76 million in the Financial Year 2025. This was primarily due to repayment of borrowings of ₹1,912.88 million, payment of principal portion of lease liabilities of ₹4,688.12 million and payment of interest portion of lease liabilities of ₹1,245.67 million, partially offset by proceeds from issue of share capital (including share premium) of ₹1,597.87 million and proceeds from borrowings of ₹1,080.00 million.

Net cash used in financing activities was ₹7,217.68 million in the Financial Year 2024. This was primarily due to repayment of borrowings of ₹5,486.21 million, payment of principal portion of lease liabilities of ₹3,886.27 million and payment of interest portion of lease liabilities of ₹887.04 million, partially offset by proceeds from issue of share capital (including share premium) of ₹2,244.41 million and proceeds from borrowings of ₹1,187.20 million.

Net cash flow from financing activities was ₹27,767.03 million in the Financial Year 2023. This was primarily due to proceeds from issue of share capital (including share premium) of ₹25,586.36 million, and proceeds from borrowings of ₹6,528.14 million, partially offset by payment of principal portion of lease liabilities of ₹2,424.22 million and payment of interest portion of lease liabilities of ₹584.53 million.

**Financial Indebtedness**

As of June 30, 2025, we had total borrowings amounting to ₹3,354.82 million, comprising current liabilities - financial liabilities - borrowings amounting to ₹1,363.13 million and non-current liabilities - financial liabilities - borrowings amounting to ₹1,991.69 million. For further details related to our indebtedness, see "***Financial Indebtedness***" on page 944.

**Contractual Obligations**

The table below analyses our financial liabilities into relevant maturity groupings based on their contractual maturities for all financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows as of June 30, 2025. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

| Particulars | On demand | Less than 1 year | 1 to 5 years | More than 5 years | Total |
|---|---|---|---|---|---|
| | *(₹ in million)* | | | | |
| Current Liabilities – Financial Liabilities – Borrowings | 1,119.04 | 237.56 | - | - | 1,363.13 |
| Non-Current Liabilities – Financial Liabilities – Borrowings | - | - | 1,784.39 | 208.96 | 1,993.35 |
| Current Liabilities – Financial Liabilities – Trade and other payables | - | 7,896.98 | - | - | 7,896.98 |
| Current Liabilities – Financial Liabilities – Lease liabilities | - | 6,622.59 | - | - | 6,622.59 |
| Non-Current Liabilities – Financial Liabilities – Lease Liabilities | - | - | 12,703.94 | 5,940.43 | 18.644.37 |
| Current Liabilities – Financial Liabilities – Other Financial liabilities | - | 1,293.91 | - | - | 1,293.91 |

| Particulars | On demand | Less than 1 year | 1 to 5 years | More than 5 years | Total |
|---|---|---|---|---|---|
| | *(₹ in million)* | | | | |
| Non-Current Liabilities – Financial Liabilities – Other Financial liabilities | - | - | 1,796.02 | - | 1,796.02 |

**Capital and Other Commitments**

As of June 30, 2025, we disclosed the following capital and other commitments in accordance with Ind AS 16–Property, Plant and Equipment and Schedule III of the Companies Act 2013, on a restated basis:

| Particulars | As at June 30, 2025 *(₹ in million)* |
|---|---|
| (a) Estimated amount of contracts remaining to be executed on capital account and not provided for (net of capital advance) | 2,383.92 |
| (b) Outstanding export obligation to be fulfilled over a period of 6 years, from respective date of import, under the EPCG scheme against import of plant and machinery [(1)] | 3,247.60 |
| (c) Other commitment (Information technology support expenses) | 749.83 |

[(1)] *In the absence of fulfilment of the related export obligation, the group will be liable to pay the amount of duty saved along with interest.*

**Contingent Liabilities**

We recorded the following contingent liabilities, derived from our Restated Consolidated Financial Information in accordance with Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets, which are extracted below:

*(₹ in million)*

| Particulars | As at June 30, 2025 |
|---|---|
| Income tax litigation - not been acknowledged as claims | 140.19 |
| GST and Customs related matter | 505.86 |
| Disallowance related to certain capital expenditure | 129.15 |

*Notes: The management, based on internal assessment and legal opinion obtained, believes that no material liability is likely to arise on account of such claims/law suits.*

1. *Income tax litigation: not acknowledged as claims: The Holding Company had received assessment order for AY 2013-14 from income tax authorities wherein the department raised demand on account of certain unexplained cash credits.*
2. *GST and Customs related matter:*
    a. *The contingent liability for GST and Custom case is on account of classification of Zero power glasses. Such glasses were being sold @ 12% GST, however, the GST authorities are of the view that such spectacles with zero power lenses are taxable @ 18%.*
    b. *The Group has received a show cause notice from the GST Intelligence Department relating to taxability of LK Cash redeemed during FY 2018-19 to FY 2023-24. The Group, based on legal opinions and supporting documents, considers LK Cash to be in the nature of discounts and not liable to GST.*
    c. *The Holding Company has received a show cause notice from Customs, Delhi amounting to ₹65.89 million regarding classification of imported eyeframes with clip-ons for the period October 2019 to October 2024. The Holding Company has classified these products under eyeframes supported by legal opinions, while Customs seeks to classify them as sunglasses.*
3. *Disallowance related to certain capital expenditure: This is in respect of assessment year 2018-19, Income-tax authorities has disallowed certain expenditure amounting to INR 519.56 million. The Holding Company has accepted the disallowance of INR 390.41 million and for balance disallowance appeal has been filed with Income-tax authorities. Further, no demand has been issued against the above disallowances by the Income-tax authorities.*

**Off-balance sheet arrangements**

We do not have any off-balance sheet arrangements, derivative instruments, swap transactions or relationships with affiliates or other unconsolidated entities or financial partnerships that would have been established for the purpose of facilitating off-balance sheet arrangements.

**Capital Expenditure**

Our historical capital expenditures were, and we expect our future capital expenditures to be, primarily related to purchase of property, plant and equipment, capital work-in-progress, investment property and right of use, and purchase of intangible assets and goodwill. For the three months ended June 30, 2025 and June 30, 2024, and the Financial Years 2025, 2024 and 2023, our capital expenditures were as below:

| Particulars | For the three months ended June 30, | | For the Financial Year | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million)* | | | | |
| Purchase of property, plant and equipment, capital work-in-progress, investment property and right of use (A) | 1,564.64 | 664.87 | 4,164.41 | 4,306.44 | 3,987.69 |
| Purchase of intangible assets and goodwill (B) | - | 11.34 | 102.59 | 70.56 | 140.69 |
| **Total (A+B)** | 1,564.64 | 676.21 | 4,267.00 | 4,377.00 | 4,128.38 |

**Quantitative and qualitative disclosures regarding market and other risks**

We are exposed to various types of market risks during the normal course of business. The primary varieties of financial risks that we are exposed to include liquidity risk, credit risk and market risk (including interest rate risk and other price risk).

***Liquidity Risk***

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Considering the business requirements, the treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of our liquidity position and cash and cash equivalents on the basis of expected cash flows.

Liquidity risk is the risk that we will not be able to meet our financial obligations as they become due. We manage our liquidity risk by ensuring, as far as possible, that we will always have sufficient liquidity to meet our liabilities when due. We generate cash flows from operations to meet our financial obligations, maintains adequate liquid assets in the form of cash and cash equivalents and have undrawn short-term line of credits from banks to ensure necessary liquidity. See also, "- ***Contractual Obligations***" on page 938.

*Excessive risk concentration*

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of our performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, our policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

***Credit Risk***

Credit risk is the risk of financial loss to us if a customer or counterparty to a financial asset fails to meet our contractual obligations, and arises principally from our receivables from customers, loans and other deposits. The carrying amounts of financial assets represent the maximum credit risk exposure.

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. We are exposed to credit risk from our operating activities (primarily trade receivables) and from our financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. We only deal with parties which have good credit rating/worthiness given by external rating agencies or based on our internal assessment.

All doubtful receivables are duly recognized from time to time post discussion with key stakeholders and provided for in the consolidated financial statements as deemed appropriate.

All the financial assets carried at amortized cost were considered good as at June 30, 2025, June 30, 2024, March 31, 2025, March 31, 2024 and March 31, 2023. We have not acquired any credit impaired asset. There was no modification in any financial assets. Set out below is the information about the credit risk exposure of our trade receivables and contract asset using provision matrix.

| **Particulars (as of June 30, 2025)** | **Trade Receivables** | | | | | |
|---|---|---|---|---|---|---|
| | **Not due** | **Less than 1 year** | **1-2 year** | **2-3 years** | **More than 3 years** | **Total** |
| | ***(₹ in million)*** | | | | | |
| Estimated total gross carrying amount at default | 0.21 | 1,274.71 | 113.96 | 22.38 | 17.40 | **1,428.66** |
| Expected credit loss - simplified approach | - | - | - | (22.38) | (17.40) | **(39.78)** |
| **Net carrying amount** | **0.21** | **1,274.71** | **113.96** | **-** | **-** | **1,388.88** |

*Financial instruments and cash deposits*

Credit risk from balances with banks and financial institutions is managed by our treasury department. Investments of surplus funds are made only with reputed funds as aligned with our Board. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

*Security deposit and other advances*

With regards to security deposit and other advances, the management believes these to be high quality assets with negligible credit risk. We believe the parties to which these deposits and other advances have been made have strong capacity to meet the obligations and where the risk of default is negligible or nil and accordingly no provision for expected credit loss has been provided on these financial assets.

*Trade receivables (Expected credit loss for trade receivables under simplified approach)*

We follow a simplified approach for recognition of impairment loss allowance on trade receivable. Under the simplified approach, we do not track changes in credit risk. Rather, we recognize impairment loss allowance based on lifetime ECLs at

each reporting date, right from initial recognition.

For homogenous group of receivables, we use a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on historically observed default and delay rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At year end, the historical observed default and delay rates are updated and changes in the forward-looking estimates are analysed.

For other debtors that are heterogenous in nature, individual receivables which are known to be uncollectible are written off by reducing the carrying amount of trade receivable and the amount of the loss is recognised in the Statement of Profit and Loss within other expenses.

***Market risk***

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include deposits, investments and foreign currency receivables and payables. The sensitivity analyses in the following sections relate to the position as at March 31, 2025, March 31, 2024 and March 31, 2023. The analyses exclude the impact of movements in market variables on the carrying values of gratuity and other post-retirement obligations and provisions. The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2025, March 31, 2024 and March 31, 2023.

***Interest rate risk***

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

*Liabilities*: We have certain exposure of interest rate risk with respect to our borrowings taken during the year.

*Assets*: Our fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

*Sensitivity analysis*

The sensitivity of profit or loss to change in the interest rates on the borrowings with floating interest rates. The impact on profit/(loss) before tax is as below:

| Particulars | As of June 30, | | As at March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million)* | | | | |
| Interest increase by 5 bps | 0.46 | 0.25 | (1.38) | (0.59) | 0.38 |
| Interest decrease by 5 bps | (0.46) | (0.25) | 1.38 | 0.59 | (0.38) |

***Foreign currency risk***

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. Our exposure to the risk of changes in foreign exchange rates relates primarily to our operating activities and our net investments in foreign subsidiary. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the functional currency of any of our entities. We have taken some derivative instruments to manage our exposure and all instruments outstanding at the year-end have been accounted at fair value. We do not use forward contracts and swaps for speculative purposes.

***Price risk***

Our exposure price risk arises from investments held and classified in the balance sheet at fair value through profit or loss. To manage the price risk arising from investments, we diversify our portfolio of assets.

Sensitivity

Impact on restated profit before tax are as follows:

| Particulars | As of June 30, | | As at March 31, | | |
|---|---|---|---|---|---|
| | 2025 | 2024 | 2025 | 2024 | 2023 |
| | *(₹ in million)* | | | | |
| **Mutual funds carried at fair value through profit or loss** | | | | | |
| Net assets value – increase by 100 bps | 104.37 | 107.39 | 98.78 | 96.16 | 75.14 |
| Net assets value – decrease by 100 bps | (104.37) | (107.39) | (98.78) | (96.16) | (75.14) |

**Other qualitative factors**

***Related party transactions***

We have in the past entered into, and in the future may enter into, transactions with several related parties in the ordinary course of our business. Such transactions could be for, among other things, purchase of materials and services, rent expenses, rental

deposits, sale of assets, interest on loans, directors' remuneration and reimbursement of expenses. For further details of our related party transactions, see "***Summary of Offer Document - Summary of related party transactions***" on page 34.

***Dependence on a few suppliers or customers***

We do not have any material dependence on a single or a few suppliers. We have a wide customer base and do not have any material dependence on any particular customer.

***Significant economic changes***

Other than as described above under "— ***Significant Factors Affecting our Results of Operations***" on page 907, to the knowledge of our management, there are no other significant economic changes that materially affect or are likely to affect our income from continuing operations.

***Unusual or infrequent events or transactions***

Except as disclosed in this Red Herring Prospectus, to our knowledge, there have been no "unusual" or "infrequent" events or transactions that have in the past, or may in the future, affect our business operations or future financial performance.

***Known trends or uncertainties***

Our business has been affected and we expect will continue to be affected by the trends identified above in "— ***Significant Factors Affecting our Results of Operations***" on page 907 and the uncertainties described in "***Risk Factors***" on page 64. To our knowledge, except as described or anticipated in this Red Herring Prospectus, there are no known factors which we expect will have a material adverse impact on our revenues or income from continuing operations.

***Future relationship between cost and income***

Other than as described in this Red Herring Prospectus, to the knowledge of our management, there are no known factors that might affect the future relationship between costs and revenues.

***New products or business segments***

Other than as described in "***Our Business – Our Growth Strategies***" on page 317, there are no new products or business segments in which we operate or propose to operate.

***Competition***

We expect competition in our industry from existing and potential competitors to intensify. For details, please refer to the discussions of our competition in the sections "***Risk Factors***" and "***Our Business***" on pages 64 and 287 respectively.

***Seasonality of business***

Our business is subject to seasonal fluctuations in demand for our eyewear products, which may affect our revenue, profitability and cash flows. We typically experience higher sales volumes during the festive season in the third and fourth quarters of the Financial Year. Conversely, we may experience lower sales volumes during the first and second quarters of the Financial Year. See also, "***Risk Factors - Our business is subject to seasonality and our quarterly results published upon listing may not be indicative of our annual financial performance and results of operations***" on page 96.

**Significant developments occurring after June 30, 2025**

Except as disclosed elsewhere in this Red Herring Prospectus, there are no circumstances that have arisen since June 30, 2025, the date of the last financial statements included in this Red Herring Prospectus, which materially and adversely affect or is likely to affect our operations or profitability, or the value of our assets or our ability to pay our material liabilities within the next 12 months.

## CAPITALISATION STATEMENT

The following table sets forth our capitalisation for the financial year ended and as at June 30, 2025, and as adjusted for the Offer. This table should be read in conjunction with "***Management's Discussion and Analysis of Financial Condition and Results of Operations*", "*Restated Financial Consolidated Information*"** and "***Risk Factors***" beginning on pages 904, 398, and 64, respectively.

*(₹ in million, unless otherwise stated)*

| Particulars[*] | Pre-Offer as at June 30, 2025 | Adjusted for the Offer [#] |
|---|---|---|
| ***Borrowings*** | | |
| Non-current liabilities – Financial liabilities - Borrowings (A) | 1,991.69 | [●] |
| Current liabilities – Financial liabilities - Borrowings (B) | 1,363.13 | [●] |

For details, see "**Capital Structure – Notes to the Capital Structure – Share Capital History**" on page 133.*

## FINANCIAL INDEBTEDNESS

Our Company and our Subsidiaries have availed credit facilities in the ordinary course of business for *inter alia*, meeting the working capital requirements and capital expenditure requirements.

Our Board is empowered to borrow money in accordance with Sections 179 and 180 of the Companies Act, 2013, and our Articles of Association. For details regarding the borrowing powers of our Board, please see "***Our Management –Borrowing Powers***" on page 379.

As on October 13, 2025, the aggregate outstanding borrowings of our Company and our Subsidiaries amounted to ₹3,113.88 million on a consolidated basis, and a brief summary of such borrowings is set forth below:

*(in ₹ million)*

| Category of borrowing | Sanctioned Amount as on October 13, 2025 | Outstanding amount as on October 13, 2025 |
|---|---|---|
| **External Borrowings** | | |
| **Secured Borrowings** | | |
| Term loans | 1,500.00 | 894.19 |
| Others - Working capital facilities | 63.54 | NIL |
| **Total secured borrowings (A)** | **1,563.54** | **894.19** |
| | | |
| **Unsecured Borrowings (External borrowings)** | | |
| Term Loans | 3,547.58 | 1,656.88 |
| Others - Working capital facilities | 2,911.57 | 562.81 |
| **Total unsecured borrowings (B)** | **6,459.15** | **2,219.69** |
| | | |
| **Total (A +B)** | **8,022.69** | **3,113.88** |

*As certified by A D M S & Co, Chartered Accountants, (FRN: 014626C), by way of their certificate dated October 25, 2025.*
***Note:*** *The above borrowings do not include inter-corporate loans given within the group entities and outstanding as on October 13, 2025 amounting to ₹10,595.06 million, as the same will get eliminated for preparation of our consolidated financial statements of the Group as per Ind AS 110: Consolidated Financial Statements. Further, as on October 13, 2025, and out of the ₹10,595.06 million, our Company has outstanding unsecured inter-corporate loans amounting to ₹91.85 million, and ₹3,611.04 million, to our Subsidiaries, namely Neso Brands Pte. Ltd. and Lenskart Solutions Pte. Ltd, respectively, for their business operations. Both inter-corporate loans are repayable on demand or as mutually agreed by the parties, in terms of the loan documents.*

### Principal terms of the borrowings availed by our Company and our Subsidiaries

Key terms of our borrowings are disclosed below:

***Tenor***: The tenor of the term loan borrowings availed by us is up to 84 months subject to annual renewal of overall credit facility in the case of some of our borrowings. The maximum tenor for the working capital facilities is up to 12 months.

***Interest rate***: Interest rate charged by the lenders for working capital loans availed by us typically ranges from 0.80% per annum to 9.60% per annum and interest rate charged by the lenders for term loans availed by us typically ranges from 1% per annum to 12.88% per annum.

***Security***: All secured borrowings facilities are secured by way of first *pari passu* charge on our immovable properties, both present and future, tangible assets (including plant and machinery), both present and future, current assets and receivables, including book debts and operating cashflows (excluding FDs, MFs and any primary equity raised) and hypothecation on escrow account, DSRA and any other reserve. The working capital facilities availed by us are typically unsecured. Additionally, fixed deposits are pledges for our bank guarantee facilities availed by our Company and our Subsidiaries.

***Pre-payment*:** If our Company chooses to pay some or all of the outstanding amounts to the lenders before its due date by serving prior written notice of at least 30 days to the lender, our Company/ Subsidiaries may be required to pay a prepayment penalty which ranges from 1.00 % to such higher other amount which may be decided by the relevant lenders. No prepayment penalty would be payable to lenders if the prepayment is effected:

a) At the instance of Lender(s);
b) Out of internal accruals of the borrower with a notice of 30 days;
c) If prepayment is effected within 30 days of the spread reset date after giving at least 15 days prior written notice to lenders;
d) Borrower raising equity funds from IPO or by accessing bond markets and using the proceeds to prepay facility with a notice of 30 days.

***Repayment:*** The working capital facilities and overdraft facilities availed by us are typically repayable on demand, or on their respective due dates within the maximum tenure. The term loan borrowings are availed by our Company generally repayable in monthly instalments or as per the repayment schedule stipulated in the relevant loan documentation.

***Restrictive Covenants:*** As per the terms of our loan agreements, certain corporate actions for which our Company requires prior written consent of the lenders include:

a) Effecting any change in our shareholding pattern or capital structure;

b) Change in the constitutional documents;

c) Formulating any scheme of merger, de-merger, amalgamation, consolidation, restructuring, reorganization;

d) Sell, assign, mortgage or otherwise dispose of any assets charged by the lender; and

e) Change in directors or management set-up of the borrower

The above is an indicative list and there may be additional key covenants under the various borrowing arrangements entered into by us.

***Events of Default:*** Borrowing arrangements entered into by our company contain standard events of default, including among others:

a) breach of covenants and conditions stipulated in financing documentation;

b) default in payment of principal or interest, other charges or instalment amount due or repayment of principal amounts;

c) misleading information, representation and warranty present in financing document;;

d) cessation or change in business or control of our Company;

e) cross defaults across other facilities of our Company.

The above is an indicative list and there may be additional events of default under the various borrowing arrangements entered into by us.

***Consequences of occurrence of events of default***: In terms of our borrowing arrangements, the following, *inter alia*, are the consequences of occurrence of events of default, whereby our lenders may:

a) declare all amounts outstanding in respect of the facility to be due and payable immediately irrespective of the maturity date;

b) cancel limits (either fully or partially);

c) suspend further access/ drawals by our Company in relation to the facility;

d) enforce security or change any of the terms of sanction;

e) impose additional interest/ additional commission on the facility;

The above is an indicative list and there may be additional consequences of an event of default under the various borrowing arrangements entered into by us.

For the purpose of the Offer, our Company has made the required intimations to and obtained necessary consents, as applicable, from our lenders under the relevant loan documents for undertaking activities relating to the Offer and consequent actions, *inter alia*, change in the capital structure, changes in composition of the Board and amendments to the Articles of Association and Memorandum of Association, of our Company. For further details of financial and other covenants required to be complied with in relation to our borrowings, see "***Risk Factors – Our inability to meet our obligations, including financial and other covenants under our debt financing arrangements could adversely affect our business, results of operations, financial condition, and cash flows***" on page 98.

## SECTION VI – LEGAL AND OTHER INFORMATION

## OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

*Except as stated in this section and in accordance with the Materiality Policy set out hereunder, as on the date of this Red Herring Prospectus, there are no outstanding (i) criminal proceedings (including matters which are at FIR stage even if no cognizance has been taken by any court) involving our Company, our Subsidiaries, our Promoters or our Directors ("**Relevant Parties**"), our Key Managerial Personnel and Senior Management (ii) actions taken (including all outstanding penalties and show cause notices) by regulatory authorities and statutory authorities) against the Relevant Parties, our Key Managerial Personnel and Senior Management; (iii) disciplinary actions including any penalty imposed by SEBI or Stock Exchanges against the Promoters in the last five financial years, including outstanding actions; (iv) claims related to any direct or indirect taxes in a consolidated manner involving the Relevant Parties; or (v) other pending litigation as determined to be material by our Board as per the Materiality Policy involving the Relevant Parties; and (vi) litigation involving our group companies which have a material impact on our Company. For the purposes of (v) above, in terms of the Materiality Policy adopted by resolution of our Board dated July 28, 2025:*

*Following pending litigation (other than litigations mentioned in point (i) to (iv) above) involving the Relevant Parties shall be considered "material" for the purposes of disclosure in this Red Herring Prospectus, where:*

*(i) the monetary amount of claim to the extent quantifiable, in any such pending proceeding by or against the entity or person is equivalent to or in excess of: a) two percent of turnover, for the most recent financial year based on the restated consolidated financial statements; or b) two percent (2%) of net worth, as at the end of the most recent financial year based on the restated consolidated financial statements; or (c) five percent (5%) of the average of absolute value of profit or loss after tax, for the last three financial years based on the restated consolidated financial statements, whichever is lower. Accordingly, the threshold for materiality for disclosure in this section is five percent (5%) of the average of absolute value of profit or loss after tax, for the last three financial years based on the restated consolidated financial statements, being ₹37.24 million (the "**Materiality Amount**");*

*(ii) any such litigations where the decision in one litigation is likely to affect the decision in similar litigations, and the cumulative amount involved in all such litigations exceeds ₹37.24 million, even though the amount involved in an individual litigation may not exceed ₹37.24 million; or*

*(iii) any such litigation which may not meet the monetary threshold or is not quantifiable, but where an adverse outcome would materially and adversely affect the business, prospects, operations, performance, financial position or reputation of the Company.*

*It is clarified that for the purposes of the above, pre-litigation notices received by the Relevant Parties, our Key Managerial Personnel and Senior Management (excluding actions as covered under (ii) and (iv) above), shall not be considered as litigation until such time that the Relevant Parties, our Key Managerial Personnel and Senior Management, as the case may be, is impleaded as a defendant in the litigation proceedings before any judicial forum or arbitral forum or such matters where the summons has not been received by the Relevant Parties, our Key Managerial Personnel and Senior Management.*

*Additionally, given the number of notices and cases under the Legal Metrology Act against the Company and its Subsidiaries and the notices by the municipal corporation against the Subsidiaries, we propose to include a clubbed disclosure for such notices and cases.*

*Further, for the purposes of (ii) above, notices issued by statutory or regulatory authorities received by the Relevant Parties, Key Managerial Personnel or the Senior Management, which are correspondences in the ordinary course of business for the Relevant Parties, Key Managerial Personnel or the Senior Management have not been considered as litigation. For the purposes of (iv) above, show cause notices, demand notices and any claims received in writing by the Relevant Parties have been considered and requests for information or clarifications, if any, received without any claim amount have not been considered.*

*Except as stated in this section, there are no outstanding material dues to creditors of our Company. In terms of the Materiality Policy, outstanding dues to any creditor of our Company having a monetary value which exceeds five percent (5%) of the total trade payables of our Company based on the Restated Consolidated Financial Information of our Company and for the three months period ended June 30, 2025, disclosed in this Red Herring Prospectus, shall be considered as 'material'. Accordingly, as of June 30, 2025, any outstanding dues exceeding ₹394.85 million have been considered as material outstanding dues for the purposes of disclosure in this section.*

*For outstanding dues to any micro, small or medium enterprise, the disclosure is based on information available with our Company regarding the status of the creditor(s) as defined under the Micro, Small and Medium Enterprises Development Act, 2006 as amended, read with the rules and notification thereunder.*

*All terms defined herein in a particular litigation disclosure pertain to that litigation only.*

## I. Litigation involving our Company

### *A. Litigation against our Company*

*Outstanding criminal litigation against our Company*

1. Manoj Khandelwal had filed a written complaint ("**Complaint**") dated May 24, 2025 before the Purulia Police Station, at West Bengal, against the Company, Peyush Bansal, our Chairman, Managing Director and Chief Executive Officer, Neha Bansal, our Executive Director, Jayesh Tulsidas Merchant, our Independent Director, Preeti Gupta, our Key Managerial Personnel and others, for *inter alia* cheating, criminal breach of trust, misrepresentation, under Sections 318(4), 316(2), 314, 318(3), 351(2) and 61(2) of the Bharatiya Nyaya Sanhita, 2023, in relation to the deception for entering into franchise agreements with the Company. Our Company, Peyush Bansal, our Chairman, Managing Director and Chief Executive Officer, Neha Bansal, our Executive Director, had filed an application on August 25, 2025, before Hon'ble High Court at Calcutta, ("**Calcutta High Court**"), under Section 482 of the Code of Criminal Procedure, 1973 corresponding to Section 528 of the Bharatiya Nyaya Sanhita, 2023, against the State of West Bengal and Kushal Bharat Equipments & Infrastructure Private Limited, for quashing of the entire proceedings, stating that, inter alia, the Complaint had supressed material facts and the present matter being purely civil in nature. The Calcutta High Court has passed a stay order on September 11, 2025, for a period of three weeks after the court vacations. The matter is currently pending.

*Actions taken by regulatory or statutory authorities against our Company*

1. The Directorate of Enforcement, Gurugram Zonal Office ("**ED**"), issued a Show Cause Notice ("**SCN**") dated July 25, 2022, to our Company, under section 37 of the Foreign Exchange Management Act, 1999 ("**FEMA**"). The ED directed our Company to provide details regarding its import and export transactions, including information on bank accounts, business profile, pending exports without realization, outstanding advance export proceeds, pending outward remittances, and imports with delayed payments. The SCN also requested the submission of our Company's income tax returns and audited financial statements. The inquiry pertains to procedural delays by our Company in submitting documentation for import and export transactions on the Import Data Processing and Monitoring System (IDPMS) and the Export Data Processing and Monitoring System (EDPMS) portals within the stipulated timelines. Our Company submitted a response to the SCN with the requested information to the ED on August 16, 2022. Additionally, our Company has submitted several applications requesting the ED to issue an NOC in our favour. However, in some instances the ED has denied our requests via letter dated June 14, 2023, and order dated November 18, 2023. Further, via the said order dated November 18, 2023, the ED directed the Company to provide further information/documents, to which our Company has responded vide letter dated January 9, 2024. Subsequently, the ED issued summons on December 28, 2023, and April 17, 2025, directing Neha Bansal, one of our Promoters, to appear in person on behalf of our Company, and provide further information, to which Neha Bansal has appeared before the ED as directed and the requested information has been supplied. Further, our Company received an e-mail correspondence from the ED dated May 7, 2025, to which our Company has furnished the requisite documents to the ED on May 13, 2025. The matter is currently pending.

*Material civil litigation against our Company*

Nil

### *B. Litigation by our Company*

*Outstanding Criminal litigation by our Company*

1. Our Company has filed a complaint dated April 25, 2022, before the Chief Metropolitan Magistrate (South East) Saket Courts, New Delhi, against Danish Azhar, store-incharge, who was on the payroll of Dealskart, one of our Subsidiaries, in Bettihata, Gorakhpur, for alleged violations of sections 138 read with section 141 of the Negotiable Instruments Act, 1881, in relation to dishonour of cheques tendered towards payments aggregating to ₹0.30 million due to our Company. The matter is currently pending.

*Material civil litigation by our Company*

Nil

## II. Litigation involving our Subsidiaries

### *A. Litigation against our Subsidiaries*

*Outstanding criminal litigation against our Subsidiaries*

Nil

*Actions taken by regulatory or statutory authorities against our Subsidiaries*

1. The Employees' Provident Fund Organisation (the "**EPFO**") had issued a visit notice dated October 25, 2023 and an e-mail dated November 14, 2023, to Dealskart, one of our Subsidiaries, in relation to non-remittance of provident fund dues, from EPFO, for production of records for inspection and verification under Section 13 of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952. Dealskart had submitted an email response dated November 22, 2023, to the EPFO stating that all the records in relation to the verification of records, have been duly submitted and sought an extension of the timeline for the submission of documents. Further, Dealskart had submitted a reply dated March 18, 2024, stating that the expenses are intercompany bills and requested for closure of the show cause notice. The matter is currently pending.

*Material civil litigation against our Subsidiaries*

Nil

***B. Litigation by our Subsidiaries***

*Outstanding Criminal litigation by our Subsidiaries*

1. Dealskart, one of our Subsidiaries, has filed a complaint in 2020, before the Chief Metropolitan Magistrate (South East) Saket Courts, New Delhi, against R. Arumugaswamy, for alleged violations of section 138 read with section 141 of the Negotiable Instruments Act, 1881, in relation to dishonour of cheques towards payments aggregating to ₹0.07 million due to Dealskart. The matter is currently pending.

*Material civil litigation by our Subsidiaries*

Nil

**III. Litigation involving our Promoters**

***A. Litigation against our Promoters***

*Outstanding criminal litigation against our Promoters*

**I. Peyush Bansal**

1. A first information report dated October 26, 2024 ("**Impugned FIR**") was filed against Peyush Bansal, our Chairman, Managing Director and Chief Executive Officer, Neha Bansal, our Executive Director, Ramneek Khurana, member of our Senior Management, and others (collectively, the "**Accused**"), with the Devaraja police station, Mysuru under Sections 120B, 420, 477A, 468, 471, 406, 34 and 37 of the erstwhile Indian Penal Code, 1860 ("**IPC**") by Soma Shekara A, ("**Complainant**") in relation to non-renewal of agreements for license and franchise agreements for three stores located in Mysore. The Complainant alleged fabrication of the 'point of sales' software and other IT databases by our Company, misuse by certain managerial personnel of our Company to falsify the records, financial statements to cheat the Complainant's outlet out of its profits and manipulate with government compliance reporting, among others, in the Impugned FIR. The Accused filed a memorandum of criminal petition dated January 22, 2025, under Section 528 of the Bharatiya Nagarik Suraksha Sanhita, 2023, (corresponding to Section 482 of the erstwhile Code of Criminal Procedure, 1973), before the Hon'ble High Court of Karnataka, at Bengaluru ("**Karnataka High Court**") to quash the Impugned FIR. The Karnataka High Court vide order dated January 22, 2025, put a stay on all further proceedings/investigation in relation to the Impugned FIR till the next day of hearing. The matter is currently pending.

2. A first information report dated June 19, 2025 ("**Impugned FIR**") was filed against Peyush Bansal, our Chairman, Managing Director and Chief Executive Officer, Mohammed Mutaher Zerger, G.R. Sunil Menon, senior employees and Rathan Kumar B.M (circle franchisee head) ("**Accused**"), with the Malleshwaram police station, Bengaluru City, Karnataka, India, under Sections 3(5), 316(2), 318(4), of the Bhartiya Nyaya Sanhita, 2023 ("**BNS**") by Raghavendra V P, ("**Complainant**") alleging non-payment of the stock value taken back by our Company after termination of the Franchisee Agreements. It has been alleged by the Complainant that our Company failed to pay the lawful dues within the stipulated time period, even after conducting an audit and taking return of the stocks. The Accused filed a writ petition dated June 23, 2025, read with Section 528 of the Bharatiya Nagarik Suraksha Sanhita, 2023, (corresponding to Section 482 of the erstwhile Code of Criminal Procedure, 1973), before the Hon'ble High Court of Karnataka, Bengaluru, India ("**Karnataka High Court**") to quash the Impugned FIR. The Karnataka High Court vide order dated June 23, 2025, put a stay on all further proceedings/investigation in relation to the Impugned FIR. The matter is currently pending.

