VISAKA INDUSTRIES LIMITED®
ANNUAL REPORT 2013-14

FORWARD-LOOKING STATEMENT

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make, contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipates', 'estimates', 'expects', 'projects', 'intends', 'plans', 'believes' and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

WHERE PEOPLE SEE CHALLENGES,
VISAKA PREFERS TO PERCEIVE
OPPORTUNITIES.

WHILE PEOPLE WAIT FOR THINGS TO
GET BETTER, VISAKA WOULD RATHER
PROACTIVELY INVEST IN REINFORCING
ITS BUSINESS.

SO EVEN AS REALISATIONS REMAINED
LOW AND DEMAND STAYED SUBDUED
DURING A CHALLENGING FY14, VISAKA
SELECTED TO MAKE THREE TIMELY
INVESTMENTS.

ONE, TOWARDS ENHANCING CONSUMER
AWARENESS ABOUT CEMENT ASBESTOS
PRODUCTS. ANOTHER IN A 72,000 TPA
FIBRE CEMENT PLANT. AND FINALLY, IN
A 2.5 MW SOLAR POWER PLANT.

THESE INVESTMENTS WERE DONE WITH
THE OBJECTIVE TO BE IN THE RIGHT
PLACE WITH THE RIGHT CAPACITY AT THE
RIGHT TIME WHEN DEMAND REBOUNDS.

ONE COMPANY. TWO BUSINESSES.

OVER THE YEARS, VISAKA INDUSTRIES HAS INVESTED IN TWO DIVERSE SECTORS - BUILDING PRODUCTS AND TEXTILES.

WITHIN THE BUILDING PRODUCTS SEGMENT, THE COMPANY HAS INVESTED IN A VARIETY OF PRODUCTS.

WITHIN THE TEXTILE SEGMENT, THE COMPANY DELIVERS A RANGE OF SYNTHETIC YARNS.

WITH THE OBJECTIVE TO REMAIN COMPETITIVE AT ALL TIMES.

ABOUT US

Visaka Industries Limited (established 1985) is engaged in two businesses - building products (cement asbestos products and fibre cement flat products like V-Boards and V-Panels) and textiles.

LISTING

The equity shares of Visaka Industries Limited are listed on the Bombay and National Stock Exchanges.

The Company enjoyed a market capitalisation of ₹115.60 crore (March 31, 2014). The promoters held 37.65% of the Company's equity share capital.

PRESENCE

The Company's corporate office is located in Hyderabad. Its manufacturing facilities are spread across 11 locations supported by nine marketing offices.

OUR PERFORMANCE

FINANCIAL HIGHLIGHTS, 2013-14

REVENUES

BUILDING PRODUCTS DIVISION

This segment reported revenues worth ₹705 crore and contributed 80% (82% in 2012-13) to the Company's overall revenues.

TEXTILE DIVISION

This segment reported revenues worth ₹178 crore and contributed 20% (18% in 2012-13) to the Company's overall revenues.

PRODUCTION

BUILDING PRODUCTS DIVISION

- Production declined 19.5% for the cement asbestos segment with a capacity utilisation of 80% (99% in 2012-13).
- Production of V-Boards and V-Panels grew by 23%.

TEXTILE DIVISION

Yarn production grew 9% to 8,614 tonnes (7,897 tonnes in 2012-13) with a capacity utilisation of 96% (95% in 2012-13).

SALES

BUILDING PRODUCTS DIVISION

- Sales volume declined by 6% for the cement asbestos segment.
- Sales volume for V-Boards and V-Panels grew by 21% and 26% respectively. Exports of fibre cement grew by 16%.

TEXTILE DIVISION

Domestic sales grew by 12% to 6,913 tonnes of yarn (6,158 tonnes in 2012-13) while exports stood at 1,609 tonnes (2,094 tonnes in 2012-13).

OUR COMPETITIVENESS

DIVERSIFIED PRODUCT LINES

By definition, a corporate that focuses on a narrow range of products will only have access to a limited number of customers. Keeping this in mind, Visaka established its presence along multiple products and service lines (building products and synthetic blended yarn).

WIDESPREAD MARKET PRESENCE

The Company addresses a range of customers - from rural Indians who buy cement asbestos sheets to global institutional customers who buy yarn to individual-cum-institutional customers who buy fibre cement flat products (V-Board and V-Panels).

CAPITAL COST PER TONNE

The Company has invested in production capacities in markets with incipient demand and aims to capitalise on attractive equipment prices. The result is that the Company possesses one of the most competitive cement asbestos capacities in India (expressed in one of the lowest capital costs per tonne within its sector).

RICH MANAGEMENT BANDWIDTH

The Company's management possesses a unique combination of experience and stability. Moreover, a majority of the senior managerial personnel has been with the Company for more than 15 years. With a keen emphasis on entrepreneurship, the senior management chalks out annual business plans, sets targets (revenues and profits) and defines employee responsibilities.

CUTTING-EDGE TECHNOLOGICAL PLATFORM

The Company has reconciled global technology with unskilled labour across each of its businesses. Its fibre cement plants are fully-automated; its yarn manufacturing units use state-of-the-art twin air jet spinning technology (Murata).

VALUE-ADDED

The Company has ventured into the manufacture of value-added customised yarn varieties that are relatively insulated from price-based competition. The efficacy of this strategy has been vindicated through enduring customer relationships.

