FORWARD-LOOKING STATEMENT

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make, contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipates', 'estimates', 'expects', 'projects', 'intends', 'plans', 'believes' and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Notice

For a couple of years, consumer sentiment was weak and demand for building products muted.

Visaka Industries kept faith. The Company augmented its production capacity, strengthened its portfolio and enhanced its operating efficiency.

The result is that as soon as consumer sentiment revived in 2014-15, Visaka reported a significant 14.7% revenue growth and 77% net profit surge in, making the fiscal year one of its best ever.

Visaka Industries Limited.
Established a robust presence in India's building products and textile yarn segments.
Strengthened sustainability with timely investments in plants and processes.
Harnesses the economic turnaround with attractive revenues, margins and profits.
The story of resurgence at Visaka Industries has just begun...

About us

Visaka Industries, established in 1985, is engaged in two attractive businesses.

- Building products - cement asbestos products and fibre cement flat products (V-Boards and V-Panels)
- Synthetic yarns for the textile segment

The shares of the Company are listed and actively traded on the Bombay and National Stock Exchanges. As of March 31, 2015, Visaka had a market capitalisation of ₹146 crore. The promoters held 37.54% of the Company's equity share capital.

Presence

Headquartered in Hyderabad, Visaka Industries has 11 manufacturing facilities across India. These plants possess an aggregate production capacity (annual) of about 8,02,000 tonnes of corrugated cement asbestos sheets and 1,29,750 tonnes of fibre cement flat board products. The Company also comprises a spinning plant capable of producing 9,000 tonnes of yarn per annum.

The Company's manufacturing units are supported by nine pan-India marketing offices.

Revenues

This segment reported 18% revenue growth to ₹834 crore and contributed 82% to the Company's overall topline.

Production

- Production grew by 28% for the cement asbestos segment with a capacity utilisation of 96% (80% in 2013-14).
- Production of V-Board grew by 42%.

Sales

- Sales grew by 12.5% for the cement asbestos segment.
- Sales volumes for V-boards grew by 57%.
- Exports of V-boards grew by 109%.

Robust Visaka

Widening the moat

Customer-centricity

Diversity

Visaka is present along multiple product and service lines (building products and synthetic blended yarns), de-risking itself from adverse developments in any niche. The proportion of revenues from its asbestos cement business declined to

71% in 2014-15.

Presence

Visaka's extensive presence makes it possible to service diverse customer requirements – rural, urban and international – cutting across geographic and socio-economic divides.

Quality

Visaka manufactures products benchmarked with demanding international standards and certifications (granted by internationally-respected quality standards authorities).

Operational focus

Foresight

Visaka made prudent and proactive investments in augmenting production capacity to address emerging opportunities. The result of this proactive responsiveness is that the Company possesses one of the most competitive cement asbestos capacities in India (expressed in one of the lowest capital costs per tonne within its sector).

The business strategy

Product strategy

- Visaka invested in two diverse sectors - building products and textiles – to build expansive portfolios for each.
- Visaka's building products division manufactures fibre cement boards (non-asbestos), which find extensive usage in urban and semi-urban interiors, while cement asbestos products largely address rural markets, allowing adequate geographic de-risking.
- Visaka's textile business occupies a niche category within what is often dismissed as a heavily commoditised business. Visaka manufactures polyester spun yarns with counts ranging from 30s to 76s used in the value-added segment of home textiles. These customised yarn varieties are relatively insulated from price-based competition. Over 50% of the textile portfolio comprised value-added products in 2014-15.
- Visaka prudently selected its areas of presence, ensuring that a sectoral downturn in one sector was offset by growth in the other.

Scale strategy

- Visaka is India's second largest cement asbestos manufacturer. On the textile front, Visaka possesses the single largest twin airjet equipment installation in India and one of the most productive the world over.
- Over the past decade, Visaka enhanced its yarn capacity by 12% leading to an average daily yarn production of 25 tonnes, translating into economies-of-scale, high productivity and one of the highest sectoral margins.
- Visaka enhanced its building products capacity by 150% over the decade and also added a new product segment of fibre cement sheets in 2008 to address the growing demand for flat products.
- Visaka's entrenched engineering capabilities allow it to reduce cost, increase customisation and shrink delivery tenures.
- Visaka's fibre cement sheet (V-Board) capacity is the second largest in India.

Growth strategy

- As a forward-looking organisation, Visaka has consistently invested in assets and related efficiencies during periods of downturn. The Company perceives opportunities amidst challenges and proactively invests in reinforcing its business. The Company has invested in markets with incipient demand and aims to capitalise on attractive equipment prices.
- Over the decade leading to 2014-15, the Company invested ₹397 crore in brownfield/greenfield capex, the capital cost per tonne of which was around 20% lower than the corresponding greenfield expansion cost for a cement asbestos unit.
- The Company installed three pre-owned textile machines without compromising operating efficiencies.

Locational strategy

- Visaka's cement asbestos product manufacturing locations are nationally dispersed to address regional needs – four in Southern India, one in Northern India, two in Eastern India and one in Western India.
- The wide geographic spread moderates logistics costs owing to market proximity, ensuring that zonal requirements are met through proximate facilities.
- The Company's Paramathi, Midnapore and Pune units are proximate to ports, making it convenient to procure raw materials.

