Beginning of a **new era**

A journey of thousand miles begins with a single step. Over the years we have come a long way by taking one step at a time.

Today, conditions are shaped not only by financial and economic crises globally, but also by the stability of prospering emerging market economies. The consumption in developing economies is driven by rising population, surging per capita income, growing disposable income, expanding middle class and continuing urbanization. With this we witness an era of new growth emerging. In this vastly changed economic and business landscape we are committed to create stakeholder value and are suitably poised to play a pivotal role on the strength of our experience and expertise.

Moreover, we have already commenced the next journey of our growth through strategic focus and execution excellence. Our initiatives encompass process re-engineering, technology up-gradation and enhanced value-addition to emerge as a future-ready enterprise.

K I C, a 5 minute read

Overview

We at K I C Metaliks, believe in an overall development of the iron and steel industry - be it through our product quality, our ability to create a sustainable business model, our initiatives to nurture the in-house talents, our zeal towards the creation of a healthy stakeholders value. Our vision and mission depicts the diverse interpretations of that one belief.

Vision

To become one of the most competitive integrated steel plants with diversified products offering.

Mission

The Company endeavours to achieve its vision through :

- Technological improvements.
- Achieving cost-effectiveness.
- Focusing on its unique product quality.
- Expanding its market.
- Achieving customer satisfaction for both stated and implied needs.
- Being a responsible corporate citizen.
- Providing work environments where our employees can meet their potential and thrive in an atmosphere of excellence.

Chairman's Communiqué

WE HAVE RECENTLY COMMISSIONED ANNULAR SINTER PLANT OF CAPACITY 3,36,000 MTPA AND 4.7 MW CAPTIVE POWER PLANT.

Mr. Radhey Shyam Jalan

Chairman & Managing Director

Dear Friends,

Allow me to begin with a cliché - change is the only constant. Having said that, it is important to ensure that transformational efforts are channelized in a positive direction for incremental and exponential results.

Economic and Business scenario

A conducive external environment often, but not necessarily aids such transformation. We are all aware of the positivity and optimism around India's macro-economic story. But the current situation outside our country is in some way daunting the prospects of this optimism. America's fragile recovery continues in fits and starts, and after a difficult 2011, Japan is on track, owing to a boost from reconstruction spending. Besides, China is managing the slowdown well. The IMF's latest World Economic Outlook predicts 3.5% global growth in 2012. But the situation at Euro zone has given a setback to this fragile recovery. At the time of writing this, the situation at Europe seems to be changing with no clear roadmap on how things will shape up. Clearly the world economy is passing through a volatile phase characterized by great uncertainty.

The looming shadows of slowdown have lengthened to the shores of India. After achieving a consistent growth rate over the past 8 years, the GDP of our country grew by a mere 6% in 2011-12. What has come as more surprising is the low, 5.3% growth, recorded in the last quarter of this fiscal.

THE 25 YEAR JOURNEY WOULD NOT HAVE BEEN THE SAME WITHOUT OUR CUSTOMERS, SHAREHOLDERS, EMPLOYEES, VENDORS AND OTHER STAKEHOLDERS.

I TAKE THIS OPPORTUNITY TO THANK THEM FOR MAKING K I C METALIKS A FORCE TO RECKON IN INDIA AND LOOK FORWARD TO THEIR CONTINUED SUPPORT.

More than these economic estimates, there is something more basic, something more palpable about India that is heartwarming. It is the growing confidence of our nation, our youthfulness and willingness to take on the world and our self-belief that is so different than any time in the past. This whole environment makes it impossible not to think big. Especially if one has got a solid organisation, technical skills, a superior level of integrity and people who are positive and invigorated.

Beginning of a new era

This year K I C Metaliks celebrates its silver jubilee. We started our journey 25 years ago and we stand today at a significant milestone. What pleases me is that after we acquired the Company from its erstwhile promoters, we have expanded and extended our industry presence significantly. We look back with satisfaction. We look forward to continue our journey with greater achievements and bigger goals.

Way forward

We initially started with the manufacturing of castings. We integrated backward into the production of pig iron. We integrated forward into the manufacturing of portland slag cement, through “slag” which was considered to be a waste product generated during the production of pig iron. Our evolution from a commodity supplier to a value-adding partner is entirely due to our customers. We believe in leveraging our strengths so that they complement those of our clients therefore curtailing the challenges they face. As a testimony of our client dedication, we developed relationships with several leading iron and steel companies entrenching our presence in markets. This partnership-driven approach has allowed us to move from day-to-day cost pressures to long-term relationships forged around mutual success, high quality products and services.

We have recently commissioned Annular Sinter Plant of capacity 3,36,000 MTPA and 4.7 MW Captive Power Plant. This Sinter plant would help to reduce operational cost of producing hot metal and would also reduce the dependability of the Company on the high cost iron-ore lumps. Further, the Captive Power Plant will satisfy a major part of the Pig Iron Plant’s energy requirements, will reduce its dependence on

power supplied by DPL and will also reduce the power cost of the Company and hence cost of production of hot metal substantially.

Going ahead our future priorities would be :

- Upgradation and capacity addition of the Mini Blast Furnace.
- To explore possibilities of acquiring captive mines of iron ore and coking coal in India and abroad.
- Strengthening of intellectual capital through proper training.
- Financial transaction efficiency, cost rationalization and optimization of cash flow.
- Aligning corporate objectives with that of stakeholders.

Vastly unexplored domestic market, reformed focus governance and an aspirational population with steadily rising income create a long-term optimism for the growth and demand for iron and steel products is going to propel the growth of our Company.

Beyond business

The future is mapped out, the strategy finalized, now comes the role of human resource, which would turn our vision into corporate reality. At K I C Metaliks, we need to nurture competence and create a dedicated army of thought leaders who will elevate the organisation into next orbit.

As our Company grows, we are actively trying to reduce our environmental impact. Our green initiatives will not only help the environment, but will lower our operating costs.