“DURING A CHALLENGING YEAR, WE INVESTED IN OUR BUSINESS TO CAPITALISE ON THE INDUSTRY REBOUND.”

Dear shareholders,

The year 2013-14 proved challenging for the Indian economy with GDP growth staying below 5% for the second successive year.

This weak growth was marked by high food inflation, low industrial investments, weak consumer sentiment and a volatile rupee.

The result was that rural consumers – the principal market for the Company's cement asbestos products, its largest revenue source - possessed lower disposable incomes with little purchasing power. With more than 78 million rural homes still not electrified and around 33% of the population (268 million) living on less than \$1 per day, demand was bound to be adversely affected.

As an extension of these realities, the Company's performance was affected. Visaka reported a 3 per cent decline in its topline of ₹892.10 crore in FY 14 (₹915.60 crore in FY13) and a lower profit after tax of ₹11.96 crore (₹50.68 crore in the previous year).

COUNTERING CHALLENGES

The cement asbestos business, which contributed 75% to the Company's revenues in 2012-13, reported sluggish demand leading to a nationwide oversupply. This brought

down realisations by 4 per cent from their erstwhile peak levels. Moreover, as the rupee weakened and increased the landed cost of raw materials, which could not be passed on to the end-customers. The Company reported a decline in average capacity utilisation from 99% to 80%. Eight cement asbestos plants in the industry were compelled to cease production.

Besides, India's cement asbestos industry encountered a growing threat from the increased offtake of meta-colour roofing sheets. These coloured sheets were preferred by customers on account of their aesthetics, which carved out a sizeable chunk of the market, which was earlier occupied by cement asbestos sheets.

The country's cement asbestos sector is gearing to respond to this reality and expects to reverse this trend by projecting the relative disadvantages of steel sheets, thereby proving that cement asbestos sheets continue to be the most functionally efficient and economically apt rural roofing solution.

STRENGTHENING THE BUSINESS

Over the last few years, Visaka Industries has utilised every industry downtrend as an opportunity to strengthen its business. The last

financial year was no exception; the Company selected to commission a new plant for the manufacture of 72,000 MT of non-asbestos flat boards. Besides, the Company integrated backwards by setting up a 2.5 MW solar power plant with the aim of curtailing its energy costs and strengthening its competitiveness.

Commissioning of a new unit:

The Company's first non-asbestos boards plant at Miryalguda reported a profit for the first time since being commissioned two years ago. This was a result of rising product awareness and operational streamlining on the part of Visaka. The Company is buoyant regarding the prospects of this business as non-asbestos flat boards (V-Boards) and sandwich panels (V-Panels) find growing acceptance in India in line with trends visible in other countries.

In view of this optimism, the Company commissioned a new non-asbestos fibre cement flat sheet plant in Daund (Pune) in October 2013. This expansion made Visaka the second largest player (capacity) in India. The ₹95 crore project was funded through bank borrowings (₹68.70 crore) and accruals (₹26.30 crore). The production and sale from this unit is yet to scale up, even as the Company proactively absorbed a high depreciation and interest costs for this unit during 2013-14.

Solar power plant: The Company established a 2.5 MW solar power plant at its first non-asbestos boards plant in Miryalguda at a cost of ₹22 crore, which was funded through accruals. This unit is expected to address 40% of the power requirements of the Miryalguda and Vijayawada plants (cement asbestos plant), helping the units tide over power outages and countering the cost of alternate power during such shutdowns. This plant is expected to start operations from May 2014 and is expected to generate 40 lac units annually with a projected eight year payback.

Cost-effective: The Company embarked on a number of initiatives to cut operational expenditure. As a means to this end, the Company widened its business without any manpower accretion and moderated its cement asbestos sheet inventory to moderate holding costs.

Strengthening spinning performance:

The Company's spinning division strengthened its competitiveness, growing revenues by 8% following a favourable industry scenario, which is expected to continue in 2014-15.

WAY AHEAD

The management of Visaka Industries wishes to assure all its stakeholders that it has been through such

demand declines in the past and has lived to fight another day.

The cement asbestos division is expected to perform better in the face of a stronger rupee. Besides, cement and fly ash prices (raw materials) are expected to remain flat. Freight costs are expected to remain stable. The increase in power costs would be offset by the Company's solar power plant.

The performance of the Company's non-asbestos division is also expected to revive. Exports accounted for 25% of this division's production and this is expected to grow too. The Company is investing in educating carpenters, architects, interior designers, project consultants, dealers and distributors with the expectation of enhancing offtake and turning this division around by 2015-16.

In view of these initiatives, the Company is optimistic of capitalising on the sectoral rebound over the foreseeable future.

Sincerely
Smt. G. Saroja Vivekanand
Managing Director

DIVISIONAL ANALYSIS

BUILDING PRODUCTS DIVISION

SEGMENTAL COMPETITIVENESS

High rank: The Company was the seventh largest cement asbestos product manufacturer in India in 1996; it is the second largest today.

Shopfloor efficiency: The Company's shopfloor efficiency ensured that the products met the stringent ISI guidelines. Moreover, the Company's manufacturing plants consumed the lowest electricity per tonne.