Marketing strategy

- The Company's building products are marketed directly to retailers as opposed to the conventional company-distributor-retailer model, resulting in a better marketplace understanding.
- The Company enjoys enduring relationships with an extensive network of agents and retailers.
- The Company enjoys a marketing presence in more than 30 countries; exports accounted for 7.8% of 2014-15 revenues.

Financial strategy

- A conservative debt policy and aggressive accrual investment strategy strengthened the Company's financials to reach a debt-equity of 1.0 in 2014-15 with an interest cover of 2.51.
- Visaka leverages its ability to directly procure inputs (raw materials) to negotiate effectively with vendors and confirm qualitative consistency.

Review by the management

“Due to patient investments made in people, plants and processes, we are optimistic of outperforming the sector by clocking ~10-20% revenue growth during FY2015-16.”

Dear shareholders,

The 2014-15 fiscal was a year of turnarounds.

The Indian economy rebounded from a period of unsure prospects on the back of a tighter grip on the fiscal deficit, a slew of policy and procedural reforms, a gradual softening of crude prices and inflation control. Subsequently, India grew by 7.4% in 2014-15 (6.9% in 2013-14). The growth in the third quarter surpassed China's for the same period, making it the fastest growing major economy in the world.

The story at Visaka mirrored – and capitalised on – this transition.

The Company surpassed the ₹1,000-crore revenue mark for the first ever time in 2014-15, aided by a 12.5% growth in cement asbestos sheet volumes and a 14.7% improvement in overall net sales. This resulted in a 77% net profit growth, a 261 bps growth in EBIDTA margins and an 85% surge in cash profits to reach ₹76.3 crore.

Strengthening growth

Following political stability and demand visibility, a renewed optimism is coursing through the Indian economy. Visaka responded to this transformation through a number of initiatives.

One, we expanded our capacity in a cost-effective manner.

We increased the cement asbestos capacity at our Rae Bareli plant by 20% to cater to the growing asbestos

77%

Growth in our net profits from ₹11.97 crore in 2013-14 to ₹21.24 crore in 2014-15.

demand coming out of Northern and Eastern India.

We added two MTS machines to our spinning units, increasing our capacity by 6%. This expansion was achieved at a marginal capital investment through the prudent procurement of pre-owned machines.

Two, we ensured that our Miryalguda manufacturing unit became self-sufficient in terms of power.

We commissioned a 2.5-megawatt solar power plant, which addressed over 70% of our captive requirement, helping this unit counter power outages and curtail power costs

Three, we improved productivity and optimised costs wherever possible.

We de-bottlenecked production lines at our asbestos units, reporting an average capacity utilisation of 96% during the year against 80% in 2013-14.

Four, we reinforced our advertising campaigns to showcase the product advantages of our cement asbestos range.

In our last promotional, we highlighted threats from colour-coated roofing sheets, especially the

cheaper versions that are prone to discolouration and rust. Our product durability helped restore the faith of the customers in us.

Five, we turned some of our biggest disadvantages into advantages.

We selected to emphasise exports to make the most of currency movements and de-risk our sales mix. The Indian rupee weakened from ₹60 to a dollar at the onset of the year to ₹62.60 at the end of the 2014-15, vindicating our strategic direction.

Six, we moderated costs by maximising the use of accruals in funding capacity expansion.

Outlook

We intend to increase our Midnapore cement asbestos plant capacity by 20% to cater to the growing demand from Eastern India. We also expect to augment our spinning unit capacity by 6%.

We believe in pursuing incremental expansion rather than creating entire new units as the former calls for significantly lower capital costs and quicker time-to-market.

With fibre prices forecast to remain

stable for 2015-16, enhanced capacity utilisation will allow us to break even quicker. The loss-making board segment is expected to turn profitable and the spinning segment's supplementary capacity will enhance profitability. With adequate capacity in place to cater to the expected rise in demand, utilisation levels are expected to improve, leading to higher volumes and turnover.

Besides, cement and fly ash prices are expected to remain flat while freight costs are expected to remain steady as diesel prices have declined. The increase in energy costs due to the power crisis in Telengana has been largely counterbalanced by our newly-commissioned solar power plant.

Overall, we are optimistic of registering 10-20% revenue growth in 2015-16, which, when coupled with tighter cost control, will enhance profitability and add value for our shareholders.

Sincerely,

Smt. G. Saroja Vivekanand

The Company's building products division comprises cement asbestos, predominantly used in rural India and fibre cement boards (non-asbestos) used in urban and suburban centres, addressing a large customer base.

The Company possesses a strong distribution network comprising more than 6,000 retailers (rural and

suburban markets). It derived 85% of its sales from these markets; the rest derived from institutional sales to governmental agencies, construction industry and poultry farms. The Company leveraged its superior marketplace knowledge by distributing directly to retailers as opposed to the conventional distributor-retailer model.

Overview

The Company was the seventh largest cement asbestos product manufacturer in India in 1996; it is the second largest today.

The Company's Visaka and Shakti brands enjoyed favourable recall across India's organised cement asbestos market. The Company's cement asbestos product manufacturing facilities are dispersed nationally - four in Southern, one in Northern, two in Eastern and one in Western India - thereby ensuring that captive and emergent needs are adequately addressed, pan-India.

The Company has reached a capacity of 8,02,000 tonnes per annum.

The Company's asbestos products offer superior load-bearing capacity, transcending recommended standards. The division engages in periodic dialogues with governmental agencies, architects, engineers and farmers to access feedback that translates into product customisation.

