### 2. DIVIDEND

Your Board of Directors pleased to recommend a dividend @ 5% (₹ 0.05 per equity share) on the 224980500 equity shares of ₹ 1 each of your Company.

### 3. REVIEW OF OPERATIONS

In the year 2024-25, the global disturbances continued and we managed to finish the year at par turnover. Indian textile exports grew marginally with improvement in imports from developed countries but was nothing substantial and was still 15% below the peak touched in 2021-22.

Domestic demand continued to be flat and there has been a hit in winter demand, as winter season has shortened and starts only from mid-December. The changing climatic cycles of late winter and hence late summers is something the trade is yet to adjust. This is overall impacting demand, as buying confidence is very low.

Overall industry was hit with relatively higher raw material prices vis-à-vis the world. Cotton was high due to international prices falling below MSP and India not able to take advantage due to import duty. On the other hand, QCO and import duty made low priced MMF fibre/yarn imports difficult and forcing industry to buy from the monopolistic type Indian suppliers.

The company turnover was Rs. 21443.15 lakhs and profit after tax at Rs 409.91 Lakhs in 2024-25. Despite global headwinds, flat domestic demand and supply chain disruptions due to sale of Gajroula factory, the Company managed to maintain turnover and increase net profit.

This year was very significant for the company as many important milestones were achieved:

- The completion of the post COVID restructuring to exit spinning and reduce debt. The sale transaction of its Gajroula unit was completed during the year leading to reduction of total debt significantly from

Rs 12889.62 Lakhs in FY 2023-24 to Rs 8925.85 Lakhs in FY 2024-25. This sale did not impact supply chain of the Company; it could maintain its turnover despite sale of this unit.

- The near completion of garmenting unit in Howrah, West Bengal (leading knitwear cluster of India) that is expected to start commercial production in Q2 to support the aggressive growth plans of the Company
- T.T. Brand for the first time signed a Bollywood star as its brand ambassador – Rajkumar Rao was signed in February 2025 and advertisement has started from April 2025.
- The next Gen has also formally joined the Company as Executive Director at a young age of 22 and is leading the Company's new advertisement campaign and AI initiatives.

The Company has also reworked its dependence on cotton fiber and has shifted more of its fabric and garments to cotton/manmade fiber blends to reduce the risk of its business due to cotton volatility. All new product development is around blends and performance fibers/yarns. The recent surge in cotton prices and consumer resistance to paying a higher price has sent a clear signal that India is still a price-conscious market especially in tier 2 and tier 3 towns and the budget for clothing is constrained due to lifestyle changes. The Company established its sourcing office in Surat, and has started sourcing manmade fibre-based fabric.

The continuous use of digitalization in life is also an important signal that the Company needs to connect more digitally with its distributors, retailers, and customers. The Company is continuously working on the same and recognises the importance to embrace technological changes sooner than later.

#### 4. **FUTURE OUTLOOK**

Exciting times are ahead for the industry, as UK FTA has finally been signed and the tariffs imposed by USA are expected to create an advantage for India against its competitors especially China. Further since end of last year, garment exports have started up picking due to buyers looking for alternatives to Bangladesh and all major global buyers stepping up their buying as pipeline inventories fall.

The Company plans to clearly focus on the value-added innerwear and casualwear segment both in domestic brand (under its brands T.T. and HiFlyer) and in exports to capitalize on the tremendous opportunity for India in exports.

T.T.Brand has for the first time signed a Bollywood superstar Rajkummar Rao (lead hero in blockbuster film *Street 2*) as its brand ambassador and has introduced multiple new products for summer 2025 and plans new launches for winter 2025 too.

To capitalize the opportunities in market, the Company's new unit in Howrah West Bengal is ready and is expected to start production from July 2025 and be in full production by Q3 end. Further the Company is planning to upgrade its machinery in the Avinashi Tamil Nadu unit in this year.

The Company plans to raise further equity funds through rights issue in Q2 of this year for working capital, branding and upgradation of Avinashi factory.

The Company also plans to strengthen its Surat operations recognizing the strong changing importance of blends and 100% Manmade fibers in the domestic casual wear market and slowly expected to perpetuate to the export market.

New product development is all based on MMF performance fibers, better processing finishes, and enhanced consumer experience. However, all products would be keeping the basic principle of delivering value for money to the consumer and will not be reaching out to a small percentage of premium / elite consumers. Dependence on cotton fiber is being slowly but steadily reduced especially in its casual wear range by using alternative fibers and finishes to ensure the consumer experience is not compromised in any fashion.

The good news is that raw material prices are stable and company capacity utilisation is expected to pick up with consolidation of operations.

The Company would be using B2C and B2B E-commerce channels to foray into the weaker markets, by leveraging the existing network of these channels to ensure quicker and deeper penetration at a lower cost.

Advertisement policy is very clear and would focus only on its strong markets by doing Point of Sales publicity and using social media for targeting strong markets. Electronic and print media will be used sparingly to build brand value in the weaker markets.

The Company in the last few years has gone through a bad phase due to various headwinds but luckily it is emerging with a stronger character and poise to build its growing knitted casual and active wear portfolio for all genders that have seen very good traction and demand. It sees a strong story of consumption and exports unfolding.

The most important change is the improved risk profile of the business, hence less volatility in earnings will be there and a more consistent growth trajectory can be expected. The restructuring exercise to reduce debt and business risk profile is complete and the Company starts again to revive its old glory, turnover and profits.

## 5. **MANAGEMENT DISCUSSION AND ANALYSIS**

Management discussion and Analysis Report for the year under review, as stipulated under Regulation 34 of the Listing Agreement, 2015 is presented as a separate section forming part of the Annual report.