The 25 year journey would not have been the same without our customers, shareholders, employees, vendors and other stakeholders. I take this opportunity to thank them for making K I C Metaliks a force to reckon in India and look forward to their continued support. I am confident that we will build, nurture and expand the Company with your continued support.

Warm regards

Radhey Shyam Jalan

In a new era ... Integrating with Power

INTEGRATIONS LEAD TO MULTIPLE RETURNS. BESIDES AUGMENTING OPERATIONAL METRICS IT ALSO ALLOWS FACILITIES TO BE FULLY TESTED AND DE-BOTTLENECKED IN READINESS FOR THE FINAL PRODUCTION AT SUPERIOR LEVELS OF CAPACITY UTILISATION.

Integrations lead to multiple returns. Besides augmenting operational metrics it also allows facilities to be fully tested and de-bottlenecked in readiness for the final production at superior levels of capacity utilisation.

The big picture

There is a growing demand for power in India which is expected to increase approximately by 56% by 2017. Besides, the cost of power is also rising steadily. Iron and steel being a power intensive industry, most of the steel plants these days aim for captive power generation with an eye to reduce power costs.

Iron and steel industry products generate a huge amount of waste heat/gas during the production process. The total heat/gas generated in these industries is not utilised fully but 45% is discharged through the exit gases through chimney and many hazardous gases are released into atmosphere through this waste heat/gas. These gases cause dangerous health problems to people living in surrounding areas to these industries and contribute largely to global warming. But this waste heat/gas when trapped and converted to steam results in effective power generation & efficient usage of our resources and reduces greenhouse gas emissions.

