Your Company has adopted Ind AS with effect from April 01, 2017, pursuant to a notification dated February 16, 2015, issued by the Ministry of Corporate Affairs, notifying the Companies (Indian Accounting Standard) Rules, 2015. The reconciliation and the effect of the transition as per GAAP vis-à-vis Ind AS has been provided in Note No. 39 of the Notes to the Accounts in the Financial Statements.

PERFORMANCE REVIEW

In the Financial Year 2017-18, Your Company registered a steady growth of around 11% in the revenue from operations that has been increased to ₹ 64,639.05 Lakhs from ₹ 58,538.08 Lakhs achieved last year. The Net Profit for the period has also risen sharply by about 35% to ₹ 5,972.14 Lakhs as compared to ₹ 4,415.64 Lakhs of the previous year. The other income of the Company for the said Financial Year stood at ₹ 1,768.01 Lakhs. Since during the year, there was no major capital expenditure, the Depreciation Expenses have reduced from year to year on proportionate basis. This year the expenditure on advertisement was ₹ 2,484.29 Lakhs as compared to ₹ 2,992.34 Lakhs incurred last year. However since the denominator i.e the top line has gone up, the overall percentage has been reduced. Also it is the endeavor of the company that it should be debt free. Therefore, no long term fresh debt has been raised and rather it has been reduced to ₹ 1,281.98 Lakhs after paying off the installments during the year.

Your Company being one of the leading branded apparel Company has successfully expanded its horizon by introducing new product ranges. It has created a comprehensive range of wool and cotton, cotton blended, knitted and woven apparels, and home furnishing through some of its ranges under umbrella brand name “Monte Carlo” such as Luxuria, Denim, Alpha, and Tweens etc. During the reporting period, the Company had also launched its Fitness and Fashion wear range in the name of “ROCK IT”. The basic idea behind it was to introduce garments having an ideal combination of fitness and fashion. Initially, the products were sold through the e-commerce platforms and after considering the acceptability of the products and also to push its sales the Company has decided to market its new products through other distributing channels.

One of our key strengths has been our wide and growing distribution network with a wide presence across India through 2,500 plus Multi Brand Outlets (MBOs), 236 Exclusive Brand Outlets (EBOs) and 207 national chain store outlets. Majority of the Company's revenues comes from MBOs and franchise EBOs where we primarily sell on pre-orders and outright basis. By virtue of this business model, there is no major inventory risk and we remain adequately insulated from the normal hazard sales in the branded apparel business.

SHARE CAPITAL

The Authorized Share Capital of your Company as at 31st March, 2018 stands at ₹ 250,000,000 divided into 25,000,000 Equity Shares of ₹ 10/- each. Further there was no change in the Company's Issued, Subscribed and Paid-up Equity Share Capital. As at 31st March, 2018, the Issued, Subscribed and Paid-up Equity Share Capital of the Company stood at ₹ 2,173.21 Lakhs divided into 21,732,064 Equity Shares of ₹ 10/- each.

There was neither any issue of Equity shares with differential rights as to dividend, voting or otherwise nor grant of any stock options or sweat equity under any scheme during the year under review.

DIVIDEND ON EQUITY SHARES

Based on the Company's performance, wherein, it has earned a Net Profit of ₹ 5972.14 Lakhs, your Board recommends a dividend of ₹ 12/- per Equity Share (Previous Year ₹ 10/-) of ₹ 10/- each (i.e 120%) for the approval of the members at the ensuing Annual General Meeting. The final dividend on equity shares, if declared by the members would involve a cash outflow of around ₹ 3,143.90 Lakhs (including dividend tax).

TRANSFER TO RESERVES

The Company has earned a total Profit after Tax of ₹ 5,972.14 Lakhs, out of which a sum of ₹ 1,791.64 Lakhs (30% of the profit after tax) has been transferred to Special Reserve maintained for the purpose of future expansions and acquisitions. Your Company has transferred a sum of ₹ 2,052.16 Lakhs to the General Reserve out of the profits of the Company.

In compliance of Section 134(3)(c) of the Companies Act, 2013, it is hereby confirmed that:

- a) In the preparation of the annual accounts for the year ended March 31, 2018, the applicable accounting standards have been followed along with proper explanation relating to material departures;

- b) The directors have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit of the Company for that period;
- c) The directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- d) The directors have prepared the annual accounts on a going concern basis;
- e) The directors have laid down internal financial controls to be followed by the Company and that such internal financial controls are adequate and are operating effectively; and
- f) The directors have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems are adequate and operating effectively.

INTERNAL FINANCIAL CONTROL AND ITS ADEQUACY

Your Company has an adequate system of internal financial control commensurate with its size and scale of operations, procedures and policies, ensuring orderly and efficient conduct of its business, including adherence to the Company's policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of accounting records, and timely preparation of reliable financial information.

Based on the framework of Internal Financial Controls and compliance systems established and maintained by the Company, work performed by the Internal Auditors, Statutory Auditors and Secretarial Auditors and External Consultants, including audit of internal financial controls over financial reporting by the Statutory Auditors, and the reviews performed by the management and the Audit Committee, the Board is of the opinion that Internal Financial Controls of the Company were adequate and effective during the year under review.

NOMINATION AND REMUNERATION POLICY

The Nomination and Remuneration Policy adopted by the Company lays down a framework in relation to selection, appointment/reappointment of Directors, Key Managerial Personnel and Senior Management alongwith their remuneration. It also lays down criteria for determining qualifications, positive attributes, independence of director(s) and other matters provided under sub section (3) of section 178 of the Companies Act, 2013.

The said Policy is available on Company's website and the web link for the same is <http://www.montecarlocorporate.com/pdf/NOMINATION-AND-REMUNERATION-POLICY.pdf>.

BUSINESS RISK MANAGEMENT

Pursuant to Section 134(3)(n) of the Companies Act, 2013, your management at regular intervals evaluates various risks faced by the Company which could affect its business operations or threaten its existence. Major risks identified by the businesses and functions from time to time are systematically addressed through mitigating actions on a continuing basis.

VIGIL MECHANISM/ WHISTLE BLOWER POLICY

The Company has formulated a Vigil Mechanism/ Whistle blower Policy to encourage employees to report matters about unethical behaviour, actual or suspected fraud or violation of Company's code of conduct without the risk of subsequent victimisation and discrimination. The details of the same are explained in the Corporate Governance Report and the said policy is also posted on the website of the Company i.e. www.montecarlocorporate.com.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Your Board has constituted a CSR Committee constituted under Section 135 of the Companies Act, 2013. As per the adopted CSR policy, the Company is committed to certain CSR initiatives in the fields of Medical Relief and Research, Environmental Sustainability, Education and Social Upliftment etc., in collaboration with its Group Companies through the Implementing Agency i.e Oswal Foundation. The said policy is available at <http://www.montecarlocorporate.com/pdf/Corporate-Social-Responsibility-Policy.pdf>.