Organised distribution: The Company possessed a strong distribution network comprising over 6,000 retailers (rural and the semi-urban markets). It derived 85 % of its sales from these markets while the rest was derived from institutional sales, governmental agencies, industries and poultry farms. The Company leveraged its superior marketplace knowledge by distributing directly to retailers as opposed to the conventional distributor-retailer model.

Market share: The Company's Visaka and Shakti brands enjoyed favourable recall across India's organised cement asbestos market.

Fabrication capability: The Company's rich engineering

competence was reflected in its ability to design and fabricate cement asbestos manufacturing equipment for six of its eight plants, helping keep capital costs considerably below the industry benchmark and by reducing project commissioning time.

Pervasive presence: The Company's cement asbestos product manufacturing facilities are dispersed nationally - four in Southern India, one in Northern India, two in Eastern India and one in Western India - thereby ensuring that regional needs are adequately addressed.

De-risked product mix: The Company's building products division comprises fibre cement boards (non-asbestos) used in urban and semi-urban interiors, giving us the opportunity to expand our customer base and grow the business.

Advanced technology: Visaka's fibre cement plant with cutting-edge automation ensures qualitative consistency.

Superior quality: The Company's fibre cement plant was certified by ISI. The V-Board division was invested with state-of-the-art HPSC technology conforming with ISO 14862-2000 compliances.

CEMENT ASBESTOS PRODUCTS

The Company's building products segment was dominated by cement asbestos products (89% of the segmental revenue). The other segmental products comprised flat products like V-Boards and V-Panels.

The Company possessed 7,52,000 TPA of installed capacity for cement asbestos products. The Company retained its position as the second largest cement asbestos product manufacturer in India with a 17% market share.

The Company delivered superior load-bearing capacity which was higher when compared with the recommended standards. It bolstered its outdoor advertising campaign, influenced decision-makers, marketed the 'perfect shelter' concept and ensured that retailers were

adequately stocked. The division engaged in periodic dialogues with customers, architects, government engineers and farmers to access feedback and generate awareness.

HIGHLIGHTS, 2013-14

- The division's revenue stood at ₹62,901 lac against ₹68,420 lac in 2012-13.
- Capacity utilisation was 80% (99% in the previous year) owing to sluggish product offtake.
- The Company highlighted superior product attributes to customers.

OPPORTUNITIES

In India, the offtake of cement asbestos products is largely influenced by rural incomes and how competitively priced the product is compared to alternative materials.

Cement asbestos products represent a convenient intermediate roofing product in rural and semi-urban India. The product's scope is

highlighted by the fact that nearly half the country's rural population lives in kutcha or semi-pucca dwellings, which would need to be graduated to organised homes when disposable incomes increase. The sector's attractiveness is indicated by its size: 68% of India's population is rural, translating into a market of around 83 crore consumers, with a huge rural housing shortage. As per the 2011 census, 59.7% of the houses in India were classified as pucca, 28.06% as semi-pucca and 12.24% as kutcha. Among pucca houses, less than half used RCC slabs; the rest used ready-house roofing products (fibre cement roofing and metal roofing). Interestingly, the cost of a pucca roof using fibre cement roofing was only a third of the cost of a RCC ceiling slab.

OUTLOOK

Following focused communication, the Company expects to revive the demand for this product.

ADVANTAGES OF CEMENT ASBESTOS SHEETS

Durability: Asbestos fibre when mixed with cement increases product longevity. For example, asbestos cement roof sheets last an average of 50 years, longer than other sheeting materials (wood and plastic).

Inexpensive: Cement is fairly inexpensive construction material. The real cost lies in the additive material known to increase the strength of the concrete, which leads to a cheaper construction piece (wall sheet or pipe) but with the same durability.

Fireproof: Asbestos fibres are resistant to fire and chemical damage. Asbestos doesn't burn, so using asbestos cement in areas prone to fire (electrical components or in commercial buildings with high heat sources) is considered safe.

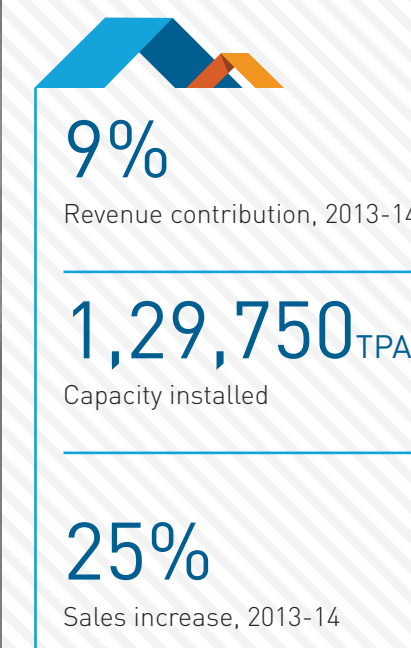

FIBRE CEMENT SHEETS (NON-ASBESTOS) – V-BOARDS AND V-PANELS

The Company's building products division manufactures flat products like V-Boards and V-Panels.

The Company possesses an installed capacity of 1,20,000 MT of V-Boards (Fibre cement flat sheets) and 9,750 MT of V-Panels. The Company proactively commissioned a 72,000 TPA plant at Daund (Pune) during the year under review to address growing product demand. As a result, the Company possesses the second largest fibre cement sheet capacity in the country.