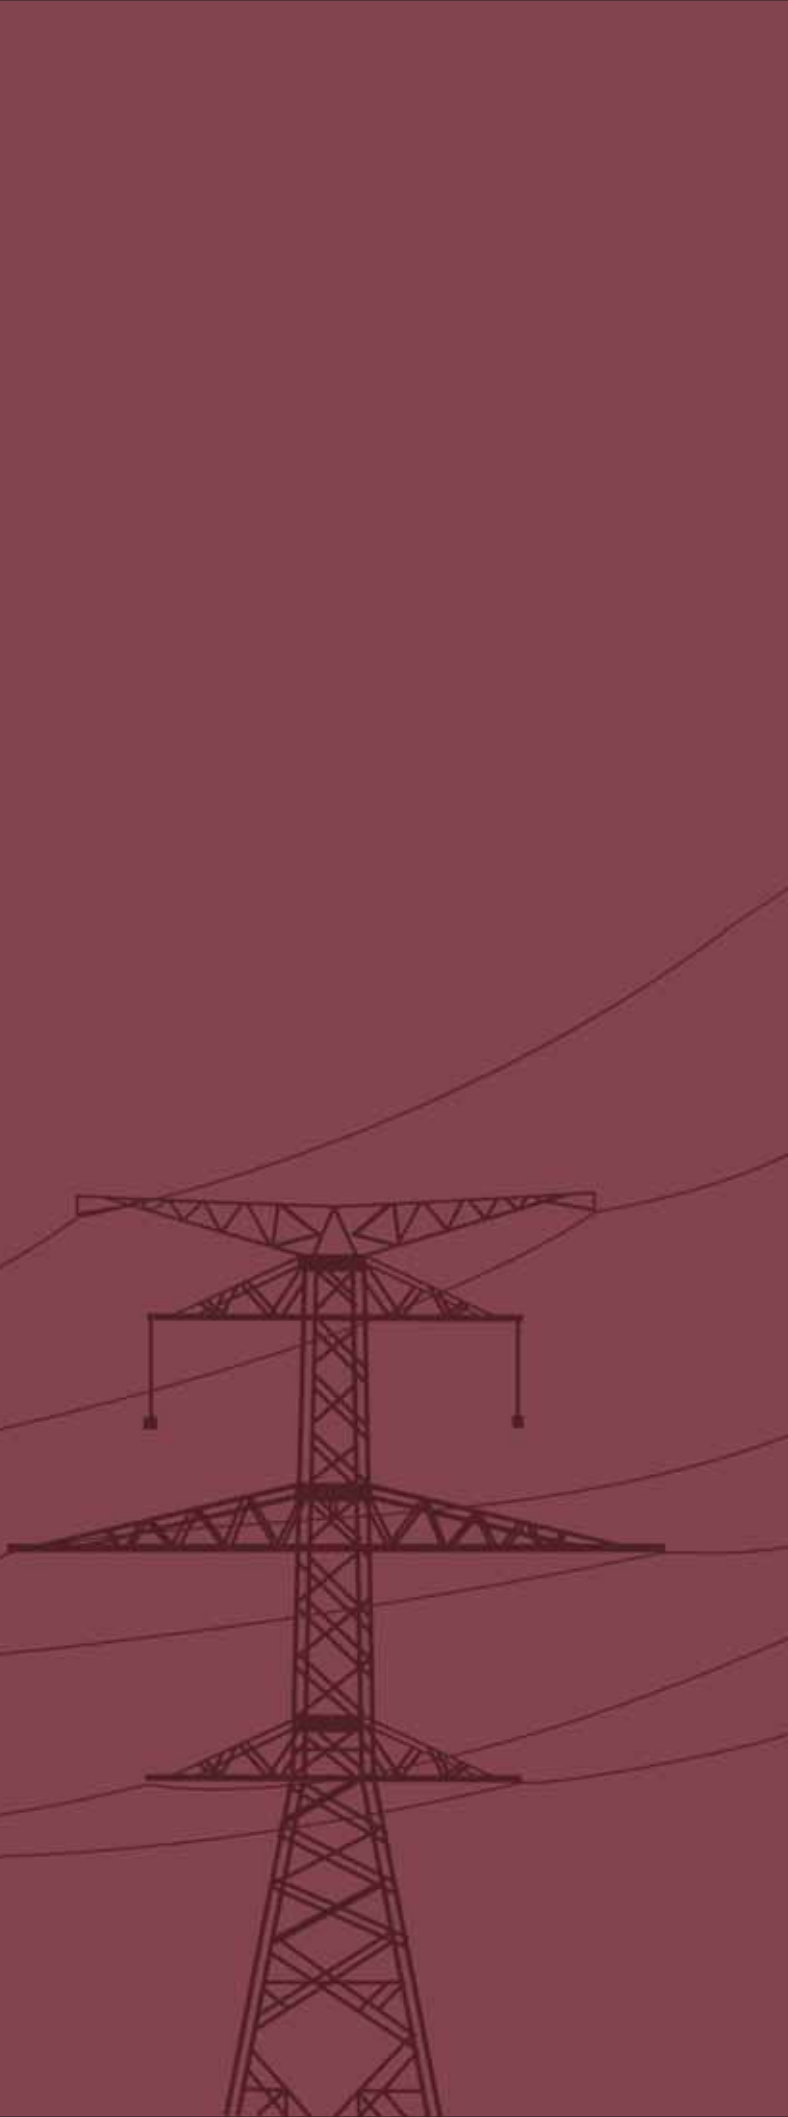

The K I C response

Keeping the above advantages in view, K I C Metaliks has set up a 4.7 MW Blast Furnace Gas based Captive Power Plant. This power generation will meet the partial electric energy requirement of the Company and would also reduce its dependence on the power supplied by DPL.

The result

At K I C Metaliks our investments in captive power generation capacity are both a measure of our fundamental strength and an insurance against the rising energy costs. The main advantages offered by this plant can be listed as - clean power generation and no production of green house & air polluting gases.

Sintering in technology, a process for obtaining solid and porous materials and items from fine powdery or pulverized materials at high temperatures.

In a cyclical industry like iron & steel, a Company can protect itself from periodic volatility in unfavourable years through proactive investment. Integrating the value chain, acts as a value protector by insulating against supply side interruptions and price fluctuations.

The big picture

In the present day scenario, the mini steel plants, as a move of backward integration, are installing sinter plants to feed the MBF. The reason behind this trend is to produce marketable hot metal/pig iron at low cost. Also cost of iron ore lumps which is a major raw material for producing pig iron is much higher as compared to cost of iron ore fines and hence production and use of sinter in MBF reduces the cost of production of hot metals. Further, charging Sinter into Blast Furnace also increases its productivity and helps in utilisation of other steel plants wastes.

The K I C response

At K I C Metaliks Limited, we integrated backward by setting up state-of-the-art technology, the Annular Sinter Plant with a capacity of 3,36,000 MTPA, where it would convert the iron ore fines and coke fines into coarsed grained iron ore sinter for charging the blast furnace.

The result

Sintering process would benefit the Company in terms of reduction into the cost of production of pig iron and would also eliminate the charging process of raw limestone and dolomite into the Blast Furnace to a certain extent. Further, it also aids the conservation of iron-ore by utilising iron-ore fines which are otherwise sold in the market at throw away prices.

Our people at heart of all strategy

OUR HUNGER FOR EXCELLENCE HAS BROUGHT US AT THE CROSSROADS OF CREATING DYNAMISM AND EXPERIENCE WITHIN OUR MANAGEMENT.

Values are not rule books but real ideas that are personified by ones behavior and ideas. The result is a healthy K I C, home to several ambitious and happy individuals. Our values have been the guiding beacons and inner strength in making a difference to our most precious intellectual property and our stakeholders.

Guided by experience and vision, we have come this far in our journey towards a resilient existence. Now we are hungry for more of both, speed and depth. Our hunger for excellence has brought us at the crossroads of creating dynamism and experience within our management. Today K I C Metaliks has an enviable team of highly competent and experience personnel. Led from the top, we are a team-spirited and inspired lot, strongly subscribing to our forward journey of becoming an admired leader. It is from here that the management team now sees the beginning of a new era, a beginning of discovery and new milestones ahead.

Core strategies

- Learning, teamwork, speed and excellence - Four pillars of our value system.
- To attract and retain the best industry talent.
- To create a performance-driven and a transparent organisation with adequate reward mechanisms.
- To enhance employee morale through recreation and meets at regular intervals.
- To implement a performance appraisal system and a strong internal audit.
- To create a leadership pipeline through succession planning and talent management.

Initiatives during 2011-12

- Recruitment of quality technical manpower through renowned technology institutes in Durgapur and Asansol and at the same time giving opportunity to freshers to showcase their talents.
- Bus with pick and drop facility.
- Canteen at plant premises with food at subsidized rates for the employees.

For growth to be responsible, it should go beyond numbers. It should go to the society to create a better world. That's the kind of growth in which our Company believes and constantly strives for.

Environment management

Our planet is fragile. It needs love and sensitivity. Sustainability of humanity hinges directly with the well-being of the planet. As responsible corporate citizens, we care. We believe that an unspoiled environment is the greatest inheritance we can leave to the next generation. Our environment sustainability programme includes :

- Implemented greening activities in and around the plant to protect the environment.
- Efficient air and water pollution measures following the principles as laid down by various government agencies.
- Waste gases being reprocessed for the generation of power for captive use thereby reducing the emission of greenhouse gases.
- Solid waste management system in adherence with pollution control norms ensuring the lesser degradation of environment.

Social Welfare

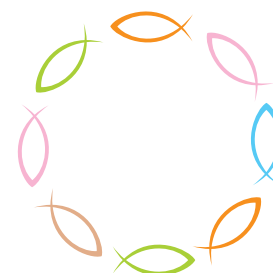

As a socially responsible organisation, we lay emphasis on making meaningful contribution towards the community. Various social welfare measures discharged by our Company includes :

- Beautification, upkeep and development of the temple and pond inside the plant premises.
- Active celebration of 26th January & 15th August and distribution of food and sweets amongst the employees.
- Celebration of Vishwakarma Puja at plant premises with active participation of employees.

