MANAGEMENT DISCUSSION & ANALYSIS

ECONOMY & INDUSTRY SECTION

INDIA ECONOMIC OVERVIEW:

India has long been viewed as a potential economic tiger that is yet to achieve its potential. Earlier myriad regulations and the intricate federal structure of the Government inhibited business growth and held back the nation from achieving its projected economic potential. However, this appears to be changing gradually. India's macro-economic situation witnessed an upswing in FY2015-16. Its real GDP grew by 7.6% in FY2016, compared to 7.3% in FY2015 with the combined impact of government reforms and lower commodity prices which led to softening inflation and lower Current Account Deficit (CAD) thereby enabling the Reserve Bank of India (RBI) to gradually lower interest rates. However, a shortfall in the monsoon with deficient rains lead to drought like conditions which resulted into rural distress leading to lower consumer demand.

Receding Inflation and Improvement in CAD

The State Governments, in lockstep with the Central Government, have unveiled several economic reforms that have made it comparatively easier to do business in India than ever before. This has led to a rise in public sector expenditure and an upturn in the capital replacement cycle. The most important policy reform being the passage of GST Bill by the Government recently. The Government has also given the go-ahead for 100% Foreign Direct Investment (FDI) in the marketplace format of e-commerce retailing to attract greater foreign investments into this high growth Indian market.

On the back of a promising monsoon predicted by the Indian Meteorological Department (IMD) and GDP growth forecast of 7.7% for 2016, India is firmly on its way to catapult into a global growth engine. The growth rate ranks India as one of the fastest growing large economy in the world. A positive economic outlook clearly indicates that the Indian growth story is seen gaining strength in the years to come.

Source: KPMG Report, 2016

Beside the other factors which are likely to have positive impact on industry the government has accepted the recommendations of the 7th Pay commission to revise the salary for 1 crore central government employees and pensioners effective 1 January, 2016. By August end, the Indian government may disburse ₹34,600 crore to its employees in their monthly salary. The total gross impact of the seventh pay commission on the exchequer is to the tune of ₹1.02 lakh crore as there will be an increase in the salaries of over 1 crore central government employees. For this, during the current Union budget, the government has already made a provision to the extent of ₹93,325 crore. This move by the government is expected to increase the disposable income in the hands of the end consumer and positively revive the consumption demand in the economy.

Also the passing of GST bill by the parliament is seen as a very positive step in the international investment community as it will result in the creation of one single market on the national level having a very transparent and easy to understand tax structure thereby resulting in ease of doing business by the organisations. This along with the liberalised FDI regulations is expected to result in the increased inflow of FDI in the Indian economy, having obviously the effect of increase in demand and consumption of general needs of the people, which is likely to have a positive impact on the branded apparel industry.

**INDUSTRY OVERVIEW:
TEXTILE AND APPAREL INDUSTRY**

India is the second-largest producer of textiles and garments in the world, with an enormous raw material and manufacturing base. The size of the Indian Textile & Clothing industry is estimated to be ₹8,540 billion in FY2015, which has grown at a CAGR of ~10% over the last decade. Domestic market accounts for ~73% of the total industry and export market accounts for the balance ~27%. The industry contributes ~14% to the domestic industrial production and ~4% to the country's GDP; and is the second largest provider of employment in India, after agriculture. Apparel is the largest segment of the industry, comprising ~60% of the total industry size. While apparel accounts for ~65% of the total domestic market, its share in textile exports remained lower at ~45%. Hence, given the sizeable share in exports of textile intermediates, there is tremendous scope for increasing the share of apparels in textile exports to increase domestic value addition and attract investments in the apparel sector. The readymade garments market is estimated at \$45 billion, of which the domestic market is around \$27 billion, while exports stand at \$18 billion. Source: ICRA Report, 2015.

The Indian textile industry is expected to have positive growth in the current financial year on account of the following factors as discussed above:

- Good Monsoons.
- Passing of GST bill increasing the investor confidence resulting in increased Foreign investments.
- Acceptance of 7th Pay commission recommendations by the Central Government.

