MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Automotive Market

In year 2017, the total global sales of light vehicles were 95 Million units of which 4 Million units were in the Hybrid & Electric Vehicle category.

Experienced players in automotive domain estimate the total volume to grow to about 115 Million units in the next 10 years and forecast a range of 25%-35% in the Hybrid & Electric Vehicle category.

China has emerged as the largest production & consumption market, contributing to a little over 29 Million light vehicles in 2017. Strong impetus towards Electric vehicles is clearly evident in China.

Automotive Technology & Consumer Trends

Experts have analysed the key directions in technology and consumer trends in the automotive industry as Electro-mobility, Autonomous vehicles, Connectivity, Ride Sharing, while features of fuel-efficiency, emission control, safety & comfort continue to be top performance & functional priorities of Automotive manufacturers.

While Battery Technology & Electric Vehicle Power Train is evolving, strong engineering challenges are driving downsizing of the Internal Combustion Engines (ICE) which are necessitating inclusion of Turbo-chargers & Emission Control units in these Engines.

The new ICE Platforms that are being developed are now being designed to ensure that all elements in the ICE Power-train are capable to withstand wider Thermal Shock, Mechanical Shock & Electromagnetic Interference bandwidths.

Vehicle makers are also taking strong cues from concepts of Ride-sharing, Car-pool, Private-Cabs and are testing vehicles for longer than earlier specified lifecycle of vehicles i.e., if the vehicle was earlier designed for life of 200,000 miles, components are now being tested for a life of twice as much.

Interestingly, the Principle of actuators being used in the ICE Power-train is also extending to the actuators that are used in Hybrid & Electric Vehicles for applications related to cooling of Power-train elements.

Actuators & Motors

Careful assessment of the Engineering trends in actuators due to the afore-mentioned technology trends indicate that the design features of actuators and motors of the past need to be substantially upgraded for vehicles of the future.

Specific characteristics of widening performance bands in thermal, mechanical and electromagnetic requirements are warranting new materials, new components and new concepts in the design of motors and actuators.

Interfacing of various elements of an actuator is gaining increased engineering importance due to the new trends, thereby causing longer validation cycles and project launch timelines.

Market for motors and actuators in TAM segment is growing due to increased usage and improved functionality of turbo-chargers and EGR units with electric actuators. Customer enquiries also indicate that usage of coolant control actuators will steadily increase for various coolant circuits in Electric & Hybrid Vehicles.

Usage of Motors & Actuators for Comfort Applications in body, seat & steering continue to grow and requirements of downsizing, low noise & cost dominate the characteristics in this segment.

(Source : Internal Study)

Actuators which use Electric Motors of our range in TAM & CAM applications are identified in the table below:

Actuators & Motors – TAM (Torque Actuator Motor)

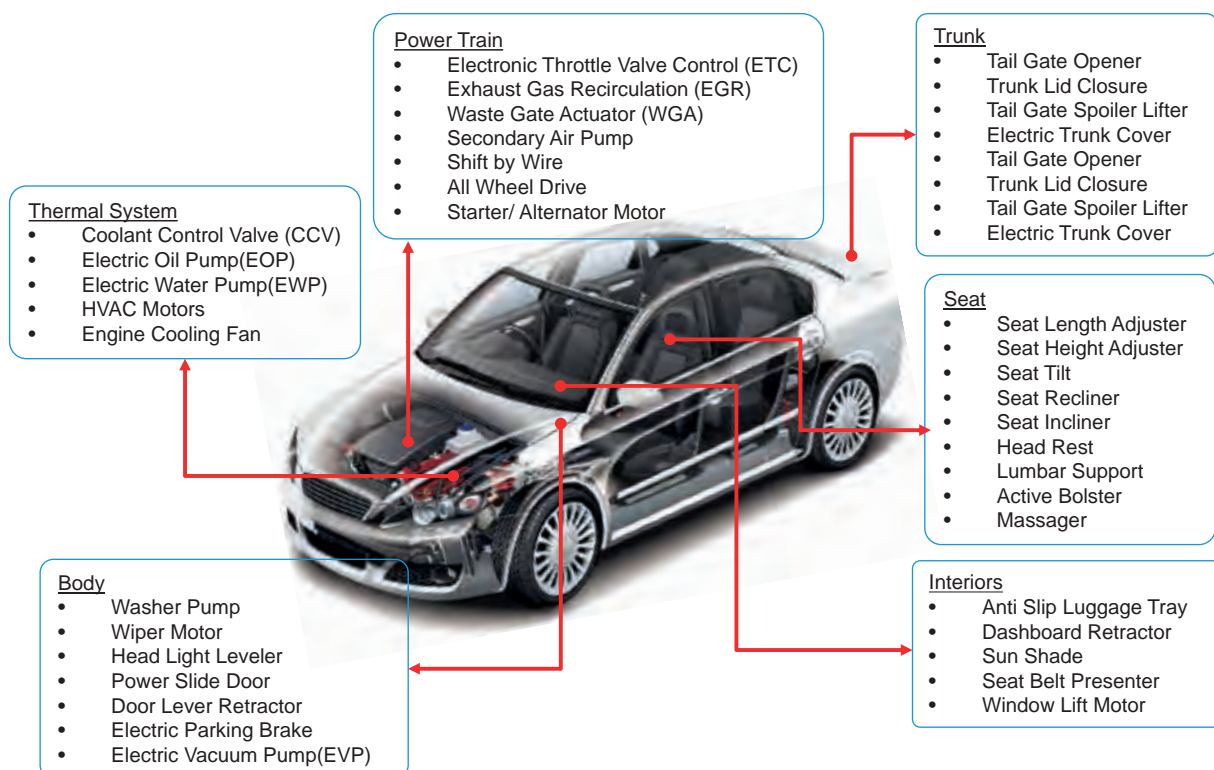

Electronic Throttle Control (ETC)	➔	It precisely controls the amount of air for air-fuel mixture entering into the combustion chamber of the engine for perfect combustion.
Waste Gate Actuator (WGA)	➔	Waste-gate is used to divert exhaust gas away from turbine wheel in a turbocharged engine system.
Exhaust Gas Recirculation (EGR)	➔	It is used in internal combustion engine to reduce the pollutant emissions.
Variable Geometry Turbine (VGT)	➔	It changes effective aspect ratio of the turbo with the changing conditions by controlling the guide vanes to control the flow of exhaust gases to the turbine.
Coolant Control Valve (CCV)	➔	It controls the engine and other temperatures for better engine performance and comfort. Such valves are proliferating into the coolant circuit of EV / HEVs.
Air Intake Flap	➔	It is a small butterfly valve responsible for supplying fuel-air mixture in gasoline engines and air in diesel engine to the combustion cylinder.

