C. SPECIAL PROVISIONS OF SECTION 206AB OF THE INCOME TAX ACT, 1961

(For non-filers of tax return - For resident shareholders and selected non-resident shareholders)

The provisions of Section 206AB of the Income Tax Act, 1961 prescribes for TDS in case of 'specified person'. The term 'specified person' is defined in sub-section (3) of Section 206AB and covers the persons who meet the following conditions:

- A person who has not furnished the return of income for the assessment year relevant to the previous year immediately preceding the financial year in which tax is required to be deducted, for which the time limit for furnishing the return of income under sub-section (1) of section 139 has expired; and
- The aggregate of tax deducted at source and tax collected at source in his/her case is Rs. 50,000 (Rupees Fifty Thousand) or more in the said previous year.

TDS is required to be deducted at higher of following rates in case of payments to specified persons:

- twice the rate specified in the relevant provision of the Income Tax Act, 1961; or
- twice the rate or rates in force; or
- the rate of 5%

As per the provisions of newly introduced Section 206AB, the verification as required under this section will be done by the Company from the Income Tax portal and applicable tax will be deducted. The decision of the Company in this respect will be final and for any refund of tax, the shareholder has to file the return of income and claim tax refund.

Members holding shares under multiple accounts under different status / category and single PAN, may note that, higher of the tax as applicable to the status in which shares held under a PAN will be considered on their entire holding in different accounts. In case of joint shareholding, the shareholder named first in the Register of Members is required to furnish the requisite documents for claiming any applicable beneficial tax rate.

Members may note that in case the tax on said dividend is deducted at a higher rate in absence of timely receipt, or insufficiency/incompleteness/incorrectness of the aforementioned details/documents from you, an option is available to you to file the return of income as per the Income Tax Act, 1961 and claim an appropriate refund, if eligible.

No claim shall lie against the Company for such tax deductions.

10. Updation of mandate for receiving dividend directly in bank account through Electronic Clearing System or any other means in a timely manner:

SEBI has made it mandatory for all companies to use the bank account details furnished by the Depositories and/or the bank account details maintained by the RTA for payment of dividend to members electronically.

The Company has extended the facility of electronic credit of dividend directly to the respective bank accounts of the Member(s) through the National Electronic Clearing Service (NECS)/ National Electronic Fund Transfer (NEFT)/Real Time Gross Settlement (RTGS)/Direct Credit, etc.

Further, the members holding shares in physical form may kindly note that SEBI vide Master Circular No. SEBI/HO/MIRSD/POD-1/P/ CIR/2024/37 dated May 7, 2024 issued to the Registrar and Transfer Agents read with SEBI Circular No. SEBI/HO/MIRSD/POD-1/P/ CIR/2024/81 dated June 10, 2024, SEBI Circular No. SEBI/ HO/MIRSD/POD-1/P/CIR/2023/181 dated November 17, 2023, directive e-mail dated 17.01.2024 to the RTA(s) and FAQs dated 17.01.2024 has mandated that dividend shall be paid only through electronic mode with effect from April 01, 2024. In case of non-updation of PAN or Contact Details or Mobile Number or Bank Account Details or Specimen Signature in respect of physical folios, dividend/interest etc. shall be paid only through electronic mode with effect from April 01, 2024 upon furnishing all the aforesaid details in entirety. Therefore, members are requested to update their details with Company/ RTA/DP in following manner:

Shares held in physical form: In order to receive dividend in a timely manner, members holding shares in physical form who have not updated their mandate for receiving the dividends directly in their bank accounts through Electronic Clearing Service or any other means ("Electronic Bank Mandate"), can register their Electronic Bank Mandate to receive dividends directly into their bank account electronically or any other means, by submitting the hard copies of the following details/ documents to the company's RTA:

- a) Form ISR-1 & ISR-2 along with supporting documents. The said forms are available on the company's website at <https://sswllindia.com/investors/investor-service-request/> and at RTA's website at <https://web.in.mpms.mufg.com/KYC-downloads.html>
- b) Cancelled cheque in original, bearing the name of the member or first holder, in case shares are held jointly; In case name of the holder is not available on the cheque, kindly submit the following documents:

Shares held in demat form: Members holding shares in electronic form may note that the bank particulars registered against their respective depository accounts will be used by the Company for payment of dividend. The Company or its RTA cannot act on any request received directly from the members holding shares in electronic form for any change of bank particulars or bank mandates. Such changes are to be advised only to the Depository Participant(DP) of the members. Accordingly, the Members holding shares in demat form are requested to update their Electronic Bank Mandate with their respective DPs.

11. Nomination Facility: As per the provisions of Section 72 of the Act, the facility for making nomination is available for the Members in respect of the shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting Form SH-13. If a Member desires to opt out or cancel the earlier nomination and record a fresh nomination, he/she may submit the same in Form ISR-3 or Form SH-14, as the case may be. The said forms are available on the Company's website at <https://sswllindia.com/investors/investor-service-request/> and at RTA's website at <https://web.in.mpms.mufg.com/KYC-downloads.html>. Members are requested to submit the said form(s) to their respective DP, in case the shares are held in electronic form and to the Company's RTA in case the shares are held in physical form.

Further, the Company in compliance to the SEBI circulars has sent individual letters to the members holding shares in physical form for furnishing their PAN or Contact Details (Postal Address with PIN code) or Mobile Number or Bank Account Details or Specimen Signature alongwith Email-id and nomination details.

12. Transfer, Transmission, Transposition, Dematerialization of shares and all other investor related matters are attended to and processed by the Company's RTA:

As per Regulation 40 of the SEBI (LODR) Regulations, 2015, securities of listed companies can be transferred only in dematerialized form.

Further, SEBI in continuation of its efforts to enhance ease of dealing in securities market by investors vide its Circular No. SEBI/HO/ MIRSD/MIRSD_RTAMB/P/CIR/2022/8 dated January 25, 2022 read with SEBI/HO/MIRSD/POD-1/P/CIR/2024/37 dated May 07, 2024 and SEBI/HO/MIRSD/POD-1/P/CIR/2024/81 dated June 10, 2024, has mandated the listed entities to issue securities for the following service requests only in dematerialized form:

- i. Issue of duplicate securities certificate;
- ii. Claim from Unclaimed Suspense Account;

- iii. Renewal/ Exchange of securities certificate;
- iv. Endorsement; Sub-division/Splitting of securities certificate;
- v. Consolidation of securities certificates/folios;
- vi. Transmission and Transpositions

In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, Members holding shares in physical form are requested to consider converting their holdings to dematerialized form. Accordingly, the members are requested to make service request by submitting a duly filled and signed Form No. ISR-4, the format of which is available on the Company's website at <https://sswliindia.com/wp-content/themes/ssw/assets/docs/Form-ISR-4.pdf> and on the website of RTA at <https://web.in.mpms.mufig.com/KYC-downloads.html>. Members are requested to note that any service request would only be processed after the folio is KYC Compliant.

Members may also contact the Company's RTA, M/s MUFG Intime India Pvt. Ltd. (Formerly known as Link Intime India Pvt. Limited), at Noble Heights 1st Floor, Plot No. NH-2, C-1 Block, LSC Near Savitri Market, Janakpuri, New Delhi 110058, Phone No. 011-49411000, e-mail - delhi@in.mpms.mufig.com for assistance in this regard.

13. To prevent fraudulent transactions, members are advised to exercise due diligence and notify the Company of any change in address or demise of any member as soon as possible. Members are also advised to not leave their demat account(s) dormant for long. Periodic statement of holdings should be obtained from the concerned DP and holdings should be verified from time to time.

19. **Investor Education and Protection Fund (IEPF) related information:**

Pursuant to section 124, 125 and applicable provisions of the Act read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("the Rules"), all unpaid or unclaimed dividends are required to be transferred by the Company to the Investor Education and Protection Fund (IEPF) Authority established by the Central Government, after completion of seven years from the date of transfer to Unclaimed Dividend Account of the Company. Further, according to the Rules, the shares in respect of which dividend has not been paid or claimed by the shareholders for seven(7) consecutive years or more shall also be transferred to the de-mat account of the IEPF Authority. The said requirement does not apply to shares in respect of which there is a specific order of Court, Tribunal or Statutory Authority, restraining transfer of the shares.

In view of this, members who have not encashed their dividends are requested to claim the same from the Company, within the stipulated timeline. Also, the members, whose unclaimed dividends/shares have been transferred to IEPF, may claim the same by making an online application to the IEPF Authority in web Form No. IEPF-5 available on www.iepf.gov.in / www.mca.gov.in. For details, please refer to Corporate Governance Report, which is a part of this Annual Report.

During the year under review, the Company had sent individual notices and also advertised in the newspapers i.e. both national (English) and local (Punjabi) seeking action from the shareholders who have not claimed their dividends for seven years or more. Accordingly, the Company had transferred the unclaimed/unpaid dividend for the FY 2016-17 (Final Dividend) and corresponding shares to the IEPF Authority as follows:

Particulars	Amount of Dividend	No. of shares (FV Rs. 1/-)
2016-17 (Final Dividend)	Rs. 9,55,164.00	89329

During the financial year (FY) 2025-26, the company would be transferring unpaid or unclaimed dividend amount for the FY 2017-18 (Final Dividend) within 30 days from the due date of transferring the amount to IEPF i.e. 03.11.2025. Further, the Company is also required to transfer the shares in respect of which dividends have not claimed for seven (7) consecutive years from the FY 2017-18 (Final Dividend) to the demat account of the IEPF Authority. The Company has given individual intimations to concerned shareholders indicating that such shares shall be transferred to IEPF Authority and also advertised in the newspapers seeking action from said shareholders. Accordingly, the concerned members are requested to claim the unpaid or unclaimed dividend for FY 2017-18 (Final Dividend) on or before due date for transfer to IEPF.

Members are requested to note the following date(s) for claiming the unpaid or unclaimed dividend declared by the company for the FY 2017-18 and thereafter:

Financial year	Date of Dividend	Dividend per share (in Rs.)	Due date for transfer to IEPF
2017-18	28-09-2018	4.00	03-11-2025
2018-19	30-09-2019	4.00	05-11-2026
2020-21	30-09-2021	2.00	05-11-2028
2021-22	30-09-2022	3.75	05-11-2029
2022-23	23-08-2023	1.00	29-09-2030
2023-24	30-09-2024	1.00	05-11-2031

Further, IEPF Authority, under the Ministry of Corporate Affairs, has launched a 100-day campaign titled "Saksham Niveshak", running from 28th July, 2025 to 6th November, 2025. In reference with the same, it is specially reminded to update KYC and bank details to claim Equity Shares and Unpaid/Unclaimed Dividend prior to the transfer to the IEPF. We request you to kindly register/update your KYC and bank account details with RTA/your Depository Participant to receive the dividend electronically. The dividend payment will be processed if the request is found appropriate in all respects. In case of any discrepancies or if the documents are inadequate/incomplete, the request is liable to be rejected and the Company will proceed to transfer the unclaimed dividend(s) for the aforementioned years along with the corresponding shares in respect of which dividend has not been claimed for seven consecutive years to the IEPF as per applicable regulations. Kindly note that no claim shall lie against the Company in respect of shares or dividend transferred to the IEPF as per the aforesaid rules. The concerned shareholders may approach the IEPF Authority to claim the transferred dividend amount and shares as prescribed under the IEPF Rules.

20. The **cut-off date** for the purpose of determining the members eligible for participating in remote e-voting (e-voting from a place other than venue of the AGM) and voting at the AGM is **23.09.2025**. Please note that the members can opt for only one mode of voting i.e., either by voting at the meeting or remote e-voting. If members opt for remote e-voting, then they should not vote at the Meeting. However, once e-voting on a resolution is cast by a Member, such member is not permitted to change it subsequently or cast the vote again. Members, who have cast their vote by remote e-voting prior to the date of the Meeting, can attend and participate in the Meeting but shall not be entitled to cast their vote again.
21. **Intimation of details of the agreement, if any, under the SEBI (LODR) Regulations, 2015:** Members are informed that in terms of the provisions of the SEBI (LODR) Regulations, 2015, the Company is required to intimate the Stock Exchanges the details of the agreements entered into by the shareholders, promoter(s), members of the promoter(s) group, related parties, directors, key managerial personnel, employees of the Company or of its holding, subsidiary or associate company, among themselves or with the Company or with a third party, solely or jointly, which, either directly or indirectly or potentially or whose purpose and effect is to, impact the management or control of the Company or impose any restriction or create any liability upon the Company, including disclosure of any rescission, amendment or alteration of such agreements thereto, whether or not the Company is a party to such agreements.

Accordingly, it is hereby advised to the members to inform the Company about such agreement to which the Company is not a party, within two (2) working days of entering into such agreements or signing an agreement to enter into such agreements. The Company will inform the details of such agreements to the Stock Exchanges on it becoming aware of it within the prescribed timelines.

[Explanation: For the purpose of this clause, the term "directly or indirectly" includes agreements creating an obligation on the parties to such agreements to ensure that the listed entity shall or shall not act in a particular manner.]

22. **Special Window For Re-Lodgement Of Transfer Requests Of Physical Shares:**

Pursuant to Securities and Exchange Board of India ("SEBI") Circular No. SEBI/HO/MIRSD/MIRSD-PoD/P/CIR/2025/97 dated July 2, 2025, investors of the company are hereby informed that a Special Window for re-lodgment of transfer requests of physical shares has been opened for a period of six (6) months i.e. from July 7, 2025 till January 6, 2026. Investors who had submitted transfer requests for physical shares prior to April 1, 2019 (the date from which transfer of securities in physical form was discontinued), and whose requests were rejected or returned due to deficiencies in documents/process/or otherwise, are now provided an opportunity to re-lodge such transfer requests.

Eligible investors may re-lodge their earlier requests with the Registrar and Share Transfer Agent ("RTA") of the Company i.e MUFG Intime India Private Limited (formerly known as Link Intime India Private Limited) along with requisite documents and rectifying deficiency, if any, during the aforementioned Special Window period and may send the documents to the Company or RTA of the Company i.e MUFG Intime India Private Limited (Formerly known as Link Intime India Pvt Ltd).

23. Voting through electronic means

Pursuant to the provisions of Section 108 of the Act read with Rule 20 of the Companies (Management and Administration) Rules, 2014 as amended from time to time and Regulation 44 of the SEBI (LODR) Regulations, 2015, as amended from time to time, the Company is pleased to provide members, a facility to exercise their right to vote on the resolutions proposed to be passed in the 39th AGM by electronic means through remote e-voting services provided by MUFG Intime India Private Limited (hereinafter "MIPL" or "RTA") through their e-voting website "InstaVOTE". It may be noted that this e-voting facility is optional. Since the Company is providing the facility of remote e-voting to the shareholders, there shall be no voting by show of hands at the said meeting.

The instructions to Members for voting electronically are as under:

- a. **The remote e-voting period will commence on Saturday, 27.09.2025 at 9:00 a.m. (IST) and will end on Monday, 29.09.2025 at 5:00 p.m. (IST).** During this period members of the Company, holding shares either in physical form or in dematerialized form, as **on the cut-off date i.e. Tuesday, 23.09.2025**, may cast their vote electronically. The remote e-voting module shall be disabled by MIPL for voting thereafter. The members are requested to note that once vote on a resolution is cast electronically, he/she shall not be allowed to change it subsequently or cast vote again.
- b. The voting rights of members shall be in proportion to their shares in the paid-up equity share capital of the Company as on cut-off date. A person, whose name is recorded in the Register of Members or in the Register of Beneficial Owners maintained by the depositories as on the cut-off date only shall be entitled to avail the facility of remote e-Voting as well as voting at the meeting through ballot paper.
- c. Further, pursuant to SEBI circular dated December 9, 2020 on e-Voting facility provided by Listed Companies, the Individual shareholders holding securities in demat mode can register directly with the depository or will have the option of accessing various E-voting Service Providers ("ESPs") portals directly from their demat account.
- d. EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013 ("THE ACT"), SECRETARIAL STANDARD ON GENERAL MEETINGS (SS-2) AND REGULATION 36 OF THE SEBI (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2015 {"SEBI (LODR) REGULATIONS, 2015"}

ITEM NO. 5

Sh. Rajinder Kumar Garg (DIN: 00034827, presently aged 82 years), Chairman and Non-Executive Director of the Company, retires by rotation at this Annual General Meeting ("AGM") and being eligible offers himself for re-appointment under Item No. 3 of this Notice.

Pursuant to Regulation 17(1A) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 {SEBI(LODR) Regulations, 2015}, no listed entity shall appoint a person or continue the directorship of any person as a Non-Executive Director who has attained the age of 75 (seventy five) years unless a special resolution is passed to that effect, in which case the explanatory statement annexed to this notice for such motion shall indicate the justification for appointing such a person.

Sh. Rajinder Kumar Garg has attained the age 75 (seventy-five) years. Thus, as per Regulation 17(1A) of SEBI (LODR) Regulations, 2015, he will be able to continue to hold the directorship as Chairman and Non-Executive Director, only on the approval of the Members of the Company by way of Special Resolution.

