MANAGEMENT DISCUSSION & ANALYSIS REPORT

India is ranked among the fastest growing economies in a world beset by uncertainty and volatility caused by global turmoil. According to a recent IMF report, the Indian economy is set to surpass Germany in 2022 as the world's fourth-largest economy and push United Kingdom out of the league of top five economies of the world. Currently, world's top five largest economies are United States, China, Japan, Germany and United Kingdom. India ranks 6th with USD\$2,454.458 billion nominal GDP.

ECONOMIC SCENARIO

The Central Statistics Office (CSO) revised its estimate for 2016-17, indicating India's real Gross Domestic Product (GDP) growth rate at 7.1 percent which is lower as compared to the growth rate of 7.9 per cent achieved in 2015-16. The surprise withdrawal of high denomination notes wiped out more than 85 percent of total currency in circulation. This resulted in decline or postponement of discretionary private consumption and investment during third (Oct-Dec 2016) quarter of 2016-17. Otherwise, the growth was supported by high government expenditure and agriculture growth due to good monsoon season.

With the formation of Monetary Policy Committee (MPC), there has been a move to maintain a neutral stance of monetary policy in consonance with the objective of achieving the medium-term target of consumer price index (CPI) inflation of 4 percent within a band of +/- 2 percent, while supporting growth. Following its decision to lower the policy reporate by 25 basis points (bps) in the October 2016 Monetary Policy Report (MPR). The expectation of further rate cut will depend on inflation expectation over medium to long run. The sticky core inflation has restrained the general fall in inflation level. However, the new series with base year of 2011-12, recently release by CSO has registered lower inflation level both for Wholesale Price Index (WPI) and CPI at 3.85 percent and 2.99 percent in April, respectively. The rates are well below the Reserve Bank of India (RBI) estimate of around 4.5 percent. Based on the new series it is expected that the inflation rate to remain subdued below 3 percent for the next quarter, before rising back to sub- 4 percent first quarter 2017-18. Inflation is expected to average 4.5 percent in the first half and around 5 percent during second half of 2017-18.

MACRO-ECONOMIC ENVIRONMENT

India had closed 2015-16 (FY2016) with growth in real GDP of 7.9% and a growth in gross value added (GVA) of 7.8%. There were expectations of India achieving similar growth in FY2017. Unfortunately, that has not occurred. The second advance estimates of national income forecast by the Central Statistics Office (CSO) suggests a real GDP growth of 7.1% for FY2017; and a real gross value added (GVA) growth of 6.7%. Both estimates are significantly lower than what the economy achieved in the previous year.

On 8 November 2016, the government announced demonetisation of Rs. 500 and Rs. 1,000 bank notes, which represented 86% of the currency in circulation. Contemporary evidence suggested significant disruption arising out of unprecedented cash constraints throughout the economy. However, the CSO's national income data does not suggest any significant reduction in GDP or GVA growth in the third quarter of FY2017, a period largely coinciding with the demonetisation drive. The third quarter traditionally tends to be muted. In FY2016, the growth rate of real GVA in Q2 was 8.4%; and in Q3 it was 7%, or a sequential drop of 1.4 percentage points. In FY2017, GVA growth in Q2 was 6.7%, and in Q3 it was 6.6%. In other words, despite the effects of demonetisation for over much of Q3 FY2017, the negative effect — as reported by the CSO — has been only 10 basis points.

ROAD AHEAD

According to The World Bank, the Indian economy will likely grow at 7.6 per cent in 2017-18, followed by further acceleration to 7.8 per cent in 2018-19. Demonetisation is expected to have a positive impact on the Indian economy, which will help foster a clean and digitised economy in the long run, according to Ms. Kristalina Georgieva, Chief Executive Officer, The World Bank.

India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to shift in consumer behavior and expenditure pattern, according to a Boston Consulting Group (BCG) report; and is estimated to surpass USA to become the second largest economy in terms of purchasing power parity (PPP) by the year 2040, according to a report by PricewaterhouseCoopers. Also, the Prime Minister, Mr. Narendra Modi has stated that India has become the world's fastest growing large economy, and is expected to grow fivefold by 2040, owing to a series of policy measures.

INDUSTRY STRUCTURE AND DEVELOPMENT

The business of the Company is that of a Non Banking Finance Company (NBFCs).