Actuators & Motors – CAM (Comfort Actuator Motor)

The table below explains the specific applications of motors in Comfort Applications:

Body	➔	These are the motors that are on the body of the vehicle, e.g., Window regulator, Power Tail Gate, Slide door, Trunk Opening & Closing Device, Sunroof, Door Opener
Seats	➔	These are the motors for various movements in seats of the vehicle, e.g., Adjuster, Recliner, Incliner, Lumbar, Head-rest, Belt presenter, Swive
Steering	➔	These are the motors associated with the steering of the vehicle, e.g., Column Adjuster, Tilt Mechanism

The below application portfolio indicates the opportunity basket for us and our Company is working to progressively introduce more applications to our current product portfolio, selected carefully, keeping in mind Strategic and Technical considerations.

Learnings during the year

The Company encountered a few head-winds during the year which have been significant learning experiences to factor in our future business directions.

The technical challenges posed in the new applications and new program launches delayed the launch of new program volumes by 6~9 months and we expect these new launches to take off in the forward periods.

Downsizing, withstanding wider Thermal Shock Bandwidth, withstanding wider Mechanical Shock bandwidth, Superior class of Electromagnetic Noise suppression, Longer life, Lower Mechanical Noise, lower energy consumption are specific requirements where substantial Engineering time has been spent in the last year.

The validation requirements and the timelines have also become more stringent with longer duration. Close collaboration with OEM's and Tier -1 customers over the past periods are certainly helping us to gain a knowledge edge for the new requirements, albeit, the launches are taking more time than planned.

A shift in the product mix in American markets and some corrections in the inventory pipeline reduced the offtake in the US market in the second half of the year.

The appreciation of the rupee compared to the previous year also contributed to reduction in the revenue, coupled with the aforementioned two matters.

We expect the above challenges to turn favourable during the coming years, thereby allowing us to post good growth in volumes.

The experiences of the recent years have driven the Company to include strategic alliances, lateral inclusion of businesses and pursuits in new technology products like BLDC for future business growth.

Brushless DC Motors – BLDC:

In the last year, our technology group has explored key relevant opportunities in the Brushless DC Motor space. The main drivers for these technology endeavours are to fall in line with future trends requiring down-sizing, low energy consumption, long life and low noise in the applications in both automotive and other than automotive sectors.

Extensive usage of BLDC motors are seen in the appliance segment, office equipment, computers, telecommunication and automotive segments.

Our initial development focus is in carefully chosen applications where the integration of the electromagnetic design of the motor with the electronic driver and controller module can be understood and built for validating in applications with large volumes. In addition, the engineering focus is to realize the future trends mentioned above, with a commercial advantage.

Specific knowledge in Design & reliability of electronics in drivers & controllers is a continuous process and our technology team has taken significant strides in developing know-how in-house as well with international partners. Products for select applications will be launched in the coming year.

While cost of Electronics has been a barrier for industry to adopt BLDC, with our large volumes of motors and Technology partnerships, we are on the way to build cost effective engineering solutions.

Directionally, an aim has been set to reach a business enquiry level of 25%-30% comprising of BLDC motors in our product mix over the next 3 years.

Nil Spill

The Nil Spill quality initiative launched 2 years ago has progressed significantly with considerable improvements seen both internally & externally.

Company-wide teams have been formed to include the design/development and program management functions along with core manufacturing to institutionalize Nil Spill across various functions in the organization.

Specific indices to measure the improvements at each stage of each function have evolved and we plan to address the continuing quality improvement requirements of customers effectively through the company-wide Nil Spill initiatives to address both occurrence and detection of Spills across all operational areas.

Manufacturing Technology

As technology and employee skill levels have been increasing, the trend in our manufacturing is shifting from manual to semi-automatic lines progressively.

There has been a continuous upgrade in manufacturing technology, as there is a need to move towards higher levels of automation for both quality & productivity reasons, in addition to the specific requirements of customers to build products with lower manual intervention.

Following this, Our Company has started the Process Engineering Inflexion for Smart Manufacturing (PRISM) program for continuously improving manufacturing technology.

Our Manufacturing team has identified specific areas across manufacturing lines in the company and launched initiatives for Stage automation, Cluster Automation & Production Line Automation.

A systematic and well planned implementation program has been put in place and positive results in quality, productivity and capacity enhancement are expected in the coming years.

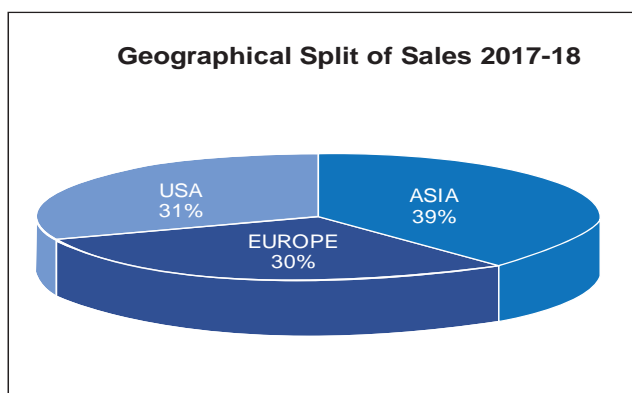

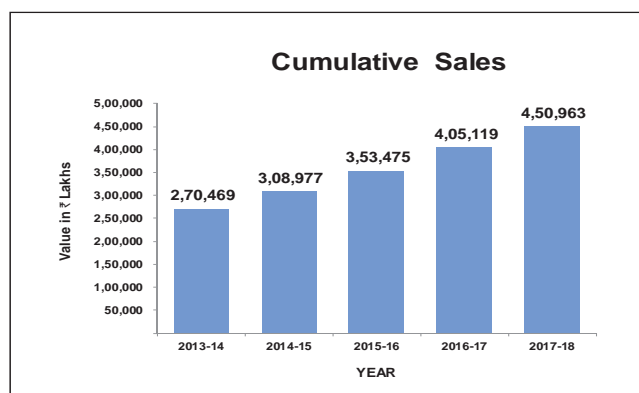

New Infrastructure

Your Company has used the plots taken on lease inside MEPZ-SEZ during last financial year and the current financial year for installing new manufacturing lines and logistic warehouses including canteen area with total new plot area of 1,46,497 sq ft.

With construction during the year on these newly acquired sites, the new plot's built up area is at 1,52,783 sq ft.