**II. Neha Bansal**

1. A complaint was filed by Assistant Engineer (Electrical Safety) cum Assistant Electrical Inspector ("**Complaint**") on May 01, 2024, under Section 151 in conjunction with 146 of the Electricity Act, 2003, before the Special Judge

(Electricity Act, 2003), Bhopal against ARHPL, Neha Bansal, the Director of our Company and others (collectively "**Accused**"). The Complaint was filed in relation to concerns of the accidental death of a nine-year-old boy due to an electric shock allegedly caused by neutral unbalance and voltage differences in a transformer installed outside the premises of the ARHPL at plot no.1, Press Complex, Zone-1, Bhopal, Madhya Pradesh. The District and Sessions Court, Bhopal issued summons to the Accused on July 13, 2024 alleging that the Accused had not complied with orders and directions under the Electricity Act, 2003 ("**Act**") punishable under sections 151 and 146 of the Act. Subsequently, on September 6, 2024 the Directors filed a writ petition before the Hon'ble High Court of Madhya Pradesh, Jabalpur ("**High Court**") seeking the quashing of the Complaint on the ground that ARHPL operates under the name Vishal Mega Mart Limited, and thus the Directors cannot be held liable. The High Court issued an interim order on September 19, 2024 staying further proceedings on the Complaint until the next hearing. The matter is currently pending

Except as stated above and disclosed in "***- Litigation involving our Company - Litigation against our Company – Outstanding criminal litigation against our Company***" involving our Promoters, Peyush Bansal and Neha Bansal, on page 946, there are no outstanding criminal litigation against our Promoters.

## IV. Litigation involving our Directors

***A. Litigation against our Directors***

*Outstanding criminal litigation against our Directors*

**I. Bijou Kurien**

1. Suraapana Brewing LLP ("**Complainant**") filed a criminal complaint dated April 28, 2021, under sections 120B, 149, 393, 406, 411, 424, 426, 427, 441 and 447 of the Indian Penal Code, 1860, before the 4th Additional Chief Metropolitan Magistrate, Bengaluru, Karnataka, India, against BEL, Nirupa Shankar, Bijou Kurien, and certain other directors of BEL (collectively, "**Accused**"). The Complainant operates a bar and restaurant under lease on premises ("**Premises**") of the Accused. The Complainant has stated that, the Accused, on account of non-payment of rent, has threatened the Complainant with prevention of operation of the bar and restaurant on their premises, and has forcefully entered the Premises and caused damage to the stock in trade, furniture, equipment and machinery leading to damages approximating ₹40 million. The matter is currently pending.

2. Suguna Foods Private Limited ("**Accused**") was served with a notice under Legal Metrology Act, 2009 for manipulating the weighing scale by the Assistant Controller of Legal Metrology, Chikkabalapura ("**Complainant**"). The Complainant thereafter, filed a criminal complaint dated June 19, 2024, under Section 200 of Code of Criminal Procedure, 1973 ("**Complaint**") against the Accused. Bijou Kurien was made party to the complaint pursuant to him being a nonexecutive independent director of the Accused. Bijou Kurien has filed a quashing petition under Section 482 of Code of Criminal Procedure, 1973 before the High Court of Karnataka, wherein he has pleaded that he is not involved in day-to-day activities of the business and his personal participation in the manipulation of the weighing scale has not been alleged in the Complaint. Currently, the High Court of Karnataka has granted a stay on any coercive action against Bijou Kurien. The matter is currently pending.

**II. Jayesh Tulsidas Merchant**

1. A criminal complaint dated September 21, 2022, was filed before Additional Chief Judicial Magistrate, South District, Saket District Courts, New Delhi, India ("**Court**") by Apollo Supply Chain Private Limited ("**Complainant**") against M/S Manjushree Technopack Limited, Jayesh Tulsidas Merchant, one of our Directors, and others, under Section 156 (3) read with Section 200 of the Criminal Procedure Code, 1973. The Complainant has alleged non-payment of dues to the tune of ₹1.80 million, in breach of an executed letter of intent. The registration of FIR under cheating and criminal breach of trust has been prayed for in the complaint. The Application for registration of FIR under Section 156(3) was dismissed through order dated May 4, 2023, by the Court. The matter is currently pending and is listed for pre-summoning evidence of the complainant.

**III. Sayali Karanjkar**

1. A complaint has been filed by M/S Xplore Private Limited ("**Complainant**"), against One Mobikwik Systems Limited, and the directors of One Mobikwik Systems Limited, including Sayali Karanjkar, the Director of our Company ("**Accused**") before the court of Additional Chief Judicial Magistrate, Bidhannagar, for the violation of sections 406, 420, read with section 120B of the Indian Penal Code. It is alleged that the Accused wilfully and with ulterior motives failed to pay 12 invoices for the services 450 of managing customer queries/complaints over calls and tickets (emails) ("**Services**") received from the Complainant. Communications regarding the deficiency in services were exchanged with and acknowledged by the Complainant. Accordingly, One Mobikwik Systems Limited had terminated the agreement with the Complainant on July 29, 2022, via a termination letter dated May 15, 2023, on the grounds of deficiency in services. Furthermore, it is alleged that the non-payment of the invoices amounts to wrongful gain to the company and wrongful losses to the complainant, totalling ₹16.11 million. Pursuant to this, the court of Additional Chief Judicial Magistrate ("**ACJM**") issued a summons on December 6, 2023, to one of the directors of One Mobikwik Systems Limited ("**Summoning Order**"). Subsequently, the Accused have lodged a revision petition against the matter before the High Court of Calcutta, seeking the quashing of the Summoning Order and the dismissal of the Complaint. It is stated in the revision petition that it earlier filed a civil suit listed on May 30, 2023, currently pending before the senior civil judge in Gurugram, Haryana, India, seeking permanent and mandatory injunction, damages, and a rendition of accounts against Complainant. The High Court of Calcutta granted a stay case against the proceedings before the Additional Chief Judicial Magistrate, until January 31, 2025, as per the order dated October 1, 2024. The interim stay was further extended till August 30, 2025, vide order dated May 16, 2025 and has been subsequently extended till November 29, 2025. The order is currently awaited and matter is currently pending.

### A. Material Tax Matters

***Involving our Company***

*Direct tax litigations*

1. The Deputy Commissioner of Income Tax at New Delhi issued an assessment order dated March 23, 2016, (the "**Impugned Order**") against our Company under Section 143(3) of the Income Tax Act, 1961 ("**Act**"), making additions on account of unexplained cash credit on investment received from Unilazer Ventures Private Limited *(formerly known as Unilazer Ventures Limited ).* under section 68 of the Act, and various other revenue expenses and disallowances pertaining to, repair and maintenance expenses, staff welfare expenses and legal and professional fees during the assessment year 2013-14, and accordingly raised a tax demand of ₹33.94 million, along with interest and penalty. Our Company filed an appeal dated April 20, 2016, against the Impugned Order. Our Company further received a notice dated January 25, 2024, and October 4, 2024, (together, the "**Notice**") under Section 250 of the Act, requiring our Company to furnish ground-wise written submission, along with supporting documents of the issues noticed in the said Notice. Our Company submitted responses dated February 7, 2024, October 28, 2024 and June 2, 2025 to the Notice, clarifying that since our Company filed the requisite information and documents in respect of identity, creditworthiness and the subject transaction with Unilazer Ventures Private Limited *(formerly known as Unilazer Ventures Limited)*, it has discharged its primary onus under section 68 of the Act and thus, the addition made under the said section is unwarranted. Further, it is to be noted that tax demand of ₹33.94 million

has been further increased to ₹140.19 million, along with interest and penalty, by the National Faceless Assessment Centre at New Delhi ("**NFAC**") owing to disallowances on account capitalisation of marketing expenses and the NFAC passed an order dated May 21, 2025, under section 250, 147 and 144B of the Act. The matter is currently pending.

*Indirect tax litigations*

1. The Directorate General of GST Intelligence, Gurugram Zonal Unit, ("**DGGI**") issued a show cause cum demand notice dated March 28, 2024, ("**SCN**") against our Company in relation to, *inter alia,* wrongful classification of "zero powered glasses/ computer glasses" under Heading 9004 of the Customs Tariff Act, 1975, amounting to ₹125.00 million, along with the applicable interest and penalties. Our Company has filed a reply dated August 22, 2024, with the Additional/Joint Commissioner, CGST, Gurugram Commissionerate, for the dismissal of the SCN on the grounds that the proceeding was initiated without jurisdiction and in gross violation of the procedure of the CGST Act, 2017, and the subsequent rules framed thereunder, among others. The matter is currently pending.

2. The Directorate General of GST Intelligence, Bhopal Zonal Unit, ("**DGGI**") issued an intimation of tax demand dated June 5, 2025, ("**Intimation**") against our Company in relation to wrongful classification of zero powered glasses/ computer glasses amounting to ₹85.03 million, along with applicable interest and penalty. The Company has filed the reply dated June 13, 2025, for dismissal of the intimation. The Company has received a show cause notice by the DGGI dated June 19, 2025, rejected the reply filed by our Company and to show cause and explain in writing as to why the GST amounting to ₹85.03 million was short paid by way of misclassification of the supplied goods. Our Company has filed a reply dated August 12, 2025, with the Additional/Joint Commissioner, CGST and Central Excise, Gurugram Commissionerate, for the dismissal of the show cause notice on the grounds, *inter alia,* that a combined show cause notice for multiple financial years is not permissible. The matter is currently pending.

3. The Commissioner Customs-Audits, New Delhi, has issued an order dated June 6, 2025, ("**Order**") against our Company in relation to wrongful classification of zero powered glasses/ computer glasses amounting to ₹23.92 million, (including penalty) along with interest short paid and a redemption fine of ₹18.00 million. Our Company has filed an appeal dated August 29, 2025, against the Order, before the Hon'ble Customs, Excise and Service Tax Appellate Tribunal, New Delhi, on the grounds that *inter alia,* the present demand is invalid in absence of an appeal against the out charge order/bills of entry. The matter is currently pending.

4. The Principal Commissioner of Customs, ACC (Import), New Delhi issued a demand cum show cause notice dated June 3, 2025, ("**SCN**") against our Company in relation to wrongful classification of frames with clip on(s) amounting to ₹65.82 million, along with the applicable interest and penalty. The Company has submitted a reply against the SCN dated July 21, 2025, stating that the disputed goods are correctly classified under CTH 9003 and the department's claim of classification under CTH 9004 is incorrect. The matter is currently pending.

5. The Directorate General of GST Intelligence, Gurugram Zonal Unit, ("**DGGI**") issued a show cause notice dated June 27, 2025, against our Company, in relation to non-payment of GST liability on the amount of payment made by the customers through the redemption of their cashback earned, amounting to ₹118.44 million along with the applicable interest and penalty thereon. Our Company has filed a reply dated September 4, 2025, with the Additional/Joint Commissioner, CGST, Faridabad Commissionerate, for the dismissal of the show cause on the grounds that *inter alia,* the demand has been wrongly computed in the show cause notice and cum tax benefit should be extended to the notice and a common show cause notice for multiple financial years is not permissible. The matter is currently pending.

6. The Office of Deputy Commissioner of State Tax (SGST) Gurugram (South), Government of Haryana, ("**SGST Gurugram**") issued a show cause notice dated September 29, 2025 ("**SCN**") against our Company, in relation to multiple GST compliance issues for the financial year 2021-22, including *inter alia,* wrongful availment of input tax credit and non-reversal of input tax credit with respect to non-payment, amounting to ₹37.60 million, including applicable interest and penalty thereon. The matter is currently pending.

***Involving our Subsidiaries***

*Direct tax litigations*

Nil

*Indirect tax litigations*

1. Dealskart Online Services Private Limited, one of our Subsidiaries, ("**Dealskart**") received a scrutiny notice dated January 11, 2024, from the Office of Deputy Commissioner of State Tax (SGST), Gurugram (East), ("**Commissioner**") for the assessment period of April 2019 to March 2020, in relation to various discrepancies on the returns filed and other data on the GSTIN portal. Dealskart vide letter dated May 9, 2024, submitted the requisite documents and requested additional time for providing the remaining documents. However, Dealskart received a show cause notice dated May 31, 2024, ("**SCN**") from the Commissioner, for the assessment period April 2019 to March 2020, under sections 73 of the Haryana Goods and Services Tax Act, 2017/Central Goods and Services Act,

2017, ("**HGST/CGST Act, 2017**") *inter alia*, for reversal of input tax credit and other tax liabilities, amounting to ₹65.94 million. Dealskart vide letter dated July 3, 2024, to the SCN, provided the information as required in the SCN. Thereafter the Commissioner passed an order dated August 30, 2024, ("**Order**") under sections 73 of the HGST/CGST Act, 2017, demanding payment of ₹72.34 million, including interest and penalty. Dealskart submitted an appeal dated November 15, 2024, before the office of Joint Commissioner of State Tax (Appeals), Gurugram, to quash the Order on the grounds that Dealskart had not claimed any ineligible input tax credit against which the tax along with interest and penalty has been imposed and therefore requested to set aside the penalty levied on it. The matter is currently pending.

2. The Directorate General of GST Intelligence, Bhopal Zonal Unit, ("**DGGI**") issued an intimation of tax demand dated June 5, 2025, ("**Intimation**") against Dealskart in relation to wrongful classification of zero powered glasses/ computer glasses amounting to ₹88.80 million, along with applicable interest and penalty thereon. Our Company has filed a reply dated August 12, 2025 with the Additional/Joint Commissioner, CGST, Faridabad Commissionerate, to the show cause notice ("**SCN**") for the dismissal of the SCN on the grounds that *inter alia*, that a common show cause notice for multiple financial years is not permissible. The matter is currently pending.

***Involving our Promoters***

*Direct tax litigations*

1. The Income Tax Department, National Faceless Assessment Centre ("**NFAC**") issued an assessment order on March 29, 2025 ("**Order**"), for Neha Bansal under Sections 143(3) read with Section 144B of the Income Tax Act, 1961 ("**IT Act**"). The Order provides for disallowance under Section 54F of the IT Act for the assessment years 2022–23 and 2023–24. A notice of demand dated March 29, 2025, has been issued with a tax demand of ₹184.19 million. Neha Bansal has filed an appeal before the Commissioner of Income-tax (Appeals) on April 26, 2025, against the Order. The matter is currently pending

*Indirect tax litigations*

Nil

***Involving our Directors***

*Direct tax litigations*

Except as disclosed in "***- Material Tax Matters – Involving our Promoters***" involving Neha Bansal, our Director, above, there are no material tax matters involving our Directors.

*Indirect tax litigations*

Nil

**Outstanding dues to creditors**

As of June 30, 2025, our Company had 6,470 creditors, and the aggregate outstanding dues to these creditors by our Company were ₹7,896.98 million. As per the Materiality Policy, a creditor of our Company has been considered to be material if the amounts due to such creditor exceed five percent (5%) of the total trade and other payables of our Company as at the end of the most recent financial period covered in the Restated Consolidated Financial Information and for the three months period ended June 30, 2025 (i.e., to whom our Company owes an amount having a monetary value exceeding an amount of ₹394.85 million as of June 30, 2025).

Details of outstanding dues owed to micro small and medium enterprises creditors, material creditors and other creditors as of June 30, 2025, are set out below:

| S. No. | Type of creditor | Number of Creditors | Amount outstanding (₹ in million)[(1)] |
|---|---|---|---|
| 1. | Micro, small and medium enterprises creditors | 420 | 500.38 |
| 2. | Material creditors | Nil | Nil |
| 3. | Other creditors | 6,050 | 7,396.60 |
| | **Total** | **6,470** | **7,896.98** |

*[(1)]As certified by A D M S & Co., Chartered Accountants, pursuant to their certificate dated October 25, 2025.*

As on June 30, 2025, our Company doesn't have any material creditors, with an outstanding amount involving ₹394.85 million, in accordance with the Materiality Policy. Details of outstanding dues towards our material creditors along with the names and amount involved for each such material creditor are available on the website of our Company at https://www.lenskart.com/corporate/investorrelations.

**Material Developments**

Except as disclosed in "***Management's Discussion and Analysis of Financial Condition and Results of Operations – Significant developments occurring after June 30, 2025"*** on page 942, there have not arisen, since the date of the last financial statement disclosed in this Red Herring Prospectus, any circumstances which materially and adversely affect, or are likely to affect, our trading, our profitability or the value of our assets or our ability to pay our liabilities within the next 12 months.

## GOVERNMENT AND OTHER APPROVALS

*Our business requires various approvals, licenses, registrations, and permits issued by relevant regulatory authorities under various rules and regulations. We have set out below an indicative list of material and necessary approvals, consents, licenses and registrations from various governmental and regulatory authorities required to be obtained by our Company and our Material Subsidiaries for the purpose of undertaking our business activities and operations ("**Material Approvals**"). In view of the approvals listed below, our Company can undertake the Offer and its business activities, as applicable.*

*Pursuant to the conversion of our Company into a public limited company and the consequent change in the name of our Company, our Company is in the process of changing our name as it appears on various approvals and licenses.*

*For details of risk associated with not obtaining or delay in obtaining the requisite approvals, see "**Risk Factors - We require certain statutory and regulatory licenses and approvals to conduct our business and an inability to obtain, retain or renew such licenses and approvals could have an adverse effect on our business, results of operations, financial condition and cash flows.**" on page 99. For further details in connection with the applicable regulatory and legal framework, see "**Key Regulations and Policies in India**" and "**Risk Factors**" beginning on pages 338 and 64, respectively.*

***MLO K.K.***

MLO K.K. has been incorporated in Japan and holds the following Material Approvals:

Nil

**V. Approvals in relation to the Offer**

For details of the approvals and authorisations obtained by our Company in relation to the Offer, see *"**Other Regulatory and Statutory Disclosures – Authority for the Offer**"* on page 960.

**VI. Material Approvals – (a) applied for but not received; (b) expired and not applied for renewal; and (c) required but not obtained or applied for**

Certain approvals may have lapsed in their normal course, and we have either made applications to the appropriate authorities for renewal of such licenses and approvals or are in the process of making such applications.

**VII Intellectual Property**

As on the date of this Red Herring Prospectus, we have 242 registered trademarks and 4 copyrights in India. Further, we have 37 pending trademark applications in India. Additionally, we also have 93 registered trademarks in foreign jurisdictions and have applied for 21 trademarks in foreign jurisdictions. Further, we have applied for 4 patents and 2 designs in India, the applications for which are currently pending. For further details, see "***Our Business - Intellectual Property***" and "***Risk Factors - Our intellectual property rights may be exposed to misappropriation and infringement claims by third parties and our eyewear products and brands are vulnerable to counterfeiting. Our inability to effectively address these risks and eliminate counterfeit products from the market could adversely affect our business, results of operations, financial condition, cash flows and prospects***" on pages 334 and 93, respectively.

## SECTION VII - OUR GROUP COMPANIES

Pursuant to a resolution dated October 10, 2025, our Board has noted that in accordance with the SEBI ICDR Regulations and for the purpose of disclosure in this Red Herring Prospectus, Group Companies of our Company shall include (i) such companies (other than any corporate promoters of our Company) with which there were related party transactions, during the period for which Restated Consolidated Financial Information is disclosed in this Red Herring Prospectus, as covered under the Indian Accounting Standard (Ind AS) 24; and (ii) any other company as considered material by the Board.

With respect to (ii) above, our Board in its meeting held on October 10, 2025, has considered the companies (other than our corporate promoters), which are members of our Promoter Group, with which our Company has entered into one or more transactions during the most recent financial year and stub period, if any, which individually or cumulatively in value exceeds 10% of the revenue from operations of our Company for such year and period, based on the Restated Consolidated Financial Information to be included in the offer documents.

Accordingly, based on the parameters outlined above, as on the date of this Red Herring Prospectus, our Company has the following group companies:

*Indian Group Company*

1. Visionsure Services Private Limited ("**Visionsure**)

*Foreign Group Company*

1. Baofeng Framekart Technology Limited ("**Baofeng**");and

2. Le Petit Lunetier Paris SAS ("**Le Petit**")

**Details of our Group Companies**

As stated above, Visionsure, Baofeng and Le Petit are the only companies which have been categorised as our Group Companies in accordance with the SEBI ICDR Regulations. Certain financial information in relation to our Group Companies for the previous three financial years, extracted from their respective audited financial statements are required to be hosted on the websites of the respective Group Companies or on the website of the issuer. Our Company is providing links to such websites solely to comply with the requirement specified under the SEBI ICDR Regulations. Such financial information of the Group Companies and other information provided on such websites does not constitute a part of this Red Herring Prospectus. Such information should not be considered as part of information that any investor should consider before making any investment decision.

In accordance with the SEBI ICDR Regulations, details of our Group Companies have been set out below.

**1. Visionsure Services Private Limited**

***Registered Office***

The registered office of Visionsure is situated at 3rd Floor, Orchid Center, Golf Course Road, Sector 53, DLF QE, Gurugram - 122002, Haryana, India.

***Financial information***

Certain financial information derived from the audited financial statements of Visionsure for Financial Years 2025, 2024, and 2022, as required by the SEBI ICDR Regulations, is available on the website of our Company at https://www.lenskart.com/corporate/investor-relation.

**2. Baofeng Framekart Technology Limited**

***Registered Office***

The registered office of Baofeng is situated at No. 1, Xingbao Road, Industrial Cluster Area, Bao Feng County, Pingdingshan City, China.

***Financial information***

Certain financial information derived from the audited financial statements of Baofeng for Financial Year 2025, 2024, and 2023, as required by the SEBI ICDR Regulations, is available on the website of our Company at https://www.lenskart.com/corporate/investor-relation.

**3. Le Petit Lunetier Paris SAS**

***Registered Office***

The registered office of Le Petit is situated at 155 rue de Charonne, 75011 Paris.

***Financial information***

Certain financial information derived from the audited financial statements of Le Petit for Financial Year 2025, 2024, and 2023 as required by the SEBI ICDR Regulations, is available on the website of our Company at https://www.lenskart.com/corporate/investor-relation.

**Nature and extent of interest of our Group Companies**

***In the promotion of our Company***

None of our Group Companies have an interest in the promotion of our Company.

***In the properties acquired by our Company in the past three years before filing this Red Herring Prospectus or proposed to be acquired by our Company***

Our Group Companies are not interested in the properties acquired by us in the three years preceding the filing of this Red Herring Prospectus or proposed to be acquired by us as on the date of this Red Herring Prospectus.

***In transactions for acquisition of land, construction of building and supply of machinery, etc.***

Our Group Companies are not interested in any transactions for the acquisition of land, construction of building or supply of machinery.

**Common pursuits among our Group Companies and our Company**

Except Baofeng Framekart Technology Limited and Le Petit Lunetier Paris SAS, which are engaged in a similar line of business as our Company, there are no common pursuits between our Group Companies and our Company. Further, there is no conflict of interest between our Group Companies and our Company. Our Company will adopt necessary procedures and practices as permitted by law and regulatory guidelines to address any conflict situations as and when they arise.

**Related business transactions with our Group Companies and significance on the financial performance of our Company**

Except as disclosed in this section under "***Other Financial Information — Related-Party Transactions***" on page 903, there are no other related business transactions with our Group Companies.

**Litigation**

As on the date of this Red Herring Prospectus, there is no pending litigation involving our Group Companies which may have a material impact on our Company.

**Business interest of our Group Companies**

Except in the ordinary course of business and as stated in "***Other Financial Information — Related-Party Transactions***" on page 903, none of our Group Companies have any business interest in our Company.

**Other confirmations**

None of our Group Companies have any securities listed on any stock exchange. Further, none of our Group Companies has made any public or rights issue (as defined under the SEBI ICDR Regulations) of securities in the three years preceding the date of this Red Herring Prospectus.

## SECTION VIII - OTHER REGULATORY AND STATUTORY DISCLOSURES

### Authority for the Offer

The Offer, including the Fresh Issue, has been authorised by our Board pursuant to a resolution passed at its meeting held on July 11, 2025, and our Shareholders have authorized the Fresh Issue pursuant to a special resolution passed at their meeting held on July 26, 2025.

Further, our Board has taken on record the consent and authorisation of the Selling Shareholders to participate in the Offer for Sale, pursuant to its resolutions dated July 28, 2025 and October 25, 2025**.** Our Board has approved the Draft Red Herring Prospectus pursuant to its resolution dated July 28, 2025. Further, our Board has approved this Red Herring prospectus pursuant to its resolution dated October 25, 2025.

Each of the Selling Shareholders, severally and not jointly, confirms that it is eligible to participate in the Offer for Sale in compliance with Regulation 8 and 8A of the SEBI ICDR Regulations.

*In-principle Listing Approvals*

Our Company has received in-principle approvals from the BSE and NSE for the listing of our Equity Shares pursuant to their letters, each dated September 5, 2025.

### Prohibition by SEBI or other governmental authorities

Our Company, Promoters, each of the Selling Shareholders, Directors, members of our Promoter Group and the persons in control of our Company are not prohibited from accessing the capital market or debarred from buying, selling or dealing in securities under any order or direction passed by SEBI or any securities market regulator in any other jurisdiction or any other authority/court.

Our Directors and Promoters are not directors or promoters of any other company which has been debarred from accessing the capital markets by SEBI.

Our Company, Promoters and Directors have not been declared as Wilful Defaulters or Fraudulent Borrowers as defined under SEBI ICDR Regulation

Our Directors have not been declared as Fugitive Economic Offenders.

### Compliance with the Companies (Significant Beneficial Owners) Rules, 2018

Our Company, our Promoters, members of our Promoter Group and each of the Selling Shareholders, severally and not jointly, confirm that they are in compliance with the Companies (Significant Beneficial Owners) Rules, 2018, as amended, to the extent of the Equity Shares held by them, as on the date of this Red Herring Prospectus.

**Directors associated with securities market**

None of our Directors are, in any manner, associated with the securities market. Further, there are no outstanding actions initiated by SEBI against any of our Directors, in the five years preceding the date of this Red Herring Prospectus.

**Eligibility for the Offer**

Our Company is eligible for the Offer in accordance with Regulation 6(2) of the SEBI ICDR Regulations, which states as follows:

"*An issuer not satisfying the condition stipulated in sub-regulation (1) shall be eligible to make an initial public offer only if the issue is made through the book-building process and the issuer undertakes to allot at least seventy five per cent. of the net offer to qualified institutional buyers and to refund the subscription money if it fails to do so.*"

We are an unlisted company that does not satisfy the condition specified in Regulation 6(1)(b) of the SEBI ICDR Regulations, i.e., our Company does not have an average operating profit of at least fifteen crore rupees and is therefore required to allot not less than 75% of the Offer to QIBs to meet the conditions as detailed under Regulation 6(2) of the SEBI ICDR Regulations. In the event we fail to do so, the full application monies shall be refunded to the Bidders, in accordance with the SEBI ICDR Regulations.

| Particulars | As at March 31, 2025 | As at March 31, 2024 | As at March 31, 2023 |
|---|---|---|---|
| Net tangible assets as at, as restated and consolidated (₹ in million)* (A) | 36,122.34 | 31,478.98 | 28,605.40 |
| Pre-tax Operating profit/ (loss) for the year ended, as restated and consolidated (₹ in million) ** | 1,744.87 | (1.49) | (1,578.44) |
| Net worth as at, as restated and consolidated (₹ in million) *** | 61,082.99 | 56,423.78 | 54,444.79 |
| Monetary assets as at, as restated and consolidated (₹ in million) **** (B) | 20,304.12 | 21,112.82 | 26,088.89 |
| Monetary assets, as restated and consolidated, as a % of net tangible assets, as restated and consolidated (%) (B)/(A) | 56.21% | 67.07% | 91.20% |

*Notes:*

* *Net Tangible Assets, on restated basis have been computed as sum of all assets of the Group excluding other intangible assets, intangible assets under development, right-of-use assets, investment properties - right-of-use assets goodwill and deferred tax assets(net) and reduced by total liabilities excluding deferred tax liabilities (net), non-current liabilities-financial liabilities-lease liabilities and current liabilities-financial liabilities-lease liabilities of the Group.*

** *Restated Pre-tax Operating Profit has been calculated as restated profit/ (loss) before tax excluding finance costs and other income.*

*** *Net worth means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation in accordance with Regulation 2(1)(hh) of the SEBI ICDR Regulations. We have calculated net worth by aggregate value of equity share capital, Instruments entirely equity in nature, Other equity excluding Foreign currency translation reserve.*

**** *Monetary assets represent cash and cash equivalents, bank balances other than cash and cash equivalent, Bank deposits remaining maturity within 12 months of the reporting date, Other fixed deposits with Non-Banking Financial Institutions remaining maturity within 12 months of the reporting date, deposit with remaining maturity of more than twelve months and other fixed deposits with Non-Banking Financial Institutions with remaining maturity of more than twelve months and investment in mutual fund – debt fund*

Our Company confirms that it is in compliance with the conditions specified in Regulation 7(1) of the SEBI ICDR Regulations, to the extent applicable, and will ensure compliance with the conditions specified in Regulation 7(2) of the SEBI ICDR Regulations, to the extent applicable.

Further, in accordance with Regulation 49(1) of the SEBI ICDR Regulations, our Company shall ensure that the number of Allottees under the Offer shall be not less than 1,000, failing which, the entire application money will be refunded forthwith.

Further, our Company confirms that it is not ineligible to make the Offer in terms of Regulation 5 of the SEBI ICDR Regulations, to the extent applicable. Our Company is in compliance with the following conditions specified in Regulation 5 of the SEBI ICDR Regulations:

(i) None of our Promoters or our Directors are promoters or directors of companies which are debarred from accessing the capital markets by SEBI;

(ii) None of our Company, our Promoters or our Directors have been categorized as a Wilful Defaulter or a Fraudulent Borrower as defined under SEBI ICDR Regulation;

(iii) None of our Promoters and our Directors are fugitive economic offenders; and

(iv) As on the date of this Red Herring Prospectus, except for employee stock options granted pursuant to the ESOP Schemes, there are no outstanding warrants, options or rights to convert debentures, loans or other instruments

convertible into, or which would entitle any person any option to receive Equity Shares. Further, there are no outstanding stock appreciation rights granted to employees pursuant to a stock appreciation right scheme by our Company as on the date of this Red Herring Prospectus.

We are eligible to undertake the Offer as per Rule 19(2)(b) of the SCRR read with Regulations 6(2) of the SEBI ICDR Regulations. Accordingly, in accordance with Regulation 32(2) of the SEBI ICDR Regulations we are required to allot not less than 75% of the Offer to QIBs. Further, not more than 15% of the Offer shall be available for allocation to Non-Institutional Bidders out of which (a) one third of such portion shall be reserved for applicants with application size of more than ₹200,000 and up to ₹1,000,000; and (b) two third of such portion shall be reserved for applicants with application size of more than ₹1,000,000, provided that the unsubscribed portion in either of such sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders and not more than 10% of the Offer shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price. In the event we fail to do so, the full application money shall be refunded to the Bidders.

**DISCLAIMER CLAUSE OF SEBI**

**IT IS TO BE DISTINCTLY UNDERSTOOD THAT SUBMISSION OF THE DRAFT RED HERRING PROSPECTUS TO SEBI SHOULD NOT, IN ANY WAY, BE DEEMED OR CONSTRUED THAT THE SAME HAS BEEN CLEARED OR APPROVED BY SEBI. SEBI DOES NOT TAKE ANY RESPONSIBILITY EITHER FOR THE FINANCIAL SOUNDNESS OF ANY SCHEME OR THE PROJECT FOR WHICH THE OFFER IS PROPOSED TO BE MADE OR FOR THE CORRECTNESS OF THE STATEMENTS MADE OR OPINIONS EXPRESSED IN THE DRAFT RED HERRING PROSPECTUS. THE BOOK RUNNING LEAD MANAGERS, BEING KOTAK MAHINDRA CAPITAL COMPANY LIMITED, MORGAN STANLEY INDIA COMPANY PRIVATE LIMITED, AVENDUS CAPITAL PRIVATE LIMITED, CITIGROUP GLOBAL MARKETS INDIA PRIVATE LIMITED, AXIS CAPITAL LIMITED AND INTENSIVE FISCAL SERVICES PRIVATE LIMITED, HAVE CERTIFIED THAT THE DISCLOSURES MADE IN THE DRAFT RED HERRING PROSPECTUS ARE GENERALLY ADEQUATE AND ARE IN CONFORMITY WITH THE SECURITIES AND EXCHANGE BOARD OF INDIA (ISSUE OF CAPITAL AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2018, AS AMENDED. THIS REQUIREMENT IS TO FACILITATE BIDDERS TO TAKE AN INFORMED DECISION FOR MAKING AN INVESTMENT IN THE PROPOSED OFFER.**

**IT SHOULD ALSO BE CLEARLY UNDERSTOOD THAT WHILE THE COMPANY IS PRIMARILY RESPONSIBLE FOR THE CORRECTNESS, ADEQUACY AND DISCLOSURE OF ALL RELEVANT INFORMATION IN THE DRAFT RED HERRING PROSPECTUS AND EACH OF THE SELLING SHAREHOLDERS, SEVERALLY AND NOT JOINTLY, WILL BE RESPONSIBLE ONLY FOR THE STATEMENTS SPECIFICALLY CONFIRMED OR UNDERTAKEN BY IT IN THE DRAFT RED HERRING PROSPECTUS IN RELATION TO ITSELF FOR ITS RESPECTIVE PORTION OF OFFERED SHARES. THE BOOK RUNNING LEAD MANAGERS ARE EXPECTED TO EXERCISE DUE DILIGENCE TO ENSURE THAT THE COMPANY AND EACH OF THE SELLING SHAREHOLDERS, TO THE EXTENT OF THEIR RESPECTIVE OFFERED SHARES IN THE OFFER, DISCHARGE THEIR RESPONSIBILITIES ADEQUATELY IN THIS BEHALF AND TOWARDS THIS PURPOSE, THE BOOK RUNNING LEAD MANAGERS, BEING KOTAK MAHINDRA CAPITAL COMPANY LIMITED, MORGAN STANLEY INDIA COMPANY PRIVATE LIMITED, AVENDUS CAPITAL PRIVATE LIMITED, CITIGROUP GLOBAL MARKETS INDIA PRIVATE LIMITED, AXIS CAPITAL LIMITED AND INTENSIVE FISCAL SERVICES PRIVATE LIMITED HAVE FURNISHED TO SEBI, A DUE DILIGENCE CERTIFICATE DATED JULY 28, 2025, IN THE FORMAT PRESCRIBED UNDER SCHEDULE V(A) OF THE SECURITIES AND EXCHANGE BOARD OF INDIA (ISSUE OF CAPITAL AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2018, AS AMENDED.**

**THE FILING OF THE DRAFT RED HERRING PROSPECTUS AND THIS RED HERRING PROSPECTUS DOES NOT, HOWEVER, ABSOLVE THE COMPANY FROM ANY LIABILITIES UNDER THE COMPANIES ACT, 2013, AS AMENDED OR FROM THE REQUIREMENT OF OBTAINING SUCH STATUTORY AND/OR OTHER CLEARANCES AS MAY BE REQUIRED FOR THE PURPOSE OF THE OFFER. SEBI FURTHER RESERVES THE RIGHT TO TAKE UP, AT ANY POINT OF TIME, WITH THE BOOK RUNNING LEAD MANAGERS, ANY IRREGULARITIES OR LAPSES IN THE DRAFT RED HERRING PROSPECTUS.**

All legal requirements pertaining to the Offer have been complied with at the time of filing of this Red Herring Prospectus with the Registrar of Companies in terms of Section 32 of the Companies Act. All legal requirements pertaining to the Offer will be complied with at the time of filing of the Prospectus with the Registrar of Companies in terms of Sections 26, 32, 33(1) and 33(2) of the Companies Act.