The Company's rich engineering competence is reflected through its ability of having designed and fabricated best-in-class cement asbestos machinery using verified pre-owned equipment at six of its

eight plants, helping keep capital costs considerably lower than industry standards.

Performance, 2014-15

- Increased revenues by 14% to ₹71,733 lac against ₹62,901 lac in 2013-14
- Improved capacity utilisation by 16%, (80% in the previous year) to respond to the growing demand
- Expanded capacity by 20% at its Rae Bareli unit
- Highlighted superior product attributes to customers through a well-calibrated outdoor advertising

campaign, influencing decision-makers and marketing the product on the 'perfect shelter' concept

Opportunities

In India, cement asbestos product offtake is largely influenced by rural incomes and hence Visaka has priced its products competitively vis-à-vis alternatives. Cement asbestos products represent a convenient intermediate roofing product in rural and suburban India.

Around 70% of India's population (50% in rural India) lives in *kutch*a and semi-*pucca* homes. Thatched roofs need regular replacement; tiled roofs need ongoing maintenance. Whenever economic conditions improve, the first choice of the rural poor is to replace thatched or tiled roofs with affordable

asbestos cement alternatives.

The proposed National Gramin Awas Mission, under the aegis of the Rural Development Ministry, could become the blueprint for constructing houses in rural areas. The Central Government aims to build six crore houses - two crore in urban areas and the remainder in rural areas. The Union Budget 2015-16 has allocated ₹14,000 crore towards the programme to realise the dream of housing for all (Source: *Economic Times*).

Road ahead

With a revival in demand for cement asbestos becoming evident, the Company is concurrently planning to increase its Midnapore plant capacity by 20%.

.....

Advantages of cement asbestos sheets

The natural fire-resistant property of asbestos makes it ideal for roofing, and thermal insulation. Since a house needs to be fire-resistant, many prefer using asbestos. Moreover, when asbestos is mixed with cement, it enhances the product lifespan. Compared with other cement additives, asbestos is cheaper with the same durability. When employed as a roofing material, it usually lasts for about 60 years, longer than plastic, wood, tile or other alternatives.

The Company's building products division also manufactures flat products like V-Boards and V-Panels.

The Company possesses an installed capacity of 120,000 metric tonnes for V-Boards (fibre cement flat sheets) and 9,750 metric tonnes of V-Panels. It possesses the second largest fibre cement sheet capacity in the country. The V-Board division runs on the state-of-the-art HPSC technology, which complies with rigorous ISO 14862-2000 norms.

Over the last few years, the use of flat products (V-Boards and V-Panels) revived on account of a superior

price-value proposition. The product advantages were endorsed by architects and users. These products not only save time and money, but are safer and aesthetically better. The fibre cement board phenomenon is expected to radically change the way interiors and exteriors are perceived in India.

A shift in application from plywood, particle board and MDF boards to cement fibre sheets could catalyse demand, leading to onward use in false roofing, wall paneling, partitioning and in mezzanine flooring, among others.

61%

Growth in revenues from ₹6,620 lac in 2013-14 to ₹10,622 lac

67%

Capacity utilisation in 2014-15 against 47% in the previous year

V-Boards

The Company commissioned its V-Board business in May 2008, conveniently distant from its cement asbestos units. The Company's V-Boards offer unmatched quality, style and durability, making it the ideal choice for internal and external applications like false ceiling, internal walls, mezzanine flooring, partitions and doors among others.

The offtake of cement boards grew, following enhanced product awareness, shift from timber products (due to advantages of fire, water and termite-resistance over plywood and particle boards), higher affordability, low maintenance costs, low installation costs, greater functionality, easy transportability (obviating the need for mixing on-site) and greater safety in seismic zones. These products are reinforced with top-of-the-line HPSC technology conforming to ISO 14862-2000 norms.

Performance, 2014-15

- Revenues grew by 61% from ₹6,620

lac in 2013-14 to ₹10,622 lac

- The segment was yet to break even (expected to transpire in the current year)
- Capacity utilisation was 67% against 47% in the previous year

Road ahead

The growth in the building products segment is supported by the improved performance of the V-Boards division. The Company expects the V-Boards unit to post a robust performance on account of growing product acceptance and increasing exports.

V-Panels

This non-asbestos product is ideal for interiors (created using cement, fly ash and polystyrene beads), gaining preference over the years. This low-maintenance and space-efficient product is positioned as a dry wall substitute, especially in earthquake-prone areas.

V-Panels are preferred on account of their superior size-weight ratio (lighter than bricks) and also sufficiently

match wall strength with axial loads. The product is labour-efficient, can be erected by a few individuals and reused across locations.

Visaka possesses an installed capacity of 9,750 tonnes per annum. The Company's customers for V-Panels comprise GMR Group, Punj Loyd, Shapoorji Pallonji, Soma Enterprises, TCS, Gujarat Ambuja port, Eenadu Group, Uranium Corporation of India and Larsen & Toubro India, among others.

Performance, 2014-15

- Production stood at 8,325 metric tonnes in 2014-15 against 9,176 metric tonnes in 2013-14
- Sales stood at 8,289 metric tonnes in 2014-15 against 9,108 metric tonnes in 2013-14

Overview

Visaka diversified into the manufacture of synthetic yarn in 1992. Its textile division manufactures yarns using state-of-the-art twin air jet spinning machines (Murata, Japan), 31 MTS machines (equivalent to 55,000 ring spindles). The quality manufactured is superior to conventional ring frame yarn.

