Report on Corporate Social Responsibility

Nava Bharat Ventures Limited (NBVL) believes that constant collaboration with various stakeholders is the key to long term sustainable growth, particularly in today's fast changing business environment.

The Company has prioritised and implemented several initiatives that have a significant impact on the communities around its manufacturing facilities and the society in general.

The Company's thrust areas comprise health improvement, provision of quality education, skill enhancement of youth and protection of the environment.

NAVA BHARAT EYE CENTRE (NBEC)

NBEC, established in the Company's premises at Paloncha in association with L.V. Prasad Eye Institute, Hyderabad, has provided quality eye care to patients. The institute has successfully conducted 2956 surgeries during 2013-14 (2622 surgeries during 2012-13) and treated 24949 outpatients during 2013-14 (23414 during 2012-13). About 70% of surgeries were conducted free of charge during 2013-14 (66% in 2012-13) and 45% of outpatients were treated free of cost during 2013-14 (41% in 2012-13).

The Company has donated equipment to provide modern laser treatment to the patients, which has eliminated their need to travel all the way to Hyderabad to get such treatment.

The Nava Bharat Eye Centre at Paloncha was adjudged the ideal centre among all the 12 LVPEI satellite centres.

Laser Treatment

Primary Health Centre, Paloncha

PRIMARY HEALTH CENTRE

During the year under review, a Primary Health Centre was opened at Nava Bharat Eye Centre, Paloncha, to cater to the medical needs of the marginalised sections of the local population.

OPHTHALMIC CENTRE, LUSAKA

This facility was established in Zambia in association with Operation Eyesight Universal, Canada at the University Teaching Hospital, Lusaka. As many as 16,178 patients were examined during 2013-14 (15230 patients during 2012-13). The facility conducted eye surgeries on 1394 patients during 2013-14 (1284 in 2012-13).

Free Eye Camp at Gandhi Nagar

MEDICAL CAMPS

A Free Eye Camp was organised by the Company with the help of L.V. Prasad Eye Institute for the benefit of students studying in government schools in and around Paloncha. Around 6500 students were screened during the camp. A Free Dental Camp was also organised by the Company at Paloncha, in association with Sri Gangireddy Kondareddy Memorial Dental Hospital. Around 100 students were screened during the camp.

Health Campaign at Sekharam Banjara

HEALTH CAMPAIGN

The Company's unit at Paloncha started a "Health Campaign" to render free medical services with regard to ordinary ailments to people living in surrounding villages. These include Erragunta, Jagguthanda, Gandhinagar, Palakoyyathanda, Sanjay Nagar and Sekharam Banjara. About 1240 patients were benefited under this programme that has been well received by the local villagers.

WATER

NBVL extended financial support for installation of a new RO Plant at Borrampalem village, Gandepalli Mandal, East Godavari district. This initiative was instrumental in providing clean and safe drinking water to the villagers.

The Company supplied free, treated drinking water to meet the requirements of the inhabitants of Dharmavaram and surrounding villages.

EDUCATION

NAVA BHARAT SCHOOLS

The Nava Bharat Schools (English and Telugu mediums) at Paloncha, Telangana, continue to provide quality education to 2000 students from surrounding rural areas.

The students at these schools have once again put up an excellent performance during the academic year 2013-14. Out of the 100 students who appeared for the 10th standard All India Secondary School Examination - 2014 from Nava Bharat Public School, 98 students passed with distinction marks and two obtained first class marks. As many as 26 students from the school secured the highest possible score of 10 GPA. Out of the 53 students who appeared for the SSC Examination – 2014 from the Nava Bharat High School, 47 students passed with distinction marks and five obtained first class marks.

Free Tuitions at Old Paloncha

The Brahmani Public School, Kharagprasad village, Odisha, managed by NBVL, has provided quality education to 384 students during 2013-14 compared to 349 students during the previous year. All the students of the first batch who appeared for their Class X Examination (CBSE syllabus) secured first class marks with one student getting the highest possible score of 10 GPA.

FREE TUTIONS FOR POOR STUDENTS

A number of habitations have come up around the Company's works at Paloncha. Their residents comprise daily wage earners and agricultural labourers who belong to the S.C., S.T. and B.C. communities.

Since these residents belong to the below poverty line segment, they are unable to arrange for tuitions for their children studying in Government schools.

To inculcate the habit of studying and to reduce the rate of school dropouts among these children, the Company has arranged for free tuitions for them during the evening hours for the fifth consecutive year. The response to this effort has been encouraging. The number of students who attended the free tutorial sessions increased to 530 during the academic year 2013-14 from 480 during 2012-13.

Vignana Daayini Session at Karakavaagu

MOBILE SCIENCE LABORATORY

To improve experimental learning by students in physics, chemistry and biology, the Company has undertaken the 'Nava Bharat Vignana Daayini' initiative. Under this initiative, a mobile science laboratory visits various schools whose students have subsequently demonstrated a marked improvement in their scholastic performance. This project has benefited 4620 students in 18 schools during the academic year 2013-14.

INFRASTRUCTURAL SUPPORT

The Company donated school furniture to the Mandal Praja Parishat Upper Primary School, Simhadripuram, and the Sri Putta Srinivasa Rao Zilla Parishat High School, Marripudi Village, in East Godavari district, Andhra Pradesh.

NBVL has arranged to construct toilets for girl students and lady teachers in Mandal Parishad Upper Primary Schools, in Erragunta, Palakoyyatanda and Gandhinagar villages. An amenity building has been constructed by the Company at Sri Addepalli Atchyutharamayya ZPP High School, Dharmavaram village.

SKILL DEVELOPMENT

VOCATIONAL TRAINING

The demand for skilled manpower has been increasing much faster than its supply, leading to a significant shortage of skills across several trades.

The overall economic development has also led to the emergence of new types of skill requirements that offer promising employment opportunities.

The Nava Bharat Vocational Institute (NBVI) at Paloncha imparts training skills in the areas of welding, electrical, fitting and plumbing. NBVI trained 108 persons in these trades during the year 2013-14.

WOMEN EMPOWERMENT

As a part of the Company's initiative to empower rural women, **NBVI started two new courses exclusively for women: Tailoring and Embroidery, and Beautician courses** during 2013-14. The response from the local women was encouraging and 85 women were trained in tailoring and embroidery, apart from 26 women in the beautician trade.

Another initiative in this direction is the 'Entrepreneurship and Skill Development' programme organised by the Company at Paloncha, in association with the Khadi Gramodyog Maha Vidyalaya, Hyderabad. As a part of this programme,

demonstrations were arranged for young women on how to make candles, detergent powder, phenyl, and scented sticks, among others. Over 200 young women from the villages around Paloncha attended the programme.

Training in Tailoring & Embroidery

OTHER CSR ACTIVITIES

Coaching in English

CENTRE FOR COMMUNICATIVE ENGLISH

Good communication skills in English have become a vital requirement for employment in a variety of sectors. To meet this growing need, NBVL has arranged for coaching in both verbal and written English for educated and unemployed rural youth (both men and women) in the age group of 18 to 30 years. The duration of coaching has been three months.

So far, 111 participants were benefited by this programme that instilled confidence among the rural youth and helped them to face interviews and participate in other interactions effectively. The programme has empowered the youth and enabled them to secure good employment opportunities, thereby reducing the gap between them and their urban counterparts.

NBVL extended financial support to Yuvajana Vyayama Seva Sangam, Samalkot for construction of a new gymnasium at Samalkot.

ENVIRONMENT PROTECTION

The Company continued to despatch 100% ash generated by its power plants at Paloncha to cement plants and manufacturers of fly ash bricks.

The practice of granulation of slag generated in the production of silico manganese by the Ferro Alloy Plant at Paloncha and supplying the granulated slag to fly ash brick making units continued during the year 2013-14.

The above practices ensure conversion of solid wastes generated by the Company's plants into useful and value-added building materials. This mitigates the adverse impact on the environment, besides helping in the conservation of the valuable top soil used to make conventional bricks.

ECONOMIC AND BUSINESS ENVIRONMENT

The Indian economy displayed a flaccid GDP growth rate of sub-5% for 2013-14, second year in a row reflecting subdued performance of industrial and manufacturing sector, especially in the infrastructure segment, notwithstanding improved performance of exports and agricultural sectors. The trade and fiscal deficits were further accentuated by the quantitative easing measures initiated by USA resulting in precipitous depreciation of Indian rupee and as a consequence making imports and borrowings dearer.

The economic revival plan charted by the new Government at the centre though is promising, it is expected that the Indian economy will be under stress for few more years before discernible growth in GDP can be sustained.

REVIEW OF OPERATIONS

The foresight shown by the group by making investments in the power business is yielding results. The consolidated performance for the year 2013-14 saw marked improvement in the contribution of the Power business with the inclusion of the 150 MW plant operated by subsidiary company, Nava Bharat Energy India Ltd. Total Income from Operations stood at ₹ 172,755.95 lakhs, up 51% YoY. Profit Before Tax stood at ₹ 31,171.50 lakhs, growing 33% YoY, notwithstanding the operational deficit incurred at the Zambian operations. The Profit After Tax showed a similar strong trend at ₹ 27,622.33 lakhs, up by 62%.

The standalone performance was moderated on account of lower profitability in ferro alloy and sugar segments, depreciation charge on idle power facility in Odisha and reduced treasury income. The power segment performance was satisfactory in the light of maintenance outages and Grid backing down in AP and very low merchant power rates prevailing outside of southern region. Total Income from Operations were at ₹ 110,054.82 lakhs. Profit Before Tax was at ₹ 22,321.32 lakhs and Profit After Tax was at ₹ 19,309.89 lakhs.

Power Division

The 114 MW power plant was operated at 92% PLF whereas the 20 MW unit ran at a PLF of 84% on the back of annual contract with AP Grid, this notwithstanding the forced outages encountered in the first half of the year under review. The 94 MW plant at Odisha was however run sub-optimally for want of reasonable merchant realisations.