## 6. **CORPORATE GOVERNANCE**

The Company is committed to maintain the highest standards of Corporate Governance and adhere to the Corporate Governance requirements set out by SEBI.

A separate report on Corporate Governance along with Auditor's Certificate on its compliance is annexed to this report. **(Annexure D)**

## 7. **DIRECTORS AND KEY MANAGERIAL PERSONNEL**

## **MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT (2024-25)**

### **TEXTILE INDUSTRY OVERVIEW**

India's textiles sector is one of the oldest industries in the Indian economy, dating back to several centuries. The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, with the capital-intensive sophisticated mills sector at the other end. The fundamental strength of the textile industry in India is its strong production base of a wide range of fibre/yarns from natural fibres like cotton, jute, silk, and wool, to synthetic/man-made fibres like polyester, viscose, nylon and acrylic.

The decentralised power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of textiles industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles makes it unique in comparison to other industries in the country. India's textiles industry has a capacity to produce a wide variety of products suitable for different market segments, both within India and across the world.

### **SOME SIGNIFICANT DATA ON THE TEXTILE SECTOR:**

- The market for Indian textiles and apparel is projected to grow at a 10% CAGR to reach USD 350 billion by 2030. Current annual size of the market is about USD 170 billion
- India is the world's 3rd largest exporter of Textiles and Apparel
- India ranks among the top five global exporters in several textile categories, with current exports being around USD 35 billion
- The textiles and apparel industry contributes 2.3% to the country's GDP, 13% to industrial production and 12% to merchandise exports.
- The textile industry in India is predicted to double its contribution to the GDP, rising from 2.3% to approximately 5% by the end of this decade.
- Textile manufacturing in India has been steadily recovering amid the pandemic.
- The Indian Technical Textile market has a huge potential of a 10% growth rate, increased penetration level of 9-10% and is the 5<sup>th</sup> largest technical textiles market in the world.

### **A. TEXTILE INDUSTRY STRUCTURE**

India's textile industry is structured into two main sectors: the organized sectors which include large mills and unorganized sector, which consists of small scale, informal mills. The industry is segmented into various phases such as spinning, weaving, finishing and apparel manufacturing, each playing a critical role in the overall process. The organized sector typically uses modern machinery and adheres to labour laws, providing higher wages and stable employment to its workers. On the other hand, the unorganized sector often operates with older equipment and less formal working conditions, contributing significantly to employment but often under less regulated environments.

### **B. INNOVATIONS IN TEXTILES**

**Smart Textiles** The future of textiles is moving toward functionality. Smart textiles, which can respond to external stimuli such as heat, light, or moisture, are expected to be a major trend by 2025. These textiles can be used in medical, sports, and fashion applications, such as garments that monitor health parameters or adapt to environmental conditions.

Example: Textile companies in India are already experimenting with fabrics that change color based on temperature and moisture levels, providing added value in sectors like sportswear and healthcare.

**Technical Textiles** Technical textiles, which include products used in industrial, medical, and aerospace applications, are rapidly growing in India. The government is promoting technical textiles as part of its focus on high-value-added products. By 2025, India aims to become a key player in the global technical textiles market, which is expected to grow substantially in the coming years.

**Digital and 3D Printing** Digital printing and 3D textile printing are emerging as game-changers in the Indian textile industry. These technologies enable faster and more customized production, reducing waste and allowing for greater design flexibility. As fashion trends change quickly, digital and 3D printing will allow manufacturers to keep up with demand and produce limited-edition, high-quality textiles.

**Example:** Textile designers in India are already using 3D printing to create intricate patterns and textures on fabric, offering consumers a unique, personalized experience.

### **C. INDUSTRY OPPORTUNITIES:**

1. **Sustainability and eco-friendly textiles:** With increasing global awareness around sustainability, Indian textile companies have a unique opportunity to lead in organic and eco-friendly fabrics. The demand for biodegradable materials, water-efficient processes, and ethical sourcing is rising, paving the way for innovative and sustainable business models.
2. **Government initiatives and policy support:** The Indian government continues to bolster the textile sector through schemes such as the Production Linked Incentive (PLI) scheme, Make in India, and tax incentives for exporters. These initiatives provide businesses with financial and infrastructural support, encouraging investment in modern manufacturing facilities.
3. **Technological advancements and digital integration:** Automation, AI-driven quality control, and smart textiles are transforming the industry. Digital platforms enable manufacturers to streamline supply chains, enhance production efficiency, and deliver better customer experiences. The rise of e-commerce has further opened direct-to-consumer opportunities for textile brands.
4. **Export potential and global demand:** India remains one of the top textile exporters globally. With rising global demand for affordable yet high-quality textiles, Indian manufacturers can leverage free trade agreements, diversified export markets, and global supply chain disruptions to strengthen their foothold in international markets. The two big game changers are the recently concluded UK FTA and the expected lower import tariffs from USA against its main competitors like China,

### **D. INDUSTRY CHALLENGES**

1. **Supply chain disruptions and raw material costs:** The volatility in raw material prices, particularly cotton and synthetic fibres, continues to impact production costs. Global supply chain disruptions, influenced by geopolitical tensions and climate change, also pose risks to material availability and pricing stability. India's local fibre production reduces the risk substantially, however import duty and QCOs on raw materials reduces access to international competitive yarn and fibre.
2. **Labour shortages and skill gaps:** While India has a large workforce, a shortage of skilled labour in advanced textile manufacturing processes remains a challenge. Upskilling and vocational training programs are essential to equip workers with the expertise needed for modern textile production.
3. **Competitive pressure from other markets:** Countries like Bangladesh and Vietnam have emerged as strong competitors in textile exports due to lower labour costs and favourable trade agreements. Indian businesses must focus on innovation, efficiency, and branding to maintain a competitive edge. However, the current announcement of FTA with UK along with the expected advantageous differential import tariff of USA will give India a clear advantage seeing unprecedented growth
4. **Environmental regulations and compliance:** As sustainability norms tighten globally, businesses must adapt to stricter environmental regulations. Investing in green technology, waste reduction strategies, and responsible sourcing is critical to meeting compliance standards and consumer expectations.