The Company enjoys attractive scale; it possesses the single-largest twin airjet equipment installation in India and one of the biggest such installations in the world. The Company produced dyed yarns at a speed higher than the equipment manufacturer's recommendation.

The Company selected to specialise in the niche segment of a commodity business (polyester spun yarns as well as products from 30s to 76s counts – double yarn). The Company ventured into the manufacture of value-added customised yarn varieties that are relatively insulated from price-based competition. The efficacy of this strategy was vindicated through enduring customer relationships.

The Company's domestic textile clients comprise industry heavyweights like Grasim Industries, Siyaram Silk, S. Kumar Nationwide, Shreekar Polyester, Puneet Syntex, Anand Silk Mills, G.M. Knitting Industries, D.C. Textiles, Kalpesh

Synthetics and Raj Rajendra Industries, among others.

Over 23% of the division's production was exported to value-added fabric makers (used in sun umbrellas, venetian blinds, table linen and automotive fabrics).

Technology superiority

Visaka invested in the world's largest double yarn manufacturing plant based on twin air jet spinning. The unit developed mélange yarns, grindle yarns, high twist yarns and specialty yarns with different blend styles.

The unit is the largest global facility using Murata equipment, reporting one of the highest global efficiencies. Seamless procedural control translated into Visaka being given an ISO certification as early as in 1995 and 'Star Export House' status in 2008. Yarns are environment-friendly and

certified as per demanding OEKO-TEX standards. The Company's stringent adherence to quality processes resulted in its ISO certification.

The Company's air-jet yarns are marked by low pilling, no singeing and excellent dye pick-up, low picks per inch, low weaving cost, low value loss/fresher piece length, perspiration absorption, low shrinkage and smooth appearance value.

Performance, 2014-15

- Revenues grew marginally from ₹17,813 lac in 2013-14 to ₹17,964 lac while EBIDTA stood at ₹2,450 lac (₹2,833 lac in 2013-14)
- Average realisations stood at ₹200 per kilogram in 2014-15.
- EBIDTA margin stood at 13.64%; profit was maintained at ₹1,790 lac against ₹2,312 lac in 2013-14

Road ahead

India is one of the world's largest producers of man-made fibres with large plants possessing state-of-the-art technology. Man-made fibre textiles account for almost two-thirds of the domestic textile market. Factors like rising disposable incomes, growing consumerism, escalating urbanisation, increasing retail penetration and fluctuating prices and cotton supply are set to increase the share of man-made fibres in the market.

The global textile and apparel industry is undergoing sweeping changes resulting in a growing usage of textiles in diverse areas. The Indian textile and apparel industry was estimated at USD 108 billion in 2013 and has grown at a 13% CAGR between 2008 and 2013. It is projected to grow at 12% CAGR and attain a size of USD 440 billion by 2025.

The per capita man-made fibre consumption in India was 1.7 kilogram per annum in FY2012-13 against the global average of 10 kilograms per annum. Low per capita man-made fibre consumption in India reflects high growth potential for the domestic man-made fibre industry. The per capita man-made fibre consumption is expected to reach a level of 2.1 kilograms per annum by the end of 2015-16. It is also estimated that the domestic consumption of man-made fibre could grow at a CAGR of 5.2% during the period FY12-16 (Source: CARE Ratings).

Optimistic of the prospects of the synthetic yarn segment, the Company intends to add two machines, which will spike its capacity by 6%.

Risk management

Addressing business risks

The Company identified and assessed the risks associated with its business and correspondingly ensured optimal application of resources to remove hurdles and maximise realisations.

Could a sectoral downturn adversely affect the Company's growth?

The Company has a presence across varied sectors – building products and synthetic yarns. Moreover, the building segment caters to rural as well as urban and suburban customers.

Could the general perception that cement products are harmful affect sales?

In India, the quantum of asbestos fibre used in sheets is only 8%, which is not harmful. Besides, the Company uses white fibre in place of the banned carcinogenic blue fibre. The free floating asbestos used by the Company is well below the 0.1 fibres/millilitre of air mark fixed by the Ministry of Environment. The Company's regular audits ensure a safe workplace for employees. The Company invested significantly in creating product awareness.

Could the unavailability of raw materials affect business sustainability?

Erratic supply can affect production. The Company only enters into annual contracts leading to supply predictability. The Company addresses its fibre requirements for the asbestos segment through imports from three countries (Russia, Brazil and Canada), thereby reducing risks of overt dependence on any one country. Other raw materials like cement and fly ash are procured locally.

Could being far away from customers hamper profitability?

The Company believes in servicing consumers within a 500-kilometre radius of its manufacturing plants. The greater the distance between the production plant and distribution centre, the higher the freight and possibility of trans-shipment breakage. The Company commissioned plants in regions with incipient demand. Each of the Company's plants covered exclusive marketing zones to maximise national coverage.

Could fluctuations in the currency affect profitability?

The Company has deployed a dedicated team to manage currency fluctuations. The team proactively handles hedging related issues as the Company's fibre requirements need to be met through imports, shielding Visaka from forex volatilities. The Company also enjoys a natural import hedge as much of its yarn and part of its V-Boards output are exported.

