CORPORATE GOVERNANCE :

Report on Corporate Governance along with the certificate of the Auditors M/s S G C O & Co LLP confirming the compliance of the conditions of Corporate Governance, is annexed with this report.

MANAGEMENT DISCUSSION AND ANALYSIS :

(i) Industry Structure and developments :

The demand for bulk industrial gases fluctuated in the market but since we are only carrying out cylinder filling operations there was no impact on our working.

(ii) Opportunities, Threats, Risks and Concerns :

The cost of production and logistics costs have been continually increasing which is not getting covered in the increase in the sale price due to stiff competition.

(iii) Segment wise product wise performance :

The Company is primarily engaged in the filling and sale of Oxygen and Nitrogen industrial gases.

(iv) Outlook :

The manufacturing sector of the national economy is slowly picking up and there is corresponding rise in demand.

(v) Internal Control Systems and their adequacy :

The Senior Management periodically reviews factors and issues that influence the Company's business and takes appropriate decisions to ensure that the Company's interest and that of the stakeholders is protected. The Company has an inbuilt system of internal checks and controls.

The Audit Committee of the Board of Directors reviews the Internal Controls and matters connected therewith.

(vi) Financial and Operational performance :

	For the year ended 31st March, 2018 (₹ in '000)	For the year ended 31st March, 2017 (₹ in '000)
Sales	15,878	16,296
Other Income	1,29,963	1,41,844
Profit before depreciation and tax	94,892	1,07,090
Depreciation	2,086	2,612
Taxes	4,496	19,476
Profit after depreciation and taxes	88,310	85,001

(vii) Material developments in Human Resources/Industry relations front, including number of people employed :
The Company continues to give utmost importance to Human Resources Development and keeps relations normal.

(viii) Cautionary Statement :

Company's projections and estimates will vary from actual results, which depend on a variety of factors over which the Company does not have any control.

Bombay Oxygen Corporation Ltd.

DIRECTORS' RESPONSIBILITY STATEMENT :

Your Directors make the following statement in terms of section 134(3) (c) of the Companies Act, 2013 and declare :

- (i) that in the preparation of the annual accounts, all applicable accounting standards have been followed;
- (ii) that the Directors have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent, so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the working of the Company for the year;

Auditors' Certificate on compliance with the conditions of Corporate Governance

To the members of Bombay Oxygen Corporation Limited

We have examined the compliance of conditions of Corporate Governance by Bombay Oxygen Corporation Limited ("the Company") for the year ended 31st March, 2018 as stipulated under Regulations 17 to 27, clauses (b) to (i) of sub-regulation (2) of Regulation 46 and para C, D & E of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") for the period April, 2017 to March 31, 2018.

The compliance of conditions of Corporate Governance is the responsibility of the Company's Management. Our examination was limited to the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the provisions as specified in Chapter IV of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 pursuant to the Listing Agreement of the Company with stock exchange. However, the Company has been restricted from dematerializing its Equity Shares vide an order dated 14th June, 2016 from the Hon'ble Bombay High Court.

We further state that our examination of such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITORS' REPORT

To the Members of Bombay Oxygen Corporation Limited

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Bombay Oxygen Corporation Limited** ("the Company"), which comprise the Balance Sheet as at 31st March 2018, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended on that date and a summary of the significant accounting policies and other explanatory information (herein after referred to as "Ind AS financial statements").

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in sub-section 5 of Section 134 of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Act, read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under sub-section 10 of Section 143 of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at 31st March 2018, and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in exercise of powers conferred by sub-section 11 of section 143 of the Act, we enclose in the "Annexure A", a statement on the matters specified in the paragraph 3 and 4 of the order.

Bombay Oxygen Corporation Ltd.

Bombay Oxygen Corporation Ltd.

