2021-22 has been a transformational year for the Company. The restructuring exercise that started a few years back has been almost completed and the Company has embarked on a new path. As informed earlier the Company completed its exit from manufacturing yarn to complete focus on the value add branded garments and fabric. This move has apart from reduction in debt by 40%, has all over improved the liquidity of the Company and reduced the beta/risk profile of the Company business.

Overall, despite starting with the COVID scare, the company ended the year with a turnover of Rs.395.54 crores and profit before Exceptional items and tax, of Rs.14.94 Crores.

The Industry saw unprecedented inflation in cotton fibre and yarn leading to inventory gains and robust demand. However, end of the year some headwinds were noticed in consumer demand due to high prices leading to the Company reworking its garment portfolio to ensure affordability to its consumers. Pressures also lead to undertaking cost cutting exercises to ensure the margins stayed intact despite inflationary pressures. This is expected to improve the overall competitiveness in the market in the coming days.

The Company also focused on the new age distribution channels like B2C & B2B ecommerce and organized retail. The share of these segments went up and in the coming days the main growth is expected from these segments as the traditional wholesale channel faces challenges.

4. **FUTURE OUTLOOK**

The Company has now almost completed its restructuring and is fully focused on its branded garment sales of TT & HiFlyer apart from the value added fabric segment. The Company has stepped up its advertisement budget and is focusing on both inner wear and casual wear. A lot of emphasis is being put on new products and strengthening its winter portfolio.

The Company would be using B2C and B2B Ecommerce channels to foray the weaker markets, by leveraging the existing network of these channels to ensure quicker and deeper penetration.

However, some headwinds are expected in the first quarter as the industry fights the unprecedented rise in cotton prices (doubled in one year) and shifts to other fibres. Consumer demand is also expected to be muted as adjustments to higher price levels are made. However branded companies are expected to come out stronger as SMEs are being forced to give market space due to margin and working capital pressures.

The Company will keep serving its international yarn market from outsourcing to ensure the goodwill and brand equity of 30 years is not lost. This would be additional contributor without any risk assigned to the yarn business.

The Company's Exclusive Brand Outlet (EBO) chains by the name of "T T BAZAAR" have also helped build direct connect with the consumer. Over 50 TT Bazaar franchisee stores are running and now that COVID is over the Company intends to push this number to 100.

The Company in the last few years has gone through a bad phase due to various headwinds but luckily it is emerging with a stronger character and poise to build its growing knitted casual and active wear portfolio for all genders that has seen very good traction and demand. The most important change is the improved risk profile of the business, hence less volatility in earnings will be there and more consistent growth trajectory can be expected.

MANAGEMENT DISCUSSIONS AND ANALYSIS (2021-22)

Overview

The textile industry is one of the oldest business options in India since the ancient age. Different types of textile fibers are produced in India, among which cotton, jute, silk, and wool are the major ones.

The Indian textile industry is one of the largest in the world with a large unmatched raw material base and manufacturing strength across the value chain. India is the largest producer of cotton and jute in the world and also the 2nd largest producer of polyester, silk, and fibre in the world. In 2020. India was the 6th largest exporter of Textiles & Apparel in the world after China, Bangladesh, Vietnam, Germany, and Italy. India has a share of about 4% in the global trade of textiles and apparel.

India's Textiles and Apparel industry is one of the mainstays of the national economy as it not only generates huge foreign exchange but also provides direct and indirect employment to more than 10 crore people including a large number of women and the rural population. With a strong and supportive Government at the Centre, India is doing exceptionally well on the export front and it is during FY 2021-22 that India could achieve its highest ever Merchandise export of about US\$ 419.65 bn. During FY 2021-22, Indian Textile & Apparel Industry achieved its highest ever export of US\$ 41.3 bn which constituted about 10% of the overall merchandise export of India.

The Government of India is continuously working for the holistic development of the Indian T&A sector and is announcing various policy measures like Production Linked Incentive Scheme (PLI), PM Mega Integrated Textile Region and Apparel Park Scheme, etc. for the same. Our Government is looking towards increasing the market size of the Indian Textile & Apparel Sector to US\$ 350 bn including US\$ 100 bn exports by 2025-26. With the rising per capita income, favorable demographics, increasing domestic demand, and a shift in preference to branded products, Indian domestic Textile & Apparel Industry is likely to outperform in the near future and hence, there is a great opportunity for the foreign investors to come and invest in India.