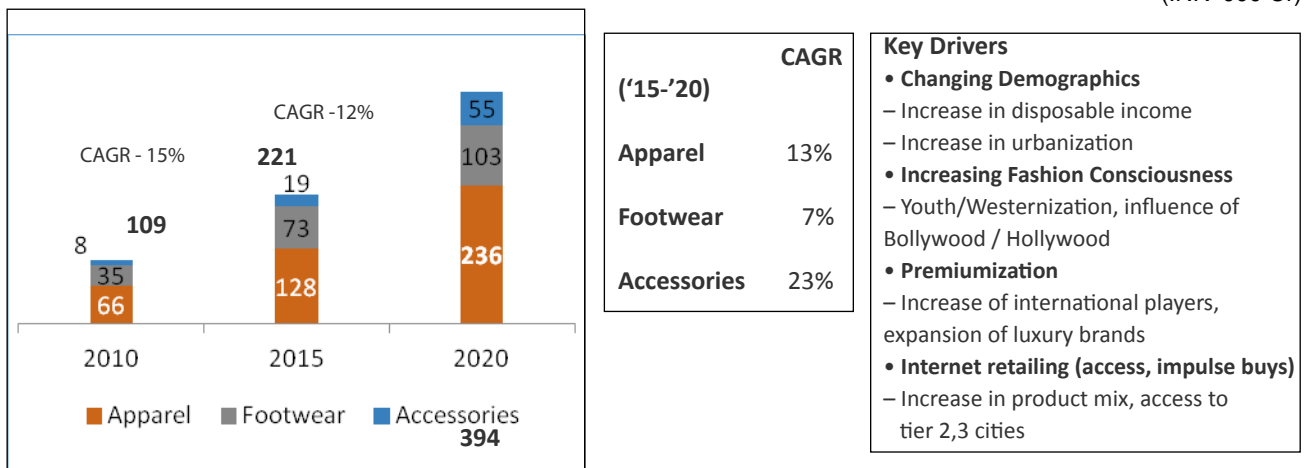

Retail Market

The Retail market in India is estimated to be ~US\$ 600 billion. Of this, the organised market comprises 9-10% or US\$ 60 billion. The sector has grown at ~12% CAGR over the last decade, and the growth is expected to be moderately higher, going forward. By 2020, the retail market is expected to be US\$ 1,100-1,200 billion. The overall growth in the sector is projected to be driven by significant demographic shifts: 70% increase in income levels, 100 million youth entering the workforce, increasing nuclearisation of families, increase in urbanisation of India and increasing fashion consciousness of the population even in the rural area. Data Source: Confederation of Indian Industry.

The Fashion & Lifestyle market in India is estimated to be ₹221,000 Crore and is poised to grow ~12% CAGR over the next five years.

Projected growth of Fashion & Lifestyle in India:

(INR '000 Cr)

