MANAGEMENT DISCUSSION AND ANALYSIS

Economic overview

➤ Global economy

In CY 2024, the global economy sustained its growth trajectory, recording a growth rate of 3.3%, despite on-going geopolitical tensions, shifting trade dynamics, realignment of supply chains and alterations in monetary policy. In response to these headwinds, governments worldwide prioritized policy reforms and aimed at prioritizing innovation, enhancing supply chain resilience and promoting economic diversification to secure long-term stability. Inflationary pressures eased considerably over the year, with global inflation declining from 6.6% in CY 2023 to 5.7% in CY 2024. This decline was primarily due to effective monetary interventions and greater stability in energy markets, which contributed to price stabilization and supported a broader economic rebound. Emerging Markets and Developing Economies (EMDEs) outpaced advanced economies with a growth rate of 4.3%, compared to 1.8% in the latter. Their strong performance was catalyzed by robust domestic demand, increased Foreign Direct Investment (FDI) and a strategic pivot towards reducing reliance on external trade.

➤ INDIAN TEXTILE INDUSTRY OVER VIEW/INDUSTRY STRUCTURE AND DEVELOPMENTS

India's textiles sector is one of the oldest industries in the Indian economy, dating back to several centuries. The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital-intensive sophisticated mills sector on the other end. The decentralized power looms/ hosiery and knitting sector forms the largest component in the textiles sector. The close linkage of textiles industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles makes it unique in comparison to other industries in the country. India's textiles industry has a capacity to produce wide variety of products suitable for different market segments, both within India and across the world. The textiles sector has witnessed a spurt in investment during the last five years.

Exports have been a core feature of India's textile sector. Exports of both man-made textile and readymade garments have seen a major boost. A major factor behind the robustness of India's textile industry is its strong production base with a wide range of fibres and yarns. India is among the top producers of jute and silk, and beyond its natural fibres such as cotton, jute, silk and wool; and synthetic, its man-made fibres such as polyester, viscose, nylon and acrylic have also created a niche for themselves in the market.

➤ OPPORTUNITIES

Indian government has come up with a number of export promotion policies for the textiles sector. It has also allowed 100 per cent FDI in the sector under the automatic route. The Company is at the growing stage and expanding its business operations. As part of our commitment to increasing production capacity, we intend to expand our product basket and export, grow our value added segment, realign our customer base and achieve operational excellence.

Despite the aforementioned growth initiatives, we acknowledge the existence of certain market challenges, including volatility in cotton prices and the availability of high-quality cotton crops. We also anticipate headwinds in downstream segments, such as home textiles, while demand from the apparels segment continues to recover. The domestic and exports textile markets may remain moderate for some more time. Furthermore, we anticipate that changes in trade policies and fluctuations in foreign exchange rates may impact the prices of imported materials, potentially affecting our competitive position in the global market.

To maintain a sustainable and resilient business, we have adopted several key principles. These principles include cash conversion, in-depth knowledge of the textile market, supply chain resilience, Value added processes, innovation, and a strong focus on customer satisfaction. These principles serve as critical enablers that set us apart from our competitors and contribute to our ability to sustainably grow and prosper in the future.

**ANNEXURE “B” TO THE INDEPENDENT AUDITORS’ REPORT OF
M/s. BHILWARA SPINNERSLIMITED FOR THE YEAR ENDED 31ST MARCH, 2025**

**(Referred to in paragraph 7(2) (f) under “Report on Other Legal and
Regulatory Requirements’ of our report of even date)**

**REPORT ON THE INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING UNDER CLAUSE
(I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (“THE ACT”)**

We have audited the internal financial controls over financial reporting of **BHILWARA SPINNERSLIMITED** (“the Company”) as of 31 March 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable details, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitation of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2025, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control sated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.
