CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

Information as required under Section 134 of the Companies Act, 2013 read with the Companies (Accounts) Rules, 2014 is set out hereunder.

1) CONSERVATION OF ENERGY**a) Steps taken for conservation of energy**

Utilization of energy is the one of the core area used during the construction. Total cost of construction includes large part of energy consumption. Energy conservation continues to be the key focus area of your Company. The Company is making continuous effort for energy conservation. Effective measures have been taken to monitor consumption of energy during the process of construction. Continuous monitoring and awareness amongst employees has helped to avoid wastage of energy. Major steps taken for energy conservation for FY 2018-19 including some of the proposed steps are as under:

- Your company's head office, corporate office and toll booths are so well constructed which required minimum power consumption during daylight.
- Your company has acquired highly efficient machinery/equipment which gives maximum output by using optimum resources.
- Continuously we take necessary activities to educate and encourage employees to establish energy efficient practices.

b) Steps taken by the Company for Utilizing alternative source of energy

Solar panels turn energy from the sun's rays directly into useful energy that can be used in homes and businesses. There are two main types: solar thermal and photovoltaic, or PV. Solar thermal panels use the sun's energy to heat water that can be used in washing and heating. PV panels use the photovoltaic effect to turn the sun's energy directly into electricity, which can supplement or replace a building's usual supply.

Management Discussion & Analysis

1. FORWARD-LOOKING STATEMENTS

This Report contains statements that constitute 'forward looking statements' including, without restraint, statements relating to the expectations, projections and implementation of strategic initiatives and other statements relating to the future business growth/ developments and economic performance. These statements are based on certain expectations, beliefs, projections and future expectations concerning, the development of strategic growth, market risks, uncertainties and other factors depends on the management's thoughts. It could differ from actual performance and results, to differ significantly from Management's thoughts / expectations.

2. INDUSTRY STRUCTURE AND DEVELOPMENTS

The Indian economy is the bright spot in the global landscape, becoming one of the fastest-growing big emerging market economies in the world. The Indian infrastructure Research report provides a realistic estimate of investment opportunity in infrastructure amid the stiff challenges facing the sector. Infrastructure is the second largest economic activity in India after agriculture, and has been growing rapidly. The production of industrial machinery has also been on the rise – and the increasing flow of goods has spurred increases in rail, road and port traffic, necessitating further infrastructure improvements.

The government's policy to increase private sector participation has proved to be a boon for the infrastructure industry with a large number of private players entering the business through the public-private partnership (PPP) model. The Government permitting 100 per cent foreign direct investment (FDI) in the road sector, several foreign companies have formed partnerships with Indian players to capitalise on the sector's growth. In FY19, 10,855 km of highways were constructed, and the Government has set a target for constructing 12,000 km of national highways in FY20. In March 2020, NHAI (National Highways Authority of India) accomplished the highest ever highway construction of 3,979 kms. In April 2020, the Government set a target of constructing roads worth Rs 15 lakh crore (US\$ 212.80 billion) in the next two years. Under Union Budget 2020-21, the Government has allocated Rs 91,823 crore (US\$ 13.14 billion) to the Ministry of Road Transport and Highways. The Government plans to invest Rs 15 lakh crore (US\$ 214.62 billion) in the next five years. The Government's move to cut GST rates on construction equipment from 28 per cent to 18 per cent is expected to give boost to the industry.

(a) Road Infrastructure

Road Infrastructure is vital to India's economy. Roads are a major mode of Transportation in India today. India has the second largest road network in the world at 5.89 million km. This nettraffic Road movement has gradually increased over the years with the improvement in connectivity between cities, towns and villages in the country.

The private sector has emerged as a key player in the development of road infrastructure in India. Increased industrial activities, along with increasing number of two and four wheelers have supported the growth in the road transport infrastructure projects. The government's policy to increase private sector participation has proved to be a boon for the infrastructure industry with a large number of private players entering the business. Road transport more than 64.5 per cent of all goods in the country and 90 per cent of India's total passenger through the public-private partnership (PPP) model.

The construction of highways reached 9,829 km during FY18 which was constructed at an average of 26.93 km per day. The Government of India has set a target for construction of 10,000 km national highway in FY19. Total length of roads constructed under Prime Minister's Gram Sadak Yojana (PMGSY) was 47,447 km in 2017-18.

The government, through a series of initiatives, is working on policies to attract significant investor interest. A total of 200,000 km national highways are expected to be completed by 2022. The Government has allocated Rs 19,500 crore (US\$ 2.79 billion) under Pradhan Mantri Gram Sadak Yojana (PMGSY). As per the Union Budget for FY20, 30,000 km of PMGSY roads were to be built using green technology, waste plastic and cold mix technology, thereby reducing carbon footprint. To widen and revamp 1,25,000 kms of road over the next five years, the Government has approved the launch of phase-III of PMGSY at an estimated cost of Rs 80,250 crore (US\$ 11.48 billion).

