Annual Report 15-16

From the first collection of COVER STORY, a fast fashion brand made for India, designed at Future Style Labs, London.

**LET'S TALK
FASHION**

Fashion is a reflection of social, economic, political and cultural changes. It expresses modernity, symbolizing the spirit of the times. And it also expresses identity, symbolizing the rituals, beliefs and context that we grow in.

Future Lifestyle Fashions (FLF), India's youngest fashion Company, is also home to some of India's most popular fashion brands and retail destinations.

With stores in every fast growing city and two dozen brands, we transport India's changing trends, moods, aspirations and themes from factories to stores and into the wardrobes of the new Indian consumer.

Our mission is to keep discovering the Indian idiom of fashion that captures both modernity and tradition, culture and the context, life and the lifestyle of a fast changing India. We live, think and breathe fashion.

LETTER FROM MANAGING DIRECTOR

Dear Stakeholders,

We are pleased to share with you the Annual Report of your Company for the financial year 2015-16. Despite stiff competition from multiple channels and a muted economic environment, your Company was able to lead a transformation, posting improvements across financial and operational metrics as well rejuvenating its brand portfolio and the retail experiences for its customers. The Company posted a net profit of ₹ 29 Crore at a growth of almost 53%, on a standalone turnover of ₹ 3,300 Crore. The Company reported free cash flows of ₹ 85 Crore, while reducing its overall capital employed by ₹ 80 Crore and debt by ₹ 104 Crore, almost entirely through internal accruals.

The Company's flagship retail format, Central posted a same store sales growth of 10.3%, while the Company's leading brand, Lee Cooper turned in gross sales of ₹ 567 Crore, a growth of by 19%. The Company's other leading brands, John Miller, Bare and Indigo Nation - each with over ₹ 150 Crore of gross sales - posted double digit sales growth. The Company also made fresh investments in its investee companies that manage brands such as Holii, Mineral, Tresmode and Giovani. Collectively, these investee companies posted a turnover of an additional ₹ 610 Crore. The largest amongst them, Turtle posted a turnover of ₹ 157 and an operating profit of ₹ 22 Crore. The Company holds a 26% stake in the Turtle.

During the year, the Company also made substantial investments in reinventing the retail spaces, thereby making it a compelling experience for customers to visit, shop and celebrate fashion.

The Central chain now promises the experience of 'Brands in High Definition.' Starting with our earliest stores in Bangalore and Hyderabad, the retail chain is going through a rapid transformation. Digital interfaces, new and innovative customer services and an architecture and design that can compete with the best from across the world in lifestyle and luxury fashion, are being rolled out at these stores as well as in a new upcoming store at Aerocity in Delhi.

Your Company also introduced its first women's-only fast fashion brand Cover Story. Conceived, designed and led by a multinational team based out of the Company's Future Style Lab in London, the brand brings in global trends from the ramps to the wardrobes of Indian consumers within the shortest possible time frame. The first Indian fast fashion brand, Cover Story promises to offer new styles every week. The brand has met with an encouraging response within Central stores and set to open exclusive brand stores as well. Simultaneously, each of the Company's existing fashion brands went through a thorough review with individual teams now giving fillip to the growth and expansion of each of these brands.

As we look ahead, we believe we are at an interesting inflection point, both from the point of view of market and as an organization. The Indian market is showing a distinct promise for disproportionate growth in fashion brands and it therefore attracting the attention of global players. During the ten years of 2002 to 2012, China's fashion industry trebled in size, leading to the emergence of billion dollar fashion brands. Most agree, the inflection point was in 2002, when China's GDP crossed USD 2000. From this point, discretionary spending grew disproportionately, with fashion being the biggest beneficiary. With per capita GDP touching USD 2000, China's per Capita fashion consumption grew from USD 50 to USD 250 in ten years to around USD 400 today, outpacing consumption and economic growth. China's domestic fashion market today is now set to become larger than the United States' market.