COVID-19 Impact

After being hit hard by COVID-19, India's textile industry is well on course on the road to recovery. During the pandemic, the domestic textiles and apparels industry slumped to \$75 billion after peaking at \$106 billion in FY2020.

However, government initiatives to bolster the sector have raised hopes of the sector growing to \$300 billion by 2025-26, a growth of 300 per cent in the next 2 years.

There has been a remarkable turnaround in technical textiles. In terms of value, technical textiles imports exceeded exports by Rs 1,058 crore in FY20 while in FY21 exports exceeded imports by Rs 2,998 crore.

These are some major findings of a report titled 'Textile Industry: Trends and Prospects' released by Infomerics Valuation and Rating Pvt Ltd., a SEBI-registered and RBI-accredited financial services credit rating company.

The report analyses the factors that have affected the sector's performance. It notes that apart from the impact of COVID-19, other reasons which are acting as bottlenecks are high tariffs faced by Indian exporters in key markets, such as the European Union, and logistics.

The report compares the high tariffs in the EU with zero duty access given to competing nations like Bangladesh, Sri Lanka, Pakistan, and Turkey, which affected export performance.

The report also highlights logistics as one of the major constraints with Indian exporters. For comparative purposes, the turnaround time (TAT) (from order to delivery) is 50 days for Bangladesh and 63 days for India, whereas the time taken to reach port is one day for Bangladesh and 7-10 days for India.

OPPORTUNITIES AND THREATS

To boost exports, government have extended the benefit of the Scheme for Remission of Duties and Taxes on Exported Products (RODTEP) to all exported goods and the new production linked incentive scheme to provide incentives for manufacture and export of specific textile products made of man-made fiber. Under Union Budget 2020-21, a National Technical Textiles Mission is proposed for a period from 2020-21 to 2023-24 at an estimated outlay of Rs. 1,480 crores (US\$ 211.76 million).

The Indian textile industry has various opportunities like technical textiles, product development and diversification, FDI and brand recognition. Technical textiles offer the opportunity to the Indian textile industry to maintain the present current growth and flourish in near future. India is not using technical textiles much. Both nonwoven and woven technical textiles will thrive in India in coming years. Another opportunity for the Indian textile industry is elimination of quotas. Emerging Retail

Industry and malls provide huge opportunities for the apparel, handicraft and other segments of the industry.

Due to rise in COVID-19, Pandemic in 2021, the Indian Textile industry has faced the challenges, in terms of raw material supply, man power and logistics, whereas other less infected countries are getting opportunity once again to come back into business. The Industry is dependent on the availability of Raw Cotton at reasonable prices, which is dependent on various factors – monsoon, imports etc. The Indian Textile exports continue to face stiff challenges from the small countries like Bangladesh, Sri Lanka, Taiwan and Pakistan etc. Some of the new challenges are safety, lack of supply and demand in addition to liquidity crunch, Lack of balance between price and quality and International Labor and Environmental Laws.

Risk Management

Company has a well-defined risk management framework in place. Further, it has established procedures to periodically place before the committee and Board, the risk assessment and management measures.

COVID-19 emerged as an unexpected and unprecedented risk severely impacting all aspects of our business operations. To us safety and health of our workers was top priority, we immediately stepped up the safety protocols at all our units.

The sudden lockdown began to impact both topline and bottom line due to consumers buying only essential product and non-availability of salesmen which hurt the order-booking process.

We moved quickly to respond to the changing dynamics in the market place right from securing supplies of essential raw and packing material to revamping product portfolio by introducing a host of new products such as Masks and PPE Kits. Increased focus on E-commerce also helped in mitigating the risk further.

However we believe that risk has not subsided yet and we are constantly monitoring the situation.

The Risk Management Policy may be accessed on the Company's website at the link http://www.tttextiles.com/investor/companypolicies.