(b) Solar Energy

The Ministry of New and Renewable Energy under the supervision of the Government of India has formulated an action plan to achieve a total capacity of 60 GW from hydro power and 175 GW from other RES by March 2022, which includes 100 GW from solar power, 60 GW from wind power, 10 GW from biomass power and 5 GW from small hydro power.

In 2019, India installed 7.3 GW of solar power across the country, establishing its position as the third-largest solar market in the world, India's solar capacity addition is set for a record in 2019-20. New installations this year will reach nearly 14 gigawatts (GW), which is about 50% more than the capacity added last year, according to a report by an Energy Consultancy Firm. The new capacity addition will take India's installed solar capacity to about 38 GW by the end of the year. As on 2019-20, a total solar power capacity installed is 33,730 MW. In addition, tenders of around 22,839 MW are in pipeline for which LoI has been issued but not commissioned and for around 28,578 MW tender issued but LoI yet to be issued. Based upon availability of land and solar radiation, the potential solar power in the country has been assessed to be around 750 GWp. The Grid connected rooftop solar programme was approved

for with a target for achieving a cumulative capacity of 40,000 MW from Rooftop Solar (RTS) Projects by the year 2022 in 27 February 2019. The programme will be implemented with the total central financial support of Rs 11,814 crore through DISCOMs.

The industry has witnessed rapid growth over the past few years and is projected to grow further in future. As India is blessed with ample solar radiation and most part of the country receives 300 to 330 sunny days in a year. India today receives solar energy equivalent to more than 5,000 Trillion kWh per year, which is far more than its total annual energy consumption. India's geographical location, large population and government support are assisting it to become one of the most rapidly emerging solar energy markets in the world.

3. OPPORTUNITIES

In order to keep pace with the expected trade growth, the demand for the provision of power, transportation and logistics will grow likewise. The infrastructure sector has become the biggest focus area of the Government of India. Under Union Budget 2020-21, US\$ 63.20 billion was allocated to the sector India's national highway network is expected to cover 50,000 kilometres by 2021. National highway construction in India has increased by 20 per cent year-on-year in 2019-20. In the road's sector, the government's policy to increase private sector participation has proved to be a boon for the infrastructure industry with a large number of private players entering the business through the public-private partnership (PPP) model. India is expected to become the third largest construction market globally by 2022. India has a requirement of investment worth Rs 50 trillion (US\$ 777.73 billion) in infrastructure by 2022 to have sustainable development in the country.

Foreign Direct Investment (FDI) received in Construction Development sector (townships, housing, built up infrastructure and construction development projects) from April 2000 to December 2019 stood at US\$ 25.05 billion, according to the Department of Industrial Policy and Promotion (DIPP). The logistics sector in India is growing at a CAGR of 10.5 per cent annually and is expected to reach US\$ 215 billion in 2020.

4. THREATS

Factors, which can threaten the business model and the Company's market standing, emerge from changes in government policies, safety and security concerns and so on. Some possible threats include:

- **Market competition:** The Company competes with a number of Indian and international infrastructure operators in acquiring concessions for both new and existing road projects. The competition, which had increased manifold in the past decade, has now eased out relatively in the last two years with market players turning cautious, leading to more rational bids. For NHAI bids, 2015 saw 3-4 bidders vying for BOT highway projects, compared to 20 bidders in 2011. Considering the ever-changing market competition, the Company adapts its policies and procedures to ensure a sustained business model. With the government keen on promoting EPC contracts, the duplicity of participants in both the EPC and the PPP sector are expected to reduce considerably, with very few and established players remaining in the PPP sector. There are also giant companies in the competition with highly technologic equipment which make hurdles to your Company to get tender at best price.
- Our profitability and result of operations may be adversely affected in the event of increases in the prices of raw materials, sub-contracting costs, and costs of consumables and spares or other inputs, or a delay in the supply of raw materials.
- Working capital cycle has been lengthened mainly due to overextended receivables, which has affected the cash flow position of companies in the sector. The Sector continues to face rising material and labor costs. High inflations have diminished private sector investments in capital expenditure. These along with the high interest rates have led to drops in margins.
- Infrastructure financing has been a major problem particularly in the roads sector and banks needs to make modifications to meet financing needs of road sector. Long-term financing has been a problem for banks as it has to borrow short-term to lend long-term projects. Funds are required and so is innovation. Long term market instability and uncertainty may damage the opportunities and prevent the expansion.

5. OUTLOOK

The history of infrastructure Industry in India has witnessed higher growth and will continue to be so because of the following reasons. Sectors like power transmission, roads & highways and renewable energy will drive the investments in the coming years. The roads and highways sector is expected to take a big blow from the nationwide lockdown to contain COVID-19 Pandemic, which has pushed back a much anticipated economic recovery this fiscal by bringing movement of people, goods and all major industries to a standstill. The government has been facilitating measures to safeguard liquidity, compensate developers for the losses experienced during the lockdown and provide a additional loan as COVID Facilities for a smooth resumption of operations. New models of infrastructural development such as HAM will be beneficial by bringing together both private and public participants. India has a requirement of investment worth 50 trillion (US\$ 777.73 billion) in infrastructure by 2022 to have sustainable development in the country. Thus, the speed of infrastructural development needs to be amped up for bridging the demand-supply gap.

