The investment(s), loan(s), guarantee(s) and security (ies), as the case may be, will be made in accordance with the applicable provisions of the Companies Act, 2013 and relevant rules made there under. These investments are proposed to be made out of own/ surplus funds/internal accruals and or any other sources including borrowings, if necessary, to achieve long term strategic and business objectives.

The Board accordingly recommends the Special resolution for your approval.

None of the Directors, Key Managerial Personnel or their relatives are in any way concerned or interested, financially or otherwise in this resolution except as members.

Item No.11:

The resolution contained in the AGM Notice relates to a proposal by the Company to create, offer, issue and allot Securities through further public offerings, preferential allotments, qualified institutions placements, issuance of Global Depository Receipts, American Depository Receipts and such other Securities in such manner as stated in the resolution. The Company intends to issue Securities for a value of up to US\$ 50 million. Subject to applicable laws and regulations, the Company intends to use the net proceeds of the Issue primarily for making acquisition, expansion and modernization of existing facilities, working capital requirements and general corporate purpose.

The Special Resolution also seeks to empower the Board of Directors to undertake a qualified institutions placement with qualified institutional buyers as defined by SEBI (ICDR) Regulations. The Board of Directors may in their discretion adopt this mechanism as prescribed under Chapter VIII of the SEBI (ICDR) Regulations for raising the funds for the expansion plans of the company, without the need for fresh approval from the shareholders. In case of an issuance of Securities to qualified institutional buyers, whether or not such investors are existing members of the Company, through a qualified institutions placement under Chapter VIII of the SEBI (ICDR) Regulations, the final price at which the Securities will be

offered will be subject to investor response and prevailing market conditions, and computed in accordance with the relevant provisions of Chapter VIII of the SEBI (ICDR) Regulations. Furthermore, a discount of 5% to the floor price of the Equity Shares, or such other discount as may be permitted under Chapter VIII of the SEBI (ICDR) Regulations may also be contemplated at the time of issuance, for which authorization is being taken from the shareholders of the Company through this Special Resolution. The detailed terms and conditions of the issue as and when made will be determined by the Board of Directors in consultation with the Merchant Bankers, Lead Managers, Advisors and other experts in accordance with the applicable provisions of law.

The Special Resolution seeks to give the Board powers to issue Securities in one or more tranche or tranches, at such time(s), at such price(s) and to such person(s) including institutions, incorporated bodies or otherwise as the Board in its absolute discretion deem fit. The consent of the Shareholders is being sought pursuant to the provisions of Section 62(1) (c) and Section 42 of the Companies Act, 2013 and other applicable provisions and rules of the Companies Act, 2013, to the extent notified and in force, and in terms of the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 executed by the Company with the Stock Exchanges where the Equity Shares of the Company are listed i.e. BSE Limited and National Stock Exchange of India Limited. Section 62(1)(c) of the Companies Act, 2013 provides, inter-alia, that when it is proposed to increase the issued capital of the Company by allotment of further shares, such further shares shall be offered to the existing shareholders of the Company in accordance with the Act unless the shareholders in a general meeting decide otherwise. The special resolution seeks the consent and authorization of the members to the Board to make the proposed issue of Securities and in the event it is decided to issue Securities convertible into Equity Shares, to issue to the holders of such convertible Securities in such manner and such number of Equity Shares on conversion as may be required to be issued in accordance with the terms of the issue.

The Board of Directors believe that the issue of Securities to investors who are/ are not Shareholders of the Company is in the interest of the Company and therefore recommends the resolution for your approval.

None of the Directors / Key Managerial Personnel of the Company / their relatives is, in any way, concerned or interested, financially or otherwise, in this resolution.

Item No.12:

Note: The previous years' figures regrouped and rearranged wherever necessary in order to make them comparable as per Ind-AS.

PERFORMANCE AND OPERATIONS:

During the year 2017-18, the Company's total revenue is increased by 51.92% as that of previous year. EBIDTA stood at 5.28% as compared to that of last year 6.99%. PBT increased by 227.05% as compared to that of last year. PAT also increased by 165.50% as compared to that of previous year.

BUSINESS OUT LOOK:

The Company will remain focused on copper business and continue to add further value added products in line with the requirement of our OEM customers. We are looking at a minimum of 10% volume growth in this year. The Company received a major boost since the implementation of GST and Demonitisation. With the advent of uniform tax structure (GST) across the country and abolition of CST, our competitiveness in terms of pricing has gone up. The company's disadvantage

against tax free territories like Silvassa will no longer apply. Post demonitisation, the customer base has increased and diversified.

EXPANSION PLANS:

The company's competitiveness in terms of pricing has gone up post GST and volumes have increased substantially. With the kind of growth mode the Company is in the existing capacity as well as space is not enough to meet the demand. Therefore, the Company has decided to double the capacity to 30000 MT from the existing 15000 MT. The expansion shall be done through a 100% subsidiary viz., Aanvik Mercantile Private Limited (AMPL). AMPL has 65.28 Acres of land in Shabhashpally village, Medak District, located near the proposed inner Ring Road. The Company has already invested Rs.14.16 Crores out of capital outlay of Rs.40 Crores in the first phase. All the required statutory

approvals are in process and commercial production is expected to commence in March, 2019. The Company is targeting consolidated turnover of Rs.1000 Crores in next 2 to 3 years.

DISINVESTMENT IN SUBSIDIARIES:

(i) Solar Dynamics Private Limited

The Company was carrying out wind power operations of 6.4 MW capacity in Tamil Nadu State through subsidiary company viz., Solar Dynamics Private Limited. Due to regulatory uncertainties and low growth prospective, the Company has exited from the wind power business in Tamil Nadu by selling all the wind mills situated therein. The divestment proceeds shall be utilized for the expansion of copper manufacture facilities.

