## Kamal Khetan

Chairman & Managing Director

### CHAIRMAN'S MESSAGE

Dear Shareholders,

"Feet on the Ground, Eyes on the Horizon" captures the essence of our plans".

Our passion, hard-work, dedication and a divine discontent to keep bettering our best has today made us a market leader in spite of our humble beginnings. As we grew, instead of following the traditional hub-and-spoke approach – often on a one-way basis, we moved towards creating uni-directional systems and creating talent pool which has ideas, insights and efficiencies. With the said approach Sunteck has emerged as one of the trusted Brands in developing high end projects in each micro market.

Your Company in less than a decade has been through several cycles of changes in economic environment and workplace. Throughout these situations we have constantly focused on our growth and continuous improvement. With this, it is also imperative to be conscious of the fact that small steps aren't enough for creating strong Brand. Therefore, our approach encompasses both the opportunity and responsibility to look beyond the bottom line to understand and shape the larger impact.

The fundamentals and demographics remain strong for Indian real estate market. The pace of urbanization is still slow compared to other emerging markets. Only 1/3rd of our population lives in cities

as compared to an average 50% globally. As per the government estimates, 50% of the population would be shifting to urban cities by 2050. The Government estimates a shortfall of 30 million housing units by 2022 in meeting urban demand. In lieu of this, the government has announced big ticket reforms to provide housing for the masses with the introduction of the policy viz. 'Housing for all 2022'. This we believe will open new doors of opportunities for the real estate development in the country.

While the current market place has been challenging, your Company has created a development portfolio of 24 million square feet spread across 24 projects and 4 rented assets. Of which we have completed 6 projects and 8 ongoing projects are expected to be completed over the next 3-4 years. We have made great progress this year but I recognize that we have not achieved all we set out to do and there is more we are working towards to meet the desired goals in a timely manner. As we gear up, we are now focusing to enhance our footprint in the market place in the next 2-3 years by way of new launches and new acquisitions on JV / JDA basis.

Thousands of new products and services are being released into the market every day. As the market becomes crowded with similar products and services, our strategy is differentiated and is in line with customer expectations. With creation of four brands i.e. **Signature, Signia, Sunteck City and Sunteck** we have clearly distinguished

price and product. The team fully understands and has always thoughtfully crafted the product-mix for every location and every project thereby creating destinations; a testimony to more iconic developments.

Executing a strategy is not as easy as formulating it. The team has stayed focused on those events that have the largest impact on the ability to execute the strategy successfully. This is well evidenced by the approvals coming through for most of the key projects under execution alongwith completion of projects. During the financial year, we were able to get requisite approvals to launch few projects as well as receive several occupancy certificates for most of our completed projects. Further, your company has taken steps to strengthen and monitor the internal processes by appointing one of the leading Big 4 consultants to have a more robust review mechanism.

Trust and quality both remains the cornerstones of what we do, and how we do it and this is well accepted in the marketplace. Our 3 BKC residential projects have elite and uber rich class of India as its customers. This is well complemented by our customer relationship team which is focused to deliver excellence and promotes confidence amongst the customers.

Vision transforming into reality - space which is unconfined by walls, with unfetter natural light and is a surviving example of beautifully decorated ultra luxury residences of 1.1 million square feet development wherein well known personalities are residing i.e. Signature Island, BKC. Even Signia Oceans, Airoli and Signia Skys, Nagpur offering luxury lifestyle living experience are habitable. We have also completed a commercial property in Goa i.e. Sunteck Kanaka.

As the economy begins to roll again, the market is caught in low gear. Despite of these challenging conditions, your Company has been able to record growth in pre-sales by 28%, collections by 29% (Rs. 540 crs highest ever collected) and achieving operating margins of 46%. Additionally, we have also strengthened our international sales & marketing team to cater to the requirements of NRI customers.

I believe that now your Company has strength and stability. Our thrust for the next 2-3 years is to ensure that we have consistent sales growth by launching smaller ticket size apartments in the premium segment in the subsequent phases of **our 23 acres of township in Goregaon (W) i.e. Sunteck City** and other projects under the group's development

portfolio on a case to case basis. Further, selectively acquire new land parcels on a JV / JDA basis and also enhance our rental portfolio by exploring opportunities in the existing development portfolio. With Sunteck's sound strategy and strong leaders, I have every confidence that we will continue to build on our success.