The total power generation stood at 1,455.82 MU which, post adjustment for auxiliaries and transmission losses, stood at 1,290.31 MU. Captive consumption stood at 432.59 MU with the balance 864.71 MU constituting merchant power sales. The Company has continued to use an optimal blend of linkage coal, coal through e-auction, washery rejects and imported coal to meet its fuel requirement in power generation.

The environment for merchant power was, during 2013-14, typified by isolation of Southern Grid, continued

transmission corridor congestion and active demand management by state utilities.

Ferro Alloys

Ferro Alloys division witnessed stable volume performance in the back drop of conversion arrangement for Ferro chrome in Odisha for about eight months and market environment for manganese alloys is marked by realisations which were range bound. Higher input cost, in part due to dearer transfer price based on grid tariff – was a factor in moderating the margins. The conversion arrangement enabled the Company to recover fixed costs of the Unit. The Company continues to evaluate opportunities to regain optimal operations at the Ferro Alloys Unit in Odisha.

Sugar

The Company continues to align its operating strategy to the market dynamics. Marginally higher recovery was neutralised by lower realisations in the new season. Post de-control the division focussed on growing the by-products business – marking substantial enhancement in the volumes of ethanol and spirit. The Company continued with cane development activity under the new factory zone at Dharmavaram.

OPERATIONS OF SUBSIDIARIES ABROAD

Nava Bharat (Singapore) Pte. Limited (NBS):

NBS, a wholly owned subsidiary of the Company, continues to be the investment holding arm of the overseas strategic investments while rendering trading services for ferro alloys within the Group. Details of the step down overseas subsidiaries are given below:

Maamba Collieries Limited (MCL):

MCL is a step down subsidiary of the Company with NBS holding about 65% of the equity stake while the balance is held by the Zambian Government Investment Holding Company. MCL has the largest coal concession in Zambia with two grades of coal; Metallurgical Grade Coal with applications in Cement, Steel and Breweries and Thermal Grade Coal which can be used as a feedstock for power generation. MCL has embarked upon a capital outlay of about USD 800 million for coal mining operations including mine development expenditure and for establishing 300 MW (2 x 150 MW) coal fired power project. The coal mine related expenditure towards mine development and

capital equipment has been substantially incurred while the power project implementation has been completed to the extent of 65%. The power project implementation is under EPC structure and the project is likely to be commissioned in FY 2015-16. Sale of high grade coal has improved substantially during the year under report comparing with previous year and likely to increase going forward with likely addition of new customers in the region.

Kobe Green Power Co. Ltd. (KGP):

NBS acquired majority stake in Kobe Green Power Co. Limited (KGP), a Japanese Company, which holds development rights for a 150 MW hydro-electric power project in Laos with an investment of about USD 235 million on Build Own Operate and Transfer Scheme (BOOT) basis. The Detailed Feasibility Study (DFS) has been completed and approved. Concession Agreement and the Power Purchase Agreement, followed by the approval of the Government of Laos, are expected shortly. A Special Project Company will be formed thereafter to implement the project with majority control to be exercised through M/s. Nava Bharat Lao Energy Pte.Limited in Singapore, while the other Shareholders will be the Japanese Partner and a Government of Laos undertaking.

NB Tanagro Limited (NBTL):

NBTL has a Joint Venture Agreement (JVA) with National Development Corporation (NDC) of Tanzania, to pursue an Integrated Oil Palm Project in Tanzania (NBS 80% and NDC 20%). Further to the JVA, the allocation of initial block of 4000 hectares of land by the Tanzanian Government is still awaited. NB Tanagro Limited will launch the pilot project after the said land is handed over by NDC. Till then, it was decided not to capitalise the Company, excepting the initial capital. NB Tanagro Limited is entitled for allocation of another 6000 Hectares, though not contiguous, to the initial 4000 Hectares, which will take another 12 months from the allocation under Phase – I.

NB RUFJI PVT.LTD. (NBRPL):

NBRPL was formed in Tanzania to pursue another Oil Palm Project under Rufiji Basin Development Authority (RUBADA). The project is under survey stage.

Nava Bharat Africa Resources Pvt. Ltd. (NBAR):

NBAR is a step down subsidiary of the Company through NBS in Mauritius and was expected to focus on investments

- ii. Elimination of usage of low pressure steam for fluidized bed sugar drier.
- iii. Installation of 2 nos. of molten sulphur distribution guns for continuous sulphur burners.
- iv. Conversion of 18 nos. of motor starters from star-delta mode to star mode for power saving.

II) Power Division

Power Plant (Telangana)

- i. Installation of variable frequency drive for condensate extraction pump-5 of Unit -1.
- ii. Reduction of operating voltage of CHP-1 MCC from 425 V to 407 V.

Power Plant (Odisha)

- i. Utilization of FD fan discharge air instead of compressed air for self-cooling bearing of Boiler-2 of Unit-2.
- ii. Utilization of existing unused VFD bed ash cooler fan for Unit-2 clarifier pump-1.

III) Ferro Alloy Division

Telangana

- i. Air compressor pressure optimized.
- ii. Replacement of 15HP shell cooling pump of Furnace-4, which is operated at 30% load, with 7.5 HP pump.
- iii. Change of motor connections from delta to star for 3 nos. of 11 kW belt conveyor motors of raw material handling system.

- iv. Connecting the existing delivery line of cooling water pump of Furnace -1 with the delivery line of Transformer cooling water pump of Furnace -4, eliminating use of 30 kW Transformer cooling pump motor.

Odisha

- i. Replacement of 500 CFM Air Compressor & 90 kW motor with 524 CFM Compressor & 75 kW motor (Compressor No.5).
- ii. Replacement of V Belts with Energy Efficient Power banded V-Belts for both the Briquetting Press machines.
- iii. Installation of 2 Nos. of Rentar Fuel Catalysts for the Chrome Ore Dryers for reduction in fuel consumption.
- iv. Modification of fuel gas passage at Forced Draft Coolers in GCP -2.
- v. Replacement of 20 HP Water Softener pump with 10 HP energy efficient open well submersible pump for the purpose of water treatment at pump house.

(b) Additional investments and proposals, being implemented for reduction of consumption of energy:

I) Power Division

Power Plant (Telangana)

NIL

Power Plant (Odisha)

NIL

II) Ferro Alloy Division

Telangana

Modification of fans with VFDs and other alterations at Gas Cleaning Plant for energy conservation.

Other Investment Proposals for FY 2014-15**I) Sugar Division**

- i. Installation of Plate type Heat Exchanger to raise the temperature of wash water with low pressure for 'A' Range centrifugal machines.
- ii. Installation of Plate type heat exchanger to increase the temperature of DM water with excess hot condensate from the sugar process.
- iii. Installation of one new evaporator body as 3rd effect in spent wash evaporation plant at distillery to reduce the steam consumption.

II) Power Division**Power Plant (Telangana)**

Installing of variable frequency drive for Unit-3 boiler feed pump for reduction of plant auxiliary power consumption.

Power Plant (Odisha)

- i. Replacement of 2nd Jack well (VT Pump-1) of 110 kW capacity by 75kW vertical pump at Raw Water Pump House.
- ii. Installation of VFDs for Condensate Extraction Pumps at Unit-1.

III) Ferro Alloy Division**Telangana**

Modification of fans with VFDs and other alterations at Gas Cleaning Plant for energy conservation.

Odisha

- i. Installation of Coal fired Fluidized Bed combustor for hot air generation to be used for Chrome ore dryer in place of HSD oil.
- ii. Bifurcation of tap hole smoke blower discharge ducting from GCP ducting.
- iii. Replacement of welding transformers with Invertor/Rectifier Machines.

- iv. Usage of GCP outlet gas for chrome ore dryer to reduce coal consumption in drier.

(c) Impact of the measures of (a) and (b) given above for reduction of energy consumption and consequent impact on the cost of production of goods:**I) Sugar Division**

- i. Installation of 2 Nos. of bottom mounted agitators resulted in fuel savings of 50 MT of bagasse per season.
- ii. Elimination of usage of low pressure steam for Fluidized bed sugar drier resulted in fuel saving of 275 MT of bagasse per season.
- iii. Installation of 2 Nos. of molten sulphur distribution guns for continuous sulphur burners resulted in fuel saving of 140 MT of bagasse per season.
- iv. Total 18 Nos. of motor starters, of 155kW rating, were converted from Star-Delta mode to Star mode, resulted in energy savings of 135300 kWh per season.

II) Power Division**Power Plant (Telangana)**

- i. Variable frequency drive provided for Unit-1 condensate extraction pump-5, resulted in energy savings of around 450 kWh per day.
- ii. Reduction in operating voltage of CHP-1 MCC resulted in energy savings of 135 kWh per day.

Power Plant (Odisha)

- i. Utilizing the FD discharge air for bearing cooling instead of using compressed air resulted in saving 16 kWh per day.
- ii. Utilizing existing VFD for Unit-2 clarifier pump-1 resulted in energy savings of 279 kWh per day.

III) Ferro Alloy Division

Telangana

- i. Optimizing the air compressors pressure resulted in energy savings of 4800 kWh per month
- ii. Replacement of 15 HP shell cooling pump with 7.5 HP pump at 4th Furnace resulted in energy savings of 2100 kWh per month.
- iii. Changing of motor connections from delta to star resulted in energy savings of 5730 kWh per month.
- iv. Elimination of use of transformer cooling pump motor resulted in energy savings of 15000 kWh per month at pump house.

Odisha

- i. Replacement of 500 CFM Air Compressor & 90 kW motor with 524 CFM Compressor & 75 kW motor

resulted in energy savings 1360800 kWh per annum.

- ii. Replacement of V Belts with Energy Efficient Power Banded V-Belts for both the Briquetting Press machines resulted in energy savings of 9720 kWh per annum.
- iii. Installed 2 Nos. of Rentar fuel catalysts for the Chrome Ore Dryers for reduction in fuel consumption resulted in saving 2.41 Ltr/ M.T of Briquette production.
- iv. Modification of flue gas passage at forced draft coolers in GCP -2 resulted in energy savings of 2147300 kWh per annum.
- v. Replacement of 20 HP Water Softener pump with 10 HP energy efficient open well submersible pump resulted in energy savings of 5400 kWh per annum.

