Management Discussions & Analysis

ANNUAL OVERVIEW AND OUTLOOK

Global growth is projected to decline after a period of steady but underwhelming performance, amid policy shifts and new uncertainties. Global headline inflation is expected to decline further, notwithstanding upward revisions in some countries. Risks to the outlook are tilted to the downside. Escalating trade tensions and elevated policy-induced uncertainty may further hinder growth. Shifting policies could lead to abrupt tightening of global financial conditions and capital outflows, particularly impacting emerging markets. Demographic shifts threaten fiscal sustainability, while the recent cost-of-living crisis may reignite social unrest. More limited international development assistance could push low-income countries deeper into debt, jeopardizing living standards. At this critical juncture, policies need to be calibrated to foster international cooperation while ensuring internal economic stability, thereby helping reduce global imbalances.

After enduring a prolonged and unprecedented series of shocks, the global economy appeared to have stabilized, with steady yet underwhelming growth rates. However, the landscape has changed as governments around the world reorder policy priorities and uncertainties have climbed to new highs. Forecasts for global growth have been revised markedly down compared with the January 2025 World Economic Outlook (WEO) Update, reflecting effective tariff rates at levels not seen in a century and a highly unpredictable environment. Global headline inflation is expected to decline at a slightly slower pace than what was expected in January.

Intensifying downside risks dominate the outlook, amid escalating trade tensions and financial market adjustments. Divergent and swiftly changing policy positions or deteriorating sentiment could lead to even tighter global financial conditions. Ratcheting up a trade war and heightened trade policy uncertainty may further hinder both short-term and long-term growth prospects. Scaling back international cooperation could jeopardize progress toward a more resilient global economy.

INDUSTRY OVERVIEW

India's GDP grew by 6.2% in the quarter ended December 2024, rising from the 5.6% growth witnessed in the previous quarter. Institutional investment activity in real estate recorded a total of INR 100 bn (USD 1.15 bn). Domestic investors held a 66% share, while foreign investors contributed the remaining 34%. The residential sector was most attractive, having received a 46% share of institutional inflows, followed by the office sector (30%) and retail sector (14%). Despite the presence of current global uncertainties, the outlook for 2025 remains positive for real estate investments in India:

- For FY26, the Reserve Bank of India (RBI) has projected India's real GDP growth at 6.5 per cent, with risks evenly balanced.
- Global economic uncertainty stemming from a potential disruption of global trade could result in foreign PE investors adopting a go-slow approach, although this is likely to reverse soon.
- With another sizeable office REIT filing for an IPO, India's total listed REIT portfolio will comprise 174 MSF of office and retail assets, rendering it a formidable market within the APAC region.

India's economic outlook remains positive, demonstrating resilience amidst persistent global economic headwinds. Stabilising inflationary trends have enabled the RBI to reduce the key policy rate in February 2025. Further policy rate adjustments could be anticipated in the subsequent quarters, contingent upon suitable domestic and international economic conditions.

OPPORTUNITIES & CHALLENGES

Shaped by a new presidential administration, economic shifts, and technological advancements, 2025 marks a transformative year, with significant changes expected across mergers and acquisitions (M&A), IPO activity, regulatory compliance, and cybersecurity. As companies face the demands of a dynamic marketplace, those leveraging emerging technologies like AI will be better positioned to navigate and prepare for the complexities of the evolving capital markets landscape.

We are optimistic about growth in the M&A and IPO markets in 2025. There's a strong appetite for deal-making, with companies positioning themselves for the next phase of economic expansion. The stabilization of interest rates is creating a more predictable financing environment, and sectors like technology, healthcare, and clean energy are driving innovation and opportunities. Additionally, many companies are sitting on significant cash reserves, thanks to the success of their products, and are actively seeking to expand their pipelines and scale their operations. Private equity firms are feeling the pressure to put dry powder to work and finally exit their investments after extended holding periods. We've seen PE-backed companies deliver strong stock performances following their IPOs, which will likely lead to an increase in PE-backed offerings in 2025.

With a new administration in place, companies have more clarity as to how the market and regulators will act and can move forward accordingly. Companies have also been waiting on the side-lines for years, carefully preparing for an IPO, and are now poised to take action.

That said, challenges like inflation, cybersecurity risks, and geopolitical tensions remain critical considerations. To navigate these complexities, clients are increasingly leveraging digital tools and expertise to enhance efficiency, improve data analysis, and maintain compliance with evolving regulations.