In the last few years, the use of flat products (V-Boards and V-Panels) increased on account of a superior price-value proposition over alternatives. A shift in application

from plywood, particle boards and MDF boards to cement fibre sheets could catalyse demand leading to increased onward use in interiors, partitions, panelling, door panels and mezzanine flooring, among others.

V-BOARDS

The Company established its V-Board business in May 2008. The products are buoyed with HPSC technology conforming to ISO 14862-2000 norms. The offtake of cement bonded boards grew following enhanced product awareness, shift from timber products (due to advantages of fire, water and termite resistance over plywood and particle boards), higher affordability, low maintenance

costs, low erection cost, greater functionality, easy transportability (rather than having to be mixed on-site) and safety in seismic zones.

HIGHLIGHTS, 2013-14

- Revenue grew from ₹5,318 lac in 2012-13 to ₹6,619 lac.
- The Company's second unit was commissioned in October 2013, reinforcing the Company's position as a sectoral leader.

V-PANELS

Visaka possesses an installed capacity of 9,750 TPA. The Company's customers for V-Panels comprise GMR Group, Punj Loyd,

Shapoorji Pallonji, Soma Enterprises, TCS, Gujarat Ambuja port, Eenu Group, Coastal Projects, Uranium Corporation and Larsen & Toubro, among others.

The product is increasingly preferred for the following reasons:

- This non-asbestos product is ideal in interiors (created using cement, fly ash and polystyrene beads).
- The product is positioned as a dry wall substitute and ideal in disaster-prone areas, low on maintenance, space-efficient and ideal wherever real estate is expensive.
- The product is lighter than bricks, quicker to erect, matches wall

strength and axial load. The product is preferred on account of its superior size-weight ratio and dry wall concept.

- The product is labour-efficient and can be erected by few individuals and reused across locations.

HIGHLIGHTS, 2013-14

- Increased production from 7,514 MT in 2012-13 to 9,176 MT in 2013-14.
- Increased sales from 6,875 MT in 2012-13 to 8638 MT in 2013-14.
- Grew revenues from ₹990 lac in 2012-13 to ₹1,247 lac; EBIDTA stood at ₹94 lac in 2013-14 against ₹61 lac in 2012-13.

DIVISIONAL ANALYSIS TEXTILE DIVISION

Visaka Industries diversified into the manufacture of synthetic yarn in 1992. Its textile division manufactures yarns using state-of-the-art twin air jet spinning machines (Murata, Japan) with 31 MTS machines (equivalent to 55,000 ring spindles) where yarn quality is superior to conventional ring frame yarn.

MANUFACTURING CAPABILITIES

Visaka invested in the world's largest double yarn manufacturing plant based on twin air jet spinning. The unit developed mélange yarns, grindle yarns, high twist yarns and specialty yarns with different blend styles.

The unit is the largest global facility using Murata equipment, reporting one of the highest efficiencies. A strong procedural control translated into Visaka being bestowed with an ISO certification as early as in 1995 and Star Export House status in 2008. Visaka's yarns are environment-friendly and are certified as per the demanding OEKO-TEX standards.

The Company's air-jet yarns are marked by low pilling, no singeing, excellent dye pick-up, low picks per inch, low weaving cost, low value loss/ fresher piece length, perspiration absorption, low shrinkage and

smooth appearance value.

SEGMENT COMPETITIVENESS

Value-added: The Company manufactures value-added yarn, enjoying some of the highest margins in its segment.

Engineering excellence: The Company produced dyed yarns at a speed higher than the equipment manufacturer's recommendation.

Large scale: The Company enjoys attractive scale; it possesses the single largest twin airjet equipment installation in India and one of the biggest such installations in the world.

Best-in-class quality: The Company's products figure in the top five percentile of Uster-standards in the world.

Niche presence: The Company selected to specialise in the niche segment of a commodity business (polyester spun yarns as well as products from 30s to 76s counts - double yarn) to cater to discerning customers.

Benchmarked productivity: The Company's twin airjet productivity is identified as a benchmark by machinery manufacturers (Murata, Japan).

Reputed clientele: The Company's domestic textile clients comprise brand-enhancing names like Grasim Industries, Siyaram Silk, S. Kumar Nationwide, Shreekar Polyester, Puneet Syntex, Anand Silk Mills, G.M. Knitting Industries, D. C. Textiles, Kalpesh Synthetics and Raj Rajendra Industries, among others.

Environment-friendly processes: Visaka's yarns are environment-friendly and OEKO-TEX-certified. The Company's stringent adherence with quality processes resulted in it receiving the ISO certification.

HIGHLIGHTS, 2013-14

- Revenues grew from ₹16,493 lac in 2012-13 to ₹17,813 lac while EBIDTA stood at ₹2,833 lac in 2013-14 (₹2,219 lac in 2012-13).

- Average realisations increased from ₹200 per kg in 2012-13 to ₹209 per kg in 2013-14.

- Over 19% of the division's production was exported to value-added fabric makers (used in sun umbrellas, venetian blinds, table linen and automotive fabrics).

OUTLOOK

The Company expects to maintain stable growth, enhancing the production of specialty and value-added yarns.

The global textile and apparel industry is undergoing sweeping changes resulting in a growing usage of textiles in diverse areas. As per the *Global Textile and Apparel Industry: Vision 2015*, the world textile and

apparel trade is expected to grow from 24 MMT to 105 MMT by 2020; polyester is expected to comprise 68% of the global demand growth.