(i) Share Transfer System

Trading in equity shares of the Company through recognized Stock Exchanges can be done only in dematerialized form. In case of shares held in physical form, the transferred share certificates duly endorsed are dispatched within 15 days from the date of receipt of documents, provided documents are valid and complete in all respects. In compliance of the relevant provisions of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the share transfer system of the Company is audited every six months by a Practicing Company Secretary and a certificate to that effect is issued by him/her.

Trading / Transfer in the shares of the Company shall compulsorily be done in dematerialized form only w.e.f. April 01, 2019. Pursuant to SEBI Press Release No. 12/2019 dated 27th March, 2019, SEBI had clarified that the investors may continue to hold such shares in physical form even after the 1st April, 2019 subject to condition that investor who is desirous of transferring shares (which are held in physical form) after April 01, 2019 can do so only after the shares are dematerialized. Shareholders are therefore advised to dematerialize your physical shareholding at the earliest, if not yet already done. Dematerialization would facilitate paperless trading through state-of-the-art technology, quick transfer of corporate benefits to members and avoid inherent problems of bad deliveries, loss in postal transit, theft and mutilation of share certificate and will not attract any stamp duty. It also substantially reduces the risk of fraud. Hence, we request all those members who have still not dematerialized their shares to get their shares dematerialized at the earliest.

In case of request for dematerialization of shares, confirmation of dematerialization is sent to the respective depository i.e. National Securities Depository Limited (NSDL) or Central Depository Services (India) Limited (CDSL), expeditiously.

Independent Auditor's Report

Standalone

To the Members of MADHAV INFRA PROJECTS LIMITED

Report on the Audit of the Financial Statements

1. Opinion

We have audited the standalone financial statements of **MADHAV INFRA PROJECTS LIMITED** ("the Company"), which comprise the standalone Balance Sheet as at March 31, 2020 and the standalone Statement of Profit and Loss (including other comprehensive income), standalone statement of changes in equity and the standalone statement of cash flows for the year ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the independence requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of Ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

2. Emphasis of Matter:

- I. We draw attention to Note No. 47 in the standalone financial statements in respect of Searches/ Surveys carried out at various places of the Company and disclosure of the unaccounted income of Rs. 25.86 crores before the Hon'ble Income Tax Settlement Commission. The company has received order from Settlement commission for above disclosures and the Effect of the said order passed has been given in the Financial Statement for the year ended 31st March, 2020. Out of the said undisclosed income, Rs. 25. 70 crores has been shown under the head 'Other Income' in statements of profit and loss accounts instead of showing under the head 'Exceptional Item' in statements of profit and loss accounts as per the applicable accounting standards and other accounting principles generally accepted in India.
- II. We draw attention to Note No. 42 of the accompanying standalone financial statements regarding treatment of Non-Cumulative Preference Shares of Rs.10/- each fully paid up. The Board of Directors had at their meeting, approved for changes/variance in term Non-Cumulative Preference Shares of Rs.10/- each fully paid up. The same was subject to approval of shareholder. However, resolution pertaining to above matter has not been presented in the Annual General Meeting of the company held on 30.09.2019. The company has not ascertained the effect of the Non-Cumulative Preference Shares of Rs.10/- each fully paid up as per Ind AS 109 Financial Instruments. No effect for the above-mentioned matter has been given to the financial statements for the year ended 31st March, 2020.

Our opinion is not modified in respect of the above matters.

3. Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the standalone financial statements of the current period. We have determined that there are no key audit matters to be communicated in our report.

4. Information other than the Standalone Financial Statement and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in Board's Report including Annexures to that Board's Report, Corporate Governance and Shareholder's Information, but does not include the Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

5. Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

6. Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, if applicable, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. Report on other Legal and Regulatory Requirements

- I. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of sub-section (11) of section 143 of the Act, and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure "A" a statement on the matters specified in the paragraph 3 and 4 of the said Order, to the extent applicable.
- II. As required by section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law except for the effects of the matters described in the Basis for Qualified Opinion section of our report have been kept by the Company so far as it appears from our examination of those books.

 - d) The standalone Balance sheet, the Standalone Statement of Profit and Loss including Other Comprehensive Income, the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flow dealt with by this report are in agreement with the relevant books of account.
 - e) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - f) On the basis of written representations received from the directors as on 31 March, 2020, taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2020, from being appointed as a director in terms of Section 164(2) of the Act.
 - g) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in 'Annexure B' and
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended in our opinion and to the best of our information and according to the explanations given to us, remunerations paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
 - i) In our opinion and to the best of our information and according to the explanations given to us, we report as under with respect to the other matters included in the Auditor's Report in accordance with the Rule 11 of the Companies (Audit and Auditors) Rules, 2014:
 - I. The Company does not have any pending litigations which would impact its financial position.
 - II. The Company did not have any long-term contracts including derivative contracts as such the question of commenting on any material foreseeable losses thereon does not arise.
 - III. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE-B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **MADHAV INFRA PROJECTS LIMITED** ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2020

GENERAL INFORMATION

Madhav Infra Projects Limited (the Company) is a public limited company incorporated in India (CIN: L45200GJ1992PLC018392) having its registered office in Vadodara. The Company is engaged in the business of Infrastructure Development & Solar Power generation.