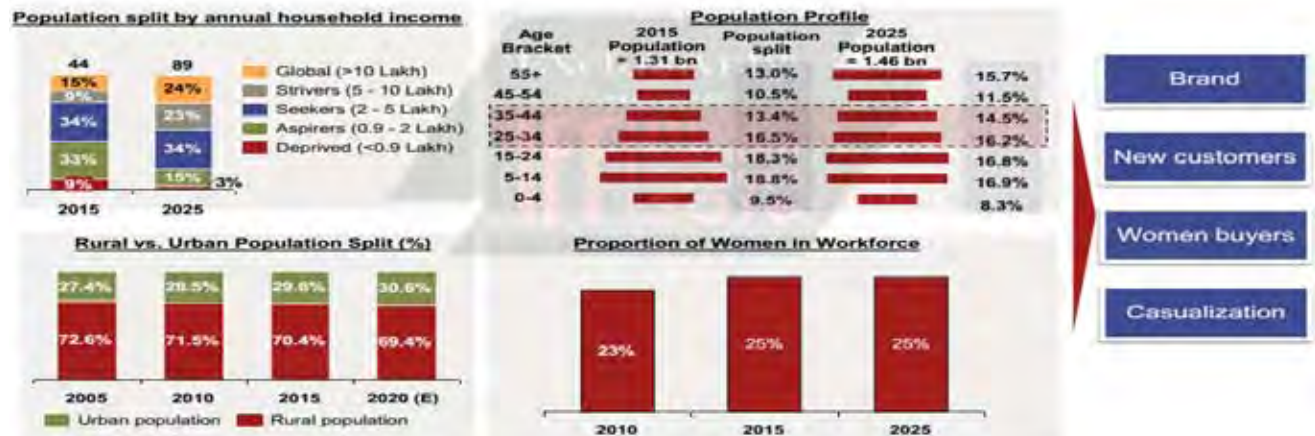

1. Note: Of the total apparel market, approx. 40% is Fashion & Lifestyle, arrived at by excluding rural apparel spend, uniforms and sarees

2. Accessories include apparel accessories, bags, wallets, belts, fashion jewellery, time wear and eyewear

Branded Apparel Retail Market:

Apparel industry in India is an industry where there is seen a continuous deviation in consumer’s choice and preference. India is covered with unorganized retail market but retail industry in India has emerged as one of the most dynamic and fast paced industries with the entry of very large corporate houses. A healthy economic growth leading to increasing disposable income, and changing consumer tastes and preferences are driving growth in the organised retail market in India. The emergence of exclusive brand outlets, multi-brand outlets, departmental stores and Cash & Carry retail formats are making it convenient for Indian consumers to explore the latest fashion trends and look fashionable. Internet has made online retailing and m-tailing the best shopping medium. The Indian branded apparel industry is estimated to be \$10 billion in size and growing at 10-12% per annum

Even as the apparel market is spread across India, there is a substantial difference in the characteristics of different markets across different regions. The demand pattern and price sensitivity of metros (Mumbai and Delhi/NCR) varies substantially from that of a smaller city or town. In recent times, the established players and brands have realised the growing need to shift their focus from metros to Tier-I and Tier-II cities to tap growth opportunities in these cities. The smaller cities are witnessing a surge in consumption of apparel in value and volume terms.

Region-wise distribution of apparel market

Traditionally, the Indian apparel retail market has been dominated by domestic players. However, changes in previous years have paved way for a lucrative path for international brands and retailers to establish their footprint in India. Young adults across metros, Tier-I and Tier-II cities are more aspirational and experimentalist. As a result, deeply penetrated brands in the masstige segment are leading growth in the lifestyle & apparel market through the value of their offerings, in terms of price as well as additional attributes.

Men’s and Women’s Apparel Industry:

India men’s apparel segment clocked an annual growth rate of 10% over 2010-2015 and is estimated to post 8% by 2020, growing from \$13 billion currently to \$19 billion. Rising disposable income coupled with the increasing awareness of international fashion trends have provided a strong growth to the men’s apparel in the last few years. The market is dominated by popular product categories such as shirts and trousers. However, western wear categories such as denim, active wear and t-shirts are the fastest growing in the segment.

Women’s wear market is worth ₹78, 500 crore (USD 14.4 billion) which contributes 38% of the total apparel market of India. The growth of this market is more rapid than the menswear market. With the relatively lower penetration of brands, and the growing disposable income of modern women, this segment has become the focus of many Indian and international brands. The women’s apparel segment, which clocked a 9.5% CAGR over 2010-2015, is expected to post an 8.5% CAGR by 2020. The growth in the market captures two essential preference shifts. Firstly, a shift from non-branded apparel to branded apparel, and secondly, increasing the share of western wear to ethnic wear categories.

Kid’s Wear Industry:

In 2014, the menswear and women’s wear segments contributed 42% and 38%, respectively, to the total apparel market. The contribution of kid’s wear segment was 20%, which is seen increasing to 22% by 2024, owing to an increased growth rate of the kid’s wear segment. The share of kid’s wear to total apparel market is higher in India, compared to the other developed markets such as the US and Europe, as India consists of a higher children population ratio.