India is at a similar position with GDP per capita is about USD 1700. Our per capita apparel consumption is around USD 35. However, more and more customers are visiting stores and buying fashion more frequently than ever before. As India approaches per capita, the USD 2000, it is expected that India's fashion market will grow beyond USD 80 billion, with branded apparel sector likely to outpace the industry growth rates by 1.5x through to FY 21.

With a wide portfolio of brands, retail formats and investments in fast growing fashion brands and entrepreneurs, along with the fundamental improvements that it brought in through the year, your Company is very well placed to shape and benefit from this growing opportunity. We thank you for your continued support and encouragement in making this journey worthwhile.

FLF RETAIL

The Company's flagship retail chain, Central is in the midst of a complete transformation that is designed around the theme, 'Brands in High Definition.' Backed by some of the best talent in design, visual merchandizing and German architecture firm Blocher Blocher Partners, the retail chain is being reinvented for the next decade. Smart and technology-led interfaces compliment heightened customer service initiatives such as free home delivery, in-store wi-fi networks, personal shoppers, infant care rooms, among others.

The Company's earliest and largest stores, Bangalore Central at Residency Road and Hyderabad Central at Panjagutta circle are in the midst of the transformation. Along with these a new store at Aerocity, next to the T3 Terminal in Delhi will sport the next generation Central store. Over time, most of the existing Central stores will undergo this transformation.

During the year, 4 new Central stores were launched, including the first ones in Bhubaneswar and Lucknow. The chain witnessed a 10.3% same store sales growth led by a stronger focus on operational excellence, speed, data analytics and social interaction, engaging with the millennial generation and a revamp of its talent management program.

A robust hiring norm, coupled with comprehensive training through the year, including soft skills training, new uniforms and an overall emphasis on a stronger performance driven culture for fashion consultants and other store functions were rolled out during the year. A new customer happiness index measurement system was introduced. The chain also launched its first television commercial and leveraged social media to amplify its impact. Loyalty programs are being geared up to increase frequency of purchase and increase average bill value from ₹ 2,900 to ₹ 3,200. A tie up for a mobile wallet-based payment with Mobiqwik now enables the millennial generation to pay from their smartphones.

SOCIAL CAPITAL

FLF is privileged to support a social enterprise network led by Industree. Industree is a social enterprise, with an aim to lift artisans out of poverty while celebrating their skills, culture and legacy. The unique Producer Ownership model goes beyond giving employment by helping artisans create wealth in form of equity in producer company. Over years, this accumulated equity helps them transition from poverty to prosperity.

Industree has facilitated setting up of two producer companies engaging 2000 artisans in the sector of banana bark products and apparel manufacturing. These give full time employment to 300 artisans and part time employment to 2000 artisans spread across 6 districts in Karnataka and Tamil Nadu.

Industree primarily works with women. Women are trained to be leaders and run their business. Encouraging women leadership has helped women not only to take better decisions at work but also make her take right decisions in running their households. The incubation of Producer Companies with constant guidance and mentoring support

to artisans, has resulted in social advancement. There are women who have transitioned from being helper to being director, from tailor to being a trainer. They have now become role models for other women artisans.

FLF invests, mentors and owns around 72% equity in Indus Tree Crafts Private Limited (ITCPL), that markets these produce through the Mother Earth brand that is sold across the company's retail outlets. During the year, the producer groups also supplied to Swedish homeware retailer IKEA and their products are now available in 75 IKEA stores in 10 countries.

Through such initiatives and through Mother Earth, artisans get the requisite support to earn regular and sustained incomes. Assurance of regular income results in peace of mind to artisans, because when they are working in organized set up, they can give commitments to their landlord, plan their expenses, provide for their children's education.

Over next 10 years, ITCPL aims to reach to 1 million artisans across 5 states in India.

MANAGEMENT DISCUSSION AND ANALYSIS

Future Lifestyle Fashions (FLF) has continued to build and strengthen its portfolio as a lifestyle fashion arm of Future Group. In its third successful year of operations, FLF has reinforced its position as a leading fashion retailer with strong fashion portfolio in the country. The Company derives its strengths in three integrated areas: fashion brands, fashion distribution and investments in fast growing fashion companies.