The NBFC sector in India has witnessed significant vicissitude over the past few years and has come to be recognized as a systematically key element of the financial system. The NBFC segment has witnessed consolidation over the recent past, especially in the NBFCND-SI segment. Indeed it is evident in India that with the development of NBFCs segment within the overall financial system, it challenged the other segments, i.e. banks to innovate, to improve quality and competence, and deliver at flexible timings and at competitive prices. In fact, in a number of untreaded trajectories, NBFCs were the ones to foray first to explore the market and develop before banks entered the field. NBFC sector is growing at the cost of banks that are saddled by bad loans and poor profitability.

NBFCs are broadly classified into two categories based on whether they accept public deposits, i.e. NBFC-Deposit taking (NBFC-D) and NBFCs-Non-Deposit taking (NBFC-ND). Besides, there are only two residuary non-banking finance companies (RNBCs) which are also deposit taking companies of different character. In the recent years, infrastructure finance have gained steam, and NBFCs engaged in infrastructure finance are called 'Core Investment Companies'. NBFC is a heterogeneous group of financial institutions, performing a wide range of activities like hire-purchase finance, vehicle financing, equipment lease finance, personal loans, working capital loans, consumer loans, housing loans, loans against shares and investment, etc.

This is despite NBFCs moving to 150+ day NPA recognition norm during the last fiscal. The government in the Union Budget has allowed NBFCs with asset size of above Rs 500 Crore would be permitted to access the provisions of SARFAESI Act. This would further improve NBFCs' ability to make recoveries.

AVONMORE CAPITAL & MANAGEMENT SERVICES LIMITED

The Reserve Bank of India has prescribed stringent norms on capital adequacy and NPA in order to bridge the regulatory gaps between NBFCs and Banks, asking NBFCs to maintain minimum capital of Tier I and Tier II of not less than 15% of their risk weighted assets.

BUSINESS OPERATIONS

During the year under review, the Company has generated its income of Rs. 620.62 Lakh from Dividend Investment & Trading of Securities as compared to Rs. 142.34 Lakh in the previous years.

OPPORTUNITIES AND THREATS

Opportunities

- Being part of the India's growth story.
- Digitalization in the economy.
- Financial inclusion.

Threats

- Volatile external and global environment.
- Competition from the newer models of NBFCs.
- Handling post integration challenges.
- Attracting and retaining talent and training them for the right culture.

The Company is exposed to all risks & threats, which Financial Market & a Non Banking Finance Company faces. Unfavorable events in the Indian economy can affect consumer sentiment and in turn impact consumer decision to purchase financial products. Competition from a broad range of financial services providers, unstable political environment and changes in Government policy / regulatory framework could impact the Company's operations. The company is also facing risk of heavy ups and downs in stock market which can be minimized due to risk management system of our company.

OUTLOOK, RISK AND CONCERNS

The markets will continue to grow and mature leading to differentiation of products and services. Each financial intermediary will have to find its niche in order to add value to consumers. The Company is cautiously optimistic in its outlook for the year 2016-17.

Your Company being an investment Company also seeks opportunities in the capital market. The volatility in the stock indices in the financial year under report represents both an opportunity and challenge for the Company. The likely increase in capital mobilisation from the primary market, increase in resource mobilisation by mutual funds and phenomenal growth in secondary market volumes provide significant business opportunities for the Company.

Risk Management is an integral part of the Company's business strategy. In Today's complex business environment, almost every business decision requires executives and managers to balance risk and reward. As an NBFC, your Company is subjected to both external risk and internal risk. External risk due to interest rate fluctuation, slowdown in economic growth rate, political instability, market volatility, decline in foreign exchange reserves, etc. Internal risk is associated with your Company's business which includes deployment of funds in specific projects, diversification into other business operations, retention of talented personnel, managing effective growth rate, volatility in interest rate, NPAs in portfolio, changes in compliance norms and regulations, contingent liabilities and other legal proceedings.

At ACMS, risk management is integrated seamlessly into business strategy. The objective of ACMS's risk management process is to insulate the Company from risks associated with the business, while simultaneously creating an environment conducive for its growth. The process entails a comprehensive estimation, control and review of risks to protect organizational value. Further, a separate board level risk management committee is in place at your company which regularly reviews the functioning of the risk management systems and processes.