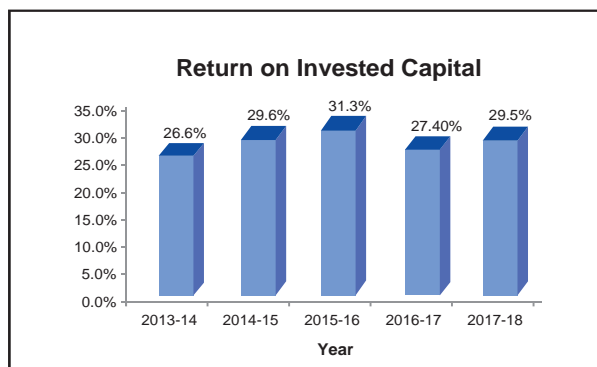

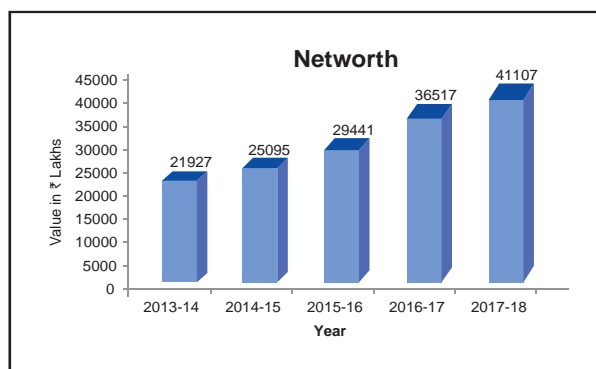

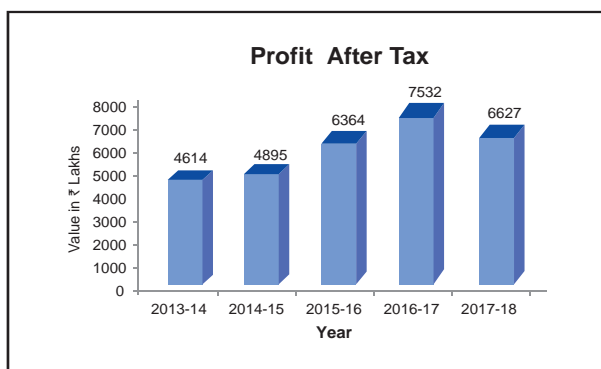

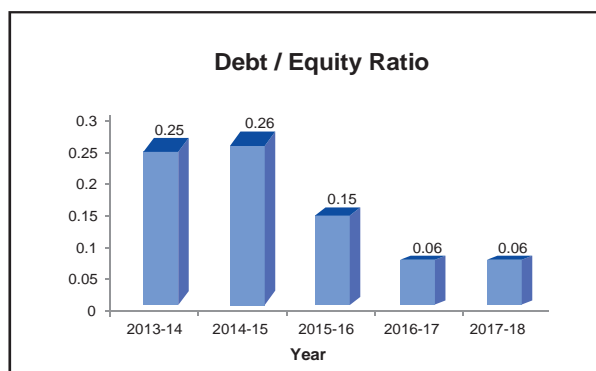

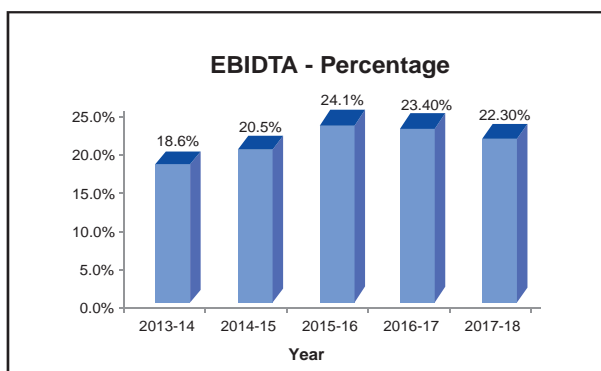

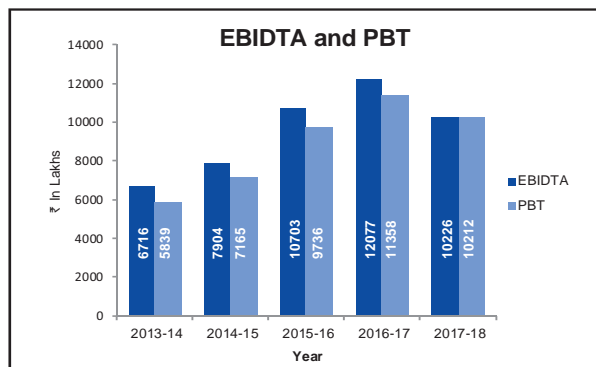

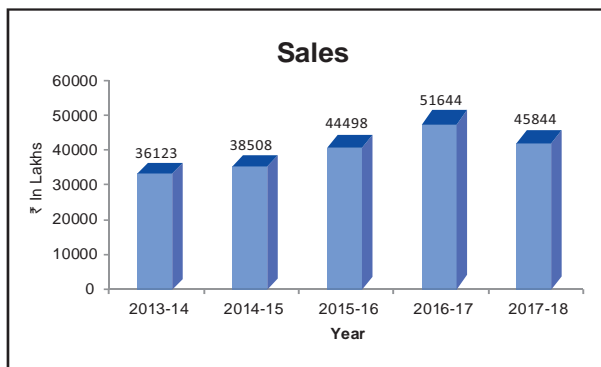

With the above, the Company's overall plot area has increased to 3,70,133 sq ft, enabling our Company to continuously add capacity every year for the customer program launches in the future periods.

PERFORMANCE 2017-18

In the Year 2017-18, the Company sales volumes were 19.5 Million Motors.

PAST 5 YEARS PERFORMANCE

Figures for the financial years beginning from FY 2016-17 are in line with Ind AS

RISKS & CONCERNS

Your Company has formulated a Risk Management Policy which will guide the Risk Management Committee and the Internal Risk Management team to effectively manage the risks that the business faces. The key risks that the business faces are enumerated as follows:

Raw Material Prices & Foreign Exchange Rates: Any significant increase in steel/copper scrap prices/ appreciation of the Indian rupee could be detrimental especially due to long term contracts signed in exports which makes it difficult to obtain price increases from customers to compensate raw material price increases / foreign exchange movements.

Quality Risk: Spiking demand in quality requirements across APQP pipeline and series from the customer end have led to risk of quality spills. The quality standards have ascended in units from a few PPM to a few PPB.

Insurance Risk: The product liability insurances taken against warranty claims provide only limited coverage of the actual exposure and hence some part of the exposure's liability continues to remain with the manufacturer and this could impact the business as the quality standards are becoming further stringent in the automotive industry.

Geo-Political risks/ Economic Slowdowns: 9/11 tragedy and the 2008-09 economic slowdown led to significant postponement of planned roll-outs by automobile manufacturers which in turn had a cascading effect on component makers who had already made significant capital investments for the projected business. Thus, any future event of this scale can adversely impact the industry and other fundamentals.

Probable Substitutes in the Future: Brushless DC Motors and Nano-technology are possible substitutes for the Brushed DC Motor. The brushless motors is presently costing 3~5 times the traditional motors with brushes. A brushless motor is being used when high reliability, long life and high speeds are required. Hence it is used only in those applications where sophisticated control of the motor's operation is required. Nanotech is still in the nascent stage of the technology adoption cycle & is not strong enough for major tasks such as powering windows and seats. Trend in Technology movement of Motors is also being studied carefully and a visible trend of growth in Brushless DC Motors is observed. We are launching Pilot programs in this space to be prepared for the future.

