Carborundum Universal's Consolidated Q1 Net Sales up by 32%

Consolidated Operating PAT up by 107%

Chennai, 5th August 2011: The Board of Directors met today and approved the results for the quarter ended 30th June 2011.

Consolidated Q 1 financial performance

Consolidated net sales grew up by 32% to Rs.465 crores from Rs.352 crores. PBIT (excluding exceptional income) grew up by 73% from Rs.50 crores to Rs.87 crores. Growth was driven by the strong performance of both the Indian and Overseas operations. All business segments recorded **growth rates in excess of 25%.** Profitability of all business segments as well witnessed a good increase. Overseas subsidiaries recorded strong growth in sales, particularly the entities in Russia and South Africa.

Earnings before interest, depreciation and amortisation (EBITDA) recorded an increase of 65% (i.e. from Rs.60 crores to Rs.100 crores) without considering exceptional income of last year.

Profit before tax and exceptional income was Rs.80 crores - an increase of 86% over the previous year amount of Rs.43 crores. However, the profit after tax represents only an increase of 20% (i.e. Rs.52 crores compared to Rs.43 crores last year) because of the impact of the exceptional income of Rs.23 crores in the previous year.

Consolidated Operating Performance

Abrasives

CUMI's abrasives sales on a consolidated basis registered an increase of 34%. Sales for the quarter was Rs.198 crores (Rs.148 crores for the corresponding period of last year). This growth was made possible by the continued strong off-take from user industries in India and Russia.

In India the order inflow for non-standard bonded abrasives, both from direct customers and from the trade channel was buoyant. Coated abrasive products also registered strong growth in sales compared to last year, primarily driven by the sheets and rolls segments. The manufacturing team performed creditably to support the surge in sales. The business was able to improve margins due to

product mix and price increases. The operations in China, Middle East and Canada continued to be subdued though there were some improvements in the US operations. CUMI's subsidiary and joint venture in Indian abrasive segment, registered growth rates in excess of 25% aided by the buoyancy in the manufacturing sector.

Profit before interest and tax on a consolidated basis recorded an increase of 88% i.e. from Rs.17 crores to Rs.32 crores.

Electro Minerals

The second largest business segment viz. Electro Minerals continued to ride the growth wave with a robust increase of 33% in sales (Rs.176 crores vs. Rs.133 crores). The growth in sales was made possible by the robust performance of the Indian, Russian and South African operations. In Russia, sales growth was aided by higher price realisations. The Indian operations recorded good growth in both domestic and export sales. Captive sales also showed an improvement. All product segments registered good growth. The South African operations witnessed a revival in fortunes with profits showing a marked increase.

Strong growth in revenues and also good improvement in operating margins enabled the increase in profit before interest and tax of the electro minerals business on a consolidated basis by 72% i.e. from Rs.21 Crores to Rs.36 Crores.

Ceramics

The ceramics segment recorded a 27% increase in sales on a consolidated basis (Rs.101 Crores vs. Rs.79 Crores).

The high alumina ceramics business continued to perform well. Sales of metallized cylinders and wear resistant tiles registered strong growth. The growth in sales was driven more by the domestic market. Off-take was strong from the cement, material handling and ceramic tiles customer segments. Order inflow was good from the North American and Australian markets. CUMI Australia recovered from the slowdown experienced last year with sales increasing by 32%...

The super refractories and anti corrosives business on a stand alone basis recorded a significant increase of 36% in revenues. Order inflow was strong both for fired and monolithic products. Off-take from iron and steel industry and carbon black industry was extremely encouraging. The joint ventures in the refractories business registered a marginal growth on a combined basis.

Profit before interest and tax of the ceramics business segment on a consolidated basis increased by 44% i.e. from Rs.15 crores to Rs.22 crores. Operating margins also witnessed a good increase.

Outlook

Order incoming is strong for all businesses. There are some indications of an impending slow down in India because of the spike in interest rates and certain other macro economic factors. Globally also there are signs of slowdown in pockets. Greater clarity will emerge as the year progresses. The Company will continue to take focused action in each business to get more volumes / market share through new products and new customers to sustain its growth trends.

Corporate Events

The Board has approved a proposal to sub divide the equity shares of the Company from the current face value of Rs.2/- each to Re.1/- each. The proposal is subject to the approval of shareholders

The consolidated unaudited financial results are enclosed.

About the Murugappa Group

Founded in 1900, the Rs. 17051 Crores (USD 3.8 billion) Murugappa Group is one of India's leading business conglomerates.