(ii) Bhagyanagar Metals Limited

Bhagyanagar Metals Limited having land parcel of 22 Acres of land was incorporated for the future expansion plans. As the land parcel of 22 Acres is not sufficient to meet the expansion criteria, the subsidiary has been hived off. The divestment proceeds shall be utilized for expansion of copper manufacturing facilities.

(iii) Bhagyanagar Cables Pvt Ltd

As your company has exited from cables/telecom business long back and the focus is only on copper business now, keeping miniscule Interest in Bhagyanagar Cables Pvt Ltd is no longer worthwhile.

SALE OF FACTORY LAND & BUILDING:

During the year, the factory land & building (erst-while JFTC factory) situated at Pilerne Industrial Estate, Pilerne, Goa, admeasuring 19865 Sq. Mtrs has been sold for Rs.9.55 Crores.

SUBSIDIARIES/ ASSOCIATES:

Your company has the following wholly owned subsidiary Company as on 31st March, 2018. Further there has been no material change in the nature of its business:

MANAGEMENT DISCUSSION AND ANALYSIS

COMPANY'S OVERVIEW

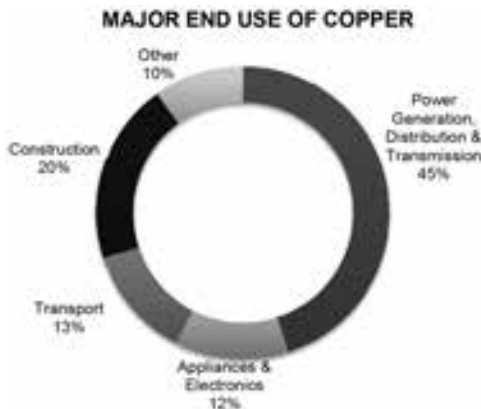

Bhagyanagar India Ltd (BIL) was incorporated in the year 1985, a flagship Company of Surana Group. BIL is among the oldest and largest companies producing copper products in India. The Company forayed into the non-conventional energy sector with a wind power project with an installed capacity of 9 MW at Kapatigudda, Karnataka State. BIL believes its industry knowledge, proactive research and specialized technology helps provide customers with improved products. The Company has steadily grown over the years with a continued focus on customer satisfaction, evolving itself into country's one of the most promising mid cap Companies.

PERFORMANCE OF KEY INDUSTRY SEGMENTS

1. COPPER:

Introduction:

Copper is the most versatile metal in existence. Since it's a key metal for industrial applications owing to its high electrical conductivity, corrosion resistance, ductility, malleability and rigidity, the demand for copper is wide ranging across electrical applications, communications equipment, construction, transportation, and industrial machinery. Today, nearly 28 million tonnes of copper is used annually. Nearly 70 percent of worldwide copper produced is used for electrical/conductivity applications and communications, as shown in figure below:

Source: ICA

Global Business Scenario:

Copper exceeded expectations in 2017 as demand proved stronger than expected while supply suffered some major disruptions. LME primary cash copper was \$5,512/metric ton on Jan 1, 2017. It closed the year at \$7,215/mt, good for a meteoric rise of 30.9%. Looking back, copper demand, especially from China, turned out to be better than expected. China's housing market proved resilient, while global economic growth also strengthened over the year. There were more surprises on the supply side. Earlier this year, two of the biggest copper mines, Escondida in Chile and Grasberg in Indonesia both experienced prolonged disruptions, while other producers also suffered cutbacks due to declining ore grades and weather factors. While labour disputes and

weather factors continue to pose a risk to supply going forward, we do not expect supply cuts to be as severe as what we've seen earlier this year.

Countries that dominate the change and will directly be responsible for the growth forecasts include China, Vietnam and South Korea. India, which currently accounts for 3% of global copper consumption, is most likely expected to increase its consumption over the medium term. The drivers for India's consumption will be strong economic growth and rising urbanisation in the country. There is a massive cultural shift in the metropolitans as citizens become more aware of declining climatic conditions. This has also led to an increase in demand for air purifiers, electric vehicles (EVs) and clean energy. China will remain the biggest contributor to world growth in copper usage. Apparent demand in China is expected to increase by around 3.5% in 2018 and 2.5% in 2019, essentially in line with underlying "real" demand growth estimated by other analysts. World apparent refined usage is expected to increase by 3% in 2018 and 2.2% in 2019. As per the ICSG, the outlook for the EU, Japan and the United States remains positive.

Indian Copper Industry and Demand Outlook:

The size of Indian copper industry (consumption of refined copper per annum) is around 6.6 lakh tonnes, which as percentage of world copper market is only 3%. Although India is among the top-10 exporters for refined copper, it imports 94% of the concentrate to feed its smelters. This creates huge dependency on imports and also highlights the need for potential increase in copper mining capacity. India's copper market has huge potential for growth, given that its per capita consumption is significantly lower than the world average at 0.6kg and is expected to increase to 3kg by the year 2025. Rapid rates of industrialization and urbanization have created a need for expansion and investment in the country's electrical and power infrastructure.

The Government of India has undertaken initiatives such as digitalization, Housing for All, Make in India, electrification of vehicles, renewable energy capacity target of 175 GW, etc. These initiatives are expected to play a crucial role in boosting demand for copper in the country. According to the Twelfth Five Year Plan (2012-17), the Government is targeting a 43% increase in power generation capacity. Moreover, the Government has planned to set up five ultra-mega power projects of 4,000MW each. This is expected to spur copper demand as the electrical and power sectors account for nearly one-third of the refined copper consumption. Demand from other industries such as transport, consumer and electronic goods and industrial machinery is also expected to remain strong on the back of increased end-user demand and increasing investments. Free trade agreements with copper producing countries have posed a challenge to the Indian copper industry. In coming days, the industry needs to be innovative on product and cost to meet the forthcoming challenges.