Annexure “B” to the Independent Auditor’s Report of even date on the financial statements of Bombay Oxygen Corporation Limited for the year ended 31st March, 2018.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Bombay Oxygen Corporation Limited (“the Company”) as of 31st March, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that We comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future

Bombay Oxygen Corporation Ltd.

periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Summary of significant accounting policies and other explanatory information for the year ended 31st March, 2018

Note 1. Corporate Information

Bombay Oxygen Corporation Limited ("the Company") is a Listed Public Company domiciled in India and is incorporated on 3rd October, 1960 under the provisions of the Companies Act applicable in India. The Company is listed on BSE Limited. The Company is a manufacturer and supplier of Industrial gases like oxygen, nitrogen and argon.

The financial statements of the Company for the year ended 31st March, 2018 were authorised for issue in accordance with resolution of the Board of Directors passed on 17th May, 2018.

Note 2.1 Significant Accounting Policies

i Basis of Preparation

The financial statements of the Company have been prepared to comply in all material respects with the Indian Accounting Standards ("Ind AS") notified under the Companies (Accounting Standards) Rules, 2015.

The financial statements for all periods upto and including year ended 31st March, 2017 were prepared in accordance with the Companies (Accounting Standards) Rules, 2006 notified under Section 133 of the Companies Act ("the Act"), read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended) ("previous GAAP"). The financial statements for the year ended 31st March, 2018 are the first financial statements prepared by the Company in accordance with Ind AS. Refer note 2.2 for information on how the Company adopted Ind AS.

The financial statements have been prepared under the historical cost convention with the exception of certain financial assets and liabilities which have been measured at fair value, on an accrual basis of accounting.

All the assets and liabilities have been classified as current and non-current as per normal operating cycle of the Company and other criteria set out in Schedule III to the Act. Based on nature of services, the Company ascertained its operating cycle as 12 months for the purpose of current and non-current classification of asset and liabilities.

The Company's financial statements are reported in Indian Rupees, which is also the Company's functional currency, and all values are rounded to the nearest thousands (INR '000), except when otherwise indicated.

ii Accounting Estimates

The preparation of the financial statements, in conformity with the Ind AS, requires the management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of financial statements and the results of operation during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates which are recognised in the period in which they are determined.

Estimates and assumptions

The Company has based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below :

Deferred tax assets

In assessing the realisability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

Bombay Oxygen Corporation Ltd.

Summary of significant accounting policies and other explanatory information for the year ended 31st March, 2018

Defined benefit plans

The cost and present value of the gratuity obligation and compensated absences are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, attrition rate and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

iii Property, Plant and Equipment

Property, Plant and Equipment are stated at cost of acquisition including attributable interest and finance costs, if any, till the date of acquisition/installation of the assets less accumulated depreciation and accumulated impairment losses, if any. Subsequent expenditure relating to Property, Plant and Equipment is capitalised only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the Statement of Profit and Loss as incurred. The cost and related accumulated depreciation are eliminated from the financial statements, either on disposal or when retired from active use and the resultant gain or loss are recognised in the Statement of Profit and Loss.

On transition to Ind AS, the Company has opted to continue with the carrying values measured under the previous GAAP as at 1st April, 2016 of its Property, Plant and Equipment and use that carrying value as the deemed cost.

iv Depreciation/Amortisation

Depreciation/amortisation is provided :

- a) Depreciation on tangible assets is provided on straight line basis considering the useful lives prescribed in Schedule II to the Act on a pro-rata basis. Depreciation on additions and deletions made during the year is provided on pro-rata basis from and upto the date of additions and deletions of the assets respectively.
- b) Leasehold land at Pune and Nagpur acquired from MIDC are not amortised over the period of lease.

v Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity :

a) Financial Assets

Initial Recognition

In the case of financial assets, not recorded at Fair Value Through Profit or Loss (FVTPL), financial assets are recognised initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories :

Financial Assets at Amortised Cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is included in finance income using the Effective Interest Rate ("EIR") method. Impairment gains or losses arising on these assets are recognised in the Statement of Profit and Loss.

Financial Assets Measured at Fair Value

Financial assets are measured at fair value through OCI if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows

Summary of significant accounting policies and other explanatory information for the year ended 31st March, 2018

that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the Statement of Profit and Loss. Financial asset not measured at amortised cost or at fair value through OCI is carried at FVTPL.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies the expected credit loss ("ECL") model for measurement and recognition of impairment loss on financial assets and credit risk exposures.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. Simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the group in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original EIR. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the Statement of Profit and Loss.