During the concerned Financial Year, the Company had tied up with Oswal Foundation for undertaking its CSR obligations. Based on the discussions with the foundation, the Company identified the project for setting up the Eye Care Center in a charitable hospital for which estimate amount of expenditure was of ₹ 8-10 Crores. However, the project had to be deferred by the said charitable medical institution. The Company also made efforts to identify projects in other areas. However, it was not able to identify meaningful projects, finalize implementation agencies and the target beneficiaries which would have created a visible impact on the society.

Due to the aforementioned reasons, the Company was not able to spend its CSR amount during the year. The Company remains committed towards the noble cause of social development and has accordingly, decided to carry forward the unspent amount of Financial Year 2017-18 to the next year. In pursuance thereof, the Company, in association with Oswal Foundation

has already begun helping to run the charitable hospital for the purposes of diagnosis & treatment besides other charitable activities under CSR already approved.

Accordingly, the company has now issued a cheque of ₹ 302.92 Lakhs, which includes the amount of ₹ 156.20 Lakhs of CSR liability for Financial Year 2017-18 in favour of Oswal Foundation for the purposes of CSR including promotion of charitable hospital being run by Mohan Dai Oswal Cancer Treatment & Research Foundation.

The Annual Report on CSR activities as required under Companies (Corporate Social Responsibility Policy) Rules, 2014 including a brief outline of the Company's CSR Policy is set out as Annexure-A forming part of this Report.

RELATED PARTY TRANSACTIONS

All the transactions entered into by the Company with its related parties, during the year under review were in the "ordinary course of the business" and on "an arm's length basis", none of which was "material" in accordance with the Company's Related Party Transactions Policy. Accordingly, the disclosure of Related Party Transactions as required under Section 134(3)(h) of the Companies Act, 2013 in Form AOC-2 is enclosed as Annexure-B. Further there are no materially significant related party transactions made by the Company with Promoters, Key Managerial Personnel or other designated persons which may have potential conflict with interest of the Company at large.

Prior approval of the Audit Committee was also obtained for all the transactions entered into during the year 2017-18 by the Company with its Group Companies. The details of all the related party transactions are placed before the Audit Committee and Board for its consideration and ratification on quarterly basis. Moreover, the Company has already accorded the approval of Members at its Annual General Meeting held on 29th September, 2017 for all the transactions entered into by the Company during the Financial Year 2017-18 with its related parties in its ordinary course of business.

The details of the transactions entered with Related Parties during the year are provided in the Company's Financial Statements at Note No. 38 of the Notes to Accounts in accordance with the relevant Accounting Standard.

Your Company has framed a Policy on Related Party Transactions for purpose of identification and monitoring of such transactions in line with the requirements of the Companies Act, 2013 and Listing Regulations and the said policy is available at <http://www.montecarlocorporate.com/pdf/RELATED-PARTY-TRANSACTION-POLICY.pdf>.

PARTICULARS OF LOANS, GUARANTEE OR INVESTMENTS

The Company has not given any loan, guarantee or made any investment covered under the provisions of Section 186 of the Companies Act, 2013. However, the detail of investments made by the Company is given in the notes to the Financial Statements.

ANNEXURE-A TO THE DIRECTOR'S REPORT

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY (CSR) ACTIVITIES FOR THE FINANCIAL YEAR 2017-18:

1. Brief Outline of CSR Policy:

Pursuant to the provisions of Section 135 of the Companies Act, 2013 read with Companies (Corporate Social Responsibility Policy) Rules, 2014, the CSR Committee formulated the Corporate Social Responsibility Policy (CSR Policy) and recommended the same to the Board of Directors of the Company for its approval. The Board of Directors in their meeting held on 06.08.2015 has adopted the CSR Policy as recommended by CSR Committee. Under the CSR Policy, Company through Oswal Foundation, a Registered Society along with other Group Companies, will broadly focus on medical relief and research, Environment Protection / Sustainability, Promoting Education, Social Upliftment and / or any other activity as envisaged in the Companies Act, 2013. The CSR policy is also available on the Company's website i.e www.montecarlocorporate.com.

2. Composition of the CSR Committee:

The CSR Committee as at 31.03.2018 comprises of:

- a) Sh. Jawahar Lal Oswal Chairman
- b) Sh. Dinesh Gogna Member
- c) Dr. Yash Paul Sachdeva Member

3. Average net profit of the Company for last three financial years : ₹ 8,219.22 Lakhs

4. Prescribed CSR Expenditure : ₹ 164.38 Lakhs

5. Details of CSR spend for the financial year:

- a) Total amount spent for the Financial Year : ₹ 8.18 Lakhs
- b) Amount unspent, if any : ₹ 156.20 Lakhs

c) Manner in which the amount spent during the Financial year is detailed below:

(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Sr. No.	CSR Project or activity identified	Sector in which the project is covered	Projects or programs 1. Local area or other 2. Specify the State and District where project or programs was undertaken	Amount outlay (budget) project or programs wise	Amount spent on the projects or programs Subheads: 1. Direct expenditure on projects or programs 2. Overheads:	Cumulative expenditure up to the reporting period	Amount spent District or through implementing agency.
1.	Distribution of Readymade Garments among needy people	Eradicating Poverty	Ludhiana City, District Ludhiana, Punjab	-	₹ 818,204.52	₹ 818,204.52	Through Implementing Agency i.e. Oswal Foundation

6. Reasons for not spending the two percent of the average net profits of the last three financial years:

The Company joined hands with a recognized charitable organization, M/s. Oswal Foundation ('Foundation') for the purpose of undertaking its Corporate Social Responsibility (CSR) obligation. The said organization had done various activities under CSR. Last year, the project of Eye Care which was under consideration could not be taken up and discarded. Now the said society is considering a new health care project for the benefit of a charitable hospital. The Company is working proactively with the Foundation to finalize the project and in identifying new projects for fulfilling its CSR objectives. In the meantime, an amount of CSR obligation of ₹ 156.20 Lakhs which could not be spent during Financial Year 2017-18 has been set apart towards CSR activity reserve and would be carry forward to the next Financial Year.