^A The purchase price per kWh of electrical energy decreased due to installation of Maximum Demand (MD) controller even with increased MD charges and tariff with effect from April, 2013.

^B The cost of power generation by DG set increased due to hike in diesel oil price and operation of D.G sets at low load conditions.

^C The power and steam consumption per quintal of sugar decreased due to increase in sugar recovery from 9.83 to 10.30.

^D The power consumption per kL of alcohol reduced, even with operation of spent wash evaporation plant, due to increase in capacity of distillery from 15 kL to 20 kL and steam consumption per kL of Alcohol increased due to operation of spent wash evaporation plant to reduce the effluent quantity.

As per the prevailing rules, Power Generation is an excluded industry for the purpose of this information under (d) and hence the above particulars pertain to Ferro Alloy Plants and Sugar Plant only.

B. TECHNOLOGY ABSORPTION**(e) Efforts made in technology absorption****1. Areas in which efficiency improvement was carried out by the Company****I) Power Division**

Power Plant (Telangana)

Bed ash conveying systems of CFBC Boilers converted from wet to dry mode.

Power Plant (Odisha)

i. Minimizing the compressed air loss by rectifying 19 nos. of identified air leak points in Unit-I & III.

ii. Air leak test was conducted in Air Pre-heaters of both the boilers of Unit-I and boiler -1 of Unit-II and air leak points were rectified.

- iii. Optimizing the feed rate of vibro feeder of coal handling plant of Unit-II.
- iv. Reducing the lube oil consumption by adjusting the suction pressure of oil vapor extraction fan.
- v. Replacement of vibrating screen-2 mesh of secondary crusher.
- vi. Providing energy meters for Unit-II Compressors & Chilled Water Pump and providing Level Gauges for Unit-I ejector and GSC tanks.
- vii. Erection and commissioning of dust extraction system of secondary crusher house of CHP of Unit-II.
- viii. Collection and reuse of blow down water of both boilers of Unit-II.

Management Discussion and Analysis

The Management Discussion and Analysis discusses performance of your Company in the year 2013-14, in terms of financial, operating and strategic objectives. The commentary below should be read together with the Directors' Report and the audited Financial Statements that form part of the Annual Report.

INDUSTRY STRUCTURE AND DEVELOPMENTS

Power

India perennially ranks as one of the largest generators and consumers of power. With installed capacity of 0.24 TWh, the country is seeking to add 118 GW (including carry over additions from the previous period) in the 12th 5-year plan. The share of the private sector in the new capacities coming up stands at about 60%. Traditionally the share of thermal power has stood at over 60% of the total generation mix owing to abundance of coal in the country. An estimated 300 bn tonnes of coal are minable domestically (total coal reserves) compared to 438 mn tonnes that are actually produced by the PSU monopoly for coal each year. The national tariff policy (NTP 2006) has encouraged a market driven model for power with sufficient incentive for companies engaged in the generation, transmission and distribution of electricity on one hand and the benefit of reliability and affordability of power to end users on the other.

It is estimated that power consumption will rise from 821.2 TWh in the year 2013 to 1,433.2 TWh in the year 2022 driven by increasing industrial activity and on account of demographic growth. India nominally faces a deficit of 3.5-4.5% every year, representing the gap between the demand and supply of power.

In addition to the end user the market for power involves other factors; the generator and its supplier of coal (given the predominance of thermal energy), the transmission company and the distribution utility, the latter two being

governmental entities in need of urgent reform. The past year has seen a series of interlinked reforms aimed at injecting efficiency in the market by encouraging the distribution utilities to raise tariffs in lieu of restructuring of historic loans, promising fair compensation to generators in the light of increased costs of generation and institutionalising the assurance for the supply of coal from the PSU vendor. These reforms have had limited impact as distribution utilities yet do not have adequate funds to purchase power and consequently have to resort to demand management.

Regardless of the reforms, the chief impediments to growth in thermal capacities are constraints in enhancing the production of both coal and gas domestically. The imported coal that gets utilised as a substitute often comes in at a higher cost, upsetting the operating economics of Independent Power Producers (IPPs) who also additionally have to contend with stagnating merchant tariffs and under-remunerative PPAs. The long-term antidote to the ills befalling the power industry includes balancing the tariffs with the cost of generation, reduction in cross-subsidisation amongst consumers and curtailment in Transmission and Distribution (T&D) losses.

The challenges and dynamics of the sector notwithstanding, the persistent deficit has given rise to a vibrant market for merchant trading of power across the country. In the year 2013-14 the market for short-term trading stood at 115.1 bn kWh. Your Company is an active participant in this market and delivered 864.7 mn units under the merchant dispensation in the financial year 2013-14.

Ferro Alloys

Ferro Alloys are additives used in the manufacture of steel, where their addition produces different grades of steel. These additives also find usage in the manufacture of cast iron. Ferro Alloys are primarily alloys of Iron mixed with other elements such as Manganese, Silicon, Chromium and Aluminium. These alloys impart distinctive qualities to

steel (corrosion resistance, hardness and tensile strength at high temperature, wear resistance and better creep strength) and cast iron ore serve important functions during their production.

Production of Ferro Alloys across the globe is concentrated in areas where the input materials are usually abundant; countries like Ukraine, Russia, China and South Africa account for the lion's share.

Like many other industries within India, the manufacturing of Ferro Alloys is fragmented, although a large percentage gets exported through the Kolkata, Haldia and Vishakhapatnam ports. India occupies a significant proportion of Ferro Chrome production pie after South Africa, China and Kazakhstan. In Manganese Alloys the leading producers are China, South Africa, Ukraine and Brazil.

Your Company is capable of manufacturing Ferro Manganese, Silico Manganese, Ferro Silicon and Ferro Chrome across its smelters in the States of Telangana and Odisha. Your Company's Ferro alloy units are renowned for using the latest technology capable of processing non-metallurgical grade ores (lumps and fines) after necessary beneficiation and agglomeration.

The manufacturing process is power intensive, and, as a result, Indian producers have opted to set-up captive power generation. Your Company too has developed a captive power that is backed up to 70% of its requirement by linked coal (the rest of the requirement is met through a combination of coal obtained through e-auction, washery rejects and imports). The Manganese ore used in the manufacturing of Ferro Manganese and Silico Manganese is mined by Manganese Ore India Ltd., a PSU whereas pricing is linked to international prices as is the case with all commodities. Chromite ore is available from Odisha Mining Corporation. In order to limit the risk arising due to volatility in supplies and pricing of Chromite ore, we are engaged in a conversion agreement with Tata Steel. This agreement mandates that we convert a fixed quantum of ore into finished product such that we are able to recover fixed cost/sunk costs.

Sugar

The consumption of sugar has increased at about 2.7% per annum over the last 5 decades with India being the second

largest producer and largest consumer of sugar globally. The demand for sugar in the year 2013-14 is expected to stand at 23.5 MT. While it can be manufactured from a variety of crops, sugarcane is the most common source of producing sugar in India and the other major producers. Within the country, Maharashtra enjoys the largest share in production followed by Uttar Pradesh, Tamil Nadu, Karnataka, Madhya Pradesh and Andhra Pradesh. The dependence on favourable agro-climatic conditions renders sugar a cyclical commodity and the year 2013-14 is likewise expected to be a surplus year with 25 MT production.

Sugar is both a key contributor to the rural economy and an irreplaceable ingredient of consumption in every Indian household. Historically, therefore, the sector has been closely regulated, in the process stymieing sustainable growth for sugar and its associated by-products i.e. alcohol and spirit. Cane price poses the chief burden on sugar millers as the same is determined ad-hoc by respective State Governments; sugar season 2013-14 saw a State Advised Price (basic cane price) of ₹ 280 per quintal for Uttar Pradesh whereas Karnataka has asked for ₹ 250 per quintal. Underlying the individual state advised prices for sugarcane is a Fair and Remunerative Price (FRP) that gets determined by the Central government and which stood at ₹ 210 per quintal in the sugar season 2013-14.

On the other hand, the price of sugar within the country remained under pressure in the range of ₹ 28-31/kg following an oversupply scenario. With sugar season 2013-14 expected to result in surplus production, we are looking at the 3rd straight year of surpluses. The government has sought to remedy the situation by proposing an export subsidy thereby encouraging an outward passage for sugar and allowing prices to rise domestically. Internationally, there are expectations that there will be a small surplus at the end of sugar season 2013-14. It is pertinent to note that gradual enhancement in the fuel blending ratio for ethanol (which is a by-product of sugar) will help support firmer prices for sugar.

OPPORTUNITIES AND THREATS

Power

The demand for power follows the variations in the growth in a nation's GDP. This is also true for India where we are seeing increasing economic activity in

cement, steel, mining and food processing besides other manufacturing sectors. Industrial consumers traditionally form the largest block of consumers of electricity in India with much of their requirement met by captive generation. Over the years, growth in consumption has come from domestic and commercial consumers at the expense of the industrial consumers. The other factors that drive the demand for power include latent demand that comes from consumers otherwise willing to pay but who are facing curtailment in supply; higher disposable income in urban settings that is co-related with enhanced usage of gadgets and lastly the growing prosperity in rural households thereby spurring demand on the residential and agricultural sides.

As an emerging nation, India presents wide opportunities in every aspect of the power industry, with the primary share being that of generation. The total demand for power will stand at 1915 TWh by the year 2022. As against this, the 12th plan envisages expenditure of USD 253.6 bn – wherein the share of the state and private enterprises will stand at 40% and 60% respectively. As the consumer is willing to bear a fair price, it is contingent on the policy environment to make development of the power infrastructure a win-win situation for the developers and operators.