Internal Control System

The Company has an Internal Control System, commensurate with the size, scale and complexity of its operations. The internal Audit functions reports to the Chairman of the Audit Committee and to Chairman and Managing Director of the Company.

The Internal Audit monitors and evaluates the efficiency and adequacy of internal control systems in the company. It's compliances with operating systems, accounting procedure and policies at all locations of the Company.

Human Resources Development

"An organization is only as good as the people within" is an axiom, which the company understands and appreciates deeply. The Company continues to emphasize on its commitment to acquiring, developing and enhancing its human resources. Recruitment and retention of intellectual capital is a key management exercise. The Company's human capital constitutes a diverse pool of knowledge, a judicious mix of youth, imaginations, risk – taking ability and seasoned experience.

The Company follows a continuous performance appraisal system to ensure the employees are dynamically being trained and appraised about improvement areas and performance gaps. Further the management maintains an open door policy, to ensure free flow communication with all levels.

Independent Auditors' Report

To the Members of T T Limited Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of **TT Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2022, and the Statement of Profit and Loss (including Statement of Other Comprehensive Loss), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its Profit including Other comprehensive Loss, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under these Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matter

Key audit matter are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements of the current period for the financial year ended March 31,2022. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context

The key audit matter	How the matter was addressed in our audit
1. During the year the Company has recognised	Our audit procedures included the following
Interest subsidy claims amounting to Rs.135.66 Lacs In terms of Scheme notified by the U P State Government.	We understood and tested the design and operating effectiveness of control as established by management in recognition and assessment of the recoverability of the claims.
We considered this as a Key audit matter since recognition of Interest subsidy claim is subject to satisfaction of certain conditions mentioned in the related notification/policies. Assessment of recoverability of claims is subject to significant judgement of the management including certainty with respect to the satisfaction of conditions specified in the notification / policies, collections thereof. These estimates could change subject to final adjustments that may arise on settlement/ confirmation.	We evaluated the managements's assessment regarding reasonable certainty for complying with the relevant conditions as specified in the notifications/policies and collections. We considered the relevant notifications/ policies issued by respective authorities to ascertain the appropriateness of the recognition of accruals/claims and basis for determination of claims. Based on the above procedures performed, the management's estimates related to recognition of subsidy accruals/claim and their recoverability are considered to be reasonable.

We have determined that there are no other key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's responsibility for the standalone Ind AS financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive Loss, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process

Auditor's responsibility

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design
 and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to
 provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than
 for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
 override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion
 on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such
 controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit
 evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt
 on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required
 to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures
 are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our
 auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

Report on other legal and regulatory requirements

- 1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - The Balance Sheet, the Statement of Profit and Loss including Statement of Other Comprehensive Loss, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - c. In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act. read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - d. On the basis of the written representations received from the directors as on April 1, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
 - e. With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these standalone Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - f. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements; (Ref. Note No.31)
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company

ANNEXURE "A" to the Independent Auditors' Report to the members of TT Limited, dated May 11, 2022

Report on the matters specified in paragraph 3 and 4 of the Companies (Auditor's Report) Order, 2020 ("the Order') issued by the Central Government of India in terms of section 143(11) of the Companies Act, 2013 ("the Act") as referred to in paragraph 1 of 'Report on Other Legal and Regulatory Requirements' section.

- (i) (a) (A) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
 - (B) The Company, during the year under consideration, did not own any intangible Assets.
 - (b) Physical verification of fixed assets is being conducted by the management based on a program designed to cover all assets over a period of three years which, in our opinion, is reasonable having regard to the size of the company and nature of its business. Discrepancies noticed on such verification as compared to book records were not material and have been properly adjusted in the books of account.
 - (c) Based on our examination of the property tax receipts and lease agreement for land on which building is constructed, registered sale deed / transfer deed / conveyance deed provided to us, we report that, the title in respect of self constructed buildings and title deeds of all other immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in the financial statements included under Property, Plant and Equipment are held in the name of the Company as at the balance sheet date.
 - (d) The Company has not revalued any of its Property,, Plant and Equipment during the year.
 - (e) No Proceedings have been initiated or are pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act 1988, (45 of 1988) and rules made thereunder.
- (ii) (a) The inventories have been physically verified by the management during the year at all its locations, except stocks located outside India, lying with third parties and in transit which have been verified with reference to correspondence of third parties or subsequent receipt of goods. In our opinion, the frequency of verification is reasonable. No material discrepancies were noticed on such physical verification. Inventories lying with third parties have been confirmed by them as at year end and no