Business outlook:

With the good macro-economic situation of our country we are expecting this year to be a very good year. The situation post GST introduction looks very favourable for

our company and the company will have much higher competitiveness against our competition in territories like Silvasa, Baddi etc. New value added products introduced by the company is getting good traction from OEM customers across various sectors such as Automobile, Electrical Switch Gears, Heaters etc. The company always has exposure to foreign exchange against our imports. The macroeconomic factors and the stability in the rupee parity also augurs very well for the company.

The Company plans to double its capacity from the exiting 15000 MT p.a. through a 100% subsidiary viz., Aanvik Mercantile Private Limited.

2. Non-conventional energy - Wind Power:

Wind power generation capacity in India has significantly increased in recent years. As of 31st March, 2018 the total installed wind power capacity was 34.04 GW, the fourth largest installed wind power capacity in the world. Wind power accounts for nearly 10% of India's total installed power generation capacity and generated 52.67 TWh in the fiscal year 2017-18, which is nearly 3% of total electricity generation. The capacity utilisation factor is nearly 16% in the fiscal year 2017-18 (19.62% in 2016-17 and 14% in 2015-16). 70% of wind generation is during the five months duration from May to September coinciding with Southwest monsoon duration.

Wind power costs in India are decreasing rapidly. The levelised tariff of wind power reached a record low of 2.43 per kWh (without any direct or indirect subsidies) during auctions for wind projects in December 2017. In December 2017, union government announced the applicable guidelines for tariff-based wind power auctions to bring more clarity and minimise the risk to the developers. Amid a major overhaul of the wind energy tariff-determination mechanism, multiple policy issues, and flat power demand, capacity addition took a big hit in the last financial year.

OUTLOOK:

The Indian government has committed to a target of 175 GW of renewable energy by 2022, including 100 GW of solar capacity and 60 GW of cumulative wind power capacity. India has the potential to generate about 3-5 GW per annum, given the presence of the right policy framework and ecosystem. The key to a sustainable and thriving future is India's "Make in India" movement by the means of wind power. This will enhance the acceptance of Indian products in the overseas market. 2017 was a year of major reform in the wind power industry due to the introduction of competitive bidding and GST rollout, but the coming years will be more predictable and hence, more suitable for upgrading the sector further.

SECRETARIAL AUDIT REPORT

*Pursuant to Section 204 (1) of the Companies Act, 2013 and the Rule 9 of the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014*

FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2018

To
The members of
Bhagyanagar India Limited

I have conducted Secretarial Audit pursuant to Section 204 of the Companies Act 2013, on the compliance of applicable Statutory Provisions and the adherence to good corporate practices by M/s. Bhagyanagar India Limited (hereinafter called as "the Company"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

REPORT ON CORPORATE GOVERNANCE

1. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE:

Transparency and accountability are the two basic tenets of Corporate Governance. At Bhagyanagar India Limited, we feel proud to belong to a Company whose visionary founders laid the foundation stone for good governance long back and made it an integral principle of the business, as demonstrated in the words above. Responsible corporate conduct is integral to the way we do our business. At Bhagyanagar India Limited, we are committed to doing things the right way which means taking business decisions and acting in a way that is ethical and is in compliance with applicable legislation. Our Code of Business Principles is an extension of our values and reflects our continued commitment to ethical business practices across our operations. To succeed, we believe, requires highest standards of corporate behaviour towards everyone we work with, the communities we touch and the environment on which we have an impact. This is our road to consistent, competitive, profitable and responsible growth and creating long term value for our shareholders, our people and our business partners.

The above principles have been the guiding force for whatever we do and shall continue to be so in the years to come. The Board of Directors ('the Board') is responsible for and committed to sound principles of Corporate Governance in the Company. The Board plays a crucial role in overseeing how the management serves the short and long term interests of shareholders and other stakeholders. We keep our governance practices under continuous review and benchmark ourselves to best practices across the globe.

1. The Corporate Governance Report prepared by Bhagyanagar India Limited (hereinafter the "Company"), contains details as required by the provisions of Chapter IV of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the Listing Regulations") ('Applicable Criteria') with respect to Corporate Governance for the year ended March 31, 2018. This report is required by the Company for annual submission to the Stock Exchange and to be sent to the Shareholders of the Company.

MANAGEMENT'S RESPONSIBILITY

2. The preparation of the Corporate Governance Report is the responsibility of the management of the Company including the preparation and maintenance of all relevant supporting records and documents. This responsibility also includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the Corporate Governance Report.
3. The management along with the Board of Directors of the company are also responsible for ensuring that the company complies with the conditions of Corporate Governance as stipulated in the Listing Regulations, issued by the Securities and Exchange Board of India.

AUDITOR'S RESPONSIBILITY

4. Pursuant to the requirements of the Listing Regulations, our responsibility is to express a reasonable assurance in the form of an opinion whether the company has complied with the specific requirements of the Listing Regulations referred to in paragraph 3 above.
5. We conducted our examination of the Corporate Governance Report in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised) and the Guidance Note on Certification of Corporate Governance, both issued by the Institute of Chartered Accountants of India ("ICAI"). The Guidance Note on Reports or Certificates for Special Purposes (Revised) requires that we comply with the ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.
6. We have complied with the relevant applicable requirements of the Standard on quality Control (SQC) 1, Quality Control for firms that perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.
7. The procedures selected depend on the auditor's judgement, including the assessment of the risks associated in compliance of the Governance Report with the applicable criteria. The procedures include, but not limited to, verification of secretarial records and financial information of the Company and obtained necessary representations and declarations from directors including independent directors of the company.
8. The procedures also include examining evidence supporting the particulars in the Corporate Governance Report on attest basis. Further, our scope of work under this report did not involve us performing audit tests for the purposes of expressing an opinion on the fairness or accuracy of any of the financial information or the financial statements of the Company taken as a whole.

