Financial Highlights

Commenting on the results, Mr. Rajesh Doraiswamy, Joint Managing Director, said :

“This financial year started on a tough note, with the COVID-19 pandemic hampering business operations across the country and world. However, in spite of the challenging conditions, I am glad to share that our fourth quarter performance has been in line with our expectations and reflects our continued & sustained recovery from the pandemic-induced slowdown.”

In the fourth quarter of this financial year, we registered a 43.38% Y-o-Y growth in revenue at Rs. 189.69 crores, while EBITDA and PAT were Rs. 16.16 crore and Rs. 6.99 crore, respectively. Strong demand for wire harness product and three phase transformers helped offset the impact of COVID in the initial months of the fiscal year. Despite slow recovery in demand, our revenue grew 6.82% YoY in FY21. Moreover, the fourth quarter performance was good with growth coming in from wire harness product and export markets such as the US. One of the challenges which remains is the input material price increase. The lag between the passing off of input costs to customers has had bearing on the margins.

As the Indian dealer and retail market picks up pace, and domestic as well as international markets gradually recover and business regains momentum, we expect to maintain our growth trajectory with our strong product offerings and brand position in the market.

Overall, we remain committed to our agenda of delivering sustainable growth and are cautiously optimistic about the business performance in the coming quarters. I thank all our stakeholders for their continued support and faith in our Company and wish everyone good health.”