**E. SEGMENT WISE PERFORMANCE****F. INDUSTRY OUTLOOK**

**Increasing Global Demand for Textiles:** India is positioned as a leading supplier of textiles globally. By 2025, the industry is expected to see significant growth in exports, driven by increasing demand in key markets such as the United States, Europe, and the Middle East. India's textile exports are projected to reach \$45 billion by 2026, up from the \$38 billion mark in 2020. This growth is driven by India's competitive manufacturing costs, skilled labor force, and the push to strengthen its export-friendly policies. The biggest game changer is going to be the recent UK FTA and the advantageous differential import tariff of USA against main competing nations like China, Bangladesh, Vietnam.

**Sustainability and Eco-friendly Practices:** As the world moves toward sustainability, the Indian textile industry is embracing eco-friendly manufacturing practices. Sustainable textiles, organic fibers, and eco-friendly dyes are expected to gain acceptance and become a standard in the coming years. The rise of sustainable brands and an increase in consumer awareness around eco-conscious products are prompting Indian manufacturers to adopt green technologies. Moreover, India is focusing on circular economy principles, recycling, and waste reduction in textile production.

**Example:** The use of hemp, banana, and bamboo fibers is gaining momentum due to their low environmental impact. Brands like Canaveda are leading the way in producing eco-friendly textiles from hemp and other sustainable fibers.

**Technological Advancements and Automation:** Technological innovations are revolutionizing the Indian textile industry. Automation, AI, and IoT (Internet of Things) are streamlining production processes, improving efficiency, and reducing costs. By 2025, we can expect more widespread adoption of technologies like smart textiles, digital printing, and automated stitching machines. The implementation of data analytics for real-time decision-making will also play a crucial role in optimizing supply chains and improving product quality.

**Example:** Automatic power looms, jacquard machines, and weaving technologies are already making an impact, helping Indian textile manufacturers scale production and meet international demand.

**Government Initiatives and Policy Support:** The Indian government is playing a pivotal role in transforming the textile sector through various schemes such as the Production Linked Incentive (PLI) Scheme for Textiles and the National Textile Policy. These initiatives aim to boost manufacturing, exports, and job creation. By 2025, the government plans to enhance the competitiveness of the Indian textile industry, especially in high-value-added segments like technical textiles and apparel.

**Example:** The PLI scheme, which focuses on enhancing the manufacturing of textiles and apparel, is expected to attract large investments, particularly in high-tech fabrics, and create numerous job opportunities.

**Growth in Domestic Market:** The Indian textile industry is not just focusing on exports. Domestic demand for textiles is expected to grow at a steady pace. With the growing middle class, changing fashion trends, and rising disposable incomes, the demand for both traditional and modern textiles will soar. By 2025, the domestic market is expected to contribute significantly to the textile industry's growth.

**Example:** The increasing popularity of fusion wear, combining traditional and contemporary styles, is driving growth in the domestic fashion market. The rise of e-commerce platforms is further expanding the reach of textile brands in India.

## G. RISK

### Financial Risk

The textile industry faces various financial risks, from having lenient payment terms to negotiating weak contracts. You must practice caution to ensure prompt payments for items delivered, which is possible through various strategies, including placing requirements for advanced payments, leveraging invoice factoring, seeking bank guarantees, and insuring trade credit. Furthermore, be sure to evaluate the risk scores of your current and potential customers to minimize the likelihood of non-payment.

### Operational Risk

These risks have a broad scope that covers elements like workers' health and safety, product quality, management externalities, and regulatory compliance. Monitoring factory conditions and work processes can help gauge your overall risk exposure on specific operations and facilitate the necessary improvements.

### Supply Chain Risk

A study by the Institute of Supply Management revealed that about 75 percent of organizations reported supply disruptions since the commencement of the pandemic, and this brought about a renewed focus on supply chain risk mitigation. Maximum purchases are from India, hence not much logistic risk, however there is always risk of delayed supplies from Indian suppliers. The bigger risk is the fluctuating international freight rates and lead times while exporting.

### Industry Risk

With a birds-eye view of the entire industry, you must closely follow trends in trade policies, competitive landscape disruptions, and macroeconomic developments. It's also essential to monitor changes to your controls, especially in today's business environment that experiences quick and frequent adjustments. Staying ahead of these risk factors will help you anticipate market developments and adapt your business strategies accordingly. Textiles is a global industry and hence both supply & demand is impacted by the events across the globe.

### Compliance Risk

To stay ahead of compliance risk, organizations in the textile industry must meticulously understand the regulations governing their sector, evaluate their adherence level with each, identify any control setbacks, and take relevant corrective measures. These steps will prevent the fines and reputational damage resulting from non-compliance.

## H. RISK MANAGEMENT

Company has a well-defined risk management framework in place. Further, it has established procedures to periodically place before the committee and Board, the risk assessment and management measures.

The Company has reworked its dependence on cotton fibre and has shifted more of its fabric and garments to cotton/manmade fibre blends to reduce the risk of its business due to cotton volatility. However, we believe that risk has not subsided yet and we are constantly monitoring the situation.