Pricing Pressures: Your Company is being exposed to downward price pressures from Global Tier-1 customers due to typical characteristic of Global Automotive Industry. Your Company has taken various steps including technology intervention in both production and process development, reducing operating costs, sourcing improvements, customer negotiations and other actions to offset customer price reduction

Logistic Risk: Your company being exporter of motors to locations all over the World, it is continuously exposed to Supply Chain risks such as shipment delivery due to usage of sea freight for most of the deliveries.

Cyber Security Risk: Your company is exposed to security risk includes both cyber security and physical security. Your Company has established adequate measures for protecting networks, computers, programs and data from attack, damage or un-authorized access. Also carrying out Cyber Security Threat audits by external Experts at regular intervals. In respect of physical security, we have established surveillance cameras and access control systems.

SEGMENT WISE/ PRODUCT WISE PERFORMANCE

Your Company is engaged in the business of auto components for automobiles. This is only one segment, hence there is no segment wise reporting.

INTERNAL CONTROL SYSTEMS & ADEQUACY

Your Company has an adequate system of internal controls to ensure that transactions are properly authorised, recorded and reported, apart from safeguarding its assets. The internal control system is supplemented by well documented policies and procedures and reviews carried out by the Company's Internal Auditor which submits reports periodically to the Management and the Audit Committee of the Board.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES

Your Company recognizes importance of leadership, technical and behavioural development for employees across the Company. Your Company has launched continuous improvement & training programs aimed for increasing knowledge level of employees and offer rewards to those employees who performed well in such programs. Apart from this, your Company has devised training plans and executed for each employee based on their skills, roles and aspirations.

Your Company has total employee strength of 604 out of which majority are women employees.

Pursuant to the requirements of the above mentioned Listing Regulations, our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

We conducted our examination of the corporate governance compliance by the Company in accordance with the Guidance Note on Reports or Certificates for Special purposes, Guidance Note on Certification of Corporate Governance, both issued by the Institute of Chartered Accountants of India ("ICAI") and the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013, in so far as applicable for the purpose of this certificate. The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the Regulations 17 to 27, clause (b) to (i) of Regulation 46(2) and paragraph C, D and E of Schedule V of the Listing Regulations, as applicable.

We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

Restriction on Use

This Certificate has been solely issued for the purpose of complying with the aforesaid Regulations and may not be suitable for any other purpose. Accordingly, we do not accept or assume any liability or duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

INDEPENDENT AUDITOR'S REPORT

To the Members of Igarashi Motors India Limited

Report on the Audit of the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Igarashi Motors India Limited** ("the Company"), which comprise the Balance Sheet as at 31 March 2018, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the Ind AS financial statements").

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the state of affairs, profit/loss (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

INDEPENDENT AUDITOR'S REPORT

To the Members of Igarashi Motors India Limited (continued)

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the Auditor's Report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the Auditor's Report. However, future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at 31 March 2018, its profit (including other comprehensive income), its changes in equity and its cash flows for the year ended on that date.

Other matters

The comparative financial information of the Company for the year ended 31 March 2017 and the transition date opening balance sheet as at 1 April 2016 included in these Ind AS financial statements, are based on the previously issued statutory financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2006 audited by the predecessor Auditor whose report for the year ended 31 March 2017 and 31 March 2016 dated 11 May 2017 and 19 May 2016 respectively expressed an unmodified opinion on those financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss, Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.

INDEPENDENT AUDITOR'S REPORT

To the Members of Igarashi Motors India Limited (continued)

- (e) On the basis of written representations received from the directors as on 31 March 2018, taken on record by the board of directors, none of the Directors is disqualified as on 31 March 2018 from being appointed as a director in terms of section 164(2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to Ind AS financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B".
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements; - Refer Note 37 to the Ind AS financial statements.
 - ii The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long term contracts including derivative contracts.
 - iii There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv The disclosures in the Ind AS financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made since they do not pertain to the financial year ended 31 March 2018. However amounts as appearing in the audited financial statements for the period ended 31 March 2017 have been disclosed.

Annexure A to the Independent Auditor's Report on the Ind AS financial statements of Igarashi Motors India Limited as of and for the year ended 31 March 2018
(referred to in our report of even date)

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, certain fixed assets were verified during the year and no material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and based on the examination of records produced by the Company, the title deeds of the immoveable properties included in fixed assets is in the name of the Company.
- (ii) Inventories apart from goods in transit and inventories lying with outside parties have been physically verified by the Management during the year and the discrepancies noticed on such verification between the physical stock and book records were not material. In our opinion, the frequency of such verification is reasonable. For major portion of the inventories lying with outside parties at the year-end, written confirmations have been obtained by the Company and no material discrepancies were noticed in respect of such confirmations.
- (iii) According to the information and explanations given to us, the Company has not granted any loan, secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register required under section 189 of the Act. Accordingly, paragraph 3(iii) of the Order is not applicable.
- (iv) According to the information and explanations given to us, the Company has complied with the provisions of Section 186 of the Act, with respect to the investments made. The Company has not granted any loans or provided any guarantee or security to the parties covered under Section 185 and 186 of the Act. Accordingly, to that extent paragraph 3(iv) of the Order is not applicable.
- (v) According to the information and explanations given to us, the Company has not accepted any deposits from the public within the meaning of the directives issued by the Reserve Bank of India, provisions of Section 73 to 76 of the Act, any other relevant provisions of the Act and the relevant rules framed thereunder. Accordingly, paragraph 3(v) of the Order is not applicable.
- (vi) We have broadly reviewed the books of accounts maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014 as amended, prescribed by the Central Government under Section 148 of the Act and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However we have not made a detailed examination of such records.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/accrued in the books of account in respect of undisputed statutory dues including provident fund, income-tax, duty of customs, employees' state insurance and other material statutory dues have generally been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of sales tax, service tax, value added tax, duty of excise and cess.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, income-tax, duty of customs, employees' state insurance and other material statutory dues were in arrears as at 31 March 2018 for a period of more than six months from the date they became payable.

Annexure A to the Independent Auditor's Report on the Ind AS financial statements of Igarashi Motors India Limited as of and for the year ended 31 March 2018 (continued)
(referred to in our report of even date)

- (b) According to the information and explanations given to us, there are no dues of income tax, sales tax, value added tax, duty of excise, duty of customs and service tax which have not been deposited with the appropriate authorities on account of any disputes other than the following dues:

Name of the Statute	Nature of the Dues	Amount (₹ in lakhs)	Amount paid under protest (₹ in lakhs)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax	16.61	10.00	2011-12	Commissioner of Income Tax (Appeals)
Income Tax Act, 1961	Income Tax	12.18	-	2012-13	Commissioner of Income Tax (Appeals)

- (viii) According to the information and explanations given to us, the Company has not defaulted in repayment of dues to its banks and financial institutions. The Company has not taken any loans or borrowings from government and has not issued any debentures.
- (ix) According to the information and explanations given to us, money raised by way of term loans / buyers credit were applied for the purposes for which those are raised. The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year.
- (x) According to the information and explanations given to us, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year.
- (xi) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has paid / provided for managerial remuneration in accordance with the requisite approvals as per provision of Section 197 read with Schedule V to the Act.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable.
- (xiii) According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Act, where applicable and details of such transactions have been disclosed in the Ind AS financial statements as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3(xiv) of the Order is not applicable.
- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable.
- (xvi) According to the information and explanations given to us and based on our examination of the records of the Company, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934.