- material discrepancies were noticed in respect of such confirmations.
- (b) During the Year, the company has been sanctioned working Capital Limit in excess of five Crore Rupee, in aggregate from Bank or Financial Institutions on the basis of security of current Assets. The Quarterly returns or statements filed by the Company with such Bank or Financial Institutions are in agreement with the books of account of the Company, the differences, if any are either not material or minor in nature.
- (iii) During the Year the company has not made any investments in, or provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the provisions of clause (iii)(a) to (f) of the Order are not applicable to the company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, the company has not given a guarantee jointly with another company to a financial institution for loan taken by others from the financial institution, which are covered under the provisions of section 185 and 186 of the Act, the terms and conditions of which are not, prima facie, prejudicial to the interest of the company.
- (v) The Company has not accepted any deposits from the public within the meaning of directives issued by the Reserve Bank of India and provisions of sections 73 to 76 or any other relevant provisions of the Act and hence the rules framed thereunder are not applicable
- (vi) We have broadly reviewed the books of account relating to materials, labour and other items of cost records maintained by the Company as specified by the Central Government of India under section 148(1) of the Act and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate and complete.
- (vii) (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of provident fund, employees' state insurance, income tax, GST, customs duty, cess and other material statutory dues as applicable with the appropriate authorities. Further, there were no undisputed amounts outstanding at the year-end for a period of more than six months from the date they became payable.
 - (b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2022 on account of disputes are given below::-

Name of the Statute	Nature of Dues	Amount (Rs. In Lacs)	Period to which the amount relates	Forum where the dispute is pending

- (viii) There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- (ix) (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any Lender.

- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) On an overall examination of the financial statements of the Company ,The term loans raised during the year prima facie ,were applied for the purpose for which the loans were obtained.
- (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- (e) The Company does not have any subsidiaries, associates or joint ventures.
- (f) The Company does not have any subsidiaries, associates or joint ventures.
- (X) (a) The Company has not raised moneys by way of initial public offer or further public offer(including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
 - (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.
- (xi) (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year
 - (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
 - (c) There is no instance, of whistle-blower complaints, received during the year by the company.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- (xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
 - (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- (xv) In our opinion during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors. and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- (xvi) (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
 - (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- (xvii) The company has not incurred cash losses in the financial year and in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however,

state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

- (xx) (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) as the company has Nil CSR liability during the year thus transfer of unspent amount to a Fund specified in Schedule VII to the Companies Act within a period of six months of the expiry of the financial year in compliance with second proviso to sub-section (5) of section 135 of the said Act is not applicable
 - (b) There are no Ongoing Projects of CSR as on March 31, 2021 and March 31, 2022. The Provision of the CSR applicable from the Year 2022-23.
- (xxi) The company does not have any subsidiaries or Associates or Joint Ventures, the account of which are to be consolidated and as such there are no consolidated Financial Statements.

Annexure 'B' to the Independent Auditors' Report of even date on the standalone financial statements of T T Limited dated May 11, 2022.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act") as referred to in paragraph 2(f) of 'Report on Other Legal and Regulatory Requirements' section.

We have audited the internal financial controls over financial reporting of T T Limited (the Company") as of March 31,2022 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and

maintained and if such controls operated effectively in all material respects.

An audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial control systems over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control system over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. Corporate information

T T Limited ("Company") is a public Company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed with the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE). The registered office of the Company is located at 879, Master Prithvi Nath Marg, Karol Bagh, Delhi-110005. The Company is engaged in primarily one segments consisting of Textile (comprising of yarn manufacturing, Knitting, and cutting and sewing of textiles products).

The financial statements are authorized for issue in accordance with a resolution of the Board of Directors on 11^{TH} May 2022.

Note 1.2: Significant accounting policies

This note provides list of the significant accounting policies applied in the preparation of these standalone financial statements.