A significant step taken by the Company has been introduction of credit insurance that apart from reducing bad debt, also give the Company confidence to sell more aggressively in the domestic market on credit. In exports, the Company does not sell anything on unsecured credit.

The continuous use of digitalization in life is also an important signal that the Company needs to connect more digitally with its distributors, retailers, and customers. The Company is continuously working on the same and recognises the importance to embrace technological changes sooner than later.

## Independent Auditors' Report

### To the Members of T T Limited Report on the Audit of the Financial Statements

#### Opinion

We have audited the accompanying financial statements of **T T Limited** ("the Company"), which comprise the Balance Sheet as at 31<sup>st</sup> March, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of changes in Equity and the Statement of Cash Flows for the year then ended, and Notes to Financial Statement including a summary of the material accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended and accounting principles generally accepted in India, of the state of affairs of the Company as at 31<sup>st</sup> March, 2025, its profit (including other comprehensive income), changes in equity and its cash flows for the year then ended.

#### Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

#### Key Audit Matter

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the Key Audit Matters to be communicated in our report.

The key audit matter	How the matter was addressed in our audit
As at 31 <sup>st</sup> March, 2025 the Company, has receivables against claims/Subsidy amounting to Rs.1366 Lacs which is significant to the standalone financial statements. We considered this to be a Key Audit Matter because recognition of accruals/claims and assessment of recoverability of the claims is subject to significant judgment of the Management. The area of judgement includes certainty around the satisfaction of conditions specified in the notifications/policies, collections, provisions thereof, likelihood of variation in the estimation of the related computation rates and the final notification, and basis for determination of accruals/claims.	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>Obtaining an understanding of the process of identification of claims, litigations, arbitrations and contingent liabilities, and internal control relevant to the audit in order to design our audit procedures that are appropriate in the circumstances.</li> <li>Evaluating the management's assessment regarding reasonable certainty for complying with the relevant conditions as specified in the Notifications / policies and collections.</li> <li>Examining the relevant notifications/policies issued by various authorities to ascertain the appropriateness of the recognition of accruals/claims, adjustments to claims already recognised pursuant to changes in the rates and basis for determination of claims.</li> </ul>

	<ul style="list-style-type: none"> <li>• Discussing and analysing material legal cases with the Company's legal department.</li> <li>• Ageing analysis and assessing the information used by the Management to determine the recoverability of the claims by considering historical trends of collection against claims, the level of expected credit loss charged over time, provisions created and reversal thereof in the standalone financial statements. Based on the above procedures performed, the management's estimates related to recognition of subsidy accruals/claim and their recoverability are considered to be reasonable.</li> </ul>

### Management's responsibility for the financial statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of the financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's responsibility

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the **"Annexure A"** a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, based on our audit, we report that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
- d. In our opinion, the aforesaid Financial Statements comply with the Ind AS specified under Section 133 of the Act.
- e. On the basis of the written representations received from the directors as on 31<sup>st</sup> March, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31<sup>st</sup> March, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in **"Annexure B"**. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended,

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position as per Note No.32 of the Financial Statements;
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
  - iv. (a) The Management has represented that, to the best of it's knowledge and belief as disclosed in the Note No. 42(v) to the Financial Statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
  - (b) The Management has represented, that, to the best of it's knowledge and belief as disclosed in the Note No. 42(vi) to the Financial Statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entity (ies) ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) under clause (i) and (ii) of Rule (e) contain any material misstatement.
- v. The Board of Directors has proposed a final dividend for the current financial year ended 31<sup>st</sup> March, 2025, which is subject to approval of members at the ensuing Annual General Meeting. The dividend declared is in accordance will section 123 of the Act to the extent it applies to declaration of Dividend (Refer Note No. 43)
- vi. Based on our examination, which included test checks, the Company has used accounting software for maintaining their books of account, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year in the respective software. Further, during the course of audit, we did not come across any instance of audit trail feature being tampered with and the audit trail has been preserved by the company as per the statutory requirements for record retention(Refer Note No. 42(xi)Maintenance of Audit Trail).

**Annexure A - Referred to in paragraph 1 under the heading "Report on other Legal and Regulatory Requirements" section of our report to the members of T T Limited of even date**

- I. (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (B) The company is maintaining proper records showing full particulars, including quantitative details and situation of Intangible Assets.
- (b) The Property, Plant and Equipment of the Company have been physically verified by the Management at reasonable intervals, which in our opinion, is considered reasonable having regard to the size of the company and the nature of its assets.
- (c) In our opinion and according to information and explanations given to us and on the basis of our examination of the property tax receipts and lease agreement for land on which building is constructed, registered sale deed / transfer deed / conveyance deed provided to us, we report that, the title in respect of self-constructed buildings and title deeds of all other immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in the financial statements included under Property, Plant and Equipment are held in the name of the Company as at the balance sheet date.
- (d) The Company has not revalued its Property, Plant and Equipment during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a registered valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment does not arise.
- (e) No Proceedings have been initiated or are pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act 1988, (45 of 1988) and rules made thereunder.
- II. (a) The inventories have been physically verified by the Management during the year at all its locations, except stock lying with third parties and at erstwhile unit of the company at Gajraula and goods in transit which have been verified, to the extent possible, with reference to correspondence with the third parties. In our opinion, the coverage and procedure of such verification is reasonable. No material discrepancies of 10% or more in the aggregate for each class of inventory were noticed on such physical verification. Inventories lying with third parties have been confirmed by the third parties as at year end and no such material discrepancies were noticed in respect of such confirmations. (Refer Note No : 33)
- (b) During the year, the company has been sanctioned working Capital Limits in excess of Rs. Five crore, in aggregate from Bank or Financial Institutions on the basis of security of Current Assets. According to the information and explanations given to us and on the basis of our examination of the records of the Company the quarterly returns or statements filed by the Company with such Bank or Financial Institutions are in agreement with the books of account of the Company. The differences, if any, are either not material or minor in nature.
- III. During the year the company has not made any investments in, or provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties. Accordingly, the provisions of clause (iii) (a) to (f) of the Order are not applicable to the company.
- IV. In our opinion and according to the information and explanations given to us, there are no loans, investments, guarantees and securities granted during the year in respect of which provisions of section 185 and 186 of the Act, are applicable and hence not commented upon.
- V. The Company has not accepted any deposits from the public within the meaning of directives issued by the Reserve Bank of India and provisions of sections 73 to 76 or any other relevant provisions of the Act and hence the rules framed thereunder are not applicable to the Company.
- VI. We have broadly reviewed the books of accounts maintained by the Company pursuant to the Rules made by the

