Management Commentary

- ❑ Q1FY26 EBITDA increase is backed by higher volume (19%), better BOPP film margins, improved cost rationalization (Rs 4 cr) and enhanced performance of specialty chemical subsidiary.
- ❑ New BOPP film line started operations from June beginning and will add close to 45% to Company's BOPP capacity.

- ❑ Window film which started operations in May 2025 under brand “Sunshield” has gained momentum with 50+ distributors.
- ❑ The Company has invested in key packaging assets over last three years including BOPP, CPP, Window / PPF film. All these investments have started commercial production during recent months and should provide a significant ramp up in revenue as well as profitability in coming years. The new film lines are the most cost-efficient and should make Cosmo more competitive in the market.
- ❑ The Specialty Chemical subsidiary has continued to achieve tractions and posted highest ever EBITDA of Rs 12 crores with Rs 49 crores topline in Q1, FY26.
- ❑ Zigly is all set for next level of growth and should see higher momentum in FY26 with private labels and Vet centric approach.
- ❑ Within short time span of one month, the company is running close to full capacity utilization on new BOPP line. The FY26 focus will be on taking full leverage of the new investments, grow specialty film sales and push down costs. Growth with profitability will be key focus for other business verticals including speciality chemicals, sunshield and rigid packaging.

Leading in Sustainable Energy Solution

Renewable Energy usage
has been 50%+ of energy
consumption.

We are expecting to
increase renewable mix
to 2/3rd in next 12-18
months.

Once fully operational,
we expect power cost
rationalization
(incremental) of about Rs
20-25 crores pa.