OPINION

9. Based on the procedures performed by us as referred in paragraph 7 and 8 above and according to the information and explanations given to us, we are of the opinion that the company has complied with the conditions of Corporate Governance as stipulated in the Listing Regulations, as applicable for the year ended March 31, 2018, referred to in paragraph 1 above.

OTHER MATTERS AND RESTRICTION ON USE

10. This Certificate is neither an assurance as to the future viability of the company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

This Certificate is addressed to and provided to the members of the Company solely for the Purpose of enabling it to comply with its obligations under the Listing Regulations and should not be used by any other person or for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care or for any other purpose or to any other party to whom it is shown or into whose hands it may come without our prior consent in writing. We have no responsibility to update this Certificate for events and circumstances occurring after the date of this certificate.

INDEPENDENT AUDITOR'S REPORT

To the Members of

M/s. Bhagyanagar India Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying Standalone Ind AS financial statements of **M/s. Bhagyanagar India Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss including the statement of Other Comprehensive Income, the Cash Flow Statement and the statement of change in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the companies (Indian Accounting Standards) Rule, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under. We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" statement on the matters Specified in paragraphs 3 and 4 of the Order.
2. As required by section 143(3) of the Act, we further report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **M/s. Bhagyanagar India Limited** ("the Company") as of 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES AND KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

1. Corporate Information

Bhagyanagar India Ltd (“the company”) is a Company registered under the companies act, 1956. It is a public limited company domiciled in India and is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). It was incorporated on 2nd September, 1985 having its registered office at 5th Floor, Surya Towers, Sardar Patel Road, and Secunderabad-500003. The company's CIN No. is L27201TG1985PLC012449. The company is engaged in the manufacture of copper products.

Basis of preparation

The financial statements are separate financial statements prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time). For all periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). These standalone financial statements for the year ended March 31, 2018 are the first the Company has prepared in accordance with Ind AS. Refer to **Note: 44** for information on how the Company adopted Ind AS.

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below. The accounting policies have been applied consistently over all the periods presented in these financial statements.

2. Significant Accounting Policies:

(a) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company has concluded that it is the principle in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

- **Interest Income:**

Interest income, including income arising from other financial instruments, is recognised using the effective interest rate method.

- **Dividend Income:**

Dividend income is recognized when the unconditional right to receive the income is established.

(b) Property, Plant and Equipment

Property, plant and equipment are stated at cost of acquisition or construction net of accumulated depreciation and impairment loss (if any). All significant costs relating to the acquisition and installation of property, plant and equipment are capitalized. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in statement of profit and loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. The identified components are depreciated over their useful lives, the remaining asset is depreciated over the life of the principal asset.

Depreciation for identified components is computed on straight line method based on useful lives, determined based on internal technical evaluation. Freehold land is carried at cost.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(c) Investment Properties

Property that is held for long-term rental yields or for capital appreciation or both is classified as investment property. Investment Property is measured at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized. Investment Properties are depreciated using the straight-line method as per the provisions of Schedule II of the Companies Act, 2013 or based on useful life estimated on the technical assessment.

(d) Intangible Assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably.

(e) Depreciation and amortization:

Depreciation is provided on the straight-line method over the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013. Depreciation for assets purchased/sold during a period is proportionately charged.

(f) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is: -

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
- All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- The Company classifies all other liabilities as non-current.

(g) Financial assets

Financial assets comprise of cash and cash equivalents.

Initial recognition:

All financial assets are recognised initially at fair value. Purchases or sales of financial asset that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the assets.

Subsequent Measurement:

- (i) Financial assets measured at amortised cost: Financial assets held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding are measured at amortised cost using effective interest rate (EIR) method. The EIR amortization is recognised as finance income in the Statement of Profit and Loss.

The Company while applying above criteria has classified the following at amortised cost:

- a) Trade receivable
- b) Cash and cash equivalents
- c) Other Financial Asset

Impairment of Financial Assets:

Financial assets are tested for impairment based on the expected credit losses.

De-recognition of Financial Assets:

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

(h) Impairment of Non-Financial Assets

At each reporting date, the Company assesses whether there is any indication that an asset may be impaired. Where an indicator of impairment exists, the company makes a formal estimate of recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount the asset is considered impaired and is written down to its recoverable amount.

Recoverable amount is the greater of fair value less costs to sell and value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case, the recoverable amount is determined for the cash generating unit to which the asset belongs.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

(i) Inventories

Cost of inventories have been computed to include all cost of purchases, cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw materials and components, stores and spares and loose tools are valued at lower of cost and net realizable value.

Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labor and a proportion of manufacturing overheads based on normal operating capacity.

Cost of work-in-progress and finished goods are determined on a weighted average basis. Scrap is valued at net realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(j) Cash and Cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term investments with an original maturity of three months or less. Deposits with banks are subsequently measured at amortized cost and short term investments are measured at fair value through statement of profit & loss account.

(k) Financial liabilities***Initial recognition and measurement:***

All financial liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. These liabilities are classified as amortised cost. A preference share that provides for mandatory redemption by the issuer for a fixed or determinable amount at a fixed or determinable future date, or gives the holder the right to require the issuer to redeem the instrument at or after a particular date for a fixed or determinable amount, is a financial liability.