Health and Safety

Good health is recognized a basic driver of growth and safety at the work place is treated as a non-negotiable instrument. Both are as important as production, quality efficiency and every other aspect of the performance of the Company.

- Protected employee health by establishing a well-equipped occupational health centre with a qualified doctor.
- Free medical health check-up camp for employees.
- Regular training for all employees.
- Regular safety rounds.
- Investment in safety apparatus as well as a periodic inspection of personal protective equipment and installation of medical oxygen cylinders at hazardous gas prone areas.
- Proper illumination of working areas to avoid any accidents.

Directors' Report

Dear members

Your Directors have pleasure in presenting the TWENTY FIFTH Annual Report on the affairs of the Company together with the Statement of Accounts of the Company for the year ended on 31st March, 2012. The summarised financial results for the year vis-s-vis the previous year are as follows :

1. FINANCIAL RESULTS

(₹ in Lakhs)

Particulars	2011 - 12	2010 - 11
Profit before Depreciation & Taxation	913.59	2,206.52
Less : Depreciation & Amortisation	420.52	411.96
Profit before Taxation	493.07	1,794.56
Less : Taxation including Deferred Tax	264.84	771.90
Add : MAT credit entitlement	98.65	495.39
Profit after Taxation	326.88	1,518.05
Surplus carried to Balance Sheet	326.88	1,518.05

2. FINANCIAL AND PERFORMANCE REVIEW

During the year under review, your Company has produced 50,233 MT of Hot Metal as compared to 38,101 MT in the previous year. Higher demand of pig iron in current fiscal, comparison to previous year and shorter shut-down period of MBF resulted in higher production as compared to 2010-11. The production of Portland Slag cement was 1,755 MT as compared to 5,044 MT in the previous year. Most of the Portland slag cement produced was consumed captively. Lower demand for cement resulted in lower production.

The Company has achieved a turnover of ₹ 35,593 Lakhs as against ₹ 27,018 Lakhs in the previous year which is 31.74% higher in comparison to last FY. The profit after tax for the year stood at ₹ 327 Lakhs compared to a profit after taxation of ₹ 1,518 Lakhs in the previous year, registering a decline over last FY. The inordinate pressure on margins forced the EBIDTA of the Company to decline significantly. Margin pressure was exerted during the year as a result of sharp increase in raw material prices although price of finished goods moved up. But this increase was not entirely commensurate with higher input costs. Moreover, productivity gain and price enhancement were insufficient to offset this sharp increase in input costs.

3. PROJECTS

Your Directors take great pleasure to state that the following projects were completed during the year under report and impact of these projects on overall state of affairs of the Company will be felt in the coming years :

i) Annular Sinter Plant

During the year, the Company successfully commissioned Annular Sinter Plant of capacity 3,36,000 MT. p.a. This Sinter Plant would help to reduce operational cost of producing hot metal and would also reduce the dependability of the Company on the high cost iron-ore lumps. This Plant would further facilitate the consumption of low-priced raw materials like iron-ore fines and coke fines of the Pig Iron Plant.

Directors' Report

Apart from conservation of iron ore by utilising the ore fines, instead of discarding, the other benefits of charging sinter into blast furnace are listed below :

- Utilisation of steel plant wastes, such as flue dust, mill scale, coke breeze, etc. during the sintering process.
- Decrease in coke rate of blast furnace.
- Increase in productivity of blast furnace.
- Elimination of charging of raw limestone and dolomite into blast furnace.
- Reduction in cost of production of pig iron.

ii) 4.7 MW Waste Heat Recovery based Captive Power Plant

The 4.7 MW waste heat recovery based Captive Power Plant was synchronised in March 2012 and is generating power. The power unit has stabilised its operations and the power generated is utilised captively.

During the process of manufacture of pig iron, the blast furnace releases large quantity of hot flue gas at 950 - 1050 Deg C carrying good amount of sensible (latent) heat. The heat energy content of these flue gases was effectively used for generation of electric power through Waste Heat Recovery Boilers (WHRB) and Steam Turbine Generator. Alternatively, with the release of flue gases to the atmosphere, the energy content would have been simply wasted besides creating problems in disposal of the gases, thus safeguarding against any pollution hazard in the plant premises. The conditioning of the exit gas, which is a mandatory requirement as per stipulation of the Environment Regulatory Authority, involves substantial amount of capital investment without any return. Thus, the Power Plant has been set up for making effective and economic use of the hot waste gas. This Captive Power Plant will enable your Company to meet the challenge of growing energy costs and will result in efficient usage of resources.

4. CHANGES IN THE CAPITAL STRUCTURE

During the year under review, there is no change in the Authorised Capital structure of the Company. As on 31st March, 2012, the Authorised Share Capital of the Company stood at ₹ 50 Crore. The Board, at its meeting held on 30th May, 2012 has proposed to increase the Authorised Share Capital of the Company from ₹ 50 Crore to ₹ 75 Crore by addition of further 2.50 Crore Preference Shares of ₹ 10/- each. Consequently, the Authorised Share Capital of the Company will stand at ₹ 75 Crore divided into 2.50 Crore Equity Shares of ₹ 10/- each and 5 Crore Preference Shares of ₹ 10/- each. Necessary resolutions for approval of Members are included in the Notice convening the forthcoming Annual General Meeting.

Regarding Issued, Subscribed and Paid up capital of the Company, in September 2011, the Board has allotted, 77 Lakhs, 7% Non-cumulative Redeemable Preference Shares of face value ₹ 10/- each at par to various investors aggregating to ₹ 7.70 Crore. Further in November 2011, the Board has allotted, 20 Lakhs, 7% Non-cumulative Redeemable Preference Shares of face value ₹ 10/- each at a premium of ₹ 10/- per share to various investors aggregating to ₹ 4 Crore.

