MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The key areas of Management Discussion and Analysis are given below:

The company is into manufacturing of chemical dyes and specialty intermediates for leading agrochemical and specialty chemical companies in India.

Industry Overview

Last year saw a considerable increase in macroeconomic volatility due to geopolitical tensions, currency fluctuations, inflationary conditions and other global factors, which impacted overall trade conditions.

Despite this the Indian agrochemicals market is projected to register a CAGR of 8.5% during the forecast period (2022-2027). Various disruptions in 2022 have now receded in second half of 2024 and business volumes are stabilizing. The likely reshaping of supply chain will happen over next one year on account of tariffs and protectionist measures adopted by various countries. The long term outlook still remains intact and will result in better and stable business volumes.

The last two decades have seen a significant shift in the global specialty chemicals industry with developed countries losing their production supremacy (particularly the US) to emerging market nations in Asia. Key facilitators for this shift include stricter environmental norms in western countries and cost advantages enjoyed by emerging markets in terms of logistics and labour.

Outlook

The chemicals industry supports India's agricultural and industrial development. It provides raw materials, intermediates and process chemicals for dyes and chemicals, agrochemicals, detergents and soaps, textiles, paper, paints, pharmaceuticals, varnish, etc. Specialty chemicals segment has grown rapidly in last few years, driven by an increase in domestic consumption from various end-user industries and rising exports. It is expected that this segment to clock 10-12% CAGR during fiscals 2021 to 2026 driven by rising domestic consumption and exports.

Opportunities and Threats

Market for agrochemicals is rising rapidly in India and has shown considerable resilience despite global volatility. Innovation led growth will sustain the growth rate of agrochemicals and will lead to better market conditions.

Consolidation of vendor ecosystems is an emerging theme across global chemicals supply chains, with many products being sourced from countries with robust ecosystems. These trends stem from cutting the need to cut costs, drive volumes and adhere with global environmental regulations. India is well-positioned with a scalable, compliant ecosystem for manufacturing chemicals. This is being accentuated by realignment of geopolitical equations, in turn driving foreign trade and creating favourable diversification in global manufacturing from China to countries like India.

Risks & Concerns

Regulatory Risks:

The Company remained cognisant of the importance of adopting Safety, Health and Environment (SH&E) norms. It also judiciously follows reduce-reuse-recover principles across sites. Stricter regulatory norms may result in higher compliance costs.

Innovation Risk

Risk of redundancy and losing out to competition on account of poor R&D is a major overhang.

The Company has been focused on strengthening its technical skill-set around niche application and has always emphasised product innovation and improvement in process engineering.

Raw Material Risk

The Company runs the risk of ready availability of raw materials and fluctuation in raw material prices.

The Company has fostered long-standing relationships with its suppliers to ensure steady availability of raw materials at competitive prices. The Company follows a RM-plus pricing mechanism for its various speciality chemicals. This reduces margin/ topline pressures in the event of rising input costs.

Internal Control System and Adequacy

The Company has suitable and adequate internal control system and adequacy system for safeguarding the assets. Board of Directors is reviewing the system from time to time for benefits of the company. Reviews are conducted on an on-going basis, based on a comprehensive risk based audit plan, which is approved by the Audit Committee at the beginning of each year. The Audit Committee meets on a quarterly basis to review and discuss the various Internal Audit reports and follow up action plans of past significant audit issues and compliance to the audit plan.

Human Resources

The company is providing sufficient motivation for better performance of human resources. Company's main emphasis is on developing skill and expertise in employees. Steps are taken for reskilling and upskilling Company's talent pool with future-ready and future-engaged competencies. This includes functional capability, behavioural or managerial capability and leadership capability.

Financial Performance

The financial Performance of the Company for the year under review is discussed in detail in the Directors Report.

Preparation and Presentation of Financial Statements

Basis of Preparation & Measurement

The financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standard) Rules, 2015. The Presentation of the Financial statement is based on Ind AS Schedule III of the Companies Act, 2013.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, unless otherwise stated. All assets and liabilities are classified into current and non-current generally based on the criteria of realisation/settlement within a twelve-month period from the balance sheet date.

