Forward-looking statements

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements - written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in assumptions. The achievements of results are subject to risks, uncertainties, and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated, or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

As a future-focused business, our vision has always been to emerge as a valuable, independent and integrated player in the domains of Animal Health (APIs and finished dosage formulations), Human Health (APIs) and analytical services. Over the years, our strategies have always been aligned to this overarching objective.

FY 2014-15 saw us taking significant steps in that direction.

We strengthened the prominence of Alivira, our animal health brand. We have an integrated platform (Animal Health API and formulations) to address the real-world challenges of those who raise and care for animals.

We are also expediting our growth in Human Health API with focus on niche molecules. These molecules involve low volumes, yet high levels of technological knowhow; and are hence margin accretive in a competitive market scenario.

In line with our stated intent last year, we exited from non-core operations to channelise our energies on core business. We also raised capital to fund our growth momentum.

Not just that, we enhanced our investments and efforts in developing R&D expertise in our areas of focus. Our research efforts are focusing on the emerging priorities in the human and animal health sectors.

As the burgeoning global population, increasing middle class and rising urbanisation stimulate demand in our areas of focus, we are committed to create sustainable value and grow organically and inorganically.

We are working hard. We are making the most of the opportunity landscape.

We are
living the
vision.

Growing our value proposition

SeQuent Scientific Limited (SeQuent) is a leading integrated pharmaceutical Company with a global footprint, operating in the domains of Animal Health (APIs and finished dosage formulations), Human Health (APIs) and analytical services.

Over the years, we have made a judicious shift in our strategy from 'Driving Growth' to 'Creating Value'. Through our subsidiary, Alivira Animal Health Limited (Alivira), we are emerging as a global and integrated company in the animal health segment. In Animal Health, we have presence in both the APIs and formulations, built on a solid platform of quality and compliance.

In the Human Health segment, we focus on building a portfolio of niche APIs, which are produced in low volumes, but require high levels of technological proficiency, thereby limiting competition.

Our analytical services business division provides analytical and bio-analytical services, primarily to pharmaceutical and consumer product companies.

OUR VISION

To become an integrated global leader in the Animal Health Ingredient space, manufacture niche molecules and be a specialised Human APIs resource for our customers.

OUR MISSION

To deliver quality products competitively, while adhering to high standards of quality and compliance.

OUR VALUES

KNOWLEDGE: We understand customers, their needs and apply our extensive knowledge and rich experience in supporting them. We seize opportunities to surge ahead.

TALENT: We employ talented individuals who reflect the passion and proficiency to support customers. We provide world-class products and strive to become the reliable partner for our customers.

STRENGTH: We are capable to provide customised solutions in a short time; this guarantees ease and convenience to our customers.

EXPERTISE: Our core expertise is our high quality benchmarks, state-of-the-art manufacturing facilities, and our R&D centre, which enable us to deliver excellence for driving our standing partnerships.

Message from the Managing Director

Manish Gupta
Managing Director

Dear Shareholders,

We have entered the new financial year 2016 with renewed confidence, strength and commitment. We believe FY 2015 was exciting, yet a remarkably eventful year for your Company. As FY 2014 came to a close, your Company had outlined its vision to drive business with a recalibrated model with a focus on core business. The outlying strategy of this model was to drive value rather than growth. I am happy to state that we have made significant progress in our efforts to be future ready and live our vision to become a leading, global and integrated company in the animal health segment, while also focussing on building core competence in niche Human Health APIs.

From a macro standpoint, the global economy in 2014 showed

signs of improvement, but a mix of geopolitical tensions and slow pace of reforms kept the overall growth in check. The pharmaceutical industry on the other side registered a healthy uptick for the global medicine sales on the back of momentum recovery in the developed pharmaceutical markets like the US, and significant contribution from emerging markets like China and India.

Globally, as the aging population is growing, the changing demographics, coupled with economic growth is likely to drive market to the new highs. This gives our Human Health API vertical enough upside to build a niche portfolio and maintain leadership position in it. The animal healthcare, which is a US\$ 28 billion market and an important core of pharmaceutical business, is a growing industry for a couple of reasons. The industry focuses, both on the livestock and companion animals, therefore touching the life of billions of people and animals world over. The rising demand in quality animal meat and milk, changing pattern of animal diseases and increasing animal companionship has resulted in a fair growth during the course of 2015, and is expected to expand further to US\$ 42 billion through 2019 at a CAGR of 7%. At SeQuent, animal health remains the mainstay and a dedicated business under the aegis of Alivira.

When you look at SeQuent in greater granularity, we strategised five key avenues as part of our effort to realign our business in the direction of profitability. I am glad to communicate that we have made headway in each of those focus areas as outlined below:

Create a valuable, independent, integrated and global animal health business

In FY 2015, our veterinary business underwent a rebranding exercise to be christened as Alivira Animal Health. This was in keeping with our commitment to improve animal

well-being through our integrated platform addressing both the Animal Health API and formulations segment. The commissioning of our cGMP compliant API facility at Vizag was an important milestone in the lifecycle of the Company. This facility, with a total production capacity of 800 tons per annum, and adhering to exacting regulatory standards consolidates our global positioning in the world markets. In the finished dosage space, we acquired Provet (Turkey's third largest animal health pharmaceutical company) to strengthen our presence in the emerging and regulated markets, including the US, RSA, the EU and Australia. We have announced our intent to acquire minority shares in Alivira as to make it a 100% subsidiary of SeQuent Scientific Limited. We are committed to make Alivira a globally leading animal healthcare company and the Company will leave no stone unturned to ensure that this goal is achieved.

Accelerate growth in Human Health API with focus on niche molecules

Our underlying strategy in Human Health APIs is to move away from the crowded API space and focus only on molecules, which are relatively low in volumes, need high chemistry capabilities and offer high margins. FY 2015 had been a great year with Human Health APIs singly registering over 20% of growth. From a strategic perspective, we increased the capacity in our Mangalore facility and also got into a long-term non-exclusive, royalty-free licensing agreement with Gilead for producing Sofosbuvir and Ledipasvir APIs, both used in the dosages curing Hepatitis C virus. Moreover, we completed our acquisition of manufacturing assets and business of Arvee Synthesis, which we use for manufacturing intermediates for our Human Health pipeline. In addition, we have a land bank adjacent to our Mangalore facility for catering to the future growth.

Exit non-strategic business

As we announced in the last fiscal, we have exited from non-core operations to channelise our energies on core business. We closed down our operations in Vietnam and Kenya, which were no longer strategic and also completed the divestment of our specialty chemicals division to Songwon Industrial Group in the period of August 2014. Post the commercialisation of facility at Vizag in Animal Health APIs, we discontinued operations at our manufacturing unit in Ambernath and the business of the same has already been transferred to Vizag.

Enhance our efforts in Research and Development (R&D)

We have stepped up our investments and efforts in developing expertise in our areas of focus. Today, we are a 150+ team of scientists and intellectuals working both in the APIs and formulations space. The R&D team today has been pivotal in building our Animal Health API portfolio strong with 19 active products and a rich pipeline of 12 products. The Human Health API basket comprises 20 products with over 14 products under different stages of development. We have also increased our total regulatory filings to 19 Drug master files in the Human Health segment.

Scale our analytical services

Through our subsidiary, Sequent Research Limited, we forayed into contract research services with our specialisation in Analytical and Bio Analytical Services. During the year, we registered a 14% uptick in sales. We enhanced the scope of services to our existing clientele and acquired new business with leading global companies. I believe, we are moving in the right direction and our focus continues to be the best-in-class analytical service provider for pharmaceutical (human and veterinary), nutraceutical and personal care industry.

While the financial performance of the Company was under pressure in FY 2015, we believe the Company has judiciously used its resources to carve way for smoother operations in the years to come. Going forward, we have the launch pad for the multi-billion dollar animal healthcare opportunity that we foresee. We intend to forge partnerships and collaboration with leading companies in the regulatory markets, and we are confident of a robust growth. In the Human Health, we have invested in facilities and strategic arrangements to safeguard our future business interest. We are focussed on the development and supply of high value, low volume APIs and grow both organically or inorganically

In the end, I would also like to thank our stakeholders for unstinting faith in your Company, its management and business. With your confidence, we have successfully closed a QIP of ₹ 4,000 million in the ongoing FY 2016. This QIP was an important milestone to augment our resources and fund our long-term capital expenditure. I also take this opportunity to thank our customers, employees, partners, suppliers, regulatory agencies and lenders for their continued trust and support.

Regards
Manish

Conversation with the Chief Financial Officer

We have made some strategic moves to enhance our business capacity, and inorganic growth has been one such route. Our subsidiary, Alivira acquired the manufacturing facility at Visakhapatnam from Shasun Pharmaceuticals Limited, which serves as a facility for Animal Health business. We also entered into a transaction with M/s Arvee for the transfer of its business and facility of manufacturing pharmaceutical products at Mysore to our Company for our Human Health business.

Kannan PR
Chief Financial officer

Q. Can you share the key aspects of financial performance of SeQuent in FY 2015?

A. We registered a topline of ₹ 4,531.8 million in FY 2015, which is nearly flat over the previous year. This was primarily due to divestment of our specialty chemical division during the course of year. Eliminating the effect of the discontinued operations from the previous year, we have grown over 13% from ₹ 3,988.4 million in FY 2014 to ₹ 4,531.8 million in FY 2015. The API business accounted for a moderate growth of 1.9%, as a result of headwinds in the animal APIs business. We acquired 60% stake in Turkey's Provet Veterinary products, which catalysed our foray into global finished dosage markets. This resulted in a yearly growth of 98% in the finished dosage revenues

for the Company. The analytical services business contributed 2% in the overall business and the segment grew 14% over the previous year.

During the year, we sold our products in over 82 countries, globally. The economic downturn in the EU affected our revenues with our total revenues from Europe reducing by 8% to ₹ 949.5 million. The revenues from the rest of world (excluding Asia) witnessed a robust upswing of 62% from ₹ 623.9 million to ₹ 1,012.8 million. This was largely on account of our acquisition of Provet. The business in Asia registered a 7% downfall on account of divested business.

At the EBITDA level, we registered an upswing of 36% with EBITDA of ₹ 280.8 million against ₹ 206.3 million in the previous year. The Company's net loss accounted for ₹ 107.4 million and it takes into account the exceptional net loss of ₹ 166.6 million, resulting from impairment of discontinuing our manufacturing operations at Ambernath API facility following the commencement of operations at Vizag.

Q. What have been the major corporate actions during the year?

A. We have made some strategic moves to enhance our business capacity and inorganic growth has been one such route. Our subsidiary, Alivira acquired the manufacturing facility at Visakhapatnam from Shasun Pharmaceuticals Limited, which serves as a facility for Animal Health business. We also entered into a transaction with M/s Arvee for the transfer of its business and facility of manufacturing pharmaceutical products at Mysore to our Company for our Human Health business.

In the finished dosage space, we acquired 60% of ordinary shares

of Provet (through its subsidiary – Alivira Ireland) pursuant to a share purchase agreement dated 9 September 2014. Provet is involved in the business of manufacturing animal health formulations in the Turkey; it also provides us with the commercial platform through which we intend to sell our Animal Health formulation products in regulated markets such as the US, the EU and Australia.

We believe that these corporate actions would be significant factors that will accelerate the growth of our product portfolio, the markets we operate in and finally on our financial performance.

Q. Can you elaborate on the divestment activity that was initiated in FY 2014?

A. To realign our business model as a part of our core strategy, we divested our Speciality Chemicals Division, along with all related assets and liabilities by means of a 'going concern' to Songwon for a consideration of ₹ 1,068.46 million. This sale was completed on 1 August 2014. We discontinued our manufacturing operations at Ambernath API facility in light of the commencement of operations at Visakhapatnam.

Q. What is the capital expenditure and amount invested in FY 2015?

A. In the last couple of years, we have been investing in facilities to augment our resource base and be future ready. We incurred significant expenditures in upgrading capacities at our manufacturing facilities. During FY 2015, the outflows in the form of purchase of fixed assets including capital advances were ₹ 909.3 million. As on 31 March 2015, we have tangible assets of ₹ 3,901.9 million against ₹ 2,168.7

million as on 31 March 2014. The net intangible assets stand at ₹ 131.8 million, compared to ₹ 112.7 million in 2014. We have a capital work-in-progress of ₹ 367.41 million with intangible assets under development of ₹ 23.2 million.