Source: Technopak Advisors

Indian kid’s wear market was estimated to be of ₹50,120 Crores in 2014, and is expected to grow at a CAGR of 10.7% to touch ₹1,38,540 Crore by 2024. The market is dominated by boys wear which contributes 52% to the total kid’s wear market, followed by girls wear with a 48% share. Over the next decade, the girl’s wear is expected to grow at a CAGR of 11%, while boy’s wear will grow at 10.4% CAGR. The preference for cotton is much higher for kid’s wear products across the globe and as well as in India.

Source: Technopak Report, 2016

E-Commerce Market:

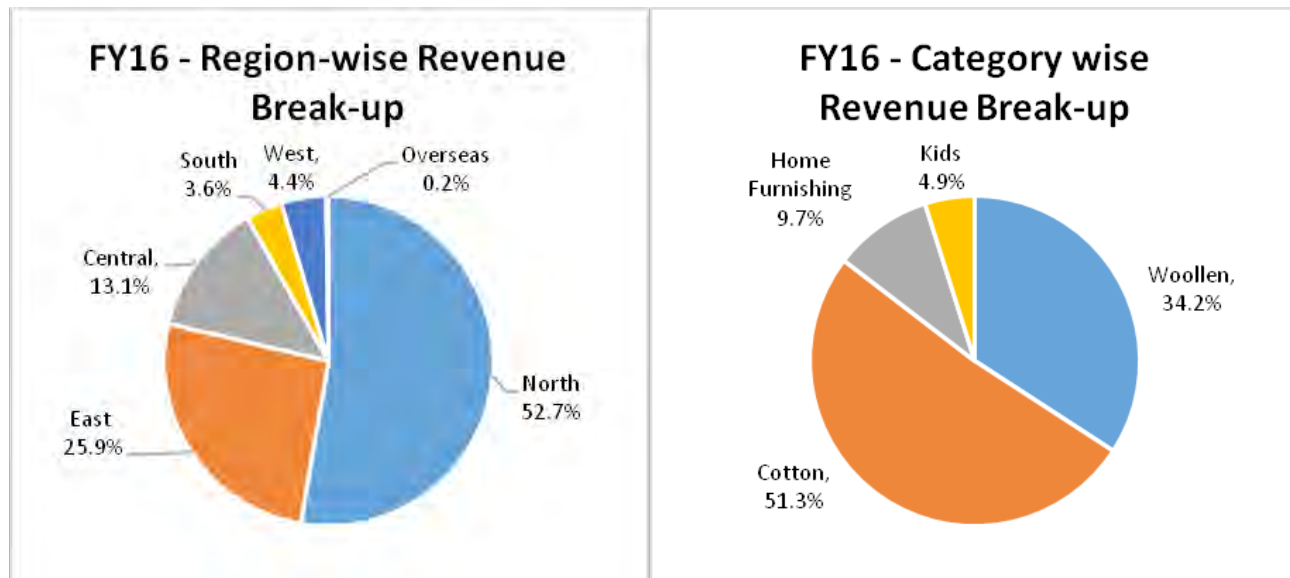

India’s population has taken to online retail in a big way. Between 2005-2015, overall retail industry has grown at a CAGR of 12-13% with organised retail growing at ~22%. By 2020, ~650 million consumers will be online, of which 350-400 million consumers would be ‘digitally influenced’ in retail categories. The e-commerce market is expected to grow by US\$ 45-50 billion online. Online retail is expected to be on par with the physical stores in the next five years.

The drivers for buying online would not be just price but convenience, availability of a relevant, wider variety. Apart from the convenience and price, internet retailing has become one of the most sought-after channels due to the growth of smart phones in the country. India is expected to become the world’s fastest growing e-commerce market, driven by robust investment in the sector and rapid increase in the number of internet users. REGION & CATEGORY WISE REVENUE OVERVIEW

Monte Carlo Fashions Limited was initially launched as an exclusive woollen brand. The Company has well diversified

presence across different categories such as Cotton, Home Furnishing and Kids. Currently, winter wear contributes around~35% of the Company's total revenues. Historically, the Company's presence has been strong in the Northern and Eastern regions. However, we remain focused to improve our presence in the Southern and Western regions too by increasing the share of "all season" cotton product categories.