Decision-making is based on the Company's objectives and risk tolerance limits. Many of the critical decision levels for investments, major lending and policy initiatives are institutionalized through appropriate committees, consisting of senior officials. Strategies, policies and limits are designed to ensure that risks are prudently diversified. Risk mitigating activities are reviewed periodically by senior management.

COMPLIANCE

An independent and comprehensive compliance structure addresses the Company's compliance and reputation risks. All key subsidiaries of the Company have an independent compliance function. The Compliance officials across the Group interact on various issues including the best practices followed by the respective companies.

The compliance framework, approved by the Board, broadly sets out the compliance risk management processes and tools to be used by businesses, management and compliance officers for managing its compliance risks. Apart from the Company's compliance framework, the Company and all the subsidiaries have their own compliance manuals. To meet with the changes in the regulatory environment, the Compliance will be rolling out shortly a new framework, which helps in obtaining confirmation from each of the business about its adherence to the various regulatory requirements. This framework would assist the management in determining the compliance risk of the Company. The compliance function is responsible for all aspects of regulatory compliance across the Company.

The Compliance team supports top management and manages and supervises the compliance framework alongwith providing compliance assistance to various businesses / support functions. The Compliance division works with business units to develop procedures to implement the requirements of the various regulations and policies. It also works closely with other support functions including the legal department and outside counsels. The Company uses the knowledge management system for monitoring new and changes in existing regulations. The Company also looks at regulatory websites and participates in industry working groups that discuss evolving regulatory requirements. Training on compliance

Annexure – B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of **Avonmore Capital & Management Services Limited** ('the Company') as at 31 March 2017 in conjunction with our audit of financial statements of the company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The management of the company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('the ICAI')". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing ('the Standards'), and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the company's internal financial controls system over financial reporting. Meaning of Internal Financial Controls Over Financial Reporting A company's Internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's Internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

- i) Retirement benefits in the form of Provident fund and Family Pension fund is a defined contribution scheme and the contributions are charged to the statement of profit and loss for the year when the contributions to the respective funds are due. There are no other obligations other than the contributions payable to the respective funds.
- Gratuity is a defined benefit obligation. The Company has taken group gratuity scheme with TATA AIG Insurance Co. Limited to cover the gratuity liability of the employees. Gratuity liability is accrued and provided for on the basis of an actuarial valuation on the projected unit credit method made at the end of the financial year.
- iii) The Company makes a provision in its books for liability towards encashment of leave lying to the credit of employee as on the last day of current financial year, subject to the maximum period of leave allowable by the company, as if all employees are retiring on the Balance Sheet date. Leave Encashment liability is incurred and provided for on the basis of actuarial valuation made at the end of the financial year.
- iv) Actuarial gains /losses are debited to statement of profit and loss and are not deferred.

1.11 Fixed Assets

Fixed assets are stated at cost and other incidental expenses, less accumulated depreciation and impairment losses. Cost comprises the purchase price and any attributable cost such as duties, freight, borrowing costs, erection and commissioning expenses incurred in bringing the assets to its working condition for its intended use.

- i) Depreciation on tangible assets
 - (a) Leasehold improvements are depreciated over the lease period as stated in the lease agreement or over the estimated useful life of the assets, whichever is shorter.
 - (b) In respect of tangible assets acquired during the year, depreciation is charged on Straight Line Basis so as to write off cost of assets over useful lives and for assets acquired prior to April 1, 2014, the carrying amount as on 1st April 2014 is depreciated over remaining useful life. The useful life of assets is taken as prescribed in Schedule II to the Companies Act, 2013.
- ii) Intangible assets and its amortisation
 - (a) Intangible assets are recorded at cost and are amortised over the period the Company expects to derive economic benefits from their use.

1.12 Impairment

The carrying amounts of assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the recoverable amount of the asset is estimated. For assets that are not yet available for use, the recoverable is estimated at each balance sheet date. An impairment loss is recognised whenever the carrying amount of an asset or cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortisation, if no impairment loss had been recognised.

1.13 Investments

Investments are classified into long-term investments and current investments based on intent of the management at the time of making the investment. Investments intended to be held for more than one year are classified as long term investments. Current investments are valued at lower of cost or market value. The diminution in current investments is charged to the statement of profit and loss; appreciation, if any, is recognised at the time of sale. Long-term investments, including investments in subsidiaries, are valued at cost unless there is diminution, other than temporary, in their value. Diminution is considered other than temporary based on criteria that include the extent to which cost exceeds the market value, the duration of the market value decline and the financial health of and specific prospects of the issuer.

