MANAGEMENT DISCUSSION & ANALYSIS

ECONOMY OVERVIEW AND DEVELOPEMENT

The previous couple of years was marred by some powerful challenges – economic hostilities and widening inflation impacting cost of living. Despite these challenges, number of economies across the globe showed signs of growth.

The Indian economy, however, appears to have moved on unlike many other countries and have staged an almost full recovery ahead of many nations and positioning itself to ascend to the pre-pandemic growth. Yet in the current year, India has also faced the challenge of reining in inflation to some extent.

Furthermore, this optimism stems from the benefits of efficiency gains resulting from greater formalization, higher financial inclusion, and economic opportunities created by digital technology based economic reforms. It is expected that this will broad-base growth and continue to drive consumption in the economy.

ABOUT THE INDUSTRY:

So far, non-banking finance companies (NBFCs) have scripted a great success story. Their contribution to the economy has grown in leaps and bounds. With the ongoing stress in the public sector banks due to mounting bad debt, their appetite to lend (especially in rural areas) is only going to deteriorate, thereby providing NBFCs with the opportunity to increase their presence. The success of NBFCs can be clearly attributed to their better product lines, lower cost, wider and effective reach, strong risk management capabilities to check and control bad debts, and better understanding of their customer segments.

Going forward, the latent credit demand of an emerging India will allow NBFCs to fill the gap, especially where traditional banks have been wary to serve. Additionally, improving macroeconomic conditions, higher credit penetration, increased consumption and disruptive digital trends will allow NBFC's credit to grow at a healthy rate over the next five years. Clearly, NBFCs are here to stay.

NBFC REGULATIONS:

Over the past several decades, NBFCs have emerged as important financial intermediaries, particularly for the small-scale and retail sectors, in underserved areas and unbanked sectors. NBFCs have turned out to be growth engines in an arena where increased importance is assigned to financial inclusion. The growing importance of the NBFC segment in the Indian financial system has led to a changing landscape of the NBFC framework. The evolution of the regulatory framework for NBFCs in India has gone through a cyclical phase—from simplified regulations to stringent and extensive regulations and finally towards rationalization as part of the recently revised NBFC regulatory framework.

Non-systemically important non-deposit accepting NBFCs (NBFCs-ND) - Limited prudential norms:

Capital adequacy norms and credit concentration norms have been done away with for all NBFCs-ND. This change will bring greater operational flexibility to over 11,500 NBFCs, who have an asset size of more than 100 crore INR but less than 500 crore INR, as they were earlier subjected to these norms. The regulations are further customized depending on whether the NBFC-ND has access to public funds and/or has a customer interface.

Strengths:

An integrated financial services platform: We offer our clients an integrated financial services platform by offering lending against demat shares, finance consultancy, loan against immovable properties and allied products. Our integrated service platform allows us to leverage relationships across the lines of businesses and our industry and product knowledge by providing multi-channel delivery systems to our client base, thereby increasing our ability to cross-sell our services.

Experienced Management: We believe that our senior management and our talented and experienced Team are the principal reason for the growth of our Company. We believe that the extensive experience and financial acumen of our management and staff facilitates us with a significant competitive advantage.

Weakness:

Branding: Our Company is not a well-established brand among large NBFC players who have access to larger financial resources.

Accessibility: We do not have branches so we are unable to explore the business opportunities in other areas.

Opportunities:

Large Market: The players in the NBFC sector still have a lot of scope to cover larger market and the rural markets are still untapped.

Desire for Status: With increased desire of individuals to improve their standard of living, the NBFC industry is getting exposed to new category of client (individuals) in a big way with large share of business coming from this segment apart from corporate clients.

Threats:

Economic Downturn: If the economic downturn is prolonged it can reduce the financing need of people due to shrinking business opportunities.

Private Banks: Private Banks are also working on the similar business model as the NBFCs do, thereby giving a very strong competition to the NBFC's.

RBI and Government restrictions: With more stringent norms governing the functioning of NBFC and certain government restrictions act as a hindrance in smooth functioning of NBFC.

FUTURE STRATEGY:

- **Expansion of existing activities:** Our Company intends to expand its financial services by enhancing its focus on loan against shares and securities, loan against properties and corporate loan and working capital loan.
- **Differentiated Services:** In the growing economy, the corporate clients will be requiring funds for further expansions. Our Company would be providing all diversified service portfolio under one umbrella to cater most of the customer needs and demands.
- **Brand recognition:** We are in such a business where we are facing lot of competition. Our Company is not a well-established brand among large NBFC players. We will be making the necessary arrangements for our brand reorganization.

SHARP INVESTMENTS LIMITED
Annual Report 2024-2025

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICY :

Basis of Accounting :

The financial statements are prepared under historical cost convention, on an accrual basis and in accordance with relevant presentational requirements of the Companies Act, 2013 and the applicable mandatory Accounting Standards as prescribed under section 133 of Companies Act, 2013 read with rule 7 of the Companies (Accounts) Rules, 2014.

Investment :

In accordance with Accounting Standard (AS13) on " Accounting for Investments" and the guidelines issued by Reserve Bank of India, Investments are either classified as current or long term based on management's intention at the time of purchase. Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as Non Current / Long term Investments. Current investments are stated at lower cost and market rate on an individual investment basis, unless there is decline other than temporary in the value, in which case adequate provision is made.

Earnings per share:

- Earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders, by the weighted average number of equity shares outstanding during the year.
- For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

Provision and Deferred Tax:

The Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income Tax Act, 1961.

Deferred Tax resulting from "timings difference" between book and taxable profit is accounted for using the tax rates and laws that have been enacted or substantially enacted as on the Balance Sheet date. The Deferred Tax Asset are recognized only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which deferred tax assets can be realized . deferred tax assets are recognized and carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realized against future taxable profit. .

Contingencies:

These are disclosed by way of notes on the Balance sheet. Provisions is made in the accounts in respect of those contingencies which are likely to materialize into liabilities after the year end , till the finalization of accounts and material effect on the position stated in the Balance Sheet .

PROVISIONING FOR STANDARD ASSETS :

The Reserve Bank Of India vide their notification has issued direction to NBFC-ND-SI & NBFC-SI to make provision of 0.35% on STANDARD ASSETS from the financial year 2024-2025. Since the Company does not come under the current definition of NBFC-ND-SI the Company has made provision @ 0.25% in the previous year. Since the Amount of Standard assets during the financial year 2024-25 is less than the previous financial year, the company has not made provision on standard asset for the financial year 2024-25.
