VINDHYA TELELINKS LIMITED

PRESS RELEASE

New Delhi, 12 November 2025: Vindhya Telelinks Limited (VTL), part of the esteemed MP Birla Group, today announced its financial results for the quarter and half-year ended September 2025, delivering resilient performance amid global upheaval and protectionist measures reshaping trade patterns in volatile macroeconomic and geopolitical environment.

The Company reported a net profit of ₹3,170.70 lakhs for Q2 FY2025-26 and ₹5,260.61 lakhs for H1 FY2025-26, reflecting a growth of 3.02% and 4.36%, respectively, over the same periods of last year. This steady performance underscores VTL's focus on operational efficiency, prudent financial management, and strong execution strategies across its Cable and EPC business segments.

Highlights on Half Yearly Performance - Standalone Financial Results

(₹ in lakhs)

Period	Revenue From Operation	EBIDTA	Finance Cost	Dep.	PBT	PAT
2025-26 H1	185071.35	14,649.61	6825.92	998.61	6825.08	5260.61
2024-25 H1	178606.29	11,969.31	4279.60	1185.19	6504.52	5040.87

Highlights on Quarterly Performance - Standalone Financial Results

(₹ in lakhs)

Period	Revenue From Operation	EBIDTA	Finance Cost	Dep.	PBT	PAT
2025-26 Q2	94910.35	8,212.49	3727.05	484.19	4001.25	3170.70
2024-25 Q2	95266.52	6,872.54	2439.24	580.54	3852.76	3077.74

Cable Segment

The Cable Division sustained its growth trajectory, driven by robust demand for Solar PV Cables, Railway Cables and Speciality Optical Fibre Cables in domestic and overseas market places. EBITDA rose to ₹2,166.94 lakhs in Q2 FY 2025-26 as compared to ₹1,855.44 lakhs in the corresponding quarter of last fiscal year, highlighting efficient cost management and better product mix.

In order to achieve sustained growth and further support its market and customers, the ongoing E-Beam crosslinked Solar PV Cable and other speciality copper cable products capacity expansion project with an outlay of ₹ 5510 lakhs is progressing as per schedule and is likely to be fully operational by the end of financial year 2025-26. Additionally, keeping in view the renewed confidence in speciality optical fibre cable market, the Board of Directors in its Meeting held on 12th November, 2025 has approved the capex of ₹ 3670 lakhs for augmenting the production capacity of speciality optical fibre cables to support emerging demand for comprehensive and reliable solutions in a wide variety of growing verticals which include fibre sensor and factory security and automation, data centre interconnect cabling solutions, etc., to be accomplished by October, 2026. The Company's strong position in high-performance cable solutions reinforces its standing among leading domestic peers and global competitors.

EPC Segment

During Q2 FY2025-26, the EPC Division of VTL recorded revenue of ₹74,622.26 lakhs and EBITDA of ₹6,045.55 lakhs, compared to ₹75,625.72 lakhs and ₹5,017.10 lakhs in the same quarter last year. The segment demonstrated resilience despite temporary funding delays in key government projects, maintaining profitability through disciplined execution and efficient resource allocation. Delays in disbursement under the UP - JJM Project increased working capital requirements, with its receivables standing at ₹84,566 lakhs as of 30 September 2025. The Company remains engaged with state and central government authorities to ensure release of funds against overdue receivables.

VTL is exploring strategic options to optimise value from its IP-1 passive optical fibre cable network, which spans across multiple states and union territories in India. The initiative is aimed at enhancing utilisation and long-term returns from its infrastructure base while enabling broader connectivity access.

With major public infrastructure projects restarting across rural water supply, power distribution, and renewable energy, the EPC segment is well positioned to capture growth in India's latent infra buildout linked demand in the government funded core infrastructure projects in the relevant domains.

Strategic Outlook and Market Context

Global infrastructure and energy markets are undergoing a structural realignment amid geopolitical uncertainties, supply chain localization, and increased investments in renewable and digital infrastructure. India's robust capital expenditure push, combined with incentives under schemes such as PLI and PM Gati Shakti, continues to create strong tailwinds for companies like Vindhya Telelinks that serve both the telecom and power sectors. Peers in the Indian cable and EPC industry have recently highlighted similar trends—rising demand for smart grid connectivity, solar infrastructure, and fiber network expansion. Vindhya Telelinks' diversified portfolio across Telecom, Power, Water, Irrigation, and Solar EPC ensures continued growth visibility even as global raw material price volatility persists.

“Vindhya Telelinks remains steadfast in its long-term vision to support India’s critical infrastructure development through technology-driven, sustainable, and high-quality solutions. As of the end of September, order book of cables and EPC business segments stood at approximately ₹6150 Crores, providing strong revenue visibility and reaffirming the continued confidence of our valued customers. The ongoing strategic investment on capacity augmentation at the Company’s cable facility at Rewa (M.P.) is a testament to our commitment to innovation, modernisation and most importantly our people and communities and we are excited about the continued success.” said Shri Y.S. Lodha, Managing Director & Chief Executive Officer.