7. The Chairman of the Corporate Social Responsibility (CSR) Committee has given a responsibility statement on behalf of the CSR Committee that the implementation and monitoring of CSR Policy, is in compliance with CSR objectives and Policy of the Company.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

ECONOMY & INDUSTRY SECTION

INDIA ECONOMIC OVERVIEW:

The Indian economy continues to be the flag-bearer for economic expansion in the global landscape. The economy temporarily decelerated in the first half of FY2018 primarily due to demonetization and the introduction of the Goods and Services Tax (GST). In the second half, the scenario improved meaningfully, and India jumped 30 spots in the World Bank's Ease of Doing Business rankings. India's economic growth is back on track and is set for a strong recovery after the period of disruptions sparked by demonetization and GST implementation.

The Government has progressed well on its agenda for all important economic reforms, which should support strong and sustainable growth going forward. In particular, the implementation of the GST, which has been in the making for over a decade, should help raise India's medium-term growth, as it is likely to enhance the efficiency of production and movement of goods and services across Indian states. India's overall outlook remains positive, driven by several factors. Strong private consumption and services are expected to continue to support economic activity. Meanwhile, the steady global trade recovery is expected to encourage exports. In line with the positive economic development, the IMF has projected India's growth at 7.8% for the next financial year FY2019.

Indian economy, one of the fastest growing economies of the world, is witnessing major shifts in consumer preferences. Increasing disposable income, brand awareness and increasing tech-savvy millennial population are the driving factors of corporatized retail within the country. Overall, Indian retail scenario has also shown sustainable long-term growth compared to other developing economies.

INDUSTRY OVERVIEW: APPAREL INDUSTRY

The Apparel Industry is fragmented and highly competitive. There are number of major players, but there are also countless niche stores and private companies that cater to specific demographics. A clothing company possessing a broad line-up of well-known brand(s) has a competitive advantage over its peers.

Favourable trade policies and increased penetration of organised retail among other factors contribute in making Indian fashion industry attractive for investors. The competition between the new entrants and existing players has ultimately benefited the Indian consumers as the firms have shifted their focus to improve the quality while reducing costs at the same time.

High economic growth has resulted in higher disposable income. This has led to rise in demand for products creating a huge domestic market. The domestic market for apparel and lifestyle products, currently estimated at US\$ 85 billion, is expected to reach US\$ 160 billion by 2025. (Source: www.ibef.org)

India's apparels industry is mainly dominated by the unorganized players. The increasing purchasing capacity and awareness of fashion and trend in small cities has resulted in providing a huge market to the organised players of the country. Entry of international brands, changes in preferences from non-branded to branded, the fast growing economy, large young consuming population in the country has made India a highly lucrative market. India has the world's largest youth population, which is becoming fashion conscious owing to mass media and social media penetration. This has opened unprecedented retail market opportunities.

Internet is another important platform for retailers. Consumers are increasingly spending more time on digital media for discovering latest trends, doing research, price comparisons etc.

REGION & PRODUCT WISE REVENUE BREAKUP

Your Company has a well diversified presence across various categories such as Cottons, Woollens, Home Furnishings and Kids etc. Winter products are typically higher in value in terms of production cost as well as sales revenue. And hence, these generate higher revenue in comparison with our non-winter products. Historically, the Company's presence has been strong in the Northern and Eastern regions of India. Our endeavour is to increase our share of all-season products with pan-India appeal in order to increase revenues in southern and western regions of India. This would enable generation of a faster pace of growth and reduce the seasonal impact.

STRONG RETAIL & DISTRIBUTION NETWORK

Our portfolio of products is sold through its network of 235 Exclusive Brand Outlets (EBOs), 2,500+ Multiple Brand Outlets (MBOs) and 283 National Chain Stores (NCS) as at March 31, 2018, that merchandise products in an environment that reinforces its brand in premium and mid-premium categories.

ONLINE PRESENCE

The Company has also entered into distribution agreements with online sales platforms to leverage digital commerce. With the online retail segment witnessing a rapid pace of growth, the Company has established an e-commerce presence through its own portal “montecarlo.in” and by way of tie-ups with digital platforms such as Amazon, Flipkart, Myntra, Jabong, Snapdeal and Paytm etc.

THE WAY FORWARD – FUTURE OUTLOOK

The Company’s future growth strategy is a combination of three prime elements – branding & promotion to enhance brand visibility; increasing focus on cotton & cotton-blended apparel; and expansion of the retail distribution network.

We are focussing on branding and promotion to further increase visibility of “Monte Carlo” brand, enabling it to grab a larger market share. The Company’s future growth strategy is to focus more on Cotton & Cotton-blended apparel catering to all seasons and expansion of its retail distribution network. While we already have a pan-India presence, we seek to penetrate further in the western and southern regions of India. We continue with our endeavour to build a leading branded apparel company. We have created a comprehensive range of woollens, cottons, cotton blended, knitted and woven apparels for Men, Women and Kids under the umbrella brand Monte Carlo. We always believe that we have successfully positioned ourselves as a lifestyle brand with a well-diversified product offering.

Active wear has recently evolved and has high growth potential. This is due to the boom in fitness and healthcare. In addition, the consumers in India have now understood that clothing for fitness is different from everyday clothing. Therefore, after considering the acceptability of our Fitness and Fashion wear range the products through e-commerce platforms in the name of “ROCK IT”, we have decided to market its new products through other distribution channels also.

OVERVIEW OF PRODUCT CATEGORIES

Our Range of Products under the “Monte Carlo” brand:

- ‘Luxuria’ is the premium range for Menswear.
- ‘Denim’ is an exclusive range for denim apparel.
- ‘Alpha’ is the exclusive range for Womenswear.
- ‘Tweens’ is an exclusive range for kidswear.
- ‘Cloak & Decker’ is the economy range for Menswear.
- ‘Rock-It’ is the premium range for Sports & Fitness wear.

OPPORTUNITIES:

- **Continued rise of ‘organised retail’**

The Indian fashion retail industry is transforming rapidly and is seeing shift from unorganised to organised retail. The transformation is due to increase in income, increased penetration of branded wear in the country and awareness of fashion trends among consumers. Nowadays Tier -II cities and semi-urban cities have emerged as huge potential markets for these organised players.

- ***Young Population: Increasing brand awareness and fashions consciousness***

India is placed in a sweet spot to derive maximum benefits from being the youngest population in the world with a huge appetite for consumption. The median age of India's population is 27 years. (Source: CIA, The World Factbook) Indian consumers, especially the youth are increasingly giving preference to quality and design. This changing demand climate will facilitate top quality brands such as Monte Carlo to increase their market share significantly.