Indian economy is expected to remain on a strong growth trajectory. Given the cyclical nature of clothing and apparel industry, the industry should significantly benefit from this economic upturn. Images Retail Report 2015 pegs the clothing & apparel retail market at ₹ 3,24,500 Crore growing at 20-21% and expects the market to be worth around ₹ 5,64,800 Crore by 2017. Apparel enjoys a much higher modern retail penetration of ~43% vs a 9-10% modern retail penetration for the overall Indian retail market. The modern retail is also expected to grow at a much higher growth rate, offering a sizable growth opportunity to leading fashion retailers. FLF is well positioned to capture major share of the fast growing and evolving lifestyle fashion market in the country.

Categories such as denim, casual wear, women western wear and kids' party wear have outgrown the entire fashion retail with the advent of modern retail. FLF with its broad portfolio of fashion brands covering the entire range of categories is in a great position to tap this market opportunity. FLF's brand portfolio includes brands in formal men-wear, casual wear, active or sportswear, women's ethnic wear, women's denim wear, women's casual wear, footwear and accessories present across various price points. FLF also has exclusive tie ups with renowned international / global brands for manufacturing and marketing the products in India.

FLF distributes its portfolio of fashion brands through own retail chains, exclusive brand outlets (EBOs) and multi brand outlets (MBOs) across the country. The Company also operates national retail chains viz. Central, Brand Factory, I Am In, and Planet Sports, that is spread across 4.97 million sq. ft. of retail space. These chains are backed by strong sourcing network, in-house trend-spotting and design teams, coupled with robust logistics and warehousing network. Your Company also believes in spotting fast growing fashion companies at early stage and building the portfolio of fashion brands. During the fiscal year, FLF increased its stakes in existing brands like brand Giovani from 80.00% to 96.00% also invested in convertible instrument of Mineral Fashions Private Limited which resulted in increase of its stake from 49.62% to 52.44% post conversion on April 01, 2016.

OPERATIONAL OVERVIEW

FLF follows a vertically integrated business model with strong capabilities in trend spotting, brand building, product development, manufacturing and distribution. FLF keeps track of customer preference and emerging trends in the lifestyle fashion market. These trends lead

to creation of new brands, products or offerings to meet the consumer needs. Based on consumer needs and business opportunity, FLF creates, develops and nurtures brands to make the product offering for lifestyle needs of consumer. The brand portfolio meets the needs of different customer segments in lifestyle fashion business. At the end of the year, FLF operated through 4.97 million sq ft of retail space across its retail formats. The Company undertook modest store expansion during the year adding around 0.66 million sq. ft. of retail space. Apart from own store network, the brands are also retailed through national MBOs and leading e-commerce sites.

As of year ended March 31, 2016, the Company operated 31 Central stores, 42 Brand Factory outlets along with 296 other stores comprising sport stores and EBOs.

aLL, the Company's niche plus size clothing brand, completed 10-whole years of stylizing customers in this category. Starting with a single store in 2005, the format has come a long way to create a strong brand identity of its own. Today, the total strength of aLL stands at 53 EBOs and 31 Shop In Shop (SIS) in Central stores across the country.

In the fiscal year 2015-16, your Company also opened its first International Design Studio, "Future Style Lab" in London to keep up with ever evolving trends of fashion and bring out the latest fashion styles and trends for the young and ambitious India.

CUSTOMER AND MARKETING OVERVIEW

The process of brand building includes activities like branding, in-store display and promotion, mass media communication through print, hoardings and electronic media, event sponsorships and associations. This creates mind share for the brand and market share follows.

Urbana, the Company's menswear brand, launched innovative range of shirts such as Anti-Spill Shirts, Eco-Friendly Shirts, Feather light Shirts and Cool Max Shirts. Paulina Vega, the reigning Miss Universe from Columbia, launched Jealous 21's limited edition Miss Universe Collection in August, 2015. The glamorous launch of the Miss Universe collection was showcased through a fashion show where models walked the ramp wearing the latest signature Jealous 21 collection. The Company's flagship brands also launched Autumn Winter and Spring Summer collections to keep its offerings fresh and in line with the latest trends.