The Indian textile and apparel sector is expected to attain a market size of US\$ 220 billion by 2020 with an annual growth rate of 11%. As per the Federation of Indian Chamber of Commerce and Industry (FICCI), India's textile exports are expected to rise from US\$ 21 billion in 2012 to US\$ 145.6 billion by 2023.

India stands to improve its share of the global textile and apparel trade from 4.5% to 8% and in doing so, reach a US\$ 80 billion size by 2020. The country is poised to enhance its share of the global polyester market from 8% to 10%.

PROTECTING OUR BUSINESS AND MANAGING OUR RISKS

Building products

1 CREATING AWARENESS

Against the general perception that cement asbestos products are harmful, the Company has created a brand around safety. In India, the quantum of fibre used in asbestos is only 8%, which is not harmful. Besides, the Company uses white fibre in place of the banned carcinogenic blue fibre. Moreover, the free-floating asbestos used by the Company is well below the 0.1 fibres/ml of air mark fixed by the Ministry of Environment. The Company's ongoing audit ensures a safe workplace for employees.

2 ENSURING REGULAR SUPPLY

Erratic fibre supply can affect production. Based on its production plan, the Company enters into annual contracts leading to predictable supply. The Company addresses its requirement through imports from three countries (Russia, Brazil and Canada), reducing risk of a singular dependence on any one country.

Textile business

1 VALUE-ADDITION

The Company targeted niche value-added products accounting for 12% of textile revenues.

2 COST REDUCTION

The Company altered inputs, reduced costs, strengthened realisations and enhanced product

3 CLOSER TO THE CUSTOMERS

The Company believes in servicing consumers within a radius of 500 kms from its manufacturing plants. The greater the distance between the production plant and distribution centre, the higher the freight and possibility of trans-shipment breakage. The Company commissioned plants in regions with inadequate supplies. Each of the Company's plants covered exclusive marketing zones to maximise national coverage.

4 MANAGING CURRENCY FLUCTUATIONS

An in-house committee proactively handled hedging policy as the fibre requirements were met through imports, thereby managing the Company's exposure to forex volatility. The Company enjoyed a natural import hedge as much of its yarn and part of its V-Boards output was exported.

quality to counter a probable increase in input prices.

3 CASH-RICH

While several textile businesses are high on debt, the Company invested accruals towards growing its textiles business.

DIRECTORS' REPORT

(Section 134 of the Companies Act, 2013 is notified effective from 01.04.2014 which deals with the Boards' Report. However, pursuant to issue of General Circular No.8/2014 dated April 4, 2014 by the Ministry of Corporate Affairs, disclosures under this report are made as per provisions of Section 217 and other relevant rules applicable under the Companies Act, 1956.)

To,
The Members,
Visaka Industries Limited

Your Directors are pleased to present the 32nd Annual Report of the Company with Audited Financial Statement. The financial highlights are as follows:

DIVIDEND

Your Directors recommend payment of Dividend of ₹2.50 (i.e. 25 %) Per Share of ₹10/- each for the Financial Year ended on 31st March, 2014. The Company is absorbing Corporate Dividend Tax of ₹67.48 lakhs on the Equity Dividend and the Dividend declared and paid this year is not taxable in the hands of Shareholders.

MANAGEMENT DISCUSSION AND ANALYSIS:

Your Company is in the Business of Manufacture and Sale of Cement asbestos Sheets, V – Boards (Fiber Cement Sheets), Panels and Spinning Yarn.

A. BUILDING PRODUCTS

i. Cement Asbestos Business:

Industry Structure and Developments:

This industry exist in India for the last 80 years.

Cement Asbestos Products continue to be in demand because of the efforts made in making inroads into rural markets for the product, its affordability, and other qualities such as corrosion resistance, weather and fire proof nature.

Currently there are about 20 entities in the Industry with about 68 manufacturing plants throughout the Country. The products are marketed under their respective brand names mainly through dealers for the retail segment and directly for projects and government departments.

Opportunities and Threats:

Cement asbestos Sheets are mainly used as roofing materials in rural and semi-urban housing and by industries and poultry sector.

Cement asbestos Sheets are popular as they are inexpensive; need no maintenance and last long when compared to competing products such as thatched roofs, tiled roofs and

galvanized iron sheets.

According to the information gathered by us, almost 75 - 80% of rural people use thatched roof/tiles for the shelter. Thatched roof need regular replacement and tiled roof needs continued maintenance. Therefore, whenever the economic conditions improve, the first choice of the rural poor to replace the roof over their head is the affordable and relatively durable product Cement asbestos Sheets. Therefore, we see increased potential for usage of Cement asbestos Sheets in rural areas.

Presence of increased alternative products in the recent past has created some impact on the sales volumes of this product.

Risks and Concerns:

Lack of entry barriers: Lack of entry barriers is attracting new entrants into this line of business. Closure of Canadian and Zimbabwe asbestos mines are matter of concern.

Increase in input costs: The continuous increase in cost of inputs is a matter of concern.

Activities of Ban Asbestos Lobby: The activities of the Ban Asbestos Lobby instigated by the manufacturers of substitute products continue to be a matter of concern.