Consequent to the issue and allotment of the Preference Shares as aforesaid, the Preference Share Capital of the Company stands increased from ₹ 14.55 Crore to ₹ 26.25 Crore and the Equity Share Capital stands at ₹ 7.09 Crore as on 31st March, 2012.

5. DIVIDEND

Keeping in view the working capital requirements of the Company, your Directors have ploughed back the profits and express their inability to declare any dividend for Equity and Preference shares for the FY ended on 31st March, 2012.

6. DIRECTORS

Mr. S.K. Singhal, Director of your Company is liable to retire by rotation and being eligible offers himself for re-appointment.

Directors' Report

Mr. P. C. Sahoo, Executive Director, resigned from the services of the Company on 30th May, 2012 due to other pre occupations. The Board recorded its appreciation for the valuable guidance rendered by Mr. P. C. Sahoo during his tenure as a Director of the Company.

Further, Mr. Barun Kumar Singh, Chief Operating Officer of the Company was inducted as an Additional Director on the Board and was appointed as an Executive Director of the Company w.e.f. 30th May, 2012. Mr. Singh is a Metallurgical Engineer with vast experience in Blast Furnace operations.

An appropriate resolution for appointment of Mr. Barun Kumar Singh is being placed before you at the ensuing Annual General Meeting and your Directors recommend passing of the same.

As required under Clause 49 of the Listing Agreement, brief particulars of the Directors proposed to be appointed/re-appointed at the ensuing Annual General Meeting have been given in the Notice convening the Annual General Meeting.

7. AUDITORS'

M/s. Agarwal Maheshwari & Co., Chartered Accountants, the Statutory Auditors of the Company will retire at the ensuing Annual General Meeting and are eligible for re-appointment.

The Board, based on the recommendation of the Audit Committee, recommends the appointment of M/s. Agarwal Maheshwari & Co., Chartered Accountants (Firm Registration No. 314030E) as Statutory Auditors of the Company and will hold the office till the conclusion of the next Annual General Meeting of the Company. M/s Agarwal Maheshwari & Co., Chartered Accountants have confirmed their eligibility and willingness to act as the Statutory Auditors of the Company and that their appointment, if made, shall be within the limits prescribed under Section 224(1B) of the Companies Act, 1956.

8. AUDIT COMMITTEE

Your Company has an Audit Committee in terms of Section 292A of the Companies Act, 1956 and of Clause 49 of the Listing Agreement. Further details of Audit Committee are given in the Corporate Governance Report annexed as a part of the Directors' Report.

9. PUBLIC DEPOSITS AND BUY BACK OF SHARES

The Company has not accepted any deposits from the public to which the provisions of Sections 58A, 58AA or any other relevant provisions of the Companies Act, 1956 and the Companies (Acceptance of Deposit) Rules 1975 apply.

No Buy-back of shares was proposed or pending during the FY ended on 31st March, 2012.

10. DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to Section 217(2AA) of the Companies Act, 1956 the Board of Directors of the Company hereby confirm that :

- (i) In the preparation of the Annual Accounts for the year ended 31st March, 2012 the applicable accounting standards have been followed and there were no material departures in compliance thereto;
- (ii) The Directors have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year ended 31st March, 2012 and of the profit of the Company for the period;
- (iii) The Directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 1956 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- (iv) The Directors have prepared the Annual Accounts on a going concern basis.

Directors' Report

11. PARTICULARS OF CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

Particulars of conservation of energy, technology absorption and foreign exchange earnings and outgo as required under Section 217(1)(e) of the Companies Act, 1956 read with Companies (Disclosures of Particulars in the Report of Board of Directors) Rules, 1988 are given in Annexure 'A' attached hereto and forms part of this report.

ANNEXURE - 'A'

Information pursuant to Section 217(1)(e) of the Companies Act, 1956 read with the Companies (Disclosure of Particulars in the Report of Board of Directors) Rules, 1988 and as part of the Directors' Report for the year ended 31st March, 2012.

A. CONSERVATION OF ENERGY

a) energy conservation measures taken :

- Commissioning of 4.7 MW waste heat recovery based Captive Power Plant to conserve waste gases of the blast furnace that are otherwise lost in atmosphere.
- Close monitoring of operating parameters of high energy consuming equipment in plant.
- Additional load of power is scheduled during non-peak power consumption levels to keep maximum demand for power under control.

b) additional investment and proposals, if any, being implemented for reduction of consumption of energy :

The Company has completed the set up of a 4.7 MW waste heat recovery based Captive Power Plant at the Durgapur plant location at a total cost of ₹ 2735.65 lakhs which will help in reducing the power cost of the Company substantially.

c) impact of the measures at (a) and (b) for reduction of energy consumption and consequent impact on the cost of production :

Power is generated from waste blast furnace gas for captive consumption and has reduced the power cost and cost of production of hot metal as a whole. The full impact of the Power Plant will be evident in FY 2012-13.

d) power and fuel consumption :

The total energy consumption and energy consumption per unit of production is given in attached Form - A.

B. TECHNOLOGY ABSORPTION

Particulars with respect to Technology Absorption are given in attached Form - B.

C. FOREIGN EXCHANGE EARNINGS AND OUTGO

- a) Activities relating to exports, initiatives taken to increase exports, development of new export markets for products and services and export plans : There were no activities in the Company relating to export in 2011-12.

Management Discussion and Analysis Report

ANNEXURE - 'B' TO THE DIRECTORS' REPORT

1. INDUSTRY STRUCTURE AND DEVELOPMENTS

The global financial turmoil has affected the entire global economy and the steel industry has not escaped its clutches. Demand for steel has taken a hit post the economic downturn, leading to production cuts by major steel producing companies, indigenously as well as globally.

The pig iron industry in India is divided into two types of producers, those who are integrated with steel making and those in merchant sector. K I C is a merchant pig iron producer.