Going forward, to grow our Animal Health formulations business, we may incur significant expenditures on R&D; and for either setting up a new formulation manufacturing facility or for acquiring an existing formulation facility. We intend to fund these capital expenditures from the proceeds of QIP and through internal accruals.

Animal health makes a difference to our lives

As the world's growing population increasingly depends on animals for both nutrition and companionship, we are taking strategic steps to strengthen an integrated animal health business.

The opportunity landscape is also encouraging. The global animal health market size is expected to reach US\$ 41.9 billion by 2019 from around US\$ 28 billion in 2014, registering a compound annual growth rate (CAGR) of 7% in 2014-19.

We are well positioned to capitalise on the growth in the animal health sector on account of niche pipeline of products, enduring relationships with top veterinary companies and growing presence in regulated and emerging markets. We have emerged among the few Indian players with critical mass in the animal health space.

Industry opportunity

The animal health segment where SeQuent has presence is poised to grow consistently.

6.8%

Global animal health pharmaceuticals market is expected to reach US\$ 15.8 billion by 2019 from around US\$ 11.4 billion in 2014, growing at a CAGR of over 6.8% in 2014-19

7.6%

Global feed additives market is expected to reach US\$ 20 billion by 2019 from around US\$ 13.9 billion in 2014, growing at a CAGR of over 7.6% in 2014-19

6.8%

Global production animal health market is expected to reach US\$ 25.1 billion by 2019 from around US\$ 18.1 billion in 2014, growing at a CAGR of over 6.8% in 2014-19

7.5%

Global companion animal health market is expected to reach US\$ 16.8 billion by 2019 from around US\$ 11.7 billion in 2014, growing at a CAGR of over 7.5% in 2014-19

From thought to action

INDIA BUSINESS STRATEGY

- Deliver customised solution in poultry and dairy segments
- Facilitate API to formulation integration
- Capture evolving market opportunity in enzyme segments
- Launch new conceptual products and services - focus towards education and creation of new market segment
- Focus towards high value nutrition segment
- Augment brand through strategic tie-ups and in-licensing

OUTCOME

- Delivered strong growth in India business since entry in 2012; achieved sales of ₹ 235 million in FY 2015
- Grew in-licensing business, currently contributes 22% of total sale.
- Established premium pricing at par with top players
- Top five brands contributed 54% of sales in FY 2015

Building global scale

Our animal health arm Alivira acquired 60% stake in Provet Veterinary Products, Turkey (Provet), the country's third largest animal health company.

Acquisition synergies

- Fast-track our vision to become a formidable player in global veterinary business
- Turkey's geographic position provides market access to Europe, Commonwealth of Independent States (CIS), and the Middle East and North Africa (MENA) countries
- Currently, formulations account for around 22% of the animal health business; with this acquisition formulations will account for one third of animal health business revenues
- Establish strong frontend presence in the emerging markets of India, Turkey and Africa
- The facility in Turkey can manufacture injectibles, intra-mammaries, oral solutions and topical; it provides a platform for future expansion into regulated markets in the European Union (EU), Canada and Australia markets
- Wide product portfolio of 100+ products across multiple therapy segments with focus on sterile injectable
- Access to the US\$ 400 million Turkish veterinary market, which is growing at around 8% annually, faster than the global industry growth; it is among the top 10 ruminant market and overall the 16th largest veterinary market in the world.

Expanding Animal Health APIs business

We intend to grow our Animal Health API business by leveraging our established relationship with global pharmaceutical companies by increasing the range of Animal Health API products. We believe that our investment in new manufacturing facility at Visakhapatnam has been a strategic

investment in this direction as it provides us with the scale and the flexibility to service our customers. This, in turn, is backed by our strong R&D, which enabled us to launch five new products in the last 18 months with another 12 under development. We are expanding portfolio into newer segments like NSAIDs, Beta Agonist, Feed Additives and Ecto-Parasiticides.

Relationships with global animal health companies

We continue to strengthen our relationships with our customers to sustain our existing business and grow our market share as well. It is pertinent to mention in this context that our manufacturing facilities, quality assurance procedures and adherence to environment, health and safety standards have enabled us to deepen our customer relationships; and ensure that our products conform to client requirements.

Way forward

After becoming a prominent player in India, Africa and Turkey, we are now enhancing our focus on regulated markets.

India

- Launch new products including calf milk replacer
- Establish direct to retail marketing for Over-the-counter (OTC / nutraceuticals)
- Invested in best-in-class manufacturing unit to provide better quality assurance

Emerging markets

- Facilitate portfolio maximisations and new product development
- Pursue inorganic opportunities to enter Brazil, one of the fastest growing animal health markets
- Initiate market development across South East Asia, MENA and CIS
- Drive growth in feed supplement across select markets

Regulated markets

- Offer a portfolio of 90+ products for the regulated markets with 27 products in FY 2016
- Evaluate partnerships / collaborations to tap into the US and ANZ markets
- Explore opportunities for the acquisition of sales and marketing organisations in selected the EU markets
- Establish B2B arrangements in other regulated markets

Human health is a consistently growing focus area

That's the logical conclusion we can draw, when the global spending on medicine is expected to reach nearly US\$ 1.3 trillion by 2018. It is growing at a CAGR of 4-7%. Ageing population, rising global population, growing lifestyle diseases and higher healthcare spending will drive pharmaceutical industry growth, going forward.

In the Human Health API business, we primarily focus on niche products. These products are produced in small volumes, but they entail technological complexity, potentially limiting competition products.

Of the current portfolio of 19 products, five have been commercialised in the US and the remaining 14 products are yet to be commercialised. We have an extensive presence across therapies like anti-malarial, anthelmintics, anti-infective, antiviral, CNS and dermatology.

We have invested in best-in-class technologies with an objective of creating an integrated, flexible unit capable of manufacturing several niche and complex APIs. The manufacturing facilities are capable of meeting the growing demand of our key products in the USFDA and WHO regulated markets.

From strength to strength

We have signed a non-exclusive royalty-free licensing agreement with Gilead to make APIs Sofosbuvir and Ledipasvir, which are used for manufacturing drugs used to treat Hepatitis C virus. Under the agreement, we will receive a complete technology pack from Gilead to enable us to scale up our production of APIs as quickly as possible. The formulations using these APIs can be distributed in 91 developing countries, which account for over 100 million people living with hepatitis C, globally.

From thought to action

STRATEGY

- Focus on mature APIs with availability issues, low volumes and high margins
- Target high-growth markets with limited competition
- Produce technologically complex products with strong backward integration

OUTCOME

- Long-term supply agreements for two large volume APIs with two of the top global pharma companies
- Currently selling commercialised products predominantly across markets requiring WHO pre-qualification
- Recent commercialisation of five products in the US
- Possess a pipeline of 14 APIs under various stages of development

We entered into a memorandum of understanding (MoU) with Arch Pharma for operating the manufacturing facility at Medak, Andhra Pradesh and leverage their customer base.

We have also recently added new capacities at our Mangalore facility, which manufactures Human Health APIs and have acquired land near our facility at Mangalore. This we intend to use to expand our Human Health API facilities.

We have also acquired the manufacturing assets and business of Arvee at Mysore, which manufactures intermediates. These

are, in turn, used to manufacture our Human Health API products. This facility has all necessary approvals and infrastructure with room for future expansion.

We have also entered into long-term contracts with two global pharmaceutical companies to supply Human Health APIs.

Way forward

Going forward, we will consistently chase niche opportunities in the human API space. Moreover, we expanded our product range to service existing customer requirements in larger territories.

Customer insight drives global expansion

We talk to customers, understand their insights and accordingly develop our products and services. We cater to over 82 countries globally across regulated and emerging markets with our wide portfolio of products and services.

Regulated markets

European Union: In the Animal Health API segment, we have 10 filings of which nine are commercialised. Besides, in the Human Health API segment, we have obtained CEP certification for four products, of which two have been commercialised. We have also made filings for one product in various jurisdictions of the EU, including Germany, Spain and the UK.

United States: In the Animal Health API segment, we have three filings.

In addition, in Human Health API segment we have made 19 filings, of which five have been commercialised. We are also exploring opportunities for the acquisition of sales and marketing organisations in select markets in the EU and to set up majority owned joint ventures in the US.

Other regulated markets: In other regulated markets, we sell only Human Health API products. We sell such Human Health API products primarily to formulators, for which we require WHO pre-qualification. We have made seven WHO filings for

Human Health API products of which four Human Health API products are already commercialised. Further, in Human Health API segment, our Company has made three TGA filings for Australia and three Health Canada filings.

Key emerging markets

India

We believe that we are well positioned to capitalise on the emerging opportunities in India's Animal Health sector. We have established strategic tie-ups and in-licensing arrangements with foreign pharmaceutical manufacturers to market and distribute their products in India, Nepal and Bhutan.

Our recent initiatives in the Animal Health formulation segment in India are (i) Cattle Rx, some of which is also used as a feed additive, typically prescribed by veterinary doctors

and; (ii) Fokamel, which is a calf milk replacement. Our customers for these products are primarily co-operative societies. In the poultry nutrition segment our products are primarily Citrinal, Enerzyme and Sequivit.

We are also evaluating setting up or acquiring a new manufacturing facility to cater to our dairy nutrition products. We also intend to commence selling our poultry nutrition products in Bangladesh.

Turkey

The Turkish animal health market is expected to grow at a CAGR of 7% from 2015-20 with an estimated market size of US\$ 22 million in 2015.

Our acquisition of Provet Veterinary Products, Turkey (Provet) enables us to cater to regulated (the US, South Africa, the EU and Australia) and emerging markets (MENA and CIS).

Other emerging markets

We have presence in other emerging markets, such as Africa and MENA. We also intend to pursue inorganic opportunities to enter Brazil, one of the fastest growing animal health markets (for companion animal), globally. We have also undertaken initiatives to develop key markets like South East Asia and CIS.

Thinking afresh builds a sustainable business

R&D laboratory at Mangalore, India

Research and Development (R&D) is at the core of our efforts to provide innovation outcomes, globally. We try to anticipate our future industry needs and align our R&D priorities accordingly.

We have a dedicated R&D facility at Mangalore, which has over 120 scientists operating out of eight laboratories. Our R&D centre is recognised by the Department of Scientific and Industrial Research, Government of India. We have recently commissioned a pilot scale plant for faster product development. Our R&D team has expertise in carbohydrate chemistry and heterocyclic chemistry.

Our list of development, scale-ups and commercialisation of products involve the following chemical reactions:

- Catalytic hydrogenation (noble metal catalysis)
- Hydride reductions
- Organometallic reactions (Grignard, diethyl zinc)
- Hazardous reactions involving cyanuric chloride methyl mercaptan, and so on
- Asymmetric synthesis and chiral separations
- High pressure and high temperature reactions
- Fluorinations (DAST, deoxyfluor)
- Halogenations
- Azide reactions
- Friedel Crafts reactions
- Suzuki Coupling

Manufacturing facility at Vizag, India

We have been able to create a reliable and credible track record of excellence due to our persistent efforts to sustain world-class infrastructure and quality standards. We are continuously delivering and exceeding the expectations of our customers.

Across various manufacturing sites, we have put in place quality systems that cover all areas of our business processes from supply chain to product delivery, to ensure consistent quality, efficacy and safety of products. Regular audit programmes validate our attempts to deliver consistent quality. Besides, all activities and aspects which can have a direct or indirect impact on quality of the products and compliance levels are controlled through standard operating procedures. We have established a well-defined validation and qualification

framework to ensure that systems, facilities and processes are designed and developed in line with the needs of customers and to comply with regulatory requirements.

Our quality management processes extend from factory levels to the higher echelons of management. Quality risk management procedures are established and followed for internal audits, failure investigations and implementation of permanent remedial measures. We have also established training procedures and systems for the training and

development of our employees with respect to regulatory guidance, new developments, internal procedures and case studies.

We have also established an analytical testing facility, which caters to both in-house requirements and provides analytical supports to clients. This laboratory is located at Mangalore and is ISO 17025 certified.