De-recognition of Financial Assets

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity.

If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

b) Equity Instruments and Financial Liabilities

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments which are issued for cash are recorded at the proceeds received, net of direct issue costs. Equity instruments which are issued for consideration other than cash are recorded at fair value of the equity instrument.

Financial Liabilities

1) Initial Recognition

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings and payables as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Summary of significant accounting policies and other explanatory information for the year ended 31st March, 2018

2) Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Financial liabilities at amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate ("EIR") method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the Statement of Profit and Loss.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

3) De-recognition of Financial Liabilities

Financial liabilities are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

c) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis to realise the assets and settle the liabilities simultaneously.

vi Employee Benefits

a Defined Contribution Plan

Contributions to defined contribution schemes such as provident fund, employees' state insurance, labour welfare are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as Defined Contribution Schemes as the Company has no further obligations beyond the monthly contributions.

b Defined Benefit Plan

The Company also provides for gratuity which is a defined benefit plan, the liabilities of which is determined based on valuations, as at the balance sheet date, made by an independent actuary using the projected unit credit method. Re-measurement, comprising of actuarial gains and losses, in respect of gratuity are recognised in the OCI, in the period in which they occur. Re-measurement recognised in OCI are not reclassified to the Statement of Profit and Loss in subsequent periods. Past service cost is recognised in the Statement of Profit and Loss in the year of plan amendment or curtailment. The classification of the Company's obligation into current and non-current is as per the actuarial valuation report.

c Leave entitlement and compensated absences

Accumulated leave which is expected to be utilised within next twelve months, is treated as short-term employee benefit. Leave entitlement, other than short term compensated absences, are provided based on a actuarial valuation, similar to that of gratuity benefit. Re-measurement, comprising of actuarial gains and losses, in respect of leave entitlement are recognised in the Statement of Profit and Loss in the period in which they occur.

d Short-term Benefits

Short-term employee benefits such as salaries, wages, performance incentives etc. are recognised as expenses at the undiscounted amounts in the Statement of Profit and Loss of the period in which the related service is rendered. Expenses on non-accumulating compensated absences is recognised in the period in which the absences occur.

Summary of significant accounting policies and other explanatory information for the year ended 31st March, 2018

e Termination benefits

Termination benefits are recognised as an expense as and when incurred.

vii Inventories

Finished goods produced or purchased are valued at lower of cost and net realisable value. Stores and Spare parts are valued at landed cost determined on first-in-first-out (FIFO) basis. Plant components are valued at cost.

viii Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheet comprises of cash at banks and on hand and short-term deposits with an original maturity of three month or less, which are subject to an insignificant risk of changes in value.

ix Borrowing Costs

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Also, the EIR amortisation is included in finance costs.

Borrowing costs relating to acquisition, construction or production of a qualifying asset which takes substantial period of time to get ready for its intended use are added to the cost of such asset to the extent they relate to the period till such assets are ready to be put to use. All other borrowing costs are expensed in the Statement of Profit and Loss in the period in which they occur.

x Foreign Exchange Translation and Accounting of Foreign Exchange Transaction

a Initial Recognition

Foreign currency transactions are initially recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

b Conversion

Monetary assets and liabilities denominated in foreign currencies are reported using the closing rate at the reporting date. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

c Treatment of Exchange Difference

Exchange differences arising on settlement/restatement of short-term foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss except those arising from investment in Non Integral operations. Premium or discount in respect of forward contracts is accounted over the period of the contract.

xi Revenue Recognition

a Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Sales comprise, invoiced value of goods sold and services rendered, and are net of value added tax, central sales tax, goods & service tax, trade discount & returns and rebates.

b Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the Statement of Profit and Loss.

c Dividend income is recognized when the company's right to receive dividend is established.