Your Company also roped in Fawad Khan as the brand ambassador for the Company's menswear brand Giovani. Giovani is a quintessential suits & jackets brand offering classic and elegant clothing tailored with refined Italian cuts. He is the perfect Giovani man – sophisticated and charming with an inborn sense of effortless style. With a history of over 16 years, Giovani was acquired by FLF in 2014.

In April, 2016, Central, the Company's leading fashion destination store, launched its first TV commercial which helped in attracting additional customers to its stores.

Lee Cooper also launched two TV commercials across national channels in India to promote its “Unbeatable” campaign and to launch Spring Summer 2016 collection. Lee Cooper also effectively managed its social media campaign with a milestone of over 4,00,000 Facebook fans during the year.

During fiscal year 2015-16, FLFs website underwent a complete makeover. This young, sassy and responsive website is one platform which gives hands-on information about various company brands and formats.

COMPETITION

The Company operates in a competitive market environment. The Company faces competition from other fashion brands and national retailers. Further, it faces competition from online retailers who market similar products. Additionally, we may face competition from international players if foreign participation in the retail sector is further liberalized.

The Company’s vast experience in fashion, strong sourcing abilities, a strong portfolio of fashion brands and loyalty programs are expected to provide a fundamentally stronger position to face competition. The Company’s fashion formats have established a strong presence across major metropolis and also expanding beyond the top 8 cities like Nagpur, Patna, Hubli, Kanpur among others.

HUMAN RESOURCE INITIATIVES

FLF employs around 8400 employees located at head office, zonal offices, retail stores and EBOs across the country. The People Office takes care of acquisition, development and retention of right skills and talent in a way that best supports the accomplishment of the Company’s goals and objectives. FLF believes in creating a culture and environment that allows its people resources to best utilize their skills, knowledge and leadership abilities and collectively excel in serving the customers. The Company runs a number of learning and development programs for employees at each level.

BUSINESS OUTLOOK

In FY 2016-17, FLF intends to focus on growing its brand portfolio across various distribution channels. Your Company also aims to focus on fast fashion products / categories enabling higher churns. Revenue growth will also be driven by new store additions, exploring new channel of sales for the brand portfolio and increasing consumer spending within the stores.

The Company’s Brands will also follow a focused approach to capture newer categories and newer customers. This focus on achieving disproportionate growth of the brands business will lead to margin expansions. The product portfolio will be expanded through extending lines of existing brands. FLF is on the path of creating significant stakeholder value through conservation of capital employed and generation of free cash flows thereby maximizing returns.

Additionally, FLF plans to expand its retail network to newer cities and also penetrate existing cities. Your Company will expand its EBO network to towns and cities in order to capture newer markets which are currently not serviced by multi-brand outlets. The brands will be continued to be nurtured by dedicated teams capturing trends, moods and aspirations of the customers. FLF will also launch and extend its brand portfolio to new fashion lines and categories, footwear and accessories, in order to capture larger consumer spending. With the surge in demand for readymade branded apparel in semi-urban areas, rising income levels and youth population, the Company expects to deliver higher same store sales growth along with higher operating margins. FLF will undertake various initiatives to increase footfalls, store productivity and consumer ticket size. FLF will continue to explore opportunities to partner and invest in fast growing labels managed by designers and entrepreneurs.

RISKS AND THREATS

The state of external environment, including factors like interest rates, inflation, quick changes in fashion, growth in economic activity, job creation, consumer sentiments and consumption, changing government policies, emerging compliances, information/IT security & Competition have been identified as key threats as well as opportunities for the Company.

However, at present various macroeconomic factors such as interest rates, inflation, GDP growth rate are impacting the Company favorably. The Company has identified each of the risks and ensured measures to mitigate such risks. These include deleveraging the balance sheet, deployment of dedicated teams to capture trends, moods and aspirations of the customers, widening the customer base to ensure consumption even in the case of slow down of economic environment, multiple format business to ensure that the Company remains in business even with changes in policies. In addition to the above, the management’s efforts in increasing per store efficiency and improving product margin will ensure better profitability for the Company and enable it to sustain in adverse scenarios.