These standalone financial statements for the year ended March 31, 2020 were approved for issue by the Board of Directors vide its resolution dated August 25, 2020.

1. SIGNIFICANT ACCOUNTING POLICIES

1.1 STATEMENT OF COMPLIANCE

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) Rules, 2016.

1.2 BASIS OF PREPARATION

The financial statements have been prepared on a historical cost basis except for certain financial assets and financial liabilities (including financial instruments) which have been measured at fair value at the end of each reporting period as explained in the accounting policies stated below.

1.3 CURRENT VS NON – CURRENT CLASSIFICATION

The Company has classified all its assets and liabilities under current and non-current as required by Ind AS 1- Presentation of Financial Statements. The asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

All liabilities are current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

1.4 REVENUE RECOGNITION

All revenue and expenses are accounted for on accrual basis except to the extent stated otherwise. The Company follows the percentage completion method, based on the stage of completion at the Balance sheet date taking in to account the contractual price and revision thereto by estimating total revenue and total cost till completion of the contract and profit so determined has been accounted for proportionate to the percentage of the actual work done.

In the case of lump-sum contract revenue is recognized on the completion of milestone as specified in the contract or as identified by the management. Foreseeable losses are accounted for as and when they are determined except to the extent they are expected to be recovered through claims presented or to be presented to be customer or in arbitration.

Amount due in receipt of the price escalation claim and/ or variation in contract work approved by the customers are recognized as revenue only when there are conditions stipulated in the contracts for such claims or variation and/ or the same are evidenced inter alia by way of confirmation of the same are accepted by the customers.

Disputed amount under the contract works are recognized as revenue when the same are settled and amounts are received.

Liquidated damages payable, if any, as per the terms of contract, for the delays, if any, are accounted only when such delay is attributable to the company.

Dividend

Dividend income is recognized when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

Interest Income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

1.5 FOREIGN CURRENCY TRANSACTION

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities at the Balance Sheet date are translated at the exchange rate prevailing on the date of Balance Sheet.

Exchange rate differences resulting from foreign currency transactions settled during the period including year-end translation of assets and liabilities are recognized in the Statement of Profit and Loss.

Non-monetary assets, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the initial transaction.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or Statement of Profit and Loss are also recognized in OCI or Statement of P&L, respectively).

1.6 GOVERNMENT GRANTS

Monetary government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

The grant related to an expense item is recognized as income in the year in which it is received. Grant in the form of cash benefit is recognized in the Balance Sheet as deferred income and it is transferred to Statement of Profit and Loss over the useful life of the concerned asset.

1.7 EMPLOYEE BENEFITS

Short Term Employee Benefits:

A liability is recognised for benefits accruing to employees in respect of short term employee benefits in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

A liability is recognised for benefits accruing to employees in respect of other long term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by the employees up to the reporting date.

1.8 TAX EXPENSES

Current Tax

Current tax payable is calculated based on taxable profit for the year. Current tax is recognized based on the amount expected to be paid to or recovered from the tax authorities based on applicable tax laws that have been enacted or substantively enacted by the balance sheet date. Management periodically evaluates positions taken in the tax return with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary timing difference. Deferred tax assets are recognized for deductible temporary differences to the extent that they are probable that taxable profit will be available against which the deductible temporary difference can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted on the reporting date.

Current and deferred tax for the year are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

Minimum Alternate Tax (MAT) Credit

Minimum Alternate Tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognises MAT credit available as a deferred tax asset only to the extent that there is reasonable certainty that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. The MAT credit to the extent there is reasonable certainty that the Company will utilise the credit is recognised in the Statement of profit and loss and corresponding debit is done to the Deferred Tax Asset as unused tax credit.

1.9 PROPERTY, PLANT AND EQUIPMENT

Freehold Land is stated at historical cost

All other items of property, plant and equipment are stated at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably. When significant parts of plant and equipment are required to be replaced at intervals, the company depreciates them separately based on their specific useful lives. All other repairs and maintenance costs are recognized as expense in the statement of profit and loss account as and when incurred.

Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre - operative expenses and disclosed under Capital Work- in- Progress.

Cost of the assets less its residual value (estimated at 5% of the cost) is depreciated over its useful life. Depreciation is provided using written down value method on depreciable amount. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II;

Particulars	Depreciation
Plant & Machinery of Solar Power Generation Plant	25 Years

The management believes that the estimated useful lives are realistic and reflects fair approximation of the period over which the assets are likely to be used. At each financial year end, management reviews the residual values, useful lives and method of depreciation of property, plant and equipment and values of the same are adjusted prospectively where needed.