1.2.1 Basis of preparation of Financial Statements

(i) Compliance with Indian Accounting Standards (Ind AS)

The financial statements of the Company are prepared in accordance with Indian Accounting Standards (Ind AS) under historical cost convention on accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act 2013(the Act) and guidelines issued by the Securities & Exchange Board of India (SEBI). The Ind AS are prescribed under section 133 of the Act, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter:

(ii) USE OF ESTIMATES

The preparation of financial statements in conformity with Indian Accounting Standards (Ind AS) requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the reporting period and reported amounts of revenues and expenses during the period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods

(iii) Functional and Presentation Currency

The financial statements are presented in Indian Rupees, which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates. All values are rounded to the nearest Lakhs (INR 00,000) except when otherwise indicated

(iv) Historical cost convention

The financial statements are prepared on accrual basis of accounting under historical cost convention in accordance with generally accepted accounting principles in India and the relevant provisions of the Companies Act, 2013 including Indian Accounting Standards notified there under, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

- a. Defined benefit plan-plan assets measured at fair value,
- b. Asset held for sale- measured at the lower of its carrying amount and fair value less cost to sell,
- Certain financial assets and liabilities (including derivative instruments).

1.2.2 Summary of Significant Accounting Policies

a) Revenue Recognition Sale of Goods

Revenue from sale of goods is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods. The Company assesses promises in the contract that are separate performance obligations to which a portion of transaction price is allocated.

Revenue is measured based on the transaction price as specified in the contract with the customer. It excludes discounts, incentives, volume rebates, goods & services tax and amounts collected on behalf of third parties. In determining the transaction price, the Company considers below, if any:

Variable consideration:

This includes discounts, incentives, volume rebates, etc. It is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. It is reassessed at end of each reporting period.

Consideration payable to a customer:

Such amounts are accounted as reduction of transaction price and therefore, of revenue unless the payment to the customer is in exchange for a distinct good that the customer transfers to the Company.

Further, in accordance with Ind AS 37, the Company recognises a provision for onerous contract when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received

Export benefits

Export benefits arising from Duty Drawback scheme, Merchandise Export Incentive Scheme, ROSL and ROSCTL are recognized on shipment of direct exports.

Revenue from exports benefits measured at the fair value of consideration received or receivable net of returns and allowances, cash discounts, trade discounts and volume rebates.

Revenue from rendering of services

Revenue from rendering of services is recognised when the performance obligation to render the services are completed as per contractually agreed terms.

Interest income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the amortised cost and at the effective interest rate applicable

b) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- · Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

c) Inventories

- (i) Finished goods and work-in-progress are valued at lower of cost or net realizable value. Cost of inventories comprises of cost of purchase, cost of conversion, depreciation, other overheads to the extent applicable and other costs incurred in bringing them to their respective present location and condition.
 - By products are valued at net realizable value.
- (ii) Stock in trade: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis
- (iii) Stores and spares: are stated at cost less provision, if any, for obsolescence.
- (iv) Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average cost basis.
- (v) Cost of finished goods, work-in-process and stores, spares and raw material are determined on the basis of weighted average method.
- (vi) Obsolete stocks are identified every year on the basis of technical evaluation and are charged off to revenue.
- (vii) Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

d) Property, Plant and Equipment

Property, Plant and Equipment("PPE") are stated at Historical cost less accumulated depreciation and less accumulated impairment losses, if any. Historical Cost includes its purchase price including import

duties, non-refundable taxes (net of CENVAT/ GST or any duty credits wherever applicable), after deducting trade discounts and rebates. It includes other costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and the borrowing costs for qualifying assets and the initial estimate of restoration cost if the recognition criteria are met.

Capital work in progress is carried at cost, less any recognised impairment loss. Depreciation of these assets commences when the assets are substantially ready for their intended use. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other non-current Assets"

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of profit and loss

e) Intangible Assets

Intangible assets with finite useful life are recognised when the Company controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured.

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any.