Current/Non- Current Classification

Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- (i) Expected to be realised or intended to be sold or consumed in normal operating cycle
- (ii) Held primarily for the purpose of trading
- (iii) Expected to be realised within twelve months after the reporting period, or
- (iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- (i) It is expected to be settled in normal operating cycle
- (ii) It is held primarily for the purpose of trading
- (iii) It is due to be settled within twelve months after the reporting period, or
- (iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

Company classifies all other liabilities as non-current. Company has identified twelve months as its operating cycle.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in India requires the management to make estimates and assumptions that affect the reported amount of assets and liabilities as of the Balance Sheet date, reported amount of revenues and expenses for the year and disclosure of contingent liabilities as of the Balance Sheet date.

Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about the assumptions and estimates may result in outcomes requiring a material adjustment to the carrying amount of assets or liabilities in future periods. Difference between actual results and estimates are recognized in the Profit and Loss Statement in the year in which the results are known/ materialized.

Property, Plant and Equipment

Items of Property, Plant and Equipment are valued at cost, namely, cost of acquisition and other incidental expenses directly related to their installation/erection less accumulated depreciation and impairment, if any. Capital work-in-progress comprises of the cost of fixed assets that are not yet ready for their intended use at the reporting date. Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefit from the existing asset beyond its previously assessed standard of performance.

On transition to Ind AS, the Company has elected to continue with the carrying value of all its property, plant and equipment recognized as at April 1, 2016 measured as per the previous Indian GAAP and use that carrying value as the deemed cost of property, plant and equipment.

Depreciation on tangible assets (other than Leasehold Land) is generally computed on a pro-rata basis on the basis of the estimated life specified in Schedule II of the Companies Act, 2013 under Straight line method. The useful life of assets prescribed in Schedule II to the Companies Act, 2013 are considered for the purpose of Computation of Depreciation. Depreciation charge on additions / deletions is restricted to the period of use.

No depreciation is provided for leasehold land since as per the lease agreements; the leases are renewable at the option of the Company for a further period of 99 years at the end of the lease period of 99 years, without / with marginal payment of further premium.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Impairment

Assessment is done at each Balance Sheet date as to whether there is any indication that an asset (tangible and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset / cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognized for an asset in prior accounting periods may no longer exist or may have decreased.

Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Inventories

Inventories include raw materials, work-in-progress, finished goods. Inventories are valued at the lower of cost and net realizable value. Cost of inventories comprises of purchase cost, cost of conversion and other cost including manufacturing overheads incurred in bringing the inventory to present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Foreign Currency Transactions

Initial Recognition

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Subsequent Recognition

As at the reporting date, non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. All monetary assets and liabilities in foreign currency are reinstated at the end of accounting period.

Exchange Difference

Exchange difference arising on the settlement of monetary items or on reporting company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or expenses in the year in which they arise.

Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to company and

Annual Report 2024-25

the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company continues to account for the export incentives in the year in which such claims are sanctioned by the relevant government authorities as per Generally Accepted Accounting Principles and the accounting method consistently followed by the company.

Interest income

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable. Interest income is included under the head Other Income in the Statement of Profit and Loss.

Employee Benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and recognized in the period in which the employee renders the related service. Contribution towards provident fund for employees is made to the regulatory authorities, where company has no further obligations. Such benefits are classified as Defined Contribution Schemes as company does not carry any further obligations, apart from the contributions made on a monthly basis

As regard Post Employment Benefits, the cost of providing for Benefits for Define Benefit Plans (Gratuity) is determined on Independent External Actuarial Valuation Basis in accordance with the provisions of Payment of Gratuity Act, 1972.

Taxes on Income

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the period. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the relevant prevailing tax laws. Tax expenses relating to the items in profit and loss shall be treated as current tax as part of profit and loss and those relating outside Profit and loss, other comprehensive income (OCI) shall be recognized as part of the part of OCI.

Deferred tax is recognized for all the timing differences, subject to the consideration of prudence in respect of deferred tax assets. Deferred tax assets are recognized and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. At each Balance Sheet date, company re-assesses unrecognized deferred tax assets, and only accounts for the same if there is certainty of realising the same.

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that company will pay normal income tax during the specified period. As per transition provisions MAT shall be treated as part of deferred tax assets.

Provisions and Contingent Liabilities

Provisions: Provisions are recognized when there is a present obligation as result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date and are not discounted to its present value.

Contingent Liabilities: Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

In connection with our audit of the Standalone Ind AS Financial Statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management and Those Charged with Governance for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Ind AS Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent;

and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind As Financial Statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS Financial Statements, including the disclosures, and whether the Standalone Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Ind AS Financial Statements for the financial year ended March 31, 2024 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