Production and sales Volumes:

As against a production of 743624 tonnes during the previous year, the production during the Financial Year ended 31st March, 2014 was 599011 tonnes. The sales during the Financial Year Ended on 31st March, 2014 was 640184 tonnes as against 683008 tonnes sold during the Financial Year 2012 – 2013 recording a decrease of 6%.

Financial Performance:

The net turnover of Cement asbestos Division during the year was ₹629 crores as compared to ₹684 crores during the previous year, due to overall economic slowdown and availability of alternative products at competitive price.

Outlook:

Due to slow down of economy, market has not improved and alternate products have made some inroad in to the market. However, news that is coming suggest that bottoming out of economic slow-down is taking place. Hence, we may expect improved performance in the near future.

ii. Boards:

Industry Structure and Developments:

The Capacity of the Industries producing same or similar product is 396000 Metric Tonnes per Annum with totally 8 players.

Opportunities and Threats:

The product is environmental friendly, saves time and cost effective as well as a good substitute for wood and helps in reducing deforestation. It has aesthetics appeal and can take paint of choice. It can be used both internally and externally. It is also durable and can stand for over 25 years or more with proper maintenance. Further, it has Triple advantage of Fireproof, Water resistant and termite resistant. It is being widely accepted in residential Segment, especially wet areas. It is also finding good acceptance in Hotels, Hospitals and Colleges due to its fire rating and acoustic properties.

On the negative side, Cellulose pulp has to be imported. Compared to wood/plywood workability is a matter of concern. Further, initial handling is comparatively difficult. While the consumers are preferring this product, the applicators like Carpenters would not find convenient due to difficulty in working on this product compared to Plywood. We are in the process of educating the applicators to ensure acceptance.

Risks and Concerns:

Lack of entry barriers: Import of Cement board materials from Philippines/Thailand / China and Malaysia is a matter of concern.

Production and sales Volumes:

The total production for the year ended 31st March, 2014 was 56249 Metric tonnes as against production for the year ended 31st March, 2013 of 45810 Metric Tonnes, and sales for the year ended on 31st March, 2014 was 48892 Metric Tonnes (including export of 12568 Metric Tonnes) as against 40365 (including export of 11062) Metric Tonnes for the previous year.

Financial Performance:

The net turnover from this division during the year was ₹ 66 crores as compared to ₹53 crores during the previous year. During the later part of the year the Board unit at Daund, Pune has commenced its commercial operations, which is expected to result in increased production and turnover.

Outlook

The industry is growing at an average rate of 13% to 15% annually. Export opportunities in African and GCC countries is encouraging. Australian / Sri Lankan and Maldives markets are also opening up. New applications such as Tile Underlay and Kitchen cabinets are gaining popularity. In areas of Acoustics like Theatres and Hospitals, use of Cement boards is increasing.

iii. Panels

Sandwiched Panels are in demand in the market, for use as Partition Material. The 'Reinforced Building Board Sandwiched

Panels' are made of two fibre-reinforced cement sheets enclosing a lightweight core. These panels are fully cured at factory and are ready for installation. These panels are cheaper compared to masonry partitions / wood partitions and are also easy to fix and takes comparatively less time for installation.

The production during the year was 9176 metric tonnes as against 7514 during the previous year. Sales was 8638 metric tonnes as against 6875 metric tonnes during the previous year.

The net turnover was ₹12.47 crores as against ₹9.90 crores during the previous year.

B. SYNTHETIC YARN BUSINESS:

Industry structure and development

The demand for textiles and clothing in our country is on a steady upward trend resulting from increased disposable income. This growth and our efforts to increase our presence in the niche markets helped our company to command a premium in the market place, thus improving the profits. Weak Indian Rupee helped us gain better margins from the export earnings. In the first half of the year, there had been good amount of cotton yarn export to China. The power shortage situation in Tamil Nadu still continues. These factors also have helped us maintain the sales without undue seasonal fluctuations. The addition of 10% capacity and effective energy management have helped us reigning the costs. We have been certified for ISO 50001 for energy management.

Opportunities and Threats

Our country's growing economy with expected GDP growth of 6 to 7% will create new avenues of demand for textiles and clothing.

The power shortage in the Country is expected to continue and may keep the yarn supply position tight. If the export of cotton yarn to China is revived, it will bring an opportunity to improve yarn prices in general.

The strengthening of Indian Rupee against USDollar may reduce our export margins in the months ahead.

Many spinning mill projects have been initiated in Maharashtra and Gujarat. Once these mills start the production in full swing, there could be an imbalance of supply demand position.

Risks and Concerns

The strengthening of Indian Rupee against US Dollar may reduce our export margins in the months ahead.

Production and Sales Volumes:

The production in the spinning unit during the year 2013-14

was 8614 metric tonnes as compared to 7897 metric tonnes during the previous year. The sales were 8522 metric tonnes of yarn (including export of 1609 metric tonnes) during the year 2013 - 2014 as compared to 8252 metric tonnes (including export of 2094 metric tonnes) in the previous year.

Financial Performance:

The net turnover of this division during the current year was ₹178 crores compared to ₹165 crores during the previous year.