Subsequent measurement:

These liabilities include are borrowings and deposits. Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

De-recognition of financial liabilities:

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as

the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(l) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest, exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost and other costs that an entity incurs in connection with the borrowing of funds. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

(m) Employee Benefits

Employee benefits are charged to the Statement of Profit and Loss for the year.

Provident Fund

Retirement benefits in the form of Provident Fund are defined contribution scheme and such contributions are recognised, when the contributions to the respective funds are due. There are no other obligation other than the contribution payable to the respective funds.

Gratuity

The employees of the company are covered under Group Gratuity Scheme of Life Insurance Corporation of India. The premium paid thereon is charged to Profit and Loss Account. Adequate provisions have been made in the accounts for gratuity liability. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

Compensated absences

Liability in respect of compensated absences becoming due or expected to be availed within one year from the balance sheet date is recognised on the basis of undiscounted value of estimated amount required to be paid or estimated value of benefit expected to be availed by the employees.

Short-term employee benefits

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

(n) Income Taxes

Income tax expense is comprised of current and deferred taxes. Current and deferred tax is recognized in net income Current income taxes for the current period, including any adjustments to tax payable in respect of previous years, are recognized and measured at the amount expected to be recovered from or payable to the taxation authorities based on the tax rates that are enacted or substantively enacted by the end of the reporting period.

Deferred income tax

Deferred income tax assets and liabilities are recognized for temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax base using the tax rates that are expected to apply in the period in which the deferred tax asset or liability is expected to settle, based on the laws that have been enacted or substantively enacted by the end of reporting period. Deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable income nor the accounting income.

Minimum Alternative Tax (MAT)

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT Credit Entitlement. The company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that company will pay normal Income Tax during the specified period.

(o) Leases**As a lessee**

Leases of property, plant and equipment where the company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

Lease-hold land:

Leasehold land that normally has a finite economic life and title which is not expected to pass to the lessee by the end of the lease term is treated as an operating lease. The payment made on entering into or acquiring a leasehold land is accounted for as leasehold land use rights (referred to as prepaid lease payments in Ind AS 17 "Leases") and is amortized over the lease term in accordance with the pattern of benefits provided.

(p) Provisions, contingent assets and contingent liabilities

Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither recognized nor disclosed. However, when realization of income is virtually certain, related asset is recognized.

(q) Fair value measurement

In determining the fair value of its financial instruments, the Company uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date. Fair value hierarchy:

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1—Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2—Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3— Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(r) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

(s) Cash dividend to equity holders of the Company

The Company recognises a liability to make cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

3. Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgements, estimates and assumptions that affect the reported balances of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

a) Judgements

In the process of applying the accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

- i) **Classification of property** The Company determines whether a property is classified as investment property or inventory property:

Investment property comprises land and buildings (principally offices, commercial warehouse and retail property) that are not occupied substantially for use by, or in the operations of, the Company, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented to tenants and not intended to be sold in the ordinary course of business.

b) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

i) Classification of leases

The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

ii) Useful lives of depreciable/amortisable assets

Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain software, customer relationships, IT equipment and other plant and equipment.

iii) Fair value measurements

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

c) **Recent Amendments**

Standards issued but not yet effective

- a. Ind AS 115-Revenue from Contracts with Customers-The Ministry of Corporate Affairs (MCA) on March 28, 2018 has notified new Indian Accounting Standard as mentioned above .The new standard will come to into force from accounting period commencing on or after April 01, 2018.It replaces existing recognition guidance, including Ind AS 18 Revenue and Ind AS 11 Construction contract. The standard is likely to affect the measurement, recognition and disclosure of revenue. The Company has evaluated and there is no material impact of this amendment on the Financial Statement of the Company except disclosure. The Company will adopt the Ind AS 115 on the required effective date.
- b. Ind AS 21, The Effect of Changes in Foreign Exchange Rates - The amendments to Ind AS 21 addresses issue to determine the date of transactions for the purpose of determining the exchange rate to be used on initial recognition of related assets, expenses or income when entity has received or paid advances in foreign currencies by incorporating the same in Appendix B to Ind AS 21. The amendment will come into force from accounting period commencing on or after April 01, 2018. The Company has evaluated this amendment and impact of this amendment will not be material.

The Company is evaluating the requirements of the amendment and the effect on the financial statements is being evaluated.

29 A Financial Instruments by Category

Set out below is a comparison, by class, of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximates of fair values:

Particulars	Carrying value			Fair value		
	31-Mar-18	31-Mar-17	1-Apr-16	31-Mar-18	31-Mar-17	1-Apr-16
Investments	147,150,000	14,016,539	261,113,270	147,150,000	14,016,539	261,113,270

34. Retirement and Other Employees Benefits

The Company's employee benefits primarily cover provident fund, gratuity and leave encashment.

Provident fund is a defined contribution scheme and the company has no further obligation beyond the contribution made to the fund. Contributions are charged to the Profit & Loss account in the year in which they accrue.

Gratuity liability is a defined benefit obligation and is based on the actuarial valuation done. The gratuity liability and the net periodic gratuity cost is actually determined after considering discounting rates, expected long term return on plan assets and increase in compensation level. All actuarial gain/ losses are immediately charged to the Profit & Loss account and are not deferred.

The following table summarizes the components of Net Benefit expenses recognized in the Profit & Loss account and amount recognized in the Balance Sheet for the respective plans.

42. Financial risk management objectives and policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support Company's operations. The Company's principal financial assets include inventory, trade and other receivables, cash and cash equivalents and land advances and refundable deposits that derive directly from its operations. The Company is exposed to market risk, credit risk and liquidity risk.