The Board of Directors of the Company is of opinion that Sh. Rajinder Kumar Garg is a person of integrity, having vast experience & relevant expertise. He is one of the promoters of the Company and has been associated with the Company since inception in 1985 when the first plant of the Company was conceived at Dappar (Punjab). He started his career in the government service and ventured into his own business in the year 1975. He is an industrialist and is a technocrat with almost five decades of rich experience across various industrial fields including Steel, Acrylics Fibre, Automotive wheel rims, civil constructions and other allied activities. Under his visionary leadership and extensive industry knowledge, the Company has consistently benefitted and achieved significant growth and success over the years and his continued association would be of immense benefit to the Company and it is desirable to avail his services as the Chairman and Non-Executive Director

of the Company. Hence, in view of his rich experience and contributions throughout his association with the Company and on the recommendation of the Nomination and Remuneration Committee, the Board considered the continuation of his directorship as justified.

Accordingly, the Board of Directors of the company recommends, the continuation of directorship of Sh. Rajinder Kumar Garg as the Chairman and Non-Executive Director of the Company till the date he retires by rotation in terms of Section 152 of the Companies Act, 2013 ("the Act"), to the members for their consideration and approval by way of **Special Resolution** as set out in **Item No. 5** of this Notice.

A brief resume of Sh. Rajinder Kumar Garg and additional disclosures as required under the Act, Secretarial Standard-2 and Regulation 36 of the SEBI (LODR) Regulations, 2015 are provided in Annexure I to this Notice.

None of the Directors and/or Key Managerial Personnel of the Company or their relatives, except Sh. Rajinder Kumar Garg himself and Sh. Dheeraj Garg, Managing Director of the Company (relative of Sh. Rajinder Kumar Garg) is in any way concerned or interested financially or otherwise in the resolution mentioned at Item No. 5 of this Notice.

ITEM NO. 6

Sh. Siddharth Bansal (DIN: 02909820) was appointed as an Independent Director of the company by the members of the Company at their 35th Annual General Meeting held on 30.09.2021 for the period commencing from 09.11.2020 to 30.09.2025. Thus, his first term of appointment as an Independent Director is coming to an end on 30.09.2025.

In terms of the Section 149(10) of the Act and Regulation 25(2A) of the SEBI(LODR) Regulations, 2015, a special resolution is required to be passed by the members of the Company for the re-appointment of an Independent Director for the second term.

Sh. Siddharth Bansal is a qualified Chartered Accountant (CA) (All India 35th Rank holder) and also holds Post Graduate Diploma in Banking and Finance (PGDBF), a graduate degree in commerce (B.Com) and a Certificate in Investment Performance Measurement (CIPM). Presently, he is associated as a partner with M/s. Bansal & Co. LLP, a five decades old Chartered Accountancy firm based out of New Delhi. He has 20 years of work experience and specializes in IFRS, US GAAP, Ind-AS, Audit Support and Process improvement spanning across clients in Hospitality, Real-Estate, Manufacturing, IT services and NBFC sectors. He has previously worked in core EY audit function for about 7 years and has been delivering trainings in IFRS, Ind-AS, financial statement audit to senior professionals as a part of EY learning. He has led and been part of audit and the IPO / transaction engagements of large companies. He has also led audit and advisory engagements in IT sector involving US GAAP, IND AS, merger and de-merger activities. Furthermore, he has also led engagements involving preparation of audit schedules, performing procedures as agreed by the management on such schedules, review of carve out financials for a large companies in manufacturing and financing sectors.

During his first term as the Independent Director of the Company, he provided valuable insights towards the company's strategic and accounting matters. His experience and professional judgement have significantly benefitted the Board's functioning.

The Company has received a notice in writing from a member under Section 160(1) of the Act proposing his candidature.

Based on the performance evaluation and taking into consideration the skills, expertise and competencies required for the Board in the context of the business of the Company, the Nomination and Remuneration Committee(NRC) concluded and recommended to the Board that Sh. Siddharth Bansal's qualifications and the rich experience align with the skills and capabilities required for the role of Independent Director of the Company as specified in the Act and the SEBI (LODR) Regulations, 2015, as amended from time to time. The Board is also of the opinion that Sh. Siddharth Bansal is independent of the management and possesses the identified core skills, expertise, and competencies fundamental for effective functioning as an Independent Director of the Company. Considering his valuable contributions, continued association with the company for the second term is considered to be in the best interest of the company.

The Board, on the recommendation of the NRC and subject to the approval of the members, has approved the re-appointment of Sh. Siddharth Bansal (DIN: 02909820) as an Independent Director of the Company for the second term of five (5) consecutive years effective from 01.10.2025 to 30.09.2030 and whose period of office shall not be liable to retire by rotation in terms of section 152 of the Act.

Further, the Company has received all statutory declarations/disclosures from Sh. Siddharth Bansal including the following:

- a declaration that he meets the criteria of independence as prescribed under Section 149(6) of the Act, read with the rules framed thereunder and Regulation 16(1)(b) of the SEBI (LODR) Regulations, 2015;
- consent to act as a Director in terms of Section 152 of the Act;
- confirmation that he is neither disqualified from being re-appointed as a Director in terms of Section 164 of the Act nor debarred from holding the office of Director pursuant to any Order issued by Securities and Exchange Board of India (SEBI) or any such other authority;
- confirmation that he is not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact his ability to discharge his duties with an objective independent judgment and without any external influence in terms of Regulation 25(8) of the SEBI (LODR) Regulations, 2015;
- confirmation that he has complied with the requirements of Independent Director's Databank maintained by Indian Institute of Corporate Affairs (IICA) in terms of Section 150 of the Act.

Accordingly, the Board of Directors of the company recommends the re-appointment of Sh. Siddharth Bansal as an Independent Director of the Company, for the second term of five (5) consecutive years effective from 01.10.2025 to 30.09.2030 and whose period of office shall not be liable to retire by rotation in terms of section 152 of the Act, to the members for their consideration and approval by way of **Special Resolution** as set out at **Item No. 6** of this Notice.

A copy of the draft letter of re-appointment of Sh. Siddharth Bansal, setting out terms and conditions of re-appointment is available for inspection by the members of the Company at the Registered Office & Corporate Office of the Company between 9:00 a.m. to 5:00 p.m. (IST), on all working days (except Saturdays, Sundays and Public Holidays), up to the date of the AGM and shall also be available during the AGM at the venue thereof. Further, the same is also available on the website of the company at <https://sswlindia.com/investors/terms-and-conditions-of-appointment-of-independent-director/>.

A brief resume of Sh. Siddharth Bansal and additional disclosures as required under the Act, Secretarial Standard-2 and Regulation 36 of the SEBI (LODR) Regulations, 2015 are provided in *Annexure I to this Notice*.

Except Sh. Siddharth Bansal and his relatives to the extent of their shareholding interest, if any, in the Company, none of the other Director(s)/ Key Managerial Personnel (KMP) of the Company/their relatives, are in any way, concerned or interested, financially or otherwise in the resolution set out at Item No. 6 of the Notice.

ITEM NO. 7

In accordance with the provisions of Section 204 and other applicable provisions of the Act read with Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, and Regulation 24A of the SEBI (LODR) Regulations, 2015, Sh. Sushil Kumar Sikka, Practicing Company Secretary (Membership No. FCS 4241, Certificate of Practice No. 3582 and Peer Review Certificate no.: 1057/2021) proprietor of M/s S.K. Sikka & Associates has served as Secretarial Auditor of the Company for the financial year 2024-25.

The provisions of Regulation 24A of the SEBI (LODR) Regulations, 2015, were amended vide Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) (Third Amendment) Regulations, 2024, which, inter alia, state that with effect from 01.04.2025, every listed entity is required to appoint a Practicing Company Secretary for not more than one term of five consecutive years or a firm of Practicing Company Secretaries as Secretarial Auditors for not more than two terms of five consecutive years, with the approval of the members at its Annual General Meeting ("AGM") and such Secretarial Auditor(s) must be a peer reviewed company secretary and should not have incurred any of the disqualifications as specified under the SEBI (LODR) Regulations, 2015. Further, the said regulation also provides that any association of the individual or the firm as the Secretarial Auditor(s) of the Company before 31.03.2025 shall not be considered for the purpose of calculating the tenure of the Secretarial Auditor(s).

Sh. Sushil Kumar Sikka, is a fellow member (Membership No. FCS 4241 and Certificate of Practice no. 3582) of the Institute of Company Secretaries of India, based in Chandigarh. He also holds Post Graduate degree in Commerce. He has almost 34 years of post qualification work experience. In the initial days of his professional career, he worked as Company Secretary in public limited companies. Later, in the year 2001, he started his journey as Practicing Company Secretary under the name of M/s. S. K. Sikka and Associates registered as sole proprietorship. The sole proprietorship firm is primarily engaged in providing professional services in the field of Corporate Laws, SEBI Regulations, FEMA Regulations including carrying out Secretarial Audits, Due Diligence Audits and Compliance Audits for various reputed Government, Private as well as Public Limited Companies. M/s. S. K. Sikka and Associates, the sole proprietorship firm is Peer Reviewed and Quality Reviewed by the Institute of the Company Secretaries of India (ICSI) and have not incurred any of disqualifications as specified by the Securities and Exchange Board of India (SEBI). M/s. S.K. Sikka & Associates had consented to its appointment as the Secretarial Auditor of the Company and have confirmed that they fulfil the criteria as specified in Clause (a) of Regulation 24A (1A) of the SEBI (LODR) Regulations, 2015.

Accordingly, taking into account the above requirements and the consideration of factors such as technical skills, independence, industry experience, expertise, quality of audit practices, and past association with the Company and on the recommendation of the Audit Committee, the Board, at its Meeting held on 01.08.2025, subject to the approval of the Members of the Company, approved the appointment of Sh. Sushil Kumar Sikka, Practicing Company Secretary (Membership No. FCS 4241, Certificate of Practice No. 3582 and Peer Review Certificate no.: 1057/2021) proprietor of M/s S.K. Sikka & Associates as the Secretarial Auditor of the Company, to hold office for a term of five (5) consecutive years from the conclusion of this 39th Annual General Meeting till the conclusion of the 44th Annual General Meeting of the Company to be held in the year 2030, covering the period commencing from the April 01, 2025 to March 31, 2030, on such annual remuneration plus applicable taxes, out of pocket expenses, travelling expenses, etc; as recommended by the Audit Committee and as may be mutually agreed between the Board of Directors of the Company and the Secretarial Auditor, from time to time.

None of the Director(s) and/or Key Managerial Personnel (KMP) of the Company or their relatives, are in any way, concerned or interested, financially or otherwise in the resolution mentioned at **Item No. 7** of this Notice.

Accordingly, the Board recommends to the members, the appointment of Secretarial Auditor by way of **Ordinary Resolution** as set out in **Item No. 7** of this Notice.

FINANCIAL PERFORMANCE AND STATE OF AFFAIRS OF THE COMPANY

During the financial year 2024-25, the global economy exhibited steady yet uneven growth across regions. Geopolitical tensions have reshaped global trade. Geopolitical risk and policy uncertainty, especially around trade policies, have contributed to increased volatility in global financial market. The US unleashed a major upheaval of global trade through an imposition of enhanced tariffs across all countries with whom international trade with the US occurs. The US initiatives are changing by the day and uncertainty prevails because the new tariff structure is not stable yet. Countries are responding in different ways to these US tariff initiatives. Some are responding with reciprocal tariffs and others are looking at working out trade deals with the US. India has to examine this matter that serves its own interests best.

A notable trend during the financial year was the slowdown in global manufacturing, especially in Europe and parts of Asia, driven by supply chain disruptions and weak external demand. In contrast, the services sector performed better, supporting growth in many economies. Inflationary pressures eased in most economies although services inflation has remained persistent. Global real GDP growth was estimated at approximately **3.0 percent in 2025**, down from about 3.2 percent in 2024. {Source: Summary of economic survey 2024-25 by PIB Delhi; <https://www.pib.gov.in/PressReleasePage.aspx?PRID=2097921>}

Despite global uncertainty, India's economy continued to grow at a steady and confident pace standing out as the fastest growing major economy in the world. India also became the world's 4th largest economy in FY 2024-25. India's growth momentum was underpinned by strong fundamentals and consistent performance. Real GDP expanded by **6.5 percent** in FY 2024-25, with the final quarter (Q4 FY 25) posted a robust **7.4 percent** growth, supported by strong private consumption, elevated capital formation, and sectoral gains—particularly in construction and financial services. Nominal GDP also expanded sharply by **9.8 percent** in FY 2024-25. {Source: <https://www.pib.gov.in/PressNoteDetails.aspx?NotelD=154840&ModuleId=3> & https://mospi.gov.in/sites/default/files/press_release/NAD_PR_30may2025.pdf}

The latest data released by the Society of Indian Automobile Manufacturers (SIAM) show that the Indian automotive industry wrapped up FY 2024-25 with a solid performance, driven by resilient domestic demand, an uptick in exports, and a renewed push towards green mobility. While the pace of growth varied across segments, the industry overall clocked a healthy 7.3 percent increase in domestic sales, reinforcing its steady recovery trajectory in a post-pandemic economy.

Following the Industry trends, your Company effectively managed to work well during the financial year under review with improved sales mix.

Further, your company's financial results for the Financial year 2024-25 were consolidated with that of AMW Autocomponent Limited (AACL), Wholly owned subsidiary as well as Clean Max Astria Private Limited (CMAPL), the Associate Company.

A brief on the financial performance of your company during the financial year under review on both standalone and consolidated basis is given as below: -

On standalone basis:

- the **Total Income** for the financial year under review rose to Rs. 4,44,243.74 lakhs as compared to Rs. 4,37,315.93 lakhs in FY 2023-24, thereby recording an increase of 1.58%.

DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to the requirement of Section 134(5) of the Act and based on the representations, information and explanations received from the management, and after due enquiry, the Directors of the Company hereby confirm that:

- in the preparation of the annual accounts for the financial year 2024-25, the applicable accounting standards have been followed and there are no material departures;
- they have selected such accounting policies and applied them consistently and made judgements and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year 2024-25 and of the profit of the Company for that period;
- they have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- they have prepared the annual accounts on a going concern basis;
- they have laid down internal financial controls to be followed by the Company and that such internal financial controls are adequate and operating effectively; and
- they have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

The aforesaid statement has also been reviewed and confirmed by the Audit Committee of the Board of Directors of the Company.

DECLARATION BY INDEPENDENT DIRECTORS

In accordance with Section 149(7) of the Act read with Schedule IV and Regulation 25(8) of SEBI (LODR) Regulations, 2015, all the Independent Directors of the Company have submitted their declaration that they meet the criteria of Independence as provided in Section 149(6) of the Act and Regulation 16(1)(b) of SEBI(LODR) Regulations, 2015, and have also confirmed that they are not aware of any circumstance or situation, which exists or may be reasonably anticipated, that could impair or impact their ability to discharge their duties with an objective independent judgement and without any external influence. They have also confirmed that they are not debarred from holding the office of Director by virtue of any SEBI order or any other authority.

In terms of the provisions of the Regulation 25(9) of the SEBI (LODR) Regulations, 2015, the Board of directors of the company reviewed and assessed the aforesaid declarations and made an opinion during the financial year 2024-25 that all the Independent Directors of the Company hold highest standards of integrity and possess requisite proficiency, expertise and experience required to fulfill their duties as Independent Directors.

INVESTOR GRIEVANCE RESOLUTION MECHANISM

• SCORES

SEBI Complaint Redressal System (SCORES) is a centralized web based complaint redressal facilitation platform provided for the benefit of aggrieved investors whose grievances against the listed company or any intermediary remain unresolved.

In order to strengthen the dispute resolution mechanism for all disputes between a listed company and/or registrars & transfer agents and its shareholder(s)/investor(s), SEBI had issued a Standard Operating Procedure ('SOP') vide Circular dated May 30, 2022. As per this Circular, shareholder(s)/investor(s) can opt for Stock Exchange Arbitration Mechanism for resolution of their disputes against the Company or its RTA. Further, SEBI vide its circulars SEBI/HO/OIAE/IGRD/CIR/P/2023/156 dated September 20, 2023 and SEBI/HO/OIAE/IGRD/CIR/P/2023/183 dated December 01, 2023 has notified the revised framework for handling and monitoring of the investor complaints received through SCORES platform by the company and designated Stock Exchanges effective from April 1, 2024. The new version of SCORES 2.0 can be accessed by the investors at <https://scores.sebi.gov.in/>.

• ONLINE DISPUTE RESOLUTION PORTAL

SEBI had introduced the Online Dispute Resolution ('ODR') Portal through which the aggrieved party can initiate the resolution of disputes, after exercising the primary options to resolve its issue, directly with the Company and through the SEBI Complaint Redress System ('SCORES') platform. The process for online resolution of disputes in the securities market has been provided by SEBI in its Master Circular No. SEBI/HO/OIAE/OIAE_IAD-3/P/CIR/2023/195 dated December 28, 2023.

The Company has complied with the aforementioned circular and the same is available at the website of the Company at <https://sswllindia.com/investors/online-dispute-resolution-odr/>.

With the said Circular, the existing dispute resolution mechanism has been streamlined with the existing process of dispute resolution mechanism in the Indian securities market under the aegis of Stock Exchanges and Depositories by expanding their scope and establishing a common Online Dispute Resolution Portal ("ODR Portal") which harnesses online Conciliation and online arbitration for resolution of disputes.