xii Income Tax

Income tax comprises of current and deferred income tax. Income tax is recognised as an expense or income in the Statement of Profit and Loss, except to the extent it relates to items directly recognised in equity or in OCI.

a Current Income Tax

Current income tax is recognised based on the estimated tax liability computed after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Summary of significant accounting policies and other explanatory information for the year ended 31st March, 2018

b Deferred Income Tax

Deferred tax is determined by applying the Balance Sheet approach. Deferred tax assets and liabilities are recognised for all deductible temporary differences between the financial statements' carrying amount of existing assets and liabilities and their respective tax base. Deferred tax assets and liabilities are measured using the enacted tax rates or tax rates that are substantively enacted at the Balance Sheet date. The effect on deferred tax assets and liabilities of a change in tax rates is recognised in the period that includes the enactment date. Deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Such assets are reviewed at each Balance Sheet date to reassess realisation.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

c Minimum Alternative Tax ("MAT")

Minimum Alternative Tax ("MAT") credit is recognised as an asset only when and to the extent it is probable that the Company will pay normal income tax during the specified period.

xiii Leases

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership over the leased term, are classified as operating leases. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term except where the lease payments are structured to increase in line with expected general inflation. In respect of assets given on operating lease, income is recognized on straight line basis over the lease term. Assets acquired on finance lease are capitalised at fair value or present value of minimum lease payment at the inception of the lease, whichever is lower.

xiv Impairment of Non-Financial Assets

As at each Balance Sheet date, the Company assesses whether there is an indication that a non-financial asset may be impaired and also whether there is an indication of reversal of impairment loss recognised in the previous periods. If any indication exists, or when annual impairment testing for an asset is required, the Company determines the recoverable amount and impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is determined:

- In case of an individual asset, at the higher of the assets' fair value less cost to sell and value in use; and
- In case of cash generating unit (a group of assets that generates identified, independent cash flows), at the higher of cash generating unit's fair value less cost to sell and value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specified to the asset. In determining fair value less cost to sell, recent market transaction are taken into account. If no such transaction can be identified, an appropriate valuation model is used.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the Statement of Profit and Loss, except for properties previously revalued with the revaluation taken to OCI. For such properties, the impairment is recognised in OCI up to the amount of any previous revaluation.

When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through the Statement of Profit and Loss.

xv Trade receivables

A receivable is classified as a 'trade receivable' if it is in respect of the amount due on account of goods sold or services rendered in the normal course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the Effective Interest Rate method, less provision for impairment.

xvi Trade payables

A payable is classified as a 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services

Bombay Oxygen Corporation Ltd.

Summary of significant accounting policies and other explanatory information for the year ended 31st March, 2018

provided to the Company prior to the end of the financial year which are unpaid. These amounts are unsecured and are usually settled as per the payment terms stated in the contract. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the Effective Interest Rate method.

xvii Non-current assets held for sale and discontinued operations

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets, etc., which are specifically exempt from this requirement.

Non-current assets classified as held for sale are presented separately from the other assets in the balance sheet.

A discontinued operation is a component of the Company that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single coordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

xviii Earnings Per Share

Basic earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders of the Company and weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

xix Provisions, Contingent Liabilities and Contingent Assets

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of obligation. Provisions (excluding gratuity and compensated absences) are determined based on management's estimate required to settle the obligation at the Balance Sheet date. In case the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. A contingent liability also arises, in rare cases, where a liability cannot be recognised because it cannot be measured reliably.

NOTE 2.2 FIRST TIME ADOPTION OF IND AS

These are Company's first financial statements prepared in accordance with Ind AS.

The accounting policies set out in Note 2.1 have been applied in preparing the financial statements for the year ended 31st March, 2018, the comparative information presented in these financial statements for the year ended 31st March, 2017 and in the preparation of an opening Ind AS balance sheet as at 1st April, 2016 (The Company's date of transition). In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with accounting standards notified under Companies (Accounting

Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes :

A) Exemptions and exceptions availed

1) Ind AS optional exemptions :

Ind AS 101 allows first time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions:

a) Deemed cost

Ind AS 101 permits a first time adopter to elect to fair value of its property, plant and equipment as recognised in financial statements as at the date of transition to Ind AS, measured as per previous GAAP and use that as its deemed cost as at the date of transition or apply principles of Ind AS retrospectively. Ind AS 101 also permits the first time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS. This exemption can be also used for intangible assets covered by Ind AS 38.

b) For financial instruments, wherein fair market values are not available (viz. interest free and below market rate security deposits or loans) the Company has elected to adopt fair value recognition prospectively to transactions entered after the date of transition.