What makes me proud is that our standards are something that we don't compromise, which is why we are able to persistently provide our customers with the highest levels of quality and enriching buying experience. To achieve this, we have always been committed to attracting, developing and retaining the best and most talented people. The team is hard-working, enthusiastic, results-oriented and of course career-minded.

While the economic environment is unfavorable, I believe that the quality, passion and energy of our people over the last few years have impacted positively. With unique knowledge and experience, delivering world class excellence and personal touch well ensure that we continue to maintain our positioning in the ultra luxury segment.

I am truly privileged to have a team, which brings commitment and enthusiasm to work each day and carries it forward to

enrich their communities. And finally, would like to thank, our Board of Directors, partners, associates and shareholders, for your confidence in us, which helps fuel the momentum towards an ever brighter future for Sunteck.

**Warm Regards,  
Kamal Khetan**

## Management Discussion and Analysis

### GLOBAL ECONOMY

Global growth remains moderate, with uneven prospects across the main countries and regions. It is projected to be 3.5 percent in 2015, in line with forecasts in the January 2015 World Economic Outlook (WEO) Update. Relative to last year, the outlook for advanced economies is improving, while growth in emerging market and developing economies is projected to be lower, primarily reflecting weaker prospects for some large emerging market economies and oil-exporting countries. While these increasingly influence competitiveness and the global economy tentatively recovers from the economic crisis, significant risks remain, resulting from a strained geopolitical situation, rising income inequality and the potential tightening of financial conditions. As we evidence fall in crude prices globally, it is benefiting commodities dependent economies like Brazil and Russia, China and India thereby easing inflationary pressures.

### INDIAN ECONOMY

The Indian Economy has started recuperating with GDP growth recovering from decadal lows of 4.6% y-o-y in Q1-2014 to 7.5% y-o-y in Q1-2015 putting it ahead of China as the world's fastest growing large economy in the coming years. Also, the growth in Index of Industrial Production was recorded at 4.1% y-o-y at the end of April 2015, indicating an incipient recovery in the output of the core sector industries. With Government of India's focus on pro-business legislations, expeditious clearances to large scale infrastructure projects, lowering the fiscal and current account deficit, controlling inflation, there are expectations of a major economic revival and growth.

### INDUSTRY OVERVIEW

Overall the real estate demand has remained subdued during the fiscal due to weak consumer sentiments, primarily driven by high inflation and weak economic growth. Sale velocity continued to decline though at a slower pace, indicating a sanguine situation for the sector.

In the near to medium term, recovery is expected though gradually due to better GDP growth and lower interest rates. A rise in residential demand is expected in the years ahead primarily driven by a) improvement in consumer demand with more projects nearing completion, b) buyers' capacity to take on leverage as the mortgage to credit ratio still remains at a low level; with potential tailwinds from interest rate cuts in FY16 / FY17, and c) stable pricing resulting in a steady increase in affordability.

In the longer term, the sector should largely benefit given the government's macro road map for the next 4-8 years on pro-growth, pro-job creation / investment, fiscal consolidation and lower inflation expectation. All this should lead to improving demand for both residential and commercial properties in the coming years.

The relaxation of thresholds for foreign direct investment in real estate projects and clear guidelines of REITs (companies owning rent-yielding assets) is likely to improve fund inflow. Further, proper implementation of proposed Land Acquisition Act and Real Estate Regulatory Bill will lead to an improvement of customer perception about the sector and lead to an increase in demand.

### Mumbai Real Estate

The Mumbai Metropolitan Region (MMR) residential market was subdued during the first half of FY15. Several reasons resulted in contraction of demand like muted property price growth expectation and low income growth being some of them. Shift towards organized developers with better brand and track record was witnessed.

In the second half of FY15 residential volumes have shown some improvement as developers have softened prices and offered deals. Going forward, further improvement in demand is expected on account of gradual improvement in employment outlook coupled with lower consumer inflation and housing loan interest rates.

Commercial is witnessing green shoots of revival due to improving supply - demand dynamics, higher PE Investments (~50% in commercial) and progressive announcements on REITs. Leasing market has started showing signs of pick-up with massive improvement in the volumes in the last 2 quarters of CY14 and considered to be the best in the last 2 years. This along with decreasing vacancy rates will result in lower cap rates, going forward. Also apart from BFSI sector companies, a clear trend is emerging in terms of demand from the other services sector, which comprises companies from media, consulting, e-commerce, etc.