Further, the shareholders can access the ODR portal at <https://smartodr.in/login> or through company's website by following the link <https://sswllindia.com/investors/online-dispute-resolution-odr/>.

(xx) LIST OF ALL CREDIT RATINGS OBTAINED BY THE ENTITY ALONG WITH ANY REVISIONS THERETO DURING THE FINANCIAL YEAR UNDER REVIEW, FOR ALL DEBT INSTRUMENTS OF SUCH ENTITY OR ANY FIXED DEPOSIT PROGRAMME OR ANY SCHEME OR PROPOSAL OF THE LISTED ENTITY INVOLVING MOBILIZATION OF FUNDS, WHETHER IN INDIA OR ABROAD

During the financial year 2024-25, the Company obtained credit rating from India Ratings and Research Pvt. Ltd. (Ind-Ra) (a 100% owned subsidiary of Fitch Group) for credit facilities, the details of which are as follows:

Instrument Type	Ratings by India Ratings and Research
Fund Based Working Capital Limits	IND AA-/Stable/IND A1+
Term Loans	IND AA-/Stable
Non-Fund Based Working Capital Limits	IND AA-/Stable /IND A1+

The affirmation reflects a sustained improvement in SSWL's revenue and credit metrics over FY20-FY24, a resilient operating profitability, rangebound EBITDA margins, a reduction in promoter's shares pledge to nil as of September 2024 from 4.92% in September 2023 and an increased share of higher-margin business (alloy wheels) in the revenue, leading to a significant improvement in its business profile. The same is also available on the Company's website at <https://sswliindia.com/investors/credit-rating/>. Ind-Ra expects the revenue to increase by 5% - 6% YOY in FY2024-25, as it would be the first full year of operations of the expanded alloy wheel facilities, and the company's performance is likely to be better in the second half of FY 2024-25 compared to the first half, supported by likely recovery in certain industry segments. The revenue is likely also to benefit from the increased capacities in aluminium knuckles over the medium term.

- (ix) The Company has not adopted any alternative accounting treatment prescribed differently from the Indian Accounting Standard (IND AS) laid down by the Institute of Chartered Accountants of India (ICAI) in preparation of its financial statements.
- (x) **Risk Management:** The Company has constituted a Risk Management Committee (RMC) for the risk assessment and to decide on risk minimization procedures. These procedures are periodically reviewed by the RMC to ensure that executive management controls risk through means of a properly defined framework.
- (xi) **Disclosure on Commodity Price Risk or Foreign Exchange Risk and Hedging Activities:**

The Company is in the business of manufacturing of wheel rims and knuckles. Steel and Aluminum being the primary raw material is the key to Company's profitability. Presently, the Company imports some of the raw material and that impacts the profitability due to adverse currency movement. The Company is already taking steps to indigenize the imported raw material by developing it with Indian vendors and de-risking the business model.

As regards foreign exchange risk, a significant portion of the Company's inflows and outflows are in foreign currency, the exchange rate fluctuations between the Indian rupee and the foreign currency affects the company's results of operation. Therefore, keeping in view the position of rupee vis-à-vis foreign currency, the Company has been assertive in taking forward cover for exports and imports.

The Company regularly informs the Board of Directors about the risk assessment, if any, along with recommendations to reduce the risk.

TRANSFER OF UNCLAIMED DIVIDEND/SHARES TO INVESTOR EDUCATION AND PROTECTION FUND (IEPF)

Pursuant to provisions of the Act read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("IEPF Rules"), as amended from time to time, all unpaid or unclaimed dividends are required to be transferred by the Company to the Investor Education and Protection Fund ("IEPF") established under sub-section (1) of section 125 of the Act, after completion of seven years from the date of transfer to Unclaimed Dividend Account of the Company. Further, according to the Rules, the shares in respect of which dividend has not been paid or claimed by the shareholders for seven consecutive years or more shall also be transferred to the de-mat account of the IEPF Authority. The said requirement does not apply to shares in respect of which there is a specific order of Court, Tribunal or Statutory Authority, restraining transfer of the shares.

The Company has been paying dividend regularly from the last twenty-six years (except for the year 2008-09 & 2019-20), starting from the year 1996-97. Some amount of the dividend remains unpaid or unclaimed in the "Unpaid Dividend Accounts" being maintained by the Company with HDFC Bank Ltd. and Yes Bank Ltd.

In accordance with the above mentioned provisions, during the year under review, the company had sent reminder by sending notice individually and also by publishing the same in national (English) and local (Punjabi) newspapers, seeking action from the shareholders who have not claimed their dividends for seven consecutive years or more. In order to avoid transfer of dividend/Shares to said Authority, a list of unclaimed dividend and shareholders whose shares were liable to be transferred to the IEPF Authority was also placed on the website of the Company in the interest of the shareholders. Accordingly, during the year 2024-25, the Company had transferred the unpaid/unclaimed dividends and corresponding shares to the IEPF as follows: -

Particulars	Amount of Dividend	No. of shares (FV Rs. 1/-)
2016-17 (Final Dividend)	Rs. 9,55,164.00	89329

The complete details of shareholders whose shares transferred to the IEPF Authority until now is available on the website of the company at <https://sswllindia.com/investors/transfer-of-shares-to-iepf/>.

No claim shall lie against the Company in respect of unclaimed dividend and equity shares transferred to IEPF Authority. Shareholders/claimant may claim the dividend and corresponding equity shares transferred to IEPF Authority including all benefits accruing on such shares, if any, from IEPF Authority by making an online application in prescribed form IEPF-5 available on the website of IEPF Authority (www.iepf.gov.in) after obtaining the entitlement letter from the Company. The detailed procedure to claim the shares/unpaid dividend from the IEPF Authority is also available on Company's website at https://sswllindia.com/wp-content/themes/sswl/assets/docs/Procedure_for_claiming_shares_from_IEPF_Authority.pdf. The Shareholders/claimant can file only one consolidated claim in a financial year as per the rules.

Process of claiming shares and dividend from IEPF

In accordance with the Office Memorandum dated 20th July, 2022 issued by IEPF Authority, the claimant(s) are now advised to first approach the Company for issuance of **Entitlement Letter** by providing all the required documents before filing of claim application with the IEPF Authority.

Once the Company has received and verified all the requisite documents it will then issue an entitlement letter, duly signed by the Nodal Officer of the company, along with all the required details to file web form IEPF-5 within a period of 30 days. The claimant(s) shall thereafter file claim in web Form No. IEPF-5 available on www.iepf.gov.in / www.mca.gov.in. The claimant shall be required to submit the form with entitlement letter and other supporting documents. The claimant(s) shall then submit the self-attested copy of Form IEPF-5, its acknowledgment receipt and duly executed Indemnity Bond in an envelope marked as "Claim for refund from IEPF Authority" at the registered office address of the Company in the name of the "Nodal Officer of the Company", to enable the Company to file the e-verification report of the claim within the prescribed timeline of 30 days.

STEEL STRIPS WHEELS LIMITED

Advisory by IEPF Authority:

An advisory on April 05, 2024 has been issued by the IEPF Authority wherein it has reiterated that the companies may reject the claims which have been filed by claimant without attaching proper entitlement letter.

Accordingly, the claimants are requested to adhere to the process of claiming shares from the IEPF Authority after obtaining entitlement letter from the company's nodal officer for submitting the same while filing Form IEPF-5 with the IEPF Authority.

During the financial year 2025-26, the company would be transferring unpaid or unclaimed dividend amount for the financial year 2017-18 (Final) within 30 days from the due date of transferring the amount to IEPF i.e. 03.11.2025. Further, the Company is also required to transfer the shares in respect of which dividends have not been claimed for seven (7) years from the Financial Year 2017-18 (Final), to the demat account of the IEPF Authority. The Company has also given individual intimations to concerned shareholders indicating that such shares shall be transferred to IEPF Authority and also advertised in the newspapers seeking action from said shareholders. Accordingly, the concerned members are requested to claim the unclaimed dividend for FY 2017-18 (Final) on or before 24.10.2025.

The details of unpaid dividend for the FY 2017-18 (Final) & onwards and the details of shares/ shareholders against which dividends are unclaimed for seven consecutive years from the FY 2017-18(Final) are provided on the website of the Company at <https://sswllindia.com/investors/unpaid-dividend/> under the Investors tab. The shareholders are requested to verify their records and claim their unclaimed dividends for the past years, if not claimed.

Shareholders are also requested to note the following date(s) for claiming the unpaid or unclaimed dividend declared by the company for the FY 2017-18 and thereafter:

Financial year	Date of declaration of Dividend	Dividend per share (Amount in Rs.)	Proposed date for transfer of dividend to IEPF
2017-18	28-09-2018	4.00	03-11-2025
2018-19	30-09-2019	4.00	05-11-2026
2020-21	30-09-2021	2.00	05-11-2028
2021-22	30-09-2022	3.75	05-11-2029
2022-23	23-08-2023	1.00	29-09-2030
2023-24	30-09-2024	1.00	05-11-2031

Members who have not encashed the dividend warrants/demand drafts so far in respect of the dividend of the aforesaid period(s) are requested to make their claim to RTA on or before the above mentioned last date for claiming unpaid/unclaimed dividend.

26. Overview of the Company's material responsible business conduct issues

Material responsible business conduct and sustainability issues pertaining to environment and social matters that present a risk or an opportunity to the business of the Company, rationale for identifying the same approach to adapt or mitigate the risk along with its financial implications are given below:

S. No.	Material Issue Identified	Indicate whether Risk or Opportunity (R/O)	Rationale for identifying the material issue as risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Ethics and Compliance	Risk	The Company expects all its employees to adhere to the Code of Conduct of SSWL and practice Ethical behaviour. The Company follows zero tolerance for any non-compliance as this will have an adverse impact on the Company. Due to the dynamic nature of laws, rules and regulations, it has become imperative for the company to ensure their compliance. Any failure to comply with the same may impact on the reputation of the Company adversely.	SSWL's Code of Conduct, Whistle Blower Policy, Code of Conduct for prevention of insider trading, code of practices and procedures for fair disclosure of unpublished price sensitive information, Policy on materiality of Related Party Transaction and Grievance Redressal across stakeholders ensures ethical behavior and compliance with applicable laws and regulations. The said Codes and policies provide for a framework for employees and other stakeholders to ensure that business is governed only by ethical practices. Further, any amendments to the laws, rules and regulations are checked on a regular basis. The said policies and code of conduct alongwith any changes thereon are duly communicated to the concerned stakeholder groups.	Negative
2	Health and Safety	Risk	Managing safety and health is a top priority at SSWL. Safe places and the good health of employees/workers at work contribute to better productivity. Risk Assessment is a continuous process followed by measures to effectively control them to ensure safety and good health of our employees/workers at work.	To mitigate the risk, we strictly follow the rules and procedures laid down by our stringent health and safety management systems. We regularly conduct trainings to create awareness of safe working conditions and building confidence of the employees/workers. Further, the Company conducts routine health check-ups and maintains internal health centers to monitor the well-being of our employees/workers.	Negative
3	Employees Productivity and Retention	Opportunity and Risk	Employees' engagement and productivity contribute to the growth of the Company. To meet the organization goals and customer expectations, employees with creativity, innovative ideas and expertise in different areas are an asset to the Company. Attrition of talent has a negative impact on the growth of the company.	Focused approach on employee engagement and retention of talent through multiple initiatives includes providing cross functional access, training opportunities, recognitions and skill development. The Company continuously makes efforts to promote diversity and offer equal opportunities to all irrespective of their age, gender, colour or religion etc.	Both

S. No.	Material Issue Identified	Indicate whether Risk or Opportunity (R/O)	Rationale for identifying the material issue as risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
4	Competition	Risk and Opportunity	<p>Competition in the business has increased significantly causing a serious adverse impact on the margins of the auto component manufacturers. Customer dissatisfaction with price, quality, delivery performance and design could lead to a loss of market share.</p> <p>In contrary to above, shift of the un-organized market to brand-based product offerings and developing new components turn the competition into opportunity.</p>	<p>The Company continues to strive to improve its operational performance, strict quality controls and develop new components, which are technologically superior and have an edge over its competitors.</p> <p>The Company works closely with its key customers on product development and remains ahead on the technology curve.</p>	Both
5	Social costs	Risk	SSWL's assumptions while estimating social costs like gratuity funding are subject to actuarial risks and any shortfall could put pressure on financial performance of the Company.	A framework to manage social cost risks has been deployed to ensure that obligations remain affordable and sustainable.	Negative
6	Community Well-being	Opportunity	The Company believes in corporate excellence and social welfare. This corporate philosophy is the force for integrating Corporate Social Responsibility (CSR) into Company's values, culture, operation and business decisions at all levels of the organization. Being a responsible corporate citizen, the Company has a value system of giving back to society and improving the quality of life of communities and the surrounding environment. The company is committed to its social responsibility by taking various initiatives in the fields of education, public health, environment and community welfare, etc. which would benefit society at large.	-	Positive

7	Climate and Environment	Risk and opportunity	Manufacturing sectors are generally associated with high pollution during the manufacturing processes. Growing environmental concerns have made the Companies to focus its investments on renewable sources of energy and controlling & modifying of various manufacturing processes having adverse impacts on the environment.	SSWL is working on alternate sources of energy, water recycling and enhanced use of returnable packaging to minimize waste and maximize reuse. The company is constantly striving ahead in converting its fossil fuel based power consumption to renewable resources. The Company has further invested in Clean Max Astria Pvt. Ltd. (CMAPL), a special purpose vehicle engaged in the business of production, generation, supply and distribution of wind, solar and/or hybrid power in order to off-take Electricity generated by it under captive consumption. During the year, the company made further investment in CMAPL in this regard. The Company has installed rooftop solar facilities at all its plants. The implementation of which has resulted in substantial conversion of fossil fuel power consumption to renewable sources. All plants have moved completely on fresh polycarbonate sheets to improve lux levels and save power consumption.	Both
8.	Water security	Risk	Fresh water is an important input for both manufacturing processes and domestic purposes of the Company. Processes such as paint booths are water intensive processes in automotive industry. It is important to use quality water to maintain the paint quality. Water scarcity is India's silent crisis and unpredictable rainfall across India makes the manufacturing plants more vulnerable for water shortages. Hence, insulating against water risk is one of the identified business risks and priorities.	The Company strives to mitigate the water risk by adopting following methods: <ul style="list-style-type: none"> • Optimum usage of water in all operations through various water efficiency measures adopted such as low volume water taps, arresting leakages in pipelines, amongst others. • Rainwater harvesting: By increasing rainwater storage capacity. • Recycling: By installing ETP/ STP and RO plants, we strive to increase our water recycling capacity. • Ground water recharge: By installing specially designed deep aquifer pits for improving ground water table to ensure the availability of water for the community. Total Scope 1 and Scope 2 emission intensity (optional)– the relevant metric may be selected by the entity	NA	NA	NA

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, Intertek India Pvt. Ltd.

8. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

Yes, SSWL has undertaken several initiatives to reduce greenhouse gas emissions. Our focus areas include energy efficiency improvements in manufacturing processes, waste reduction and the adoption of cleaner technologies. We have successfully reduced our carbon footprints through these initiatives. A few of the initiatives taken by the company to reduce Green House Gas emission includes the following:

- Adoption of Renewable energy through solar and windmills
- Adoption of clean energy i.e., through switching over from HSD to PNG/Propane
- Replacement of conventional air circulators with BLDC technology air circulators
- Radiant cooling system to optimize the HVAC operating load
- Replacement of conventional lights with LEDs
- Installation of energy efficient air compressor
- Replacement of old motors with premium efficiency IE3 motors
- Switching from diesel operated fork-lift to battery operated fork-lifts
- Installation of Energy efficient inverter split ACs
- Installation of auto shut off valves for compressed air
- Waste heat recovery from air compressors/ melting furnace/ heat treatment furnace/ Paint shops
- Plantation drives across all our locations

9. Provide details related to waste management by the entity:

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

SSWL is committed to environmental stewardship and sustainable waste management. Our approach encompasses waste minimization, recovery and responsible disposal.

Waste Minimization:

- Continuous evaluation of production processes to identify and eliminate waste generation.
- Implementation of lean manufacturing principles to optimize resource utilization.
- Substitution of hazardous materials with environment friendly alternatives wherever feasible.

Waste Recovery and Recycling:

- Segregation of waste at source to facilitate recycling and recovery.
- Collaboration with certified recyclers for metal scrap and other recyclable materials.
- Recovery of reusable materials for internal use or sale.

Waste Disposal:

- Adherence to all applicable environmental regulations and permits.
- Safe and responsible disposal of non-recyclable waste in authorized facilities.
- Minimization of hazardous waste generation and proper disposal in accordance with regulations.

By adopting a circular economy approach, SSWL aims to reduce its environmental footprints and contribute to a sustainable future.

Independent Reasonable Assurance Statement to Steel Strips Wheels Limited on their Business Responsibility & Sustainability Report (BRSR) - FY2024-25

To,
The Management,
Steel Strips Wheels Limited
Introduction

Intertek India Private Limited ("Intertek") was engaged by Steel Strips Wheels Limited ("SSWL") to provide an independent reasonable assurance on its Business Responsibility & Sustainability Report (BRSR) for FY2024-25 ("the Report"). The scope of the Report comprises the reporting periods of FY2024-25. The Report is prepared by SSWL based on BRSR guidelines issued by the Securities and Exchange Board of India (SEBI). The assurance was performed in accordance with the requirements of International Federation of Accountants (IFAC) International Standard on Assurance Engagement (ISAE) 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information.