Could increases in financing costs affect prospects?

While several textile and building product businesses are saddled with high debt, the Company embraced a contrarian approach by investing accruals in growing the businesses. The Company also funded the textile and cement asbestos expansions through internal accruals during 2014-15. The Company's funding exposure was largely limited to working capital loans.

MANAGEMENT DISCUSSION AND ANALYSIS:

Your Company is in the Business of Manufacture and Sale of Cement asbestos Sheets, Fiber Cement Sheets (V-Boards), Panels and Spinning (Spun Yarn). Segment-wise Management Discussion and Analysis is provided hereunder:

A. BUILDING PRODUCTS BUSINESS:

i. Cement Asbestos Business:

Industry Structure and Developments:

This industry exists for the last 80 years in India.

Cement Asbestos Products continue to be in demand because of the efforts made in making inroads into rural

markets for the product, its affordability, and other qualities such as corrosion resistance, weather and fire proof nature.

Currently there are about 20 entities in the Industry with about 72 manufacturing plants with an annual capacity of 57.00 Lac MT throughout the Country. The products are marketed under their respective brand names mainly through dealers for the retail segment and directly for projects and government departments.

Opportunities and Threats:

Cement asbestos Sheets are mainly used as roofing materials in rural and semi-urban housing and by industries and poultry sector.

Cement asbestos Sheets are popular as they are inexpensive; need no maintenance and last long when compared to competing products such as thatched roofs, tiled roofs and galvanized iron sheets.

According to the information available, almost 80 - 85% of rural people use thatched roof/tiles for the shelter. Thatched roof need regular replacement and tiled roof needs continued maintenance. Therefore whenever the economic conditions improve the first choice of the rural poor to replace the roof over their head is the affordable and relatively durable product Cement asbestos Sheets. Therefore, potential for usage of Cement asbestos Sheets in rural areas is expected to increase.

Presence of increased alternative products in the recent past has created some impact on the sales volumes of this product.

Risks and Concerns:

Lack of entry barriers: Lack of entry barriers is attracting new entrants into this line of business. Closure of Canadian

and Zimbabwe asbestos mines are matter of concern.

Increase in input costs: The continuous increase in cost of inputs is a matter of concern.

Activities of Ban Asbestos Lobby: The activities of the Ban Asbestos Lobby instigated by the manufacturers of substitute products continue to be a matter of concern.

Production and sales Volumes:

As against a production of 599011 tonnes during the previous year the production during the Financial Year ended 31st March 2015 was 766946 tonnes. The sales during the Financial Year Ended on 31st March 2015 was 720441 tonnes as against 640184 tonnes sold during the previous Financial, recording an increase of 12.5%.

Financial Performance:

The net turnover of Cement asbestos Division during the year was ₹717 crores as compared to ₹629 Crores during the previous year. The division performed well, as compared to last year, because of improved market conditions.

Outlook:

With the improved market conditions as well as initiatives made by the government of India in various infrastructure projects, such as Swatch Bharath programme, road networks and housing facilities coupled with the aggressive advertisement campaign being done by the Company and the inherent advantages associated with the product such as cheaper cost etc., it is expected that the Industry will witness a growth rate of 10% to 12% in the next fiscal.

ii. Boards:

Industry Structure and Developments:

The Capacity of the Industries producing same or similar product is 396000 Metric Tonnes Per Annum with totally 8 players.

Opportunities and Threats:

Fibre Cement Boards (FCB) are environment friendly, saves time and cost effective as well as a good substitute for wood and helps in reducing deforestation. It has aesthetics appeal and can take paint of choice. It can be used both internally and externally. It is also durable and can stand for over 25 years or more with proper maintenance. Further, it has Triple advantage of Fireproof, Water resistant and termite resistant.

It is being widely accepted in residential Segment, especially

wet areas. It is also finding good acceptance in Hotels, Hospitals and Colleges due to its fire rating and acoustic properties.

These products are well accepted in Office and Commercial Segments. Of late, Hotel Industry has started accepting Drywalls as Guest Room Dividers. Wet Area application with the product is an accepted norm and its ability to take the finish of Marble, Tiles is an added advantage. As far as the Residential Segment is concerned, the entry level is with False Ceiling Tiles in bathroom External Cladding with V Premium Planks and Duct Covering to service pipes is well appreciated & accepted by Leading Builders in India;

Ability of the product to withstand Termite, Water and Fire Resistance are the main advantages. V Premium stands the test of time, when exposed to different weather conditions; High levels of Fire Resistance (up to 3 hrs fire rating) and Noise Reduction Levels (up to 55 dB) enables easy entry in to Hotel Segment. With more Indian Companies planning to expand existing capacities and new manufacturing plants in pipe line, the market will grow; increased awareness to FCB will help acceptance to mature to next levels

On the negative side, Cellulose pulp has to be imported. Compared to wood/plywood workability is a matter of concern. Further, Initial handling is comparatively difficult. While the consumers are preferring this product, the applicators like Carpenters would not find it convenient due to difficulty in working on this product compared to Plywood. We are in the process of educating the applicators to ensure acceptance.

Risks and Concerns:

Lack of entry barriers. Import of Cement board materials from Philippines/Thailand / China and Malaysia is a matter of concern.