While the growth sector is critical as far as India is concerned, the power industry has suffered due to policy lacunae. Years of underinvestment in transmission and distribution has given rise to high transmission and distribution losses and inadequate corridors for evacuation of electricity. This is grossly mis-matched with the addition in generation capacities forcing power plants to work in isolation or being stranded, meaning they have to forego opportunities in merchant trading that may be available elsewhere in the national distribution network. Distribution companies have also not been enjoying the freedom to price their tariffs realistically resulting in losses for themselves and to their lenders. Generating capacities are also stranded for another important reason, the under-availability of the required quantities of coal and gas.

As of December 31, 2013, this has been provided with the commissioning of the Raichur-Solapur 765 kV single circuit transmission line. This will be strengthened over the next few months eventually making it possible for us sell to deficit regions more optimally.

Your Company has an installed thermal power capacity of 442 MW directly and indirectly under domestic operations, with 264 MW at Paloncha, Telangana, 20 MW at Dharmavaram, Andhra Pradesh and 158 MW at Kharagprasad, Odisha. These include the 150 MW Paloncha power plant and 64 MW Kharagprasad power plant commissioned recently. Your Company also operates a 9 MW biomass-based facility at Samalkot that uses the bagasse generated by the Company's sugar factory as fuel.

Overseas investments

Nava Bharat (Singapore) Pte.Limited, a Subsidiary of your Company holds 65% economic interest in Maamba Collieries Limited (MCL), whereas a 35% stake continues to reside with ZCCM-IH, the mineral investments holding Company of the Government of Republic of Zambia. MCL holds the largest coal concession in Zambia and the joint entity envisages developing an integrated 300 MW thermal power plant in Zambia together with revival of coal mining activity with a total investment outlay of USD 800 million.

The total loan component of USD 560 million would be raised through a mix of borrowings from Development Financial Institutions and Commercial Banks backed by insurance cover from Export Credit Agency in China. The Company has received environmental clearance and Power Purchase Agreement (PPA) has been signed with ZESCO (which is the local power utility) for 300 MW of power. This power plant is scheduled for commissioning in the fiscal year 2015-16. Your Company re-started the Coal Mining operations at Maamba where a modular state-of-the-art Coal Handling and Processing Plant (CHPP) was commissioned in May 2012. Sales of high grade coal of GCV 6,000 kcal/kg commenced in June 2012, sales volume is expected to be about 30,000 MT per month in the current fiscal. There is a substantial jump expected in the coal mining in the year 2015-16, driven by new customers.

Your Company has acquired majority stake in Kobe Green Power Co. Limited (KGP) which holds development rights for a 150 MW hydro-electric power project in Laos with an expected investment of close to USD 235 million on Build Own Operate and Transfer Schemes (BOOT) basis. The Detailed Feasibility Study (DFS) has been completed and approved. Concession Agreement and the Power Purchase Agreement followed by the approval of the Government of Laos are expected shortly. A Special Project Company will be formed thereafter to implement the project with majority control.

Ferro Alloys

Being an important additive in steel making, the dynamics of the ferro alloy industry are intricately linked to those of steel. With the excess supply in the system, prices of steel remain under pressure everywhere except in the US. Raw material economics have lent momentum to steel prices in the past and are expected to do so even now. But given the weak demand for steel and given the capacity creation in raw materials, they are unlikely to push steel prices higher.

Indian steel consumption has grown 0.5% in the period April 2013-January 2014, making it the lowest growth rate in the past 10 years. India has hit an economic speed-breaker and consequently the investment cycle is at its trough, with future steel projects on hold. There are signs of revival with domestic prices on the upswing in the year 2014 in line with the pick-up in demand in the construction industry and higher cost of production for steel manufacture.

Your Company is historically engaged in the production of ferro alloys given the proximity to the primary raw materials. It manufactures Silico Manganese and Ferro Manganese at Paloncha, Telangana, with a capacity to produce 125,000 TPA of these alloys and Ferro Chrome at Kharagprasad, Odisha, with a capacity to produce 75,000 TPA. Given the cost-dynamics of running a ferro alloy plant, your Company is adequately supported through captive power generating capacities. The Odisha facility is under a conversion contract for Tata Steel to produce Ferro Chrome from the raw material supplied to it.

Sugar

India's sugar production for the crushing season 2013-14 is likely to be around 23.7-25.0 million tonnes as lower acreages would be partially compensated by higher yields in key sugar growing regions.

While the central government is considering various relief measures apart from offering interest-free loans to sugar mills, exports and growing domestic consumption of sugar would support growth in the forthcoming years. India is the second largest sugar producing and the largest sugar consuming country in the world. Given the change in demographics and food patterns, the domestic consumption is set to accelerate thereby offering ample growth opportunities for the sugar mills in India.

Your Company operates an integrated sugar facility at Samalkot, Andhra Pradesh, with a capacity of crushing 4,000 TCD of sugarcane. Additionally, your Company has a 20 klpd distillery that makes approximately 2.50 million bulk litres of rectified spirit, used to manufacture ethanol/extra neutral alcohol.

Nava Bharat Ventures' agro-projects under tie-ups with Tanzania Government await identification of land area. Oil palm project is to be developed, subject to feasibility test through a pilot project. Investments for these projects would be committed in FY16.

SEGMENT-WISE PERFORMANCE

OUTLOOK

Power

India is likely to soak up investments of up to USD 2.3 tn by the year 2035 in developing its energy infrastructure. Whereas the demand for energy is slated to rise 2.7% per year from the year 2010 to 2035, the dominant contribution towards satisfying this increase will come from coal based plants. The power sector has historically been closely regulated characterised by very low tariffs for electricity and heavily subsidised agricultural usage.

The key to long-term sustainable prosperity of the power sector and the nation by consequence will lie in building a more reasonable pricing system, enhancing the efficiency of existing plants and infrastructure and diversifying the sources of energy at hand. Thus far, the private sector has been leading the charge in new investments into the sector. The share of the private sector in new capacity creation has jumped to approx. 42% in the period 2007-12 from approx. 9% in the period 2002-07. Despite that and the 100% FDI allowed towards setting up fresh capacities or taking stake in existing ventures, the broad investment trends in the last 12-24 months have been negative.

Private investment has shrunk owing to uncertainties on fuel supply, regulatory challenges and policy framework. Additionally, the state distribution utilities, who often are the primary customers for the power generators, are practising demand management and curtailing incremental purchases of electricity. There is no support from the public sector as there have been no fresh bids from the government towards setting up new capacities. Being a regulated market in a sense, price control on electricity has proven counter-intuitive and investments in new power plants have nearly stalled.

Your Company had commenced operation of a 150 MW power plant based on imported fuel at Paloncha, Telangana under its subsidiary, Nava Bharat Energy India Limited. The Company has been primarily catering to demand for merchant power within Telangana and Andhra Pradesh and given the connectivity provided to the southern grid, the Company expects to sell power to other deficit regions in the country in due course. As a prudential measure, the Company maintains sufficient coal supplies to meet the requirements of generation. This plant was operated

at 79% PLF during the year 2013-14. The rest of the generating capacities held directly by your Company are supported by coal linkages, coal from e-auctions and access to coal washery rejects. The investments being pursued in Zambia by your Company are part of the diversification of the investments into the energy sector.

Ferro Alloys

The production of Ferro Alloys has grown nearly 14% between the years 2008-09 and 2011-12, supported by a 17% increase in exports from India and a 7% rise in domestic consumption as well in the same period. Given the trajectory of growth, there is expansion planned in capacities for Manganese alloys and Ferro Chrome to the extent of 6-9% between the years 2010 and 2015. This dovetails with the 8% growth seen for carbon steel and 10% for stainless steel production in India. Emerging nations are expected to be a major driver of demand on account of their steel requirement for urbanisation and industrialisation and suitably fall within the ambit of delivery of Indian producers.

Whereas a growing global economy and the pick-up in domestic automobile demand will spur the demand for steel in the U.S., China may see a slow down as the country refocuses on domestic consumption and moves away from exports. Japan and Europe, the other two major consumers, are expected to show positive demand underlining the buoyancy in steel growth.

The conversion project of your Company for 50,000 MT will continue in the present fiscal year as well. This conversion work has recently been stopped on account of the stoppage of chromite ore mining activity by Tata Steel following the directives of the Hon'ble Supreme Court of India. The Company plans to produce Ferro Chrome on its own account till this issue is resolved by Tata Steel. In the longer term, the Company is looking at a solution where it is able to restructure the Odisha works into 2 verticals –Ferro Alloy smelters (75,000 TPA for Fe Cr) and Power generation unit (94 MW + new 64 MW), with the objective of inducting strategic investors so as to make the restructured SPVs captive units under mining and power regulations and facilitate sustained operations in both the SPVs.

Sugar

Brazil holds the key to the global output of sugar. El Nino is expected to cause wetter than usual conditions in that

country by the end of the year 2014 and consequently limit the quantum of sugar production. Moreover, the heat wave experienced in late 2013 in Brazil is expected to have depressed the production of sugar in the season 2013-14. India and Thailand, the other two major producers are expected to witness drier weather further impeding the production and supply of sugar in the year 2014-15.

The overall impact on sector inventories is likely to be negative given that consumption of sugar has shown strength. The pricing trends, therefore, naturally appear to be on the firmer side.

RISKS AND CONCERNS

Power

Being a growing economy, India will always show ample demand for power. The impediments are systemic that is required to be addressed by the Governments at the State and Centre. The state of indebtedness of the distribution utilities is the first and foremost biggest challenge, followed by the cost of production that is exacerbated by shortage of coal that remains key to existing capacities and bulk of the upcoming ones and lastly the tardy rate of capacity creation by State backed generation companies – that still supply power to a substantial portion of the population. The private sector has stepped up its capacity addition to mitigate this gap in the past few years but is expected to slow down owing to policy lacunae and unavailability of sufficient fuel to run the plants.