**Disclaimer from our Company, our Directors and the BRLMs**

Our Company, our Directors and the BRLMs accept no responsibility for statements made otherwise than in this Red Herring Prospectus or in the advertisements or any other material issued by or at our Company's instance and anyone placing reliance on any other source of information, including our Company's website https://www.lenskart.com, or website of any affiliate of our Company or any of our Group Companies, would be doing so at his or her own risk.

The BRLMs accept no responsibility, save to the limited extent as provided in the Offer Agreement and as will be provided for

in the Underwriting Agreement.

All information, to the extent required in relation to the Offer, shall be made available by our Company and the BRLMs to the public and investors at large and no selective or additional information would be available for a section of the investors in any manner whatsoever, including at road show presentations, in research or sales reports, at Bidding centres or elsewhere.

Bidders will be required to confirm and will be deemed to have represented to our Company, the Underwriters and their respective directors, partners, designated partners, trustees, officers, agents, affiliates, and representatives that they are eligible under all applicable laws, rules, regulations, guidelines and approvals to acquire the Equity Shares and will not issue, sell, pledge, or transfer the Equity Shares to any person who is not eligible under any applicable laws, rules, regulations, guidelines and approvals to acquire the Equity Shares. Our Company, the Underwriters and their respective directors, partners, designated partners, trustees, officers, agents, affiliates, and representatives accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire the Equity Shares.

The BRLMs and their respective associates and affiliates in their capacity as principals or agents may engage in transactions with, and perform services for, our Company, the Selling Shareholders and their respective affiliates or associates or third parties in the ordinary course of business and have engaged, or may in the future engage, in commercial banking and investment banking transactions with or become customers to our Company, each of the Selling Shareholders and their respective affiliates or associates or third parties, for which they have received, and may in the future receive, compensation.

**Disclaimer from the Selling Shareholders**

The Selling Shareholders, severally and not jointly, accept no responsibility for statements made otherwise than in this Red Herring Prospectus (only to the extent of those statements expressly confirmed by such Selling Shareholder in this Red Herring Prospectus solely in relation to itself and its respective portion of the Offered Shares) or in the advertisements or any other material issued by or at our Company's instance and anyone placing reliance on any other source of information, including our Company's website www.lenskart.com, or the respective websites of any affiliate of our Company or the respective websites of the BRLMs or the respective websites any of the Selling Shareholders would be doing so at his or her own risk.

Each of the Selling Shareholders, severally and not jointly, accept no responsibility for any statements made or undertakings provided in this Red Herring Prospectus other than those specifically made or confirmed by such Selling Shareholder in relation to itself as a Selling Shareholder and/or with respect to its portion of the Offered Shares.

Bidders will be required to confirm and will be deemed to have represented to each of the Selling Shareholders and/or their respective directors, partners, designated partners, trustees, associates, officers, agents, affiliates, and representatives that they are eligible under all applicable laws, rules, regulations, guidelines and approvals to acquire the Equity Shares and will not sell, pledge, or transfer the Equity Shares to any person who is not eligible under any applicable laws, rules, regulations, guidelines and approvals to acquire the Equity Shares. Each of the Selling Shareholders and/or their respective directors, partners, designated partners, trustees, associates, officers, agents, affiliates, and representatives accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire the Equity Shares.

**Disclaimer in respect of Jurisdiction**

This Offer is being made in India to persons resident in India including Indian nationals resident in India who are competent to contract under the Indian Contract Act, 1872, as amended, HUFs, companies, corporate bodies and societies registered under the applicable laws in India and authorised to invest in equity shares, domestic Mutual Funds registered with SEBI, Indian financial institutions, commercial banks, regional rural banks, co-operative banks (subject to permission from RBI), systemically important NBFCs or trusts under applicable trust laws and who are authorised under their respective constitutions to hold and invest in shares, public financial institutions as specified in Section 2(72) of the Companies Act, 2013, multilateral and bilateral development financial institutions, state industrial development corporations, insurance companies registered with IRDAI, provident funds (subject to applicable law) and pension funds with minimum corpus of ₹250,000,000, registered with the Pension Fund Regulatory and Development Authority established under sub-section (1) of section 3 of the Pension Fund Regulatory and Development Authority Act, 2013, National Investment Fund, insurance funds set up and managed by army, navy or air force of Union of India, insurance funds set up and managed by the Department of Posts, GoI, NBFC-SIs and permitted Non-Residents including FPIs and Eligible NRIs, AIFs, and other eligible foreign investors, if any, provided that they are eligible under all applicable laws and regulations to purchase the Equity Shares.

This Red Herring Prospectus does not, however, constitute an offer to sell or an invitation to subscribe to Equity Shares offered hereby, in any jurisdiction to any person to whom it is unlawful to make an offer or invitation in such jurisdiction. Any person into whose possession this Red Herring Prospectus comes is required to inform himself or herself about, and to observe, any such restrictions. The Draft Red Herring Prospectus did not constitute an invitation to subscribe to or purchase the Equity Shares in the Offer in any jurisdiction, including India.

Any dispute arising out of this Offer will be subject to the jurisdiction of appropriate court(s) in New Delhi, India only.

No action has been, or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose, except that the Draft Red Herring Prospectus has been filed with SEBI for its observations. Accordingly, the Equity Shares represented hereby may not be offered or sold, directly or indirectly, and this Red Herring Prospectus may not be distributed, in any jurisdiction, except in accordance with the legal requirements applicable in such jurisdiction. Neither the delivery of this Red Herring Prospectus, nor any offer or sale hereunder, shall, under any circumstances, create any implication that there has been no change in our affairs or in the affairs of any of the Selling Shareholders from the date hereof or that the information contained herein is correct as of any time subsequent to this date.

Bidders are advised to ensure that any Bid from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law.

**No person outside India is eligible to Bid for Equity Shares in the Offer unless that person has received the preliminary offering memorandum for the Offer, which contains the selling restrictions for the Offer outside India.**

**Eligibility and Transfer Restrictions**

The Equity Shares have not been, and will not be, registered under the U.S. Securities Act or any state securities laws in the United States and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws in the United States. Accordingly, the Equity Shares are only being offered and sold (i) within the United States to persons reasonably believed to be "qualified institutional buyers" (as defined in Rule 144A under the U.S. Securities Act and referred to in this Red Herring Prospectus as "U.S. QIBs", for the avoidance of doubt, the term U.S. QIBs does not refer to a category of institutional investor defined under applicable Indian regulations and referred to in this Red Herring Prospectus as "QIBs") pursuant to Section 4(a) of the U.S. Securities Act, and (ii) outside the United States in "offshore transactions" as defined in, and in compliance with, Regulation S under the U.S. Securities Act and, in each case, in compliance with the applicable laws of the jurisdictions where those offers and sales are made.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Until the expiry of 40 days after the commencement of this Offer, an offer or sale of Equity Shares within the United States by a dealer (whether or not it is participating in this Offer) may violate the registration requirements of the U.S. Securities Act, unless made pursuant to Rule 144A or another available exemption from the registration requirements of the U.S. Securities Act and in accordance with applicable state securities laws in the United States.

**Disclaimer Clause of the BSE**

As required, a copy of the Draft Red Herring Prospectus has been submitted to the BSE. The disclaimer clause as intimated by BSE to our Company, post scrutiny of the Draft Red Herring Prospectus, is set forth below:

"*BSE Limited ("**the Exchange**") has given vide its letter dated September 5, 2025, permission to this Company to use the Exchange's name in this offer document as one of the stock exchanges on which this company's securities are proposed to be listed. The Exchange has scrutinized this offer document for its limited internal purpose of deciding on the matter of granting the aforesaid permission to this Company. The Exchange does not in any manner: -*

*a. warrant, certify or endorse the correctness or completeness of any of the contents of this offer document; or*

*b. warrant that this Company's securities will be listed or will continue to be listed on the Exchange; or*

**Listing**

The Equity Shares issued through this Red Herring Prospectus and the Prospectus are proposed to be listed on the BSE and NSE. Applications will be made to the Stock Exchanges for obtaining permission to deal in and for an official quotation of the Equity Shares being issued and sold in the Offer and NSE is the Designated Stock Exchange, with which the Basis of Allotment will be finalised for the Offer.

If the permission to deal in and for an official quotation of the Equity Shares is not granted by the Stock Exchanges, our Company shall forthwith repay, without interest, all monies received from the applicants in pursuance of this Red Herring Prospectus in accordance with applicable law. Each of the Selling Shareholders, severally and not jointly, confirms that it shall extend reasonable support and co-operation as reasonably requested by our Company and/or the BRLMs required under Applicable Law in relation to its respective Offered Shares for the completion of listing of the Equity Shares at the Stock Exchanges.

Our Company shall ensure that all steps for the completion of the necessary formalities for listing and commencement of trading of Equity Shares at the Stock Exchanges are taken within such period as may be prescribed by the SEBI.

If our Company does not allot Equity Shares pursuant to the Offer within such timeline as prescribed by the SEBI, it shall repay without interest all monies received from Bidders, failing which interest shall be due to be paid to the Bidders at the rate of 15% per annum for the delayed period. The Selling Shareholders shall reimburse, severally and not jointly, and only to the extent of the Equity Shares offered by such Selling Shareholder in the Offer, any expenses and interest incurred by our Company on behalf of the Selling Shareholders for any delays in making refunds as required under the Companies Act and any other applicable law, provided that the Selling Shareholders shall not be responsible or liable for payment of such expenses or interest, unless such delay is solely and directly attributable to an act or omission by such Selling Shareholder in relation to its / his portion of the Offered Shares.

**Consents**

Consents in writing of: (a) each of the Selling Shareholders, our Directors, our Company Secretary and Chief Compliance Officer, the legal counsels, the bankers/ lenders to our Company, industry sources, independent chartered accountant, architect, independent chartered engineer, the BRLMs and Registrar to the Offer, to act in their respective capacities have been obtained; and (b) the Syndicate Members, Bankers to the Offer/Escrow Banks, Public Offer Account Banks, Sponsor Banks and Refund Banks to act in their respective capacities, have been obtained and will be filed along with a copy of this Red Herring Prospectus with the RoC as required under the Companies Act and such consents have not been withdrawn up to the time of delivery of this Red Herring Prospectus and the Prospectus for filing with the RoC.

**Experts to the Offer**

**Stock Market Data of the Equity Shares**

This being an initial public offer of our Company, the Equity Shares are not listed on any stock exchange and accordingly, no stock market data is available for the Equity Shares.

**Mechanism for redressal of investor grievances**

The Registrar Agreement provides for the retention of records with the Registrar to the Offer for a period of at least eight years from the date of listing and commencement of trading of the Equity Shares on the Stock Exchanges, to enable the investors to approach the Registrar to the Offer for redressal of their grievances.

All Offer-related grievances, other than of Anchor Investors may be addressed to the Registrar to the Offer with a copy to the relevant Designated Intermediary with whom the Bid cum Application Form was submitted, giving full details such as name of the sole or First Bidder, Bid cum Application Form number, Bidder's DP ID, Client ID, PAN, address of Bidder, number of Equity Shares applied for, ASBA Account number in which the amount equivalent to the Bid Amount was blocked or the UPI ID (for UPI Bidders who make the payment of Bid Amount), date of Bid cum Application Form and the name and address of the relevant Designated Intermediary where the Bid was submitted. Further, the Bidder shall enclose the Acknowledgment Slip or the application number from the Designated Intermediary in addition to the documents or information mentioned hereinabove. All grievances relating to Bids submitted through Registered Brokers may be addressed to the Stock Exchanges with a copy to the Registrar to the Offer. For offer related grievances, investors may contact the BRLMs, details of which are given in *"**General Information**"* beginning on page 123.

All grievances of the Anchor Investors may be addressed to the Registrar to the Offer, giving full details such as the name of the sole or First Bidder, Bid cum Application Form number, Bidders' DP ID, Client ID, PAN, date of the Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Bid cum Application Form and the name and address of the BRLMs with whom the Bid cum Application Form was submitted by the Anchor Investor.

In case of any delay in unblocking of amounts in the ASBA Accounts exceeding two Working Days from the Bid / Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹100.00 per day or 15% per annum of the Bid Amount, whichever is higher, for the entire duration of delay exceeding two Working Days from the Bid/ Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

In terms of the SEBI ICDR Master Circular, and subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days. Further, the investors shall be compensated by the SCSBs in accordance with the SEBI ICDR Master Circular in the events of delayed unblock for cancelled/withdrawn/deleted applications, blocking of multiple amounts for the same UPI application, blocking of more amount than the application amount, delayed unblocking of amounts for non-allotted/partially-allotted applications, for the stipulated period. In an event there is a delay in redressal of the investor grievance in relation to unblocking of amounts, the post-Offer BRLM shall also compensate the investors at the rate higher of ₹100.00 or 15% per annum of the Bid Amount for the period of such delay. Further, in terms of the SEBI ICDR Master Circular, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The following compensation mechanism has become applicable for investor grievances in relation to Bids made through the UPI Mechanism, for which the relevant SCSBs shall be liable to compensate the investor:

| Scenario | Compensation amount | Compensation period |
|---|---|---|
| Delayed unblock for cancelled / withdrawn / deleted applications | ₹100.00 per day or 15% per annum of the Bid Amount, whichever is higher | From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock |

| Scenario | Compensation amount | Compensation period |
|---|---|---|
| Blocking of multiple amounts for the same Bid made through the UPI Mechanism | Instantly revoke the blocked funds other than the original application amount and ₹100.00 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher | From the date on which multiple amounts were blocked till the date of actual unblock |
| Blocking more amount than the Bid Amount | Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount and ₹100.00 per day or 15% per annum of the difference amount, whichever is higher | From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock |
| Delayed unblock for non – Allotted / partially Allotted applications | ₹100.00 per day or 15% per annum of the Bid Amount, whichever is higher | From the Working Day subsequent to the finalisation of the Basis of Allotment till the date of actual unblock |

Further, in the event there are any delays in resolving the investor grievance beyond the date of receipt of the complaint from the investor, for each day delayed, the post-Offer BRLM shall be liable to compensate the investor at the rate of ₹100.00 per day or 15% per annum of the Bid Amount, whichever is higher. The compensation shall be payable for the period ranging from the day on which the investor grievance is received till the date of actual unblock.

Our Company, the BRLMs, each of the Selling Shareholders, severally and not jointly, and the Registrar to the Offer accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under the applicable provisions of SEBI ICDR Regulations.

For helpline details of the Book Running Lead Managers pursuant to the SEBI ICDR Master Circular, see "***General Information – Book Running Lead Managers***" on page 124.

Further, the Bidder shall also enclose a copy of the Acknowledgment Slip duly received from the concerned Designated Intermediary in addition to the information mentioned hereinabove.

All grievances relating to Bids submitted with Registered Brokers may be addressed to the Stock Exchanges with a copy to the Registrar to the Offer. The Registrar to the Offer shall obtain the required information from the SCSBs and Sponsor Banks for addressing any clarifications or grievances of ASBA Bidders. Bidders can contact our Company Secretary and Chief Compliance Officer, the BRLMs or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund intimations and non-receipt of funds by electronic mode.

**Disposal of Investor Grievances by our Company**

Our Company estimates that the average time required by our Company or the Registrar to the Offer or the SCSB in case of ASBA Bidders, for the redressal of routine investor grievances shall be seven Working Days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

Our Company has obtained authentication on the SEBI SCORES platform in terms of the SEBI circular bearing number SEBI/HO/OIAE/IGRD/CIR/P/2023/156 dated September 20, 2023, and shall comply with the SEBI circulars in relation to redressal of investor grievances through SCORES.

Our Company has constituted a Stakeholders' Relationship Committee which is responsible for redressal of grievances of the security holders of our Company. For details, see "***Our Management - Stakeholders' Relationship Committee***" on page 384.

Our Company has appointed Preeti Gupta as our Company Secretary and Chief Compliance Officer, who may be contacted in case of any pre-Offer or post-Offer related grievances. For details, see "***General Information***" beginning on page 123.

Each of the Selling Shareholders have severally and not jointly authorised the Company Secretary and Chief Compliance Officer of our Company, and the Registrar to the Offer to redress any complaints received from Bidders in respect of its respective portion of the Offered Shares.

Our Company has not received any investor complaint during the three years preceding the date of this Red Herring Prospectus. Further, no investor complaint in relation to our Company is pending as on the date of this Red Herring Prospectus. For details regarding complaints received post the filing of the Draft Red Herring Prospectus, see "***Risk Factors - There are outstanding legal proceedings involving our Company, our Directors, our Key Managerial Personnel and Senior Management Personnel, our Promoters and our Subsidiaries. An unfavourable outcome in such proceedings may have an adverse effect on our business, results of operations, financial condition and cash flows.***" on page 96.

**Exemption from complying with any provisions of securities laws, if any, granted by SEBI**

Our Company has not applied for any exemption or made any exemption application to SEBI, in relation to compliance with provisions of securities laws as on the date of this Red Herring Prospectus.

**Other confirmations**

No person connected with the Offer shall not offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any person for making an application in the Offer, except for fees or commission for services rendered in relation to the Offer.

## SECTION IX – OFFER INFORMATION

## TERMS OF THE OFFER

The Equity Shares being offered, Allotted and transferred pursuant to the Offer shall be subject to the provisions of the Companies Act, the SEBI ICDR Regulations, the SCRA, the SCRR, the Memorandum of Association, the Articles of Association, the SEBI Listing Regulations, the terms of the Draft Red Herring Prospectus, this Red Herring Prospectus and the Prospectus, the Bid cum Application Form, the Revision Form, the Abridged Prospectus and other terms and conditions as may be incorporated in the CAN (for Anchor Investors), Allotment Advice and other terms and conditions as may be incorporated in the Allotment Advice and other documents and certificates that may be executed in respect of the Offer. The Equity Shares shall also be subject to applicable laws, guidelines, rules, notifications and regulations relating to the issue of capital, offer for sale and listing and trading of securities, issued from time to time, by SEBI, the Government of India, the Stock Exchanges, the RoC, the RBI and/or other authorities, as in force on the date of the Offer and to the extent applicable or such other conditions as may be prescribed by SEBI, the Government of India, the Stock Exchange, the RoC, the RBI and/or other governmental, statutory or regulatory authorities while granting approval for the Offer, to the extent and for such time as these continue to be applicable.

### The Offer

The Offer comprises a Fresh Issue by our Company and an Offer for Sale by the Selling Shareholders. Expenses for the Offer shall be shared amongst our Company and each of the Selling Shareholders, severally and not jointly, in the manner specified in '***Objects of the Offer – Offer related expenses***' on page 219.

### Ranking of Equity Shares

The Equity Shares being offered, Allotted/transferred pursuant to the Offer shall be subject to the provisions of the Companies Act, SEBI Listing Regulations, SEBI ICDR Regulations, SCRA read with SCRR, the Memorandum of Association and the Articles of Association and will rank *pari passu* in all respects with the existing Equity Shares of our Company, including in respect of rights to receive dividends, voting and other corporate benefits, if any, declared by our Company after the date of Allotment in accordance with applicable law. For more information, see "***Provisions of the Articles of Association***" beginning on page 1,016.

### Mode of Payment of Dividend

Our Company shall pay dividends, if declared, to the Shareholders, as per the provisions of the Companies Act 2013, the SEBI Listing Regulations, the Memorandum of Association and the Articles of Association, and any other applicable law including any guidelines or directives that may be issued by the Government of India in this respect. All dividends declared by our Company after the date of Allotment (including pursuant to the transfer of Equity Shares in the Offer for Sale) in this Offer, will be payable to the Allottees who have been Allotted Equity Shares in the Offer, for the entire year, in accordance with applicable laws. For more information, see "***Dividend Policy***" and "***Provisions of the Articles of Association***" beginning on pages 397 and 1,016, respectively.

### Face Value, Offer Price, Floor Price and Price Band

The face value of each Equity Share is ₹2 and the Offer Price at the lower end of the Price Band is ₹[●] per Equity Share and at the higher end of the Price Band is ₹[●] per Equity Share. The Offer Price is ₹[●] per Equity Share. The Anchor Investor Offer Price is ₹[●] per Equity Share.

The Offer Price, the Price Band (net of Employee Discount) and the minimum Bid Lot will be decided by our Company in consultation with the BRLMs, and published by our Company in all editions of Financial Express (a widely circulated English national daily newspaper) and all editions of Jansatta (a widely circulated Hindi national daily newspaper, Hindi also being the regional language of Delhi, where our Registered Office is located) each with wide circulation, at least two Working Days prior to the Bid/Offer Opening Date, and shall be made available to the Stock Exchanges for the purpose of uploading the same on their websites. The Price Band, along with the relevant financial ratios calculated at the Floor Price and at the Cap Price shall be pre-filled in the Bid-cum-Application Forms available at the respective websites of the Stock Exchanges. The Offer Price shall be determined by our Company in consultation with the BRLMs, after the Bid / Offer Closing Date, on the basis of assessment of market demand for the Equity Shares offered by way of Book Building Process.

At any given point in time there will be only one denomination for the Equity Shares.

### Compliance with disclosure and accounting norms

Our Company shall comply with all disclosure and accounting norms as specified by SEBI from time to time.

### Rights of the Equity Shareholder

Subject to applicable laws, rules, regulations and guidelines and the Articles of Association, our Equity Shareholders will have the following rights:

- Right to receive dividends, if declared;
- Right to attend general meetings and exercise voting rights, unless prohibited by law;
- Right to vote on a poll either in person or by proxy and e-voting, in accordance with the provisions of the Companies Act;
- Right to receive offers for rights shares and be allotted bonus shares, if announced;
- Right to receive any surplus on liquidation subject to any statutory and preferential claim being satisfied;
- Right of free transferability of their Equity Shares, subject to applicable foreign exchange regulations and other applicable laws including any RBI rules; and
- Such other rights as may be available to a shareholder of a listed public company under the Companies Act, the terms of the SEBI Listing Regulations and the Articles of Association.

For a detailed description of the provisions of our Articles of Association relating to voting rights, dividend, forfeiture, lien, transfer, transmission, consolidation and splitting, see "***Provisions of the Articles of Association***" beginning on page 1,016.

**Allotment only in dematerialised Form**

Pursuant to Section 29 of the Companies Act, 2013 and the SEBI ICDR Regulations, the Equity Shares shall be Allotted only in dematerialised form. As per the SEBI ICDR Regulations and the SEBI Listing Regulations, the trading of the Equity Shares shall only be in dematerialised form on the Stock Exchanges.

In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Offer:

- Tripartite Agreement dated May 24, 2013 amongst NSDL, our Company and Registrar to the Offer; and
- Tripartite Agreement dated March 25, 2025 amongst CDSL, our Company and Registrar to the Offer.

**Market Lot and Trading Lot**

Since trading of the Equity Shares on the Stock Exchanges is in dematerialised form, the tradable lot is one Equity Share. Allotment in the Offer will be only in dematerialised and electronic form in multiples of one Equity Share, subject to a minimum Allotment of [●] Equity Shares of face value of ₹2 each. For further details on the method of Basis of Allotment, see "***Offer Procedure***" beginning on page 994.

**Jurisdiction**

Exclusive jurisdiction for the purpose of the Offer is with the competent courts/authorities in New Delhi, India.

**The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act or any other applicable law of the United States and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States only to persons reasonably believed to be "qualified institutional buyers" (as defined in Rule 144A under the U.S. Securities Act and referred to in this Red Herring Prospectus as "U.S. QIBs") pursuant to Section 4(a) of the U.S. Securities Act, and (ii) outside the United States in "offshore transactions" as defined in, and in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales are made. For the avoidance of doubt, the term "U.S. QIBs" does not refer to a category of institutional investors defined under applicable Indian regulations and referred to in this Red Herring Prospectus as "QIBs".**

**The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.**

**Period of operation of subscription list**

For details, see "- ***Bid/Offer Programme***" on page 985.

**Joint Holders**

Subject to the provisions of the Articles of Association, where two or more persons are registered as the holders of the Equity Shares, they will be deemed to hold such Equity Shares as joint tenants with benefits of survivorship.

**Nomination facility to Bidders**

In accordance with Section 72 of the Companies Act 2013, read with Companies (Share Capital and Debentures) Rules, 2014, as amended, the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest, to the exclusion of all other persons, unless the nomination is modified or cancelled in the prescribed manner. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale, transfer or alienation of Equity Share(s) by the person nominating. A nomination may be cancelled or modified by nominating any other person in place of the present nominee, by the holder of the Equity Shares who made the nomination, by giving a notice of such cancellation or variation to our Company. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the Registrar and Transfer Agent of our Company.

Any person who becomes a nominee by virtue of Section 72 of the Companies Act 2013, as amended, will, on the production of such evidence as may be required by our Board, elect either:

- to register himself or herself as the holder of the Equity Shares; or
- to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividend, interests, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Offer will be made only in dematerialised form, there is no need to make a separate nomination with our Company. Nominations registered with the respective Depository Participant of the Bidder will prevail. If Bidders want to change their nomination, they are advised to inform their respective Depository Participants.

**Bid/Offer Programme**

An indicative timetable in respect of the Offer is set out below:

| Event | Indicative Date |
|---|---|
| **BID/OFFER OPENS ON** | Friday, October 31, 2025[(1)] |
| **BID/OFFER CLOSES ON** | Tuesday, November 4, 2025 [(2)(3)] |
| Finalisation of Basis of Allotment with the Designated Stock Exchange | Thursday, November 6, 2025 |
| Initiation of refunds (if any, for Anchor Investors)/unblocking of funds from ASBA Account[*] | Friday, November 7, 2025 |
| Credit of Equity Shares to demat accounts of Allottees | Friday, November 7, 2025 |
| Commencement of trading of the Equity Shares on the Stock Exchanges | Monday, November 10, 2025 |

*1. Our Company, in consultation with the BRLMs, may consider participation by Anchor Investors in accordance with the SEBI ICDR Regulations.*

*2. Our Company, in consultation with the BRLMs, may consider closing the Bid/Offer Period for QIBs one Working Day prior to the Bid/Offer Closing Date in accordance with the SEBI ICDR Regulations.*

*3. UPI mandate end time and date shall be at 5:00 p.m. on the Bid/ Offer Closing Date.*

** In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date for cancelled/withdrawn/deleted ASBA Forms, the Bidder shall be compensated at a uniform rate of ₹100.00 per day or 15% per annum of the Bid Amount, whichever is higher from the date on which the request for cancellation/ withdrawal/ deletion is placed in the Stock Exchanges bidding platform until the date on which the amounts are unblocked (ii) any blocking of multiple amounts for the same ASBA Form (for amounts blocked through the UPI Mechanism), the Bidder shall be compensated at a uniform rate ₹100.00 per day or 15% per annum of the total cumulative blocked amount except the original application amount, whichever is higher from the date on which such multiple amounts were blocked till the date of actual unblock; (iii) any blocking of amounts more than the Bid Amount, the Bidder shall be compensated at a uniform rate of ₹100.00 per day or 15% per annum of the difference in amount, whichever is higher from the date on which such excess amounts were blocked till the date of actual unblock; (iv) any delay in unblocking of non-allotted/ partially allotted Bids, exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹100.00 per day or 15% per annum of the Bid Amount, whichever is higher, for the entire duration of delay exceeding two Working Days from the Bid/Offer Closing Date by the SCSB for causing such delay in unblocking. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. The Bidder shall be compensated by the manner specified in the SEBI ICDR Master Circular, which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of our Company with the SCSBs, to the extent applicable issued by SEBI, and any other applicable law in case of delays in resolving investor grievances in relation to blocking/unblocking of funds. The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation in compliance with the SEBI ICDR Master Circular, which has also prescribed that all individual investors applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to ₹500,000, shall use UPI. RIBs and individual investors Bidding under the Non-Institutional Portion Bidding for more than ₹200,000 and up to ₹500,000 using the UPI Mechanism, shall provide their UPI ID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.*

**The above timetable, other than the Bid/Offer Closing Date, is indicative and does not constitute any obligation or liability on our Company or the Selling Shareholders or the BRLMs.**

**Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within three Working Days from the Bid/ Offer Closing Date or such other time as prescribed by SEBI, the timetable may be subject to change due to various factors, such as extension of the Bid/Offer Period by our Company, in consultation with the BRLMs, revision of the Price Band by our Company, in consultation with the BRLMs or any delay in receiving the final listing and trading approval from the Stock Exchanges and delay in respect of final certificates from SCSBs. Our Company shall within two Working days from the closure of the Offer or such period as may be prescribed, refund the subscription amount received in case of non-receipt of minimum subscription or in case our Company fails to obtain listing or trading permission from the Stock Exchanges for the Equity Shares. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws. In order to facilitate the process of listing and commencement of trading of the Equity Shares on the Stock Exchanges within such time prescribed by SEBI, to the extent necessary, each of the Selling Shareholders, severally and not jointly, shall provide all required support and cooperation as required under applicable law or reasonably requested by our Company and/or the BRLMs in this respect to the extent such reasonable support and cooperation is in relation to such Selling Shareholder and its respective portion of the Offered Shares, for listing and commencement of trading of the Equity Shares at the Stock Exchanges within three Working Days from the Bid/ Offer Closing Date or such other time as prescribed by SEBI.**

SEBI vide circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, had reduced the post issue timeline for initial public offerings. The revised timeline of T+3 days has been made applicable in two phases, i.e., voluntary for all public issues opening on or after September 1, 2023, and mandatory on or after December 1, 2023. Accordingly, the Offer will be made under UPI Phase III on mandatory T+3 days listing basis, any circulars, clarification or notification issued by the SEBI from time to time, including with respect to the SEBI ICDR Master Circular.

In terms of the UPI Circulars, in relation to the Offer, the BRLMs will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the Allotment and listing procedure within three Working Days from the Bid/Offer Closing Date or such other time as prescribed by SEBI, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

**Any circulars or notifications from SEBI after the date of this Red Herring Prospectus may result in changes to the abovementioned timelines. Further, the offer procedure is subject to change basis any revised SEBI circulars to this effect.**

**Submission of Bids (other than Bids from Anchor Investors):**

| **Bid/Offer Period (except the Bid/Offer Closing Date)** | |
|---|---|
| Submission and revision in Bids | Only between 10.00 a.m. and 5.00 p.m. Indian Standard Time ("**IST**") |
| **Bid/Offer Closing Date*** | |
| Submission of electronic applications (online ASBA through 3-in-1 accounts) – For RIBs and Eligible Employees Bidding in the Employee Reservation Portion other than QIBs and Non-Institutional Investors | Only between 10.00 a.m. and 5.00 p.m. IST |
| Submission of electronic applications (Bank ASBA through online channels like internet banking, mobile banking and syndicate UPI ASBA applications where Bid Amount is up to ₹500,000) | Only between 10.00 a.m. and 4.00 p.m. IST |
| Submission of electronic applications (syndicate non-retail, non-individual applications) | Only between 10.00 a.m. and 3.00 p.m. IST |
| Submission of physical applications (Bank ASBA) | Only between 10.00 a.m. and 1.00 p.m. IST |
| Submission of physical applications (Syndicate non-retail, non-individual applications where Bid Amount is more than ₹500,000) | Only between 10.00 a.m. and 12.00 p.m. IST |
| **Modification/ Revision/cancellation of Bids** | |
| Upward revision of Bids by QIBs and Non-Institutional Bidders categories[#] | Only between 10.00 a.m. and 4.00 p.m. IST on Bid/ Offer Closing Date |
| Upward or downward revision of Bids or cancellation of Bids by RIBs and Eligible Employees Bidding in the Employee Reservation Portion] | Only between 10.00 a.m. and 5.00 p.m. IST |

*Our Company, in consultation with the BRLMs, may decide to close the Bid/ Offer Closing Period for QIBs one Working Day prior to the Bid/ Offer Closing Date, in accordance with the SEBI ICDR Regulations.*

* *UPI mandate end time and date shall be at 05:00 p.m. on Bid/ Offer Closing Date i.e., Tuesday, November 4, 2025.*

[#] *QIBs and Non-Institutional Bidders can neither revise their bids downwards nor cancel/withdraw their bids.*

**On the Bid/ Offer Closing Date, the Bids shall be uploaded until:**

(i) 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and

(ii) until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by RIBs and Eligible

Employees Bidding in the Employee Reservation Portion.

On the Bid/Offer Closing Date, extension of time may be granted by Stock Exchanges only for uploading Bids received by RIBs and Eligible Employees Bidding in the Employee Reservation Portion after taking into account the total number of Bids received and as reported by the BRLMs to the Stock Exchanges.

**The Registrar to the Offer shall submit the details of cancelled/withdrawn/deleted applications to the SCSBs on a daily basis within 60 minutes of the Bid closure time from the Bid/Offer Opening Date until the Bid/ Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLMs and the Registrar to the Offer on a daily basis.**

To avoid duplication, the facility of re-initiation provided to Syndicate Members shall preferably be allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.

**It is clarified that Bids shall be processed only after the application monies are blocked in the ASBA Account and Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs, or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.**

Due to limitation of time available for uploading the Bids on the Bid/Offer Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/Offer Closing Date, and in any case, no later than 2:00 pm IST on the Bid/Offer Closing Date. Any time mentioned in this Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bids are received on the Bid/Offer Closing Date, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Offer. Bids will be accepted only during Monday to Friday (excluding any public holiday).