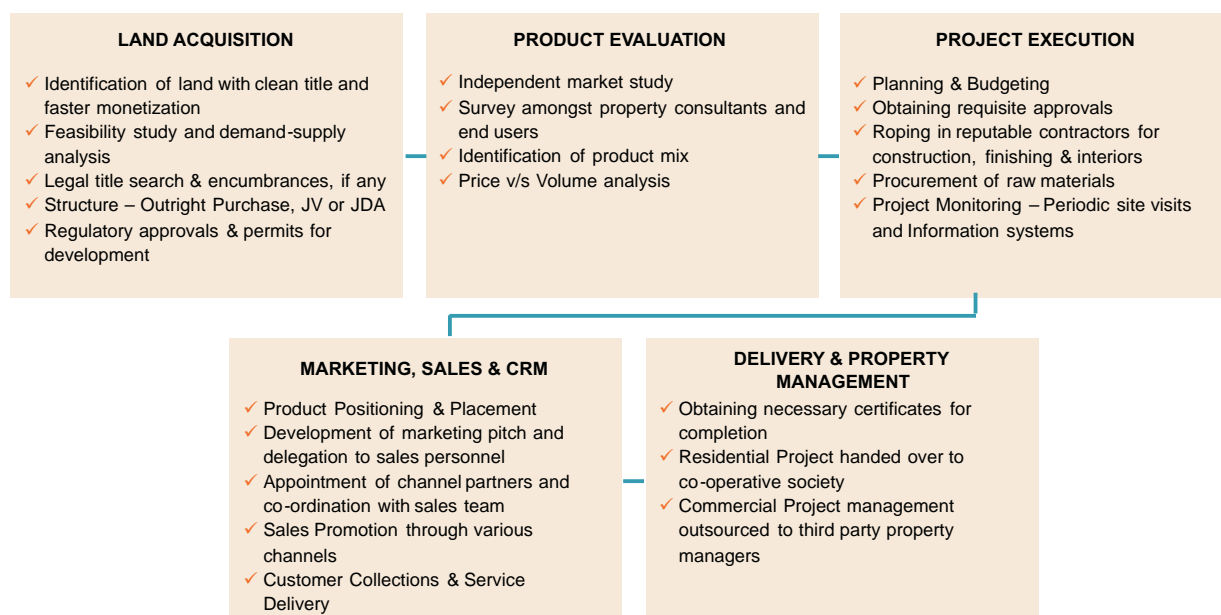

# Management Discussion and Analysis

## BUSINESS OVERVIEW

Your company is one of the leading real estate development company of the country with focus on city-centric developments well spread-out across Mumbai Metropolitan Region (MMR). The company's business focuses on designing, developing and managing premium residential and commercial properties. The strength of the company is to acquire low-cost land parcels and developing them into high end projects.

The company has carved a niche for itself in the ultra-luxury and luxury segment by differentiating itself in each micro-market through brand positioning with different product offering, brand partnerships and having different reputed channel partners for each product.

## Business Process

## Sustainable Business Model

Having carved niche for itself in Mumbai Metropolitan Region (MMR) your company believes that the demand for residential property in Mumbai will remain strong on account of certain factors such as limited availability of quality land, growing economy and rising immigrant population. The projects in Mumbai are well-located to gain the first mover advantage post the shift in the central business district from the south of the city primarily Nariman Point to the secondary business districts like Bandra Kurla Complex. Alongside the company remains focused on other micro-markets like Goregaon, Borivali, Andheri, Airoli, Mulund, Vile Parle and Sion.

The company's strategy is to turnaround its projects in near to medium term which enables it to get higher ROEs. With the growing demands and expectations from customers in each micro market, the company ensures that all needs are appropriately addressed to satisfy them. This has helped your company to generate higher revenue on lower volumes.

- Multi-Pronged Land Acquisition** – Periodic acquisitions through Government Tenders (closed), Joint Development, outright purchase from private corporates and re-development of housing societies has resulted in getting relatively clean and clear land parcels at lower acquisition cost. Consequently, it provides scope for further land acquisition.
- Premium Positioning** – To differentiate the company's projects from its peers, your company has developed four brands that well resonate the product offering across the residential and commercial developments. **(a) Signia** brand - targets ultra luxury residences that are aimed at high-net worth individuals, **(b) Signia** brand - targets premium and aspirational residences in select suburban micro markets, **(c) Sunteck City** brand - for large formats and mixed-use developments and **(d) Sunteck** brand - for commercial developments.