Ferro Alloys

The outlook for ferro alloys closely shadows that for steel. The pall of global economic uncertainty has characterised the steel industry for the past two years, with the Eurozone showing economic malaise, other developed nations unyielding in terms of demand growth and emerging economies battling adverse currency, deficits and inflation. China poses risk to growth as their government recalibrates the economy to a sustainable speed, and this is expected to temper investments in both infrastructure and real estate. Overcapacity has also been a perennial problem in the steel industry.

Indian ferro alloy producers are under pressure owing to slackness in demand, the rising cost of input materials and dearer electricity.

Sugar

Sugar is a uniquely global commodity where prospects are affected both by domestic and international factors alike. Besides being heavily regulated, the sugar industry within India faces multitude of challenges like past arrears, delayed ramp-up in ethanol blending and declining acreages as farmers opt for other cash crops. The international dynamics for sugar are determined by Brazil, which is set to experience uneven weather leading to production shortfalls.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The internal control systems of your Company are in tune with the changing needs of the business. The Company follows a robust set of protocols with continuous supervision by the Board and the top management. Your Company has in place appropriate risk-mitigation measures that ensure continuity in operations, protection of assets and other resources, compliance with the law & regulatory procedures so as to adhere to the internal policies that have been pre-defined.

The Company's internal control system has been developed with an objective to:

- Adhere to latest policies and procedures together with management guidelines, listing requirements and various circulars
- Safeguard the assets of the Company from fraud, loss or misuse

HUMAN RESOURCES

Your Company holds the human resources function as central to the sustainable growth of the business. Workforce and talent management rank high in the

agenda of the management of your Company. The same philosophy is followed on the shop floor leading to cordial industrial relations.

Knowledge Workforce

Every new recruit who joins your Company has the same opportunities for growth. He/She is given structured training right from induction. Engineering recruits undergo curriculum based training so that they emerge as well-rounded resources. Though the responsibility of training is vested in an internal department, your Company has, from time to time, engaged the expertise of external consultants.

Managerial staff is also put through a specialised training module where emphasis is on team building and knowledge sharing across the organisation. The Company regularly encourages employees to interact with peers from other companies on formal and structured platforms so that they can keep abreast with the latest trends in the industry. In addition, the Company provides adequate opportunities to employees to develop their lateral potential.

Talent Management

Nava Bharat has always provided a stimulating environment for its employees, encouraging continual learning. Select employees have the option of working at international operations to hone their competencies and achieve individual goals. The Company follows a transparent and objective Performance Management System. The Company's compensation policies are fair and meet industry levels. The commitment to the employees extends beyond the work place with the Company providing good educational, housing, recreational and sports facilities in residential colonies around the plants and facilities. The employees are proud to represent Nava Bharat as captured by their long and fruitful tenures with the Company.

Industrial Relations

Your Company is very particular about making sure that it offers a safe, healthy and efficient working atmosphere. The managers are deeply engaged in employee affairs and their constant and consistent interaction has been the

foundation of cordial industrial relations during the past year. Every workman is given a fair wage which often stands above the prevailing minimum wages. The attrition rate in your Company is low with net reduction of 28 employees during the year. The total employee strength thus stands at 1047 as on March 31, 2014.

CAUTIONARY FORWARD-LOOKING STATEMENTS

Certain statements made in this document may be forward-looking in nature. These statements may include forecasts for financial growth, future plans & strategies, intentions and viewpoints which may concern the regular course of business from time to time.

The statements are made based on the information available and the Management takes no obligation to periodically update these statements given the change in market dynamics. The actual events may unfold differently than these forward-looking statements given the risks and uncertainties associated with the business.

Some of these risks may include uncertain market conditions that may lead to reduced spending on the products and services that your Company deals in, the ability to build, create and acquire new businesses and also grow the existing businesses, availability of skilled manpower and retain qualified professionals, exchange-rate fluctuations and other common risks associated with industry as a whole.

Independent Auditors' Report

To

The Members of

Nava Bharat Ventures Limited,

Report on the Financial Statements:

We have audited the accompanying financial statements of NAVA BHARAT VENTURES LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2014, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements:

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in Sub-Section (3C) of Section 211 of the Companies Act, 1956 ("the Act"), read with the General Circular 15/2013 dated 13th September 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility:

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion:

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
- in the case of the Statement of Profit and Loss, of the Profit for the year ended on that date; and
- in the case of the Cash Flow Statement, of the cash flows for the year ended on that date

Report on Other Legal and Regulatory Requirements:

- As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of Sub-Section (4A) of Section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
- As required by Section 227(3) of the Act, we report that:
 - we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - in our opinion, the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement comply with the Accounting Standards referred to in Sub-Section (3C) of Section 211 of the Companies Act, 1956; read with the General Circular 15/2013 dated 13th September 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013.
 - On the basis of written representations received from the directors as on March 31, 2014, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.
 - Since the Central Government has not issued any notification as to the rate at which the cess is to be paid under Section 441A of the Companies Act, 1956 nor has it issued any Rules under the said section, prescribing the manner in which such cess is to be paid, no cess is due and payable by the Company.

Annexure to the Auditors' Report

The Annexure referred to in Para 1 under the heading of "Report on Other Legal and Regulatory Requirements" of our report of even date, to the members of NAVA BHARAT VENTURES LIMITED, HYDERABAD, for the year ended March 31, 2014.

1.
 - a. The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - b. As explained to us, the management has physically verified the fixed assets during the year and there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of the assets. No discrepancies were noticed on such verification.
 - c. The plant and machinery disposed off during the year by the Company is not substantial and hence, it has not affected the going concern status of the Company.
2.
 - a. The inventory has been physically verified during the year by the management. In our opinion, the frequency of verification is reasonable.
 - b. In our opinion, the procedures of physical verification of inventories followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
 - c. The Company is maintaining proper records of inventory. The discrepancies noticed on physical verification between the physical stocks and book records were not material.
3.
 - a. During the year, the Company has neither granted nor taken any loans, secured or unsecured to/from Companies, firms or other parties covered in the register maintained under Section 301 of the Companies Act, 1956.
 - b. In view of our comment in paragraph (a) above, (III) (b), (c), (d), (e), (f) and (g) of paragraph 4 of the aforesaid order are not applicable to the Company.
4. In our opinion and according to the information and explanations given to us, there are adequate internal control systems commensurate with the size of the Company and the nature of its business with regard to purchase of fixed assets. During the course of our audit, we have not observed any continuing failure to correct major weaknesses in internal control system.
5.
 - a. In our opinion and according to the information and explanations given to us by the Management, we are of the opinion that the particulars of contracts or arrangements referred to in Section 301 of the Companies Act, 1956 have been entered in the register to be maintained under that section.
 - b. In respect of the transactions made in pursuance of such contracts or arrangements exceeding value of Rupees five lakhs entered into during the financial year, in the absence of any comparable quotes, we are unable to comment whether the transactions were made at prevailing market prices at the relevant time.
6. The Company has not accepted any deposits from the public. Hence the provisions of Section 58A and 58AA or any other relevant provisions of the Companies Act, 1956, and the Companies (Acceptance of Deposits) Rules, 1975, do not apply to this Company.
7. In our opinion, the Company has an internal audit system commensurate with its size and nature of its business.
8. We have broadly reviewed the cost records maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under Section 209 (1) (d) of the Companies Act, 1956 in respect of sugar, distillery, power and ferro alloys and are of the opinion that prima facie the prescribed accounts and records have been made and maintained. We have however not made a detailed examination of the cost records with a view to determine whether they are accurate or complete. The Central Government has not prescribed the maintenance of cost records under Section 209 (1) (d) of the Companies Act, 1956 for any other products of the Company.
9.
 - a. According to the records of the Company, the Company is regular (but for what is stated in Para (b) below) in depositing with appropriate authorities undisputed statutory dues including Provident Fund, Investor Education and Protection Fund, Employees' State Insurance, Income tax, Sales Tax, Wealth Tax, Service Tax, Custom Duty, Excise Duty, Cess and other material statutory dues applicable to it.

Annexure to the Auditors' Report

Notes

to Financial Statements for the year ended 31st March, 2014

01 NATURE OF OPERATIONS:

Nava Bharat Ventures Limited (the Company) has been incorporated on 7th November, 1972. At present the Company is engaged in the business of manufacture of ferro alloys, sugar and generation of power.

02 BASIS OF ACCOUNTING:

The financial statements have been prepared to comply in all material respects with the notified Accounting Standards by Companies (Accounting Standards) Rules, 2006 (as amended) read with General Circular No.15/2013 dated 13th September, 2013 of Ministry of Corporate Affairs and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared in accordance with the generally accepted Accounting Principles in India under the historical cost convention and on accrual basis, except in case of assets for which provision for impairment is made and revaluation is carried out. The accounting policies are consistent with those used in the previous year.

03 SIGNIFICANT ACCOUNTING POLICIES:

a) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

b) Fixed Assets

Fixed assets are stated at cost (or revalued amounts, as the case may be), less accumulated depreciation, amortisation and impairment losses, if any. Cost comprises the purchase price and other attributable costs to bring the asset to its working condition for its intended use.

Direct overhead expenditure incurred and other attributable revenue costs on projects under

implementation is treated as unallocated capital expenditure pending allocation to the assets and are included under Capital work-in-progress.

Borrowing costs relating to acquisition of fixed assets which take substantial period of time to get ready for their intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

c) Depreciation

- i. Depreciation on Fixed Assets is provided on Written Down Value/Straight Line method as per Schedule XIV of the Companies Act, 1956.
- ii. Fixed Assets costing rupees five thousand or less are fully depreciated in the year of acquisition.
- iii. The cost of leasehold Land is amortised over the lease period.
- iv. Improvements to premises taken on lease are amortised over the primary lease period.

d) Intangible Assets

- i. Costs incurred towards purchase of computer software is amortised over the useful lives of such software as estimated by the management which is of three years.
- ii. Expenditure incurred to acquire water drawing rights from Government/Local authorities or other parties is amortised over the primary period of right to use the facilities which is ten years for the time being.

e) Impairment

- i. The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/ external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated

Notes

to Financial Statements for the year ended 31st March, 2014

future cash flows are discounted to their present value at the weighted average cost of capital. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

- ii. Reversal of impairment losses recognised in prior years is recorded when there is an indication that the impairment losses recognised for the asset are no longer exist or have decreased.

f) Prior period items

All items of income/expenditure pertaining to prior period, which are material, are accounted through “prior period adjustments” and the others are shown under respective heads of account in the Profit and Loss.

g) Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. However, provision for diminution in value of each long term investment is made to recognise a decline other than temporary in nature.

h) Inventories

- i. Raw materials, components, stores and spares are valued at lower of cost and net realisable value. However, raw materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined at weighted average basis.
- ii. Goods in transit are valued at Cost.
- iii. Finished goods, Work in progress, Scrap, by-products, loose tools and other stock in trade are valued at lower of cost and net realisable value.

- iv. Cost includes direct materials, labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on a weighted average basis and cost of finished goods includes excise duty. Cost of traded goods includes purchase and allied costs incurred to bring the inventory to its present condition and location, determined on weighted average basis.
- v. Net realisable value is the estimated selling price in the ordinary course of business, less estimated selling costs.

i) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Specifically the following basis is adopted:

i. Sale of Goods:

Revenue is recognised when the significant risks and rewards of ownership of goods have passed to the buyer, which generally coincides with delivery. Sales are inclusive of excise duty and value added tax/sales tax and is net of sales returns and discounts. Revenue from export sales is recognised on the date of bill of lading.

ii. Income from Services:

Revenue is recognised as and when the conversion job is completed irrespective of the billing.

iii. Interest and Guarantee Commission:

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

iv. Dividends:

Dividend is recognised when the right to receive payment is established by the balance sheet date.

Notes

to Financial Statements for the year ended 31st March, 2014

v. Export Benefits:

Export Entitlements in the form of Duty Drawback on accrual and Duty Entitlement Pass Book (DEPB) Schemes on realisation are recognized in the Statement of Profit and Loss.

vi. Other Sundry Incomes

Insurance claims and conversion escalations are accounted for on realisation.

j) Foreign Currency Transactions

i. Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency on the date of the transaction.

ii. Conversion

Foreign currency monetary items not covered by forward contracts are restated at the exchange rates prevailing at the year end.

iii. Exchange differences

Exchange differences arising, on the settlement of monetary items or on reporting Company's monetary items at rates different from those at which they were initially recorded during the year or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise except those arising from investments in non-integral operations.

iv. Forward Exchange Contracts (Derivative Instruments) not intended for trading or speculation purposes.

The Company uses derivative financial instruments including forward exchange contracts to hedge its risk associated with foreign currency fluctuations. The premium or discount arising at the inception of forward exchange contracts is amortised as expense or income over the life of the

contract. Exchange differences on such contracts are recognised in the Statement of Profit and Loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognised as income or as expense for the year.

k) Government Grants and Subsidies

Grants and subsidies from the government are recognised when there is reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with.

When the grant or subsidy relates to an expense item, it is recognised as income over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate. Where the grant or subsidy relates to an asset, its value is deducted from the gross value of the assets concerned in arriving at the carrying amount of the related asset. Government grants in the form of non-monetary assets given at a concessional rate are accounted for on the basis of their acquisition cost.

l) Retirement and Other Employee Benefits

i. Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year.

ii. The Provident Fund is a defined contribution scheme and the contributions are charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective Trusts.

iii. Short term compensated absences are provided on an estimated basis. Long term compensated absences are provided for based on actuarial valuation on projected unit credit method carried by an actuary as at the end of the year.

Notes

to Financial Statements for the year ended 31st March, 2014

- iv. Actuarial gains/losses are immediately taken to Statement of Profit and Loss and are not deferred.
- v. In respect of employees stock options, the excess of fair price on the date of grant, over the exercise price, is recognised as deferred compensation cost and amortised over the vesting period.
- vi. Compensation paid under the company's voluntary retirement scheme is charged to the Statement of Profit and Loss in the year of payment.

m) Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of Fixed Assets, which take substantial period of time to get ready for their intended use, are capitalised. Other Borrowing costs are recognised as an expense in the year in which they are incurred.

n) Segment Reporting Policies

i. Identification of Segments:

The Company's operating businesses are organised and managed separately according to the nature of products, with each segment representing a strategic business unit that offers different products and serves different markets.

The analysis of geographical segment is based on the geographical location of the customers. The geographical segments considered for disclosure are as follows:

- Sales within India include sales to customers located within India.
- Sales outside India include sales to customers located outside India.

ii. Allocation of Common Costs:

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

iii. Unallocated Items:

Includes general corporate income and expense items which are not allocated to any business segment.

o) Earnings per Share (Basic and Diluted)

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

p) Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased assets are classified as operating leases.

Where the Company is the lessee:

Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

Where the Company is the lessor:

Assets subject to operating leases are included in fixed assets. Lease income is recognised in the Statement of Profit and Loss. Costs, including depreciation are recognised as an expense in the Statement of Profit and Loss.

q) Taxes on Income

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Notes

to Financial Statements for the year ended 31st March, 2014

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the Balance Sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. If the Company has carry forward of unabsorbed depreciation and tax losses, deferred tax assets are recognised only, if there is virtual certainty supported by convincing evidence that such deferred tax assets can be realised against future taxable profits.

r) Provisions

A provision is recognised when there is a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

s) Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

t) Cash Flow Statement

Cash flows are reported using indirect method. Cash and cash equivalents in the cash flow statement comprise cash at bank, cash/cheques in hand and Fixed Deposits with Banks.

u) Dividends

Dividend as recommended by the Board of Directors is provided for in the accounts pending shareholders/lending institutions approval wherever applicable.

Independent Auditors' Report

To

The Board of Directors of

Nava Bharat Ventures Limited,

Hyderabad.

We have audited the accompanying consolidated financial statements of NAVA BHARAT VENTURES LIMITED ("the Company"), and its subsidiaries, which comprise the consolidated Balance Sheet as at March 31, 2014, the consolidated Statement of Profit and Loss and consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements:

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Company in accordance with the Accounting Principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility:

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair

presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion:

In our opinion and to the best of our information and according to the explanations given to us and based on consideration of the reports of the other auditors and Management Certificates on the consolidated financial statements of the subsidiaries as stated below, the consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- a. in the case of the consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2014;
- b. in the case of the consolidated Statement of Profit and Loss, of the Profit for the year ended on that date; and
- c. in the case of the consolidated Cash Flow Statement, of the cash flows for the year ended on that date.

Other Matters:

We did not audit the consolidated financial statements of one of the subsidiaries viz., Nava Bharat (Singapore) Pte. Ltd. Singapore (the group), whose financial statements reflect total assets of USD 387,260,565 equivalent to ₹ 232,007.82 Lakhs, total revenue of USD 59,241,588 equivalent to ₹ 35,491.62 Lakhs and net cash flows amounting to USD (6,849,024) equivalent to ₹ (4,103.25) Lakhs. The consolidated financial statements as per the Indian GAAP, of the said subsidiary for the year ended 31st March, 2014 were certified and furnished to us by the Management. Out of the 8 Companies considered for Consolidation only 2 Companies viz. Nava Bharat (Singapore) Pte. Limited and Maamba Collieries Limited, whose financial statements reflect total assets of USD 477,418,098 equivalent to

₹ 286,021.18 Lakhs, total revenue of USD 59,241,588 equivalent to ₹ 35,491.64 Lakhs and net cash flows amounting to USD (6,902,932) equivalent to ₹ (4,135.55) Lakhs have been audited by other auditors whose reports have been furnished to us and for other 6 Companies the Management has certified the financial information as no audit is required in the Countries where the said Companies are located.

The auditors of Nava Bharat (Singapore) Pte. Ltd. Singapore (the Company) without qualifying their opinion on the financial Statements drew the attention to the following .

1. Financial support from holding company for working capital and loans:

The Company is dependent on its holding company to give financial support for its ongoing Investments. In addition, the subsidiaries were in their preliminary stages of operations. Therefore, the validity of the going concern assumption on which the financial statements are prepared depends on the successful generation of income from these new businesses and continuous availability of the financial support from the holding company. The holding company undertakes to give continuous financial support to meet its obligation as and when required.

2. Amount due from subsidiaries:

As mentioned above, the subsidiaries are in their initial stages of operations. The amounts due from subsidiaries are dependent on the outcome of their

business and the directors are of the view that the business of these subsidiaries will be successful. In the event that these outcomes are not favourable, allowances for impairment for these receivables need to be done during subsequent years.

3. Legal and other expenses claims:

The Company is involved in lawsuits for claims against third parties amounting to US\$ 7,058,735 equivalent to ₹ 4,228.89 Lakhs. The Management is of the view that it has ground to these claims and based on their lawyer's assessment, the management believes it has strong case against the third parties. Should the event turns out adversely in subsequent years, the legal and other expenses including the claims recoverable will be expensed off.

Our opinion, insofar as it relates to the amounts included in respect of these subsidiaries is solely based on and subject to the report of the other auditors and Management. Our opinion is not qualified in respect of this matter.

03 SIGNIFICANT ACCOUNTING POLICIES:

a) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

b) Fixed Assets

Fixed assets are stated at cost (or revalued amounts, as the case may be), less accumulated depreciation, amortisation and impairment losses, if any. Cost comprises the purchase price and other attributable costs to bring the asset to its working condition for its intended use.

Direct overhead expenditure incurred and other attributable revenue costs on projects under implementation is treated as unallocated capital expenditure pending allocation to the assets and are included under Capital work-in-progress.

Borrowing costs relating to acquisition of fixed assets which take substantial period of time to

get ready for their intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

c) Depreciation

- Depreciation on Fixed Assets is provided on Written Down Value/Straight Line method as per Schedule XIV of the Companies Act, 1956.
- Fixed Assets costing rupees five thousand or less are fully depreciated in the year of acquisition.
- The cost of leasehold Land is amortised over the lease period.
- Improvements to premises taken on lease are amortised over the primary lease period.

d) Intangible Assets

- Costs incurred towards purchase of computer software is amortised over the useful lives of such software as estimated by the management which is of three years.
- Expenditure incurred to acquire water drawing rights from Government/Local authorities or other parties is amortised over the primary period of right to use the facilities which is ten years for the time being.

Notes

to Consolidated Financial Statements for the year ended 31st March, 2014

e) Impairment

- i. The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.
- ii. Reversal of impairment losses recognised in prior years is recorded when there is an indication that the impairment losses recognised for the asset are no longer exist or have decreased.

f) Prior period items

All items of income/expenditure pertaining to prior period, which are material, are accounted through "prior period adjustments" and the others are shown under respective heads of account in the Profit and Loss.

g) Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. However, provision for diminution in value of each long term investment is made to recognise a decline other than temporary in nature.

h) Inventories

- i. Raw materials, components, stores and spares are valued at lower of cost and net realisable value. However, raw materials and other items held for use in the production of inventories are not written down below cost

if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined at weighted average basis.

- ii. Goods in transit are valued at Cost.
- iii. Finished goods, Work in progress, Scrap, by-products, loose tools and other stock in trade are valued at lower of cost and net realisable value.
- iv. Cost includes direct materials, labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on a weighted average basis and cost of finished goods includes excise duty. Cost of traded goods includes purchase and allied costs incurred to bring the inventory to its present condition and location, determined on weighted average basis.
- v. Net realisable value is the estimated selling price in the ordinary course of business, less estimated selling costs.

i) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Specifically the following basis is adopted:

i. Sale of Goods:

Revenue is recognised when the significant risks and rewards of ownership of goods have passed to the buyer, which generally coincides with delivery. Sales are inclusive of excise duty and value added tax/sales tax and is net of sales returns and discounts. Revenue from export sales is recognised on the date of bill of lading.

ii. Income from Services:

Revenue is recognised as and when the conversion job is completed irrespective of the billing.

iii. Interest and Guarantee Commission:

Revenue is recognised on a time proportion

Notes

to Consolidated Financial Statements for the year ended 31st March, 2014

basis taking into account the amount outstanding and the rate applicable.

iv. Dividends:

Dividend is recognised when the right to receive payment is established by the balance sheet date.

v. Export Benefits:

Export Entitlements in the form of Duty Drawback on accrual and Duty Entitlement Pass Book (DEPB) Schemes on realisation are recognized in the Statement of Profit and Loss.

vi. Other Sundry Incomes

Insurance claims and conversion escalations are accounted for on realisation.

j) Foreign Currency Transactions

i. Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency on the date of the transaction.

ii. Conversion

Foreign currency monetary items not covered by forward contracts are restated at the exchange rates prevailing at the year end.

iii. Exchange differences

Exchange differences arising, on the settlement of monetary items or on reporting Company's monetary items at rates different from those at which they were initially recorded during the year or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise except those arising from investments in non-integral operations.

iv. Forward Exchange Contracts (Derivative Instruments) not intended for trading or speculation purposes

The Company uses derivative financial

instruments including forward exchange contracts to hedge its risk associated with foreign currency fluctuations. The premium or discount arising at the inception of forward exchange contracts is amortised as expense or income over the life of the contract. Exchange differences on such contracts are recognised in the Statement of Profit and Loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognised as income or as expense for the year.

k) Government Grants and Subsidies

Grants and subsidies from the government are recognised when there is reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with.

When the grant or subsidy relates to an expense item, it is recognised as income over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate. Where the grant or subsidy relates to an asset, its value is deducted from the gross value of the assets concerned in arriving at the carrying amount of the related asset. Government grants in the form of non-monetary assets given at a concessional rate are accounted for on the basis of their acquisition cost.

l) Retirement and Other Employee Benefits

i. Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year.

ii. The Provident Fund is a defined contribution scheme and the contributions are charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective Trusts.

Notes

to Consolidated Financial Statements for the year ended 31st March, 2014

- iii. Short term compensated absences are provided on an estimated basis. Long term compensated absences are provided for based on actuarial valuation on projected unit credit method carried by an actuary as at the end of the year.
- iv. Actuarial gains/losses are immediately taken to Statement of Profit and Loss and are not deferred.
- v. In respect of employees stock options, the excess of fair price on the date of grant, over the exercise price, is recognised as deferred compensation cost and amortised over the vesting period.
- vi. Compensation paid under the company's voluntary retirement scheme is charged to the Statement of Profit and Loss in the year of payment.

m) Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of Fixed Assets, which take substantial period of time to get ready for their intended use, are capitalised. Other Borrowing costs are recognised as an expense in the year in which they are incurred.

n) Segment Reporting Policies

i. Identification of Segments:

The Company's operating businesses are organised and managed separately according to the nature of products, with each segment representing a strategic business unit that offers different products and serves different markets.

The analysis of geographical segment is based on the geographical location of the customers. The geographical segments considered for disclosure are as follows:

- Sales within India include sales to customers located within India.
- Sales outside India include sales to customers located outside India.

ii. Allocation of Common Costs:

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

iii. Unallocated Items:

Includes general corporate income and expense items which are not allocated to any business segment.

o) Earnings per Share (Basic and Diluted)

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

p) Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased assets are classified as operating leases.

Where the Company is the lessee:

Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

Where the Company is the lessor:

Assets subject to operating leases are included in fixed assets. Lease income is recognised in the Statement of Profit and Loss. Costs, including depreciation are recognised as an expense in the Statement of Profit and Loss.

q) Taxes on Income

Current income tax is measured at the amount expected to be paid to the tax authorities in

Notes

to Consolidated Financial Statements for the year ended 31st March, 2014

accordance with the Indian Income Tax Act, 1961 enacted in India. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the Balance Sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. If the Company has carry forward of unabsorbed depreciation and tax losses, deferred tax assets are recognised only, if there is virtual certainty supported by convincing evidence that such deferred tax assets can be realised against future taxable profits.

r) Provisions

A provision is recognised when there is a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date.

These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

s) Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

t) Cash Flow Statement

Cash flows are reported using indirect method. Cash and cash equivalents in the cash flow statement comprise cash at bank, cash/cheques in hand and Fixed Deposits with Banks.

u) Dividends

Dividend as recommended by the Board of Directors is provided for in the accounts pending shareholders/ lending institutions approval wherever applicable

Statement pursuant to Section 102 (1) of the Companies Act, 2013

Item Nos.5 to 9:

Appointment of Sri K.Balarama Reddi, Dr.M.V.G.Rao, Dr.E.R.C.Shekar, Dr.D.Nageswara Rao and Dr.C.V.Madhavi as Independent Directors:

Sri K.Balarama Reddi is a Non-Executive Independent Director of the Company. He joined the Board of Directors of the Company on 25.07.1998. Sri K.Balarama Reddi is Chairman of the Audit Committee, Nomination & Remuneration Committee and also Stakeholders Relationship Committee. He is a Senior Consultant of Administrative Staff College of India for about 10 years. He held special positions like President, Central Board of Irrigation and Power, New Delhi and Chairman of Andhra Pradesh State Electricity Board.

Dr.M.V.G.Rao is a Non-Executive Independent Director of the Company. He joined the Board of Directors of the Company on 25.09.1997. Dr.M.V.G.Rao is a Member of Audit and Nomination & Remuneration Committees. He held senior positions including Chairman and Managing Director of Vera Laboratories, Managing Director of A.P Paper Mills, Executive Director (Operations) of Tamilnadu Newsprint and Papers Limited, etc.

Sri K.Balarama Reddi and Dr.M.V.G.Rao retire by rotation at the Annual General Meeting under the applicable provisions of the erstwhile Companies Act, 1956. In terms of Section 149 and any other applicable provisions of the Companies Act, 2013, Sri K.Balarama Reddi and Dr.M.V.G.Rao, being eligible and offering themselves for appointment, are proposed to be appointed as Independent Directors for a term of five consecutive years effective from the date of forthcoming AGM.

Dr.E.R.C.Shekar is a Non-Executive Independent Director of the Company. He joined the Board of Directors of the Company on 25.09.1997. He held top management positions including Managing Director of Bhilai Steel Plant and Vice Chairman of Steel Authority of India Limited.

Dr.D.Nageswara Rao is a Non-Executive Independent Director of the Company. He joined the Board of Directors of the Company on 25.07.2008. Dr.D.Nageswara Rao is a Member in Audit and Nomination & Remuneration Committees. He is a patron of educational and research institutions and a visiting faculty member at Engineering Staff College of India and Rural Electricity Institute.

Dr.C.V.Madhavi is a Non-Executive Independent Director of the Company. She joined the Board of Directors of the Company on 31.01.2013. She worked with Centre for Organization Development, Hyderabad and provided consultancy to SAIL, VSP, BEL, Power Grid Corporation, Crompton Greaves, etc.

Dr.E.R.C.Shekar, Dr.D.Nageswara Rao and Dr.C.V.Madhavi are also the existing Independent Directors appointed earlier as directors liable to retire by rotation but are not due to retire at the Annual General Meeting and their existing term did not end as at the AGM under the applicable provisions of the erstwhile Companies Act, 1956. Pursuant to the provisions of Section 149 of the Companies Act, 2013 (the Act), the Independent Directors are to be appointed for a term upto 5 consecutive years and they are not liable to retire by rotation. The present tenure of the Independent Directors on the date of commencement of the Act shall not be counted as a term under Section 149 of the Act. It is therefore proposed to appoint Dr.E.R.C.Shekar, Dr.D.Nageswara Rao and Dr.C.V.Madhavi as Independent Directors for a term of 5 consecutive years and not liable to retire by rotation.

The Profiles of the Directors seeking appointment / re-appointment with details as required under Clause 49 of the Listing Agreement are annexed.

The Company has received notice in writing under the provisions of Section 160 of the Companies Act, 2013, from members and is receiving deposits of ₹ 1,00,000/- each proposing the candidatures of Sri K.Balarama Reddi, Dr.M.V.G.Rao, Dr.E.R.C.Shekar, Dr.D.Nageswara Rao and Dr.C.V.Madhavi for the office of Independent Directors, to be appointed as such under the provisions of Section 149 of the Companies Act, 2013.

The Company has received from each of the five aforesaid Independent Directors (i) consent in writing to act as director in Form DIR-2 pursuant to Rule 8 of Companies (Appointment and Qualification of Directors) Rules, 2014 (ii) intimation in Form DIR-8 in terms of Companies (Appointment and Qualification of Directors) Rules, 2014 to the effect that each is not disqualified under sub-section (2) of Section 164 of the Companies Act, 2013 and (iii) a declaration to the effect that each one meets the criteria of independence as provided in sub-section (6) of Section 149 of the Companies Act, 2013.

The resolutions seek the approval of members separately for the appointment of each of the five Independent Directors as Independent Directors of the Company for a term of five consecutive years effective from the date of forthcoming AGM pursuant to Section 149 and other applicable provisions of the Companies Act, 2013 and the Rules made thereunder. They are not liable to retire by rotation.

In the opinion of the Board, all the five Independent Directors fulfill the conditions specified in the Companies Act, 2013 and Rules made thereunder for their appointment as Independent Directors of the Company and they are independent of the Management. Copy of the draft letter for appointment of each of them as Independent Director setting out the terms and conditions would be available for inspection without any fee by the members at the Registered Office of the Company during normal business hours on any working day.

The Board considered that their continued association would be of immense benefit to the Company and it is desirable to continue to avail their services as Independent Directors. Accordingly, the Board recommended the resolutions in relation to appointment of five Independent Directors, for the approval by the Shareholders of the Company.

Except Sri K.Balarama Reddi, Dr.M.V.G.Rao, Dr.E.R.C.Shekar, Dr.D.Nageswara Rao and Dr.C.V.Madhavi being appointees, none of the other Directors and Key Managerial Personnel of the Company and their relatives are concerned or interested in anyway, financial or otherwise, in the resolutions set out at Item Nos.5 to 9 respectively.

INDEPENDENT AUDITOR'S REPORT

To the Members of NAVA BHARAT VENTURES LIMITED, HYDERABAD.

Report on the Financial Statements:

We have audited the accompanying financial statements of NAVA BHARAT VENTURES LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2014, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements:

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"), read with the General Circular 15/2013 dated 13th September 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility:

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Page 1 of 2

Opinion:

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a. in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
- b. in the case of the Statement of Profit and Loss, of the Profit for the year ended on that date; and
- c. in the case of the Cash Flow Statement, of the cash flows for the year ended on that date

Report on Other Legal and Regulatory Requirements:

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by section 227(3) of the Act, we report that:
 - a. we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b. in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books ;
 - c. the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - d. in our opinion, the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement comply with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956; read with the General Circular 15/2013 dated 13th September 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013.
 - e. On the basis of written representations received from the directors as on March 31, 2014, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.
 - f. Since the Central Government has not issued any notification as to the rate at which the cess is to be paid under section 441 A of the Companies Act, 1956 nor has it issued any Rules under the said section, prescribing the manner in which such cess is to be paid, no cess is due and payable by the Company.

Annexure to the Auditor's Report:

The Annexure referred to in Para 1 under the heading of "Report on Other Legal and Regulatory Requirements" of our report of even date ,to the members of NAVA BHARAT VENTURES LIMITED, HYDERABAD, for the year ended March 31,2014.,

1. a. The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
b. As explained to us, the management has physically verified the fixed assets during the year and there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of the assets. No discrepancies were noticed on such verification.
c. The plant and machinery disposed off during the year by the Company is not substantial and hence, it has not affected the going concern status of the Company.
2. a. The inventory has been physically verified during the year by the management. In our opinion, the frequency of verification is reasonable.
b. In our opinion, the procedures of physical verification of inventories followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
c. The Company is maintaining proper records of inventory. The discrepancies noticed on physical verification between the physical stocks and book records were not material.
3. a. During the year, the Company has neither granted nor taken any loans, secured or unsecured to/from Companies, firms or other parties covered in the register maintained under Section 301 of the Companies Act, 1956.
b. In view of our comment in paragraph (a) above, (III) (b), (c), (d), (e), (f) and (g) of paragraph 4 of the aforesaid order are not applicable to the Company.
4. In our opinion and according to the information and explanations given to us, there are adequate internal control systems commensurate with the size of the Company and the nature of its business with regard to purchase of fixed assets. During the course of our audit, we have not observed any continuing failure to correct major weaknesses in internal control system.
5. a. In our opinion and according to the information and explanations given to us by the Management, we are of the opinion that the particulars of contracts or arrangements referred to in section 301 of the Companies Act, 1956 have been entered in the register to be maintained under that section.
b. In respect of the transactions made in pursuance of such contracts or arrangements exceeding value of Rupees five lakhs entered into during the financial year, in the absence of any comparable quotes, we are unable to comment whether the transactions were made at prevailing market prices at the relevant time.
6. The Company has not accepted any deposits from the public. Hence the provisions of Section 58A and 58AA or any other relevant provisions of the Companies Act, 1956, and the Companies (Acceptance of Deposits) Rules, 1975, do not apply to this Company.
7. In our opinion, the Company has an internal audit system commensurate with its size and nature of its business.

8. We have broadly reviewed the cost records maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under section 209 (1) (d) of the Companies Act, 1956 in respect of sugar, distillery, power and Ferro alloys and are of the opinion that prima facie the prescribed accounts and records have been made and maintained. We have however not made a detailed examination of the cost records with a view to determine whether they are accurate or Complete. The Central Government has not prescribed the maintenance of cost records under section 209 (1) (d) of the Companies Act, 1956 for any other products of the Company.
9. a. According to the records of the Company, the Company is regular (but for what is stated in Para (b) below) in depositing with appropriate authorities undisputed statutory dues including Provident Fund, Investor Education and Protection Fund, Employees' State Insurance, Income-tax, Sales-tax, Wealth Tax, Service Tax, Custom Duty, Excise Duty, Cess and other material statutory dues applicable to it.
- b. According to the information and explanations given to us, no undisputed amounts payable in respect of Income Tax, Wealth Tax, Sales Tax, Customs Duty, Excise Duty and Cess were in arrears as at March 31, 2014 for a period of more than six months from the date they became payable except the following:

Name of the Statute	Nature of the dues	Amount ₹	Period to which the amount relates	Due Date	Date of payment

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of NAVA BHARAT VENTURES LIMITED, HYDERABAD.

We have audited the accompanying consolidated financial statements of NAVA BHARAT VENTURES LIMITED ("the Company"), and its subsidiaries, which comprise the consolidated Balance Sheet as at March 31, 2014, the consolidated Statement of Profit and Loss and consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements:

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Company in accordance with the Accounting Principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility:

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion:

In our opinion and to the best of our information and according to the explanations given to us and based on consideration of the reports of the other auditors and Management Certificates on the consolidated financial statements of the subsidiaries as stated below, the consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- a. in the case of the consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2014;
- b. in the case of the consolidated Statement of Profit and Loss , of the Profit for the year ended on that date; and
- c. in the case of the consolidated Cash Flow Statement, of the cash flows for the year ended on that date

Other Matters:

We did not audit the consolidated financial statements of one of the subsidiaries viz., Nava Bharat (Singapore) Pte. Ltd. Singapore (the group), whose financial statements reflect total assets of USD 387,260,565 equivalent to Rs. 232,007.82 Lakhs, total revenue of USD 59,241,588 equivalent to Rs. 35,491.62 Lakhs and net cash flows amounting to USD (6,849,024) equivalent to Rs. (4,103.25) Lakhs .The consolidated financial statements as per the Indian GAAP , of the said subsidiary for the year ended 31st March, 2014 were certified and furnished to us by the Management . Out of the 8 Companies considered for Consolidation only 2 Companies viz. Nava Bharat (Singapore) Pte. Limited and Maamba Collieries Limited, whose financial statements reflect total assets of USD 477,418,098 equivalent to Rs. 286,021.18 Lakhs, total revenue of USD 59,241,588 equivalent to Rs. 35,491.64 Lakhs and net cash flows amounting to USD (6,902,932) equivalent to Rs. (4,135.55) Lakhs have been audited by other auditors whose reports have been furnished to us and for other 6 Companies the Management has certified the financial information as no audit is required in the Countries where the said Companies are located.

The auditors of Nava Bharat (Singapore) Pte. Ltd. Singapore (the Company) without qualifying their opinion on the financial Statements drew the attention to the following .

1. *Financial support from holding company for working capital and loans:*

The Company is dependent on its holding company to give financial support for its ongoing Investments. In addition, the subsidiaries were in their preliminary stages of operations. Therefore, the validity of the going concern assumption on which the financial statements are prepared depends on the successful generation of income from these new businesses and continuous availability of the financial support from the holding company. The holding company undertakes to give continuous financial support to meet its obligation as and when required.

2. *Amount due from subsidiaries:*

As mentioned above, the subsidiaries are in their initial stages of operations. The amounts due from subsidiaries are dependent on the outcome of their business and the directors are of the view that the business of these subsidiaries will be successful. In the event that these outcomes are not favourable, allowances for impairment for these receivables need to be done during subsequent years.

3. *Legal and other expenses claims:*

The Company is involved in lawsuits for claims against third parties amounting to US\$ 7,058,735 equivalent to Rs. 4,228.89 Lakhs. The Management is of the view that it has ground to these claims and based on their lawyer's assessment, the management believes it has strong case against the third parties. Should the event turns out adversely in subsequent years, the legal and other expenses including the claims recoverable will be expensed off.

Our opinion, insofar as it relates to the amounts included in respect of these subsidiaries is solely based on and subject to the report of the other auditors and Management. Our opinion is not qualified in respect of this matter.