Central Government for the maintenance of Cost Records under section 148 of the Act, and are of opinion that prima facie, the prescribed accounts and records have been made and maintained, however, we have not made the detailed examination of such cost records.

- VII. (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company is generally regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other statutory dues applicable to it with the appropriate authorities. There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other statutory dues in arrears as at 31<sup>st</sup> March, 2025 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us there are no dues of income tax, duty of customs, value added tax, GST or other applicable material statutory dues which have not been deposited as on 31<sup>st</sup> March, 2025 on account of any dispute.
- VIII. According to the information and explanations given to us and the records of the Company examined by us, the Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961, as income during the year. Accordingly, the requirement to report on clause 3 (viii) of the Order is not applicable to the Company.
- IX. (a) In our opinion and according to information and explanations given to us the Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
- (b) In our opinion and according to information and explanations given to us the Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the term loans were applied for the purpose for which the loans were obtained.
- (d) In our opinion and according to the information and explanations given to us, fund raised on short term basis have prima-facie not been used for long term purposes.
- (e) The company does not have subsidiaries, associates or joint ventures and hence reporting under clause 3(ix) (e) of the Order is not applicable.
- (f) The company does not have subsidiaries, associates or joint ventures and hence reporting on clause 3(ix) (f) of the Order is not applicable.-
- X. (a) The Company has not raised money by way of an initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x) (a) of the Order is not applicable.
- (b) During the year the company has made preferential allotment during the year and, the requirements of section 42 and section 62 of the Companies Act, 2013 have been complied with and the funds raised have been used for the purposes for which the funds were raised.
- XI. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have been informed of any such case by the Management.
- (b) During the year, no report under section 143(12) of the Companies Act, 2013 has been filed in form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) As represented to us by the Management, there are no whistle-blower complaints received by the Company during the year.
- XII. The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable.

- XIII. According to the information and explanations given to us, all transactions with the related parties are in compliance with Section 177 and 188 of the Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- XIV. (a) The Company has an internal audit system commensurate with the size and nature of its business.  
(b) The internal audit reports of the Company issued till the date of the audit report, for the year under audit have been considered by us.
- XV. According to information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with Directors or person connected with them. Accordingly, clause 3 (xv) of the Order is not applicable to the Company.
- XVI. (a) The provisions of section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.  
(b) The Company has not conducted any Non-Banking Financial or Housing Finance activities during the year. Accordingly reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.  
(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.  
(d) The Group does not have any Core investment Company (CIC) as part of the group and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- XVII. The Company has not incurred cash loss in this financial year and the preceding financial year.
- XVIII. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying Financial Statements, our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- XIX. The company does not have any obligation under section 135 of the Companies Act, 2013. Accordingly, reporting under clause 3(xx)(a) and 3(xx)(b) of the Order are not applicable for the year.

**Annexure B - Referred to in paragraph 2(f) under the heading "Report on Other Legal and Regulatory Requirements" section of our report to the Members of T T Limited of even date**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of T T Limited (the Company") as of 31<sup>st</sup> March, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

An audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial control systems over financial reporting.

**Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control system over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of Management and Directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to

future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by ICAI..

## 1. Corporate information

T T Limited ("Company") is a public Company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed with the National Stock Exchange (NSE) and Bombay Stock Exchange (BSE). The registered office of the Company is located on the 2nd Floor, Poddar House, 71/2C, Rama Road, Moti Nagar Delhi-110015. The Company is engaged in primarily one segment consisting of Textile (comprising of yarn manufacturing, Knitting, and cutting and sewing of textiles products).

The financial statements are authorized for issue in accordance with a resolution of the Board of Directors on 21st May 2025.

### Note 1.2: Material accounting policies

This note provides list of the material accounting policies applied in the preparation of these standalone financial statements.

#### 1.2.1 Basis of preparation of Financial Statements

##### i) Compliance with Indian Accounting Standards (Ind AS)

The financial statements of the Company are prepared in accordance with Indian Accounting Standards (Ind AS) under historical cost convention on accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act 2013 (the Act) and guidelines issued by the Securities & Exchange Board of India (SEBI). The Ind AS are prescribed under section 133 of the Act, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter:

##### ii) USE OF ESTIMATES

The preparation of financial statements in conformity with Indian Accounting Standards (Ind AS) requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the reporting period and reported amounts of revenues and expenses during the period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note 2.3.