Annexure B to the Independent Auditor's Report on the Ind AS financial statements of Igarashi Motors India Limited as of and for the year ended 31 March 2018
(referred to in our report of even date)

Report on the Internal Financial Controls with reference to Ind AS financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to Ind AS financial statements of Igarashi Motors India Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to Ind AS financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the standards on auditing, issued by ICAI and deemed to be prescribed under section 143(10) the Act, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls with reference to Ind AS financial statements included obtaining an understanding of internal financial controls with reference to Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Ind AS financial statements.

Meaning of Internal Financial Controls with reference to Ind AS financial statements

A company's internal financial control with reference to Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Annexure B to the Independent Auditor's Report on the Ind AS financial statements of Igarashi Motors India Limited as of and for the year ended 31 March 2018 (Continued)
(referred to in our report of even date)

Inherent Limitations of Internal Financial Controls with reference to Ind AS financial statements

Because of the inherent limitations of internal financial controls with reference to Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Ind AS financial statements to future periods are subject to the risk that the internal financial control with reference to Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to Ind AS financial statements and such internal financial controls with reference to Ind AS financial statements were operating effectively as at 31 March 2018, based on the internal control with reference to Ind AS financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

1. Background

Igarashi Motors India Limited ('IMIL' / 'Company') is primarily engaged in the manufacture of micro motors and its accessories mainly for automotive sector. The Company is a public limited company incorporated and domiciled in India and has its registered office in Chennai, Tamil Nadu, India. The Company's shares are listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE) in India.

2. Basis of preparation

2.1 Statement of compliance

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The financial statements upto and for the year ended 31 March 2017 were prepared in accordance with the Companies (Accounting Standards) Rules, 2006, notified under Section 133 of the Act and other relevant provisions of the Act.

As these are the Company's first financial statements prepared in accordance with Indian Accounting Standards (Ind AS), Ind AS 101, *First time adoption of Indian Accounting Standards* has been applied. An explanation of how the transition to Ind AS has affected the previously reported financial position, financial performance and cash flows of the Company is provided in Note 43.

These financial statements were authorised for issue by the Company's Board of Directors on 22 May 2018. Details of the Company's accounting policies are included in Note 3.

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise stated.

2.3 Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
- Certain financial assets and liabilities (including derivative instruments)	Fair value
- Net defined benefit assets/(liability)	Fair value of plan assets, less present value of defined benefit obligations

2.4 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

Judgements

Information about judgements in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

- Note 35 – fair valuation of financial assets

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ended 31 March 2019 is included in the following notes:

- Note 21 – measurement of defined benefit obligations: key actuarial assumptions

2.5 Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The Company regularly reviews significant unobservable inputs and valuation adjustments. If third party information, is used to measure fair values, then the Company assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair values of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfer between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in Note 35 – financial instruments.

3 Significant accounting policies

3.1 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company, at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in profit or loss except exchange differences arising from translation on qualifying cash flow hedges to the extent that the hedges are effective, which are recognised in Other Comprehensive Income.

3.2 Financial instruments

i. Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortised cost;
- Fair value through other comprehensive income (FVOCI) - equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment- by- investment basis.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss. However, refer Note 3.2 (v) for derivatives designated as hedging instruments.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to statement of profit and loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

iii. Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

v. Derivative financial instruments and hedge accounting

The Company holds derivative financial instruments to hedge its foreign currency exposures. Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met.

Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in statement of profit and loss.

The Company designates certain derivatives as hedging instruments to hedge the variability in cash flows associated with highly probable forecast transactions arising from changes in foreign exchange rates.

At inception of designated hedging relationships, the Company documents the risk management objective and strategy for undertaking the hedge. The Company also documents the economic relationship between the hedged item and the hedging instrument, including whether the changes in cash flows of the hedged item and hedging instrument are expected to offset each other.

Cash flow hedges

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in OCI and accumulated in other equity under 'effective portion of cash flow hedges'. The effective portion of changes in the fair value of the derivative that is recognised in OCI is limited to the cumulative change in fair value of the hedged item, determined on a present value basis, from inception of the hedge. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in statement of profit and loss.

If a hedge no longer meets the criteria for hedge accounting or the hedging instrument is sold, expires, is terminated or is exercised, then hedge accounting is discontinued prospectively. When hedge accounting for cash flow hedges is discontinued, the amount that has been accumulated in other equity remains there until, for a hedge of a transaction resulting in recognition of a non-financial item, it is included in the non-financial item's cost on its initial recognition or, for other cash flow hedges, it is reclassified to profit and loss in the same period or periods as the hedged expected future cash flows affect profit and loss.

If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified to statement of profit and loss.

vi. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

Cash dividend to equity holders

The Company recognises a liability to make cash to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity. Interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

3.3 Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated cost of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016, measured as per the previous GAAP and use that carrying value as the deemed cost of such property, plant and equipment (see note 43).

iii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iv. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method, and is generally recognised in the statement of profit and loss.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset	Management estimate of useful life	Useful life as per Schedule II
Building	30 - 60 years	30 - 60 years
Plant and equipment (including Electrical installation and Lab equipment)	3 - 15 years	15 years
Office equipments	5 years	5 years
Furniture and fixtures	5 - 10 years	10 years
Vehicles	8 years	8 years

Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

3.4 Intangible assets

i. Recognition and measurement

Intangible assets including those acquired by the Company are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortization and any accumulated impairment losses.

ii. Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016, measured as per the previous GAAP and use that carrying value as the deemed cost of such property, plant and equipment (see note 43).

iii. Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

iv. Amortization

Amortization is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight-line method, and is included in depreciation and amortization in Statement of Profit and Loss.

The estimated useful lives are as follows:

Asset	Management estimate of useful life
Product design expenses	6 years
Software	6 years

Amortization method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

3.5 Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the weighted average formula, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work-in-progress, cost includes an appropriate share of fixed production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products.