FINANCIAL STATEMENT

INDEPENDENT AUDITORS' REPORT

To
The Members of
Visaka Industries Limited

Report on the Financial Statements

We have audited the accompanying financial statements of Visaka Industries Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2014, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"), read with general circular 8/2014, dated 4th April, 2014 issued by Ministry Corporate Affairs. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give

a true and fair view in conformity with the accounting principles generally accepted in India:

- a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
- b) in the case of the Statement of Profit and Loss, of the profit for the year ended on that date; and
- c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by section 227(3) of the Act, we report that:
 - a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - c) The Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement comply with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 read with general circular 8/2014, dated 4th April, 2014 issued by Ministry Corporate Affairs.
 - e) On the basis of written representations received from the directors as on March 31, 2014, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.

Re: Visaka Industries Limited

Referred to in Paragraph 1 under the heading of "Report on Other Legal and Regulatory Requirements" of our report of even date

- i. a. The company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
- b. As explained to us, the fixed assets have been physically verified by the management in a phased periodical manner, which in our opinion is reasonable, having regard to the size of the company and the nature of its business. No material discrepancies were noticed on such physical verification.
- c. The Company has not disposed off any substantial part of its fixed assets so as to affect its going concern status.
- ii. a. The inventories have been physically verified during the year by the management. In our opinion, the frequency of verification is reasonable.
- b. The procedures of physical verification of inventories followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
- c. The Company has maintained proper records of its inventories. The discrepancies noticed on verification between the physical stocks and the book records were not material.
- iii. a. The Company has not granted any loans to companies, firms or other parties listed in the register maintained under Section 301 of the Companies Act, 1956.
- b. The Company has taken unsecured loans from two parties covered in the register maintained under section 301 of the Companies Act, 1956. The maximum amount involved during the year was ₹140.16 Lakhs and the year-end balance of loans taken is ₹9.16 Lakhs.
- c. In our opinion, the rate of interest and other terms and conditions on which loans have been taken from the parties covered in the register maintained under section 301 of the Companies Act, 1956 are not, prima facie prejudicial to the interest of the Company.

d. The Company is regular in repaying the principal amounts as stipulated and has been regular in the payment of interest.

iv. In our opinion and according to the information and explanations given to us, there is an adequate internal control system commensurate with the size of the Company and the nature of its business, for the purchase of inventory, fixed assets and for the sale of goods. During the course of our audit, no major weakness has been noticed in the internal control system in respect of these areas.

v. a. According to the information and explanations given to us, we are of the opinion that the transactions that need to be entered into the register maintained under section 301 of the Companies Act, 1956 have been so entered.

b. In our opinion and according to the information and explanations given to us, the transactions made in pursuance of contracts or arrangements entered in the register maintained under section 301 of the Companies Act, 1956 and exceeding the value of rupees five lakhs in respect of any party during the year have been made at prices which are reasonable having regard to the prevailing market prices at the relevant time.

vi. In our opinion and according to the information and explanations given to us, the company has complied with the directives issued by the Reserve Bank of India and the provisions of Section 58A, 58AA or any other relevant provisions of the Companies Act, 1956 and the rules framed there under, where applicable have been complied with. We are informed that no order has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any court or any other Tribunal.

vii. In our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

viii. In our opinion and according to the information and explanations given to us, the Company has made and maintained accounts and records prescribed by the Central Government under section 209 (1) (d) of the Companies Act, 1956.

- ix. a. Notes to the Financial Statements

Note 1 Significant Accounting Policies

i) Basis of Accounting:

The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The company has prepared these financial statements to comply in all material respects with the accounting standards notified under the Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Companies Act, 1956 read with General Circular 8/2014 dated 4th April, 2014 issued by the Ministry of Corporate Affairs. The financial statements have been prepared on an accrual basis and under the historical cost convention.

ii) Revenue Recognition:

Revenue is recognized on accrual basis. Revenue from sale of goods is recognised when the significant risks and rewards are transferred to the customers, usually on delivery of the goods. Gross revenue is stated inclusive of excise duty.

iii) Fixed Assets:

Tangible and Intangible

Fixed Assets are stated at cost (Net of Cenvat, wherever applicable) less depreciation. Cost includes freight, duties and taxes and other expenses related to acquisition and installation. Pre-operative expenses incurred during the construction period in case of major acquisitions and installations are capitalized.

Cost of computer software is capitalized as intangible Assets

iv) Depreciation/Amortization:

Depreciation on fixed assets has been provided on the straight line method and at the rates and in the manner specified in Schedule XIV to the Companies Act, 1956.

Computer Software is amortized on straight line basis over a period of three years.

v) Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

Borrowing cost includes interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

vi) Investments:

Investments are classified as long term and current investments. Long Term Investments are carried at cost less provision for other than temporary diminution, if any, in value of such investments. Current investments are carried at lower of cost or fair value.

vii) Inventories:

a) Consumables, Stores and Spares are valued at lower of cost or net realizable value on weighted average basis.

b) Raw Materials are valued at cost on weighted average basis, work-in-process are valued at cost and finished goods are valued at the lower of cost or net realizable value.

viii) Foreign Currency Transactions:

a) Transactions denominated in foreign currencies are recorded at the exchange rate prevailing at the time of the transaction.

b) Monetary items denominated in foreign currencies at the year- end are translated at the year-end rates, the resultant gain or loss will be recognized in the statement of profit and loss account.