Investors may please note that as per letter no. List/SMD/SM/2006 dated July 3, 2006 and letter no. NSE/IPO/25101-6 dated July 6, 2006 issued by BSE and NSE, respectively, Bids and any revision in Bids shall not be accepted on Saturdays, Sundays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders shall be uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges.

Our Company, in consultation with the BRLMs reserve the right to revise the Price Band during the Bid/Offer Period, in accordance with the SEBI ICDR Regulations. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly but the Floor Price shall not be less than the Face Value of the Equity Shares. In all circumstances, the Cap Price shall be at least 105% of the Floor Price and less than or equal to 120% of the Floor Price.

**In case of any revision to the Price Band, the Bid/Offer Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar unforeseen circumstances, our Company, in consultation with the BRLMs, may for reasons to be recorded in writing, extend the Bid/Offer Period for a minimum of one Working Day, subject to the Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band, and the revised Bid/ Offer Period, if applicable, will be widely disseminated by notification to the Stock Exchanges, by issuing a public notice and also by indicating the change on the respective websites of the BRLMs and at the terminals of the Syndicate Members and by intimation to Self-Certified Syndicate Banks ("SCSBs"), other Designated Intermediaries and the Sponsor Bank(s), as applicable. In case of a revision of the Price Band, the Bid lot shall remain the same.**

In case of discrepancy in data entered in the electronic book vis-vis data contained in the Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment. The Floor Price shall not be less than the face value of the Equity Shares.

**Employee Discount**

Employee Discount, will be offered to Eligible Employees bidding in the Employee Reservation Portion, and, at the time of making a Bid. Eligible Employees bidding in the Employee Reservation Portion at a price within the Price Band can make payment based on Bid Amount net of Employee Discount, at the time of making a Bid. Eligible Employees bidding in the Employee Reservation Portion at the Cut-Off Price have to ensure payment at the Cap Price, less Employee Discount, at the time of making a Bid. In case of any revision in the Price Band, the Bid/ Offer Period shall be extended for at least three additional Working Days after such revision of the Price Band, subject to the total Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band, and the revised Bid/ Offer Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges by issuing a public notice and also by indicating the change on the websites of the BRLMs and at the terminals of the members of the Syndicate. In case of discrepancy in the data entered in the electronic book vis à-vis the data contained in the physical Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges may be taken as the final data for the purpose of Allotment.

**Minimum Subscription**

The requirement of minimum subscription is not applicable to the Offer for Sale in accordance with the SEBI ICDR Regulations. In the event our Company does not receive (i) the minimum subscription of 90% of the Fresh Issue, on the Bid/ Offer Closing

Date; or (ii) minimum subscription in the Offer as specified under Rule 19(2)(b) of the SCRR, including through devolvement of Underwriters, if any, in accordance with applicable law, or if the subscription level falls below the thresholds mentioned above after the Bid/Offer Closing Date, on account of withdrawal of applications or after technical rejections, or if the listing or trading permission is not obtained from the Stock Exchanges for the Equity Shares being issued or offered under this Red Herring Prospectus, the Selling Shareholders, to the extent applicable, and our Company shall forthwith refund the entire subscription amount received in accordance with applicable law including the SEBI ICDR Master Circular. If there is a delay beyond two days after our Company becomes liable to pay the amount, our Company and our Directors, who are officers in default, shall pay interest at the rate of 15% per annum.

However, in case of under-subscription in the Offer, the Equity Shares will be allotted in the following order: (i) such number of Equity Shares will first be Allotted by our Company such that 90% of the Fresh Issue portion is subscribed; (ii) upon (i), all the Equity Shares held by the Selling Shareholders and offered for sale in the Offer for Sale will be Allotted (in proportion to the Offered Shares being offered by each Selling Shareholder); and (iii) once Equity Shares have been Allotted as per (i) and (ii) above, such number of Equity Shares will be Allotted by our Company towards the balance 10% of the Fresh Issue portion.

Each Selling Shareholder shall reimburse, severally and not jointly, and only to the extent of the Equity Shares offered by such Selling Shareholder in the Offer, any expenses and interest incurred by our Company on behalf of such Selling Shareholder for any delays in making refunds as required under the Companies Act and any other applicable law, provided that such Selling Shareholder shall not be responsible or liable for payment of such expenses or interest, unless such delay is solely and directly attributable to an act or omission of such Selling Shareholder in relation to its portion of the Offered Shares.

Further, in terms of Regulation 49(1) of the SEBI ICDR Regulations, our Company shall ensure that the number of Bidders to whom the Equity Shares will be Allotted will be not less than 1,000.

No liability to make any payment of interest or expenses shall accrue to any Selling Shareholder unless the delay in making any of the payments/refund hereunder or the delay in obtaining listing or trading approvals or any other approvals in relation to the Offer is caused solely by, and is directly attributable to, an act or omission of such Selling Shareholder and to the extent of its portion of the Offered Shares.

**Arrangements for Disposal of Odd Lots**

Since the Equity Shares will be traded in dematerialised form only, and the market lot for the Equity Shares will be one Equity Share, there are no arrangements for disposal of odd lots.

**New Financial Instruments**

Our Company is not issuing any new financial instruments through this Offer.

**Restrictions, if any on Transfer and Transmission of Equity Shares**

Except for lock-in of pre-Offer equity shareholding of our Company, lock-in of our Promoters' contribution and Anchor Investor lock-in, as detailed in *'**Capital Structure**'* beginning on page 132 and as provided in our Articles as detailed in '***Provisions of the Articles of Association***' beginning on page 1,016, there are no restrictions on transfers and transmission of shares/debentures and on their consolidation or splitting.

**Option to receive Equity Shares in Dematerialized Form**

Allotment of Equity Shares to successful Bidders will only be in the dematerialized form. Bidders will not have the option of Allotment of the Equity Shares in physical form. The Equity Shares on Allotment will be traded only in the dematerialized segment of the Stock Exchanges.

**Withdrawal of the Offer**

Our Company, in consultation with the BRLMs, reserves the right not to proceed with the Fresh Issue and each of the Selling Shareholders, reserve the right not to proceed with the Offer for Sale, in whole or in part thereof, to the extent of its respective portion of the Offered Shares, after the Bid/ Offer Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Offer and price band advertisements were published, within two days of the Bid/ Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer and inform the Stock Exchanges simultaneously. The BRLMs, through the Registrar to the Offer, shall notify the SCSBs and the Sponsor Banks to unblock the bank accounts of the ASBA Bidders and shall notify the Escrow Collection Bank to release the Bid Amounts to the Anchor Investors, within one Working Day from the date of receipt of such notification and also inform the Bankers to the Offer to process refunds to the Anchor Investors, as the case may be. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares of face value of ₹2 each are proposed to be listed simultaneously.

Notwithstanding the foregoing, the Offer is also subject to (i) the filing of the Prospectus with the RoC; and (ii) obtaining the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment and within three Working Days of the Bid/Offer Closing Date or such other time period as prescribed under Applicable Law and also in form the Bankers to the Offer to process refunds to the Anchor Investors, as the case may be. If our Company, in consultation with the BRLMs, withdraw the Offer after the Bid/ Offer Closing Date and thereafter determines that it will proceed with a public offering of the Equity Shares of face value of ₹2 each, our Company shall file a fresh draft red herring prospectus with SEBI and the Stock Exchanges. The notice of withdrawal will be issued in the same newspapers where the pre-Offer and price band advertisements have appeared, and the Stock Exchanges will also be informed promptly.

## OFFER STRUCTURE

The Offer is of up to [●] Equity Shares of face value of ₹2 each, for cash at a price of ₹[●] per equity share (including a share premium of [●] Equity Share) comprising a Fresh Issue of [●] Equity Shares of face value of ₹2 each, aggregating up to ₹21,500.00 million by our Company and an Offer for Sale of up to 127,562,573 Equity Shares of face value of ₹2 each, aggregating up to ₹[●] million by the Selling Shareholders. The Offer comprises of a Net Offer of up to [●] Equity Shares of face value ₹2 each and Employee Reservation Portion of up to [●] Equity Shares of face value ₹2 each aggregating up to ₹150.00 million. The Employee Reservation Portion shall not exceed 5% of our post-Offer paid-up Equity Share capital. The Offer and the Net Offer shall constitute [●]% and [●]%, respectively of the post-Offer paid-up Equity Share capital of our Company.

* *Assuming full subscription in the Offer.*

^ *SEBI vide the SEBI ICDR Master Circular, has mandated that ASBA applications in public issues shall be processed only after the application monies are blocked in the bank accounts of the Bidders. Accordingly, Stock Exchanges shall, for all categories of Bidders viz. QIBs, NIBs and RIBs and also for all modes through which the applications are processed, accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked.*

*# Eligible Employees Bidding in the Employee Reservation Portion can Bid up to a Bid Amount of ₹500,000 (net of Employee Discount). However, a Bid by an Eligible Employee in the Employee Reservation Portion will be considered for allocation, in the first instance, for a Bid Amount of up to ₹200,000 (net of Employee Discount). In the event of under-subscription in the Employee Reservation Portion, the unsubscribed portion will be available for allocation and Allotment, proportionately to all Eligible Employees who have Bid in excess of ₹200,000 (net of Employee Discount), subject to the maximum value of Allotment made to such Eligible Employee not exceeding ₹500,000 (net of Employee Discount). Further, an Eligible Employee Bidding in the Employee Reservation Portion can also Bid in the Net Offer and such Bids will not be treated as multiple Bids subject to applicable limits. The undersubscribed portion, if any, in the Employee Reservation Portion shall be added back to the Net Offer. In case of under-subscription in the Net Offer, spill-over to the extent of such under-subscription shall be permitted from the Employee Reservation Portion.*

*## Our Company in consultation with the BRLMs, may offer a discount of up to [●]% to the Offer Price (equivalent of ₹[●] per Equity Share) to Eligible Employees Bidding in the Employee Reservation Portion, subject to necessary approvals as may be required, and which shall be announced at least two Working Days prior to the Bid / Offer Opening Date.*

*1) Our Company, in consultation with the BRLMs, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis, in accordance with the SEBI ICDR Regulations. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being made to other Anchor Investors. In the event of under-subscription or non-Allotment in the Anchor Investor Portion, the balance Equity Shares in the Anchor Investor Portion shall be added to the Net QIB Portion. For details, see "**Offer Procedure**" beginning on page 994.*

*2) Subject to valid Bids being received at or above the Offer Price. This Offer is made in accordance with the Rule 19(2)(b) of the SCRR and is being made through the Book Building Process, in compliance with Regulation 6(2) of the SEBI ICDR Regulations wherein not less than 75% of the Offer shall be available for allocation on a proportionate basis to QIBs, provided that our Company, in consultation with the BRLMs, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allotment in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and spill-over from the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not more than 15% of the Offer shall be available for allocation on a proportionate basis to Non-Institutional Investors and not more than 10% of the Offer shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price.*

*3) Full Bid Amount shall be payable by the Anchor Investors at the time of submission of the Anchor Investor Application Forms, provided that any difference between Anchor Investor Allocation Price and the Anchor Investor Offer Price, shall be payable by the Anchor Investor Pay-in Date as mentioned in the CAN. For details of terms of payment of applicable to Anchor Investors, see General Information Document available on the websites of the Stock Exchanges and the BRLMs. Anchor Investors are not permitted to participate in the Offer through the ASBA process.*

*4) In case of joint Bids, the Bid cum Application Form should contain only the name of the First Bidder whose name should also appear as the first holder of the beneficiary account held in joint names. The signature of only such First Bidder is required in the Bid cum Application Form and such First Bidder will be deemed to have signed on behalf of the joint holders. Further, a Bidder Bidding in the Employee Reservation Portion may also Bid under the Net Offer and such Bids shall not be treated as multiple Bids.*

Bidders will be required to confirm and will be deemed to have represented to our Company, each of the Selling Shareholders, the members of the Syndicate, the Underwriters, their respective directors, officers, agents, affiliates and representatives that they are eligible under applicable law, rules, regulations, guidelines and approvals to acquire the Equity Shares.

Only in the event of an under-subscription in the Employee Reservation Portion, post the initial Allotment, such unsubscribed portion may be Allotted on a proportionate basis to Eligible Employees Bidding in the Employee Reservation Portion, subject

to the total Allotment to an Eligible Employee not exceeding ₹500,000 in value. Subsequent under-subscription, if any, in the Employee Reservation Portion shall be added back to the Net Offer.

The Bids by FPIs with certain structures as described under "***Offer Procedure - Bids by Foreign Portfolio Investors***" on page 1,001 and having same PAN will be collated and identified as a single Bid in the Bidding process. The Equity Shares each Allocated and Allotted to such successful Bidders (with same PAN) will be proportionately distributed.

Eligible Employees bidding in the Employee Reservation Portion at a price within the Price Band can make payment based on Bid Amount, at the time of making a Bid. Eligible Employees bidding in the Employee Reservation Portion at the Cut-Off Price have to ensure payment at the Cap Price, at the time of making a Bid.

Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in the Non-Institutional Portion or the Retail Portion would be allowed to be met with spill-over from other categories or a combination of categories at the discretion of our Company, in consultation with the BRLMs and the Designated Stock Exchange, on a proportionate basis, subject to applicable laws. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories. For further details, see "***Terms of the Offer***" beginning on page 983.

**In case of any revision in the Price Band, the Bid/ Offer Period shall be extended for at least three additional Working Days after such revision of the Price Band, subject to the total Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band, and the revised Bid/ Offer Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges by issuing a public announcement and also by indicating the change on the websites of the BRLMs and at the terminals of the members of the Syndicate.**

In case of discrepancy in the data entered in the electronic book *vis-à-vis* the data contained in the physical Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges may be taken as the final data for the purpose of Allotment.

## OFFER PROCEDURE

*All Bidders should read the General Information Document for investing in public issues prepared and issued in accordance with the circular no. SEBI/HO/CFD/DIL1/CIR/P/2020/37 dated March 17, 2020 issued by SEBI and the UPI Circulars (the "**General Information Document**") which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, the SCRA, the SCRR and the SEBI ICDR Regulations which is part of the abridged prospectus accompanying the Bid cum Application Form. The General Information Document is available on the websites of the Stock Exchanges and the BRLMs. Please refer to the relevant provisions of the General Information Document which are applicable to the Offer especially in relation to the process for Bids by UPI Bidders through the UPI Mechanism. The Bidders should note that the details and process provided in the General Information Document should be read along with this section.*

*Additionally, all Bidders may refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Offer; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Bidders; (v) issuance of Confirmation of Allocation Note ("**CAN**") and Allotment in the Offer; (vi) general instructions (limited to instructions for completing the Bid cum Application Form); (vii) designated date; (viii) disposal of applications; (ix) submission of Bid cum Application Form; (x) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (xi) applicable provisions of the Companies Act relating to punishment for fictitious applications; (xii) mode of making refunds; and (xiii) interest in case of delay in Allotment or refund.*

*SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, had introduced an alternate payment mechanism using Unified Payments Interface ("**UPI**") and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the process and existing timeline of T+6 days. ("**UPI Phase I**"). The UPI Phase I was effective till June 30, 2019.*

*With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds was discontinued and only the UPI Mechanism for such Bids with timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later ("**UPI Phase II**"). Subsequently however, SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till March 31, 2020. The final reduced timeline of T+3 days for the UPI Mechanism for applications by UPI Bidders ("**UPI Phase III**") and modalities of the implementation of UPI Phase III was notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023. The Offer will be undertaken pursuant to the processes and procedures under UPI Phase III, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI Circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, had introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances*

*In terms of Regulation 23(5) and Regulation 52 of the SEBI ICDR Regulations, the timelines and processes mentioned in the SEBI ICDR Master Circular, shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and lead managers shall continue to coordinate with intermediaries involved in the said process.*

*In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated in accordance with applicable law. The Book Running Lead Managers shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, Investors shall be entitled to compensation in the manner specified in the SEBI ICDR Master Circular, in case of delays in resolving investor grievances in relation to blocking/unblocking of funds. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Draft Red Herring Prospectus, this Red Herring Prospectus, and the Prospectus.*

**Book Building Procedure**

The Offer is being made in terms of Rule 19(2)(b) of the SCRR through the Book Building Process in accordance with Regulation 6(2) of the SEBI ICDR Regulations, wherein not less than 75% of the Net Offer shall be available for allocation on a proportionate basis to QIBs. Our Company, in consultation with the BRLMs, may allocate up to 60% of the QIB Portion to Anchor Investors at the Anchor Investor Allocation Price, on a discretionary basis in accordance with the SEBI ICDR Regulations, out of which one-third shall be available for allocation to domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the

Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not more than 15% of the Net Offer shall be available for allocation to on a proportionate basis to Non-Institutional Bidders, of which one-third of the Non-Institutional Portion shall be reserved for Bidders with Bids exceeding ₹200,000 up to ₹1,000,000 and two-thirds of the Non-Institutional Portion shall be reserved for Bidders with Bids exceeding ₹1,000,000. However, the unsubscribed portion in either of the sub-categories mentioned herein may be allocated to applicants in the other sub-category of Non-Institutional Bidders. Further, not more than 10% of the Net Offer shall be available for allocation to RIBs in accordance with SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price. Further, up to [●] Equity Shares of face value ₹2 each, aggregating up to ₹150.00 million shall be made available for allocation on a proportionate basis only to Eligible Employees Bidding in the Employee Reservation Portion, subject to valid Bids being received at or above the Offer Price, net of Employee Discount.

Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in any category except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories of Bidders, at the discretion of our Company, in consultation with the BRLMs, and the Designated Stock Exchange, subject to receipt of valid Bids received at or above the Offer Price and subject to applicable laws. Under-subscription, if any, in the QIB Portion, would not be allowed to be met with spill-over from any other category or a combination of categories. In the event of an under-subscription in the Employee Reservation Portion post the initial Allotment, such unsubscribed portion may be Allotted on a proportionate basis to Eligible Employees Bidding in the Employee Reservation Portion, for a value in excess of ₹ 200,000, (net of Employee Discount) subject to the total Allotment to an Eligible Employee not exceeding ₹500,000 (net of Employee Discount). The unsubscribed portion, if any, in the Employee Reservation Portion shall be added to the Net Offer.

The Equity Shares, on Allotment, shall be traded only in the dematerialised segment of the Stock Exchanges.

**Bidders must ensure that their PAN is linked with Aadhaar and are in compliance with the notification by the Central Board of Direct Taxes dated February 13, 2020 read with press releases dated June 25, 2021 and September 17, 2021, read with press release dated September 17, 2021. CBDT circular no.7 of 2022, dated March 30, 2022, read with press release dated March 28, 2023.**

**Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialised form. The Bid cum Application Forms, which do not have the details of the Bidders' depository account, including DP ID, Client ID, UPI ID (in case of UPI Bidders using the UPI Mechanism) and PAN, shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form.**

**Phased implementation of Unified Payments Interface for Bids by Retail Individual Bidders**

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles by introducing an alternate payment mechanism using UPI. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIBs through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced and implemented the UPI Mechanism in three phases in the following manner:

**Phase I**: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a RIB had the option to submit the ASBA Form with any of the Designated Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

**Phase II**: This phase was applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds had been discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continued to be six Working Days during this phase.

**Phase III**: This phase become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023 pursuant to the T+3 Notification. In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The Offer will be made under UPI Phase III of the UPI Circular (on mandatory basis). The Offer will be advertised in all editions of Financial Express (a widely circulated English national daily newspaper) and all editions of Jansatta (a widely circulated Hindi national daily newspaper, Hindi also being the regional language of Delhi where our Registered Office and Corporate is situated) on or prior to the Bid/Offer Opening Date and such advertisement shall also be made available to the Stock Exchanges for the purpose of uploading on their websites.

Individual investors bidding under the Non-Institutional Portion bidding for more than ₹ 200,000 and up to ₹ 500,000, using the UPI Mechanism, shall provide their UPI ID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circulars include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with the SEBI ICDR Master Circular.

Pursuant to the SEBI ICDR Master Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the SEBI ICDR Master Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law.

Further, in terms of the UPI Circulars, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application shall be made only after (i) unblocking of application amounts for such application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the UPI Bidders using the UPI. For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the BRLMs.

**Bid cum Application Form**

Copies of the Bid cum Application Form (other than for Anchor Investors) and the Abridged Prospectus will be available with the Designated Intermediaries at the relevant Bidding Centres, and at our Registered Office. An electronic copy of the Bid cum Application Form will also be available for download on the websites of NSE (www.nseindia.com) and BSE (www.bseindia.com) at least one day prior to the Bid/ Offer Opening Date.

For Anchor Investors, the Anchor Investor Application Form will be available at the offices of the BRLMs.

All Bidders (other than Anchor Investors) shall mandatorily participate in the Offer only through the ASBA process which shall include the UPI Mechanism in case of UPI Bidders. Anchor Investors are not permitted to participate in the Offer through the ASBA process.

UPI Bidders must provide the UPI ID in the relevant space provided in the Bid cum Application Form and the Bid cum Application Form that does not contain the UPI ID are liable to be rejected.

ASBA Bidders must provide either (i) bank account details and authorisation to block funds in their respective ASBA Accounts or (ii) the UPI Id, as applicable in the relevant space provided in the ASBA Form and the ASBA Forms that do not contain such details are liable to be rejected. The ASBA Bidders shall ensure that they have sufficient balance in their bank accounts to be blocked through ASBA for their respective Bid as the application made by a Bidder shall only be processed after the Bid amount is blocked in the ASBA account of the Bidder pursuant to the SEBI ICDR Master Circular. Stock Exchanges shall accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked. This circular is applicable for all categories of Bidders, i.e. RIB, QIB, NIB and other reserved categories and also for all modes through which the applications are processed.

All ASBA Bidders are required to provide either, (i) bank account details and authorizations to block funds in the ASBA Form; or (ii) the UPI ID, as applicable, in the relevant space provided in the ASBA Form and the ASBA Forms that did not contain such details will be rejected. Applications made by the UPI Bidders using third party bank account or using third party linked bank account UPI ID are liable to be rejected. UPI Bidders using the UPI Mechanism may also apply through the mobile applications using the UPI handles as provided on the website of the SEBI.

ASBA Bidders shall ensure that the Bids are made on ASBA Forms bearing the stamp of the Designated Intermediary, submitted at the Bidding Centres only (except in case of electronic ASBA Forms) and the ASBA Forms not bearing such specified stamp are liable to be rejected. UPI Bidders using UPI Mechanism, may submit their ASBA Forms, including details of their UPI IDs, with the Syndicate, sub-Syndicate members, Registered Brokers, RTAs or CDPs. RIBs authorising an SCSB to block the Bid

Amount in the ASBA Account may submit their ASBA Forms with the SCSBs.

Since the Offer will be made under Phase III on a mandatory basis, ASBA Bidders may submit the ASBA form in the manner below:

a. NIIs (other than the UPI Bidders using UPI Mechanism) may submit their ASBA Forms with SCSBs (physically or online, as applicable), or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

b. UPI Bidders using the UPI Mechanism may submit their ASBA Forms with the Syndicate, Sub-Syndicate Members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

c. QIBs and NIBs (other than NIBs using UPI Mechanism) may submit their ASBA Forms with SCSBs, Syndicate, Sub-Syndicate Members, Registered Brokers, RTAs or CDPs.

The ASBA Bidders, including UPI Bidders, shall ensure that they have sufficient balance in their bank accounts to be blocked through ASBA for their respective Bid as the application made by a Bidder shall only be processed after the Bid amount is blocked in the ASBA account of the Bidder pursuant to the SEBI ICDR Master Circular.

Anchor Investors are not permitted to participate in the Offer through the ASBA process. For Anchor Investors, the Anchor Investor Application Form will be available with the BRLMs.

The prescribed colour of the Bid cum Application Form for the various categories is as follows:

| Category | Colour of Bid cum Application Form* |
|---|---|
| Resident Indians, including QIBs, Non-institutional Bidders and Retail Individual Bidders, each resident in India and Eligible NRIs applying on a non-repatriation basis | White |
| Non-Residents including Eligible NRIs, their sub-accounts (other than sub-accounts which are foreign corporates or foreign individuals under the QIB Portion), FPIs or FVCIs registered multilateral and bilateral development financial institutions applying on a repatriation basis(1) | Blue |
| Anchor Investors(2) | White |
| Eligible Employees Bidding in the Employee Reservation Portion | Pink |

* *Excluding electronic Bid cum Application Form.*

*Notes:*

(1) *Electronic Bid cum Application forms and the Abridged Prospectus will also be available for download on the website of NSE (www.nseindia.com) and BSE (www.bseindia.com).*

(2) *Bid cum Application Forms for Anchor Investors will be made available at the office of the BRLMs.*

(3) *Bid cum Application Forms for Eligible Employees will be available only at our Registered Offices.*

For ASBA Forms (other than UPI Bidders using the UPI Mechanism), the Designated Intermediaries (other than SCSBs) shall submit/deliver the Bid cum Application Forms to the respective SCSB, where the Bidder has a bank account and shall not submit it to any non-SCSB bank or any escrow collection bank. Further, SCSBs shall upload the relevant Bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges and the Stock Exchanges shall accept the ASBA applications in their electronic bidding system only with a mandatory confirmation on the application monies blocked. Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID/Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DP ID/Client ID or PAN ID, bank code and location code in the Bid details already uploaded during the Bid Period and the modification / updation of Bids shall close at 5.00 pm on the Bid / Offer Closing Date.

For UPI Bidders using the UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Banks on a continuous basis through API integration to enable the Sponsor Banks to initiate a UPI Mandate Request to such UPI Bidders for blocking of funds. The Sponsor Banks shall initiate request for blocking of funds through NPCI to UPI Bidders, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI shall maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders (Bidding through UPI Mechanism) in case of failed transactions shall be with the concerned entity (i.e., the Sponsor Banks, NPCI or the issuer bank) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Banks and the Bankers to the Offer. The Sponsor Banks and the Bankers to the Offer shall provide the audit trail to the BRLMs for analysing the same and fixing liability.

in accordance with BSE Circular No: 20220803-40 and NSE Circular No: 25/2022, each dated August 3, 2022, for all pending UPI Mandate Requests, the Sponsor Banks shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/ Offer Closing Date ("**Cut-Off Time**"). Accordingly, UPI Bidders Bidding using through the UPI Mechanism should accept UPI Mandate Requests for blocking of funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse. For ensuring timely information to investors, SCSBs shall send SMS alerts as specified in the SEBI ICDR Master Circular.

Pursuant to NSE circular dated August 3, 2022 with reference no. 25/2022, the following is applicable to all initial public offers opening on or after September 1, 2022:

a) Cut-off time for acceptance of UPI mandate shall be up to 5:00 p.m. on the initial public offer closure date and existing process of UPI bid entry by syndicate members, registrars to the offer and Depository Participants shall continue till further notice;

b) There shall be no T+1 mismatch modification session for PAN-DP mismatch and bank/ location code on T+1 day for already uploaded bids. The dedicated window provided for mismatch modification on T+1 day shall be discontinued;

c) Bid entry and modification/ cancellation (if any) shall be allowed in parallel to the regular bidding period up to 4.00 p.m. for QIBs and Non-Institutional Bidders categories and up to 5.00 p.m. for Retail Individual Bidders categories on the initial public offer closure day;

d) QIBs and Non-Institutional Bidders can neither revise their bids downwards nor cancel/withdraw their bids;

e) The Stock Exchanges shall display bid details of only successful ASBA blocked applications i.e. Application with lates status as RC 100 block request accepted by Bidder/client.

**The Equity Shares have not been and will not be registered under the U.S. Securities Act or any other applicable state securities laws of the United States and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States only to persons reasonably believed to be "qualified institutional buyers" (as defined in Rule 144A under the U.S. Securities Act and referred to in this Red Herring Prospectus as "U.S. QIBs") pursuant to Section 4(a) of the U.S. Securities Act, and (ii) outside the United States in "offshore transactions" as defined in, and in compliance with, Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales are made. For the avoidance of doubt, the term "U.S. QIBs" does not refer to a category of institutional investors defined under applicable Indian regulations and referred to in this Red Herring Prospectus as "QIBs".**

**The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.**

**Electronic registration of Bids**

a) The Designated Intermediary may register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the Offer subject to applicable laws.

b) On the Bid/ Offer Closing Date, the Designated Intermediaries may upload the Bids till such time as may be permitted by the Stock Exchanges and as disclosed in this Red Herring Prospectus.

c) Only Bids that are uploaded on the Stock Exchanges Platform are considered for allocation/Allotment. The Designated Intermediaries are given till 5:00 pm IST for RIBs and 4:00 pm for Non-Institutional Bidders and QIBs on the Bid/Offer Closing Date to modify select fields uploaded in the Stock Exchange Platform during the Bid/Offer Period after which the Stock Exchange(s) send the bid information to the Registrar to the Offer for further processing.

d) QIBs and Non-Institutional Bidders can neither revise their bids downwards nor cancel/withdraw their bids.

**Participation by the Promoters, Promoter Group, the Book Running Lead Managers, the Syndicate Members and persons related to Promoters/Promoter Group/the BRLMs**

The BRLMs and the Syndicate Members shall not be allowed to purchase Equity Shares in the Offer in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the BRLMs and the Syndicate Members may Bid for Equity Shares in the Offer, either in the QIB Portion or in the Non-Institutional Portion as may be applicable to such Bidders where the allocation is on a proportionate basis or in any other manner as introduced under applicable laws and such subscription may be on their own account or on behalf of their clients. All categories of Bidders, including associates or affiliates of the BRLMs and Syndicate Members, shall be treated equally for the purpose of allocation to be made on a proportionate basis.

Except as stated below, neither the BRLMs nor any associate of the BRLMs can apply in the Offer under the Anchor Investor Portion

(i) mutual funds sponsored by entities which are associate of the BRLMs;

(ii) insurance companies promoted by entities which are associate of the BRLMs;

(iii) AIFs sponsored by the entities which are associate of the BRLMs;

(iv) FPIs other than individuals, corporate bodies and family offices which are associates of the BRLMs; or

(v) Pension funds sponsored by entities which are associate of the BRLMs.

A qualified institutional buyer who has any of the following rights in relation to our Company shall also be deemed to be a person related to the Promoters or Promoter Group of our Company:

(i) rights under a shareholders' agreement or voting agreement entered into with the Promoters or Promoter Group of our Company;

(ii) veto rights; or

(iii) right to appoint any nominee director on our Board.

Further, an Anchor Investor shall be deemed to be an "associate of the BRLMs" if:

(i) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or

(ii) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or

(iii) there is a common director, excluding nominee director, amongst the Anchor Investors, the BRLMs.

Our Promoters and the members of our Promoter Group, except to the extent of the Offered Shares by the Promoter Selling Shareholders, will not participate in the Offer.

**Bids by Mutual Funds**

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason thereof, subject to applicable law.

Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which such Bid has been made.

No Mutual Fund scheme shall invest more than 10% of its NAV in equity shares or equity-related instruments of any single company, provided that the limit of 10% shall not be applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

**Bids by Eligible Non-Resident Indians("NRIs")**

Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRI Bidders bidding on a repatriation basis by using the Non-Resident Forms should authorise their respective SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non- Resident External ("**NRE**") accounts, or Foreign Currency Non-Resident ("**FCNR**") accounts, and eligible NRI Bidders bidding on a non-repatriation basis by using Resident Forms should authorise their respective SCSB (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non-Resident Ordinary ("**NRO**") accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form.

NRIs will be permitted to apply in the Offer through Channel I or Channel II (as specified in the UPI Circulars). Further, subject to applicable law, NRIs may use Channel IV (as specified in the UPI Circulars) to apply in the Offer, provided the UPI facility is enabled for their NRE/ NRO accounts. NRIs applying in the Offer through the UPI Mechanism are advised to enquire with the relevant bank, whether their account is UPI linked, prior to submitting a Bid cum Application Form. In accordance with FEMA Non-debt Instruments Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity share capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity share capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant or such other limit as may be stipulated by RBI in each case, from time to time. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is

passed by the members of the Indian Company in a general meeting. Participation of Eligible NRIs shall be subject to the FEMA Non-debt Instruments Rules.

Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents (White in colour). Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents (Blue in colour). Only Bids accompanied by payment in Indian rupees or fully converted foreign exchange will be considered for Allotment.

For further details of investment by NRIs, see "***Restrictions on Foreign Ownership of Indian Securities***" beginning on page 1,014.

**Bids by Eligible Employees**

The Bid must be for a minimum of [●] Equity Shares of face value ₹2 each and in multiples of [●] Equity Shares of face value ₹2 each thereafter so as to ensure that the Bid Amount payable by the Eligible Employee does not exceed ₹500,000 (net of Employee Discount). However, the initial allocation to an Eligible Employee in the Employee Reservation Portion shall not exceed ₹200,000 (net of Employee Discount). Allotment in the Employee Reservation Portion will be as detailed in the section "***Offer Structure***" beginning on page 990.

However, Allotments to Eligible Employees in excess of ₹200,000 (net of Employee Discount) shall be considered on a proportionate basis, in the event of under-subscription in the Employee Reservation Portion, subject to the total Allotment to an Eligible Employee not exceeding ₹500,000 (net of Employee Discount). Subsequent under-subscription, if any, in the Employee Reservation Portion shall be added back to the Net Offer. Eligible Employees Bidding in the Employee Reservation Portion may Bid at the Cut-off Price.