Production and sales Volumes:

The total production for the period ended March 31, 2015 was 80022 Metric tonnes as against production for the year ended March 31, 2014 of 56249 Metric Tonnes, and sales for the year ended on 31st March, 2015 was 76874 Metric Tonnes (including export of 26237 Metric Tonnes) as against 48892 Metric Tonnes (including export of 12568 Metric Tonnes) for the previous year.

Financial Performance:

The net turnover from this division during the year was ₹106

crores as compared to ₹66 crores during the previous year. During the year the production is increased as the Board unit at Daund, Pune has become operational for full year. Continuous efforts are being made to bring awareness in the market about the product and also lot of architects are also being met for promoting the product. Efforts are on for improvement of price realization as well as focusing more on applications with higher realizations to reduce the loss.

Outlook:

The industry is growing at an average rate of 13 to 15%. Export opportunities in Africa / Maldives / Sri Lanka and GCC countries is encouraging. We are also supplying our boards to Panel manufacturers in Saudi and Iran. We have enquiries from Philippines also. New applications for Acoustics and Tile underlay is gaining popularity. As Plywood is turning out to be costlier, many manufacturers are turning towards Cement boards.

iii. Panels:

Sandwich Panels are in demand in the market, for use as Partition Material. The 'Reinforced Building Board Sandwiched Panels' are made of two fibre-reinforced cement sheets enclosing a lightweight core. These panels are fully cured at factory and are ready for installation. These panels are cheaper compared to masonry partitions / wood partitions and are also easy to fix and takes comparatively less time for installation.

The production during the year was 8325 Metric Tonnes as against 9176 MT during the previous year. Sales was 8289 Metric Tonnes as against 8638 Metric Tonnes during the previous year.

The net Sales Turnover was ₹12.80 crores as against ₹12.47 crores during the previous year.

B. SYNTHETIC YARN BUSINESS:

Industry Structure and Development:

Volume of global textile and clothing trade grew by 4.7% in the year 2014 compared to 2.3% in the year 2013. In India, many states announced capital subsidy and interest subsidy for new textile investments. However, the pace of investment was not higher than the previous years due to reduced cotton yarn exports to China, continuing power shortage in the country and downward trend of oil price

from September 2014 till March 2015.

We managed our inventory levels well during the downward spiralling of polyester prices and maintained our profitability levels without undue devaluation of stocks.

With the positive sentiment about consistent growth projections for India, we expect to do well in the coming year.

Opportunities and Threats:

With premium brands pushing their sales through online e-commerce, we expect that there will be good growth potential in the apparel sector. With the growth of automobile industry and construction industry, demand for automotive fabrics and home textiles also will grow. Though the power situation is set to improve, the need for uninterrupted power and the solar power have created an unsatiable demand for batteries in the country, which also needs textiles. The awareness of fashion amongst the youngsters is pushing up the per capita consumption of textiles in India, which is an opportunity. The proposed increase in the interest rate for USDollars by September 2015 may weaken the Indian Rupee and will enhance the export potential for yarns.

Many Indian states are continuing to offer incentives for new investments in spinning sector, which may create an imbalance in the supply demand position for yarns. Oil exporting countries are going through negative growth which may affect the volume of export of yarns.

Risks and concerns:

With the shale oil growth coming down, the volatile oil prices directly influence pressure on polyester fibre prices almost on daily basis. This cannot be passed on to customers on day-to-day-basis. Hence, new element of risk has been introduced in this business, which was not there earlier.

Further production of Murata Twin jet machines has been stopped by Murata, Japan. Any further new investments in Air jet yarns can be for single yarns only.

The improved availability of coal has enabled assured power for the spinning industry, which reduces the cost of production for spinners especially in Tamilnadu. This will exert pressure on our profitability.

Production and Sales Volumes:

The production in the spinning unit during the year 2014 - 2015 was 8900 metric tonnes as compared to 8614 metric tonnes during the previous year. The sales were 8958 metric tonnes of yarn (including export of 2095 metric tonnes) during the year under review as compared to 8522 metric tonnes (including export of 1609 metric tonnes) in the previous year.

Financial Performance:

The net turnover of this division during the Current Year was ₹180 crores compared to ₹178 crores during the previous year.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

Your Company has in place adequate systems of internal control commensurate with its size and the nature of its operations. These have been designed to provide reasonable assurance with regard to recording and providing reliable Financial and Operational information, complying with applicable statutes, safeguarding assets from unauthorized use or losses, executing transactions with proper authorization and ensuring compliance of internal policies. The Company has a well defined delegation of power with authority limits for approving revenue as well as capital expenditure. Processes for formulating and reviewing annual and long term business plans have been laid down to ensure adequacy of the control system, adherence to the management instructions and legal compliances. The Company uses ERP (Enterprise Resource Planning) system to record data for accounting and connects to different locations for efficient exchange of information. This process ensures that all transaction controls are continually reviewed and risks of inaccurate Financial Reporting, if any, are dealt with immediately.

The Company has in place adequate internal financial controls with reference to financial statements. During the year, such controls were tested and no reportable material weakness in the design or operation were observed.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT:

The Company believes that Human Resource is its most valuable resource which has to be nurtured well and equipped to meet the challenges posed by the dynamics

of Business Developments. The Company has a policy of continuous training of its employees both in-house as well as through reputed Institutes. The staff is highly motivated due to good work culture, training, remuneration packages and the values, which the company maintains.