##### iii) Functional and Presentation Currency

The financial statements are presented in Indian Rupees, which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates. All values are rounded to the nearest Lakhs (INR 00,000) except when otherwise indicated

##### (iv) Historical cost convention

The financial statements are prepared on accrual basis of accounting under historical cost convention in accordance with generally accepted accounting principles in India and the relevant provisions of the Companies Act, 2013 including Indian Accounting Standards notified there under, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

##### (v) Operating Cycle

All assets and liabilities have been classified as current or non-current according to the Company's operating cycle and other criteria set out in the Act. Based on the nature of products and the time

between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current non-current classification of assets and liabilities.

### 1.2.2 Summary of Material Accounting Policies

#### a) Revenue Recognition Sale of Goods

Revenue from sale of goods is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods. The Company assesses promises in the contract that are separate performance obligations to which a portion of transaction price is allocated.

Revenue is measured based on the transaction price as specified in the contract with the customer. It excludes discounts, incentives, volume rebates, goods & services tax and amounts collected on behalf of third parties. In determining the transaction price, the Company considers below, if any:

##### Variable consideration:

This includes discounts, incentives, volume rebates, etc. It is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. It is reassessed at end of each reporting period.

##### Consideration payable to a customer:

Such amounts are accounted as reduction of transaction price and therefore, of revenue unless the payment to the customer is in exchange for a distinct good that the customer transfers to the Company.

Further, in accordance with Ind AS 37, the Company recognises a provision for onerous contract when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received

##### Export benefits

Export benefits arising from Duty Drawback scheme, Merchandise Export Incentive Scheme, ROSL and ROSCTL are recognized on shipment of direct exports.

Revenue from exports benefits measured at the fair value of consideration received or receivable net of returns and allowances, cash discounts, trade discounts and volume rebates.

##### Revenue from rendering of services

Revenue from rendering of services is recognised when the performance obligation to render the services are completed as per contractually agreed terms.

##### Interest income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the amortised cost and at the effective interest rate applicable

#### b) Inventories

- (i) Finished goods and work-in-progress are valued at lower of cost or net realizable value. Cost of inventories comprises of cost of purchase, cost of conversion, depreciation, other overheads to the extent applicable and other costs incurred in bringing them to their respective present location and condition.

By products are valued at net realizable value.

- (ii) Stock in trade: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis
- (iii) Stores and spares: are stated at cost less provision, if any, for obsolescence.
- (iv) Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average cost basis.
- (v) Cost of finished goods, work-in-process and stores, spares and raw material are determined on the basis of weighted average method.
- (vi) Obsolete stocks are identified every year on the basis of technical evaluation and are charged off to revenue.
- (vii) Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

**c) Property, Plant and Equipment**

Property, Plant and Equipment ("PPE") are stated at Historical cost less accumulated depreciation and less accumulated impairment losses, if any. Historical Cost includes its purchase price including import duties, non-refundable taxes (net of CENVAT/GST or any duty credits wherever applicable), after deducting trade discounts and rebates. It includes other costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and the borrowing costs for qualifying assets and the initial estimate of restoration cost if the recognition criteria are met.

Capital work in progress is carried at cost, less any recognised impairment loss. Depreciation of these assets commences when the assets are substantially ready for their intended use. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other non-current Assets"

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of profit and loss

**d) Intangible Assets**

Intangible assets with finite useful life are recognised when the Company controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured.

Intangible assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any.

Intangible assets are amortized on a straight line basis over the estimated useful economic life of 3 to 5 years. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

Intangible assets under development is carried at cost, less any recognised impairment loss. Amortisation of these assets commences when the assets are substantially ready for their intended use.

**e) Expenses Incurred During Construction Period**

Preliminary project expenditure, capital expenditure, indirect expenditure incidental and related to construction / implementation, interest on borrowings to finance fixed assets and expenditure on start-up / commissioning of assets forming part of a composite project are capitalized upto the date of commissioning of the project as the cost of respective assets.

**f) Depreciation**

Based on internal assessment and independent technical evaluation carried out by external valuer, the management believes that the useful lives as given below best represent the period over which management expects to use these assets. The useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Assets description	Years of Useful Life
Building	30-60 Years
Plant and Machinery	22-25 Years
Office Equipment (Includes Computers and data processing units)	5-10 Years
Electrical Installation	5-20 Years
Furniture and Fixtures	15 Years
Vehicle	5-10 Years
Freehold Land	Not Amortised

And depreciation is charged on following basis:-

- Depreciation on All Assets is charged at Straight Line Method basis in the manner as prescribed in Companies Act 2013 and rate as per prescribed useful life above.
- Cost of acquisition and improvement of lease hold land is amortized over the lease period.
- Assets costing upto 5,000 are fully depreciated in the year of purchase.
- Intangible assets are amortized over a period of 3-5 years on a straight line basis.

Estimated useful lives, residual values and depreciation methods are reviewed annually, taking into account commercial and technological obsolescence as well as normal wear and tear and adjusted prospectively, if appropriate

**g) Impairment of assets**

**a) Financial assets**

The Company recognizes loss allowances using the expected credit loss (ECL) model for the Financial assets which are not fair valued through standalone statement of profit and loss. For trade receivables, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables. As a practical expedient, the Company uses a provision matrix to determine impairment loss of its trade receivables. The provision matrix is based on its

historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL loss allowance (or reversal) during the year is recognized in the standalone statement of profit and loss.

**b) Non Financial Assets**

Non-financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

The company has the policy to assess at each reporting date for impairment required for each of its financial and non-financial assets

**h) Foreign Exchange Transactions/Translation**

Company designates certain foreign exchange forward contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the statement of profit and loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the net profit in the statement of profit and loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified to net profit in the statement of profit and loss.