Intangible assets are amortized on a straight line basis over the estimated useful economic life of 3 to 5 years. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

Intangible assets under development is carried at cost, less any recognised impairment loss. Amortisation of these assets commences when the assets are substantially ready for their intended use.

f) Expenses Incurred During Construction Period

Preliminary project expenditure, capital expenditure, indirect expenditure incidental and related to construction / implementation, interest on borrowings to finance fixed assets and expenditure on start-up / commissioning of assets forming part of a composite project are capitalized upto the date of commissioning of the project as the cost of respective assets.

g) Depreciation

Based on internal assessment and independent technical evaluation carried out by external valuer, the management believes that the useful lives as given below best represent the period over which management expects to use these assets. The useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Assets description	Years of Useful Life
Building	30-60 Years
Plant and Machinery	22-25 Years
Office Equipment (Includes Computers and data processing units)	5-10 Years
Electrical Installation	5-20 Years
Furniture and Fixtures	15 Years
Vehicle	5-10 Years
Freehold Land	Not Amortised

And depreciation is charged on following basis:-

- (i) Depreciation on All Assets is charged at Straight Line Method basis in the manner as prescribed in Companies Act 2013 and rate as per prescribed useful life above.
 - (ii) Cost of acquisition and improvement of lease hold land is amortized over the lease period.
 - (iii) Assets costing up to 5,000 are fully depreciated in the year of purchase.
 - (iv) Intangible assets are amortized over a period of 3-5 years on a straight line basis.

Estimated useful lives, residual values and depreciation methods are reviewed annually, taking into account commercial and technological obsolescence as well as normal wear and tear and adjusted prospectively, if appropriate

h) Impairment of assets

a) Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the Financial assets which are not fair valued through standalone statement of profit and loss. For trade receivables, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected life time losses to be recognised from initial recognition ofthe receivables. As a practical expedient, the Company uses a provision matrix to determine impairmentloss of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL loss allowance (or reversal) during the year is recognized in the standalone statement of profit and loss.

b) Non Financial Assets

Non-financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

The company has the policy to assess at each reporting date for impairment required for each of its financial and on-financial assets

i) Foreign Exchange Transactions/Translation

Company designates certain foreign exchange forward contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the statement of profit and loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the net profit in the statement of profit and loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified to net profit in the statement of profit and loss.

j) Employee Benefits Expenses and liabilities in respect of employee benefits are recorded in accordance with Indian Accounting Standard 19 – Employee Benefits.

(i) Provident Fund

The Company pays contributions toward provident fund to the regulatory authorities as per local regulations where the Company has no further payment obligations. The contributions are recognised as employee benefit expense when they are due.

The Company makes contribution Employee State Insurance in accordance with Employee State Insurance Act. 1948.

The Company has no obligation, other than the contribution payable to the provident fund.

(ii) Gratuity and other post-employment benefits

Gratuity is a post employment benefit and is in the nature of a defined benefit plan. The liability recognised in the balance sheet in respect of gratuity is the present value of the defined benefit/obligation at the balance sheet date less the fair value of plan assets, together with adjustment for unrecognized actuarial gains or losses and past service costs. The defined benefit/obligation is calculated at or near the balance sheet date by an independent actuary using the projected unit credit method.

Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligations recognized in Other Comprehensive Income. The effect of any plan amendments are recognized in net profits in the Statement of Profit and Loss.

(iii) Other Short Term Benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

k) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease.

That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Where the Company is a lessee: Ind AS 116 - Leases:

Ind AS 116 Leases replaces existing lease accounting guidance i.e. Ind AS 17 Leases. It sets out principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases, except short-term leases and leases for low-value items, under a single on-balance sheet lease accounting model. A lessee recognises a right-of-use asset representing its right to use the asset and a lease liability representing its obligation to make lease payments.

The Company has elected not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Company recognizes the lease payments associated with these leases as an expense in statement of profit and loss over the lease term. The related cash flows are classified as operating activities

l) Segment Accounting and Reporting

The Chief Operational Decision Maker monitors the operating results as one single business segment viz. Manufacturing and Sales of Textiles Goods for the purpose of making decisions about resource allocation and performance assessment and hence, there are no additional disclosures to be provided other than those already provided in the financial statements.

m) Taxes on Income

Income tax expense or credit represents the sum of the current tax and deferred tax.