Raw materials, components and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

The comparison of cost and net realisable value is made on an item-by-item basis.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

3.6 Impairment

i. Impairment of financial instruments

In accordance with Ind AS 109, the Company applies Expected Credit Loss ("ECL") model for measurement and recognition of impairment loss on financial assets measured at amortised cost.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime expected credit losses. For all other financial assets, ECL are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

Loss allowance for financial assets measured at amortised cost are deducted from gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

ii. Impairment of non-financial assets

The Company assess at each reporting date whether there is any indication that the carrying amount may not be recoverable. If any such indication exists, then the asset's recoverable amount is estimated and an impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount in the statement of profit and loss.

The Company's non-financial assets, inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or groups of CGUs) on a pro rata basis.

An impairment loss in respect of goodwill is not subsequently reversed. In respect of other assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

3.7 Employee benefits

i. Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

ii. Gratuity

The Company provides for gratuity, a defined benefit plan ("the Gratuity Plan") covering the eligible employees of the Company. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of the employment with the Company.

Liability with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method. The defined benefit plan is administered by a trust formed for this purpose through the Company gratuity scheme.

The Company recognises the net obligation of a defined benefit plan as a liability in its balance sheet. Gains or losses through re-measurement of the net defined benefit liability are recognised in other comprehensive income and are not reclassified to profit and loss in the subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognised in other comprehensive income. When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

iii. Provident fund

Eligible employees of the Company receive benefits from provident fund, which is a defined contribution plan. Both the eligible employees and the Company make monthly contributions to the Government administered provident fund scheme equal to a specified percentage of the eligible employee's salary. Amounts collected under the provident fund plan are deposited with in a government administered provident fund. The Company has no further obligation to the plan beyond its monthly contributions.

iv. Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet date using the projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

v. Share-based compensation

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date.

3.8 Provisions (other than for employee benefits)

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

3.9 Revenue recognition

i. Sale of goods

Revenue is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimate reliably, there is no continuing management involvement with the goods and the amount of revenue can be measured reliably. The timing of transfers of risks and rewards varies depending on the individual terms of sale. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns, goods and service tax and applicable trade discounts and allowances.

ii. Government grants

The Company recognises government grants only when there is reasonable assurance that the conditions attached to them will be complied with, and the grants will be received.

3.10 Leases

i. Assets held under leases

Leases of property, plant and equipment that transfer to the Company substantially all the risks and rewards of ownership are classified as finance leases. The leased assets are measured initially at an amount equal to the lower of their fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the assets are accounted for in accordance with the accounting policy applicable to similar owned assets.

Assets held under leases that do not transfer to the Company substantially all the risks and rewards of ownership (i.e. operating leases) are not recognised in the Company's Balance Sheet.

ii. Lease payments

Payments made under operating leases are generally recognised in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. Lease incentives received are recognised as an integral part of the total lease expense over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

3.11 Recognition of dividend income, interest income or expense

Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established.

Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortized cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortized cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

3.12 Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

3.13 Borrowing cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

3.14 Earnings per share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period adjusted for treasury shares held. Diluted earnings per share is computed using the weighted-average number of equity and dilutive equivalent shares outstanding during the period, using the treasury stock method for options and warrants, except where the results would be anti-dilutive.

4 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2018 has notified the following new standard and amendments to existing Ind AS standards which the Company has not applied as they are effective for annual periods beginning on or after 1 April 2018:

New Standard

Ind AS 115 – Revenue from Contracts with Customers

Ind AS 115, establishes a comprehensive framework for determining whether, how much and when revenue should be recognised. It replaces existing revenue recognition guidance, including Ind AS 18 Revenue, Ind AS 11 Construction Contracts and Guidance Note on Accounting for Real Estate Transactions. Ind AS 115 is effective for annual periods beginning on or after 1 April 2018 and will be applied accordingly.

Under Ind AS 115, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

The Company plans to apply Ind AS 115 using the cumulative effect method, with the effect of initially applying this standard recognised at the date of initial application (i.e. 1 April 2018) in retained earnings. As a result, the Company will not present relevant individual line items appearing under comparative period presentation.

The Company is in the process of assessing the potential impact of the adoption of Ind AS 115 on accounting policies followed in its financial statements. Accordingly, the quantitative impact of adoption of Ind AS 115 on the financial statements in the period of initial application is not reasonably estimable as at present.

Amendments to the existing standards

Ind AS 21 – The effect of changes in Foreign Exchange rates

The amendment clarifies on the accounting of transactions that include the receipt or payment of advance consideration in a foreign currency. The Appendix B inserted in Ind AS 21 as an amendment explains that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset or deferred income liability. If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt. The Company has evaluated the effect of this on the financial statements and the impact is expected to be insignificant.

For details about the related employee benefit expenses, see Note 30

The Company operates the following post-employment defined benefit plans:

The Company has a defined benefit gratuity plan in India (the Plan), governed by the Payment of Gratuity Act, 1972. The Plan entitles an employee, who has rendered at least five years of continuous service, to gratuity at the rate of fifteen days wages for every completed year of service or part thereof in excess of six months, based on the rate of wages last drawn by the employee at the time of retirement, death or termination of employment. Liabilities for the same are determined through an actuarial valuation as at the reporting dates using the "projected unit cost method".

These defined benefit plans expose the Company to actuarial risks, such as longevity risk, interest rate risk and market (investment) risk.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

The Company provides the gratuity benefit through annual contribution to Life Insurance Corporation of India (LIC)

Actuarial (gain) loss on defined benefit obligations	47.66	26.95
Return on plan assets excluding interest income	(1.95)	(1.94)
	45.71	25.01

D. Defined benefit obligation

i. Actuarial assumptions

Principal actuarial assumptions at the reporting date (expressed as weighted averages):

Particulars	As at 31 March 2018	As at 31 March 2017	As at 1 April 2016
Discount rate	7.80%	7.00%	7.75%
Return on plan assets	8.00%	8.00%	8.35%
Future salary growth	8.00%	8.00%	8.00%
Attrition rate	10%	1% - 3%	1% - 3%

ii. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

	As at 31 March 2018		As at 31 March 2017	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	(25.81)	29.56	(30.91)	38.24
Future salary growth (1% movement)	26.94	23.94	32.71	(28.12)
Attrition rate (50% of attrition rates movement)	(2.62)	4.86	(2.71)	3.13

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown

25 Operating segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by the Company's Managing Director (MD) to make decisions about resources to be allocated to the segments and assess their performance.

The Company is engaged in only one business namely manufacture of micro motors and its accessories mainly for the automotive sector. The entity's chief operating decision maker considers the Company as a whole to make decisions about resources to be allocated to the segment and assess its performance. Accordingly, the Company does not have multiple segments and these financial statements are reflective of the information required by the Ind AS 108 for micro motors segment. The Company's operations are entirely domiciled in India and as such all its non-current assets are located in India.

A. Geographic information :

The geographic information analyses the Company's revenue by the Company's country of domicile and other countries. In presenting the geographical information, segment revenue has been determined based on the geographic location of the customers.