THE WAY FORWARD

The Company's future growth strategy is a combination of three prime elements – branding & promotion to enhance brand visibility; increasing focus on cotton & cotton-blended apparel; and expansion of retail distribution network.

- There is enhanced focus on branding & promotion to further increase visibility of "Monte Carlo" brand, enabling it to grab a larger market share. We will continue to increase brand awareness and customer loyalty through our marketing efforts and planned retail expansion.
- The company is also focusing on the kid's wear under its "Twins" range launched two years back, as there is no large organised player present in the market and the price gap with the unorganised players expected to reduce with the introduction of GST.
- The 'Monte Carlo' brand has historically been associated with winter-wear for its woollen knitted apparel. This has led to a strong presence in the northern and eastern regions of India. However, over the years, the Company has successfully diversified its operations, with the cotton segment contributing more than half of its overall revenues. The focus is on increasing emphasis on cotton & cotton-blended apparels and plans to aggressively ramp up distribution and sales of a range of cotton and cotton-blended products catering to all-seasons to strengthen its pan-India operations.
- Our motive is to open 20-25 more Exclusive Brand Outlets (EBOs) by FY2017, mainly through the franchisee route and establish a truly Pan-India presence by increasing penetration in the southern and western regions of India. The Company is also focusing on tapping the rapidly growing online sales platform through its own portal as well as through strategic tie-ups with leading e-commerce portals in India.

OPPORTUNITIES

• Favourable Demographics

The favourable demographic profile of the country, coupled with the improving economic scenario, makes the Indian apparel market extremely attractive. This offers a sustainable long-term growth potential.

• Increasing disposable Incomes and purchasing power

India has been witnessing a continuous rise in its per capita income. With the improving economic climate, the rise in incomes is expected to continue, per capita GDP at current market price is estimated to grow from ₹0.8 lakh in FY2013 to ₹1.9 lakh by FY2020 (Source: DNB). The number of middle class households is expected to grow sharply from 35 million in 2012 to 58 million by 2020. (Source: Technopak Report, 2014).

• Passing of GST Bill by the parliament

The Parliament has passed the GST bill which will subsume different indirect taxes like Excise Duty, Service tax, State VAT, CST etc and in its place there will be only one single tax GST. This will help in the cascading effect of various taxes on the goods and make whole of India as a single market. Also it will increase the ease of doing business in India. The

implementation of the GST is expected to result into increase in the share of organised players as it will become difficult for the unorganised sector to compete with the large organised players because of economies of scale and law abidance becoming imperative.

• ***Young population with increasing brand awareness coupled with Increasing Urbanisation***

India has a large local and youth population of 356 million which has surpassed even China (Source: UN Report). The median age of India's population is 27 years. (Source: CIA, The World Fact book). Indian consumers, especially the youth, are giving increasing preference to quality and design. This changing demand climate will help top quality brands such as Monte Carlo increase their market share significantly.

Nearly 35% of the Indian population is expected to be living in urban centres by 2017. This higher level of urbanisation will lead to consumers trying to upgrade their lifestyles, leading to increased discretionary spending, even in the apparel category (Source: Technopak Report, 2014). The share of India's discretionary spending is set to increase from 59% in 2010 to 67% in 2020. (Source: DNB)

• ***Increasing emphasis on cotton and cotton-blended apparel to tap Pan-India market***

The Company is currently focusing on promoting and expanding sales of cotton apparel aggressively. This will enable Monte Carlo to tap the entire Indian market, the share of revenues significantly from southern and western regions in the long-term by increasing the number of sale points.

