MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Industry Structure and Development

Company is in business of Export, Import, Trading and distribution of chemicals, metals and rubbers. The Company is also actively involved in business of generation of wind energy.

Chemical Industry

The chemical industry is the main stay of industrial and agricultural development of the country and provides building blocks for several downstream industries, such as textiles, papers, paints, soaps, detergents, pharmaceuticals, varnish etc. In terms of volume, the Indian chemical industry is the 7th largest in the world and the 3rd largest in Asia with the size worth \$139 Billion. The Indian chemical industry, comprised of 3.4 % of the global industry and presents a huge opportunity for young and dynamic entrepreneurs. "The Indian chemical industry is currently estimated to be about US \$ 155 billion in 2016, and has the potential to grow at 9% per annum to reach US \$ 226 billion by FY20. India is the Seventh largest producer of chemicals worldwide and third largest producer in Asia.

With one of the highest populations but with a polymer demand less than 20%, the region is expected to enjoy the fastest growth in polymer demand anywhere in the world over the next five years; outstripping China and other emerging economies. Further, the Indian sub-continent has established itself as the most exciting and dynamic emerging market in the world and is one full of potential and investment opportunities. With India's population similar to China's, but polymer demand at only one-fifth of China's, the Indian subcontinent's plastics industry has a good potential for growth. Improving standards of living have led to an increase in consumption of a wide range of consumer goods from packaged foods to automobiles.

Wind Energy

Over the period of time people across the world are slowly but consistently understanding the importance of pollution free environment. Alarming rate of global warming is also a cause of growing concern. People are now opting/preferring alternate fuel resources than conventional ones. Alternative fuels which are available at a cheaper rate can meet growing demands for such alternative fuels. Wind energy is one of such resource which is a viable option to achieve

sustainable development and also to conserve traditional energy resources, supply of which is limited. Continuous growing population of the world would require huge energy resources at reasonable/competitive prices.

The largest component of renewable generation capacity is wind power. Wind energy not only offers both a power source that completely avoids the emission of carbon dioxide, the main Green House Gas (GHG), but also produces none of the other pollutants associated with either fossil fuel or nuclear generation.

The Government is also considering benefits of wind power generation and is promoting the same directly/indirectly.

Opportunities & Threats

Opportunities:

The chemical industry in India, in particular, is on tenterhooks regarding the result of GST implementation, considering the fact that Indian chemical industry has continued facing severe challenges owing to the mounting taxations. But it is believed that GST will have long-term positive impact on the chemical sector.

India's growing per capita consumption and demand for agriculture-related chemicals offers huge scope of growth for the sector in future. Given the substantial growth of chemical industry and in particular the petro-chemical industry, the Management feels the Company is in good position to further develop and enter into various global markets.

Threats:

The Global inflation effect on costs especially the cost attributed to the logistic and supply chain management, cheaper substitutes by mass producing countries like China and Taiwan on account of low labour costs and volatility in sales are likely threats having the effect of eroding the margins to some extent. India, China political relations and any adverse change therein will have negative impact on many industries including chemical industry.

Outlook

The management is quite confident that the market and business would be stable/positive in the coming financial year. India's existing good business relations with foreign countries and efforts for developing relations with the few other foreign countries would prove beneficial in the interest of various industries including chemical industry.

The Company is open for new opportunities and may grow sizably in the coming future.

As like any other business, the company is prone to various risks and concerns including but not limited to fluctuating foreign exchange, increase in operational cost, etc.

The Company evaluates and monitors all risks associated with various areas of operations such as procurement, sales, marketing, inventory management, debtor's management, operational management, insurance, supply chain management, legal and other issues having a material impact

on the financial health of the company on a regular basis with a view to mitigate the adverse impact of the risk factors.

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the Internal Financial Controls with reference to Financial Statements of VERITAS INDIA LIMITED ('the Company') as of March 31, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining Internal Financial Controls with reference to Financial Statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and specified under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material

weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls with reference to Financial Statements

A Company's Internal Financial Controls with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone Ind AS Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's Internal Financial Control over Financial Reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone Ind AS Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone Ind AS Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of Internal Financial Controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls with reference to Financial Statements to future periods are subject to the risk that the Internal Financial Control with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate Internal Financial Controls with reference to Financial Statements and such Internal Financial Controls with reference to Financial Statements were operating effectively as on March 31, 2018, based on the criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

a) Trade receivables

The Group periodically monitors the sectioned credit limits as against the outstanding balances. The Group establishes an allowance for impairment that represents its estimate of expected losses in respect of trade receivables. The Group uses a provision matrix to compute the expected credit loss for trade receivables. The Group has developed this matrix based on historical data as well as forward looking information pertaining to assessment of credit risk.

An impairment analysis is performed at each reporting date on an individual basis for major debts. In addition a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively. The calculation is based on exchange losses historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in note 9. The Group does not hold collateral as security. The Group evaluates the concentration of risk with respect to trade receivables as to, as its customers are located in several jurisdictions and industries and operate largely in Indian domestic market.

The Company exposure to customers is diversified and no single customer contributes to more than 35% of outstanding trade receivable as at March 31, 2018 and 2017.