**i) Employee Benefits Expenses and liabilities in respect of employee benefits are recorded in accordance with Indian Accounting Standard 19 – Employee Benefits.**

**(i) Provident Fund**

The Company pays contributions toward provident fund to the regulatory authorities as per local regulations where the Company has no further payment obligations. The contributions are recognised as employee benefit expense when they are due.

The Company makes contribution Employee State Insurance in accordance with Employee State Insurance Act, 1948.

The Company has no obligation, other than the contribution payable to the provident fund.

**(ii) Gratuity and other post-employment benefits**

Gratuity is a post employment benefit and is in the nature of a defined benefit plan. The liability recognised in the balance sheet in respect of gratuity is the present value of the defined benefit/obligation at the balance sheet date less the fair value of plan assets, together with adjustment for unrecognized actuarial gains or losses and past service costs. The defined benefit/obligation is calculated at or near the balance sheet date by an independent actuary using the projected unit credit method.

Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligations recognized in Other Comprehensive Income. The effect of any plan amendments are recognized in net profits in the Statement of Profit and Loss.

(iii) **Other Short Term Benefits**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

j) **Leases**

The Company assesses that the contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (1) The contract involves the use of an identified asset,
- (2) The Company has substantially all of the economic benefits from use of the identified asset,
- (3) The Company has the right to direct the use of the identified asset.

**Company as a lessee**

The Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use asset is depreciated from the commencement date over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments over the lease term. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company adopts the incremental borrowing rate for the entire portfolio of leases as a whole. The lease payments shall include fixed payments, variable lease payments, exercise price of a purchase option and payments of penalties for terminating the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in statement of profit and loss.

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that

are considered to be of low value. The lease payments on short-term leases and leases of low-value assets are recognized as an expense on a straight-line basis over the lease term.

#### **Company as a lessor**

Leases where the Company does not transfer substantially all the risks and rewards incidental to ownership of the asset are classified as operating leases. Lease rentals under operating leases are recognized as income on a straight-line basis over the lease term.

#### **k) Segment Accounting and Reporting**

The Chief Operational Decision Maker monitors the operating results as one single business segment viz. Manufacturing and Sales of Textiles Goods for the purpose of making decisions about resource allocation and performance assessment and hence, there are no additional disclosures to be provided other than those already provided in the financial statements.

#### **l) Taxes on Income**

Income tax expense or credit represents the sum of the current tax and deferred tax.

Current and deferred tax is recognised in the Statement of Profit and Loss except to the extent it relates to items recognised in 'Other comprehensive income' or directly in equity, in which case it is recognised in 'Other comprehensive income' or directly in equity, respectively

##### **Current income tax**

Current tax payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the Statement of profit and loss because some items of income or expense are taxable or deductible in different years or may never be taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority. The Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities

MAT credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

##### **Deferred Tax**

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at reporting date. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilised. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow deferred tax assets to be recovered.

The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

**m) Government grants and subsidies**

Government grants are recognized where there is reasonable assurance that the company will comply with the conditions attaching to them and the grants will be received.

When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed.

Government grants related to assets are treated as deferred income and are recognized in the statement of profit and loss on a systematic and rational basis.

Government grants related to revenue are recognized on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate.

When the company receives grants of non-monetary assets, the asset and the grant are recorded at fair value and recognized in statement of profit and loss on a systematic basis over the useful life of the asset. The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

**n) Borrowing Cost**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Interest bearing loans and borrowings have been restated to amortized cost using effective interest rate method with the discount accreted through the statement of profit and loss.

**o) Provisions, Contingent Liabilities and Contingent Assets**

Provisions are recognized when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

**p) Earning Per Share**

Basic earnings per equity share are computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential

equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

**q) Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity Initial recognition

The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to the fair value on initial recognition.

**Subsequent measurement**

For the purpose of subsequent measurement financial assets is classified in three broad categories:

**A. Non-derivative financial instruments**

(i) Debt instrument carried at amortized cost A debt instrument is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model. Further, in cases where the company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

(iii) Financial assets at fair value through profit or loss

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through statement of profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through statement of profit or loss is recognised in statement of profit or loss in the period in which it arises. Interest income from these financial assets is included in other income.

**iv) De-recognition of financial assets**

A financial asset is derecognised only when:

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred

substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is noted recognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(iv) **Financial liabilities**

i) **Classification**

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

ii) **Measurement**

Financial liabilities are initially recognised at fair value, reduced by transaction costs (in case of financial liability not at fair value through statement of profit or loss), that are directly attributable to the issue of financial liability. After initial recognition, financial liabilities are measured at amortised cost using effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash outflow (including all fees paid, transaction cost, and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through statement of profit and loss.

iii) **Impairment of Financial Assets**

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through statement of profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date is recognized as an impairment gain or loss in statement of profit and loss.

For trade receivables only, the Company applies the simplified approach permitted by IndAS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables. As a practical expedient, the Company uses a provision matrix to determine impairment loss of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL loss allowance (or reversal) during the year is recognized in the statement of profit and loss.

iv) **Derecognition:**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

v) **Trade and other payables**

Trade and other payables represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

**Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

vi) **Investment in Subsidiaries, Associates and Joint Ventures**

Investment in subsidiaries, associates and joint ventures carried at cost in the separate financial statements

vii) **Trade receivables**

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

viii) **Cash and cash equivalents**

Cash and short-term deposits in the statement of financial position comprise cash at banks and on hand and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

B. **Derivative financial instruments**

**Initial recognition and subsequent measurement**

The company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

Financial assets or financial liabilities, at fair value through profit or loss

This category has derivative financial assets or liabilities which are not designated as hedges. Although the company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated a hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

**Cash flow hedge**

The company designates certain foreign exchange forward contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions. When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the statement of profit and loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain

or loss previously recognized in the cash flow hedging reserve is transferred to the net profit in the statement of profit and loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified to net profit in the statement of profit and loss.