- ***Positive Impact of Goods and Service Tax***

A significant portion of India's Apparel industry operates under the unorganised sector or composition scheme, thus creating a gap in flow of input tax credit. Input tax credit is not allowed if registered taxpayers procure the inputs from the unorganised sector. GST will enable a smoother input credit system, which will shift the balance towards the organised sector.

- ***Women, kids & casualwear to outpace Industry growth***

India's apparels industry is dominated by unorganized players. Within the apparels industry, women's wear and kids wear are expected to grow at a faster pace than menswear as they make up a higher unorganized share. Monte Carlo is well placed to tap this market share with its Exclusive range for Women, Kids, Men's and fitness wear with its exclusive ranges for each category.

THREATS / CONCERNS:

- ***Rising competition among organised players***

The size of the Indian apparel market and its inherent long-term growth potential makes it extremely attractive to branded players across the world. This has led to great deal of competition among the organised players to grab the largest share of the pie. With an increase in the number of international brands entering India and many looking to enter soon due to relaxed FDI rules in Indian Textile Sector, the competition is expected to intensify further.

- ***Heavy Discounts***

All the leading brands i.e Indian and International are going for early discounts/ sales. The people are getting use to the discounting trend both online and offline. In such a scenario to keep the walk-ins intact every brand has to offer discount and no brand can survive without discounts. We fear that going forward also the discounting sales will continue in same fashion or may rise going forward due to intense competition in this space.

- ***Changing consumer behaviour***

With mass media penetration and growing disposable income, Indian consumers have become more demanding and adaptable to change in fashion. With the rapidly changing profile of consumers, it has become challenging for retailers to keep up with shifting shopping demands. Shoppers today are well informed about fashion trends and demand accordingly. Thus, it becomes challenging for retailers to cater their customers with constant change in preferences.

- ***Seasonal nature of business***

Woollen knitted garments contributes around one-third of total sales. This leads to a highly seasonal nature of the business, with majority of the yearly turnover coming in the 3rd quarter. However, the Company has been focusing on cotton and cotton-blended apparel and diversifying the product range to include home furnishings and kids' apparel. With this, the seasonal nature of business is expected to diminish over the coming years.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Company is having adequate internal financial control systems and procedures which commensurate with the size of the Company. The internal Auditors regularly monitors and evaluate the efficiency and adequacy of internal control systems in the Company, its compliance with operating systems, accounting procedures and also ensures that the internal control systems are properly followed by all concerned departments of the Company. Significant audit observations and corrective actions taken thereon are presented to the Audit Committee of the Board.

HUMAN RESOURCE / INDUSTRIAL RELATION

The company is of firm belief that human resource is the driving force that propels a Company towards progress and success. The Company is committed to the development of its people. The total permanent employee's strength of the Company was 1,580 as on 31st March 2018. The Industrial relations were cordial and satisfactory.

OPERATIONAL PERFORMANCE & FINANCIAL REVIEW

The Company operates in a one reportable business segment i.e. manufacturing and trading of textile garments. Company's revenue from operations has increased to ₹ 64,639.05 Lakhs from ₹ 58,538.08 Lakhs achieved last year, witnessing a jump of around 11%. The Net Profit for the period has also risen sharply by about 35% to ₹ 5,972.14 Lakhs as compared to ₹ 4,415.64 Lakhs of the previous year. Further the other income of the Company for the said Financial Year stood at

₹ 1,768.01 Lakhs. The detailed operational performance has already been discussed in the Director's Report under the Section 'Performance Review'.

Although during FY2018, Revenues have increased slightly due to GST and due to the trend of heavy discounting in Branded apparels among peers and customers getting used to the discounting trend and Monte Carlo was the last to go for discounting sales. Moreover, as per Ind AS, all the discounts and incentives have been reduced from the sales instead of being shown as an expense.

The Company's overall debt has reduced, leading to a debt equity ratio of 0.11x for FY2018. The Company enjoys a strong balance sheet reflected through high cash balance of ₹ 14,650 Lakhs (includes cash and bank balance along with current and non-current investments).

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these financial statements based on our audit.
4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether these financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on these financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Ind AS specified under Section 133 of the Act, of the state of affairs (financial position) of the Company as at 31 March 2018, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Other Matter

9. The Company had prepared separate sets of statutory financial statements for the year ended 31 March 2017 and 31 March 2016 in accordance with Accounting Standards prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended) on which we issued auditor's reports to the shareholders of the Company dated 30 May 2017 and 30 May 2016 respectively. These financial statements have been adjusted for the differences in the accounting principles adopted by the Company on transition to Ind AS, which have also been audited by us. Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

10. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order.

11. Further to our comments in Annexure I, as required by Section 143(3) of the Act, we report that:
- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the financial statements dealt with by this report are in agreement with the books of account;
 - d) in our opinion, the aforesaid financial statements comply with Ind AS specified under Section 133 of the Act;
 - e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2018 from being appointed as a director in terms of Section 164(2) of the Act;
 - f) we have also audited the internal financial controls over financial reporting (IFCoFR) of the Company as on 31 March 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date and our report dated 25 May 2018 as per Annexure 2 expressed unmodified opinion;
 - g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company, as detailed in Note 27 to the financial statements, has disclosed the impact of pending litigations on its financial position;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company; and
 - iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016 which are not relevant to these financial statements. Hence, reporting under this clause is not applicable.

Annexure I to the Independent Auditor's Report of even date to the members of Monte Carlo Fashions Limited, on the financial statements for the year ended 31 March 2018

Annexure I

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular program of physical verification of its fixed assets under which fixed assets are verified in a phased manner over a period of three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain fixed assets were verified during the year and no material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties (which are included under the head 'Property, plant and equipment') are held in the name of the Company.
- ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year, except for goods-in-transit and stocks lying with third parties. For stocks lying with third parties at the year-end, written

confirmations have been obtained by the management. No material discrepancies were noticed on the aforesaid verification.

- iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- iv) In our opinion, the Company has not entered into any transaction covered under Sections 185 and 186 of the Act. Accordingly, the provisions of clause 3(iv) of the Order are not applicable.
- v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- vi) The Central Government has not specified maintenance of cost records under sub-section (1) of Section 148 of the Act, in respect of Company's products. Accordingly, the provisions of clause 3(vi) of the Order are not applicable.
- vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales tax, goods and services tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, have generally been regularly deposited to the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) The dues outstanding in respect of income-tax, sales-tax, service-tax, duty of customs, duty of excise and value added tax on account of any dispute, are as follows:

Statement of Disputed Dues

Name of the statute	Nature of dues	Amount (₹ in lakhs)	Amount paid under Protest (₹ in lakhs)	Period to which the amount relates	Forum where dispute is pending
West Bengal Value Added Tax, 2003	Interest on VAT	1.34	-	FY 2008-09	Deputy Commissioner of Commercial Taxes, Kolkata

Central Sales Tax Act, 1956	Interest on CST	1.22	-	FY 2009-10	Commercial taxes Appellate & Revisional Board, West Bengal

- viii) The Company has not defaulted in repayment of loans or borrowings to any bank or financial institution or government during the year. The Company did not have any outstanding debentures during the year.
- ix) In our opinion, the Company has applied the term loans for the purposes for which these were raised. The Company did not raise moneys by way of initial public offer/ further public offer (including debt instruments) during the year.
- x) No fraud by the Company or on the company by its officers or employees has been noticed or reported during the period covered by our audit.
- xi) Managerial remuneration has been paid and/ provided by the Company in accordance with the requisite approvals mandated by the provisions of Section 197 of the Act read with Schedule V to the Act.
- xii) In our opinion, the Company is not a Nidhi Company. Accordingly, provisions of clause 3(xii) of the Order are not applicable.
- xiii) In our opinion all transactions with the related parties are in compliance with Sections 177 and 188 of Act, where applicable, and the requisite details have been disclosed in the financial statements etc., as required by the applicable Ind AS.

- xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures.
- xv) In our opinion, the Company has not entered into any non-cash transactions with the directors or persons connected with them covered under Section 192 of the Act.

Annexure II to the Independent Auditor's Report of even date to the members of Monte Carlo Fashions Limited on the financial statements for the year ended 31 March 2018

Annexure II

Independent Auditor's Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the financial statements of Monte Carlo Fashions Limited ('the Company') as at and for the year ended 31 March 2018, we have audited the internal financial controls over financial reporting ('IFCoFR') of the Company as at that date.

Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the IFCoFR criteria established by the Company considering the essential components of internal financial controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR includes obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's IFCoFR include those policies and procedures that (1) pertain to the maintenance

of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such controls were operating effectively as at 31 March 2018, based on the IFCoFR criteria established by the Company considering the essential components of internal financial controls stated in the Guidance Note issued by the ICAI.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018
1. i) Corporate Information

Monte Carlo Fashions Limited (the "Company") incorporated is a public company incorporated under the provisions of the Companies Act, 1956 on 1 July 2008. Its shares are listed on both BSE Limited and National Stock Exchange of India Limited. The company is engaged in manufacturing of designer woollen/cotton ready made apparels under its brand "MONTE CARLO" which has also been recognised as a "SUPER BRAND".

ii) Basis of Preparation

The financial results of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended.

For all periods up to and including the year ended 31 March 2017, the Company prepared its financial results in accordance accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

The Company had prepared the Opening Ind AS balance sheet as at 1 April 2016 using the exemption and exceptions provided under Indian Accounting Standards, Ind AS 101, First time adoption of Indian Accounting Standards. The exemptions availed by the Company are presented with the respective accounting policies.

The financial results have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amount:

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments),
- Property, plant and equipment and intangible assets have been carried at deemed cost on the date of transition using the optional exemption allowed under Ind AS 101.

iii) Significant Accounting Policies
a) Use of estimates

The preparation of the financial results in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial results and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial results in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial results.

b) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

c) Inventory

Inventories are initially recognized at the lower of cost and net realizable value (NRV).

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018

Cost incurred in bringing each product to its present location and condition are accumulated as follows:-

- **Raw materials, traded finished goods and Stores & spares:-** Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on "Weighted average cost method" basis.
- **Work-in-progress:-** Cost includes cost of direct materials, Labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs, cost is determined on "First in First out" basis.
- **Manufactured finished goods:-** Cost is determined using retail method of valuation in which appropriate percentage of gross margin is reduced from the sale value which approximates costs of purchase, costs of conversion and other attributable costs.

Initial cost of inventories includes import duties, non-refundable taxes, transport and handling costs and any other directly attributable costs, less trade discounts, rebates and similar items.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

d) Property, Plant and Equipment
Recognition and initial measurement

Under the previous GAAP (Indian GAAP), property plant and equipment were carried in the balance sheet at their cost of purchase less accumulated depreciation and impairment losses (if any) Using the deemed cost exemption available as per Ind AS 101, the Company has elected to carry forward these carrying value of PPE under Indian GAAP as on 31 March 2016 as book value of such assets under Ind AS as at the transition date i.e. 1 April 2016.

Capital work in progress, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of fixed assets that are not yet ready for their intended use at the reporting date. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Subsequent measurement (depreciation and useful lives)

Depreciation on property, plant and equipment is provided on the written down value method arrived on the basis of the useful life prescribed under Schedule II of the Companies Act, 2013. The following useful life of assets has been taken by the Company:

Tangible Assets	Useful Life
Building – Factory	30 Years
Plant & Machinery	15 Years
Furniture and Fixtures	10 Years
Vehicles	8 Years and 10 Years
Office Equipment	5 Years
Computer Equipment	3 Years

- Leasehold land is amortised over the period of lease.
- Leasehold improvements are amortised over the initial period of lease or useful life, whichever is shorter.

e) Intangible Assets
Recognition and initial measurement

Using the deemed cost exemption available as per Ind AS 101, the Company has elected to carry forward the carrying value of intangible assets under Indian GAAP as on 31 March 2016 as book value of such assets under Ind AS as at the transition date i.e. 1 April 2016.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Subsequent measurement

Subsequently the intangible assets are amortized over the useful life as estimated by the management.

Intangible Assets

Software

Useful life (in years)

- Amortised over a period of 5 years

De-recognition

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

f) Impairment of non-financial Assets

The carrying values of assets/cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss.

g) Functional and presentation currency

The financial results are presented in Indian Rupees (INR), which is also the Company's functional currency.

Foreign Currencies
Transactions and balances
Initial recognition

Transactions in foreign currencies are initially recorded by the Company at its functional currency spot rates at the date the transaction first qualifies for recognition.

Subsequent measurement

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

h) Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial results are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is indirectly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is Unobservable

For assets and liabilities that are recognized in the financial results on a recurring basis, company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period or each case.