Product portfolio

Animal Health segment

Animal Health API

Our Animal Health API business offers a wide range of products, predominantly in anthelmintics segment. In the recent past, we have made significant investments in R&D and have launched five new products in last 24 months with another 12 under development. We are

also looking to expand our portfolio into newer segments like NSAIDS, beta agonist, feed additives and endo-parasiticides. We manufacture and export our Animal Health API products from our manufacturing facility at Visakhapatnam.

The following table summarises the key Animal Health API products which we sell in certain of our key markets:

APIs	Therapeutic Segments
S-Methoprene	Insecticide
Albendazole	Anthelmintic
Fenbendazole	Anthelmintic
Ricobendazole	Anthelmintic
Triclabendazole	Anthelmintic
Toldimphos	Mineral supplement
Nitroscanate	Anti protozoal
Clorsulon	Anthelmintic
Flunixin Meglumine	NSAID
Praziquantel	Anthelmintic

Animal Health Formulations

We have a portfolio of 182 formulations in the animal health segment. Additionally, Alivira's acquisition of Provet (through its subsidiary - Alivira Ireland)

has strengthened our presence in the Animal Health formulations segment. Our Animal Health formulations are manufactured at Provet's Polatli facility in Turkey and at Ambernath formulation facility in India.

The following table summarises the key Animal Health formulations which we sell:

Formulations	Manufacturing Locations
Beta Lactam Injection - Suspension	Polatli, Turkey
Non Beta Lactam Injection - Solution	Polatli, Turkey
Intra Mammary Injection - Suspension	Polatli, Turkey
Oral Solution and Terminal Sterilisation	Polatli, Turkey
Aerosol	Polatli, Turkey
Pour on/ Spot on	Polatli, Turkey
Granules for injection	Ambernath, India
Liquids	Ambernath, India

Human Health API

In the Human Health API segment, we primarily focus on niche products that require a low volume of production and have technological complexity which result in limited competition. We have recently entered into long term supply agreements to supply two large volume API products to two of the top global pharmaceutical companies. Further, we have entered into a long term non-exclusive, royalty-free licencing agreement with Gilead on 15 September 2014 to make APIs Sofosbuvir and Ledipasvir, which are used for manufacturing drugs used to treat Hepatitis C virus.

We have also entered into an MoU in 2015 with Arch Pharma for operating the manufacturing facility at Medak, Andhra Pradesh of Arch Pharma to manufacture APIs. Under this arrangement, our Company shall provide working capital support to Arch Pharma required for operating the manufacturing facilities. Besides, our Company shall procure and sell to Arch Pharma all raw materials, packing materials and other materials required by Arch Pharma for manufacturing the various products. Arch Pharma shall in turn sell the finished goods manufactured by it to our Company and/or deliver it to our Company's customers directly on our behalf for which invoice shall be raised in our Company's name. We shall continue to explore such opportunities in the future.

The following table summarises the key Human Health API products:

APIs	Therapeutic Segments
Acyclovir sodium	Antiviral
Artemether	Antimalarial
Artesunate	Antimalarial
Acitretin	Retinoids
Hydralazine HCL	Antihypertensive
Imiquimod	Skin disorder
Indomethacin Sodium	NSAID
Labetalol HCL	Alpha / Beta, Adrenergic and Antagonist
Lumefantrine	Antimalarial
Methoxsalen	Anti psoriasis
Oseltamivir	Antiviral
Praziquantel	Anthelmintic
Succinyl Choline Chloride	Muscle Relaxant
Zidovudine	Antiretroviral
Citicoline Sodium	Neuro Protective
Etomidate	Anesthetic
Albendazole	Anthelmintic
Felbamate	Antiepileptic
Sofosbuvir	Antiviral
Ertapenem Sodium	Anti-infective
New Development	
MESNA	Antineoplastic Adjunct
Rifaximin	Antibiotic

Management Discussion and Analysis

THE MACRO SET-UP

The global economy is showing signs to move out of the economic downturn that unfolded in the past. While the first half of 2014 was relatively weak, most of the economies turned in a relatively higher growth in the latter half of the year. As per the estimates released by United Nations, the World's gross product would have shown an uptick of 2.9% year on year. However, 2014 was an eventful year for the pharmaceutical industry world over. The global sales went up by over 8% with the developed markets registering a similar growth percentage and the emerging markets like India leading the growth with an 11% year on year expansion. In 2014, the overall demand for medicines continued to grow given the backdrop of expiring patents and growing use of generic medicines. The growing demand however got affected due to the geopolitical tensions, slowdown in Europe and Japan, and increasing spend on innovation for combating the shrinking healthcare budgets. The outlook for the industry remains positive on the IMS health's forecast of US\$ 1.3 trillion¹ pharma sales in the next five years.

Global Pharma Sales¹ (US\$ bn)

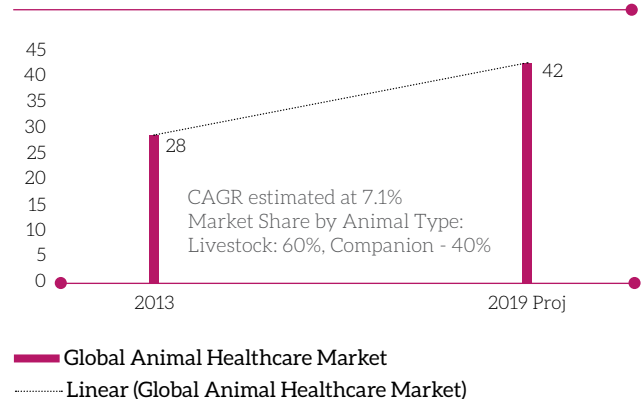

Economic growth and changing demographics in emerging markets and mature markets are increasing demand for the medicines that cater to the chronic and lifestyle diseases. The Human API market in which our company operates are projected to grow in double digits. This demand is expected to grow significantly faster in these markets over the longer term than in more mature markets. As these countries become richer, changing lifestyle is leading to growth in chronic diseases. In Europe rising public debt and government austerity programmes continue to create pressure on healthcare spending. In the US, focus on cost and value, is leading payers to reduce price, restrict access and demand more

differentiated products, so manufacturers must develop innovative products that offer significant improvements on existing options. Globally, population is ageing and taking an increasingly active role in managing their own health which is creating more demand for niche molecules. Rising individual empowerment and growing expectations from society also mean that patients and consumers want the companies to operate with high standards in order to build trust.

One of the subsets of core pharma, the animal healthcare space is a growing industry for a couple of reasons. The industry focuses, both on the livestock and companion animals, therefore touching the life of billions of people and animals world over. The rising demand in quality animal meat and milk, changing pattern of animal diseases and increasing animal companionship has resulted in a fair growth during the course of 2015.

With the human population growth and increasing standards of living, particularly in many emerging markets, there is a likelihood that the trend of the growth in the livestock animal health industry would continue for meeting the demand of improved nutrition amongst animals and safeguard of their health from dreaded diseases. The other leg of the industry which caters to the companion animal species sees its growth flowing from increasing pet ownership and companion animals living longer, increasing medical treatment of companion animals and advances in companion animal medicines and vaccines. The consolidated animal health market is expected to expand further from US\$ 28 billion in 2013 to US\$ 42 billion through 2019 at a CAGR of 7% with majority demand predicted in North America, Europe and Asia Pacific.

²Animal Healthcare Market: Global Forecast, Market Share, Size, Growth and Industry Analysis 2014 - 2019" issued by Persistence Market Research)

INDIAN SCENARIO

The India's pharmaceuticals industry is likely to see a solid growth in the years to come. As per PwC estimates that it will rise to approximately US\$ 50 billion by 2020 to be one of the top global markets. This growth will be driven by the expanding economy and increasing per capita GDP. From an economic perspective, India witnessed a significant period in 2014, the political instability brought about by coalition politics in the past

that had a negative impact on the economic outlook of the country has been replaced by a strong decisive mandate given to the new government. The country is in the midst of witnessing growth on a robust external demand, weakening inflation risks, strengthening of domestic consumption and easing monetary policy. India is presumed to be in the pole position among emerging market economies in attracting global business attention.

IPM vs growth in core therapeutic areas³ (US\$ bn)

	Q1 FY 15	Q2 FY 15	Q3 FY 15	Q4 FY 15
IPM	10.4	13.3	10.7	17.3
Anti-Infectives	6.2	11.8	5.3	5.9
Cardiac	11.4	12.4	12.0	15.3
CNS	6.9	8.7	9.7	12.2
Derma	17.3	14.6	16.4	18.6
Nutrients	10.6	13.7	11.4	12.3

The Domestic pharma market (IPM), valued at ~ ₹ 860 billion grew about 13%³ this fiscal as against ~7-8% in the previous year on the backdrop of several regulatory changes. The fiscal saw a growth of 5-6% in the volumes and about 3% growth in the new products with ~1950 new brand launches through the year. From the therapeutic perspective, the demand remained robust in anti-infective, cardiac, CNS, Derma and nutrients segments.

With a long term view, the Indian pharma space is expected to touch US\$ 50 billion⁴ in 2020. The domestic market is likely to see a significant growth headed by increasing affluence, changing lifestyle resulting in higher incidence of diseases, the government's expenditure on varied health schemes and growing domestic demand. The industrial output and manufacturing trajectory is also likely to recuperate with pharmaceutical sector being one of the focus areas in "Make in India", the special project initiated by the Prime Ministry.

In the overseas market, the US will continue to be the largest as well as the fastest growing geographical market for Indian pharmaceutical exports in the coming year. While Europe will continue to be the second largest destination, the second fastest growth would come from Africa. An increase in the number of product registrations, in developed as well as emerging markets, would be an

important growth driver. It is also anticipated that the Pharmaceutical exports revenue is expected to be 75% to 100% larger than that of the domestic pharmaceutical market by 2020. Besides US and Europe, India's exports to pharmerging markets will also see higher growth on the back of increased affordability and deepened penetration by not-for-profit organisations. The outlook is positive and the business shows signs of moving upward.

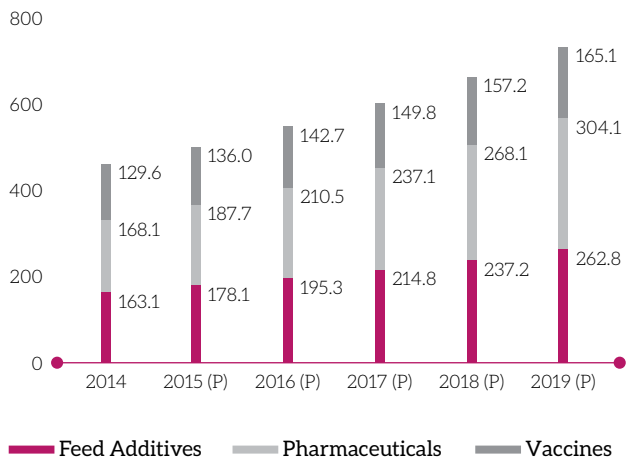

In the animal healthcare space, the Indian Market, which is estimated at ~US\$ 450-500 million², is the World's second fastest growing market. The base business is largely split as the international market between the livestock and the companion animals with feed additives and pharmaceuticals having the largest pie. Over the years, owing to India's increasing population and adoption of western culture, an increase in companion animals has led to significant momentum and health awareness in the country. Further, the Indian government has been active in providing mass animal vaccination service to Indian farm animals. The healthcare market for production animals is expected to grow to US\$ 659.6 million² in 2019 at a CAGR of 9.1%. The market for companion animals is expected to grow from an estimated US\$ 33.1 million² in 2014 to US\$ 72.4 million² in 2019 at a CAGR of 16.9%. The increase in the number of companion and production animals in India is expected to drive the animal healthcare market by 2019.

Projected Growth in Indian Animal Health Care Industry² (US\$ mn)

Sequent Revenue Breakup by Industry (FY2014-15) (%)

THE COMPANY

Sequent, one of the leading pharmaceutical company in the animal health and human health segment underwent a business reorganization in the previous year. We changed our strategy from “driving growth” to “Creating value”. We are now more focussed to be a leading, global integrated animal health company while concentrating on niche human APIs that add value. Our growth engines are classified into three categories – Animal Health (Under Alivira), Human APIs and Analytical services.

Sequent- Revenue Break up by Segment (₹ mn)

During the year, we registered a top line of ₹ 4,531 million which was muted over the previous year. The API business accounted for a moderate growth of 1.9% as a result of headwinds in the animal APIs business. We acquired 60% stake in Turkey’s Provet Veterinary products which catalysed our foray into global finished dosage markets. This resulted in a yearly growth of 98% in the finished dosage revenues for the company. The analytical services business contributed 2% in the overall business and the segment grew 14% over the previous year. As to entail a strategic focus, we also divested our specialty chemical and other non-core business which resulted in a decline of 65.5% in absolute terms over the previous year. From an industry perspective, our animal health business expanded 6.7% year on year at ₹ 2,407 million whilst the Human pharma or API business grew by 21.4% to ₹ 1,927 million. A detailed note on each vertical is given below.

Animal Health

Through our subsidiary, Alivira, we are one of the world’s leading producers of animal health APIs and finished dosage formulations. We are working further to emerge as a strong integrated animal health powerhouse. While we are the leaders in India, we have also broadened our global footprints by the acquisition of Provet in Turkey. We believe we are equipped with cutting edge R&D, flexible manufacturing and a robust business interface to service a US\$ 28 billion global veterinary opportunity. Together, the animal health business accounted for 52% of our revenues during FY 2014-15.

Animal Health API

Our Subsidiary Alivira, is one of the strongest players in India with a wide portfolio of over 19 products and the newly operational multi purpose manufacturing facility at Vishakhapatnam (Vizag) that has a reactor capacity

of 224.6 KL (Equivalent to 800 Tons per annum). Today, we span over 82 countries including the key regulated markets such as US, Europe, and Latin America. While we are one of the largest producers of anthelmintic APIs in the World, we have a strong presence in leading therapies such as Non-steroidal anti-inflammatory drugs (NSAIDs), beta agonists, anti-protozoal and endo-parasiticides.

From an operational standpoint, FY 2014-15 was a year of strategic shift in the animal health APIs. In line with the plan carved during the previous fiscal, we successfully transitioned our business from Sequent Animal health division to the new subsidiary- Alivira. Given the backdrop of our business transaction with Shashun drugs, we acquired a state of the art facility at Vizag which during the course of FY 2014-15 was commissioned as a world class cGMP compliant API facility with readiness to regulatory audits world over. While there were some delays in commissioning due to cyclone that had hit Eastern part of India, the facility now is geared to produce over 800 tonnes of animal health APIs. During the year, we also succeeded in clearing more than 10 audits from leading animal health companies' world over. We have also enabled the site transfers to Vizag from our existing API facility at Ambarnath, which discontinued the operations as a result of reorganization efforts.

On the business front, the transitioning Animal Health API business registered a muted performance due to capacity scale up challenge and a couple of headwinds arising out of geopolitical tensions across MENA region and uncertain order pattern from customers. The business however gained some momentum during the close of financial year.

Looking at the future, we believe, we are well positioned to address established opportunities in the industry. We intend to grow our business based on our existing relationship with leading companies both by adding new products to the basket as well as adding new geographies that have a promising future. Our growth engine to this vision would be led by our strategic investment in scale (Vizag facility) and research which has enabled us with a strong pipeline of over 12 products that are into different stages of commercialization.

Animal Health Formulations

Our debut in the finished dosage space got registered in 2008, since then, we have carved out a niche portfolio of our products with dominant position largely in the cattle, dairy, poultry and swine products. While we have

attained fast growth in India, we have also scaled our presence in leading global markets within South East Asia, MENA and Turkey. Our therapeutic segments include feed supplements, antibiotics, anthelmintics, antibacterial, skincare (dermatology) products and disinfectants. We also acquired Provet Ltd. (Turkey's third largest animal health pharmaceutical company) to strengthen and enable our positioning both in the emerging and the regulatory markets including US, RSA, EU and Australia.

The formulations segment including the revenues from Provet (Initiated in Q4) contributed over 18% to the total revenues of the company. Post our acquisition of Provet, we also registered a year on year growth of 97% in FY 2014-15. From the product perspective, we witnessed business traction in the nutrition segment both in poultry and dairy nutrition. We also launched our poultry products in the US therefore foraying to the market in this space. Amongst the operational developments we also completed the up-gradation of our facility at Ambarnath. The facility also completed regulatory audit from the Cameroon authorities and WHO. Success of these audits also ensures our readiness to face any other audits from customers and authorities in the coming period.

We believe we have the launch pad for the multi-billion dollar animal healthcare opportunity that we foresee. Out of our portfolio of 182 animal health formulations, we have shortlisted 90 products which could be introduced in regulated markets over the next few years. We also intend to forge partnerships and collaboration with leading companies in the regulatory markets and we are confident of a robust growth.

Human APIs

In a crowded market for the pure-play API business, our portfolio comprises of niche molecules that require a low volume of production and high chemistry capabilities. While these are difficult to make APIs, it limits the competition and enable us to drive better margins. As a strategy, we focus on mature APIs that have substantial supply issues and fewer players and backed by our strong research support and chemistry capabilities, we qualify as one of the preferred source for leading generic and innovator companies. Our existing API business is driven by our FDA approved multi-purpose facility at Mangalore and as of today, we have a portfolio of 17 complex molecules across therapies like anti-malarial, anthelmintics, anti-infective, antiviral, CNS and dermatology.

The Human Health APIs registered a 21% year on year growth in FY 2014-15. The segment also contributed over 55% in the overall API business of the company. While there were commercial and pricing issues in few of the molecules, we presented a very strong performance of the molecules launched in the recent time. We also increased the capacity in our Mangalore facility which augmented the capacity of Praziquantel by close to 70%. In FY 2014-15, we also entered into a long term non-exclusive, royalty-free licensing agreement with Gilead for producing APIs such as Sofosbuvir and Ledipasvir, both used in the dosages curing Hepatitis C virus. The Hepatitis C virus results in chronic infection and as per WHO estimates, about 130-150 million people world over have this infection and about half a million die each year due to the same. To optimise our business further, we also acquired the manufacturing assets and business of Arvee Synthesis, which we intend to use for manufacturing intermediates for our Human Health pipeline. We also forged a strategic arrangement (through an MOU) with Arch Pharma for manufacturing of our APIs at their facility in Medak, Andhra Pradesh.

SeQuent has invested in facilities and strategic arrangements to safeguard its future business interest. We are focussed on the development and supply of high value, low volume APIs and going forward, we would continue to find partners having common intent on profit sharing basis to manufacture these. On the back of a dedicated research wing and a team of over 100 scientists, we continue to focus on improving existing products and scale up our pipeline of over 16 molecules for a sustainable future.

Analytical Services

Through our subsidiary (Sequent Research), we specialise in servicing the API, Pharmaceutical, Personal Care and Nutraceutical companies in analytical and bio-analytical services. This segment is a new revenue stream for the company. The core business is to offer standardised quality, cost savings and shorter lead time to healthcare and personal care companies based on our technical capabilities. We have a GLP compliant facility Certified & approved by ISO, TGA, USFDA and WHO.

During the year, while we enhanced the scope of services to our existing clientele, we also acquired new business from 4 new companies. The segment therefore accounted for a revenue of ₹ 106.5 million registering a sales uptick of 14%. We also worked on our branding and represented us at CPHI in Paris. From the operational perspective, we also added Malvern particle Size analyser to broaden our capabilities.

Moving forward, our focus is to be best-in-class analytical service provider for pharmaceutical (human & veterinary), nutraceutical and personal care industry. In this direction we have also initiated a new capacity at Bangalore and with this, we intend to add Beta lactam, Penicillin, Hormones to our portfolio.

Business Resources

Manufacturing

We currently operate from seven manufacturing facilities including one overseas facility that we acquired from Provet in Turkey. Besides manufacturing our products in-house, we have also made strategic agreements with third parties to ensure that our internal production blocks are optimally used and the demand of the customer is serviced both with quality and efficacy. A brief detail on our facilities is as below:

Business Vertical	Facility Name and Location	Key Features
Animal Health Formulations	Polatli, Turkey	Injectable suspensions / solutions, oral solutions / suspension, intramammary suspension, aerosol and pour-on / spot-on
	Ambarnath, India	Turkish GMP approved Oral liquids and granules for injection
Animal Health APIs	Vizag, India	cGMP approved EU supplies ongoing and US filings initiated
	Mangalore, India	cGMP facility 5 clean rooms
Human Health APIs	Mahad, India	TGA, USFDA, WHO-PQ approved 6 clean rooms
	Tarapur, India	EU supplies ongoing cGMP facility
API Intermediates	Mysore, India	Intermediates for Animal Health APIs
		Intermediates for Human Health APIs

R&D

Collaborating in dynamic ways with innovation across our core areas is what we believe in. Our in-house research capabilities span with a DSIR recognized R&D centre based out of Mangalore. The facility has 10 Labs with 80 fume hoods and over 120 scientists. We have recently commissioned a pilot scale plant for faster product development. Our research and development team has expertise in carbohydrate chemistry and heterocyclic chemistry. During the FY 2015, we spent about ₹ 96.87 million in the research, which is 2.1% of our total revenues.

Going forward, we look to yield benefits from our pipeline of 12 products in animal health APIs, 34 products in the animal health formulations segment and over 14 human health APIs.

Quality

Across various manufacturing sites, we have put in place quality systems that cover all areas of our business processes from supply chain to product delivery to ensure consistent quality, efficacy and safety of products. Regular audit programs validate our attempts to deliver consistent quality. Quality risk management procedures are established and followed for internal audits, failure investigations and implementation of permanent remedial measures. Some of the certifications that give a testimony to our quality commitment are approvals from EUGMP, TGA, USFDA, CEP and Health Canada.

IPR

From a regulatory perspective, we are fully accomplished to encounter the challenges of modern-day Intellectual Property Management in Pharmaceutical Industry. We have a well-qualified and experienced team for IPR facilitates the development of intellectual wealth and supports to identify new potential and markets for API & formulations across the globe. In the animal health segment, we filed 3 DMFs in addition to EDMF for eight of our APIs. We also made CEP filing for four of our APIs. As on date, we also have 19 DMFs in the human health segment.

Employees

Human resource is one of the most important assets for us. We envisage in achieving organizational excellence by implementing sound HR Practices that align Human Capital with Corporate Vision and improve their satisfaction level and have positive impact on overall business performance. We have an employee base of about 1200 people including over 100 who are part of our overseas operations.

FY 2014-15 was a year of inception in terms of many processes and policies. Major of all to have a performance

driven culture, we designed and implemented robust performance management system at SeQuent group of companies. With Alivira, our focus was to have a uniform approach in Alivira and SeQuent. We value our employees and our culture. Employee engagement activities like MyVoice (open house sessions), Shopfloor communication, festival celebration and more helped us to strengthen our organizational culture and also helped employee's to stay focused and connected with the organizational goals.

EHS

We consider safety at first, therefore our endeavour is to ensure establishment of safe working conditions in all areas, to provide adequate protection for our employees, visitors and stakeholder. In this regard, a well-defined EHS policy is developed and in place. We also promote ongoing training for our staff and makes our best efforts to provide all technological resources and materials required to control the risks inherent to this business. Our motto is 'tomorrow's safety should be better than today' and as part of that encouraged a) Walkthrough Survey by Line Management b) Reward and Recognition to the employees and workers who follows best safety practices c) EHS training programs by Line Management.

We focus on inculcating awareness on EHS among our employees and as part of that celebrated National Safety Week, Fire Services Week and World Environment day across all the manufacturing sites by conducting blood donation camp, sapling plantation, mock drills, fire drills etc. We are implementing sustainability initiatives such as energy conservation and water conservation and zero liquid discharge concept across all the manufacturing sites.

Global Presence and Marketing

In the APIs, we service to over 82 countries world over. While we do bulk of our business directly, we also have alternate supply arrangements through distributors, this not only ensures a greater span of coverage, but also helps us on getting better payment terms.

In addition to three long term supply agreements we have with our customers in human APIs, we also signed a non-exclusive agreement with Gilead to make APIs Sofosbuvir and Ledipasvir which are used for manufacturing drugs used to treat Hepatitis C virus. In the formulations space, we export to 22 countries across Africa and Asia and we have various distribution agreements with local distributors in Africa and Asia for distribution of our animal health formulation products. In India and Turkey, we have direct sales personnel to market our animal health formulation products in the respective markets.

Shareholders' Funds

The Company increased its share capital from ₹ 273.4 million to ₹ 304.9 million. During the year the company converted 3.2 million warrants issued in FY 2014 to equity shares at a conversion price of ₹ 135.3 per share.

Reserves and Surplus

The total reserves and surplus of the company increased to ₹ 319.8 million from ₹ 13.4 million in FY 2014. The

substantial increase in the reserves is due to receipt of ₹ 394.5 million in the share premium account received from the issue of warrants during the year.

Minority Interest

The minority interest increased to ₹ 1,469.3 million in FY 2015 largely on account of acquisition of 60% equity stake in Provet Veterinary Products A.S., Turkey with balance of 40% being minority interest.

Non-Current Liabilities

Non-current liabilities increased primarily due to the following reasons:

- Long-term borrowings have increased to factor two term loans raised for the Provet acquisition and Vizag facility.
- Increase in Long-term provisions and deferred tax liabilities.

Current Liabilities

The total trade payables have reduced in the FY 2015 to ₹ 909.4 million from ₹ 1,145.9 million in FY 2014.

However the other current liabilities have increased to ₹ 1,074.3 million on account of ₹ 650.0 million payable towards acquisition of 7.4 million equity shares of Alivira Animal Health Limited from Shasun Pharmaceuticals Limited.

Non Current Assets

The increase in non-current assets attribute to:

- Increase in fixed assets by 63% mainly as a result of Provet Acquisition and Vizag facility

b. Increase in good will on consolidation on acquisition of Provet

c. Offset by reduced long term loans and advances

d. Other investments have increased as the company has invested ₹ 580.3 million in Shashun Pharmaceuticals Limited.

Current Assets

The increase in current assets attribute to increase of trade receivables and other current assets which includes fixed assets held for disposal of about ₹ 150 million.

Diluted EPS	(3.75)	(42.76)

Operating Revenue

The Company's revenues were nearly flat over the previous year. This was primarily due to divestment of our specialty chemical division during the course of year. Eliminating the effect of the discontinued operations from the previous year, we have grown over 14% from ₹ 3,988.4 million in FY 2014 to ₹ 4,531.8 million in the year under review. The API business accounted for a moderate growth of 1.9% as a result of headwinds in the animal APIs business. We acquired 60% stake in Turkey's Provet Veterinary products which catalysed our foray into global finished dosage markets. This resulted in a yearly growth of 98% in the finished dosage revenues for the company. The analytical services business contributed 2% in the overall business and the segment grew 14% over the previous year.

Cost of Materials Consumed

The Material costs consist of consumption of raw materials, traded goods and change in stock. Our expenses in relation to cost of raw materials consumed decreased by about 1.1%. This factors the divestment of Speciality Chemicals business and a better product mix of existing APIs. The closing stock was lower by ₹ 70.4 million for FY 2015.

Employee Benefit Expenses

The Employee Benefit Expenses comprise of the salaries, wages, allowances and bonuses and contributions to statutory funds. These expenses have increased by ₹ 142.7 million (30%) largely on account of additional expenses from Provet and the commissioning of facility at Vizag.

Depreciation and Amortization

Depreciation and amortisation expense increased by 1% to ₹ 329.3 million for FY 2015. This factors sale of the Speciality Chemicals Division, which was partly offset by commencement of new manufacturing facility at Vizag.

Finance Costs

The finance costs increased by 14% to ₹ 443.7 million in FY 2015. This increase was mainly attributable to increase in long term borrowings for the acquisition of Provet and construction of our manufacturing facility at Vizag.

Exceptional Items

The Exceptional items during the year comprise of the following:

- A. Our Company discontinued its manufacturing operations at Ambernath API Facility resulting in recognition of expected loss due held for disposal being lower of net book value and net realisable value of ₹140.3 million and ₹ 26.3 million towards other expenses incurred in closing the operations.
- B. In FY 2014, our Company developed certain intellectual property in the area of Penems. However, the implementation of the project got delayed due to delays in environmental approvals from the government of India and change of control of our key customer for the business. We were uncertain of this customers continued interest in the project. Given the significant additional investments involved to complete the project, the company decided to discontinue the project and write-down the related project costs amounting to ₹ 539.1 million in FY 2014.

Tax Expenses

Tax expenses are at ₹ 33.9 million in FY 2015 primarily due to tax on profits generated by Provet.

Risk Management and Internal Control

The Company is responsible for establishing and maintaining adequate and effective internal financial controls and the preparation and presentation of the financial statements, in particular, the assertions on the internal financial controls in accordance with broader criteria established by the Company.

Because of the inherent limitations of internal financial controls, including the possibility of collusion or improper management override of controls, material misstatements in financial reporting due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls are subject to the risk that the internal financial control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A robust, comprehensive internal control system is a prerequisite for an organization to function ethically and in commensuration with its abilities and objectives. We have established a strong internal control system for your company and its subsidiaries. This control system is aimed at providing assurance on the company's effectiveness and efficiency of operations, compliance with laws and regulations, safeguarding of assets and reliability of financial and management reporting. The company is staffed with experienced and qualified people who play an important role in designing, implementing, maintaining and monitoring the internal control environment.

Further, an independent body of Chartered Accountants performs periodic internal audits to provide reasonable assurance over internal control effectiveness and advice on industry wide best practices. The Audit committee consisting of independent director's review important issues raised by the Internal and Statutory auditors thereby ensuring that the risk is mitigated appropriately with appropriate rectification measures on a periodic basis.

Acquisition of 60% stake in Provet Veteriner Urunleri Sanayive Ticaret Anonim Sirketi, Turkey (“Provet”)

Alivira Animal Health Limited, India acquired 60% stake in Provet through its wholly owned subsidiary Alivira Animal Health Limited, Ireland. Provet, a privately owned enterprise is amongst top 5 and the largest local company in veterinary medicines market in Turkey, with a portfolio of around 114 pharmaceutical products, pre-dominantly injectibles. Provet is promoted by Dr. Aydin who has over 28 years of experience in veterinary pharmaceutical business.

Consolidation of shareholding in Alivira Animal Health Limited, India

The Company has a strategic vision of emerging as a global power house in Animal Health Business. To fast track this strategic vision, the Company re-branded the business with a new entity Alivira Animal Health Limited (“Alivira”). The Company entered into a Joint Venture agreement with Shasun Pharmaceuticals Limited (“Shasun”) to acquire its new state-of-art manufacturing unit at Vizag in March 2014. Further, to meet the funding requirement, Alivira also raised capital from Unit Trust of India

Investment Advisory Services Limited A/c Ascent India Fund III (“Ascent”) and Devicam Capital LLP (“Devicam”) through preferential issue/ private placement in April 2014. All these events led to a significant dilution of Company’s holding in Alivira.

Given the strategic intent of value creation in Alivira, the Company decided to consolidate its holding in Alivira. On 31 March 2015, the Company acquired the entire equity shares held by Shasun in Alivira, which increased the Company’s holding to 73.30% of the equity capital of Alivira on a fully diluted basis.

At the Board meeting held on 30 June 2015, the Board of Directors approved acquisition of entire shareholding by buying out the minority shareholding (i.e., 9,997,941 equity shares) in Alivira held by Ascent and Devicam. Post the acquisition, Alivira will become a wholly owned subsidiary of the Company. The consideration towards such acquisition of shares from the minority shareholders of Alivira will be paid by way of issue of 2,827,679 equity shares of ₹ 10 each to Ascent and 757,734 equity shares of ₹ 10 each to Devicam at a price of ₹ 669.10 per equity share through preferential issue (“Preferential Issue”) in compliance with relevant provisions of the Companies Act, 2013 and Chapter VII of the Securities & Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009. The preferential issue will be subject to approval of the members of the Company and other statutory/regulatory approvals. Further the Preferential Issue of 2,827,679 equity shares to Ascent shall be subject to approval of Foreign Investment Promotion Board (“FIPB”).

Form B**a. Measures taken for the year 2014 - 15****Mangalore and Mysore:**

1. Temperature controller for CT fans, which is expected to minimise the electrical consumption during the less ambient temperatures (winter season).
2. Automation of utility pumps (higher capacity) by providing Variable Frequency Drive (VFD) and pressure switch will switch off the pumps automatically during no requirement at plant. This will reduce the electrical consumption.
3. Improving solvent condensation/ recovery for the distillation reactors by enhancing the condenser capacity and/ or enhancing the condenser cooling capacity. This will increase the solvent recovery as well reduce the fresh solvent consumption.
4. Briquette fired thermo pack planned at Mangalore location will reduce operating cost and eliminate usage of fossil fuel (FO).
5. Replacement of starter of Air Handling Units (AHUs) and ventilation systems at Mangalore by suitable VFDs. This may lead to an estimated saving of 120 units of energy per day.

Mahad:

1. High vacuum distillation units, oil ring vacuum pumps were replaced with Steam jet ejectors. This will result in saving of electricity as well regular replacement of oil in the oil ring vacuum pump.
2. Cooling tower fans, temperature controller installed which will shut the fan during the less load or during winters.
3. Water ring vacuum pumps having 10 motor, were replace with steam jet ejector.
4. Replaced the LDO fired hot oil unit with Briquette fired.

Tarapur:

1. Cooling tower fans, temperature controller installed which will shut the fan during the less load or during winters.

2. All the 160 KWHPMV lighting bulbs in the manufacturing area to replace with low KW LED bulbs.
3. Reverse Osmosis (RO) plant installed in Effluent Treatment Plant (ETP) as tertiary treatment facility. The permeate water from the RO plant is used for the general purpose there by reducing the fresh water in-take from Maharashtra Industrial Development Corporation.

b. Steps taken or impact on conservation of energy 2015-16**Mangalore and Mysore:**

1. Briquette fired Boiler of 4T/hr planned at Mangalore location will reduce operating cost and eliminate usage of fossil fuel (FO).
2. Plant lights shall be replaced with LEDs at Mangalore saves about 50% of power compared to conventional lighting system.
3. Oil ring vacuum pumps shall be replaced with steam jet ejectors at Mangalore. This will eliminate the usage of oil in the vacuum pump and reduces operating cost.
4. Electrical power supply shall be done through power banking system from eco-friendly non -fossil fuel, private power generating units, resulting efficient and economical power supply.
5. Expansion of Effluent Treatment Plant (ETP) including Multiple Effect Evaporator to make Mangalore a Zero Discharge Unit.

Mahad:

1. All the 160 KWHPMV lighting bulbs in the manufacturing area to replace with low KW LED bulbs.
2. Higher capacity Utility pumps, planned to install variable frequency Drive (VFD) and pressure switch which will switch OFF the pumps where there is no requirement in plant.
3. Manual Hot water system, planned to convert in Automation which will not allow the steam once the Hot water attains the required temperature.

4. Larger capacity reactor agitators, planned to replace the agitators with energy efficient which will reduce the power consumption.
5. Improving solvent condensation for the distillation reactors by enhancing the condenser capacity which will increase the solvent recovery as well reduce the fresh solvent consumption.

c. Steps taken by the company for utilizing alternate sources of energy 2015-16

1. Purchase of 60% to 80% of power requirement for Mangalore unit directly from eco-friendly, non-fossil fuel private generating units.

B. TECHNOLOGY ABSORPTION

Research & Development (R&D):

a. Core areas of R&D:

1. Development of cost effective, non-infringing and eco-friendly technologies for API's and intermediates that sets us apart in a competitive market place.
2. Development of complex API's with strong backward integration.
3. Creation of intellectual property wealth.

4. Continuous process improvements for the existing API's with a view to reduce the cost and improve the quality.
5. Development of analytical methods and specifications for non-compendia API's and Impurity profiling.

b. Benefits derived as a result of R&D:

1. Introduction of new products to market by speedy in-house development and commercialisation.
2. Enhancing the profit by process improvements of the products by their life cycle management.
3. Reduction of effluents by creating green technologies.
4. Reduction of time cycles by process simplifications to enhance the production capacity.

Future plan of action:

1. To focus on the development of niche API's and build pipeline for consistent growth.
2. Enhancing the product portfolio by development of Human and Veterinary API's for regulated Market.

Annexure 8

Disclosure under Section 62 of the Companies Act, 2013 read with Rule 12 of Companies (Share Capital and Debentures) Rules, 2014 and SEBI (Share Based Employee Benefits) Regulations, 2014 forming part of the Directors' Report for the year ended 31 March 2015

A. DETAILS RELATED TO EMPLOYEE STOCK OPTION SCHEME

In the Extraordinary General Meeting held on 8 March 2008, the members approved the issue of options under the ESOP scheme. Options to be granted under the Scheme in any financial year shall not result in issue of equity shares of more than 7% of the issued and subscribed capital of the Company as at the date of grant of options. In accordance with the above, the Company established an ESOP trust to administer the scheme on 25 February 2010.

In the Board Meeting dated 29 March 2010, the Company has allotted 700,000 equity shares to the ESOP trust with a Face value of ₹ 10/- per share at a premium of ₹ 103/- per share. As at 31 March 2015, 582,500 equity shares (31 March 2014 - 700,000 equity shares) of ₹ 10/- each are reserved towards outstanding employee stock options granted / available for grant. Primary issuance is the source of shares of the ESOP Trust.

As per the scheme, the Compensation committee grants the options to the eligible employees. The exercise price and vesting period of each option shall be as decided by the compensation committee from time to time. The options granted would normally

vest over a maximum period of 4 years from the date of the grant in proportions specified in the scheme. Options may be exercised within a period of 4 years from the date of first vesting of the options.

During the current year, the Compensation Committee in its meeting held on 28 May 2014 and 12 November 2014 has granted 180,000 and 200,000 options respectively under SSL ESOP Scheme - 2010 (Sequent ESOP 2010) to certain eligible employees of the Company. The options allotted under Sequent ESOP 2010 are convertible into equal number of equity shares. During the previous year, the Compensation Committee in its meeting held on 30 May 2013 and 12 February 2014 has granted 540,000 and 100,000 options respectively under Sequent ESOP 2010 to certain eligible employees of the Company.

Employee stock options are accounted in accordance with the guidelines stipulated by Securities and Exchange Board of India ("SEBI") and Guidance Note on Accounting for Employee Share-based Payments. The difference between the closing market price of the shares underlying the options granted on the date of grant of option and the option price is expensed under employee benefit expenses over the vesting period.

Option movement during the year 2014-15

Particulars	Sequent ESOP 2010
Number of options outstanding as at 1 April 2014	570,000
Number of options granted during year	380,000
Number of options forfeited / lapsed during the year	60,000
Number of options vested during the year	142,500
Number of options exercised during the year	117,500
Number of shares arising as a result of exercise of options	117,500
Loan repaid by the Trust during the year from exercise price received (Money realised by exercise of options during the year)	₹ 5,875,000
Number of options outstanding as at 31 March 2015	772,500
Number of options exercisable as at 31 March 2015	25,000
Variation of terms of options	Nil
Weighted average exercise price of options	₹65
Weighted average fair values of options	₹ 457.70
Range of exercise price for options outstanding at the end of the year	₹ 50 to ₹ 80 per option

The impact on Earnings per Share if the 'fair value' of the options (on the date of the grant) were considered instead of the 'intrinsic value' is as under:

Particulars	(₹ in Million)
	Year ended 31 March 2015
Net Profit / (loss) for the year (as reported)	413.07
Add / (Less): stock based employee compensation (intrinsic value)	44.57
Add / (Less): stock based compensation expenses determined under fair value method for the grants issued	(126.86)
Net Profit / (loss) for the year (proforma)	330.78
Basic earnings per share (as reported)	14.44
Basic earnings per share (proforma)	11.56
Diluted earnings per share (as reported)	12.22
Diluted earnings per share (proforma)	9.78

The fair value of the options has been determined under the Black-Scholes model. The significant assumptions used in this model for calculating fair value are as below:

Particulars	(₹ in Million)
	Year ended 31 March 2015
Weighted average values of share price	₹ 411.60
Weighted average values of exercise price	₹ 65
Expected volatility	54.18%
Expected option life	4 years
Expected dividends	Nil
Risk free interest rate	7.74%

The volatility is calculated from the method of historical volatility, based on the three years data of closing market prices of the Company's shares as per the data recorded by the Bombay Stock Exchange (BSE) and the average number of trading days during that period. It is the percentage co-efficient within the option pricing formulas.

The Board has prescribed Code of Conduct ("Code") for all Board Members and Senior Management of the Company.

The Code of Conduct is also posted on the website of the Company.

All Board Members and Senior Management Personnel have confirmed compliance with the code for the year 2014-15.

A declaration to this effect signed by Mr. Manish Gupta, Managing Director is reproduced below:

"I confirm that the Company has in respect of the year ended 31 March 2015, received from its Board Members as well as Senior Management Personnel affirmation as to compliance with the Code of Conduct."

Mr. Manish Gupta
Managing Director

TO THE MEMBERS OF SEQUENT SCIENTIFIC LIMITED

We have examined the compliance of conditions of corporate governance by Sequent Scientific Limited ("the Company") for the year ended on 31 March 2015, as stipulated in Clause 49 of the Listing Agreement of the said Company with the stock exchange.

The compliance of conditions of Corporate Governance is the responsibility of the management. Our examination has been limited to a review of the procedures and implementations thereof, adopted by the Company for ensuring compliance with the conditions of Corporate Governance. It is neither an audit nor an expression of opinion of the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, and the representations made by the Directors and the management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in clause 49 of the above-mentioned Listing Agreement. We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

Independent Auditors' Report

To The Members of Sequent Scientific Limited

REPORT ON THE STANDALONE FINANCIAL STATEMENTS

We have audited the accompanying standalone financial statements of **SEQUENT SCIENTIFIC LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2015, the Statement of Profit and Loss and the Cash Flow Statement for the year ended March 31, 2015 and a summary of the significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to

obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2015, and its profit and its cash flows for the year ended on that date.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2015 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

Independent Auditors' Report

- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors as on March 31, 2015 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2015 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our

information and according to the explanations given to us:

- (i) The Company has disclosed the impact of pending litigations on its financial position in the financial statements. Refer note 27.2(i) of the financial statements;

Annexure to the Independent Auditors' Report

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) In respect of its fixed assets:
- (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) The fixed assets were physically verified during the previous year by the Management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the fixed assets at reasonable intervals. According to the information and explanations given to us, no material discrepancies were noted on such verification.
- (ii) In respect of its inventory
- (a) As explained to us, the inventories were physically verified during the year by the Management at reasonable intervals.
 - (b) In our opinion and according to the information and explanations given to us, the procedures of physical verification of inventories followed by the Management were reasonable and adequate in relation to the size of the Company and the nature of its business.
 - (c) In our opinion and according to the information and explanations given to us, the Company has maintained proper records of its inventories and no material discrepancies were noticed on physical verification.
- (iii) According to the information and explanations given to us, the Company has granted loans, secured or unsecured, to companies, firms or other parties covered in the Register maintained under Section 189 of the Companies Act, 2013. In respect of such loans:
- (a) The receipts of principal amounts and interest have been regular.
 - (b) There is no overdue amount in excess of ₹ 1 lakh remaining outstanding as at the year-end.
- (iv) In our opinion and according to the information and explanations given to us, having regard to the explanations that some of the items purchased are of special nature and suitable alternative sources are not readily available for obtaining comparable quotations, there is an adequate internal control system commensurate with the size of the Company and the nature of its business with regard to purchases of inventory and fixed assets and for the sale of goods and services. During the course of our audit, we have not observed any major weakness in such internal control system.
- (v) According to the information and explanations given to us, the Company has not accepted any deposit during the year.
- (vi) We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended and prescribed by the Central Government under sub-section (1) of Section 148 of the Companies Act, 2013, and are of the opinion that, prima facie, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) According to the information and explanations given to us, in respect of statutory dues:
- (a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees State Insurance, Income tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.
 - (b) There were no undisputed amounts payable in respect of Provident Fund, Employees State Insurance, Income tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Cess and other material statutory dues in arrears as at March 31, 2015 for a period of more than six months from the date they became payable.

Notes

forming part of the financial statements

Note

1 SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of accounting and preparation of financial statements

The financial statements of SeQuent Scientific Limited ('the Company') have been prepared, in accordance with Generally Accepted Accounting principles in India (Indian GAAP), to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act") / Companies Act, 1956 ("the 1956 Act"), as applicable except for certain assets and liabilities which are measured on fair value basis as permitted by the Scheme of Arrangement approved by the Honorable High Court of Karnataka and the relevant provisions of the Companies Act, 2013. The Financial Statements have been prepared on accrual basis under the historical cost convention except for certain categories of fixed assets that are carried at revalued amounts. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

1.2 Tangible fixed assets

Fixed assets are carried at cost less accumulated depreciation and impairment losses, if any. The cost of fixed assets includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date. Exchange differences arising on restatement / settlement of long-term foreign currency borrowings relating to acquisition of depreciable fixed assets are adjusted to the cost of the respective assets and depreciated over the remaining useful life of such assets. Subsequent expenditure relating to fixed assets is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

Fixed assets retired from active use and held for disposal are stated at the lower of their net book value and net realisable value and are disclosed separately

Capital work-in-progress:

Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

1.3 Intangible assets

Intangible assets are carried at cost less accumulated amortisation and impairment losses, if any. The cost of an intangible assets comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Subsequent expenditure on an intangible assets after its purchase / completion is recognised as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of the asset.

Refer Note 1.5 for accounting for research and development expenses.

1.4 Depreciation/amortisation

Depreciation is provided under the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Nature of the assets	Useful life in years
Buildings	10 - 28
Plant and Machinery	5 - 12
Leasehold land	85 - 96
Leasehold property development	Over lease period

In the case of following intangible assets depreciation is provided/ amortised under the straight line method over the useful life of assets as follows:

Product and process development : 5 Years
Acquired Software : 3 Years

The estimated useful life of the intangible assets and its amortisation period are reviewed at the end of each financial year and the amortisation method is revised to reflect the changed pattern.

With respect to assets carried at revalued amounts as permitted under the Scheme of amalgamation, depreciation is recorded under the straight line method over the balance remaining useful life of the assets.

1.5 Research and development costs

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technological feasibility has been established, in which case such expenditure is capitalised. The amount capitalised comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis to creating, producing and making the asset ready for its intended use. Fixed assets utilised for research and development are capitalised and depreciated in accordance with the policies stated for tangible fixed assets and intangible assets.

1.6 Impairment of assets

As at each Balance Sheet date, the carrying amount of fixed assets is tested for impairment if impairment conditions exist. An impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:

- in the case of an individual asset, at the higher of the net selling price and value in use.
- in the case of cash generating units, at the higher of the unit's net selling price and the value in use.

Value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life."

1.7 Investments

Current investments are carried at lower of cost and fair market value. Provision is made to recognize decline, if any, in the carrying value.

Long-term investments are carried individually at cost less provision for diminution, other than temporary in the value of the investment.

1.8 Inventory

Inventories comprise raw materials, packing materials, consumables, work in process, intermediates and finished goods. These are valued at the lower of cost and net realizable value. Cost is determined on First in First out basis as follows:

- Raw materials, packing materials and consumables
At purchase cost including other cost incurred in bringing materials/consumables to their present location and condition
- Work in process and Intermediates
At material cost, conversion costs and appropriate share of production overheads

Notes

forming part of the financial statements

(iii) Finished goods

At material cost, conversion costs and an appropriate share of production overheads and excise duty, wherever applicable.

1.9 Revenue recognition

Revenue from export sales is recognized when significant risks and rewards of ownership is transferred on the basis of the shipping bills for exports. Revenue from domestic sales is recognized based on the transfer of significant risks and rewards of ownership which generally coincides with dispatch. Sales include excise duty and are stated net of discounts, other taxes, and sales returns.

Income from sale of technical know-how is recognized, when the risk and right to use is transferred to the buyer as per terms of contract.

Income from technical service and other management fees is recognized when the services are completed as per the terms of the agreement and when no significant uncertainty as to its determination or realization exists.

Dividend income is recognised when the right to receive the same is established.

Interest income is recognised on an accrual basis.

Export incentives are accrued for based on fulfilment of eligibility criteria for availing the incentives and when there is no uncertainty in receiving the same.

1.10 Employee benefits

Short term employee benefits like provident fund, medical, leave travel, employee state insurance scheme etc., are accrued based on the terms of employment when services are rendered by the employees and charged as an expense to the statement of profit and loss.

Leave balances standing to the credit of the employees that are expected to be availed in the short term are provided for on full cost basis. Liability for unavailed leave considered to be long term is carried based on an actuarial valuation carried out at the end of financial year.

Liability for gratuity is funded with LIC and SBI Life Insurance Company Limited. Gratuity expenses for the year are accounted based on actuarial valuation carried out using Projected Unit Credit Method as at the end of the fiscal year. The obligation recognised in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, and as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the scheme.

1.11 Foreign currency transactions

Initial recognition

Transactions in foreign currencies entered into by the Company and its integral foreign operations are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Measurement of foreign currency monetary items at the Balance Sheet date

Foreign currency monetary items of the Company and its net investment in non-integral foreign operations outstanding at the Balance Sheet date are restated at the year-end rates.

In the case of integral operations, monetary assets and monetary liabilities, are translated at the exchange rate prevailing on the balance sheet date. Non-monetary items are carried at historical cost. Revenue and expense are translated at the average exchange rates prevailing during the year. Exchange differences arising out of these translations are charged to the statement of profit and loss.

Treatment of exchange differences

Exchange differences arising on settlement / restatement of short-term foreign currency monetary assets and liabilities of the Company and its integral foreign operations are recognised as income or expense in the statement of profit and loss. The exchange differences on restatement / settlement of loans to non-integral foreign operations that are considered as net investment in such operations are accumulated in a Foreign currency translation reserve until disposal / recovery of the net investment.

The exchange differences arising on restatement / settlement of long-term foreign currency monetary items are capitalised as part of the depreciable fixed assets to which the monetary item relates and depreciated over the remaining useful life of such assets.

Accounting of forward contracts

Premium / discount on forward exchange contracts, which are not intended for trading or speculation purposes, are amortised over the period of the contracts if such contracts relate to monetary items as at the Balance Sheet date.

1.12 Taxes on income

Income Tax comprises the current tax provision and the net change in the deferred tax asset or liability during the year.

Deferred tax assets and liabilities are recognized for the future tax consequences arising out of temporary differences between the carrying values of the assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates applicable on the Balance Sheet date. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses, deferred tax assets are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise the assets. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their reliability.

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Indian Income Tax Act, 1961.

Minimum alternative tax ('MAT') paid in accordance to the tax laws, which gives rise to future economic benefits in the form of adjustment of future tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax in future years. Accordingly, MAT is recognized as an assets in the balance sheet when it is probable that the future economic benefit associated with it will flow to the Company and asset can be measured reliably.

1.13 Leases

Lease arrangements, where the risks and rewards incident to ownership of an asset substantially vest with the lessor, are classified as operating leases and the lease rentals thereon are recognised in the statement of profit and loss on straight line basis.

1.14 Employee stock option scheme

Employee stock options are accounted in accordance with the guidelines stipulated by SEBI and Guidance Note on Accounting for Employee Share-based Payments. The difference between the closing market price of the shares underlying the options granted on the date of grant of option and the option price is expensed under employee benefit expenses over the vesting period.

1.15 Earnings per share (EPS)

In determining the Earnings per share, the Company considers the net profit after tax. The number of shares used in computing

Notes

forming part of the financial statements

Basic Earnings per share is the weighted average number of equity shares outstanding during the year. The number of shares used in computing Diluted Earnings per share comprises the weighted average number of equity shares considered for deriving Basic earnings per share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year unless issued at a later date.

1.16 Provisions and contingencies

A provision is recognized when the Company has a present legal or constructive obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are not recognized but are disclosed in the notes to financial statements.

1.17 Use of estimates

The preparation of the financial statements in conformity with the Accounting Standards generally accepted in India requires that the Management makes estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Management believes that the estimates used in preparation of financial statement are prudent and reasonable. Actual results could differ from those estimates and the estimates are recognised in the period in which the results are known/materialise.

1.18 Segment

Segments have been identified taking into account the nature of services, the differing risks and returns, the organizational structure and the internal reporting system. The Company prepares consolidated financial statements and segment information is disclosed in Consolidated financial statements.

1.19 Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

1.20 Borrowing costs

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset upto the date of capitalisation of such asset is added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

1.21 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

1.22 Cash and cash equivalents (for purposes of cash flow statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid

investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

1.23 Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

27.11 Managerial Remuneration

Based on the revised approval received from the Central Government during the year, the Company has recovered excess salaries and allowances paid to its directors in the earlier years of ₹ NIL Million (Previous year ₹ 26.81 Million) and recognised it in the statement of profit and loss.

27.12 During the year, pursuant to the notification of Schedule II to the Companies Act, 2013 with effect from April 1, 2014, the Company has revised the estimated useful life of some of its assets to align the useful life with those specified in Schedule II. The details of previous and revised useful life are as follows:

Asset	₹ In Million)	
	Previous useful life in years	Revised useful life in years
Computers - End user devices like desktop, laptop	6	3
Office Equipment	20	5
Furniture and Fixtures	15	10
Vehicles	10	8

Pursuant to the transition provisions prescribed in Schedule II to the Companies Act, 2013, the Company has fully depreciated the carrying value of assets, net of residual value, where the remaining useful life of the asset was determined to be nil as on April 1, 2014, and has adjusted an amount of ₹ 4.40 Million against the Surplus/ (Deficit) in statement of profit and loss under Reserves and Surplus. (Refer note 3)

The depreciation expense in the Statement of Profit and Loss for the year is higher by ₹ 3.45 Million consequent to the change in the useful life of the assets.

Note

28.1 Employee benefit plans

28.1.a Defined contribution plans

The Company makes Provident Fund and Employee State Insurance Scheme contributions which are defined contribution plans, for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The Company recognised ₹ 22.01 Million (Year ended 31 March 2014 ₹ 25.01 Million) for Provident Fund contributions and ₹ 1.45 Million (Year ended 31 March 2014 ₹ 1.54 Million) for Employee State Insurance Scheme contributions in the Statement of Profit and Loss. The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

NOTE 29 DISCLOSURES ON EMPLOYEE SHARE BASED PAYMENTS

Note

29 Employee Stock Option Scheme

- a) In the extraordinary general meeting held on March 8, 2008, the shareholders approved the issue of options under the ESOP scheme. Options to be granted under the Scheme in any financial year shall not result in issue of equity shares of more than 7% of the issued and subscribed capital of the Company as at the date of grant of options. In accordance with the above, the Company established an ESOP trust to administer the scheme on February 25, 2010.

On the board meeting dated March 29, 2010, the Company has allotted 700,000 equity shares to the ESOP trust with a Face value of ₹ 10 per share at a premium of ₹ 103 per share. As at 31 March 2015, 582,500 equity shares (31 March, 2014 700,000 equity shares) of ₹ 10 each are reserved towards outstanding employee stock options granted / available for grant.

As per the scheme, the Compensation committee grants the options to the eligible employees. The exercise price and vesting period of each option shall be as decided by the compensation committee from time to time. The options granted would normally vest over a maximum period of 4 years from the date of the grant in proportions specified in the scheme. Options may be exercised within a period of 4 years from the date of first vesting of the options.

- b) During the current year, the Compensation Committee in its meeting held on May 28, 2014 and November 12, 2014 has granted 180,000 and 200,000 options respectively under Sequent Scientific Employees Stock Option Plan - 2010 (Sequent ESOP 2010) to certain eligible employees of the Company. The options allotted under Sequent Scientific Employees Stock Option Plan - 2010 (Sequent ESOP 2010) are convertible into equal number of equity shares. During the previous year, the Compensation Committee in its meeting held on May 30, 2013 and February 12, 2014 has granted 540,000 and 100,000 options respectively under Sequent Scientific Employees Stock Option Plan - 2010 (Sequent ESOP 2010) to certain eligible employees of the Company.

The vesting period of these options range over a period of 1 to 4 years. The options may be exercised within a period of 1 to 4 years from the date of vesting.

Independent Auditors' Report

To The Members of Sequent Scientific Limited

REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

We have audited the accompanying consolidated financial statements of **SEQUENT SCIENTIFIC LIMITED** (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), comprising of the Consolidated Balance Sheet as at March 31, 2015, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating

effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has an adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting

Independent Auditors' Report

policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2015 and its consolidated loss and its consolidated cash flows for the year ended on that date.

Annexure to the Independent Auditor's Report on the Consolidated Financial Statements

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Our reporting on the Order includes two subsidiary companies incorporated in India, to which the Order is applicable, which have been audited by other auditors and our report in respect of these entities is based solely on the reports of the other auditors, to the extent considered applicable for reporting under the Order in the case of the consolidated financial statements.

- (i) In respect of the fixed assets of the Holding Company and subsidiary companies incorporated in India:
 - (a) The respective entities have maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) The fixed assets were physically verified during the year by the Management of the respective entities in accordance with a regular programme of verification which, in our opinion and the opinion of the other auditors, provides for physical verification of all the fixed assets at reasonable intervals. According to the information and explanation given to us and the other auditors, no material discrepancies were noticed on such verification.
- (ii) In respect of the inventories of the Holding Company and subsidiary companies incorporated in India:
 - (a) As explained to us, the inventories were physically verified during the year by the Management of the respective entities at reasonable intervals.
 - (b) In our opinion and according to the information and explanations given to us and the other auditors, the procedures of physical verification of inventories followed by the Management of the respective entities were reasonable and adequate in relation to the size of the respective entities and the nature of their business.
 - (c) In our opinion and according to the information and explanations given to us, the respective entities have maintained proper records of their inventories and no material discrepancies were noticed on physical verification.
- (iii) According to the information and explanations given to us, the Holding Company and the subsidiary companies have granted no loans, that are included in the consolidated financial statements, secured or unsecured, to companies, firms or other parties covered in the Register maintained under Section 189 of the Companies Act, 2013 by the respective entities.
- (iv) In our opinion and according to the information and explanations given to us and other auditors, having regard to the explanations that some of the items purchased are of special nature and suitable alternative sources are not readily available for obtaining comparable quotations, there is an adequate internal control system commensurate with the size of the Holding Company and the nature of its business with regard to purchases of inventory and fixed assets and for the sale of goods and services. During the course of our audit, we have not observed any major weakness in such internal control system.
- (v) According to the information and explanations given to us and other auditors, the Holding Company and subsidiary companies incorporated in India have not accepted any deposit during the year.
- (vi) According to the information and explanations given to us and the other auditors, in our opinion and the opinion of the other auditors, the Holding Company and subsidiary companies incorporated in India have, prima facie, made and maintained the prescribed cost records pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended prescribed by the Central Government under subsection (1) of Section 148 of the Companies Act, 2013. Neither we nor the other auditors have, however, made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) According to the information and explanations given to us, in respect of statutory dues of the Holding Company and subsidiary companies incorporated in India:
 - (a) The respective entities have been generally been regular in depositing undisputed statutory dues, including Provident Fund, Sales tax, Wealth Tax, Customs Duty, Excise Duty, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities and there are delays in depositing Service Tax, Employee State Insurance and Income Tax.
 - (b) There were no undisputed amounts payable by the respective entities in respect of Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Cess and other material statutory dues in arrears as at March 31, 2015 for a period of more than six months from the date they became payable.

Annexure to the Independent Auditors' Report

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (c) Details of dues of Income-tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax and Cess which have not been deposited as on March 31, 2015 on account of disputes by the aforesaid entities are given below:

Note

1 BASIS OF CONSOLIDATION

The consolidated financial statements relate to SeQuent Scientific Limited (the Company) and its subsidiaries companies together "the Group". The financial statements of the entities in the Group used in the consolidation are drawn up to the same reporting date as of the Company, i.e. 31 March 2015.

1.1 Principles of consolidation

The consolidated financial statements have been prepared on the following basis:

- (i) The financial statements of the Company and its subsidiary companies have been consolidated on a line-by-line basis by adding together like items of assets, liabilities, income and expenses. The intra group balances, intra group transactions and unrealised profits or losses have been eliminated fully.
- (ii) The excess of cost to the Company of its investments in the subsidiary companies over its share of the equity of the subsidiary companies, at the dates on which the investments in the subsidiary companies were made, is recognised as 'goodwill', being an asset in consolidated financial statements. Where the share of the equity in the subsidiary companies as on the date of investment is in excess of cost of investments of the Company, it is recognised as 'Capital Reserve' and shown under the head 'Reserves and Surplus'. Goodwill arising on consolidation is not amortised but tested for impairment. The 'Goodwill' / 'Capital Reserve' is determined separately for each subsidiary company and such amounts are not set off between different entities.
- (iii) Minority interest in the net assets of consolidated subsidiaries consists of the amount of equity attributable to the minority shareholders at the dates on which investments are made by the Company in the subsidiary companies and further movements in their share in the equity, subsequent to the dates of investments as stated above.

1.2 Information on subsidiary companies:

- (i) The following subsidiary companies are considered in the consolidated financial statements

Exchange differences arising out of these translations are included in 'Translation Reserve' under Reserves and Surplus.

- b. In the case of integral operations, assets and liabilities (other than non-monetary items), are translated at the exchange rate prevailing on the balance sheet date. Non-Monetary items are carried at historical cost. Revenue and expenses are translated at yearly average exchange rates prevailing during the year. Exchange differences arising out of these translations are charged to the Statement of Profit and Loss.

2 SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of accounting and preparation of financial statements

The consolidated financial statements of the Group have been prepared, in accordance with Generally Accepted Accounting principles in India (Indian GAAP), to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act") / Companies Act, 1956 ("the 1956 Act"), as applicable except for certain assets and liabilities which are measured on fair value basis as permitted by the Scheme of Arrangement approved by the Honourable High Court of Karnataka and the relevant provisions of the Companies Act, 1956. The Financial Statements have been prepared on accrual basis under the historical cost convention except for certain categories of fixed assets that are carried at revalued amounts. The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those followed in the previous year.

2.2 Tangible fixed assets

Fixed assets are carried at cost less accumulated depreciation and impairment losses, if any. The cost of fixed assets comprise its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than the subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses and interest on borrowings attributable to acquisition of qualifying fixed assets to the date the asset is ready for its intended use. Exchange differences arising on restatement/settlement of long-term foreign currency borrowings relating to acquisition of depreciable fixed assets are adjusted to the cost of the respective assets and depreciated over the remaining useful life of such assets. Subsequent expenditure relating to fixed assets after its purchase/completion is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

Fixed assets retired from active use and held for disposal are stated at the lower of their net book value and net realisable value and are disclosed separately

Capital work-in-progress:

Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

2.3 Intangible assets

Intangible assets are carried at cost less accumulated amortisation and impairment losses, if any. The cost of an intangible assets comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Subsequent expenditure on an intangible assets after its purchase / completion is recognised as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of the asset.

Refer Note 2.5 for accounting for research and development expenses.

2.4 Depreciation/amortisation

Depreciation is provided under the straight-line method as per the

Notes

forming part of the consolidated financial statements

useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Depreciation / amortisation is provided under the straight-line method based on the useful lives:

Nature of Asset	Useful life in years
Buildings	10 - 60
Furniture and fixtures	5 - 10
Office equipment	5
Plant and Machinery	5 - 12
Computers	3 - 6
Motor vehicles	3 - 8
Leasehold land	85 - 96
Leasehold property development	Over lease period

Intangible assets are amortised under the straight line method over the useful life of assets as follows:

Product and process development	: 5 Years
Acquired Software	: 3 Years

The estimated useful life of the intangible assets and its amortisation period are reviewed at the end of each financial year and the amortisation method is revised to reflect the changed pattern.

With respect to assets carried at revalued amounts as permitted under the Scheme of amalgamation, depreciation is recorded under the straight line method over the balance remaining useful life of the assets.

2.5 Research and development costs

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technological feasibility has been established, in which case such expenditure is capitalised. The amount capitalised comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis to creating, producing and making the asset ready for its intended use. Fixed assets utilised for research and development are capitalised and depreciated in accordance with the policies stated for tangible fixed assets and intangible assets.

2.6 Impairment of assets

As at each Balance Sheet date, the carrying amount of fixed assets is tested for impairment if impairment conditions exist. An impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:

- in the case of an individual asset, at the higher of the net selling price and value in use.
- in the case of cash generating units, at the higher of the unit's net selling price and the value in use.

Value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life.

2.7 Investments

Current investments are carried at lower of cost and fair market value. Provision is made to recognize decline, if any, in the carrying value.

Long-term investments are carried individually at cost less provision for diminution, other than temporary in the value of the investment.

2.8 Inventory

Inventories comprise raw materials, packing materials, consumables, work in process, intermediates and finished goods. These are valued at the lower of cost and net realizable value. Cost is determined on First in First out basis as follows:

- Raw materials, packing materials and consumables

At purchase cost including other cost incurred in bringing materials/consumables to their present location and condition

- Work in process and Intermediates

At material cost, conversion costs and appropriate share of production overheads

- Finished goods

At material cost, conversion costs and an appropriate share of production overheads and excise duty, wherever applicable.

2.9 Revenue recognition

Revenue from export sales is recognized when significant risks and rewards of ownership is transferred on the basis of the shipping bills for exports. Revenue from domestic sales is recognized based on the transfer of significant risks and rewards of ownership which generally coincides with dispatch. Sales include excise duty and are stated net of discounts, other taxes, and sales returns.

Income from sale of technical know-how is recognized, when the risk and right to use is transferred to the buyer as per terms of contract.

Analytical services income is recognized when the services are completed as per the terms of the agreement and when no significant uncertainty as to its determination or realization exists. Revenue is net of discount and taxes.

In case of long term contracts involving multiple activities, revenue is recognized as and when the individual activities are completed. In the event of any expected losses on a contract, the entire amount is provided for in the accounting period in which such losses are first anticipated.

Dividend income is recognised when the right to receive the same is established.

Interest income is recognised on an accrual basis.

Export incentives are accrued for based on fulfilment of eligibility criteria for availing the incentives and when there is no significant uncertainty in receiving the same.

2.10 Employee benefits

Short term employee benefits like provident fund, medical, leave travel, employee state insurance scheme etc. are accrued based on the terms of employment when services are rendered by the employees and charged as an expense to the statement of profit and loss.

Leave balances standing to the credit of the employees that are expected to be availed in the short term are provided for on full cost basis. Liability for unavailed leave considered to be long term is carried based on an actuarial valuation carried out at the end of financial year.

Liability for gratuity for the parent Group is funded with LIC and SBI Life Insurance group Limited. Gratuity and termination benefits expenses for the year are accounted based on actuarial valuation carried out using Projected Unit Credit Method as at the end of the fiscal year. The obligation recognised in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, and as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the scheme. "

Notes

forming part of the consolidated financial statements

2.11 Foreign currency transactions

Initial recognition

Transactions in foreign currencies entered into by the Group are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Measurement of foreign currency monetary items at the Balance Sheet date

Foreign currency monetary items of the Group and its net investment in non-integral foreign operations outstanding at the Balance Sheet date are restated at the year-end rates. Non monetary items of the Group are carried at historical cost. Revenue and expenses are translated at the average exchange rates prevailing during the year.

Treatment of exchange differences

Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Group are recognised as income or expense in the statement of profit and loss.

Accounting of forward contracts

Premium / discount on forward exchange contracts, which are not intended for trading or speculation purposes, are amortised over the period of the contracts if such contracts relate to monetary items as at the Balance Sheet date.

2.12 Taxes on income

Income Tax comprises the current tax provision and the net change in the deferred tax asset or liability during the year.

Deferred tax assets and liabilities are recognized for the future tax consequences arising out of temporary differences between the carrying values of the assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates applicable on the Balance Sheet date. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses, deferred tax assets are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise the assets. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the group has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their reliability.

Current tax is determined on the basis of taxable income and tax credits computed for each of the entities in the Group in accordance with the applicable tax rates and the provisions of applicable tax laws of the respective jurisdictions where the entities are located.

Minimum alternative tax (MAT) paid in accordance to the tax laws, which gives rise to future economic benefits in the form of adjustment of future tax liability, is considered as an asset if there is convincing evidence that the group will pay normal income tax in future years. Accordingly, MAT is recognized as an assets in the balance sheet when it is probable that the future economic benefit associated with it will flow to the group and asset can be measured reliably.

2.13 Leases

Lease arrangements, where the risks and rewards incident to ownership of an asset substantially vest with the lessor, are classified as operating leases and the lease rentals thereon are recognised in the statement of profit and loss on straight line basis.

2.14 Employee stock option scheme

Employee stock options are accounted in accordance with the guidelines stipulated by SEBI and Guidance Note on Accounting for Employee Share-based Payments. The difference between the closing market price of the shares underlying the options granted on the date of grant of option and the option price is expensed under employee benefit expenses over the vesting period.

2.15 Earnings per share (EPS)

In determining the Earnings per share, the Group considers the net profit after tax. The number of shares used in computing Basic Earnings per share is the weighted average number of equity shares outstanding during the year. The number of shares used in computing Diluted Earnings per share comprises the weighted average number of equity shares considered for deriving Basic earnings per share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year unless issued at a later date.

2.16 Provisions and contingencies

A provision is recognized when the group has a present legal or constructive obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are not recognized but are disclosed in the notes to financial statements.

2.17 Use of estimates

The preparation of the consolidated financial statements in conformity with the Accounting Standards generally accepted in India requires that the Management makes estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Management believes that the estimates used in preparation of consolidated financial statement are prudent and reasonable. Actual results could differ from those estimates and the estimates are recognised in the period in which the results are known/materialise.

2.18 Segment

Segments have been identified taking into account the nature of services, the differing risks and returns, the organizational structure and the internal reporting system.

2.19 Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

2.20 Borrowing costs

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset upto the date of capitalisation of such asset is added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

2.21 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

2.22 Cash and cash equivalents (for purposes of cash flow statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Notes

forming part of the consolidated financial statements

2.23 Operating Cycle

Based on the nature of products / activities of the group and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

NOTE 30 DISCLOSURES ON EMPLOYEE SHARE BASED PAYMENTS

a) In the extraordinary general meeting held on March 8, 2008, the shareholders approved the issue of options under the ESOP scheme. Options to be granted under the Scheme in any financial year shall not result in issue of equity shares of more than 7% of the issued and subscribed capital of the Company as at the date of grant of options. In accordance with the above, the Company established an ESOP trust to administer the scheme on February 25, 2010.

On the board meeting dated March 29, 2010, the Company has allotted 700,000 equity shares to the ESOP trust with a Face value of ₹ 10 per share at a premium of ₹ 103 per share. As at 31 March 2015, 582,500 equity shares (31 March, 2014 700,000 equity shares) of ₹ 10 each are reserved towards outstanding employee stock options granted / available for grant.

As per the scheme, the Compensation committee grants the options to the eligible employees. The exercise price and vesting period of each option shall be as decided by the compensation committee from time to time. The options granted would normally vest over a maximum period of 4 years from the date of the grant in proportions specified in the scheme. Options may be exercised with in a period of 4 years from the date of first vesting of the options.

b) During the current year, the Compensation Committee in its meeting held on May 28, 2014 and November 12, 2014 has granted 180,000 and 200,000 options respectively under Sequent Scientific Employees Stock Option Plan – 2010 (Sequent ESOP 2010) to certain eligible employees of the Company. The options allotted under Sequent Scientific Employees Stock Option Plan – 2010 (Sequent ESOP 2010) are convertible into equal number of equity shares. During the previous year, the Compensation Committee in its meeting held on May 30, 2013 and February 12, 2014 has granted 540,000 and 100,000 options respectively under Sequent Scientific Employees Stock Option Plan – 2010 (Sequent ESOP 2010) to certain eligible employees of the Company.

The vesting period of these options range over a period of 1 to 4 years. The options may be exercised within a period of 1 to 4 years from the date of vesting.