Current and deferred tax is recognised in the Statement of Profit and Loss except to the extent it relates to items recognised in 'Other comprehensive income' or directly in equity, in which case it is recognised in 'Other comprehensive income' or directly in equity, respectively

Current income tax

Current tax payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the Statement of profit and loss because some items of income or expense are taxable or deductible in different

years or may never be taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority. The Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities

MAT credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

Deferred Tax

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at reporting date. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilised. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow deferred tax assets to be recovered.

The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

n) Government grants and subsidies

Government grants are recognized where there is reasonable assurance that the company will comply with the conditions attaching to them and the grants will be received.

When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed.

Government grants related to assets are treated as deferred income and are recognized in the statement of profit and loss on a systematic and rational basis.

Government grants related to revenue are recognized on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costswhich they are intended to compensate.

When the company receives grants of non-monetary assets, the asset and the grant are recorded at fair value and recognize to statement of profit and loss on a systematic basis over the useful life of the asset. The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

o) Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Interest bearing loans and borrowings has been restated to amortized cost using effective interest rate method with the discount accreted through the statement of profit and loss.

p) Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and are liable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

q) Earning Per Share

Basic earnings per equity share are computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

r) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity

Initial recognition

The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to the fair value on initial recognition.

Subsequent measurement

For the purpose of subsequent measurement financial assets is classifies in three broad categories:

A. Non-derivative financial instruments

- (i) Debt instrument carried at amortized cost A debt instrument is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to

cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model. Further, in cases where the company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

(iii) Financial assets at fair value through profit or loss

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through statement of profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through statement of profit or loss is recognised in statement of profit or loss in the period in which it arises. Interest income from these financial assets is included in other income.

iv) De-recognition of financial assets

A financial asset is derecognised only when:

- the Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(v) Financial liabilities

i) Classification

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

ii) Measurement

Financial liabilities are initially recognised at fair value, reduced by transaction costs (in case of financial liability not at fair value through statement of profit or loss), that are directly attributable to the issue of financial liability. After initial recognition, financial liabilities are measured at amortised cost using effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash outflow (including all fees paid, transaction cost, and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through statement of profit and loss.

iii) Impairment of Financial Assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through statement of profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to

lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognized as an impairment gain or loss in statement of profit and loss.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables. As a practical expedient, the Company uses a provision matrix to determine impairment loss of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL loss allowance (or reversal) during the year is recognized in the statement of profit and loss.

iv) Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss..

v) Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

vi) Investment in Subsidiaries, Associates and Joint Ventures

Investment in subsidiaries, associates and joint ventures carried at cost in the separate financial statements

vii) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

viii) Cash and cash equivalents

Cash and short-term deposits in the statement of financial position comprise cash at banks and on hand and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

B. Derivative financial instruments

Initial recognition and subsequent measurement

The company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

Financial assets or financial liabilities, at fair value through profit or loss.

This category has derivative financial assets or liabilities which are not designated as hedges. Although the company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated a hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Cash flow hedge

The company designates certain foreign exchange forward contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions. When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the statement of profit and loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the net profit in the statement of profit and loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified to net profit in the statement of profit and loss.

s) Share Capital

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options are recognized as a deduction from equity, net of any tax effects

) Fair Value Measurement

The Company measures financial instruments such as derivatives and certain investments, at the fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability. Or
- (ii) In the absence of a principal market, in the most advantageous market for the assets or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial assets takes into account a market participant's ability to generate economic benefits by using the assets in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. For the purpose of fair value disclosures, the company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Use of Estimates

1.4. Critical accounting estimates and judgments

The preparation of financial statements in conformity with Indian Accounting Standards (Ind AS) requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at the end of the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Critical accounting estimates and Judgments.

a. **Useful lives of** Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of property, plant and equipment are determined by the management based on technical assessment by internal team and external advisor. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. The Company believes that the useful life best represents the period over which the Company expects to use these assets.

b. Contingent liability

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/ litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

c. Income taxes

The calculation of the Company's tax charge necessarily involves a degree of estimation and judgement in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process. The Company reviews at each balance sheet date the carrying amount of Income Tax /deferred tax Liabilities.

d. Defined benefit plans (gratuity)

The Company's obligation on account of gratuity is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

36.6 Financial risk management

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The market risk to the Company is foreign exchange risk and interest rate. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer

The Company's focus is to ensure liquidity which is sufficient to meet the Company's operational requirements. The Company monitors and manages key financial risks so as to minimise potential adverse effects on its financial performance. The Company has a risk management policy which covers the risks associated with the financial assets and liabilities. The details for managing each of these risks are summarised ahead.