The management team has set standards and policies for each of the identified risks and responsibility of management has also been defined to ensure that appropriate risk mitigating measures are implemented, if any identified threat / risk causes’ further concern. The risk register is reviewed periodically and appropriate risk mitigating measures are implemented for the new risks identified in the review and extensive use of technology is implemented to ensure minimization of risk of execution.

INTERNAL CONTROLS AND THEIR ADEQUACY

The Company has identified key external and internal risks associated with the operations as well as control process to mitigate such risks. Further, regular review of identification of risks and control process to mitigate such identified risks ensures new evolved risks are

identified well within time and appropriate control process to counter such risks is established. The Company also makes appropriate use of its ERP system (SAP) and various applications to put checks and controls to strengthen the internal control framework for financial reporting, organization structure, authorities and procedures, which are also reviewed and validated by the external experts. All such internal controls and their adequacy, financial and risk management policies, significant audit findings, compliance with accounting standards are regularly reviewed by the Audit Committee.

- To establish and from time to time review the policy for ESOP / ESOS as well as issuance of SWEAT equity shares and recommend the grants to be made under ESOP / ESOS; and
- To review the Company's remuneration and human resources policy.

Remuneration Policy

The Company believes that human resource is the key for the continuous growth and development of the Company. The Company's remuneration policy is designed to attract, retain and motivate employees by offering appropriate remuneration packages and retiral benefits and also rewarding performance of key employees by offering employee stock options to contribute and participate in the overall corporate growth, profitability and financial success of the organization. The remuneration policy is in consonance with the existing industry practice.

Remuneration policy for Executive Directors

The Company pays remuneration by way of salary, benefits, perquisites and allowances (fixed component) and commission or performance bonus (variable component) to the Managing Director and the Executive Director, as approved by the Board and the Members of the Company. In determining the remuneration package of the Executive Directors, the Nomination and Remuneration Committee (NRC) evaluates the remuneration paid by comparable organisation and thereafter makes its recommendation to the Board. Annual increments are decided by the NRC within the scale of remuneration approved by the Members of the Company. NRC also reviews and decides on the quantum of commission or performance bonus payable to the Managing Director and the Executive Director as per terms of appointment and based on the performance of the individual as well as the Company. Performance criteria for Managing Director and Executive Director, entitled for Commission or Performance Bonus are determined by NRC.

Criteria of making payments to Non-Executive Directors

The eligible Non-Executive Directors may be paid commission upto an aggregate maximum of 1% of the net profits of the Company as specifically computed for this purpose and as may be approved by Board of Directors of the Company. The criteria of making payments to Non-Executive Directors cover, inter-alia, number of meetings attended, Chairmanship of Committees of the Board, time spent in deliberations with the senior management on operational matters other than at meetings and contribution at the Board/Committee(s) levels. The Company also reimburses the out-of-pocket expenses incurred by the directors for attending the meetings.

Non-Executive Directors are paid sitting fees for attending any Meeting of the Board and Committees of the Board including meeting of Independent Directors, as decided from time to time by the Board. The members of Corporate Social Responsibility Committee have voluntarily waived the acceptance of sitting fees for attending the meeting of the Committee.

Further, the Company has also devised a process for performance evaluation of Independent Directors, the Board, Committees and other individual Directors. The Independent Directors were evaluated on the criteria such as engagement, leadership, analytical, quality of decision-making, interaction, governance, etc.

INDEPENDENT AUDITORS' REPORT

To the Members of FUTURE LIFESTYLE FASHIONS LIMITED

Report on the Financial Statements

We have audited the accompanying standalone financial statements of **FUTURE LIFESTYLE FASHIONS LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2016, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provision of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on

the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on financial statements.

Opinion

In our opinion and to the best of information and according to the explanation given to us, the financial statements give the information required by the Act in the manner so required and give true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of Company as at March 31, 2016, its profit and its cash flow for the year ended on that date.