For the purpose of fair value disclosures, company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- o Disclosures for valuation methods, significant estimates and assumptions
- o Quantitative disclosures of fair value measurement hierarchy
- o Investment in unquoted equity shares
- o Financial instruments

i) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at fair value of the consideration received or receivable, exclusive of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as sales tax, value added tax, etc. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

The Company applies the revenue recognition criteria to each separately identifiable component of the sales transaction as set out below:

Sale of goods:

Revenue from sale of goods is recognised when all the significant risks and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract, there is neither continuing managerial involvement with the goods nor effective control over the goods sold, it is probable that economic benefits will flow to the Company, the costs incurred or to be incurred in respect of the transaction can be measured reliably and the amount of revenue can be measured reliably.

Revenue from the domestic sale of goods are recognized on dispatch which coincides with transfer of significant risks and rewards to customer.

Revenue from export sales is recognised when the significant risks and rewards of ownership of products are transferred to the customer, which is based upon the terms of the applicable contract.

Interest Income:

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

For all Financial Assets measured at amortised cost (refer 'j' below), interest income is recorded using the effective interest rate (EIR) i.e. the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial assets. The future cash flows include all other transaction costs paid or received, premiums or discounts if any, etc.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018
Insurance and other claims

Revenue in respect of claims is recognized when no significant uncertainty exists with regard to the amount to be realized and the ultimate collection thereof.

Sales Return

The Company recognises provision for sales return, based on the historical results, measured on net basis of the margin of the sale.

j) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest calculated using the effective interest rate and other costs like finance charges in respect of the finance leases recognized in accordance with Ind AS 17, that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

k) Financial Instruments

Financial instruments are recognised when the Company becomes a party to the contractual provisions of the instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value.

If the Company determines that the fair value at initial recognition differs from the transaction price, the Company accounts for that instrument at that date as follows:

- at the measurement basis mentioned above if that fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets. The Company recognises the difference between the fair value at initial recognition and the transaction price as a gain or loss.
- in all other cases, at the measurement basis mentioned above, adjusted to defer the difference between the fair value at initial recognition and the transaction price. After initial recognition, the Company recognises that deferred difference as a gain or loss only to the extent that it arises from a change in a factor (including time) that market participants would take into account when pricing the asset or liability.

Subsequent measurement of financial assets and financial liabilities is described below.

Financial assets
Classification and subsequent measurement

For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

i. Financial assets at amortised cost – a financial instrument is measured at amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest method.

ii. Financial assets at fair value

- **Investments in equity instruments other than above** – All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are generally classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL). The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the other comprehensive income (OCI). There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Dividends on such investments are recognised in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the P&L.

- **Mutual funds** – All mutual funds in scope of Ind-AS 109 are measured at fair value through profit and loss (FVTPL).
- **Derivative assets** - All derivative assets are measured at fair value through profit and loss (FVTPL).

De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Financial liabilities
Subsequent measurement

After initial recognition, the financial liabilities, other than derivative liabilities, are subsequently measured at amortised cost using the effective interest method.

Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The effect of EIR amortisation is included as finance costs in the statement of profit and loss.

Derivative liabilities - All derivative liabilities are measured at fair value through profit and loss (FVTPL).

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Impairment of financial assets

The group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

I) Retirement and other employee benefits
Defined Contribution plan

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. The Company has no obligation other than the contribution payable to the Provided Fund.

Defined benefit plans

The Company operates a defined benefit gratuity plan in India. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, excluding amounts included in net interest on the net defined benefit liability are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Other short term benefits

Expense in respect of other short-term benefits is recognized on the basis of amount paid or payable for the period during which services are rendered by the employees.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018**m) Provisions***Provisions***General**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of Profit and Loss net of any reimbursement.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

n) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Potential ordinary shares shall be treated as dilutive when, and only when, their conversion to ordinary shares would decrease earnings per share or increase loss per share from continuing operations.

o) Leases

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. Finance leases are capitalized at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss. Contingent rentals are recognised as expenses in the periods in which they are incurred. Lease management fees, legal charges and other initial direct costs are capitalized.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term, except in case where lease rentals are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost.

p) Income taxes**Current income tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits (Minimum alternate tax credit entitlement) and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

q) Non-current assets or disposal group held for sale

The Company classifies non-current assets and disposal groups as held for sale/ distribution to owners if their carrying amounts will be recovered principally through a sale/ distribution rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales/ distribution of such assets (or disposal groups), its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset highly probable when:

- o The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- o An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- o The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- o The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- o Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

r) Government grants and subsidies

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant or subsidy relates to revenue, it is recognised as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognised as deferred income and released to income in equal amounts over the expected useful life of the related asset.

Government grants of the nature of promoters' contribution are credited to capital reserve and treated as a part of the shareholders' funds.

s) Segment reporting

The Company's business operation comprises of single operating segment of manufacturing/trading of textile garment. Operating segment has been identified on the basis of nature of products and reported in a manner consistent with the internal reporting provided to Chief Operating Decision Maker.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018

t) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

u) Cash dividend distribution to equity holders

The Company recognises a liability to make cash distributions to equity holders when the distribution is authorized and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorized when it is approved by the shareholders. A corresponding amount is recognized directly in equity.

v) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

Significant management judgment is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income and the period over which deferred income tax assets will be recovered. Any changes in future taxable income would impact the recoverability of deferred tax assets.

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2 : The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3 : If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

d) Measurement of fair values

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- (i) The management assessed that the fair values of cash and cash equivalents, other bank balances, trade receivables, other current financial assets, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- (ii) The fair value of Company's fixed interest-bearing loans and receivables that approximate to their carrying amounts as it is based on discounting future cash flows using rates currently available for debts on similar terms, credit risk and remaining maturities. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs.
- (iii) All the other long-term borrowing facilities availed by the Company are variable rate facilities which are subject to changes in underlying interest rate indices. Further, the credit spread on these facilities are subject to change with changes in Company's creditworthiness. The management believes that the current rate of interest on these loans are in close approximation from market rates applicable to the Company. Therefore, the management estimates that the fair value of these borrowings are approximate to their respective carrying values.

35. Financial risk management objectives and policies

The Company's principal financial liabilities comprise loans and borrowings, trade payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's financial assets include loans, trade and other receivables and cash & cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The company's senior management oversees the management of these risks. The company's senior management is supported by a financial risk committee that advises on financial risks and the appropriate financial risk governance framework for the Company. This financial risk committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedure and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

(A) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits and payables/receivables in foreign currencies.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018

(All amounts in ₹ lakhs, unless stated otherwise)

a) Market risk- Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates. The Company carries its borrowings primarily at variable rate.