Investments, which are held as stock in trade as part of the business operations are valued in the same manner as are relatable to Current Investments.

- The Cost is arrived at FIFO method and is inclusive of brokerage, transfer expenses and demat charges, if any. The fair value is arrived at with reference to the market value, if available, quotation in any stock exchange or any other available information to indicate a transaction between unrelated willing buyer and willing seller at arms length price.
- ii) In case of unquoted investments, the fair value is arrived on the basis of breakup value as per latest available audited balance sheet of the investee company.Interest accrued and/or broken period interest paid on unsold securities is recognized as "Interest Accrued on Investment" under Other Current Assets.

1.14 Foreign currency transactions

Transactions in foreign currency are recorded at the exchange rates prevailing on the date of the transaction. Exchange differences arising on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss. Monetary assets and liabilities denominated in foreign currency are translated at year-end rates and resultant gains/losses on foreign exchange translations other than in relation to acquisition of fixed assets and long term foreign currency monetary liabilities are recognised in the Statement of Profit and Loss.

1.15 Taxation

Income-tax expense comprises current tax and deferred tax. Current tax expense is the amount of tax for the period determined in accordance with the income-tax law and deferred tax charge or credit reflects the tax effects of timing differences between accounting income and taxable income for the period. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each balance sheet date and written down or written-up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

1.16 Provisions and Contingent Liability

A provision for losses arising from claims, litigation, assessments, fines, penalties, etc is recognised when the Company has a present obligation as a result of a past events; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation. A contingent liability is disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

1.17 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares, except where results would be anti-dilutive.

1.18 Operating leases taken

Lease payments under operating lease are recognised as an expense on a straight line basis over the lease term.

1.19 Segmental reporting

- Segments are identified by the management, keeping in view the dominant source and nature of risks and returns and the internal organization and management structure.
- Revenue and expenses have been identified to a segment on the basis of relationship to the operating activities of the segment.

- iii) Revenue and expenses, which relate to the company as a whole and are not allocable to a segment on reasonable basis, have been disclosed as "Un-allocable".
- iv) Segment assets and liabilities represent assets and liabilities in respective segments. Tax related assets, and other assets and liabilities that are not reported or cannot be allocated to a segment on a reasonable basis, have been disclosed as "Un-allocable".

1.20 Cash and Cash Equivalents

In the cash flow statement, cash and cash equivalents include cash in hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.

INDEPENDENT AUDITORS' REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

To the members of

Avonmore Capital & Management Services Limited

1. Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Avonmore Capital & Management Services Limited ("the company") and its subsidiaries (collectively referred to as 'the group'), which comprises the Consolidated Balance Sheet as at 31st March, 2017, the consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information ('the consolidated financial statements').

2. Management's Responsibility for the Consolidated Financial Statements

The Company's Board of Directors is responsible for preparation and presentation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 ('the Act') that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act as applicable. The respective Board of Directors of the Company and its subsidiaries are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and its subsidiaries and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of these consolidated financial statements by the Board of Directors of the Company.

3. Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

While conducting the audit, we have taken into account the provision of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provision of the Act and Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation and presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditor referred to in the 'Other Matter' paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on consolidated financial statements.

4. Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2017 and the consolidated profit and its consolidated cash flows for the year ended on that date.

5. Other Matter

We did not audit the financial statements / consolidated financial statements of 8 direct subsidiaries, whose financial statements / consolidated financial statements reflect total assets of Rs.2,02,22,47,948/- as at 31 March, 2017, total revenue (net) of Rs. 54,80,65,300/- for the year ended 31 March, 2017 , net profit/ (loss) of Rs. 26,22,517/- for the year ended 31 March, 2017 and net cash inflow amounting to Rs. (54,438/-) for the year ended 31st March, 2017. These financial statements / consolidated financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on the report of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

6. Report on other Legal and Regulatory Matters

As required by section 143 (3) of the Act, We report that:

- (a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the consolidated financial statements;
- (b) in our opinion, proper books of account as required by law relating to preparation of the consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the auditors;

Annexure to the Independent Auditors' Report

(Referred to in paragraph (f) under 'Report on other Legal and Regulatory Requirements' section of our report of even date.)