As companies ready themselves for the next wave of M&A activity, the ability to act quickly and demonstrate real value to shareholders will be pivotal. Collaborative technologies are expediting deal-making, while CFOs are ensuring their organizations remain agile and ready to seize opportunities. Despite the challenges, the momentum we're seeing across industries reflects a shared optimism for sustained growth and innovation in 2025.

RISKS AND CONCERNS

Khoobsurat Ltd. (KL) has exposures in various line of business. KL are exposed to specific risks that are particular to their respective businesses and the environments within which they operate, including market risk, competition risk, credit risk, liquidity and interest rate risk, human resource risk, operational risk, information security risks, regulatory risk and macro-economic risks. The level and degree of each risk varies depending upon the nature of activity undertaken by them.

MARKET RISK

The Company has quoted investments which are exposed to fluctuations in stock prices. KL continuously monitors market exposure in equity and, in appropriate cases, also uses various derivative instruments as a hedging mechanism to limit volatility.

The Company is exposed to liquidity risk principally, because of lending and investment for periods which may differ from those of its funding sources. Management team actively manages asset liability positions in accordance with the overall guidelines laid down by various regulators. The success of the Company's business depends significantly on interest income from its operations. It is exposed to interest rate risk, both as a result of lending at fixed interest rates and for reset periods which may differ from those of its funding sources. Interest rates are highly sensitive to many factors beyond the Company's control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions and, inflation. As a result, interest rates in India have historically experienced a relatively high degree of volatility.

The Company seeks to match its interest rate positions of assets and liabilities to minimize interest rate risk. However, there can be no assurance that significant interest rate movements will not have an adverse effect on its financial position.

HUMAN RESOURCE DEVELOPMENT

The Company recognizes that its success is deeply embedded in the success of its human capital. During 2024-25, the Company continued to strengthen its HR processes in line with its objective of creating an inspired workforce. Independent Auditors’ Report Standalone Ind AS Financial Statements for the year ended 31st March 2025

To the Members of KHOOBSURAT LIMITED

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the financial statements of **Khoobsurat Limited** ('the Company'), which comprise the Balance Sheet as at 31st March 2025 and the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and Statement of Cash Flows for the Year ended, and Notes to the Financial Statements, including a summary of Material Accounting Policies and other Explanatory Information ('the financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its loss, changes in Equity, and its Cash Flows for the year ended on that date.

Basis of Opinion

We conducted our audit in accordance with the Standards on Auditing ("SAs") issued by Institute of Chartered Accountants of India ("ICAI"), specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by ICAI together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the year ended 31 March 2025. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion there on, and we do not provide a separate opinion on those matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

Key Audit Matters	How our audit addressed the key audit matter
Provisioning for Expected Credit Loss (ECL) in respect of financial assets of the Company	
The Company has recognized ECL provisions on its financial assets, including trade receivables, loans, and advances, as required under Ind AS 109 "Financial Instruments." The ECL provisioning involves significant management judgment and estimation uncertainty, particularly in assessing credit risk, determining significant increases in credit risk, and incorporating forward-looking macroeconomic information. Furthermore, the Company has retrospectively applied ECL provisioning as a prior period adjustment in accordance with Ind AS 8. (Also refer note 35 to financial statements)	We assessed the Company's accounting policies related to ECL provisioning for compliance with Ind AS 109.
Given the complexity of the ECL models, the subjectivity involved in key assumptions such as Probability of Default, Loss Given Default, Exposure at Default, and the estimation uncertainty around recoverability of certain loans and advances or other balances of financial assets, we have identified this area as a key audit matter.	We evaluated the design and implementation of the ECL models. We also tested the reasonableness of key assumptions made by the Company's management in the ECL calculation and other inputs used, wherever available.
	We performed independent re-computation of the ECL provision on a sample basis and assessed the completeness and accuracy of data used.
	We evaluated the adequacy and accuracy of disclosures made in the financial statements related to ECL provisioning.

Emphasis of Matter

We draw attention to the following matters in the accompanying financial statements:

1. Certain balances of trade receivables, trade payables, and loans and advances are subject to confirmation, reconciliation, and consequential adjustments, if any. The management has obtained confirmations for some of these balances and is in the process of obtaining the remainder (Note 39(b) to financial statements).