In relation to Bids under the Employee Reservation Portion by Eligible Employees:

- Bids shall be made only in the prescribed Bid cum Application Form or Revision Form.
- Only Eligible Employees (excluding such other persons not eligible under applicable laws, rules, regulations and guidelines) who a person resident in India (as defined under the FEMA) as on the date of submission of the ASBA Form.
- In case of joint bids, the sole/ first Bidder shall be the Eligible Employee.
- Bids by Eligible Employees may be made at Cut-off Price.
- Only those Bids, which are received at or above the Offer Price, net of Employee Discount, would be considered for allocation under this portion.
- The Bids must be for a minimum of [●] Equity Shares of face value ₹2 each and in multiples of [●] Equity Shares of face value ₹2 each thereafter so as to ensure that the Bid Amount payable by the Eligible Employee subject to a maximum Bid Amount of ₹500,000 (net of Employee Discount) on a net basis.
- Eligible Employees bidding in the Employee Reservation Portion can Bid through the UPI mechanism.
- If the aggregate demand in this portion is less than or equal to [●] Equity Shares of face value ₹2 each at or above the Offer Price, full allocation shall be made to the Eligible Employees to the extent of their demand.
- Bids by Eligible Employees in the Employee Reservation Portion and in the Net Offer portion shall not be treated as multiple Bids. Our Company reserves the right to reject, in its absolute discretion, all or any multiple Bids in any or all categories.
- Eligible Employees should mention their employee number at the relevant place in the Bid cum Application Form or Revision Form.

In the event of under-subscription in the Employee Reservation Portion, the unsubscribed portion will be available for allocation and Allotment, proportionately to all Eligible Employees who have Bid in excess of ₹200,000 (net of Employee Discount), subject to the maximum value of Allotment made to such Eligible Employee not exceeding ₹500,000 (net of Employee Discount).

**Bids by Hindu Undivided Families**

Bids by Hindu Undivided Families or HUFs, in the individual name of the *Karta*. The Bidder/applicant should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: "Name of sole or first Bidder/applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the *Karta*". Bids/Applications by HUFs may be considered at par with Bids/Applications from individuals.

**Bids by Foreign Portfolio Investors**

An FPI may purchase or sell equity shares of an Indian company which is listed or to be listed on a recognised stock exchange in India, and/or may purchase or sell securities other than equity instruments.

FPIs are permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

In terms of the SEBI FPI Regulations, the investment in Equity Shares by a single FPI or an investor group (which means multiple entities registered as FPIs and directly or indirectly having common ownership of more than 50% or common control) must be below 10% of our total paid-up Equity Share capital on a fully diluted basis. Further, in terms of the FEMA NDI Rules, the total holding by each FPI (or a group) shall be less than 10% of the total paid-up Equity Share capital of our Company on a fully diluted basis and the aggregate limit for FPI investments shall be sectoral caps applicable to our Company, which is 100% of the total paid-up Equity Share capital of our Company on a fully diluted basis.

In terms of the FEMA Non-debt Instruments Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case the total holding of an FPI increases beyond 10% of the total paid-up Equity Share capital, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants issued that may be issued by our Company, the total investment made by the FPI will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for Non-Residents (Blue in colour).

As specified in the General Information Document, it is hereby clarified that bids received from FPIs bearing the same PAN shall be treated as multiple Bids and are liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager structure in accordance with the SEBI master circular bearing reference no. SEBI/HO/AFD/AFD-PoD-2/P/CIR/2-24/70 dated May 30, 2024, on Foreign Portfolio Investors, Designated Depository Participants and Eligible Foreign Investors ("**MIM Structure**"), provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs. Accordingly, it should be noted that multiple Bids received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, are liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilize the MIM Structure and indicate the name of their respective investment managers in such confirmation. In the absence of such confirmation from the relevant FPIs, such multiple Bids are liable to be rejected. Further, in the following cases, the bids by FPIs will not be considered as multiple Bids: involving (i) the MIM Structure and indicating the name of their respective investment managers in such confirmation; (ii) offshore derivative instruments ("**ODI**") which have obtained separate FPI registration for ODI and proprietary derivative investments; (iii) sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration; (iv) FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager; (v) multiple branches in different jurisdictions of foreign bank registered as FPIs; (vi) Government and Government related investors registered as Category 1 FPIs; and (vii) Entities registered as Collective Investment Scheme having multiple share classes.

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Offer to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instruments issued by or on its behalf, is carried out subject to *inter alia* the following conditions:

(a) such offshore derivative instruments are transferred only to persons in accordance with Regulation 21(1) of the SEBI FPI Regulations; and

(b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre-approved by the FPI.

Participation of FPIs in the Offer shall be subject to the FEMA NDI Rules.

Please note that in terms of the General Information Document, the maximum Bid by any Bidder including QIB Bidder should not exceed the investment limits prescribed for them under applicable laws. Further, MIM Bids by an FPI Bidder utilising the MIM Structure shall be aggregated for determining the permissible maximum Bid. Further, please note that as disclosed in this Red Herring Prospectus read with the General Information Document, Bid Cum Application Forms are liable to be rejected in the event that the Bid in the Bid cum Application Form "*exceeds the Offer size and/or investment limit or maximum number of the Equity Shares that can be held under applicable laws or regulations or maximum amount permissible under applicable laws or regulations, or under the terms of this Red Herring Prospectus.*"

For example, an FPI must ensure that any Bid by a single FPI and/ or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) (collective, the "**FPI Group**") shall be below 10% of the total paid-up Equity Share capital of our Company on a fully diluted basis. Any Bids by FPIs and/ or the FPI Group (including but not limited to (a) FPIs Bidding through the MIM Structure; or (b) FPIs with separate registrations for offshore derivative instruments and proprietary derivative instruments) for 10% or more of our total paid-up post Offer Equity Share capital shall be liable to be rejected.

For details of investment by FPIs, see "***Restrictions on Foreign Ownership of Indian Securities***" beginning on page 1,014.

**All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.**

Our Company, each of the Selling Shareholders, severally and not jointly, or the BRLMs will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

**Bids under Power of Attorney**

In case of Bids made pursuant to a power of attorney or by limited companies, corporate bodies, registered societies, eligible FPIs, AIFs, Mutual Funds, insurance companies, insurance finds set up by the army, navy or air force of India, insurance funds set up by the Department of Posts, India or the National Investment Fund and provident funds with a minimum corpus of ₹250.00 million and pension funds with a minimum corpus of ₹250.00 million registered with the Pension Fund Regulatory and Development Authority established under Section 3(1) of the Pension Fund Regulatory and Development Authority Act, 2013 (in each case, subject to applicable law and in accordance with their respective constitutional documents), a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws, as applicable must be lodged along with the Bid cum Application Form. Failing this, our Company reserves the right to accept or reject any Bid in whole or in part, in either case, without assigning any reasons thereof.

Our Company, in consultation with the BRLMs in their absolute discretion, reserves the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form subject to such terms and conditions that our Company in consultation with the BRLMs, may deem fit.

**Bids by Securities Exchange Board of India registered Venture Capital Funds, Alternate Investment Funds and Foreign Venture Capital Investors**

The SEBI FVCI Regulations, *inter alia,* prescribe the investment restrictions on VCFs and FVCIs registered with SEBI. Further, the SEBI AIF Regulations prescribe, amongst others, the investment restrictions on AIFs. Accordingly, the holding in any company by any individual VCF or FVCI registered with SEBI should not exceed 25% of the corpus of the VCF or FVCI. Further, subject to FEMA Rules, VCFs and FVCIs can invest only up to 33.33% of their investible funds in various prescribed instruments, including in public offerings.

Category I AIFs and Category II AIFs cannot invest more than 25% of the investible funds in one investee company. A category III AIF cannot invest more than 10% of the investible funds in one investee company. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than one-third of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Pursuant to the repeal of the SEBI VCF Regulations, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations.

Participation of VCFs, AIFs or FVCIs in the Offer shall be subject to the FEMA NDI Rules.

**All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.**

**Bids by Limited Liability Partnerships**

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason thereof.

**Bids by Banking Companies**

In case of Bids made by banking companies registered with the RBI, certified copies of (i) the certificate of registration issued by the RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended, (the "**Banking Regulation Act**"), and the Master Directions - Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended, is 10% of the paid-up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10% of the bank's own paid-up share capital and reserves, whichever is lower. Further, the aggregate investment by a banking company in subsidiaries and other entities engaged in financial services company cannot exceed 20% of the bank's paid up share capital and reserves.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banks in terms of Section 6(1) of the Banking Regulation Act, or (ii) the additional acquisition is through restructuring of debt/corporate debt restructuring/strategic debt restructuring, or to protect the bank's interest on loans/investments made to a company. (iii) hold along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank; and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid up share capital engaged in non-financial services. However, this cap doesn't apply to the cases mentioned in (i) and (ii) above. Further, the aggregate investment by a banking company in all its subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments, cannot exceed 20% of the banking company's paid up share capital and reserves.

The bank is required to submit a time-bound action plan for disposal of such shares within a specified period to the RBI. A banking company would require a prior approval of the RBI to make (i) investment in excess of 30% of the paid-up share capital of the investee company, (ii) investment in a subsidiary and a financial services company that is not a subsidiary (with certain exceptions prescribed), and (iii) investment in a non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in 5(a)(v)(c)(i) of the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

**Bids by Self Certified Syndicate Banks**

SCSBs participating in the Offer are required to comply with the terms of the circulars bearing numbers CIR/CFD/DIL/12/2012 and CIR/CFD/DIL/1/2013 dated September 13, 2012 and January 2, 2013, respectively, issued by SEBI. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such applications.

**Bids by Insurance Companies**

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs reserve the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The exposure norms for insurance companies are prescribed under the Insurance Regulatory and Development Authority of India (Actuarial, Finance and Investment Functions of Insurers) Regulations, 2024 read with the Master Circular on Actuarial, Finance and Investment Functions of Insurers dated May 17, 2024, each amended ("**IRDAI Investment Regulations**"), based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Insurance companies are entitled to invest only in other listed insurance companies and insurance companies participating in the Offer are advised to refer to the IRDAI Investment Regulations for specific investment limits applicable to them and shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time:

- equity shares of a company: the lower of 10%* of the outstanding equity shares (face value) or 10% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer or health insurer;

- the entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or reinsurer or health insurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and

- the industry sector in which the investee company operates: not more than 15% of the fund of a life insurer or a

general insurer or a reinsurer or health insurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount calculated under (a), (b) and (c) above, as the case may be.

Insurance companies participating in the Offer are advised to refer to the IRDAI Investment Regulations for specific investment limits applicable to them and shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

**Bids by Provident Funds/Pension Funds**

In case of Bids made by provident funds/pension funds with minimum corpus of ₹250.00 million registered with the Pension Fund Regulatory and Development Authority established under Section 3(1) of the Pension Fund Regulatory and Development Authority Act, 2013, subject to applicable law, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be attached to the Bid cum Application Form. Failing this, our Company and the in consultation with the BRLMs, reserves the right to reject any Bid, without assigning any reason thereof.

**Bids by Systemically Important Non-Banking Financial Companies**

In case of Bids made by Systemically Important Non-Banking Financial Companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, (ii) certified copy of its last audited financial statements on a standalone basis, (iii) a net worth certificate from its statutory auditor, and (iv) such other approval as may be required by the Systemically Important Non-Banking Financial Companies, are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLMs, reserves the right to reject any Bid without assigning any reason thereof, subject to applicable law.

**Bids by Anchor Investors**

In accordance with the SEBI ICDR Regulations, in addition to details and conditions mentioned in this section, the key terms for participation by Anchor Investors are provided below.

1. Anchor Investor Application Forms will be made available for the Anchor Investor Portion at the offices of the BRLMs.

2. The Bid must be for a minimum of such number of Equity Shares so that the Bid Amount exceeds ₹100.00 million. A Bid cannot be submitted for over 60% of the QIB Portion. In case of a Mutual Fund, separate Bids by individual schemes of a Mutual Fund will be aggregated to determine the minimum application size of ₹100 million.

3. One-third of the Anchor Investor Portion will be reserved for allocation to domestic Mutual Funds.

4. Bidding for Anchor Investors will open one Working Day before the Bid/ Offer Opening Date and will be completed on the same day.

5. Our Company, in consultation with the BRLMs will finalize allocation to the Anchor Investors on a discretionary basis, provided that the minimum number of Allottees in the Anchor Investor Portion will not be less than: (a) maximum of two Anchor Investors, where allocation under the Anchor Investor Portion is up to ₹100.00 million; (b) minimum of two and maximum of 15 Anchor Investors, where the allocation under the Anchor Investor Portion is more than ₹100.00 million but up to ₹2,500.00 million, subject to a minimum Allotment of ₹50.00 million per Anchor Investor; and (c) in case of allocation above ₹2,500.00 million under the Anchor Investor Portion, a minimum of five such investors and a maximum of 15 Anchor Investors for allocation up to ₹2,500.00 million, and an additional 10 Anchor Investors for every additional ₹2,500.00 million, subject to minimum Allotment of ₹50.00 million per Anchor Investor.

6. Allocation to Anchor Investors will be completed on the Anchor Investor Bidding Date. The number of Equity Shares allocated to Anchor Investors and the price at which the allocation is made, will be made available in the public domain by the BRLMs before the Bid/ Offer Opening Date, through intimation to the Stock Exchanges.

7. Anchor Investors cannot withdraw or lower the size of their Bids at any stage after submission of the Bid.

8. If the Offer Price is greater than the Anchor Investor Allocation Price, the additional amount being the difference between the Offer Price and the Anchor Investor Allocation Price will be payable by the Anchor Investors on the Anchor Investor Pay-in Date specified in the CAN. If the Offer Price is lower than the Anchor Investor Allocation Price, Allotment to successful Anchor Investors will be at the higher price, i.e., the Anchor Investor Offer Price.

9. 50% of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 90 days from the date of Allotment and the remaining 50% of the Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked in for a period of 30 days from the date of Allotment.

10. Neither the (a) BRLMs (s) or any associate of the BRLMs (other than mutual funds sponsored by entities which are associate of the BRLMs or insurance companies promoted by entities which are associate of the BRLMs or Alternate Investment Funds (AIFs) sponsored by the entities which are associates of the BRLMs or FPIs, other than individuals, corporate bodies and family offices, which are associates of the BRLMs or pension funds sponsored by entities which are associate of the BRLMs) nor (b) the Promoters, Promoter Group or any person related to the Promoters or members of our Promoter Group shall apply under the Anchor Investors category.

11. Bids made by QIBs under both the Anchor Investor Portion and the QIB Portion will not be considered multiple Bids.

For more information, please read the General Information Document.

**The information set out above is given for the benefit of the Bidders. Our Company, the Selling Shareholders and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus, when filed. Bidders are advised to make their independent investigations and ensure that any single Bid from them does not exceed the applicable investment limits or maximum number of the Equity Shares that can be held by them under applicable law or regulations, or as specified in this Red Herring Prospectus and the Prospectus. Further, each Bidder where required must agree in the Allotment Advice that such Bidder will not sell or transfer any Equity Shares or any economic interest therein, including any off-shore derivative instruments, such as participatory notes, issued against the Equity Shares or any similar security, other than in accordance with applicable laws.**

**Information for Bidders**

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/Allotted. Such Acknowledgement Slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he /she shall surrender the earlier Acknowledgement Slip and may request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.

In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company, the Selling Shareholders and/or the Book Running Lead Managers are cleared or approved by the Stock Exchanges; nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of the Draft Red Herring Prospectus or this Red Herring Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

**General Instructions**

Please note that QIBs and Non-Institutional Bidders are not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage. RIBs and Eligible Employees under the Employee Reservation Portion can revise their Bid(s) during the Bid/ Offer Period and withdraw or lower the size of their Bid(s) until Bid/ Offer Closing Date. Anchor Investors are not allowed to withdraw their Bids after the Anchor Investor Bidding Date.

***Do's*:**

1. Bidders must ensure that their PAN is linked with Aadhaar and are in compliance with the notification dated February 13, 2020 issued by the Central Board of Direct Taxes and the press release dated June 25, 2021, September 17, 2021, March 30, 2022 and March 28, 2023 read with subsequent circulars issued in relation thereto;

2. Check if you are eligible to apply as per the terms of this Red Herring Prospectus and under applicable law, rules, regulations, guidelines and approvals. All Bidders (other than Anchor Investors) should submit their Bids through the ASBA process only;

3. Ensure that you have Bid within the Price Band;

4. Read all the instructions carefully and complete the Bid cum Application Form in the prescribed form;

5. Ensure that you (other than the Anchor Investors) have mentioned the correct details of ASBA Account (i.e. bank account number or UPI ID, as applicable) in the Bid cum Application Form if you are not an UPI Bidder in the Bid cum Application Form and if you are an UPI Bidder ensure that you have mentioned the correct UPI ID (with maximum length of 45 characters including the handle), in the Bid cum Application Form;

6. UPI Bidders through the SCSBs and mobile applications shall ensure that the name of the bank appears in the list of SCSBs which are live on UPI, as displayed on the SEBI website. UPI Bidders shall ensure that the name of the app

and the UPI handle which is used for making the application appears in Annexure 'A' to the SEBI circular no. SEBI/HO/CFD/DIL2/COR/P/2019/85 dated July 26, 2019;

7. Ensure that your Bid cum Application Form bearing the stamp of a Designated Intermediary is submitted to the Designated Intermediary at the relevant Bidding Centre (except in case of electronic Bids) within the prescribed time. Bidders (other than Anchor Investors) shall submit the Bid cum Application Form in the manner set out in the General Information Document;

8. Ensure that Anchor Investors submit their Bid cum Application Forms only to the BRLMs;

9. UPI Bidders Bidding in the Offer shall ensure that they use only their own ASBA Account or only their own bank account linked UPI ID to make an application in the Offer and not ASBA Account or bank account linked UPI ID of any third party.

10. All Bidders (other than Anchor Investors) should submit their Bids through the ASBA process only.

11. Ensure that you mandatorily have funds equal to or higher than the Bid Amount in the ASBA Account maintained with the SCSB before submitting the ASBA Form to the relevant Designated Intermediaries;

12. If the First Bidder is not the bank account holder, ensure that the Bid cum Application Form is signed by the account holder. Ensure that you have an account with an SCSB and have mentioned the correct bank account number in the Bid cum Application Form (for all ASBA Bidders other than UPI Bidders);

13. Ensure that the signature of the First Bidder in case of joint Bids, is included in the Bid cum Application Forms;

14. Ensure that you request for and receive a stamped acknowledgement counterfoil or acknowledgment specifying the application number as a proof of having accepted Bid cum Application Form for all your Bid options from the concerned Designated Intermediary;

15. The ASBA bidders shall ensure that bids above ₹500,000, are uploaded only by the SCSBs;

16. Ensure that the name(s) given in the Bid cum Application Form is/are exactly the same as the name(s) in which the beneficiary account is held with the Depository Participant. In case of joint Bids, the Bid cum Application Form should contain only the name of the First Bidder whose name should also appear as the first holder of the beneficiary account held in joint names Ensure that the signature of the First Bidder is included in the Bid cum Application Forms;

17. Bidders not using the UPI Mechanism, should submit their Bid cum Application Form directly with SCSBs and/or the designated branches of SCSBs or the relevant Designated Intermediary, as applicable;

18. UPI Bidders in the Offer to ensure that they shall use only their own ASBA Account or only their own bank account linked UPI ID which is UPI 2.0 certified by NPCI to make an application in the Offer and not ASBA Account or bank account linked UPI ID of any third party;

19. Ensure that you submit the revised Bids to the same Designated Intermediary, through whom the original Bid was placed and obtain a revised acknowledgment;

20. Ensure that you have correctly signed the authorisation/undertaking box in the Bid cum Application Form, or have otherwise provided an authorisation to the SCSB or Sponsor Banks, as applicable, via the electronic mode, for blocking funds in the ASBA Account equivalent to the Bid Amount mentioned in the Bid cum Application Form, as the case may be, at the time of submission of the Bid. In case of UPI Bidders submitting their Bids and participating in the Offer, ensure that you authorise the UPI Mandate Request, including in case of any revision of Bids, raised by the Sponsor Banks for blocking of funds equivalent to Bid Amount and subsequent debit of funds in case of Allotment;

21. Except for Bids (i) on behalf of the Central or State Governments and the officials appointed by the courts, who, in terms of the SEBI circular no. MRD/Dop/Cir-20/2008 dated June 30, 2008, may be exempt from specifying their PAN for transacting in the securities market, (ii) submitted by investors who are exempt from the requirement of obtaining/specifying their PAN for transacting in the securities market, and (iii) Bids by persons resident in the state of Sikkim, who, in terms of a SEBI circular no. MRD/DoP/SE/Cir- 8 /2006 dated July 20, 2006, may be exempted from specifying their PAN for transacting in the securities market, all Bidders should mention their PAN allotted under the IT Act. The exemption for the Central or the State Government and officials appointed by the courts and for investors residing in the State of Sikkim is subject to (a) the Demographic Details received from the respective depositories confirming the exemption granted to the beneficial owner by a suitable description in the PAN field and the beneficiary account remaining in "active status"; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same. All other applications in which PAN is not mentioned will be rejected;

22. Ensure that the Demographic Details are updated, true and correct in all respects;

23. Ensure that thumb impressions and signatures other than in the languages specified in the Eighth Schedule to the Constitution of India are attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official

seal;

24. Ensure that the category and the investor status is indicated in the Bid cum Application Form to ensure proper upload of your Bid in the electronic Bidding system of the Stock Exchanges;

25. Ensure that in case of Bids under power of attorney or by limited companies, corporates, trust, etc., relevant documents including a copy of the power of attorney, if applicable, are submitted;

26. Ensure that Bids submitted by any person resident outside India is in compliance with applicable foreign and Indian laws;

27. UPI Bidders who wish to Bid should submit Bid with the Designated Intermediaries, pursuant to which the UPI Bidder should ensure acceptance of the UPI Mandate Request received from the Sponsor Bank(s) to authorise blocking of funds equivalent to the revised Bid Amount in the UPI Bidder's ASBA Account;

28. Since the Allotment will be in demat form only, ensure that the Bidder's depository account is active, the correct DP ID, Client ID, the PAN, UPI ID, if applicable, are mentioned in their Bid cum Application Form and that the name of the Bidder, the DP ID, Client ID, the PAN and UPI ID, if applicable, entered into the online IPO system of the Stock Exchanges by the relevant Designated Intermediary, as applicable, matches with the name, DP ID, Client ID, PAN and UPI ID, if applicable, available in the Depository database;

29. UPI Bidders who wish to revise their Bids using the UPI Mechanism, should submit the revised Bid with the Designated Intermediaries, pursuant to which RIBs should ensure acceptance of the UPI Mandate Request received from the Sponsor Banks to authorise blocking of funds equivalent to the revised Bid Amount in the RIB's ASBA Account;

30. Ensure that you have accepted the UPI Mandate Request received from the Sponsor Banks prior to 5:00 p.m. IST on the Bid/Offer Closing Date;

31. Anchor Investors should submit the Anchor Investor Application Forms to the BRLMs;

32. FPIs making MIM Bids using the same PAN, and different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected;

33. Bids by Eligible NRIs for a Bid Amount of less than ₹200,000 would be considered under the retail category for the purposes of allocation and Bids for a Bid Amount exceeding ₹200,000 would be considered under the non-institutional category for allocation in the Offer;

34. UPI Bidders shall ensure that details of the Bid are reviewed and verified by opening the attachment in the UPI Mandate Request and then proceed to authorise the UPI Mandate Request using his/her UPI PIN. Upon the authorisation of the mandate using his/her UPI PIN, an UPI Bidder may be deemed to have verified the attachment containing the application details of the UPI Bidder in the UPI Mandate Request and have agreed to block the entire Bid Amount and authorised the Sponsor Banks to block the Bid Amount mentioned in the Bid Cum Application Form; and

35. Ensure that while Bidding through a Designated Intermediary, the Bid cum Application Form (other than for Anchor Investors and UPI Bidders) is submitted to a Designated Intermediary in a Bidding Centre and that the SCSB where the ASBA Account, as specified in the ASBA Form, is maintained has named at least one branch at that location for the Designated Intermediary to deposit ASBA Forms (a list of such branches is available on the website of SEBI at www.sebi.gov.in).

The Bid cum Application Form is liable to be rejected if the above instructions, as applicable, are not complied with.

***Don'ts:***

1. Do not Bid for lower than the minimum Bid Lot;

2. Do not Bid on another Bid cum Application Form and the Anchor Investor Application Form, as the case may be after you have submitted a Bid to a Designated Intermediary;

3. Do not Bid/revise Bid Amount to less than the Floor Price or higher than the Cap Price;

4. Do not submit the ASBA Forms to any non-SCSB bank or to our Company or at a location other than the Bidding Centres;

5. Do not submit the ASBA Forms to any Designated Intermediary that is not authorised to collect the relevant ASBA Forms;

6. Do not pay the Bid Amount in cheques, demand drafts or by cash, money order, postal order or by stock invest;

7. Do not send Bid cum Application Forms by post; instead submit the same to the Designated Intermediary only;

8. Do not Bid at Cut-off Price (for Bids by QIBs and Non-Institutional Bidders);

9. Do not instruct your respective banks to release the funds blocked in the ASBA Account under the ASBA process;

10. Do not submit the Bid for an amount more than funds available in your ASBA account;

11. Do not submit Bids on plain paper or on incomplete or illegible Bid cum Application Forms or on Bid cum Application Forms in a colour prescribed for another category of a Bidder;

12. In case of ASBA Bidders, do not submit more than one ASBA Form from an ASBA Account;

13. Do not submit the Bid without ensuring that funds equivalent to the entire Bid Amount are available for blocking in the relevant ASBA Account or in the case of UPI Bidders, in the UPI-linked bank account where funds for making the Bid are available;

14. If you are an UPI Bidder, do not submit more than one Bid cum Application Form for each UPI ID;

15. Anchor Investors should not Bid through the ASBA process;

16. Do not submit the ASBA Forms to any Designated Intermediary that is not authorised to collect the relevant ASBA Forms or to our Company;

17. Do not Bid on a Bid cum Application Form that does not have the stamp of the relevant Designated Intermediary;

18. Do not submit the General Index Register (GIR) number instead of the PAN;

19. Do not submit incorrect details of the DP ID, Client ID, PAN and UPI ID, if applicable, or provide details for a beneficiary account which is suspended or for which details cannot be verified by the Registrar to the Offer;

20. Do not submit a Bid in case you are not eligible to acquire Equity Shares of face value of ₹2 each under applicable law or your relevant constitutional documents or otherwise;

21. Do not Bid if you are not competent to contract under the Indian Contract Act, 1872 (other than minors having valid depository accounts as per Demographic Details provided by the depository);

22. Do not submit a Bid/revise a Bid Amount, with a price less than the Floor Price or higher than the Cap Price;

23. Do not submit a Bid using UPI ID, if you are not a UPI Bidder;

24. Do not Bid on another Bid cum Application Form or the Anchor Investor Application Form, as the case may be, after you have submitted a Bid to any of the Designated Intermediaries;

25. Do not Bid for Equity Shares of face value of ₹2 each more than what is specified for each category;

26. If you are a QIB, do not submit your Bid after 3 p.m. IST on the QIB Bid/Offer Closing Date;

27. Do not fill up the Bid cum Application Form such that the number of Equity Shares of face value of ₹2 each Bid for, exceeds the Offer size and/or investment limit or maximum number of the Equity Shares of face value of ₹2 each that can be held under applicable laws or regulations or maximum amount permissible under applicable laws or regulations, or under the terms of this Red Herring Prospectus;

28. Do not withdraw your Bid or lower the size of your Bid (in terms of quantity of the Equity Shares of face value of ₹2 each or the Bid Amount) at any stage, if you are a QIB or a Non-Institutional Bidder. RIBs can revise or withdraw their Bids on or before the Bid/ Offer Closing Date;

29. Do not submit Bids to a Designated Intermediary at a location other than the Bidding Centres. If you are UPI Bidder, do not submit the ASBA Form directly with SCSBs;

30. If you are an UPI Bidder which is submitting the ASBA Form with any of the Designated Intermediaries and using your UPI ID for the purpose of blocking of funds, do not use any third party bank account or third party linked bank account UPI ID;

31. Do not Bid if you are an OCB;

32. UPI Bidders using the incorrect UPI handle or using a bank account of an SCSB and/ or mobile applications which is not mentioned in the list provided on the SEBI website is liable to be rejected;

33. Do not submit the Bid cum Application Forms to any non-SCSB bank;

34. Do not submit a Bid cum Application Form with third party ASBA Bank Account or UPI ID (in case of Bids submitted by UPI Bidder);

35. Do not Bid for a Bid Amount exceeding ₹200,000 (for Bids by Retail Individual Bidders) and ₹500,000 for Bids by Eligible Employees Bidding in the Employee Reservation Portion;

36. Do not link the UPI ID with a bank account maintained with a bank that is not UPI 2.0 certified by the NPCI in case of Bids submitted by UPI Bidders; and

37. In case of ASBA Bidders (other than 3 in 1 Bids) Syndicate Members shall ensure that they do not upload any bids above ₹500,000.

The Bid cum Application Form is liable to be rejected if the above instructions, as applicable, are not complied with. Application made using incorrect UPI handle or using a bank account of an SCSB or SCSBs which is not mentioned in list available on the website of SEBI at www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=43 and updated from time to time and at such other websites as may be prescribed by SEBI from time to time is liable to be rejected.

**Grounds for technical rejection**

In addition to the grounds for rejection of Bids on technical grounds as provided in the GID, Bidders are requested to note that Bids maybe rejected on the following additional technical grounds:

(a) Bids submitted without instruction to the SCSBs to block the entire Bid Amount;

(b) Bids which do not contain details of the Bid Amount and the bank account details in the ASBA Form;

(c) Bids submitted on a plain paper;

(d) Bids submitted by UPI Bidders through an SCSBs and/or using a mobile application or UPI handle, not listed on the website of SEBI;

(e) Bids under the UPI Mechanism submitted by UPI Bidders using third-party bank accounts or using a third-party linked bank account UPI ID (subject to availability of information regarding third-party account from Sponsor Bank(s));

(f) Anchor Investors should submit Anchor Investor Application Form only to the Book Running Lead Managers;

(g) Do not Bid on another Bid cum Application Form and the Anchor Investor Application Form, as the case may be, after you have submitted a Bid to any of the Designated Intermediary;

(h) ASBA Form by the UPI Bidders using third party bank accounts or using third party linked bank account UPI IDs;

(i) ASBA Form submitted to a Designated Intermediary does not bear the stamp of the Designated Intermediary;

(j) Bids submitted without the signature of the First Bidder or Sole Bidder;

(k) The ASBA Form not being signed by the account holders, if the account holder is different from the Bidder;

(l) Bids by persons for whom PAN details have not been verified and whose beneficiary accounts are "suspended for credit" in terms of the SEBI ICDR Master Circular;

(m) GIR number furnished instead of PAN;

(n) Bids by RIBs with Bid Amount of a value of more than ₹ 200,000;

(o) Bids by persons who are not eligible to acquire Equity Shares in terms of all applicable laws, rules, regulations, guidelines and approvals;

(p) Bids accompanied by stock invest, money order, postal order, or cash; and

(q) Bids uploaded by QIBs after 4.00 pm on the QIB Bid/Offer Closing Date and by Non-Institutional Bidders uploaded after 4.00 p.m. on the Bid/Offer Closing Date, and Bids by RIBs uploaded after 5.00 p.m. on the Bid/Offer Closing Date, unless extended by the Stock Exchanges. On Bid/Offer Closing Date, extension of time may be granted by Stock Exchanges only for uploading Bids received by RIBs after taking into account the total number of Bids received and as reported by the BRLMs to the Stock Exchanges.

Further, in case of any pre-Offer or post -Offer related issues regarding share certificates/ demat credit/refund orders/unblocking etc., Bidders can reach out to the Company Secretary and Chief Compliance Officer. For further details of the Company Secretary and Chief Compliance Officer, see "***General Information***" and "***Our Management***" beginning on pages 123 and

373, respectively.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated in accordance with applicable law. The Book Running Lead Managers shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, Bidders shall be entitled to compensation in the manner specified in the SEBI ICDR Master Circular (to the extent applicable) in case of delays in resolving investor grievances in relation to blocking/unblocking of funds.

The BRLMs shall be the nodal entity for any issues arising out of public issuance process. In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in SEBI RTA Master Circular shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and the BRLMs shall continue to coordinate with intermediaries involved in the said process.

For details of grounds for technical rejections of a Bid cum Application Form, please see the General Information Document.

**Names of entities responsible for finalising the basis of allotment in a fair and proper manner**

The authorised employees of the Designated Stock Exchange, along with the BRLMs and the Registrar to the Offer, shall ensure that the Basis of Allotment is finalised in a fair and proper manner in accordance with the procedure specified in SEBI ICDR Regulations.

**Method of allotment as may be prescribed by Securities and Exchange Board of India from time to time**

Our Company will not make any allotment in excess of the Equity Shares offered through the Offer through this Red Herring Prospectus and the Prospectus, except in case of oversubscription for the purpose of rounding off to make allotment, in consultation with the Designated Stock Exchange. Further, upon oversubscription, an allotment of not more than 1% of the Offer may be made for the purpose of making allotment in minimum lots.

The allotment of Equity Shares to applicants other than to the RIBs, Non-Institutional Bidders and Anchor Investors shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum allotment being equal to the minimum application size as determined and disclosed. The Allotment of Equity Shares to Anchor Investors shall be on a discretionary basis.

The Allotment of Equity Shares to each Retail Individual Bidder shall not be less than the minimum Bid Lot, subject to the availability of shares in Retail Individual Bidder category, and the remaining available shares, if any, shall be allotted on a proportionate basis.

Not more than 15% of the Net Offer shall be available for allocation to Non-Institutional Bidders. The Equity Shares available for allocation to Non-Institutional Bidders under the Non-Institutional Portion, shall be subject to the following: (i) one-third of the portion available to Non-Institutional Bidders shall be reserved for applicants with an application size of more than ₹ 200,000 and up to ₹ 1,000,000, and (ii) two-third of the portion available to Non-Institutional Bidders shall be reserved for applicants with an application size of more than ₹ 1,000,000, provided that the unsubscribed portion in either of the aforementioned sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders. The allotment to each Non-Institutional Bidder shall not be less than the minimum NIB application size, subject to the availability of Equity Shares in the Non-Institutional Portion, and the remaining Equity Shares.