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act)

We have audited the internal financial controls over financial reporting of Avonmore Capital & Management Services Limited ('the Company') and its subsidiary companies incorporated in India as at March 31, 2017 in conjunction with our audit of the consolidated financial statements of the Company for the year ended and as on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company and its subsidiary companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the respective internal control over financial reporting criteria established by the Company and its subsidiary companies incorporated in India considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the 'Guidance Note'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing prescribed under Section 143(10) of the Act and the Guidance Note, to the extent applicable to an audit of internal financial controls over financial reporting. Those Standards and the Guidance Note require

that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies incorporated in India, in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that

AVONMORE CAPITAL & MANAGEMENT SERVICES LIMITED

transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the

explanations given to us, the Company and its subsidiary companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company and its subsidiary companies incorporated in India considering the essential components of internal control stated in the Guidance Note.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to 8 subsidiary companies, incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

S.No.	Name of the Subsidiary Company	Incorporated on	Country of Incorporation	31 March 2017	31 March 2016
a)	Almondz Insurance Brokers Private Limited (AIBPL)	27 March 2003	India	51%	51%
b)	Shivsathi Niketan Limited (SNL) (Subsidiary w.e.f. 14 May 2014)	02 April 2013	India	52%	52%

Temporary Subsidiaries are as under:

- (b) The difference of the cost to the Company of its investment in subsidiary over its proportionate share in the equity of the investee company, as at the date of acquisition of stake is recognised in the financial statements as Goodwill or Capital Reserve, as the case may be.
- (c) Minority interest, if any, in net profits of consolidated subsidiary for the year is identified and adjusted against the income in order to arrive at the net income attributable to the shareholders of the Company. Their share of net assets is identified and presented in the Consolidated Balance Sheet separately. Where accumulated losses attributable to the minorities are in excess of their equity, in absence of the contractual obligation on the minorities, the same is accounted for by the holding company.
- (d) As far as possible, the consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements.
- (e) The financial statements of the entities used for the purpose of consolidation are drawn up to same reporting date as that of the Company i.e. year ended 31 March 2017.

(ii) Basis of preparation

The financial statements are prepared under the historical cost convention, in accordance with the Indian Generally Accepted Accounting Principles (GAAP), to comply with the accounting standards specified u/s 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, relevant pronouncements of the Institute of Chartered Accountants of India (ICAI), relevant provisions of the Companies Act, 2013. In respect of NBFC activities, prudential norms for asset classification, income recognition, valuation of investments, provisioning of bad and doubtful assets as prescribed by Reserve Bank of India for non banking finance

company are complied. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy either to in use.

The consolidated financial statements have been prepared based on the Schedule III of the Companies Act, 2013. All assets and liabilities have been classified as current or noncurrent as per company's normal operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Previous year's figures have been regrouped/ reclassified wherever considered necessary. Based on the nature of services and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current/ noncurrent classification of its assets and liabilities.

(iii) Use of estimates

The preparation of consolidated financial statements in conformity with GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. Adjustments as a result of differences between actual and estimates are made prospectively.

(iv) Current/Non-current classification

All assets and liabilities are classified as current and noncurrent.

i) Assets

An asset is classified as current when it satisfies any of the following criteria:

- a. It is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b. It is held primarily for the purpose of being traded;
- c. It is expected to be realized within 12 months after the reporting date; or
- d. It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of noncurrent financial assets. All other assets are classified as non-current.

ii) Liabilities

A liability is classified as current when it satisfied any of the following criteria.

- a. It is expected to be settled in the Company's normal operating cycle;
- b. It is held primarily for the purpose of being traded;
- c. It is due to be settled within 12 months after the reporting date; or
- d. The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Current liabilities includes current portion of non-current financial liabilities. All other liabilities are classified as non-current.

