RNIT – Overview
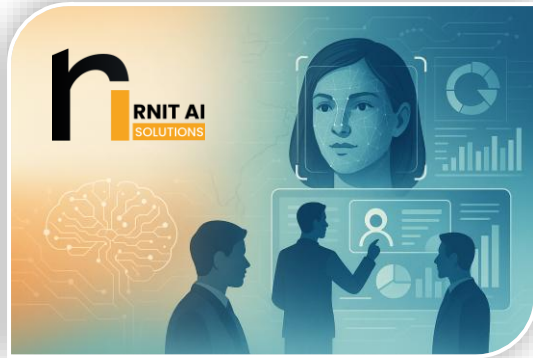

Who we are :

RNIT AI Solutions Limited is fastest-growing Artificial Intelligence (AI) and digital-governance technology enterprise, driving next-generation transformation across government, corporate, and social sectors.

Founded by industry veterans with a vision to bring **accountability through AI**, RNIT has evolved into a national-scale SaaS provider known for large-volume Facial Recognition System (FRS) deployments and AI-enabled workflow automation.

Our Vision

To pioneer seamless integration of AI into real-world governance, education, health, and enterprise ecosystems — empowering organizations with FRS-enabled solutions that deliver accuracy, transparency, and measurable impact.
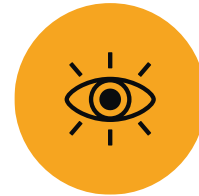

Our Mission

To be the forefront leader in delivering **ethical, innovative, and transformative AI solutions**, taking every challenge as an opportunity to create instant "**RightNow**" outcomes through technology, design, and data intelligence.

RNIT - Overview
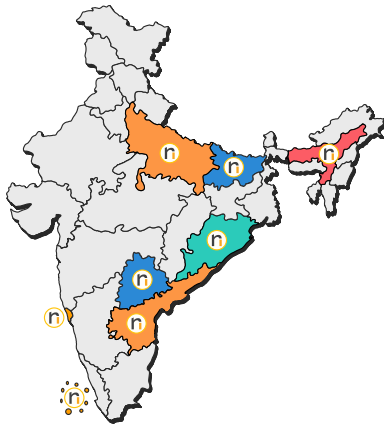

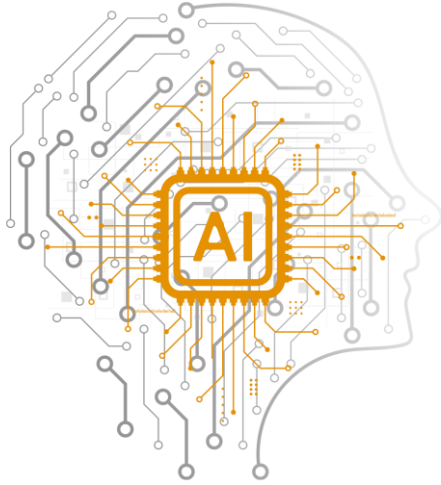

3 Billion+ Facial Identifications
Processed Till Date

Core Competencies

- **Artificial Intelligence & FRS** – AI-driven real-time identity verification, attendance, and analytics.
- **Conversational AI – NIA** – Generative AI-based assistant for learning, interviews, and citizen engagement.
- **Internet of Things (IoT)** – Smart monitoring and accountability systems across critical infrastructure.
- **Data Analytics** – Descriptive, predictive, and prescriptive dashboards enabling informed decision-making.
- **Digital Governance SaaS** – Flagship platforms like *Siksha Setu*, *Naipunyam*, *HealthFRS*, and *APFRS* powering multiple government departments.

National Footprint & Recognition

- 3 Billion + facial verifications processed across India.
- Empanelled with APCFSS, APTS, RailTel, Digital India Corporation, Goa Electronics Ltd (GEL), and TSTS.
- Design and development of award-winning solutions recognized with the **Prime Minister's Award for Excellence under public administration (2024)** and **the National e-Governance Award (2023)**.

Q2 FY 2025-2026 Update...

RNIT AI SOLUTIONS

▶ **Subject: Q2 Achievements FY 2025-2026**

As we conclude Q2 FY 2025-2026, we are pleased to share RNIT's key achievements and continued progress in driving digital transformation across government and private sectors through AI-powered solutions. Our commitment to innovation and excellence remains unwavering as we scale new milestones and expand our footprint

▶ **Revenue Growth**

RNIT achieved a cumulative revenue of **₹19.96 crores** in(FY 2025-26), reflecting strong growth across multiple domains. This success is a testament to our team's dedication and our strategic initiatives. As we move forward, we remain confident in sustaining this momentum through continuous innovation, expansion into new regions, and enhanced AI-driven solutions. These efforts position us strongly for the remainder of the fiscal year and beyond.

▶ **Milestone Achievement**

One of our most significant accomplishments this quarter has been the ongoing **daily processing of over 15 million facial identifications** using advanced AI, with a cumulative total exceeding **3 Billion+ identifications** to date. This highlights RNIT's technological leadership and commitment to empowering government initiatives with cutting-edge AI solutions. These milestones would not have been possible without the relentless dedication of our skilled teams, who continue to push the boundaries of innovation. RNIT continues to demonstrate strong financial resilience and growth, driven by successful AI-based rollouts across multiple states, consistent project expansions, and recurring SaaS-based revenues from its digital governance solutions.

▶ **NCLT Scheme of Amalgamation & BSE Main board Relisting :**

The **NCLT scheme of amalgamation** and the process for **BSE Main Board relisting has been completed**. We remain committed in ensuring greater value for our stakeholders.

We sincerely appreciate your continued trust and support as we advance our journey of innovation and growth.

Our Focused Services

Nia – RNIT AI Solutions' Conversational AI Companion

Nia is RNIT AI Solutions' flagship Generative AI product, built as a versatile conversational assistant that can adapt to multiple roles — from preparing aspirants for interviews with role-based questions and feedback, to acting as a trusted friend, advisor, or analyst. With human-like dialogue capabilities, Nia engages users in natural conversations, providing personalized insights, guidance, and confidence-building interactions across domains.
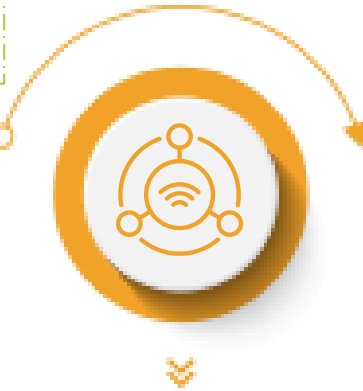

Artificial Intelligence

At RNIT, we are at the forefront of AI innovation, leveraging cutting-edge technology to develop Facial Recognition Systems (FRS) and advanced analytics solutions tailored for diverse clients across various industries. Our AI-driven approach enables us to deliver unparalleled accuracy, efficiency, and insights, empowering organizations to make data-driven decisions and enhance operational performance.

Internet of Things

We are pioneers in IoT solutions, dedicated to bringing accountability and visibility to our clients. Through our innovative IoT technologies, we enable real-time monitoring, tracking, and management of assets, processes, and resources, delivering unparalleled insights and efficiencies. Whether it's enhancing supply chain visibility, optimizing resource utilization, or ensuring regulatory compliance, our tailored IoT solutions empower organizations to streamline operations and drive bottom-line impact

Data Analytics

We specialize in data-driven Descriptive, Predictive & Prescriptive analytics solutions designed to bring accountability and visibility to our clients across diverse industries.
