MANAGEMENT DISCUSSION AND ANALYSIS

Industry structure and developments

2016 continues to be in the pattern of what we have been seeing after the NDA Government took over. Bold Government decisions combined with solid economic performance. This has made India the only BRICS market to be loved by global investors.

Soft Global Commodity prices, Benign CPI, Controlled Fiscal deficit trending lower, Significant deposit growth, Stable INR and robust Foreign Exchange reserves all bode well for a country which 3 years back had a 20% depreciation in its currency.

RBI Governor change has had minimal effect despite several warnings about a change affecting India's rating globally.

The NDA Government with its stunning win in Uttar Pradesh will also help the ongoing confidence in India stemming from political stability.

Opportunities and Threats

Your Company being an investment Company seeks opportunities in the capital market. The volatility in the stock indices in the financial year under report represents both an opportunity and challenge for the Company.

Capital market activities in which most of our activities depend on is also influenced by global events and hence there is an amount of uncertainty in the near term outlook of the market.

Segment-wise Performance

The Company being a holding Company is engaged in investment activities and other financial services during the year under review, hence the requirement of segment-wise reporting is considered irrelevant.

Outlook

Major themes to impact Indian markets in 2017 include resurrection in consumption demand, growth led by policy reforms, move towards digitization, monetary stance of global central banks and economic policy decisions. The impact of demonetization has not weighed on consumption demand and growth continues to be robust. The 2017-18 will possibly see a higher growth rate with the Government coming up with the GST middle of this year.

Improvement in consumption demand is expected to be a major theme for 2017 supported by a gradually rising rural wage level, implementation of the 7th pay commission, lowering of interest rates in the Indian economy and continued government spending.

Interest subvention of 3% and 4% for housing loan announced in December 2016 may boost low cost housing segment. Post the fixation of tax structure by the GST council, GST law now awaits implementation in 2017. This simplification of tax structure along with reforms pertaining to land, labor, infrastructure sectors and modification in FDI policy could contribute to sustainable growth over medium term.

Global factors including commodity price movements, economic policies of the new government in the US and monetary policy stance of global central banks could have a bearing on capital flows to emerging markets like India. A likely rise in inflation pressure in the US from wage rise and expansion in the economy should elicit future

interest rate hike actions by the US Federal Reserve in 2017. Global growth rate is likely to improve, led by the US and other emerging economies in 2017 which could benefit the Indian export oriented sectors. That said, India's lower linkage to global economies makes the domestic macro factors and fiscal trends the key catalysts to determine growth. Improving fiscal situation, inflation rate, exports growth, rising FDI flows point towards fundamental stability in the economy which augurs well for long term equity investing. Domestic corporate earnings volatility may increase as corporates attempt to tide over the impact of currency replacement program. Franklin Templeton expects Earnings for FY17 to be lower than estimate with EPS growth likely at around 10%. Consensus earnings growth for FY18 is expected to be healthy at high teens. The fundamental strength of the economy and attractive valuation levels of the market (1 year forward P/E for BSE Sensex at 14.7x, moderate levels implying low risk) present a positive outlook for equity.

LKP Finance with its divestment from LKP Securities currently invests its funds in the capital market. We continue to significant opportunity in the market and will use periods of interim weakness as investment opportunities for long term.

Risks and Concerns

LKP Finance after demerging LKP Securities is now more dependent on the Indian Capital markets for its returns. Even though it is envisaged that Indian stock market will continue to do well, but global concerns can result in sharp corrections.

ANNEXURE "B" to the Independent Auditors' Report

Referred to in paragraph pertaining to 'Report on Other Legal and Regulatory Requirement' of our report of even date on the financial statements for the year ended 31st March, 2017

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **LKP FINANCE LIMITED** ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (IFCOFR) issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgments, including the assessment of the risks of material misstatement of the financial statements, whether

due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