Notes to the Financial Statements (contd.)

c) Any gain or loss arising on account of exchange difference on settlement of transaction is recognized in the statement of profit and loss account.

ix) Taxes on Income:

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with Indian Income Tax Act, 1961. Deferred income taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

x) Leases:

Assets acquired under financial leases are recognized at the lower of the fair value of the leased asset at inception and the present value of minimum lease payment. The finance charge is allocated to periods during the lease term at a constant periodic rate of interest on the remaining balance of the liability.

xi) Employee Benefits:

- Retirement benefits in the form of Provident Fund and Superannuation Fund are defined contribution schemes and the contributions are charged to the Profit and Loss Account of the year when the contribution to the respective funds are due. The Company has created an approved Superannuation Fund and accounts for the contribution made to LIC against an insurance policy taken with them. There are no other obligations other than the contribution payable to the funds.
- Gratuity and Leave Encashment liabilities are defined benefit obligations and provided on the basis of independent actuarial valuation on projected unit credit method made at the end of the year. The company has created an approved gratuity fund, which has taken a group gratuity cum insurance policy with Life Insurance Corporation of India (LIC), for future payment of gratuity to the employees. Also the company has created a fund with LIC for leave encashment of employees for future payment.

xii) Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognized when the Company has a legal and constructive obligation as a result of a past event, for which it is probable that a cash outflow will be required and a reliable estimate can be made of the amount of the obligation. Contingent Liabilities are disclosed when the Company has possible obligation or a present obligation and it is probable that a cash outflow will not be required to settle the obligation.

Notes to the Financial Statements (contd.)

Notes:

Business Segments:

The Company's activities are organized into two operating segments namely, Building Products and Textile Synthetic Yarn. The segments are the basis on which the company reports its primary segment information. The Building Products division produces asbestos sheets, accessories used mostly as roofing material and non asbestos flat sheets and sandwich panels used as interiors. Synthetic Yarn division manufactures Yarn out of blends of polyester, viscose, other materials which go into the weaving of fabric. Segment result includes the respective other income.

Financial Information about business segments is presented as above.

Geographical Segments:

The Sales of the above segments are classified as per the geographical segments of the company as Domestic and Exports.

Segment Revenue and Expenses:

The Company has an established basis of allocating Joint/Corporate expenses to the segments, which is reasonable, and followed consistently. All other segment revenue and expenses are attributable to the segments. Certain Expenses/Income are not specifically allocable to specific segments and accordingly these expenses are disclosed as 'unallocated corporate expenses' or income and adjusted only against the total income of the company.

Segment Assets and Liabilities:

Segment assets include all operating assets used by a segment and consist principally of operating cash, debtors, inventories and fixed assets, net of allowances and provisions that are reported as direct offsets in the balance sheet. While most assets can be directly attributed to individual segments, the carrying amount of certain assets used jointly by two or more segments is allocated to the segments on a reasonable basis. In such cases, the entire revenue and expenses of these assets including depreciation are also allocated to the same segments. Assets which are not allocable to the segments have been disclosed as 'unallocated corporate assets'. Segment liabilities include all operating liabilities and consist principally of creditors and accrued liabilities. Segment assets and liabilities do not include deferred income taxes. The loans and other borrowings that are not specifically allocable to the various segments are disclosed as 'unallocated corporate liabilities'.

Inter Segment Transfers:

The Company adopts a policy of pricing inter-segment transfers at cost to the transferor segment. However, during the year there are no such transactions.

ANNEXURE TO THE NOTICE

STATEMENT AS REQUIRED UNDER SECTION 102 (1) OF THE COMPANIES ACT, 2013.

Item Nos. 5 to 8

Pursuant to Section 149 and other applicable provisions of the Companies Act, 2013, every listed public company needs to have at least one-third of the total number of directors as independent directors, who shall hold the office for term upto 5 consecutive years. The said section further provides that any tenure of Independent Director on the date of commencement of the Companies Act, 2013 i.e. 01.04.2014 shall not be counted as term for aforesaid period of 5 years and also lays down additional criteria for becoming Independent Director of the Company.

Shri. Bhagirat B Merchant, Shri. Gusti J Noria, Shri. P Abraham and Shri. V. Pattabhi are earlier appointed as Director liable to retire by rotation under erstwhile Companies Act, 1956 and holds office as Independent Director of the Company under clause 49 of the listing agreement with stock exchanges (clause 49). They have held the positions as such for more than 5 (five) years.

The Company has also received declarations from Shri. Bhagirat B Merchant, Shri. Gusti J Noria, Shri. P Abraham and Shri. V. Pattabhi stating that they meet with the criteria of independence as prescribed both under sub-section (6) of Section 149 of the Act and under Clause 49.

The Board of Directors of your Company, after reviewing the declarations submitted by the above Independent Directors, is of the opinion that the said Directors meet the criteria of Independence as per Section 149(6) of the Companies Act, 2013 and the rules made thereunder and also meet with the requirements of Clause 49 of listing agreements for being Independent Directors on the Board of the Company and are also independent of the management.

The Company has received notices in writing from members along with the deposit of requisite amount under Section 160 of the Act proposing the candidatures of each Shri. Bhagirat B Merchant, Shri. Gusti J Noria, Shri. P Abraham and Shri. V. Pattabhi for the office of Directors of the Company.

In view of the same, it is proposed to appoint Shri. Bhagirat B Merchant, Shri. Gusti J Noria, Shri. P Abraham and Shri. V. Pattabhi as Independent Directors under Section 149 of the Act and Clause 49 of the Listing Agreement to hold office