(v) Revenue recognition

- a. Advisory and consultancy services: Fees is booked on the completion of task/project as per the terms of agreement. However, where the percentage of completion is significant enough to ascertain the outcome reliably, revenue is recognised to the extent it can be accurately measured.
- b. Broking activities: Income from broking on distribution operations is recognised on the closure of the issue of mutual funds, bonds, fixed deposits and other money market instruments. Income from stock broking operations and commodity broking operation is accrued on completion of transaction at the respective stock exchanges.
- c. In the case of loans advanced / interest bearing securities / deposits, the interest is recognized as earned on day to day basis. In case of interest on investments held as stock in trade, broken period interest on every purchase or sale is split from the price as accrued interest paid or realised. Such broken period accrued interest paid on purchase & received subsequently on its sale is netted and reckoned as income.
- d. In respect of NBFC activities, the revenue recognition policies are in accordance with Non-banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007 ('prudential norms') as amended from time to time by the Reserve Bank of India. Reversal of income, necessitated by these guidelines, has been netted off from income from operations and accounting of interest on non-performing assets and penal interest on cash basis.
- e. In the case of trading in bonds, the profit/loss from the transaction is recognised on the closure of the deal and consequent delivery of the bond.
- f. Revenue on account of trading in shares is recognized on the basis of each trade executed at the stock exchange during the financial year.
- g. In respect of non delivery based transactions such as derivatives, the profit/loss is accounted for at the completion of each settlement, however in case of an open settlement, the net result of transaction which are squared up on FIFO basis, is recognized as profit/ loss in the account.
- h. Dividend income is recognised when the right to receive the income is established.
- i. Depository income is accounted for on accrual basis.
- j. In case of fixed income securities/ deposits/ loans, interest is recognised on a time proportionate basis.
- k. Sale of spectacles is accounted for on accrual basis.
- I. In respect of other heads of income, the Company follows the practice of recognising income on accrual basis.

(vi) Provision for standard and non-performing assets

Provisions for standard and non-performing assets are created in accordance with the Non-banking Financial (Non-Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007. Further, specific provisions are also created based on the management's best estimate of the recoverability of non-performing assets.

(vii) Borrowing Cost

Borrowing cost that are directly attributable to the acquisition, construction or production of qualifying assets is capatalized as part of the cost of such assets. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for intended use or sale.

(viii) Expenditure

Expenses are recognised on accrual basis and provisions are made for all known losses and liabilities. Expenses incurred on behalf of other companies, for sharing personnel, common services and facilities like premises, telephones, etc. are allocated to them at cost and reduced from respective expenses.

Similarly, expense allocation received from other companies is included within respective expense classifications.

(ix) Employee benefits

The Company's obligations towards various employee benefits have been recognised as follows:

(a) Short term benefits

All employee benefits payable/available within twelve months of rendering the service are classified as shortterm employee benefits. Benefits such as salaries, wages and bonus etc., are recognised in the Statement of Profit and Loss in the period in which the employee renders the related service.

(b) Provident fund (Defined contribution plan)

Provident fund is a defined contribution plan. The contribution towards provident fund which are being deposited with the Regional Provident Fund Commissioner are charged to the Statement of Profit and Loss.

(c) Gratuity (Defined benefit plan)

Gratuity is defined benefit plan. The present value of obligations under such defined benefit plan is determined based on actuarial valuation carried out by an independent actuary using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measure each unit separately to build up the final obligation.

The obligation is measured at the present value of estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, is based on the market yields on government securities as at the balance sheet date, having maturity periods approximating to the terms of related obligations. Actuarial gains and losses are recognised immediately in the statement of profit and loss.

The Company makes contribution to an insurer managed funds for discharging its gratuity liability.

(d) Compensated absences (Other long-term benefits)

The group provides for leave encashment based on actuarial valuation using projected unit credit method in respect of past service. In respect of compensated absences arising during the tenure of service, the defined benefit obligation is calculated taking into account the pattern of availment of leave. In respect of encashment of leave, the defined benefit is calculated taking into account all types of decrements and qualifying salary projected upto the assumed date of encashment. The valuation of leave encashment benefit is done as at the balance sheet date by an independent actuary. Actuarial gains and losses are recognised immediately in the statement of profit and loss.

(x) Fixed assets, depreciation and amortisation

(i) Tangible assets

Tangible assets are stated at the cost of acquisition or construction, less accumulated depreciation and impairment losses. Cost comprises the purchase price and any attributable costs of bringing the assets to their working condition for intended use. Borrowing costs directly attributable to acquisition or construction of fixed assets, which necessarily takes a substantial period of time to be ready for their intended use are capitalized as part of the cost of such assets to the extent they relates to the period till such assets are ready to be put to use.

- (a) Leasehold improvements are depreciated over the lease period as stated in the lease agreement or over the estimated useful life of the assets, whichever is shorter.
- (b) Depreciation is provided based on useful life of assets on Straight Line Method (SLM). The useful life of assets is taken as prescribed in Schedule II to the Companies Act, 2013.

