World's first net zero hotel brand of its kind

Aim to achieve net zero certification As part of our ongoing commitment to sustainability, we, to begin with, are committed to make all our hotels carbon- neutral with a long-term objective of achieving a carbon net-zero status.

| Approaches | Drivers | Incentive levers |
|---|--|---|
| Increasing efficiency of equipment and operations | Higher efficiency | <ul style="list-style-type: none"> Lighting Heating, ventilation and air conditioning Training the staff to be involved and responsible Set up internal procedure for energy savings |
| | Build for efficiency | <ul style="list-style-type: none"> Modular construction Better design of buildings Use of efficient raw materials |
| | Guest efficiency | <ul style="list-style-type: none"> Guest engagement programs Collect feedback from guests |
| | New efficiency (i.e. smart technology) | <ul style="list-style-type: none"> Variable frequency drives Boiler/chiller upgrades Occupancy sensors Controlling heating systems Recycling of water and waste Solar water heater panels |
| Increasing the prevalence of renewable energy | On-site renewable | <ul style="list-style-type: none"> Solar panel |
| | Off-site renewable | <ul style="list-style-type: none"> Purchase green electricity from utility grid |
| Increase 'electrification' | Electrifying equipment | <ul style="list-style-type: none"> Electric-driven chillers Electric kitchen Electric cars for staff and guests |
| | Storing electricity | <ul style="list-style-type: none"> Use of batteries for buildings such as Tesla's Powerpack |

Net zero certification

Eco Hotels will achieve net zero certification through 3 main components: construction, operation and travel

| | Carbon Footprint | Mitigation | Reduction | Excess | Excess Mitigation |
|---|------------------|---|---|--|--|
|  | Construction | <ul style="list-style-type: none"> Use of off-site modular buildings technology Use of carbon neutral suppliers | Up to 60%*  | Up to 40%  |  Excess of carbon footprint mitigated through afforestation in India and certified by The Carbon Neutral Company or Climate Partner |
|  | Operation | <ul style="list-style-type: none"> Rooftop solar and wind for sustainable energy SMART green technologies Limited housekeeping cycles Recycling of water and waste Use of carbon neutral suppliers | Up to 50%*  | Up to 50%  | |
|  | Travel | <ul style="list-style-type: none"> Staff encouraged to live close to the property and use bicycles Suppliers encouraged to use green vehicles Electric vehicles to be used for guest transport | Up to 30%*  | Up to 70%  | |