• ***Increasing penetration of Organised Retail***

Penetration of organised retail is increasing at a robust pace. The contribution of organised retail is expected to further increase sharply to 40% by 2020 from ~19% contribution in 2014. Increasing penetration of organised retail, especially in tier 2 and tier 3 cities, will provide immense growth opportunities to top quality organised apparel players. (Source: Technopak Report, 2014)

• ***Diversification across various Product Categories***

Today, Monte Carlo Fashions has diversified across different product categories such as Cottons, Kids and Home Furnishing. It has a comprehensive product and brand portfolio catering to varied segments such as kids, youth, middle and senior. This is prevalent in both woollen and cotton & cotton blended apparels spread across varied price points, enabling them to service the economy and mid-premium to premium segments. The ability to tap varied segments of the market provides the Company with tremendous opportunities to grow at a brisk pace.

THREATS

• ***Rising competition among organised players***

The size of the Indian apparel market and its inherent long-term growth potential makes it extremely attractive to branded players across the world. With the Government allowing 100% Foreign Direct Investment (FDI) in retail, several foreign brands and fashion retailers continue to enter India thereby enhancing the fashion culture and raising fashion consciousness in the country. This would lead to great deal of competition among the organised players to grab the largest share of the pie.

• ***Passing of GST Bill by the parliament***

At present the total incidence of taxes on the apparels is approx. 11-12% on account of different indirect taxes and the GST rate being proposed in the range of 18%, may result into an increase in tax burden for the company by about 6-7% which may affect the margins and revenue of the company. This is likely to impact all the apparel players. However, expected increase in the share of organised sector and the expected large volume of business may nullify the impact. Also the consumers may take it as some hidden incidence of tax not known to them earlier, that is totally eradicated from the product price with the introduction of GST.

• ***Low entry barriers***

The absence of significant entry barriers leads to an increase in the number of players, especially the unorganised players. This can escalate the degree of competition, making market penetration and sustaining of higher margins even tougher.

• ***Dependence on rainfall and climatic conditions***

Rainfall plays an important role in the apparel industry. Absence of adequate rainfall can lead to a significant decline in the availability of cotton, besides having an adverse impact on the economy, and consequently, the consumer demand. This can adversely impact the top line and margins. Shorter and less intense winters can also adversely impact sales of the woollen segment.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has proper and adequate internal control systems to ensure that all the assets are safeguarded and that all transactions are authorized, recorded and reported correctly. Regular internal audits and checks are carried out to ensure that the responsibilities are executed effectively and that the systems are adequate. Management continuously reviews the internal control systems and procedures to ensure the efficient conduct of business. The Audit Committee of the Board

oversees the internal controls within the organization.

MATERIAL DEVELOPMENT IN HUMAN RESOURCES / INDUSTRIAL RELATION FRONT]The Company is of firm belief that human resources are the driving force that propels a company towards progress and success and the company is committed to the development of its people. The total permanent employee's strength rose from 1,610 to 1,699 as on 31st March 2016. The Industrial relations were cordial and satisfactory.

FINANCIAL PERFORMANCE

The Company has delivered an impressive financial and operating performance for the Financial Year 2015-16. The revenue from operations stood at ₹62,153.05 Lacs as compared to ₹58,257.70 Lacs in the previous year, indicating a growth of 6.70%. However, excluding the sale of raw material (Fabric & Yarn), our Adjusted Revenues have actually increased by 9.5% to ₹57,893.57 Lacs as compared to ₹52,857.15 Lacs during 2015-16. However our operational EBIDTA has remained stable with a marginal increase of 0.3% to ₹1,2332.07 Lacs as compared to ₹1,2297.33 Lacs which is not in consonance with the increase in revenues. This was mainly due to increase in Advertisement expenses which increased by 27.6% to ₹3,442.13 Lacs as compared to ₹2,697.52 Lacs. Our current strategy is to establish our Brand visibility on a Pan India basis along with increased focus on Southern & western India, therefore we believe the increase in advertising and marketing expense should be seen as an expenditure which would result in deriving benefits of enduring nature in the years to come and enhancing our Overall brand recall.

During the year, the Company has achieved an excellent growth in the sale of "Cloak & Decker" & "Tweens" the economy range and the kids range respectively launched by the Company in 2014. During the year under review the company has also introduced socks under the brand Monte Carlo and the response received is very encouraging. The Company has also expanded its sale network by increasing its number of exclusive retail outlets/ large format stores and distributors during the year.