1.10 INTANGIBLE ASSETS

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles are not capitalized and the related expenditure is reflected in the statement of profit or loss in the period in which the expenditure is incurred.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit or loss when the asset is derecognized.

1.11 BORROWING COST

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are considered as a part of cost of such assets less interest earned on the temporary investment. A qualifying asset is one that necessarily takes substantial period of time to get ready for the intended use. All other borrowing costs are charged to Statement of Profit & Loss in the year in which they are incurred.

1.12 IMPAIRMENT OF ASSETS

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognized in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

1.13. INVENTORY

- i. Inventory is valued at lower of cost and net realizable value. Cost is determined on FIFO basis
- ii. Unbilled cost are carried as construction work in progress which is valued considering the stage of completion and for sea-ble losses in accordance with the Indian Accounting Standard - 11.
- iii. Stores and spares are written off in the year of purchase.

1.14. PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions

Provisions are recognized when the company has present obligation (legal or constructive) as a result of past event and it is probable that outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense related to a provision is presented in the statement of profit and loss net of any reimbursement/contribution towards provision made.

If the effect of the time value of money is material, estimate for the provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent Liability

- When there is a possible obligation which could arise from past event and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or;
- A present obligation that arises from past events but is not recognized as expense because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or;
- The amount of the obligation cannot be measured with sufficient reliability.

Commitments

Commitments include the value of the contracts for the acquisition of the assets net of advances

Contingent Assets

Contingent asset is disclosed in case a possible asset arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

Onerous Contract

A provision for onerous contracts is measured at the present value of the lower expected costs of terminating the contract and the expected cost of continuing with the contract. Before a provision is established, the Company recognizes impairment on the assets with the contract.

1.15. LEASES

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

- (A) Lease Liability At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using incremental borrowing rate.
- (B) Right-of-use assets Initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives.

Subsequent measurement

- (A) Lease Liability Company measure the lease liability by (a) increasing the carrying amount to reflect interest on the lease liability; (b) reducing the carrying amount to reflect the lease payments made; and (c) remeasuring the carrying amount to reflect any reassessment or lease modifications.
- (B) Right-of-use assets Subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight line basis over the shorter of the lease term and useful life of the underlying asset.

Impairment Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

Short term Lease

Short term lease is that, at the commencement date, has a lease term of 12 months or less. A lease that contains a purchase option is not a short-term lease. If the company elected to apply short term lease, the lessee shall recognise the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis. The lessee shall apply another systematic basis if that basis is more representative of the pattern of the lessee's benefit.

As a lessor

Leases for which the company is a lessor is classified as a finance or operating lease. Whenever, the terms of the lease transfers substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. Lease income is recognised in the statement of profit and loss on straight line basis over the lease term.

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Company has adopted Ind AS 116, effective annual reporting period beginning 1st April, 2019 and applied the standard prospectively to its leases.

Refer note 1.15 significant accounting policy -leases in the annual report of the company for the year ended 31st March,2019, for the erstwhile policy as per Ind AS 17.

1.16. FINANCIAL INSTRUMENTS

The Company recognizes financial assets and financial liabilities when it becomes party to the contractual provision of the instrument.

i. Financial Assets**Initial recognition and measurement:**

Financial assets are initially measured at its fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the concerned financial assets, as appropriate, on initial recognition. Transaction costs directly attributable to acquisition of financial assets at fair value through profit or loss are recognized immediately in profit or loss. However, trade receivable that do not contain a significant financing component are measured at transaction price.

Subsequent measurement:

For subsequent measurement, the Company classifies financial asset in following broad categories:

- Financial asset carried at amortized cost.
- Financial asset carried at fair value through other comprehensive income (FVTOCI)
- Financial asset carried at fair value through profit or loss (FVTPL)

Financial asset carried at amortized cost (net of any write down for impairment, if any):

Financial assets are measured at amortized cost when asset is held within a business model, whose objective is to hold assets for collecting contractual cash flows and contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest. Such financial assets are subsequently measured at amortized costs using Effective Interest Rate (EIR) method less impairment, if any. The losses arising from impairment are recognized in the statement of profit or loss. Cash and bank balances, trade receivables, loans and other financial asset of the Company are covered under this category.

Under the EIR method, the future cash receipts are exactly discounted to the initial recognition value using EIR. The cumulative amortization using the EIR method of the difference between the initial recognition amount and maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at amortized cost at each reporting date. The corresponding effect of the amortization under EIR method is recognized as interest income over the relevant period of the financial asset. The same is included under "other income" in the statement of profit or loss. The amortized cost of the financial asset is also adjusted for loss allowance, if any.

Financial asset carried at FVTOCI:

Financial asset under this category are measured initially as well as at each reporting date at fair value, when asset is held with a business model whose objective is to hold asset for both collecting contractual cash flows and selling financial assets. Fair value movements are recognized in the other comprehensive income.