**Payment into Anchor Investor Escrow Accounts**

Our Company, in consultation with the BRLMs will decide the list of Anchor Investors to whom the CAN will be sent, pursuant to which, the details of the Equity Shares allocated to them in their respective names will be notified to such Anchor Investors. For Anchor Investors, the payment instruments for payment into the Anchor Investor Escrow Account should be drawn in favour of:

(a) In case of resident Anchor Investors: "Lenskart Solutions Limited – Anchor Resident Account"

(b) In case of Non-Resident Anchor Investors: "Lenskart Solutions Limited – Anchor Non-Resident Account"

Anchor Investors should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Selling Shareholders, the Syndicate, the Escrow Collection Bank and the Registrar to the Offer to facilitate collections of Bid amounts from Anchor Investors.

**Pre-Offer and Price Band Advertisement**

Subject to Section 30 of the Companies Act, our Company shall, after filing this Red Herring Prospectus with the RoC, publish a pre-Offer and price band advertisement, in the form prescribed under the SEBI ICDR Regulations, in all editions of Financial Express, an English national daily newspaper and all editions of Jansatta, a Hindi national daily newspaper (Hindi being the regional language of Delhi, where our Registered Office is located), each with wide circulation.

In the pre-Offer and price band advertisement, we shall state the Bid/ Offer Opening Date and the Bid/ Offer Closing Date. This advertisement, subject to the provisions of Section 30 of the Companies Act, shall be in the format prescribed in Part A of Schedule X of the SEBI ICDR Regulations.

**Allotment Advertisement**

The Allotment advertisement shall be uploaded on the websites of our Company, BRLMs and Registrar to the Offer, before 9 p.m. IST, on the date of receipt of the final listing and trading approval from the Stock Exchanges, provided such final listing and trading approval from all the Stock Exchanges is received prior to 9:00 p.m. IST on that day. In an event, if final listing and trading approval from the Stock Exchanges is received post 9:00 p.m. IST on that date, then the Allotment Advertisement shall be uploaded on the websites of our Company, BRLMs and Registrar to the Offer, following the receipt of final listing and trading approval from all the Stock Exchanges.

Our Company, the BRLMs and the Registrar to the Offer shall publish the Basis of Allotment advertisement not later than one day after the date of commencement of trading, disclosing the date of commencement of trading in all editions of Financial Express, an English national daily newspaper and all editions of Jansatta, a Hindi national daily newspaper (Hindi being the regional language of Delhi, where our Registered Office is located), each with wide circulation.

**The information set out above is given for the benefit of the Bidders/applicants. Bidders/applicants are advised to make their independent investigations and ensure that the number of Equity Shares Bid for do not exceed the prescribed limits under applicable laws or regulations.**

**Signing of the Underwriting Agreement and Filing with the Registrar of Companies, Delhi and Haryana at New Delhi**

(a) Our Company, the Selling Shareholders and the Underwriters intend to enter into an Underwriting Agreement after the finalisation of the Offer Price.

(b) After signing the Underwriting Agreement, an updated Red Herring Prospectus will be filed with the RoC in accordance with applicable law, which would then be termed as the Prospectus. The Prospectus will contain details of the Offer Price, the Anchor Investor Offer Price, the Offer size, and underwriting arrangements and will be complete in all material respects.

**Impersonation**

Attention of the applicants is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, which is reproduced below:

"*Any person who:*

*(a) makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or*

*(b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or*

*(c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447.*"

The liability prescribed under Section 447 of the Companies Act, for fraud involving an amount of at least ₹1 million or 1% of the turnover of our Company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years and fine of an amount not less than the amount involved in the fraud, extending up to three times such amount (provided that where the fraud involves public interest, such term shall not be less than three years.) Further, where the fraud involves an amount less than ₹1 million or one per cent of the turnover of the company, whichever is lower, and does not involve public interest, any person guilty of such fraud shall be punishable with imprisonment for a term which may extend to five years or with fine which may extend to ₹5 million or with both.

**Undertakings by our Company**

Our Company undertakes the following:

- the complaints received in respect of the Offer shall be attended to by our Company expeditiously and satisfactorily;
- all steps for completion of the necessary formalities for listing and commencement of trading at all the Stock Exchanges where the Equity Shares are proposed to be listed are taken within three Working Days from the Bid/ Offer Closing Date or within such other time period as prescribed by SEBI will be taken;
- the funds required for making refunds/unblocking (to the extent applicable) as per the mode(s) disclosed shall be made available to the Registrar to the Offer by our Company;

- if Allotment is not made within the prescribed timelines under applicable laws, the entire subscription amount received will be refunded /unblocked within the time prescribed under applicable laws. If there is a delay beyond such prescribed time, our Company shall pay interest prescribed under the Companies Act, the SEBI ICDR Regulations and other applicable laws for the delayed period;

- where refunds (to the extent applicable) are made through electronic transfer of funds, a suitable communication shall be sent to the applicant within time prescribed under applicable laws, giving details of the bank where refunds shall be credited along with amount and expected date of electronic credit of refund;

- the Promoter's contribution, if any, shall be brought in advance before the Bid/ Offer Opening Date and the balance, if any, shall be brought in on a pro rata basis before calls are made on the Allottees, in accordance with the applicable provisions of the SEBI ICDR Regulations;

- that if our Company does not proceed with the Offer after the Bid/ Offer Closing Date but prior to Allotment, the reason thereof shall be given as a public notice within two Working days of the Bid/ Offer Closing Date. The public notice shall be issued in the same newspapers where the pre-Offer advertisements were published. The Stock Exchanges shall be informed promptly;

- that if the Offer is withdrawn after the Bid/ Offer Closing Date, our Company shall be required to file a fresh offer document with SEBI, in the event a decision is taken to proceed with the Offer subsequently;

- that our Company shall not have recourse to the Net Proceeds until the final approval for listing and trading of the Equity Shares from all the Stock Exchanges where the listing of the Equity Shares is sought has been received;

- except for the allotment of Equity Shares pursuant to the Fresh Issue, and upon any exercise of options vested pursuant to the ESOP Schemes, no further issue of the Equity Shares shall be made till the Equity Shares offered through this Red Herring Prospectus are listed or until the Bid monies are refunded/unblocked in the relevant ASBA Accounts on account of non-listing, under-subscription, etc.; and

- adequate arrangements shall be made to collect all Bid cum Application Forms from Bidders.

**Undertakings by the Selling Shareholders**

Each Selling Shareholder undertakes, severally and not jointly, in relation to itself as a Selling Shareholder and its respective portion of the Offered Shares that:

- such Offered Shares are eligible for being offered in the Offer for Sale in terms of Regulations 8 and 8A of the SEBI ICDR Regulations and are in dematerialized form;

- it is the legal and beneficial owner of such Offered Shares; and

- The respective portion of the Offered Shares are fully paid up.

Only the statements and undertakings provided above, in relation to each of the Selling Shareholders and their respective portion of the Offered Shares, are statements which are specifically confirmed or undertaken, severally and not jointly, by each Selling Shareholder in relation to itself and its respective portion of the Offered Shares. No other statements in this Red Herring Prospectus will be deemed to be made or confirmed by any of the Selling Shareholders even if such statement relates to such Selling Shareholder.

**Utilisation of Offer proceeds**

Our Company confirms that:

- all monies received out of the Fresh Issue shall be credited/transferred to a separate bank account other than the bank account referred to in sub-section (3) of Section 40 of the Companies Act;

- details of all monies utilized out of the Fresh Issue shall be disclosed, and continue to be disclosed till the time any part of the Net Proceeds remains unutilized, under an appropriate separate head in the balance sheet of our Company indicating the purpose for which such monies have been utilized; and

- details of all unutilized monies out of the Fresh Issue, if any shall be disclosed under an appropriate separate head in the balance sheet of our Company indicating the form in which such unutilized monies have been invested.

**Employee Discount**

Employee Discount will be offered to Eligible Employees bidding in the Employee Reservation Portion, and, at the time of making a Bid. Eligible Employees bidding in the Employee Reservation Portion at a price within the Price Band can make payment based on Bid Amount net of Employee Discount, at the time of making a Bid. Eligible Employees bidding in the

Employee Reservation Portion at the Cut-Off Price have to ensure payment at the Cap Price, less Employee Discount, at the time of making a Bid.

## RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the GoI and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Foreign investment is permitted (except in the prohibited sectors) in Indian companies, either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. The Government has from time to time made policy pronouncements on foreign direct investment ("**FDI**") through press notes and press releases. The DPIIT, issued the Consolidated FDI Policy, which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases, circulars and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular.

FDI in companies engaged in sectors/ activities which are not listed in the FDI Policy, including e-commerce industry, is permitted up to 100% of the paid-up share capital of such company under the automatic route, subject to compliance with certain prescribed conditions. For further details, see *"**Key Regulations and Policies***" beginning on page 338.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/ RBI.

On October 17, 2019, Ministry of Finance, Department of Economic Affairs, had notified the FEMA rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident Outside India) Regulations 2017. Foreign investment in this Offer shall be on the basis of the FEMA rules. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("**Restricted Investors**"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Non-debt Instruments Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the GoI is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period.

As per the existing policy of the Government of India, OCBs cannot participate in the Offer.

**Foreign Exchange Laws**

The foreign investment in our Company is governed by *inter alia* the FEMA, as amended, the FEMA Non-debt Instruments Rules and the FDI Policy issued and amended by way of press notes.

In terms of the FEMA Non-debt Instruments Rules, a person resident outside India may make investments into India, subject to certain terms and conditions. In terms of the FEMA Non-debt Instruments Rules and the FDI Policy, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land borders with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government, as prescribed in the FDI Policy and the FEMA Non-debt Instruments Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar in writing about such approval along with a copy thereof within the Bid/ Offer Period.

In terms of the FEMA Non-debt Instruments Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included. The aggregate limit for FPI investments shall be the sectoral cap applicable to our Company. In accordance with the FEMA Non-debt Instruments Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company. Our Company has, pursuant to the Board resolution dated July 25, 2025 and Shareholders' resolution dated July 26, 2025, increased the limit of investment of NRIs and OCIs from 10% to up to 24% of the paid-up equity share capital of our Company, provided

however that the shareholding of each NRI in our Company shall not exceed 5% of the Equity Share capital or such other limit as may be stipulated by RBI in each case, from time to time.

The above information is given for the benefit of the Bidders. Our Company, the Selling Shareholders and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares Bid for do not exceed the applicable limits under laws or regulations.

**The Equity Shares have not been and will not be registered under the U.S. Securities Act or any other applicable state securities laws of the United States, and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States only to persons reasonably believed to be "qualified institutional buyers" (as defined in Rule 144A under the U.S. Securities Act and referred to in this Red Herring Prospectus as "U.S. QIBs") pursuant to Section 4(a) of the U.S. Securities Act, and (ii) outside the United States in offshore transactions, as defined in, and in compliance with, Regulation S under the U.S. Securities Act and the applicable laws of the jurisdictions where those offers and sales occur. For the avoidance of doubt, the term "U.S. QIBs" does not refer to a category of institutional investors defined under applicable Indian regulations and referred to in this Red Herring Prospectus as "QIBs".**

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction

**The above information is given for the benefit of the Bidders. Bidders are advised to make their independent investigation and ensure that the number of Equity Shares Bid for do not exceed the applicable limits under applicable laws or regulations.**

## SECTION X - PROVISIONS OF THE ARTICLES OF ASSOCIATION

## ARTICLES OF ASSOCIATION

## OF

## LENSKART SOLUTIONS LIMITED

**(Incorporated under the Companies Act, 1956)**

This set of Articles of Association has been approved pursuant to the provisions of Section 14 of the Companies Act, 2013 and by a special resolution passed at the Extraordinary General Meeting of Lenskart Solutions Limited (the **"Company")** held on July 26, 2025. These Articles have been adopted as the Articles of Association of our Company in substitution for and to the exclusion of all the existing Articles thereof.

The Articles of Association of our Company include two parts, Part A and Part B, which parts shall, unless the context otherwise requires, co-exist with each other until the date of the listing of the Equity Shares of our Company (*defined herein*) in connection with the Offer.

In case of any inconsistency or contradiction, conflict or overlap between Part A and Part B, the provisions of Part B shall prevail and be applicable until the consummation of the Offer, that is until commencement of trading of the Equity Shares on the Stock Exchanges pursuant to the Offer. All articles of Part B shall automatically terminate and cease to have any force and effect from such date the provisions of Part A shall continue to be in effect and be in force, without any further corporate or other action, by our Company or by its shareholders.

### PRELIMINARY TABLE 'F' EXCLUDED

The regulations contained in the Table marked 'F' in Schedule I to the Companies Act, 2013, as amended from time to time, shall not apply to the Company, except in so far as the same are repeated, contained or expressly made applicable in these Articles or by the said Act.

The regulations for the management of the Company and for the observance by the Members thereto and their representatives, shall, subject to any exercise of the statutory powers of the Company with reference to addition, alteration, substitution, modification, repeal and variation thereto by special resolution as prescribed or permitted by the Companies Act, 2013, as amended from time to time, be such as are contained in these Articles.

### PART A

### DEFINITIONS AND INTERPRETATION

In the interpretation of these Articles, the following words and expressions, unless repugnant to the subject or context, shall mean the following:

"***Act***" or "***the said Act***" means the Companies Act, 2013 and the rules enacted and any statutory modification or re-enactment thereof for the time being in force and the term shall be deemed to refer to the applicable section thereof which is relatable to the relevant Article in which the said term appears in these Articles and any previous company law, so far as may be applicable;

"***Annual General Meeting***" means the annual general meeting of the Company convened and held in accordance with the Act;

"***Articles of Association***" **or** "***Articles***" mean these articles of association of the Company, as may be altered from time to time in accordance with the Act;

"***Board***" or "***Board of Directors***" means the board of directors of the Company in office at applicable times, in accordance with the law and provisions of these Articles;

"***Company***" means Lenskart Solutions Limited, a company incorporated under the laws of India;

"***Depository***" means a depository, as defined in clause (e) of sub-section (1) of Section 2 of the Depositories Act, 1996 and a company formed and registered under the Companies Act, 2013 and which has been granted a certificate of registration under sub-section (1A) of Section 12 of the Securities and Exchange Board of India Act, 1992;

"***Director(s)***" shall mean any director of the Company, including alternate directors, Independent Directors and nominee directors appointed in accordance with the law and provisions of these Articles;

*"****Equity Shares****"* or "***Shares***" shall mean the issued, subscribed and fully paid-up equity shares of the Company having a face value of such amount as prescribed under the Memorandum of Association;

"***Extraordinary General Meeting***" means an extraordinary general meeting of the Company convened and held in accordance with the Act;

"***General Meeting***" means any duly convened meeting of the shareholders of the Company and any adjournments thereof;

"***Member***" means the duly registered holder from time to time, of the Shares of the Company and includes the subscribers to the Memorandum of Association and in case of Shares held by a Depository, the beneficial owners whose names are recorded as such with the Depository;

"***Memorandum***" or "***Memorandum of Association***" means the memorandum of association of the Company, as may be altered from time to time;

"***Office***" means the registered office, for the time being, of the Company;

"***Officer***" shall have the meaning assigned thereto by the Act;

"***Ordinary Resolution***" as defined under section 114 of the Companies Act, 2013, means a resolution in respect of which the notice required under the Act has been duly given of the General Meeting at which such resolution is to be proposed and the votes cast (whether on a show of hands, or electronically or on a poll, as the case may be), in favour of the resolution (including the casting vote, if any, of the Chairman) by Members who, being entitled so to do, vote in person, or where proxies are allowed, by proxy or by postal ballot, exceed the votes, if any, cast against the resolution by Members so entitled and voting;

"***Register***" or "***Register of Members***" means the register of Members to be maintained pursuant to section 88 of the Act and the register of beneficial owners pursuant to Section 11 of the Depositories Act, 1996, in case of Shares held in a Depository;

"***Special Resolution***" shall have the meaning assigned thereto by the Act;

"***Stock Exchange***" means National Stock Exchange of India Limited, BSE Limited or such other recognized stock exchange in India or outside of India; and

Except where the context requires otherwise, these Articles will be interpreted as follows:

a) headings are for convenience only and shall not affect the construction or interpretation of any provision of these Articles.

b) where a word or phrase is defined, other parts of speech and grammatical forms and the cognate variations of that word or phrase shall have corresponding meanings;

c) words importing the singular shall include the plural and vice versa;

d) all words (whether gender-specific or gender neutral) shall be deemed to include each of the masculine, feminine and neuter genders;

e) the expressions "hereof", "herein" and similar expressions shall be construed as references to these Articles as a whole and not limited to the particular Article in which the relevant expression appears;

f) the *ejusdem generis* (of the same kind) rule will not apply to the interpretation of these Articles. Accordingly, ***include*** and ***including*** will be read without limitation;

g) any reference to a ***person*** includes any individual, firm, corporation, partnership, company, trust, association, joint venture, government (or agency or political subdivision thereof) or other entity of any kind, whether or not having separate legal personality. A reference to any person in these Articles shall, where the context permits, include such person's executors, administrators, heirs, legal representatives and permitted successors and assigns;

h) a reference to any document (including these Articles) is to that document as amended, consolidated, supplemented, novated or replaced from time to time;

i) references made to any provision of the Act or the Rules shall be construed as meaning and including the references to the rules and regulations made in relation to the same by the Ministry of Corporate Affairs, Government of India.

j) the applicable provisions of the Companies Act, 1956 shall cease to have effect from the date on which the corresponding provisions under the Companies Act, 2013 have been notified.

k) a reference to a statute or statutory provision includes, to the extent applicable at any relevant time:

   i. that statute or statutory provision as from time to time consolidated, modified, re-enacted or replaced by any other statute or statutory provision; and

   ii. any subordinate legislation or regulation made under the relevant statute or statutory provision;

l) references to writing include any mode of reproducing words in a legible and non- transitory form;

m) references to ***Rupees, Rs., Re., INR, ₹*** are references to the lawful currency of India; and

n) save as aforesaid, any words or expressions defined in the Act shall, if not inconsistent with the subject or context bear the same meaning in these Articles.

## SHARE CAPITAL AND VARIATION OF RIGHTS

### 1. AUTHORISED SHARE CAPITAL

The authorised Share capital of the Company shall be such amount, divided into such class(es), denomination(s) and number of Shares in the Company as may from time to time be provided in Clause V(a) of the Memorandum of Association, with power to increase or reduce such capital from time to time and power to divide share capital into other classes and to attach thereto respectively such preferential, convertible, deferred, qualified, or other special rights, privileges, conditions or restrictions and to consolidate or sub-divide the shares and issue shares of higher or lower denominations and to vary, modify or abrogate the same in such manner as may be determined by or in accordance with these Articles, subject to the provisions of applicable law for the time being in force.

### 2. NEW CAPITAL PART OF THE EXISTING CAPITAL

Except so far as otherwise provided by the conditions of issue or by these Articles, any capital raised by the creation of new Shares shall be considered as part of the existing capital, and shall be subject to the provisions herein contained, with reference to the payment of calls and installments, forfeiture, lien, surrender, transfer and transmission, voting and otherwise.

### 3. KINDS OF SHARE CAPITAL

The Company may issue the following kinds of Shares in accordance with these Articles, the Act and other applicable laws:

a. Equity share capital:

   i. with voting rights; and/or

   ii. with differential rights as to dividend, voting or otherwise in accordance with the Act; and

b. Preference share capital.

The Board shall also be entitled to issue, from time to time, subject to any other legislation for the time being in force, any other securities, including securities convertible into shares, exchangeable into shares, or carrying a warrant, with or without any attached securities, carrying such terms as to coupon, returns, repayment, servicing, as may be decided by the terms of such issue.

### 4. SHARES AT THE DISPOSAL OF THE BOARD OF DIRECTORS

Subject to the provisions of section 62 of the Act and these Articles, the Shares in the capital of the Company shall be under the control of the Board of Directors who may issue, allot or otherwise dispose of all or any of such Shares to such persons, in such proportion and on such terms and conditions and either at a premium or at par or at a discount (subject to compliance with the provisions of Section 53 of the Act) and at such time as they may from time to time think fit and, with the sanction of the Company in General Meeting, give to any person(s) the option or right to call for any Shares either at par or premium during such time and for such consideration as the Board of Directors think fit, and may issue and allot Shares on payment in full or part of any property sold and transferred or for any services rendered to the Company in the conduct of its business. Any Shares so allotted may be issued as fully paid-up Shares and if so issued, shall be deemed to be fully paid-up Shares. Provided that option or right to call of Shares shall not be given to any person or persons without the sanction of the company in the General Meeting.

### 5. CONSIDERATION FOR ALLOTMENT

The Board of Directors may issue and allot Shares of the Company as payment in full or in part, for any property purchased by the Company or in respect of goods sold or transferred or machinery or appliances supplied by the Company or for services rendered to the Company in the acquisition and/or in the conduct of its business; and any Shares which may be so allotted may be issued as fully paid up Shares and if so issued shall be deemed as fully paid up Shares.

### 6. SUB-DIVISION, CONSOLIDATION AND CANCELLATION OF SHARE CERTIFICATE

Subject to the provisions of the Act and these Articles, the Company in its General Meetings may, by an Ordinary Resolution, from time to time:

a. increase the authorised Share capital by such sum, to be divided into Shares of such amount as it thinks expedient;

b. divide, sub-divide or consolidate its Shares, or any of them, and the resolution whereby any share is sub-divided, may determine that as between the holders of the Shares resulting from such sub-division one or more of such Shares have some preference or special advantage in relation to dividend, capital or otherwise as compared with the others;

c. cancel Shares which at the date of such General Meeting have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the Shares so cancelled;

d. consolidate and divide all or any of its share capital into Shares of larger or smaller amount than its existing Shares; provided that any consolidation and division which results in changes in the voting percentage of Members shall require applicable approvals under the Act;

e. convert all or any of its fully paid-up Shares into stock, and reconvert that stock into fully paid-up Shares of any denomination; and

f. The cancellation of Shares under point (c) above shall not be deemed to be a reduction of the authorised Share capital.

**7. FURTHER ISSUE OF SHARES**

(1) Where at any time the Board or the Company, as the case may be, propose to increase the subscribed Share capital by the issue of further Shares then such Shares shall be offered, subject to the provisions of section 62 of the Act, and the rules notified thereunder:

(A) (i) to the persons who at the date of the offer or such other date as specified under applicable law, are holders of the Equity Shares of the Company, in proportion as nearly as circumstances admit, to the paid-up share capital on those Shares by sending a letter of offer subject to the conditions mentioned in (ii) to (iv) below;

(ii) The offer aforesaid shall be made by notice specifying the number of Shares offered and limiting a time not being less than fifteen (15) days (or such lesser number of days as may be prescribed under the Act or the rules notified thereunder, or other applicable law) and not exceeding thirty (30) days from the date of the offer, within which the offer if not accepted, shall be deemed to have been declined.

Provided that the notice shall be dispatched through registered post or speed post or through electronic mode or courier or any other mode having proof of delivery to all the existing shareholders at least three (3) days before the opening of the issue;

(iii) The offer aforesaid shall be deemed to include a right exercisable by the person concerned to renounce the Shares offered to him or any of them in favour of any other person and the notice referred to in sub-clause (ii) shall contain a statement of this right;

(iv) After the expiry of time specified in the aforesaid notice or on receipt of earlier intimation from the person to whom such notice is given that the person declines to accept the Shares offered, the Board of Directors may dispose of them in such manner which is not disadvantageous to the Members and the Company;

(B) to employees under any scheme of employees' stock option subject to Special Resolution passed by the shareholders of the Company and subject to the rules and such other conditions, as may be prescribed under applicable law; or

(C) to any person(s), if it is authorised by a Special Resolution, whether or not those persons include the persons referred to in clause (A) or clause (B) above either for cash or for consideration other than cash, subject to compliance with applicable law. Further, where no such resolution is passed, if the votes cast (whether on a show of hands or on a poll as the case may be) in favour of the proposal contained in the resolution moved in that General Meeting (including the casting vote, if any, of the Chairman) by Members who, being entitled so to do, vote in person, or where proxies are allowed, by proxy, exceed the votes, if any, cast against the proposal by Members, so entitled and voting and the Central Government is satisfied, on an application made by the Board of Directors in this behalf, that the proposal is most beneficial to the company;

(2) Nothing in sub-clause (iii) of clause (1)(A) shall be deemed:

(i) To extend the time within which the offer should be accepted; or

(ii) To authorize any person to exercise the right of renunciation for a second time on the ground that the person in whose favour the renunciation was first made has declined to take the Shares compromised in the renunciation.

(3) Nothing in this Article shall apply to the increase of the subscribed Share capital of the Company caused by the exercise of an option as a term attached to the debentures issued or loans raised by the Company (i) to convert such debentures or loans into Shares in the Company or (ii) to subscribe for Shares of the Company (whether such option is conferred in these Articles or otherwise). Provided that the terms of issue of such debentures or the raising of the loans is in conformity with the rules made, if any, by the Central Government in this behalf; and in the case of debentures or loans or other than debentures issued to, or loans obtained from the Government or any institution specified by the Central Government in this behalf, has also been approved by the special resolution passed by the company in General Meeting before the issue of the loans.

(4) Notwithstanding anything contained in Article 7(3)hereof, where any debentures have been issued, or loan has been obtained from any government by the Company, and if that government considers it necessary in the public interest so to do, it may, by order, direct that such debentures or loans or any part thereof shall be converted into Shares in the Company on such terms and conditions as appear to the government to be reasonable in the circumstances of the case even if terms of the issue of such debentures or the raising of such loans do not include a term for providing for an option for such conversion. In determining the terms and conditions of conversion, the government shall have due regard to the financial position of the company, the terms of issue of debentures or loans, as the case may be, the rate of interest payable on such debentures or loans and such other matters as it may consider necessary:

Provided that where the terms and conditions of such conversion are not acceptable to the Company, it may, within sixty days from the date of communication of such order, appeal to National Company Law Tribunal which shall after hearing the Company and the Government pass such order as it deems fit.

Subject to the provisions of these Articles, the Act, other applicable laws and subject to such other approvals, permissions or sanctions as may be necessary, the Company may issue any securities in any manner whatsoever as the Board may determine including by way of preferential allotment or private placement subject to and in accordance with applicable provisions of the Act and other applicable laws.

**8. RIGHT TO CONVERT LOANS INTO CAPITAL**

Notwithstanding anything contained in sub-clauses(s) of Article 7 above, but subject, however, to the provisions of the Act, the Company may increase its subscribed capital on exercise of an option attached to the debentures or loans raised by the Company to convert such debentures or loans into Shares or to subscribe for Shares in the Company.

Provided that the terms of issue of such debentures or loan containing such an option have been approved before the issue of such debentures or the raising of loan by a Special Resolution passed by the Company in a General Meeting.

**9. ISSUE OF FURTHER SHARES NOT TO AFFECT RIGHTS OF EXISTING MEMBERS**

The rights conferred upon the holders of the Shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the Shares of that class, be deemed to be varied by the creation or issue of further Shares ranking *pari passu* therewith.

**10. ALLOTMENT ON APPLICATION TO BE ACCEPTANCE OF SHARES**

Any application signed by or on behalf of an applicant for Shares in the Company followed by an allotment of any Shares therein, shall be an acceptance of Shares within the meaning of these Articles, and every person who thus or otherwise accepts any Shares and whose name is on the Register of Members, shall, for the purpose of these Articles, be a Member.

**11. RETURN ON ALLOTMENTS TO BE MADE OR RESTRICTIONS ON ALLOTMENT**

The Board shall observe the restrictions as regards allotment of Shares to the public contained in the Act and other applicable law, and as regards return on allotments, the Board of Directors shall comply with applicable provisions of the Act.

**12. MONEY DUE ON SHARES TO BE A DEBT TO THE COMPANY**

The money (if any) which the Board shall, on the allotment of any Shares being made by them, require or direct to be paid by way of deposit, call or otherwise in respect of any Shares allotted by them, shall immediately on the inscription of the name of allottee in the Register as the name of the holder of such Shares, become a debt due to and recoverable by the Company from the allottee thereof, and shall be paid by him accordingly.

**13. INSTALLMENTS ON SHARES**

If, by the conditions of allotment of any Shares, whole or part of the amount or issue price thereof shall be payable by installments, every such installment shall, when due, be paid to the Company by the person who, for the time being and from time to time, shall be the registered holder of the Share or his legal representative.

## 14. MEMBERS OR HEIRS TO PAY UNPAID AMOUNTS

Every Member or his heirs, executors or administrators shall pay to the Company the portion of the capital represented by his share or Shares which may, for the time being remain unpaid thereon, in such amounts, at such time or times and in such manner, as the Board shall from time to time, in accordance with these Articles require or fix for the payment thereof.

## 15. VARIATION OF SHAREHOLDERS' RIGHTS

a. If at any time the share capital of the Company is divided into different classes of Shares, the rights attached to the Shares of any class (unless otherwise provided by the terms of issue of the Shares of that class) may, subject to provisions of the Act and whether or not the Company is being wound up, be varied with the consent in writing of the holders of not less than three-fourth of the issued Shares of that class or with the sanction of a Special Resolution passed at a separate meeting of the holders of the issued Shares of that class, as prescribed by the Act.

b. Subject to the provisions of the Act, to every such separate meeting, the provisions of these Articles relating to meeting shall *mutatis mutandis* apply.

## 16. PREFERENCE SHARES

*a. Redeemable Preference Shares*

The Company, subject to the applicable provisions of the Act and the consent of the Board, shall have the power to issue on a cumulative or non-cumulative basis, preference Shares liable to be redeemed in any manner permissible under the Act, and the Board of Directors may, subject to the applicable provisions of the Act, exercise such power in any manner as they deem fit and provide for redemption of such Shares on such terms including the right to redeem at a premium or otherwise as they deem fit.

*b. Convertible Redeemable Preference Shares*

The Company, subject to the applicable provisions of the Act and the consent of the Board, shall have power to issue on a cumulative or non-cumulative basis convertible redeemable preference Shares liable to be redeemed in any manner permissible under the Act and the Board of Directors may, subject to the applicable provisions of the Act, exercise such power as they deem fit and provide for redemption at a premium or otherwise and/or conversion of such Shares into such securities on such terms as they may deem fit.

## 17. PAYMENTS OF INTEREST OUT OF CAPITAL

The Company shall have the power to pay interest out of its capital on so much of the Shares which have been issued for the purpose of raising money to defray the expenses of the construction of any work or building for the Company in accordance with the Act and other applicable law.

## 18. AMALGAMATION

Subject to provisions of these Articles, the Company may amalgamate or cause itself to be amalgamated with any other person, firm or body corporate subject to the provisions of the Act and other applicable law.

## SHARE CERTIFICATES

## 19. ISSUE OF CERTIFICATES

Every Member shall be entitled, without payment, to one or more certificates in marketable lots, for all the Shares of each class or denomination registered in his name, or if the Board of Directors so approve (upon paying such fee as the Board of Directors so determine) to several certificates, each for one or more of such Shares and the Company shall complete and have ready for delivery such certificates, unless prohibited by any provision of law or any order of court, tribunal or other authority having jurisdiction, within two (2) months from the date of allotment unless conditions of issue thereof otherwise provide, or within one (1) month of the receipt of application of registration of transfer, transmission, sub division, consolidation or renewal of any of its Shares as the case maybe or within such other period as any other legislation for time being in force may provide or within a period of six (6) months from the date of allotment in the case of any allotment of debenture or within such other period as any other legislation for time being in force may provide. In respect of any share or Shares held jointly by several persons, the Company shall not be bound to issue more than one (1) certificate, and delivery of a certificate for a share to one of several joint holders shall be sufficient delivery to all such joint holders.

Every certificate of Shares shall be under the seal of the company and shall specify the number and distinctive numbers of shares in respect of which it is issued and amount paid up thereon and shall be in such form as the directors may prescribe or approve, provided that in respect of a share or shares held jointly by several persons, the company shall not be borne to issue more than one certificate and delivery of a certificate of Shares to one of several joint holders

shall be sufficient delivery to all such holder.

Every certificate shall specify the Shares to which it relates and the amount paid-up thereon and shall be signed by two (2) directors or by a director and the company secretary, wherever the company has appointed a company secretary and shall be in such form as prescribed under sub-section (3) of Section 46 of the Act.

The Company may sub-divide or consolidate the certificates.

**20. RULES TO ISSUE SHARE CERTIFICATES**

The Act shall be complied with in respect of the issue, reissue, renewal of share certificates and the format, sealing and signing of the certificates and records of the certificates issued shall be maintained in accordance with the Act.

**21. ISSUE OF NEW CERTIFICATE IN PLACE OF ONE DEFACED, LOST OR DESTROYED**

If any certificate be worn out, defaced, mutilated or torn or if there be no further space on the back thereof for endorsement of transfer, then upon production and surrender thereof to the Company, a new certificate may be issued in lieu thereof, and if any certificate is lost or destroyed then upon proof thereof to the satisfaction of the Company and on execution of such indemnity as the Company deems adequate, being given, a new certificate in lieu thereof shall be given to the party entitled to such lost or destroyed certificate. Every certificate under this Article shall be issued without payment of any fees or upon payment of such fee as prescribed under applicable law for each certificate, and as the Board shall prescribe. Provided that no fee shall be charged for issue of new certificates in replacement of those which are old, defaced or worn out or where there is no further space on the back thereof for endorsement of transfer or in case of sub-division or consolidation of shares.

Provided that notwithstanding what is stated above, the Board of Directors shall comply with such rules or regulation or requirements of any stock exchange or the rules notified under the Act, or the rules notified under Securities Contracts (Regulation) Act, 1956 or any other act or rules applicable in this behalf.

The provision of this Article shall *mutatis mutandis* apply to issue of certificates for any other securities including debentures of the Company.

**UNDERWRITING & BROKERAGE**

**22. COMMISSION FOR PLACING SHARES, DEBENTURES, ETC.**

a. Subject to the provisions of Section 76 of the Act, the rules notified thereunder, and other applicable laws, the Company may at any time pay a commission to any person for subscribing or agreeing to subscribe (whether absolutely or conditionally) to any Shares or debentures of the Company or underwriting or procuring or agreeing to procure subscriptions (whether absolute or conditional) for Shares or debentures of the Company and provisions of the Act shall apply.

b. The rate or amount of the commission shall not exceed the rate or amount prescribed in the Act.

c. The Company may also, in any issue, pay such brokerage as may be lawful.

d. The commission may be satisfied by the payment of cash or the allotment of fully or partly paid-up Shares or partly in one way and partly in the other.