	As at 31 March 2018	As at 31 March 2017	As at 1 April 2016
Variable rate borrowings	5,571.93	6,542.94	9,835.41
Fixed rate borrowings	-	-	-
Total borrowings	5,571.93	6,542.94	9,835.41

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

50 bps decrease would increase the profit before tax by	27.86	32.71	49.18
50 bps increase would decrease the profit before tax by	(27.86)	(32.71)	(49.18)

b) Market risk- Foreign currency risks

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar, EURO and JPY. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the functional currency of the Company. Considering the low volume of foreign currency transactions, the Company's exposure to foreign currency risk is limited and the Company hence does not use any derivative instruments to manage its exposure. Also, the Company does not use forward contracts and swaps for speculative purposes

(B) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and financial assets measured at amortised cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

(a) Credit risk management

The Company assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

- (i) Low credit risk on financial reporting date
- (ii) Moderate credit risk
- (iii) High credit risk

The Company provides for expected credit loss based on the following:

Asset group	Basis of categorisation	Provision for expected credit loss
Low credit risk	Cash and cash equivalents, other bank balances, loans, trade receivables, Investments and other financial assets	12 month expected credit loss
Moderate credit risk	Trade receivables and other financial assets	Life time expected credit loss or 12 month expected credit loss
High credit risk	Trade receivables and other financial assets	Life time expected credit loss fully provided for

Cash & cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks across the country.

Trade receivables

Credit risk related to trade receivables are mitigated by taking bank guarantees/letter of credit for export sales, which results in low credit risk. The Company closely monitors the credit-worthiness of the debtors through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The Company assesses increase in credit risk on an ongoing basis for amounts receivable that become past due and default is considered to have occurred when amounts receivable become one year past due.

Loans and Other financial assets measured at amortised cost

Loans and other financial assets measured at amortized cost includes Security deposits, term deposits with banks and interest accrued on deposits. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously.

(C) Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including bilateral loans, debt and overdraft from domestic banks at an optimised cost. It also enjoys strong access to domestic capital markets across equity.

(ii) Dividends not recognised at the end of the reporting period

In addition to the above dividends, since year end the directors have recommended the payment of a final dividend of ₹ 12 per fully paid equity share. This proposed dividend is subject to the approval of shareholders in the ensuing annual general meeting.

37. Capital Management

The Company's capital management objectives are to ensure the Company's ability to continue as a going concern as well as to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade payables, less cash and cash equivalents and other bank balances.

	As at 31 March 2018	As at 31 March 2017	As at 1 April 2016
Borrowings	5,571.93	6,542.94	9,835.41

Capital and net debt	67,670.57	63,867.53	61,354.56
Gearing ratio	21.84%	22.36%	21.90%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.

Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2018 and 31 March 2017.

39. First Time Adoption as per Ind AS

These are the Company's first financial statements prepared in accordance with Ind AS. These financial statements, for the year ended 31 March 2018, are the first the Company has prepared in accordance with Ind AS. For periods up to and including the year ended 31 March 2017, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on 31 March 2018, together with the comparative period data as at and for the year ended 31 March 2017, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at 1 April 2016, the Company's date of transition to Ind AS. An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows is set out in the following tables and notes.

Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018

(All amounts in ₹ lakhs, unless stated otherwise)

A. Ind AS Optional exemptions availed.
(a) Deemed Cost

Ind AS 101 permits a first time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and for Investment properties covered by Ind AS 40 Investment Properties.

Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying values.

(b) Leases

Appendix C to Ind AS 17 requires an entity to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 17, this assessment should be carried out at the inception of the contract or arrangement. Ind AS 101 provides an option to make this assessment on the basis of facts and circumstances existing at the date of transition to Ind AS, except where the effect is expected to be not material.

The Company has elected to apply this exemption for such contracts/ arrangements.

B. Ind AS Mandatory exceptions
(a) Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1 April 2016 and 31 March 2017 are consistent with the estimates as at the same date made in the conformity with previous GAAP. The Company has made estimates for following items in accordance with Ind AS at the date of transition as these were not required under IGAAP

- (i) Investments in mutual funds carried at FVTPL

(b) Classification and measurement of financial assets

As required under Ind AS 101 the company has assessed the classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

C. Transition to Ind AS - Reconciliations

The following reconciliations provide a quantification of the effect of significant differences arising from the transition from previous GAAP to Ind AS as required under Ind AS 101:

- 1) Reconciliation of Balance sheet as at 1 April 2016 (Transition date)
- 2) (a) Reconciliation of Balance sheet as at 31 March 2017
(b) Reconciliation of Total Comprehensive Income for the year ended 31 March 2017
- 3) Reconciliation of Equity as at 1 April 2016 and as at 31 March 2017
- 4) Reconciliation of Statement of Profit & Loss account as at 31 March 2017

39. First time adoption as per Ind AS (cont'd)

The presentation requirements under Previous GAAP differs from Ind AS, and hence, Previous GAAP information has been regrouped for ease of reconciliation with Ind AS. The Regrouped Previous GAAP information is derived from the Financial Statements of the Company prepared in accordance with Previous GAAP.

Reclassification of actuarial gain/(loss) to OCI	(iii)	(196.02)
Total Comprehensive income for the year as per Ind AS		4,287.46

The following explains the material adjustments made while transition from previous accounting standards to Ind AS
(i) Fair valuation of Investments

Under the previous GAAP, investments in equity instruments were classified as long-term investments or current investments based on the intended holding period and realisability. Long-term investments were carried at cost less provision for other than temporary decline in the value of such investments.

Under Ind AS all investments to be measured at fair value at the reporting date and all changes in the fair value have been recognised in retained earnings as at the date of transition and subsequent to the transition date to be recognised in the profit and loss. The fair value changes of these investments resulting in increase in investments by ₹ 1,006.62 Lakhs as at 31 March 2017 (₹ 843.79 Lakhs as at 1 April 2016) and correspondingly there is increase in other income by ₹ 1,006.62 Lakhs as at 31 March 2017 and also increase in retained earning by ₹ 843.79 Lakhs As at 1 April 2016.

(ii) Prior period Items

Under previous GAAP, prior period items are included in determination of net profits in which error pertaining to prior period is discovered. Under Ind AS, prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred or if the error occurred before the earliest period presented, by restating the opening balance sheet.

(iii) Remeasurements of post employment benefit obligation

Under the previous GAAP, these re-measurement were forming part of the profit or loss for the year.