## Management Discussion and Analysis

3. **Corporate Sales** – The Company does sales through reputed channel partners, wealth managers, institutions and participation in property exhibitions to attract corporate, HNI and retail customers. Your company's main customer focus is on the corporate employees, Business heads of Financial Institutions and some of the most celebrated businessman / finance professionals of the country. In addition, the company provides services to its customers from the date of purchase till the date of delivery.
4. **Strong tie-ups for execution** – The company utilizes a strong in-house project management team with an outsourcing model for execution that emphasizes on quality, design and construction of its projects. Further, the company endeavors to deliver high-architecture, timely execution and it believes that this outsourcing model provides the scalability required to undertake large developments.
5. **Strategic Partners & Associates** – As your company has grown it has tied up with few selected partners who have ensured financial strength to the business and brand partners & associates who have enabled the company to create high end products to deliver luxury living experience.
6. **Focus on cash flows and low leverage** – The company's focus has always been on managing its cash flows prudently. During the initial years of operations the company avoided getting into highly speculative commercial developments and focused on developing residential projects. Additionally, the company maintained discipline in acquisitions and growth by utilizing the surplus cash flows from current projects prudently. As on March 2015, the company has a construction finance loan on 5 out of 24 projects and 4 rented assets under the development portfolio.

### Development Portfolio

Presently, your company has 24 projects aggregating to development potential of ~24 msf, of which about 70% is in residential segment and the balance in commercial & retail segment. Out of the said development potential, the company has an economic interest on ~12 msf of developable area. This scale of development portfolio has been achieved within a short span since your company's foray into real estate development business in 2005. Besides, the company also has 4 rented assets in its portfolio with a leasable area of ~0.22 msf on which the company has an economic interest on 0.14 msf of the leasable area. These assets are generating steady rental income annually for the group.

Your company's **3 residential projects in BKC, Mumbai** and **23 acres township in Goregaon (W), Mumbai (mixed-use development)** contribute to a large pie of the revenue potential. The company has chosen these locations for development because

**(a) BKC** - it has emerged as the financial hub of the city and is considered as the most secured & well connected CBDs. The locale houses some of the most well known Corporates, Financial Institutions, Bourses, Consulates, Educational Institutions, 7 Star Hospitality providers, Multi Specialty Hospitals, upcoming Convention Centre and a planned High End Mall. The key management personnel in these corporate houses and institutions who forms part of high-income group, aspires for luxury living residences with ease of reach to their work place and is well complemented by socio-economic environment. Moreover, the adjoining catchment areas to BKC like Kurla, Kalina and Kalanagar do not have any high end luxury residences and adequate social infrastructure. With so many corporates and institutions operating out of BKC, the third phase of Mumbai's metro project has also been planned to connect BKC to Andheri and South Mumbai.

**(b) Goregaon** - identified as next Commercial Business District (CBD) of the city by MMRDA (after BKC) is strategically located and supported with the best infrastructure. The residential potential of the given location is well justified with the huge office space already operational including Nirlon knowledge Park, Nesco, and Mind Space having prominent corporates, several back offices of well-known banks like Citi, JP Moran, Deutsche Bank and also many IT companies as its clientele. This together, with the thrust on infrastructure projects (the general rule being-the better the infrastructure, the better the property value) ensures easy accessibility to the Western Express highway and to arterial roads like JVLR, two upcoming east - west flyovers, proposed Goregaon - Mulund Link Road, proposed coastal road, upcoming Oshiwara station and proposed MUIP's (Mumbai Urban Infrastructure Project) plan to start a Metro link from Charkop to Mankhurd. In the said location, your company has launched and further intends to launch smaller ticket sized apartments in the premium segment starting INR 1.5 cr which will give higher volumes leading to higher profitability.