Financial asset carried at FVTPL:

Financial asset under this category are measured initially as well as at each reporting date at fair value. Changes in fair value are recognized in the statement of profit or loss.

Investment in subsidiaries:

The Company has accounted for its investments in subsidiaries at cost.

Other Equity Investments:

All other equity investments are measured at fair value, with value changes recognized in Statement of Profit and Loss.

Derecognition:

A financial asset is primarily derecognized when rights to receive cash flows from the asset have expired or the Company has transferred its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risk and reward of the ownership of the financial asset.

Impairment of financial asset:

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date.

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognized from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables.

At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of Profit and Loss under the head 'Other expenses'.

ii. Financial liabilities:

Initial recognition and measurement:

The Company recognizes a financial liability in its Balance Sheet when it becomes party to the contractual provisions of the instrument. The Company classifies all financial liabilities as subsequently measured at amortised cost or FVTPL.

All financial liabilities are recognized initially at fair value and in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Subsequent measurement:

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

The EIR amortization is included as finance costs in the statement of profit and loss.

Derecognition of financial liabilities:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss

iii. Derivative financial instrument:

Company uses derivative financial instruments such as forward currency contracts to mitigate its foreign currency fluctuation risks. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at each reporting date. Gain or loss arising from changes in the fair value of heading instrument is recognized in the Statement of Profit or Loss.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Derecognition:

On derecognition of hedged item, the unamortized fair value, of the hedging instrument adjusted to the hedged items is recognized in the Statement of Profit or Loss.

iv. Fair value:

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or;
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.17. EARNING PER SHARE (EPS)

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential ordinary shares, which includes all stock options granted to employees.

1.18. ADVANCES, PROGRESS PAYMENTS AND RETENTIONS

Advance received from customers in respect of contracts are treated as liability. Progress payments received are adjusted against receivables from customers in respect of the contract work performed.

Amount (s) retained by the customers until the satisfactory completion of the contract are recognized in the final statement as receivables. Where such retention has been released by the customers against submission of bank guarantee the amount so released is adjusted against receivables from the customers and value of Bank Guarantees is disclosed as contingent liability under bank guarantees outstanding.

1.19. CASH AND CASH EQUIVALENTS

Cash and Cash Equivalents comprise of cash on hand and cash at bank including fixed deposit/highly liquid investments with original maturity period of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

1.20. CASH FLOW STATEMENT

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flow from operating, investing and financing activities of Company is segregated

1.21. EXPENDITURE IN RESPECT OF BUILD, OPERATE & TRANSFER PROJECT

Expenditure incurred on construction (net of corresponding interest income incurred on deployment or other wise of fund attributable to the project) of build, Operate and Transfer (BOT) Project which does not represent Company's own assets is classified as "BOT PROJECT EXPENDITURE" (Lease collection Right) and shown under the head 'Intangible Assets'.

1.22. INVESTMENT IN THE NATURE OF EQUITY IN SUBSIDIARIES AND ASSOCIATES

The Company has elected to recognise its investments in equity instruments in subsidiaries and associates at cost in the separate financial statements in accordance with the option available in Ind AS 27, 'Separate Financial Statements'

1.23. DIVIDEND DISTRIBUTION

Dividend distribution to the Company's equity holders is recognized as a liability in the Company's annual accounts in the year in which the dividends are approved by the Company's equity holders.

1.24. SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker of the Company is responsible for allocating resources and assessing performance of the operating segments and accordingly is identified as the chief operating decision maker.

2. KEY ACCOUNTING JUDGEMENTS; ESTIMATES AND ASSUMPTIONS :

The preparation of the Company's financial statements requires the management to make judgments', estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

A) INCOME TAXES AND DEFERRED TAX ASSETS :

The Company's tax jurisdiction is India. Significant judgments are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. Deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized. The management assumes that taxable profit will be available while recognizing the deferred tax assets.

B) DEPRECIATION / AMORTISATION AND USEFUL LIVES OF PROPERTY, PLANT AND EQUIPMENT / INTANGIBLE ASSETS :

Property, Plant and Equipment / Intangible Assets are depreciated / amortised over their estimated useful lives, after taking into account estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation / amortisation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation / amortisation for future periods is revised if there are significant changes from previous estimates.

C) INTANGIBLE ASSETS

Internal technical or user team assesses the remaining useful lives of Intangible assets. Management believes that assigned useful lives are reasonable.

D) IMPAIRMENT OF NON FINANCIAL ASSETS

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or a group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

E) IMPAIRMENT OF FINANCIAL ASSETS

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

F) CONTINGENCIES

Management judgment is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy

G) PROVISIONS

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability requires the application of judgment to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

H) ALLOWANCES FOR UNCOLLECTED TRADE RECEIVABLE AND ADVANCES

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated amounts which are irrecoverable. Individual trade receivables are written off when management deems them not collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets. The impairment provisions for financial assets are based on assumption about risk of default and expected loss rates. Judgment in making these assumptions and selecting the inputs to the impairment calculation are based on past history, existing market condition as well as forward looking estimates at the end of each reporting period.

