MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Industry Scenario

The real estate market continues to be sluggish and this trend is likely to be witnessed in the next few years.

Future Outlook

The main business of the Company is investment in properties for leasing. The revenue stream from the operations is expected to remain flat in the immediate future.

Opportunities and Threats

After a lull of five quarters, the overall market sentiment has experienced a sharp uptick on the back of the union budget focus on real estate and infrastructure. Apart from the Real Estate Regulation Bill becoming an Act, progressively reducing interest rates and the ample liquidity in the system are expected to help the real estate sector.

However, the challenges of demand supply mismatch, high unsold inventories across the country remain. But the signs are, nevertheless, encouraging with the improving demand and reduced supply of new projects. The stretched deadlines for completion of projects have nudged buyers away from the market and dampened the mood of buyers. The trend of tepid consumer demand is likely to persist in the current financial year.

Risks & Concerns

As per the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Risk Management Committee has to be set up by top 100 listed entities, determined on the basis of market capitalisation, as at the end of the immediate previous financial year. As per this regulation company need not constitute a risk management committee.