2) Ind AS mandatory exceptions :

a) Estimates

An entity estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates at 1st April, 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP.

b) Derecognition of financial assets and financial liabilities

Ind AS 101 requires a first time adopter to apply the derecognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. Accordingly, the Company has applied the derecognition requirement for financial assets and financial liabilities in Ind AS 109 prospectively for transactions occurring on or after date of transition to Ind AS.

c) Classification of financial assets and liabilities

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of facts and circumstances that exist on the date of transition to Ind AS. Accordingly, the Company has applied the above requirement prospectively. Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as on the date of transition. Further, the standard permits measurement of financial assets accounted at amortised cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable. Accordingly, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. Measurement of financial assets accounted at amortised cost has been done retrospectively except where the same is impracticable.

d) Impairment of financial assets

Ind AS 101 requires an entity to assess and determine the impairment allowance on financial assets as per Ind AS 109 using the reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments which were initially recognised and compare that to the credit risk at the date of transition to Ind AS. The Company has applied this exception prospectively.

B) Transition to Ind AS - Reconciliations

The following reconciliations provide a quantification of the effect of significant differences arising from the transition from previous GAAP to Ind AS in accordance with Ind AS 101:

- I. Balance sheet as at 1st April, 2016 and 31st March, 2017
- II. Total Comprehensive Income for the year ended 31st March, 2017

Footnotes to the reconciliation of equity as at 1st April, 2016 & 31st March, 2017 and Statement of Profit and Loss for the year ended 31st March, 2017

1) Financial Asset

Under Indian GAAP, the Company accounted for long term investments in quoted equity shares as investment measured at cost less provision for other than temporary diminution in the value of investments. Under Ind AS, the Company has designated such investments as FVTOCI investments. Ind AS requires FVTOCI investments to be measured at fair value. At the date of transition to Ind AS, difference between the instruments at fair value and Indian GAAP carrying amount has been recognised as a separate component of equity, in the FVTOCI reserve, net of related deferred taxes.

Bombay Oxygen Corporation Ltd.

Summary of significant accounting policies and other explanatory information for the year ended 31st March, 2018

Under Indian GAAP, the Company accounted for mutual funds as investment measured at lower of cost or NRV in case of Short term Investments and at cost less provision for other than temporary diminution in the value of investments in case of long term investments. Under Ind AS, the Company classified these mutual funds as FVTPL investments. Ind AS requires such investments to be measured at fair value. At the date of transition to Ind AS, difference between the instruments at fair value and cost as at the date of transition has been recognised in other equity, net of related deferred taxes.

2) Defined benefit liabilities

Both under Indian GAAP and Ind AS, the Company recognised costs related to its post-employment defined benefit plan on an actuarial basis. Under Indian GAAP, the entire cost, including actuarial gains and losses, are charged to the statement of profit and loss. Under Ind AS, remeasurements (comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability) are recognised immediately in the Balance Sheet with a corresponding debit or credit to other equity through OCI.

3) Deferred Tax (Including MAT Credit)

Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the Balance Sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the Balance Sheet and its tax base. This has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP.

In addition, the various transitional adjustments lead to temporary differences. According to the accounting policies, the Company has to account for such differences. Deferred tax adjustments are recognised in correlation to the underlying transaction either in other equity or a separate component of equity.

Under Previous GAAP, MAT credit was disclosed under non-current assets. In accordance with Ind AS 12, deferred tax asset shall include any carry forward unused tax credits. Hence, MAT credit entitlement has been included in deferred tax asset.