Under Previous GAAP, the interest cost on defined benefit liability and expected return on plan assets was recognised as employee benefit expenses in the Statement of Profit and Loss.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018

Under Ind AS, re-measurement i.e. actuarial gain/loss on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. As a result of this change, the profit for the year ended on 31 March 2017 decreased by ₹ 196.02 Lakhs. There is no impact on retained earning as at 1 April 2016.

(iv) Non Current-Borrowings

Under the previous GAAP, these transaction costs were charged to the profit and loss as and when incurred.

As required under the Ind AS 109 transactions costs incurred towards origination of borrowings have been deducted from the carrying amount of borrowings on initial recognition. These costs are recognised in the profit and loss over the tenure of the borrowing as interest expense, computed using the effective interest rate method corresponding effect being in Long term borrowings.

Consequently, borrowings as at 31 March 2017 have been reduced by ₹ 0.025 Lakhs (as at 1 April 2016 ₹ 0.46 Lakhs) with a corresponding adjustment to increase in retained earning. The profit under the previous GAAP for the year ended 31 March 2017 has been reduced by ₹ 0.43 Lakhs due to additional interest expense.

(v) Deferred taxes

Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period.

Ind AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP. In addition, the various transitional adjustments lead to temporary differences. According to the accounting policies, the Company has to account for such differences. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or a separate component of equity.

(vi) Security deposits Received

Under Previous GAAP, the security deposits received are accounted at transaction value.

Under Ind AS, these are carried at amortized cost. The security deposits have been recognised at discounted value and the difference between undiscounted and discounted value has been recognised as 'Deferred Income' which has been amortised over respective term as notional interest income under 'other income'. The discounted value of the security deposits is increased over the period of lease term by recognising the notional expense under 'Cost of material consumed'. The effect of this change is decrease in security deposits under other financial liabilities by ₹ 29.77 lakhs as at 31 March 2017 (₹ 19.89 lakhs as at 1 April 2016) and increase in other non current liabilities by ₹ 15.17 lakhs as at 31 March 2017 (₹ 10.27 lakhs as at 1 April 2016) and increase in other current liabilities by ₹ 14.35 lakhs as at 31 March 2017 (₹ 9.42 lakhs as at 1 April 2016). There had been increase in other income by ₹ 2.48 lakhs and finance cost by ₹ 2.44 lakhs for the year ended 31 March 2017 and increase in retained earnings by ₹ 0.20 lakhs as at 1 April 2016.

(vii) Security deposits Paid

Under IGAAP, the security deposits for leases are accounted at transaction value.

Under Ind AS, the security deposits for leases have been recognised at discounted value and the difference between undiscounted and discounted value has been recognised as 'Prepaid lease rent' which has been amortised over respective lease term as rent expense under 'other expenses'. The discounted value of the security deposits is increased over the period of lease term by recognising the notional interest income under 'other income'. the effect of this change is decrease in security deposits paid under non-current loans under financial assets by ₹ 140.96 lakhs as at 31 March 2017 (₹ 125.06 lakhs as at 1 April 2016) and increase in other non current assets by ₹ 98.87 lakhs as at 31 March 2017 (₹ 89.61 lakhs as at 1 April 2016) and increase in other current assets by ₹ 28.43 lakhs as at 31 March 2017 (₹ 22.79 lakhs as at 1 April 2016). There had been increase in Other income by ₹ 19.62 lakhs and other expenses by ₹ 20.63 lakhs for the year ended 31 March 2017 and decrease in retained earnings by ₹ 12.64 lakhs as at 1 April 2016.

(viii) Deferred Rent straight lining

Under previous GAAP, lease rentals under an operating lease are recognized as an expense/income on a straight line basis over the lease term. Under Ind AS, no straight-lining of lease rental is required, if lease escalations are in line with the expected general inflation to compensate the lessor for expected inflationary cost. the effect of this change is decrease in in other non current liabilities by ₹ 0.74 lakhs as at 31 March 2017 (₹ 166.76 lakhs as at 1 April 2016) and increase in other current liabilities by ₹ 6.62 lakhs as at 31 March 2017 (₹ 14.45 lakhs as at 1 April 2016). There had been decrease in other expenses by ₹ 7.37 lakhs for the year ended 31 March 2017 and increase in retained earnings by ₹ 181.22 lakhs as at 1 April 2016.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018
(ix) Other comprehensive income

Under Ind AS, all items of income and expense recognised in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Item of income and expense that are not recognised in profit or loss but are shown in the Statement of profit and loss as "other comprehensive income" includes fair value gain / loss on FVOCI equity instruments and re-measurement of defined benefit plans. The concept of other comprehensive income did not exist under previous GAAP.

(x) Retained earnings

Retained earnings as at 1 April 2016 has been adjusted consequent to the above Ind AS transition adjustments.

(xi) Proposed Dividend and tax thereon

Under Previous GAAP, proposed dividends are recognized as liability in the period to which they relate irrespective of the approval by shareholders. Under Ind AS, a proposed dividend is recognised as a liability in the period in which it is declared by the company (on approval of shareholders in a general meeting) or paid. Therefore, the liability recorded under previous GAAP has been derecognised.

(xii) Current Borrowings

Under previous GAAP, renewal/annual charges on cash credit or overdraft facilities need to be straight lined over the period of the facility. In the current practice it was charged to Profit or loss as and when charged by bank not on quarterly basis. Company has adopted the practice to amortise these facility charges over the period of facility in Ind AS and charging to Profit or loss on straight lined basis over the period of the facility. The effect of this change is increase in short term borrowings ₹ 12.87 lakhs as at 31 March 2017. and there is increase in finance cost of ₹ 12.87 lakhs as at 31 March 2017 resulting there is increase in Retained earning by ₹ 12.87 lakhs as at 31 March 2017.

Classification & Presentation
(xiii) Discounts and incentives to customers

Under previous GAAP, discounts and incentives to the customers were shown as a part of other expense. Under Ind AS, revenue from sale of products are recognised at net of discounts and incentives to the customers. Thus, sale of products under Ind AS has decreased by ₹ 247.59 Lakhs for the year ended 31 March 2017, with a corresponding decrease in selling expenses.

(xiv) Excise Duty

Under the previous GAAP, sale of goods was presented as net of excise duty. Under Ind AS, revenue from sale of products is presented inclusive of excise duty. The excise duty paid on sale of products is separately presented on the face of statement of profit and loss as a part of expense. Thus sale of goods under Ind AS has increased by ₹ 692.78 lakhs as at 31 March 2017.

40. Regrouping and restatement

The Ind AS adjustments are either non cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended 31 March 2017 as compared with the previous GAAP.