ANNEXURE - B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **FUTURE LIFESTYLE FASHIONS LIMITED** ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls

based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of

records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1. Significant Accounting Policies

A. Basis of Preparation

Financial Statements have been prepared in accordance with Generally Accepted Accounting Principles in India (Indian GAAP) under the historical cost convention on an accrual basis. The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules 2014.

B. Use of Estimates

Preparation of Financial Statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

C. Tangible Fixed Assets and Depreciation

Tangible Fixed Assets are stated at cost, less accumulated depreciation and impairment loss, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Depreciation is provided, pro rata for the period of use on straight line basis as per the useful life of the assets prescribed under Schedule II to the Companies Act, 2013, except for Leasehold improvements which are depreciated over the remaining expected lease term.

D. Intangible Assets and Amortisation

Intangible Assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Intangible Assets are amortised on straight line basis over their estimated useful life as detailed below:

Assets	Estimated Useful Life
Computer Software	6 Years
License Rights	Over the Period of License

E. Investments

Current investments are carried at lower of cost and fair value computed on individual investment basis.

F. Inventories

Inventories are valued at lower of cost and net realizable value.

Cost of Inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost of inventories is computed on weighted average cost method.

G. Foreign Currency Transactions

Transactions in foreign currencies are recorded at the prevailing rates of exchange on the date of transaction. Monetary items denominated in foreign currencies, are restated at the prevailing rates of exchange at the Balance Sheet date. All gains and losses arising out of fluctuations in exchange rates are accounted for in the Statement of Profit and Loss. Exchange differences on forward contracts entered into for hedging foreign exchange fluctuation risk in respect of an underlying asset/liability, are recognised in the Statement of Profit and Loss in the reporting period in which the exchange rate changes. Premium/Discount on foreign exchange contracts are recognised as an expense/income over the life of the contract.

H. Borrowing Costs

Borrowing costs, directly attributable to the acquisition and construction of an asset that necessarily takes a substantial period of time to get ready for its intended use, are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur in the Statement of Profit and Loss.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

I. Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and can be reliably measured. Revenue from sale of products is recognised when the significant risks and rewards of ownership of the goods have been passed to the buyers. Sale of goods are recorded at net of trade discounts, rebates, sales tax, and value added tax. Revenue from services are recognised as they are rendered based on agreements/arrangements with the concerned parties and recognised net of service tax (If applicable). Interest income is recognised on a time proportion basis taking into account the amount outstanding and applicable interest rate. Dividend income on investments is accounted for when the right to receive the payment is established.

J. Retirement and Other Employee Benefits

Short term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss for the period in which the related service is rendered.

Post employment and other long term employee benefits are recognised as an expense in the Statement of Profit and Loss for the period in which the employee has rendered services. The expense is recognised at the present value of the amounts payable determined using actuarial valuation techniques. Actuarial gain and loss in respect of post employment and other long term benefits are charged to Statement of Profit and Loss.

K. Taxation

Tax Expense includes provision for current tax and deferred tax. Provision for current tax is made on the basis of estimated taxable income for the current accounting year in accordance with the provisions of the Income Tax Act, 1961. Deferred tax resulting from "timing difference" between taxable and accounting income is accounted for using the tax rates and laws that are enacted as at the Balance Sheet date. Deferred tax asset is recognised and carried forward only to the extent that there is virtual certainty that the asset will be realized in future.

L. Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent Liabilities are not recognised, but are disclosed in the notes to the Financial Statements. Contingent assets are neither recognised nor disclosed in the Financial Statements.

M. Impairment of Assets

An asset is considered as impaired in accordance with Accounting Standard 28 on "Impairment of Assets". When at the Balance Sheet date, there are indications of impairment and the carrying amount of the asset or where applicable of the cash generating unit to which the asset belongs exceeds its recoverable amount (i.e. the higher of the asset's net selling price and value in use). The carrying amount is reduced to the recoverable amount and the reduction is recognised as an impairment loss in the Statement of Profit and Loss.

N. Operating Leases

Leases where significant portion of risk and reward of ownership are retained by the Lessor are classified as operating leases and lease rental thereof are charged to the Statement of Profit and Loss as per the terms of agreement which is representative of the time pattern of the user's benefit.