The international scenario of the pig iron industry is also in a bad shape. The BRIC nations, which play a pivotal role in the pig iron industry, were massively hit in FY 2011-12. With the sharp decline in steel demand, paucity of basic raw materials and continuing ban on mining activities in Karnataka and Odisha, resulting in abruptly high pricing of quality iron ore, pig iron manufacturers had no choice but to curtail production and keep their plants shut as they were not finding it viable to operate as the production cost of quality pig iron was higher than the selling price.

However, there have been initial signs of revival over the last two months and that has really come as a much-needed breather. There is some recovery in demand, and industry observers are in consensus that the worst is over. Things are improving slowly and steadily. Although prices may not immediately start showing major increases, the demand has definitely turned positive and is expected to remain so. But improvement in capacity utilisation can only be seen, once pig iron producers are able to realize better prices to improve their margin, which is constantly under pressure.

2. OPPORTUNITIES

India's steel sector seems set to see some good times ahead and the market seems to be settling down currently as the materials have started moving once again. A slew of upcoming investments in India, many of which will require large quantities of steel, are one of the main reasons for the country's steel industry positive outlook in the latter half of this fiscal year. Better days appear to be here again for the pig iron industry. As the steel industry has witnessed frequent increase in prices since April 2012, the spill over effect is also witnessed in the pig iron segment, wherein the prices have shown good improvement.

The continued thrust of Central Government on infrastructure is expected to provide significant impetus to economic growth in the medium-term which will generate further demand for steel and consequently pig iron. There is also perceptible recovery in the foundry sector, which is one of the main consumers for the pig iron industry.

K I C has successfully commissioned the Annular Sinter Plant and 4.7 MW Captive Power Plant in the last quarter of 2011-12. This backward integration move of setting up the Sinter Plant will lower K I C's iron ore cost significantly as Sinter Plant's, major raw material, are the low-priced iron ore fines and will thus reduce the dependability of the Company on high cost iron-ore lumps. The Captive Power Plant will satisfy a major part of the Pig Iron Plant's energy requirements, will reduce its dependence on power supplied by DPL and will also reduce the power cost of the Company substantially. Both the projects will thus reduce the overall cost of production of hot metal and hence increase margins.

The management is also exploring the prospects of acquiring captive mines of iron-ore and coking coal, in India and abroad, to ensure continuous availability of these critical raw materials.

Management Discussion and Analysis Report

3. THREATS, RISKS AND CONCERNS

The input costs for production of pig iron are rising gradually. The Companies' Pig Iron Plant is operating at lower capacity utilization for many reasons. Apart from dismal economic conditions, availability of iron ore has become a major problem for the Company. In many areas, mining activity was restricted which has reduced the availability of iron ore, increased its price and finally damaged the bottom line of K I C.

The cost of raw materials like iron ore and coke constitute major part of cost of production of pig iron and steel making being a raw material intensive activity, high raw material prices have dent the profitability of the Company, especially in a weak demand - supply scenario which is likely to constrain the ability of the K I C to pass on, cost increases.

K I C is also exposed to fluctuation in input costs as it procures iron ore from the open market for production of pig iron. Since it imports a key input material, K I C is also exposed to the risk of volatility in foreign exchange due to recent weakening in rupee prices globally. Weakening of rupee has impacted the cost of imported raw material i.e. met coke which constitutes a major part of cost of production of pig iron. Inflation which was also a key concern in last FY, exerted further pressures on the liquidity profile of your Company.

To mitigate the effects of the above mentioned threats your Company has successfully commissioned a Sinter Plant and a Captive Power Plant which will reduce the Company's dependability on iron-ore and reduce production costs substantially. To insulate itself against input cost fluctuations, your Company is trying to acquire captive iron-ore and coking coal mines in India and abroad. With above measures in hand, K I C is optimistic of a bright future ahead.

4. FUTURE OUTLOOK

The fiscal year 2011-12 witnessed slowdown of economic activities particularly industrial output. Inflation also remained at elevated level throughout the fiscal year. But on the backdrop of the growth fundamentals, it is expected that economic scenario for the near future will remain modest with growth being slightly higher than that recorded in 2011-12.

Pig iron markets are expected to grow, primarily due to rising demand from infrastructure, construction, foundry and manufacturing sectors. However uncertain global economic environment, rising prices of key raw materials like iron ore and coke, seasonal fall in demand for automobiles, inflation and adverse impact of rupee depreciation and competitive intensity continue to pose challenges for the future.

With the Sinter and Power projects becoming operational, the operations of Pig Iron Plant will further improve significantly, adding to the top and bottom lines of the Company in the coming years. In view of these encouraging developments K I C is quite hopeful to perform better in the coming years.

5. PERFORMANCE OF THE COMPANY (FINANCIAL, OPERATIONAL AND PRODUCT WISE)

During the FY 2011-12 our Company produced 50,233 MT of Hot Metal as compared to 38,101 MT of hot metal in 2010-2011. Your Company sold 51,504 MT of pig iron in FY 2011-12 to achieve a gross turnover of ₹ 35,593 Lakhs and a net turnover of ₹ 34,253 Lakhs in comparison to previous year 2010-2011 sale of 38,153 MT to achieve a gross turnover of ₹ 27,018 Lakhs and a net turnover of ₹ 26,155 Lakhs. Production of Portland Slag Cement was 1,755 MT as compared to 5,044 MT in 2010-11.

EBIDTA of our Company showed a downward trend and dipped from ₹ 3,088 Lakhs in 2010-11 to ₹ 1,287 Lakhs in 2011-12, while the PAT reduced from ₹ 1,518 Lakhs in 2010-11 to ₹ 327 Lakhs in 2011-12. Consequently, the EPS also decreased from ₹ 22.26 to ₹ 4.60 in the FY 2011-12.

AUDITORS' CERTIFICATE ON COMPLIANCE OF CORPORATE GOVERNANCE AS STIPULATED IN CLAUSE 49 OF THE LISTING AGREEMENT

We have examined the compliance of conditions of Corporate Governance by K I C Metaliks Ltd. for the year ended 31st March, 2012 as stipulated in Clause 49 of the Listing Agreement of the said Company with Stock Exchanges.

The Compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination has been limited to a review of the procedures and implementations thereof adopted by the Company for ensuring compliance with the conditions of the certificate of Corporate Governance as stipulated in the said clause. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, the representations made by the Directors and the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in Clause 49 of the above mentioned Listing Agreement.

As required by the Guidance Note on certification of Corporate Governance issued by the Institute of Chartered Accountants of India, we state that no investor grievance is pending for a period exceeding one month as at 31st March, 2012 against the Company as per records maintained by the Shareholders/Investor Grievance Committee.

We further state that such compliance is neither an assurance to the future viability of the Company nor of the efficiency or effectiveness with which the management has conducted the affairs of the Company.

Auditors' Report

TO
THE MEMBERS OF
K I C METALIKS LIMITED

1. We have audited the attached Balance Sheet of **K I C Metaliks Limited** as at 31st March, 2012 and also the Statement of Profit & Loss Account and the Cash Flow Statement of the Company for the year ended on that date, both annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on test basis evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. As required by the Companies (Auditor's Report) Order, 2003 (CARO), issued by the Central Government of India in terms of sub-section (4A) of Section 227 of the Companies Act, 1956, we enclose in the annexure a statement on the matters specified in paragraphs 4 and 5 of the said order.
4. Further to our comments in the Annexure referred to in Paragraph 3 above, we report that :
 - i. We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - ii. In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of such books;
 - iii. The Balance Sheet, Statement of Profit & Loss and Cash Flow Statement dealt with by in this report are in agreement with the books of account;
 - iv. In our opinion, the Balance Sheet, Statement of Profit and Loss and the Cash Flow Statement dealt with by this report are in compliance with the Accounting Standards referred to in sub-section (3C) of Section 211 of the Companies Act, 1956.
 - v. On the basis of the written representations received from the Directors as on 31st March, 2012 and taken on record by the Board of Directors, we report that none of the Directors of the Company are disqualified as on 31st March, 2012 from being appointed as a director in terms of Section 274(1)(g) of the Companies Act, 1956.
 - vi. In our opinion and to the best of our information and according to the explanations given to us, the said accounts read together with the significant Accounting Policies and notes thereon and subject to note 33 for non provision of depreciation on Coke Oven plant for ₹ 3,571,388/- (cumulative un-provided amount since 01.04.2005 being ₹ 22,451,556/-) and had it been provided on regular basis the profit for the year would have been lower by the equivalent amount of ₹ 3,571,388/- and the reserve of the company would have been lower by ₹ 22,451,556/-; give the information required by the Companies Act, 1956, in the manner so required and present a true and fair view in conformity with the accounting principles generally accepted in India :
 - i. In the case of the Balance Sheet, of the state of affairs of the Company as at 31st March, 2012.
 - ii. In the case of the Statement of Profit & Loss, of the **Profit** of the Company for the year ended on that date.

Annexure to the Auditors' Report

1.
 - a) The Company has maintained proper records showing full particulars including quantitative details and situation of the Fixed Assets.
 - b) There is a regular program of physical verification, which in our opinion is reasonable, having regard to the size of the Company and the nature of fixed assets. No material discrepancies have been noticed in respect of the assets physically verified during the year.
 - c) Fixed assets disposed off during the year were not substantial. According to the information and explanations given to us, we are of the opinion that the disposal of fixed assets has not affected the going concern status of the Company.
2. According to information supplied to us and to the best of our knowledge and belief and on the basis of examination of such records as made available to us :
 - a) Inventories have been physically verified during the year by the management. In our opinion, the frequency of verification is reasonable.
 - b) The procedures of physical verification of inventories followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
 - c) The Company is maintaining proper records of inventory. The discrepancies noticed on verification between the physical stocks and book records were not material and have been properly dealt with in the books of account.
3. The Company has not accepted/granted any loans during the year from/to the parties covered in the register maintained under Section 301 of the Companies Act, 1956.
4. In our opinion, and according to the information and explanations given to us, there is an adequate internal control system commensurate with the size of the Company and the nature of its business with regard to purchase of inventory and fixed assets and for the sale of goods. During the course of our audit, no major weakness was noticed in the internal control system.
5.
 - (a) In our opinion and according to the information and explanations given to us the transactions that need to be entered in the register maintained under Section 301 of the Companies Act, 1956 have been so entered.
 - (b) According to the information and explanations given to us, the transactions made in pursuance of contracts or arrangements entered in the register maintained under Section 301 of the Companies Act, 1956 and exceeding the value of rupees five lakhs in respect of any party during the year have been made at prices which are reasonable having regard to prevailing market prices at the relevant time in the opinion of the management.
6. The Company has not accepted any deposits from the public to which the provisions of Sections 58A, 58AA, or any other relevant provisions of the Companies Act, 1956 and the Companies (Acceptance of Deposit) Rules 1975 apply.
7. The Company has internal audit system commensurate with the size and nature of the business of the Company.
8. The Central Government has prescribed maintenance of cost records under Section 209(1)(d) of the Companies Act, 1956 for the Company's Steel and Cement Units. We have broadly reviewed such accounts and records and are of the opinion that prima facie the prescribed accounts and records have been maintained but no detailed examination of such records and accounts has been carried out by us.
9.
 - a. According to the information and explanations given to us and the records examined by us, the Company is generally regular in depositing undisputed statutory dues including Provident Fund, Investor Education and Protection Fund, Employees' State insurance, Income Tax, Sales Tax, Wealth Tax, Service Tax, Custom Duty, Excise Duty, cess and other statutory dues with the appropriate authorities.
 - b. On the basis of our examination of the documents and records, the disputed dues, which have neither been provided in the books nor deposited with appropriate authorities are as under :

Annexure to the Auditors' Report

Name of the statute	Nature of dues	Amount (₹)	Period to which the amount relates	Forum where the dispute is pending

Notes to the Financial Statements for the year ended 31st March, 2012

1. SIGNIFICANT ACCOUNTING POLICIES :

a) Basis of Accounting

The financial statements have been prepared under the historical cost convention on accrual basis and on principles of going concern. The accounting policies are in accordance with the generally accepted accounting principles in India and the provisions of the Companies Act, 1956 as adopted consistently by the Company.