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and other price risk, such as equity price risk and commodity/ real estate risk. Financial instruments affected by market risk include loans and borrowings and refundable deposits

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings. The Company does not enter into any interest rate swaps.

B. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including refundable joint development deposits, security deposits, loans to employees and other financial instruments.

Trade receivables

- i. Receivables resulting from sale of properties: Customer credit risk is managed by requiring customers to pay advances before transfer of ownership, therefore, substantially eliminating the Company's credit risk in this respect.
- ii. Receivables resulting from other than sale of properties: The firm has established credit limits for customers and monitors their balances on ongoing basis. Credit Appraisal is performed before leasing agreements are entered into with customers. The risk is also marginal due to customers placing significant amount of security deposits for lease and fit out rentals.

Financial Instrument and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's Finance department in accordance with the Company's policy. Investments of surplus funds are reviewed and approved by the Company's Board of Directors on an annual basis. The Company's maximum exposure to credit risk for the components of the statement of financial position at 31 March 2018 and 2017 is the carrying amounts.

C. Liquidity risk

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank deposits and loans.

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

43. Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents.

44. First-time adoption of Ind AS

These financial statements, for the year ended March 31, 2018, are the first the Company has prepared in accordance with Ind AS. For periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on March 31, 2018, together with the comparative period data as at and for the year ended March 31, 2017, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at April 1, 2016, the Company's date of transition to Ind AS.

Exemptions applied

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions:

- Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for investment property covered by Ind AS 40 Investment Properties. Accordingly, the Company has elected to measure all of its property, plant and equipment and investment property at their previous GAAP carrying value.
- Ind AS 27 requires investments in subsidiaries to be recorded at cost or in accordance with Ind AS 109 in its separate financial statements. However Ind AS 101 provides an option in case the Company decides to measure such investment at cost (determined in accordance with Ind AS 27) or deemed cost (fair value or previous GAAP carrying amount) at that date. The Company can avail the above exemption and recognize the investment in firms at the previous GAAP carrying amount at the date of transition to Ind AS.

The Company has also prepared a reconciliation of equity as at March 31, 2017 and April 1, 2016 under the Previous GAAP with the equity as reported in these financial statements under Ind AS, that reflect the impact of Ind AS on the components of statement of balance sheet which is presented below:

(Amount in ₹)

Particulars	31-Mar-17	01-Apr-16
Equity under previous GAAP	1,028,488,554	2,120,801,521
Adjustments (net of tax)	42,233	-
Others	-	-
Equity under Ind AS	1,028,530,787	2,120,801,521

Notes forming part of the Standalone Financial Statements

The Company has prepared a reconciliation of the net profit for the previous year ended March 31, 2017 under the Previous GAAP with the total comprehensive income as reported in these financial statements under Ind AS, that reflect the impact of Ind AS on the components of statement of profit and loss which is presented below:

(Amount in ₹)

Particulars	31-Mar-17
Net profit as per previous GAAP	48,412,199
Adjustments (net of tax)::	
Others	42,233
Net profit as per IND AS	48,454,432
Other Comprehensive Income (net of tax)	-
Total Comprehensive Income as per IND AS	48,454,432

Notes to reconciliations between previous GAAP and Ind AS
Other comprehensive income

Under Indian GAAP, the Company has not presented other comprehensive income (OCI) separately. Hence, it has reconciled Indian GAAP profit/loss to profit/loss as per Ind AS. Further, Indian GAAP profit/loss is reconciled to total comprehensive income as per Ind AS.

Annexure - A to the Auditors' Report
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of
Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31 March 2018, we have audited the internal financial controls over financial reporting of **M/s. Bhagyanagar India Limited** ("the Holding Company") and its subsidiary ('M/s. Aanvik Mercantile Private Limited', together referred to as "the Group"), which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to one subsidiary company, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

SIGNIFICANT ACCOUNTING POLICIES AND KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

1. Corporate Information

Bhagyanagar India Ltd (“the company”) is a Company registered under the companies act, 1956. It is a public limited company domiciled in India and is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). It was incorporated on 2nd September, 1985 having its registered office at 5th Floor, Surya Towers, Sardar Patel Road, and Secunderabad-500003. The company's CIN No. is L27201TG1985PLC012449. The company is engaged in the manufacture of copper products.

2. Basis of preparation

The financial statements are separate financial statements prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time). For all periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). These standalone financial statements for the year ended March 31, 2018 are the first the Company has prepared in accordance with Ind AS. Refer to **Note: 46** for information on how the Company adopted Ind AS.

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below. The accounting policies have been applied consistently over all the periods presented in these financial statements.

3. Basis of Consolidation

The consolidated Ind AS financial statements comprise of the Ind AS financial statements of M/S Bhagyanagar India Limited and its only subsidiary company namely, M/S Aanvik Mercantile Private Limited (collectively referred to as “the company” or “the Group”) as at March 31, 2018. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee); Exposure, or rights, to variable returns from its involvement with the investee, and the ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including: The contractual arrangement with the other vote holders of the investee; Rights arising from other contractual arrangements; The Group's voting rights and potential voting rights, and the size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies. The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March.