Leasehold land is a non-depreciable asset, Management is expecting that its carrying value will be recovered through sale and the indexation benefit at the time of disposal will be available, accordingly deferred tax asset on the difference between carrying value and indexed value has been created.

4) Revenue

Under Indian GAAP, revenue from sale of products was presented excluding excise duty. Under Ind AS, revenue from sale of products is presented inclusive of excise duty. Excise duty paid is presented on the face of the statement of profit and loss as part of expenses. There is no impact on total equity and profits.

5) Proposed Dividend

Under the previous GAAP, proposed dividend including corporate dividend tax (CDT), are recognised as liability in the period to which they relate, irrespective of when they are declared. Under Ind AS, proposed dividend is recognised as liability in the period in which it is declared by the Company, usually when approved by the shareholders in a General Meeting, or paid.

6) Other Comprehensive Income

Under Indian GAAP, the Company has not presented Other Comprehensive Income (OCI) separately. Hence, it has reconciled Indian GAAP profit or loss to profit or profit or loss as per Ind AS. Further, Indian GAAP profit or loss is reconciled to total comprehensive income as per Ind AS.

7) Statement of Cash Flow

The Ind AS adjustments are either non cash adjustments or are regrouping among the cash flow from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended 31st March, 2017 as compared with the previous GAAP.

Note 35. Discontinued Operation

Contract with Mukand Limited for supply of Industrial Gases from Kalwe Unit (situated on a piece of land provided by Mukand Limited) of the Company was discontinued w.e.f. 1st January, 2017. As per the terms of the agreement, the Company is to handover the vacant and peaceful possession of the plot to Mukand Limited on or before 31st December, 2018. Considering the age, location and output of the plant, the Company did not find any possibility of re-locating the plant nor any prospective buyer. Accordingly, in the Meeting of the Board of Directors of the Company held on 19th March, 2018, the Board has resolved to dismantle and dispose off the plant, machinery and other equipments at Kalwe Unit of the Company.

Pursuant to the provisions of the Section 180 of the Companies Act, 2013 read with the Companies (Meetings of Board and its Powers) Rules, 2014, the Company has sought a consent from its members to dispose off the plant, machinery and other equipments at the Kalwe Unit of the Company through Postal Ballot. In accordance with the result of the Postal Ballot announced on 11th May, 2018, the members have granted their consent to the above stated Board Resolution by requisite majority. Accordingly, the operations of Kalwe Unit is classified as Discontinued Operations in terms of Ind AS 105. The details of revenue and expenses in respect of ordinary activities attributable to the discontinued operations are as follows :

Bombay Oxygen Corporation Ltd.

Summary of significant accounting policies and other explanatory information for the year ended 31st March, 2018

The Company has not disclosed the fair values for financial instruments for other financial assets (current and non-current), trade receivables, cash and cash equivalents and bank balances other than cash and cash equivalents, Trade payables, other current financial liabilities because their carrying amounts are reasonably approximation of fair value.

(ii) Fair value hierarchy

Fair value hierarchy explains the judgement and estimates made in determining the fair values of the financial instruments that are -

- recognised and measured at fair value.
- measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)

(a)(i) Assets and Liabilities that are disclosed at Fair Value through Other Comprehensive Income and are classified as Level 1.

Bombay Oxygen Corporation Ltd.

Summary of significant accounting policies and other explanatory information for the year ended 31st March, 2018

Note 37. Financial risk management objectives and policies

The Company's activities expose it to a variety of financial risks, market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company has investments in equity instruments and it manages the risk of market price fluctuations under the guidance of experts in this line of business. The Company does not have any foreign currency exposure and thus it does not foresee any market risk related to currency price fluctuation.

b) Credit Risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The Company's receivables from third party are not material. Further, the Company does not expect any credit loss in receivables.

c) Liquidity Risk

Liquidity is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. The Company does not have any borrowings. Further, the current obligations of trade payables and other liabilities are not material and thus Company does not foresee any liquidity risk.

Note 38. Prior year comparatives

Previous year's figures have been regrouped or reclassified, to conform to the current year's presentation wherever considered necessary.