**LIEN**

**23. COMPANY'S LIEN ON SHARES / DEBENTURES**

The fully paid-up Shares/debentures shall be free from all lien and in the case of partly paid-up Shares the Company's lien shall be restricted to moneys called or payable at a fixed time in respect of such Shares/debentures.

The Company, subject to applicable law, shall have a first and paramount lien on every Share / debenture (not being a fully paid-up share / debenture) registered in the name of each Member (whether solely or jointly with others) and upon the proceeds of sale thereof for all moneys (whether presently payable or not) called, or payable at a fixed time, in respect of that share / debenture and no equitable interest in any share shall be created upon the footing and condition that this Article will have full effect and such lien shall extend to all dividends and bonuses from time to time declared in respect of such Shares /debentures. Unless otherwise agreed, the registration of transfer of Shares / debentures shall operate as a waiver of the Company's lien, if any, on such Shares / debentures.

Provided that the Board may at any time declare any share/debenture to be wholly or in part exempt from the provisions of this Article in relation to the Company's lien.

**24. LIEN TO EXTEND TO DIVIDENDS, ETC.**

Subject to Article 23, the Company's lien, if any, on a Share shall extend to all dividends or interest, as the case may be, payable and bonuses declared from time to time in respect of such Shares / debentures.

**25. ENFORCING LIEN BY SALE**

The Company may sell, in such manner as the Board thinks fit, any Shares on which the Company has a lien:

Provided that no sale shall be made—

a. unless a sum in respect of which the lien exists is presently payable; or

b. until the expiration of fourteen (14) days' after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share or to the person entitled thereto by reason of his death or insolvency or otherwise.

No Member shall exercise any voting right in respect of any Shares registered in his name on which any calls or other sums presently payable by him have not been paid, or in regard to which the Company has exercised any right of lien.

**26. VALIDITY OF SALE**

To give effect to any such sale, the Board may authorise some person to transfer the Shares sold to the purchaser thereof. The purchaser shall be registered as the holder of the Shares comprised in any such transfer. The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the Shares be affected by any irregularity or invalidity in the proceedings with reference to the sale.

**27. VALIDITY OF COMPANY'S RECEIPT**

The receipt of the Company for the consideration (if any) given for the share on the sale thereof shall (if necessary, to execution of an instrument of transfer or a transfer by relevant system, as the case maybe) constitute a good title to the share and the purchaser shall be registered as the holder of the share.

**28. APPLICATION OF SALE PROCEEDS**

The proceeds of any such sale shall be received by the Company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to a like lien for sums not presently payable as existed upon the Shares before the sale) be paid to the person entitled to the Shares at the date of the sale.

**29. OUTSIDER'S LIEN NOT TO AFFECT COMPANY'S LIEN**

In exercising its lien, the Company shall be entitled to treat the registered holder of any share as the absolute owner thereof and accordingly shall not (except as ordered by a court of competent jurisdiction or unless required by law) be bound to recognise any equitable or other claim to, or interest in, such share on the part of any other person, whether a creditor of the registered holder or otherwise. The Company's lien shall prevail notwithstanding that it has received notice of any such claim.

**30. PROVISIONS AS TO LIEN TO APPLY MUTATIS MUTANDIS TO DEBENTURES, ETC.**

The provisions of these Articles relating to lien shall *mutatis mutandis* apply to any other securities, including debentures, of the Company.

**CALLS ON SHARES**

**31. BOARD TO HAVE RIGHT TO MAKE CALLS ON SHARES**

The Board may subject to the provisions of the Act and any other applicable law, from time to time, make such call as it thinks fit upon the Members in respect of all moneys unpaid on the Shares (whether on account of the nominal value of the Shares or by premium) and not by the conditions of allotment thereof made payable at fixed times. Provided that no call shall exceed one-fourth of the nominal value of the share or be payable at less than one (1) month from the date fixed for the payment of the last preceding call. A call may be revoked or postponed at the discretion of the Board. The power to call on Shares shall not be delegated to any other person except with the approval of the shareholders in a General Meeting and as maybe permitted by law.

**32. NOTICE FOR CALL**

Each Member shall, subject to receiving at least fourteen (14) days' notice specifying the time or times and place of payment, pay to the Company, at the time or times and place so specified, the amount called on his Shares.

The Board may, from time to time, at its discretion, extend the time fixed for the payment of any call, in respect of one (1) or more Members, as the Board may deem appropriate in any circumstances.

A call may be revoked or postponed at the discretion of the Board.

**33. CALL WHEN MADE**

The Board of Directors may, when making a call by resolution, determine the date on which such call shall be deemed to have been made, not being earlier than the date of resolution making such call, and thereupon the call shall be deemed to have been made on the date so determined and if no such date is so determined a call shall be deemed to have been made at the date when the resolution authorizing such call was passed at the meeting of the Board and may be required to be paid in installments.

**34. LIABILITY OF JOINT HOLDERS FOR A CALL**

The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.

**35. CALLS TO CARRY INTEREST**

If a Member fails to pay any call due from him on the day appointed for payment thereof, or any such extension thereof as aforesaid, he shall be liable to pay interest on the same from the day appointed for the payment thereof to the time of actual payment at such rate as shall from time to time be fixed by the Board but nothing in this Article shall render it obligatory for the Board to demand or recover any interest from any such Member. The Board shall be at liberty to waive payment of any such interest wholly or in part.

**36. DUES DEEMED TO BE CALLS**

Any sum which by the terms of issue of a share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the share or by way of premium, shall, for the purposes of these Articles, be deemed to be a call duly made and payable on the date on which by the terms of issue such sum becomes payable.

**37. EFFECT OF NON-PAYMENT OF SUMS**

In case of non-payment of such sum, all the relevant provisions of these Articles as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.

**38. PAYMENT IN ANTICIPATION OF CALL MAY CARRY INTEREST**

The Board –

a. may, subject to provisions of the Act, if it thinks fit, agree to and receive from any Member willing to advance the same, all or any part of the monies uncalled and unpaid upon any Shares held by him;

b. upon all or any of the monies so satisfied in advance, may (until the same would, but for such advance, become presently payable) pay interest at such rate as may be agreed upon between the Board and the Member paying the sum in advance. Nothing contained in this Article shall confer on the Member (i) any right to participate in profits or dividends; or (ii) any voting rights in respect of the moneys so paid by him, until the same would, but for such payment, become presently payable by him. The Board may at any time repay the amount so advanced.

The Members shall not be entitled to any voting rights in respect of the money so paid by him until the same would but for such payment, become presently payable.

**39. PROVISIONS AS TO CALLS TO APPLY MUTATIS MUTANDIS TO DEBENTURES, ETC.**

The provisions of these Articles relating to calls shall *mutatis mutandis* apply to any other securities, including debentures, of the Company, to the extent applicable.

**FORFEITURE OF SHARES**

**40. BOARD TO HAVE A RIGHT TO FORFEIT SHARES**

If a Member fails to pay the whole or any part of any call, or installment of a call or any money due in respect of any share on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of

the call or installment remains unpaid or a judgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on him or his legal representative requiring payment of so much of the call or installment or other money as is unpaid, together with any interest which may have accrued and all expenses that may have been incurred by the Company by reason of non-payment.

**41. NOTICE FOR FORFEITURE OF SHARES**

The notice aforesaid shall:

a. name a further day (not being earlier than the expiry of fourteen (14) days from the date of service of the notice) on or before which the payment required by the notice is to be made; and

b. state that, in the event of non-payment on or before the day so named, the Shares in respect of which the call was made shall be liable to be forfeited.

If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.

**42. RECEIPT OF PART AMOUNT OR GRANT OF INDULGENCE NOT TO AFFECT FORFEITURE**

Neither a judgment nor a decree in favour of the Company for calls or other moneys due in respect of any Shares nor any part payment or satisfaction thereof nor the receipt by the Company of a portion of any money which shall from time to time be due from any Member in respect of any Shares either by way of principal or interest nor any indulgence granted by the Company in respect of payment of any such money shall preclude the forfeiture of such Shares as herein provided. There shall be no forfeiture of unclaimed dividends before the claim becomes barred by applicable law.

**43. FORFEITED SHARE TO BE THE PROPERTY OF THE COMPANY**

Any share forfeited in accordance with these Articles, shall be deemed to be the property of the Company and may be sold, re-allocated or otherwise disposed of either to the original holder thereof or to any other person upon such terms and in such manner as the Board thinks fit.

**44. ENTRY OF FORFEITURE IN REGISTER OF MEMBERS**

When any share shall have been so forfeited, notice of the forfeiture shall be given to the defaulting Member and any entry of the forfeiture with the date thereof, shall forthwith be made in the Register of Members but no forfeiture shall be invalidated by any omission or neglect or any failure to give such notice or make such entry as aforesaid.

**45. MEMBER TO BE LIABLE EVEN AFTER FORFEITURE**

A person whose Shares have been forfeited shall cease to be a Member in respect of the forfeited Shares, but shall, notwithstanding the forfeiture, remain liable to pay, and shall pay, to the Company all monies which, at the date of forfeiture, were presently payable by him to the Company in respect of the Shares. All such monies payable shall be paid together with interest thereon at such rate as the Board may determine, from the time of forfeiture until payment or realization. The Board may, if it thinks fit, but without being under any obligation to do so, enforce the payment of the whole or any portion of the monies due, without any allowance for the value of the Shares at the time of forfeiture or waive payment in whole or in part. The liability of such person shall cease if and when the Company shall have received payment in full of all such monies in respect of the Shares.

**46. EFFECT OF FORFEITURE**

The forfeiture of a share shall involve extinction at the time of forfeiture, of all interest in and all claims and demands against the Company, in respect of the share and all other rights incidental to the share, except only such of those rights as by these Articles expressly saved.

**47. CERTIFICATE OF FORFEITURE**

A duly verified declaration in writing that the declarant is a Director, the manager or the secretary of the Company, and that a share in the Company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share.

**48. TITLE OF PURCHASER AND TRANSFEREE OF FORFEITED SHARES**

The Company may receive the consideration, if any, given for the share on any sale, re- allotment or disposal thereof and may execute a transfer of the share in favour of the person to whom the share is sold or disposed of. The transferee shall thereupon be registered as the holder of the share and the transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment or disposal of the share.

**49. VALIDITY OF SALES**

Upon any sale after forfeiture or for enforcing a lien in exercise of the powers hereinabove given, the Board may, if necessary, appoint some person to execute an instrument for transfer of the Shares sold and cause the purchaser's name to be entered in the Register of Members in respect of the Shares sold and after his name has been entered in the Register of Members in respect of such Shares the validity of the sale shall not be impeached by any person.

**50. CANCELLATION OF SHARE CERTIFICATE IN RESPECT OF FORFEITED SHARES**

Upon any sale, re-allotment or other disposal under the provisions of the preceding Articles, the certificate(s), if any, originally issued in respect of the relative Shares shall (unless the same shall on demand by the Company has been previously surrendered to it by the defaulting member) stand cancelled and become null and void and be of no effect, and the Board shall be entitled to issue a duplicate certificate(s) in respect of the said Shares to the person(s) entitled thereto.

**51. BOARD ENTITLED TO CANCEL FORFEITURE**

The Board may at any time before any share so forfeited is sold, reallotted or otherwise disposed of, cancel the forfeiture thereof upon such conditions as it thinks fit.

**52. SURRENDER OF SHARE CERTIFICATES**

The Board may, subject to the provisions of the Act, accept a surrender of any share from or by any Member desirous of surrendering them on such terms as they think fit.

**53. SUMS DEEMED TO BE CALLS**

The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

**54. PROVISIONS AS TO FORFEITURE OF SHARES TO APPLY MUTATIS MUTANDIS TO DEBENTURES, ETC.**

The provisions of these Articles relating to forfeiture of Shares shall *mutatis mutandis* apply to any other securities, including debentures, of the Company.

**TRANSFER AND TRANSMISSION OF SHARES**

**55. REGISTER OF TRANSFERS**

The Company shall keep a "Register of Transfers" and therein shall be fairly and distinctly entered particulars of every transfer or transmission of any shares. The Company shall also use a common form of transfer.

**56. GOVERNING LAW FOR TRANSFER AND TRANSMISSION**

Notwithstanding anything containing in Articles 60 to 70 but subject to the applicable provisions of the Act, any transfer or transmission of Shares of the Company held in dematerialized form shall be governed by the provisions of the Depositories Act, 1996 and the rules and regulations made thereunder.

**57. ENDORSEMENT OF TRANSFER**

In respect of any transfer of Shares registered in accordance with the provisions of these Articles, the Board may, at its discretion, direct an endorsement of the transfer and the name of the transferee and other particulars on the existing share certificate and authorize any Director or Officer of the Company to authenticate such endorsement on behalf of the Company or direct the issue of a fresh share certificate, in lieu of and in cancellation of the existing certificate in the name of the transferee.

**58. INSTRUMENT OF TRANSFER**

a. The instrument of transfer of any share shall be in writing and all the provisions of the Act, and of any statutory modification thereof for the time being shall be duly complied with in respect of all transfer of Shares and registration thereof. The Company shall use the form of transfer, as prescribed under the Act, in all cases. In case of transfer of Shares, where the Company has not issued any certificates and where the Shares are held in dematerialized form, the provisions of the Depositories Act, 1996 shall apply.

b. The Board may decline to recognize any instrument of transfer unless-

   i. the instrument of transfer is in the form prescribed under the Act;

ii. the instrument of transfer is accompanied by the certificate of Shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and

iii. the instrument of transfer is in respect of only one class of Shares.

c. No fee shall be charged for registration of transfer, transmission, probate, succession certificate and letters of administration, certificate of death or marriage, power of attorney or similar other document.

**59. EXECUTION OF TRANSFER INSTRUMENT**

Every such instrument of transfer shall be executed, by or on behalf of both the transferor and the transferee and the transferor shall be deemed to remain holder of the Shares until the name of the transferee is entered in the Register of Members in respect thereof.

**60. CLOSING REGISTER OF TRANSFERS AND OF MEMBERS**

Subject to compliance with the Act and other applicable law, the Board shall be empowered, on giving not less than seven (7) days' notice or such period as may be prescribed, to close the transfer books, the Register of Members, the register of debenture holders at such time or times, and for such period or periods, not exceeding thirty (30) days at a time and not exceeding an aggregate forty five (45) days in each year as it may seem expedient.

**61. BOARD OF DIRECTORS MAY REFUSE TO REGISTER TRANSFER**

Subject to the provisions of Section 58 of the Act, Section 22A of the Securities Contracts (Regulations) Act, 1956, these Articles and other applicable provisions of the Act or any other law for the time being in force, the Board may (at its own absolute and uncontrolled discretion) decline or refuse by giving reasons, whether in pursuance of any power of the Company under these Articles or otherwise, to register or acknowledge any transfer of, or the transmission by operation of law of the right to, any securities, whether fully paid or not, or interest of a Member in the Company, after providing sufficient cause, within a period of thirty (30) days from the date on which the instrument of transfer, or the intimation of such transmission, as the case may be, was delivered to the Company and the right of refusal, shall not be affected by the circumstances that the proposed transferee is already a member of the Company, but in such cases, the Directors shall within one month from the date on which the instrument of transfer was lodged with the Company, send to the transferee and transferor notice of the refusal to register such transfer. Provided that the registration of transfer of any securities shall not be refused on the ground of the transferor being alone or jointly with any other person or persons, indebted to the Company on any account whatsoever except where the Company has a lien on Shares. Transfer of Shares /debentures in whatever lot shall not be refused.

**62. TRANSFER OF PARTLY PAID SHARES**

Where in the case of partly paid-up Shares, an application for registration is made by the transferor alone, the transfer shall not be registered, unless the Company gives the notice of the application to the transferee in accordance with the provisions of the Act and the transferee gives no objection to the transfer within the time period prescribed under the Act.

**63. TITLE TO SHARES OF DECEASED MEMBERS**

On the death of a Member, the survivor or survivors where the Member was a joint holder, and his nominee or nominees or legal representative where he was a sole holder, shall be the only persons recognized by the Company as having any title to his interest in the Shares. Nothing contained herein above shall release the estate of the deceased joint holder from any liability in respect of any share which had been jointly held by him with other person(s). Provided nevertheless that in case the Directors, in their absolute discretion think fit, it shall be lawful for the Directors to dispense with the production of a probate or letters of administration or a succession certificate or such other legal representation upon such terms (if any) (as to indemnify or otherwise) as the Directors may consider necessary or desirable.

**64. TRANSFERS NOT PERMITTED**

No share shall in any circumstances be transferred to any infant, insolvent or a person of unsound mind, except fully paid-up Shares through a legal guardian.

**65. TRANSMISSION OF SHARES**

Subject to the provisions of the Act and these Articles, any person becoming entitled to Shares in consequence of the death, lunacy, bankruptcy or insolvency of any Members, or by any lawful means other than by a transfer in accordance with these Articles, may with the consent of the Board (which it shall not be under any obligation to give), upon producing such evidence as the Board thinks sufficient, that he sustains the character in respect of which he proposes to act under this Article, or of his title, elect to either be registered himself as holder of the Shares or elect to have some person nominated by him and approved by the Board, registered as such holder or to make such transfer of the

share as the deceased or insolvent member could have made. If the person so becoming entitled shall elect to be registered as holder of the share himself, he shall deliver or send to the Company a notice in writing signed by him stating that he so elects. Provided, nevertheless, if such person shall elect to have his nominee registered, he shall testify that election by executing in favour of his nominee an instrument of transfer in accordance with the provision herein contained and until he does so he shall not be freed from any liability in respect of the Shares. Further, all limitations, restrictions and provisions of these regulations relating to the right to transfer and the registration of transfer of Shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the Member had not occurred and the notice or transfer were a transfer signed by that Member.

**66. RIGHTS ON TRANSMISSION**

A person becoming entitled to a share by reason of the death or insolvency of the holder shall, subject to the Board of Directors' right to retain such dividends or money, be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share, except that he shall not, before being registered as a Member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the Company.

Provided that the Board may at any time give a notice requiring any such person to elect either to be registered himself or to transfer the share and if the notice is not complied with within ninety (90) days, the Board may thereafter withhold payment of all dividends, bonus or other moneys payable in respect of such share, until the requirements of notice have been complied with.

**67. SHARE CERTIFICATES TO BE SURRENDERED**

Before the registration of a transfer, the certificate or certificates of the share or Shares to be transferred must be delivered to the Company along with (save as provided in the Act) properly stamped and executed instrument of transfer.

**68. COMPANY NOT LIABLE TO NOTICE OF EQUITABLE RIGHTS**

The Company shall incur no liability or responsibility whatever in consequence of its registering or giving effect to any transfer of Shares made or purporting to be made by any apparent legal owner thereof (as shown or appearing in the Register) to the prejudice of persons having or claiming any equitable rights, title or interest in the said Shares, notwithstanding that the Company may have had notice of such equitable rights referred thereto in any books of the Company and the Company shall not be bound by or required to regard or attend to or give effect to any notice which may be given to it of any equitable rights, title or interest or be under any liability whatsoever for refusing or neglecting to do so, though it may have been entered or referred to in some book of the Company but the Company shall nevertheless be at liberty to regard and attend to any such notice and give effect thereto if the Board shall so think fit.

**69. TRANSFER AND TRANSMISSION OF DEBENTURES**

The provisions of these Articles, shall, *mutatis mutandis*, apply to the transfer of or the transmission by law of the right to any securities including, debentures of the Company.

**ALTERATION OF CAPITAL**

**70. RIGHTS TO ISSUE SHARE WARRANTS**

The Company may issue share warrants subject to, and in accordance with provisions of the Act. The Board may, in its discretion, with respect to any share which is fully paid-up on application in writing signed by the person registered as holder of the share, and authenticated by such evidence (if any) as the Board may from time to time require as to the identity of the person signing the application, and the amount of the stamp duty on the warrant and such fee as the Board may from time to time require having been paid, issue a warrant.

**71. BOARD TO MAKE RULES**

The Board may, from time to time, make rules as to the terms on which it shall think fit, a new share warrant or coupon may be issued by way of renewal in case of defacement, loss or destruction.

**72. SHARES MAY BE CONVERTED INTO STOCK**

Where Shares are converted into stock:

a. the holders of stock may transfer the same or any part thereof in the same manner as, and subject to the same Articles under which, the Shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit:

   Provided that the Board may, from time to time, fix the minimum amount of stock transferable, so, however, that such minimum shall not exceed the nominal amount of the Shares from which the stock arose;

b. the holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, voting at meetings of the Company, and other matters, as if they held the Shares from which the stock arose; but no such privilege or advantage (except participation in the dividends and profits of the Company and in the assets on winding up) shall be conferred by an amount of stock which would not, if existing in Shares, have conferred that privilege or advantage;

c. such of the Articles of the Company as are applicable to paid-up Shares shall apply to stock and the words "share" and "shareholder"/"Member" shall include "stock" and "stock-holder" respectively.

**73. REDUCTION OF CAPITAL**

The Company may, by a Special Resolution as prescribed by the Act, reduce in any manner and in accordance with the provisions of the Act—

a. its share capital; and/or

b. any capital redemption reserve account; and/or

c. any share premium account

and, in particular, without prejudice to the generality of the foregoing power may by: (i) extinguishing or reducing the liability on any of its Shares in respect of share capital not paid-up; (ii) either with or without extinguishing or reducing liability on any of its Shares, (a) cancel paid-up share capital which is lost or is unrepresented by available assets; or (b) pay off any paid-up share capital which is in excess of the wants of the Company; and may, if and so far as is necessary, alter its Memorandum, by reducing the amount of its authorised Share capital and of its Shares accordingly.

**74. DEMATERIALISATION AND REMATERIALISATION OF SECURITIES**

a. The Company shall recognise interest in dematerialised securities under the Depositories Act, 1996.

Subject to the provisions of the Act, either the Company or the investor may exercise an option to issue (in case of the Company only), deal in, hold the securities (including Shares ) with a Depository in electronic form and the certificates in respect thereof shall be dematerialized, in which event, the rights and obligations of the parties concerned and matters connected therewith or incidental thereof shall be governed by the provisions of the Depositories Act, 1996 as amended from time to time or any statutory modification(s) thereto or re-enactment thereof, the Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018 and other applicable law.

*b. Dematerialisation/Re-materialisation of securities*

Notwithstanding anything to the contrary or inconsistent contained in these Articles, the Company shall be entitled to dematerialise its existing securities, re materialise its securities held in Depositories and/or offer its fresh securities in the dematerialised form pursuant to the Depositories Act, 1996 and the rules framed thereunder, if any.

*c. Option to receive security certificate or hold securities with the Depository.*

Where a person opts to hold a security with the Depository, the Company shall intimate such Depository of the details of allotment of the security and on receipt of such information, the Depository shall enter in its Record, the name of the allottees as the beneficial owner of that Security.

*d. Securities in electronic form*

All securities held by a Depository shall be dematerialized and held in electronic form. No certificate shall be issued for the securities held by the Depository.

*e. Beneficial owner deemed as absolute owner*

Except as ordered by a court of competent jurisdiction or by applicable law required and subject to the provisions of the Act, the Company shall be entitled to treat the person whose name appears on the applicable register as the holder of any security or whose name appears as the beneficial owner of any security in the records of the Depository as the absolute owner thereof and accordingly shall not be bound to recognize any benami trust or equity, equitable contingent, future, partial interest, other claim to or interest in respect of such securities or (except only as by these Articles otherwise expressly provided) any right in respect of a security other than an absolute right thereto in accordance with these Articles, on the part of any other person whether or not it has expressed or implied notice thereof but the Board shall at their sole discretion register any security in the joint names of any two or more persons or the survivor or survivors of them.

*f. Register and index of beneficial owners*

The Company shall cause to be kept a register and index of Members with details of securities held in materialised and dematerialised forms in any media as may be permitted by law including any form of electronic media in accordance with all applicable provisions of the Companies Act, 2013 and the Depositories Act, 1996 with details of Shares held in physical and dematerialised forms in any medium as may be permitted by law including in any form of electronic medium. The register and index of beneficial owners maintained by a Depository under the Depositories Act, 1996 shall be deemed to be a register and index of Members for the purposes of this Act. The Company shall have the power to keep in any state or country outside India, a Register of Members, of members resident in that state or country.

**75. BUY BACK OF SHARES**

Notwithstanding anything contained in these Articles, but subject to all applicable provisions of the Act or any other law for the time being in force, the Company may purchase its own Shares or other specified securities.

**GENERAL MEETINGS**

**76. ANNUAL GENERAL MEETINGS**

a. The Company shall in each year hold a General Meeting as its Annual General Meeting in addition to any other meeting in that year.

b. An Annual General Meeting of the Company shall be held in accordance with the provisions of the Act and other applicable law.

c. The Company shall cause minutes of the proceedings of every General Meeting and every resolution passed by postal ballot and every meeting of its Board of Directors or of every committee of the Board, to be prepared and signed in a manner as prescribed under the Act and kept within thirty days of the conclusion of every such meeting concerned, or passing of resolution by postal ballot in books kept for that purpose with their pages consecutively numbered. The books containing the minutes shall be open to inspection by any Member in accordance with section 119 of the Act.

**77. EXTRAORDINARY GENERAL MEETINGS**

All General Meetings other than the Annual General Meeting shall be called "Extraordinary General Meeting". Provided that, the Board may, whenever it thinks fit, call an Extraordinary General Meeting.

**78. EXTRAORDINARY MEETINGS ON REQUISITION**

The Board shall, on the requisition of Members, convene an Extraordinary General Meeting of the Company in the circumstances and in the manner provided under the Act.

**79. NOTICE FOR GENERAL MEETINGS**

All General Meetings shall be convened by giving not less than clear twenty one (21) days' notice, in such manner as is prescribed under the Act, specifying the place, date and hour of the meeting and a statement of the business proposed to be transacted at such a meeting, in the manner mentioned in the Act. Notice shall be given to all the Members and to such persons as are under the Act and/or these Articles entitled to receive such notice from the Company but any accidental omission to give notice to or non-receipt of the notice by any Member or other person to whom it should be given shall not invalidate the proceedings of any General Meetings. No General Meeting shall be competent to deliberate upon, discuss or transact any business which has not been specifically mentioned in the notice convening the same. Items which were not on the agenda of a General Meeting, as circulated to the Members pursuant to the Articles, shall not be tabled, considered, discussed, dealt with or put to the vote at such General Meeting, including if it is adjourned, unless the Members agree otherwise in writing.

The Members may participate in General Meetings through such modes as permitted by applicable laws.

**80. SHORTER NOTICE ADMISSIBLE**

Upon compliance with the relevant provisions of the Act, any General Meeting may be convened by giving a shorter notice less than twenty one (21) days (a) if consent is given in writing or by electronic mode by not less than 95 (ninety five) percent of the shareholders entitled to vote at that meeting in case of Annual General Meeting and (b) if consent is given in writing or by electronic mode by majority in number of Members entitled to vote and who represent not less than 95 (ninety-five) per cent. of such part of the paid-up share capital of the company as gives a right to vote at the meeting, in case of any other General Meeting.

**81. CIRCULATION OF MEMBERS' RESOLUTION**

The Company shall comply with provisions of Section 111 of the Act, as to giving notice of resolutions and circulating statements on the requisition of Members.

**82. SPECIAL AND ORDINARY BUSINESS**

a. Subject to the provisions of the Act, all business shall be deemed special that is transacted at the Annual General Meeting with the exception of declaration of any dividend, the consideration of financial statements and reports of the Board of Directors and Auditors, the appointment of Directors in place of those retiring and the appointment of and fixing of the remuneration of the auditors. In case of any other meeting, all business shall be deemed to be special. Where any item of business refers to any document, which is to be considered at the meeting, the time and place where such document can be inspected shall be specified in the statement required to be annexed to the notice calling such meeting.

b. In case of special business as aforesaid, an explanatory statement as required under the applicable provisions of the Act shall be annexed to the notice of the meeting.

**83. QUORUM FOR GENERAL MEETING**

Five (5) Members or such other number of Members as required under the Act or the applicable law for the time being in force prescribes, personally present shall be quorum for a General Meeting and no business shall be transacted at any General Meeting unless the requisite quorum is present at the commencement of the meeting.

**84. TIME FOR QUORUM AND ADJOURNMENT**

Subject to the provisions of the Act, if within half an hour from the time appointed for a meeting, a quorum is not present, the meeting, if called upon at the requisition of Members, shall be cancelled and in any other case, it shall stand adjourned to the same day in the next week (not being a national holiday) at the same time and place or to such other day and at such other time and place as the Board of Directors may determine. If at the adjourned meeting also, quorum is not present within half an hour from the time appointed for the meeting, the Members present shall be quorum and may transact the business for which the meeting was called.

**85. CHAIRMAN OF GENERAL MEETING**

The Chairman, if any, of the Board of Directors shall preside as chairman at every General Meeting of the Company.

**86. ELECTION OF CHAIRMAN**

Subject to the provisions of the Act, if there is no such chairman or if at any meeting he is not present within fifteen (15) minutes after the time appointed for holding the meeting or is unwilling to act as chairman, the Board of Directors present shall elect another Director as chairman and if no Director be present or if all the Directors decline to take the chair, then the Members present shall choose a Member to be the chairman.

**87. ADJOURNMENT OF MEETING**

Subject to the provisions of the Act, the chairman of a General Meeting may, with the consent given in the meeting at which a quorum is present (and shall if so directed by the meeting) adjourn that meeting from time to time and from place to place, but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place. When the meeting is adjourned for thirty (30) days or more, notice of the adjourned meeting shall be given as nearly to the original meeting, as may be possible. Save as aforesaid and as provided in the Act, it shall not be necessary to give any notice of adjournment of the business to be transacted at an adjourned meeting.

Any member who has not appointed a proxy to attend and vote on his behalf at a General Meeting may appoint a proxy for any adjourned General Meeting, not later than forty-eight hours before the time of such adjourned Meeting.

**88. VOTING AT MEETING**

At any General Meeting, a demand for a poll shall not prevent the continuance of a meeting for the transaction of any business other than that on which a poll has been demanded. The demand for a poll may be withdrawn at any time by the person or persons who made the demand. Further, no objection shall be raised to the qualification of any voter except at the General Meeting or adjourned General Meeting at which the vote objected to is given or tendered, and every vote not disallowed at such meeting shall be valid for all purposes.

Any such objection made in due time shall be referred to the chairperson of the General Meeting, whose decision shall be final and conclusive.

**89. DECISION BY POLL**

If a poll is duly demanded in accordance with the provisions of the Act, it shall be taken in such manner as the chairman directs and the results of the poll shall be deemed to be the decision of the meeting on the resolution in respect of which the poll was demanded.

**90. CASTING VOTE OF CHAIRMAN**

In case of equal votes, whether on a show of hands or on a poll, the chairman of the General Meeting at which the show of hands takes place or at which the poll is demanded shall be entitled to a second or casting vote in addition to the vote or votes to which he may be entitled to as a Member.

**91. PASSING RESOLUTIONS BY POSTAL BALLOT**

a. Notwithstanding any of the provisions of these Articles, the Company may, and in the case of resolutions relating to such business as notified under the Act, to be passed by postal ballot, shall get any resolution passed by means of a postal ballot, instead of transacting the business in the General Meeting of the Company.

b. Where the Company decides to pass any resolution by resorting to postal ballot, it shall follow the procedures as prescribed under the Act.

c. If a resolution is assented to by the requisite majority of the shareholders by means of postal ballot, it shall be deemed to have been duly passed at a General Meeting convened in that behalf.

**VOTE OF MEMBERS**

**92. VOTING RIGHTS OF MEMBERS**

Subject to any rights or restrictions for the time being attached to any class or classes of Shares:

a. On a show of hands every Member holding Equity Shares and present in person shall have one vote.

b. On a poll, every Member holding Equity Shares shall have voting rights in proportion to his share in the paid-up equity share capital.

c. A Member may exercise his vote at a meeting by electronic means in accordance with the Act and shall vote only once.

**93. VOTING BY JOINT-HOLDERS**

In case of joint holders, the vote of first named of such joint holders in the Register of Members who tender a vote whether in person or by proxy shall be accepted, to the exclusion of the votes of other joint holders.

**94. VOTING BY MEMBER OF UNSOUND MIND**

A Member of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, may vote, whether on a show of hands or on a poll, by his committee or other legal guardian, and any such committee or legal guardian may, on a poll, vote by proxy.

**95. NO RIGHT TO VOTE UNLESS CALLS ARE PAID**

No Member shall be entitled to vote at any General Meeting unless all calls or other sums presently payable by such Member have been paid, or in regard to which the Company has lien and has exercised any right of lien.

**96. PROXY**

Subject to the provisions of the Act and these Articles, any Member entitled to attend and vote at a General Meeting may do so either personally or through his constituted attorney or through another person as a proxy on his behalf, for that meeting.

**97. INSTRUMENT OF PROXY**

An instrument appointing a proxy shall be in the form as prescribed under the Act for this purpose. The instrument appointing a proxy shall be in writing under the hand of appointer or of his attorney duly authorized in writing or if appointed by a body corporate either under its common seal or under the hand of its officer or attorney duly authorized in writing by it. Any person whether or not he is a Member of the Company may be appointed as a proxy.

The instrument appointing a proxy and power of attorney or other authority (if any) under which it is signed or a notarized copy of that power or authority must be deposited at the Office of the Company not less than forty eight (48) hours prior to the time fixed for holding the meeting or adjourned meeting at which the person named in the instrument

proposes to vote, or, in case of a poll, not less than twenty four (24) hours before the time appointed for the taking of the poll, and in default the instrument of proxy shall not be treated as valid.

**98. VALIDITY OF PROXY**

A vote given in accordance with the terms of an instrument of proxy shall be valid, notwithstanding the previous death or insanity of the principal or the revocation of the proxy or of the authority under which the proxy was executed, or the transfer of Shares in respect of which the proxy is given, provided that no intimation in writing of such death, insanity, revocation or transfer shall have been received by the Company at its Office before the commencement of the meeting or adjourned meeting at which the proxy is used.