C. Measurement of fair values

i. Valuation techniques and significant unobservable inputs

The following table shows the valuation techniques used in measuring Level 2 and Level 3 fair values for financial instruments measured at fair value in the balance sheet, as well as the significant unobservable inputs used. Related valuation process are described in Note 2.5

Type	Valuation technique used	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Investments in unquoted equity shares	Income approach – in this approach, the discounted cash flow method was used to capture the present value of the expected future economic benefits to be derived from the ownership of these equity instruments.	- Forecast annual revenue growth rate (31 March 2018: 4 - 15%; 31 March 2017: 4 - 15%). - Forecast EBITDA margin (31 March 2018: 7 - 12%; 31 March 2017: 7 - 12%). - Risk adjusted discount rate (31 March 2018: 13.42%; 31 March 2017: 12.01%)	The estimated fair value would increase (decrease) if: - the annual revenue growth rate were higher (lower); - the EBITDA margin were higher (lower); or - the adjusted market multiple were higher (lower). Generally, a change in the annual revenue growth rate is accompanied by a directionally similar change in EBITDA margin
Forward exchange contracts	Forward pricing: The fair value is determined using quoted forward exchange rates at the reporting date and present value calculations based on high credit quality yield curves in the respective currencies.	Not applicable	Not applicable

ii. Level 3 fair values

Particulars	Year ended 31 March 2018	Year ended 31 March 2017

Gain included in OCI		
- Net change in fair value (unrealised)	454.56	206.49
Closing balance	103.52	(351.04)

Sensitivity analysis

For the fair values of FVOCI equity securities, reasonably possible changes at the reporting date to one of the significant unobservable inputs, holding other inputs constant, would have the following effects.

Particulars	Year ended 31 March 2018		Year ended 31 March 2017	
	OCI, net of tax		OCI, net of tax	
	Increase	Decrease	Increase	Decrease
EBITDA margin (50 bps movement)	152.59	(152.59)	237.99	(237.99)
Risk-adjusted discount rate (100 bps movement)	(392.76)	489.34	(395.07)	494.33

35 Financial instruments - Fair values and risk management (contd.)

C. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk (see C.ii);
- liquidity risk (see C.iii); and
- market risk (see C.iv)

i. Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors along with the top management are responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers; loans and investments.

The carrying amounts of financial assets represent the maximum credit risk exposure.

Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of the Company's trade receivables, certain loans and advances and other financial assets.

a. Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment.

Exposures to customers outstanding at the end of each reporting period are reviewed by the Company to determine incurred and expected credit losses. Given that the macro economic indicators affecting customers of the Company have not undergone any substantial change, the Company expects the historical trend of minimal credit losses to continue. Further, management believes that the unimpaired amounts that are past due by more than 90 days are still collectible in full except to the extent already provided, based on historical payment behavior and extensive analysis of customer credit risk. The impairment loss at the reporting dates related to several customers that have defaulted on their payments to the Company and are not expected to be able to pay their outstanding balances, mainly due to economic circumstances.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

C. Financial risk management (contd.)

The Company determines credit risk based on a variety of factors including but not limited to the age of the receivables, cash flow projections and available press information about customers. In order to calculate the loss allowance, loss rates are calculated using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency through write-off. Roll rates are calculated separately for exposures in different stages of delinquency primarily determined based on the time period for which they are past due.

More than 85% of the Company's customers are related parties who have been transacting with the Company for over five years, and none of these customers' balances have been credit-impaired in the past. In monitoring customer credit risk, customers are grouped according to their credit characteristics, and their geographic location and existence of previous financial difficulties.

The Company's exposure to credit risk for trade receivables by geographic region is as follows:

Particulars	As at 31 March 2018	As at 31 March 2017	As at 1 April 2016
United States of America	1,821.66	2,515.58	1,836.47

Movements in the allowance for impairment in respect of trade receivables and loans

The movement in the allowance for impairment in respect of trade receivables and loans is as follows:

Particulars	31 March 2018	31 March 2017
Balances at 1 April	1.47	0.99
Provision for the year	8.53	0.48
Balance at 31 March	10.00	1.47

b. Cash and bank balances (includes amounts classified under other bank balances and deposits and other receivable)

The Company holds cash and bank balances of INR 10,638.13 lakhs at 31 March 2018 (31 March 2017: INR 1,025.58 lakhs; 1 April 2016: 12,603.32 lakhs). The credit worthiness of such banks and financial institutions are evaluated by the management on an ongoing basis and is considered to be good.

c. Security deposits

This balance is primarily constituted by deposit given in relation to leasehold premises occupied by the Company for carrying out its operations. The Company does not expect any losses from non-performance by these counter-parties.

d. Advance to employees

This balance is primarily constituted by advances given to the employees. The Company does not expect any losses from non-performance by these counter-parties as the amounts are recoverable by salary deductions.

e. Receivable from forward exchange contracts used for hedging

This balance is primarily constituted by mark to market gains on forward contracts. The Company does not expect any losses from non-performance by these counter-parties as the amounts are due from a scheduled bank which is rated AA+, based on CRISIL ratings.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

unacceptable losses or risking damage to the Company's reputation. The Company uses activity-based costing to cost its products and services, which assists it in monitoring cash flow requirements and optimising its cash return on investments.

The Company aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of expected cash outflows on financial liabilities (excluding trade payables).

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include contractual interest payments and exclude the impact of netting agreements:

iv. Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates and interest rates will affect the Companies income or the value of holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters and optimising the return.

a. Currency risk

The summary quantitative data about the Company's exposure to currency risk (based on notional amounts) as reported to the management is as follows:

C. Financial risk management (contd.)

Sensitivity analysis

A reasonably possible strengthening (weakening) of the US dollar against INR at 31 March would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Particulars	Profit / (loss)		Equity, net of tax	
	Strengthening	Weakening	Strengthening	Weakening
31 March 2018				
USD (1% movement)	24.25	(24.25)	15.86	(15.86)
31 March 2017				
USD (1% movement)	10.65	(10.65)	6.96	(6.96)

b. Hedge accounting

The Company is exposed to transactional foreign currency risk to the extent that there is a mismatch between the currencies in which sales, purchases, receivables and borrowings are denominated.

"Company's risk management policy is to hedge using forward contracts. Hedge exposure is calculated based on highly probable forecast transactions received from each customer. Hedging Strategy on the net exposure is limited to the 75%, 50%, 25% rule as below:"

- 75% coverage of hedge exposure of current year
- 50% coverage of hedge exposure of next year
- 25% coverage of hedge exposure of third year

At 31 March 2018, the Company holds the following instruments to hedge exposures to changes in foreign currency:

Particulars	Maturity		
	1-6 months	6-12 months	More than one year
Foreign currency risk

43 Explanation of transition to Ind AS

As stated in Note 2, these are the Company's first financial statements prepared in accordance with Ind AS. For the year ended 31 March 2017, the Company had prepared its financial statements in accordance with Companies (Accounting Standards) Rules, 2006, notified under Section 133 of the Act and other relevant provisions of the Act ('previous GAAP').