36. FAIR VALUE HIERARCHY

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, it has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

(INR in Lakhs)

PARTICULARS	AS AT 31-03-2020

Financial Assets			
Investments :-			
In Equity Instruments (Quoted)	1.34	-	-
In Equity Instruments (Unquoted)	-	-	55.11

PARTICULARS	AS AT 31-03-2019

Financial assets and liabilities measured at fair value on a recurring basis at the end of each reporting period			
Financial Assets			
Investments :-			
In Equity Instruments (Quoted)	1.71	-	-
In Equity Instruments (Unquoted)	-	-	55.11

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

The investments included in Level 3 of fair value hierarchy have been valued using the cost approach to arrive at their fair value. The cost of unquoted investments approximates the fair value because there is wide range of possible fair value measurements and the costs represents estimate of fair value within that range.

The Management considers that the carrying amount of financials assets and financial liabilities carried at amortised cost approximates their fair values.

37. FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities.

A) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities. The carrying amount of following financial assets represents the maximum credit exposure:

a) Trade and Receivables

The Company has used Expected Credit Loss (ECL) model for assessing the impairment loss. For the purpose, the Company uses a provision matrix to compute the expected credit loss amount. The provision matrix takes into account external and internal risk factors and historical data to credit losses from various customers.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed condition, without incurring unacceptable losses or risking damage to the Company's reputation. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of surplus funds, bank overdrafts, bank loans, debentures and inter-corporate loans.

The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The Company has access to a sufficient variety of sources of funding.

The company has un-utilised working capital lines from bank of Rs. 10,877.71 lakh as on March 31, 2020, Rs. 3,271.01 lakh as on March 31, 2019.

Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates, foreign currency exchange rates and commodity prices) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of its investments.

Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

38. CAPITAL MANAGEMENT

The company's objectives when managing capital are to:

> Safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and

> Maintain an optimal capital structure to reduce the cost of capital.

The Company monitors capital on the basis of the carrying amount of debt less cash and cash equivalents as presented on the face of the financial statements. The Company's objective for capital management is to maintain an optimum overall financial structure.

Consistent with others in the industry, the group monitors capital on the basis of the following gearing ratio:

Independent Auditor's Report

Consolidated

To
The Board of Directors of
Madhav Infra Projects Ltd.

1. Opinion

We have audited the accompanying Consolidated Financial Statements of Madhav Infra Projects Limited (hereinafter referred to as "the Holding Company"), and its Subsidiaries (together referred to as "the Group"), its Associates & joint ventures comprising of the Consolidated Balance Sheet as at 31 March 2020, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement, the Consolidated Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, its associates and joint ventures, the aforesaid Consolidated Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards as amended;

- A) in the case of the Consolidated Balance Sheet, of the consolidated statement of affairs of the Group, its associates and its joint ventures as at March 31, 2020;
- B) in the case of the Statement of Profit and Loss, of the Profit of the Group, its associates and its joint ventures for the year ended on that date;
- C) in the case of the Consolidated Cash Flow Statement, of the cash flows of the Group, its associates and its joint ventures for the year ended on that date; and

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

2. Emphasis of Matter

- I. We draw attention to Note No. 48 in the consolidated Statement of Financial Results in respect of Searches/ Surveys carried out at various places of the Company and disclosure of the unaccounted income of Rs. 25.86 crores before the Hon'ble Income Tax Settlement Commission. The company has received order from Settlement commission for above disclosures and the Effect of the said order passed has been given in the Financial Results for the year ended 31st March, 2020. Out of the said undisclosed income, Rs. 25.70 crores has been shown under the head 'Other Income' instead of showing under the head 'Exceptional Item' as per the applicable accounting standards and other accounting principles generally accepted in India.
- II. We draw attention to Note No. 43 of the accompanying consolidated result regarding treatment of Non-Cumulative Preference Shares of Rs.10/- each fully paid up. The Board of Directors had at their meeting, approved for changes/variance in term Non-Cumulative Preference Shares of Rs.10/- each fully paid up to "1% Noncumulative, non-voting compulsorily convertible preference share of Rs. 10 per share." The same was subject to approval of shareholder. However, resolution pertaining to above matter has not been presented in the Annual General Meeting of the company held on 30.09.2019. The company has not ascertained the effect of the Non-Cumulative Preference Shares of Rs.10/- each fully paid up as per Ind AS 109 Financial Instruments. No effect for the above-mentioned matter has been given to the financials result for year ended 31st March, 2020.

Our opinion is not modified in respect of the above matter.

3. Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Consolidated financial statements of the current period. We have determined that there are no key audit matters to be communicated in our report.