Annexure I to the Independent Auditor's Report of even date to the members of Monte Carlo Fashions Limited, on the financial statements for the year ended 31 March 2016

Annexure I

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) The Company has a regular program of physical verification of its fixed assets under which fixed assets are verified in a phased manner over a period of three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain fixed assets were verified during the year and no material discrepancies were noticed on such verification.
 - (c) The title deeds of all the immovable properties (which are included under the head 'fixed assets') are held in the name of the Company.
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year, except for goods-in-transit and stocks lying with third parties. For stocks lying with third parties at the year-end, written confirmations have been obtained by the management. No material discrepancies were noticed on the aforesaid verification.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- (iv) In our opinion, the Company has not entered into any transaction covered under Sections 185 and 186 of the Act. Accordingly, the provisions of clause 3(iv) of the Order are not applicable.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) The Central Government has not specified maintenance of cost records under sub-section (1) of Section 148 of the Act, in respect of Company's products. Accordingly, the provisions of clause 3(vi) of the Order are not applicable.
- (vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, have generally been regularly deposited to the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.

- (b) The dues outstanding in respect of income-tax, sales-tax, service tax, duty of customs, duty of excise and value added tax on account of any dispute, are as follows:

Statement of Disputed Dues

Name of the statute	Nature of dues	Amount (₹)	Amount paid under Protest (₹)	Period to which the amount relates	Forum where dispute is pending

Annexure II to the Independent Auditor's Report of even date to the members of Monte Carlo Fashions Limited, on the financial statements for the year ended 31 March 2016

Annexure II

Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. In conjunction with our audit of the financial statements of Monte Carlo Fashions Limited ("the Company") as of and for the year ended 31 March 2016, we have audited the internal financial controls over financial reporting (IFCoFR) of the company of as of that date.

Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the company's business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2016

1. Background and nature of operations

Monte Carlo Fashions Limited (the Company) is a public company incorporated under the provisions of the Companies Act, 1956 on 1 July 2008. The company is engaged in manufacturing of designer woollen/cotton readymade apparels under its brand "MONTE CARLO" which has also been recognised as a "SUPERBRAND".

2. Significant accounting policies

a) Basis of preparation

These financial statements have been prepared under the historical cost convention on a going concern basis, on the accrual basis of accounting in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP). Indian GAAP comprises mandatory accounting standards as specified under Section 133 of the Companies Act, 2013 ('the Act'), read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended) and other accounting pronouncements of The Institute of Chartered Accountants of India.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Revised Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current/ non-current classification of its assets and liabilities.

b) Use of estimates

In preparing the Company's financial statements in conformity with the accounting principles generally accepted in India, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in the current and future years.

c) Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Sales

- i. Revenue from sale of goods is recognized when all the significant risks and rewards of ownership are transferred to the buyer and the Company retains no effective control of the goods transferred to a degree usually associated with ownership; and
- ii. No significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods.

Interest

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

Benefit under duty drawback scheme

Revenue in respect of duty drawback scheme is recognized when the entitlement to receive the benefit is established.

Insurance and other claims

Revenue in respect of claims is recognized when no significant uncertainty exists with regard to the amount to be realized and the ultimate collection thereof.

d) Employee benefits

Short term employee benefits

All employee benefits payable/available within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries, wages, bonus, etc. are recognized in the statement of profit and loss in the period in which the employee renders the related service.

Post-employment benefits

Defined contribution plan

Provident fund

The company makes specified contribution towards employee provident fund to Employees Provident Fund administered by the Regional Provident Commissioner. The Company's contribution to provident fund, being a defined contribution plan, is recognized in the statement of profit and loss in the financial year to which it relates..