The accounting policies set out in Note 3 have been applied in preparing these financial statements for the year ended 31 March 2018 including the comparative information for the year ended 31 March 2017 and the opening Ind AS balance sheet on the date of transition i.e. 1 April 2016.

In preparing its Ind AS balance sheet as at 1 April 2016 and in presenting the comparative information for the year ended 31 March 2017, the Company has adjusted amounts reported previously in financial statements prepared in accordance with previous GAAP. This note explains the principal adjustments made by the Company in restating its financial statements prepared in accordance with previous GAAP, and how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows.

Optional exemptions availed and mandatory exceptions

In preparing these financial statements, the Company has applied the below mentioned optional exemptions and mandatory exceptions.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

43 Explanation of transition to Ind AS (contd.)

A. Optional exemptions availed

a. Property plant and equipment and intangible assets

As per Ind AS 101 an entity may elect to:

- (i) measure an item of property, plant and equipment at the date of transition at its fair value and use that fair value as its deemed cost at that date
- (ii) use a previous GAAP revaluation of an item of property, plant and equipment at or before the date of transition as deemed cost at the date of the revaluation, provided the revaluation was, at the date of the revaluation, broadly comparable to:
 - fair value;
 - or cost or depreciated cost under Ind AS adjusted to reflect, for example, changes in a general or specific price index.

The elections under (i) and (ii) above are also available for intangible assets that meets the recognition criteria in Ind AS 38, Intangible Assets, (including reliable measurement of original cost); and criteria in Ind AS 38 for revaluation (including the existence of an active market).

- (iii) use carrying values of property, plant and equipment and intangible assets as on the date of transition to Ind AS (which are measured in accordance with previous GAAP and after making adjustments relating to decommissioning liabilities prescribed under Ind AS 101) if there has been no change in its functional currency on the date of transition.

As permitted by Ind AS 101 and as mentioned in (iii) above, the Company has elected to continue with the carrying values under previous GAAP for all the items of property, plant and equipment and intangible assets.

b. Designation of previously recognised financial instruments

Ind AS 101 permits an entity to designate particular equity investments (other than equity investments in subsidiaries, associates and joint arrangements) as at fair value through other comprehensive income (FVOCI) based on facts and circumstances at the date of transition to Ind AS (rather than at initial recognition). Other equity investments are classified at fair value through profit or loss (FVTPL).

The Company has opted to avail this exemption to designate certain equity investments as FVOCI on the date of transition.

B. Mandatory exceptions

a. Estimates

As per Ind AS 101, an entity's estimates in accordance with Ind AS at the date of transition to Ind AS at the end of the comparative period presented in the entity's first Ind AS financial statements, as the case may be, should be consistent with estimates made for the same date in accordance with the previous GAAP unless there is objective evidence that those estimates were in error. However, the estimates should be adjusted to reflect any differences in accounting policies.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

43 Explanation of transition to Ind AS (contd.)

As per Ind AS 101, where application of Ind AS requires an entity to make certain estimates that were not required under previous GAAP, those estimates should be made to reflect conditions that existed at the date of transition (for preparing opening Ind AS balance sheet) or at the end of the comparative period (for presenting comparative information as per Ind AS).

The Company's estimates under Ind AS are consistent with the above requirement. Key estimates considered in preparation of the financial statements that were not required under the previous GAAP are listed below:

- "- Fair valuation of financial instruments carried at FVTOCI
- Impairment of financial assets based on the expected credit loss model
- Determination of discount value for financial instruments carried at amortized cost"

b. Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as on the date of transition. Further, the standard permits measurement of financial assets accounted at amortized cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable.

Accordingly, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. Measurement of the financial assets accounted at amortized cost has been done retrospectively except where the same is impracticable.

c. Hedge accounting

Hedge accounting can only be applied prospectively from the transition date to transactions that satisfy the hedge accounting criteria in Ind AS 109, Financial Instruments, at the date of transition. Hedging relationships cannot be designated retrospectively, and the supporting documentation cannot be created retrospectively. As a result, only hedging relationships that satisfied the hedge accounting criteria as on the date of transition are reflected as hedges in the financial statements under Ind AS.

C. Reconciliations

The following reconciliations provides the effect of transition to Ind AS from previous GAAP in accordance with Ind AS 101 - First-time adoption of Ind AS

Sub-total [D]		333.18
Total Comprehensive income for the year [C + D]		7,864.93

Notes to reconciliation

a. Proposed dividend

Under previous GAAP(upto 31 March 2017), dividends proposed by the board of directors after the reporting date but before the approval of financial statements were considered to be adjusting event and accordingly recognised (along with related dividend distribution tax) as liabilities at the reporting date. Under Ind AS, dividends so proposed by the board are considered to be non-adjusting event. Accordingly, provision for proposed dividend and dividend distribution tax recognised under previous GAAP has been reversed.

Notes forming part of the financial statements for the year ended 31 March 2018

(All amounts are in Indian rupees in lakhs, except share data and as stated)

b. Measurement of financial liabilities

Under previous GAAP, transactions costs relating to borrowings were charged off to the statement of profit and loss as when those were paid. Under Ind AS, at initial recognition, an entity shall measure a financial liability at its fair value after adjusting the transaction costs that are directly attributable to the financial liability. Subsequently the financial liabilities would be measured at amortised cost using the effective interest rate (EIR) method.

c. Remeasurement of the defined benefit liability

Under Ind AS, remeasurement of the defined benefit liability/ (asset) are recognised in other comprehensive income. Under previous GAAP the Company recognised such remeasurements in profit or loss. However, this has no impact on the total comprehensive income and total equity as on 1 April 2016 or as on 31 March 2017.

d. Fair valuation of investments

In accordance with Ind AS, financial assets representing investment in equity shares of entities other than subsidiaries, associates and joint ventures as well as mutual funds have been fair valued. The Company has designated certain investments classified as fair value through profit or loss with certain others designated as at fair value through other comprehensive income as permitted by Ind AS 109. Under the previous GAAP, the application of the relevant accounting standard resulted in all these investments being carried at cost.

e. Hedge accounting

Under the previous GAAP, the Company had adopted the hedge accounting principles as provided in Accounting Standard 30, Financial Instruments: Recognition and Measurement, issued by the Institute of Chartered Accountants of India, and accordingly, the cost relating to hedging was expensed in the profit or loss to the extent considered ineffective. The effective portion of the cost of hedging was taken to hedge reserves directly. Under Ind AS 109, costs relating to hedging are accounted as a part of the other comprehensive income to the extent considered as effective and are aligned to the hedging strategy.

f. Income-tax

Represents (decrease) / increase of deferred tax liability with respect to the above and adjustments for earlier years.

44. There are no subsequent events that have occurred after the reporting period till the date of approval of these financial statements.