The preparation of the financial statements requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Differences between the actual results and estimates are recognized in the period in which the results are known/materialized.

b) Fixed Assets and Depreciation/Amortisation

- i) Fixed Assets are stated at cost less Cenvat Credit on specific Fixed Assets and subsequent improvements thereto including non-cenvatable taxes, duties, freight and other incidental expenses related to acquisition and installation are added to the cost of fixed assets.
- ii) Software cost relating to acquisition of initial software cost and installation cost are capitalized in the year of purchase.
- iii) The expenditure incurred on technical know-how and on technical services and related expenses are capitalized.
- iv) Depreciation on fixed assets has been provided on straight line method at rates which are in conformity with the requirements of Schedule XIV of the Companies Act, 1956. Provision for depreciation on Blast Furnace Plant as a whole has been computed at the rates prescribed for Continuous Process Plant as per Schedule XIV of the Companies Act, 1956. Leasehold Assets are amortized over the period of lease.

c) Capital Work-in-progress

Cost of the Fixed Assets that are not yet ready for their intended use at the balance sheet date together with all related expenditures are shown under capital Work-in-Progress.

d) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Sales are recognized on transfer of significant risk and rewards of ownership which generally coincide with the dispatch of the goods. Sales are stated at net of sales tax, VAT, trade discount, rebates but include excise duty.

e) Inventories

Inventories are valued at the lower of cost and net realizable value. Cost is determined on the weighted average basis and where applicable, includes the cost of material (net of available Cenvat), labours and factory overheads. Finished products also include Excise Duty on product manufactured.

f) Foreign Currency Transaction

- i) **Initial recognition** - Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of transaction.
- ii) **Conversion** - Foreign currency monetary items are reported using the closing rate. Non monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate on the date of transaction.
- iii) **Exchange difference** - Exchange difference arising on the settlement or conversion of monetary current assets and liabilities are recognized as income or as expenses in the year in which they arise.

Notes to the Financial Statements for the year ended 31st March, 2012

g) Borrowing Cost

Borrowing Costs incurred in relation to the acquisition, construction of assets are capitalized as the part of the cost of such assets upto the date when such assets are ready for intended use. Other borrowing costs are charged as an expense in the year in which these are incurred.

h) Taxation

Provision for tax is made for both current and deferred taxes. Current Tax is provided on the taxable income using the applicable tax rates and tax laws. Deferred Tax Assets and Liabilities arising on account of timing difference and which are capable of reversal in subsequent periods are recognized using the tax rates and tax laws that have been enacted or substantively enacted.

i) Prior Period Adjustments

Income and Expenditure pertaining to prior period have been accounted under respective heads of Statement of Profit & Loss. However, net effect of such amount, where material is disclosed separately in Notes on Accounts.

j) Impairment of Assets

An asset is considered as impaired in accordance with Accounting Standard - 28 on Impairment of Assets, when at balance sheet date there are indications of impairment and the carrying amount exceeds its recoverable amount the reduction is recognized as an impairment loss in the statement of profit and loss.

k) Employee Benefits

- i) Employee benefits of short-term nature are recognized as expense as and when it accrues.
- ii) Employee benefits of long-term nature are recognized as expenses based on actuarial valuation.
- iii) Post employment benefits in the nature of Defined Contribution Plans are recognized as expense as and when it accrues and that in the nature of Defined Benefit Plans are recognized as expenses based on actuarial valuation.
- iv) Actuarial gains and losses are recognized immediately in the Statement of Profit & Loss as income and expense.

l) Earnings Per Share

The Company reports Earnings Per Share (EPS) in accordance with Accounting Standard 20. Basic EPS is computed by dividing the net profit for the year by the weighted average number of equity shares outstanding during the year. Diluted EPS is computed by dividing the net profit or loss for the year by the weighted average number of equity shares outstanding during the year as adjusted for the effects of all dilutive potential equity shares, except where the results are anti dilutive.

m) Cash Flow Statement

The Cash Flow Statement is prepared by the indirect method set out in Accounting Standard - 3 on Cash Flow Statements and presents the cash flows by operating, investing and financing activities of the company. Cash and cash equivalents presented in the Cash Flow Statement consist of cash on hand and demand deposits with banks.

n) Treatment of Contingent Liabilities

EXPLANATORY STATEMENT AS REQUIRED UNDER SECTION 173(2) OF THE COMPANIES ACT, 1956

Item 4

The present Authorised Share Capital of the Company is ₹ 50,00,00,000 (Fifty Crores Only) divided into 2,50,00,000 (Two Crores and Fifty Lakhs) Equity Shares of ₹ 10/- each and 2,50,00,000 (Two Crores and Fifty Lakhs) Preference Shares of ₹ 10/- each. With the expansion of the Company's business, it is desirable to bring the Authorised Capital of the Company in proper co-relation with the magnitude of the Company's resources and size of its undertaking. It is therefore considered advisable to increase the Authorised Share Capital of the Company.

The proposed increase requires the approval of the members in General Meeting and accordingly, the resolution as set out in the notice is recommended. The existing Clause V of Memorandum of Association of the Company specifies the present Authorised Share Capital of your Company. Hence, the substitution of the existing Clause V of the Memorandum of Association of the Company is considered necessary in order to reflect the increase in the Authorised Share Capital of the Company.

Hence your approval is sought for the said resolution.

None of the Directors are concerned or interested in the said resolution except to the extent of their shareholding and the shareholding of their relatives, if any, in the Company.
