One of the challenges for the company is to honour timely payments to the cane growers so as to make sure that the operational targets are met with out any impediments. This is a very important factor in view of the seasonal character of the industry . It may also be noted that the cement plant of the company is more than three decades old and it is imperative that the company takes a pragmatic and scientific view whether the company's plant suffers from any

serious impairment of its assets. If it is prudent to modernize a part of the machinery, the company shall certainly draw-up a plan for acquisition of such machinery. It is therefore necessary on the part of the company to earmark funds for capital expenditure for any modernization programme.

PERFORMANCE OF THE YEAR UNDER REVIEW

Cement Division:

During the year under review, the Cement Division has produced 2,81,852 MT as against 2,37,027 MT in the year ago period thereby registering an increase of 18.91% in volume. The Cement Division has earned Profit Before Tax (PBT) of ₹ 13.27 crores in comparison with ₹ 9.31 crores in the previous year.

Sugar Division:

The Sugar Division crushed 2,44,920 MT of sugarcane for the year under review as against 3,38,582 MT in the previous year. The recovery rate stands at 10.69% in comparison with 10.80% in the previous year. Despite the fact that the company had to suffer from an operationally difficult financial year, the Company could clock impressive sales turnover of ₹ 122.31 crores in 2016-2017 in comparison with ₹ 116.91 crores achieved in the previous year. Better prices realized in the year under review enabled the company to record a higher turnover of ₹ 122.31 crores there by posting an increase of 4.62%. The Sugar Division recorded profit before tax (PBT) of ₹ 6.18 crores as against a loss of ₹ 2.16 crores in the preceding year.

Power Division:

In the year under review, the Power Division has generated 3,74,92,394 KWH as against 6,70,20,044 KWH of power in the preceding year thereby recording a decline of 44.06%. It has been the practice of the company to generate power using alternative fuel when there is cessation of operations in sugar division during the normal offseason period. However the company is required to obtain the approval from

KAKATIYA CEMENT SUGAR AND INDUSTRIES LIMITED

the government for generation of power with coal as alternative fuel. Of late, the government has not been according permission to power entities to generate power with coal as an alternative fuel. In view of the changed stance of the government, there was remarkable decline in its power generation in the year under review. However the company's efforts to shore up its volumes would continue in all directions.

The power Division earned a Profit before tax (PBT) of ₹ 25.68 crores as against ₹ 22.66 Crores in the previous year

CURRENT YEAR OUTLOOK:

Cement Division:

In the year under review, the company has produced 2,81,852 MT of cement as against the budget estimate of 2,85,120 MT there by recording a minor decline of 1.15% of target production despite the prevalence of a sluggish market.

In our last Annual Report, we had expressed optimism in the context of various developmental activities that have been undertaken by the Telangana State and the possible and emerging opportunities that might accrue to the company in shoring up the performance of its cement division. Similarly the company was visualizing good potential for its cement division in the wake of the efforts being made by the Government of Andhra Pradesh in building up a new capital region for the state.

However considering the point that these are all huge projects involving long gestation periods, it might take few years for the company to reap the benefits of significant benefit in the demand .

Considering various factors, the company has set a target for its production at 2,75,000 MT for the current year.

Sugar Division:

Members are aware that sugar cane is a perennial crop that requires water through out the year though peak water requirement commences from February and ends with May. While this is so, the Telangana State Monsoon season normally arrives in June and lasts till end of September. It therefore means that our zone area is not in a position to fetch rainfall during the peak water requirement period. Therefore the crop is required to be irrigated through borewells or canal

irrigation. The Wyra Mandal is having maximum canal irrigation potential through wyra project. Another distressing aspect of the Wyra profile is that it has very less number of borewells. Thus the prospects for our sugar industry is directly linked to the availability of adequate water and existence of borewells with functional utility.

Taking into account the critical factors, your company has set a target of 1,70,000 MT of cane crushing in the current year.

Power Division:

The Company will make best endeavors to achieve enhanced level of power generation. However, since it is related to government policy and to various other administrative issues, a great deal of uncertainty still remains as a sour factor.

INSURANCE:

All the properties of the Company including its buildings, Plant and Machinery and Stocks wherever required have been adequately insured.

Disclosures under the Companies Act, 2013

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Kakatiya Cement Sugar and Industries limited ("the Company") as of 31st March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditure of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