2. The Company is engaged in Investments and trading of shares and securities and other financial activities and meets the criteria specified under Section 45-IA of the Reserve Bank of India Act, 1934, requiring registration as a Non-Banking Financial Company (NBFC). However, the Company has not obtained such registration from the Reserve Bank of India.
3. The Company holds investments in various unlisted companies, valued at INR 1522.18 Lakhs as on 31 March 2025. The Company had last undertaken fair value assessment of these investments by obtaining valuation reports for valuation as on 31 March 2024. The management have undertaken self-assessment of these investments as on 31 March 2025 and based on the same, they do not expect any material changes to the fair value determined under previous valuation reports. Therefore, the management has decided to carry same fair value of investments as on 31 March 2025. We have solely relied on management's representation in this regard. (Note 5.1 to financial statements)
4. The Company holds 'stock-in-trade' of shares in listed Companies, which are not currently traded on any stock exchange. Based on Company's anticipated recovery at disposal of these shares, the Company has kept the last available traded rates of such companies for the purpose of their respective valuation as on 31 March 2025. (valued at INR 2.97 Lakhs) (Note 4.1 to financial statements)
5. During past years / periods, the Company had given various advances (recoverable in cash / kind) totaling to INR 1137.37 Lakhs (gross value) – shown under 'Other financial assets (current)'. The management has explained us that these advances were given for the purpose of acquiring of shares / securities; however, such acquisition is pending as on balance sheet date. The management is in process of either settling these transactions by acquisition of shares / securities, or by squaring off the advances through repayment. We have solely relied on management's representation in this regard (Note 9.1 to financial results).
6. Based on our review, it is observed that interest income is not recognized on some of outstanding loans and advances given to various parties as interest income could not be crystallized from such parties. However, the management is of the opinion that it will be able to soon recover the principal amount from these parties. The Company has considered ECL provision in respect of these parties as per the policy adopted considering them as credit-impaired financial assets. In the absence of any further details / documents, we have solely relied on management's representation with regard to the items of these loans and the ECL provision thereof.
7. The Company has outstanding 'trade receivables' for more than 3 years, totaling to 49.67 Lakhs (gross value). The management is of the opinion that it is in process of recovering these amounts. The Company has considered ECL provision in respect of these parties as per the policy adopted considering them as credit-impaired financial assets.
8. The Company has a dormant bank account (held with Yes Bank) totaling to 0.10 lakhs, reflected in the books of accounts. The balance is pending confirmation and may require adjustments upon receipt of relevant statements. (Note 7.1 to the financial results).

Our opinion is not modified in respect of these matters.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors are responsible for the other information. The other information does not include the Financial Statements and our auditors' report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these Financial Statements that give a true and fair view of the State of Affairs, Profit and Cash Flows of the Company in accordance with the Accounting Standards prescribed under section 133 of the Act read with the Companies (Accounting Standards) Rules, 2021, as amended, and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection of the

appropriate accounting software for ensuring compliance with applicable laws and regulations including those related to retention of audit logs; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or

when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure "B" to the Independent Auditors' Report

(Referred to in paragraph 2(g) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of KHOOBSURAT LIMITED of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **KHOOBSURAT LIMITED** ("the Company") as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls with reference to Standalone Ind AS financial statements

A Company's internal financial control with reference to these standalone Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that

- (A) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (B) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (C) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone Ind AS financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Ind AS financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these standalone financial statements and such internal financial controls over financial reporting with reference to these standalone financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The presentation of the Financial Statements is based on Ind AS Schedule III of the Companies Act, 2013.

2.2 Basis of preparation:

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period.

Fair value measurements under Ind AS are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at reporting date
- Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the valuation of Assets or Liabilities

2.3 Use of estimates and judgment's:

The preparation of the financial statements in conformity with Ind AS required management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Difference between the actual results and estimates are recognized in the year in which results are known/materialized. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods.

2.4 Presentation of financial statements:

These financial statements of the Company are prepared and presented in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provision of the Act as amended from time to time and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statements.

Amounts in the financial statements are presented in Indian Rupees rounded off to zero decimal places as permitted by Schedule III to the Companies Act, 2013. Per share data are presented in Indian Rupee to two decimal places.

2.5 Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured and there exists reasonable certainty of its recovery. Revenue is measured at the fair value of the consideration received or receivable as reduced for estimated customer credits and other similar allowances.

- i. Revenue from sale of shares & securities of listed securities, held as stock-in-trade (ie, with intention of trading in shares) are recognised as revenue upon the execution of sale transaction by the Company over the stock

exchange. In respect of unlisted securities, if any (held as stock-in trade) or off-market transactions, revenue is recognised upon execution of the sale contract and right to receive the payment for sale is established.