Consolidation procedure:

- (a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- (b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- (c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognized in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary

differences that arise from the elimination of profits and losses resulting from intragroup transactions. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it: Derecognises the assets (including goodwill) and liabilities of the subsidiary; Derecognises the carrying amount of any non-controlling interests; Derecognises the cumulative translation differences recorded in equity; Recognises the fair value of the consideration received; Recognises the fair value of any investment retained; Recognises any surplus or deficit in profit or loss, and Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

4. Significant Accounting Policies:

(a) Business combinations and goodwill

In accordance with Ind AS 101 provisions related to first time adoption, the Group has elected to apply Ind AS accounting for business combinations prospectively from April 1, 2016. As such, Indian GAAP balances relating to business combinations entered into before that date, including goodwill, have been carried forward with minimal adjustment. The same first time adoption exemption is also used for associates and joint ventures. Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred. At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognized at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

(b) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company has concluded that it is the principle in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

- **Interest Income:**

Interest income, including income arising from other financial instruments, is recognised using the effective interest rate method.

- **Dividend Income:**

Dividend income is recognized when the unconditional right to receive the income is established.

(c) Property, Plant and Equipment

Property, plant and equipment are stated at cost of acquisition or construction net of accumulated depreciation and impairment loss (if any). All significant costs relating to the acquisition and installation of property, plant and equipment are capitalized. Such cost includes the cost of replacing part of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in statement of profit and loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. The identified components are depreciated over their useful lives, the remaining asset is depreciated over the life of the principal asset.

Depreciation for identified components is computed on straight line method based on useful lives, determined based on internal technical evaluation. Freehold land is carried at cost.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(d) Investment Properties

Property that is held for long-term rental yields or for capital appreciation or both is classified as investment property. Investment Property is measured at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized. Investment Properties are depreciated using the straight-line method as per the provisions of Schedule II of the Companies Act, 2013 or based on useful life estimated on the technical assessment.

(e) Intangible Assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably.

(f) Depreciation and amortization:

Depreciation is provided on the straight-line method over the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013. Depreciation for assets purchased/sold during a period is proportionately charged.

(g) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is: -

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
- All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- The Company classifies all other liabilities as non-current.

(h) Financial assets

Financial assets comprise of cash and cash equivalents.

Initial recognition:

All financial assets are recognised initially at fair value. Purchases or sales of financial asset that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the assets.

Subsequent Measurement:

- (i) Financial assets measured at amortised cost: Financial assets held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding are measured at amortised cost using effective interest rate (EIR) method. The EIR amortization is recognised as finance income in the Statement of Profit and Loss.

The Company while applying above criteria has classified the following at amortised cost:

- a) Trade receivable
- b) Cash and cash equivalents
- c) Other Financial Asset

Impairment of Financial Assets:

Financial assets are tested for impairment based on the expected credit losses.

De-recognition of Financial Assets:

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

(i) Impairment of Non-Financial Assets

At each reporting date, the Company assesses whether there is any indication that an asset may be impaired. Where an indicator of impairment exists, the company makes a formal estimate of recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount the asset is considered impaired and is written down to its recoverable amount.

Recoverable amount is the greater of fair value less costs to sell and value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case, the recoverable amount is determined for the cash generating unit to which the asset belongs.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

(j) Inventories

Cost of inventories have been computed to include all cost of purchases, cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw materials and components, stores and spares and loose tools are valued at lower of cost and net realizable value.

Work-in-progress and finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labor and a proportion of manufacturing overheads based on normal operating capacity.

Cost of work-in-progress and finished goods are determined on a weighted average basis. Scrap is valued at net realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(k) Cash and Cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term investments with an original maturity of three months or less. Deposits with banks are subsequently measured at amortized cost and short term investments are measured at fair value through statement of profit & loss account.

(l) Financial liabilities

Initial recognition and measurement:

All financial liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted. These liabilities are classified as amortised cost. A preference share that provides for mandatory redemption by the issuer for a fixed or determinable amount at a fixed or determinable future date, or gives the holder the right to require the issuer to redeem the instrument at or after a particular date for a fixed or determinable amount, is a financial liability.

Subsequent measurement:

These liabilities include are borrowings and deposits. Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

De-recognition of financial liabilities:

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(m) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest, exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost and other costs that an entity incurs in connection with the borrowing of funds. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

(n) Employee Benefits

Employee benefits are charged to the Statement of Profit and Loss for the year.

Provident Fund

Retirement benefits in the form of Provident Fund are defined contribution scheme and such contributions are recognised, when the contributions to the respective funds are due. There are no other obligation other than the contribution payable to the respective funds.

Gratuity

The employees of the company are covered under Group Gratuity Scheme of Life Insurance Corporation of India. The premium paid thereon is charged to Profit and Loss Account. Adequate provisions have been made in the accounts for gratuity liability. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

Compensated absences

Liability in respect of compensated absences becoming due or expected to be availed within one year from the balance sheet date is recognised on the basis of undiscounted value of estimated amount required to be paid or estimated value of benefit expected to be availed by the employees.

Short-term employee benefits

Expense in respect of other short term benefits is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

(o) Income Taxes

Income tax expense is comprised of current and deferred taxes. Current and deferred tax is recognized in net income Current income taxes for the current period, including any adjustments to tax payable in respect of previous years, are recognized and measured at the amount expected to be recovered from or payable to the taxation authorities based on the tax rates that are enacted or substantively enacted by the end of the reporting period.

Deferred income tax

Deferred income tax assets and liabilities are recognized for temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax base using the tax rates that are expected to apply in the period in which the deferred tax asset or liability is expected to settle, based on the laws that have been enacted or substantively enacted by the end of reporting period. Deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable income nor the accounting income.

Minimum Alternative Tax (MAT)

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit

and loss and shown as MAT Credit Entitlement. The company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that company will pay normal Income Tax during the specified period.

(p) Leases

As a lessee

Leases of property, plant and equipment where the company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

Lease-hold land:

Leasehold land that normally has a finite economic life and title which is not expected to pass to the lessee by the end of the lease term is treated as an operating lease. The payment made on entering into or acquiring a leasehold land is accounted for as leasehold land use rights (referred to as prepaid lease payments in Ind AS 17 "Leases") and is amortized over the lease term in accordance with the pattern of benefits provided.

