A pause in Disb. growth but Collection on track

- Hyp. loans had 11 % growth Y-o-Y for 9 month period; While Kerala was back to normal, issues in the 2 W segment due to price rise and other issues in the NBFC space made us cautious and hence disbursements lowered
- Hyp. Disb. in non-south saw huge growth. In Q3 FY 19; Non-South disb. share was 37%;(Q3 FY 18- 20 %) . South concentration reducing. West, North and East grew 68%, 48% and 222% resp.
- Collections have grown to ₹ 453 crs in Q3 FY19 v/s ₹ 416 crs in Q2 FY 19; but not hard bucket collection ; NACH collection was 45.7% of the total v/s 44.5 % in Q2 FY 19, which will drive costs lower in future.

NPA

- Current Qtr. saw a marginal rise in NPA after huge rise in the previous qtr. ; Kerala flood related NPA reduced but there was marginal increase in other states.
- Quarter end NPA excluding off-books was at ₹ 122.8 crores v/s ₹ 118 crs at the beginning of the qtr.; plans made for reduction by end of FY 19.

Arbitration

- Strong action on arbitration/ legal front; Files given to legal firms – 30 704 and Awards passed –14 441 and cases settled – 7 488
- ₹ 46.41 crores collected directly from about 15 624 nos. of customers and through repossession and sale of their vehicles; major step to push customers for settlement.; currently new cases not being handed over and looking for direct settlements.

Funding in Q 3

- The QIP that was done in Q3 FY18 and the overall profitability has significantly improved CRAR (21.6), reduced D/E ratio (3.5) and made the company attractive to all forms of lenders/ investors; helped maintain interest rate/cost low in an interest hardening qtr.; with lenders unwilling to lend the Company had its movement of anxiety but saw off the quarter with additional sanctions of ₹ 211 crs and several more in the pipeline

Diversity in Funding

- Dependence on Banks/ Securitization for funds helped in a troubled quarter; Good quality of the securitized pool helped get 2 big securitization transaction completed in the quarter.
- Speaking to new segment of investors for term loans/ securitization etc., with banks now in the 'wait and watch' mode for new sanctions all out focus on securitization where the performance has been excellent.
- Pushing for getting funds through Public Deposit where there is significant head room available.

Borrowing Mix

- During the quarter the Company has been able to get additional sanctions from Securitization Transaction- ₹ 151 crs
- With hardening of the interest rates, our overall Interest costs also went up to 9.70 % and expected to go up with banks / other players finding it tougher to fund at the earlier rates and with other lenders and money market borrowings becoming very expensive.

Securitization/ DA

- 1 DA & 1 PTC transaction valuing ₹ 151 Crore (net of MRR) done during Q3 FY19 –17 transactions so far, 4 closed. During these times when banks have restriction in funding to the sector,
- Helped in ploughing back funds into the business and growing the AUM ; More transactions expected to happen in future as well. Helps check overall pricing and keep CRAR above 20% and DE Ratio below 4.

Geographical expansion

- Penetration in present states in South and West and in the new and existing areas in North and East helped growth ; hope for better and improved performance in FY19. Dependence on South seen reducing;
- New Products , new geographies and digitization seen as the way forward for the next few years. As a cautious approach, reduced disbursements in Q3 FY 19. A lot of that would be covered in Q4 FY 19

Staff attrition & Cost Control

- Monthly staff attrition was lower at 3.3 % in Q3 FY '19 v/s 4.21 % in Q2 FY 19 - The concept of Marketing agents is also working well. In North & East Outsourced FTEs as a concept working very well; Overall staff nos at 2381 v/s 2127 at the beginning of the year. Including out sourced staff, total employee strength 3209.
- Dealer incentives have remained under control at 1.32 % for Q3 FY19; interest and finance charges on an overall basis was slightly higher at 9.70 % v/s 9.37% in Q2 FY '19 .

Repayment Mode

- Post demonetization 100% repayment for new customers is through NACH and significant collections through NACH – Helps cut delinquencies. Q3 FY 19 NACH collections were about 45.7 % of the total collections, rising M-O-M.
- NACH repayment mode is at 86% v/s 26 % at end of Mar'17 quarter. The unlinked mandates is an area of concern, which is being attended to. E-NACH would sort out most of these issues.

Overall Profitability

- Q3 FY 19 PAT of ₹ 23.2 crores actual v/s ₹ 21.9 crores budgeted; is the highest Quarterly PAT figures of the Company
- While the NPA has risen marginally significantly, lower Finance and employee costs have helped contain the overall expenses. Other expenses were higher on account of higher collection costs but have still led to higher than budgeted profitability.

Way Forward

- With stress seen in the money market and lenders being vary, Q3 was used to rebuilt the pipeline of fresh fund infusion at reasonable cost. Much of it would materialize in Q4.
- We hope to see the current turbulence settle down during Q4 FY 19 and growth picking up; having taken a conscious call to cut disbursements in Q3, Company hopes to recover what is lost IN Q3, in Q4.
- The Company expects Q4 to be better than Q3 with some signs of improvement being seen