- ii. Interest income is recognised in the Statement of Profit and Loss and for all financial instruments except for those classified as held for trading or those measured or designated as at fair value through profit or loss (FVTPL) is measured using the effective interest method (EIR).

The calculation of the EIR includes all fees and points paid or received between parties to the contract that are incremental and directly attributable to the specific lending arrangement, transaction costs, and all other premiums or discounts. For financial assets at FVTPL transaction costs are recognised in profit or loss at initial recognition.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance).

For credit-impaired financial assets the interest income is calculated and recognised only where the Company expects reasonable certainty with regard to the recovery of interest income.

- iii. Dividend income is recognised when the Company's right to receive dividend is established by the reporting date and no significant uncertainty as to collectability exists.
- iv. Fee and commission income and expense include fees other than those that are an integral part of EIR. The fees included in the Company statement of profit and loss include among other things fees charged for servicing a loan, non-utilisation fees relating to loan commitments when it is unlikely that these will result in a specific lending arrangement and loan advisory fees.
- v. Income from arbitrage comprises profit / loss on sale of securities held as stock-in-trade and profit / loss on equity derivative instruments is accounted as per following:

Profit / loss on FNO Segment and Commodity transactions is accounted for as explained below:

Initial and additional margin paid over and above initial margin for entering into contracts for Equity Index / Stock Futures / Commodity Spot Trading/ Currency Futures and or Equity Index / Stock Options / Currency Options, which are released on final settlement / squaring-up of underlying contracts, are disclosed under "Other current assets". Mark-to-market margin-Equity Index / Stock Futures / Currency Futures representing the amounts paid in respect of mark to market margin is disclosed under "Other current assets".

"Equity Index / Stock Option / Currency Option Premium Account" represents premium paid or received for buying or selling the Options, respectively. Further, F&O obligation (other financial liabilities) represents the net marked to market liability as on reporting date, in respect of all futures & options contract written by the company (i.e. obligation acquired by the Company on sale of derivative contracts, upon receipt of premium). The Company shows net of financial asset or liability, as all contracts are expected to be settled through stock-exchange on or before the expiry date.

On final settlement or squaring up of contracts for Equity Index / Stock Futures / Currency Future, the realized profit or loss after adjusting the unrealized loss already accounted, if any, is recognized in the Statement of Profit and Loss. On settlement or squaring up of Equity Index / Stock Options / Currency Option, before expiry, the premium prevailing in "Equity Index / Stock Option / Currency Option Premium Account" on that date is recognized in the Statement of Profit and Loss.

As at the Balance Sheet date, the Mark to Market / Unrealized Profit / (Loss) on all outstanding arbitrage portfolio comprising of Securities and Equity / Currency Derivatives positions is determined on scrip basis with net unrealized gains / losses on scrip basis being recognized in the Statement of Profit and Loss.

Shares / securities purchased and sold on the same day (i.e. intra-day transactions) are recognised only for the net profit / loss on such transactions and shown as 'Other speculating income / (loss).

- vi. Other operational revenue represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

2.6 Fair value measurement:

The Company measures certain financial instruments at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to settle a liability in an ordinary transaction between market participants at the measurement date. The fair value of an asset or a liability is measured using the assumption that market participants would use when pricing an asset or liability acting in their best economic interest.

The Company uses valuation techniques, which are appropriate in circumstances and for which sufficient data is available considering the expected loss/ profit in case of financial assets or liabilities.

2.7 Property, Plant and Equipments

All items of property, plant and equipment are stated at historical cost less depreciation less impairment loss, if any. Historical cost comprises of purchase price, including non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to statement of profit or loss during the reporting period in which they are incurred.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separated items (major components) of property, plant and equipment.

Depreciation methods, estimated useful lives and residual value:

Depreciation is provided on the written down value method over the estimated useful lives of the assets as prescribed in Schedule II to the Companies Act, 2013. The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period -

Class of Assets	Useful life as prescribed in Schedule II of Companies Act, 2013 (in years)	Useful life as followed by the Company (in year)
Computers	3	3
Furniture & Fixtures	10	10
Office Equipments	5	5
Vehicles	8	8

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized as income or expense in the statement of profit and loss.

2.8 Impairment of Property, Plant & Equipments

As at the end of each accounting year, the Company reviews the carrying amounts of its PPE to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the PPE, are tested for impairment so as to determine the impairment loss, if any.

Impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined in the case of an individual asset, at the higher of the net selling price and the value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, such deficit is recognised immediately in the Statement of Profit and Loss as impairment loss and the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. For this purpose, the impairment loss recognised in respect of a cash generating unit is allocated first to reduce the carrying amount of any goodwill allocated to such cash generating unit and then to reduce the carrying amount of the other assets of the cash generating unit on a pro-rata basis.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit), except for allocated goodwill, is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss is recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss (other than impairment loss allocated to goodwill) is recognised immediately in the Statement of Profit and Loss.

2.9 Employee Benefits:

- i. Short term employee benefits:

Employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits and are expensed in the period in which the employee renders the related service. Liabilities recognised in respect of short-term employee benefits are measured at the amount of the benefits expected to be paid in exchange for the related service.

ii. Defined Employee benefits:

The Company does not have employees crossing the thresholds for applicability of PF / ESIC or Gratuity laws and accordingly, Ind-AS 19 to that extent is not applicable on the Company. Therefore, the Company has not recognised / provided for any defined employee benefits in the financial statements as on date.

2.10 Financial Instruments:

Financial assets and financial liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

Recognised financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

Financial assets and liabilities, which are realisable within 12 months period (i.e. short-term) are approximate to their fair value and hence, disclosed at their carrying value.

Financial asset and a financial liability is offset and presented on net basis in the balance sheet when there is a current legally enforceable right to set-off the recognised amounts and it is intended to either settle on net basis or to realize the asset and settle the liability simultaneously.

2.11 Impairment of Financial Assets:

The Company recognises loss allowances for Expected Credit losses ('ECLs') on the following financial instruments that are not measured at FVTPL:

- Loans and advances given;
- Debt investment securities;
- Trade and other receivable;
- Irrevocable loan commitments issued; and
- Other Financial Assets.

Measurement of ECL

At each reporting date, as an annual exercise, the Company recognizes a loss allowance for expected credit losses on the relevant financial assets.

ECL is measured in a manner that reflects:

An unbiased and probability-weighted amount, determined by evaluating a range of possible outcomes;

The time value of money (by discounting estimated future cash flows at the asset's original effective interest rate);

Reasonable and supportable information about past events, current conditions, and forecasts of future economic conditions

Staging and Recognition

Stage 1 (Non-Credit Impaired):

For financial assets where credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month ECL and recognizes interest income on the gross carrying amount.

Stage 2 (Significant Increase in Credit Risk):

If the credit risk has increased significantly since initial recognition, the loss allowance is calculated for lifetime ECL, and interest income continues to be recognized on the gross carrying amount.

Stage 3 (Credit Impaired):

If a financial asset is credit-impaired, the Company measures the loss allowance for lifetime ECL and calculates interest income on the net carrying amount (gross carrying amount less loss allowance).

Management of ECL Model & Monitoring

The ECL model and assumptions are periodically reviewed and updated to reflect current and forward-looking information. Any changes or management overlays to the model require approval from the Audit Committee. The amount of ECL provision is shown as net-off against respective financial asset.

Note: A loan is considered credit-impaired when a concession is granted to the borrower due to a deterioration in the borrower's financial condition, unless there is evidence that as a result of granting the concession the risk of not receiving the contractual cash flows has reduced significantly and there are no other indicators of impairment. For financial assets where concessions are contemplated but not granted the asset is deemed credit impaired when there is observable evidence of credit-impairment including meeting the definition of default. The definition of default (see below) includes unlikelihood to pay indicators and a back-stop if amounts are overdue for 90 days or more.

2.12 Write Off:

Loans and debt securities are written off when the Company has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This is the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. A write-off constitutes a de-recognition event. The Company may apply enforcement activities to financial assets written off. Recoveries resulting from the Company's enforcement activities will result in impairment gains.

2.13 Securities premium account:

i. Securities Premium includes:

- The difference between the face value of the equity shares and the consideration received in respect of shares issued pursuant to Stock Option Scheme.
- The fair value of the stock options which are treated as expense, if any, in respect of shares allotted pursuant to Stock Options Scheme.

2.14 Investments:

Investments includes 'shares / securities' acquired by the Company with the intention to hold them and reap investment benefits. The Company recognises these financial assets at FVTOCI, which shall be re-classified to Statement of profit and loss upon actual disposal. For quoted investments, the Company uses the quoted rates as on cut-off dates for fair value measurements. For un-quoted investments, the Company obtains fair valuation reports on necessary intervals for fair value measurements.