**99. CORPORATE MEMBERS**

Any corporation which is a Member of the Company may, by resolution of its Board of Directors or other governing body, authorize such person as it thinks fit to act as its representative at any meeting of the Company and the said person so authorized shall be entitled to exercise the same powers on behalf of the corporation which he represents as that corporation could have exercised if it were an individual Member of the Company (including the right to vote by proxy).

**DIRECTOR**

**100. NUMBER OF DIRECTORS**

Unless otherwise determined by the shareholders in a General Meeting, the number of Directors shall not be less than three (3) and not more than fifteen (15), and at least one (1) Director shall be resident of India in the previous year.

Provided that the Company may appoint more than fifteen (15) directors after passing a Special Resolution.

The following are the first Directors of the Company

a. Peyush Bansal; and

b. Neha Bansal.

**101. SHARE QUALIFICATION NOT NECESSARY**

Any person whether a Member of the Company or not may be appointed as Director and no qualification by way of holding Shares shall be required of any Director.

**102. ADDITIONAL DIRECTORS**

Subject to the provisions of the Act, the Board shall have power at any time, and from time to time, to appoint a person as an additional director, provided the number of the directors and additional directors together shall not at any time exceed the maximum strength fixed for the Board by the Articles. Any such additional director shall hold office only up to the date of the upcoming Annual General Meeting.

**103. ALTERNATE DIRECTORS**

a. The Board may, appoint a person, not being a person holding any alternate directorship for any other director in the Company, to act as an alternate director for a director during his absence for a period of not less than 3 (three) months from India (hereinafter in this Article called the "**Original Director**").

b. An alternate director shall not hold office for a period longer than that permissible to the Original Director in whose place he has been appointed and shall vacate the office if and when the Original Director returns to India. If the term of office of the Original Director is determined before he returns to India, the automatic re-appointment of retiring directors in default of another appointment shall apply to the Original Director and not to the alternate director.

**104. APPOINTMENT OF DIRECTOR TO FILL A CASUAL VACANCY**

If the office of any Director appointed by the Company in General Meeting is vacated before his term of office expires in the normal course, the resulting casual vacancy may, be filled by the Board of Directors at a meeting of the Board which shall be subsequently approved by Members in the immediate next General Meeting. The director so appointed shall hold office only up to the date which the director in whose place he is appointed would have held office if it had not been vacated.

**105. REMUNERATION OF DIRECTORS**

a. A Director (other than a managing Director or whole-time Director) may receive a sitting fee not exceeding

such sum as may be prescribed by the Act or the Central Government from time to time for each meeting of the Board of Directors or any committee thereof attended by him and the commission as may be approved by the Members of the Company. The remuneration of Directors including managing Director and/or whole-time Director may be paid in accordance with the applicable provisions of the Act.

b. The Board of Directors may allow and pay or reimburse any Director who is not a bona fide resident of the place where a meeting of the Board or of any committee is held and who shall come to such place for the purpose of attending such meeting or for attending its business at the request of the Company, such sum as the Board may consider fair compensation for travelling, and out-of-pocket expenses and if any Director be called upon to go or reside out of the ordinary place of his residence on the Company's business he shall be entitled to be reimbursed any travelling or other expenses incurred in connection with the business of the Company.

c. The managing Directors/ whole-time Directors shall be entitled to charge and be paid for all actual expenses, if any, which they may incur for or in connection with the business of the Company. They shall be entitled to appoint part time employees in connection with the management of the affairs of the Company and shall be entitled to be paid by the Company any remuneration that they may pay to such part time employees.

**106. REMUNERATION FOR EXTRA SERVICES**

If any Director, being willing, shall be called upon to perform extra services or to make any special exertions (which expression shall include work done by Director as a Member of any committee formed by the Board of Directors) in going or residing away from the town in which the Office of the Company may be situated for any purposes of the Company or in giving any special attention to the business of the Company or as member of the Board, then subject to the provisions of the Act, the Board may remunerate the Director so doing either by a fixed sum, or by a percentage of profits or otherwise and such remuneration, may be either in addition to or in substitution for any other remuneration to which he may be entitled.

**107. CONTINUING DIRECTOR MAY ACT**

The continuing Board of Directors may act notwithstanding any vacancy in the Board, but if the number is reduced below three, the continuing Directors or Director may act for the purpose of increasing the number of Directors to three or for summoning a General Meeting of the Company, but for no other purpose.

**108. VACATION OF OFFICE OF DIRECTOR**

The office of a Director shall be deemed to have been vacated under the circumstances enumerated under Act.

**109. APPOINTMENT OF NOMINEE DIRECTOR**

(a) In the event of any default committed by the Company as mentioned in clause (e) of sub-regulation (1) of Regulation 15 of the Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993 ("**the Default**"), a debenture trustee in respect of any outstanding non-convertible debentures issued by the Company that are listed on any Stock Exchange ("**Trustee**") shall have the right, to nominate a Director ("**Trustee Nominee Director**") on the Board of Directors of the Company, and to remove from office any Trustee Nominee Director and to appoint another in his / her place or in the place a Trustee Nominee Director who resigns or otherwise vacates his / her office, in accordance with the applicable provisions of the Act, the Securities and Exchange Board of India (Debenture Trustee) Regulations, 1993 ("**Debenture Trustee Regulations**"), the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations 2021, or any other applicable law, regulatory or listing requirements or terms and conditions of issued non-convertible debenture ("**Applicable Laws for Nomination**").

(b) Any such nomination, change of Trustee Nominee Director, removal of Trustee Nominee Director shall be made in writing and shall be served by the Trustee at the registered office of the Company ("**Notice by Trustee**").

(c) Upon receipt of the Notice by Trustee, the Board shall appoint Trustee Nominee Director on the Board of Directors of the Company in accordance with Applicable Laws for Nomination.

(d) A Trustee Nominee Director shall be deemed to have vacated his / her office as Director on the Board of Directors of the Company from the date of such Trustee Nominee Director becoming disqualified to be a director on the Board of Directors of the Company pursuant to the provisions of the Act or from the date of making good the Default by the Company or from the date of appointing another person a Trustee Nominee Director pursuant to any Notice by Trustee or from the date of removal of such Director by the Trustee pursuant to any Notice by Trustee or from the date of the Trustee ceasing to be a debenture trustee of the Company or any other date from which Trustee Nominee Director cease to be a Trustee Nominee Director pursuant to the Applicable Laws for Nomination, whichever is earlier.

## ROTATION AND RETIREMENT OF DIRECTOR

### 110. ONE-THIRD OF DIRECTORS TO RETIRE EVERY YEAR

At the Annual General Meeting of the Company to be held every year, one third of such of the Directors as are liable to retire by rotation for time being, or, if their number is not three or a multiple of three then the number nearest to one third shall retire from office, and they will be eligible for re-election. Provided that an Independent Director duly appointed by the Company shall not be liable to retire by rotation.

### 111. RETIRING DIRECTORS ELIGIBLE FOR RE-ELECTION

A retiring Director shall be eligible for re-election and the Company, at the Annual General Meeting at which a Director retires in the manner aforesaid, may fill up the vacated office by electing a person thereto.

### 112. WHICH DIRECTOR TO RETIRE

The Directors to retire in every year shall be those who have been longest in office since their last election, but as between persons who became Directors on the same day, those to retire shall (unless they otherwise agree among themselves) be determined by lots.

### 113. POWER TO REMOVE DIRECTOR BY ORDINARY RESOLUTION

Subject to the provisions of the Act, the Company may by an Ordinary Resolution in General Meeting, remove any Director before the expiration of his period of office and may, by an Ordinary Resolution, appoint another person instead.

Provided that an independent director appointed and re-appointed under the provisions of the Act shall be removed by the company only by passing a Special Resolution and after giving him a reasonable opportunity of being heard and the Company may by a Special Resolution appoint another Independent Director instead.

### 114. DIRECTORS NOT LIABLE FOR RETIREMENT

The Company in General Meeting may, when appointing a person as a Director declare that his continued presence on the Board of Directors is of advantage to the Company and that his office as Director shall not be liable to be determined by retirement by rotation for such period until the happening of any event of contingency set out in the said resolution.

## PROCEEDINGS OF BOARD OF DIRECTORS

### 115. MEETINGS OF THE BOARD

a. The Board of Directors shall meet at least once in every quarter with a maximum gap of one hundred and twenty (120) days between two (2) meetings of the Board for the dispatch of business, adjourn and otherwise regulate its meetings and proceedings as it thinks fit in accordance with the Act, provided that at least four (4) such meetings shall be held in every calendar year. Place of meetings of the Board shall be at a location determined by the Board at its previous meeting, or if no such determination is made, then as determined by the chairman of the Board.

b. The chairman may, at any time, and the secretary or such other Officer of the Company as may be authorised in this behalf on the requisition of Director shall at any time summon a meeting of the Board. Notice of at least seven (7) days in writing of every meeting of the Board shall be given to every Director and every alternate Director at his usual address whether in India or abroad either by hand or speed post or by registered post or by courier or by facsimile or by e-mail or by any other electronic means, provided always that a meeting may be convened by a shorter notice to transact urgent business subject to the condition that at least one independent director, if any, shall be present at the meeting and in case of absence of independent directors from such a meeting of the Board, decisions taken at such a meeting shall be circulated to all the directors and shall be final only on ratification thereof by at least one independent director, if any.

c. The notice of each meeting of the Board shall include (i) the time for the proposed meeting; (ii) the venue for the proposed meeting; and (iii) an agenda setting out the business proposed to be transacted at the meeting.

d. To the extent permissible by applicable law, the Directors may participate in a meeting of the Board or any committee thereof, through electronic mode, that is, by way of video conferencing i.e., audio visual electronic communication facility. The notice of the meeting must inform the Directors regarding the availability of participation through video conferencing. Any Director participating in a meeting through the use of video conferencing shall be counted for the purpose of quorum.

### 116. QUESTIONS AT BOARD MEETING HOW DECIDED

Questions arising at any time at a meeting of the Board shall be decided by majority of votes and in case of equality

of votes, the Chairman, or in his absence, the Director presiding as Chairman for the meeting shall have a second or casting vote.

**117. QUORUM**

Subject to the provisions of the Act and other applicable law, the quorum for a meeting of the Board shall be one third of its total strength (any fraction contained in that one-third being rounded off as one) or two Directors whichever is higher and the participation of the directors by video conferencing or by other audio-visual means shall also be counted for the purposes of quorum.

At any time, the number of interested Directors is equal to or exceeds two-thirds of total strength, the number of remaining Directors, that is, number of Directors who are not interested, present at the meeting being not less than two, shall be the quorum during such time. The total strength of the Board shall mean the number of Directors actually holding office as Directors on the date of the resolution or meeting, that is, the total strength of Board after deducting there from the number of Directors, if any, whose places are vacant at the time. The term 'interested director' means any Director whose presence cannot, by reason of applicable provisions of the Act be counted for the purpose of forming a quorum at meeting of the Board, at the time of the discussion or vote on the concerned matter or resolution.

**118. ADJOURNED MEETING**

Subject to the provisions of the Act, if within half an hour from the time appointed for a meeting of the Board, a quorum is not present, the meeting, shall stand adjourned to the same day in the next week at the same time and place or to such other day and at such other time and place as the Board of Directors may determine.

**119. ELECTION OF CHAIRMAN OF BOARD**

a. The Board may elect a chairman of its meeting and determine the period for which he is to hold office.

b. If at any meeting the Chairman is not present within fifteen (15) minutes after the time appointed for holding the meeting, the Board of Directors present may choose one among themselves to be the chairman of the meeting.

**120. POWERS OF DIRECTORS**

a. The Board may exercise all such powers of the Company and do all such acts and things as are not, by the Act or any other applicable law, or by the Memorandum or by the Articles required to be exercised by the Company in a General Meeting, subject nevertheless to these Articles, to the provisions of the Act or any other applicable law and to such regulations being not inconsistent with the aforesaid regulations or provisions, as may be prescribed by the Company in a General Meeting; but no regulation made by the Company in a General Meeting shall invalidate any prior act of the Board which would have been valid if that regulation had not been made.

b. All cheques, promissory notes, drafts, hundis, bills of exchange and other negotiable instruments, and all receipts for monies paid to the Company, shall be signed, drawn, accepted, endorsed, or otherwise executed, as the case maybe, by such person and in such manner as the Board shall from time to time by resolution determine.

**121. DELEGATION OF POWERS**

a. The Board may, subject to the provisions of the Act, delegate any of its powers to committees consisting of such Members as it thinks fit.

b. Any committee so formed shall, in the exercise of the power so delegated conform to any regulations that may be imposed on it by the Board.

**122. ELECTION OF CHAIRMAN OF COMMITTEE**

a. The Board may elect a chairman for its committee(s). If no such chairman is elected or if at any meeting the chairman is not present within five minutes after the time appointed for holding the meeting, the Members present may choose one of themselves to be the chairman of the committee meeting.

b. The quorum of a committee may be fixed by the Board of Directors or as may be prescribed under the applicable laws.

**123. QUESTIONS HOW DETERMINED**

a. A committee may meet and adjourn as it thinks proper.

b. Questions arising at any meeting of a committee shall be determined by a majority of votes of the Members

present as the case may be and in case of equality of vote, the chairman shall have a second or casting vote, in addition to his vote as a member of the committee.

**124. VALIDITY OF ACTS DONE BY BOARD OR A COMMITTEE**

All acts done by any meeting of the Board, of a committee thereof, or by any person acting as a Director shall notwithstanding that it may be afterwards discovered that there was some defect in the appointment of any one or more of such Directors or of any person acting as aforesaid or that they or any of them were disqualified be as valid as if even such Director or such person has been duly appointed and was qualified to be a Director.

**125. RESOLUTION BY CIRCULATION**

Save as otherwise expressly provided in the Act, a resolution in writing circulated in draft together with the necessary papers, if any, to all the Directors or all the Members of the relevant committee and approved by a majority of them shall be valid and effectual as if it had been a resolution duly passed at a meeting of the Board or committee duly convened and held.

**126. MAINTENANCE OF FOREIGN REGISTER**

The Company may exercise the powers conferred on it by the Act with regard to the keeping of a foreign register; and the Board may (subject to the provisions of those Sections) make and vary such regulations as it may think fit respecting the keeping of any register.

**127. BORROWING POWERS**

a. Subject to the provisions of the Act and these Articles, the Board may from time to time at their discretion raise or borrow or secure the payment of any such sum of money for the purpose of the Company, in such manner and upon such terms and conditions in all respects as they think fit, and in particular, by promissory notes or by receiving deposits and advances with or without security or by the issue of bonds, debentures, perpetual or otherwise, including debentures convertible into Shares of this Company or any other company or perpetual annuities and to secure any such money so borrowed, raised or received, mortgage, pledge or charge the whole or any part of the property, assets or revenue of the Company present or future, including its uncalled capital by special assignment or otherwise or to transfer or convey the same absolutely or in trust and to give the lenders powers of sale and other powers as may be expedient and to purchase, redeem or pay off any such securities; provided however, that the moneys to be borrowed, together with the money already borrowed by the Company apart from temporary loans (as defined under Section 180(1) of the Act) obtained from the Company's bankers in the ordinary course of business shall not, without the sanction of the Company by a Special Resolution at a General Meeting, exceed the aggregate of the paid-up share capital of the Company, its free reserves and securities premium. Provided that every Special Resolution passed by the Company in General Meeting in relation to the exercise of the power to borrow shall specify the total amount up to which moneys may be borrowed by the Board of Directors.

b. The Board of Directors may by resolution at a meeting of the Board delegate the above power to borrow money to a committee of the Board or managing Director or to any other person permitted by applicable law, if any, within the limits prescribed.

c. To the extent permitted under the applicable law and subject to compliance with the requirements thereof, the Board of Directors shall be empowered to grant loans to such entities at such terms as they may deem to be appropriate if the same shall be in the interests of the Company.

d. Any bonds, debentures, debenture-stock or other securities may if permissible under applicable law be issued at a discount, premium or otherwise by the Company and shall with the consent of the Board be issued upon such terms and conditions and in such manner and for such consideration as the Board shall consider to be for the benefit of the Company, and on the condition that they or any part of them may be convertible into Equity Shares of any denomination, and with any privileges and conditions as to the redemption, surrender, drawing, allotment of Shares, attending (but not voting) in the General Meeting, appointment of Directors or otherwise. Provided that debentures with rights to allotment of or conversion into Equity Shares shall not be issued except with, the sanction of the Company in General Meeting accorded by a Special Resolution, as per applicable law.

**128. NOMINEE DIRECTORS**

a. Subject to the provisions of the Act and Article 109 hereinabove, so long as any moneys remain owing by the Company to financial institutions regulated by the Reserve Bank of India, State Financial Corporation or any financial institution owned or controlled by the Central Government or State Government or any non-banking financial company regulated by the Reserve Bank of India or any such company from whom the Company has borrowed for the purpose of carrying on its objects or each of the above has granted any loans / or subscribes to the debentures of the Company or so long as any of the aforementioned companies of financial institutions holds or continues to hold debentures /Shares in the Company as a result of underwriting or by direct subscription or private placement or so long as any liability of the Company arising out of any guarantee furnished on behalf of the Company remains outstanding, and if the loan or other agreement with such institution/ corporation/ company (hereinafter referred to as the "**Corporation**") so provides, the Corporation may, in pursuance of the provisions of any law for the time being in force or of any agreement, have a right to appoint from time to time any person or persons as a Director or Directors whole-time or non whole-time (which Director or Director/s is/are hereinafter referred to as "**Nominee Directors/s**") on the Board of the Company and to remove from such office any person or person so appointed and to appoint any person or persons in his /their place(s).

b. The Nominee Director/s appointed under this Article shall be entitled to receive all notices of and attend all General Meetings, Board meetings and of the meetings of the committee of which Nominee Director/s is/are member/s as also the minutes of such Meetings. The Corporation shall also be entitled to receive all such notices and minutes.

c. The Company may pay the Nominee Director/s sitting fees and expenses to which the other Directors of the Company are entitled, but if any other fees commission, monies or remuneration in any form is payable to the Directors of the Company the fees, commission, monies and remuneration in relation to such Nominee Director/s may accrue to the nominee appointer and same shall accordingly be paid by the Company directly to the Corporation.

d. Provided that the sitting fees, in relation to such Nominee Director/s shall also accrue to the appointer and same shall accordingly be paid by the Company directly to the appointer.

**129. REGISTER OF CHARGES**

The Board of Directors shall cause a proper register to be kept, in accordance with the Act, of all mortgages and charges specifically affecting the property of the Company and shall duly comply with the requirements of the Act in regard to the registration of mortgages and charges therein specified.

**130. MANAGING DIRECTOR(S) AND/OR WHOLE-TIME DIRECTORS**

a. The Board may from time to time and with such sanction of the Central Government as may be required by the Act, appoint one or more of the Directors to the office of the managing director and/ or whole-time directors for such term and subject to such remuneration, terms and conditions as they may think fit.

b. The Board of Directors may from time to time resolve that there shall be either one or more managing directors and/ or whole-time directors.

c. In the event of any vacancy arising in the office of a managing director and/or whole-time director, the vacancy shall be filled by the Board of Directors subject to the approval of the Members, as required under applicable law.

d. If a managing director and/or whole-time director ceases to hold office as Director, he shall ipso facto and immediately cease to be managing director/whole time director.

**131. POWERS AND DUTIES OF MANAGING DIRECTOR OR WHOLE-TIME DIRECTOR**

The managing director/whole time director shall subject to the supervision, control and direction of the Board and subject to the provisions of the Act, exercise such powers as are exercisable under these Articles by the Board of Directors, as they may think fit and confer such power for such time and to be exercised as they may think expedient and they may confer such power either collaterally with or to the exclusion of any such substitution for all or any of the powers of the Board of Directors in that behalf and may from time to time revoke, withdraw, alter or vary all or any such powers. The managing Directors/ whole time Directors may exercise all the powers entrusted to them by the Board of Directors in accordance with the Board's direction.

**132. CHIEF EXECUTIVE OFFICER, MANAGER, COMPANY SECRETARY AND CHIEF FINANCIAL OFFICER**

Subject to the provisions of the Act —

a. A chief executive officer, manager, company secretary and chief financial officer may be appointed by the Board for such term, at such remuneration and upon such conditions as it may think fit; and any chief executive officer, manager, company secretary and chief financial officer so appointed may be removed by means of a resolution of the Board.

b. A director may be appointed as chief executive officer, manager, company secretary or chief financial officer. Further, an individual may be appointed or reappointed as the chairperson of the Company as well as the managing Director or chief executive officer of the Company at the same time.

c. A provision of the Act or the Articles requiring or authorising a thing to be done by or to a Director and chief executive officer, manager, company secretary or chief financial officer shall not be satisfied by its being done by or to the same person acting both as a Director and as, or in place of, chief executive officer, manager, company secretary or chief financial officer.

## COMMON SEAL

**133. CUSTODY OF COMMON SEAL**

The Board shall provide for the safe custody of the common seal for the Company and they shall have power from time to time to destroy the same and substitute a new seal in lieu thereof.

**134. SEAL HOW AFFIXED**

The Board of Directors shall provide a common seal for the purpose of the Company and shall have power from time to time to destroy the same and substitute a new seal in lieu thereof, and the Board of Directors shall provide for the safe custody of the seal for the time being and the seal shall never be used except by or under the authority of the Board of Directors or a committee of the Board previously given, and in the presence of at least two Directors and of the company secretary or such other person duly authorised by the Board of Directors or a committee of the Board, who shall sign every instrument to which the seal is so affixed in his presence.

The Company may exercise the powers conferred by the Act with regard to having an official seal for use abroad and such powers shall accordingly be vested in the Board of Directors or any other person duly authorized for the purpose.

## DIVIDEND

**135. COMPANY IN GENERAL MEETING MAY DECLARE DIVIDENDS**

The Company in General Meeting may declare dividends, but no dividend shall exceed the amount recommended by the Board.

**136. INTERIM DIVIDENDS**

Subject to the provisions of the Act, the Board may from time to time pay to the Members such interim dividends of such amount on such class of Shares and at such times as it may think fit and as appear to it to be justified by the profits of the company.

**137. RIGHT TO DIVIDEND AND UNPAID OR UNCLAIMED DIVIDEND**

a. Where capital is paid in advance of calls on Shares, such capital, whilst carrying interest, shall not confer a right to dividend or to participate in the profits.

b. Where the Company has declared a dividend but which has not been paid or claimed within thirty (30) days from the date of declaration to any shareholder entitled to payment of the dividend, the Company shall within seven (7) days from the date of expiry of the said period of thirty (30) days, transfer the total amount of dividend which remains unpaid or unclaimed within the said period of thirty (30) days, to a special account to be opened by the Company in that behalf in any scheduled bank to be called "Unpaid Dividend Account" of "Lenskart Solutions Limited" or having such other nomenclature as may be prescribed under the applicable laws.

c. Any money transferred to the unpaid dividend account of the Company which remains unpaid or unclaimed for a period of seven (7) years from the date of such transfer, shall be transferred by the Company, along with interest accrued, if any, thereon to the fund known as Investor Education and Protection Fund established under the section 125 of the Act established by the Central Government, subject to the provisions of the Act and the rules.

d. No unclaimed or unpaid dividend shall be forfeited by the Board before the claim becomes barred by law.

e. All other provisions under the Act will be complied with in relation to the unpaid or unclaimed dividend.

**138. DIVISION OF PROFITS**

Subject to the rights of persons, if any, entitled to Shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the Shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the Shares in the Company, dividends may be declared and paid according to the amounts of the Shares.

**139. DIVIDENDS TO BE APPORTIONED**

All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the Shares during any portion or portions of the period in respect of which the dividend is paid; but if any share is issued on terms providing that it shall rank for dividend as from a particular date such share shall rank for dividend accordingly.

**140. RESERVE FUNDS**

The Board may, before recommending any dividends, set aside out of the profits of the Company such sums as it thinks proper as a reserve or reserves which shall at the discretion of the Board, be applied for any purpose to which the profits of the Company may be properly applied, including provision for meeting contingencies or for equalizing dividends and pending such application, may, at the like discretion either be employed in the business of the Company or be invested in such investments (other than Shares of the Company) as the Board may, from time to time think fit.

The Board may also carry forward any profits when it may consider necessary not to divide, without setting them aside as a reserve.

**141. DEDUCTION OF ARREARS**

Subject to the Act, no Member shall be entitled to receive payment of any interest or dividend in respect of his share or Shares whilst any money may be due or owing from him to the Company in respect of such share or Shares of or otherwise howsoever whether alone or jointly with any other person or persons and the Board may deduct from any dividend payable to any Members all sums of money, if any, presently payable by him to the Company on account of the calls or otherwise in relation to the Shares of the Company.

**142. RETENTION OF DIVIDENDS**

The Board may retain dividends payable upon Shares in respect of which any person is, under Articles 60 to 73 hereinbefore contained, entitled to become a Member, until such person shall become a Member in respect of such Shares.

**143. RECEIPT OF JOINT HOLDER**

Any one of two or more joint holders of a share may give effective receipt for any dividends, bonuses or other moneys payable in respect of such Shares.

**144. DIVIDEND HOW REMITTED**

Any dividend, interest or other monies payable in cash in respect of Shares may be paid by electronic mode or by cheque or warrant sent through the post directed to the registered address of the holder or, in the case of joint holders, to the registered address of that one of the joint holders who is first named on the Register of Members, or to such person and to such address as the holder or joint holders may in writing direct. Every such cheque or warrant shall be made payable to the order of the person to whom it is sent.

**145. DIVIDENDS NOT TO BEAR INTEREST**

No dividends shall bear interest against the Company.

**146. TRANSFER OF SHARES AND DIVIDENDS**

Subject to the provisions of the Act, any transfer of Shares shall not pass the right to any dividend declared thereon before the registration of the transfer.

## CAPITALISATION OF PROFITS

### 147. CAPITALISATION OF PROFITS

a. The Company in General Meeting, may, on recommendation of the Board resolve:

i. that it is desirable to capitalise any part of the amount for the time being standing to the credit of the Company's reserve accounts or to the credit of the profit and loss account or otherwise available for distribution; and

ii. that such sum be accordingly set free for distribution in the manner specified in the sub-clause (b) amongst the Members who would have been entitled thereto if distributed by way of dividend and in the same proportion.

b. The sum aforesaid shall not be paid in cash but shall be applied, subject to the provision contained in sub-clause (c) below, either in or towards:

i. paying up any amounts for the time being unpaid on Shares held by such Members respectively;

ii. paying up in full, unissued share of the Company to be allotted and distributed, credited as fully paid-up, to and amongst such Members in the proportions aforesaid; or

iii. partly in the way specified in sub-clause (i) and partly that specified in sub- clause (ii).

iv. A securities premium account and a capital redemption reserve account or any other permissible reserve account may be applied as permitted under the Act in the paying up of unissued Shares to be issued to Members of the Company as fully paid-up bonus Shares.

v. The Board shall give effect to the resolution passed by the Company in pursuance of these Articles.

### 148. POWER OF DIRECTORS FOR DECLARATION OF BONUS ISSUE

a. Whenever such a resolution as aforesaid shall have been passed, the Board shall:

i. make all appropriations and applications of the undivided profits resolved to be capitalised thereby, and all allotments and issues of fully paid-up Shares or other securities, if any; and

ii. generally, do all acts and things required to give effect thereto.

b. The Board shall have full power:

i. to make such provisions, by the issue of fractional certificates or by payments in cash or otherwise as it thinks fit, in the case of Shares or debentures becoming distributable in fractions; and

ii. to authorize any person to enter, on behalf of all the Members entitled thereto, into an agreement with the Company providing for the allotment to them respectively, credited as fully paid-up, of any further Shares or other securities to which they may be entitled upon such capitalization or as the case may require, for the payment by the Company on their behalf, by the application thereto of their respective proportions of the profits resolved to be capitalized, of the amount or any parts of the amounts remaining unpaid on their existing Shares.

c. Any agreement made under such authority shall be effective and binding on such Members.

## ACCOUNTS

### 149. WHERE BOOKS OF ACCOUNTS TO BE KEPT

The Books of Account shall be kept at the Office or at such other place in India as the Board of Directors think fit in accordance with the applicable provisions of the Act.

### 150. INSPECTION BY DIRECTORS

The books of account and books and papers of the Company, or any of them, shall be open to the inspection of directors in accordance with the applicable provisions of the Act.

### 151. INSPECTION BY MEMBERS

No Member (not being a Director) shall have any right of inspecting any account or books or documents of the Company except as conferred by law or authorised by the Board.

## SERVICE OF DOCUMENTS AND NOTICE

### 152. MEMBERS TO NOTIFY ADDRESS IN INDIA

Each registered holder of Shares from time to time notify in writing to the Company such place in India to be registered as his address and such registered place of address shall for all purposes be deemed to be his place of residence.

### 153. SERVICE ON MEMBERS HAVING NO REGISTERED ADDRESS

If a Member has no registered address in India and has not supplied to the Company any address within India, for the giving of the notices to him, a document advertised in a newspaper circulating in the neighborhood of Office of the Company shall be deemed to be duly served to him on the day on which the advertisement appears.

### 154. SERVICE ON PERSONS ACQUIRING SHARES ON DEATH OR INSOLVENCY OF MEMBERS

A document may be served by the Company on the persons entitled to a share in consequence of the death or insolvency of a Member by sending it through the post in a prepaid letter addressed to them by name or by the title or representatives of the deceased, assignees of the insolvent by any like description at the address (if any) in India supplied for the purpose by the persons claiming to be so entitled, or (until such an address has been so supplied) by serving the document in any manner in which the same might have been served as if the death or insolvency had not occurred.

### 155. PERSONS ENTITLED TO NOTICE OF GENERAL MEETINGS

Subject to the provisions of the Act and these Articles, notice of General Meeting shall be given:

a. To the Members of the Company as provided by these Articles.

b. To the persons entitled to a share in consequence of the death or insolvency of a Member.

c. To the Directors of the Company.

d. To the Debenture Trustee(s) of the Company, if any.

e. To the auditors for the time being of the Company; in the manner authorized by as in the case of any Member or Members of the Company.

f. To the secretarial auditors of the Company.

### 156. NOTICE BY ADVERTISEMENT

Subject to the provisions of the Act, any document required to be served or sent by the Company on or to the Members, or any of them and not expressly provided for by these Articles, shall be deemed to be duly served or sent if advertised in a newspaper circulating in the district in which the Office is situated.

### 157. MEMBERS BOUND BY DOCUMENT GIVEN TO PREVIOUS HOLDERS

Every person, who by the operation of law, transfer or other means whatsoever, shall become entitled to any Shares, shall be bound by every document in respect of such share which, previously to his name and address being entered in the Register of Members, shall have been duly served on or sent to the person from whom he derived his title to such share.

Any notice to be given by the Company shall be signed by the managing Director or by such Director or company secretary (if any) or Officer as the Directors may appoint. The signature to any notice to be given by the Company may be written or printed or lithographed or digitally signed.

## WINDING UP

**158.** Subject to the applicable provisions of the Act–

a. If the Company shall be wound up, the liquidator may, with the sanction of a Special Resolution of the Company and any other sanction required by the Act, divide amongst the Members, in specie or kind, the whole or any part of the assets of the Company, whether they shall consist of property of the same kind or not.

b. For the purpose aforesaid, the liquidator may set such value as he deems fair upon any property to be divided as aforesaid and may determine how such division shall be carried out as between the Members or different classes of Members.

c. The liquidator may, with the like sanction, vest the whole or any part of such assets in trustees upon such

trusts for the benefit of the contributories if he considers necessary, but so that no member shall be compelled to accept any Shares or other securities whereon there is any liability.

d. Any person who is or has been a Director or manager, whose liability is unlimited under the Act, shall, in addition to his liability, if any, to contribute as an ordinary member, be liable to make a further contribution as if he were at the commencement of winding up, a member of an unlimited company, in accordance with the provisions of the Act.

**159. APPLICATION OF ASSETS**

Subject to the provisions of the Act as to preferential payment the assets of the Company shall, on its winding up, be applied in satisfaction of its liabilities *pari passu* and, subject to such application shall be distributed among the Members according to their rights and interests in the Company.

**INDEMNITY**

**160. DIRECTOR'S AND OTHERS' RIGHT TO INDEMNITY**

Subject to the provisions of the Act and other applicable law, every Director and Officer of the Company shall be indemnified by the Company against any liability incurred by him in his capacity as Director or Officer of the Company including in relation to defending any proceedings, whether civil or criminal, in which judgment is given in his favour or in which he is acquitted or in which relief is granted to him by the court or the tribunal. Provided, however, that such indemnification shall not apply in respect of any cost or loss or expenses to the extent it is finally judicially determined to have resulted from the negligence, wilful misconduct or bad faith acts or omissions of such Director or officer of the Company.

**161. INSURANCE**

The Company shall obtain and at all times maintain, a valid Directors' and Officers' liability insurance for all the Directors. Subject to the Law, the Company shall indemnify and hold harmless the Directors and the observer from and against any act, omission or conduct (including, without limitation, contravention of any Law) of or by the Company or on its behalf, as a result of which, in whole or in part, the Directors are made a party to, or otherwise incurs any Loss.

**SECRECY CLAUSE**

**162. SECRECY**

No Member or other person (not being a Director) shall be entitled to inspect the Company's works without the permission of the Board/Directors or to require discovery of any information respectively and detail of the Company's trading or any matter which is or may be in the nature of a trade secret, history of trade or secret process, or of any matter whatsoever, which may be related to the conduct of the business of the Company and which in the opinion of the Board/Directors will be inexpedient in the interest of the Members of the Company to communicate to the public.

**GENERAL POWER**

**163.** Wherever in the Act, it has been provided that the Company shall have any right, privilege or authority or that the Company could carry out any transaction only if the Company is so authorized by its articles, then and in that case this Article authorizes and empowers the Company to have such rights, privileges or authorities and to carry such transactions as have been permitted by the Act, without there being any specific Article in that behalf herein provided.

**164.** At any point of time from the date of adoption of these Articles, if the Articles are or become contrary to the provisions of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations"), the provisions of the Listing Regulations shall prevail over the Articles to such extent and the Company shall discharge all of its obligations as prescribed under the Listing Regulations, from time to time.