The total number of people employed in the company as on 31.03.2015 is 4350. Your Directors would like to record their appreciation of the efficient and loyal service rendered by the Company's employees.

FIXED DEPOSITS:

During the year under review, your Company has accepted deposits of ₹5.17 Crores from the public and shareholders. The amount of deposits outstanding as on March 31, 2015 was ₹7.24 Crores out of which ₹5.10 Crores was accepted under the provisions of Chapter V of the Companies Act, 2013 (new Act) and the balance of ₹2.14 Crores was accepted as per the provisions of the Companies Act, 1956 (old Act).

In this regard, it is further stated that

- a) there were no deposits lying unpaid or unclaimed at the end of the year i.e. 31.03.2015;
- b) There has been no default in repayment of deposits or payment of interest thereon during the year;
- c) There are no deposits lying with the Company which are not in compliance with the requirements of Chapter V of the new Act other-than the deposits accepted under the provisions of old Act as aforesaid and
- d) As provided under the new Act, the outstanding deposits accepted under the provisions of previous Act are being repaid as per the terms of each deposit.

UNCLAIMED DIVIDEND:

As per the provisions of Section 205C of the Companies Act, 1956, Unclaimed Dividend amount of ₹6,89,811/- in respect of the year 2006 - 2007 has been transferred to Investor Education and Protection Fund on 05.08.2014 upon expiry of the mandatory 7 years period.

BANKS AND FINANCIAL INSTITUTIONS:

The Company has been prompt in making the payment of interest and repayment of loans to the Financial Institutions and interest on working capital to the banks. Banks and Financial Institutions continue to give their unstinted

support. The Board records its appreciation for the same.

CORPORATE SOCIAL RESPONSIBILITY:

Your Company, as a responsible Corporate Citizen has established in the year 2000 a Charitable Trust in the name and style of Visaka Charitable Trust as a non-profit entity, to support initiatives that benefit the society at large. The Trust has already undertaken various activities like provision of Drinking Water by digging bore wells, construction of irrigation tanks in remote villages, building of Class Rooms in Schools and Colleges, reimbursement of salaries of teachers and supply of class room furniture and conducting of health camps.

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

To
The Members of
Visaka Industries Limited

Report on the Financial Statements

We have audited the accompanying financial statements of Visaka Industries Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2015, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143 (10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2015, and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2015 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (e) On the basis of the written representations received from the directors as on 31st March, 2015 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2015 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

Notes to the Financial Statements

Note 1 Significant Accounting Policies

i) Basis of Preparation of financial statements:

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India ("Indian GAAP") to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules 2014, and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention on accrual basis.

ii) Revenue Recognition:

Revenue is recognized on accrual basis. Revenue from sale of goods is recognised when the significant risks and rewards are transferred to the customers, usually on delivery of the goods. Gross revenue is stated inclusive of excise duty.

iii) Fixed Assets:

Tangible and Intangible

(a) Fixed Assets are stated at cost (Net of Cenvat, wherever applicable) less depreciation. Cost includes freight, duties and taxes and other expenses related to acquisition and installation. Pre-operative expenses incurred during the construction period in case of major acquisitions and installations are capitalized.

(b) Cost of computer software is capitalized as intangible Assets.

iv) Depreciation/Amortization:

During the year, depreciation is provided on the straight line method and at the useful life and in the manner specified in Schedule II of the Companies Act, 2013. Computer Software is amortized over a period of three years.

v) Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

Borrowing cost includes interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

vi) Investments:

Investments are classified as long term and current investments. Long Term Investments are carried at cost less provision for other than temporary diminution, if any, in value of such investments. Current investments are carried at lower of cost or fair value.

vii) Inventories:

a) Consumables, Stores and Spares are valued at lower of cost or net realizable value on weighted average basis.

b) Raw Materials are valued at cost on weighted average basis, work-in-process are valued at cost and finished goods are valued at the lower of cost or net realizable value.

viii) Foreign Currency Transactions:

a) Transactions denominated in foreign currencies are recorded at the exchange rate prevailing at the time of the transaction.

b) Monetary items denominated in foreign currencies at the year- end are translated at the year-end rates, the resultant gain or loss will be recognized in the statement of profit and loss account.

c) Any gain or loss arising on account of exchange difference on settlement of transaction is recognized in the statement of profit and loss account.

ix) Taxes on Income:

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with Indian Income Tax Act, 1961. Deferred income taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Notes to the Financial Statements (contd.)

Note 1 Significant Accounting Policies (contd.)

x) Leases:

Assets acquired under financial leases are recognized at the lower of the fair value of the leased asset at inception and the present value of minimum lease payment. The finance charge is allocated to periods during the lease term at a constant periodic rate of interest on the remaining balance of the liability.

xi) Employee Benefits:

- Retirement benefits in the form of Provident Fund and Superannuation Fund are defined contribution schemes and the contributions are charged to the Profit and Loss Account of the year when the contribution to the respective funds are due. The Company has created an approved Superannuation Fund and accounts for the contribution made to LIC against an insurance policy taken with them. There are no other obligations other than the contribution payable to the funds.
- Gratuity and Leave Encashment liabilities are defined benefit obligations and provided on the basis of independent actuarial valuation on projected unit credit method made at the end of the year. The company has created an approved gratuity fund, which has taken a group gratuity cum insurance policy with Life Insurance Corporation of India (LIC), for future payment of gratuity to the employees. Also the company has created a fund with LIC for leave encashment of employees for future payment.

xii) Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognized when the Company has a legal and constructive obligation as a result of a past event, for which it is probable that a cash outflow will be required and a reliable estimate can be made of the amount of the obligation. Contingent Liabilities are disclosed when the Company has possible obligation or a present obligation and it is probable that a cash outflow will not be required to settle the obligation.