Objective

The objectives of this reasonable assurance engagement were, by review of objective evidence, to confirm whether the sustainability related disclosures in the Report are in alignment with the BRSR Core disclosures requirements laid down by SEBI and were accurate, complete, consistent, transparent and free of material errors or omission in accordance with the criteria outlined below.

Intended Users

This Assurance Statement is intended to be a part of the Annual Report of Steel Strips Wheels Limited.

Responsibilities

The management of SSWL is solely responsible for the development of the Report and its presentation. Management is also responsible for the design, implementation and maintenance of internal controls relevant to the preparation of the Report so that it is free from material misstatement, whether due to fraud or error.

Intertek's responsibility, as agreed with the management of SSWL, is to provide assurance and express an opinion on the data and assertions in the Report based on our verification following the assurance scope and criteria given below. Intertek does not accept or assume any responsibility for any other purpose or to any other person or organization. This document represents Intertek's independent and balanced opinion on the content and accuracy of the information and data held within.

Assurance Scope

The assurance has been provided for selected sustainability performance disclosures as per BRSR core disclosures with reference to Business Responsibility and Sustainability Reporting by listed entities as per SEBI Master Circular no. SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024 presented by SSWL in its Report. The assurance boundary included data and information for the projects and operations of SSWL in its 5 Plants and Corporate Office located in different states in India, in accordance with SEBI's BRSR guidelines.

Our scope of assurance included verification of internal control systems, data and information on core disclosures reported, as summarized below:

BRSR-Core Disclosures

Principle 1: Businesses should conduct and govern themselves with integrity, and in a manner that is Ethical, Transparent and Accountable

- Number of days of accounts payable
- Concentration of purchases & sales done with trading houses, dealers, and related parties.
- Loans and advances & investments with related parties

Principle 3: Businesses should respect and promote the well-being of all employees, including those in their value chains

- Cost incurred on well-being measures of employees and workers as a percentage of total revenue of the company
- Safety related incidents for employees and workers (LTIFR + Fatality + Permanent Disabilities) including contractual workforce

Principle 5: Businesses should respect and promote human rights

- Gross wages paid to females as percentage of total wages paid
- Complaints on POSH

Principle 6: Businesses should respect and make efforts to protect and restore the environment

- Total scope 1 and scope 2 emissions
- GHG emissions intensity (scope 1 and 2)
- Total water consumption, water consumption Intensity and water discharge by destination and levels of treatment
- Total energy consumed, percentage of energy consumed from renewable sources and energy intensity
- Total waste generated (category wise), waste intensity, Total waste recovered through recycling, re-using or other recovery operations; Total waste disposed by nature of disposal method; waste diverted from landfill.

Principle 8: Businesses should promote inclusive growth and equitable development

- Input material sourced (from MSMEs/ small producers and from within India)
- Job creation in smaller towns– Wages paid to persons employed in smaller towns (permanent or non-permanent /on contract) as % of total wage cost

Principle 9: Businesses should engage with and provide value to their consumers in a responsible manner

- Instances involving loss / breach of data of customers as % of total data breaches or cyber security events

Assurance Criteria

Intertek conducted the assurance work in accordance with requirements of 'Reasonable Assurance' procedures as per the following standard:

- International Standard on Assurance Engagements (ISAE) 3000 (revised) for 'Assurance Engagements other than Audits or Reviews of Historical Financial Information'.
- International Standard on Assurance Engagements (ISAE) 3410 for 'Assurance Engagements on Greenhouse Gas Statement

A reasonable assurance engagement involved assessing the risks of material misstatement of the agreed indicators/parameters whether due to fraud or error, responding to the assessed risks as necessary in the circumstances. A materiality threshold level of 5% was applied. Assessment of compliance and materiality was undertaken against the stated calculation methodology and criteria.

Limitations

We have relied on the information, documents, records, data, and explanations provided to us by SSWL for the purpose of our review.

The assurance scope excludes:

- Any disclosures beyond those specified in the Scope section above.
- Data and information falling outside the defined reporting period.
- Data pertaining to the Company's financial performance, strategy, and associated linkages articulated in the Report.
- Assertions made by the Company encompassing expressions of opinion, belief, aspiration, expectation, forward-looking statements, and claims related to Intellectual Property Rights and other competitive issues.

While we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls.

The procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within software/IT systems.

Methodology

Intertek performed assurance work using risk-based approach to obtain the information, explanations and evidence that was considered necessary to provide a reasonable level of assurance. The assurance was conducted by desk reviews, visit to SSWL's site in Mehsana, Dappar and Head office Chandigarh and stakeholder interviews with regards to the reporting and supporting records for the FY2024-25. Our assurance task was planned and carried out during June-July 2025. The assessment included the following:

- Review of the Report that was prepared in accordance with the SEBI's BRSR guidelines.
- Review of processes and systems used to gather and consolidate data.
- Examined and reviewed documents, data and other information with respect to all operational sites of SSWL made available in both physical and digital form at selected SSWL's operational site in Mehsana, Dappar and head office in Chandigarh.
- Conducted physical and online interviews with key personnel responsible for data management pertaining to all operational sites of SSWL at the selected SSWL's operational site.
- Assessment of appropriateness of various assumptions, estimations and thresholds used by SSWL for data analysis.
- Review of BRSR core disclosures for the duration from 1st April 2024 to 31st March 2025 for SSWL was carried out at SSWL's selected location.
- Appropriate documentary evidence was obtained to support our conclusions on the information and data reviewed and details provided in a separate report.

Conclusions

Intertek reviewed BRSR for core disclosures provided by SSWL in its Business Responsibility and Sustainability Report (BRSR) in annual report FY2024-25. Based on the data and information provided by SSWL, Intertek concludes that the sustainability data and information is fairly presented in all material aspects as on the reporting standards.

Intertek's Competence and Independence

Intertek is a global provider of assurance services with a presence in more than 100 countries employing approximately 43,500 people. The Intertek assurance team included competent sustainability assurance professionals, who were not involved in the collection and collation of any data except for this assurance opinion. Intertek maintains complete impartiality towards any people interviewed.

MANAGEMENT

DISCUSSION & ANALYSIS

India's growth story continues to draw global attention, backed by strong fundamentals and consistent performance. Real GDP, which measures the economy's output after removing the effects of inflation, expanded by 6.5 % in financial year (FY) 2024–25. RBI expects this pace to continue into FY 2025–26 and forecasting the growth of 6.3 % for the GDP. Global conditions, by contrast, remain fragile due to various geopolitical as well as economic policy issues. The trade tensions, policy uncertainties, and declining cross-border investments are a few headwinds expected in FY 2025-26 for the global growth.

Indian Automobile sector

India's automotive sector witnessed a strong performance in FY 2024-25, driven by a blend of technological advancements such as smart manufacturing using AI and a growing attraction for EVs. This positive momentum was further amplified by government policies as well as rising exports of the automobiles, which encourages local production. The industry is also progressing towards advanced technologies such as ADAS and Internet of Things (IoT) integrated connected cars, along with influential global events such as Bharat Mobility Global Expo 2025. This strong focus on digitalization is expected to attract a wave of investment from both, domestic and international sources for further development of these technologies.

India is rapidly emerging as a global hub for automotive component sourcing, with the sector exporting more than a quarter of its annual production. To further accelerate this growth, the automotive sector has set a target to invest USD7 billion by FY 2027-28 to boost the localisation of advanced components. This thriving sector provides employment to 37 million people across the country, supported by the Automotive Mission Plan (2016-26), which aims to create an additional 3.2 million direct jobs by 2026.

India enjoys a strong position in the global heavy vehicles market as it is the largest tractor producer, second-largest bus manufacturer, and third-largest heavy truck manufacturer in the world. During FY 2024-25, the total production of passenger vehicles, commercial vehicles, three-wheelers, two-wheelers, and Quadricycles was 3,10,34,174 units. Automobile exports from India surged by 19% to over 5.3 million units in the FY 2024-25, driven by strong demand for passenger vehicles, two-wheelers, and commercial vehicles in international markets.

Industry Outlook

The automobile industry is dependent on various factors such as the availability of skilled labour at low cost, robust R&D centres, and low-cost steel production. The industry also provides great investment opportunities and direct and indirect employment to skilled and unskilled labour. The electric vehicles industry is likely to create five crore jobs by 2030.

Addressing the automotive industry's needs, Ministry of Heavy Industries (MHI) has extended the tenure of the Production Linked Incentive (PLI) Scheme for Automobile and Auto Components by one year, offering incentives for determined sales over five consecutive financial years from 2023-24 to 2027-28, with disbursement occurring in the subsequent financial year. The scheme has proven successful, attracting proposed investments of USD 8.1 billion (Rs. 67,690 crore) against the target estimate of USD 5.1 billion (Rs. 42,500 crore) over five years, with USD 1.6 billion (Rs. 13,037 crore) already invested by December 31, 2023.

India's automotive sector has rapidly transformed into a global powerhouse, securing its position as the world's third-largest market. This transformation is fueled by evolving consumer preferences, increasing demand for sustainable mobility, and the Indian government's forward-thinking policies. Initiatives like the Production Linked Incentive (PLI) for Automobiles, PM E-DRIVE and Scheme to Promote Manufacturing of Electric Passenger (SMEC) schemes have catalysed this growth. As of September 2024, with Rs. 20,715 crore invested and Rs. 10,472 crore incremental sales achieved under the PLI scheme alone, the sector is on the point of a major leap forward.

Export Outlook

Automobile exports from India rose by 19.17% to over **53,63,089** units in FY 2024-25 driven by robust demand for passenger vehicles, two wheelers and commercial vehicles in the overseas markets. Overall exports in FY 2024-25 stood at 53,63,089 units as compared with 45,00,494 units in FY 2023-24.

Passenger vehicle shipments rose by 14.62% to 7,70,364 units in FY 2024-25 as against 6,72,105 units in FY 2023-24. Two-wheeler exports increased by 21.40% to 41,98,403 units in FY 2024-25 as against 34,58,416 units in FY 2023-24 . Opportunities

SSWL is focusing on Aluminisation and light weight opportunity for domestic as well as export markets. A large global alloy wheels market is an opportunity for making entry. Many more aluminum products will also be targeted to cater to global customers from existing facilities. Capacity expansion in tractor will help expanding customer market share and product range. Due to increasing competitiveness, EU is facing large cost pressures to serve the customers. We see this as a great opportunity for SSWL to serve the customer in competitive manner.

Threats

The global economic growth remains a big risk for the industry. The potential risks coming from trade wars is still unknown and is under consideration for analysis. The full year impact of the same is being anticipated and counter action plan is underway to help absorb the impact.

Outlook

Steel & Aluminum is the primary raw material for the products of the Company, and is a very significant part of the final product cost of Steel & Aluminum wheel. Volatility in prices of Steel & Aluminum continue to be a reality and pose a challenge to inventory and financial management for the Company in this competitive auto component sector.

Factor of global growth has become a key linkage between economies and the consumer sentiment. Global growth is still limping on weak wicket and manufacturing output is still shrinking for a large part of the globe. The world economies are currently facing large headwinds on account of geo-political and trade tariff issues popping up over the past year. The uncertainties will restrict investments and surely hurt the demand sentiments across the globe. In the near term, hazy outlooks will restrict growth opportunities for all the automobile industry.

The Company is diversifying towards European Region alongwith newer products to counter the trade tariff impacts.

Top customer concentration is a risk, as 85% of revenues come from domestic market customers and Company is increasing its footprints in Export markets by catering to wide ranges of segment and customers. The Company has ventured into alloy wheel and steering knuckles to improve the product diversification to de-risk itself from being only in steel wheel segment. Company is aggressively working on New Product Developments to widen its reach across domestic and export customers.

Foreign currency movement also poses the risk towards the corporate performance as global currencies swings are extreme due to various macro issues persisting in current environment. This may act as a headwind for some time to come till situation becomes normal and volatility among global currency recedes to normalized levels.

To mitigate the risk, the Company continues to strive to improve its operational performance and develop new components, which are technologically superior and have an edge over the competitors.

SEGMENT REPORTING

The Company is primarily engaged in the business of manufacturing Wheel Rims and other automotive components catering to different segment of automobile industry. The inherent nature of activities is governed by the same set of risk and returns; hence these have been grouped as a single segment. The said treatment is in accordance with the principle enunciated in the IND AS 108- Operating Segments.

RISKS & CONCERNS

The Company's business is exposed to many internal and external risks and it has consequently put in place robust systems and processes, along with appropriate review mechanisms to actively monitor, manage and mitigate these risks. Some of the key existing and emerging risks affecting the Company are as follows:

Risks Type	Key Risks	Impact on SSWL	Mitigation
Strategic Risk	Global Economic Scenario	Vehicle purchase across different segment has strong correlations with GDP growth. The decision to purchase a passenger vehicle comes under customers' discretionary spending which is linked to their perception of business outlook. Depressed economic outlook can impact this spending and thereby constrain the Company's growth potential.	Diversified product mix, segment mix and customer mix. Target newer market segments which might provide counter-cyclical support.
	Long term growth dependent on capacity expansion	Capacities utilization across all the plants are inching up gradually and with business environment turning favorable growth in long term will be dependent on Capacity addition.	Debottlenecking exercise across all the facilities are being carried every quarter. Optimum scheduling of production across different products thereby improving yield. Possibility of setting up new lines wherein Company has project Management expertise.

STEEL STRIPS WHEELS LIMITED

Risks Type	Key Risks	Impact on SSWL	Mitigation
Operation Risk	Supply chain management	The complexity and global span of automotive industry supply chains expose companies to significant sustainability and disruption risks, impacting operational continuity and leading to decline in sales and margins.	SSWL aims to develop a resilient supply chain framework by diversifying suppliers and integrating sustainability criteria into supplier selection. At SSWL we have implemented transparent supply chain practices to ensure compliance with environmental and social standards, thereby reducing potential risks.
	Employee Productivity and retention	Employees' engagement and productivity contribute to the growth of the Company. To meet the organization goals and customer expectations, employees with creativity, innovative ideas and expertise in different areas are an asset to the Company. Attrition of talent has a negative impact on the growth of the company.	Focused approach on employee engagement and retention of talent through multiple initiatives includes providing cross functional access, training opportunities, recognitions and skill development. The Company continuously makes efforts to promote diversity and offer equal opportunities to all irrespective of their age, gender, colour or religion etc.
	Competition	Competition in the business has increased significantly causing a serious adverse impact on the margins of the auto component manufacturers. Customer dissatisfaction with price, quality, delivery performance, and design could lead to a loss of market share. In contrary to above, Shift of the un-organized market to brand-based product offerings and developing new components turn the competition into opportunity.	The Company continues to strive to improve its operational performance, strict quality controls and develop new components, which are technologically superior and have an edge over its competitors. The Company works closely with its key customers on product development and remains ahead on the technology curve.
	Climate and Environment	Manufacturing sectors are generally associated with high pollution during the manufacturing processes. Growing environmental concerns have made the Companies to focus its investments on renewable sources of energy and controlling & modifying of various manufacturing processes having adverse impacts on the environment.	SSWL is working on alternate sources of energy, water recycling and enhanced use of returnable packaging to minimize waste and maximize reuse. The Company is constantly striving ahead in converting its fossil fuel based power consumption to renewable resources. The Company has further invested in Clean Max Astria Pvt. Ltd. (CMAPL), a special purpose vehicle engaged in the business of production, generation, supply and distribution of wind, solar and/or hybrid power in order to off-take Electricity generated by it under captive consumption. The Company has installed rooftop solar facilities at all its plants. The implementation of which has resulted in substantial conversion of fossil fuel power consumption to renewable sources. All plants have moved completely on fresh polycarbonate sheets to improve lux levels and save power consumption.
	Water security	Fresh water is an important input for both manufacturing processes and domestic purposes of the Company. Processes such as paint booths are water intensive processes in automotive industry. It is important to use quality water to maintain the paint quality. Water scarcity is India's silent crisis and unpredictable rainfall across India makes the manufacturing plants more vulnerable for water shortages. Hence, insulating against water risk is one of the identified business risks and priorities.	The Company strives to mitigate the water risk by adopting following methods: Optimum usage of water in all operations through various water efficiency measures adopted such as low volume water taps, arresting leakages in pipelines, amongst others. Rainwater harvesting: By increasing rainwater storage capacity. Recycling: By installing ETP/STP and RO plants, we strive to increase our water recycling capacity.