(ii) Intangible assets and its amortisation

Intangible assets are recorded at cost and are amortised over the period the Company expects to derive economic benefits from their use.

(iii) Advances paid towards acquitsition of fixed assets and cost of assets not ready for use before year end are disclosed as capital work in progress.

(xi) Impairment

The carrying amounts of assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the recoverable amount of the asset is estimated. For assets that are not yet available for use, the recoverable is estimated at each balance sheet date. An impairment loss is recognised whenever the carrying amount of an asset or cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the statement of profit and loss. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortisation, if no impairment loss had been recognised.

(xii) Investments

Investments are classified into long-term investments and current investments based on intent of the management at the time of making the investment. Investment intended to be held for more than one year from the date such investments are made, are classified as long-term investments. All long-term investments are classified as noncurrent investments in the balance sheet. The portions of long-term investments which are expected to be realised within twelve months from the balance sheet date are classified as current investments. Current investments are valued at lower of cost and market value, computed category-wise e.g. quoted shares, unquoted shares, government securities and non government securities/ bonds. The diminution in current investments is charged to the statement of profit and loss and appreciation, if any, is recognised at the time of sale. Long-term investments, including investments in subsidiaries, are valued at cost unless there is diminution, other than temporary, in their value. Diminution is considered other than temporary based on criteria that include the extent to which cost exceeds the market value, the duration of the market value decline and the financial health of and specific prospects of the issuer.

Investments, which are held as stock in trade as part of the business operations are valued in the same manner as are relatable to Current Investments.

- i) The Cost is arrived at FIFO method and is inclusive of brokerage, transfer expenses and demat charges, if any. The fair value is arrived at with reference to the market value, if available, quotation in any stock exchange or any other available information to indicate a transaction between unrelated willing buyer and willing seller at arm's length price.
- ii) In case of unquoted investments, the fair value is arrived on the basis of breakup value as per latest available audited balance sheet of the investee company.
- iii) Interest accrued and/or broken period interest paid on unsold securities is recognized as 'Interest Accrued on Investment' under Other current assets.

(xiii) Foreign currency transactions

Transactions in foreign currency are recorded at the exchange rates prevailing at the date of the transaction. Exchange differences arising on settlement of foreign currency transactions are recognised in the statement of profit and loss. Monetary assets and liabilities denominated in foreign currency are translated at year-end rates and resultant gains/losses on foreign exchange translations other than in relation to acquisition of fixed assets and long term foreign monetary liabilities are recognised in the Statement of Profit and Loss.

(xiv) Current and deferred tax

Income-tax expense comprises current tax and deferred tax. Current tax expense is the amount of tax for the period determined in accordance with the income-tax law and deferred tax charge or credit reflects the tax effects of timing differences between accounting income and taxable income for the period. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written-up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

(xv) Provisions, contingent liabilities and contingent assets

A provision is created when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

The Company does not recognise assets which are of contingent nature until there is virtual certainty of realisability of such assets. However, if it has become virtually certain that an inflow of economic benefits will arise, asset and related income is recognised in the financial statements of the period in which the change occurs.

(xvi) Earnings per share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed using the weighted average number of equity and dilutive potential shares outstanding during the year, except where the results would be anti-dilutive.

(xvii) Operating leases

Lease payments under operating lease are recognised as an expense on a straight line basis over the lease term.

(xviii) Employee Stock Option Scheme ("ESOS")

The employees stock option Scheme ("the Scheme") provides for grant of equity shares of the company to whole-time directors and employees of the company. The scheme provides that employees are granted an option to subscribe to equity shares of the company that vests in a graded manner. The options may be exercised within a specified period. The company follows the intrinsic value method to account for its stock-based employee compensation plans. Compensation cost is measured as the excess, if any, of the fair market price of the underlying stock over the exercise price on the grant date. The fair market price is the closing price of the equity shares of the company on the stock exchange/s on which the shares of the company are listed, immediately prior to the date of the meeting of compensation committee of board of directors of the company in which the options are granted. If the shares are listed on more than one stock exchange, then the stock exchange where there is highest trading volume on the said date is considered.

(xix) Cash and cash equivalents

In the cash flow statement, cash and cash equivalents include cash in hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.