Defined benefit plan

Gratuity

Gratuity is a post-employment defined benefit plan. The present value of obligation for gratuity is determined based

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2016

on actuarial valuation using the Projected Unit Credit Method, less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. Gratuity fund is administered by trustee of independently constituted trust. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to the statement of profit and loss in the year in which such gains or losses arise.

e) Fixed assets
Tangible assets

Fixed assets are stated at historic cost less accumulated depreciation and amortization and impairment losses (if any). Cost comprises the purchase price and any attributable costs of bringing the assets to their working condition for their intended use.

Intangible assets

Software which is not an integral part of the related hardware is classified as an intangible asset.

f) Depreciation and amortisation

Pursuant to the notification of Schedule II of the Companies Act, 2013, by the Ministry of Corporate Affairs effective 01 April 2014, the management has reassessed and changed, wherever necessary the useful lives to compute depreciation, to conform to the requirements of the Companies Act, 2013. Depreciation on fixed assets for year ended 31 March, 2016 is provided on written down value method as per the rates prescribed under Schedule II of the Companies Act, 2103.

Block of asset	Useful life as per Companies Act, 2013 (in years)
Buildings	30
Plant and machinery	15
Furniture and fixture	10
Office equipment	5
Computers	3
Vehicles	8 – 10
Software	As per AS 26

g) Investments

Investments that are readily realizable and intended to be held for not more than one year are classified as current investments; all other investments are classified as long term investments. Long term investment is carried at cost less provision (if any) for decline in value which is other than temporary in nature. Current investments are carried at lower of cost and fair value.

h) Inventories

Inventories are valued at cost or net realizable value, whichever is lower. The cost in respect of the various items of inventory is computed as under:

- Raw material cost includes direct expenses and is determined on the basis of weighted average method.
- Stores and spares cost includes direct expenses and is determined on the basis of weighted average method.
- In case of work in process-at raw material cost plus conversion costs depending upon the stage of completion.
- In case of manufactured finished goods- appropriate percentage of gross margin is reduced from the sale value which approximates costs of purchase, costs of conversion and other attributable costs.
- In case of traded finished goods - stated at the lower of cost or market value. Cost is determined using the weighted average cost basis and includes the purchase price and attributable direct costs.

i) Subsidy

Grants and subsidies from the government are recognized when there is reasonable assurance that the grant/subsidy will be received and all related conditions will be complied with. Government subsidy in the nature of promoter's contribution is credited to capital reserve.

When the grant or subsidy relates to an expense item, it is recognized as income over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate.

Where the grant or subsidy relates to an asset, its value is deducted in arriving at the carrying amount of the related asset.

j) Borrowing costs

Borrowing cost which are not relatable to the qualifying asset are recognized as an expense in the period in which they are incurred. Borrowing cost on specific loans, used on acquisition or construction of fixed assets, which necessarily take a substantial period of time to be ready for their intended use, are capitalised. Other borrowing costs are recognized as an expense in the period in which they are incurred.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2016

k) Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of profit and loss over the lease term on a straight line basis.

l) Impairment of assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss.

If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists then the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

m) Foreign currency conversion**Initial recognition**

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange differences

Exchange differences arising on the settlement of monetary items or on restatement of the Company's monetary items at rates different from those at which they were initially recorded during the year/period, or reported in previous financial statements, are recognized as income or as expenses in the year/period in which they arise.

n) Accounting for taxes on income

The tax expense comprises of current taxes and deferred taxes. Current tax is the amount of income tax determined to be payable in respect of taxable income for a period as per the provisions of Income Tax, 1961. Deferred tax is the effect of timing differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are reviewed at each balance sheet date and recognized/derecognized only to the extent that there is reasonable/virtual certainty, depending on the nature of the timing differences, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

o) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year/period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year/period. The weighted average number of equity shares outstanding during the year/period is adjusted for events of bonus issue and share split.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year/period attributable to equity shareholders and the weighted average number of shares outstanding during the year/period are adjusted for the effects of all dilutive potential equity shares.

p) Provision and contingent liabilities

The Company creates a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation. A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where reliable estimate of the obligation cannot be made.

q) Cash and cash equivalents

Cash and cash equivalents comprise cash and deposit with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.