Investments that are readily realisable and are intended to be held for not more than one year from the date, on which such investments are made, are classified as current investments. All other investments are classified as non-current investments. FIFO method is used for valuation of investments or ascertainment of profit / loss on sale of investments.

2.15 Accounting and reporting of information for Operating Segments:

Operating segments are those components of the business whose operating results are regularly reviewed by the chief operating decision making body in the Company to make decisions for performance assessment and resource allocation. The reporting of segment information is the same as provided to the management for the purpose of the performance assessment and resource allocation to the segments. Segment accounting policies are in line with the accounting policies of the Company. For the current year, the Company has only one reportable segment, i.e. "Investments & Finance"

2.16 Taxation:

Current Tax:

Tax on income for the current period is determined on the basis of taxable income (or on the basis of book profits wherever minimum alternate tax is applicable) and tax credits computed in accordance with the provisions of the Income Tax Act, 1961 and based on the expected outcome of assessments/appeals.

Deferred Tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Company's financial statements and the corresponding tax bases used in computation of taxable profit and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred tax assets are generally recognised for all taxable temporary differences to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilized. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets relating to unabsorbed depreciation/business losses/losses under the head "capital gains" are recognised and carried forward to the extent of available taxable temporary differences or where there is convincing other evidence that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets in respect of unutilized tax credits which mainly relate to minimum alternate tax are recognised to the extent it is probable of such unutilized tax credits will get realized.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of reporting period, to recover or settle the carrying amount of its assets and liabilities.

Transaction or event which is recognised outside profit or loss, either in other comprehensive income or in equity, is recorded along with the tax as applicable.

2.17 Cash & Cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

2.18 Borrowing Cost

Borrowing costs include interest expense calculated using the effective interest method, finance charges in respect of assets acquired on finance lease and exchange differences arising from foreign currency borrowings, to the extent they are regarded as an adjustment to interest costs.

Borrowing costs net of any investment income from the temporary investment of related borrowings, that are attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of cost of such asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.19 Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised only when:

- i. an Company entity has a present obligation (legal or constructive) as a result of a past event; and
- ii. it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- iii. a reliable estimate can be made of the amount of the obligation

Provision is measured using the cash flows estimated to settle the present obligation and when the effect of time value of money is material, the carrying amount of the provision is the present value of those cash flows.

Reimbursement expected in respect of expenditure required to settle a provision is recognised only when it is virtually certain that the reimbursement will be received.

Contingent liability is disclosed in case of:

- i. a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and
- ii. a present obligation arising from past events, when no reliable estimate is possible.

Where the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under such contract, the present obligation under the contract is recognised and measured as a provision.

2.20 Statement of Cash Flows:

Statement of cash flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

- i. changes during the period in operating receivables and payables transactions of a non-cash nature;
- ii. non-cash items such as depreciation, provisions, deferred taxes, unrealized gains and losses; and
- iii. all other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet.

2.21 Earnings Per Share:

The Company presents basic and diluted earnings per share data for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

2.22 Key source of estimation:

The preparation of financial statements in conformity with Ind AS requires that the management of the Company makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates include useful lives of property, plant and equipment & intangible assets, expected credit loss on loan books, future obligations in respect of retirement benefit plans, fair value measurement etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known.

2.23 Inventories

Stock-in-trade represents 'Shares / Securities' held by the Company with the intention to trade. The Company values listed shares and securities at their fair value as on balance sheet date. Difference between opening and closing inventory is recognised in statement of profit and loss. The Company follows FIFO method for inventory valuation.

2.24 Related Parties

Parties are considered to be related if at any time during the reporting period one party has the ability to control the other party or exercise significant influence over the other party in making financial and/or operating decisions. Following related party relationships are covered:

- i. Enterprises that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the reporting enterprise (this includes holding Companies, subsidiaries and fellow subsidiaries);
- ii. Associates and joint ventures of the reporting enterprise and the investing party or venture in respect of which the reporting enterprise is an associate or a joint venture;
- iii. Individuals owning, directly or indirectly, an interest in the voting power of the reporting enterprise that gives them control or significant influence over the enterprise, and relatives of any such individual;
- iv. Key management personnel (KMP) and relatives of such personnel; and
- v. Enterprises over which any person described in (iii) or (iv) is able to exercise significant influence.

2.25 Purchases

Purchase is recognized on passing of ownership in share based on broker's purchase note.

2.26 Expenditure

Expenses are accounted for on accrual basis and provision is made for all known losses and liabilities.

2.27 Fair Value Hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).