#### r) Fair Value Measurement

The Company measures financial instruments such as derivatives and certain investments, at the fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability. Or
- (ii) In the absence of a principal market, in the most advantageous market for the assets or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial assets takes into account a market participant's ability to generate economic benefits by using the assets in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. For the purpose of fair value disclosures, the company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

#### 1.4. Critical accounting estimates and judgments

The preparation of financial statements in conformity with Indian Accounting Standards (Ind AS) requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at the end of the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Critical accounting estimates and Judgments a.

**a. Useful lives of Property, plant and equipment**

Property, plant and equipment represent a significant proportion of the asset base of the company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of property, plant and equipment are determined by the management based on technical assessment by internal team and external advisor. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. The Company believes that the useful life best represents the period over which the Company expects to use these assets.

**b. Contingent liability**

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/ litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

**c. Income taxes**

The calculation of the Company's tax charge necessarily involves a degree of estimation and judgement in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process. The Company reviews at each balance sheet date the carrying amount of Income Tax /deferred tax Liabilities.

**d. Defined benefit plans (gratuity)**

The Company's obligation on account of gratuity is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

**e. Insurance and other Claims**

Insurance claims are recognized when the Company has reasonable certainty of recovery. Subsequently any change in recoverability is provided for.

**f. Impairment of Financial Assets**

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward estimate at the end of each reporting period.

- Debt is defined as long and short-term borrowings (excluding derivative, financial guarantee contracts), as described in notes 14 and 16.
- In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to call loans and borrowings or charge some penal interest. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the current years and previous years.

**37.6 Financial risk management**

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The market risk to the Company is foreign exchange risk and interest rate. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer

The Company's focus is to ensure liquidity which is sufficient to meet the Company's operational requirements. The Company monitors and manages key financial risks so as to minimise potential adverse effects on its financial performance. The Company has a risk management policy which covers the risks associated with the financial assets and liabilities. The details for managing each of these risks are summarised ahead..

**37.7 Market risk**

Market risk is the risk that the expected cash flows or fair value of a financial instrument could change owing to changes in market prices. The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

**37.8 Foreign currency risk management**

Foreign exchange risk is the risk that the fair value of future cash flows of financial instruments will fluctuate because of changes in foreign exchange rate.

The Company derives significant portion of its revenue in foreign currency, exposing it to fluctuations in currency movements. The Company has laid down a foreign exchange risk policy as per which senior management team reviews and manages the foreign exchange risks in a systematic manner, including regular monitoring of exposures, proper advice from market experts, hedging of exposures, etc.

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

Details in respect of the outstanding hedge accounting relationships relating to a firm commitment given below:

(\$ in lakhs)

Particulars	Year ended March 31, 2025	Year ended March 31, 2024
	USD	USD
Firm Commitments-sell	1.01	13.36

The Following significant exchange rates has been applied during the year

Spot Rate ( in INR)	Year ended March 31, 2025	Year ended March 31, 2024
	USD	USD
USD	87.15	82.25

### 37.9 Interest rate risk management

The company is exposed to interest rate risk because it borrows funds at both fixed and floating interest rates. The risk is managed by the company by maintaining an appropriate mix between fixed and floating rate borrowings.

The company's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note..

#### Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the company's:

i) Profit for the year ended 31 March, 2025 would decrease/increase by Rs. 26.92 lacs (31 March, 2024: decrease/increase by Rs. 40.20 lacs). This is mainly attributable to the company's exposure to interest rates on its variable rate borrowings.

### 37.10 Other price risks

The company is not exposed to any instrument which has price risks arising from equity investments which is not material.

### 37.11 Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company's exposure to credit risk primarily arises from trade receivables, balances with banks, investments and security deposits. The credit risk on bank balances is limited because the counterparties are banks with good credit ratings.

#### 37.11.1 Trade Receivables

Trade receivables are derived from revenue earned from customers. Credit risk for trade receivable is managed by the Company through credit approvals, establishing credit limits and periodic monitoring of the creditworthiness of its customers to which the Company grants credit terms in the normal course of business . The Company also assesses the financial reliability of customers taking into account the financial condition, current economic trends and historical bad debts and ageing of accounts receivables. As per simplified approach, the Company uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix takes into account a continuing credit evaluation of Company's customers' financial condition; aging of trade accounts receivable .

### 37.11.2. Investments

The Company limits its exposure to credit risk by generally investing with counterparties that have a good credit rating. The Company has funded defined-benefit gratuity plans. The funded status of these plans are influenced by movements in financial market. A negative performance of the financial markets could have a material impact on cash funding requirements.

### 37.11.3 Cash & cash equivalents

With respect to credit risk arising from financial assets which comprise of cash and cash equivalents, the Company's risk exposure arises from the default of the counterparty, with a maximum exposure equal to the carrying amount of these financial assets at the reporting date. Since the counter party involved is a bank, Company considers the risks of non-performance by the counterparty as non-material.

#### B. Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortised cost and for which fair values

are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard.

An explanation of each level is as follows:-

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

### 37.14 Derivative financial instruments

The Company holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The objective of hedges is to minimize the volatility of INR cash flows of highly probable forecast transaction. The Company's risk management policy is to hedge around 70% to 90% of net exposure with forward exchange contract, having a maturity upto 12 months.

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.