Risks Type	Key Risks	Impact on SSWL	Mitigation
			Ground water recharge: By installing specially designed deep aquifer pits for improving ground water table to ensure the availability of water for the community.
	Energy Management	The use of energy is an inevitable part of the Company's operations. However, efficient use and the implementation of our own renewable energy sources will help in improving the Company's operations. In the short-term, there may be a negative impact from investing in renewable sources of energy; however, in the long-term there would be a positive impact from methodical use of these energy sources and aligning with industry expectations.	SSWL is constantly striving ahead in converting its fossil fuel power consumption to renewable resources. The Company is actively engaged in energy management. The Company has further invested in Clean Max Astria Pvt. Ltd. (CMAPL), a special purpose vehicle engaged in the business of production, generation, supply and distribution of wind, solar and/or hybrid power to off-take Electricity generated by it under captive consumption. The Company has installed rooftop solar facilities at all its plants. All plants have moved completely on fresh polycarbonate sheets to improve working conditions and save power consumption.
Financial Risk	Currency Volatility	Volatility in currency exchange movements resulting in transaction and translation exposure.	Board approved Currency hedging policies and practices are in place. Close monitoring of hedging strategy by risk management committee. Quarterly assessment of foreign exchange exposure by Board.
	Debt Burden	The Company's outstanding indebtedness in an adverse environment can have significant impact on financial flexibility and business as a whole.	Close monitoring of debt profile and continuous effort to bring the cost in line with industry. Continuous effort to maintain the impeccable credit history. Quarterly review of financial leverage and efforts are on to move towards industry benchmark.
	Credit Rating	Failure to maintain credit ratings could adversely affect cost of funds.	Regular exchange of information and updates with agency. Focused approach to work on areas of improvement and to build upon areas of strength. Close monitoring of triggers highlighted in rating rationale.
	Social costs	SSWL's assumptions while estimating social costs like gratuity funding are subject to actuarial risks and any shortfall could put pressure on financial performance of the Company.	A framework to manage social cost risks has been deployed to ensure that obligations remain affordable and sustainable.
	Credit Risk	Customer default can pose a significant challenge and impact the bottom line of the Company.	Systems are in place to assess the credit worthiness of new as well as existing customers.
	Financial Fraud	Financial fraud can challenge the reputation as well as existence of the Company besides denting the confidence on the systems in place.	Adequate Internal financial control system are in place. Adequate accounting records are in place to safeguard the assets of Company and for preventing and detecting frauds. Vigil Mechanism in place that provides a formal mechanism for all Directors, employees and vendors of the Company to approach the Ethics Counselor/Chairman of the Audit Committee of the Board and make protective disclosures about the unethical behavior, actual or suspected fraud.

STEEL STRIPS WHEELS LIMITED

Risks Type	Key Risks	Impact on SSWL	Mitigation
Legal Risk	Ethics and Compliance	The Company expects all its employees to adhere to the Code of Conduct of SSWL and practice Ethical behaviour. The Company follows zero tolerance for any non-compliance as this will have an adverse impact on the Company. Due to the dynamic nature of laws, rules and regulations, it has become imperative for the Company to ensure their compliance. Any failure to comply with the same may impact on the reputation of the Company adversely. The said Codes and policies provide for a framework for employees and other stakeholders to ensure that business is governed only by ethical practices. Further, any amendments to the laws, rules and regulations are checked on a regular basis. The said policies and code of conduct alongwith any changes thereon are duly communicated to the concerned stakeholder groups.
Health and Safety	Health and Safety	Managing safety and health is a top priority at SSWL. Safe places and the good health of employees at work contribute to better productivity. Risk Assessment is a continuous process followed by measures to effectively control them to ensure safety and good health of our employees at work.	To mitigate the risk, we strictly follow the rules and procedures laid down by our stringent health and safety management systems. We regularly conduct trainings to create awareness of safe working conditions and building confidence of the employees. Further, the Company, conducts routine health check-ups and maintains internal health centers to monitor the well-being of our employees.
Information/ Cyber security	Information/Cyber security	The fast pace at which auto sector is growing at present, it is bound to face concerns relating to IP, data privacy and risk-shifting for warranty issues that would need to be addressed to settle uncertainties amongst stakeholders. Further, threats to external cyber-attacks/ hacking and internal leakage/ modification of information/ failure to protect information are other concern issues.	Continuous protection of confidential information across the IT landscape to prevent loss of confidential data through installation of various antivirus and malware protection softwares, etc. Periodic audits are conducted to ensure adherence to the processes. Additionally, the company has obtained ISO-27001 certification to comply best in class IT norms.

INTERNAL CONTROLS AND THEIR ADEQUACY

The Company has a robust internal control and audit system to provide adequate assurance regarding the effectiveness and efficiency of its systems and operations. The controls are commensurate to the needs of the organization given its size and complexity of operations. The standard operating procedures ensure compliance to local regulation and statutes as applicable to the Company. The Company strictly ensures adherence to all internal control policies and procedures as well as compliance with all regulatory guidelines.

DEVELOPMENT IN HUMAN RESOURCES

Growth without human capital development will be in-complete growth. Your Company is attempting to match the human capital growth improvement amid intense competition. Talent retention has become an increasingly vital tool for matching customer expectations and will drive future growth of the Company. SSWL is extremely proud of its workforce for all the resilience shown throughout the period under review. The motivation of leading from the front from the top leaders of the Company exemplified the efforts towards this journey of this recovery.

SSWL is increasing sensitive towards the EHS factor of human capital and is working extensively towards worker safety and happy mind. provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

6. Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "**Annexure A**" to this report a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended.
 - e) On the basis of the written representations received from the directors as on 31st March, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure B**". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended,

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (c) Based on the audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations as provided under (a) and (b) above, contain any material misstatement.
- v. The final dividend declared and paid by the Company during the year in respect of the previous financial year is in accordance with section 123 of the Act 2013 to the extent it applies to payment of dividend.

The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.
- vi. Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

Annexure B to Independent Auditor's Report Referred to in paragraph 7 our Report of even date

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of Steel Strips Wheels Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the company's internal financial control over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on audit of internal financial control over financial reporting (the "Guidance Notes") and the standards on auditing deemed to be prescribed under section 143(10) of the act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those standards and the guidance notes require that we comply with ethical requirements and planned and performed the audit to obtain reasonable assurance about whether adequate internal financial control over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls system over financial reporting included obtaining an understanding of internal financial controls system over financial reporting, assessing the risks that material weakness exists, and testing and evaluating the design and operating effectiveness of the internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion on the company's internal financial controls system over financial reporting.

Meaning of Internal financial controls over financial reporting

6. A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls over financial reporting includes those policies and procedures that (1.) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company (2.) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditure of the company are being made only in accordance with authorization of management and directors of the company ; and (3.) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitation of Internal financial controls over financial reporting

7. Because of the Inherent limitation of internal financial controls over financial reporting, including the possibility of collusion or improper management over-ride of controls, material misstatements due to error or fraud may occur and not be detected. Also, projection of any evaluations of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the company has, in all material respects, an adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2025 based on the internal financial controls over financial reporting criteria established by the company considering the essential components of internal control stated in the guidance note on audit of internal financial controls over financial reporting issued by the Institute of Chartered Accountants of India.

Notes on Standalone Financial Statement for the year ended 31st March 2025.

1. CORPORATE INFORMATION

Steel Strips Wheels Limited (the Company) is a public limited Company incorporated on 28th February 1985 under the Companies Act, 1956. Its Shares are listed on both Bombay Stock Exchange and National Stock Exchange. The Company is a leading manufacturer of Automotive Wheel Rims and other auto components.

These financial statements were approved for issue in accordance with a resolution of the board of directors on 15th May 2025.

2. SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these Indian Accounting Standards (Ind-AS) financial statements. These policies have been consistently applied to all the years except where newly issued accounting standard is initially adopted.

2.01) BASIS OF PREPARATION

The standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of schedule III to the Companies Act, 2013 (Ind AS compliant schedule III) as applicable to these standalone financial statements.

The Company has prepared the standalone financial statements on the basis that it will continue to operate as going concern. These policies have been consistently applied to all the years presented, unless otherwise stated.

The standalone financial statements have been prepared on a historical cost basis, except for the following assets and liabilities

- (i) Certain financial assets and liabilities that is measured at fair value.
- (ii) Assets held for sale-measured at fair value less cost to sell
- (iii) Defined benefit plans-plan assets measured at fair value
- (iv) Share based payments.

2.02) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle - Held primarily for purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The term of the liability that could, at the option of counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Deferred tax assets and deferred tax liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.03) Revenue from contract with customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

A receivable is recognized when the control of the product is transferred as the consideration is unconditional and payment becomes due upon passage of time as per the terms of contract with customers. The Company collects GST on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue

Revenue from sales of products.

Revenue from sale of products is recognized at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods and there are no unfulfilled obligations.

The Company considers, whether there are other promises in the contract in which there are separate performance obligations, to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of equipment, the Company considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer, if any.

Notes on Standalone Financial Statement for the year ended 31st March 2025.

Variable consideration

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Some contracts for the sale of product provide customers with a right of return the goods within a specified period. The Company also provides retrospective volume rebates to certain customers once the quantity of product purchased during the period exceeds the threshold specified in the contract. The rights of return and volume rebates give rise to variable consideration. The Company uses the expected value method to estimate the goods that will not be returned because this method best predicts the amount of variable consideration to which the Company will be entitled. The requirements in Ind AS 115 on constraining estimates of variable consideration are also applied in order to determine the amount of variable consideration that can be included in the transaction price. For goods that are expected to be returned, instead of revenue, the Company recognizes a refund liability. A right of return asset (and corresponding adjustment to cost of sales) is also recognized for the right to recover products from a customer.

Warranty obligations

The Company generally provides for warranties for general repair of defects that existed at the time of sale. These warranties are assurance-type warranties under Ind AS 115, which are accounted for under Ind AS 37 (Provisions, Contingent Liabilities and Contingent Assets).

Significant Financing Components

In respect of short-term advances from its customers, using the practical expedient in Ind AS 115, the Company is not required to adjust the promised amount of consideration for the effects of a significant financing component because it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be within normal operating cycle.

Sale of service

The Company recognizes revenue from sales of services over period of time, because the customer simultaneously receives and consumes the benefits provided by the Company. Revenue from services related activities is recognized as and when services are rendered and on the basis of contractual terms with the parties.

Contract assets

Contract assets is right to consideration in exchange for goods or services transferred to the customer and performance obligation satisfied. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Upon completion of the attached condition and acceptance by the customer, the amounts recognized as contract assets is reclassified to trade receivables upon invoicing. A receivable represents the Company's right to an amount of consideration that is unconditional. Contract assets are subject to impairment assessment. Refer to accounting policies on impairment of financial assets in section (Financial instruments – initial recognition and subsequent measurement).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer or has raised the invoice in advance. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract (i.e., transfers control of the related goods or services to the customer).

Trade receivables

A trade receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (Financial instruments).

2.04) Other Operating Revenues

Export incentives

Revenue from export benefits arising from duty drawback scheme, rodtep scheme, remission of duties and taxes on exported product scheme are recognised on export of goods in accordance with their respective underlying scheme at fair value of consideration received or receivable.

2.05) LEASES

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Notes on Standalone Financial Statement for the year ended 31st March 2025.

1) Right-of-use assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the underlying assets. If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 'Impairment of non-financial assets'.

ii) Lease Liabilities

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The Companies' lease liabilities are included in other current and non-current financial liabilities.

Variable lease payments that depend on sales are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

2.06) ACCOUNTING FOR TAXES ON INCOME

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each reporting date, the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

Notes on Standalone Financial Statement for the year ended 31st March 2025.

MAT credit is recognized as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the **Minimum Alternative tax (MAT)** credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

2.07) IMPAIRMENT OF NON FINANCIAL ASSETS

- A.** At each Balance Sheet date, the carrying amount of assets is tested based on internal/external factors, for impairment so as to determine:
- (i) The provision for impairment loss, if any; and
 - (ii) The reversal of impairment loss recognized in previous periods, if any,
- B.** Impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:
- (i) In the case of an individual asset, higher of the net selling price and the value in use.
 - (ii) In the case of a cash generating unit (a group of assets that generates identified, independent cash flows), at the higher of the cash generating unit's net selling price and the value in use.
- (Value in use is determined as the present value of estimated future cash flows discounted to their present value at the weighted average cost of Capital, from the continuing use of an asset and from its disposal at the end of its useful life).
- Post impairment, depreciation is provided on the revised carrying value of the asset over its remaining useful life.

2.08) CASH AND CASH EQUIVALENTS

Cash and cash equivalents balances include cash in hand, fixed deposits, margin money deposits, earmarked balances with banks, other bank balances such as dividend accounts, which have restrictions on repatriation, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposit held at call with financial institutions, other short - term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet

2.09) INVENTORIES

- a) Basis of valuation:**
- i) Inventories other than scrap materials are valued at lower of cost or net realisable value after providing cost of obsolescence, if any. The comparison of cost and net realisable value is made on an item-by-item basis.
- b) Method of Valuation:**
- i) Cost of raw materials has been determined by using moving weighted average cost method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
 - ii) Cost of finished goods and work-in-progress includes direct labour and an appropriate share of fixed and variable production overheads. Fixed production overheads are allocated on the basis of normal capacity of production facilities. Cost is determined on moving weighted average basis
 - iii) Cost of traded goods has been determined by using moving weighted average cost method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
 - iv) Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products. Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.
 - v) Appropriate adjustments are made to the carrying value of damaged, slow moving and obsolete inventories based on management's current best estimate.

2.10) FINANCIAL INSTRUMENT

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i) Financial Assets

The Company classifies its financial assets in the following measurement categories:

Notes on Standalone Financial Statement for the year ended 31st March 2025.

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- those measured at amortised cost

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the group has made an irrevocable election at the time of initial recognition to account for the equity investment at FVOCI.

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section "Revenue from contracts with customers".

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Subsequent measurement

For purposes of subsequent measurement financial assets are classified in following categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial assets at amortised cost (debt instruments)

A 'financial asset' is measured at the amortised cost if both the following conditions are met:

- a) **Business Model Test:** The objective is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes) and
- b) **Cash flow characteristics test:** The contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

This category is most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. The EIR amortisation is included in other income in profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Financial assets at fair value through OCI (FVTOCI) (debt instruments)

A 'financial asset' is classified as at the FVTOCI if both of the following criteria are met:

- a) **Business Model Test:** The objective of financial instrument is achieved by both collecting contractual cash flows and selling the financial assets; and
- b) **Cash flow characteristics test:** The contractual terms of the Debt instrument give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

Notes on Standalone Financial Statement for the year ended 31st March 2025.

Debt instrument included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI), except for the recognition of interest income, impairment gains or losses and foreign exchange gains or losses which are recognised in statement of profit and loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value changes recognised in OCI is reclassified from the equity to profit or loss.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss. This category includes derivative instruments and listed equity investments which the Company had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are recognised in the statement of profit and loss when the right of payment has been established.

Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement and either;
 - (a) the Company has transferred substantially all the risks and rewards of the asset, or
 - (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with IND AS 109, the Company applies expected credit losses(ECL) model for measurement and recognition of impairment loss on the following financial asset and credit risk exposure - Financial assets measured at amortised cost;

- Financial assets measured at fair value through other comprehensive income(FVTOCI);
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115
- Loan commitments which are not measured as at FVTPL
- Financial guarantee contracts which are not measured as at FVTPL

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For recognition of impairment loss on financial assets other than mentioned below and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

Notes on Standalone Financial Statement for the year ended 31st March 2025.

If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL

The Company follows "simplified approach" for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables;
- All lease receivables resulting from the transactions within the scope of Ind AS 116 -Leases

Under the simplified approach, the Company does not track changes in credit risk. Rather, it recognized impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analyzed.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/ expense in the statement of profit and loss. The balance sheet presentation for various financial instruments is described below:

- (a) **Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables:** ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.
- (b) **Loan commitments and financial guarantee contracts:** ECL is presented as a provision in the balance sheet, i.e. as a liability.
- (c) **Debt instruments measured at FVTOCI:** For debt instruments measured at FVTOCI, the expected credit losses do not reduce the carrying amount in the balance sheet, which remains at fair value. Instead, an amount equal to the allowance that would arise if the asset was measured at amortised cost is recognises in other comprehensive income as the accumulated impairment amount.

ii) **Financial Liabilities:**

Initial recognition and measurement

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or loss, loans and borrowings, and payables, net of directly attributable transaction costs. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company financial liabilities include loans and borrowings, trade payables, trade deposits, retention money, liabilities towards services, sales incentive and other payables.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- (I) Financial liabilities at fair value through profit or loss
- (ii) Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationship as defined by Ind AS 109. The separated embedded derivate are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in IND AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ loss are not subsequently transferred to profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. the Company has not designated any financial liability as at fair value through profit and loss.

Financial liabilities at amortized cost (Loans and borrowings)

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the Effective interest rate method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the Effective interest rate amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the Effective interest rate. The Effective interest rate amortisation is included as finance costs in the statement of profit and loss.

Notes on Standalone Financial Statement for the year ended 31st March 2025.

Trade Payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually payable basis varying trade term. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at fair value and subsequently measured at amortised cost using Effective interest rate method.

Financial Guarantee Contracts:

Financial guarantee contracts issued by the Company are those contracts that requires payment to be made to reimburse the holders for a loss it incurs because the specified debtors fail to make a payment when due in accordance with the term of debt instrument.

Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction cost that are directly attributed to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirement of IND AS 109 and the amount recognised less, when appropriate, the cumulative amount of income recognised in accordance with principles of IND AS 115.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financials assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Reclassification of financial assets/ financial liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

2.11) PROPERTY, PLANT AND EQUIPMENT (PPE)

Fixed assets are stated at original cost net of tax/duty credit availed, if any, less accumulated depreciation and cumulative impairment and those which have been revaluated are stated at the values determined by the values less accumulated depreciation and cumulative impairment. Cost of acquisition is inclusive of freight and other incidental expenses and interest on loan taken for the acquisition of qualifying assets up to the date of commissioning of assets.

Subsequent expenditure related to PPE is capitalized only when it is probable that future economic benefits associated with these will flow to the company and cost of the item can be measured reliably. All other expenses on existing fixed assets, including day to day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gain or losses arising from de-recognition of fixed assets are measured as the difference between the net disposable proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

The exchange differences arising on reporting of long term foreign currency monetary items at rates different from those at which they were initially recorded during the period, or reported in previous financial statements, in so far as they relate to the acquisition of a depreciable capital asset, have been added to or deducted from the cost of the asset and shall be depreciated over the balance useful life of the asset.

Die Tooling, developed in-house, includes cost of material and other direct/ incidental expense on in-house development.

Tangible Assets not ready for the intended use on the date of the balance Sheet are disclosed as "capital work in progress".

DEPRECIATION / AMORTIZATION ON TANGIBLE FIXED ASSETS

Depreciation is the systematic allocation of the depreciable amount of an asset over useful life. The depreciable amount of an asset is the cost of an asset or other amount substituted for cost, less its residual value.

A. OWNED ASSETS

- (i) Pursuant to applicability of Schedule II, of Companies Act 2013, with effect from 1st April 2014, Management has reassessed the useful life of tangible assets based on the internal and external technical evaluation. The Depreciation on fixed assets is provided on straight line method in accordance with applicable Schedule of the Companies Act, 2013.

Notes on Standalone Financial Statement for the year ended 31st March 2025.

- (ii) Depreciation for addition to/ deductions from, owned assets is calculated on pro-rata basis from the date of such addition or, as the case may be, up to the date on which such asset has been sold, discarded, demolished or destroyed.
- (iii) Residual values of assets have been considered at 5% of the original cost of the assets.
- (iv) Difference of Exchange Rate fluctuation on imported plant and machineries procured out of long term foreign currency loans is amortized over the residual life of relevant plant and machineries.
- (v) The depreciation calculation is based on the balance useful lives of assets and shift working. Depreciation on assets used on double shift basis have been increased by 50% for that period and Depreciation on assets used in triple shift basis have been increased by 100% for that period, except for assets in respect of which no extra shift depreciation is permitted (indicated by NESD in Part C of the schedule).
- (vi) The estimated useful lives for the categories of property, plant and equipment are:

Particulars	Estimated useful life (years)
Buildings	30-60 Years
Plant and machinery	15-28 Years
Furniture and fixtures	3-10 Years
Office Equipment	3-10 Years
Vehicles	5-8 Years

B. INTANGIBLE ASSETS AND AMORTIZATION

Intangible assets are stated at original cost net of tax/duty credit availed, if any, less accumulated amortization and cumulative impairment. Intangible assets are recognized when it is probable that the future economic benefits are attributable to the asset will flow to the enterprise and the cost of asset can be measured reliably. Intangible assets are amortized over their estimated useful life. The estimated useful life of an identifiable intangible asset is based on number of factors including the effects of obsolescence etc.

Intangible Assets not ready for the intended use on the date of balance sheet are disclosed as "intangible assets under development"

2.12) Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred. The Company depreciates building on a straight line basis over a period of 30 years from the date of original purchase.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model recommended by the international valuation standards committee.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

Transfers are made to (or from) investment properties only when there is a change in use. Transfer between investment property and owner occupied property do not change the carrying amount of the property transferred and they do not change the cost of that property for measurement or disclosure purpose.

2.13) BORROWINGS

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates. Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other income or finance costs.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

Notes on Standalone Financial Statement for the year ended 31st March 2025.

2.14) BORROWING COST

Borrowing cost includes interest and other costs incurred in connection with the borrowing of funds and charged to Statement of Profit & Loss on the basis of effective interest rate (EIR) method. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are recognized as expense in the period in which they occur.

2.15) PROVISION AND CONTINGENT LIABILITIES

PROVISIONS

Provisions are recognized when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

CONTINGENT LIABILITIES

Contingent liabilities are disclosed when there is a possible obligation arising from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably.

2.16) EMPLOYEE BENEFITS

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Provident Fund & Employee State Insurance

Retirement benefit in the form of provident fund is a defined contribution scheme. the Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable through provident fund scheme as an expense, when an employee renders the related services. If the contribution payable to scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excesses recognised as an asset to the extent that the prepayment will lead to, for example, a reduction in future payment or a cash refund.

Gratuity

The Employee's Gratuity Fund Scheme, which is defined benefit plan, is managed by Trust with its investments maintained with Life Insurance Corporation of India. The liabilities with respect to Gratuity Plan are determined by actuarial valuation on projected unit credit method on the balance sheet date, based upon which the Company contributes to the Gratuity Scheme. The difference, if any, between the actuarial valuation of the gratuity of employees at the year end and the balance of funds is provided for as assets/ (liability) in the books. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation under Employee benefit expense in statement of profit or loss:

- a) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements.
- b) Net interest expense or income.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amount included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re measurements are not reclassified to profit or loss in subsequent periods

Compensated Absences

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year end are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating

Notes on Standalone Financial Statement for the year ended 31st March 2025.

compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end. Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year end are treated as other long term employee benefits. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in profit or loss in the period in which they arise. Past-service costs are recognized immediately in profit or loss.

Other Long term incentive plan – Employee stock option plan

The Company provides long term incentive plan to employees via equity settled share based payments. The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognised, together with a corresponding increase in employee stock option reserves in other equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense.

The amount recognised as expense is based on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect

2.17) Foreign currency translation

i) Functional and Presentation currency

The functional currency of the Company is Indian Rupee. These financial statements are presented in Indian Rupee (rounded off to lakhs).

ii) Transaction and balances

The foreign currency transactions are recorded, on initial recognition in the functional currency, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

The foreign currency monetary items are translated using the closing rate at the end of each reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency shall be translated using the exchange rate at the date of the transaction. Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements shall be recognized in profit or loss in the period in which they arise.

(iii) Exchange differences

Foreign exchange differences recorded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance cost. All other foreign exchange gains and losses are presented in the statement of profit and loss on net basis.

2.18) SEGMENT REPORTING

The Company deals in only one business segment of manufacturing and sale of auto ancillary equipment's and the chief operating decision maker (CODM) reviews the operations of the Company as a whole, hence there is no reportable segments as per Ind AS 108 "Operating Segments". The management considers that the various goods and services provided by the Company constitutes single business segment, since the risk and rewards from these services are not different from one another.

2.19) EARNING PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes and dividend on cumulative preference shares for the year) by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for event of bonus issue/right issue etc.; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

2.20) SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the standalone financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these judgements, assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

a) Company as a leases

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

Notes on Standalone Financial Statement for the year ended 31st March 2025.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customization to the leased asset).

b) Taxes

Uncertainties exist with respect to the interpretation of tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority

c) Defined benefits Plan

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in future. These includes the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

d) Fair value measurement of financial instrument

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

e) Impairment of financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. the Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history existing market conditions as well as forward looking estimates at the end of each reporting period.

f) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount.

An assets recoverable amount is the higher of an asset's CGU'S fair value less cost of disposal and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are estimated based on past trend and discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other fair value indicators.

The Company assesses where climate risks could have a significant impact, such as the introduction of emission-reduction legislation that may increase manufacturing costs. These risks in relation to climate-related matters are included as key assumptions where they materially impact the measure of recoverable amount, these assumptions have been included in the cash-flow forecasts in assessing value-in-use amounts.

g) Provision for warranty

Provisions for warranties is measured at discounted present value using pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the liability. Warranty provisions is determined based on the historical percentage of warranty expense to sales for the same types of goods for which the warranty is currently being determined. The same percentage to the sales is applied for the current accounting period to derive the warranty expense to be accrued. It is very unlikely that actual warranty claims will exactly match the historical warranty percentage, so such estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence

h) Provision for expected credit losses (ECL) of trade receivables

The Company uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance). The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust the historical

Notes on Standalone Financial Statement for the year ended 31st March 2025.

credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forwardlooking estimates are analyzed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Company's trade receivables and contract assets is disclosed in Notes.

i) **Property, Plant and Equipment, investment properties and intangible assets**

Property, Plant and Equipment, investment property, and intangible assets represent significant portion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of assets expected useful life and expected value at the end of its useful life. The useful life and residual value of Company's assets are determined by Management at the time asset is acquired and reviewed periodically including at the end of each year. The useful life is based on historical experience with similar assets in anticipation of future events, which may have impact on their life such as change in technology.

j) **Leases - Estimating the incremental borrowing rate**

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

k) **Revenue from contracts with customers**

The Company applies the judgements in respect to transactions relating to tooling development, Principal versus agent consideration that significant financing component in a contract that significantly affect the determination of the amount and timing of revenue from contracts with customers For more details, refer accounting policy on revenue from contract with customers.

Nature and purpose of Reserves

(i) Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes in accordance with the provisions of the Companies Act, 2013.

(ii) Retained earnings

Retained earnings are the profits that the Company has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss.

(iii) Share Options Outstanding reserve

The share options-based payment reserve is used to recognise the grant date fair value of options issued to employees under Employee stock option plan.

(iv) General Reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Company for that year, then the total dividend distribution is less than the total distributable results for that year. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.

(v) Capital revaluation reserve

Cumulative gains and losses arising on revaluation of Fixed assets measured at market value are recognised in capital revaluation reserve. The reserve balance represents such changes recognised net of amounts reclassified to retained earnings on disposal of such assets.

(vi) Equity instruments through other comprehensive income

The Company has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the Equity instrument through other comprehensive income reserve within retained earnings.

Note 47. Employee stock option plan

Share Reserved for Issue under Options outstanding as at the end of the year on unissued share capital

As on 1st April, 2024, the company had 1 (one) ongoing employee Stock Options scheme i.e Steel Strips Wheels Limited- Employee Stock Option Scheme, 2021 (ESOS 2021).

1. Steel Strips Wheels Limited- Employee Stock Option Scheme, 2021 (ESOS 2021)

The Company has an ongoing Employee Stock Option Scheme (ESOS) titled as "Steel Strips Wheels Limited - Employee Stock Option Scheme, 2021" ("ESOS 2021" or "the scheme") in accordance with the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 which was approved by the Board of Directors and subsequently by shareholders of the Company at their 35th Annual General Meeting (AGM) held on 30.09.2021, authorizing the company to create, offer, issue and grant, in one or more tranches, up to 5,00,000 options (or such other adjusted figures after the sub-division of equity shares, if any) to the employees of the company.

As per the terms of the Scheme, all the options granted on any date shall vest not earlier than 1 (one) year and not later than a maximum of 4 (four) years from the respective date of grant of options as may be determined by Employee Compensation Committee (ECC) and each option would entitle the holder thereof to subscribe equal number of equity shares of face value (FV) Rs. 10/- each (or such other adjusted figures after the sub-division of equity shares, if any) at an exercise price as may be determined by the ECC/ Board of Directors of the Company. Further, the Exercise period would commence from the date of vesting and will expire on completion of 5 years from the respective date of grant or such other shorter period as may be decided by "ECC" from time to time.

Further, the Company had sub-divided its equity shares of FV of Rs. 10/- each, two (2) times in the following manner:-

- 1st Sub-Division in the year 2021: FV of Rs. 10/- each to FV of Rs. 5/- each w.e.f. 22.11.2021:
Pursuant to the approval of the shareholders at their 35th Annual General Meeting held on 30.09.2021, the Company had sub-divided its existing 1(one) equity share of FV of Rs. 10/- each into 2(two) equity shares of FV of Rs. 5/- each w.e.f. record date i.e. 22.11.2021.
- 2nd Sub-Division in the year 2022: FV of Rs. 5/- each to FV of Re. 1/- each w.e.f. 11.11.2022:
Pursuant to the approval of the shareholders at their 36th Annual General Meeting held on 30.09.2022, the Company had again sub-divided its existing 1(one) equity share of FV of Rs. 5/- each into 5(five) equity shares of FV of Re.1/- each w.e.f. record date i.e. 11.11.2022.

Until 11.11.2022, the company had not granted any stock options under ESOS 2021. Accordingly, as a result of the aforesaid sub-divisions, the number of stock options available for future grant(s) under ESOS 2021 increased from 5,00,000 to 50,00,000 options and each option is convertible into equal number of equity shares of FV Rs. 1/- each at an exercise price as may be determined by the ECC/ Board of Directors of the Company.

Further, ECC in its meeting held on 17.11.2022 had granted 5,00,000 options (Tranche 1) to the employees of the Company in accordance with the ESOS 2021. Each option entitled the holder thereof to subscribe one equity share of FV Rs. 1/- each at an exercise price of Rs. 20/- per share of the company. As decided by the ECC, the vesting period for the said 5,00,000 options granted was one year from the date of grant and the Exercise period would commence from the date of vesting and will expire on completion of 5 years from the respective date of grant of options.

During the financial year 2023-24:

- The Allotment Committee of the Board of Directors of the Company in its meeting held on 12.12.2023 had allotted 416125 equity shares (Tranche 1) of FV of Re. 1/- each for cash at an Exercise price of Rs. 20/- per equity share of the company to the employees of the company who had exercised their stock options under the ESOS 2021.
- The ECC in its meeting held on 16.03.2024 had forfeited 4750 options out of total outstanding stock options granted under Tranche 1 of ESOS 2021, as the employees to whom these options were granted had left the company. Accordingly, 79125 vested options under Tranche 1 were eligible for exercise at the end of the FY 2023-24.
- The ECC in its meeting held on 16.03.2024 had also granted 2,00,000 (Tranche 2) stock options to eligible employees of the Company in accordance with ESOS 2021. Each option shall entitle the holder to acquire one (1) equity share of FV Re. 1/- each of the Company at an exercise price of Rs. 20/- per equity share. As decided by the ECC, the Options granted (Tranche 2) shall vest after completion of one(1) year from the date of grant and exercise period would commence from date of vesting and will expire on completion of 5 years from the date of grant.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2025

(All amounts ₹ in Lakhs, unless stated otherwise)

During the financial year 2024-25:

- The Options granted by ECC under Tranche 2 of ESOS 2021 on 16.03.2024, vested on 16.03.2025 i.e. after completion of one(1) year from the date of grant and exercise period commenced from date of vesting and will expire on completion of 5 years from the date of grant.
- The ECC in its meeting held on 13.03.2025 have granted 5,00,000 (Tranche 3) stock options to eligible employees of the company in accordance with ESOS 2021. Each option shall entitle the holder to acquire one (1) equity share of face value Re. 1/- each of the Company at an exercise price of Rs. 20/- per equity share. As decided by the ECC, the Options granted shall vest on 13.03.2026 i.e after completion of one(1) year from the date of grant and exercise period would commence from date of vesting and will expire on completion of 5 years from the date of grant.

3. Impact of fair Valuation method on Net Profit under EPS

In March 2005, the Institute of Chartered Accountants of India had issued a guidance note on "Accounting for Employees Share based payments" applicable to Employee based share plan, the grant date in respect of which falls on or after April 1, 2005. The said guidance notes requires the Pro-forma Disclosures of the impact of fair value method of accounting of Employee stock Compensation accounting in the financial statements. The employee compensation cost was calculated by an Independent Valuer using the fair value method of accounting to account for the options granted under "ESOS 2021" therefore there will not be any impact on profits and EPS of the company.

Note:- 48. Financial risk management objectives and policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's financial assets include loans, trade and other receivables, and cash & cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The company's senior management oversees the management of these risks. The company's senior management is supported by a Business Risk Management committee that advises on financial risks and the appropriate financial risk governance framework for the Company. This Business Risk Management committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedure and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

Market risk

a) Price Risk

Fluctuation in commodity price in global market affects directly and indirectly the price of raw material and components used by the Company in its products. The key raw material for the Company's business is HR Steel & Aluminium Ingot. The Company has arrangements with its major customers for passing on the price impact. The Company is also regularly taking initiatives like VA VE (value addition, value engineering) to reduce its raw material costs to meet targets set up by its customers for cost downs.

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long term debt obligations with floating interest rates. The Company is carrying its borrowings primarily at variable rate.

Variable rate borrowings	27,862.15	38,136.57
Fixed rate borrowings	-	-
Total Borrowings	27,862.15	38,136.57

Interest rate sensitivity

For the Purpose of computing interest rate sensitivity on the above borrowings, management has estimated a reasonably possible change in interest rate as 50bps based on current as well as expected economic conditions. This analysis is based on Long Term Risk exposures outstanding at the reporting date and assumes that all other variables, in particular foreign currency exchange rates, remains constant. The period and balances are not necessarily representative of the average amounts outstanding during the periods.

Foreign Currency option contracts mature within 12 months

ii) Mark to market losses / (gain) on Forwards/Options

Particulars	As at 31st March 2025
Mark to Market losses/(gain)	(52.02)

d) Credit risk

The credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations towards the Company and arises principally from the Company's receivables from customers and deposits with banking institutions. The maximum amount of the credit exposure is equal to the carrying amounts of these receivables. The Company has developed guidelines for the management of credit risk from trade receivables. The Company's primary customers are major Indian automobile manufacturers (OEMs) with good credit ratings. Non-OEM clients are subjected to credit assessments as a precautionary measure, and the adherence of all clients to payment due dates is monitored on an on-going basis, thereby practically eliminating the risk of default. The Company has deposited liquid funds at various banking institutions. Primary banking institutions are major Indian and foreign banks. In long term credit ratings these banking institutions are considered to be investment grade. Also, no impairment loss has been recorded in respect of fixed deposits that are with recognised commercial banks and are not past due.

e) Liquidity risk

The liquidity risk encompasses any risk that the Company cannot fully meet its financial obligations. To manage the liquidity risk, cash flow forecasting is performed in the operating divisions of the Company and aggregated by Company finance. The Company's finance monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom in its undrawn committed borrowing facilities / overdraft facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

INDEPENDENT AUDITOR'S REPORT

**To The Members of
Steel Strips Wheels Limited
Report on the Audit of the Consolidated Financial Statements**

1. Opinion

We have audited the accompanying Consolidated Financial Statements of **Steel Strips Wheels Limited** ("the Holding Company") and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group"), including an associate company, which comprise the Consolidated Balance Sheet as at March 31, 2025, and the Consolidated Statement of Profit and Loss (including other comprehensive income), Consolidated Statement of Changes in Equity and Consolidated Cash Flow Statement for the year then ended, and notes to the consolidated Ind AS financial statements including a summary of material accounting policies and other explanatory information (hereinafter referred to as "Consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us and on the other financial information of the associate company, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, and its associate company as at 31st March 2025, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group, associate company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

3. Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements, as a whole and in forming our opinion thereon and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

4. Information Other than the Financial Statements and Auditor's Report Thereon

- The Holding Company's Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Holding Company's Annual Report, but does not include the Consolidated financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard

5. Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its Associate in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its Associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making

judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its Associate are responsible for assessing the ability of their respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and of its Associate are also responsible for overseeing the financial reporting process of their respective companies.

6. Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company and its subsidiary company which are incorporated in India, has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate of which we are the independent auditors, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances,

we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. Other Matters

The consolidated financial statements/ financial information of the one subsidiary reflect total assets of Rs. 3,348.80 Lakhs as at March 31, 2025, total revenue of NIL, total comprehensive income (comprising of profit and other comprehensive income) of Rs. Annexure B to Independent Auditor's Report

Referred to the Independent Auditor's Report of even date on the Consolidated Financial Statements for the year ended 31st March 2025

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the consolidated financial statements of Steel Strips Wheels Limited (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group") and its associate, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding company, its subsidiary company, its associate company which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the internal financial controls over financial reporting of the based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor of the associate company, which are companies incorporated in India in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company, its subsidiary company and its associate company, which are companies incorporated in India

Meaning of Internal financial controls over financial reporting

4. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitation of Internal financial controls over financial reporting

5. Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods

are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate

Opinion

6. In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Holding Company, its subsidiary company and associate company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to one associate company, which are company incorporated in India, is based solely on the corresponding reports of the auditor of such company incorporated in India.

Our opinion is not modified in respect of the above matters.

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

1. CORPORATE INFORMATION

The consolidated financial statements comprise financial statements of Steel Strips Wheels Limited (the Parent company) and its subsidiary and associate (collectively referred as "the Group").

Steel Strips Wheels Limited (the Parent company) is a public limited Company incorporated on 28th February 1985 under the Companies Act, 1956. Its shares are listed on both Bombay Stock Exchange and National Stock Exchange. The Parent and subsidiary companies are engaged in the manufacturing of Automotive Wheel Rims and other auto components and associate company is engaged in generation of renewable power.

The consolidated financial statements were approved for issue in accordance with a resolution of the board of directors on 15th May 2025.

2. SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of Consolidated Financial Statements. These policies have been consistently applied to all the years except where newly issued accounting standard is initially adopted.

2.01) Basis of Preparation of Consolidated Financial Statements

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of schedule III to the Companies Act, 2013 (Ind AS compliant schedule III) as applicable to these consolidated financial statements.

The Group has prepared the consolidated financial statements on the basis that it will continue to operate as going concern. These policies have been consistently applied to all the years presented, unless otherwise stated.

The consolidated financial statements have been prepared on a historical cost basis, except for the following assets and liabilities.

- (i) Certain financial assets and liabilities that is measured at fair value.
- (ii) Assets held for sale-measured at fair value less cost to sell
- (iii) Defined benefit plans-plan assets measured at fair value
- (iv) Share based payments.

2.02) Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non- current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle - Held primarily for purpose of trading.
- Expected to be realised within twelve months after the reporting period, or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle.
- It is held primarily for purpose of trading.
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The term of the liability that could, at the option of counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Deferred tax assets and deferred tax liabilities are classified as non- current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

2.03) Basis of consolidation

The consolidated financial statements comprise the financial statements of the parent company along with its subsidiary and associate as at 31 March 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- (i) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee).
- (ii) Exposure, or rights, to variable returns from its involvement with the investee, and
- (iii) The ability to use its power over the investee to affect its returns.

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (i) The contractual arrangement with the other vote holders of the investee
- (ii) Rights arising from other contractual arrangements
- (iii) The Group's voting rights and potential voting rights.
- (iv) The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed off during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31st. When the end of the reporting period of the parent is different from that of other group companies, the other group companies prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent company to enable the parent to consolidate the financial information of the group companies, unless it is impracticable to do so.

2.04) Consolidation procedure:

(A) Subsidiary

- (a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- (b) Offset (eliminate) the carrying amount of the parent's investment in subsidiary and the parent's portion of equity of subsidiary. Business combinations policy explains how to account for any related goodwill/reserves.
- (c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 "Income Taxes" applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

(B) Investment in Associate

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiary.

The Group's investments in its associate are accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date.

The statement of profit and loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognizes its share of any changes, when applicable, in the statement of changes in equity. Unrealized gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

If the Group's share of losses of an associate equals or exceeds its interest in the associate (which includes any long-term interest that, in substance, form part of the Group's net investment in the associate), the entity discontinues recognizing its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the entity resumes recognizing its share of those profits only after its share of the profits equals the share of losses not recognised.

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the statement of profit and loss outside operating profit.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognizes the loss as 'Share of profit of an associate in the statement of profit and loss.

Upon loss of significant influence over the associate the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

The Group discontinue the use of equity method from the date the investment is classified as held for sale in accordance with Ind AS 105 - Non-Current Assets Held for Sale and Discontinued Operations and measures the interest in associate held for sale at the lower of its carrying amount or fair value less cost to sell.

(C) Business Combinations

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Group to the previous owners of the acquiree, and equity interests issued by the Group. Consideration transferred also includes the fair value of any contingent consideration. Consideration transferred does not include amounts related to the settlement of pre-existing relationships. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not re-measured and the settlement is accounted for within other equity. Otherwise, other contingent consideration is re-measured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recorded in the Standalone Statement of Profit and Loss. A contingent liability of the acquiree is assumed in a business combination only if such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably. On an acquisition-by-acquisition basis, the Group recognizes any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Transaction costs that the Group incurs in connection with a business combination, such as stamp duty for title transfer in the name of the Group, finder's fees, legal fees, due diligence fees and other professional and consulting fees, are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organized workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- (i) Deferred tax assets or liabilities, and the liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- (ii) Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- (iii) Liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.
- (iv) Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.
- (v) Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Business Combinations involving entities or businesses in which all the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination, and where that control is not transitory is accounted using the pooling of interests method as enumerated below:

- (a) The assets and liabilities of the combining entities are reflected at their carrying amounts.
- (b) No adjustments are made to reflect fair values, or recognised any new assets or liabilities. The only adjustments that are made are to harmonies accounting policies.
- (c) The financial information in the financial statements in respect of prior periods should be restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, if business combination had occurred after that date, the prior period information shall be restated only from that date.
- (d) The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with corresponding balance appearing in the financial statements of the transferee or is adjusted against revenue reserve.
- (e) The identity of the reserves shall be preserved and shall appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.
- (f) The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to revenue reserves/ capital reserves.

2.05) Revenue from contract with customers

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

A receivable is recognized when the control of the product is transferred as the consideration is unconditional and payment becomes due upon passage of time as per the terms of contract with customers. The Group collects GST on behalf of the government and, therefore, it is not an economic benefit flowing to the Group. Hence, it is excluded from revenue.

Revenue from sales of products.

Revenue from sale of products is recognized at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods and there are no unfulfilled obligations.

The Group considers, whether there are other promises in the contract in which there are separate performance obligations, to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of equipment, the Group considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer, if any.

Variable consideration

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Some contracts for the sale of product provide customers with a right of return the goods within a specified period. The Group also provides retrospective volume rebates to certain customers once the quantity of product purchased during the period exceeds the threshold specified in the contract. The rights of return and volume rebates give rise to variable consideration. The Group uses the expected value method to estimate the goods that will not be returned because this method best predicts the amount of variable consideration to which the Group will be entitled. The requirements in Ind AS 115 on constraining estimates of variable consideration are also applied in order to determine the amount of variable consideration that can be included in the transaction price. For goods that are expected to be returned, instead of revenue, the Group recognizes a refund liability. A right of return asset (and corresponding adjustment to cost of sales) is also recognized for the right to recover products from a customer.

Warranty obligations

The Group generally provides for warranties for general repair of defects that existed at the time of sale. These warranties are assurance-type warranties under Ind AS 115, which are accounted for under Ind AS 37 (Provisions, Contingent Liabilities and Contingent Assets).

Significant Financing Components

In respect of short-term advances from its customers, using the practical expedient in Ind AS 115, the Group is not required to adjust the promised amount of consideration for the effects of a significant financing component because it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be within normal operating cycle.

Sale of service

The Group recognizes revenue from sales of services over period of time, because the customer simultaneously receives and consumes the benefits provided by the Group. Revenue from services related activities is recognized as and when services are rendered and on the basis of contractual terms with the parties.

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

Contract assets

Contract assets is right to consideration in exchange for goods or services transferred to the customer and performance obligation satisfied. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Upon completion of the attached condition and acceptance by the customer, the amounts recognized as contract assets is reclassified to trade receivables upon invoicing. A receivable represents the Group's right to an amount of consideration that is unconditional. Contract assets are subject to impairment assessment. Refer to accounting policies on impairment of financial assets in section (Financial instruments – initial recognition and subsequent measurement).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer or has raised the invoice in advance. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

Trade receivables

A trade receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (Financial instruments).

2.06) Other Operating Revenues

Export incentives

Revenue from export benefits arising from duty drawback scheme, rodtep scheme, remission of duties and taxes on exported product scheme are recognised on export of goods in accordance with their respective underlying scheme at fair value of consideration received or receivable.

2.07) LEASES

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

i) Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the underlying assets. If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 'Impairment of non-financial assets'.

ii) Lease Liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The groups' lease liabilities are included in other current and non-current financial liabilities.

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

Variable lease payments that depend on sales are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

iii) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

2.08) ACCOUNTING FOR TAXES ON INCOME

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the group operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the group has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each reporting date, the Group re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Group writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

MAT credit is recognized as an asset only when and to the extent there is convincing evidence that the group will pay normal income tax during the specified period. In the year in which the **Minimum Alternative tax (MAT)** credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement. The Group reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Group will pay normal Income Tax during the specified period.

2.09) IMPAIRMENT OF NON FINANCIAL ASSETS

A. At each Balance Sheet date, the carrying amount of assets is tested based on internal/external factors, for impairment so as to determine:

- (i) The provision for impairment loss, if any; and
- (ii) The reversal of impairment loss recognized in previous periods, if any.

B. Impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:

- (i) In the case of an individual asset, higher of the net selling price or the value in use.
- (ii) In the case of a cash generating unit (a group of assets that generates identified, independent cash flows), at the higher of the cash generating unit's net selling price or the value in use.

(Value in use is determined as the present value of estimated future cash flows discounted to their present value at the weighted average cost of Capital, from the continuing use of an asset and from its disposal at the end of its useful life).

Post impairment, depreciation is provided on the revised carrying value of the asset over its remaining useful life.

2.10) CASH AND CASH EQUIVALENTS

Cash and cash equivalents balances include cash in hand, fixed deposits, margin money deposits, earmarked balances with banks, other bank balances such as dividend accounts, which have restrictions on repatriation, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposit held at call with financial institutions, other short - term, highly liquid investments with original maturities of three months or less that

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

2.11) INVENTORIES

a) Basis of valuation:

- i) Inventories other than scrap materials are valued at lower of cost or net realisable value after providing cost of obsolescence, if any. The comparison of cost and net realisable value is made on an item-by-item basis.

b) Method of Valuation:

- i) Cost of raw materials has been determined by using moving weighted average cost method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
- ii) Cost of finished goods and work-in-progress includes direct labour and an appropriate share of fixed and variable production overheads. Fixed production overheads are allocated on the basis of normal capacity of production facilities. Cost is determined on moving weighted average basis.
- iii) Cost of traded goods has been determined by using moving weighted average cost method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.
- iv) Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products. Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.
- v) Appropriate adjustments are made to the carrying value of damaged, slow moving and obsolete inventories based on management's current best estimate.

2.12) FINANCIAL INSTRUMENT

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i) Financial Assets

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- those measured at amortised cost

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the group has made an irrevocable election at the time of initial recognition to account for the equity investment at FVTOCI.

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section "Revenue from contracts with customers".

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Subsequent measurement

For purposes of subsequent measurement financial assets are classified in following categories:

- Financial assets at amortised cost (debt instruments).

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments).
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments).
- Financial assets at fair value through profit or loss.

Financial assets at amortised cost (debt instruments)

A 'financial asset' is measured at the amortised cost if both the following conditions are met:

- a) **Business Model Test:** The objective is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes) and
- b) **Cash flow characteristics test:** The contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

This category is most relevant to the Group. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. The EIR amortisation is included in other income in profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Financial assets at fair value through OCI (FVTOCI) (debt instruments)

A 'financial asset' is classified as at the FVTOCI if both of the following criteria are met:

- a) **Business Model Test:** The objective of financial instrument is achieved by both collecting contractual cash flows and selling the financial assets; and
- b) **Cash flow characteristics test:** The contractual terms of the Debt instrument give rise on specific dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

Debt instrument included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI), except for the recognition of interest income, impairment gains or losses and foreign exchange gains or losses which are recognised in statement of profit and loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value changes recognised in OCI is reclassified from the equity to profit or loss.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss. This category includes derivative instruments and listed equity investments which the Group had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are recognised in the statement of profit and loss when the right of payment has been established.

Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e. removed from the Group's statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement and either;
 - (a) the Group has transferred substantially all the risks and rewards of the asset, or
 - (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

In accordance with IND AS 109, the Group applies expected credit losses (ECL) model for measurement and recognition of impairment loss on the following financial asset and credit risk exposure

- Financial assets measured at amortised cost;
- Financial assets measured at fair value through other comprehensive income (FVTOCI);
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115;
- Loan commitments which are not measured as at FVTPL;
- Financial guarantee contracts which are not measured as at FVTPL

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For recognition of impairment loss on financial assets other than mentioned below and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

The Group follows "simplified approach" for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables;
- All lease receivables resulting from the transactions within the scope of Ind AS 116 -Leases

Under the simplified approach, the Group does not track changes in credit risk. Rather, it recognized impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Group uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analyzed.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/ expense in the statement of profit and loss. The balance sheet presentation for various financial instruments is described below:

- (a) **Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables:** ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Group does not reduce impairment allowance from the gross carrying amount.
- (b) **Loan commitments and financial guarantee contracts:** ECL is presented as a provision in the balance sheet, i.e. as a liability.
- (c) **Debt instruments measured at FVTOCI:** For debt instruments measured at FVTOCI, the expected credit losses do not reduce the carrying amount in the balance sheet, which remains at fair value. Instead, an amount equal to the allowance that would arise if the asset was measured at amortised cost is recognised in other comprehensive income as the accumulated impairment amount.

(ii) Financial Liabilities:

Initial recognition and measurement

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or loss, loans and borrowings, and payables, net of directly attributable transaction costs. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Group financial liabilities include loans and borrowings, trade payables, trade deposits, retention money, liabilities towards services, sales incentive and other payables.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- (i) Financial liabilities at fair value through profit or loss

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

(ii) **Financial liabilities at amortised cost (loans and borrowings)**

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationship as defined by Ind AS 109. The separated embedded derivative are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in IND AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognised in OCI. These gains/ loss are not subsequently transferred to profit and loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Group has not designated any financial liability as at fair value through profit and loss.

Financial liabilities at amortized cost (Loans and borrowings)

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the Effective interest rate method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the Effective interest rate amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the Effective interest rate. The Effective interest rate amortisation is included as finance costs in the statement of profit and loss.

Trade Payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually payable basis varying trade term. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at fair value and subsequently measured at amortised cost using Effective interest rate method.

Financial Guarantee Contracts:

Financial guarantee contracts issued by the Group are those contracts that requires payment to be made to reimburse the holders for a loss it incurs because the specified debtors fail to make a payment when due in accordance with the term of debt instrument.

Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction cost that are directly attributed to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirement of IND AS 109 or the amount recognised less, when appropriate, the cumulative amount of income recognised in accordance with principles of IND AS 115.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financials assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Reclassification of financial assets/ financial liabilities

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group's senior management determines change in the business model as a result of external or internal changes which are significant to the Group's operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

2.13) PROPERTY, PLANT AND EQUIPMENT (PPE)

Fixed assets are stated at original cost net of tax/duty credit availed, if any, less accumulated depreciation and cumulative impairment and those which have been revaluated are stated at the values determined by the values less accumulated depreciation and cumulative impairment. Cost of acquisition is inclusive of freight and other incidental expenses and interest on loan taken for the acquisition of qualifying assets up to the date of commissioning of assets.

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

Subsequent expenditure related to PPE is capitalized only when it is probable that future economic benefits associated with these will flow to the group and cost of the item can be measured reliably. All other expenses on existing fixed assets, including day to day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gain or losses arising from de-recognition of fixed assets are measured as the difference between the net disposable proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

The exchange differences arising on reporting of long term foreign currency monetary items at rates different from those at which they were initially recorded during the period, or reported in previous financial statements, in so far as they relate to the acquisition of a depreciable capital asset, have been added to or deducted from the cost of the asset and shall be depreciated over the balance useful life of the asset.

Die Tooling, developed in-house, includes cost of material and other direct/ incidental expense on in-house development.

Tangible Assets not ready for the intended use on the date of the balance Sheet are disclosed as "capital work in progress".

DEPRECIATION / AMORTIZATION ON TANGIBLE FIXED ASSETS

Depreciation is the systematic allocation of the depreciable amount of an asset over useful life. The depreciable amount of an asset is the cost of an asset or other amount substituted for cost, less its residual value.

A. OWNED ASSETS

- (i) Pursuant to applicability of Schedule II, of Companies Act 2013, with effect from 1st April 2014, Management has reassessed the useful life of tangible assets based on the internal and external technical evaluation. The Depreciation on fixed assets is provided on straight line method in accordance with applicable Schedule of the Companies Act, 2013.
- (ii) Depreciation for addition to/ deductions from, owned assets is calculated on pro-rata basis from the date of such addition or, as the case may be, up to the date on which such asset has been sold, discarded, demolished or destroyed.
- (iii) Residual values of assets have been considered at 5% of the original cost of the assets.
- (iv) Difference of Exchange Rate fluctuation on imported plant and machineries procured out of long term foreign currency loans is amortized over the residual life of relevant plant and machineries.
- (v) The depreciation calculation is based on the balance useful lives of assets and shift working. Depreciation on assets used on double shift basis have been increased by 50% for that period and depreciation on assets used in triple shift basis have been increased by 100% for that period, except for assets in respect of which no extra shift depreciation is permitted (indicated by NESD in Part C of the schedule).
- (vi) The estimated useful lives for the categories of property, plant and equipment are:

Particulars	Estimated useful life (years)
Buildings	30-60 Years
Plant and machinery	15-28 Years
Furniture and fixtures	3-10 Years
Office Equipment	3-10 Years
Vehicles	5-8 Years

B. INTANGIBLE ASSETS AND AMORTIZATION

Intangible assets are stated at original cost net of tax/duty credit availed, if any, less accumulated amortization and cumulative impairment. Intangible assets are recognized when it is probable that the future economic benefits are attributable to the asset will flow to the enterprise and the cost of asset can be measured reliably. Intangible assets are amortized over their estimated useful life. The estimated useful life of an identifiable intangible asset is based on number of factors including the effects of obsolescence etc.

Intangible Assets not ready for the intended use on the date of balance sheet are disclosed as "intangible assets under development"

2.14) Investment Properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred. The Group depreciates building on a straight line basis over a period of 30 years from the date of original purchase.

Though the Group measures investment property using cost based measurement, the fair value of investment property is disclosed in notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model recommended by the international valuation standards committee.

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

Transfers are made to (or from) investment properties only when there is a change in use. Transfer between investment property and owner occupied property do not change the carrying amount of the property transferred and they do not change the cost of that property for measurement or disclosure purpose.

2.15) BORROWINGS

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates. Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss as other income or finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

2.16) BORROWING COST

Borrowing cost includes interest and other costs incurred in connection with the borrowing of funds and charged to Statement of Profit & Loss on the basis of effective interest rate (EIR) method. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are recognized as expense in the period in which they occur.

2.17) PROVISION AND CONTINGENT LIABILITIES

Provisions

Provisions are recognized when the group has a present obligation (legal or constructive) as a result of a past event, it is probable that the group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably.

2.18) EMPLOYEE BENEFITS

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Provident Fund & Employee State Insurance

Retirement benefit in the form of provident fund is a defined contribution scheme. The Group has no obligation, other than the contribution payable to the provident fund. The Group recognises contribution payable through provident fund scheme as an expense, when an employee renders the related services. If the contribution payable to scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excesses recognised as an asset to the extent that the prepayment will lead to, for example, a reduction in future payment or a cash refund.

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

Gratuity

The Employee's Gratuity Fund Scheme, which is defined benefit plan, is managed by Trust with its investments maintained with Life Insurance Corporation of India. The liabilities with respect to Gratuity Plan are determined by actuarial valuation on projected unit credit method on the balance sheet date, based upon which the Group contributes to the Gratuity Scheme. The difference, if any, between the actuarial valuation of the gratuity of employees at the year end and the balance of funds is provided for as assets/ (liability) in the books. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognizes the following changes in the net defined benefit obligation under Employee benefit expense in statement of profit or loss:

- a) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements.
- b) Net interest expense or income.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amount included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re measurements are not reclassified to profit or loss in subsequent periods.

Compensated Absences

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end. Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year are treated as other long term employee benefits. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in profit or loss in the period in which they arise. Past-service costs are recognized immediately in profit or loss.

Other Long term incentive plan – Employee stock option plan

The Group provides long term incentive plan to employees via equity settled share based payments. The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognised, together with a corresponding increase in employee stock option reserves in other equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense.

The amount recognised as expense is based on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

2.19) Foreign Currency Translation

i) Functional and Presentation currency

The functional currency of the Group is Indian Rupee. These financial statements are presented in Indian Rupee (rounded off to lakhs).

ii) Transaction and balances

The foreign currency transactions are recorded, on initial recognition in the functional currency, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

The foreign currency monetary items are translated using the closing rate at the end of each reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency shall be translated using the exchange rate at the date of the transaction. Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements shall be recognized in profit or loss in the period in which they arise.

(iii) Exchange differences

Foreign exchange differences recorded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance cost. All other foreign exchange gains and losses are presented in the statement of profit and loss on net basis.

2.20) SEGMENT REPORTING

The Group deals in only one business segment of manufacturing and sale of auto ancillary equipment's and the chief operating decision maker (CODM) reviews the operations of the Group as a whole, hence there is no reportable segments as per Ind AS 108 "Operating Segments". The management considers that the various goods and services provided by the Group constitutes single business segment, since the risk and rewards from these services are not different from one another.

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

2.21) EARNING PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes and dividend on cumulative preference shares for the year) by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for event of bonus issue/right issue etc.; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

2.22) SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the consolidated financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these judgements, assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

A) Group as a leases

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customization to the leased asset).

B) Taxes

Uncertainties exist with respect to the interpretation of tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority.

C) Defined benefits Plan

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in future. These includes the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

D) Fair value measurement of financial instrument

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

E) Impairment of financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

F) Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An assets recoverable amount is the higher of an asset's CGU'S fair value less cost of disposal and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are estimated based on past trend and discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other fair value indicators.

Notes on Consolidated Financial Statement for the year ended 31st March 2025.

The Group assesses where climate risks could have a significant impact, such as the introduction of emission-reduction legislation that may increase manufacturing costs. These risks in relation to climate-related matters are included as key assumptions where they materially impact the measure of recoverable amount, these assumptions have been included in the cash-flow forecasts in assessing value-in-use amounts.

G) Provision for warranty

Provisions for warranties is measured at discounted present value using pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the liability. Warranty provisions is determined based on the historical percentage of warranty expense to sales for the same types of goods for which the warranty is currently being determined. The same percentage to the sales is applied for the current accounting period to derive the warranty expense to be accrued. It is very unlikely that actual warranty claims will exactly match the historical warranty percentage, so such estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence.

H) Provision for expected credit losses (ECL) of trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance). The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analyzed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables and contract assets is disclosed in Notes.

I) Property, Plant and Equipment, investment properties and intangible assets

Property, Plant and Equipment, investment property, and intangible assets represent significant portion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of assets expected useful life and expected value at the end of its useful life. The useful life and residual value of Group's assets are determined by Management at the time asset is acquired and reviewed periodically including at the end of each year. The useful life is based on historical experience with similar assets in anticipation of future events, which may have impact on their life such as change in technology.

J) Leases - Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

K) Revenue from contracts with customers

The Group applies the judgements in respect to transactions relating to tooling development, Principal versus agent consideration that significant financing component in a contract that significantly affect the determination of the amount and timing of revenue from contracts with customers.

Nature and purpose of Reserves

(i) Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes in accordance with the provisions of the Companies Act, 2013.

(ii) Retained earnings

Retained earnings are the profits that the Company has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss.

(iii) Share Options Outstanding reserve

The share options-based payment reserve is used to recognise the grant date fair value of options issued to employees under Employee stock option plan.

(iv) General Reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the parent Company for that year, then the total dividend distribution is less than the total distributable results for that year. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.

(v) Capital revaluation reserve

Cumulative gains and losses arising on revaluation of Fixed assets measured at market value are recognised in capital revaluation reserve. The reserve balance represents such changes recognised net of amounts reclassified to retained earnings on disposal of such assets.

(vi) Equity instruments through other comprehensive income

The Company has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the Equity instrument through other comprehensive income reserve within retained earnings.

Note 47. Employee stock option plan

Share Reserved for Issue under Options outstanding as at the end of the year on unissued share capital

As on 1st April, 2024, the company had 1 (one) ongoing employee Stock Options scheme i.e Steel Strips Wheels Limited- Employee Stock Option Scheme, 2021 (ESOS 2021).

1. Steel Strips Wheels Limited- Employee Stock Option Scheme, 2021 (ESOS 2021)

The Company has an ongoing Employee Stock Option Scheme (ESOS) titled as "Steel Strips Wheels Limited - Employee Stock Option Scheme, 2021" ("ESOS 2021" or "the scheme") in accordance with the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 which was approved by the Board of Directors and subsequently by shareholders of the Company at their 35th Annual General Meeting (AGM) held on 30.09.2021, authorizing the company to create, offer, issue and grant, in one or more tranches, up to 5,00,000 options (or such other adjusted figures after the sub-division of equity shares, if any) to the employees of the company.

As per the terms of the Scheme, all the options granted on any date shall vest not earlier than 1 (one) year and not later than a maximum of 4 (four) years from the respective date of grant of options as may be determined by Employee Compensation Committee (ECC) and each option would entitle the holder thereof to subscribe equal number of equity shares of face value (FV) Rs. 10/- each (or such other adjusted figures after the sub-division of equity shares, if any) at an exercise price as may be determined by the ECC/ Board of Directors of the Company. Further, the Exercise period would commence from the date of vesting and will expire on completion of 5 years from the respective date of grant or such other shorter period as may be decided by "ECC" from time to time.

Further, the Company had sub-divided its equity shares of FV of Rs. 10/- each, two (2) times in the following manner:-

- 1st Sub-Division in the year 2021: FV of Rs. 10/- each to FV of Rs. 5/- each w.e.f. 22.11.2021:
Pursuant to the approval of the shareholders at their 35th Annual General Meeting held on 30.09.2021, the Company had sub-divided its existing 1(one) equity share of FV of Rs. 10/- each into 2(two) equity shares of FV of Rs. 5/- each w.e.f. record date i.e. 22.11.2021.
- 2nd Sub-Division in the year 2022: FV of Rs. 5/- each to FV of Re. 1/- each w.e.f. 11.11.2022:
Pursuant to the approval of the shareholders at their 36th Annual General Meeting held on 30.09.2022, the Company had again sub-divided its existing 1(one) equity share of FV of Rs. 5/- each into 5(five) equity shares of FV of Re.1/- each w.e.f. record date i.e. 11.11.2022.

Until 11.11.2022, the company had not granted any stock options under ESOS 2021. Accordingly, as a result of the aforesaid sub-divisions, the number of stock options available for future grant(s) under ESOS 2021 increased from 5,00,000 to 50,00,000 options and each option is convertible into equal number of equity shares of FV Rs. 1/- each at an exercise price as may be determined by the ECC/ Board of Directors of the Company.

Further, ECC in its meeting held on 17.11.2022 had granted 5,00,000 options (Tranche 1) to the employees of the Company in accordance with the ESOS 2021. Each option entitled the holder thereof to subscribe one equity share of FV Rs. 1/- each at an exercise price of Rs. 20/- per share of the company. As decided by the ECC, the vesting period for the said 5,00,000 options granted was one year from the date of grant and the Exercise period would commence from the date of vesting and will expire on completion of 5 years from the respective date of grant of options.

During the financial year 2023-24:

- The Allotment Committee of the Board of Directors of the Company in its meeting held on 12.12.2023 had allotted 416125 equity shares (Tranche 1) of FV of Re. 1/- each for cash at an Exercise price of Rs. 20/- per equity share of the company to the employees of the company who had exercised their stock options under the ESOS 2021.
- The ECC in its meeting held on 16.03.2024 had forfeited 4750 options out of total outstanding stock options granted under Tranche 1 of ESOS 2021, as the employees to whom these options were granted had left the company. Accordingly, 79125 vested options under Tranche 1 were eligible for exercise at the end of the FY 2023-24.
- The ECC in its meeting held on 16.03.2024 had also granted 2,00,000 (Tranche 2) stock options to eligible employees of the Company in accordance with ESOS 2021. Each option shall entitle the holder to acquire one (1) equity share of FV Re. 1/- each of the Company at an exercise price of Rs. 20/- per equity share. As decided by the ECC, the Options granted (Tranche 2) shall vest after completion of one(1) year from the date of grant and exercise period would commence from date of vesting and will expire on completion of 5 years from the date of grant.

Note:- 48. Financial risk management objectives and policies

The Group's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations and to support its operations. The Group's financial assets include loans, trade and other receivables, and cash & cash equivalents that derive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. The Group's senior management is supported by a Business Risk Management committee that advises on financial risks and the appropriate financial risk governance framework for the Group. This Business Risk Management committee provides assurance to the Group's senior management that the Group's financial risk activities are governed by appropriate policies and procedure and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

Market risk

a) Price Risk

Fluctuation in commodity price in global market affects directly and indirectly the price of raw material and components used by the Group in its products. The key raw material for the Group's business is HR Steel & Aluminium Ingot. The Group has arrangements with its major customers for passing on the price impact. The Group is also regularly taking initiatives like VA VE (value addition, value engineering) to reduce its raw material costs to meet targets set up by its customers for cost downs.

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long term debt obligations with floating interest rates. The Group is carrying its borrowings primarily at variable rate.

Particulars	As at 31st March 2025
Mark to Market losses/(gain)	(52.02)

d) Credit risk

The credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations towards the Company and arises principally from the Company's receivables from customers and deposits with banking institutions. The maximum amount of the credit exposure is equal to the carrying amounts of these receivables. The Company has developed guidelines for the management of credit risk from trade receivables. The Company's primary customers are major Indian automobile manufacturers (OEMs) with good credit ratings. Non-OEM clients are subjected to credit assessments as a precautionary measure, and the adherence of all clients to payment due dates is monitored on an on-going basis, thereby practically eliminating the risk of default. The Company has deposited liquid funds at various banking institutions. Primary banking institutions are major Indian and foreign banks. In long term credit ratings these banking institutions are considered to be investment grade. Also, no impairment loss has been recorded in respect of fixed deposits that are with recognised commercial banks and are not past due

e) Liquidity risk

The liquidity risk encompasses any risk that the Company cannot fully meet its financial obligations. To manage the liquidity risk, cash flow forecasting is performed in the operating divisions of the Company and aggregated by Company finance. The Company's finance monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom in its undrawn committed borrowing facilities / overdraft facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

Note:- 49 Capital Management

a) Risk Management

The Company's objectives when managing capital is to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and maintain an optimal capital structure to reduce the cost of capital. Consistent with peers in the industry, the Company monitors Net Debt to EBITDA ratio i.e. Net Debt (Total Borrowings net of Cash and Cash Equivalents) divided by EBITDA (Profit before tax plus depreciation and amortization expense plus Finance costs). The Company's strategy is to ensure that the Net Debt to EBITDA is managed at an optimal level considering the above factors. The Net Debt to EBITDA ratios were as follows:

	As at 31st March 2025	As at 31st March 2024
Net Debt	81,733.87	1,01,701.36
EBITDA	48,736.84	48,125.82
Net Debt/EBITDA	1.68	2.11

b) Loan covenants

Under the terms of the major borrowing facilities, the Company is required to comply with certain financial covenants and the Company has complied with those covenants throughout the reporting period.