4. Information Other than the Consolidated Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, consolidated financial statements and our auditor's report thereon. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

5. Responsibilities of Management and those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these Consolidated Financial Statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the Consolidated Financial Position, Consolidated Financial Performance, Consolidated Cash Flow Statement of the Group including its associates and joint ventures in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standard) Rules, 2015, as amended.

The respective Board of Directors of the companies included in the Group and its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group, its associates and joint ventures and for preventing and detecting the frauds and other irregularities; the selection and application or appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of presentation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates companies and joint ventures are responsible for assessing the ability of the Group and of its associates companies and joint ventures to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so. The respective Board of Directors of the companies included in the Group and of its associates companies and joint ventures are responsible for overseeing the financial reporting process of the Group and of its associate companies and joint ventures.

6. Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, if applicable, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter of when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. Other Matters

We have relied on the audited financial statement of two subsidiary companies, which are audited by the other auditors. The financial statements of the subsidiary companies reflect total assets of Rs. 11.32 Crores as at 31st March, 2020, total revenue of Rs. 3.22 crores for the year then ended and total Net loss of Rs. 0.466 Crores for the year ended 31st March, 2020. These financial statements as approved by the Board of Directors of the respective Company have been furnished to us by the management and our report in so far as it relates to amounts included in respect of these subsidiaries is based solely on such approved audited financial statements.

We have relied upon the audited financial statements of two Associates, wherein Group's share of net loss after tax is Rs. 2.19 crores for the year ended March 31, 2020. These audited financial statements as approved by the board of Directors of the Associates have been furnished to us by the management and our opinion on the Statement in so far as it relates to the amounts and disclosures included in respect of this Associates is based solely on such approved audited financial statements.

We have relied upon the unaudited financial statements of four Joint Ventures wherein Group's share of net loss after tax is Rs. 0.296 crores for the year ended March 31, 2020. These unaudited financial statements as approved by the board of Directors of the Joint Venture have been furnished to us by the management and our opinion on the Statement in so far as it relates to the amounts and disclosures included in respect of this joint venture is based solely on such approved unaudited financial statements.

Our report on the Statement is not modified in respect of our reliance on the financial information/results certified by the management.

8. Report on other Legal and Regulatory Requirements

ANNEXURE-A TO THE AUDITORS' REPORT
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Financial Statements of the Madhav Infra Projects Limited as of and for the year ended March 31, 2020, we have audited the internal financial controls over financial reporting of Madhav Infra Projects Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), its associates and its jointly controlled entities incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to subsidiaries, and its associate companies and joint ventures incorporated in India is based on corresponding reports of the auditors of such companies. Our opinion is not qualified in respect of this matter.

36. FAIR VALUE HIERARCHY

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, it has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

(INR in Lakhs)

PARTICULARS	AS AT 31-03-2020		
	Level 1	Level 2	Level 3
Financial assets and liabilities measured at fair value on a recurring basis at the end of each reporting period			
Financial Assets			
Investments :-			
In Equity Instruments (Quoted)	1.34	-	-
In Equity Instruments (Unquoted)	-	-	55.11

PARTICULARS	AS AT 31-03-2019		
	Level 1	Level 2	Level 3
Financial assets and liabilities measured at fair value on a recurring basis at the end of each reporting period			
Financial Assets			
Investments :-			
In Equity Instruments (Quoted)	23.79	-	-
In Equity Instruments (Unquoted)	-	-	55.11

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

The investments included in Level 3 of fair value hierarchy have been valued using the cost approach to arrive at their fair value. The cost of unquoted investments approximates the fair value because there is wide range of possible fair value measurements and the costs represents estimate of fair value within that range.

The Management considers that the carrying amount of financials assets and financial liabilities carried at amortized cost approximates their fair values.

37. FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities.

A) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities. The carrying amount of following financial assets represents the maximum credit exposure:

a) Trade and Other Receivables

The Company has used Expected Credit Loss (ECL) model for assessing the impairment loss. For the purpose, the Company uses a provision matrix to compute the expected credit loss amount. The provision matrix takes into account external and internal risk factors and historical data to credit losses from various customers.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed condition, without incurring unacceptable losses or risking damage to the Company's reputation. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of surplus funds, bank overdrafts, bank loans, debentures and inter-corporate loans.

Annual Report 2019 - 2020

The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The Company has access to a sufficient variety of sources of funding.

The company has un-utilised working capital lines from bank of Rs.10,877.71 lakhs as on March 31, 2020, Rs. 3,271.01 as on March 31, 2019.

Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates, foreign currency exchange rates and commodity prices) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments, all foreign currency receivables and payables and all short term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of its investments.

Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

38. CAPITAL MANAGEMENT

The company's objectives when managing capital are to:

- > Safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits
- > Maintain an optimal capital structure to reduce the cost of capital.

The Company monitors capital on the basis of the carrying amount of debt less cash and cash equivalents as presented on the face of the financial statements. The Company's objective for capital management is to maintain an optimum overall financial structure.

Consistent with others in the industry, the group monitors capital on the basis of the following gearing ratio:
