REPORT OF THE BOARD OF DIRECTORS & MANAGEMENT DISCUSSION AND ANALYSIS

Your Directors submit their Report for the financial year ended 31st March, 2021.

BUSINESS ENVIRONMENT

The black swan COVID-19 pandemic has caused global disruption and has severely impacted the travel, tourism, aviation and hospitality industry. The financial year 2020-21 was deeply impacted by the brunt of COVID-19 pandemic. According to International Monetary Fund, the global economy in 2020 was in deep recession and shrunk by 4.4%. India's Gross Domestic Product contracted by a whopping 23.9% in the first quarter of financial year 2020-21 and 7.3% for the complete year.

International travel in 2020 was effectively cut to zero, with international commercial flights between countries banned post mid-March 2020. While global business travel exceeded \$1.4 trillion in 2019, it dropped by more than 50% in 2020 to \$ 694 billion.

The Indian economy also saw similar trends during the last financial year in its travel and tourism industry. Before the pandemic, it was estimated that travel and tourism will contribute US\$ 270 billion to India's GDP in 2020. However, during calendar year 2020, Foreign Tourist Arrivals decreased by more than 70% vis-a-vis calendar year 2019. During the year under review, international and domestic air passenger traffic de-grew by 85% and 65% respectively, and collectively Indian airlines are expected to post losses of nearly INR 25,000 crores. Domestic business travel was further compressed due to virtual meetings and structural shift to 'Work from Home'.

While the third and fourth quarters for FY 2020-21 showed some signs of recovery, the COVID cases surged back towards the end of the fourth quarter, bringing business to a standstill with fresh restrictions being imposed on movement and travel.

The industry is expected to bounce back, once the impact of the pandemic is subdued. India's travel and tourism industry has huge growth potential. The industry is also looking forward to expansion of the e-Visa scheme, which is expected to double tourist inflows in India. Our country is the most digitally advanced traveller nation in terms of digital tools being used for planning, booking, and experiencing a journey. India's rising middle class and increasing disposable income is expected to be a boon for the future growth of domestic and outbound tourism.

The path to recovery is predicted to be long and arduous. The transport business, comprising mainly of executive car rentals, is expected to recover faster than travel related services business.

COVID-19 – Business Continuity

The unprecedented circumstances posed by the COVID-19 pandemic have brought to light unforeseen risks to business continuity. Your Company swiftly adopted new tech-enabled channels to communicate safety advisories, enhance employee connect and keep the employee morale high. Your Company mobilised infrastructure to support remote working and facilitating employees with the necessary hardware, software & equipment to work safely and effectively from home.

No material changes and commitments have occurred after the closure of the year under review till the date of this Report, except impact of second wave of the pandemic, which may affect the financial position of your Company.

BUSINESSES

Air Travel

IATA estimates that the airline industry lost about US\$ 126 billion in 2020 due to the COVID-19 pandemic. They also opine that losses will go down in 2021 and are expected to reach the pre-pandemic levels by early 2024.

The pandemic resulted in decimation of corporate travel owing to lockdowns – both domestic and international. Capacity deployment on domestic routes in India was reduced to about 40% which was gradually increased to 80% in the fourth quarter of the financial year 2020-21. Recovery in corporate travel started to happen from October 2020 and reached nearly 30% of pre-covid levels in March 21. However, the second wave in April 2021, halted the upward trajectory with fresh lockdowns being re-instated.

International travel, which forms the bulk of our Gross Transaction Value (GTV), got restricted to ‘Travel Bubbles’ formed by the Government of India with other countries under which only eligible categories of people could book the flights. Initially, these ‘Bubbles’ were mainly concentrated on repatriating people to their home countries. These restrictions were eased during the later part of the year to include business and holiday travel.

During this pandemic time, your Company helped corporates’ facilitate repatriation of their employees from different countries back to India. New account acquisition activity was pursued rigorously and we saw a good number of accounts getting signed up, which will contribute significantly once travel opens up.

Due to restrictions on travel in domestic and especially in international sectors, the Average Ticket Price (ATP) saw a steep decline.

Your Company has taken a number of steps related to cost control, selecting a robust booking technology system and further centralisation of processes to make itself into a lean business entity driven by digitalisation.

Meetings, Incentives, Conferences and Exhibitions (MICE)

The COVID-19 pandemic led to cancellation of all the MICE events as customers continued to work from home. Digital meetings on Zoom and other platforms became the order of the day.

Your Company continues to pursue and engage with corporates to keep a pulse on future planning of these events.

Forex

Your Company continues to offer forex services to its customer base except Hyderabad and Pune branches owing to lack of volumes.

Outbound & Inbound

Your Company capitalised on the ‘revenge holiday’ phenomenon that the country witnessed when restrictions eased during the third and fourth quarter of the financial year 2020-21.

Your Company collaborated with ITC group of hotels and formulated ‘Safe Drivable Getaways’, with the assurance of safety and hygiene, along with the option of using the Company’s ‘Safe Car’.

Various event specific packages mainly Honeymoon, New Year Getaways etc. were rolled out. Promotions for the same were done across multiple channels.

Transport Business

The Indian Car rental market estimated to be US\$ 15 billion pre-2020, was expected to reach US\$ 22 billion by 2025, projecting a CAGR of about 7% during the forecast period.

Your Company was on a buoyant trajectory in the financial year 2019-20 of becoming a dominant player in the market - vide its Core Promise of Quality & Safety, Contemporary Technology (‘Disha’ Chauffeur app), a strong supply-chain through its ‘Driver Entrepreneur Program’, & a growing Customer base of elite Blue-Chip MNC’s. This momentum was abruptly impacted in March 2020 with the onset of the pandemic.

The COVID-19 pandemic has had a devastating impact on the economy at large – with an accentuated trough in the Travel & Tourism sector. Globally, the pandemic resulted in company rating downgrades, market volatility and loss of share value for leading global entities such as Hertz, Avis, Europcar, Uber and Lyft, with eventually Hertz filing for bankruptcy. The Indian car-rental market also saw several players ceasing operations, and disposing off assets & car inventory for generating cash flows.

With reduced Business Travel and emerging acceptance of ‘Work from Home’ models, demand for car-rentals tapered down during the year. Rising fuel prices in developing countries further dampened revival.

Your Company was swift in responding vide – ensuring safe

return of chauffeurs to their hometowns, extending sustenance advance, and a slew of cost-containment measures to survive.

Your Company in parallel, kick-started a series of revival interventions, such as – a). venturing into adjacent areas of Corporate Employee Transportation, b). launch of the 'Safe Car Promise' to reassure and welcome back travellers, c). focus on demand generation from 'Essential Service sectors', d). floating retail offers to corporate employees, etc.

Aided by the above actions, your Company ensured faster revival levels vis-à-vis the industry (pre-covid %) by the second half of the year. At an operating level, the Transport Business was cash positive in the fourth quarter of the financial year 2020-21.

The second wave in the first quarter of the financial year 2021-22, once again abruptly impacted this revival trajectory.

However, your Company is poised to emerge stronger post this pandemic impact, as the emphasis on Reliability, Safety and Hygiene will assume greater significance.

SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

Your Company does not have any subsidiary, associate or joint venture.

INTERNAL FINANCIAL CONTROLS

Corporate Governance in your Company operates at three interlinked levels with clearly defined roles, responsibilities and authorities across the three levels of the governance structure. Your Company also has a Code of Conduct which requires management to conform to the required financial and accounting policies, systems and processes, conduct business ethically and ensure strict compliance with all applicable laws and regulations. These policies have been widely communicated across the organisation at all levels and provide the cornerstones for Internal Financial Controls with reference to your Company's Financial Statements.

Your Company's Financial Statements are prepared on the basis of the Significant Accounting Policies that are carefully selected by the management and approved by the Audit Committee and the Board. These Policies are supported by the Corporate Accounting, and System Policies that apply to the entity as a whole and are practiced uniformly across your Company. The Accounting Policies are reviewed and updated from time to time. These in turn are supported by a set of policies and Standard Operating Procedures (SOPs) that have been established for individual businesses. Your Company uses Information Technology Systems as a business enabler and also to maintain its books of accounts. The SOPs in tandem with the Information Management Policy reinforce the control environment. The whole gamut of controls, policies, procedures and systems are reviewed by the management and audited by the Internal Auditor whose findings and recommendations are reviewed by

the Audit Committee and tracked through till implementation.

Your Company has in place adequate internal financial controls with reference to Financial Reporting. These have been designed to provide reasonable assurance with regard to recording and providing reliable financial information; complying with applicable statutes; and ensuring that transactions are carried out with proper authorisation. Such controls have been assessed during the year taking into consideration the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India. Based on the results of this assessment carried out by management, no reportable material weakness or significant deficiencies in the design or operation of internal financial controls were observed. Nonetheless your Company recognises that any internal financial control framework, no matter how well designed, has inherent limitations and accordingly regular audit and review processes ensure that such systems are reinforced on an ongoing basis.

RISK MANAGEMENT

Your Company continues its emphasis on a systems-based approach to business risk management. Backed by strong internal control systems, the current Risk Management framework consists of the following key elements:

- The Corporate Governance Policy approved by the Board clearly lays down the roles and responsibilities of the various entities in relation to risk management covering a range of responsibilities, from strategic to operational. These role definitions, inter alia, provide the foundation for appropriate risk management procedures, their effective implementation and independent monitoring and reporting by the Internal Auditor.
- A combination of centrally issued policies and procedures, which are regularly reviewed and updated in the light of changing business and regulatory environment, bring robustness to the process of ensuring that business risks are effectively addressed.
- Appropriate structures are in place to proactively monitor and manage the inherent risks in businesses with unique / relatively high risk profiles.
- Internal Audit is an independent and external function and carries out risk focused audits across all businesses, enabling identification of areas where risk management processes may need to be strengthened. These audits are conducted by M/s Grant Thornton India, LLP, Chartered Accountants (GT), the Internal Auditors of your Company. The Audit Committee of the Board reviews Internal Audit findings, provides strategic guidance on internal controls and seeks feedback on implementation based on such guidance. The Audit Review Committee closely monitors the internal

control environment within your Company including implementation of action plans emerging out of internal audit findings.

- A framework of strategic planning and performance management ensures realisation of business objectives based on effective strategy implementation. These financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 and the relevant presentation requirements of the Companies Act, 2013.

(ii) Basis of Preparation

The financial statements are prepared in accordance with the historical cost convention except for certain items which are measured at fair values, as explained in the accounting policies.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purposes in these financial statements is determined on such a basis except for share based payment transactions that are within the scope of Ind AS 102 – Share-based Payment.

The financial statements are presented in Indian Rupee, which is also the Company's functional currency.

A summary of significant accounting policies is set out below.

(iii) Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013 and Ind AS 1 – Presentation of Financial Statements based on the nature of services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

C. Summary of Significant Accounting Policies

(i) Property, Plant and Equipment – Tangible Assets

Property, Plant and Equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. For this purpose, cost includes deemed cost which represents the carrying value of Property, Plant and Equipment recognised as at 1st April, 2015 measured as per the previous GAAP.

Cost is inclusive of inward freight, duties and taxes and incidental expenses related to acquisition. Expenses capitalised also include applicable borrowing costs for qualifying assets, if any. All upgradation / enhancements are charged off as revenue expenditure unless they bring similar significant additional benefits.

An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant and Equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Depreciation of these assets commences when the assets are ready for their intended use which is generally on commissioning. Items of Property, Plant and Equipment are depreciated in a manner that amortises the cost of the assets after commissioning (or other amount substituted for cost), on a straight line basis, less its residual value, over their useful lives as specified in Schedule II of the Companies Act, 2013. Office equipment are depreciated over a useful life of 3-5 years. Leasehold improvement are being amortised over lease period or useful lives, whichever is lower.

NOTES TO THE FINANCIAL STATEMENTS

Property, Plant and Equipment residual values and useful lives are reviewed, and adjusted if necessary, at each Balance Sheet date. Such changes are treated as changes in accounting estimates.

Property, Plant and Equipment are subject to review for impairment if triggering events or circumstances indicate that this is necessary. Impairment loss, if any, to the extent the carrying amount of these assets exceed their recoverable amount is charged off to the Statement of Profit and Loss as it arises.

Impairment losses recognised in prior years are reversed when there is an indication that the impairment losses recognised no longer exist or have decreased. Such reversals are recognised as an increase in carrying amounts of assets to the extent that it does not exceed the carrying amounts that would have been determined (net of accumulated depreciation) had no impairment loss been recognised in previous years.

(ii) Intangible Assets

Intangible Assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition and measured initially at cost comprising the purchase price (including import duties and non-refundable taxes) and directly attributable costs to prepare the asset for its intended use.

Internally generated assets for which the cost is clearly identifiable are capitalised at cost. Internally generated brands, websites and customer lists are not recognised as intangible assets.

Intangible assets with finite useful lives are measured at cost less accumulated amortisation and accumulated impairment losses, if any. Carrying value of intangible assets includes deemed cost which represents the carrying value of intangible assets recognised as at 1st April, 2015 measured as per the previous GAAP.

Software is capitalised where it is expected to provide future enduring economics benefits. Capitalisation costs include licence fees and costs of implementation / system integration services. The costs are capitalised in the year in which the relevant software is implemented for use and is amortised across a period not exceeding 5 years. All other upgradation / enhancements are charged to the Statement of Profit and Loss, unless they bring similar significant additional benefits.

Useful lives are reviewed at each Balance Sheet date and changes, if any, are treated as changes in accounting estimates.

(iii) Foreign Currency Transactions

Transactions in foreign currencies are initially recorded by the Company at the exchange rate prevailing on transaction date. Gains / losses arising on settlement as also on translation of monetary items are recognised in the Statement of Profit and Loss.

(iv) Financial Instruments

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets and financial liabilities (other than financial assets and financial liabilities measured at fair value through profit or loss) are added to or deducted from the fair value on initial recognition of such financial assets and financial liabilities.

Financial Assets

Recognition and Classification: Financial assets include Investments, Trade Receivables, Security Deposits and Cash and Cash Equivalents. Management determines the classification of an asset at initial recognition depending on the purpose for which the assets were acquired.

For purposes of subsequent measurement, financial assets are classified as those measured at:

- amortised cost, where the financial assets are held solely for collection of cash flows arising from payments of principal and/ or interest; and
- fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the Statement of Profit and Loss in the period in which they arise.

As most of the loans and receivables of the Company are current in nature, subsequent measurement is at cost less appropriate allowance for credit losses. Where significant, non-current loans and receivables are accounted for at amortised cost using effective interest rate method less appropriate allowance for credit losses.

NOTES TO THE FINANCIAL STATEMENTS

Impairment: The Company assesses at each balance sheet date whether a financial asset or a group of financial assets, measured at amortised cost, is impaired. Impairment losses are recognised in the profit or loss where there is an objective evidence of impairment based on reasonable and supportable information that is available without undue cost or effort. For financial assets measured at amortised cost and account receivable, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

De-recognition: A financial asset (or, where applicable, a part of a financial asset) is primarily derecognised when the contractual rights to receive cash flows from the asset have expired or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109.

Financial Liabilities

Borrowings, Trade Payables and Other Financial Liabilities are initially recognised at the value of the respective contractual obligations. They are subsequently measured at amortised cost.

A financial liability is derecognised when the obligation under the liability is extinguished, discharged, cancelled or on expiry.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(v) Revenue Recognition

The Company provides travel related services to travellers in India and abroad. The revenue from transport services are recognised on a gross basis and revenue from other travel related services are recognised on net basis. The revenue from rendering these services (other than Productivity Linked Bonus, which is accounted when ascertainable and collection is certain) is recognised in the income statement at a point in time other than tour income which is recognised over a period of time with reference to the stage of completion. Stage of completion is measured by reference to time elapsed to date as a percentage of total time.

Revenue is recognised to the extent that it is highly probable that a significant reversal in the amount of revenue recognised will not occur and the revenue can be reliably measured and collection is certain. Revenue is measured taking into account contractually agreed terms and excluding taxes or duties collected on behalf of the government. Trade Receivables are recognised when the entity has unconditional right to receive consideration upon the satisfaction of performance obligation.

Other Income: Other income comprises interest income, dividend income, gain from fair valuation/ sale of mutual fund investments and gain on sale of property, plant and equipment. Interest income from financial assets is recognised in the Statement of Profit and Loss using the effective interest method. Dividend income is recognised in the Statement of Profit and Loss only when the Company's right to receive payments is established and the amount of dividend can be measured reliably.

(vi) Dividend to Equity Holders

Interim dividends paid (including income tax thereon) are recognised in the financial statements when approved by the Board of Directors and final dividend (including income tax thereon) when approved by the shareholders.

(vii) Employee Benefits

The Company make contributions to both defined benefit and defined contribution schemes. The defined benefit schemes are mainly administered through duly constituted and approved independent Trusts.

Provident Fund contributions are in the nature of defined contribution scheme. The provident fund is deposited with the Government and recognised as expense.

The Company also operates defined benefit pension, medical and gratuity plans. The cost of providing benefits under the defined benefit obligation is calculated by an independent actuary using the projected unit credit method. Service costs and net interest expense or income is reflected in the Statement of Profit and Loss. Gain or loss on account of re-measurements are recognised immediately through Other Comprehensive Income in the period in which they occur.

NOTES TO THE FINANCIAL STATEMENTS

The employees of the Company are entitled to compensated leave for which the Company records the liability based on actuarial valuation computed under projected unit credit method. These benefits are unfunded.

(viii) Employee Share-Based Compensation

The cost of employee share-based compensation is recognized based on fair value of the equity settled stock options or cash settled stock appreciation units granted under the applicable Scheme(s) to employees in the Company.

In case of equity settled stock options, the fair value of such options at the grant date is amortised on a straight line basis over the vesting/service period. In case of cash settled stock appreciation units, the fair value of such units at the grant date is initially recognized and subsequently remeasured at each reporting date, until settled. Such cost is recognized as an employee benefits expense in the Statement of Profit and Loss with a corresponding increase in equity, net of reimbursements, if any.

(ix) Leases

A right of use asset and lease liability is recognised at the commencement of the lease for leases other than short term leases or leases of low value assets. The right of use asset is stated at cost less accumulated amortisation. Right of use assets are amortised on a straight line basis over lease term. Lease liabilities are stated at cost using effective interest method and are measured at present value of the lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate.

Lease payments for short term leases or leases of low value assets are recognised as an expense in the Statement of Profit and Loss on a straight line basis.

The Company's leasing arrangements are in respect of leases for premises. The lease term of these arrangements generally ranges between 3 years and 6 years.

When measuring lease liabilities, the Company discounted leases payments using its incremental borrowing rate.

(x) Taxes on Income

Current Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date together with any adjustment to tax payable in respect of previous years. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on net basis, or to realize the asset and settle the liability simultaneously.

Deferred Tax

Deferred tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences to the extent it is probable that future taxable profits will be available against which deductible temporary differences can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and when the deferred tax balances relate to the same taxable entity and the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

NOTES TO THE FINANCIAL STATEMENTS

(xi) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The expense relating to a provision is presented in the Statement of Profit and Loss, net of any reimbursement.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

(xii) Contingent Liabilities

Claims against the Company not acknowledged as debts are disclosed after a careful evaluation of the facts and legal aspects of the matter involved.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2. Use of Estimates

The preparation of financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Accounting estimates could change from period to period. Actual results could differ from those estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or they are recognised in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year:

(a) Useful Lives of Property, Plant and Equipment and Intangible Assets:

As described in the significant accounting policies, the Company reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period.

(b) Actuarial Valuation

The present value of the gratuity, medical and pension are determined through independent actuarial valuations including determination of amounts to be recognised in the Statement of Profit and Loss. The assumptions include the determination of the discount rate, future salary increases and mortality rates. Information about such valuation is provided in notes to the financial statements.

(c) Claims, Provisions and Contingent Liabilities:

The Company has ongoing litigations with various regulatory authorities and third parties. Where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such accruals are by nature complex and can take number of years to resolve and can involve estimation uncertainty. Information about such litigations is provided in notes to the financial statements.

(d) Expected Credit Loss Allowance:

The Company has provided allowances for credit losses on trade receivables based on historical credit loss experience and adjusted for forward looking information.

B Fair Value Hierarchy

Fair value of the financial instruments is classified in various fair value hierarchies based on the following three levels:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

The fair value of financial instruments that are not traded in an active market is determined using market approach and valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Company's entire revenue from external customers is attributable to India and all non-current assets are located in India. The Company allocates revenue to geographies on the basis of the location in which the sale originated.

Revenues from one customer (and its group entities) exceeds 10% of Company's total revenue and is ₹ 991.24 lakhs.

(viii) Estimation of uncertainties relating to the global health pandemic COVID-19 (Coronavirus Pandemic)

Due to the outbreak of the COVID-19 (Coronavirus Pandemic), the Government of India imposed a country wide lockdown and amongst other matters, restrictions were also imposed on both air travel (domestic and international) and travel by cabs. Consequently, our operations were disrupted and under almost complete shut down since the last fortnight of March, 2020.

NOTES TO THE FINANCIAL STATEMENTS

However, with phased removal of restrictions on travel by cabs and domestic air travel from June, 2020, the Company gradually resumed its business operations.

COVID-19 pandemic continues to adversely impact the Company's business. However, the Company has considered various internal and external sources of information available as on date of issuance of these financial statements in determining the impact of COVID-19 on its tour and travel related services and accordingly, has reviewed its strategies and initiated appropriate actions to deal with the current situation.

The management has factored the effect of the pandemic in determining the provision towards expected credit loss on its trade receivables, recoverability of other receivables and investments recognised at fair values. Further, based on the above assessment, the Company expects to recover the carrying amount of its trade receivables, other receivables and investment balances outstanding as at 31st March, 2021 and accordingly, no adjustment in respect of the matter is required to be made in these financial statements. However, the eventual outcome of the above coronavirus pandemic on the Company's tour and travel related services may be different from those estimated as on the date of approval of these financial statements.

The management expects the business disruptions anticipated due to the pandemic to continue for some time before business returns to normalcy and will continue to closely monitor any material changes in markets and future economic conditions.

34 (a) Defined Benefit Plans / Long Term Compensated Absences

Description of Plans

The Company makes contributions to defined benefit plans and defined contribution plans for qualifying employees. Some of these are administered through duly constituted and approved Trusts, which operate in accordance with the Trust Deed, Rules and applicable legislations. These Trusts are governed by Trustees, who provides strategic guidance for management of investments and liabilities of such trusts and periodically review the performance of the Trusts.

Gratuity benefits are funded and leave encashment & medical benefits are unfunded in nature. The defined benefit pension plans are based on employees pensionable remuneration and length of service. Under the Provident Fund and Gratuity, the employees are entitled to receive lump sum benefits upon retirement. Under Pension Schemes, the employees are entitled to post-retirement pension benefits and in certain pension plans, the employees can also opt to receive a part of pension as a lump sum.

The liabilities arising in the defined benefit schemes and other benefits are determined in accordance with the advice of independent, professionally qualified actuaries, using the projected unit credit method. Additional funding requirements are based on actuarial measurement.

Risk Management

The defined benefit plans expose the Company to actuarial deficit arising out of investment risk, interest rate risk and salary cost inflation risk. These plans are not exposed to any unusual, entity specific or scheme specific risks but there are general risks.

Investment risks: This may arise from volatility in asset values and losses arising due to impairment of assets.

Interest Rate Risk: The Schemes' accounting liabilities are calculated using a discount rate set with reference to the Government security yields. A decrease in yields will increase the funds' liabilities and vice-versa.

Salary Cost Inflation Risk: The Schemes' accounting liabilities are calculated with reference to the future salaries of participants under the Plan. Increase in salary due to adverse inflationary pressures might lead to higher liabilities.

The Trustees monitor funding and investments positions and have mandated a diversified investment strategy in line with the statutory requirements. The investment strategy with respect to asset mix ensures that investment volatility risk is appropriately managed. Robust risk mitigation systems ensure that investments do not pose significant risk of impairment. Periodic audits are conducted to ensure adequacy of internal controls. The Company's defined benefit pension plans has been closed to new entrants. Future pension obligation of an employee is secured by purchasing annuities thereby de-risking the Plans from future payment obligations.

XI Sensitivity Analysis

The sensitivity analysis below has been determined based on reasonably possible change of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant. These sensitivities show the hypothetical impact of a change in each of the listed assumptions in isolation. While each of these sensitivities holds all other assumptions constant, in practice such assumptions rarely change in isolation and the asset value changes may offset the impact to some extent. For presenting the sensitivities, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the Defined Benefit Obligation presented above. There was no change in the methods and assumptions used in the preparation of sensitivity analysis from previous year.