36.7 Market risk

Market risk is the risk that the expected cash flows or fair value of a financial instrument could change owing to changes in market prices. The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

36.8 Foreign currency risk management

Foreign exchange risk is the risk that the fair value of future cash flows of financial instruments will fluctuate because of changes in foreign exchange rate.

The Company derives significant portion of its revenue in foreign currency, exposing it to fluctuations in currency movements. The Company has laid down a foreign exchange risk policy as per which senior management team reviews and manages the foreign exchange risks in a systematic manner, including regular monitoring of exposures, proper advice from market experts, hedging of exposures, etc

The Company derives significant portion of its revenue in foreign currency, exposing it to fluctuations in currency movements. The Company has laid down a foreign exchange risk policy as per which senior management team reviews and manages the foreign exchange risks in a systematic manner, including regular monitoring of exposures, proper advice from market experts, hedging of exposures, etc

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

Details in respect of the outstanding hedge accounting relationships relating to a firm commitment given below:

Particulars	Year ended March 31, 2022	Year ended March 31, 2021	
	USD	USD	
Firm Commitments-sell	22.18	44.76

Spot Rate (in INR)	Year ended March 31, 2022	Year ended March 31, 2021
	USD	USD
USD	75.79	73.20

36.9 Interest rate risk management

The company is exposed to interest rate risk because it borrows funds at both fixed and floating interest rates. The risk is managed by the company by maintaining an appropriate mix between fixed and floating rate borrowings.

The company's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the company's:

i) profit for the year ended 31 March, 2022 would decrease/increase by Rs. 50.03 lacs (31 March, 2021: decrease/increase by Rs. 59.72 lacs). This is mainly attributable to the company's exposure to interest rates on its variable rate borrowings.

36.10 Other price risks

The company is not exposed to any instrument which has price risks arising from equity investments which is not material.

36.11 Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company's exposure to credit risk primarly arises from trade receivables, balances with banks, investments and security deposits. The credit risk on bank balances is limited because the counterparties are banks with good credit ratings.

36.11.1 Trade Receivables

Trade receivables are derived from revenue earned from customers. Credit risk for trade receivable is managed by the Company through credit approvals, establishing credit limits and periodic monitoring of the creditworthiness of its customers to which the Company grants credit terms in the normal course of business. The Company also assesses the financial reliability of customers taking into account the financial condition, current economic trends and historical bad debts and ageing of accounts receivables. As per simplified approach, the Company uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix takes into account a continuing credit evaluation of Company's customers' financial condition; aging of trade accounts receivable.

36.11.2. Investments

The Company limits its exposure to credit risk by generally investing with counterparties that have a goodcredit rating. The Company has funded defined-benefit gratuity plans. The funded status of these plans are influenced by movements in financial market. A negative performance of the financial markets could have a material impact on cash funding requirements

36.11.3 Cash & cash equivalents

With respect to credit risk arising from financial assets which comprise of cash and cash equivalents, the Company s risk exposure arises from the default of the counterparty, with a maximum exposure equal to the carrying amount of these financial assets at the reporting date. Since the counter party involved is a bank, Company considers the risks of non-performance by the counterparty as non-material.

b. Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard.

An explanation of each level is as follows:-

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

36.14 Derivative financial instruments

The Company holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The objective of hedges is to minimize the volatility of INR cash flows of highly probable forecast transaction. The Company's risk management policy is to hedge around 70% to 90% of net exposure with forward exchange contract, having a maturity upto 12 months.

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

^{**} The other non-current financial assets represents Claims Receivable and surrender Value of insurance.
