Q3 & 9M FY22

Consolidated Performance for Q3FY22

- Due to National Capital Region air pollution issues Commission of Air Quality Management (CAQM), ordered closure of manufacturing units in the region. Due to this our Behror plant was temporarily closed for few days in December 2021
- The primary reason for this was the air pollution issue in Delhi-NCR region due to which industries operating in the region were asked to shut temporarily
- As per the order, the plant was closed from December 10 - 16 and operated for the remaining days in December & January with restricted hours. W.e.f. Feb 04, 2022, the CAQM has allowed the plant to run on all 7 days without any restrictions
- These disruptions impacted sales and margin and resulted in elevated inventory levels
- Freight costs both inwards and outwards have stabilized and are rangebound
- The raw material prices have seen significant cost pressures during the year. Raw material costs are now stable and range bound