NOTES TO THE FINANCIAL STATEMENTS

36. Financial Risk Management Objectives and Policies

The Company has a system-based approach to business risk management. The financial risk management process enables the early identification, evaluation and effective management of key financial risks including market risk, credit risk and liquidity risk that may arise as a consequence of its business activities as well as investing and financing activities. Backed by strong internal control systems, the current Risk Management Framework rests on policies and procedures issued by appropriate authorities, process of regular reviews / audits to set appropriate risk limits and controls, monitoring of such risks and compliance confirmation for the same.

A. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise three types of risk- interest rate risk, foreign currency risk and price risk. Treasury activities, focussed on managing investments in debt instruments, are centralised and administered under a set of approved policies and procedures guided by the tenets of liquidity, safety and returns. The Company has in place appropriate risk management policies to limit the impact of these risks on its financial performance. The Company ensures optimisation of cash through fund planning and robust cash management practices.

i. Interest Rate Risk

Fixed deposits are held with highly rated banks and companies and have a short tenure and are not subject to interest rate volatility. Since majority of the financial assets of the Company are either non-interest bearing or fixed interest bearing instruments, the Company's net exposure to interest risk is negligible.

ii. Foreign Currency Risk

The Indian Rupee is the Company's most significant currency. As a consequence, the Company's results are presented in Indian Rupee. The Company has limited foreign currency exposure which are mainly on account of Money Changing Business activity undertaken by the Company.

iii. Price Risk

The Company's quoted debt mutual funds are susceptible to market price risk that arise mainly from changes in interest rate which may impact the return and value of such investments securities. The Company manages the price risk through diversification and by placing limits on individual and total instruments. The Company invests in mutual funds of leading fund houses. The Company's Board of Directors has approved an investment policy for the Company. However, given the relatively short tenure of underlying portfolio of the mutual fund schemes in which the Company has invested, such price risk is not significant.

B. Credit Risk

Credit risk is the risk that counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks. Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis.

i. Trade Receivables

Customer credit risk is managed subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating score card and individual credit limits are defined in accordance with this assessment. Concentrations of credit risk is limited as the Company's customer base is large and diverse. All overdue customer balances are evaluated taking into account the age of the dues, specific credit circumstances, the track record of the counter party etc. Expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

The movement of the expected loss provision (allowance for bad and doubtful trade receivables) made by the Company are as under:

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor’s Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of Matter

We draw attention to Note 33(viii) to the financial statements which explains the impact of COVID-19 (Coronavirus Pandemic) on the operations of the Company and the management assessment thereon. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters

described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor’s Response
1.	<p><u>Recoverability of Trade Receivables</u></p> <p>We refer to note 1(iv) (Significant Accounting Policies), note 2(d) (Use of Estimates) and note 11 (Trade Receivables) of the financial statements. Trade receivable balances were significant to the Company as they represented 22% of the Company’s total assets as at 31 March 2021. The collectability of trade receivables is a key element of the Company’s working capital management, which is managed on an ongoing basis by management. Trade receivables impairment assessment requires significant judgement from management. In making the assessment the management has considered the historical credit loss experience adjusted for forward looking information as well as customer specific profiles and risks. Hence, we determined that this is a key audit matter.</p>	<p>As part of our audit procedures, we assessed the Company’s processes and key controls relating to the monitoring of trade receivables and aging considered to identify collection risks. We performed audit procedures, amongst others, sending trade receivable confirmations, and reviewing for collectability by way of obtaining evidence of subsequent receipts from the trade receivables. We had discussions with management on the recoverability of long outstanding debts and analysed historical trend of collections for such trade debtors and assessed management’s assumptions used to determine the credit loss for trade receivables including consideration of customer specific profiles and risks. We also assessed the adequacy of the Company’s disclosures on the trade receivables and the related credit risk in Notes 11 and 36B. to the financial statements.</p>

Information Other than the Financial Statements and Auditor’s Report Thereon

The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the financial statements and our auditor’s report thereon. The Annual report is expected to be made available to us after the date of this auditor’s report.

INDEPENDENT AUDITOR'S REPORT

- Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- When we read the Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in

accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

INDEPENDENT AUDITOR'S REPORT

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

ANNEXURE TO INDEPENDENT AUDITOR'S REPORT

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph I (f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **International Travel House Limited** ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
