PRESS RELEASE

**KPCL announces the financial results for Q3 FY24 with 9% income growth Q-o-Q
PBT for Q3 grows by over 75% over Q2 FY24
9M Total Income at Rs 846 Cr against Rs 888 Cr of previous year**

Pune, India – 24th Jan 2024: Kirloskar Pneumatic Company Ltd (KPCL) (BSE : 505283, NSE: KIRLPNU), a prominent player in Air, Refrigeration & Gas Compression business in India, announced today its financial results for Q3 of the financial year FY24.

Q3 FY24 witnessed 9% growth in sales compared to the preceding quarter, Q2 FY24. However, the cumulative sales for the first nine months (9M) of the fiscal year at Rs. 832.6 Cr is 5% lower than Rs. 879.7 Cr of the previous year.

The third quarter is generally a shorter quarter due to the holidays. We however ran the factories without block closures to build packages for dispatch in Q3 and Q4. Production at the forging plant at Nashik stabilized and this should help in margin improvements going forward. Sale of Calana Booster compressors picked up as also the sales in Ammonia compressors for cold chains.

Our order book, standing strong at over Rs 1,546 Cr (PY Rs. 1300 Cr) gives us clear visibility for growth in the upcoming quarters. Input prices and availability have both improved allowing for trimming of the execution times. However site readiness and clearances for dispatch remains a challenge in many cases.

The Compression business accounts for approximately 92% of the Company's revenue, and remains the sole reporting segment.