(q) Provisions, contingent assets and contingent liabilities

Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither recognized nor disclosed. However, when realization of income is virtually certain, related asset is recognized.

(r) Fair value measurement

In determining the fair value of its financial instruments, the Company uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date. Fair value hierarchy:

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1—Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2—Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3—Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(s) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

Cash dividend to equity holders of the Company

The Company recognises a liability to make cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

5. Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgements, estimates and assumptions that affect the reported balances of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

a) Judgements

In the process of applying the accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

- i) **Classification of property** The Company determines whether a property is classified as investment property or inventory property:

Investment property comprises land and buildings (principally offices, commercial warehouse and retail property) that are not occupied substantially for use by, or in the operations of, the Company, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented to tenants and not intended to be sold in the ordinary course of business.

b) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

i) Classification of leases

The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

ii) Useful lives of depreciable/amortisable assets

Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain software, customer relationships, IT equipment and other plant and equipment.

iii) Fair value measurements

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and

assumptions consistent with how market participants would price the instrument. Management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

c) Recent Amendments

Standards issued but not yet effective

- a. Ind AS 115-Revenue from Contracts with Customers-The Ministry of Corporate Affairs (MCA) on March 28, 2018 has notified new Indian Accounting Standard as mentioned above .The new standard will come to into force from accounting period commencing on or after April 01, 2018.It replaces existing recognition guidance, including Ind AS 18 Revenue and Ind AS 11 Construction contract. The standard is likely to affect the measurement, recognition and disclosure of revenue. The Company has evaluated and there is no material impact of this amendment on the Financial Statement of the Company except disclosure. The Company will adopt the Ind AS 115 on the required effective date.
- b. Ind AS 21, The Effect of Changes in Foreign Exchange Rates - The amendments to Ind AS 21 addresses issue to determine the date of transactions for the purpose of determining the exchange rate to be used on initial recognition of related assets, expenses or income when entity has received or paid advances in foreign currencies by incorporating the same in Appendix B to Ind AS 21. The amendment will come into force from accounting period commencing on or after April 01, 2018. The Company has evaluated this amendment and impact of this amendment will not be material.

The Company is evaluating the requirements of the amendment and the effect on the financial statements is being evaluated.

37. Retirement and Other Employees Benefits

The Company's employee benefits primarily cover provident fund, gratuity and leave encashment.

Provident fund is a defined contribution scheme and the company has no further obligation beyond the contribution made to the fund. Contributions are charged to the Profit & Loss account in the year in which they accrue.

Gratuity liability is a defined benefit obligation and is based on the actuarial valuation done. The gratuity liability and the net periodic gratuity cost is actually determined after considering discounting rates, expected long term return on plan assets and increase in compensation level. All actuarial gain/ losses are immediately charged to the Profit & Loss account and are not deferred.

The following table summarizes the components of Net Benefit expenses recognized in the Profit & Loss account and amount recognized in the Balance Sheet for the respective plans.

45. Financial risk management objectives and policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support Company's operations. The Company's principal financial assets include inventory, trade and other receivables, cash and cash equivalents and land advances and refundable deposits that derive directly from its operations. The Company is exposed to market risk, credit risk and liquidity risk

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and other price risk, such as equity price risk and commodity/ real estate risk. Financial instruments affected by market risk include loans and borrowings and refundable deposits

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings. The Company does not enter into any interest rate swaps.

B. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including refundable joint development deposits, security deposits, loans to employees and other financial instruments.

Trade receivables

- i. Receivables resulting from sale of properties: Customer credit risk is managed by requiring customers to pay advances before transfer of ownership, therefore, substantially eliminating the Company's credit risk in this respect.
- ii. Receivables resulting from other than sale of properties: The firm has established credit limits for customers and monitors their balances on ongoing basis. Credit Appraisal is performed before leasing agreements are entered into with customers. The risk is also marginal due to customers placing significant amount of security deposits for lease and fit out rentals.

Financial Instrument and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's Finance department in accordance with the Company's policy. Investments of surplus funds are reviewed and approved by the Company's Board of Directors on an annual basis. The Company's maximum exposure to credit risk for the components of the statement of financial position at 31 March 2018 and 2017 is the carrying amounts.

C. Liquidity risk

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank deposits and loans.

The table below summarizes the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents.

46. First-time adoption of Ind AS

These financial statements, for the year ended March 31, 2018, are the first the Company has prepared in accordance with Ind AS. For periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on March 31, 2018, together with the comparative period data as at and for the year ended March 31, 2017, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at April 1, 2016, the Company's date of transition to Ind AS.

Exemptions applied

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions:

- (a) Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for investment property covered by Ind AS 40 Investment Properties. Accordingly, the Company has elected to measure all of its property, plant and equipment and investment property at their previous GAAP carrying value.
- (b) Ind AS 27 requires investments in subsidiaries to be recorded at cost or in accordance with Ind AS 109 in its separate financial statements. However Ind AS 101 provides an option in case the Company decides to measure such investment at cost (determined in accordance with Ind AS 27) or deemed cost (fair value or previous GAAP carrying amount) at that date. The Company can avail the above exemption and recognize the investment in firms at the previous GAAP carrying amount at the date of transition to Ind AS.

The Company has also prepared a reconciliation of equity as at March 31, 2017 and April 1, 2016 under the Previous GAAP with the equity as reported in these financial statements under Ind AS, that reflect the impact of Ind AS on the components of statement of balance sheet which is presented below:
