11. Management Discussion and Analysis

Industry Structure and Development

The Indian paint industry has been witnessing a gradual shift in the preferences of people from the traditional whitewash to higher quality paints like emulsions and enamel paints, which is providing the basic stability for growth of Indian paint industry. Besides, it is creating a strong competitive market, where players are utilizing different strategies to tap the growing demand in the market for a larger share.

The Company is present in Coatings and Specialty Chemicals segments. The decorative paint market is segmented into high and medium end acrylic exterior and interior emulsions and enamel paints, low end distempers, wall putty, primers, cement paints, and wood coatings. They can also be broadly categorised into water and solvent based paints. The rural sector in India has a major share of decorative paints segment. Thus any benefit to the rural sector for improving the dispensable income is directly co-related to the growth of the paint industry.

Decorative Paints account for a major part of the industry. The main drivers for the growth of this sector have been shortening of the repainting cycle and increased demand from smaller towns. Another important driver for demand of Decorative paints is the new homes backed by easy availability of finance.

Industrial Paints is essentially a B2B business and is technology intensive with a diverse set of growth drivers, which include key customer relationships, sustained focus on R&D and innovation and strong emphasis on selling a solution rather than a product.

In Specialty Chemicals segment, the Company operates in Polymer Chemistry and Surface Chemistry businesses, which cater to oil & gas, personal care and agrochemical industries.

Industry Outlook

As per the analysis, Indian paints industry by value and volume, is expected to grow at a CAGR of around 12% during 2016-17 to 2021-22 in value terms. Our research is an outcome of extensive primary & secondary research, where industry trends are being identified.

Further, decorative paints have the maximum demand. The Company will enhance capacity in phases taking advantage of its multiple locations all over India, introduce new products, strengthen servicing capabilities and bolster logistics, distribution and storage capability.

Opportunities and Threats

Paint Industry in India is driven by growth not only in construction activities but also in automotive industry. Media exposure and innovative marketing initiatives by the players have also added impetus to increasing awareness about latest trends prevalent in the sector. Due to increased Government funding for infrastructure, paint industry is poised for growth.

A further analysis of key drivers and challenges of the market indicate the factors for growth of the market including boom in real estate construction, growth in industrial sector, growth in automobile industry, increase in disposable income, increased government expenditure on infrastructure.

Your Company is poised to grow in the Decorative as well as Industrial segment. The Company is in the process of reinforcing its current production facilities and is simultaneously expanding its manufacturing base to new geographical locations. Many new products are ready for launch in the coming months.

Risk and Concerns

The paint sector in India is facing certain challenges. Factors like rising input prices and stringent environmental regulations pose a barrier for growth.

The paint sector is raw material intensive, with over 300 raw-materials (50% petro-based derivatives) involved in the manufacturing process. Since most of the raw materials are petroleum based, the industry is sensitive to crude oil prices. Another concern is that the demand for paint, being a discretionary expenditure, is typically hurt during periods of inflation.

Further, as the growth of Paint Industry is aligned with the growth of economy, any sluggish economic growth may adversely impact the business of the Company. Similarly, depreciating rupee may also impact the profitability of your company. However, recent softening of oil prices would reduce the raw material cost thereby boost up your company's financial performance.

Internal Control Systems

The internal control system is an integral part of the general organizational structure of the Company. The system is highly structured and totally in sync with the size and nature of its business. This process is aimed at pursuing the values of both procedural and substantial fairness, transparency and accountability. External audit firms are appointed at various locations of the Company to conduct regular audits. 'Annexure- B' to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of Shalimar Paints Limited ('the Company') as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, both issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note which are applicable to an audit of internal financial controls, require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

'Annexure- A' to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2016, we have audited the internal financial controls over financial reporting of Shalimar Paints Limited (the Holding Company') and its subsidiary companies , as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, both issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note which are applicable to an audit of Internal Financial Controls ,require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies have in all material respects, and adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