Notes:

Business Segments:

The Company's activities are organized into two operating segments namely, Building Products and Textile Synthetic Yarn. The segments are the basis on which the company reports its primary segment information. The Building Products division produces asbestos sheets, accessories used mostly as roofing material and non asbestos flat sheets and sandwich panels used as interiors. Synthetic Yarn division manufactures Yarn out of blends of polyester, viscose, other materials which go into the weaving of fabric. Segment result includes the respective other income.

Financial Information about business segments is presented as above.

Geographical Segments:

The Sales of the above segments are classified as per the geographical segments of the company as Domestic and Exports.

Segment Revenue and Expenses:

The Company has an established basis of allocating Joint/Corporate expenses to the segments, which is reasonable, and followed

Notes to the Financial Statements *(contd.)*

Note 39 Segment information for the year ended 31st March, 2015 *(contd.)*

consistently. All other segment revenue and expenses are attributable to the segments. Certain Expenses/Income are not specifically allocable to specific segments and accordingly these expenses are disclosed as unallocated corporate expenses' or income and adjusted only against the total income of the company.

Segment Assets and Liabilities:

Segment assets include all operating assets used by a segment and consist principally of operating cash, debtors, inventories and fixed assets, net of allowances and provisions that are reported as direct offsets in the balance sheet. While most assets can be directly attributed to individual segments, the carrying amount of certain assets used jointly by two or more segments is allocated to the segments on a reasonable basis. In such cases, the entire revenue and expenses of these assets including depreciation are also allocated to the same segments. Assets which are not allocable to the segments have been disclosed as 'unallocated corporate assets'. Segment liabilities include all operating liabilities and consist principally of creditors and accrued liabilities. Segment assets and liabilities do not include deferred income taxes. The loans and other borrowings that are not specifically allocable to the various segments are disclosed as 'unallocated corporate liabilities'.

Inter Segment Transfers:

The Company adopts a policy of pricing inter-segment transfers at cost to the transferor segment. However, during the year there are no such transactions.

- vii. The Scrutinizer, after scrutinising the votes cast at the meeting (Insta Poll) and through remote e-voting, will, not later than three days of conclusion of the Meeting, make a consolidated scrutinizer's report and submit the same to the Chairman. The results declared along with the consolidated scrutinizer's report shall be placed on the website of the Company www.visaka.biz and on the website of Karvy <https://evoting.karvy.com>. The results shall simultaneously be communicated to the Stock Exchanges.
- viii. Subject to receipt of requisite number of votes, the Resolutions shall be deemed to be passed on the date of the Meeting, i.e. July 25, 2015.
- ix. Members are requested to note that the remote e-voting will open at 09.00 A.M. (IST) on July 21, 2015 and shall remain open till 05.00 P.M. (IST) on July 24, 2015 and the remote e-voting module will be disabled by Karvy after 05.00 P.M. on July 24, 2015.
- x. The procedure and instructions for remote e-voting are as follows:
- Open your web browser during the voting period and navigate to '<https://evoting.karvy.com>'
 - Enter the login credentials (i.e. User ID & Password) provided to you as mentioned at point No.9 supra.
 - Please contact our toll free No. 1-800-34-54-001 for any further clarifications.
 - After entering these details appropriately, click on "LOGIN".
 - Members holding shares in Demat/Physical form will now reach Password Change menu wherein they are required to mandatorily change their login password in the new password field. The new password has to be minimum eight characters consisting of at least one upper case (A-Z), one lower case (a-z), one numeric value (0-9) and a special character. Kindly note that this password can be used by the Demat holders for voting for resolution of any other Company on which they are eligible to vote, provided that the Company opts for e-voting through Karvy Computershare Private Limited e-Voting platform. System will prompt you to change your password and update any contact details like mobile number, email ID, etc., on 1st login. You may also enter the Secret Question and answer of your choice to retrieve your password in case you forget it. It is strongly recommended not to share your password with any other person and take utmost care to keep your password confidential.
- You need to login again with the new credentials.
 - On successful login, system will prompt to select the 'Event' i.e., 'Company Name'.
 - If you are holding shares in Demat form and had logged on to "<https://evoting.karvy.com>" and cast your vote earlier for any company, then your exiting login id and password are to be used.
 - On the voting page, you will see Resolution Description and against the same the option 'FOR/AGAINST/ABSTAIN' for voting. Enter the number of shares (which represents number of votes) under 'FOR/AGAINST/ABSTAIN' or alternatively you may partially enter any number in 'FOR' and partially in 'AGAINST', but the total number in 'FOR/AGAINST' taken together should not exceed your total shareholding. If the shareholder do not want to cast his vote, select 'ABSTAIN'.
 - After selecting the resolution you have decided to vote on, click on "SUBMIT". A confirmation box will be displayed. If you wish to confirm your vote, click on "OK", else to change your vote, click on "CANCEL" and accordingly modify your vote.
 - Once you 'CONFIRM' your vote on each of the resolutions, you will not be allowed to modify your vote.