Other Equity as per Ind AS	14976,15,935

Explanations for Reconciliation of Balance Sheet Statement of Profit and Loss and Other Equity as previously reported under Indian GAAP and Ind AS:

- A **FVTPL - Financial Assets**
Under Indian GAAP, Company recognised Corporate Guarantees and Interest free loan given to subsidiaries as a Contingent Liability and as Cash respectively. Under Ind AS, Company recognised Corporate Guarantees and Loan to subsidiaries as at FVTPL and measured them at Fair Value through Profit or Loss. Impact of fair value changes as on the date of transition, is recognised in opening reserves and changes therein are recognised in Statement of Profit and Loss.
- B **Provision for Inter Corporate Guarantees and Trade Receivables**
The Company has impaired the Financial Assets viz. Trade Receivables and Inter Corporate Guarantees under Expected Credit Method. Impact of such impairment changes as on the date of transition, is recognised in opening reserves and changes therein are recognised in Statement of Profit and Loss.
- C **Deferred Tax**
Indian GAAP requires Deferred Tax accounting using the Income Statement Approach, which focuses on difference between taxable profits and accounting profits for the period. Ind AS requires entities to account for Deferred Taxes using the Balance Sheet Approach, which focuses on temporary differences between the carrying amount of an asset or liability in the Balance Sheet and its tax base.

In addition, the various transitional adjustments has led to temporary differences. Accordingly, Company has accounted for Deferred Tax on such differences in retained earnings at the transition date.

All figures of the previous period have been regrouped / rearranged, wherever necessary.

Annexure I - referred to in paragraph 1(f) under "Report on Other Legal and Regulatory Requirements" of our report of even dat

Report on the Internal Financial Controls with reference to Financial Statements under section 143(3)(i) of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Ind AS Financial Statements of the Company as of and for the year ended March 31, 2018, we have audited the Internal Financial Controls with reference to Financial Statements of VERITAS INDIA LIMITED ('the Holding Company') and its subsidiaries, its associate companies and jointly controlled entities (together referred to as 'the Group'), which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Group are responsible for establishing and maintaining internal financial controls with reference to Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's Internal Financial Controls with reference to Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Controls with reference to Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Controls with reference to Financial Statement and their operating effectiveness. Our audit of internal financial controls with reference to financial reporting included obtaining an understanding of Internal Financial Controls with reference to Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's Internal Financial Controls with reference to Financial Statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's Internal Financial Control with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Ind AS Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's Internal Financial Control with reference to Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS Consolidated Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated Ind AS Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of Internal Financial Controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls with reference to Financial Statements to future periods are subject to the risk that the Internal Financial Control with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiaries, which are companies incorporated in India, have, in all material respects, an adequate Internal Financial Controls system with reference to Financial Statements and such Internal Financial Controls with reference to Financial Statements were operating effectively as on March 31, 2018, based on the Internal Control with reference to Financial Statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI).

Other Matters

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the Internal Financial Controls with reference to Financial Statements in so far as it relates to the company and its subsidiaries, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India. Further, the Company has overseas subsidiaries where Internal Financial Controls with reference to Financial Statements are not applicable.

The Company determines the net interest on the net defined benefit liability (asset) in respect of a defined benefit by multiplying the net liability (asset) in respect of a defined benefit by the discount rate used to measure the defined benefit obligation as they were determined at the beginning of the annual reporting period.

Re-measurement of defined benefit plans in respect of post-employment are charged to the Other Comprehensive Income.

Explanations for Reconciliation of Balance Sheet Statement of Profit and Loss and Other Equity as previously reported under Indian GAAP and Ind AS:

A FVTPL - Financial Assets

Under Indian GAAP, Company recognised Non-Current Investments in Equity Instruments at cost less provision for diminution in the value of investments other than temporary. Under Ind AS, Company recognised such Non-Current Investments (Other than Investment in Subsidiaries) at FVTPL and measured them at fair value through profit or loss.

Impact of fair value changes as on the date of transition, is recognised in opening reserves and changes thereafter are recognised in Statement of Profit and Loss.

B Provision for Trade Receivables

The Company has impaired the Financial Assets viz. Trade Receivables and Inter Corporate Guarantees under Lifetime ECL Method. Impact of such impairment changes as on the date of transition, is recognised in opening reserves and changes thereafter are recognised in Statement of Profit and Loss.

C Amortised Cost - Financial Assets

Under Indian GAAP, the Company accounted for Deposits at Cost i.e. the amount actually paid. Under Ind AS, such deposits are recognised at fair value on initial recognition and at amortised costs on subsequent measurement.

D Deferred Tax

Indian GAAP requires Deferred Tax accounting using the Income Statement Approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for Deferred Taxes using the Balance Sheet Approach, which focuses on temporary differences between the carrying amount of an asset or liability in the Balance Sheet and its tax base.

In Addition, the various transitional adjustments has led to temporary differences. Accordingly, Company has accounted for Deferred Tax on such differences in retained earnings at the transition date.

41. In one of the subsidiary i.e. GV Investment Finance Company Ltd (Incorporated in Mauritius), the statutory auditor has commented about the subsidiary company's dependence for financial support on its shareholder i.e. parent company. The directors of the subsidiary company are not in possession of the any facts indicating that the required financial support of the shareholder will not be forthcoming. Accordingly, financial statements of subsidiary company prepared on the going concern basis.

42. Figure of the previous period have been regrouped / rearranged, wherever necessary.