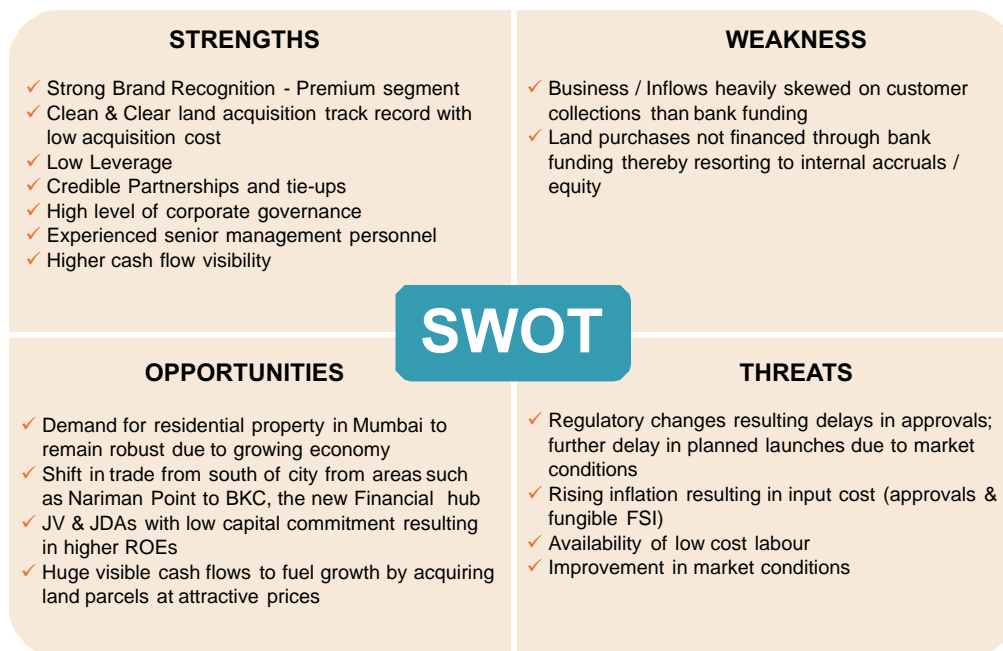

## Management Discussion and Analysis

Your company has also selectively expanded to other geographic regions in India and has acquired few projects on JV / JDA basis located in city-centric locations of cities like Jaipur, Nagpur and Goa. Going forward, the company's focus will be to expand in select areas of Mumbai and outside Mumbai on a case to case basis with thrust on low cost acquisitions / limited capital commitment, higher ROEs, working with top contractors, architects, PMCs, and employing best talent to ensure quality and timely delivery. Additionally, the company will also explore its existing development portfolio to enhance its rental portfolio.

### Brand Partnerships

Your company has tied-up with international brands like **(a) Vertu**, a market leader in luxury mobile phones for 'Signature Concierge Services' for the residents of its flagship project 'Signature Island' located in the heart of Bandra Kurla Complex in Mumbai, **(b) Disney India** for the residents of 'Sunteck City' in Goregaon (W) to bring Disney inspired homes to India and create an exciting atmosphere for families to raise their kids. **(c) Sussanne Roshan's Company**, 'The Charcoal Project' for interiors of residential project 'Signia Skys' in Nagpur.

### Accounting Policy

Your company maintains its accounts on accrual basis following the historical cost convention in accordance with Generally Accepted Accounting Principles (“GAAP”) and in compliance with the Accounting Standards referred to in Section 211 (3C) and other requirements of the Companies Act, 2013. Insurance and other claims are accounted for as and when admitted by the appropriate authorities.

The company follows ‘**Project Completion Method (PCM)**’ of accounting unlike other real estate developers who follow percentage of completion method (POCM) for revenue recognition.

Under project completion method of accounting, allocable expenses incurred during the year are debited to work-in-progress account. The revenue is accounted for as and when the significant risks and rewards of ownership of the units in real estate are passed to the buyer and the projects get completed or substantially completed, to the extent that the economic benefits will flow to the group and revenue can be reliably measured.

During the year, the total revenues recognized in the P&L stood at INR 3,169 mn with an operating margin of about 46%. The total revenues consist of sales recognition from completed projects, rental income and other income. Besides, the cost recognized from the sale of completed projects has been adjusted from finished goods.

#### g) Impairment of assets

The carrying amounts of assets are reviewed at each balance sheet dates and if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, then such loss is reversed and the asset is restated to extent of the carrying value of the asset that would have been determined (net of amortization / depreciation), had no impairment loss been recognized.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.
